THE MISSISSIPPI FULL OF DEAD ANIMALS DROWNED IN RAPIDLY RISING FLOOD

Waters Came Up So Suddenly That Livestock Perished.

One Farmer Drowned and Seven Missing Near Alexandria.

Property Loss Will Already Reach Million Dollar Mark.

Hannibal, Mo., June 12.—The flooded Mississippi river has spread over all the unprotected lowlands, and is from five to eight miles wide between here and Keokuk. Near Alexandria, Mo., a farmer, named Riley Smallwood, was drowned and seven other persons are reported missing. Great numbers of dead animals are floating past Hannibal, and from Alexandria, Canton, Memphis, West Quincy and Keokuk reports have been received of the general loss of live stock. The flood came so suddenly that the farmers in the lowlands had no time to do more than save their families, and live stock was left to perish. The river continues to rise here at the rate of three inches an hour. An army of men is at work in the lower portions of Hannibal, endeavoring to save property. The railroad yards and factory districts are inundated.

All available boats are making trips up and down the river rescuing persons who escaped to points above the water line. Many of the small levees have broken, but the Smy levee, which extends along the east side of the river for five miles, still holds, although gangs of men have been constantly employed repairing fissures. The property loss already suffered, it is estimated, will reach the million mark.

PEACE WILL BE FULLY PRESERVED

Mayor Dunne Tells Visiting Team Owners They Are Safe.

Chicago, June 12.—The third annual convention of the Team Owners of America began here today. Mayor Edward F. Dunne gave the address of welcome. Referring to the teamsters' strike he said:

"No doubt a great many of you gentlemen have read that the streets of our city are running with blood and that riot and turmoil are in complete control. Let me assure you, however, that your lives and property are perfectly safe. In the streets you may see a wagon with a sign on it or a policeman riding on the seat, but that is not a sign of rioting or trouble, they are are there to insure peace and to protect property which has a perfect right on the streets, and, gentlemen, let me assure you that as long as I am mayor of Chicago peace will be preserved to the very last limit of our resources, and when those fail we will call upon powers within our limits but at the present time there is no necessity to call upon those powers."

Hearing reports of various committees occupied much time of today's session.

Chicago, June 12.—The teamsters' strike probably will be discussed at the third annual convention of team owners of the United States which opened here today. More than 100 delegates, representing associations of employers in New York, Boston, Minneapolis, St. Louis, Des Moines, Grand Rapids and Philadelphia, have arrived to participate in the sessions.

With the possibility of the extension of the strike out of the way, for the present at least, there was nothing in sight today to warrant the belief in any change in the situation. No peace negotiations were in prospect and it looked as though the strike would be allowed to drag along.

No new moves of importance were contemplated by either strikers or employers.

Members of the June grand jury, which convened today, were prepared by State's Attorney Healy and Assistant State's Attorney Fake to listen to a sensational expose concerning the actions of several labor leaders. It is reported that the investigators working under the direction of Mr. Fake and a police inspector have gathered evidence of blackmailing plots against business houses, evidence of efforts to curb competition and of alleged damaging admissions made by the labor leaders.

NEW TRAIN MAKES 127 MILES AN HOUR

Pennsylvania Flyer Beats All World's Records For Time.

Fort Wayne, Ind., June 12.—The west bound Pennsylvania flyer passed through here today seventeen minutes late, but the train was running on schedule time at Plymouth. The 131 miles from Crestline, O., to Ft. Wayne were run in 115 minutes. The fastest time was made near Ada, O., where three miles were covered in 85 seconds or at a rate of a mile in 28 1-3 seconds, breaking all the world's records. This is at the rate of 127.3 miles an hour.

Chicago, June 12.—On its initial run from New York, the Pennsylvania railroad's 18-hour "flyer," the fastest long distance train in the world, arrived in this city at 8:52 o'clock this morning, three minutes ahead of schedule time. In order to accomplish this feat, extraordinary achievements in the way of fast running were necessary. After leaving Pittsburg, the tender of the big Atlantic type engine which had been attached at that city for the run to Crestline, Ohio, developed a hot box about twenty miles east of Mansfield, Ohio. The engineer stopped his train and fifteen minutes were lost in futile effort to cool the troublesome axle. Finally, a freight engine was attached and the train limped into Crestline. Here the regular engine was in waiting, and when the "flyer" left that latter place it was twenty-six minutes late. The run to Fort Wayne, 131 miles away, was made in 114½ minutes, an average of 68 6-10 miles an hour. When the train pulled out of Fort Wayne for the last lap of the long journey it was only 9½ minutes late, 16½ minutes of the lost time having been made up. Miles we frequently reeled off in from 44 to 50 seconds and an average speed of a mile a minute was easily maintained over long stretches of track.

President Underwood, of the Erie road, was a passenger. He explained that there was no especial significance attached to his making the trip to Chicago on the first run of the new train. He said he had an engagement here at 9 o'clock this morning and he took advantage of the facilities offered by the Pennsylvania to keep his appointment. He spoke in high praise of the train and its appointments and complimented the train crew for their splendid work.

Already the Pensylvania railroad officials are discussing the possibility of reducing the running time between Chicago and New York to sixteen hours and it is not improbable that such a schedule may be attempted in the near future.

New York, June 12.—The fast bound train of the Pennsylvania new 18-hour service, between New York and Chicago arrived in Jersey City at 9:22 a. m. today, three minutes ahead of schedule time.

The running time of the train from Chicago to Jersey City was seventeen hours and thirty-seven minutes. The engineer of the train said, on arriving, that a short distance east of Hobart, Ind., the train covered a mile in thirty-five seconds.

FORTS "SINK" SHIPS IN MIMIC SEA BATTLE

Admiral Dickins Makes an Early Assault on Fort Howard.

Torpedo Boat Destroyers Attack First, Followed By Battleships.

Land Forces Are Thus Far Winner In the Maneuvers.

Baltimore, June 12.—In an extra edition the American gives the following account of the attack on Fort Howard:

Admiral Dickins did the unexpected thing by making an early morning attack on Fort Howard and the other local fortifications and three torpedo boat destroyers were theoretically blown out of the water by the artillerymen stationed at Fort Howard. Two of these answered the descriptions of the Worden and Whipple, while the third was either the McDonough, Stuart or Lawrence.

Promptly at midnight scout boats were sent out from the local fortifications. At 12:50 o'clock these boats signalled the artillerymen at Fort Howard that the enemy was approaching and all the men at the fort were immediately called to the guns.

Almost simultaneously the men were warned of the aproach of the boats by the signals at Sandy Point. The searchlights at Forts Howard, Smallwood, Armistead and Carroll were headed down the river, and very soon a destroyer resembling the Worden was detected steaming up the river at full speed. Five minutes after receiving the first signals the men at Fort Howard opened fire on the approaching destroyer with rapid fire and short range guns. While the Worden was theoretically blown up she proceeded past Fort Howard and on up the river the other forts immediately got their guns into action and all took turns in shooting at the approaching enemy.

About fifteen minutes after the approach of the first of the enemy's fleet another destroyer, evidently the Whipple, was discovered. This vessel suffered the same fate as the first. The third destroyer made its appearance and like the other two was "sunk."

The first boats endeavored to sneak by the forts without making any demonstration, but the one in the lead was soon put out of commission by striking a mine. This was signified by the ringing of a bell in Fort Howard.

The third boat, though put out of business, opened fire on all four of the forts and the sight was a most interesting and exciting one. Broadsides were fired by the third destroyer when it reaches a point between Forts Armistead and Carroll. No lights were used on any of the boats and the fire from the guns made an imposing sight.

It is believed that the destroyers were sent on ahead of the rest of the fleet to get the range of the forts, draw the fire and ascertain whether the men were at their guns.

Later, a fourth destroyer was discovered and "sunk." Then the battleship Texas made a frontal demonstration, and from seven foot knoll, fired her big and little guns at Fort Howard. While the Texas was making this demonstration, a swift cruiser made a flank movement and went up the bay toward Toole's island. It was discovered in the nick of time by the men at Fort Howard, who fired on the ship. The fire was returned, and after a lively skirmish the gunners at the fort theoretically sent both the Texas and the cruiser to the bottom.

After the battle the cruiser sent up a rocket and then ran up a red and white light and directed her searchlights toward the forts.

SCENE OF MIMIC BATTLE NOW IN PROGRESS.

NEW YORK SUBWAY OUT OF COMMISSION

Flood From Broken Water Main Practically Ties Up Traffic.

New York, June 12.—Underground traffic in New York was practically at a standstill today. For more than a mile in the center of the main line of the tube, which connects down town New York with Harlem and the Bronx, the tracks were covered to a depth of several feet with the water which poured down in a flood when a big main broke at Park avenue yesterday. All night long steam pumps worked to overcome the tide, but even after the main was closed it was estimated that many hours would be required to free the tunnel of water. The most serious trouble was experienced between Fourteenth street and Forty-second avenue, where the tracks are depressed from five to six feet. This level was filled, and up to noon had not been cleared sufficiently to permit an observation train to go through. It is possible that extensive repairs may have to be made before regular service in that section can be resumed, as the water may have weakened the walls and caused other damage. Both above and below the seriously affected section shuttle trains were operated today, but they were only scantily patronized. The majority of travelers want through connections, and with the subway blocked, they naturally turned to the elevated and surface lines. As a result there were scenes such as have not been witnessed since the strike of subway and elevated employes, several months ago. Every train on the elevated lines carried extra cars, and every train was filled to its capacity. The surface cars, too, were taxed as they have not been in months. The subway officials were unable to say whether through traffic on the underground road would be restored by the time the uptown rush begins this afternoon.

New York, June 12.—Train service in the subway was suspended throughout the night as a result of the flood from a 48-inch water main, Sunday afternoon. The flow of water continued uninterrupted four and one-half hours, while subalterns of the city water department wandered about in the vicinity of Park avenue and Forty-first street turning off one gate after another in a futile search for the proper shut off to stop the destructive flood. Officials of the subway frantically telephoned in all directions, but say they failed to find any one in authority with the requisite knowledge of the mains. The damage was finally checked through information furnished by a private citizen, employed by a contracting firm. It is estimated that the loss to the subway alone will be $100,000.

Persons who were caught in the trains near the flood, when the power failed, had a terrifying experience. All the lights were suddenly extinguished, following a series of loud explosions. Persons who filled the cars were thrown into a panic of dread, the tunnel suddenly became dark. There was a rush for doors when water began to spray through the open windows, but the guards held their ground and closed the windows.

GIRL SUICIDES AT TACOMA

Miss Coila Ray Belloir, Born In Duluth, Shoots Herself.

Tacoma, Wash., June 12.—(Special to The Herald.)—Miss Coila Ray Belloir, aged 21, who committed suicide by shooting herself in the breast, was born in Duluth and has been in Tacoma seventeen years. The suicide took place at the home of her mother, Mrs. George Belloir. The cause is a mystery. She refused to tell why she shot herself, although conscious a long time after the shooting.

A CLERKSHIP

Will Probably Be Given Former Banker Bigelow.

Fort Leavenworth, Kan., June 12.—Frank G. Bigelow, the former Milwaukee banker, began the serving of his ten years sentence in earnest today at the federal prison here.

After a fairly good rest last night, he ate sparingly of the meagre breakfast furnished all prisoners. Later, his hair was cut and a prison suit given him. He was photographed, measured by the Bertillon system, and then examined by a physician. At the warden's office it was stated that Bigelow's work would not be assigned him until the physician had made a report on his condition; but that he probably would be given a clerical position in the executive department. Bigelow submitted without a murmur to all that was required of him.

RECEIVED BY POPE.

Rome, June 12.—The pope today received in private audience the Most Rev. Bertram Orth, archbishop of Vancouver, who presented the report of his diocese. The pontiff showed great interest in the progress of British Columbia.

All Rumors of a Hitch In Proceedings Are Set at Rest.

Cassini Calls on the President With Czar's Message.

A Place For Meeting Is at Present Under Discussion.

Washington, June 12.—Count Cassini, the Russian ambassador, had a half hour's conference with the president today. At its conclusion Count Cassini returned at once to his embassy, declining to discuss in any way the object of his visit. That the conference related to the reply of the Russian government to the proposition by President Roosevelt last Friday, is known, but whether Count Cassini presented to the president formally the response of Russia could not be learned. It can be said, however, that the reply of the Russian government already had been received by the president before his interview with Count Cassini.

Later, it became known officially that Ambassador Cassini called to express the Russian government's consent to the president's proposition, and to state that Russia would appoint plenipotentiaries to meet the plenipotentiaries of Japan to discuss the question of peace. The place of meeting at present is being discussed.

St. Petersburg, June 12, 4:30 p. m.—Russia's official reply is now on its way to Washington. Foreign Minister Lamsdorff transmitted it to Ambassador Meyer, and later the ambassador had an interview with the foreign minister at the foreign office.

All the attempts to create an impression that there is the slightest hitch in the preliminary negotiations are absolutely without the shadow of foundation. Foreign Minister Lamsdorff has formally notified several of the continental powers that a meeting of plenipotentiaries, to see whether it is possible to agree to terms of peace, is assured. Now that Russia has received formal notification that Japan has sent an official and favorable reply to President Roosevelt, the Russian official reply will be forwarded, and the Associated Press feels it is in a position to state positively that the reply will fully respond to the president's message. There does not seem to be the slightest warrant for the gratuitious idea some correspondents are putting out that Russia is only desirous of ascertaining the Japanese conditions, and at the same time gain a better position for her army in Manchuria.

The warring countries both having formally agreed to try to conclude peace, the next step it is explained here will be the first direct exchange in which Japan is expected to take the initiative by indicating doubtless through an intermediary at Washington her views as to the time and place of the meeting. Russia will offer no objections to any reasonable suggestion in this respect being prepared to at once issue instructions to her plenipotentiary plenipotentiaries whose personality for the present depends upon the place Japan names. The statement is now made that M. Witte is going to Berlin to meet Prince Arisugawa, who represented the Japanese government at the wedding of Crown Prince Frederick William, but no confirmation of this could be obtained. In the public mind M. Witte stands out prominently as the one Russian statesman who should direct the peace negotiations. But an intimate friend of the Russian statesman assures the Associated Press that he knows M. Witte has not been approached on the subject. Undoubtedly court influence would be solid against his selection. M. Witte is thoroughly familiar with the Far Eastern question.

RUSSIA IS ASIATIC.

Must Remain a Power In the Far East.

St. Petersburg, June 12, 12:25 p. m.—M. Witte, president of the committee of ministers, is leaving St. Petersburg for abroad in two weeks. This very significant announcement is coupled with the statement that he is going "on public business." His visit was instantly associated with the peace negotiations, and it is possible that Emperor Nicholas has decided, if a reasonable basis for negotiations is offered by Japan, to make use of the services of the ablest and strongest personality in the empire.

It being Monday, the papers print only telegrams today, but the Novoe Vreyma makes room for a remarkable editorial, which may be inspired, depreciating optimism among the diplomatists at the present movement, "unless Japan, under the slogan of 'Asia for the Asiatics,' should recognize that Russia in her origin, history and destiny, is an Asiatic as well as a European power, and be ready to conclude not peace but an alliance." The Novoe Vremya adds that it has always "preached the doctrine that Russia is the bulwark of Europe against the yellow peril." The editorial attracted instant attention. The paper dwells on the idea that Russia, barred from the West, and following inexorable laws, must spread Eastward to reach her natural boundary and warm waters, refers to the East of her conquests on her right flank over the tribes of Turkestan and Central Asia, and concludes:

"If Japan can only recognize that Russia must remain an Asiatic power as well as herself, a durable and permanent peace is possible."

The reformers breathed a sigh of re-

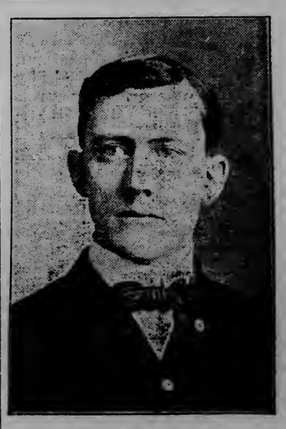
(Continued on page 11, fifth column.)

STATE FEDERATION OF LABOR IS OPENED

Annual Convention Starts at Brainerd With Big Attendance.

Report of Secretary-Treasurer McEwen Makes Good Showing.

Brainerd, Minn., June 12.—(Special to The Herald.)—The twenty-third annual convention of the Minnesota State Federation of Labor was called to order this morning in the opera house by President F. G. Hall of the local trades and labor assembly. An address of welcome was made by Mayor O'Brien, and while the credentials committee was getting its report ready, addresses were made by Labor Commissioner W. H. Williams, National Organizer Murray of the Carpenters' union, A. G. Bainbridge of Minneapolis, T. J. Thomas of St. Paul, Secretary-Treasurer W. E. McEwen of Duluth, C. E. James of St. Paul and Thomas VanLear of Minneapolis. Vice-President Morrison of Mankato was called to preside over the convention. There is a large attendance of delegates from the various affiliated unions, the Duluth delegation numbering about 100. This large representation from the Duluth unions is due to an expected fight upon W. E. McEwen of Duluth, the secretary-treasurer, by Twin City men antagonistic to his re-election. It is understood their plan is to pass a constitutional amendment providing for a new apportionment of the funds of the federation, which would result in the salary of the secretary-treasurer being reduced to a small amount, necessitating Mr. McEwen's resignation. The Duluth delegation will be a unit in opposing this move, and it is expected that with Mr. McEwen's friends in other delegations, they will be strong enough to kill the scheme. It is said that A. E. Kellington, president of the Flour and Cereal Mill Employes union of Minneapolis, aspires to succeed Mr. McEwen. Max Conrad of the Cigarmakers' union of Minneapolis, is also a candidate for secretary-treasurer. Among those in the race for president of the federation



W. E. McEWEN,
Secretary-Treasurer of State Federation of Labor.

(Continued on page 7, third column.)

CHANGE OF TACTICS

Mayor Cullum Advocates Abandonment of the Compromise Policy.

Requests Council to Proceed Vigorously Against Street Railway.

Urging an abandonment of the compromise policy in favor of one of active aggression, Mayor Cullum will this evening send a communication to the council regarding the street railway service.

In the letter the mayor calls attention to the fact that up to the present time the city has adopted a compromise policy with the street railway company, offering to make certain concessions on condition that the company would grant certain desired improvements in the service.

He asserts that this policy has proved very unsatisfactory, and urges the council to direct the city attorney to commence suit against the company to enforce the exact provisions of the franchise under which the company is operating, and learn if possible just where the city stands in regard to its street railway service.

In closing, the mayor states that if the city cannot enforce its demands on the street railway company, it should know it, so that some steps should be taken toward dealing with another company.

No action is likely to be taken on the letter by the council this evening, beyond referring it to one of the committees for a report.

The council will probably want to hear from Mr. Lowry before taking any definite action. Mr. Lowry's reply to the demands made at a mass meeting of the citizens held two weeks ago in the city hall, is due Wednesday, according to word received through Manager Warren. Mr. Lowry stated at the meeting that he would not make any extensions this year, but said he would give his answer in regard to the Woodland service and some other minor questions in time for the council meeting to be held this evening. Last Friday the city attorney received word in a roundabout manner that the answer would be delayed a few days on account of Mr. Lowry's absence in the East.

It is just possible that the mayor's communication to the council this evening will have some effect in changing the reply of Mr. Lowry, and the council will probably be inclined to wait for it before taking action on the mayor's communication.

BOMBS FOUND ON SCHOOL PREMISES.

Pittsburg, June 12.—Two bombs were found today on the premises of the Springfield public school, in this city, by Lewis Baker, the janitor. Both were made of zinc, and in the interior were the usual gun cotton, tube and powder.

No reason can be given for the selection of the school as the object of any attempted outrage. There are a number of Russian families in the vicinity of the school, many of whom, it is said, are, so far as Russia is concerned, intensely anarchistic.

In view of this the police are conducting their investigation amongst the foreigners.

STREET CARS RUNNING WITH POLICE PROTECTION.

Saginaw, Mich., June 12.—Street cars are being run today, both in this city and Bay City, under police protection. There was no resumption of violence during the morning in either city. Tonight the company will, for the first time since the strike began, run cars after nightfall.

WALKS ACROSS THE BRIDGE

Foolhard Feat of Drunken Painter to Win Wager.

After winning a $25 bet by climbing to the top of the aerial bridge, and shouting and waving his hat to the crowd below, from the top chord of the bridge 190 feet above the canal, Peter Gordon, a painter 38 years of age, was compelled to pay out $15 of the money to the municipal court fund.

Gordon is claimed by the spectators to have been partly under the influence of liquor, and just drunk enough to be "feeling good."

Just at the time that the largest crowds were crossing the canal yesterday about 4 o'clock, Gordon grasped the ladder on one of the towers, and went up hand over hand to the top. From there he mounted to the top of the chord, and while several hundred people watched him, expecting every moment to see him dashed to his death, walked out along the chord and across the canal, returning by the way he had mounted.

When he reached the ground he was arrested on the charge of being drunk and disorderly. After being taken to the station he was released on $15 bail. He failed to appear in court this morning, and the bail was declared forfeited.

Judge Windom vigorously condemned such foolhardy conduct in court this morning, and said if opportunity offered it would be severely punished in future.

BANK'S BOOKKEEPER Has Some Very Peculiar Actions to Explain.

Paris, Ill., June 12.—The investigation into the dynamiting of the Edgar county bank will begin tomorrow. The members of the hardware firm occupying the store under the lodgings of the bank's bookkeeper, W. J. Juntjen, have admitted that he borrowed from them a book of instructions as to the use of dynamite, also that the elevator to which Juntjen had access from his apartments was used the following night. Policeman Bates also admits that he saw Juntjen on the public square at 2:30 a. m. on the morning of the explosion. The bookkeeper persists that he was not out of his room after 10 o'clock p. m. President J. E. Parish of the wrecked bank was asked today if Juntjen had resigned, and replied: "I suppose so; it would be impossible to take him back."

Juntjen said he had not resigned, and did not intend to do so.

RIVER IS FALLING SLOWLY AT KEOKUK.

Keokuk, Iowa, June 12.—After reaching the 18-foot stage the Mississippi river here is now falling. The Des Moines river is also falling after reaching the highest mark ever known here breaking the levees in three places and flooding the town of Alexandria, Mo. Other levees on the Missouri and Illinois sides are now out of danger. The river is ten miles wide, extending from Warsaw, Ill., to the bluffs of the Missouri river. Hundreds of acres of growing crops are inundated.

MOUNT PELEE ACTIVE.

Port De France, Island of Martinique, June 12.—For the past few days Mount Pelee has manifested a recrudescence of activity, which while stronger than that of the month of April of the present year, does not seem to be of an alarming character.

MARRIAGES NOT NUMEROUS

June Not Maintaining Reputation as Month For Weddings.

June is not maintaining its reputation as a month of weddings so far in St. Louis county, according to the number of licenses that have been issued from the office of the clerk of the district court. There have been only a few above the twenty mark sealed and delivered from the building on the hill this month, and quite a number of young people will have to trot up in that direction yet, before June, 905, will go down in history as up to the standard in the promotion of matrimony.

Last month more than fifty marriage licenses were issued, from which it will be seen that the average for this month thus far will have to increase some before it will be much above that.

The clerks at the court have noticed that young people do not take out permits to enter the matrimonial state, when the weather is disagreeable. This is not a general condition. There are some people who will procure the necessary piece of paper and go ahead with the ceremony whether it rains or shines. Such an insignificant thing as the weather has no effect on their spirits, for as soon as they have decided to trot double they are anxious to get into the harness as soon as possible.

Three couples were granted their first papers this morning, which caused Deputy Clerk Dash to assume a cheery countenance. This is rush business in that department of activity in the clerk's office, in comparison with the manner the couples have been coming in this month.

"Unless the business shows a decided improvement soon I am afraid we will have to give a bargain sale," remarked Mr. Dash, after he had sent one couple away, and was unfolding a bill. "June is a month of marriages they say, but this June is pretty slow so far."

FARMERS' PACKING COMPANY.

Sterling, Ill., June 12.—The Farmers' Packing company has been organized here with a capital of $1,500,000, the intention being to compete with the Chicago packing industry.

BURGLARS ROB LIBRARY.

Janesville, Wis., June 12.—Burglars last night broke into the Carnegie library, a hundred yards from the jail. The marauders ransacked the whole building, securing some money.

GETS MILITIA APPOINTMENT

Thomas L. Chisholm Is Named For Battalion Adjutant.

Major H. V. Eva has just announced the appointment of Thomas L. Chisholm of this city, as battalion adjutant, vice C. C. Salter, resigned. The appointment takes immediate effect and the position will carry with it rank as first lieutenant.

Mr. Chisholm was formerly a well-known member of the local militia, having been in the service for seven years and for some time holding the position of sergeant of Company C.

Lieutenant Salter has been in the state militia service for the past 11 or 12 years and has been battalion adjutant for the past three or four years.

SMALLPOX SCARE CLOSES GRAND RAPIDS SCHOOLS.

Grand Rapids, Mich., June 12.—By order of the board of health, at a special meeting today, all schools and churches have been closed on account of the alarming spread of smallpox, which has taken on the nature of a dangerous epidemic. Figures given out by the board of health show there are seventy-five cases now in the city. Of these forty-four were reported the last three days of last week, while seven cases were reported Sunday.

GREAT WESTERN TO MAKE IMPROVEMENTS.

St. Paul, June 12.—(Special to The Herald.)—Extensive improvements by the Chicago-Great Western road are foreshadowed in the announcement that stockholders will vote next September upon a proposition to increase the preferred B stock by $14,000,000. The object of the increase is not made known.

J. M. GIDDING & CO. $7.50 LADIES' DRESS SUIT CASES, $5.00. J. M. GIDDING & CO.

The Sale Started Afresh Today

Preparatory to taking over the new addition to our present store

The values even eclipse any of our previous offerings as we are determined to reduce stocks to their lowest point before breaking through the walls of our annex store. Sixteen days all told, remain in which to accomplish the cleaning up of the various departments—and it behooves every economical woman who cares for style and quality to come to this store—if only to post herself on values we are now placing before them.

FIRST ON THE LIST ARE TAILORED SUITS. We have added to the selling from our finest and handsomest garments that have sold at a third off, since the sale started, and included many of them in the sale at exactly Half Off. This includes our finest Costumes and Dresses of silk and voile and now you can take your pick—$100.00 Costumes, demi-Costumes and Dresses, $50.00. $75.00 ones at $37.50. $60.00 ones at $30.00. $50.00 ones at $25.00. $40.00 ones at $20.00. $30.00 ones at $15.00.

AND FOR THOSE THAT WANT A RUNABOUT CLOTH SUIT AT A VERY LITTLE PRICE we have placed on our floor two racks of suits—about seventy all told—that are divided into two lots—odds and ends from the sale.

Lot 1—Includes $52.50, $45.00, $40 and $37.50 Suits at **$18.50**

Lot 2—Includes $25.00, $29.50 and $32.50 Suits only **$13.50**

Our Handsomest Long Tight-fitting Coats Now in the Sale.

Tan Coverts, finely tailored and strapped; lined with taffeta or men's silk serge; also in black Broadcloth—$42.50 ones $29.50; $37.50 ones $19.50.

Those that are yoke silk-lined—full length or three-quarter length; $32.50 ones $21.50; $29.50 ones $18.50.

"Piccadilly" and Swagger Coats also go into the sale tomorrow — at reductions of a fourth and a third off.

Taffeta Silk Coats Join the Sale.

Reductions are a fourth, a third and a half — included are Redingote models, blouse styles, Frocks and Frills and novelty effects — mostly black, some blues, tans and grays.

Our Finest Raincoats in the Sale!

$27.50 to $35.00 Rain Coats—$18.50 and $22.50. Tans, olives, oxfords, grays, etc., in novelty styles exclusive with us.

$25.00 Rain-Shine Coats — $15. Redingote or pleated models, handsomely trimmed and tailored.

$18.50 Rain-Shine Coats — $11.50. Gray, tan and olive; several styles.

Fine Muslin Underwear in the Sale--Out They Go.

Several beautiful lines of Corset Covers, made to sell at 75c and $1.00—possibly forty styles all told—go on sale at 50c—all sizes, 32 to 44.

Corset Covers made to sell at 50c—on sale at 25c.

Made to sell at $1.25 and $1.50—at 75c.

Several lines of Night Gowns—made to sell from 75c to $1.00. These will go on sale at 50c each.

Lines that were made to sell at $1.75 and $1.50 each—at $1.00.

Those that were made to sell at $3.00 and $2.50—$1.50 each.

White Petticoats made to sell at $1.50 to $2.00—at $1.00.

Those that were made to sell at $3.50 to $5.00—at $2.00 and $3.00.

In Chemise and Drawers we offer the same startling values.

And in the very high-grade French hand-made and domestic garments, or in bridal sets, the same proportionate reductions prevail.

Beautiful Dresses and Other Wearables for June Brides--Graduating or Commencem't.

CITY BRIEFS

Embossing. North-Land Printery.

Independent ferry to Superior, 5c.

Lizzie Richards of Houghton, Mich., was arraigned in the municipal court this morning on the charge of adultery. Her hearing was set for Jan. 19, and her bail fixed at $350. In the meanwhile it is likely that requisition papers will be secured for her return to Michigan.

Contractor P. McDonnell received word this morning that he was third among ten bidders for a large government contract near Los Angeles, which will cost approximately $1,000,000. On a former call for bids on the same work, Mr. McDonnell was second. The contract went to a large New Yrk firm.

The attorneys in the case of Astry Steier against Thomas Nusbaum, filed a notice in the district court this morning that the suit had been settled, and sought for a dismissal of the action. The plaintiff brought suit for the recovery of $1,041.98, of which $476.88 was claimed on a loan, the remainder being due for rent on a store building at 702 West Superior street.

Attorneys for the Great Northern Power company on Saturday, submitted preliminary proof before Judge Ensign in the district court to pave the way for condemnation proceedings to secure 220 acres of land near Thomson, in case the owners of the property should not show any disposition of selling the land at market value. The land is in section 7-51-14, and is needed for the construction of a reservoir, canal and pipe lines. The owners of the desired property are Carl Faelton, Frank W. Morse, Carl Stansy and Frank W. Hale of Boston.

Phil Bevis and John A. Goodell, the Y. M. C. A. secretaries, who visited the International convention at Niagara Falls, told of the trip yesterday at the regular afternoon men's meeting held in the association rooms, and gave a very interesting account of the work which is being conducted by the association as shown in the reports made to the convention.

You can get almost any tool for lawns, hedges and gardens at the Northern Hardware Co's.

Tsueno Takahashi, the world-renowned Japanese needlework artist, is attracting great crowds at Silberstein & Bondy Co's. Lecture, instruction, and the exhibition are free to all.

The exhibition of fine Oriental rugs intended for the Lewis and Clark exposition at Portland, now at Silberstein & Bondy Co.'s is the most beautiful ever seen in this city.

Some evening this week the new directors of the Commercial club will entertain the outgoing directors at a dinner in the club rooms. The customary practice has been to hold such dinners immediately following the elections, but this year many of those who wished to participate were called out of the city on business and the affair was postponed.

The funeral of Charles Dworschak, son of Henry Dworschak, which took place yesterday from the family residence on East Sixth street, was largely attended. The services were conducted by Rev. S. C. Davis and the floral offerings were many.

No less than thirty-four prisoners were arraigned in the municipal court this morning on various charges. This is an exceptionally large number even for a Monday morning, and probably breaks the record for several months past.

Touzer & Son of Pequot, Crow Wing county, have filed a voluntary bankruptcy petition in United States court. The firm's liabilities amount to $1,600.41 and the assets to $1,197.95. The individual liabilities of Frederick A. Touzer amount to $4,877.30 and his assets to $3,213. Willard P. Touzer, the other member of the firm, has no individual liabilities and only $70 assets.

A mandate dismissing the case of the United States against Bates & McDonald was received in United States circuit court from the United States court of appeals today. The United States had obtained a judgment for $3,420 for timber trespass on government land and the defendants settled at $3,000 and costs, thus saving $240. The trespass was on land back of Grand Marais.

PERSONALS

D. J. Caven, traveling auditor of the South Shore road, is in the city today.

A. D. Lamble of Carlton was in the city today en route for New York.

F. W. Parsons and B. W. How left yesterday over the Northern Pacific for California points.

Mrs. E. Watterworth and daughter have gone to Milwaukee for a visit.

F. A. Fourshe left today for Couer d'Alene.

Mr. and Mrs. H. M. McCord of La Crosse, are visiting in the city.

H. F. Kendall of Hibbing is here on business, registered at the Spalding.

W. H. Yiebish of Ashland, Wis., is visiting in Duluth.

F. P. Botsford of McKinley, Minn., is in Duluth today on business.

A. G. Smith of Hibbing, is the city today, registered at the Lenox.

Mrs. J. H. Darling, 532 West Third street, will leave tomorrow for points in Southern Michigan on an extended visit.

J. V. Mitchell, who has been a favorite singer at the Bijou, left last evening for Winnipeg to visit for two or three weeks.

Mr. and Mrs. G. W. Orchard have gone to the Twin Cities to attend the I. O. O. F. grand lodge convention.

M. M. Hubbert, William Hall, H. N. Helle and William Beyers returned this morning from a day's fishing at Cass Lake. They brought home nearly a barrel full of pike and bass.

SOLDIER'S SCRIP.

Ruling on Affidavit Ordered Aug. 30, 1890.

The local land office has received from the general land office a letter to the effect that where soldiers' additional scrip is filed, along with it must be filed an affidavit to the effect that the person filing the scrip will not possess more than 320 acres if his scrip application is allowed. This affidavit was made necessary in an order issued August 30, 1890. This is the first time the affidavit was ruled as applicable to soldier's additional scrip.

It will affect a good many cases but, it is claimed, the ruling can easily be avoided by transferring to others.

The Burrows Store Is Closed

preparatory to the transfer of all his equity in the same by Mr. M. S. Burrows to the Columbia Clothing Co.

Just as soon as possible the store will be re-opened under the new management of the

Columbia Clothing Co

DROWNED IN THE HARBOR

Boy Falls From Log Boom Near the Drawbridge.

While playing with some companions on a small log boom anchored near the Northern Pacific draw bridge, Henry Kryspin, the son of Mr. and Mrs. William Kryspin, of 1108 Lincoln avenue, was drowned last evening, about 5 o'clock, in water scarcely five feet deep.

Nick Beaudreau, the watchman at the bridge, saw the children playing on the boom. While he was watching them, Henry walked out on a slippery log, stooped over and fell into the water. Mr. Beaudreau attempted to save the child, but the bridge was open for the passage of a boat at the time, and the wave in the wake of the vessel threw the boom over some distance from where the child fell. It was nearly fifteen minutes before Mr. Beaudreau was able to reach the body.

The little fellow had been playing with his brothers, aged 3 and 4 years, but a few minutes before. His father states that he had repeatedly cautioned all three children against playing near the water, and that it was the first time Henry was known to have disobeyed him in this respect.

Coroner McCuen, after hearing the story of the eye-witnesses, decided that no inquest would be necessary.

STARTS FOR NAVY YARDS

Naval Reserve Starts One Machinist For Steamer Fern.

Leonard McNamara, a chief machinist, has left for Norfolk navy yards where he will join the training ship which is to be turned over to the Minnesota Naval reserve at this point. The boat will be met at Ogdensburg, N. Y., by Robert E. Patterson, also a chief machinist, N. F. Hugo, chief engineer, Benjamin Howard, navigator, and Commander Guy A. Eton. At that point the crew that takes the boat around the Atlantic coast from the yards and down the St. Lawrence river, will be released to return to Norfolk.

As many of the members of the local naval reserve as may be able to get away will join the boat at the Soo and about a week will be spent cruising about Lake Superior.

Commander Eaton will leave for Washington the latter part of this week to make final arrangements. He expects that the Fern will reach Duluth about Aug. 1.

ASKS FIFTY THOUSAND

Frank Cantwell Places High Price on His Feet.

The Northern Pacific road is defendant in a suit for $50,000 personal damages filed today in United States circuit court by Frank Cantwell, a former brakeman on the road. The cause of action as charged in the complaint is that the plaintiff lost both legs below the knee on ept. 2, 1904, at Aldrich, Minn.

Cantwell claims that on that day the train broke in two and was fixed by substituting an inadequate coupler for the broken one. All went well until the train took the switch at Aldrich, and in doing so the train broke in two again, this accident setting the air breaks suddenly and stopping the rear end of the train so quickly as to throw the plaintiff from the top of the cars to the ground.

In falling his legs laid ocross the tracks and the train was backed up over them, mangling them so that they had to be amputated He asks $50,000 and costs. Mart M. Monaghan is the plaintiff's attorney.

Herald want ads are quick, sure, quiet—only 1 cent a word. The Herald reaches the people in the homes—the ones who answer advertisements. If you want anything, please call up 324, either line, and a Herald want ad man will give your want his personal attention.

Body to Be Brought Back.

A. E. McManus has received a cablegram from Manila, which states that the remains of John Currie, former treasurer of the province of Ilicos Norte, will arrive on the United States transport Thomas, due in San Francisco tomorrow or Wednesday. Interment will be made at Ottawa, Can., Mr. Currie's old home. The message further states that Mrs. Currie, who is a sister of Mrs. McManus, is ill at Manila and was not able to accompany the remains.

WOMAN REFUSED TO GO WITH SUICIDE.

New York June 12.—Dr. Szenturmay Elemir, who committed suicide at Niagara Falls yesterday, was a practising lawyer in Budapest, Hungary up to a short time ago. He was sent to this country by his parents, it was learned today, to prevent his marriage to a widow. He came here accompanied by a young woman cousin and both obtained employment in a Broadway restaurant. On Saturday he asked the girl to accompany him to Buffalo, but she refused to do so. The young man went away alone and last night his body was found lying near Inspiration point, where he had shot himself.

GRIP SAYS GOOD-BYE.

Washington, June 12.—Mr. Gelp, the minister from Sweden and Norway, called at the state department today to take leave before sailing for home tomorrow on leave of absence. He has not tendered his resignation as minister. Although a Norwegian, Mr. Gripp has not been identified with the separationists.

SILBERSTEIN & BONDY CO. | SILBERSTEIN & BONDY CO | SILBERSTEIN & BONDY CO. | SILBERSTEIN & BONDY CO.

Come in and let us help you select.

New Arrivals in White Hosiery. New White Parasols, Belts *and* Girdles, Etc., in Silk *and* Linen.

FOR THREE DAYS, COMMENCING TODAY,

Tsuneo Takahashi,

of TOKIO, JAPAN,

Acknowledged to be the Greatest Needle Artist in the World.

Ladies instructed free of charge at our store, commencing Monday, June 12. Hours 9 to 12 a. m.; 2 to 4 p. m.

Mr. Takahashi is an artist of exceptional ability and an adept at teaching. His methods are very interesting. To take lessons from such an expert makes needlework doubly fascinating. He is at the service of as many as may come, and we hope a large number will avail themseves of this rare opportunity. Second floor.

Half Price—Women's Fashionable Wear!

This sale will be at its height this week—women are beginning to realize that the supply is rapidly diminishing and the opportunity to secure these beautful suits at half will soon be a thing of the past. The S. & B. Co.'s garments are well known by their artistic appearance and splendid wearing qualities. There's yet a large assortment in fashionable suits and costumes to select from and you pay only half—among the many lines will be found—

$17.50 Tailored Walking Suits $8.75 | $30 Tailor-made Suits for...$15.00
$20 Tailored Walking Suits $10.00 | $35 long and short Coat Suits $17.50
$25 Tailored Walking Suits $12.50 | $40 English Walking Suits for $20

Extra salespeople, extra fitters, quick service.

Women's Summer Garments!

Today we opened up with an immense assortment of new creations in dainty summer wearables—creations from America's foremost designers—every popular material in silk and linen is represented. If it's stylish—it's here.

SILK AND LINEN TAILORED SUITS—SILK AND LINEN SHIRT WAIST DRESSES—SILK AND LINEN SKIRTS AND WAISTS.

NEW PIQUE SKIRTS—$2.50—A splendid line in fine quality of pique made in umbrella style. Just the thing for an outing or yachting skirt—special tomorrow $2.50.

New Summer Waists!

A great assortment in lawn and silk, beautiful designs, well made, serviceable, perfect fitting. Every woman who admires dainty shirt waists will find here the style to her liking. We can safely say without fear of contradiction that there's nothing to be compared with out lines in this section, both for style, selection and economy. New effects in handkerchief linen, embroidered silk mulls, sheer lawns and silks in both plain and tailored styles.

Event Extraordinary—Exhibition of

Fine Oriental Rugs!

Originally brought to this country and intended for exhibition at the Lewis and Clark Exposition at Portland, but bought up by us on the occasion of the recent trip of our Mr. Silberstein to New York.

Never in the history of Duluth have rugs of such superlative beauty and richness of design and coloring, been shown here. Each piece is a gem and masterpiece, with as interesting qualities as a fine oil painting. Some are real antiques. None are commonplace, or of the ordinary commercial sort usually shown in department stores that buy rugs by the "bale" without regard to artistic quality of rug.

To gain an idea of the treat in store for those interested, see display in our west windows.

No obligation to purchase any rug during this exhibition. It is intended solely for your inspection and pleasure—Third Floor.

Silberstein & Bondy Company | Silberstein & Bondy Company | Silberstein & Bondy Company

LIKELY TO BRING CROWD

Northern Pacific Company Excursion From Populous District.

Although the local ticket offices of the Northern Pacific company have not yet received any definite advices regarding the number of people that will take advantage of the popular-priced excursion, to reach Duluth at 2:30 o'clock tomorrow afternoon, it is expected that with good weather the crowd will be a very large one.

The excursion is run from Wahpeton, and will bring visitors from several large towns, including Fergus Falls, Breckenridge, Wadena, Staples, Brainerd and Aitkin, besides a large number of other prosperous little towns in largely developed farming communities. The previous excursions from that same district have been among the most heavily patronized of any that are run to this city during the summer season.

Until the trains have left some of the southern points it will not be easy to form any estimate of the number coming, but the predictions run something like 1,500 to 1,800 persons.

The round trip rate to Duluth on this excursion is only $2.50, and the tickets are good returning until 11 a. m. Friday of this week.

Messrs. Thompson, McNulty and Roycroft of the excursion headquarters, established by the Commercial club, will go to Carlton tomorrow morning and will meet the incoming excursionists at that point.

ARTHUR ORR DIES.

Chicago Man, Well Known Here, Is Dead.

The Chicago papers announce the death of Arthur Orr of that city. Mr. Orr is quite well known here in Duluth, where he has occasionally visited during the past several years. Although a man of much reputed wealth, his investments in local realty comprised only the two double houses on the east side of Sixteenth avenue east, below Superior street, which structures were erected by him some twelve or fifteen years ago.

FOOD FACT!

"There's a reason."

THE HELPFUL WIFE.

Couldn't See Why They Did Not Save Money.

New York Sun: "We must save money, Charlie, dear, really we must. There is the summer vacation coming, and you know you made me spend on a silk dress the money you had saved for it.

"Of course I could have got along without the dress, but you were so insistent on my having it when I told you I had bought the material that I couldn't resist.

"It pained me, beloved, to protest when you said today that you wanted to take a day's trip through the country, because it would have cost so awfully much Five dollars would scarcely have covered it.

"That is why I wanted to come down to Coney Island, so we could get a nice trip, see everything there is to be seen, and still not be under any great expense.

"Doesn't the sea air make one hungry! We might as well have a little lunch now as any other time.

"I always liked this place. Let me see, I think I'll have a clam chowder—every one here eats clam chowder—and half a broiled chicken, and some trifling little salad, and—Oh, asparagus! I just love it.

"I'll have a double portion of asparagus, because I think it is better than any spring medicine. And then, let me see, yes, I'll have strawberry shortcake with ice cream on top, and you can pour some hot melted chocolate over the cream.

"It's really lovely, darling, but I do not see why you will eat nothing but a hot roast beef sandwich and a glass of beer. Yet when you come to think of it, a hot roast beef sandwich should be enough for any one, for look at the amount of gravy you get with it.

"The bill is $6.80? Why, how in the world is that? How much was that hot roast beef sandwich? Thirty-five cents? Ridiculous! To charge that amount of money for a few bits of bread and meat. I can't help it, dear, I can't help it. I cannot see your money taken away from you in this way.

"Now, I ate nothing, and all you had was a hot roast beef sandwich, and yet they have the effrontery to give you a check for $6.80. I feel like reporting the case to Mr. McAdoo and having the Island closed up.

"I am so upset that I must go in here and get a glass of Fixo nerve food to quiet me. It is awfully refreshing. Just try one. No? Well, then, we'll just walk over to the park and see what there is.

"I could shoot the chutes all day. We've been down eight times already, and it has cost nearly $2. I cannot see how that can be. I'll bet they short-changed you. I heard that a man was once caught here doing it.

"We must have our pictures taken. There is nothing funnier than a tintype.

"Gracious! look like an old woman of 60. Now, that was half a dollar wasted! I cannot see the sense in going into such places and getting a picture that does not look anything like you.

"How many places there are! And we haven't been in half of them yet.

"I want to see the animals, because it is educating to watch them. I could sit here forever; but as long as we are over here we might just as well get the benefit of our time, because goodness knows when we will get a chance again.

"Now, here is where we should have gone in the first place. You get a genuine Rhode Island shore dinner for $1, and if we had done that we would have been amply satisfied. I know I had a little lunch, but I'm hungry, and it isn't every day we go out, nor is it every day you get a genuine Rhode sland shore dinner for a dollar.

"There's too much fish with it. That is always the trouble with these shore dinners. I would much rather have gone into some place and had just a little ice cream and cake. It would have cost less and been more satisfactory.

"We haven't had a taste of ice cream today, and I'm just dying for some. Now, darling, please don't be disagreeable. It will only cost a few cents, and we'll both enjoy it so much.

"The idea! Of course, they don't put moth balls in the ice cream. That is the new antiseptic flavoring, and it is really nice when you grow accustomed to it. It's awfully scientific and it's awfully cheap.

"So dear, now we can go home. It has been a busy day, hasn't it, and I suppose you are glad you came. But do you know, we didn't think to get any souvenirs!

"We have one? What is it? That is only an empty pocketbook.

"But it is all you brought away from the Island? Why, what did you do with your money?

"I do believe, Charlie, that no matter how much money you had, or where you went, you would spend it all! Here I have been planning to save, and came down here to a cheap place to do it, and all my schemes are knocked on the head!

"Haven't you any change, dear? I should like a box of chocolates."

St. Paul or Minneapolis and Return $4.80.

TOUCH OF NATURE.

At the Grand Central station on Saturday afternoon a little newsboy in hurrying to beat another little boy on a sale stumbled and fell on the stone pavement, and his newspapers were scattered right and left, says the New York Sun.

Several men ran to his assistance and found that his knee was badly bruised. He was crying bitterly. One man supported the boy while another nicely dressed man picked up the soiled papers and sold them to the crowd that had gathered. They went like hot cakes, and the happy newsboy held out his hand and received the silver pieces that were left there.

To lose is often merely not to find—as a business chance or bargain missed, and thus lost, through failure to read the ads.

DULUTH WEATHER REPORT—Partly cloudy tonight and Tuesday. Light to fresh westerly winds.

Let's Just Study This Clothes Question!

This advertisement may be the means of saving you several dollars in time and money and of giving you in your new Spring clothes, style, quality, comfort and self-respect. Let's see about it:

In the first place, before buying, see that the new coat sets well around the shoulders and under the arms, and drapes well in the back. See that the vest fits correctly, retains its shape and does not bind across the shoulder blades. See that the trousers have the proper hang, break neatly over the shoes, drop gracefully from the hips and button comfortably about the waist.

If all parts of the suit don't answer these requirements, the workmanship is inferior and we positively refuse to let a single garment leave this store unless every point has been examined thoroughly. It isn't just a question of selling with us; it's a question of selling properly and judiciously.

As for prices, we quote the lowest possible figures which the quality and a safe business policy warrant.

DULUTH MEN ARE HONORED

Two Get Offices From the United Commercial Travelers.

Two Duluth men received honors from the Grand Council of United Commercial Travelers in session at Sioux Falls, last week. C. W. Sutton of this city was elected grand sentinel and A. H. Overman, delegate to the supreme council at Colombus, O. The officers elected Saturday were:

Grand past counselor, G. W. Rodgers, St. Paul; grand counselor, Walter G. Jacobs, Aberdeen; grand junior counsel, H. J. McGarvy, Huron; grand secretary, J. M. Dresser, St. Paul; grand treasurer, Frank E. Noble, St. Paul; grand conductor, J. A. McPherson, Grand Forks; grand page, C. A. Vandevor, Minneapolis; grand sentinel, C. W. Sutton, Duluth; grand executive committee, two years, Anson A. Schaefer, Owatonna, Minn.; W. B. Clarkson, Albert Lea, Minn.; one year, W. D. Austin, Fargo, N. D.; J. C. Cox, Winnipeg.

The following were elected delegates to the meeting of supreme council at Columbus, Ohio; J. F. Jordan, Minneapolis; P. C. Creenshaw, Chicago; A. H. Overman, Duluth; Chauncey Burch, Sioux Falls; J. M. Dresser, St. Paul; Terry McCosker, Grand Forks.

Albert Lea, Minn., was by unanimous vote, selected as the place for holding the next annual meeting of the grand council, to be held the second Friday and Saturday in June of next year.

Resolutions as adopted, among other things, favor placing the railway rate matter in the hands of the interstate commerce commission, and declares against the proposed parcels post.

FOR HIS BRIDE

Young Husband Threatens Habeas Corpus Proceedings.

Liberty, Ind., June 12.—A legal fight of a bridegroom for his bride of a few days, who, he alleges, is held a prisoner by her parents in this city, is promised by Leonard Ball, who formerly lived here, but is now employed in Richmond, Ind. Ball has threatened habeas corpus proceedings to get possession of his bride, while her family, who move in the best society here, are equally determined that he shall not succeed. Ball, who is 23 years old, and his wife, who was Miss Edith Howren, were married ten days ago, quietly, because of opposition from the bride's family. After the ceremony she returned home to notify her parents before leaving for Richmond with her husband. He alleges that she was detained by her family, and he refused admittance when he called for her. He has made several attempts to get possession of her, but failing, announced yesterday that he will bring habeas corpus proceedings if her parents persist in detaining her.

Three spectres that threaten baby's life. Cholera infantum, dysentery, diarrhoea. Dr. Fowler's Extract of Wild Strawberry never fails to conquer them.

THE GIRL IN THE GALLERY

By Constance D. Mackay.

(Copyright, 1905, by Daily Story Pub. Co.)

They sat in the first row of the gallery. Now that the tumult of the rush was over, the girl had time to take off her hat and smooth her rumpled hair. She was still breathless and her cheeks were glowing. The man beside her turned and looked back triumphantly. "We did pretty well to get this far front," he said. "There's a whole lot of people standing up. There's always a big rush for an all-star show. Seems as if the theater couldn't hold all the folks that want to come."

"Yes," assented the girl vaguely. "You see it's all so new and—and strange. I've only been in the theater once before in all my life. That was when Uncle Ben took me to see Shore Acres. Oh, that was so real. I could almost believe it was true. Will this be like Shore Acres, do you think?"

The man spread his program out on his knee. "Well, no—not exactly," he answered. "You see, this is Romeo and Juliet. I ain't strong on Shakespeare myself, but I thought you might like to see it, Esther."

"Thank you, Mr. Stubbins," said the girl, with a grateful glance. She was a pretty girl, fair-haired and fragile—"peaked lookin'" was the way the people in her aunt's dingy boarding house described her—when they spoke of her at all; for as errand girl, dishwasher and general drudge, Esther was not used to much consideration. No one ever took any notice of her. She never had a lover. True, there had been a gawky student who took delight in drawing her thin, delicate profile, and who used to murmur "Spirituelle" when she passed him the pickles, but until Mr. Stubbins came no one ever gave her so much as a kind word. He used to speak to her when they met in the hall, and once he took her to walk in Central Park. It was after that that he had asked her to go to the theater with him. When this piece of news spread amongst the boarders, they exchanged significant glances, but when they heard that the play was to be Romeo and Juliet it seemed as if the climax had been reached. One of the married women sniffed reminiscently. "I remember me and Jim went years ago when we was first engaged, and we held hands all durin' the last act.'

"If you marry Mr. Stubbins you won't have to work so hard," said another of the boarders, kindly. Esther opened her eyes in an astonished glance. She had never thought of marriage as a means of escape. Mr. Stubbins was not an ideal lover; he was puffy and red-faced, and had abnormally large hands and feet, herself, as Esther shyly acknowledged to herself, he was kind—kinder than anyone else had ever been, or was likely to be. As for the play—the words "Romeo and Juliet" had no significance. She had never heard of the immortal tragedy of youth and love. In her humdrum life beauty and romance were unknown. The mere fact of going to the theater kept Esther in a fever of excitement. When the great night arrived she put on her best gown and her hands shook over the fastenings. Her aunt, kindled into kindliness by the unexpectedness of the situation, helped her to dress. "It would be a big thing for you if he should ask you to marry him, Esty," she said. "Now, don't sit silent like a bump on a log when he's talking to you, and don't have that far-away look in your eyes that you have right this minute. He's not much for looks, but he'll give you a good home and you know, Esty, I've got enough to do to look after myself, without taking care of you."

"Yes, aunt," said Esther, thinking more of the theater than of Mr. Stubbins.

And now at last the moment of moments had arrived. She was there, inside the theater; The lights—the space—the sense of waiting for one knew not what—all were intoxication. It was like a dream. She only half saw the hurrying ushers—the people taking their places. When the orchestra began to play she clasped her hands together with a quick, nervous gesture. Then came the magic instant when the overture died to a whisper, the footlights glowed luminously in the darkness, and the great curtain rose slowly, giving to view a street scene in Verona.

"Ah!" said Esther, in a little shivering whisper.

And in spite of all her aunt's instructions it was the only word she spoke all the evening. Mr. Stubbins gave up any attempts at conversation, and confined himself to staring about the house, and now and then watching the rapt face beside him. It was his voice which roused Esther when the final curtain fell.

"Pretty good show, that was," said he.

"Yes—oh, Mr. Stubbins," answered Esther, coming from her state of dream to the actual present of work and boarding houses. They spoke little on the way home. Mr. Stubbins was wondering what was the quickest and easiest way of making a proposal; Esther was thinking of the impassioned words of Romeo. On the steps of her aunt's boarding house, Mr. Stubbins paused. The street was very still. The ugly rows of houses opposite were touched by moonlight—such moonlight as silvered the streets of Verona. Mr. Stubbins cleared his throat. "Esty," he began, "I aint' much at love-making like that fellow we saw this evening, but I want to say right here that I think a whole lot of you, and I—I want you to marry me! Will you? It's—it's a bargain, aint it, Esty?"

A bargain! The sharp tongue of her aunt, or the love of Mr. Stubbins. A life of drudgery, or—or the bargain that he offered? She heard a window open upstairs, and knew that her aunt was leaning out to listen. For an instant the girl had a fleeting vision of the play which had taught her what love was.

"Come, Esty," urged Mr. Stubbins, "one little word! Which is it to be, yes or no?"

The window above creaked ominously. Esther threw back her head like one accepting a challenge.

"No!" she said.

Dyspepsia—bane of human existence. Burdock Blood Bitters cures it, promptly, permanently. Regulates and tones the stomach.

Tomorrow! 20c Gilt Wall Papers for only 8½c per roll

Freimuth's

Lake Avenue, Superior and Michigan Streets, Duluth, Minn.

$2.00 White All-Overs of Tucking and Insertion, $1.25 yd.

At a recent meeting of the board of directors of the Young Women's Christian association, the officers of the board for the ensuing year were elected. They are are follows:

President, Miss Ella Roe; first vice president, Mrs. L. W. Kline; second vice president, Mrs. R. S. Manley; third vice president, Mrs. Robert Smith; fourth vice president, Mrs. W. A. McGonagle; recording secretary, Mrs. B. Mattocks; corresponding secretary, Mrs. W. C. Agnew; treasurer, Miss L. L. Garvin.

The committees will be appointed in the near future by the president, and the work of the association again undertaken by the many committees.

The devotional meeting held yesterday afternoon, in the association rooms, was one of the most delightful held in several weeks, and was largely attended. "Giving What We Have" was the subject considered during the afternoon, and the speakers were Miss Jessie McKay, Miss Kezia Bennett, Miss Nellie Pegnell and Miss Grace Scribner.

• • •

The "Red Feather" company, which was seen here Saturday, will close the season Saturday of this week at St. Paul. The company has played a very long season, beginning last August, and appeared throughout the country. Miss Cora Tracy, who assumed the part of the Spanish girl, charmed her Duluth audiences with her beautiful voice, and with her soft, exquite contralto, shared the honors with Miss Van Studdiford's more brilliant voice. Duluth people were especially interested in Miss Tracy, and many will be glad to know of her plans for the summer. Very soon after the close of the season in "Red Feather," Miss Tracy will leave for Europe, and will play next year in Shubert's new Waldorf theater in London. The members of the company are most congenial, and have enjoyed the season greatly, and although tired, regret the separation, which is to take place this week.

• • •

The Young Ladies' Card club was entertained this afternoon by Miss Annie White at her home on East Superior street.

• • •

Mr. and Mrs. A. H. Smith and son left yesterday afternoon for Minneapolis.

• • •

Miss Gertrude Seery left last evening for St. Paul to consult with a specialist over an injury she received from a fall some weeks ago.

• • •

Mrs. Nettie L. Geist and daughter have returned to Duluth from a two-years' visit in Germany. They are the guests of Mr. and Mrs. C. J. O'Donnell of 1122 East Superior street.

• • •

Saturday evening Mrs. Frank Noble of Duluth Heights entertained a pleasant surprise party in honor of her husband's birthday. The rooms were prettily decorated in flowers and cinch was played. The favors were won by Mrs. F. E. Adams, Mrs. William Donaldson and Hugh Fawcett and Walter Boutin. Those present were:

Messrs. and Mesdames—
Walter Boutin, John Hogan,
F. E. Adams, Hugh Fawcett.
Mrs. William Donaldson.
Misses—
Amelia Hogan, Myrtle Noble.
Noble,
Messrs.—
Otto Hogan, Leroy Coons.

• • •

All of the circles of the Ladies Guild of St. Paul's Episcopal church will meet tomorrow afternoon, at 2:30, in the basement of the church. It will be the annual meeting, and the presence of all officers is particularly desired.

• • •

The Cecilian society held a delightful meeting this morning at the home of Mrs. G. A. St. Clair of 1125 East Superior street.

• • •

The following item from a Grand Rapids, Mich., paper of recent date, will be of interest to many who heard Anita Rio in concert last season. She was a soloist at a recent festival of music held in that city. Miss Rio appeared before the members of the Matinee Musicale here. The paper says of her singing at the festival:

"Miss Anita Rio never appeared to better advantage than in her solo, the 'Ave Maria' from 'The Cross of Fire,' by Bruch. The coquettish air, which it is sometimes hard for this charming singer to eliminate from her more serious attempts, was entirely absent in her rendition of the beautiful prayer, and her clear tones always smooth in changes of register were a delight to the ear. In response to an insistent encore, she sang the delightful Strauss 'Serenade,' Mr. Warner playing one of his inspiring accompaniments."

Calumet Baking Powder

Perfect in quality. Moderate in price.

THE IDLE WOMAN.

Difference of Opinion as to Her Employment.

Where is the idle woman? One inquires with enthusiasm, because so many people are anxious to prescribe for her. Within the compass of one short week we find the "idle and aimless woman" advised to (a) take an interest in "social work," (b) study elevating literature, (c) put her shoulder to the wheel of woman's suffrage, (d) bathe her own children. This is all very noble and inspiring, but there seems some confusion of ideas. Who and what like is the "idle and aimless" woman? One has known many aimless women, but not one idle. As a matter of fact, the most aimless are generally the busiest, says the London Telegraph.

Satan does not confine his mischief-finding energy to the idle hands alone. It is not a cardinal virtue to bustle. It is not mortal sin to sit quite still. As a matter of fact, in these days it is wholesome and antiseptic to behold a woman who does not think it her duty to be in a whirl. But people with no good will toward men wish to abolish peace upon earth. Here is a good lady declaring that "a good dusting every now and then" will secure "health and real satisfaction" to the "aimless woman." "A good dusting" sounds very awful. We know too well the vigor of the youthful serving maid, which shatters our most cherished china, and devastates whole cabinets. "An aimless woman" going full speed ahead with "a good dusting" would surpass any bull in any china shop.

The same authority cries earnestly, "If all women of leisure would do ten minutes of good housework daily, how much brighter our homes would be!" It all depends on the "woman of leisure." There are those who in "ten minutes of good housework" would be capable of disorganizing the most comfortable home, and reducing efficient housemaids to tearful despair. The delicate organism of home should not be treated as material for "aimless women" in need of exercise. Women suffering from a mania to bustle should play about with women's suffrage or something that does not matter, not the drawing room.

Are More Creditable.

A French woman, who has been trying some interesting experiments with the credibility of witnesses, makes out that women are more reliable in this relation than men. They see more details than men and remember them better. Her method was to show to the subject a picture of a scene of daily life for a short time, and after an interval to require him to write a description of it. Twenty-four persons—12 of each sex—were used, and the general conclusions reached were that entirely faithful evidence is the exception; that 10 per cent. of the statements in a voluntary deposition are wrong; that about 8 percent. of the statements of a disposition under oath are incorrect; that women are more truthful and more accurate than men.

"It must be taken into consideration," comments the Minneapolis Times, "that Mlle. Borst's, the French experimenter's tests included no questions of motive or interest. They were purely memory and observation tests. In actual evidence given in court women would, perhaps, have a higher percentage of accuracy than men, as they have a higher respect for veracity, a greater fear of the law and less audacity than men. Judges are generally agreed that a large part of the evidence given in criminal trials is conscious perjury, while in cases involving large sums of money unconscious perjury prevails. The very best men can and do work themselves up to a state where they believe that anything that will save their side of the case is true, merely because they believe they have the right side and ought to win. The courts have generally adopted the theory that the credibility of witnesses is to be weighed largely by their interest in the evidence they give."

the world's greatest kidney and liver regulator, and the only medicine having a combined action on kidneys and liver. One pill a dose; 25 cents a box. Write for free sample to The Dr. A. W. Chase Medicine Co., Buffalo, N. Y.

HAPPENINGS IN DAKOTAS

Post Trader Swears Out Warrant Against Indian Agent.

SOUTH DAKOTA.

Millbank—A sensation was created at Sisseton by the swearing out of a warrant by ex-Post Trader James Ross of Sisseton agency for the arrest of Indian Agent Jackson, on the grounds of insanity.

Ross has had trouble with every agent at the Sisseton agency and has visited Washington many times to secure their removal. When Keller was agent there was trouble continually. About two weeks ago Jackson ordered Ross off the reserve. Ross paid no attention to the order, but in his absence it is said the agent removed his effects. This brought matters to a climax, and Ross' action was the result.

Major Jackson is attending the soldiers' reunion at Summit and a deputy sheriff has been sent to serve the warrant. He has been agent at Sisseton agency three years and is popular with the whites and Indians. He is considered a man of good business ability and has given good satisfaction to the government.

Robert Whitefoot of Summit was arrested by Deputy Marshal D. D. Collins, charged with shipping sheep infected with scab outside the state. A hearing has been set for next Tuesday before Commissioner Babcock of Sisseton. Government sheep inspectors from Washington and Chicago will be at the hearing as witnesses.

Pierro—The state auditor has received a voucher from H. E. Rogers of Chamberlain, secretary of the State Firemen's association, showing that the city of Armour has placed $500 in the fund for tournament purposes. Under the law, the association is entitled to an additional $1,000 from the state fund, which will be sent to it.

Onida—Sully county has added another to its list of artesian wells, one having just been completed at the Floyd ranch, near Okobojo, in which the flow was secured at a depth of 1,670 feet, and a good supply of gas obtained with the water.

Conde—Paul Hanson, about 69, and a foreigner, was found hanging in the granary of the Henry Taylor farm, three miles northeast of Conde. He had worked in this vicinity two years ago and had just returned. No reason is known for the suicide.

Sturgis—Frank M. McLefresh died here of fatty degeneration of the heart. He was a pioneer business man, having come to the Hills in 1877.

Sioux Falls—The body of Andrew Martin, aged 35, was found in the Sioux river. It is supposed he fell in while fishing.

NORTH DAKOTA.

McCumber—David H. Beecher of Grand Forks and F. H. Wellcome of Minneapolis will establish the First National bank here.

Mapleton—C. B. Hay, on the Dunlop farm, sold nine head of young corn-fed steers, his own raising, at $77.75 a head.

Welcome Valley—Del Hodgson's barn was struck by lightning and destroyed by fire, and with it fifteen head of horses, fifteen head of colts and cattle and 300 bushels of wheat.

Russell—John L. Tucker of Minneapolis and associates are starting the Citizens' State bank here.

NO SECRET ABOUT IT.

It is no secret that for Cuts, Burns, Ulcers, Fever Sores, Sore Eyes, Boils, etc., nothing is so effective as Bucklen's Arnica Salve. "It didn't take long to cure a bad sore I had, and it is all O. K. for sore eyes," writes D. L. Gregory of Hope, Texas. 25c at all drug stores.

DOINGS IN MICHIGAN

Escanba—Many Escanaba people who are now receiving aid from the city poor department will probably be cut off, as the result of an agitation to curtail the expenses of that department. According to the report of Poor Commissioner George Young, the cost for supporting poor people of the city during May was $337.85. Many persons who received aid from the city during May are claimed not to have needed help. All of the cases brought to the attention of the commissioner will be investigated. The principal amounts for which the poor department's funds were expended in May were: Supplies, $35.80; fuel, $20.70; rent, $114; clothing, $7.85; medicine, $10.60 and board $45.

Grand Marais—The Grand Marais postmaster has had his salary raised from $1,100 to $1,200 per annum.

Ironwood—The Iron county board of supervisors has ordered the construction of a pest house in which to care for contagious disease cases. The structure will cost about $1,200. Improvements costing $3,600 are to be made to the county jail.

Miss Isabel Sleight of Ironwood, who has been a student in the violin department of the Chicago Musical college during the past year, has been awarded the college gold medal for excellence in harmony in the competitive examination recently held in the teachers' certificate grade. She has passed the necessary examination and will receive a teacher's certificate at the close of the present year, June 24.

Iron Mountain—Owing to the increasing volume of business which the Chicago & Northwestern is handling in the Iron Mountain yards, the facilities at the round house at Antoine are inadequate and the company has commenced the work of building additions to the structure. The roundhouse will be enlarged to make room for the accommodation of several engines more than the number at present accommodated. The work of grading preparatory to the laying of the several tracks has been started.

Sagola—The Sagola Lumber company has purchased the timber on three sections of land near its present logging operations in Ontonagon county. It is estimated that it has enough pine to last three or four years, and after it will give its whole attention to the manufacture of hardwood lumber. The company has a large tract of hardwood lumber adjacent to the mill, which, with what will come in from the adjoining farmers will last many years.

300,000 Blooming Plants for Window Boxes and Lawns.

SCHOONER CRASHED

Into a Sleeping Whale and Was Damaged.

Baltimore, Md., June 12.—Crashing into a sleeping whale in mid-Atlantic was the startling experience of the pineapple schooner Rover that has arrived here from the Bahama Islands.

At 2 o'clock Sunday afternoon, with ideal weather conditions, a quiet sea and a gentle breeze from the southwest, the Rover was bowling along at six knots an hour just south of the gulf stream. Without the slightest warning the ship collided violently with the whale that was sleeping on the bosom of the deep.

The vessel was stopped suddenly, the captain thrown out of his berth, the cook out of the galley and the man at the wheel against the cabin. But for the fact that the schooner had just been rigged with new stays she would have been dismasted and may even have been lost.

Immediately after the collision the sea was discolored with barrels of blood from the wounded whale. The captain found that the forefoot of the vessel had been damaged. A heavy bar of iron used as a base for the bob stays was twisted and the cut-water of the vessel badly damaged. The bent iron was four feet in lenght and two and three quarter inches thick. Hanging to the iron and wedged between it and the vessel was a piece of the skin torn out of the whale.

In her dock today the vessel excited much curosity, and men tried in vain to loosen the big piece of tough, black skin. When her cargo shall have been lightened it is planned to remove the skin and keep it as a souvenir. The schooner is loaded with 8,000 dozen pineapples and is commanded by Captain Klehn.

Orrine Cures the Liquor Habit.

$1 per box. Money back if it fails. Simple, home treatment, no publicity. A safe, sure and harmless specific. Can be given secretly if desired. Excellent stomach tonic, restoring normal appetite, digestion and health. F. W. Kugler, 108 West Superior street, Duluth.

Dressing Sacques at Half

Broken lots of summer dressing sacques in plain and figured lawns, dotted Swiss and percales trimmed with contrasting colors or lace. On the second floor.

BUTTE SOCIETY IN TURMOIL

Senator Clark's Wife Declines to Receive Social Leaders.

Butte, Mont., June 12.—Butte society is all torn up. Not since the day when Mary MacLane, Butte's aspirant for literary fame, insulted the social leaders of the city invited to a reception given in her honor by Mrs. Sam Johnstone, has the fashionable set been so dismayed as it is today because several of its members have been refused admittance to the residence of United States Senator W. A. Clark by the senator's young wife. In company with her husband she returned to Butte several weeks ago after an absence of several years.

The other day three of the most prominent women of Butte society called at the Clark mansion to pay their respects to Mrs. Clark. A butler took their cards, and while they waited, the women say, they heard a gentle, familiar voice instructing the servant to convey to the callers the information that Mrs. Clark was not at home. The butler obeyed orders, and the three leaders from the West side flounced down the steps with feelings too turbulent for words.

They hastened to pour forth their indignation to the other members of the "smart set." The "other members" were sympathetic. "How rude of Mrs. Clark." "the idea!" were some of the comments. "No, indeed, they would not call." But they did. The fact that three of their fellows had been snubbed did not deter others from having a try at making their way into the presence of the wife of Montana's senior senator.

Some of them, in every instance those who had known Mrs. Clark during her girlhood, when she lived in poverty with her parents there, were admitted and welcomed cordially. Then it leaked out that Mrs. Clark preferred the friends of the old days to those who seek to pay her homage now that she is wealthy, but who failed to recognize her or any member of her family at the time when she was Miss La Chapelle, and known only as the daughter of a poor French physician, struggling to support his family.

Thus it came about that the "exclusive set" in Butte has suffered a division from which it is not likely to recover in months. A dozen or so of stately dames, who have been refused admittance into the Clark house, and their immediate friends, who have never known Mrs. Clark, are loud in their denunciation of her action in repelling their advances. Many of these women have been leaders in social affairs here for many years.

Another contingent, composed in a large part of women who have laid claim to social prominence only during the last few years, and in most instances were friends of the La Chappelle family, and firm friends in the old days, have been welcomed to the Clark house. They in turn are just as loud in their praise of Mrs. Clark as the others are in their condemnation. And Mrs. Clark, by her attitude of independence and her declaration that the people who were her friends when she was Miss La Chapelle are good enough to be her friends now, has won the approval of the ordinary individuals who watch the doings of Butte society from afar.

CANADA IS READY

To Settle Disputed Waterway Boundaries on the Border.

Has Hope of Better Commercial Relations With Japan.

Ottawa, June 12.—The deep waterways commission will meet in Ottawa at an early date. This is the joint commission of representatives of the United States and Canada which met in Washington last month, but could not pursue its inquiry on account of disagreement as to the scope of the work assigned to it. The United States officials contended that congress did not empower them to investigate beyond the waters of the great lakes and adjoining rivers.

At the approaching meeting of the commission in Ottawa these waters will be considered and at a later conference in the coming autumn the other questions, such as the St. John river dispute, will be attended to. Since the suspension of business by the commission at Washington it is stated that President Roosevelt and Secretary Taft have come to the conclusion that Canada should be granted her demand for an investigation of the international boundary waters on a large scope. The fact is realized here, however, that the executive authorities at Washington have not as large powers as has the government at Ottawa, and that they could not authorize a full inquiry before congress gave its sanction.

Canada is more interested in the investigation of matters outside the Great Lakes than those affecting these water ways. Therefore she would not consent to be a party to the limited inquiry, except on the understanding that the other matters in dispute would be taken up at a later date. In the case of the St. John, N. B., river trouble, a compromise has been reached between the contending parties, and which at one time threatened grave international difficulties, pending an investigation by this water ways commission in the coming autumn.

There is a well-understood feeling in political circles here that should the United States authorities intimate to the Canadian government that it is desirable that the negotiations of the international joint high commission, which so suddenly suspended its deliberations a few years ago on account of the Alaskan boundary question, should resume consideration of the remaining matters in dispute between the two countries such action would be welcomed by Canada.

In this particular there is good ground for the statement that the Canadian ministry will do all in its power to reach a mutual understanding whereby the alien labor laws, now enforced by both countries against the citizens of each other, might be abrogated or suspended.

Sir Wilfrid Laurier has never made any secret of his own opinion that these obnoxious restrictions on the mutual intercourse between the two countries are vexatious and not in the best interests of neighborly peoples. The great railway and other enterprises, which are to be undertaken in this country, during the next few years, require much technical and other assistance, which is naturally looked for from the United States, but the Canadian law against the employment of aliens in the Canadian labor circles so long as the law prevails. The Canadian labor law was only enacted as a political expediency because the United States closed its doors against Canadian labor. It is considered that if the joint high commission should arrive at a fair solution of the question and recommend a satisfactory settlement of this matter, among the others, the Dominion government would gladly repeal its restrictions against the employment of Americans in Canada.

The adage that "an ill wind blows somebody good" seems to be exemplified by the news that Canada is likely to largely benefit by the war between Japan and Russia, in respect to the agricultural interests of this country at least, although the Japanese tariff, against the manufacturing industries of the Dominion is a hostile one.

K. Kayu, a wealthy Japanese merchant of Tokio, accompanied by his interpreter, W. Ijima, has come to Canada to investigate the dairying business of the country at first hand. He has inspected the different model farms from the Pacific coast to this point in the East, and is much impressed by the methods employed in the making of butter and cheese, for which Canada is gaining much reputation in the markets abroad. Mr. Kayu decided to introduce into Japan the Canadian dairying methods as well as Canadian cattle. He has purchased fifty head of Ayrshire cattle in Ontario and has forwarded them to his native land in the Orient. This is the first consignment of Canadian cattle that has ever been shipped to Japan, and Mr. Kayu is confident that it is but the beginning of many such shipments.

Previous to the outbreak of the present hostilities in the Far East it had been the custom of the Japanese to import their cattle from Great Britain. The war naturally put an end to this trade, and the United States was the next choice, from whence large shipments, Mr. Kayu says, have been made. He can see no reason, however, why Canada should not get a share of this trade, and therefore his present shipment of Canadian live stock to Japan, which is much in the nature of an experiment, is calculated to prove a success.

The Japanese, however, are prejudiced against Canada, and their tariff is severe against this country. This matter was brought to the notice of the Dominion parliament last week, when it was shown that Canadian manufacturers met with difficulty in selling their goods in Japan. There is a 5 per cent duty in favor of the United States products, and when Canadian exporters reduce their prices in order to counteract the disadvantageous customs regulation the Japanese refused to buy from them, yet their agents were traveling through the United States for supplies. Canadian manufacturers are informed that the Japanese are prejudiced against Canadians on account of the refusal of Canada to enter into an agreement by which she would receive the preferential treatment. The Imperial government gives privileges to Japan to which this country cannot subscribe, because it is claimed that Canada's powers as to the favored nation laws would be affected as well as her scope in labor legislation.

CONSTIPATION is caused primarily by lack of certain elements in the food which tend to more or less imperfect digestion, and to make the liver sluggish and torpid.

The bowels carry away and discharge the fecal matter—that is the refuse matter of the system. If the bowels are constipated, the fecal matter clogs and congests the natural passages, the poisonous excretions are retained in the body. They set back like a stream dammed up, and are absorbed into the system and carried all over the body in the blood.

That's the reason your head aches, your tongue is coated, your mouth tastes like a garbage can, black specks float before your eyes, and you are generally unhappy. It's constipation poisoning.

CALIFORNIA PRUNE WAFERS are positively guaranteed to cure the most obstinate case of Constipation, Biliousness, Torpid Liver or Indigestion. 100 Wafers, 25 cents. Sold by KUGLER, Your Druggist, 108 West Superior St., Duluth, Minn.

DRUGS CAME AFTER DRINK

And Completed Wrecking of a Bright Young Man.

Columbus, O., June 12.—"Under condition that he refrain from the use of alcoholic stimulants and narcotics," a sentence that appears in the pardon issued by Governor Herrick to John McLaughlin, tells the tragic story of a man's downfall and his struggle to rise again. It also tells a tender tale of sisterly devotion and clinging fidelity when the horizon seemingly had no rift of hope in it. McLaughlin, on the prison records, was a mere highway robber. But he was something else. Less than five years ago he was assistant corporation counsel of the city of New York. Well bred and properly reared in a comfortable home in Marinette, Wis., he completed his education by graduating from the law department of one of the Eastern universities. His legal careen was begun in New York, and his talents soon won for him a place as assistant to the city's counselor. Weakness in the presence of a strong appetite manifested itself, and he began the rapid descent of a height as quickly climbed, by losing his honorable position. At first it was strong drink. Then came narcotics; then debasement and finally utter degradation. So swift was the fall that within a few months the well-groomed, well set-up, bright attorney was transformed into a blear-eyed, uncouth, shambling tramp. Wandering out of New York he stumbled along the great east and west highway of vagrancy toward Chicago.

At Akron he fell in with a group of criminal tramps. There was a whisky and drug debauch, and while under its influence McLaughlin aided in the robbing of a negro of a paltry sum. It was not recorded that he personally committed the assault, but the jury found him guilty. For a year he remained in jail until the circuit court reviewed his appeal, for after the paralyzing agents had been removed beyond his reach his earlier brilliancy asserted itself and he made a skillful effort to be released.

The circuit judges affirmed the sentence against him on legal points, but, departing from custom, declared that the jury erred in convicting him. His punishment was two years' imprisonment. His sisters came to his rescue early and unceasingly worked for his release, traveling thousands of miles and spending hundreds of dollars. At its last session the state board of pardons recommended his release and today Governor Herrick approved the recommendation. Today he left the prison for his old home, a changed and chastened man, whose only comforting thought was that no one believed him to be a criminal, but only the victim of circumstances and his own weakness. The same clemency was extended to Bert Macklin, an unfortunate piece of human driftwood, who was in the drunken carouse and suffered like McLaughlin for his association. The pardon board found that the actual crime was committer by one to whom robbery and theft were no strangers.

CANNOT RECOVER.

Laborers Lose Suit Against Post Company.

Judge Homer B. Dibell filed an order in the district court this morning that Peter Flodine and Erick Edstrom cannot recover anything from the Cloquet Tie and Pole company for cutting and peeling some ceder posts, which were owned while the labor was performed by some person other than the company. As conclusions of law, the judge says that the defendant is entitled to judgment, the plaintiffs paying the disbursements.

The plaintiffs alleged in their several complaints that they were hired by one Lewis Olsen to cut and peel some cedar posts at Payne station. They say that they worked at the job from some time in March until May, last year, when the Cloquet company took away the posts and shipped them to some other part of the state. Flodine and Edstrom claimed that they hold a lien on the posts for the payment of their wages. The former desired that $50 be adjudged him by the court, while the latter sought for 67 cents more than that.

AN EVENING BALL GAME

Duluth Will Play the Orphans at 6:30 O'clock

After winning four out of five games played, the St. Cloud-Brainerd aggregation comes to Duluth for a series of three games with the White Stockings.

Tomorrow, no afternoon game will be played, but the regular contest will be pulled off at 6:30 o'clock instead.

This afternoon Erickson will pitch for Duluth, and tomorrow evening Potts will again be in the box.

The St. Cloud-Brainard team has been greatly strengthened during the last two weeks, and is one of the most dangerous opponents Duluth will have. Spicer, a new pitcher recently signed, has been winning regularly, and is proving a great source of strength to the team.

Every team in the league is going through a shaking up process. Crookston has signed a new pitcher, and is negotiating for another twirler and an outfielder.

Duluth is also negotiating for some new men, and Manager Van Praagh is corresponding with two college players who are anxious for a trial in the infield.

ELOPERS WED AFTER ARREST

Pursued By Girl's Angry Stepfather, Who Finally Relents.

Chicago, June 12.—After being pursued by an angry stepfather, who caused her arrest, Ada Sweet, 17 years old, and Harry P. Cabman, elopers from Valparaiso, Ind., were married by Justice Otto Falk in the county building and took a honeymoon trip to Lincoln park in an automobile.

The girl, a rosy-faced country lass, and the young husband, a manly young swain, were unabashed when they faced the police who had been set on their track by the enraged stepfather. But now, in the same old way, all is forgiven, and the excitement that has kept Valparaiso awake the past two nights will subside.

The pair were arrested at the Continental hotel on information sent here by the Valparaiso police.

"I love Harry," the girl told Lieut. Broderick, "and I want to marry him. I think I will be happier with him than I am at home," and she blushed.

She told the police that she had not been treated properly at home, and insisted, it is said, that she would not return. She asserted, the police say, that she would be married in Chicago, and that steps had already been taken by Cabman to further their plans. Cabman refused to talk, other than to say that he "loved Ada, and it was her suggestion that brought them to Chicago."

Cabman is a student at one of the Valparaiso colleges and is well known there. He told the police that he met the Sweet girl several months ago.

Charles Longshore, the girl's stepfather, told the story of the romance. He said Cabman met his stepdaughter two months ago. The young man urged his suit from the start and pictured to the girl how romantic a rope ladder would be as a preliminary to getting married.

The two made preparations secretly and left the Indiana town. Immediately there was a hubbub and the girl's stepparents appealed to the Valparaiso police. Then it was learned that they had bought tickets to Chicago and the police here did the rest.

Lieut. Broderick, in a soft, persuasive voice, advised the stepfather to relent and let the course of events pursue the even tenor of their way. He would have none of it at first, but finally said, "Well, let 'er go."

The word was taken quickly to Cabman in his cell, and the girl in the Harrison street police station annex was told of the decision. A license was secured and Justice Falk did the rest.

OFFERS REWARD.

Humane Society Aids Search For Missing Boy.

The Duluth Humane society has added $10 to any reward that may be offered for information that will lead to the recovery of Frank Wermen, the 5-year-old boy who has disappeared from Tower.

The boy has been missing since a week ago Saturday, and the numerous searching parties which have been organized for him, have failed to meet with any success.

WOULD APPEAL THE GREENE-GAYNOR CASE.

Montreal, June 12.—T. Chase Casgrain, counsel for John F. Gayner, and B. D. Greene, has petitioned Judge Hall in chambers to be allowed to furnish security for their appeal to the supreme court of Canada from the decision of the King's bench, maintaining the judgment of Judge Davison, who declared that Extradition Commissioner La Fontaine had jurisdiction in the present case, and who rejected the writ of prohibition taken against the commissioner by counsel for the accused. Judge Hall will render judgment tomorrow.

AIRSHIP WINS IN HARD TEST

It Flies a Long Distance and Inventors Are Pleased.

New York, June 12.—A Paris cable to the Herald says: The aeroplane constructed by MM. Ernest Archdeacon and Gabriel Voisin was tried at Billancourt. The aeroplane was placed on a raft and attached to the autoboat Larapierre, M. Voisin being seated alone in the center of the apparatus.

At a signal the autoboat was started at top speed and the aeroplane rose. M. Voisin then disconnected the aeroplane from the autoboat and made a journey of about 300 meters at an altitude of twenty-five meters above the river, finishing by bringing the machine gently onto the surface of the water. The program of the experiment was thus fully carried out.

This seems to mark a distinct step forward in the "heavier than air" problem.

MM. Archdeacon and Voisin express great satisfaction with the results of the trial. The new aeroplane has a superficial area of sixty square meters.

The Prince of Monaco made a further test at the Academy of Sciences this week with the heavier-than-air flying machine invented by M. Leger, in which the ascensional power is mechanical. The experiments were continued with a half-sized model. First, laden with a hundred pounds dead weight, with a ten horse power motor it rose so rapidly that it broke the eight ropes holding it to the ground. Finally a twelve horse power motor raised 200 pounds, when experiments had to be interrupted owing to one of the pieces of the mechanism bending.

M. Leger concludes from the experiments that his large apparatus will raise a thousand pounds, plus the weight of the machine and the aeronaut and fuel during a flight of one hour.

For the purpose of scientifically exploring the atmosphere, Comte de Castillon de Saint Victor made an ascent Wednesday in his balloon, Centauer, taking with him M. Joseph Jaubert, director of the municipal observatories of Paris, and Dr. Jolly. At an altitude of 3,500 meters the minimum temperature of 2 degrees cent. (thirty-six degrees Fahrenheit) was registered. The party descended at Mareuil, near Vaux, at half past 1 o'clock in the afternoon.

TWO MEN KILLED BY TRAIN.

Cedar Rapids, Iowa, June 12.—Alexander Alexander and Arthur Bingham of Chicago, went to sleep on the tracks, near Marion, and were run over and killed by a Milwaukee train early today. Another companion, Sydney Houston slept beside the track, but escaped unhurt.

BIGELOW'S ASSOCIATE PLEADS NOT GUILTY TO INDICTMENTS

Milwaukee, June 12.—Henry G. Goll, former assistant cashier of the First National bank, today, pleaded not guilty to an indictment containing thirteen counts. United States District Judge Quarles fixed bail at $20,000. Goll will be in the custody of the United States marshal until bail is furnished. Goll's attorney waived the reading of the indictment and entered a plea of not guilty. The United States district attorney informed the court that the indictments charged Goll with personally misapplying funds of the First National bank on three different occasions, the amount in each instance being large.

Aside from the three counts charging Goll with personally using funds of the bank, ten counts charge him with making false entries in aiding and abetting Frank G. Bigelow in his defalcation. The counts contained in the Bigelow indictment are practically repeated in Goll's case with the exception that Goll in each instance is accused with aiding and abetting the former bank president by making false entries.

Goll's attorneys pleaded for a continuation of the old bail which was $10,000. Judge Quarles said the crime charged against the former assistant cashier was a most serious one and he believed the court could be justly criticised in allowing the bond to stand at $10,000. He therefore increased it to $20,000 and Goll was turned over to the custody of the United States marshal until the amount is furnished. The case will probably come up for trial in October.

THE TESTIMONY FAVORS LOOMIS

Taft Hears More Concerning the Charges By Bowen.

Washington, June 12.—Before leaving the city, today, for West Point, Secretary Taft conducted a hearing in the Bowen-Loomis inquiry. Clyde Brown, treasurer of the American Asphalt company, was heard regarding the check which was said to have been exchanged between Mr. Loomis and Asphalt company. The testimony of Mr. Brown was confirmatory of that given by previous witnesses and of the contention of Mr. Loomis to the effect that the transaction was a matter of ordinary exchange for the sake of convenience. Mr. Brown produced the books of the company showing the receipts of Mr. Loomis, check for $5,000 and the payment to him of a check for the same amount calling for American money.

Ira Atkinson, an official of the Asphalt company aslo testified. He was one of those mentioned by Harry Unwine as probable source for information regarding a rumor said to have been heard that a certain stock passing through the office was intended for Mr. Loomis. Mr. Atkinson denied that he had ever stated such a thing.

NOT NEEDED UNTIL JULY 15.

Washington, June 12.—The secretary of the treasury today announced that the payment of the second installment of the public deposits, called from depository banks, will not be required on July 1, the date named in the call, but may be made by the banks at any time on or before July 15.

DR. KONKLER'S

CHIROPRACTIC

INSTITUTE,

314-314-316 BURROWS BLDG., DULUTH, MINN.,

Is the place for you if you have any aches or pains, no matter from what cause. Dr. Konkler's success in removing the cause of diseases has attracted the attention of many who have been completely relieved. The doctor finds the cause of all female diseases is in the spinal column, (small of the back) and finds it unnecessary to adjust other than the cause, for the removal of the cause always allows the diseased organs to resume their natural positions and functions and hence he never requires local examination and never gives local treatment. There is no line of disease with which Dr. Konkler has more complete success than those which afflict womankind. The doctor will consult with and give FREE TREATMENT to all new patients who will call at his office TUESDAYS, THURSDAYS AND SATURDAYS in order to demonstrate to those who are interested and who do not understand the doctor's method of treatment. If you are sick do not delay but call on Dr. Konkler. It costs nothing to find out what can be done for you. Chiropractic adjustment seldom fails. Dr. Konkler can give you good reliable references that will convince you by calling. He has cured others who had given up all hopes. If not convenient to call on the doctor during office hours, make your appointment for evenings or Sundays.

THE SCHOOL QUESTION.

Saturday evening The Herald presented an extended discussion of a question that is to come before the voters at the annual school election next month, by J. L. Washburn, a member of the board of education, prepared by him at the request of The Herald.

It is to be hoped that it was read carefully by every citizen of Duluth, for the question involves the expenditure of a considerable sum of money that the taxpayers have to pay, and the responsibility of its expenditure, since the matter has been referred to them, rests entirely with the taxpayers themselves.

The Washburn interview appears to be a calm and dispassionate summing up of the facts, without a word of direct argument, yet it leads conclusively to the opinion formed by The Herald a few days ago, when it predicted that the result of the election would be that the people would vote for the construction of a new grade school building in the central part of the city, rather than for a separate manual training school building.

Last year the people voted $125,000 in bonds with which the board was to build a new school at Hunter's park, a manual training school on the high school grounds, and a new grade school at West Duluth. The Hunter's Park school is being cared for at a cost of something under $47,000, and the West Duluth school, which was not to be built at once, will be cared for later. But considerable money was put out in buying plans, etc., and no satisfactory bids for the manual training school building were received. Finally the school board came to the conclusion that arrangements could be made by which more room could be given the manual training department in the high school building, and the demand for more grade school room be filled by a new grade school on the site which had been purchased for the manual training school. As the people had voted the money for a specific purpose, however, it was deemed proper before making a different use of it to ask for another vote, which will be taken next month.

The question is not vitally important. If the people should decide that they prefer a manual training school instead of a new grade school, the removal of the manual training department from the high school to the new building would leave ample room to accommodate the grade school pupils that would go into the proposed new grade school. Really it seems, therefore to be about six of one and half a dozen of the other. But as the people will naturally take the view that a grade school is more valuable than a manual training school, they will undoubtedly vote that way. And anyway, considering everything, it seems more likely that instead of six of one and half a dozen of the other, it is about seven of the grade school and five of the manual training school.

BANKER TO CONVICT.

A few days ago he was Frank G. Bigelow, banker, business man, prominent and respected citizen, good fellow.

Today he is No. 4717 in Leavenworth prison, and the wearer of a middle grade prison suit, with ten long years of punishment stretching their weary lengths ahead of him. In this decade the only thing to hope for is a pardon, the only thing to strive for is to change the middle grade suit of clothes for a first grade suit, and to avoid the ignominy of sinking back into a lower grade suit.

Why this change? Because he took money that was entrusted to him in his capacity of president of a bank, speculated with it, and lost it. How much of the enormity of his offense is contained in the fact that he lost the money, compared with the amount contained in the act of taking it and risking it, according to modern business ideals, it is useless to discuss at this time. He lost it, and whatever might have happened had he won with it instead, he is now beginning to bear his punishment.

Sympathy for him? Yes, surely, as there is sympathy for every brother who stumbles by the way. But he leaves a home of luxury, a life of usefulness and success, for a bare prison cell. Does not that entitle him to more sympathy than is due to most criminals? Should not the fact that the fall is farther for him than for most, and its force less broken by past bitter experiences, serve to lessen our horror at his crime and our satisfaction in its punishment?

These questions express a natural tendency, and a common one. But they ignore the fact that Bigelow had advantages that might have made a saint out of a burglar, had he had them. Bigelow did not have the environments of crime that resulted in the pickpocket that may be in the cell adjoining his. His life, with all its opportunities, its openings toward enlightenment, its successes, its brightnesses, should have tended all the other way. Instead it has landed him in a cell that is next to that of a man, perhaps whose whole life has pointed straight toward that prison. Is not the man who knows no other life, whose very training has forced upon him a life of crime and turned his hand against his fellows and their hands against him, more deserving of sympathy than this well-nurtured individual who has bartered his world of opportunities for a felon's cell?

Let him who will, answer. But remember: "Judge not that ye be not judged."

Instead of dwelling upon the culpability of the fallen, instead of speculating upon the measure of blame to be meted out to those of whose training, whose temptations and whose inmost lives we can know little or nothing, it is better that all should heed the obvious moral lesson: "Let him that thinketh he standeth take heed lest he fall."

Did Frank G. Bigelow believe a year ago that today he would sit in a prison cell? If anybody had predicted it would he have believed it? If anybody had told his friends that there was such a possibility would they not have scoffed at it? Did he not stand then just as well and just as safely entrenched as you are today?

But the hot breath of temptation swept him and his fortune and his family along until today, the fortune gone with those of others, that stricken family stands looking in horror upon the prison gates that have just clanged ominously behind him.

Are you ready to withstand such a gust of temptation as that which swept Frank Bigelow off his feet?

DON'T ENVY HIM.

The making of appointments is one of the duties that fall to the lot of a public officer, and it is one of the most disagreeable, difficult and dangerous. The man that thinks it is valuable to a member of congress, for instance, to have appointments to give out is mightily mistaken, and the belief simply shows that he has not brushed up much against the situation.

Don't envy a member of congress, therefore, when you hear that he has several nice fat jobs to give out, carrying luscious salaries and running two or four years or maybe more. He is not to be envied, but pitied. In the first place, there is not a single one of the numerous candidates for an office of that sort that is not firmly convinced that the logic of the situation and all other considerations point to him as the man to be appointed. Furthermore, he has hustled about among his friends and dug testimonial letters out of them, and the formidable bunch of these that he has proudly cast into the statesman's lap clinches his belief that he is sure to get it. Maybe, too, he has talked with the congressman about it, and that diplomatic individual, in an effort to be kind, has dropped something that the fond hopes of the candidate have distorted into a promise.

Then when the appointment is made, the tyro thinks that the congressman has attached to his political fortunes with "hooks of steel" a firm friend who will do and die for him—figuratively speaking—through thick and thin. An idle dream. Nine times out of ten, when the appointment is made, the appointive power has turned an active supporter into a lukewarm friend who is looking out for his own job first, and will throw his benefactor down in a minute if he thinks he can curry favor with somebody else that is likely to help him perpetuate his tenure. Besides, all of the other numerous candidates have become active enemies. Knowing as they do that the only sensible thing for the congressman to do was to appoint them, they have lost all respect for his judgment, and regret that they ever had anything to do with putting him in office. They have each dug up a long, sharp, crooked snickersnee and thrust it up their sleeves, and may thereafter be found lurking darkly upon the by-ways of politics, seeking a suitable opportunity to plunge it into the person of their former friend the congressman, with the fiendish aim of then and there ending his political existence.

Appointments are a source of weakness to a public man, and the wise one is not the one that escapes injury from them, but the one that gets off with the least hurt. The life of the public officer would be happier and more peaceful if there never was any such thing as an appointment.

THE FIELD SURVEY.

Is that strike going to become a permanent institution in Chicago?

* * *

Togo's education has been neglected. He never learned to sign dispatches with "I regret to report."

* * *

Is your business sick? Advertising in liberal doses never fails to cure.

* * *

Linevitch is reported to be cheerful and cocky over in Vladivostok, but all the same he is probably watching the peace negotiations with unfeigned interest.

* * *

Venus now rises between 2 and 3 o'clock, so if you tell your wife you were studying astronomy she may believe it.

* * *

A scientist says the sun is losing its heat. This may ultimately remove the only serious competition the coal trust now has.

* * *

The Equitable Life Assurance company now wears an air of resignation.

* * *

It would be awful if the Jemtchug, which got away and is to be interned at Manila, was the tchug that carried all the vodka.

* * *

Our vote for president of the Equitable is for T. Lawson, in the interests of the gaiety of nations.

* * *

Somebody has figured out that if Rockefeller's money was in dollar bills laid end to end it would reach around the globe and have eight miles left over for a bowknot. In the meantime it is not in dollar bills, but it is doing some tall reaching in this country.

* * *

Russell Sage's advice on how to invest your surplus seems singularly inadequate when so many people want to be told how to get a surplus.

* * *

President Francis L. Patton, of the Princeton Theological seminary, said in a sermon last Sunday: "I hate to see a cold-blooded, right-living rascal, who has his $40,000,000 and can teach Sunday school regularly and drives his hard bargain every week, always keeping just within the range of the law. If I were asked what I thought of such a man, I would say he was lucky not to be in jail." Sounds like the doctor might have somebody in mind.

* * *

The man that figured out that the precise number of words in the Bible is 773,692, might have employed his time better studying just a few of those words with some consideration of their meaning.

* * *

The Red Wing Republican says: "When the roseate-fingered dawn has slipped the somber curtains of night, and in the East there is a crimson glory, harbinger of the jubilant day, it is exuberant to be up and about." And the Republican is an evening paper, too!

Prince Henry of Germany is thinking of coming to the United States again. The prince knows where the folks are that can show him a good time.

* * *

People can now go between New York and Chicago in seventeen hours, but the best part of it is that you don't have to go to either place if you don't want to.

Hotel Gossip.

"New York has London pushed clean off the boards," said Cooley Butler, of New York City, at the St. Louis. Mr. Butler is a member of the firm of Butler Bros., the St. Paul contractors. For the past year he has been in the American metropolis, where the firm has contracts on hand aggregating a million dollars.

Mr. Butler says he is here on a purely pleasure trip, and after spending a few days on the range he will return to New York, where he has made his home.

"New York is the greatest city in the world, in my opinion," he continued. "Some years ago I went on a visit to London, but that place is not to be compared with New York. It is wonderful to think of the immense amount of money that is spent on Broadway and Fifth avenue in a night. In London the amount is small in comparison.

"I am a Western man, having been born and raised in Minnesota. I like living in New York, however, it broadens one's vision of things, and rubs off many of the corners. There a man makes his home where his business is. I do not see that the cost of living is any higher there than here, but is about the same. The man of average income can live just as well in New York as in the West, but if he has any social ambitions and wants to fly high, there are plenty of people to lead him on. There are plenty of them who are willing to help him to live above his means.

"What is being done in New York is a matter of record. It is not necessary for me to say anything about it. Money was never easier to get than it is now. A large number of big buildings are being put up, and improvements of all kinds are being made.

"The labor conditions are about the same there as here. There is plenty of men to be had. The wages are about the same for the common laborer, but the skilled laborer gets more there than he does here.

* * *

"I see that Duluth is fast becoming a great convention city," said Arthur T. Swanson of Minneapolis, at the Lenox. "It seems to be getting a large share of the meetings which were held in the Twin Cities last year. Of course, the coolness of the weather is an attraction, and the accommodations are adequate and good.

"I cannot help but wonder if there is any other country on the face of the earth that has so many conventions as America. From churchmen to brewery. the different elements of society have their annual meetings. Horse racing, fairs, with some excursions, singing festivals and the gathering of certain specialists is about the extent of joint meetings in the European countries. While the Europeans are apparently following the American custom, it will be some time before they become as pronounced in the habit as the Americans.

"It is interesting to note the reasons and causes for the convention habit in this land of the brave and the free. One of the reasons is the multitude of organizations here. Men of like callings feel it to their interest to met occasionally and by brushing up against each other keep in step. This is an indication to me of the progressiveness of the Americans.

"Of course, the different fraternal orders have most of the conventions. They are organized chiefly for social purposes. While they have the opportunity of cultivating the friendship of their fellow citizens they like to rub up against their fellow members in other parts of the state and country. This is an indication of the expansive nature of American activity. The American is not satisfied with simply knowing his next-door neighbor, but wants to know as many people scattered throughout the country as possible. If he lives in New York he likes to know he has rubbed shoulders with a man who lives in San Francisco. The European hardly ever budges from the town he was born in, and a trip to the capital city in his country is a landmark in his life.

"Then it might be mentioned that the American likes to travel. He doesn't feel right unless he can take one trip, at least once a year. If he belongs to some organization the annual convention gives him that opportunity. He also likes to wear badges. In Europe it is only the officials and nobility who have the opportunity of wearing any adornment, while here every man thinks he is a noble and believes he should enjoy the privilege of wearing some piece of ribbon. Last of all it might be mentioned, the American likes to do something. The exertion involved in traveling, the excitement of the meetings, where he has the opportunity of expressing his opinions, offer him plenty of chances to be up and doing."

* * *

At the Lenox: H. McCarthy, St. Paul; Miss Sanburn, Ashland; Richard Smith, Burt, Iowa; C. J. Campbell, Milwaukee; Mrs. H. C. Beach, Fargo, N. D.; P. Bertram Hanson, Sauk Center; W. A. Ronan, George Johnson, St. Paul; F. O. Smith, Wheaton, Ill.; F. J. McPartlr, International Falls, Minn.; W. S. Dickinson, Bay City, Mich.; Miss Stella Braton, Miss Feckla Peterson, Houghton, Mich.; Angus Cameron, Eau Claire; J. F. Rosenwald, J. J. Little, Madison, Minn.; F. W. At the McKay: H. Finger, Port Arthur; Robert E. Smith, Scanlon; J. B. Gormley, Tower; N. T. Ahrin, St. Paul; Robert Waldron, Cross River; G. P. McDonald, St. Paul; J. A. Davis, New York; Charles B. Stephenson, New York; David Braun, Milwaukee; C. R. Berchor, George E. Foster, Lake Nebagammon; Fred C. Kriger, Green Bay; Mark Eddy, Virginia; H. Jackson, Grand Rapids; John Knudelan, Floodwood; J. S. Markey, Miss Hodgins, Miss Mae Gage, Minneapolis; J. R. Olivera, Sault Ste. Marie; Charles Deing, St. Paul; F. F. McQuade, Two Harbors; Mrs. A. Marcelles, Deer River; Miss Harriet Ferris, Minneapolis.

Who Is It?

Who is it so tired
At the closing of the day?
Who is it washed and ironed
And put dolly's things away?
Who is it is so sleepy
When she climbs on papa's knee—
"I do not knew e'actly,
But I dess 'at 's me."

Who is it is so sorry
That she broke the china vase?
Who is it teased the kitty
And got scratches on her face?
Who promised just this morning
A much better child to be?
"I do not knew e'actly,
But I dess 'at 's me."

Who is it lies on mamma's lounge
And reads St. Nicholas—
Or tries to, for she has just joined
A kindergarten class?
Whose papa says her grammar
Is as shocking as can be?
"I do not knew e'actly,
But I dess 'at 's me."
—WILL P. SNYDER, in St. Nicholas.

Why the Baby Grew.

The Tattler: A schoolmaster had just finished a lesson on "Food" when a little boy put up his hand; on being asked what he wanted, he replied, "Please, sir, Jones said he knew a baby that was brought up on elephant's milk, and it gained ten pounds in weight every day."

"Jones ought not to tell you such rubbish," said the master; then, addressing Jones, he said, "Tell me whose baby was brought up on elephant's milk."

To which Jones' hesitatingly replied, "Please, sir, it was the elephant's baby."

The Weather.

Yesterday narrowly missed being a fine day. All that was lacking was the sun, which hid itself modestly all day behind a shelter of cloud. But it was warm, mild, agreeable, and last evening there was a charming softness in the air with a hint of damp and a smell of rain that kept people hovering betwen the front porch and the inside of the house, reluctant to go in, yet doubtful about staying out.

This morning, with a turquoise sky shading away into the haze of the horizon, with a fresh, clean breeze flowing freely from the southwest, with the sun shining brilliantly, his warmth interrupted only by a few faint, scattering cloudlets, is was again perfection. If its perfection was slightly tarnished later by the appearance of hoary-headed thunderheads, and a touch of uncertainty about the direction of the wind, what matter? It was still a gem of a day, worthy to be added to the string of brilliants that form a year in Duluth.

The prospects are for a continuation of the westerly winds, according to the local forecaster, tonight and Tuesday, with partly cloudy weather.

This section was one of the few districts east of the Mississippi river where it did not rain Sunday or last night. Western Lake Superior and near the Gulf of Mixico were exceptions to the general rule of showers everywhere east of the big river. The barometer is low over Manitoba and North Atlantic states, and in the Northwest warmer weather prevails.

Following were the maximum temperatures recorded during the twenty-four hours ending at 7 p. m. this morning:

Abilene	90	Marquette	60
Atlanta	88	Medicine Hat	82
Battleford	80	Miles City	80
Bismarck	76	Milwaukee	62
Boston	76	Minnedosa	74
Buffalo	64	Modena	82
Calgary	78	Montgomery	92
Charleston	84	Moorhead	72
Chicago	68	New Orleans	90
Cincinnati	82	New York	76
Davenport	74	Norfolk	82
Denver	80	Northfield	68
Detroit	74	North Platte	78
Dodge	84	Oklahoma	84
Duluth	60	Omaha	76
Edmonton	68	Pittsburg	80
El Paso	98	Port Arthur	66
Escanaba	68	Portland	68
Galveston	88	Qu'Appelle	78
Green Bay	64	Rapid City	76
Havre	86	St. Louis	78
Helena	80	St. Paul	66
Houghton	64	San Francisco	60
Huron	72	Santa Fe	76
Jacksonville	82	S. Ste. Marie	60
Kamloops	80	Shreveport	84
Kansas City	82	Spokane	80
La Crosse	70	Swift Current	84
Leander	76	Washington	80
Little Rock	92	Williston	80
Los Angeles	74	Winnemucca	88
		Winnipeg	74

United States Department of Agriculture, Weather Bureau, Duluth, June 12.—Forecast for twenty-four hours ending at 7 p. m. (local time) Tuesday: Duluth, Superior and vicinity—Partly cloudy tonight and Tuesday. Light to fresh westerly winds.

H. W. RICHARDSON,
Local Forecaster.

Chicago, June 12.—Forecasts until 7 p. m. Tuesday: Wisconsin—Fair tonight and Tuesday. Warmer in west portion tonight.

Minnesota—Generally fair tonight and Tuesday. Warmer in south portion tonight.

North Dakota and South Dakota—Generally fair tonight and Tuesday. Moderate temperature.

Upper Lakes—Light variable winds tonight and Tuesday. Generally fair weather.

How the Other Half Lives.

Life: Cupid went to a fashionable wedding.

"You are not a friend of the family," said the usher; "what are you doing here?"

"I came," said Cupid, "to see how the other half lives."

The Indecorous Chorus.

Ah, here comes the chorus,
Clothes are scant and porous.
Pretty girls.
Lots of curls,
The mushy songs may bore us,
The comedian may floor us,
But not the Mays and Doras
In the inde—
Corus
Chorus.
—Princeton Tiger.

The Real Thing.

Los Angeles Times: Our David Starr Jordan gives it as his opinion that if the Japs wanted to take the Philippines we couldn't stop them. The professor is too pessimistic. If those cocky yellow men run up against Uncle Sam, there won't be any more banzai business, and you can bet your last dollar on it, too.

Somebody Told On Him.

Gurnsey (Wyo.) Gazette: Gossip is a humming bird with eagle wings and a voice like a foghorn. It can be heard from Dan to Bersheba and has caused more trouble than all the bedbugs, ticks, fleas, mosquitoes, coyotes, grasshoppers, chinchbugs, rattlesnakes, sharks, sore toes, cyclones, earthquakes, blizzards, smallpox, yellow fever, gout, and indigestion that this great United States has known or will know when the universe shuts up shop and begins the final invoice. In other words, it has got war and hell both backed up in the corner yelling for icewater.

Col. R. E.'s Popularity.

New York Times: Remorse is a good deal more popular than self-denial among most people.

What They Like.

Detroit News: That New York boy who has been asleep for fifty-eight days comes pretty near fulfilling the corporation and machine ideal of citizenship.

Read and Heed.

Okmulgee, I. T., Democrat: If you toot your little tooter, and then lay aside your horn, there's not a soul in ten short days will know that you were born. The man who gathers pumpkins is the man who plows all day, and the man who keeps a-humping is the man who makes it pay. The man who advertises with short and sudden jerks is the man who blames the editor because it never works. The man who gets the business has a long and steady pull, and keeps his trade and paper from year to year quite full. He plans his advertisements in thoughtful, honest way, and keeps forever at it until he makes it pay. He has faith in all the future, can withstand a bankrupt shock, and like a man of Scripture, has his business on a rock.

June Roses.

Nectar of harmony, soul of love's rune,
How thou inspirest one, roses of June!
Solace, nepenthe, pure balm for the breast—
Spirit of incense that whispers of rest.

Velvet thy petals, dew-jeweled thine heart
Speaking love's message wherever thou art.
Keenly to nature thine heartstrings attune,
Murmuring purity, roses of June.

Sunshine and tenderness, hope of life's dower,
Rest in each budding, each bursting of flower.
Seeds of thine influence subtly are sown,
Breathing thy perfume, oh queen of June's throne!
—Judge.

Those Maryland Republicans.

Buffalo News: Mr. Bonaparte goes into the cabinet and if he does not represent the Maryland Republicans, so much the worse for them, for he is stronger with the people than any other man of them.

Punch's Little Joke.

London Punch: Three Englishmen and one Frenchman attempted to cross the channel in balloons last week, but only the Frenchman succeeded. We congratulate the Frenchman on his British pluck and perseverance.

For Humanity's Sake.

Kansas City Star: If its fleet ever goes to the Baltic sea, Japan could do a great favor to humanity by rescuing poor Finland.

Twenty Years Ago.

Taken From the Columns of Duluth Papers of This Date 1885.

***At the annual meeting of the St. Paul & Duluth road, William H. Fisher of St. Paul was elected president; William H. Rhawn, Philadelphia, vice president; James Smith Jr., St. Paul, solicitor; Philip S. Harris, St. Paul, secretary and treasurer; Calhoun Latham, New York, assistant secretary. James Smith, the new solicitor, was formerly president, and W. H. Fisher, the new president, was general superintendent.

***John M. Millar, treasurer of Cook county, writes that on May 24, Alexander Boyer caught a trout weighing 43½ pounds in a stream near Grand Marais.

***A lacrosse club has been formed among a number of Duluth young men, some of whom are first-class players. The officers are: H. W. Pearson, president; Messrs. Green, Knowles, Marshall, Wilson, Todd and Loughtis, managing committee. The club will get into practice immediately.

***R. F. King has gone to Minneapolis, where he will go into business.

***Rev. I. Faries and wife of Minneapolis have been in the city for the past few days. Mr. Faries is quite a well known owner of Duluth property.

***H. A. Klichli's wife and two children left last Sunday evening by the Fremont for a visit of several weeks with relatives and friends near Houghton.

***Will Peyton and his sister, Miss Josie Peyton, have returned from Faribault for the summer. Will has been in Shattuck and his sister in St. Mary's Hall.

***The total tax collections in the months of April and May have been $117,929.84, by far the largest months in the history of the county. It is $17,500 ahead of the corresponding two months last year.

***Capt. Edwards of Superior is dead. He was one of the oldest and best known inhabitants of the Head of the Lakes, and had many friends at all the upper lake towns. He was the original owner of West Superior, and was the man that first dubbed that burg South Duluth. He died in Chicago of Bright's disease.

MINNESOTA OPINIONS

Sauk Center Herald: If Minneapolis and Duluth continue to jump on the governor for appointing all the members of the board of grain appeals from the country the wheat-makers may think these cities had special reasons for wanting these places. Cut it out.

Brainerd Tribune: The Royalton Banner believes that among its dead and down gubernatorial timber, Minneapolis will unite on W. D. Washburn as a candidate.

Sauk Center Herald: A man complained the other day that he couldn't see any point to our jokes and on investigation we discovered he was in arrears for his subscription.

Red Lake Falls Courier: The Republican factions are just now enjoying a controversy as to whether the Dunn vote or the Roosevelt vote shall be used as a basis of representation in the next convention. Sic 'em!

Sauk Center Herald: One thing is certain; if the Republican factions continue to masticate dry goods the Democrats will chew the official plums.

Eveleth Star: Duluth is talking about booming Northern Minnesota. While Duluth talks let us act. It never pays to wait for some one to do that which you are best fitted to accomplish.

Northome Record: Every man who is patriotic to his home will talk for Eveleth. It is upon such argument that the future of the city depends.—Eveleth Star. Everyman who is patriotic in any town will talk for his home town. If he cannot do this he should choose another location.

Akeley Tribune: "Joined for Life" is the caption for a marriage notice in one of our exchanges. It listens well.

Cannon Falls Beacon: A commercial club is an engine of progress in a community and its motive power is local patriotism.

Bemidji Sentinel: There are very few towns in this state from which two railways are building and in that regard Bemidji has a clear field. These new roads are going to make business for everyone in the community and it will not be long until the people realizes it.

Little Falls Herald: The gubernatorial candidate who can suit all the Republican factions will resemble a composite photograph of all the animals in the political zoo.

Madison Independent-Press: And now it is hinted—just hinted—that Japan would like to purchase the Philippine Islands. As yet, however, the islands have not been listed with any real estate dealer.

DERELICT.

Were ever you busted, foreign, broke as a broken stone,
Deep in the heart of Asia, homesick and all alone?
If you were, it is you I'd talk to, you who will understand
What it means when a fellow meets you, a friend from your native land.
Who can talk your native language in the dear old native way,
Who will holler,
"Gosh dern ye, Henery! What's punkins wuth today?
How's all the folks at Wayback? How's old Silas at the cove?
Do the fellers still drop in a night an' set around his stove,
An' chaw terbacker constant, n' spit an' speculate
About the country's future, very doubtful of its fate?
Has Mame Rulon got married yet? How's is them Parker twins?
I ain't seen none of 'em for years"—
Back where your life begins
A voice like this will call you, and visions will arise
Too sweet for smiles, too sad for tears, and there before you lies
Youth, vanished youth, your hopes, your dreams all that you might have been;
Things it is now too late to do, triumphs too late to win—
Stranded, a hopeless derelict, a lump within your throat
Rises and chokes your utterance, and, to the kindly note
Of friendship in your old friend's voice, of greeting and good-will,
All you can stammer in reply is, "Hello Bill!"
—S. Decatur Smith, Jr., in Lippincott's.

Wars Make Presidents.

Denver Republican: Every great war in which this country has been engaged has produced a president. The war of the Revolution gave us Washington, that of 1812 Jackson, the Mexican war Taylor, the Civil war Grant, and the Spanish war Roosevelt.

Eddy Is No Apiary.

Frank M. Eddy in Sauk Center Herald: We had a bee—a gubernatorial bee—in our bonnet a year ago. It got away from us, and, unlike the cat, it never came back. We want it distinctly understood we are no apiary. We don't want any bee inspector fooling around us.

A Summer Heroine.

Sweet Belinda had a shirt waist.
'Twas a peek-a-boo.
There were flagrees and posies
Where the sun shone through.
Sweet Belinda's fair complexion
Very soon began
'Twixt the threads to be invaded
By a coat of tan.

Sweet Belinda's father labored
Patiently in town.
His expense account kept climbing;
Bank account went down.
Life so gay, one mournful morning
Ceased to be a joke.
Telegram (collect) advised her—
"Come home. Father's broke."

But she was a girl of mettle.
Did she pine away?
Not a minute. She is paying
All the bills today.
To behold those sunburnt tracings
Crowds in wonder come.
She's the famous tattooed lady
At the mus-e-um.
—Washington Star.

PASSING PLEASANTRIES.

Philadelphia Press: "I suppose he still goes in for wining and dining as much as ever."

"No, he become such a dyspeptic lately that he does all his whining after dining."

Washington Star: "You said some time ago you were going to retire from politics."

"Yes," answered the man with a good job, "but the statement attracted so little attention I concluded I could stay where I was without being noticed."

Cleveland Plain Dealer: Miss Gabble—Yes, she always takes up the latest fads. Just now she is quite wild about Osler.

Mrs. Newriche—Dear me. I knew her coachman was handsome, but I've never seen her 'ostler."

Cleveland Leader: "George!"

"Yes, dear."

"Before we were married you once asked me if I enjoyed a brass band."

"Y-yes, perhaps I did."

"You did. And I said yes; but it seems I misunderstood you. George. My wedding ring is making a black mark on my finger."

"! ! !"

Chicago Tribune: Mrs. Jenner Lee Ondego—What do you know about those people that have moved into the house next door to you?

Mrs. Seldom-Holme—They seem to be disagreeable, suspicious kind of people. They keep their kitchen window blind down all the time. I suspect the woman does her own housework.

Yonkers Statesman: He—When I look at a girl's eyes I can always see what she's hoping for.

She—Oh, have I got rings about my eyes this evening?

Judge: She—I wonder why so few men are regular churchgoers?

He—I don't know, unless it's because there is no law prohibiting it.

Philadelphia Press: "Haven't you forgotten something, sir?" asked the waiter, with outstretched palm.

"No," replied the patron, "it isn't my memory but my disposition that't at fault."

Cleveland Plain Dealer: Church—What does that typewriter of yours make a week?

Gotham—About 18,000 errors.

Advice From Polonius.

These few precepts in thy memory:
See thou character. Give thy thoughts no tongue,
Nor any unproportioned thought his act.
Be thou familiar, but by no means vulgar;
Those friends thou hast, and their adoption tried,
Grapple them to thy soul with hoops of steel;
But do not dull thy palm with entanglement
Of each new-hatched, unfledged comrade.
Beware
Of entrance to a quarrel; but, being in,
Bear't, that the opposed may beware of thee.
Give every man thine ear, but few thy voice;
Take each man's censure, but reserve thy judgment.
Costly thy habit as thy purse can buy,
But not expression in fancy; rich, not gaudy;
For the apparel oft proclaims the man;
And they in France, of the best rank and station,
Are more select and generous, chief in that.
Neither a borrower nor a lender be;
For loan oft loses both itself and friend,
And borrowing dulls the edge of husbandry.
This above all—to thine own self be true;
And it must follow, as the night the day.
Thou canst not then be false to any man.
Farewell; my blessing season this in thee!
—"Hamlet," Act 1, Scene 3.

Ostracize the Corruptors.

New York Journal of Commerce: Corrupt councilmen are deserving of denunciation and contempt, bosses and their machinery are proper objects of wrath, but moral and social condemnation has little effect upon them so long as they are held in place. The power that holds them in place has been intrenched in wealth and respectability, and if they are to be got rid of for any length of time that power must be routed. The ostracism of public opinion should not be confined to school children and directed against the slaves and minions of corruption, but the awakened moral sense of the community should visit its penalties upon those who are really responsible those who devise schemes of plunder and furnish the means for executing them, who corrupt legislatures and councils and debauch public administration as an incident of their business. Make this disreputable like petty thieving and swindling, and it will cease as piracy and brigandage disappear with advancing civilization.

Reflections of a Bachelor.

New York Press: Running an automobile is a little cheaper than a family.

Scandal is about other people; when it is about you it is slander.

You've got to have very little human nature in you to be able to love a girl that is seasick.

There is a lot of excitement when you hear somebody coming down stairs to be able to kiss a girl and have her begin singing at the piano before they come in the room.

AMUSEMENTS.

LYCEUM.
Matinee and Evening, Saturday, June 17,

Isn't he the fussy, downy, peach, though? Isn't he a four-ply baby and a dandy?"

When Van Praagh anounced that he had a phenom in the shape of a southpaw from some place down in Ohio, who was going to do some pitching stunts in the Northern league, the fans read, and doubted if he would be as good as Buck Noldin.

But all fandom saw him yesterday, and the verdict was "It is good. Yea, verily he is a wonder."

Potts is the man. It was he that did the trick. What if Crookston did win the second game? The fans won't see such a pitching feat again in some time, as that of Mr. Potts, the southpaw, in the first game. The bushwhackers from Crookston were blanked. Not a man crossed the plate in the entire nine innings. Only three long singles were made from the Duluth's pitcher's delivery, and all of these were collected by one man, Livingstone. Not a man was passed to first base either by balls or by being hit.

Only six men succumbed directly to his slants, but the batters kept popping the ball up in the air, and driving it at the fielders.

Sorenson worried along fairly well until the fourth inning, after which the White Sox connected with his shoots with pleasing regularity. They contented themselves with one run to the inning, but the score board looked like a picket fence when the game ended. One man crossed the plate in each inning after the third. Meneice scored in the fourth, being allowed his base on four bad ones, after Weller had hit safely. He reached second on a fielder's choice, which caught Weller at third, and came home on a hit by Neighbors.

The run in the fifth came on a two-bagger by McAleese and a single by Bennett. Another in the sixth came on singles by Neighbors and McAleese and a passed ball. The run in the eighth was made from a single by Potts, Bennett's pretty sacrifice and Weller's two-bagger.

Neighbors started out to score a run all by himself in the eighth, and very nearly succeeded. He reached first on an error by the pitcher. He stole second, and it was so easy, that he kept right on going on the next ball, and reached third. He was just getting started for home, when McAleese spoiled his game by rapping out a single.

The game was a beautiful exhibition of ball. Not an error was marked up against the White Sox, and this, combined with Potts' wonderful pitching, allowed only twenty-nine Crookston men to go to bat in the nine innings. Only one man reached second base during the nine innings, and in seven out of the nine the visitors went out in one-two-three order.

The Crooks were also playing ball, and only two errors were marked up against them.

The score:

DULUTH.

Score by innings:

Duluth	0	0	0	1	1	1	1	x		5
Crookston	0	0	0	0	0	0	0	0		0

Summary: Two-base hits, McAleese, Weller; bases on balls, off Potts 0, off Sorenson 1; struck out, by Potts 4, by Sorenson 5; left on bases, Duluth 7, Crookston 1; passed balls, Sperry; stolen bases, Ludwig, Weller, Neighbors 3; sacrifice hits, Bennett, Potts. Time of game, 1:30. Attendance, 1,800. Umpire, Long.

The second game was the kind that gives the fans a chance to yell his lungs out. It was a long, uphill fight against odds, and the odds proved a little too long yesterday.

The trouble all took place in the second inning. After Fitzsimmons had been retired, Mueller and Sperry hit safely. Dorn was an easy out and there did not appear to be any trouble brewing. Livingstone had been hitting rather freely throughout the afternoon, and Miller wisely passed him, filling the bases. Olson the next man up, hit an easy ground-

IRON FENCE CHEAPER THAN WOOD

We Sell Iron Fence

MANUFACTURED BY

The Stewart Iron Works Company

CINCINNATI, OHIO

Whose Fence received the Highest Award, "Gold Medal," World's Fair, St. Louis, 1904.

The most economical fence you can buy. Price less than a respectable wood fence. Why not replace your old one now with a neat, attractive IRON FENCE.

"LAST A LIFETIME."

er at "St." St unfortunately chose this time to make his first and only error of the day. The ball bounced badly, and he juggled it just long enough to let Olson reach first, while Mueller scored. Then the Crook that draws $35 a month for running around in center field, earned his wages for a month by slamming the first ball pitched to him, over the fence for a home run, clearing the bases. The Crookston players actually seemed to enjoy the situation, and danced about the field in high glee, while the Superior rooters in the grand stand, led by Emil the barber, stuck out their vulgar necks and actually howled with joy.

Duluth got one in the last half of the second on singles by Neighbors, McShane and Miller.

Another came in the fourth on a single by O'Dea, an error by Livingstone, a sacrifice by Erickson, a hit batsman, and a long outfield fly by McShane.

Duluth came within one of tying the score in the sixth on a single by Neighbors, and two errors by Olson and Leighty.

Meanwhile Miller had been pitching good ball, and with good fielding to back him up had held the Crooks down for five innings. In the eighth they got one more on singles by Sperry and Livingstone, and sacrifice hits by Dorn and Olson.

Incited by Weller, who acted as chief rooter, the 2,000 fans in the bleachers and grand stand rose to the occasion, and pandemonium was like a pink tea, compared with the scene in the eighth and ninth innings, when Duluth made desperate efforts to knot up the score: McAleese and McShane singled in the eighth, but Miller failed to win his own game, going out on an easy grounder. Again in the ninth after Bennett had struck out, Weller singled. Meneice followed with a clean hit, but Weller tried to make third base, and was nabbed. This ended a promising chance for another deathbed rally.

TAKE FOUR STRAIGHT.

Fargo Wins Two Pitchers' Battles From Winnipeg.

Winnipeg, June 12.—(Special to The Herald.)—Fargo took two close pitchers' battles from Winnipeg Saturday, making it four straights from the Maroons, after Winnipeg had just finished taking three straights from Fargo at Fargo.

Fargo won both games by more opportune hitting. All four pitchers showed fine form, but Maloney was given wretched support in the second game.

The scores:

First game—

									R	H	E
Fargo	0	0	0	0	1	2	0	0	3	7	3
Winnipeg	1	0	0	0	0	0	0	0	1	5	3

Batteries—Smith and Alberts; Sporer and Rogers.

Second game—

									R	H	E
Fargo	0	0	0	0	0	0	0	2	2	5	3
Winnipeg	0	0	0	0	0	0	1	0	1	4	7

Batteries—Hanson and Alberts; Maloney and Rogers.

ORPHANS WIN.

Take Another Slugging Match From Grand Forks.

Brainerd, June 12.—(Special to The Herald.)—The Twins took another game from Grand Forks here yesterday, batting out a victory in the eighth inning.

Rees started in to pitch for the Twins, but he was taken out in the fourth, after eight runs had been scored. Gilchrist shut out the home team in the remaining five innings, while the team behind him went in and hammered out a victory, after a hard uphill fight. The score:

										R	H	E
St. Cloud-Brainerd	0	1	2	2	1	0	0	5	1	12	17	2
Grand Forks	1	2	2	3	0	0	0	0	0	8	8	5

Second game—

									R	H	E.
Louisville	0	0	2	0	0	1	0	0	1	4	12	3
St. Paul	1	1	0	0	2	0	0	0	1	5	12	1

Batteries—Wright and Shaw; Ferguson and Sullivan. Umpire—Yeager.

EVEN BREAK AT COLUMBUS.

Columbus, June 12.—Columbus and Minneapolis broke even yesterday in a double-header. Dorner was a complete puzzle in the first game and but two Minneapolis players reached second base. Hart, until recently an American association umpire, pitched for Columbus in the second game. His own errors of judgment in the eighth inning started Minneapolis to victory. Both games were marked by sharp fielding. Attendance, 12,091. Scores:

First game—

									R	H	E
Columbus	0	0	2	0	0	0	0	x	2	6	2
Minneapolis	0	0	0	0	0	0	0	0	0	4	4

Batteries—Dorner and Ryan; Stovall and Schmidt. Umpire—King.

Second game—

									R	H	E
Columbus	0	0	0	1	0	0	0	1	x	2	8	2
Minneapolis	0	0	0	0	0	0	0	5	0	5	8	3

Batteries—Hart and Peirce; Siever and Marshall. Umpire—King.

SATURDAY'S GAMES.

Indianapolis, 3; Milwaukee, 2.
Indianapolis, 4; Milwaukee, 1.
Minneapolis, 8; Columbus, 2.
Louisville, 9; St. Paul, 3.

DEER RIVER WON.

Defeated Grand Rapids By Score of 8 to 1.

Deer River, Minn., June 12.—(Special to The Herald.)—The Deer River baseball team defeated the Grand Rapids team yesterday by the score of 8 to 1. Deer River battery, Harris and Schuab. This is the fifth successful victory this season for the locals, and it would have been a shutout but for a wild throw to third in the seventh inning in an attempted double. Otherwise the locals played an errorless game. The Big Duluths play here next Sunday and the locals have an idea that they can shut them out as they did the Marshall-Wells a week ago.

STATE FEDERATION OF LABOR IS OPENED

(Continued from page 1.)

are: Thomas Van Lear of Minneapolis; T. F. Thomas, president of the St. Paul Typographical union, and J. F. Hughes and A. H. Garfield, also of St. Paul.

The opening session of the convention today was devoted to organization, appointment of committees and presentation of reports. The principal report was by Secretary-Treasurer W. E. McEwen, which was a lengthy and interesting document. The report said:

Work was started last year shortly after, the New Ulm convention under the most unfavorable auspices. Parryism was at its height, and was boldly threatening to destroy every trade and labor union that asserted itself. A dearth in business over the previous year had greatly reduced the number of employed. A general movement for a reduction in wages was attempted by thousands of employers, and in some instances was affected, particularly where there were no organizations of labor. The labor leaders throughout the country were quick to grasp this situation. President Gompers of the American Federation of Labor issued a timely warning to the international and local unions under its jurisdiction. No effort was made to secure better conditions for the moment, but unions were cautioned to resist with all their strength every attempt at a reduction in wages. This was the slogan for the year, and that most of the unions succeeded on this plan is evident from statistical reports herewith submitted.

Now that the industrial situation looks brighter for this year it is found that comparatively few strikes have occurred for a restoration of former wage scales or conditions of toil. The triumph of trade unionism is in the fact that we have been able to hold our own under the most unfavorable circumstances.

For the reasons above mentioned but little time was wasted by this federation in promoting new organization work. The officers agreed that the responsibility was upon the federation to protect the movement in this state from suffering a set back. All agreed that the important thing to do was to give our whole support to those unions that were least able to withstand an attack. Now that the industrial sky is clearer you can best judge whether or not we have been successful in our efforts.

A close attention to the business of this office, and a careful observance of the work of many trade unions and central bodies in the state prompts me in the declaration that the labor movement was never in a more healthy condition. But few unions were dissolved during a most unfavorable year. Those that successfully passed through the storm have come out of it with their heads erect, stronger and more determined than ever to take up the struggle in behalf of the cause of labor.

A careful analysis of our financial report will indicate that the federation still enjoys the confidence and support of the great body of the membership of the labor organizations of the state. We have kept up a systematic correspondence with delinquent unions, and have the pleasure of reporting a larger number of reinstated unions which were not with us at the New Ulm convention.

The correspondence for the year has increased over all previous times, and it is with pride that I report every letter immediately and carefully answered, and every receipt acknowledged with reasonable dispatch.

The expenditures for the year average favorably with previous years. Money usually spent in organizing was used to defray our legislative expenses. A comparison with the expenses covering the past eight years, it will be noticed, that the cost to the federation was always greater during years when we were interested in the passage of labor legislation. The receipts were: $3,127.47; expenses, $1,850.20; balance on hand. $1,279.27.

Twenty-two unions have affiliated with the State Federation during the year. Mr. McEwen discussed the condition of trade unionism in the various cities of the state, and urged the need of more attention to the work of organization. Upon this point he said:

If half our reveune was placed in an organization fund, and if the cities in which there are unions would unite with the Federation to promote the work of organization in the cities, some exceedingly good results would surely follow, for I believe that it is more important to strengthen the present unions at this time that it would be to go out into unworked fields, where considerable propoganda work is necessary before we would realize the fruits of our efforts. There is both a practical and a theoretical way for conducting the work of organization. The thing is not so much what we would like to do as it is what we can do. So long as I am secretary-treasure of the Minnesota State Federation of Labor I shall be interested in the work within the borders of this state, and I shall trust to the same effort to be applied in the other states as we are applying here. None of us are capable of thoroughly covering the work of the nation, but we are able to do the most good in our own state. It is our sacred duty to do it, because ours is the only organigation formed for such a purpose. Let us take up the work here and carry it on with a determination that will bring the results to the workingmen and women of this state.

That determined war is being waged against trade unionism today from every influential point of combining manufacturers cannot be doubted or denied. Their lawyers are attempting to outlaw labor; their judges are judging against it; their press is writing almost venomously against it and their preachers are preaching against it with all their might. At no time within our memory has trade unionism ever been subjected to such a cruel test. It is likewise true that some of the weaker soldiers in the cause, weary of the struggle, have concluded that the price of freedom from industrial slavery is greater than they can pay, but on the other hand there are those sturdy optimistic giants upon whose shoulders every reform of the past has rested, who still declare that the ends justify the means, and that the struggle must go on or the workers will sink to a condition far worse than they ever dreamed before. As the fight progresses a gradual change of sentiment takes place, and when the smoke of battle has cleared away it will be seen that trade unionism has emerged stronger and more deeply rooted than it ever has been before.

Just eleven years have elapsed since the Pullman strike. It was thought by many then that organized labor had received a death blow, but it has since developed that although the American Railway Union went down to defeat and dissolution in the Pullman strike, it only paved the way for more powerful trade unions, the like of which have never before been seen. Therefore, we are justified in drawing the conclusion that when history repeats itself, the present struggle against labor unions being more bitter than that of 1894, so will unionism come again with greater force. Unionists who remain unionists throughout these trying times will live to be proud of the sacrifices they are now making, for the time will surely will come when the union labor movement will absorb practically all of the work.

Organized labor is like every reform movement. It will make its rapid progress, and then it will seek its level. It is subject to the universal law in this respect. We in the labor movement have much to learn, though this fact is often disregarded. In the scientific organization of crafts much good will be accomplished for the working people, but the inspiration and sentiment which lead men to organize must be crystallized into practical form. The organization movement must be directed by judgement and the principles of common sense must be applied or the inspiration alone will not carry the movement to ultimate triumph.

The happy optimism of the people who join labor unions, with dreams of accomplishing great things in a hurry soon spends itself and reaction results. Some men think the organizations are worthless and are dissatisfied because the dollars invested did not bring them fortunes.

I have watched the ebb and flow of the tide of organization for a number of years, and notwithstanding the many times that unionism has been compelled to retreat, there comes to me an assurance that no power on earth, not even the gathering force of Parryism, nor the weakness of our own movement—that we all know exists—can prevent the slow but certain improvement of the working people through craft organization. Don't draw any lesson of encouragement because there is an ebb in the tide. The labor movement is an evolutionary one. Great gains have been made in the past and will be made in the future.

We may be passing through some of the hardest years that have been viewed in the history of trade unionism, but we will emerge from the struggle with untarnished sheaths, our heads erect and stronger and better than ever. The effort of capital to crush labor organizations has always resulted in our being better organized as an ultimate conclusion.

The open shop is nothing new. It means the non-union shop, with its long hours, low wages and child labor. It means the employer is the only one that can and should decide what wages his employes should receive for whatever hours of toil he may name.

The advent of a better day in the recent past for the workingmen of our country has been due absolutely to their own organizations, and attributable in no wise to the philanthropy of the employers, or their sense of justice. The great public is beginning to realize that the elevation of the masses can only be brought about by trade unions.

They shout Americanism, patriotism and lots of Fourth of July oratory about the rights of individuals. When they say the rights of individuals, they mean the rights of the employers and dictatorial power in hiring men for the wages and at the hours under the conditions they, the employers, select.

The bandit paper of wealth cannot crush Americanism out of the wage-workers of our land so long as trade unionism survives the attack of corporate greed. The spirit of liberty, as shown in high wages, reasonable hours of labor and working conditions will be supreme, rising high and proud and triumphant, as expressed in the trade unions of our country.

Discussing labor and legislation, Mr. McEwen said:

"Because we failed in the last session of the state legislature to receive respectable treatment from the state law makers is no indication that our movement is a failure. Far from it. Our failure there should be an impetus to us to push our work onward. My experience with politicians, which is by no means limited, has taught me to believe that most of them are guided more by policy than by principle. It is conceded that there are 35,000 members of labor organizations in Minnesota, exclusive of members of the railway brotherhoods. It would seem that this number would be sufficient to command the respect and attention of political parties. That it does not is due to our half-hearted political policy. I can appreciate the sincerity and fear for the progress of the movement along economic lines of those who decry political action in even the mildest form, but we can be harmfully conservative on this matter, just as we can be dangerously radical. If while casting our ballot, or selecting our candidates for political office we would be better union men than we are partisans the political situation would be very much more favorable to us than it is today.

I would recommend that a good, strong committee be appointed by this convention to evolve a plan of organization that will lead to the selection of a number of candidates for the legislature fresh from the ranks of organized labor. It is none to soon to act now. An analysis of the political situation in every district in Minnesota should be made. Our efforts should be centered in the districts of the state where we are best able to score a victory. If we succeed in choosing and electing a few honest, able and sincere men, it can be depended upon that our forces will be considerably strengthened two years later. Our first purpose now should be to break in. The moment this is done we will find a number of good friends there coming to our support.

Regarding the call for a convention, to be held in Chicago on June 27, to launch the "Industrial Movement of America," Mr. McEwen styled it a Utopian organization, and asked if those back of the movement are really anxious to establish industrial unionism among the workingmen of America, why do they not affiliate their organizations with the American Federation of Labor. There is a well-grounded suspicion that most of the men who are supporting this new movement are doing so because of their ambition for leadership, rather than their real interest in the welfare and security of labor.

There are so many matters of timely importance to organized labor in Minnesota that might be discussed in this report, but time will not permit. I trust that each of us will recognize the duty we owe the cause of labor, and will devote our best efforts here to promote the work in this state. I know that some of us feel that the movement has not progressed as rapidly as it should, but we should congratulate ourselves that there has been no set back during the year. When we consider the terrible opposition to which we have been subjected by the Parryites, it ought to be a source of gratification to us to know that our movement is as strong today as it ever was.

The Greatest Clothing Sale Ever Held in Duluth.

A Season's Business to Be Done in Fifteen Days.

The New Union Clothing and Shoe House, which opened its doors at 407 West Superior street, on May 20th, with the best selection of high-grade clothing, shoes and furnishing goods for men, boys and children ever brought to Duluth, finds itself overstocked. Not being able to open our new store until May 20th, after the heavy early Spring trade was mostly done, and having bought very heavily of the very latest and most stylish goods on the market, we now find ourselves overstocked on the very latest, most stylish and reliable productions of the market. It is an imperative necessity for us to reduce this beautiful new stock of high-grade Clothing, Shoes and Furnishing Goods inside of 15 days, and in order to do so effectually and quickly we have adopted the only known resource, and that is to CUT THE PRICES AND CUT THEM DEEP. We are arranging this great sale on a larger scale than any clothing sale ever held in Duluth. FIFTY EXPERIENCED SALESMEN AND SALESLADIES WILL BE HERE TO WAIT ON YOU. Our store will be closed all day Tuesday and Wednesday in order to mark down the prices, display the goods and arrange to handle the crowds.

Watch Wednesday's Herald for Particulars and Prices.

Wait for the Greatest Clothing Sale Ever Held in Duluth.

Thursday Morning at 8:00 O'clock the Sale Will Begin.

Union Clothing & Shoe House

407 WEST SUPERIOR STREET.

HUGE TASK.

It was a huge task to undertake the cure of such a bad case of kidney disease, as that of C. F. Collier of Cherokee, Ia., but Electric Bitters did it. He writes: "My kidneys were so far gone, I could not sit on a chair without a cushion; and suffered from dreadful backache, headache and depression. In Electric Bitters, however, I found a cure, and by them was restored to perfect health. I recommend this great tonic medicine to all with weak kidneys, liver or stomach." Guaranteed by all druggists. Price 50c.

MANY AUTOMOBILES BURNED.

New York, June 12.—Nearly 100 automobiles belonging to various department stores were destroyed last night in a fire in the garage of the Rainer Vehicle Equipment company, at Ninth avenue and Twenty-seventh street. The loss on the machines is estimated at $350,000, in addition to which the plant of the garage was damaged to the amount of $75,000. The premises of the Corbett Chair company and the Sutro Braid company occupying upper floors of the building were also damaged to an amount estimated at $100,000. The fire is believed to have ben caused by an explosion of gasoline.

TWO GIRLS SHOT.

Plattsmouth, Neb., June 12.—Max Ploehn shot and killed his cousin, Miss Alma Goos, and shot and seriously wounded her sister Emma at their home, two miles south of here, and made his escape. He started in the direction of the Missouri river and is believed to be hiding in the bottoms or to have drowned himself. The shooting is said to have been the result of jealousy. Ploehn had been paying attentions to both of the young ladies, neither of whom would accept them.

Ayer's Hair Vigor. Hair turning gray? Why not have all the early, rich color restored? Ayer's Hair Vigor will do this every time. Not a single failure. Stops falling hair also. J. C. Ayer Co., Lowell, Mass.

Why Endure Pain

the excruciating misery of blind, bleeding, itching piles, when there is an absolute cure?

Dr. Perrin's Pile Specific is an internal remedy that painlessly produces a positive and lasting cure. Pleasant to the taste, it is absolutely free from opium, cocaine or other injurious drugs. Simply take a spoonful three times daily before each meal.

Dr. Perrin's Pile Specific
The Internal Remedy

For dyspepsia, indigestion, constipation, biliousness, catarrh of the stomach and kindred ailments it is the greatest remedy that has ever yet benefited mankind.

Think what a relief it would be to you to be rid of these troubles and to avoid the almost certain consequence of Piles.

IMPRISONED BY STRIKERS

Frenchman and His Family Almost Starve to Death.

Paris, June 12.—During the recent labor troubles at Limoges a strange situation presented itself.

M. Beaulieu, an employer, was held a prisoner with his wife and children and servants inside his factory by strikers who surrounded the place night and day and refused to allow any of the occupants to depart or to permit any food to be taken to the building. For twenty-four hours they remained without food of any kind, and after that were allowed only two pounds of bread for eleven practically starving persons. For two days the Beaulieau household managed to subsist on the contents of their larder. All day and all night, strikers, men and women, kept a cordon round the factory, and effectually prevented by force the butcher, the baker and grocer from entering the building. The municipality shrank from bringing out the military to succor the employer for fear of a repetition of the conflict of a few weeks ago in the same town, when blood was shed and a boy was killed. However, when the situation of the Beaulieus became desperate, as they had eaten the last dry crust in their house and the factory which adjoins it, the mayor, M. Labuselere, who is popular among the working classes, and in particular among the strikers, interfered.

After parleying with the blockaders he was allowed in, and found all of the occupants on the verge of starvation, and the porter's children crying with hunger. A policeman arriving afterward with four 2-pound loaves of bread, the mayor appealed to the strikers surrounding the building to let him pass, but was met with shouts of "No, no; they shall have only one loaf, nothing more."

"But there are eleven persons within, including four little children, and they have been since yesterday without an atom of food," remonstrated the mayor.

"Listen we can," answered the strike leader, "our children have not eaten their fill for two months."

The mayor literally implored the crowd to let the four loaves go in, but vainly. He told the strikers to go to the town hall if their children lacked food. If they cared nothing for their old employer's suffering, let them remember the children, among them the children of a porter, a wage earner like themselves.

"No, no," shouted the crowd. "He is a renegade. One loaf only shall he have."

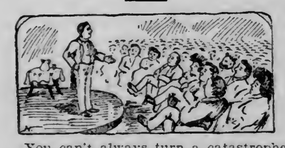
"Two loaves at any rate," entreated the mayor, the tears in his eyes. "No; only one," the crowd still cried.

"You are mere savages, heartless savages," roared the mayor, beside himself with indignation and shame. "You don't deserve that I should ever stand up for you. I wash my hands of you. I don't care what becomes of you."

The strikers, utterly unmoved, kept back three of the loaves, and two pounds of bread was all the seven adults and four children who had remained without food for twenty-four hours were allowed to eat.

It was not until a day later that the blockade was raised and the imprisoned people allowed to go about at will.

LITTLE BUSINESS TALKS.



You can't always turn a catastrophe into an accident, but you can usually prevent an incident from growing into a catastrophe—by heroic use of the wants ads. For instance—if your partner has balked, or best helper has mutinied, or tenant broken a lease, a mere reading of The Herald want ads. may clear the atmosphere—a quick use of want ad. space may restore you to cheerfulness.

A half hour's reading of the want ads. tonight may pay you a higher wage for your time than you have ever earned in your life.

If you "know real estate" in Duluth you will be able to "read between the lines" in the real estate ads. And sometimes this is the kind of reading that leads to fortune.

It's very little trouble to move from one furnished room to another. The "other one"—the one that will enable you to get to work easier—is probably advertised tonight in The Herald.

Pain may go by the name of rheumatism, neuralgia, lumbago, pleurisy. No matter what name the pains are called, Hollister's Rocky Mountain Tea will drive them away. 35 cents, Tea or Tablets. Ask your druggist.

VISIT WAS BRIEF

Three Prominent State Officials Spent Sunday Afternoon Here.

State Department Will Push Matter of Getting Manufactories.

Governor John A. Johnson, State Auditor S. G. Iverson and Secretary of State P. E. Hanson, were in the city for several hours, yesterday afternoon, on their return from Bemidji, where they held a meeting of the state drainage commission Saturday, to discuss the operation of the new drainage law.

The meeting aroused a great deal of interest and it is believed that much good will result from it. There were about seventy-five persons present from outside Bemidji, eleven counties from Itasca westward being represented. St. Louis county was not represented.

Following the meeting of the commission an organization to be known as the state drainage league was formed and steps are to be taken for a mass meeting at Crookston the first Tuesday in August when the drainage question will be gone into thoroughly and papers will be read from prominent engineers and drainage experts from all over the country.

While in Duluth the state officials looked over the city for a time and took a ride down Park Point, inspecting the new aerial bridge across the ship canal.

State Auditor Iverson called attention to the article in The Herald Saturday evening, with reference to manufacturing industries in this state. Mr. Iverson said that his department will follow this up with figures and statistics showing the high standing of Minnesota as a consumer of manufactured articles and its low standing as a producer of such articles. An effort will also be made to set forth the fine opportunities offered for manufacturing in this state by reason of the water powers to be found at so many points that can be developed and which would mean cheap power for manufacturing.

ART OF MUSIC IS IN DANGER

Rev. M. S. Rice Finds Too Many Mechanical Devices

Rev. M. S. Rice in the First Methodist church last evening expressed himself as very much displeased and somewhat disgusted with musical machines. He was preaching on "Harps on the Willows," taking his text from the one hundred and thirty-seventh psalm: "We hanged our harps upon the willows in the midst thereof." He claimed that as there is a time and place for all other things, so are there times and places for music. He declared that there are too many music machines and that the beauty and the sacredness of music is becoming lost when alleged harmony can be turned out of a metallic entertainer at will.

"Music," said Mr. Rice, "is not in the neck of the singer. It is far more important than that. Were I a teacher of music I would lay more stress upon the emotional part than upon the throat and the phrasing of the notes. But music is in danger of becoming a lost art with the number of music boxes manufactured these days. Down in the Union depot is a mechanically played banjo, which for the paltry sum of a nickel will turn out for you alleged music with metal fingers picking the strings. There are music boxes that will sing for you with great attention paid to the phrasing. But can any soul be displayed in such singing by an instrument?

"Anybody can buy these instruments and their rubber songs. They play their music in the most unappropriate places and who protests. A few days ago I heard 'The Holy City' being ground out in a saloon on the Bowery, its sacred notes mingling with the coarse language of blasphemy with which the saloon reeked. Only a short time ago, in passing another saloon where one of these machines was located, I heard with my heart burning cold within me, jumbled up with the sounds of brutality, vulgarity and strife, the strains of that beautiful sacred song 'Nearer My God to Thee' played in a saloon. They play the songs of Jerusalem in Babylon and the songs of Babylon in Jerusalem. They know no better or they could not do these things. I tell you the sooner there are no more mechanical players manufactured, the better for humanity. It is destroying our sense of music."

A REED SHAKEN WITH THE WIND.

Without Will Power, Courage, Ambition, Energy or Hope, the Dyspeptic Is Willing to Give Up the Struggle.

The confirmed dyspeptic has as little interest in life as any human being. He is unfitted for its duties and is indifferent to its charms. He is unable to enjoy the business and social relations that constitute the life of the average man. All his hopes are absorbed by the one hope to get well and again be able to enjoy the good things of life. Until this is realized, he is sick at heart and feels himself to be of little use.

Stuart's Dyspepsia Tablets are the sufferer's tree of life. They will cure him and bring him health and happiness just as sure and certain as he takes them. They are sure because they are natural and no other cure but a natural one is sure. They act on the food and digest it just as well as a stomach would. They contain exactly the same chemical properties as the digestive fluids of the stomach.

By putting Stuart's Dyspepsia Tablets in a bottle or jar with any kind of food; meats, eggs or vegetables, with sufficient amount of water, the process of digestion is carried out just as it is in a healthy human stomach and in the same time. There is consequently no unnatural disturbance of the digestive organs resulting from the use of Stuart's Dyspepsia Tablets. They relieve the weak and worn-out stomach of its work and permit it to rest up and recuperate and regain its normal health and strength.

A well-known Buffalo physician says: "I prescribe Stuart's Dyspepsia Tablets on all occasions as a relief for weakened and run-down stomachs. I find they contain all the ingredients necessary for the proper digestion of the food and will do more to give the stomach the needed rest than any medicine I could prescribe. They have never failed to give immediate relief in all my cases and I do not hesitate to recommend them to all sufferers from dyspepsia."

Stuart's Dyspepsia Tablets are for sale by all druggists at 50 cents a box.

DRAINAGE CONFERENCE

At Bemidji Was Well Attended and Successful.

St. Paul, June 12.—A new era in the reclamation of Minnesota's 3,000,000 acres of swamp lands in the northern part of the state is predicted by state officials who attended the state drainage conference at Bemidji last Saturday. Governor John A. Johnson, who returned last night from the conference, where he made an address, predicts that the meeting will bring about many good results.

"The meeting of the drainage commission with the legislators and business men of Northern Minnesota was eminently successful," said the governor. "Nine or ten counties were represented, and there must have been nearly 100 people outside of those who live in Beltrami county. Many ideas were advanced as to the best methods of draining state lands, and although no definite action as far as the drainage commission is concerned was taken, the interchange of opinions among those who are on the ground and know the exact conditions will be beneficial."

After the meeting of the commission the State Drainage league was organized with the following temporary officers: A. G. Bernard of Cass county, chairman; H. G. Hays of Beltrami county, secretary. The following executive committee was chosen: A. L. Cole of Cass county, A. D. Stephens of Polk county, A. A. Tone of Itasca county, Asher Murray of Wadena county, O. B. Ekman of Roseau county, A. G. Bernard of Cass county and H. G. Hays of Beltrami county. This committee will prepare an address to be published in the state papers and will draft a constitution and by-laws, arrange a program for a mass meeting which will be held at Crookston on the first Tuesday of August, and issue an invitation to every one interested in drainage to participate in the meeting. Papers from prominent engineers and drainage experts will be read. Governor Johnson will be invited to attend and deliver an address. It is expected that the state drainage commission will attend.

REVOLUTIONISTS

Gather at 'Frisco to Plot Against Guatemala.

San Francisco, June 12.—Manuel Dieguez, a Guatemala lawyer and revolutionary candidate put forward by Barillas, ex-president of Gutamela, for the president of the Central American republic, is said to be hurrying to San Francisco from Southern Mexico to join Barillas and party here.

Members of the local Guatemala colony believe that Barilhas and his adherents have decided upon this city as a rendezvous pending developments that may give them an opportunity to filibuster against the administration of President Calvera.

The call says today that Barillas has announced to several friends that he will lead a revolutionary party against Calvera and that he has simply delayed action until he can recuperate his failing health which, he says, is one of his reasons for coming to San Francisco.

TWO HUNDRED WORDS.

Their Possibilities Shown By a Filipino Primer.

Indianapolis, Ind., June 12.—Sidney Carleton Newsom, formerly instructor of the senior English classes at the manual training high school of this city, for two years assistant superintendent of the schools in the Philippines, has made a reputation as the author of a series of books recently adopted by the department of education for use in the schools of the Philippine islands. Mr. Newsom, if he were in the United States, would have no trouble in being near the head of the class of the "six most popular authors," as the initial sale of his books numbered 97,000, and many thousands are yet to follow. These books are six in number, beginning with a primer and concluding with a grammar, providing material for three and one-half years' instruction in English.

These books, except the grammar, are admirably illustrated with original drawings and photographs. Some of the pictures are in colors. The primer contains 130 lessons, which deal with material selected almost wholly from the life of the islanders and familiar to Filipino children from earliest childhood.

The primer shows what may be done with a vocabulary of 200 words used in every-day speech in teaching children a foreign language. One of the series is a language book in which the pupils get thorough and continual practice in speaking and writing English. It is not unlikely that under the Newson system the Filipinos may learn to spell English.

In the second reader, at the head of one of the lessons, is a picture of a bare-headed, barefooted Filipino youngster 3 years old. The text that follows shows that some of the episodes in Filipino family life are much like those that happen in Indianapolis. Here it is:

THE LOST BABY.

"Fernando, have you seen the baby?" asked his mother one day. "He was playing here in the yard, but I can not find him now."

"Perhaps he has run into the street," said Fernando. "I will look for him."

But the baby was not in the street. He was not in the field near by. * * *

Mr. Newsom has recently returned to the United States because of his health, and is now assistant professor of English at the university of Arizona at Tucson.

RABBI MENDEL SILBER TO STAY

Congregation Temple Emmanuel Re-Elects Him at Increased Salary.

Rabbi Mendel Silber has been re-elected by the Temple Emmanuel congregation at a largely increased salary. Rabbi Silber will leave tomorrow for Philadelphia, where he is to preach the opening sermon at the Israel synagogue of the annual national Jewish convention. He will then go on to New York City and superintend the publication of a work he has written, entitled "The Jewish Renaissance."

The weekly services of the temple closed yesterday with confirmation rites, there being eight candidates to receive the sacrament. These were Miss Jennie J. Cowl, Enid Freimuth, Jeannette Gomberg and Samuel Gingold, Victor L. Levin, Herman Levy and Isador Levy.

The rites were conducted with an interesting program, including music, recitations, responsive readings and the reading of the scroll, after which Rabbi Mendel Silber administered the scroll. This was followed by the administering of confirmation by Rabbi Mendel Silber, who presented the candidates with their certificates, with his blessing.

ARE CLOSE SECONDS

High School Track Athletes Do Well at Ironwood.

Beaten Out For First Place By Bessemer Team.

Outpointed by only seven, Duluth Central high school track team had to take second place in the triangular meet at Ironwood, Saturday, between the Duluth, Bessemer and Ironwood teams. Bessemer won first place with 48 points, Duluth was second with 41 and Ironwood was third with but 23.

Maginnis did good work for the Duluth team, scoring first place in the 120 and 220 hurdles, and third in the broad and high jumps. Parks won the shot put and Whipple the pole vault.

The Duluth team also won the relay race. Maginnis got away with the pistol, and took the lead, which was increased by each man of the team. Maginnis, Parks, Jaques and Smith composed the relay team, and with with Nelson, Clausen and Whipple made up the Duluth contingent at the games.

The following were the results of the different events, with the records in each:

100-yard dash—McLain, Ironwood; Zeh, Bessemer; Smith, Duluth. Time, 11 seconds.

Shot put—Parks, Duluth; Kollender, Bessemer; Nelson, Duluth. 37 feet 7 in.

220-yard dash—Zeh, Bessemer; Smith, Duluth; McLain, Ironwood. Time, 26 3-5 seconds.

Hammer throw—Kollender, Bessemer; Nelson, Duluth; Cudo, Bessemer. 106 feet.

440-yard dash—Massie, Bessemer; Smith, Duluth; Jacques, Duluth. Time, 58 seconds.

Running high jump—Burns, Bessemer; Munro, Ironwood; Maginnis, Duluth. 5 feet.

Pole vault—Whipple, Duluth; Dedo, Bessemer. Seven feet.

Half mile run — Massie, Bessemer; Jacques, Duluth. 2:13.

120-yard hurdles—Maginnis, Duluth; Snyder, Ironwood. 17 3-5.

Running broad jump—Shove, Ironwood; Snyder, Ironwood; Maginnis, Duluth. 18 feet 2 inches.

220-yard hurdles—Maginnis, Duluth; Snyder, Ironwood.

Mile run—Reddy, Bessemer; Clausen, Duluth. 5:13.

Discus throw—Zeh, Bessemer; Kollender, Bessemer; Parks, Duluth. 86 feet.

Much of the success of the team is due to the efforts of Coach E. L. Campbell, who has taken a deep interest in the track sports, and has spent much time in training the candidates for the team.

AMATEUR BASEBALL

Oak Halls Win Twelve Inning Game From Wizards.

In a close twelve-inning contest, the Oak Hall team won from the Wizards by a score of 6 to 5 on the Thirty-second avenue grounds, yesterday afternoon. The Oak Hall team tied the score in the ninth and won out in the twelfth.

The line-up:

Oak Halls—		Wizards—
Swanstrom	p.	Anderson
Perring	c.	Shallman
Smith	1b.	Hanson
Flynn	2b.	Vickstrom
Laine	ss.	Olson
Wiles	3b.	Johnson
Ryan	lf.	Graham
Mathinson	cf.	Setterholm
Feer	rf.	Suderland

* * *

The Big Duluth team won at Lake Nebagamon yesterday by the score of 6 to 5.

Summers pitched good ball for the Duluth men, striking out eleven batters, and allowing but five hits, while Wentland was hit for ten safe ones, and struck out seven.

Fitzgerald knocked out a home run for the Duluth team in the second inning.

* * *

The Cascades won from the Aerials yesterday afternoon by the score of 6 to 1. The line-up was as follows:

Cascades—		Aerials—
McGraw	c.	J. Brown
P. Schulze	p.	J. Banick
F. Rose	1b.	S. Forsell
A. Johnson	2b.	E. Anderson
R. Cain	3b.	H. Reck
G. Johnson	ss.	J. Danielson
A. Schulze	rf.	B. Burke
L. Wipson	cf.	J. Hoppa
G. Johnson	lf.	M. Nichol

Will Deliver Address.

The Elks' memorial address at Stillwater, Minn., will be delivered this year by Rev. Roderck J. Mooney of this city, pastor of the St. Luke's and Holy Apostle Episcopal churches and chaplain of the state association of the B. P. O. E. Mr. Mooney was extended the invitation from the Stillwater lodge through Judge Nethaway and the mayor of Stillwater, who were here attending the Elks' state convention last week.

I fight the foes that spoil your health
(That's why I'm dressed in metal);
I bring you food for Red Blood Wealth—
Keep you in finest fettle.
My motto is "Get Rosy," and
The food I preach is right.
For it's strength-food and delicious—I'm
THE AP-I-TE-ZO KNIGHT.

CHASTISED THE WAITER

Colored Man Gets Revenge For Series of Slights.

In what he claims was revenge for a long series of slights, J. N. Richey, a colored barber, thrashed Edward Dugan, a waiter in the Boston cafe, Saturday evening, as the latter emerged from the restaurant.

Richey is claimed to have grabbed the waiter by the throat, rushed him against the side of the building, and, shaking his fist under the man's nose, told him in future to act with a little more civility.

According to Richey's claim, he has been eating in the restaurant since it opened, but of late has been subjected to a series of slights from the waiter in question. The slights consisted of such acts as overcharging, serving raw eggs, neglecting to get plates until the food was cold, refusing to serve the small side dishes which went with meat orders, and other annoying acts.

Mr. Richey says that he has always tried to be as unobtrusive as possible, sitting at the end of the counter, and frequently waiting, when there was a crowd of white people in the restaurant, knowing that many of them would object to the presence of a colored man.

Mr. Richey is one of the old settlers in Duluth, being a member of the Old Settlers' association and the Garfield Republican club, and he has always borne a fine reputation in the city.

GRAND BALL!

Given by The White Rose Society at Lester Park Pavilion tomorrow night, June 13th, 1905. Rain or shine. All cordially invited.

EDITOR COPIES OLD ALMANACS

Because He Refused to Quit Until Contract Expired.

Wabash, Ind., July 12.—A curious condition of affairs prevails on an Indiana newspaper at this time, wherein an editor is copying the contents of an old almanac for lack of other editorial duties, while he is drawing a comfortable salary for his services in this line of "editing."

About eleven months ago A. E. Blunck of Johnstown, N. Y., bought the Lafayette Call, and ran the same without achieving either glory or profit until three weeks ago, when he grew weary of doing business for naught and sold out to another newspaper of that town. On the payroll of Mr. Blunck was L. Armstrong, who did the heavy editorial work, and he was fortified with a contract for one year.

When the Call was disposed of Mr. Blunck gave Mr. Armstrong $20 in addition to his salary due and turned him out to grass. Editor Armstrong was not inclined to be dismissed thus lightly, and pulled the contract on his employer. "This contract calls for salary until July," said Mr. Armstrong, "and I shall expect you to pay me the salary until the year is up."

Mr. Blunck was fazed by this demand, but responded that he would carry out the agreement. "But," said he, "you must report for duty at a designated place, do the editorial work that I assign you, earning the money just as though the Call were running." Armstrong assented, and Blunck produced a stack of almanacs and other literature which he had before the astonished Armstrong with injunction to write out in good, legible, long hand what he found therein. Armstrong has been regularly transcribing the stuff and drawing his money, and will continue to do so until the contract expires.

He is quite happy and enthusiastic as though the matter were faithfully printed each day instead of being "turned in" to the gaping waste basket, while the thrifty Mr. Blunck is content in the contemplation of his employe busily earning the weekly stipend.

TESTIMONIAL CONCERT

TENDERED TO
Mr. Gerard Tonning
Under the management of George L. Tyler, Steinway Hall, Wednesday, June 21st.

NEW YORK MAY SUE ARKANSAS

To Redeem Bonds Repudiated Twenty-Five Years Ago.

Little Rock, Ark., June 12.—Information has reached Little Rock that an effort will shortly be made to compel the state to redeem the state bonds that were repudiated by the Fishback amendment to the state constitution in 1880. This time the state of New York will be plaintiff. By the provisions of an act passed by the New York legislature recently, the state is authorized to receive from the owners the bonds or obligations of other states and attempt their collection. The proceeds of such collections are to go into the school fund. It is known that there are parties in New York who hold some of the repudiated bonds, and who have on several occasions made inquiry as to their validity. Should these bonds be assigned to the state of New York for the benefit of the school fund the state will then proceed under the terms of its new law to sue the state of Arkansas for recovery.

The bonds repudiated by the Fishback amendment are as follows: Funding bonds, numbered 491 to 1860, inclusive of both numbers being the Holford bonds delivered to F. W. Caper and an inheritance from the Real Estate bank in the early part of the state's history, $1,370,000; Memphis & Little Rock railroad aid bonds, $1,200,000; Mississippi, Ouachita & Red River railroad aid bonds, $600,000; Little Rock Pine Bluff & New Orleans railroad aid bonds, $1,200,000; Little Rock & Fort Smith railroad aid bonds, $1,000,000; Arkansas Central aid bonds, $1,350,000; levee bonds, $365,846.05; total, $9,725,846.05.

The Duluth Music Co.

is now in its

NEW LOCATION

222-224 W. 1st St.

NO TRACE YET FOUND

Of the Missing Wermen Boy at Tower.

Tower, Minn., June 12.—The search for Gus Wermen, the 5-year-old boy who mysteriously disappeared eight days ago, was continued yesterday by several hundred men, but it was fruitless. The woods in the vicinity of the town were thoroughly scoured by searching parties under the direction of Chief of Police Beatty, but not the slightest trace of the child was found.

MINISTERIAL CHANGES

In France Will Be Arranged on Tuesday.

Paris, June 12.—It is expected that several diplomatic and ministerial changes resulting from the resignation of M. Delcasse until recently foreign minister, will be settled at tomorrow's meeting of the cabinet. Leon Bourgeois probably will succeed M. Elhourd as ambassador at Berlin thus inaugurating a new conciliatory policy concerning Morocco. Premier Rouvier is still undecided about retaining the portfolio of foreign affairs with the exception that M. De Freycinett or M. Constans, ambassador to Turkey, will enter the foreign office if M. Rouvier concludes to retain the finance portfolio. There is reason to believe that the conferences etween Prince Von Radolin, the German ambassador to France, and Premier Rouvier have shown that Germany does not make an international conference on Morocco a sine qui non. This permits the consideration of other direct means for an adjustment between France and Germany.

DRAMATIC SCENE

At Commencement Exercises of Ohio High School.

Mansfield Ohio, June 12.—A dramatic scene was enacted near the close of the commencement exercises of the Mansfield high school, when the "brass sextet," composed of young men from the graduating class, were chased off the stage by Supt. Van Cleave because they indulged in a little pleasantry and were not allowed to play the selection. When the boys appeared, Joe Wise, the bass horn leader, pulled out a long string of wienerwurst from the horn, whereupon the superintendent arose, white with anger, gathered up the wieners, threw them into the wings and drove the young men off the stage. At the conclusion of the program members of the sextet stated that Supt. Van Cleave refused to give them diplomas, and they anticipated that they would have to appear before the Board of Education. The sextet consisted of Osborne Meese, son of Rev. Dr. D. J. Meese; Charles Barton, Thomas Lemon, Albert Twitchell, Harry Deyarmin and Joseph Wise. It was a decided sensation and the one topic of conversation at the close of the exercises.

LET WIFE GO

To Join Former Lover and Was Arrested.

St. Louis, Mo., June 12.—After magnanimously giviung up his wife so that she might return to an old sweetheart, Fred C. Lowney, of East St. Louis, but formerly of Tulaire, Cal., was astonished to find himself charged with wife abandonment, and indignantly surprised when he was locked up for the alleged offense.

The story of Lowney's marriage to Mary Clary is one of the strangest ever heard by the police of the East St. Louis department, as it involves a romance begun in the columns of a matrimonial paper and ends in the incarceration of a man who duplicated the celebrated act of John Ruskin, the great writer, who gave his wife up to Sir John Millais, the painter.

Lowney says he selected the description of a girl he thought would suit him as a partner for life. "We, or at least I, became smitten. I proposed marriage and was accepted. Two weeks after our first communication by mail, May 25, we were married here in East St. Louis and went to housekeeping.

"A few days after the wedding my wife told me, with tears in her eyes, of an old sweetheart, who went insane when he heard the news of her marriage to me. Last Wednesday we packed our possessions and said good-by; I wished her good fortune and joy forever. Last night I was arrested, charged with abandoning and not supporting a wife I had merely permitted to leave me when she showed that she wanted to leave."

LASHED BY WIFE,

While Husband "Covered" Him With a Gun.

Washington, Ind., June 12.—A sensation was created upon the main street of Odon when James Churchman, a business man, held up James Beard at the point of a revolver while Mrs. Churchman administered a whipping with a blacksnake whip.

It is charged that Beard had been talking about Churchman's wife. The husband, learning of the talk, purchased a whip, and, accompanied by his wife, went in search of Beard, who was stopped at the point of a revolver.

Becoming tired from beating the man, Mrs. Churchman struck him over the head with the butt end of the whip, knocking him senseless. A big crowd witnessed the public chastisement.

MORE RURAL CARRIERS.

Washington, June 12.—(Special to The Herald.)—The following rural carriers have been appointed: Brainerd, Route No. 1—E. C. Simpson, carrier; Alfred G. Simpson, substitute. Route No. 2—Charles S. Peterson, carrier; John H. Peterson, substitute. Fort Ripley, Route No. 1—Fred H. Hovey, carrier; Leon J. Clouse, substitute.

Toronto and Return $20.

Account the International Sunday School association meeting at Toronto, Canada, the Duluth, South Shore and Atlantic railway, announce the following low round trip rates from Duluth:

All rail, direct.....$20.00
Rail to Sault Ste Marie, steamer to Owen Sound, thence rail to Toronto..... 23.50
(Including meals and berth on steamer.)
Rail to St. Ignace, D. & C. steamer to Port Huron and rail to Toronto..... 19.35

Tickets on sale June 18th, 19th, 21st and 22nd, which can be extended for return passage up to August 25.

MEDICAL OPINIONS OF

BUFFALO LITHIA WATER

Experience "Fully Demonstrates the Value of Buffalo Lithia Water as a Solvent of Uric Acid, and a Valuable Therapeutic Agent in the Treatment of Gout."

L. H. Warner, A. M., Ph. G., M. D., Brooklyn, N. Y. In a paper entitled "The Treatment of Gout, Uric Acid Diathesis and super-induced Cystitis in the cases of two idiosyncratic Patients," gives full clinical notes of these interesting cases, and in a lecture before the recent meeting of the Alabama Medical Association showed stereopticon views of the blood and urine of these patients in different stages of improvement. He says: "My former good results from the use of BUFFALO LITHIA WATER in cases of Rheumatism due to Uric Acid intoxication led me to suggest this agent to my patients. The use of nitrogenous foods was restricted and a full half gallon of BUFFALO LITHIA WATER per day was ordered to be taken. I was more than surprised at the amount of Uric Acid sand eliminated with each urination, and three weeks from the beginning of treatment not a trace of the former cystitis existed, as the only medication used, and in four months, with BUFFALO LITHIA WATER we find an increase of 5% Hæmoglobin, 200,000 red cells and a normal count of white cells, while the urine appears without any pathological factors. These cases fully demonstrate the value of BUFFALO LITHIA WATER as a solvent of Uric Acid and a valuable therapeutic agent in the treatment of Gout."

"THE MOST RELIABLE SOLVENT IN CHRONIC INFLAMMATION OF THE BLADDER AND RENAL CALCULI."

Louis C. Horn, M. D., Ph. D., *Professor of Diseases of Children and Dermatology in Baltimore University*, writes: "Having used BUFFALO LITHIA WATER in my practice in the past eight or nine years, I find it the most pleasant and most reliable solvent in Chronic Inflammation of the Bladder and Renal Calculi; also in gouty and rheumatic conditions. It is a remedy of great potency."

"UNDER A DEBT OF GRATITUDE TO THIS MOST EXCELLENT WATER FOR WONDERFUL RELIEF."

Wm. C. Wile, A.M., M.D., LL.D., *of Danbury, Conn.*, reports the following (*New England Medical Monthly*, December 15, 1888): "In a recent outbreak of Nephritic Colic in our own person, BUFFALO LITHIA WATER was speedily cut short, the attack, under the quickly passed, and the debris which followed showed a thorough cleaning of the kidneys and bladder of all foreign substances. All of the reflex symptoms and sequelæ were promptly relieved, and we feel under a deep debt of gratitude to this most excellent Water for wonderful relief."

Voluminous medical testimony on request. For sale by the general drug and mineral water trade.

Hotel at Springs opens June 15th.

PROPRIETOR, BUFFALO LITHIA SPRINGS, VA.

BIGELOW IN PENITENTIARY

Famous Milwaukee Embezzler Incarcerated at Fort Leavenworth.

Leavenworth, Kas., June 12.—Frank G. Bigelow, the former Milwaukee banker, was brought to the United States penitentiary at Fort Leavenworth at 7:40 last night. John Speciate, a counterfeiter, under a five-year sentence, was brought along as a fellow-prisoner with Bigelow, and they were in charge of Andrew Johnson and Charles Kelly, deputy marshals. Gordon Bigelow, a son, and Dr. Bigelow, a brother, living in Chicago, accompanied Bigelow.

Bigelow bore up fairly well during the trip, except at Moline, Ill., where he broke down and wept. At another point the son, Gordon Bigelow, broke down, and the marshals informed him he was having a bad effect on his father. Bigelow seemed anxious to avoid the gaze of curious people and reporters. He wore an old slouch hat and was not nearly as neatly dressed as the counterfeiter, who was brought with him.

On making the turn on the walk on the Riverside driveway, at Fort Leavenworth, when the penitentiary loomed up in front of the party, the counterfeiter showed a disposition to weaken. When he trembled, Bigelow spoke words of encouragement to him. Bigelow, it seems, was not in jail at any time since his defalcation was discovered, and when the keys were turned on him, after passing into the penitentiary sally port, last night, he remarked that it was the first time he was ever in prison.

Warden McClaugher remained up stairs in his office, and no special ceremony was shown. Deputy Warden Lemon was at the second or inner gate, and both prisoners were told to step into the deputy's office. Bigelow gave his name as Frank G. Bigelow, age 58. He was searched, and some plain jewelry and a small sum of money was taken from him. He was told to keep his citizen's clothing until morning. He asked no questions, and was assigned to a regular isolated cell, with specials, to spend the night. At 8 o'clock today he took a bath; given a middle grade prison suit and Bertillion measurements, and front and side view pictures taken.

The brother and son of Bigelow, it is said, requested that Bigelow be assigned light work. This will not be determined until after the prison physician examines Bigelow and reports on his condition, and Warden McClaugher has a talk with him. There is a demand for prisoner clerks, and Bigelow will have a position of this kind.

Bigelow's prison number is 4717. If his health is not good, Bigelow may, after a few weeks, be assigned to Capt. Carter's old position of prison hospital clerk. At first he will be thrown in contact with negroes, Indians and all kinds of prisoners.

NOVEL AUTO RACE

By Bemidji and Cass Lake Men Proposed.

St. Paul, June 12.—William Olson, a motorist of Bemidji, and Walter Carlson of Cass Lake, Minn., have written to the Automobile Club of St. Paul asking whether it will be possible for them to secure a position on the programme of racing events July 8 at the fair grounds.

Olson is the owner of a 12-horse power car while Carlson recently purchased a mysterious looking motor which is said to be 8 horse power. Both machines are speedy and the friends of the rivals make claim of superiority for each.

To make the matter more binding it is reported that Olson and Carlson are both suitors for the hand of the same young woman. Last week they clashed in the home of the young woman and sneering remarks were made by both men. The result was a challenge to an automobile race the prize to be the favor of the girl and the losing machine. According to the conditions of the race the winner is to have both cars and one month in which to pay his attentions to the woman undisturbed by the loser.

Olson and Carlson are so confident of the outcome of the race that they want to pull it off during the 1905 St. Paul Auto Carnival races which will be held in this city July 6 and 8, in the presence of thousands of spectators from all over the country.

They write that the young woman has agreed to the terms of the contest and has promised to be in the grand stand to see the result of the race.

Secretary Ledy replied that he would take up the matter with the race board.

Many children inherit constitutions weak and feeble, others due to childhood troubles. Hollister's Rocky Mountain Tea will positively cure children and make them strong. 35 cents, Tea or Tablets. Ask your druggist.

BOY DROWNED.

Slipped From Logs In the Fishook River.

Park Rapids, Minn., June 12.—(Special to The Herald.)—The 8-year-old son of Mr. and Mrs. James Revoir was drowned Friday afternoon. He was playing on a boom of logs in the Fishook river and slipped through, the current pulling him under the logs.

SKIN DISEASES SPEAK FOR THE BLOOD

Skin Diseases speak for the blood and tell of the acid-laden, poisonous condition of that vital fluid, and of its effort to throw off and rid the system of the poisons and waste matters that have accumulated in it. Eczema, Tetter, Acne, Salt Rheum, Psoriasis, Boils and diseases of this type are all caused by a weakened and polluted blood circulation, and though they may have lain dormant in the system during the cold weather, at the coming of Spring and Summer, when the blood is reacting and making extra efforts to expel all morbid and poisonous matter, they make their appearance. External remedies cannot cure; they soothe and give temporary relief, but often clog the pores and glands, and the poison causing the trouble is thus shut up in the system to break out afresh later on. S. S. S., a purely vegetable blood remedy, cures all skin diseases by going down into the circulation, driving out all poisons and waste matters, strengthening the blood, leaving the skin soft and smooth, and building up the entire system by its tonic effect. S. S. S. cures Nettle Rash, Poison Oak and all skin diseases that enter the system through the pores and glands, as well as those that have their origin in the blood. Book on Skin Diseases and any advice wished, without charge.

In 1896 I experienced at times patches on the inside of my hands that itched and burned, causing much discomfort. I was convinced I was afflicted with a type of Eczema. I consulted several physicians, and used several external applications, receiving but slight temporary relief. I decided to try S. S. S., and soon I found myself entirely cured.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

STIFFENS PRICES

William O'Brien Disposes Lot of Lumber at High Figure.

Little Unsold Lumber Here Outside of His Stock.

William O'Brien, whose logs are being cut at the Mullory mill, in this city, has sold a lot of No. 3 boards for $19 a thousand. This price is said to be about $3 a thousand more than the same grade of lumber would have brought a year ago, and the local lumbermen are using the instance as proof of their assertion that the values of lumber are still advancing, no matter what the outside lumber buyers may say to the contrary. The logs from which this lumber was sawed ran about twenty to the thousand feet and among them was considerable Norway pine.

The stocks of unsold lumber have dwindled down now to a point where some assert that the O'Brien stock is about all there is on hand available for purchase. While the situation is not nearly so urgent as that, the fact remains that unsold lumber is a scarce commodity in this market, many of the larger operators having sold out most of their season's cut. Among these Alger-Smith & Company has placed its lumber cut for this year; the Merrill & Ring company is sold up to August or September; the Red Cliff Lumber company is in the car trade and can hardly be figured as a competitor; the Hines company's stock at the Murray-McCann mill is not usually figured as it can be turned anyway; the Scott-Graff company's stock is pretty well sold up as is the stock of some others. One large sawmill concern has sold all its cut for the coming three years, receiving the top notch figure for this season. This is claimed to be the first instance in this market when a lumber company has sold its manufactured stock for so long a period in advance.

The sawmill on the Brule, belonging to Capt. A. McDougall of this city, has closed down and there is a probability that it will not again be started up. There is a quantity of balsam, cedar, hardwood, and such stuff on the lands about the mill, but it is claimed that the sawing process is too expensive to be profitable, as the lumber cannot be sold for a reasonable margin over the cost of production. This is claimed to be the experience of a number of the small mills that have gone on cut-over lands to take off what was left, and in which project there seemed at first glance to be considerable profit. There has not always been a loss on these cut-over land projects, for one case is cited where a local jobber not long ago purchased a lot of cut-over lands from M. J. Clark that had been gone over by the Clark-Jackson company. The purchaser spent two winters on the property and cleaned up each winter about $4,000 from pine, cedar, spruce and other wood. Some of the pine was No. 1 stuff, the timber being on the sides of ravines and having been overlooked at the first cutting.

Dodge & Oleson has started up a small sawmill on the east fork of Iron river, about six miles from the town of Iron River. They have a contract to cut 2,000,000 feet. The same parties also operate a lath mill.

The reports from Ashland show that the dry lumber is pretty well moved from that point and that shipments have fallen off considerably. It is expected that the newly-cut lumber of this season will be ready for shipment within three weeks, when shipments are expected to continue steady from Ashland until the end of the season.

Everybody's liable to itching piles. Rich and poor, old and young—terrible the torture they suffer. Only one sure cure: Doan's Ointment. Absolutely safe; can't fail.

WOMAN'S BODY FOUND.

Was Victim of Automobile Accident In Chicago.

Chicago, June 12.—The body of Mrs. Marion Kurtzman, one of the victims of Saturday night's automobile accident, was found last night about 250 feet from the spot from where the automobile plunged into the river at the Rush street bridge. The recovery of Mrs. Kurazman's body was made by the life saving crew after a search of twelve hours. From cuts on the head of the dead woman, it is evident that she was unconscious when she plunged into the river, having been struck by the steering apparatus of the machine when it fell over the abutment of the bridge. The body of Wilson A. Bartley, the third victim of the accident, has not yet been found.

William H. Hoops, Jr., who was in charge of the automobile at the time of the accident, was arrested on a charge of criminal carlessness. When the automobile was taken from the river, it was found that the throttle was wide open and the brakes in good working order. This, the police declare, is sufficient evidence that Hoops, the chaueffeur, made no effort to stop the car. Hoops' father secured the release of his son on $30,000 bail.

FORESTERS GATHER AT NEW ULM, MINN.

New Ulm, Minn., June 12.—Over 800 visitors, delegates and members of neighboring courts is the estimate placed on the crowds that arrived on the many trains in this city carrying those who desired to attend the state convention of the Catholic Order of Foresters. The city was in gala attire, arches containing many thousand electric lights being placed on street intersections of Minnesota street. The delegates from the two hundred courts in the state of Minnesota will assemble at 10 o'clock on Tuesday morning at the opening of the convention, after which they will attend pontifical high mass, said by Rev. J. Stariha, bishop of Lead, S. D.

The main feature of the day was the parade. It was one of the largest that ever marched through the streets of this city and was comprised of eleven divisions.

Addresses of welcome by Acting Mayor W. E. Elbner and short speeches by Chief Ranger Andrew J. Eckstein, Matt Bantz, State Chief Ranger P. H. Martin of Duluth, were delivered in Catholic park during the afternoon.

ROBBERS MURDER CONSUL.

Tangier, June 12.—Moorish robbers entered the Austrian vice-consulate at Mazagan on June 6 and murdered Vice-Consul Madden, a British subject, who also represented Denmark and who had been established there for many years. They also fired at and wounded his wife. The assassins escaped. The Austrian and British authorities have sent energetic protests to the sultan's foreign minister.

GROWTH OF EXPORTS

To Canada Is a Notable Feature of American Commerce.

Imports Into United States From Canada Also Increased.

FROM THE HERALD WASHINGTON BUREAU.

Washington, June 12.—(Special to The Herald.)—Canada's increasing consumption of products of the United States continues to be a notable feature of American commerce. Figures just compiled by the department of commerce and labor, through its bureau of statistics, show that exports from the United States to the Dominion of Canada grew from $51,903,579 in the ten months ending April, 1897, to $104,155,893 in the ten months ending with April 18904, and to $114,943,079 in the corresponding period of 1905. The increase here noted is but a continuation of the growth which, with trifling exceptions, has characterized our trade with Canada since 1870. During the period from 1855 to 1866 a reciprocity treaty was in operation between the United States and Canada; from 1867 to 1897 commerce between the two countries was unaffected by special trade arrangements; from April, 1897, to August, 1898, the United States was placed at a slight disadvantage as compared with the United Kingdom, products from that country entering the Dominion of Canada being admitted at a reduction of 12½ per cent as compared with the duties charged on importations from the United States. On August 1, 1898, this reduction in favor of the United Kingdom was increased to 25 per cent, and on July 1, 1900, was still further increased to 33 1-3 per cent.

The popularity of American goods, however, in conjunction with the advantages of contiguity, has served to maintain and even increase the volume of exports from the United States to Canada, despite the varying conditions to which our trade with that country has been subjected. In the fiscal year 1855, the first year of reciprocity with Canada, our exports to that country were $27,741,808 in value; in 1866, the closing year of the reciprocity period, $24,828,880. In 1897, the year which inaugurated the policy by which Great Britain and certain of her colonies were given the benefit of a special reduction in duties charged upon importations into Canada, our exports to that country were $64,928,821, and each succeeding year has shown an increase, the total in 1904 having been $131,274,346, while for the present fiscal year, should May and June equal the record made by April last, the total will be in excess of $140,000,000.

The following table presents, in the order of magnitude, the values of the principal articles exported from the United States to the Dominion of Canada in the ten months ending with April 1905, compared with the corresponding period of 1898, in April of which year the reduction of duty on imports into Canada from Great Britain began:

Articles	Ten months ending April 30. 1897-8.	1905.
Coal	$7,433,275	$17,735,359
Cotton unmanufactured	2,792,895	4,573,488
Steel rails	Not stated.	4,182,622
Corn	2,159,189	4,012,232
Lumber	588,922	2,791,977
Cotton manufactures	2,752,798	2,472,593
Fruits and nuts	914,675	1,930,102
Books, maps, etc.	517,078	1,716,566
Paper, and manufactures of	Not stated.	1,685,027
Agricultural implements	291,107	1,642,655
Builders' hardware	438,556	1,549,614
Horses	372,277	1,461,922
Furs and fur skins	228,092	1,443,938
Refined mineral oil	635,194	1,336,551
Electrical machinery	Not stated	1,309,555
Tobacco manufactured	1,421,177	1,119,539
Cars and carriages	100,668	1,055,699
Timber	595,865	975,973
Boots and shoes	200,460	867,090
Scientific instruments	225,793	828,273
Locomotives	Not stated	789,203
Clocks and watches	307,300	692,043
Provisions	1,481,949	1,723,777
Furniture	493,117	609,755
Animal oils	Not stated.	595,942
Leather	616,354	616,797
Other articles	27,268,738	55,124,567
Total	$51,903,579	$114,943,079

It includes Newfoundland and Labrador.

Meantime imports into the United States from Canada have also grown, though at a much slower pace. For the fiscal year 1855 the total value of imports was $15,118,289; in 1875, $27,867,615; in 1895, $36,574,327; in 1904, $51,406,265, and for the present year, estimating May and June upon the basis of the figures of April last, the total will be about $75,000,000. Thus, both as regards imports and exports, our trade with Canada in the present fiscal year has broken all previous records.

The value of the principal articles imported into the United States from Canada during the ten months ending with April, 1905, were: Boards and other sawed lumber, $8,000,000; coal, bituminous, $2,500,000; copper pigs, bars, etc., $2,320,000; wood pulp $2,200,000; hides and skins, $2,200,000; copper ore, matter, and regulus, $1,000,000; and furs and skins, undressed, $1,000,000. Other important items, importations of which were less than $1,000,000 each, were horses, tea, art works, combing wool, leaf tobacco, distilled spirits, and flax.

The above figures are from the official reports of the department of commerce and labor, and differ somewhat from the corresponding statements of the Canadian government. The statistics from the two sources fully confirm, however, the general statement that Canada is increasing her imports from the United States even more rapidly than her exports to this country, as will appear from tables presented below.

NATIONAL BOARD OF TRADE INCORPORATED.

Kansas City, June 12.—Articles incorporating the National Board of Trade, with headquarters in Kansas City, were filed at Jefferson City, Mo. The organization grows out of the recent supreme court decision sustaining the Chicago board of trades' claim to a property right in its grain quotations, a decision which deprived numerous grain future dealers of quotations. The new board, with members in Kansas City, St. Louis, Minneapolis, Milwaukee, Chicago, Cincinnati, Denver, Omaha, Memphis, Atlanta and Philadelphia and probably New York and New Orleans, will use Kansas City quotations and prices, Kansas City being the officers of the new board say, the largest primary grain market in the world. The board will open an exchange hall here and base its quotations on actual cash grain transactions. C. C. Christie of Kansas City has been elected president.

THE STATE CONVENTION

Duluth to Be Represented at C. O. F. Gathering.

The Duluth courts of the Catholic Order of Foresters will have a full delegation present at the state convention of the order, which will open at New Ulm, Minn., tomorrow morning. This city has five courts, all with a good membership, and a great deal of interest is being manifested in the coming convention. There are many matters of importance to come before it and the local courts have from time to time discussed them at their meetings, so the delegates are fully instructed as to how to act on questions that may arise.

Duluth has the honor of holding the highest office within the gift of the convention, that of state chief ranger, which is held by P. H. Martin, a member of St. James court, and it is probable that he will be re-elected to preside over the destinies of the order for the coming year.

The five courts of the city and their delegates to the convention are as follows: St. Louis court, P. Grignon; St. James court, A. Murphy; St. Clement's court, P. J. O'Toole; Cathedral court, D. P. McDonald; St. Francis court, E. A. Huot.

SMALLPOX AT BROOKSTON.

Only One Case of Mild Form Reported.

Brookston, Minn., June 12.—(Special to the Herald.)—Smallpox in a very mild form has broken out in the family of Fred Henrickson, who is employed as Great Northern pumpman at this point. Mrs. Hendrickson being the victim. Mr. and Mrs. Hendrickson have just returned from Wadena, and while there several case of chickenpox developed, but no spread of the disease was anticipated, and after a short stay they returned to Brookston. A few days after their homecoming, Mrs. Hendrickson's face was broken out with rash, and upon the arrival of a physician from Cloquet it was learned that a mild case of smallpox had developed. The house was immediately quarantined, a nurse secured and every possible precaution taken to prevent the spread of the disease.

BRIEF TELEGRAMS.

The jury which has been sitting at Liberty, Mo., for the past week in the case of Agnes Myers of Kansas City, charged with the murder of her husband, Clarence Myers, Sunday returned a verdict of guilty of murder in the first degree. This verdict means that the death penalty by hanging is to be inflicted.

W. J. Schrock, a prominent farmer, living near Waterloo, Iowa, on returning home Sunday, found the charred body of his wife in the ruins of the coal shed. The trunk had been wholly consumed by the fire, only the head and portions of the lower limbs remaining. The theory is generally entertained that the woman was the victim of tramps, who took this means to conceal their action.

After a week spent in tears over the discovery that her father, whom she had not seen for five years, was serving a prison sentence for perjury, Miss Lucy Rounds, aged 19, this afternoon committed suicide by drowning in Wauku creek, Oruro, Wis.

DISASTROUS FIRE IN GLASS FACTORY.

Kokomo, Ind., June 12.—One life, believed to have been lost, $150,000 damage, and 225 men bereft of employment, is the result of a fire of unknown origin which last night destroyed the local plant of the National Flint Glass company, known as the Jenkins' factory, with $25,000 worth of stock, in the extreme south portion of this city. The loss is covered by insurance. Two firemen were severely injured by falling walls.

Roy Harbert, who went to work at the factory last night, is unaccounted for.

DYING OF FAMINE

Is, in its torments, like dying of consumption. The progress of consumption, from the beginning to the very end, is a long torture, both to victim and friends. "When I had consumption in its first stage," writes Wm. Myers of Cearfoss, Md., "after trying different medicines and a good doctor, in vain, I at last took Dr. King's New Discovery, which quickly and perfectly cured me." Prompt relief and sure cure for coughs, colds, sore throat, bronchitis, etc. Positively prevents pneumonia. Guaranteed at all drug stores. Price 50c and $1.00 a bottle. Trial bottle free.

Busy Capt. Pressnell.

Capt. T. H. Pressnell has scheduled for himself a busy time this week. He will leave tonight for the Twin Cities and other points in the state, and tomorrow will attend the annual reunion of the old First Minnesota regiment at the Soldiers Home at Stillwater. Wednesday he will take part in the ceremony of removing the Minnesota battle flags from the old capitol to the new; Thursday he will attend the grand lodge of Odd Fellows; and on Friday he will attend the dedication at Northfield of the Odd Fellows' hospital.

FOREIGNER ENDS LIFE AT NIAGARA FALLS.

Niagara Falls, N. Y., June 12.—A foreigner of distinguished appearance committed suicide at Inspiration Point just above Horseshoe Falls, on the Canadian side of the river last night. From letters and papers found in the pockets the suicide is believed to be Dr. Szentimay Elmir of Budapest. In the right hand of the dead man was a revolver, one chamber of which was empty, and in the other was the picture of a woman.

The photograph was a miniature water color encased in a heavy gold frame. On the outside of a packet of letters found in his pocket was scribbled in English, "This must be beside me in my grave."

The letters were all from the same person and bore the signature, "Anna." The one of the latest date was from Budapest, dated "April 23, 1905." It was written on delicately tinted blue stationery. The paper bore a gold crest. It was written in German. One sentence of the letter was interpreted: "I am no longer single." The other letters bore dates covering a period of several months.

A menu card from the steamer Finland, dated March 5, was found in the man's overcoat pocket and a photograph of himself on horseback apparently taken in the court yard of a palace.

Persian Nerve Essence

RESTORES VITALITY—Have cured thousands of cases of Nervous Debility, Insomnia, Varicocele and Atrophy. They clear the brain, strengthen the circulation, make digestion perfect, and impart a magnetic vigor to the whole being. All drains and losses stopped permanently. $2.00 per box; 6 boxes, guaranteed to cure or refund money, $5. Mailed sealed. Book free. Persian Med. Co., 935 Arch street, Philadelphia. Sold in Duluth only by Max Wirth, 13 West Superior St.

CHICHESTER'S ENGLISH

FIRE AT ASHLAND.

Ashland, Wis., June 12.—The plant of the Ashland Sulphite Fibre company was destroyed by fire yesterday. Loss $50,000, insured for $20,000. The mill was owned by Thomas Bardon of Ashland, but was being run under a lease by the Menasha Paper company. It was the only institution of the kind in northern Wisconsin.

ORDER FOR HEARING PROOF OF FOREIGN WILL.—
State of Minnesota, County of St. Louis. —ss.
In Probate Court, Special Term, May 27th, 1905.
In the Matter of the Estate of Charles H. Jones, Deceased:
Whereas, certain writings purporting to be duly authenticated copies of the last will and testament of Charles H. Jones, late of Northampton, Mass., deceased, and the probate thereof in the Probate Court of the County of Hampshire, State of Massachusetts, have been delivered to this Court;
And whereas, B. E. Cook, Jr., has filed therewith his petition, representing among other things that said Charles H. Jones, lately died in said County of Hampshire, Mass., testate, possessed of certain real estate, situated in said County of St. Louis, and that said petitioner is one of the executors named in said will, and praying that the said instrument may be admitted to probate, and that letters testamentary be to I. R. Jones and B. E. Cook, Jr., issued thereon;
It is ordered, that the proofs of said instrument, and the said petition, be heard before this Court at the Probate Office in said County, on Monday, the 26th day of June, A. D. 1905, at 10 o'clock in the forenoon, when all persons interested may appear for or contest the probate of said instrument;
And it is further ordered, that notice of the time and place of said hearing be given to all persons interested, by publishing this order once in each week for three successive weeks prior to said day of hearing, in The Duluth Evening Herald, a daily newspaper printed and published at Duluth, in said County of St. Louis.
Dated at Duluth, Minn., this 27th day of May, A. D. 1905.
By the Court,
J. B. MIDDLECOFF,
Judge of Probate.
(Seal Probate Court, St. Louis Co., Minn.)
RICHARDSON & DAY,
Attys. for Executor.
Duluth Evening Herald, May-29-June-5-12-1905.

SUMMONS IN APPLICATION FOR REGISTRATION OF LAND—
State of Minnesota, County of St. Louis —ss.
District Court, Eleventh Judicial District.
In the matter of the application of Peter Johnson to register the title to the following described real estate situated in St. Louis County, Minnesota, namely: Lots 398 and 400, in block 49, Duluth Proper, Second Division, according to the recorded plat thereof,
Applicant,
vs.
The Board of County Commissioners of St. Louis County, Minn., and all other persons or parties unknown, claiming any right, title, estate, lien or interest in the real estate described in the application herein,
Defendants.
The State of Minnesota to the above named defendants:
You are hereby summoned and required to answer the application of the applicant in the above entitled proceeding and to file your answer to the said application in the office of the clerk of said court, in said county, within twenty (20) days after the service of this summons upon you, exclusive of the day of such service, and, if you fail to answer the said application within the time aforesaid, the applicant in this proceeding will apply to the court for the relief demanded therein.
Witness, J. P. Johnson, clerk of said court, and the seal thereof, at Duluth, in said county, this 3rd day of June, A. D. 1905.
J. P. JOHNSON,
Clerk.
By V. A. DASH,
Deputy.
(Seal of District Court, St. Louis County, Minn.)
STEARNS & HUNTER,
Attorneys for Applicant.
Duluth Evening Herald—June 5-12-19.

ORDER FOR HEARING PROOF OF FOREIGN WILL—
State of Minnesota, County of St. Louis —ss.
In Probate Court, Special Term, May 27th, 1905.
In the Matter of the Estate of James B. Bonar, Deceased:
Whereas, Certain writings purporting to be duly authenticated copies of the Last Will and Testament of James B. Bonar, late of Jefferson County, Kentucky, deceased, and the probate thereof in the County Court of Jefferson County, Kentucky, have been delivered to this Court;
And Whereas, Elizabeth L. Bonar, widow of James B. Bonar, has filed therewith her petition, representing among other things that said James B. Bonar lately died in said County of Jefferson, Kentucky, testate, possessed of certain real estate, situated in said County of St. Louis, and that said petitioner is the Executrix of said Will, and praying that the said instrument may be admitted to probate, and that letters testamentary be to her issued thereon;
It Is Ordered, That the proofs of said instrument, and the said petition, be heard before this Court at the Probate Office in said County, on Monday, the 26th day of June, A. D. 1905, at 10 o'clock in the forenoon, when all persons interested may appear for or contest the probate of said instrument;
And It Is Further Ordered, That notice of the time and place of said hearing be given to all persons interested, by publishing this order once in each week for three successive weeks prior to said day of hearing, in The Duluth Evening Herald, a daily newspaper printed and published at Duluth, in said County of St. Louis.
Dated at Duluth, Minn., this 27th day of May, A. D. 1905.
By the Court,
J. B. MIDDLECOFF,
Judge of Probate.
(Seal, Probate Court, St. Louis County, Minn.)
RICHARDSON & DAY,
Attorneys for Executrix.
Duluth Evening Herald—May 29, June 5-12.

MARKET IS DULL

Wheat Opens Lower and Has an Advance Before Close.

Bad Crop News Causes Strength In Southwestern Markets.

Duluth Board of Trade, June 12.—The wheat market opened lower, but had a gradual advance during the month, and closed a little higher for the fall option. The largest advance was made in the Southwestern markets from which reports of crop damage were coming. Some of these were sensational enough to be alarming. One from Kansas said that blight had made its appearance and that black rust was feared. The government report was at first taken to be bearish, but many well informed traders do not look upon is as suggesting more than an average crop, and with the present depletion in reserve, an average crop cannot cause any very great justifiable decline in prices.

Foreign markets were very generally closed today. The world's shipments were large and the decrease in the American visible, about as expected.

The July option was unchanged in Duluth, ⅝c lower in Minneapolis, ¼c lower in Chicago, ¼c higher in New York, 1⅝c higher in St. Louis, and ¼-⅜c higher in Kansas City. The September option advanced ¼c in Duluth and Chicago, ⅛c in Minneapolis, ⅝c in New York, 1⅛c in St. Louis and ⅝c in Kansas City.

World's shipments of wheat and corn last week, the week previous and the corresponding week of last year were as follows:

WHEAT.	Last week.	Previous week.	Last Year.
America	1,192,000	1,312,000	1,480,000
Russia	4,872,000	4,620,000	2,864,000
Danube	1,192,000	1,640,000	904,000
Argentine	2,352,000	2,736,000	1,936,000
India	880,000	1,824,000	2,040,000
Australia	704,000	528,000	976,000
Aus.-Hungary	.....	.....	8,000
Various	96,000	88,000	224,000
Total	11,288,000	12,648,000	10,432,000
CORN.			
America	1,032,000	460,000	132,000
Russia	56,000	76,000	384,000
Danube	.....	34,000	1,147,000
Argentine	2,708,000	2,708,000	2,166,000
Total	3,796,000	2,996,000	3,996,000

The amount of wheat on passage increased 224,000 bus. and corn increased 1,162,000 bus.

Car receipts at Duluth were 12, against 31 last year and at Minneapolis 297, against 208 last year, making a total for the Northwest of 309, against 299 last year. Chicago received 3, against 35 last year.

Primary receipts of wheat were 399,000 bus., last year 421,000 bus. Shipments 354,000 bus. last year 960,000 bus. Clearances of wheat and flour aggregated 36,000 bus. The visible supply of wheat last week decreased 1,828,000 bus., and is now 18,206,000 bus., against 18,440,000 bus. last year.

In the Chicago market July corn closed ½d higher. July oats closed ¼-⅜c lower. Primary receipts of corn were 597,000 bus., last year 757,000 bus. Shipments 1,126,000 bus., last year 529,000 bus. Clearances were 128,000 bus. The visible supply of corn last week decreased 1,180,000 bus., and is now 3,370,000 bus., against 4,658,000 bus. last year.

The Duluth market was almost entirely barren of trading. The July option was without a trade and closed unchanged at $1.11. The new September opened ¼c lower at 85½c, sold up to 86¼c and closed at 86c.

Cash wheat was very slow. Durum wheat declined 1c.

Flax was as dead as wheat. The July option closed unchanged at $1.47½. September ½c higher at $1.29, and October ¼c higher at $1.27.

Oats closed with a decline of ¼c.

Following are the closing prices:

Wheat—To arrive, No. 1 northern, $1.11; on track, No. 1 northern, $1.11; No. 2 northern, $1.03. Durum, No. 1, 85c; No. 2, 84c; July, $1.11; September, new, 81c; September, old, 86c. Flax, to arrive, $1.47½; on track, $1.48; July, $1.47½; September, $1.29½; October, $1.27. Oats, to arrive, 31c; on track, 31c. Rye, on track, 76c; September, 66c. Barley—Feed, 30½@31c.

Cars inspected: Wheat 12, last year 31, oats 5, rye 1, flax 3, last year 12.

Receipts: Wheat 15,553, oats 12,418, barley 2,477, flax 2,179.

Shipments—Wheat 111,769, corn 8, barley 2,600, rye 5,107.

ENGLISH MARKETS CLOSED.

London, June 12.—All the London and Liverpool markets are closed today, this being Whit Monday.

GRAIN GOSSIP.

Logan & Bryan, Chicago: Wheat—The market was weak this morning and for a moment thereafter the market ruled weak. Late in the session profit-taking cost the market all its gain from the previous session with the closing practically unchanged. News from Texas and Missouri shows rather a gloomy and disappointing condition of affairs existing in those sections, reports being rather pessimistic as to harvest returns. The feeling seems to be one of caution in trading in July, as with favorable weather from this time on a good yield of wheat is promised. An unfavorable twist in the weather, especially in the South and Southwest where cutting is now in progress, would do much to excite the market. September acts well and we incline to the belief it should be bought on recessions. The weather is the one great interesting factor at the moment and will be watched by the trade. Trade is fairly broad and the market responds easily and seems to promise a continuation of good scalping possibilities.

Corn—Statistical news all favored the bull side of corn. The decrease in the visible and the large shipments more than off-set the large world's shipments. However, much of the early strength was lost with the September closing unchanged. The real activity in this market seems to be in the July, in which a large short interest is popularly believed to exist. The buying has not been general to any extent, but sentiment nevertheless seems favorable to the bull side on the theory that the success in the May option is to be followed by similar tactics in the July. Be that as it may, there seems to be merit on both sides of the market. We rather feel that the bull interest will have some difficulty in maintaining present prices for the distant futures. Well informed people continue favorable to May and December at its present discount.

Oats—The speculative market fairly hung fire today, closing at a small fractional loss. Undoubtedly the bearish government report contributed much to this as did also a disappointing decrease in the visible. We would rather sell the distant months on the bulges.

Provisions—Hog market closed slow and steady. A little better feeling existed in this market with the entire list closing higher. Trade on the whole seemed quiet, but less disposition shown to force the selling side. Rather there seemed a desire to cover short stuff. It still looks to us like a scalping market. Packers are in control, and we feel will support prices when necessary.

* * *

Chicago Tribune: Briefly summarized, the June outlook is for a crop 90,000,000 bus. larger than was promised a year ago, taking the popularly accepted par of yield for the whole area. It will be recalled that both the winter and spring wheat crops last year met their disasters after July 1, the rains in the winter wheat belt beginning late in June. Indicated yields as per present and last year's June reports were:

	June 1, 1905.	June 1, 1904.
Winter wheat	432,000,000	353,000,000
Spring wheat	282,000,000	271,000,000
Total	714,000,000	624,000,000

On the usually accepted par of yield the spring wheat states of the Northwest promise a substantial increase over last year, the showing is:

	June 1, 1905.	June 1, 1904.
Minnesota	87,000,000	68,000,000
North Dakota	80,000,000	54,000,000
South Dakota	50,000,000	32,000,000
Total	217,000,000	154,000,000

* * *

Edwards, Wood & Co.: Wheat—In the government figures of Saturday, a decrease of 7 points during the month of May is the only bullish feature, and that is offset by the increase of 2.8 points in the acreage of spring wheat and the condition of 93.7. Total crop yield indicated is 713,980,000 bushels, which exceeds last year by 161,000,000, and bordering close to the big yield of 1901, when 748,000,000 bushels were harvested. We note a marked increase in the volume of business for the more distant futures, especially the September. The all important factor for the present is the weather, which should be watched closely. We still think wheat could be safely sold on the hard spots for moderate returns.

TREASURY BALANCES.

Washington, June 12.—Today's statement of the treasury balances in the general fund, exclusive of the $150,000,000 gold reserve in the division of redemption, shows: Available cash balance, $136,026,608; gold, $70,322,325; silver, $30,225,102.

Note.—The average maximum and minimum temperatures and the average rainfall are made up at each center from the actual number of reports received. The "state of weather" is that prevailing at time of observation.

AN APOLOGY.

Boston Baked Beans With Brown Bread In Demand.

The Duluth Bakery, 2914 West Third street, was so overwhelmed with orders for its Boston Baked Beans with brown bread from every part of the city for last Sunday's delivery that it was found impossible to fill them all. The firm desires to apologize to those whose orders were not filled and to assure them that every arrangement that increased facilities can afford has been made to take care of future orders. Deliveries next Sunday morning will be as follows: From First avenue East to Tenth avenue East, 8 to 8:30; from Tenth to Fifteenth avenues East, 7:30 to 8; from Fifteenth to Twentieth avenues East, 7 to 7:30. Orders may be given any day during the week, not later than Friday evening, by calling up Zenith 'phone 972 or Old 1105-L. The new departure of the firm's has scored a big hit.

PRESIDENT DELAYS VISIT TO OYSTER BAY.

Washington, June 12.—The delicacy of the situation in relation to affairs in the Far East has made necessary a change in the president's plans for going to Oyster Bay. It is his desire to conclude in Washington the preliminary plans for a meeting of representatives of Russia and Japan, because he is in closer touch with the situation here than he could be at Oyster Bay. Originally, it was his intention to leave Washington on the 20th instant, but the change in his plans will bring him to Oyster Bay on the 29th.

STOCKS VALUED AT $120,000 STOLEN.

Boston, June 12.—Boston brokers noticed today that certificates representing 1908 shares of stock which had been sent to this city, presumably from New York had been stolen en route.

According to present market quotations the value of the missing certificates is estimated at about $120,000. It is said the numbers of the certificates are not known and that the paper is negotiable. The certificates represented shares of the Atchison, Topeka & Santa Fe, Erie and Union Pacific roads and United States Steel preferred. The identity of the owners has not been disclosed except that he is a resident of New York.

You may have known some particular store very well yesterday—and yet hardly recognize it today. New goods! Let the ads. keep you posted.

DECLINE IN STOCKS

Market Sold Off at the Opening But Became Strong.

Steels Acted Well, Recovering Sharply From Early Depression.

New York, June 12.—There was some pressure to realize profits in the opening dealings in stocks and wide declines resulted in some cases. There were gains mixed with the losses making the opening tone irregular. Atlantic Coast Line ran off 1¾, St. Paul 1¼, Copper 1⅛, and Union Pacific and Metropolitan Street Railway large fractions.

Operations in the stock market became less active, the irregularity and uncertain fluctuation representative stocks checking trading ventures. Sharp rallies followed the opening dip in St. Paul, Union Pacific, Metropolitan Street Railway and some of the metal stocks, but the market soon fell off again and some of the leaders touched the lowest. Smelting was forced down 1¾, Louisville & Nashville 1½, and Columbus & Ohio, New York Central, Reading, Erie second preferred, Locomotive, Tennessee Coal and Brooklyn Transit 1. Gains of 1 to 1½ were made by General Electric, Pacific Mail and Corn Products preferred.

Prices worked back to the neighborhood of Saturday's closing in a dull market. Atlantic Coast Line, the Metropolitans, Distillers Securities and Westinghouse made gains of 1 to 1¾. There were losses for Colorado Southern first preferred, Pacific Coast second preferred and Iowa Central of 1 to 1½. Bonds were irregular at noon.

Small selling orders were distributed after 12 o'clock. Copper and Union Pacific gave way rather easily, and when they sold lower than in the morning the entire list crumbled. Amalgamated Copper yielded 1¾ and Union Pacific and Locomotive preferred a point. Republic Steel preferred rose 1 and Corn Products 2.

A brisk buying movement that originated in the metal group was extended to the Pacifics and coalers late in the day, and the general level of prices returned to a parity with Saturday's final or above. Pacific sold up to near 126 and United States Steel stocks improved substantial reactions. Tennessee Coal hardened 1½ and Denver & Rio Grande preferred 1¾. Great Northern preferred dropped 1 and Steel Foundries preferred 2.

There was a brief halt in the slow advance in prices, but it was resumed when special stocks showed strength. In the Canadian group Canadian Pacific rose 2, Duluth, South Shore & Atlantic preferred 2⅝ and Minneapolis, St. Paul & Soo 1. St. Joseph & Grand Island gained 2, the second preferred, Northwestern, Colorado Fuel, Hocking Valley, Pressed Steel Car and North American 1 to 1¼. Pacific Mail 2 and General Electric 2½. Great Northern preferred dropped 2 and Linseed preferred 1½c. Prices in some quarters drifted off again in the late dealings. The closing was unsteady.

Quotations furnished by Edwards-Wood Co., room A, Torrey building.

STOCK GOSSIP.

Logan & Bryan to Paine, Webber & Co.: The market closed strong and higher. Here and there through the list stocks will be found lagging, but in the main the market is strong and decidedly more active. Canadian Pacific and allied stocks sharply higher. Steels have been acting well and recovered sharply from early depression. For a time after the opening the market seemed to halt and sag, but on the publication of news which seems authentic that Russia has accepted Japan's proposal of peace, the market seemed to take on a new lease of life. The short interest in the active stocks we feel is still large. The list all through acts well and holds out considerable promise.

* * *

Logan & Bryan to Paine, Webber & Co.: Lawson is out this morning with a double column ad to the policyholders of the Equitable, New York and Mutual Life companies in which he promises to expose some new plot and ask support from the policyholders. He tells Amalgamated stockholders that this is the last opportunity they will have to sell at anything like present prices, and that the stock is going to drop below fifty.

* * *

Dick Bros. to Paine, Webber & Co.: The market showed some irregularity after the opening, but later turned strong. Local traction shares were very strong and marked strength was shown by Canadian Pacific Steels, Union Pacific, St. Paul, Northern Pacific and Southern Pacific. The market was irregular and active at the close. Amalgamated Copper was under pressure all day, but was fairly well supported.

* * *

Walker Bros. to Paine, Webber & Co.: The market today was quite steady and although it sold off at the opening there was a change in the afternoon and prices stiffened up. The feeling was better and traders were inclined to buy stocks. There was some good buying in the Steels and Union Pacific. While we do not expect to see any great advance we look for more confidence in the outcome of peace negotiations.

CHICAGO LIVE STOCK.

Chicago, June 12.—Cattle—Receipts 22,000; steady; good to prime steers, $4.50@6.25; poor to medium, $4@5.30; stockers and feeders, $2.75@4.25; cows, $2.50@4.60; heifers, $2.50@6.25; canners, $1.50@2.30; bulls, $2.25@4.30; calves, $3.50@6.50. COPPER GOSSIP.

Boston to Paine, Webber & Co.: "The market opened a little weak this morning owing to pressure on Amalgamated, which sold off from Saturday's close. Lawson was out with an ad on this stock and the Equitable matter. The whole list became stronger later on, and continued so up to the close. There appeared to be good buying of Steel common all day. Greene Copper was weak, selling down to 21, but with no news to account for it. New York seemed to be the seller in the Boston market."

THE COTTON MARKET.

New York, June 12.—The cotton market opened quiet and firm at an advance of 1@19 points on a moderate demand encouraged by reports of a good demand for spot cotton. The weather map was considered favorable, but offerings were very light and the market steady during the early session at a net advance of about 6@9 points.

Cotton spot closed quiet; middling uplands, 8.70; do gulf, 8.95. Sales, none. Futures closed steady; June, 8.09; July, 8.17; Aug., 8.22; Sept., 8.26; Oct., 8.32; Nov., 8.37; Dec., 8.43; Jan., 8.48; Feb., 8.52; March, 8.58; April, 8.63; May, 8.68.

NEW YORK MONEY.

New York, June 12.—Money on call, easy, 2@2¼ per cent; closed bid 2, offered at 2¼. Time money, easy; sixty days, 3 per cent; ninety days, 3¼ per cent; six months, 3½ per cent; prime mercantile paper, 3½@4½. Sterling exchange, firm, with actual business in bankers' bills at $4.87@4.87.05 for demand and at $4.85.10@15 for sixty days; posted rates, $4.86 and $4.88; commercial bills, $4.85¾@4. Bar silver, 58¾c. Mexican dollars, 45½c. Government bonds, firm; railroad bonds, irregular.

Marine.

VESSEL IS DOCKED

City of Genoa Brought Up From Sand Island.

Repairs Will Be Made At Once In Dry Dock.

The steamer City of Genoa of the Gilchrist Transportation company which went on the beach at Sand island some days ago, was released Sunday afternoon and arrived here last night under her own steam. The tug Inman of the Union line pulled her off. She is going into dry dock at Superior this afternoon to ascertain the extent of the damage. It is expected that the bottom of the boat will need considerable repair as she was on the rocks for several hours. Her master, Capt. Bouille, says she went on in a fog and was on the beach before anybody knew what had happened.

The Canadian steamer Kaministiquia is on Grignon's dry dock having repairs made to her bottom. She came in Saturday for the purpose, coming down from Port Arthur.

ENROLLED HER.

The new propeller James E. Davidson of the Tomlinson line, which arrived here yesterday on her maiden trip, was enrolled in the customs house today, and Duluth is now her port of hail. Her gross tonnage is 6,206 and her net tonnage 4,943. She was built at Ecorse, Mich., during the past winter. She is 564 feet long, 54 feet and two inches in breadth and 31 feet deep. G. A. Tomlinson of Duluth is her managing owner and F. A. Fick of Cleveland is her master.

THE SAULT PASSAGES.

Sault Ste. Marie, June 12.—(Special to The Herald.)—Up: Manitoba, 9:30 Sunday night; Steinbrenner, 10; Kalkaska, Oak Leaf, Fryer, Newmount, 10:30; Mcrida, 12:30 Monday morning; Colgate, 2; England, 3:30; Grover, 4:30; Japan, 7:30. AGAINST AUTO

Sentiment of Aldermen Said to Be Opposed to It.

Big Petition For New Fire Hall In East End.

"It would be easier to get a resolution through the council authorizing the expenditure of $100,000 for a fire tug, than to get authority to purchase an automobile for Chief Black," said one of the aldermen this morning.

"There is absolutely no chance of the thing going through. Public sentiment is too strong against it. Everywhere on the streets you hear people talking and joking about the chief's automobile, and the general opinion is that the council should not allow itself to be worked.

"What would the chief do in the winter time if we bought him an automobile and he sold his horses. And supposing the machine should break down, which is not an unheard of thing with automobiles. The result would be that we would have to keep both horses and automobiles.

"The bare suggestion that the chief should have an automobile at the city's expense is like a red rag to a bull to many of the taxpayers.

"The resolution may not even be reported on by the committee tonight, but if it comes up, there is going to be a warm session for a few minutes."

A petition representing about 1,500 property owners between Third and Thirteenth avenues east, north of Fourth street, will be presented to the council this evening, asking for the construction of a fire hall in the vicinity of Sixth street and Fifth or Sixth avenue east.

The district has a population of about 6,000 people, mainly of people working for wages who have bought their own homes. The fire protection at present is claimed to be inadequate, the nearest fire hall being at Fourteenth avenue east and Second street, or at Third street and First avenue east. The distance, added to the fact that the department has to run up the steep hill gives a fire a big start before the apparatus can reach the scene.

Most of th aldermen recognize the need of such a building, and the only question is whether or not the city's funds are in a condition to stand the expense at the present time.

DETAILS OF PURCHASE

Of Hyde's Equitable Stock Will Soon Be Made Public.

New York, June 12.—Paul Morton, the newly-elected chairman of the board of directors of the Equitable Life Assurance society, who went to Washington last night, will not return to New York until Wednesday. It is expected that the work of readjustment of the methods and conduct of the society's management will then be resumed.

Thomas Ryan, in response to a request for further details concerning the purchase of the Hyde stock, gave out the following statement:

"The purchase of the stock was absolute and free from any condition or commitment as to future action.

"The general conditions of the trusteeship of the stock have already been announced in the letter to Mr. Cleveland.

"The deed of trust is now being prepared and will be made public in due course."

Whether the deed of trust will disclose the personnel of the association, of which Mr. Ryan is the head, it is not ascernable today.

State Superintendent of Insurance Hendricks has finished his investigation of the Equitable Life Assurance society's affairs. Mr. Hendricks was not in town today.

There was no meeting of the Equitable trustees today, but a meeting will be held as soon as it is convenient for Former President Grover Cleveland to be present.

Vice President Gage E. Tarbell said there would be no meeting of the agents of the Equitable society in this city today.

West Duluth

PAVING IS POOR

Cleaning Central Avenue, Removes Part of Roadway.

Coating of Tar Macadam Would Make Street Good One.

A gang of men is busy just now cleaning up the mud and refuse from Central avenue. The work of cleaning this avenue is not the easiest in the world, for the reason that it is of macadam, without the tar, and is scarcely much better than a country road with gravel pounded into it. The condition of the surrounding streets makes the job of cleaning necessary after almost every rain, for wagons coming in from the side street bring with them large lumps of red clay, which must be scraped up.

A coating of tar, establishing a good tar macadam road, would make Central avenue second to none in the city, and easy to clean up without damaging the road. At present when cleaning the men cannot help taking part of the roadway along with the dirt. The city was to have put tar on, but nothing has been done about it.

In case tar should be put on, it would be necessary for the street railway company to raise its tracks about three inches. But West Duluthians are not madly in love with the street railway company just now and would not mind a bit if that concern had to expend money.

GALLANT SOLDIER DEAD.

Brother of Richard Schell Dies In California.

Richard Schell of West Duluth has received word that his brother, Capt. H. H. Schell, died Saturday of locomotor ataxia at San Diego, Cal. For fifteen years past Capt. Schell has been chief of the immigration department at San Francisco, but about a year ago was taken down with locomotor ataxia and has steadily grown worse. He was 65 years of age and has a Civil war record of which any man might be proud. He commenced in Battery H of the First New York light artillery during Grant's closing campaign, and was twice brevetted for gallantry on the field of battle.

Capt. Schell leaves a wife and two sons and a daughter. The interment will take place at San Diego. Because of the long distance Richard Schell cannot attend.

DELEGATES TO C. O. F.

West Duluth Court Sends Two to New Ulm.

The local court of the Catholic Order of Foresters, St. James court, will be represented by two delegates at the state convention of the order, which will be held at New Ulm, beginning tomorrow. The state chief ranger, P. H. Martin, a member of St. James court, went down Friday to attend the business meeting preliminary to the opening of the convention. The regularly elected delegate to the convention from St. James court is the present recording secretary, Augustine Murphy, and he left for New Ulm yesterday.

Mr. Murphy has received certain instructions from the court, and will endeavor to have the legislation desired brought before the convention through the proper committees. It is expected that this will be the most important convention yet held by the order in this state, and many matters of great interest will come before it.

CHILDREN'S DAY

Generally Observed In West Duluth Churches.

Children's day was generally observed in the churches of West Duluth yesterday and some pretty programs were given by the little ones of the Sunday schools. One of the best events of the day was the program given by the children at the morning service of the Asbury Methodist church. The collection, which was for the educational fund of the Methodist church of America, to support needy students, turned out well yesterday.

The evening service was taken up with a sermon by the pastor on "Power of Purpose," and the installation of the new officers of the Epworth league took place. They are:

President, Andrew Meldahl; four vice presidents in the order named, Misses Eva McLyman, Josie Stewart, Eliza Remphrey and Dr. H. W. Greeley; secretary-treasurer, Miss Ethel Remphrey.

SCOTT-LINDGREN WEDDING.

The marriage of Miss Myrtle Scott and A. W. Lindgren will take place this evening at the Asbury Methodist church, Rev. F. G. Clark performing the ceremony. Miss Lottie Robinson will be bridesmaid, and Mr. Gibson will be best man. Miss Scott, who has been employed by the Northern Pacific road for some time, is a daughter of W. W. Scott of 126 South Sixty-sixth avenue west. Mr. Lindgren is in the bicycle business in West Duluth.

WEST DULUTH BRIEFS.

Ollie Ginrich returned from a fishing trip at Cass Lake today. He brought back a fine string of pike.

Mrs. Ben Wolter of Aberdeen, S. D., who has been visiting her father, J. J. Lauermann of West Duluth, for the past week, returned yesterday to her home.

Olander's drug store has been moved to 208 Central avenue, next to Great Eastern.

A nervy thief stole a large lilac bush, roots and all, from the front yard of William Kilton's residence at 221 Fifty-fourth avenue west, on Saturday night.

Dean Holt and wife are down from Scanlon.

Miss Eileen and Althea Butters, who have been attending school here during the year, will return to their home in Thomson this afternoon.

Prescriptions at cost at Spencer's drug store, postoffice corner.

Russell Cox, the boy whose skull was fractured by a street car on Saturday morning, is progressing favorably towards restored health.

Sherwin Williams' Paints cover the world. Let is cover your house. Nygren's.

A meeting of young women will be held this evening in the rooms of the N. S. C. to form a club of the fair sex for their indulgence in sports and exercise. They will elect officers this evening.

The new West Duluth Tennis club will meet this evening at L. A. Barnes' office.

Henry Olson has gone to Manitoba.

Mrs. T. J. O'Connor of Chicago is the guest of Mrs. M. Hayden of No. 7 Munger row.

The Business Man's New York Train.

"The Pennsylvania Special," Eighteen-Hour-Chicago-New York Train, which began running on Sunday last, June 11th, will be emphatically the business man's train. For full business day in Chicago before starting at 2:45 p. m., arriving in New York at 9:45 next morning, after a la carte breakfast in dining car. Full business day in New York, starting on return trip at 3:55 p. m., on the Pennsylvania Special, reaching Chicago the next morning at 8:55.

So can the New Yorker have a business day in Chicago and return to New York the same evening. By the Pennsylvania Special he leaves New York at 3:55 p. m., arrives Chicago 8:55 next morning. Leaves Chicago same day at 2:45 p. m. and reaches New York next morning at 9:45 o'clock.

For full information address G. T. Thomson, G. P. A., Pioneer Press building, St. Paul.

RUSSIA OFFICIALLY AGREES TO SEND PPENIPOTENTIARIES TO MEET JAPAN'S STATESMEN

(Continued from page 1.)

llef over the announcement in the Gazette that M. Pobendonostzeff, procurator of the holy synod, has sufficiently recovered his health to go abroad and try a course of treatment.

JAPS DOUBTFUL

As to Whether Peace Will Come at Once.

Tokio, June 12.—The Jiji says: Japan has shown a willingness to appoint plenipotentiaries to meet the Russians and negotiate peace, but it is premature to think this will lead to the ultimate conclusion of peace. Much as Japan would like to see peace perfected, nothing short of the full rights of victors and placing the peace of the Orient on a permanent basis will satisfy Japan. It is premature to discuss terms of peace. It will probably become necessary to arrange an armistice at the commencement of negotiations, and it will be essential to obtain some guarantee before concluding an armistice in order to prevent the interests and positions of Japan from suffering in the event of negotiations being broken off. The greater and unprecedented victor must not be forgotten. Russia's great power is not easily broken down. It might require years before the ultimate result of the war is attained. Japan does not fear the prolongation of the war, but the heavy losses of life involved move the people from the depths of their hearts."

The Jiji thanks President Roosevelt and pays tribute to him for his action.

It concludes by warning the people to be prepared for the non-success of the negotiations and for the possible necessity of continuing the struggle.

The Nichi Nichi writes in the same strain, warning the people not to count on peace while the war party in Russia continues to exert its influence over the emperor. It urges Japan to insist on some guarantees so as to secure its protection if an armistice should be declared. Japan's term may not be exacting, the paper says, but the fact of her unqualified victory must be recognized. The Nichi Nichi concludes by saying the situation requires calmness and watchfulness.

The merchant who advertises gives you the same opportunities to secure bargains that your neighbor has. Publicity equalizes opportunity. Nowadays there is no reason for your not having heard about some special sale.

BUSINESS GETTERS

First Annual Convention of Passenger Agents Now In Progress.

Railroad Men Enjoy Drive, Boat Ride and Banquet.

The first annual convention and outing of the "G. A. M. B. A. Y. C. association" began in Duluth this morning and will end some time this evening, the hour of adjournment not having yet been set.

The organization is comprised of traveling passenger agents that make this territory during the season for the various lines and the name chosen is the "Get As Much Business As You Can association."

The convention and outing is the direct result of a "happy thought" by W. S. Chadwick, the popular union depot ticket agent in this city. The passenger agents have responded nobly to his invitation and about thirty were on hand early this morning when the festivities began.

The association and its annual convention originated from a circular letter which Mr. Chadwick sent out to the passenger men under date of May 16 last and which reads as follows:

"Dear Sir—

"One day, in an idle hour, I casually turned over the page of my 'official register' and was struck by the number of good fellows calling at this enterprising burg. It brought to mind a happy thought. Why not suggest the idea that this goodly bunch get together here this coming summer, sometime about knee-deep in June and drink in the summer breeze from Lake Superior, tempered with a drive on the boulevard, a boat ride to Fond du Lac and a good feeding at the Spalding?

"This being the first annual convention of the G. A. M. B. A. Y. C. F. L. of the R., I. It is proposed that a small per capita tax be assessed to cover incidental expenses. The date of holding the convention will be Monday, June 12, commencing at 8 o'clock.

"Be sure and come early, get busy or get fined. What's the answer?

"P. S.—Have arranged with the family physician to accompany us."

For over two weeks Mr. Chadwick has been receiving letters of acceptance or of regret from the passenger men and the replies are very much characteristic of the various writers, furnishing interesting and amusing reading for those who are now in attendance at the convention.

The official announcement with the program for the day and evening was issued June 2. The outline of the program, which is being carried out strictly to the letter, is as follows :

"All members are requested to report at the secretary's office at the union depot upon their arrival to register their names.

"Be prepared for a boulevard drive. Coaches leaving the Spalding hotel at 8:30 a. m.

"At 11 a. m. the steam launch Isle will leave the Northern Pacific wharf No. 5 for Fond du Lac, Minn., (not Wisconsin).

"At 1 p. m. lunch will be served at Pease's shack, Fond du Lac.

"At 6:30 p. m. banquet at the Spalding hotel."

Frederick Lyons of the Rock Island system is honorary president of the association and W. S. Chadwick is honorary secretary. Both of these gentlemen were very busy persons this morning, especially the latter, superintending the arrangements for entertainment, which are passing off without a hitch.

Before starting on the boulevard drive this morning the members of the association purchased white outing caps which after use will be retained as souvenirs of the occasion.

One of the members has facetiously termed the organization "Grand American Mixed Breed Assorted Yellow Chumps," selecting words to fit the initial letters in the first invitations sent out.

In view of the fact that the boulevard drive started so early only about eighteen of the visitors had the opportunity of registering at the secretary's office this morning.

These were: H. L. Wyand, Chicago Great Western, St. Paul; C. M. Pratt, Pere Marquette line, Minneapolis; F. D. Lyon, Rock Island system; G. L. A. Thompson, Pennsylvania lines; L. K. McConnell, Milwaukee line, St. Paul; E. Hinckley, A. T. and S. F. line; A. J. Perrin, South Shore line, Superior; W. G. Hathaway (Baptist Bill), Rock Island line; W. B. Dixon, Milwaukee line, St. Paul; W. B. Hutter "Twentieth Century line," St. Paul; L. H. Peck, "The Only Way," St. Paul; M. M. Lewis, Soo line, Minneapolis; L. M. Harmson, Soo line, Minneapolis; E. R. Porch, Erie road; W. J. Matheson, Missouri & St. Louis, Des Moines; Frank T. Lally, Burlington line, St. Paul; E. W. Kleswetter, D. M. & N. road, Duluth; F. T. Holmes, Omaha line, Duluth.

The boulevard drive and boat ride was participated in mostly by the visiting members, accompanied by a delegation of the local members, but this evening the banquet will be generally attended by local railroad men.

WEEK END EXCURSIONS

Start on South Shore Line This Week.

Beginning Friday of this week the Duluth, South Shore & Atlantic Railway company will inaugurate the first of a series of "week-end" rail and lake excursions from Duluth to lower lake points. The excursions will be run every Friday during June, July and August, and special low rates will be made for the round trip. The excursions will be run in connection with the Detroit & Cleveland line of steamers from St. Ignace, Mich.

In arranging for the business, the South Shore road has instituted something of a departure in the way of time limit on the tickets to be issued for these Friday excursions. All tickets issued will be good returning up to Sept. 15 next, thus giving the purchasers the opportunity of spending the entire summer at the lower lake ports. The special round trip rates from Duluth will be as follows to the various points: Detroit, $16; Toledo, $17; Cleveland, $18; Buffalo, $20.70.

The South Shore company will continue its other series of Detroit-Buffalo excursions via lake and rail, the next two leaving Duluth Tuesday and Sunday.

To New York In 18 Hours.

On and after June 11th, "The Pennsylvania Special" of the Pennsylvania Short Line will run from Chicago to New York (910 miles) in 18 hours. It will leave Chicago every day at 2:45 p. m., arriving at New York next morning at 9:45. Returning it will leave New York every day at 3:55 p. m., arriving at Chicago next morning at 8:55.

The business man's opportunity. Today in Chicago, tomorrow in New York. The next morning back in Chicago.

"The Pennsylvania Special" eighteen-hour-train between Chicago and New York, will be equipped with vestibuled and electric-lighted library-smoking, dining, sleeping, and compartment-observation cars. For full information address G. T. Thomson, G. P. A., Pioneer Press building, St. Paul.

Purchased Mining Property.

A. E. McManus, of this city and W. J. Power of Hibbing, have just closed at Bisbee, the purchase of the mining property known as the Apache group, the deal involving a cash payment of $200,000. The property is located six miles south of Hachita in the neighborhood of the Copper Dick property, and includes twenty-three claims. The Apache property has been shipping ore for twenty-three years. Its former owners were Robert Anderson and John Weems of Hachita, and William Bisbee of Cleveland.

SWEDEN ORDERS ALL CONSULS TO ACT FOR THE UNION AS USUAL

Forbidden to Communicate With Norwegian Government

Or to Obey the Orders of the Secessionists In Any Way.

Stockholm, June 13.—Foreign Minister Gyldenstolpe has sent the following circular to all the Swedish-Norwegian consuls:

"After the Norwegian storthing had established a provisional government for Norway and in connection therewith declared the union with Sweden dissolved, the Swedish government decided not to recognize such provisional government. You are therefore instructed to continue the exercise of the functions constitutionally devolving on you as Swedish as well as Norwegian consuls with this restriction that you must not enter into communication with the illegal Norwegian government or obey its orders. In all emergencies you must apply to the ministry of foreign affairs for instructions."

NEW YORK MERCHANT SHOOTS HIMSELF IN CHICAGO HOTEL

Chicago, June 13.—The Tribune today says: Assigning no motive for the act, Charles G. Squires, a New York merchant, has shot himself in the head at the Auditorium. It is said at the hotel where the wounded man remains that his recovery is doubtful.

Squires went methodically about his attempt at suicide. He has been a frequent guest at the hotel, and all the managers, clerks and employes know him well. He bade all of them goodbye without giving any inkling of his intention to take his life. Then he hired a cab, rode a short distance, left the vehicle in Wabash avenue, bought a fishing rod and a revolver, and was driven back to the hotel. It is supposed the rod was purchased to divert suspicion.

Going to his room, Squires left the door wide open, walked to a mirror, and, placing the revolver at his head, pulled the trigger. A chambermaid heard the report and, rushing into the room, found Squires lying on the floor.

Dr. J. D. Hammond, the house physician, was called in and pronounced it a dangerous wound. Squires was unconscious. He left no note or anything to indicate his motive for attempting to take his life.

Squires has a wife and five children living in New York. He is 45 years old.

THE ARCHDUKE JOSEPH OF AUSTRIA HAS PASSED AWAY

Vienna, June 13.—Archduke Joseph of Austria died today.

Joseph Charles Louis, archduke of Austria and royal prince of Hungary, was born at Pressbour, Hunary, March 2, 1833. He had always been known as the "Hungarian archduke" and was deeply loved by the Hungarian people. He was educated in Hungary, as a Hungarian and in the Hungarian spirit. Contrary to the accepted regulations of Hungarian court etiquette in the matter of the education of members of the royal family, Archduke Joseph's boyhood was passed with peasant boys as his playmates and companions. He entered his father's Hussar regiment in 1845 and saw active service. On his return from the wars he was made commander-in-chief of the Hungarian "Honved or reserve army, holding this post until his death.

Joseph did much, or tried to do much for the gypsies of Hungary. He mastered the gypsy language and wrote an excellent grammer of this most difficult tongue. He tried to settle the question of gypsy vagabondage by offering to any gypsy who wanted to settle down a patch of land, a good home, and help in making a start as an agriculturalist. All these efforts, however, were in vain. In memory of a son who died as the result of a shooting the archduke and his wife the Princess Clothilde of Saxe-Coburg and Gotha, established an institution for the care of crippled children. The loss of a second grown up child last year bore heavily upon the archduke and ever since he has lived quietly in his country home "Villa Guiseppi" at Abbazzia. He leaves one son, who married the granddaughter of Emperor Francis Joseph, and three daughters. One daughter, Archduchess Marie-Dorothee is the wife of Phillipe, duke of Orleans, the pretender to the French throne; a second daughter is the wife of Albert, prince of Thurn and Taxis, and the youngest daughter still is unmarried.

NIGHTMARE CAUSES MAN'S DEATH

New York, June 13.—Springing from his bed in a delirium of fear caused by nightmare, Carl A. Claussen, a wealthy broker, today plunged through his bedroom window to the stone paved areaway, four stories below. His skull was crushed and he was dead when picked up a few minutes later. Claussen was 56 years of age. He had been a member of the produce exchange for more than twenty years. His business was said to be most prosperous.

SUBWAY TRAIN SERVICE RESUMED

New York, June 13.—For the first time in more than thirty-six hours through train service in the great underground system was resumed today. The tunnel which yesterday was filled with water for a distance of more than a mile as a result of the breaking of a four foot water main in the uptown district had been cleared, stalled trains had been dragged from the main line where they had stood motionless for many hours and the disarranged signal system had been temorarily repaired. When the morning rush hours came the service both local and express was almost normal and the surface and elevated lines which yesterday were straining every facility to accommodate the additional thousands who turned to them, had been relieved. It is estimated that fully 25,000,000 gallons of water was pumped from the tunnel before the tracks were cleared sufficiently to permit the resumption of traffic. It was between Fourteenth and Forty-Second streets that the most serious trouble was encountered. There the track dips several feet below the normal level and the water gathered to a depth of many feet.

The full extent of damage caused by the flood had not yet been determined.

WOMAN IN THE WHITE HOUSE

May Become a Possibility, Says Associate Justice Brewer.

New York, June 13.—David J. Brewer, associated justice of the United States supreme court has aroused much applause among the Vassar college seniors by an address in which he referred to woman suffrage and intimated that at some future time a woman may occupy the presidential chair.

"In this land," said the justice, "we have no privileged class that comes to its opportunities by inheritance. You are a privileged class, for you have had the privilege of a college education. Do not give yourselves entirely to the enjoyment of literature, leaving the republic to take care of itself. You owe to your country the duty of serving it with all the advantages of your education, for who shall say that within the next decade the suffrage shall not be extended to men and women as it has already been in many of the states; who shall say that before gray hair shall come to your heads, a woman like Queen Victoria shall not sit in the White House to glorify this nation as she glorified England?"

MANY ARE KILLED IN RIOTS AT BREST-LITOVIK.

Warsaw, Russian Poland, June 13.—The outbreak of rioting at Brest-Litovik during which, according to report, man persons were killed or wounded, originated in a conflict between Jews and arm reserve men bound for the Far East. The soldiers are said to have looted provision stores and the Jews in defending their property are alleged to have fired on the troops who returned the fire. The town now is occupied by the military.

In consequence of rumors of a general strike being planned to take place here tomorrow the authorities have issued a proclamation ordering the people not to gather in the streets and warning them that the troops will be ordered to fire in the event of disturbances.

RUSSIANS ARE AWAITING THE ANNOUNCEMENT OF PLACE OF CONFERENCE

Expected Arrangements Will Be Made at Washington Between Ambassadors and the President.

If Roosevelt Is Asked to Decide the Place For Negotiations He Will Probably Name Manchuria.

St. Petersburg, June 13, 6:12 p. m.—At 6 o'clock the foreign office made the following announcement to the Associated Press:

Japan has not yet informed us where and when she desires us to meet her plenipotentiaries, but we may receive her communication at any moment.

St. Petersburg, June 13, 2:20 p. m.—An early announcement of the time and place for the meeting of the Russian and Japanese peace plenipotentiaries is expected to come from Washington as a result of the exchanges between the belligerents on that subject now proceeding there through Count Cassini and M. Takahira, with President Roosevelt as the intermediary. In diplomatic circles the report is current that Russia, whose choice of place continues to be Paris, is ready to allow President Roosevelt to decide that point, in which case there is reason to believe the president may name Manchuria, but the report cannot be confirmed.

Ambassador Bompard, who has returned from Paris, was closeted with Ambassador Meyer this afternoon. Count Von Alvensleben, the German ambassador, was also among the American ambassador's callers.

Despite the rather pessimistic official utterances of the foreign office, the atmosphere there is distinctly optimistic, and a European ambassador who saw Foreign Minister Lamsdorff today, described the Russian minister as being almost in a jubilant mood. The opinion is practically unanimous that if Emperor Nicholas avails himself of M. Witte's services, once it is decided the Japanese conditions can be accepted for a basis for peace negotiations, he will be able to make the best terms for Russia.

An eminent diplomat, in conversation with the correspondent of the Associated Press, referring to the possibility of a Russo-Japanees alliance, succeeding the war, said he considered that a defensive agreement is entirely unlikely. He added:

"If Russia were still in the big end of the combination, as was the case when she rejected, against M. Witte's advice, the alliance offered by the Marquis Ito, compelling the emperor of Japan to turn to Great Britain, an offensive and defensive alliance might be possible. But considering the fact that the British alliance has rendered it possible for Japan to fight Russia for the establishment of her position in the Far East, I consider it out of the question that Japan will bind herself in such a manner as might compel her to assist Russia in the event the Russian emperor's government later concluded to make an attack on India. This is the more improbable, inasmuch as Great Britain is anxious not only to renew but to strengthen her alliance with Japan.

FORMATION VERY BAD.

The Japs Attacked Russian Fleet on Three Sides.

Vladivostok, June 13.—A series of interviews which the correspondent of the Associated Press has had with naval officers who survived the battle of the Sea of Japan has developed a most sensational story of the causes of the Russian disaster, and the complete demoralization which followed the sinking of the flagship Kniaz Souvaroff and the wounding of Admiral Rojestvensky. It is explained that not a single officer of the fleet knew the commander-in-chief's plans. The admirals in command of divisions knew no more than the sub lieutenants and had to rely on the signals of the flagship. Admiral Nebogatoff, upon whom the command devolved, had seen Rojestvensky only once after the juncture of their squadrons and then only for fifteen minutes.

All the stories of extensive target practice in Madagascar, it seems, were false. During the entire voyage there practically was no training in gunnery worthy of the name, and the big gun practice was confined to three shots per vessel. Ugly stories are told of the happenings at Madagascar. Some of the crews certainly were untrained in gunnery and, exhausted by the eight months' voyage under trying moral and physical conditions, were no match for the veteran Japanese, whose marksmanship was wonderful.

The Japanese concentrated their fire on one ship until she was placed out of action and then on another, thus successfully sinking the Oslabya, Alexander III and Kniaz Souvaroff. Some ships devoleped deplorable structural defects. The Oslabya sank without having a single hole below the water line and the water-tight compartments which were changed several times during the voyage did not stand the strain they had been calculated to stand and burst, flooding and heeling the vessel over until she turned turtle.

Lack of homeogenity among the ships made it impossible to maneuver in harmony. The Vladimir Monomach, Admiral Oushakoff and Admiral Senyavin had to lag behind on this account, becoming easy victims. Finally the ammunition was exhausted after the first day's fight.

Even the very morning of the battle, while the buzzing of the wireless instruments on the Russian ships showed that the Japanese scouts were communicating his dispositions to Admiral Togo, Admiral Rojestvensky continued his careless maneuvering, and when the Japanese actually appeared, the Russians were caught in an impossible formation and were attacked on three fronts. Rojestvensky's position was cramped and his transports were badly placed and caused confusion.

While the Japanese were raining projectiles, even from machine guns, on the Russian ships, the latter were huddled together, blanketing each others' fire. Only the leaders of the columns could bring their guns to bear and even on those the untrained gunners fired wildly. To render matters worse the mines and floating torpedoes sown in the paths of the Russian divisions added to the confusion. The Borodino, Admiral Nakimhoff and Navarin fell victims to these obstructions.

It is a heart-rending narrative that Russia and the world should know. The sailors and officers were not altogether to blame. The main fault lies elsewhere. There were many heroes among the Russians. Capt. Berkho of the Oslabya committed suicide on her bridge as the ship sank, rather than save himself. There were thousands of other heroes whose names the world will never know.

REPLIES RECEIVED

From Belligerents But Will Not Be Published.

Washington, June 13.—It was announced today that the formal reply of the Russian government to President Roosevelt's identic note of last Thursday was handed to Ambassador Meyer at St. Petersburg by Count Lamsdorff and transmitted by the ambassador to President Roosevelt. It can be said that it is in perfect consonance with the oral assurance given the president yesterday by Count Cassini, the Russian ambassador here. It had been intended by the president to make public the replies of both Russia and Japan to his appeal for a cessation of hostilities in the Far East, but a decision has been reached not to publish them at this time. This determination was arrived at the suggestion of both belligerents. The publication of the responses at this juncture might not be desirable. Official assurance is given, however, that the informal statements of the contents of the replies are not only accurate, but practically complete as to the information contained in them.

Neither of the formal responses of Russia and Japan contain suggestions as to the place of meeting of the peace conference, or the names of the plenipotentiaries of the two governments, and their home governments. These matic form, of the proposition of President Roosevelt.

Following the important conferences of yesterday, there was a lull in the negotiations today. The discussion of the meeting of the peace conference is proceeding between the representatives of Russia and Japan at this capital They are mere appearances, in diplosubjects were taken up with Count Cassini and Minister Takahira yesterday by the president, but neither the ambassador nor the minister were empowered, at that time, to speak definitely for his government. It is known that Ambassador Cassini tentatively suggested one place, and Minister Takahira another. It is intimated officially today that Paris was the choice of the Russian and London of the Japanese. It can be said that neither government expected that its choice would be ratified by the other.

Were it not that the conference is to be held in midsummer, Washington almost certainly would be selected, as both Russia and Japan regard this capital with favor, not only on account of the admirable facilities it affords, but for the strong additional reason that the conference is to be arranged through the efforts of President Roosevelt. It was ascertained today that The Hague is being considered as a particularly desirable location for the peace conference, and it is regarded as not unlikely that The Hague may be agreed upon by the billigerents.

It is pointed out that a formal armistice between the two great armies facing each other on the plains of Manchuria hardly will be arranged until the peace conference shall take definite form. The suggestion is made, however, that in view of the pending negotiations, neither the Russian nor the Japanese government would permit another general engagement to occur. The subject of the pending negotiations was considered in an informal way at the cabinet meeting today. Assurance is given that no important decisions bearing upon the negotiations were reached.

THE EMPLOYERS AND STRIKERS WAITING

For Something to Turn Up In the Chicago Labor Situation.

Chicago, June 13.—The teamsters' strike today showed little material change in the positions of employers and strikers. The waiting attitude has been adopted by the union leaders as well as by the employers.

President Shea asserted that $3,600 had been sent to the teamsters by a Boston theater, where a benefit performance was given to aid the strike last Friday. According to the finance committee of the teamsters' joint council, the weekly receipts for the strike fund now are $2,000 in excess of the expenditures.

The Railway Express Drivers' union, at a meeting, voted to remain on strike until a satisfactory settlement is made with the express companies.

Officials of the Teamsters' union are making arrangements for mass meetings, to be held in various parts of the city. The public will be invited to attend, and representatives of the unions will be on hand to tell why the strike was called and the reasons why a settlement has not been made.

MAY ALLOW THREE JAGS A YEAR

New York, June 13.—An ordinance is to be introduced here permitting every citizen freedom from punishment if he shall not be arrested more than three times in one year for being drunk. Under the proposed law, when a person is arrested for intoxication he will be kept in the station house until he is sober, and then it will be the duty of the captain to inform him of the nature of the charge.

If the prisoner can swear that he has not been arrested more than twice within a year on the same charge, the captain can discharge him without arraignment in court. Provision is made for punishing those who swear falsely.

AMERICAN BOYCOTT

Is Growing Rapidly In Many Chinese Towns.

Tien Tsin, June 13.—The boycotting of American goods by the Chinese guilds is daily assuming more serious proportions. The guilds have quietly determined to carry the boycott through, and the aspect for American manufacturers is rather gloomy. The native newspapers are refusing advertisements of American goods.

ITALIAN SHIP WAS AT TARGET PRACTICE.

Vancouver, B. C., June 13.—Captain Camillo, commander of the Italian cruiser Umbria at present in this port has received from Rome the following cablegram:

"Reported in English papers that you bombarded Pender island. What have you to say in explanation?"

At Pender island are located the targets which the British ships at Esquimalt use for target practice and at the suggestion of the commander of the British cruiser Egeria, the Umbria's crew had target practice there last week. No property was injured during the practice and no complaint of the target practice was made by the residents of Pender island.

WELLS-FARGO ARE SELLING BANKS.

San Francisco, June 13.—I. W. Hellman and associates have purchased the Portland branch bank of Wells-Fargo & Co. It has been merged with the United States National bank of Portland. In effecting the merger the latter institution has increased its capital stock from $200,000 to $500,000. By consolidating their San Francisco bank with the Nevada bank, under the name of the Wells-Fargo Nevada National bank and selling their branch banks at Salt Lake and Portland, Wells-Fargo & Co. have now left only their New York bank. It is understood they will retain that institution as a matter of convenience for their New York business.

MOTOR RECORD BROKEN.

Ogden, Utah, June 13.—The world's competition five-mile motor record has been broken by E. B. Heagren of Salt Lake on the Greenwood track. The time was 5.59 3-5, which is 23 4-5 sec. faster than Heagren's former world's record, made in Salt Lake City last June.

GERONIMO BACK AT FORT.

Guthrie, Okla., June 13.—Geronimo, the Apache chief, who is a prisoner of war, has returned to Fort Sill from Bliss, Okla., where he took part in the Indian celebration witnessed by the National Editorial association. It is stated that he left Fort Sill with the war department's permission.

COL. WM. COLVILL, VETERAN OF CIVIL WAR, FOUND DEAD

Was at the Minneapolis Soldiers' Home to Attend Reunion.

Commanded First Minnesota at the Charge at Gettysburg.

Col. William Colvill, commander of the First regiment of Minnesota, in the famous charge at Gettysburg, the greatest charge in history, of which Col. Fox, in his work on "Regimental Losses in the Civil War," says that the percentage of loss was "without an equal in the records of modern warfare," is dead.

This morning he was found dead in bed at the Minnesota Soldiers' home in Minneapolis, where he had gone preparatory to taking part in the reunion of the regiment today. From a happy occasion it is now turned to one of great sadness, for the members have always honored and revered their leader in the final year of service. He was 75 years of age.

The First regiment had an eventful history. It was the first regiment offered to President Lincoln in the Civil war. Alexander Ramsey, then governor of Minnesota, was in Washington on the evening of Saturday, April 13, 1861, when the news of the surrender of Fort Sumter reached there. The next morning he went up to the war department and met Secretary Cameron, about to leave to call upon President Lincoln. He made the tender of a regiment, and was asked to put it in writing. This he did, and Secretary Cameron at once carried it to the president.

Directions for the formation of the regiment were then given, and it was assembled at Fort Snelling, April 29, 1861. It was made up of ten companies from the guards of thes tate. The Goodhue volunteers were among these and Capt. William Colvill was in command. These became Company F of the First regiment. June 14 they were ordered to Washington, and then began their participation in an eventful series of battles. They were at Bull Run, Ball's Bluff, in the valley campaign at Fair Oaks, and in the peninsular campaign, with its seven days' battle.

At Glendale Capt. William Colvill was desperately wounded. Judge Lochren in his history of the First Minnesota regiment says of this incident of the wounding of Capt. Colvill, "but with that imperturability for which he was always distinguished, he gave no sign of being hurt and turned his command over to his lieutenant as if for a few minutes absence, and no one knew until next morning that he was hurt when he was heard from as having walked to the field hospital at Malvern hill."

The regiment was afterward at Antietam and Harrison's landing, September 2, 1862, Maj. Colvill, as he then was, became lieutenant colonel. Fredericksburg with its sickening horrors followed and then Chancellorsville was participated in. In May, 1863, Col. Colvill became commander of the regiment and soon after came the Gettysburg campaign.

July 2 came the terrible charge when the regiment, numbering 262 men, was hurled against the whole front of the Confederate army to gain a few minutes time for the temporarily demoralized Union army. The command to charge meant death or wounds for practically every man and every man knew it, but there was not a moment of faltering. They accomplished what Gen. Hancock wanted but the cost was a terrible one, for out of the 262 men who went in, but 47 emerged in line. On the field lay 215 dead and wounded—not one man failed to obey the desperate order.

Col. Colvill was terribly wounded and never saw active service after that. The remnant of the regiment took part in other engagements but the following winter it was ordered home. A grand banquet was given it at the National hotel in Washington, Feb. 5, 1864, at which Hon. William Windom presided, and Hannibal Hamlin, vice president, Edwin M. Stanton, secretary of war, and many other distinguished men were present. Col. Colvill was still unable to stand, not having recovered from a terrible wound in his foot, and he had to be carried into the banquet. In all 309 members were present, many of whom were still suffering from wounds.

Col. Colvill, though disabled by the wound in his foot, took command of the regiment and returned with it to Minnesota. The brevet rank of brigadier general was conferred upon him. Judge Lochren in his history of the regiment, says:

"Never was brevet more fully earned, nor bestowed on a more gallant and deserving soldier. Liberally educated, a lawyer in good practice before the war, and naturally studious, he mastered without effort knowledge of tactics, regulations and everything pertaining to the duties devolving upon him. But he was the most modest of men, without a trace of arrogance, always kind and considerate toward everyone, and ever watchful for comfort and welfare of his men. Careless of everything in the nature of mere display, he would not, perhaps, attract notice at a review, but on the battlefield he always rose to his full height of six feet and five inches, the bravest, coolest and most imperturable of commanders, whom nothing ever daunted or surprised. He was just the man to lead the charge made by the regiment at Gettysburg, and had, as such a man always has, the fullest love and confidence of those whom he commanded."

Following the war Col. Colvill lived at Red Wing much of the time. In 1889 he was appointed register of the United States land office at Duluth and served for two years, resigning then. He then went to Grand Marais, Minn., and lived for some time on a homestead but after a few years went back to Red Wing and has made his home there since.

In a way Col. Colvill was a sad and pathetic figure. His six feet and five inches of magnificent manhood was distorted and misshapen by the terrible wounds received in battle. He walked with effort, one leg being badly crippled. It was often remarked that he "carried three pounds of Confederate lead" in his person. Be that as it may, he was a living evidence of the terrible effect of the charge through which he so gallantly led his regiment, which by its valor turned the result at Gettysburg, and perhaps that of the war.

MANY MERCHANTS FLEECED BY BOGUS STANDARD OIL CHECKS

Chicago, June 13.—A dispatch to the Tribune from Van Buren, Ind., says: That merchants in this vicinity have been fleeced out of $100,000 by bogus checks on the Standard Oil May pay roll has developed on the arrival here of Assistant Treasurer F. S. Davis from New York to investigate.

The forged pay checks range in face value from $80 to $1,000, and are duplicate numbers of the genuine Standard Oil checks, through which fact the frauds were discovered.

The forgeries passed the banks and were not discovered until checking up began at the company's offices. The signature of F. S. Blake, treasurer of the company, is so well imitated that it deceived bankers familiar with it. It is said that bogus checks are being received at New York from the Pennsylvania, Ohio, Indiana and Kentucky oil fields, in each of which investigations are being made.

THE JIG AND THE CLOG WILL BE THE FASHIONABLE DANCES

Columbus, Ohio, June 13.—If the plans of the dancing masters of the country, who are now in annual session here, go through, and it is believed they will, the old jig and clog, will be a prominent feature of all well-developed dance programs in the country from that of the Hod Carriers' union to that of the most ultra refined set in Boston.

The jig and clog, the masters say, are the real goods in developing the limbs, in teaching grace with activity of motion, and all other things that the waltz has been doing for centuries past, and from now on the jig crow hop, the "croppy lie down" and kindred dances will have the official approval of the organization.

Some of the members look askance at the innovation and one said that the waltzand the two-step are the only dances and that they may popularize some things in spots around the country, but those are "the" dances.

FREIGHT AGENTS AT MINNEAPOLIS

Minneapolis, June 13.—(Special to The Herald.)—Local freight agents from all parts of the country assembled in the Bijou theater here for the opening session of the American Association of Local Freight Agents. President C. H. Newton of Toledo, responded to the addresses of welcome by the representatives of the city and the business organizations. J. B. Tittemore, agent of the Minneapolis & St. Louis railroad spoke in behalf of the local railroad men. He made a strong point of the powerful friendly influences which local station agents may wield for their roads by courteous and businesslike methods.

Over 250 delegates have registered, the list including some of the best known local railroad men in the business. There are also representatives from Canada and Mexico. Elaborate plans have been made for entertaining the visitors and their ladies. The regular business sessions begin this afternoon at the Nicolet hotel, continuing for three days.

KIDNEY AND BLADDER TROUBLES PROMPTLY CURED.

A Sample Bottle Sent FREE by Mail.

Dr. Kilmer's Swamp-Root the great kidney remedy, fulfills every wish in promptly curing kidney, bladder and uric acid troubles, rheumatism and pain in the back. It corrects inability to hold water and scalding pains in passing it, or bad effects following use of liquor wine or beer and overcomes that unpleasant necessity of being compelled to go often during the day and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases.

Swamp-Root is not recommended for everything, but if you have kidney, liver, bladder or uric acid trouble you will find it just the remedy you need.

If you need a medicine you should have the best. Sold by druggists in fifty-cent and one-dollar sizes. You may have a sample bottle of this great kidney remedy, Swamp-Root, and a book that tells all about it and its great cures, both sent absolutely free by mail. Address Dr. Kilmer & Co., Binghamton, N. Y. When writing, be sure to mention that you read this generous offer in The Duluth Evening Herald. Don't make any mistake, but remember the name, Swamp-Root Dr. Kilmer's Swamp Root, and the address, Binghamton, N. Y., on every bottle.

GROOM WAS MISSING

And the Minister, Bride and Crowd Wondered.

Hokah, Minn., June 13.—The guests were arriving, the minister was on hand, the bride was in waiting, but the prospective groom failed to put in an appearance, and a wedding that was to have taken place this week in the town of Union, near here, was postponed indefinitely.

August Blinn, who has been working at farm and threshing work about here for several years, was to be married to Miss Hannah Wolf, daughter of a well-known farmer of Union township. Blinn had lately been working in La Crosse, and the night previous to the day of the wedding he drove over, accompanied by his sister and her two daughters, one of whom was to be bridesmaid. The prospective groom told his nieces he had rented a home in La Crosse, and on the way he purchased gloves for his bride and wine and catables for the wedding feast. They drove to the home of a neighbor in Union, about three miles from the home of the bride, where he had previously been employed, and on which place the team he had belonged.

About midnight Blinn left, saying he was going to the home of the bride, where the marriage was to occur in the morning. He was missing the next morning, but not until the time of the marriage was near and he had not yet appeared was there any uneasiness. Then the telephone was put into use, and it was discovered that the groom was not to be found anywhere. He had drawn several hundred dollars at a bank a day or two previous, and fears were first expressed of foul play. But hopes were yet held out that he would be on hand, and the bride, minister and guests waited. Search was instituted, but he was not to be found.

Late Sunday evening he was located in La Crosse, Wis., having evidently made his way back to the city during the night. He gave no plausible excuse for his actions, and the marriage is off.

EASTERN MEN

Swindled Out of Money By Land Sharks.

Washington, June 13.—Land Commissioner Richards has been notified of a swindling scheme that is being practiced upon innocent and unsuspecting parties who are induced to leave their homes in New Jersey, and go clear to Cass Lake, Minn., only to find that they have been buncoed.

Last week Frederick Kull of Newark, N. J., arrived in Cass Lake, having in his possession a paper which purported to show that a quarter section of land had been held in reserve for him for six months from Dec. 9 last.

Kull presented his paper, which was in the form of a receipt for $50 and signed by John C. Harris, an alleged attorney. The register and receiver of the Cass Lake land office promptly advised Kull that he had been swindled. No land had been reserved. The description in his receipt covered land which does not exist and the whole thing is a rank fraud.

It is said that Harris has been operating at Bemidji under several names. It is stated at the land office that no land can be held in reserve for anybody on the Chippewa reservations in Minnesota. Every entryman must appear in person when he takes the land.

Low Fare

To New England and Canadian points via "The Northwestern Line." Very low one way rates are now in effect to points in New England states and Canada. Call at City Ticket Office, 332 West Superior street.

TRIAL OF MILLER

For Embezzlement Begins at Grand Rapids.

Grand Rapids, Minn., June 13.—The trial of former Treasurer Miller for the embezzlement of $412 while treasurer of the county was commenced yesterday. F. F. Price, C. C. McCarthy and C. L. Pratt appear for Miller and County Attorney Spear for the state. Judge McClenahan presides.

Miller held office for six years and is charged with other shortages, the whole aggregating, according to the public examiner, $5,000 or more.

SUICIDE AT POWERS.

Joseph Miller, a River Driver, Hangs Himself.

Hibbing, Minn., June 13.—Joseph Miller, 25 years old, who has been employed as a river driver by the Powers-Simpson Lumber company, committed suicide as the result of a week's spree at the headquarters of the company at Powers, yesterday. The body was found suspended from a rafter by a rope at 2 o'clock yesterday afternoon by a number of the men.

Deputy Coroner Butchart viewed the remains and decided an inquest unnecessary. The body was brought to Hibbing, and it will be buried by the county.

WEST END.

BAPTISTS MEET

Opening Session of Lake Superior Baptists' Association.

Annual Sermon Delivered By Rev. S. C. Davis.

The tenth anual meeting of the Lake Superior Baptist association began last evening at the Central Baptist church at Twentieth avenue west and First street. The feature of last evening's meeting was the annual sermon delivered by Rev. S. C. Davis of the First Baptist church. The meeting will end with this evening.

Mr. Davis preached on "The Publicity of the Origin of the Christian Faith." His text was Acts xxvi: 26: "For this thing was not done in a corner." Mr. Davis' treatment of the subject was all that could be desired. The words of the text, he pointed out, were those of the Apostle Paul when he appeared before King Agrippa. That first and most wonderful evangelist told the king of how the Christian religion captured him and declared that its cause would be his until his death. The apostle made it plain enough to the king that there was nothing mysterious about either the origin or the conduct of Christianity. There is no dark chamber or secret cabinet, said Mr. Davis, no juggling, no incoherent incantations, no mysterious rappings or anything of that sort. The Christian religion was brought forth openly, heralded before hand and has always been conducted openly.

Mr. Davis declared that it was brought forth and first preached in the most critical age of the world's history, that ago in which Horace, Virgil, Cicero and the other mental giants lived, an age when one had to prove one's position before attention was paid.

PROGRAM WEDNESDAY

At Swedish Baptist Church By Finnish Union.

The Duluth branch of the Finnish Baptist Mission union of America will give the following program tomorrow evening at the First Swedish Baptist church, corner of Nineteenth avenue west and First street:

Song	Audince
Scriptural reading	John Lindgren
Opening address	A. Thoren
Song	Baptist choir
Address	Prof. K. A. Ostergren
Violin solo	William Anderson
Address	Rev. S. C. Davis
Recitation	John O. Hurtig
Address	Rev. A. Storman
Recitation	Rev. A. Shugren

EXTENSIVE REPAIRS

Being Made to Swedish Mission Church.

Extensive repairs are being made to the Swedish Mission church of the West end. The church's finances are in excellent shape these days, and while at present only actually needed repairs are being put on, it is quite likely that before long some excellent decorations will be added. At this time a new roof is being put on the church and the gas jets from which the church has been lighted, are being replaced by electric lights.

There will be a huge cluster of lights in the center of the auditorium and additional lights scattered over the ceiling and mouldings. There will be fully 150 electric lights used.

Other minor repairs are also being made and the bill will foot up to several hundred dollars.

West End Shortrails.

Word has been received that Alfred Johnson, formerly of Scanlon, and a member of Duluth camp, No. 2341, M. W. A., has been killed at Coeur d'Alene, Idaho. No details have been received.

John McGuirk is down from Chisholm on business.

William Bickford has returned from Brainerd, where he was employed for two months.

Dr. Coventry has returned from Deerwood.

HIT BY TRAIN.

John Berg of Stillwater Sustains Broken Arm.

Bemidji, Minn., June 13.—While walking westward on the Great Northern track yesterday afternoon, John Berg, apparently about 50 years of age, was struck by the East bound passenger and sustained a broken arm. The accident occurred about two miles east of Wilton and Berg was put on board the train and taken to Bemidji and was confined in St. Anthony's hospital. Berg was in an intoxicated condition when he was struck and carried a bottle of whisky with him. He gives his home as Stillwater and says that he is unmarried.

CLAIM LETTER IS AN INSULT

Superior School Board Votes to Expel Principal McQuarrie.

The board of education in Superior, last evening, rung down the curtain on Principal T. W. McQuarrie of the Carpenter school, by refusing to accept his resignation, and changing their former vote of suspension of Mr. McQuarrie to one of expulsion.

This action was taken, the board declared, because of certain statements which Mr. McQuarrie made in his letter of resignation, and which were claimed to be an insult to the members, and would tend to put them in a false light before the public.

Principal McQuarrie, in his letter of resignation, did not mince matters at all. He declared that he is convinced the charges made against him were actuated by malice and vindictiveness on the part of two members of the board whom he claimed had made their boast that they would "hound" him now, and in any other position that he might take. He declares that any inquiry, where the two members of the board are apparently given the support of the majority, would be a farce, and he has no desire to prolong the trouble so unpleasant to him, and not conducive to the well being of the public schools of Superior.

There were five specific charges made against Principal McQuarrie, these being signed by Commissionr A. A. Campbell. These were that he had been hostile to the school system; had endeavored to breed trouble between Principal James and his pupils; had told his last graduating class he was sorry for them if they would be compelled to be under a principal like James; that he assisted in preparing the matter in the publication got out by the striking pupils at the Blaine school, and that he encouraged the strike both by speech and example.

Mr. McQuarrie refused to be interrogated on the charges before the board, until proof was furnished of their authenticity, and the board suspended him, changing it to an expulsion last evening.

Before voting, various members of the school board expressed their sentiments, President Danielson declaring outright in favor of retaining Mr. McQuarrie, and Commissioner Booth declaring that McQuarrie was one of the best principals they had ever had. He said that things which the principal had told him in confidence should never have been brought up in the charges.

When the vote was taken, six commissioners voted for expulsion, one against it. Commissioner Booth refused to vote.

WANT MACHINE FOR PRIMARIES

State Voting Machine Commission Makes Its Requirements.

St. Paul, June 13.—Voting machines approved for use in Minnesota must be capable of adaptation to primary elections. This was the expressed sentiment of the members of the state voting machine commission, who held their preliminary meeting at the capitol today.

There has been some complaint because voting machines offered for use in the state have not been of a type that could be used at the primaries. This meant that, with primaries held on the old ballot plan, precincts could not be enlarged. However, experts say that machines can be so built as to be adjustable for either the general or primary election, and such a machine will be called for in the specifications being framed for Minnesota. The commission, consisting of Attorney General Young, Professor J. G. Flather of the state university and F. W. Cappelen, former city engineer of Minneapolis, spent a good part of the afternoon studying requirements of other states and the essentials of the Minnesota election law, which the voting machine must comply with substantially. When specifications are agreed on, a date will be set for an examination of the machines presented, which will take place at a room in the capitol. Two companies made application today for an examination, which will cost them $150 each. One is the United States Standard Voting Machine company of Rochester, N. Y., represented by P. G. Sjoblom of Minneapolis, and the other the Universal Voting Machine company of Bloomington, Ill., represented by W. P. Johnson of St. Paul.

Machines approved by the commission will be carefully specified. The commission will not indorse a certain make, without restriction, but will authorize the use of that machine when built to conform with the sample examined.

The members of the commission are waiting with interest for the decision of the supreme court of Illinois in a Chicago case involving the validity of the voting machine law. This case has raised for the first time whether election by machine is an election "by ballot," as all constitutions require.

St. Paul or Minneapolis and Return $4.80.

The Northern Pacific railway will sell round trip tickets at above rate June 12, 13 and 14, good returning June 17. Three trains daily. For full particulare apply City Ticket Office, 332 West Superior street.

LIFE TERM FOR KARATSKY.

Murderer Feigned Insanity to Escape Prison Cell.

Grand Rapids, Wis., June 13.—Judge Charles M. Webb sentenced Abraham Karatsky yesterday to a life term in the state prison at Waupun. Karatsky was found guilty of murder in the first degree. He put in a plea of insanity and hoped to get clear of the prison, and at the close of his testimony it looked much as though he would escape. His attorney, W. J. Conway, brought out much testimony to the effect that ever since Karatsky had lived in the town of Saratoga and also in this city he had acted strangely and appeared to most of the witnesses really insane.

Since the jury found him sane Karatsky appears bright and talks freely with every one, but before and during his trial he wore an absolutely blank expression. He said to the sheriff after the jury found him sane. "Now you can let me walk around in the corridors because I am no longer crazy." He shows no regrets or remorse at the crime that he committed and still insists that he did the right thing when he shot Ida Finkelstein. He killed her in cold blood on March 27 last, because he had a quarrel with her the evening before.

A GREAT WEAPON.

Duluth People Cannot Fail to Appreciate Its Value.

Only one weapon
To fight backache.
The weapon that strikes the cause.
Doan's Kidney Pills strike the root.
Their work in Duluth proves it.
You read of cures made years ago.
And the cures were lasting cures.
Read the following:

James Root railroad engineer, living at the corner of Michigan street and Twentieth avenue, Duluth, Minn., says: "I cannot do otherwise than endorse and recommend Doan's Kidney Pills. The benefit I received from the use of this remedy several years ago has proved satisfactory and lasting. When I got my first box I was in bad shape. I was suffering from severe pains and soreness in the small of my back and through the hips. The kidney secretions were unnatural and contained a heavy sediment. Doan's Kidney Pills brought relief promptly, and as I have stated, this relief has been permanent. I also used Doan's Ointment. This remedy brought just as prompt and lasting relief as did Doan's Kidney Pills. I told of my case in a testimonial given over six years ago, and I am glad to confirm that statement."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and take no other.

Furniture, Floor Coverings, Draperies.

French & Bassett DULUTH, MINN. Corner First Street and Third Avenue West.

Linens, Housefurnishings, Stoves and Ranges.

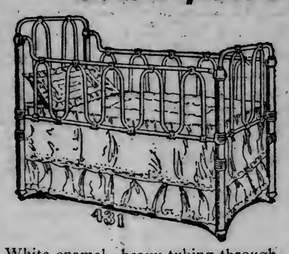
Things You Want

At Prices You'll Be Pleased To Pay!

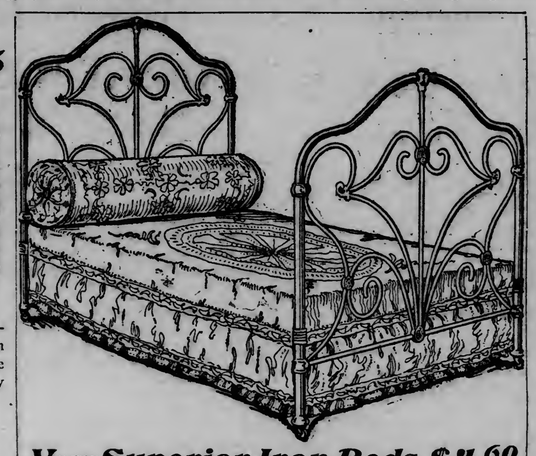
That's our story in a nutshell and an interesting one it should be to you. A visit to the store will prove beyond a doubt that for largeness of assortment—newness of styles—and lowness of prices the French & Bassett store excels, and that this is the place for you to buy your housefurnishing goods. **Our low prices are terse and powerful arguments with the name of French & Bassett back of them as a guarantee of quality.**

Here are some of the things you may need this season—so the news of pricing ought to be interesting.

Child's Iron Cribs $4.75



White enamel—heavy tubing throughout—adjustable, drop sides — woven wire spring—an excellent crib for the money—the ordinary store would say $8.00 for its equal.



Very Superior Iron Beds $4.60

Full size—a most desirable pattern—very heavy tubing throughout—finished in plain cream and gold, and red and white—a remarkable value these when you consider the fact that other dealers do not hesitate to ask $10 for its equal.

Excellent Dressers $8.50.

Made of solid, thoroughly seasoned hardwood — have three large drawers — French plate mirror—swell shaped top—brass drawer pulls—an equal value would be priced at $11.00 by the ordinary store.

Solid Hardwood Dining Chairs Only 95c

Made of solid hardwood— in the golden finish, solid bolted arms, neatly carved backs, a strong well-made and serviceable chair, easily worth $2.00.

Very Artistic Plate Racks

Of solid oak—34 inches wide—very desirable, attractive designs—cup hooks for cups under shelf. **48c**

WE HAVE JUST RECEIVED a large shipment of new Plate Racks in all styles, sizes and finishes. Prices up to.. **$3.50**

Food Containers

Make no mistake about refrigerators—the cost of a refrigerator is nothing—the ice you pay for may amount to fifty times as much.

Every cent you take out of the refrigerator will cost you two or three cents additional price—you simply cannot get ice-saving qualities without cost.

THE RADIUM— CHARTER OAK— and OPAL LINED REFRIGERATORS—

have been worked down to the lowest limit of safety. They have been made to cost as little as they must in order to save you money afterward. And the prices are small when you realize that a refrigerator of this sort will last many, many years.

Your food for the next twenty years is going into the ice-box you buy. Isn't it worth being a little busy about?

It will pay you well for health and economy's sakes to see the French & Bassett line ere you purchase.

PRICES $8.50 to $1.00.

All Goods Sold on Easy Payments.

Notable Arrivals of New Furniture

During the past ten days we have placed upon our floors several carloads of choice new furniture from the leading makers of America. Much of it was ordered last January and has just reached us, and more was ordered last month to replenish our stock, which was much depleted by the heavy sales of the early Spring.

With the active trade we have enjoyed this season, and the large arrivals of new goods in February and March, and now with these later reinforcements, we say without hesitation that this stock is practically a complete new one. In size and variety it will compare with stocks in cities four times the size of Duluth, and in extent and selection will probably equal all other Duluth stores combined. We cordially invite you to come here and examine this stock carefully and to make the closest comparisons of both goods and prices.

We prove to the satisfaction and profit of many customers each day that our prices are from 10 per cent to 20 per cent lower than other stores, quality for quality. That's one of the reasons why this store has built up such a large and growing trade.

Macey Wernicke Book Cases

The bookcase for the home — for the office— The most convenient of bookcases — made in various size sections to accommodate various size books. No other make of sectional bookcases equals the Macey in variety of sections—richness of appearances and the case with which it can be arranged to accord with the style and tone of the apartment. The bookcase built in the home is the same forever—whereas, a Macey may be arranged to conform with all conditions and still remain a perfect case. Come in all woods and finishes—

Prices, $1.65 a Section up.

A 10c Sale in the Drapery Department.

All remnants from 1 to 5 yards in length—goods regularly selling at 25c to 90c a yard—on the bargain table while they last at 10c a yard.

Couch Covers.

Beautiful Tapestry Couch Covers—60 inches wide—3 yards long—fringed all around—heavy exquisitely colored covers, worth $6.00. **$3.90**

Nottingham Lace Curtains.

YOU WILL FIND this department full of new and beautifully attractive things for home decoration and our expert drapery man is ever ready to aid you in carrying out your ideas or with helpful suggestions of his own origination.

All Goods Sold on Easy Payments.

French & Bassett's Partial Payment Plan.

It is a modern system of credit that enables those who desire to pay cash for their things and those who wish to pay by the week or month to trade on the lowest cash basis. Buy what you want, pay a little down and a little each month, or each week as you prefer, and thus have the comfort of things while you pay for them. This system is most convenient for people with fixed monthly or weekly incomes and has been the means of furnishing many thousand homes in Duluth and vicinity. Why not your home?

"NO WORK, NO EAT"

Policy Rids Fort Dodge of Tramp Nuisance.

Fort Dodge, Iowa, June 13.—"No work, no eat," is the ironclad rule adopted by Mayor Bennett of this city with respect to the tramp problem, and Fort Dodge has the distinction of being the only city in the state which is entirely free from tramps. The mayor early in the spring made known his intentions of keeping the city free from these pests, and called upon the citizens to assist him. He requested that as soon as a tramp applied at a house that the police department be informed. So faithful has this request been heeded that the patrol wagon was going at all hours of the day. When captured the hobo was fined and given a certain number of days to work on the street. Upon refusal he was lodged in jail and allowed to fast until he showed a disposition to work. The word soon became widely circulated about the country, and Fort Dodge has been given a wide berth.

The town of Clare is again excited over the mysterious disappearance of Matt McDermott, a well-known farmer. This is his second escapade and friends believe him demented.

NOT DECLINED.

United States and Britain Await France's Action.

Berlin, June 13.—The German foreign office, taking cognizance of a London Times dispatch from Washington saying the United States and Great Britain have declined the invitation of the sultan of Morocco to send delegates to a conference on the subject of the proposed reforms for Morocco, informs the Associated Press that these powers have not declined the invitation, but have only indicated that they will wait until it is seen what France will do. Premier Rouvier still holds the matter under consideration and the foreign office does not venture to speculate on what France's decision will be.

NEW POTATOES.

Great Falls, Mont., June 13.—New potatoes every day in the year, raised without any vines or outward visible sign of their growth, is the accomplishment of a local inventor. He has been in correspondence with a Chicago man, who states that if the experimenter makes good his claim he will give $100,000 for the controlling interest in the invention.

The Young Ladies' Card club was entertained yesterday afternoon by Miss White of 1421 East Superior street. The card favors were won by Miss Edith Davidson and Mrs. Cora Hubbell McDougall and the guests were:

Mesdames—
J. B. Cotton, George Mance,
D. H. Costello, D. W. Stocking,
C. F. Macdonald, Rufus Draper,
F. M. Shaw, F. R. Leslie,
Cora Hubbell-McDougall, William White,
Misses—
Davidson, Florence Brewer,
Martha Peyton, Maud White,
Dickinson,

• • •

The wedding of Mrs. Cora Hubbell-McDougall and William Johnson will take place tomorrow at 1 o'clock at the home of the bride's parents, Mr. and Mrs. A. C. Hubbell of East First street.

• • •

The wedding of Miss Gertrude Miller and James Scott, both of Grand Marais, will take place tomorrow at the home of the bride's sister, Mrs. G. N. Stevenson of Twenty-first avenue East and Second street. Immediately following the ceremony Mr. Scott and his bride will leave for Winnipeg where they will make their home.

• • •

Mrs. Wilson G. Crosby has returned from a short visit at Lake Minnetonka.

• • •

Mrs. A. W. Dutton has returned from seven months spent in California and will be with Mrs. J. W. Norton of East First street for the summer.

• • •

Mr. and Mrs. C. O. Applehagen of West Duluth have gone for a lake trip. They will visit in Buffalo, N. Y., and at Lake Chautauqua.

• • •

Any local members of the Young Women's Christian association who are planning to visit the Portland Fair this summer will do well to keep their membership in the association in mind and their ticket with them. Luncheon and rest rooms, baths and an information bureau will be maintained and particularly for the benefit of the association members all over the country. The members must present their cards, however, to secure special privileges and women going from here would do well to join the local association before their departure and the dollar for membership may save them a few dollars on their summer trip. The following schedule of prices will show the advantage of membership:

		To Members
Rest room, per hour	25c	15c
Additional hour	10c	5c
Bath	25c	15c
Nursery, ½ day	50c	30c
One day (with meals)	75c	50c

Lavatories and toilet free to members (towel 5c.)
Free information bureau.
Parcels will be cared for free for members.
Membership card must be presented to secure privileges.

TESTS OF TEMPER.

Let Them Be Applied to Prospective Bridegroom.

It is, indeed, true that young women should not marry in blind confidence, and here are certain tests of temper, etc., which might be applied to the would-be bridegroom. A few helpful hints along this line will probably be appreciated by engaged maidens, says an exchange.

To detect hastiness and a tendency to domineer, invariably keep your betrothed waiting, and, after making theater engagements, etc., take your time dressing, so as to be always late. Miss a train or two, if possible. If he is at all irritable he will certainly show it sooner or later.

Meanness is easily unmasked by asking for little things, autos and diamonds, or instance.

Refuse to comply with his requests in any particular. You can thus determine whether he is inclined to be sulky.

Reproach him with previous flirtations, whether you believe there were any or not. If you persist long enough and with a sufficiently injured tone, something will unquestionably happen.

Vanity and self-love are most readily detected by a steady course of depreciation. Criticise his taste in dress and ridicule his nose. If he flies up, break the engagement at once.

To ascertain if he is at all addicted to profanity, set your fairy foot down gently, but firmly, on his pet corn. It is ten chances to one that not even the restraining presence of the sweet girl he loves will enable him to hold in.

Positively require him to stop smoking. If he says he can't, feebleness of character is indicated. If he says he won't, of course he's a brute.

For a good all-around test of faithful affection, entertain him when you have a bad cold in your head, or let him see you blackening the kitchen range, with your pompadour sliding over one ear and a smudge on your nose. Another good way is to keep on asking him whether he really loves you, when you know he is hungry.

Rescurceful women can easily amplify these hints. By the application of a few simple tests like these, mistaken marriages may be avoided.

FOUND ON LOST CREEK

By May Belleville Brown.

(Copyright, 1905, by Daily Story Pub. Co.)

The bunk house of Lost Creek Ranche held its usual winter evening quota of men who, during the hour before turning in, were indulging in the customary running fire of jokes and argument over their pipes. Finally the talk fell on Masterson, the stalwart foreman, who was living at "The House," during the winter absence of the owner. The voices had dropped a trifle in earnestness, for the welfare of this man was at every heart.

"There'll be a new foreman on Lost Creek before spring," prognosticated old Bones, shaking his head. "He's gettin' thinner an' more holler-eyed every day."

"Shucks!" scoffed Deacon. "Worry ner heartache ain't goin' to kill the old man. But yet it gets away with me to see that sorry look on his face all the time."

"Tell ye what he makes me think of, fellers," spoke up Lariat Pete, ruminating over his pipe. "Five—six year ago we had a pair o' these here Saint Bernard dogs here—big yaller an' white fellers, you know. The Boss had promised to take one to his little gal when he went East, so he totes off the littlest one. Well, sir, ol' Max never whimpered onct when he was left behind, but he jest went frum one to the other with the sorriest look on his face, an' there he'd pace back to the road? and set down, looking east. An' he kept gettin' sadder and thinner, an' more uncomplainin' till we boys didn't know whether to shoot ourselves, or go east an' kick the idiot that took off the poor dog's mate. An' one morning we found Max at the top of the hill, with his nose towards the east, stiff as a picket pin. I tell ye, that dog had as much a Christian buryin' as the Hell-roarin' gang thet was here then could give him."

There was a sympathetic silence for a moment. Then Pete continued:

"I don't know whether Masterson's lost a mate or not. If his heart's broke that won't kill him. Only dogs and hosses is lucky enough to die of that. I don't believe he'd go off his feed an' get so sorry lookin' for anything but a woman, but as we don't know nothin', an' can't do nothin', we'd best keep our tongues off an' let him fight it out alone, same as Max did."

It was well that Masterson was preoccupied, else, entering before Pete had fairly finished, he would have noticed the guilty looks of the men. He had come over from his lonely fire to talk of some changes in the next day's work. A storm was wewing, and a gang must be put to work, hauling extra hay from the creek's bottom; a half dozen cows and calves must be cut out and housed; the lower row of straw-thatched sheds needed repairing. So engrossed were they in the discussion that they realized the opening of the door only by the gust of wind which flared the lamps. Then they looked and marveled, speechless—almost breathless.

On the threshold, smiling a little, half in fear and half in friendliness, stood a little child. She was not a ragged, shivering prairie waif, but plump and rosy, and as bright-eyed as though just wakened from sleep. A moment she scanned the faces about her, and then advanced slowly toward Masterson and held out her hand.

"I fink I'll let you take care of me," she announced, with her shy little smile, and a flattering accent on the pronoun.

Her voice broke the spell that held the men, and they descended upon her as one, with many exclamations and questions. Indeed, had it not been that she found herself safe upon Masterson's knee, her courage might have failed her entirely, as she looked at the bronzed faces circling about her, while the men gazed and marveled. But she bore the scrutiny bravely, and smiled trustingly into the face above her.

"Where did you come from, Little One?" Masterson's voice was strangely tender.

"Way off," with an indeterminate wave of the hand.

"Who brought you?"

"Some folks." Her voice hesitated a trifle.

"Where did they go?" continued her questioner.

"Back to town, I fink,' she faltered, and then smiled bravely again.

"Why did they leave you here?"

She shook her head. "I dess I'se dittin' lonesome." At the quivering of her lip Masterson desisted, and hastily soothed her.

"The baby can't tell," he said. "Some of you men saddle up and hunt the outfit. They can't have gone far."

Several throats were simultaneously cleared. "Looke here, Masterson," argued Pete, "air ye goin' to give that little thing to a pack of folks so plezn mean as to drop her in the middle of the prairie like this?"

"Why can't ye leave her alone, when she's among friends?" asked old Bones, querulously. "Like as not they'd beat her if ye do give her back."

"Whatever we do with her, the thing is to find out where she came from, and why she was left," said the foreman, decisively. "You'll soon overhaul them somewhere on the trail, and then report to me at the house. I'll take her over there and maybe she'll go to sleep."

• • • • • •

Masterson sat before the fire, holding the sleeping little one. The occasion awoke no memories, as it came to him with a sense of wonder that he had never before held a child in his arms, but as he listened to her soft breathing and watched her flushed face with the moist curls clustering about it the tense lines of his face relaxed, and under the influence of the quiet hour, the sternness gave place to a brooding tenderness. The weight of the soft little body against his breast seemed to set him apart from the rough reality of his life and to surround him with an aureole of vibrating light.

Into the circle of this radiance through the softly swung door, came another visitor. It was the dream-woman who came to him nightly, whether he was wrapped in blankets by the camp fire, or in his lonely cabin. Always before she had brought bitterness and heartache, but tonight, softened by the nearness of the child, his joy in the dream presence was marred only by the keen longing that the vision might be real.

She stood before him, with the hood of her rough traveling cloak slipping back. He took note of how the heavy braid of hair which dropped forward mocked the brown of dress and cloak, as her flushed cheeks flung back the challenge of the scarlet cloak lining. His soul welcomed her, and as she looked on him his face relaxed into a tender smile. Then she started forward.

"John! John! I couldn't stay away from you another day!"

"Nell!" His voice was scarcely more than a whisper. "Nell, is it really you?"

"Yes, John, it is Nell." There was a sob in the words as she knelt by the man's chair. "I have driven a hundred miles to reach you, today, and then—I remembered how angry you were with me, and I was afraid to come to you, but I thought that if I sent Helen on to you first, she might soften your heart. Won't you—ah! Has the waiting been as hard for you as for me? Thank God."

Very gently his free arm had curbed about the kneeling woman, and her face went down against him with a rush of happy tears.

"I have dreamed it, my wife," he breathed. "Night after night I have dreamed that you came, but I never dreamed of such happiness as this."

After a little a thought perplexed him, and he raised his head to look at her.

"But the child, Nell. Why did you send her first, in place of coming yourself, and how does she come to be with you?"

There was incomprehension in her look at first. Then her eyes glowed upon him with a wonderful radiance. For a moment she hunted for the right word.

"Oh, John! Have you never thought, can you not guess? She came the year you went away. This is your birthday and hers."

"Mine! Mine!" The man's sudden cry, and the passionate embrace in which he enveloped mother and child, awoke the little one. She saw her mother's face close to her own, and caught a knowledge of the love which beamed upon them. The man trembled under the gladness of her cry.

"Is it my papa? Did I find my papa?"

• • • • • •

Lariat Pete, coming up the path to report that the searching party had found a team and light wagon in the plum thicket below the corral, came in sight of the open door, and a glimpse of the group before the fire brought him to a standstill. A little later he rushed into the bunk house.

"I found who brung the kid, fellers. Masterson's found her, too, and he's settlin' over there holdin' them both, like he'd never do anything else in his life. Whatever's the matter with the old man, it's all right now, so let's turn in."

Amid the speculation of the men, Pete sat musingly on the edge of his bunk. "Poor old Max!" he said, dropping his boots with a thump. "Poor old Max! He had to die a-waltin', with his face tords the east!"

And at "the House," Masterson, with exultation upon his stern face, sat brooding over a sleeping mother and child until the day awoke them to happiness.

The Burrows Store Will Be Re-Opened

just as soon as the inventory is completed and the legal transfer of Mr. Burrows' interests to the Columbia Clothing Co. can be accomplished. Naturally, this is going to take some time, for an inventory of so vast a stock as is in the Burrows' store is a long and tedious job and in a case of this sort has to be done with extreme care in order to satisfy both parties to the bargain.

Meanwhile, we would advise Duluth people to find out something about Columbia methods of storekeeping. There are hundreds of gentlemen in Duluth, who at one time or another, lived in Superior and were good Columbia customers—ask them. Or call up any friend on the other side of the bay. There we have done business for fifteen years and we do not hesitate to give any man, woman or child in Superior as a reference. Will you do us the favor to inquire?

No, we are not going to quit Superior—not much! We are going to give the people at the Head of the Lakes a combination of two great institutions that can and will do things no one store could dare before this.

The Columbia
Clothing Company.

Moonlight Excursion!
TONIGHT!
Str. America leaves Booth's Dock at 8 p. m. Tickets 25c.

DOINGS IN MICHIGAN

Manistique Man Found Dead By Two of His Customers.

Manistique—Edward Huebner, who for sixteen years engaged in the tailoring business at Manistique, was found dead by two customers who entered his room in the Putnam block. The body lay on a cot. Heart disease is thought to have caused death. A son, Edward, is the proprietor of a boiler works at Fond-du Lac, Wis.

Menominee—At Menominee the directors of the County Agricultural society are considering a proposal to hold a fair the coming fall. A committee has been named to look into all phases of the matter and to report back to the directors. President Henes is quoted as saying: "If we give a fair at all it will be a good one. There will be the best attractions, and no effort will be spared to make the fair first class in every respect. In view of the population of the county and the remarkable scope and diversity of its resources, I do not see why we cannat have as good a fair as any county in the Upper Peninsula."

Newberry—Fred Patterson of Newberry lost 100 cords of wood by fire last week. He had been cleaning up some land and burning the underbrush when a high wind carried the fire into the wood.

Norway—Miss Phoebe A. Howell, a former teacher in shorthand and typewriting at the Norway high school, has been re-elected teacher of shorthand and typewriting in the Leadville (Coloroda) high school. Her salary has been increased to $100 per month.

Munising—The Superior Veneer & Cooperage company has the foundation laid for the new hoop mill which it is adding to its plant at Munising. The mill will manufacture coiled hoops and its capacity will be 30,000 hoops daily. It will give work to fifteen or twenty more men.

Marquette—Marquette county has made a demand upon Iron county, through the auditor general, for some $800 of state taxes collected on the four towns set off from Republic township in 1890 and which tax was paid to the auditor general by the first named county. It develops that this $800 has been standing as a credit right along on the Iron county books. It further develps that the township of Felch, which was a portion of Iron county and was annexed to Dickinson, at the same time made its returns to Dickinson county and that Iron county was drawn upon for the full amount of the state tax allotment. So the re-paying may have to start with Dickinson county. The matter has been left to the prosecuting attorney to look up.

RICH GIRL WEDS A RED.

Philadelphia Young Woman Bride of Winnebago Indian.

Philadelphia, June 13.—It has developed that Miss Edna Theresa Kenton, the daughter of a rich manufacturer, has been the wife of A. H. Nash, a Winnebago Indian, for nearly two weeks. Nash graduated from Carlisle in 1897, and studied at Andover and the University of Pennsylvania.

COUNCILMAN ARRESTED.

Philadelphia, June 13.—At the instigation of Mayor Weaver a warrant was issued today for the arrest of Frank H. Caven, select councilman of the Forty-third ward. He is charged with being interested in city contracts in violation of his councilmanic oath.

A SKIN OF BEAUTY IS A JOY FOREVER.

DR. T. FELIX GOURAUD'S ORIENTAL CREAM, OR MAGICAL BEAUTIFIER

Removes Tan, Pimples, Freckles, Moth Patches, Rash, and Skin diseases, and every blemish on beauty, and defies detection. It has stood the test of 56 years, and is so harmless we taste it to be sure it is properly made. Accept no counterfeit of similar name. Dr. L. A. Sayre said to a lady of the haut-ton (a patient): "As you ladies will use them, I recommend 'Gouraud's Cream' as the least harmful of all the skin preparations." For sale by all Druggists and Fancy Goods Dealers in the U. S., Canadas, and Europe.

ARE ABOUT DUE

Eagles Will Begin to Arrive In City Thursday.

Convention Will Attract Enormous Crowds to the City.

Duluth people will wake up Thursday morning to find a flock of anywhere from 4,000 to 6,000 Eagles swooping down upon the city, accompanied by an indefinite number of other excursionists attracted by the cheap rates offered for the convention of Eagles which will be held here Thursday, Friday, Saturday and Sunday.

The visitors will begin to arrive Thursday morning, when the advance guard of those from the Twin Cities and the ranges will get in.

The afternoon trains will bring in many more from the Twin Cities and the West, and the excursion from the copper country should arrive some time during the evening. By Friday noon the last of the delegates will be in the city. Thursday's program will consist only of a social session for Eagles only, and the big days of the convention will be on Friday and Saturday.

Friday morning there will be an address of welcome to the visitors at the hall, by President W. E. Brown, followed by a short speech by Mayor Cullum. Grand Worthy Vice-president J. H. Ellis of Minneapolis will respond, and the convention will then be called to order by J. W. Shadewald, state deputy grand president. The election of the permanent officers and the appointment of committees will then take place.

In the afternoon the grand worthy president of the order, J. F. Pelletier of Kansas City, will speak, and in the evening there will be a vaudeville entertainment for Eagles only, at the Lyceum theater.

Saturday morning the St. Paul and Duluth Eagles will play a baseball match for a prize of $50, and in the afternoon the routine business of the convention will be disposed of.

The convention will wind up in a blaze of glory Saturday evening, when there will be a ball at the armory, where the prizes will be distributed. The Commercial club will give three prizes of $300, $75 and $25 for the three best bands. St. Paul and Minenapolis will each send a band, and the famous Calumet & Hecla band will come from Michigan.

Three prizes of $100 each will be given to the largest aerie, the best uniformed aerie and the beest drilld aerie, the Duluth aerie being barred from all three contests, and the Superior aerie from the one for numbers. Four prizes of $5 each will be given to the largest Eagle, the smallest Eagle, the handsomest Eagle and the homeliest Eagle.

Sunday will be spent quietly after the three days of celebration, and the program will include only a drive around the boulevard and a short cruise on Lake Superior.

The members of the Duluth aerie are anxious to get as many competitors as possible for the prizes which have been offered for the best decorated buildings in the city, in order that Duluth may present a gala appearance for the big gathering.

West Duluth

Carl Hanson, a laundry wagon driver, who lives at 3907 West Third street, was assaulted by two men and stabbed last night, about 9 o'clock, near Thirty-ninth avenue west and Third street. He claims that they are Italians, who drive a fruit wagon. He purchased some bananas from them, and after doing so one of them, he claims, threw a tomato and hit him in the eye. Hanson attempted to strike the man with a fish pole which he held in his hand, and then one of the Italianans threw stones at him, while the other jumped from the wagon and did the cutting. Dr. David Graham attended Hanson and dressed the wounds, which are nothing more serious than flesh wounds. The assailants have not yet been apprehended. Hanson is getting along well.

HANS JUVELAND DEAD.

Quick Consumption Carries Off Well Known Man.

Word has been received here that Hans Juveland, formerly in business on Central avenue, died yesterday morning at Zumbrota, Minn. Quick consumption was the cause of death. Mr. Juveland was 44 years of age, and lived in West Duluth for a long time, leaving there only a few months ago. He was well and favorably known here and his death is regretted, but not unlooked for.

His sisters, Mrs. A. L. Flasher and Miss Nettie Juveland, have gone to Zumbrota to attend the funeral, which will take place tomorrow.

Tomorrow Last Day to See
Tsuneo Takahashi,
of TOKIO, JAPAN,

Acknowledged to be the Greatest Needle Artist in the World.

Ladies instructed free of charge at our store. Hours 9 to 12 a. m.; 2 to 4 p. m.

Mr. Takahashi is an artist of exceptional ability and an adept at teaching. His methods are very intcresting. To take lessons from such an expert makes needlework doubly fascinating. He is at the service of as many as may come, and we hope a large number will avail themselves of this rare opportunity. Second floor.

CHANCE FOR ROMANCE.

Inducement on Strawberry Box Sold Here.

A West Duluth man a few days ago bought a box of strawberries, and on taking it home found written on the side a strong inducement to open a correspondence with a lady more or less fair. The inscription reads: "Boxed by Mrs. Lena Smith at Ash Grove, Mo. A grass widow—wants to get married."

Mrs. Smith is evidently not satisfied with one experiment, but wishes to try again. Whether this West Duluth man opened such correspondence or not he did not say, but turned the box over to The Herald as a sample of unpublished matrimonial agencies.

WEST DULUTH BRIEFS.

City Drug store, the low price drug store.

The marriage of Miss Myrtle Scott and A. W. Lindgren took place last evening at Asbury Methodist church, Rev. F. G. Clark performing the ceremony. There was quite an attendance of friends. The contracting parties were attended by Miss Lottie Robinson and Mr. Gibson.

Miss Gertrude Seery has gone to St. Paul to be treated for an injury received from a fall some months ago.

The committee on grounds reported at last night's meeting of the Tennis club that the work of getting the grounds in shape is progressing favorably. A constitution and by-laws were adopted.

Hot water bottles and syringes, 48 cents, at Spencer's Drug store.

Peter Johnson, for some time employed in the meat market of Brown Mallough & Son, has gone to Seattle to locate. His family went there last fall.

The family of William Hallows of Fifty-eighth and Wadena street will go to Coeur d'Alene in July to reside.

Frank Robinson has moved his family to the Sault for the summer.

O. J. Simons, formerly of Scanlon and now of West Duluth, will soon move to Coeur d'Alene, Idaho.

Walter Dash is down from Hibbing.

Adam Brotherton is in from Cloquet.

Frank and Charles Peterson are entertaining their mother and sister, Mrs. and Miss Peterson of Fergus Falls.

George R. Morre of Jackson, Minn., is in the city looking over his property interests.

The work of filling up the Boston coal dock with sand is progressing rapidly.

ENTERTAINED BY EMPEROR.

Berlin, June 13.—Emperor William invited Silas McBee, editor of the Churchman of New York, to join the imperial party yesterday at the review at Potsdam of a model battalion of troops, composed of three men from each battalion of the Prussian army. His majesty afterwards talked half an hour with Mr. McBee on educational and religious topics.

TWENTY GIRLS RACED

To Kiss Sheriff Dunn of New York.

New York, June 13.—The girl who reaches my arms first and kisses me gets the five dollar prize," said ex-Sheriff Tom Dunn to an admiring group at a May party in Central park. He was laying down the rules for a free-for-all running race of the young women Sunday school teachers of St. Catherines church on Sixty-ninth street. He had already distributed a large amount in prizes, and he outshone the May queen as the center of attraction.

Twenty girls entered the contest, and twenty pairs of eyes were fixed on the goal. Dunn standing with outstretched arms at the finish line.

As the fair rivals came down the homestretch he was pleased to see that Miss Lillian Marion Norris was holding the lead. She is young and pretty, and acknowledges to 18 years. Spectators say that Dunn, in his eagerness, stepped over the line. At any rate the girl threw herself into his arms, Dunn imprinting a kiss on her upturned cherry lips.

MISSING MAN

Recently Applied For Million-Dollar Life Policy.

New York, June 13.—The puzzle of "Willoughby" Middleton's disappearance is heightened by rumors that for several months "the wealthy Englishman," as he was called about Harlem, had negotiated with three of the leading life insurance companies for a million-dollar policy on his life. Two of the companies were suspicious and declined to assume the risk. Some insurance agents think Middleton may have been accepted by the third company, but no confirmation of this was furnished.

One of the companies that rejected the missing man was the Mutual Life. It is said that after the Mutual Life officials declined to do business with Middleton, Gage E. Tarbell of the Equitable, called upon him to discuss the issue of a policy. Mr. Tarbell's visit to Middleton was known to insurance men at the time, it is said, and created no little comment.

Middleton was president of the New York Realty corporation. He laid claim to connection with the distinguished English family of Middleton.

RIVER STEAMER

At Winnipeg Forced to Disembark Passengers.

Winnipeg, Man., June 13.—An ominous incident occurred on a pleasure steamer which was taking a large party of old-country Frenchmen up to St. Norbert for a Sunday excursion. When about two and a half miles up stream the steamer Alexandria, Capt. Bellefeuille, hurriedly made for the shore at the river park, where her 300 passengers were quickly disembarked. It was found that she had too much water in her hold, and her human freight had overtaxed her capacity.

There was no panic, although much excitement prevailed as she neared the river bank. However, the captain and Baron de Galembert, chief of the excursion, quieted all fears, and after four hours' pumping she was repaired, and those who had not footed it back to the city returned on her in the evening.

PITTSBURG WOMAN

Found to Be Masquerading as a Man.

Pittsburg, June 13.—After masquerading in men's clothing for three months, working at hard labor, without being suspected, Mrs. Elizabeth M. Aescheacher, 28 years old, was arrested last night as she was fleeing from some boys, through whom she had lost her coat, watch and money.

When arrested she did not lose her self-possession, and it was only at the central station she confessed her sex.

Since April 26 she has been working as a dairyman at all sorts of difficult tasks, which required strength. She was discharged from custody.

BOUND TO GET MARRIED.

Washouts Had No Terror For Iowa Man.

Ottumwa, Iowa, June 13.—The railroads tied up by washouts, Elmer C. Coombs drove, swam, walked and pumped a handcar on a railroad track fifty-five miles from Exline to this city to reach here last night, when he was to be married to Miss Myra Moon. Coombs tried to charter a train, but was refused. He drove until the roads became impassable, then walked ten miles, swimming where bridges were washed away. With the aid of the handcar for the last part of the trip he reached here and was married.

FISHERS IN PERIL

Death Their Dory Mate on the Grand Banks.

Toll of Human Life Yearly Taken Off Newfoundland.

St. Pierre, Miquelon, June 13.—Once more there is mourning among the Breton fisherfolk who cross the Atlantic annually in the early spring to ply their calling on the Newfoundland banks. Fraught with danger as these voyages are, they have fitted the fisherfolk to serve on French merchantmen in times of peace and man the French fleets in times of war. About 12,000 of the oversea fishermen engage in the calling yearly.

But Breton homes have been robbed of many of their breadwinners by the perils of the Grand Banks. Today there is mourning at St. Pierre, for the bark Cousins Reulns of that port, bound here, has been given up as lost with 128 souls on board, being ninety days out and unreported. She left St. Servan on March 2, carrying ninety-four men besides her own crew, to fit out five schooners belonging to her owner, which had been laid up here all the winter, as is the usual practice with the smaller vessels of the fleet.

The general opinion is that she met her fate in the equinoctial gales which ravaged the Banks about the end of March or in the ice floes which cumbered that area at the same time.

This disaster stands unequaled in the annals of the Pierrais fishery as a single loss, though when the Galveston gale of September, 1900, swept up the Atlantic seaboard and wreaked its last fury on the fishing flotillas clustered on the Grand Banks, it sent twenty-one French trawlers to bottom and 281 men. When the tempest abated a spectacle was witnessed on the Grand Banks the like of which was never seen there before nor since. The whole waste of waters was strewn with dories, deck gear, upturned or capsized hulls of trawlers, dead bodies and a raffle of splintered spars and torn sails.

In the next greatest individual tragedy enough were saved to tell its story. It occurred just eight years ago, in April, 1897, when the bark Vaillant, crossing from St. Malo with eighty-six persons on board, rammed an iceberg in a midnight fog off Cape Race.

The collision wrecked her and in five minutes she sank, carrying down with her all but twelve of those on board. Two dories did get away, with six men in each and a dog in one.

For eight days these boats drifted, their occupants without food or drink or adequate clothing or shelter to protect them from the frosts, or oars or sails to enable them to make land. Gradually the weaker ones died, after those in the boat which contained the dog had killed and eaten it, and then the living men in both skiffs turned to cannibalism. When rescued eventually only four survived, and even these had their hands and feet so badly frosted that they had to be amputated.

A year ago a similar experience was averted only by the timely appearance of the steamer St. Andrew, bound from Antwerp to New York. On March 28, 1904, the brig Sans Souci sailed from St. Servan, with seventy-two men for a crew, bound for the Newfoundland treaty shore. On April 24 she was wrecked in a gale. For three days and nights the crew toiled at the pumps, though without food or water. One died of exhaustion and six were carried overboard.

On the fourth morning they saw a steamer bearing down on them, which proved to be the St. Andrew, and which soon transferred them to her deck. Their boat sank before the rescuing steamer had been an hour on her way again.

Last year also, about the same time, the steamer Phoebus, from Hamburg for New York, rescued twenty-three survivors of the smack Terre Neuve, from St. Malo, which had also been a victim of the storm that overwhelmed Sans Souci.

But not all the imperiled craft are so fortunate, for last year the Jeanne Amelie was lost while coming out with thirty-five men aboard, and this year two other brigs, the Richard and Hirondelle, are overdue.

Two vessels of the Breton fleet have sunk this year and their crews were rescued and landed in British ports—the schooner Alice, which had twenty men on board, who were rescued by the Dutch steamer Irene and put ashore at Gibraltar, and the schooner Prosper, whose twenty-eight men were saved by the British steamer Lisbon and brought safely to Plymouth. The former craft had an extraordinary experience.

She was beset by gales off Cape Race and lost her foremast the first day and her mainmast the next and became a complete wreck. On the fourth day, a steamer being sighted in the distance, rockets and flares were fired to attract her attention, and she came within 500 yards of them.

Then as the crew of the Alice launched their boats and prepared to row to her, the ship kept on her way again, her men laughing and jeering at the helpless wretches on the wreck. The name of the ship could not be descried, but she was believed to be a Spaniard.

The unhappy Frenchmen then returned to their own waterlogged craft, and again began pumping, which task they kept up for six days and nights longer. By this time her decks were awash, and the crew were in the last stages of exhaustion when the Irene bore down upon them.

Another potent cause for disaster to the French and other fishing fleets on the Grand Banks is their destruction by ocean steamers, which, speeding across the shallows through the fog, ram and sink the smacks before one or the other know what has happened or can take measures to avert the collision. The Banks are almost always infested with a thick fog, a screen so blinding as to shut off a schooner's bow from her stern, and under these circumstances it is scarcely surprising that accidents frequently occur through steamers running down the smacks.

Sometimes a man or two will escape, but more often nobody survives and the mystery of how a vessel that never returns met her fate is left unsolved till the crack of doom. These conditions are very frequent during the late summer months, when the comparative absence of ice from the region tempts captains to risk crossing the Banks at high speed.

Last year was particularly fatal to the French fisherfolk, seven vessels being sunk with all hands, of which it is believed five were destroyed by steamers and two fell victims to the storms, while eight others were struck by steamers and more or less damaged, losing seventeen men in all. Two were crushed by ice and eighteen were driven ashore either on these isles or on the Southern coast of Newfoundland by the fierce September gales.

All of these untoward circumstances combine to make the industry one surcharged with peril and marked by a death rate rarely equaled in pursuits on land. St. Pierre has more widows and orphans among its 6,000 people than any town of its size in the world, and the Breton seaports which supplement its fishery brigades have a similar record. Not a family in St. Pierre but has lost some member or relative by sudden and unprovided death on the Grand Banks, and but for the aid the French government gives for the maintenance of the helpless ones, their lot would be sorry indeed.

But the Breton fisherfolk, generation after generation, maintain this unceasing battle with the ocean and brave its perils in every mood to reap the usually generous harvest which the teeming shallows of the Grand Banks afford in the form of cod and halibut.

BASE BALL VICTIM DIES.

Bassett, Neb., June 13.—Base ball claimed a victim here in the person of James E. Rickard, a farmer, aged 35 years. He was playing ball at Marlaville, and in sliding to third base, ruptured an intestine. He died in two days. A wife and four children survive him.

MINNESOTA MACARONI

How to cook it

Macaroni and Cheese. Break half package of Minnesota Macaroni into boiling water, boil 20 minutes, drain well, cover with cold water for 20 minutes. Drain again and place in baking dish with two tablespoons of melted butter, one cup milk, half cup grated cheese, salt and a little paprika; sprinkle with cheese and bake a half hour.

MINNESOTA MACARONI CO

ST. PAUL, MINN

IN THE COPPER LEAGUE.

Shifting of Players Strengthens the Weaker Teams.

Calumet, Mich., June 13.—There have been many changes in the Copper Country-Soo baseball league during the past week, and it is expected that an improved article of ball will be the result. Gleen Andrews, shortstop, has been appointed captain of the Hancock team to succeed John Mackin. Fred Mason, a Grand Rapids player who signed to play first base, but was prevented by having one of his fingers cut off, is now stationed at the initial sack, and Watson, who covered that position, is holding down third. Roche of Detroit, after much dickering, has flatly refused to report after he had been reinstated, and it is not likely that he will be given another chance. Fred Stripp has been transferred to Hancock by Sault Ste. Marie and will do the backstop work. Negotiations are now on for Rasmussen, a Chicago catcher.

The changes in the Hancock club are not confined to the team itself, but extend to the association owning the club. Herbert S. Bear has been elected president to succeed Frank Mayworm, whose business did not permit proper attention to the team. The directors of the club have elected A. B. Tucker treasurer to succeed W. Frank James, resigned. The Hancock team appears to be in-and-outers, playing fast one day and ragged the next. With a little bolstering it should take higher rank.

George Thomas has been appointed captain of the Calumet team to succeed William Roth. The latter has been playing short stop, but may be transferred to second and Thomas switched from there to short. Nick Kaiser has been out of recent games, and his absence was felt, as he is one of the best fielders and baserunners on the team. He will not be able to play regularly, but expects to arrange to play in all the Saturday and Sunday games in the Copper Country. The aristocrats got away with the short end of the series with Sault Ste. Marie. They have slumped considerably in batting, and unless some of the players strike a better gait the team is apt to go into second place. The arrival of Con Lewis, the University of Wisconsin fielder, will strengthen the club. He is a sure hitter and fielder.

Lake Linden, which won the pennant last year, has developed a phenomenal batting streak lately, and if the club continues at its present rate it is apt to displace Calumet as leader. Newcomb, who was secured from Fort Wayne, is doing the best slab work. Deihl was released and will be given a trial in the box with Sault Ste. Marie. While the Lake Linden management claims to have secured the consent of Manager Barrows of Indianapolis to the playing of Pitcher Jim Thomas, the big slabist has not put in an appearance. Thomas pitched for Lake Linden last season and was considered the best in this part of the country. He signed with Indianapolis and was loaned to Grand Rapids' Central league club. Just what arrangements, if any, Manager Gauss of Lake Linden has made for his services are not known.

Sault Ste. Marie is the only team that has taken the long end of any series from Calumet, and it, strange to say, is at the tail end. In Warner it has a star performer, and he pitched two games against Calumet, allowing only three hits in one and four in the other. Arthur Bourgeois, the Lake Linden catcher, has been transferred to the Soo and is covering first base. The Lakes still retain a string on him. Bell, the Soo shortstop, hit the ball like a fiend on the copper country trip and fielded in creditable fashion. The Soo's are good stickers and should bat out more victories. Hancock opened its second series at Sault Ste. Marie this week and shut out the home team 8 to 0.

Southpaw Jimmy Foulkes, a Milwaukee boy who pitched for Calumet last season, left this week for Toledo, Ohio, having signed with the American association team there. Foulkes was to have pitched for Hancock in the Sunday game preceding his departure, but the Lake Linden management objected. Foulkes pitched good ball in both the Northern and Western leagues, playing in the latter with the old Peoria club, and should make good in the association.

FORMER POLITICIAN ENDS HIS EXISTENCE.

Chicago, June 13.—The body of Patrick Ryan, 56 years old, who disappeared from his home on June 6, has been found floating in the river.

Ryan had been an important factor in Democratic political circles on the West side. Until a few years ago he was considered wealthy, but playing the races is said to have caused his downfall, and as he was brooding over his misfortunes shortly before his disappearance, the police believe he committed suicide.

ALWAYS FRESH FOOD.

Crisp and Easily Digested, Malta-Vita Goes Straight From Its Huge Ovens to the Many Who Eat It.

The Malta-Vita Pure Food Co., of Battle Creek, Mich., has adopted a successful method of keeping the pub always supplied with fresh Malta-Vita, the perfect food.

When Malta-Vita comes from the ovens, it is the crispest, most delicious food in the world, containing only 1 per cent of moisture. The other 99 per cent is food—brain and bone and nerve and muscle food—and most easily digested because the gelatinized starch of the thoroughly cooked wheat has been converted, by fine malt extract, into maltose (malt sugar).

No other food preparation contains such a high degree of food quality and such a low degree of moisture.

The Malta-Vita company limits orders from every wholesale dealer to a quantity which the company knows can be disposed of quickly in the wholesaler's territory. The wholesaler, in turn, makes only such shipments to grocers as he knows they will be able to handle satisfactorily.

Thus the grocer's supply of Malta-Vita is always as fresh and crisp as when it comes from the ovens in the big factory at Battle Creek—always the kind that melts in the mouth.

Malta-Vita is so deliciously refreshing and satisfying that it should be in every home. It is the only perfect food. Best for children and best for grown folks.

At all grocers now 10 cents. Same high quality, same big package as when sold for 15 cents.

LONGEST SESSION

Of Any Legislature In Wisconsin About to Adjourn.

Railways, Liquor and Revenue Were the Chief Issues.

Madison, Wis., June 13.—This week will witness the close of the longest session of any legislature in the history of Wisconsin. A joint resolution has been passed in both houses that after June 14 no business be received except communications between the two branches.

In many ways the session has been remarkable, for railroad legislation in Wisconsin has been watched with much interest in many other states where the same subject is ripening for legislation. The number of laws enacted will not break the record, though the session holds the record for the number of bills introduced. Senator Roehr of Milwaukee introduced the largest number of bills in the senate, the total being forty-eight, while another Milwaukee man, Mr. Fletcher, holds the record in the assembly with a total of forty.

Legislative action has been directed especially along three lines—towards railroad legislation, liquor regulation and the increasing of taxes. Of the twenty-five or thirty bills aimed at the greater regulation of railroads, the most important is of course the one creating a railroad rate commission, which will be in operation soon. Many believe that the passing of this law tended to throw a damper on many other railroad bills that had not yet been enacted, as many members felt that the question at issue in them could be safely left with the commission to be created. It was doubtless this feeling that caused the defeat of the Henry Johnson bill fixing a maximum rate of two cents a mile for passenger service on the big roads. Senator Hudnall opposed the measure for this reason, and succeeded in having it defeated in the senate.

Much time has been consumed in the consideration of taxation matters. Particularly all the bills of this nature originated in the assembly, where Mr. Dahl and Henry Johnson were their champions. Had Mr. Dahl's ideas materialized, there would have been a great change in taxation measures and an enormous increase in the state's revenue, had all the proposed laws been sustained by the courts. His hobby is the ad valorem system, and many corporations and interests now operating on the license fee system would be put on this basis, could he have had his way. His bills aimed to place telephone and telegraph companies on that basis, street car systems, light and heating plants, sleeping car companies and boat companies.

He would also put a tax on franchises for telegraph and dam companies, besides assessing such companies' property. He made a hard fight for three bills—one proposing to tax life insurance companies on the ad valorem basis on the surrender value of all policies in force in Wisconsin; one to strengthen the present mortgage law by prohobiting the making of contracts by which one party was to pay all the tax on mortgaged property, and one making it compulsory on county boards to pay supervisors of assessment enough salary so that all of them would attend to their duties. In several counties the law in this respect has been practically null.

About fifty bills were introduced to regulate the liquor traffic. They covered the problem from the smallest interference to the establishment of the Gothenburg system. Easily the most important measure to pass both houses was the Stout bill, prohibiting the granting of new licenses within 300 feet of any public or parochial school. This bill was the football of legislation all winter, but finally went through the senate after a heated all-day debate, in which various amendment and substitutes were voted down. This is one of the pet measures for which Senator Stout of manual school fame has fought for years.

Wisconsin may be an uninviting field for lobbyists in the future should the antilobby bill, which has passed both houses, be finally enacted. It prohibits paid legislative agents from attempting to influence the votes of members, except in committee-room hearings. The lobby has not been so strong in Madison this winter as in some previous sessions, but those on the ground have been what many call "offensively persistent."

HAPPENINGS IN DAKOTAS

Mrs. Stewart, New York Society Leader Joins Divorce Colony.

SOUTH DAKOTA.

Sioux Falls—The latest person of prominence to join the divorce colony in this city is Mrs. William Rhinelander Stewart, a society leader of New York city, who in due time will apply to the divorce courts of South Dakota for relief from matrimonial bonds.

Every effort was made to prevent knowledge of her arrival from reaching the public, and especially the newspaper men, and she doubtless retired for her first night's rest in Sioux Falls firm in the belief that, outside of a chosen few, no knowledge of her arrival in the divorce Mecca had reached the public.

Mrs. Stewart was accompanied by two other stylishly-dressed ladies when she arrived in the city. It is believed they came through with her from New York, but who they are could not be ascertained. Newspaper men are not permitted to interview Mrs. Stewart, but it is learned that she has engaged the services of United States Senator Kittredge as her attorney.

It is also stated on good authority that instead of remaining at the hotel, she will in the near future purchase a dwelling house, thus following the example set by Mrs. Flora Bigelow Dodge, another prominent New Yorker, and will occupy it during the time she is "serving her term" of six months.

A body found in the Sioux river in the limits of Sioux Falls has been identified as that of Andrew Malmgren, 40 years old, only recently arrived in the United States from Sweden and employed on a farm in McCook county. A short time ago he came to Sioux Falls and secured employment.

A coroner's jury decided he came to his death by accidental drowning. As the body was found in only three feet of water it is supposed that he fell into the river while in a fit.

June 27, 28 and 29 have been fixed as dates for the annual convention in Sioux Falls of the South Dakota Auctioneers' association. About 100 delegates will be present.

John T. Cogan, secretary of the South Dakota Press association, has returned from Arnold's Park, where he completed arrangements for the summer outing of the members of the association.

The editors will assemble in Sioux Falls about the middle of July and proceed in a body to Arnold's Park, where they will remain a week.

Deadwood—The Pioneer-Times, the only daily paper of Deadwood, has just passed its twenty-ninth birthday. The Pioneer was established in 1876 by the late A. W. Merrick, and the Times by the late Porter Warner shortly afterward. The two were consolidated in 1897. The Pioneer was originally a weekly paper in the territory of Dakota.

One of the events of the season in this city was the marriage of C. F. Rourke and Miss Marion Mullen.

Judge Rice has handed down his decision concerning the building of a courthouse in this city, the question to be settled being whether or not the county commissioners have a right to construct a courthouse without putting the question to the vote of the residents of the county. The decision is that certain moneys from Meade county due Lawrence county can be used for the purpose. It will probably result in the building of a courthouse.

Aberdeen—Horse thieves have apparently resumed their operations in the northern part of South Dakota. A team was taken from James Hall, a farmer living south of Andover, and the thieves traced to Waubay, where all trace was lost. The Groton vigilantes, organized two years ago, have elected officers for the ensuing year. W. I. Erwin is president; M. F. Bowler, vice president, and J. D. Reeves, secretary, and R. A. Mather, treasurer.

The state court of the Catholic Order of Foresters will meet in Aberdeen on Tuesday and Wednesday. John B. Hanten of Watertown, chief ranger for the state, will preside, and it is expected that about twenty courts will be represented by delegates, in addition to the state officers.

Lead—President Roosevelt has just sent to T. D. Edwards of this city, editor and publisher of the Lead Daily Tribune, appointment papers making him consul at Juarez, a city across the line in Mexico from El Paso, Tex. Few men in the state have received stronger indorsements for positions of this kind than Mr. Edwards. Several months ago the entire South Dakota delegation went before President Roosevelt and asked that he be appointed. He had indorsements also from the governor from local politicians in the Black Hills. He will take up the work in his new field immediately.

Prof. George H. Grace of Miller, S. D., has purchased a half interest in the Tribune and will probably lease the other half. He has already arrived to take possession.

Frederick—In the past two weeks the Frederick creamery made 11,214 pounds of butter, and the Savo Finnish creamery, near Frederick, brought the total product up to 16,000 pounds.

Milbank—At the encampment of the Grand Army for the Northern district of South Dakota, which closed at Summit yesterday, the following officers were elected: Commander, Maj. Jackson of Sisseton agency; junior vice commander, J. Ray of Waubay; adjutant, Thomas Finch, Milbank. The encampment will be held next year at Sisseton agency.

Rapid City—There are three graduates this year from the state school of mines, H. W. Overpeck, O. A. Anderson and James Hadley, Jr. The graduates in the preparatory and English-commercial courses are Mary Morris, F. S. Overpeck, A. E. Sargent and E. R. Thomas.

NORTH DAKOTA.

Fargo—The investigations of the United States grand jury into the land funds caused much excitement in the western part of the state. Three have been arraigned before Judge Amidon, named D. L. Foust and Mr. and Mrs. B. Koch, all indicted for perjury. Koch and his wife are alleged to have made homestead entries, but neither complied with the law regarding residence, and later were married. Afterwards they made final proof and Foust was their witness. Foust has been prominent in Morton county for a score of years and has been a commissioner. The Kochs are said to be wealthy.

Married at 15 and divorced at 19 is the record of Anna Swanson of this city. She alleged that when her baby was a few months old she was deserted. She had no difficulty in securing a divorce.

Cleveland—There are six steam plow outfits working in this vicinity, some of the engines pulling as many as eight plows. In addition there are many plows drawn by horses, and it is safe to estimate that there are 200 acres of sod being turned daily. Most of it is being seeded to flax.

Portland—At the annual commencement of Bruflat academy a class of six was graduated as follows: Henry J. Leum and Carl Tobiason, college preparatory course; Cora Olson and Marie Sponheim, normal course; Carl J. Evanson and Oliver Grimley, commercial course.

Park River—While digging in a mound near Medford laborers on the new Soo extension discovered several well preserved skeletons, supposed to be those of Indians.

The Stage

TONIGHT'S ATTRACTIONS.

METROPOLITAN—Vaudeville.
BIJOU—Vaudeville.

COMING ATTRACTIONS.

LYCEUM—Saturday afternoon and evening, Chauncey Olcott.

VAUDEVILLE OPENS.

Metropolitan Begins Summer Season With Fine Success.

With large crowds at all three performances, the summer season of the Metropolitan theater, under the new management, opened auspiciously yesterday. The manner in which the house was patronized shows conclusively that Duluth people enjoy vaudeville shows, when the presentations are clean and up-to-date.

The bill which the Metropolitan presents for its first summer week deserves all the liberal patronage which was given it yesterday. There is enough variety in the different features to prevent the possibility of any patron finding a minute of monotony. After one act has finished, he is in a most enjoyable mood for the next, feeling assured that he will be given a continuous treat until the curtain falls. For about an hour and a half the visitor is given a series of performances which are packed with interest, and he or she goes away satisfied that the time has been well spent.

Alvin Bros., acrobats and gymnasts, contribute to the first number, and they perform a few stunts on the rings which are extraordinary, to say the least. Sanford and Darlington prove an entertaining duo. The impersonating work of the former is excellent, while the young woman does some fancy athletic acts which are good. Arthur Jackson, the baritone, contributes to the success of the entertainment by singing "The Man With the Ladder and the Hose," illustrated by some pictures of the fire laddie's life. The five Hewettes may be termed musical wonders. A tot of this family, rasping on a nondescript fiddle and endeavoring to drown the noise with her voice, is the hit of the show. "How Jones Lost His Roll," is told by the kinetscope, which also tells of the things that a man suffering from D. T. may see.

While Ethel Whitesides, with her pickinnies, comes as the closing number, it is one of the best features of the show. Miss Whitesides is vivacious, and a pretty brunette. But besides her attractive appearance, she has a voice of fine quality. She is supported by two true diminutive sons of the Sunny South, who are not wanting in vocal ability.

AT THE BIJOU.

The Bijou opened the week with a new vaudeville bill yesterday and the audiences were large and fully appreciated the attractions provided. L. O. Whittier's illustrated songs were hits. Hayter and Janet, German comedians, the La Kolas, American Japs, in a clever act, Frank Clayton, comedian and musical artist, and Kittie Stevens, dancer, complete the bill. The moving picture presented this week in "The Trails of an Automobile" and it is very funny.

CHAUNCEY OLCOTT.

Chauncey Olcott comes to the Lyceum Saturday afternoon and evening with a magnificent production of one of his most popular and successful plays, "A Romance of Athlone," written by his manager, Augustus Pitou. On its original production in New York it ran for nearly five months to large audiences. It is an Irish comedy, with tender sentiments and catchy songs. It shows virtue her own feature distinctly and with the brightest coloring. Its romance develops amid ivy-mantled ruins and camp. Mr. Olcott wears the costumes of the beginning of the past century and keeps the audience alternately between laughter and tears. His songs written by him, especially, are well known for their sweetness, including the famous ballad, "My Wild Irish Rose."

INSANE MAN

Doing Penance Believed to Have Been Minister.

Fergus Falls, Minn., June 13.—A man who is supposed to be E. C. Blackford was found wandering about in the woods near Perham and brought to this city for commitment to the insane hospital today. He says he has been a minister of the gospel. When found he was going about barefooted, claiming that he had been commanded by heaven to do penance, and took this method of atoning for his sins. His feet were terribly cut and lacerated. His conversation indicates that he is an educated man, and is evidently a minster, as he claims to be, but the authorities are utterly at a loss to ascertain his place of residence, as he seems to be badly mixed on that point.

Jacob N. Loughlin, a general merchant of Beaudette, filed a petition in bankruptcy in the United States court in this city yesterday placing his assets at $12,989.10, of which $2,060 is exempt, and his liabilities at $9,206.55. McKibbon, Driscoll & Dorsey; Nichols, Dean & Gregg; the Watt Cigar company and the Goodyear Rubber company of St. Paul, and Wyman, Partridge & Co., Alfred Anderson & Co., and the National Biscuit company of Minneapolis are his Twin City creditors.

PROSPECTS FOR RUSSIAN WHEAT HARVEST GOOD.

St. Petersburg, June 13.—The prospects of a good Russian wheat harvest continue in the South, Southwest, Northern Caucasus, Vistula region and the Ural provinces the condition of the crops is far above the average, but the outlook is correspondingly bad in some of the central governments and the Volga region.

The outlook for rye is less satisfactory, the failure of the crops covering the same area as the wheat failure and is practically complete in the Upper Volga region. Famine is predicted in some of the governments.

POLO TEAM FORMED.

London, June 13.—After several disappointments, the Americans of London have succeeded in forming a polo team to compete for the James Gordon Bennett cup in Paris, June 17. It is composed of Insley Blair, Robert Collier, Frank Mackey and Craig Wadsworth. French and Spanish teams have entered and it is probable that an English team will compete.

MUNICIPAL OWNERSHIP

Of Public Utilities Recommended In New York.

New York, June 13.—Absolute municipal ownership of all future subways, provided most favorable terms cannot be obtained from private bidders, together with municipal operation of lighting facilities, are advocated in a resolution which has been adopted by the city committee of the Citizens' union. The resolution will be handed to the city convention of the party with the recommendation that it be incorporated in the platform this fall.

CHESS MASTERS BEGIN SECOND ROUND OF PLAY.

Ostend, Belgium, June 13.—The second round of the international chess masters tournament was begun this morning at the Kursal in this city, the order of play being arranged as follows: Schlecter vs. Marshall, Teichmann vs. Tarrasch, Wolf vs. Burn, Maroczy vs. Maco, Taubenhaus vs. Janowski, Tschigorin vs. Blackburne, and Alapin vs. Leonhardt. When time was called for the first adjournament Tschigorin had beaten Blackburne and Leonhardt had worsted Alapin while the other games were adjourned to be resumed this afternoon.

WAINMAN PROMOTED

Vice President of Northwestern Telephone Company.

Minneapolis, June 13.—C. P. Wainman, general manager of the Northwestern Telephone Exchange company, has been elected vice president. He has also been appointed vice president of the Duluth Telephone company and of the Mesaba Telephone company. The appointments were made at a meeting of the Bell Telephone company in Boston. Mr. Wainman succeeds in the Northwestern company H. J. Pettingill, now president. He has been connected with the company since 1878. He had been manager of the Cleveland exchange and was transferred to Minneapolis in 1887.

COULD NOT SPELL IT.

Young Man Puzzled as to Fiancee's Name.

A young man whose name will not be divulged lest he fall into future trouble, appeared at the office of the clerk of the district court yesterday afternoon in search of the piece of paper which would give him the privilege of taking unto him a wife. But there was a hitch in the proceedings, and he did not get the license for a couple of hours later.

When Deputy Clerk Dash asked the name of the young lady, the young man was able to give it, but when requested to put it down on paper, he was nonplussed. He knew how the name of the prospective bride sounded, but he failed miserably to put it down in ink.

"Won't it do if I get near it?" he inquired.

"No, we've got to get it spelled right," responded Mr. Dash.

"Say Jack," said the young man, to the friend, who came with him. "Don't you know how she spells her last name?"

"Sorry, old chap, but I can't help you out," was the smiling reply.

After fuming some time at the delay, it was finally decided that the only thing to do was to bring the lady along. She appeared in due time, and the difficulty was satisfactorily adjusted.

"This shows that the young man did all his courting in person," explained Mr. Dash, with the air of Sherlock Holmes, this morning. "He never wrote any letters to her."

STATE FEDERATION OF LABOR AT WORK

Recommendations of the Officers Are Favorably Acted Upon.

Pretty Fight For Presidency Between Dix and Thomas.

Brainerd, Minn., June 13.—(Special to The Herald.)—Most of this morning's session of the convention of the State Federation of Labor was spent on hearing reports of committees and considering important resolutions. There is a pretty little fight on the presidency of the federation for next year. At the present time there are but two candidates, but the formation between now and tomorrow night may change matters somewhat. The present incumbent, President Dix, and T. F. Thomas, president of the St. Paul Typographical union, have announced their candidacies, and both are doing much work.

At the conclusion of the hearing of the reports of the officers there was some little excitement on the floor, occasioned a difference of opinion as to the disposition of the reports. The reports heretofore have been referred to different committees in piecemeal. This year a movement started to have the reports referred to a special committee, who would take up the reports in their entirety, and recommend changes, if any, and then it was figured that considerable delay would be avoided. Finally, when put to a vote, the proposition to refer the reports to a special committee went through. President Dix appointed the following committee: Messrs. Templeman, Norrisse, Van Lear, Shartel and Chisholm.

This morning the committee to which was referred the reports of the officers reported recommendations. The committee concurred in the recommendation of President Dix, that organizers be put out through various portions of the state to do work. The committee also concurred in the recommendation of Secretary-Treasurer McEwen that one half of the revenue of the federation be set aside for organization and the strengthening of weak unions. The secretary's recommendation that women's label leagues be endorsed and that they be assisted in every way possible by the federation was concurred. It further recommended that the reports of the president and secretary-treasurer be accepted and filed as read. The report was unanimously accepted.

The resolution committee got busy at once and in a short time recommended the passage of several resolutions which were adopted as follows: A resolution reaffirming the support given the custom made union label; resolution declaring that the National Biscuit company was unfair in opposing the organization of its employes and refusing to purchase crackers in the future not bearing the union label; a resolution declaring the large baking firms in Minneapolis unfair and pledging not to buy goods manufactured by them and that the union label be the mark of true worth on bread, crackers and candy.

A large number of resolutions were brought in and referred to various committees for consideration and recommendations.

The most important resolution was introduced by the Machinists union No. 91, St. Paul, providing for the distribution of the funds of the federation which is as follows:

Whereas, The funds of the federation are inadequate to properly carry on the work of the federation throughout the state and,

Whereas, There is a demand for new organizations in many portions of the state which the federation is unable to attend to; therefor, be it

Resolved, That a proposition be submitted by this convention to the affiliated unions for the increasing of the per capita tax from 1 to 2 cents per month and that the additional 1 cent per capita shall be used exclusively for organizing and legislative purposes; it being provided that the money received in this way shall be deposited in a separate fund to be known as the organization and legislative fund.

The resolution was referred to the finance committee.

A resolution calling attention to important work that should be done in and around Mankato labor circles was referred to the committee on organization and finance. A resolution, designating the Minnesota Union Advocate the official organ of the federation was referred to the resolution committee. Adjourned till 2 o'clock.

Yesterday afternoon President Dix announced the appointment of the following committees:

Rules and Order of Business—William Stacy, St. Cloud; John McDonald, Duluth; F. E. Hoffman, St. Paul; Jennie Lent, Minneapolis; P. W. Bidwell, Brainerd; D. H. Botham, Winona; F. F. Loman, Mankota.

Organization—Garfield E. Morrison, Mankato; George M. Davis, Duluth; Katherine E. Brown, St. Paul; M. H. Rogers, Minneapolis; W. H. Bolt, Brainerd; C. A. Millan, Winona; George A. Gillis, Stillwater.

Officers' Reports—H. W. Libby, Winona; S. T. Skrove, Duluth; H. W. Goetzinger, St. Paul; Edith Kissing, Minneapolis; C. E. James, St. Paul; F. G. Hall, Brainerd; A. G. Bainbridge, Minneapolis.

Finance—R. C. Kutz, Brainerd; Bert Campbell, Duluth; N. Schmidt, St. Paul; Frank Flannagan, Minneapolis; Lawrence Colson, Mankato; Henry Pereault, Duluth; C. W. Bongy, Minneapolis.

Constitution and Law—John P. Gardiner, St. Paul; James Walsh, Duluth; H. B. Leonard, Minneapolis; F. R. Dickens, Brainerd; F. L. Farrell, St. Paul; Herbert Wood, Brainerd; John Keenan, Duluth.

Resolutions—H. C. O'Conner, Minneapolis; Joseph Shartel, Duluth; A. H. Garfield, St. Paul; Daniel Faeron, St. Cloud; A. N. Kellington, Minneapolis; T. F. Thomas, St. Paul; M. E. Neary, Minneapolis.

The annual report of President Dix, contained the following:

"Another year in the history of our now well developed organization having rolled around, it becomes my duty, and I may say my pleasure to appear before you and render to you an account of my stewardship of your affairs; and doing so I make no claim to a faultless record, but hope that my work may be considered as being that of one who has at least to the best of my ability and in a manner according to his best judgment, endeavored to be faithful to the trust so freely placed in him by the delegates to the last convention; and if in my own way I may have by some act of mine more firmly cemented the structure we as members of the Minnesota State Federation of Labor are seeking to build, I shall feel that my efforts have not been in vain, and I shall in the future, with pleasure and interest observe the still greater advancement of our organization which we all believe is bound to follow the noble efforts of our previous officers, and the attempts of the present officers to insure its stability. When your present officers were elected at New Ulm, our finances were such as would not allow for heavy expenses for organization purposes, and at the meeting of the Federation Council I suggested that the president try and secure volunteer organizers throughout the state. Shortly after I appointed volunteer organizers in the following cities: Garfield Morrison of Mankato and vicinity; R. C. Kutz of Brainerd; M. O. Saltz of Winona, Brothers Douglas and Bly of St. Paul, Van Lear and Dix of Minneapolis, W. E. McEwen of Duluth, who were instructed to do what they could to advance the cause of organization.

"Secretary McEwen and myself, having received an urgent call from the secretary of the Little Falls Mill Workers' union, visited that city on the second Sunday in April. We found things in a deplorable condition, but after a heart to heart talk succeeded in getting about a hundred and twenty-five signers.

"I will state that in Minnesota we have a vast field for organization work.

"The saw mill workers of Minneapolis and Stillwater and elsewhere are in a deplorable condition. Also the miners of the great iron range. The same is true of many of the different trades throughout the state, and I would recommend that ways and means be devised whereby organizers can be put to work in different parts of the state at least part of the time. I wish at this time to call attention to the fact that the boycott placed by the International Flour and Cereal Mill Employes and endorsed by the American Federation of Labor, upon the products of the Washburn-Crosby Company of Minneapolis, is still on, and delegates, men and women sympathizers everywhere, should remember the same.

"Another boycott that is still on is the one declared by the Garment Workers against Robitshek, Frank & Hellers company of Minneapolis. The firm locked out its employes some time ago. The employes, with the help of the several unions formed a co-operative garment manufacturing company, and are at the present time doing a flourishing business. They manufacture what is known as the Bell brand of overalls and other garments. There are other brands of union made garments manufactured in Minnesota, and I would suggest that all workingmen everywhere should bear this fact in mind, and whenever possible wear manufactured union made garments manufactured in this state.

"In conclusion, I desire to extend my appreciation to the membership at large, to the volunteer organizers, the Federation council, and to Secretary-Treasurer McEwen. Mr. McEwen, since his incumbency of the office, has disbursed hundreds of dollars and not a breath of suspicion has ever attached to him. He has brought to his office the practical knowledge gained in his intercourse of business during his incumbency of many minor positions he held in his union. He has solved many questions arising during his terms of office, and his knowledge and business ability have placed him high in the estimation of organized labor in this state.

"In closing, will state that I sincerely hope that the deliberations of this convention will be for the best interest of all toilers and that the coming years will be bright and prosperous, and that the course of the Federation will always be upward and onward.

At the convention of the Minnesota State Blue Label league, President Max Conrad appointed the following committees:

Credentials—Shartel, Duluth; Krause, St. Cloud; Colson, Mankato.

Resolutions—Pereault, Duluth; Hoffman, St. Paul; Stacy, St. Cloud.

Constitution and Rules—Butzenhart, St. Paul; Colson, Mankato; Kirby, Minneapolis.

Finance—Shartel, Duluth; Krause, St. Cloud; Pearl, St. Paul.

Reports—Hoffman, St. Paul; Kirby, Minneapolis; Grimes, Duluth.

The resolutions adopted endorsed the action of the International Typographical union in its effort to secure an eight hour day for the book and job printers and the delegates pledged themselves to an assessment in case it is necessary to assist in a financial way the union in Minnesota. The invitation of the State Federation of Labor to send a fraternal delegate to the convention now being held in the opera house here was accepted and John Dahin, of Brainerd, was appointed delegate to the federation meeting.

The league elected the following officers for the year: John Kirby, president; V. S. Colson, second vice president; Henry Pereault, third vice president; E. G. Hall, secretary-treasurer. H. Pereault, E. G. Hall, J. Kirby, Charles Butzenhardt and W. E. Stacy were elected as the executive board.

This is one of the greatest events in the city of Brainerd for many years. The principal streets were lighted last night with incandesant lights. The business places are trimmed with the national colors. The city is doing everything in its power to make it an enjoyable event for all the delegates. They will be entertained with vaudeville shows at Park opera house and a big wrestling match at Gardner hall between Carl Matteson and B. A. Shores, and Carl Erickson, the "Human Derrick" will give an exhibition of his prowess in the wrestling art.

TO COIN PESOS.

Panama, June 13.—The government of Panama in accordance with the desires of the canal commission and the local bankers has decided to coin 1,000,000 silver pesos. This step is calculated to relieve the demand for silver caused by the activity of the canal works and increased business and will prevent any monetary crisis which an excess of gold might produce.

SOLDIERS TO CAMP

Duluth Will Send 150 Men to Lake City.

Militia Boys Will Have Outing at State's Expense.

Duluth will send nearly 150 men to the militia encampment in Lake City next Monday.

Company A is counting on sending fifty-five men and Company C will send fifty-four.

In addition to the members of the two companies, there will be the field and and twenty-eight members of the band, which will bring the total up to between 140 and 150.

The First regiment is now in camp, and the Third regiment will follow the members of the First, going into camp next Monday and remaining for eight days. The Second regiment will not go into camp until July 6.

The camping grounds are situated at Lake City, about seventy-five miles south of St. Paul. During the eight days that the soldiers spend there, they are put through a rigid system of drill and inspection. The day's program calls for rising at 6 o'clock in the morning and retiring about dark. During the day the men march, drill and shoot, in addition to preparing their meals and taking care of their quarters.

While in camp the regiment will be under command of Col. Vanduzee of St. Paul, and Lieut. Col. Johnson. Majors Resche and Eva will go from Duluth, and Maj. Persons of Zumbrota will also be in attendance.

This is one way in which the soldiers are recompensed for the long drilling during the winter months, and all expenses of the camp, including the transportation, are paid by the state. While the men are called upon to do a lot of hard work during the eight days' outing, they nevertheless enjoy themselves thoroughly, and the yearly encampment is looked forward to with no little eagerness.

GRAND BALL TONIGHT!

Given by The White Rose Society at Lester Park Pavilion, rain or shine. Tickets, 50 cents a couple. All cordially invited.

INTEREST IN IRON IS HIGH

Many Lands Around Deerwood Being Placed Under Option.

Many options on lands for the exploration of iron ore are being taken in the vicinity of Brainerd, Aitkin, and Deerwood, and a large number of men from this direction are heading that way," said J. P. Johnson, clerk of the district court, this morning. "George H. Crosby, L. E. Lum and Bob Whitesides are among them.

"There is a great deal of excitement at Brainerd over the prospect of making big finds there. The people all feel good over the outlook, although I cannot say whether they are warranted or not in their feelings.

"I went to Deerwood for a little outing, but out of the nine days we spent there were only two that we were not compelled to keep housed up. I do not think I have any fish story to tell," he added with a smile.

Mr. Johnson returned from his outing last evening. Besides Mrs. Johnson there were in the party, Mr. and Mrs. M. J. Mullen, and W. A. Hunt.

PLAY BALL

Game called 6:30 p. m.

BOY HEIR TO HUNT POLE

Young Ziegler Will Devote Fortune to Arctic Exploration.

New York, June 13.—William Ziegler, the 14-year-old Chicago boy who has just inherited $30,000,000 from his foster parent, the baking powder king, declares that when he is 21 years of age he will lead an expedition in search of the North pole. He will follow in the footsteps of the foster father and devote his millions to the quest in the frozen unknown.

The youthful millionaire was quite willing to talk of his plans when a reporter invaded his sick room.

"Did you and your father arrange any definite plans for reaching the North pole?" he was asked.

"We talked it over many times and in many ways. But there is nothing absolutely certain about it, for people do not know much about the geography up there. By the time I am ready to go, though, there will be improvements in ships and more will be known, so that conditions will be different. I shall study all about it and follow everything connected with Arctic discovery."

"You have already read much about the North?"

"I have read a great deal, all that has been given to me, but most of what I know I have learned from my father, who had studied the matter thoroughly."

"What good do you think the discovery of the pole would do for humanity?"

"Lots of good. It might show us a new passage in the Northern seas, or—anything that is good for science is good for everyone, anyway. Besides, there would be the glory of doing what so many others have tried to do and failed.

"In the meantime, before you become 21, what are you going to do?"

"Go to college. I am advanced enough already, they say, to take the preliminary examinations for Columbia, but I shall not be allowed to till next year. Then, when I am 16, I hope to enter and take a thorough course."

"Your fortune—have you thought what you will do with that?"

"It doesn't seem like anything really to me, for I couldn't use much money anyway, could I? I suppose when I grow up I will find I am very rich, and then I shall try to do as much good as I can. How? In every way I can think of."

"But have you not thought of any career? Profession?"

"I don't know. I should like to write—and then I should like to be a lawyer, but nothing that would stop my going on the expedition to the North pole."

FORT MUNROE IS ATTACKED

By the "Hostile" Fleet Under Command of Admiral Dickins.

Norfolk, Va., June 13.—The United State engineers' office here reported, at 12:30 p. m., that another attack on Fort Monroe had just been begun by Admiral Dickins' fleet, in the joint army and navy maneuvers. The engineer's office was not notified as to what vessels were engaged, the only information received there was that heavy firing had just begun.

Fort Washington, Md., June 13.—Information was received here today that at least half of the "hostile" fleet under Admiral Dickins was anchored off Blackstone island, in the lower Potomac, about seventy miles below Washington, at an early hour this morning. With the fleet in the vicinity, and operations against Baltimore already made, the artillery officers at Forts Washington and Hunt anticipate a test of the defenses of the national capital before operations are begun in the Lower Chesapeake.

A special meeting of Court West Duluth, No. 797, I. O. F., is called for this evening. A. R. Armstrong, Secy.

TRANSFER CREW

Of British Steamer Sunk By Russian Cruiser.

Singapore, Straits Settlements, June 13.—The Russian auxiliary cruiser, Dnieper recently stopped the Dutch steamer Flores from Amsterdam for Batavia in the straits of Malacca and transferred to her forty-one of the Chinese crew and the mails belonging to the British steamer St. Kilda from Hong Kong, captured by the Dnieper with contraband on board and sunk in the China sea. The European officers of the St. Kilda returned here on board the Dnieper.

TO RESTRICT SUFFRAGE.

Wisconsin Senate Passes a Bill Effective 1912.

Madison, Wis., June 13.—The senate today passed a bill to restrict suffrage after 1912. According to the bill, suffrage will then be allowed only to persons who have taken out full citizenship papers. The assembly killed a bill to pay Governor La Follette's attorneys in the factional fight last summer. A bill providing for the adoption of the Dunn pocket ballot if approved by the people, was concurred in by the assembly.

WILL LOST.

Wife of McCormick Gets But Statutory Third.

Columbus, O., June 13.—The supreme court today affirmed the judgment of the Hamilton county court in the case of Henrietta Cecilia Gibson against Peter Gibson.

This is the celebrated case involving the will of John McCormick Gibson of Cincinnati, who died at Asheville, N. C., several years ago, a few hours after marrying, Henrietta Cecilia Wolfe, a nurse. He made a will bequeathing property valued at $250,000 to his wife, but it was lost.

In the absence of witnesses who could prove otherwise, the supposition was that the invalid destroyed the will, as no trace of it could ever be found. The widow therefore receives but the statutory one-third.

GRAND BALL!
GIVEN BY U. R. M. W. A. 1555.
At Great Eastern Hall, Wednesday evening, June 14. Last dance before the Milwaukee Encampment. Admission, 50 cents.

LOOSE LEAF LEDGERS
and Blank Books at Wholesale Prices.
BOOKKEEPERS' SPECIAL PENCILS.
ZENITH PAPER CO.,
222-224 WEST MICHIGAN STREET.

MANY LEGAL DECISIONS

In Bankruptcy Law May Be Overturned By New Ruling.

New York, June 13.—Many legal decisions involving the United States bankruptcy law, may be overturned as a result of a decision handed down in the United States circuit court of appeals by Judges Wallace, Townsend and Lacombe. The judges in their decision hold that the appointment of a receiver by the New York supreme court of the property of an individual is not an act of bankruptcy within the purview of the bankruptcy act, unless the receiver was appointed on the application of the individual himself, because of an admitted insolvency. It is further given as a fact in law that no tribunal, other than the federal courts, has legal authority to appoint a receiver because of insolvency for the property of an individual. Such jurisdiction exists, it is admitted, in case of insolvent corporations, but not of individuals.

POLICE CAPTAIN FOUND GUILTY ON THIRD TRIAL.

Pittsburg, June 13.—Police Captain James Wilson of Allegheny, accused of accepting bribes in connection with illegal houses, was found guilty today but the jury recommended him to the mercy of the court.

This was Capt. Wilson's third trial. The jury disagreed at the first, and he was acquitted at the second. The prosecution of Capt. Wilson was conducted under the auspices of the Anti-Graft league, which several months ago was instrumental in the arrest of 182 persons in Allegheny.

The convicted man's attorneys will ask for a new trial, and if it is refused they will take the case to the superior court.

New Chicago and New York Train.

Beginning with Sunday, June 11th, the Pennsylvania will place in service a new train from Chicago, to be known as "The New York Special."

It will run daily, leaving Chicago at 8 o'clock a. m., reaching Pittsburg at 8:30 p. m., and New York the next morning at 8:15. A 23-hour train to New York, with $5.00 extra fare from Chicago.

"The New York Special" will carry a Parlor Car, a Dining Car and Coaches from Chicago to Pittsburg and a Sleeping Car from Chicago to New York.

For full information, address G. L. Thomson, T. P. A., Pioneer Press Bldg., St. Paul.

ELOPEMENT SPOILED

By a Disappointing Cousin and a Telegram.

Red Lodge, Mont., June 13.—A disapproving cousin, a telegram, an irate father and a sheriff spoiled the elopement plans of Hugh Ray of Silvertip and Miss Bella Babcock of Bridger. Starting ostensibly for a dance at Silvertip, the young couple went to Billings. There they were seen by a cousin of the young lady, Mrs. Angus McDonald of Butte, who warned the Billings district clerk not to issue a license, and wired Mr. Babcock. The couple then fled to Dietz, Wyo., but were apprehended there by the sheriff and the girl brought back to Billings. Young Ray followed her the next day and was arrested as he stepped from the train by Sheriff Potter on a charge of selling mortgaged property, preferred by Ed Olcutt of this city. This case was compromised and Ray was released.

California Excursions.

On April 10 to 14 the Minneapolis & St. Louis railroad will sell round trip tickets to California at one faro, with return limit ninety days. Tickets good going one route and returning another, with liberal stop-over privileges. Call on agents or address,

A. B. CUTTS,
G. P. & T. A., Minneapolis, Minn.

GRADUATES FROM WEST POINT NUMBER 114.

West Point, N. Y., June 13.—The graduating exercises of the first class of cadets, 114 in mumber, were held today under a covering of canvas in front of the library.

An exceedingly large crowd, mostly friends of the cadets was in attendance. Among the officers present were Lieut-Gen. Miles, retired, Lieut-Gen. Chaffee, Major Geo. Webb and Brig-Generals Barlow, Pace, Dunwoody, Clous, Hasbrouck and Griffin.

The address to the graduating class was delivered by Franklin Murphy of New Jersey, president of the board of visitors which was followed by an address by Gen. Chaffee and by the delivery of diplomas by Secretary of War Taft.

COMING FROM CAMBRIDGE.

Cambridge, Eng., June 13.—Cambridge university intends to appoint three representatives to attend the installation of Prof. Edmund James as president of the university of Illinois in October.

NO HOPE FOR PATRICK.

Albany, New York., June 13.—The court of appeals today refused to grant a stay of execution of the death sentence to permit a motion for reargument in the case of Albert T. Patrick, convicted of the murder of William L. Rice. The court will adjourn on Friday until October, but will fix the date of execution before its adjournment.

A WORTHY SCHEME.

Mayor Cullum's plan of having the city find out just what its rights are in the matter of its relations with the street railway is such a surprisingly good one that it is wonderful that it has not been carried out before.

The company's right to run cars upon the streets of this city comes from several different sources. One franchise, granted by the legislature, purports to give it certain rights on the streets of the main part of the city, and the others affect suburbs that were once separate from the city of Duluth, like the village of West Duluth. It will be a very valuable thing to do if somebody looks up each and every franchise or charter, and finds out just how good it is, just how strong it is and just how long it is. The god in the street railway machine lives out of the city, and when the city wants anything done it has to tear through a long string of red tape, and has to stand patiently waiting in the anterooms of the great while its message is conveyed from height to height until at last it reaches the supreme one, the real god in the machine, who says he will think it over for two weeks and then goes away for three. In view of this condition, it is well that the city should know just what its rights and obligations are, that it may not have to spend so much time idling in the lobbies of the truly magnificent magnates.

There is no telling what a thorough study of the franchises may reveal. It may show up things the city never dreamed of. It may develop things the company would not have the city know about for anything.

It is a good thing on general principles, whether anything unexpected comes from it or not. At least it will put the city in a position where uncertainty will not be a tantalizing element, and where it will know just what it can make the street railway company do and just what the street railway company can make the city do.

HAVE AN AIM.

How are the ambitions of your youth getting along? Are they still alive, and in view, or have you laid them aside, and are you plodding along more or less comfortably like an old family driving horse, with no ambition except to be fed and housed and clothed, and perhaps to feed and house and clothe your dependents?

This does not mean your very youthful ambitions. One time you decided you would be a policeman, and wear a uniform with brass buttons, or a soldier, with a still more glittering uniform. Then perhaps you decided you would rather be a hack driver, and deal with horses and stay out nights. But later, when you began to feel that there was some certain line of endeavor that you were fitted for, came your real ambitions, the ones you ought to have kept in view. They were high, and if you had kept your eye fixed upon them you would have had to hold your head high, higher than you are holding it now. Nothing short of the top was for you, you said in those days. Today you are perhaps satisfied with a place far, far from the top. You may even have come to realize that you were not made to live at the top. All mistake. You were right then; you are wrong now.

A man makes a great mistake when he abandons the ambitions of his youth, for his youth goes with them, and much that is fine and high and noble goes out of his life at the same time. To have ambition is to have an aim. To have an aim and to follow it is to do something; to get somewhere. Few people do anything or get anywhere without aiming somewhere or at something. If you are wandering aimlessly through life it will be a mere accident if you get anywhere or do anything, and an accident that is not likely to happen.

Few men ever hit any higher than they aim. Many fall below the place they aim for, but they hit higher than they would if they had not aimed high.

You who have slipped off the spur of your youthful ambition and have fallen into ways of forgetfulness, perhaps you will be more comfortable if you keep on forgetting, but you won't be worth nearly so much, and you will miss many noble things that your ambition would have opened unto you. Better, therefore, that you dig up that buried ambition, or form a new one, and keep it ever in mind.

You whose ambitions are fresh and strong, cling to them, remember them, follow them. They are of high value, and when you have lost them you have lost much that is holy, and have dropped to a lower plane.

And remember, you had

"Better have failed in the high aim,
Than vulgarly in the low aim succeed."

A SILLY JURY.

The Herald believes that respect for and confidence in the law and its exponents are considerations vital to the republic's welfare. In the law as an institution and in the courts as the custodians of this institution it recognizes factors worthy of the highest respect and veneration. It would hesitate to say anything that would tend to lower that respect or veneration, but when the courts or juries sometimes do things that are more likely to lead to disrespect than anything that could be said by any newspaper or individual, it is difficult to refrain from mentioning it.

In the case in mind it was a jury. Jesse James, Jr., son of the notorious outlaw, was arrested in Jackson county, Missouri, charged with usury. According to the testimony of James himself he "bought" the salary of the prosecuting witness, amounting to $50, for $45. Thus for advancing $45 for one month he received $5, or a little more than 11 per cent interest for a month, and at the rate of about 132 per cent a year. He made the defense that he did not loan the witness $45, but that he bought a month's salary for $45, and that it was a purchase, not a loan.

The jury before which the case was tried acquitted him. It is hardly necessary to point out that this was a ridiculous result of the case. It is difficult to conceive of there being twelve men in any community whose mental visions are so obscured as to lead them to render such a verdict. Of course the fact that it happened in Missouri permits us in Minnesota to lay the flattering unction to our souls that it could not happen here. We are glad to do so, but it is feared that every lawyer could tell stories of verdicts equally preposterous and equally destructive of justice.

PASS THE SMELLING SALTS.

In the latest issue of the Saturday Evening Post G. Avery tells some astonishing things in an article under the title "English Schools in American Life." Here are some of them:

A United States senator took his boy out of a high-priced private school near Boston because his conduct was marked very low, and upon inquiry he found that the reason his standing was so poor in this respect was that he had been guilty of wearing yellow shoes to week-day morning chapel.

"It is our single boast," said the head of one school, "that our boys are gentlemen." It sounds well, but what he meant was one particular kind of gentlemen, the kind that thinks it belongs to a special class, and is forever protesting its gentility.

Some of these schools call their teachers "masters," and their classes "forms," in imitation of the English schools, and some try to make their pupils play cricket instead of baseball. One instance is reported where, in order to bribe his pupils to take up cricket, a "master" offered a Wednesday half-holiday to all who would play it. The boys fooled him, it is pleasant to be able to add. They took their half holiday and dropped the cricket. Boys in these schools—which always charge very high tuition—are even debarred from athletic contests on the ground that it will sully their gentility to associate with boys from schools that do not charge such high tuition fees. In many of these schools, too, the boys are drilled in snobbery by seeing the sons of the very rich paid special attention and given extra accommodations and privileges, which the sons of the folks that are just rich cannot aspire to.

But enough. Please bring in some fresh air, and the smelling salts, and the asafoetida, and the garden hose, and freshen things up. It would be difficult to believe such nauseating tales if they were told elsewhere than in such a respectable and veracious publication as the Post. That there should be schools whose special aim it is to produce snobs, conceited little apes whose education has made asses of them all, is almost incredible in a country with such a wide range of schools and such unlimited opportunities for commonsense education. They must cater to a class, of course, and must exist in response to a demand for them, which is disgusting, also discouraging.

It is some comfort to know that there are not many of such schools, though their number is growing and most of them are successful financially.

THE FIELD SURVEY.

Did you take 'em off?

* * *

The real artist at worrying—who is not always a woman—worries when there is nothing to worry about for fear there is going to be something to worry about.

* * *

If the search for success were as easy as the search for trouble this would be a fearfully tame world to live in.

* * *

Hatchers of gubernatorial booms in Minnesota should remember that it takes a mighty healthy boom to last so long as from now to the next state convention.

* * *

If the Vladivostok people were indulging in dancing and other pleasantries, as reports state, when attack was imminent, what can they be doing now that there is to be no attack at all?

* * *

It seems to be the stage that has left Nan Patterson.

* * *

Is your mercantile ship drifting toward the rocks of business troubles? The rudder of advertising will steer it straight into the port of prosperity.

* * *

The tainted money controversy still lingers, but nobody need fear that it is going to get so people will demand a pedigree with every dollar.

* * *

Dr. Osler certainly merits the undying gratitude of the girl with freckles. He advises young men to chose them for wives on the ground that they are invariably more amiable than others.

* * *

Don't cable your congratulations to your friend the mikado until after July 1, because cable rates to Japan will be reduced 51 cents a word then, and it will not cost so much.

* * *

The Houston, Texas, Post says the Texas June bride is now in full bloom, and is about the sweetest thing in the world. Poor fellow! Evidently he has never been in Minnesota.

* * *

If the new Osler theory, that freckled maids are more amiable and desirable than others, is accepted, drugs that will eradicate freckles will have to give way to something that will produce them.

* * *

"C. D. I.," in the Cass Lake Times, says: "No wonder advice is such a drug on the market; the wise man don't need it and the fool won't take it." Is it a wise man who is ready to say he needs no advice?

* * *

According to the Warroad Plaindealer, Warroad folks have about forgotten the fire, they are so busy discussing plans for building a bigger and better Warroad.

* * *

The Motley Mercury hands some of "the boys" this hot one: "If the same persistency some of the men of this village use in making mashes on the fair sex was used for the good of the town, there would be a show of civic pride in a few places which now lack it."

The czar's people asked for liberty and he gave them Trepoff.

* * *

Henry James says the newspapers are an influence that make our speech untidy and careless. Gentle reader, did you ever put in a frantic half hour upon the intricacies of a Henry James sentence?

* * *

If our sort of Norwegians were over in Norway it would be a republic in very short order.

Hotel Gossip.

"The fight which has been made against the Standard Oil company has brought Kansas well before the country and proved most advantageous as a method of advertising," said O. E. Mabee of Winfield, Kan., at the St. Louis. Mr. Mabee is a member of the firm of Dawson & Mabee, who have a marble and granite works at Winfield. He has just been in St. Cloud, Minn., where he bought a lot of red granite for shipment to Kansas.

"The people in Kansas are quite warmed up about the practices of the Rockefeller interests," he continued. "They are determined they will curb the tendencies of the trust. The general opinion down there is that the state will be able to remedy the rebate question and establish the fact that the pipe lines are public carriers and be compelled to convey the oil of independent concerns. It is doubtful, however, whether the state will be able to establish the refinery. I think it will be shown that the appropriation of funds for that purpose is unconstitutional. The supreme court will render a decision in the matter this month. The last legislature voted that $400,000 be appropriated for the purpose of erecting a refinery, it being complained that the Standard Oil company refused to take the product of the independent company.

"I do not think that much fault can be made with the failure, or refusal, as you may take it, of the Rockefeller interests to take the oil of the other companies. As a matter of fact I think that the Standard was unable to take it. The trust company had more oil than it could take care of itself. I think that there has been an overproduction of oil. The Standard has over 6,000,000 barrels stored away waiting to be refined, according to its report.

"It is thought that after the construction of the new pipe lines contemplated by the Standard, they will be able to handle 18,000 to 20,000 barrels of oil a day in Kansas. The pipe lines will be throughout Kansas and Indian Territory, running into Kansas City, from where the lines will go to Whiting, Ind., for refinement. The trust has heavy holdings in Kansas. It is estimated that it has $30,000,000 to $16,000,000 invested in Kansas alone.

"I think that the attitude the state has taken is not only a great advertising factor, but it is producing a salutory effect on the people who live there. On the strength that the state will be successful in dealing with the rebate and pipe line questions, from fifteen to twenty independent refineries are being built.

"From the oil comes gas. Gas is cheap in Kansas, as it may be realized when I say that the natural product costs only twenty-five cents a thousand at Winfield. My gas bill last month, for lighting and heating purposes, was only eighty-three cents. Before natural gas was discovered we paid $1.50 a thousand for the artificial gas. At many of the smaller towns the people themselves have their oil and gas plants. At Peru, a small town, there are about 300 private plants. It is a peculiar thing to see the derricks hoisted in the backyards.

"Kansas is going to be the wealthiest state in the union, I believe in time. You see we've got lead, zinc, oil, coal, and a good agricultural country. There is everything to make it a thriving commonwealth. The banks are loaded down with money, so that we do not have to go East to borrow any funds to promote any enterprise. The time is rapidly passing by when they can ridicule Kansas. It is no longer the land of cyclones and freaks. Of course, we have had Carrie Nation and a few other of her ilk, but we are weeding out her class. Kansas is becoming regarded as an educated state; schools and colleges are flourishing everywhere. It is stated that a larger per cent of Kansas people have received the benefits of education than any other state. There are no backwoods, but all is a level prairie. None of the people are shut up in mountains and hills, where they have no railroad communication, but enjoy intercommunication with those who can keep them up with the times.

"It is estimated that the Kansas crop of small grains will only be about two-thirds of the usual yield this season. The wheat crop will only run from 65 to 70 per cent. We plant winter wheat there. It was dry in the fall, and there was no moisture for it to come up this spring. And the spring was unusually late. Some of the wheat will be all right. Corn was growing nicely when I left, but it was not as good as it should be. It ought to have been waist-high when it was only knee-high."

* * *

"Farmers in North Dakota are in great spirits," said K. O. Kimber of Fargo, N. D., at the Lenox. Mr. Kimber was a resident of Duluth for several years, but since the first of the year he has been located in the Dakota city.

"The crop is looking elegant, and the farmers look for the best yield in five years. I traveled from Fargo to Grand Forks, and up to the boundary line and in those sections the grains look nice and wavy. The prospects were never brighter, and the only thing that the farmers are afraid of now is hail.

"You can tell how the farmers feel from the manner in which they buy. I am in the piano business, and the trade has been excellent, most of the purchasers being farmers. When farmers buy pianos it is a sign that they are feeling easy about the prospects.

"The threshing machine men are doing a thriving business in anticipation of a big yield. Elevators are going up everywhere. Small towns are getting many from the Soo line. Elevators are being erected in some places where there are only a depot and a hotel.

"Fargo is intent on the state fair to be held there next fall. In years past the fairs were held at Bismarck, but an act was passed last session of the legislature that Fargo or Grand Forks should enjoy the privilege in the future. Next fall Grand Forks will be given the chance, but that city will have to do some tall hustling to push ahead of Fargo. A race track is being built at Fargo already in expectation of the fair. We think that we will get it at Fargo permanently because we have better railroad facilities than Grand Forks."

The Weather.

"And what is so rare as a day in June?
Then, if ever, come perfect days;
Then Heaven tries the earth if it be in tune
And over it softly her warm ear lays."
—Lowell.

Some facetious folks have a habit of quoting the first line of the above only on the few evil days that June brings, and then they string after it more or less ingenious jokes about the fruitful subject, the weather. This is one of the days when they quote it who love its meaning, and who are willing to forget the evil days that are passed and live in the glorious present.

The day was warm, pulsing with life, delightful. Into the warmth that the sun poured out the breeze brought a touch of coolness from over the lake that made a combination devoutly to be wished, to paraphrase the man of Avon.

More real summer weather is promised by the weather man, and as a base for the conditions he predicts southwesterly winds, which will be fresh to brisk. There will be showers or thunderstorms tonight and Wednesday, and it will be warmer tonight and cooler tomorrow.

High temperatures continued yesterday and this morning in the Northwest, the central valleys and the southern states. Showers visited the Atlantic states, the greater part of the Lake Region, the Ohio valley, the extreme Southwest, North Dakota, Montana and Western Canada. The barometer is low over the St. Lawrence valley and Western North Dakota. The winds in the Lake Region were light to fresh; variable on Lake Superior and westerly elsewhere.

Following were the highest temperatures reported during the twenty-four hours ending at 7 o'clock this morning, as reported by the weather bureau:

Abilene	78	Medicine Hat	86
Atlanta	88	Miles City	72
Battleford	70	Milwaukee	72
Bismarck	86	Modena	84
Boston	66	Montgomery	94
Buffalo	64	Moorhead	82
Calgary	70	New Orleans	82
Charleston	82	New York	70
Chicago	66	Norfolk	86
Cincinnati	82	Northfield	70
Davenport	80	North Platte	90
Denver	84	Oklahoma	88
Detroit	74	Omaha	84
Dodge	88	Phoenix	102
Duluth	72	Pittsburg	82
Edmonton	68	Port Arthur	68
El Paso	86	Portland	70
Escanaba	70	Prince Albert	64
Galveston	88	Qu'Appelle	74
Green Bay	72	Rapid City	82
Havre	74	St. Louis	82
Helena	74	St. Paul	76
Houghton	72	San Francisco	58
Huron	88	Santa Fe	74
Jacksonville	88	S. Ste. Marie	58
Kamloops	74	Shreveport	92
Kansas City	84	Spokane	72
Knoxville	78	Swift Current	82
La Crosse	76	Washington	80
Lander	76	Williston	80
Little Rock	84	Winnemucca	86
Los Angeles	76	Winnipeg	84
Marquette	60		

United States Department of Agriculture, Weather Bureau, Duluth, June 13.—Forecasts for twenty-four hous ending at 7 p. m. (local time), Wednesday: Duluth, Superior and vicinity: Showers or thunder storms tonight and Wednesday. Warmer tonight. Cooler Wednesday. Fresh to brisk southwesterly winds.

H. W. RICHARDSON,
Local Forecaster.

Chicago, June 13.—Forecasts until 7 p. m. Wednesday: Wisconsin—Showers and thunderstorms tonight and Wednesday. Warmer in northeast portion tonight. Cooler Wednesday afternoon.

Minnesota—Showers and thunderstorms tonight and Wednesday. Warmer in northeast portion tonight. Cooler Wednesday.

North Dakota and South Dakota—Showers and cooler tonight and Wednesday.

Upper Lakes—Fresh southerly winds tonight and probably Wednesday. Showers and thunderstorms.

Same With Business.

Bismarck Tribune: The best way to advertise a city is to make it worth advertising and advertise it for all it is worth.

When He Is Busy.

Washington Post: The respectable citizen who sleeps on election day is usually in the lead of the crowd with a rope when a public oficial goes wrong.

The Wakeful Eagles.

Houghton Mining Gazette: We are inclined to think that the town of Duluth will be "woke up" as never before in her history, when the Eagles from the copper country strike there.

Were Not Consulted.

Wall Street Journal: From every point of view the Bonaparte appointment is excellent, and the only persons who will be displeased by it are the "machine" politicians who hold to the "spoils" system.

Mass Meetings Not Enough.

Kennebec Journal: Here's hoping the Japanese newspapers and naval courts will not feel obliged to spend a year or two discussing whether Togo or some other admiral won that victory.

Can Ask the Russians.

Pittsburg Gazette: When the people of Philadelphia progress beyond that point of going to mass meetings, and then staying away from the polls they will get what they want in the way of government. And the same holds true of every city.

One Editor's Theory.

Hardeman, Tenn., Free Press: After reading the accounts of the scrap between Admiral Hobo and Admiral Rottenwhisky, we have arrove at the conclusion that what this country needs is more brewerles.

Perils for Idlers.

Washington Post: Governor Magoon intimates that Panama is likely to be a very unhealthy place for folks who do not want to work.

Looking Backward.

St. Louis Globe-Democrat: Without disparagement of the Japanese victory, it should be remembered that in the Revolutionary war Uncle Sam's navy captured 800 British vessels and 12,000 British seamen.

Room for Spreading Sails.

St. Louis Republic: If the hoop skirt comes in again, a good many things will have to go out. Additional space will demand, among other things, the enlargement of women's clubs, the alteration of street cars and the widening of department store aisles; and mere man will shrink to a negligible quantity.

Precarious Sort of Property.

Philadelphia Record: It is reported that when President Roosevelt was informed that Togo had practically annihilated the Russian fleet he said the lesson to be derived therefrom was "more ships for America." To less strenuous observers it will occur that warships are a very precarious sort of property. To lose $100,000,000 at a clip, as Russia has done, would stagger even a billion-dollar country.

"The Newspapers Did It."

Baltimore American: The defeated politicians in Philadelphia will bitterly complain that "the newspapers did it." In fact, the rescue of the city from the gang is a magnificent result of a vigorous fight by the press for the rights of the people. The papers roused the people; they encouraged and backed the mayor in his splendid fight with the machine; they turned the limelight of publicity upon the gang, exposing its every move, and made possible the overthrow in a few days of one of the most corrupt and powerful organizations that ever held a city and its government in its grip.

Twenty Years Ago.

Taken From the Columns of Duluth Papers of This Date 1885.

***Born, on Saturday, June 13, to Mr. and Mrs. C. Thiel, a daughter.

***Rod. McGregor has returned from a long visit in Ontario.

***Mr. Crosset expects his mother from Faribault next week. She will visit with him a short time.

***Capt. Monaghan is on his way from Marine City with M. F. Chalk with a steam scow, the Lucky Boy, which Monaghan & Young have purchased. The boat will be used by them to carry ice to vessels in the harbor. She cost about $1,400, and will be here next week.

***Forty members of Company K will attend the encampment at Faribault next week.

***Duluth lodge, No. 58, and Superior lodge, No. 10, A. O. U. W., consolidate on July 1, taking the name of Duluth lodge, No. 10.

***Meining & Yeager have about finished the improvement of Bench street, and it presents a very fine appearance. It has been topped with beach gravel.

***Until this week the catch of lake fish has been very large, but it is somewhat smaller now. Cooley, La Vaque & Co. have about 100 men at fishing stations on the north shore fishing for them.

***A Scandinavian real estate association has been formed in the city, and its articles of incorporation have been filed. It has an authorized capital of $50,000, and its incorporators are: Alfred Cullen, Peter Johnson, Charles Johnson, Charles Spence, J. E. Erickson, J. M. Carlson and Ole Hedman.

***The annual report of the St. Paul & Duluth shows the earnings for the year to be $1,317,314, or $11,213 less than the preceding year. A great share of the decrease is due to the falling off in the lumber traffic of the road, hauling supplies and transporting lumbermen to the woods.

MINNESOTA OPINIONS

Hibbing Mesaba Ore: Hibbing is welcome to all the dandelions it wants to remove from Duluth lawns.—Duluth Evening Herald. More proof that the ranges are welcome to anything Duluth does not want or cannot use.

Deer River News: Gasoline took a great drop a few days ago, but the wholesaler says nothing about it, the retailer doesn't know, and the consumer shouldn't read the papers.

Albert Lea Tribune: If the descendants of the old vikings in Norway organize a republic it will be a success from the start. Hurrah for the republic of the midnight sun!

Starbuck Times: Considering the political situation as it exists today J. F. Jacobson is without question the strongest gubernational possibility thus far mentioned.

Milaca Times: It is a pitiful thing the way some Minnesotans come wandering back from other climes minus the money and high hopes they had when they left a few years past, and can only regret the opportunities they threw away here.

Hinckley Enterprise: The Minneapolis Tribune has served notice on the Republican party that none of the disorganizers of the party need apply for office; but leaves its readers in the dark as to who the disorganizers are. The Tribune should be more explicit.

Winnebago City Press-News: In life's great battle the diploma is little more than a souvenir of school days. Hanging on the wall of a room in a gilt frame it will look very pretty, but the great, busy, work-a-day world will neither know nor care whether the young man or young woman has a diploma or not. The question asked by the world will be "What can you do?"

Red Wing Republican: North Dakota citizens claim to have seen two quarter moons in the sky. And North Dakota a dry state!

Walker Pilot: The Lewis & Clark exposition formally opened last week. We trust every Minnesotan will make it a point to see the census man before going to Portland.

Roseau Region: Hennepin county, home of more disgruntled and unreliable Republicans than any other half dozen counties, wants one of its citizens for governor. After electing a Democrat for governor by thousands of votes over the regular Republican nominee, the boldness of the claim is manifest.

HAZY DAZY DAYS.

Oh, the hazy dazy summer,
When the white clouds hang on high
Like big wads of fluffy cotton
Pasted up against the sky,
When the wind brings may odors
From the blooms along the creek,
And you'd like to go a-fishing
Every day of every week!

Oh, the hazy, blazey summer
When the wind is in the south
And the world is like a maiden
With a pursed and tempting mouth,
When the dew is on the thickets
Where the mockbirds perch and sing,
When you'd love to go a-fishing
If you didn't catch a thing.

When you'd love to go a-fishing
Like you used to go again,
Barefoot, tousleheaded, happy
Down a winding country lane;
And another fellow with you,
And a whole day for your own,
The new day just like a rosebud,
Pink and tempting, partly blown.

But there's other joys that wait you
In the roseate tinted dawn,
There's the clicking old lawn mower
You must push across the lawn,
So your own boy may go fishing;
Learning all the old time joys
That you learned a-going fishing,
With the nearest neighbor's boys.
J. M. LEWIS in Houston Post.

A Welcome.

No more congress,
No more speech,
No more opera,
No more screech,
No more party,
No more ball,
No receptions
Till next fall;
No more prancing
Chorus girl,
No more spangles,
No more curl,
No more dress coat
All severe,
Let's give thanks
That summer's near.
—Washington Star.

P$HAW!

$ummer, $ummer, $ummer,
$ister at the $hore,
Pop's in the $izzling city
Trying to make more
$ $, $ $, $ $,
$o $ister dear can win
A dude with $tand up coll
Loaded down with tin.
J. M. LEWIS in Houston Post.

Crossroads Astronomy.

Eugene Wood in McClure's:

When the days begin to lengthen
The cold begins to strengthen.

Now, you know, that doesn't stand to reason. Every day the sun inches a little higher in the heavens. His rays strike us more directly and for a longer time each day. But it's the cantankerous fact, and it simply has to stand to reason. That's the answer, and the sum has to be figured out somehow in accordance with it. Like one time, when I was about 16 years old, and in the possession of positive and definite information about the way the earth went around the sun and all, I was arguing with one of these old codgers that think they know it all, one of these men that think it is so smart to tell you: "Sonny, when you get older you'll know more than you do now—I hope." Well, he was trying to tell me that the day lengthened at one end before it did at the other. I did my best to dispel the foolish notion from his mind, and explained to him how it simply could not be, but, no, sir! he stood me down. Finally, since pure reasoning was wasted on him I took the almanac off the nail it hung by, and—I bodog my riggin's if the old skidamalink wasn't right after all. Sundown keeps coming a minute later every day, while, for quite a while there, sun-up sticks at the same old time, 7:30 a. m. Did you ever hear of anything so foolish?

POINTED REMARKS.

Cleveland Plain Dealer: "Togo certainly beat the Russians up pretty badly."

"I thought he let 'em down easy."

Chicago Tribune: "What is the vermiform appendix?" asked the teacher of the class in anatomy and physiology.

"It's a little cuticle on the inside of you," responded Willie, "that's all right until you find out you've got it, and then you have to get the doctors to take it out."

Philadelphia Press: "Russia's nearly bankrupt now, and that means peace. No war can be carried on without money.

"Oh, I don't know. The American people fought for years and achieved their independence after they had given up their last sovereign."

Washington Star: "He is very rich," said the confiding girl, "and he says he would lay the world at my feet."

"Yes," answered Miss Cayenne, "but having laid it at your feet, are you sure he wouldn't put up a 'keep-off-the-grass' sign immediately after marriage?"

Chicago Tribune: "What are you making such a hideous racket about?" asked the caterpillar.

"Mind your own business," retorted the seventeen-year locust. "This is the first chance I've had to make a noise since 1885."

Whereupon he started up his buzz saw again.

Louisville Courier-Journal: The reception was in honor of the premier pugilist.

"Mr. Jimfries," said the hostess, "won't you show us how you won the championship?"

"I'd like to oblige," responded the great fighter, regretfully, "but I fear you'll have to excuse me this time. I'm hoarse tonight."

Pullman Dodges Responsibility.

Springfield Republican: To a complaint of excessive charges filed against the Pullman Car company with the Kansas Railroad commission, the company replies that it is not a common carrier and hence is beyond the jurisdiction of the commission. This answer may serve to relive the Pullman company, but if so, it recoils upon the railroad companies and back again to the Pullman. If accepted as sound, then it follows that the railroad companies should themselves furnish parlor and sleeping cars, or first-class accommodations, amenable to public regulation; for if the railroads, by using the cars of a private company, can escape public regulation as to first-class passenger travel, they could in the same way avoid public regulation as to travel in ordinary coaches. Railroads properly should own and supply all cars used in their services, as the New Haven company does in the case of sleeping and parlor cars, and the time will come when such a policy will be made compulsory.

A Cornell Discovery

Cornell Widow: When a girl smiles your way on the street don't rush right in and grab it. It is best to retain a dignified aloofness until you ascertain whether it's your manly beauty or your grotesque taste in the matter of clothes that has caused the smile. Some girls have sense of humor.

The Noble British Way.

Atlanta Constitution: The Duke of Manchester is sarcastic in his condemnation of the American scramble for the almighty dollar. The British duke does not scramble for it; he walks slowly but surely up to it to the strains of the wedding march in Wagnerian harmony.

Platform Not Wanted.

Louisville Courier-Journal: We observe in two or three contemporaries painful efforts to get up some interest in the Ohio Republican platform. Most people in this country don't know what the Ohio Republican platform is, and don't care. We have the assurance of the news collectors that Ohio has a new Republican platform, and we are willing to let it go at that. We have had enough of platforms and other political claptrap the last twelve months to be able to get on without them for a spell. We pass the new Ohio Republican platform, in favor of more seasonable strawberry shortcake and cherry pie.

Was Born a Mouse.

Atlanta Constitution: If the czar of Russia had great stuff in him he has the opportunity to blot out his past weakness and go down in history as the wisest and greatest of his royal line. Russia is ripe to enter upon a grand destiny through peaceful revolution, if the czar will but rise like a man to meet the inevitable and lead his people inspired by the spirit of compromise. But the czar was born a mouse and can't help his inherent littleness.

Attempting the Impossible.

Portland, Or., Telegram: "And," said the chief of the census bureau to the enumerator, "be sure to make the women tell their age."

"Look here," gasped the field worker, "do you think I'd be holding this kind of a job if I could perform miracles?"

Sleep, Baby, Sleep.

Sleep, baby sleep!
Thy father watches his sheep;
Thy mother is shaking the dreamland tree
And down comes a little dream on thee.
Sleep, baby sleep!

Sleep, baby sleep!
The large stars are the sheep;
The little stars are the lambs, I guess;
And the gentle moon is the shepherdess.
Sleep, baby sleep!

Sleep, baby sleep!
Our Savior loves his sheep;
He is the Lamb of God on high,
Who for our sakes came down to die.
Sleep, baby sleep!
—From the German.

Reflections of a Bachelor.

New York Press: Most people always try to act rich when they travel.

A girl has an awful queer kind of eyes to see a man without looking at him.

There would be too much money in the world if women wore common-sense clothes.

Keeping others from making money seems to give some people as much pleasure as making it themselves.

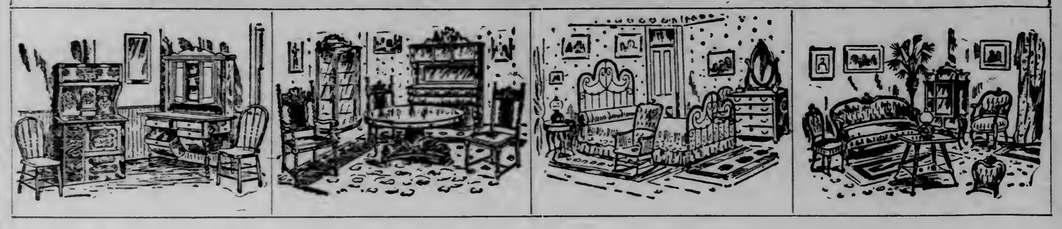
"Duluth's Greatest Furniture Store"

DEPENDABLE FURNITURE

AT THE PRICE OF THE ORDINARY!

This is OUR MOTTO—lived up to every day in the week, and every week in the year. This is the slogan that is making this store busy all the time—that is making this store grow. Already our "Big New Store" is full to overflowing with all that is new and desirable in medium and fine Furniture and Housefurnishings.

WE FURNISH YOUR HOME COMPLETELY—EASY PAYMENTS



PORCH AND LAWN FURNITURE!

We have just received our Porch and Lawn Furniture—one whole carload—and nearly two months late. First, our factory was late in shipping our Porch and Lawn Furniture, and then it was on the way to Duluth nearly one whole month. Of course, we do not want to carry one piece over to next season, therefore we have marked the greater part of this carload at

25%, 33% and 40% Less than Regular Prices

$1.25 Porch Chairs for.. 79c

These are fine white maple frames, with double woven rattan seats, a good well-made and finished porch chair—rain or sun will not affect them, worth $1.25—for..... 79c

"DULUTH'S GREATEST FURNITURE STORE."

Cor. Second Ave. West and First Street, Duluth, Minn.

CONTRACT IS LET

Council Authorizes the Purchase of Decaire Garbage Crematory.

Refuse Chief an Auto—Mayor's Letter Is Received.

The council last evening confirmed the contract for the construction of a garbage crematory, which was let to the Decaire Manufacturing company of Minneapolis by the health commissioner, who was authorized by the crematory commission to advertise for bids.

The Decaire company was the only one to submit a bid, as the commission had signified its preference for that type of plant. The cost of building and equipping the plant will be $29,000. The site selected is at Thirteenth avenue west and Railroad street.

• • •

As was predicted, the recommendation of the board of fire commissioners that an automobile be purchased for the chief was turned down. The committee on fire department, composed of Aldermen Waugh, Trevillion and Schaffer, administered a body blow to the plan by reporting that it was impracticable and not deemed advisable at this time.

• • •

Mayor Cullum's letter regarding the street railway company's service, a report of which was given in The Herald last evening, was presented and read. It was referred to the council committee on railroads.

In his letter the mayor urged the council to take immediate steps to find out just what control the city has over the traction company by authorizing the city attorney to commence legal proceedings against it to enforce certain demands for extensions and improvements in the service.

No action can be taken until next Monday night, by which time the reply of Mr. Lowry will have been received.

• • •

Mrs. Louise Marcotte filed notice of a personal injury claim of $1,000 against the city for injuries sustained in a fall on West First street near Eleventh avenue, on May 18. Her husband, Joseph, claims damages amounting to $8 for a fall sustained at the same time. He and his wife claim to have tripped in a hole in the sidewalk.

J. J. LeTourneau & Co., were awarded the contract for printing 400 copies of the revised ordinances and charter, on their bid of $2.50 per page for brevier type, $1.85 for long primer, and $5.30 for nonpareil index. The work of printing the 400 copies will cost approximately $2,300 according to the estimate of the city attorney.

• • •

The council, on a majority vote, decided to accept the invitation of the Eagles to participate in the parade to be held at the state convention of the order, Saturday, June 17.

• • •

Superintendent Blanchard of the Northern Pacific road called attention to the necessity of painting the Sixth avenue viaduct in order to preserve it, and pointed out that the city was called upon to do this under the contract with the company which provided that the city should maintain the bridge for a period of fifteen years.

The board of public works admitted the necessity of the painting, but stated that the fund was not in a condition to stand the expense at the present time.

To lose is often merely not to find—as a business chance or bargain missed, and thus lost, through failure to read the ads.

CONTINUES FIRM

Price of Copper Shows No Sign of Receding.

Domestic Consumption Increasing and Exports Do Not Decline.

George L. Walker in his weekly letter on the copper market reports the price of metal continuing firm at unchanged prices. Domestic consumers have been buying freely and home consumption is believed to be steadily increasing. Exports continue at about the rate that has been maintained for some time. He says:

"Copper continues firm at unchanged prices. Lake is 15½ to 15¾ cents, and electrolytic is 15 to 15⅛ cents per pound. Domestic consumers have been buying quite freely of late, and the opinion is expressed that our home consumption is still steadily increasing. The export movement shows no indication of abatement. It is understood that the shipments so far this month give promise that another 25,000-ton record will be made. Sentiment in trade circles is more hopeful now than it was a month or two ago, confidence being expressed that consumption from now on will surely increase as rapidly as production possibly can. Predictions that copper will sell at 16 cents before the end of the present year are frequently heard.

COPPER STOCKS.

"Copper stocks have continued dull and steady, prices averaging just about the same as a week ago. A comparison of the prices of twenty-one copper stocks on May 8 and June 8 shows a net average gain of seven-eighths of a point. This has been accomplished in a period of stock market uncertainty, a period in which the one trader who is usually the biggest bull has outwardly been posing as a bear on coppers in general. The failure of prices to decline is not wholly due to the fact that coppers are already inexplicably low, in view of the current metal market conditions, but also largely to the fact that there are almost none of these stocks in the street on margined accounts. The organizer of a bear campaign in coppers at the present time would not stand more than one chance in five of securing a profit on his operations.

"It seems to me that the last obstacle to an upward movement in coppers has been removed. The New York stock market has been thoroughly liquidated and is not at all likely to go any lower for a long time to come. Consumers of copper have regained confidence in the metal situation. It is now recognized that there is no over-production of copper and that none is likely. Amalgamated's statement has been issued, and, when more fully understood, will be regarded with favor. Money is easy and brokerage conditions are in every way favorable to more activity in the local market."

CHURCH RAFFLE IS PROHIBITED.

Philadelphia, June 13.—The director of public safety has prohibited a church from holding a raffle. In an effort to raise funds, the Roman Catholic church of the Ascension intended raffling a house valued at $2,500. A complaint was made to the public safety department on the ground that a raffle was a gambling proposition. The director held the case under advisement. Yesterday the Rev. J. D. Brougham, the rector of the church, called on the director in reference to the matter and was informed that the raffle could not take place.

Niagara Falls, N. Y., & Return $25.50.

On June 16, 17, 18 and 19, "The Northwestern Line" will sell excursion tickets to Niagara Falls, N. Y., and return at $25.50. Final limit for return July 14th. City Ticket Office, 302 West Superior street.

The woman who never reads store advertising is about as wise as the merchant who never advertises—but this is too much like "calling names," so we withdraw the comparison, in deference to the woman.

ONE HIT GAME

Erickson Pitches Phenomenal Ball For the White Sox.

Shuts Out Orphans Without Hit For Eight Innings.

Northern League.

STANDING.

Crookston	23	7	16	.304

GAMES YESTERDAY.

Duluth, 3; St. Cloud-Brainerd, 0.
Winnipeg, 6; Crookston, 1.

GAMES TODAY.

St. Cloud-Brainerd at Duluth.
Winnipeg at Crookston.
Fargo at Grand Forks.

Ay tank he bane a purty gude fella. No? Ya? Eh? He bane purty near as gude a pitcher as Potts. Ya.

Oscar Eric Edward Erickson, six feet two in his stockings, descendant of King Oscar of Sweden and pitcher plenipotentiary of the Duluth baseball team, is it. Not even the semblance of a safe swat did the husky young Norseman give the St. Cloud-Brainerd aggregation until two men were out in the ninth inning. Then the robber that plays short for the Twins showed his meanness of character by banging out the only hit of the day when it was of no benefit to his team, and robbed the big fellow of a no-hit game.

Erickson's wildness was the only thing that kept his record from breaking the one made by Potts on Sunday. Potts allowed three hits, but did not give a base on balls or hit a batsman. Erickson allowed but one hit, but gave three bases on balls and struck one batsman, making a total of five men he allowed to reach first, whereas Potts allowed but three.

In addition to his pitching feat, Erickson brought in two of the three runs with a timely single in the sixth inning. O'Dea had reached first on a pitched ball, Neighbors hit safely, sending Artie to third, and he stole second himself a moment later. Then Erickson banged out a long single bringing in both runs.

The other run came in the fifth, on two two baggers by McAleese and Potts. Potts went to third on Bennett's single, and when "Si" started to steal second, headed for home. A quick return of the ball by second baseman White caught the runner at the plate, and in trying to slide in he turned his ankle, spraining it severely. He will probably be out of the game for several days.

The same Mr. White attempted the famous pinch play in the sixth round. He had drawn a base on balls, went to second on Nehr's sacrifice and to third on Roensch's outfield fly. Then as Erickson was preparing to deliver the ball to Harris, the next batter, White, tore down the line to the plate. It was too late for Erickson to stop the throw, or he would have made a balk, but the play disconcerted him, and he simply tossed the ball to McAleese. Instead of standing up to the plate and swatting the lob for about three bases, as he could have done, Harris stepped out of the way of the runner, and McAleese playfully poked Mr. White in the ribs while the latter was still several steps from the base.

The players who have to worry through the season with a double barrelled pseudonym, made a very favorable impression on the fans, at their first appearance in Duluth. They played snappy, and errorless ball, and outshone the Champs in the fielding department of the game. If the Fargo cast-off, "Lefty" Hanson, had been in the same class of slab artists that Duluth's Scandinavian phenom is, the game would have been interesting. But in spite of the perfect support given him, Hanson was touched up for ten safe hits, three of which were collected by "Si" Bennett, who suddenly developed a hitting streak that looks like "pay ore."

HAIL INTERFERED.

Grand Forks and Fargo Play Two Innings.

Grand Forks, June 13.—(Special to The Herald.)—The weather man was not good to the ball players here yesterday, and after the second inning was played sent little white balls down in the shape of hail. Houch was on the dellvering table for the Tigers, and Berrigan did the work for the Fargo aggregation while it lasted. The batteries for the second game will be Houch and Leach for the Tigers, and Berrigan and Jarvie for the men from Fargo. The score at the end of the second inning was 2 to 2.

COLLETTE IS WILD.

Gives Winnipeg Eight Bases on Balls.

Crookston, June 13.—(Special to The Herald.)—In a ragged game of ball here yesterday the Winnipeg Maroons, marooned the Crookston team from start to finish and allowed them during the entire nine innings to pile up but one lonely run and that made by Livingstone in the seventh upon an error of the Winnipeg shortstop, who fumbled the ball and made a wild throw to home.

General sluggishness and inability of the players wearing the grey to "ginger up" cost Crookston the game. Winnipeg played a snappy wide awake game all the way through and the work of Green in the box was excellent. While Green for the Peggers fanned man after man, Collette for the Crooks allowed man after man to go to first on balls and persistently and almost unremittantly delivered "balls." He redeemed himself to some extent by several lightning line drives and one pretty single to right, but seemed to be up against it as far as the scoring was concerned.

Collette in the eighth made one serious error, which cost the Crookston players an added score on the Winnipeg side of the board. A pretty high one hit by a Winnipeg man dropped directly to his side without any effort upon his part to "make good" on the play.

Crookston apparently is playing in unusually hard luck. Not a game has been played by the Crooks in weeks in which they have not secured more hits and made fewer errors than the winning team and still they have through misfortune, or inability to take advantage of their work, lost game after game. In yesterday's game Crookston secured three hits and made two errors while Winnipeg got five hits and made four errors. This is an exception to the general rule under which Crookston has played for some time past but shows that the error column is less frequently visited than formerly.

Holston, an Indian player, has been recruited for the Crooks and holds down the right field in an excellent manner. He is a dusky fellow but goes after the ball like "Running Deer" and that is the name which the grand stand here gave him. Holston is a hard hitter and put tor Green's excellent work would have assisted in winning the game materially.

Five hundred fans witnessed the game despite threatening weather and interest is keeping up excellently "for Crookston." This time last year the crowds could have been counted on fingers and toes and the proposition from a money making standpoint was a bad one. This year, however, the management reports a financial success so far and a considerable fund of money on hand to draw upon. The team will be rejuvenated and renovated very likely during the present week.

A KENOSHA VETERAN ENTERTAINS COMRADES.

Kenosha, Wis., June 13.—Z. G. Simmons, Kenosha's grand old man, last night gave his annual reception to the survivors of the civil war in Southern Wisconsin, and more than 150 veterans belonging to the posts in Milwaukee, Racine, Waukegan and Kenosha came to the city to attend the annual event. It was the largest gathering of distinguished old soldiers ever seen in this section of the state outside of the state encampments.

The guest of honor was Gen. W. J. Blackmar of Boston, commander-in-chief of the G. A. R. Speeches were made by ex-Governor George W. Peck, W. H. Upham, W. D. Hoard and Gen. Blackmar.

MONEY FOR GOMEZ.

Havana, June 13.—The house of representatives appropriated $100,000 for the benefit of Gen. Maximo Gomez. The precariousness of the condition of Gen. Gomez is increased by the spread of gangrene which the doctors have done their best to arrest.

Pathetic Little Family Party From Missouri Strike Duluth.

They Have Been Passed Along From Town to Town

Carrying a 3-months-old baby in her arms and dragging by the hand an 8-year-old boy, who was sucking an orange, a woman who gave her name as Mrs. Davis wandered into the police station this afternoon and announced that she was looking for work.

"Where did you come from?" asked one of the officers.

"From Missouri."

"And how did you manage to get away up in this country?"

"My husband went to Oklahoma to get work, and died there. I have a sister in Grand Forks and I thought Duluth was quite a spell on the way to there, and I thought if I could get there I could get work and support my children."

The woman spoke with a Southern drawl and the whole family party was plainly from a different clime than Duluth. The boy wore a wide straw hat of the kind known in the South as a "cow breakfast," and his breeches were secured by a single brace, which was the only article hiding a flaming red and white speckled shirt.

The woman's hair was loose and hanging down her back, secured only by a cord at the back of her head. The baby lay on its back on the counter at headquarters, peacefully chuckling to itself, while the boy wandered about the room sucking his orange, and plainly indifferent of what was going on. The woman gazed mildly about the room, and related her story piecemeal to the officers.

"Well if that doesn't beat the ——," said one of the officers when she had finished. "They have simply passed her along from town to town to get rid of her, and here the family is dumped on Duluth to take care of in some way."

In fact it would be hard to imagine a more helpless trio than the three formed. The woman was frail and delicate looking and evidently could not stand any hard work, even if her time were not fully occupied with the baby, while the boy was a perfect type of the tow-headed Missouri lad who would rather go fishing than do anything else, unless it were to eat.

The officers at headquarters pondered the problem for a few minutes while the pathetic little family waited in silence for the verdict. Finally they were turned over to the humane society.

"Come on, ma," said the boy, "we got ter go down stairs and wait for the man to come in," and the three wanderers from "ole Missouri" went down to the office of the humane society to await the arrival of Mr. Withrow.

Some arrangements will probably be made to send them to Grand Forks.

Chicago 905 Miles 905 New York—Pennsylvania Short Line--Pioneer 18-Hour Train

The Pioneer 18-Hour Train over the Pennsylvania Short Line, Chicago to New York, known as "The Pennsylvania Special," leaves Chicago daily at 2:45 p. m., Central time, arriving at New York 9:45 a. m., Eastern time. Extra Fare, Chicago to Pittsburg, $5; to Harrisburg, $8; to North Philadelphia, $9; to New York, $10.

This Pioneer 18-Hour "Special" from Chicago to New York presents the business man's opportunity. Today in Chicago; tomorrow in New York—the next morning back in Chicago.

Write G. L. Thomson, T. P. A., Pioneer Press building, St. Paul.

Fell From Hand Car.

From a handcar upon which twelve men were traveling, O. F. Swanson, employed by O. W. Erickson, a contractor, fell last night at Huson, on the Great Northern line, and sustained painful injuries. His right hand was crushed under the wheels of the handcar, and his face and head were badly cut. The injured man was placed on an ore train and taken to the hospital at Cloquet.

FAST TRAIN IS A HUMMER

Pennsylvania Agent Tells of Possibilities of New Train.

"By means of the new Pennsylvania special which has been put in service between New York and Chicago, a business man can finish up his business in Chicago, leaving there just as the banks and the board of trade have closed, and arrive in New York the following morning in time for business there," said G. L. A. Thomson, a traveling passenger agent of the Pennsylvania lines, who is in the city today.

"He can have a business day in New York, remaining there from 9:45 a. m. until 3:55 p. m., and return to Chicago in time for business the following morning, thus losing but one day from his desk in Chicago, which time is spent in New York city.

"The same thing can be done by the New York man who wants to spend a day in Chicago.

"Even the time spent on the train need not be lost, as a man can take his mail with him and answer it while traveling. There is a stenographer right on the train who will take dictation from any passenger free of charge, and the letters will be mailed at the first station reached after they are written.

"The market reports are also received on board the train, and there is every facility for a business man to conduct his business the same as if he were in his office.

"All this time he is being whirled along at from 60 to 100 miles an hour to the point where he desires to go.

"It is certainly traveling up to date and without doubt marks a great step in railroading.

"The train itself is a marvel of comfort and convenience, consisting of Pullman cars entirely, with an observation car attached to the rear. It is electric lighted throughout, and has all such little conveniences as magazines, books, the daily papers, a ladies' maid for the women passengers, and in fact everything a person can desire while traveling.

"One of the little innovations will be the serving of 4 o'clock tea, free to the passengers. This will be served just after the train leaves New York going west, and while passing along through Indiana on the way east.

"By means of this train Duluth men can leave here Monday evening, spend a day in Chicago, a day in New York and another day in Chicago on the return trip, and arrive in the city again Saturday morning, having missed just three days from their desks."

Will Build Branch.

Vancouver, B. C., June 13.—It is announced that the Canadian Pacific railroad will build this summer the projected line from Golden, B. C., to Fort Steele, near the line of the Crows Nest pass railway. The branch line will be known as the Kootenai Central road.

BRINGS MANY VISITORS

About 800 People Reach Duluth Over Northern Pacific.

The Northern Pacific excursion from Wahpeton and intermediate points arrived in Duluth shortly after 2:30 o'clock this afternoon bringing in 800 people from the populous farming centers in the lower part of the state.

The train ran fifteen coaches all of which were well filled and many of the excursionists were among those who visited Duluth a year and two years ago

The train left Wahpeton about 5 o'clock this morning and the run was made without special incident, leaving all the various stations practically on time.

Among the visitors are prominent people from Wahpeton, Staples, Breckinridge, Aitkin, Brainerd and other of the larger towns on the Northern Pacific line.

After reaching the city the visitors spread out to secure rooms and meals and then many started for the docks to see the lake and to get a boat ride.

In preparing for the influx of visitors the Booth company has arranged to run the steamer America around the horn and in the harbor to give the inland visitors an opportunity of viewing the grain elevators, the iron and coal docks, Park Point and the aerial bridge. The America will leave Booth's dock on Lake avenue at 8 o'clock this evening.

FREIGHT TRAIN WRECKED.

New Albany, Ind., June 13.—A westbound freight train on the St. Louis division of the Southern railway was wrecked today at Georgetown, twelve miles west of this city. Jesse Engleman, 22 years old, of New Albany was fatally injured.

SETTLES TAXES

Northern Pacific Pays Up on Michigan Street Property.

County and City Gets $7,898 Including 1904 Assessment.

A tax settlement important to the county of St. Louis and the city of Duluth, particularly the latter, was made today when the Northern Pacific Railway company paid over to the county treasurer $7,898.82, in settlement of the back taxes on the block of ground on the lower side of Michigan street between Fourth and Fifth avenues West and including its 1904 assessment of $1,356.52.

The settlement is the result of long litigation regarding the railroad property below the Spalding hotel and the settlement at this time not only means that the city and county get nearly $8,000 in back taxes, but it also means that hereafter, until the company actually uses the ground for railroad purposes, it will be spread on the tax rolls.

The proceeding against the Northern Pacific company to enforce the payment of its back taxes on this property has been prosecuted very vigorously by the county attorney's office, one of County Attorney McClintock's promises being, when he made known his platform previous to the late county election, that he would use every effort to secure the delinquent taxes from the company and put the property on a tax-paying basis again.

The property in question comprises only a small piece of ground having a frontage of 400 feet on Michigan street, thirty-three feet deep on Fifth avenue and about seventy feet deep on Fourth avenue West.

The land was formerly owned by the old St. Paul & Duluth Railway company, and was acquired by the Northern Pacific company when it took over the holdings of the former company, a few years ago. The property is not platted, but is described by metes and bounds.

In 1892, 1893, 1894 and 1895 the St. Paul & Duluth company answered to tax proceedings to enforce collection, and the court held that the property was exempt from taxation. The proceedings affected practically the same property involved in the more recent proceedings against the Northern Pacific company.

The county attempted to assess the property for the years 1897 to 1903, inclusive, a period of seven years, and found the valuation for each year as nearly as it could by making comparisons with other property adjacent, including the 15 per cent penalties.

The Northern Pacific company set up in its defense that the property was exempt, and that the court had so decided. It claimed that it paid a gross earnings tax in lieu of all other taxes, that the land had always been used for railroad purposes in connection with the company's other property adjoining, and that the county was attempting to tax ground used for storage purposes for piling and other heavy freight.

The principle of law involved is that a piece of property to be exempt has to be used actually by the company in order to be exempt, but when a particular piece of land is used, and another portion only slightly used, it should not pay taxes. If any grounds are shown not to be used continuously they are held to be taxable.

The county attorney's office recommended that an adjustment be made on the basis of the company's paying one-half all the back taxes due, including the penalties and, in addition, the taxes for 1904. The half of the back taxes amounts to $5,542.30 and the taxes for 1904 were $1,356.52.

Included in this settlement the city gets in full its sidewalk and sewer assessments, amounting to $328 so that the total amount paid is $7,898.82. When it becomes due the company is to pay the 1905 tax which will be on the same basis of the 1904 taxes.

As this property is in the city the city of Duluth and the board of education of Duluth will get practically all of the amount paid by the railway company.

The court has signed and will file findings according to the settlement made.

TO ARRANGE FOR OUTING

W. C. MacFadden of North Dakota Bankers' Association Here.

W. C. McFadden, president of the Commercial bank of Fargo, N. D., and a member of the executive committee of the North Dakota Bankers' association, was in the city today to complete arrangements for the excursion which the bankers will run to Duluth in July.

The bankers will take their annual outing in the way of an excursion to Duluth and a trip to Isle Royale. They will reach Duluth the morning of July 9 and will leave immediately by steamer for Isle Royale, returning to this city July 11. While here the bankers will have a drive on the boulevard and will look over the city.

It has been suggested that the local bankers hold a reception in order to meet their fellows in business from North Dakota, and, if the suggestion is acted on, definite arrangements for such reception will be made before the visitors arrive.

NOT TONIGHT

But One Week Hence Is St. Luke's Graduation.

Through an error in this morning's paper regarding the date of St. Luke's hospital graduation, considerable confusion has arisen among people interested and who wish to attend. The item in the morning paper says that the graduation exercises are to take place this evening, when as a matter of fact they will not take place until one week from tonight, June 20, as the invitations plainly set forth.

CARICATURE SKETCH OF JOHN MITCHELL.
Mr. Mitchell denies that he is to retire from the presidency of the United Mine Workers. He has been busy recently in trying to increase the membership of that organization. This sketch was made from life.

ENGINEERS TO GO

Conference With Reference to the Meeting at Cleveland.

Two Duluthians Will Work For Next Convention For Duluth.

Five of the local members of the American Society of Civil Engineers held a consultation this morning at the office of Maj. C. L. Potter, corps of United States engineers, to discuss the question of having a representation at the annual convention of the society, which will be held a Cleveland, Ohio, on June 22 and 23. Duluth is after the meeting for next year, and there is every prospect that this city will land it.

All the local members of the society are busily engaged at this time of the year, and there was some doubt felt whether any of the Duluth men would be able to go. Those who met at Maj. Potter's office this morning were: Maj. C. L. Potter, J. H. Darling, Clarence Coleman, corps of United States engineers; F. E. House, president of the Duluth & Iron Range; F. A. Cokefair and D. A. Reed of the Great Northern Power company. There are nine local members, the other four being City Engineer T. F. McGilvray, Thomas Pettigrew, with the Great Northern Power company; Mr. Kelly of the Duluth, Missabe & Northern, and H. H. Wadsworth.

Two of the members will undoubtedly go. The government engineer's office will be represented, probably in the person of Maj. Potter. Mr. Reed or Mr. Cokefair will go as the other pilgrim.

"It is thought that the prospects of securing the convention for Duluth for 1906 are good," said Mr. Darling this afternoon. "It is regarded as about due that Minnesota should have the next meeting. It has been twenty-two years since the convention met in St. Paul. The circulars sent out by the Commercial club are bearing fruit. Secretary Eva is getting many replies from the members which are favorable to Duluth. Some say that they have already voted for Duluth, and others promise to do so. The members vote by circular letters addressed to the secretary of the society in New York. Every member has been requested to indicate his preference for the place and time of holding the next convention. The votes will be canvassed at Cleveland.

"It is not known that Duluth has any competitor in the race for the 1906 meeting. We hope that two or three more will go from Duluth to Cleveland and speak for this city. There is something over 3,000 members in the society, but of course not all of them attend the conventions. It is the most important civil engineering society in America, corresponding to the British Institute of Civil Engineers."

GLASS BLOCK SALE.

Trimmed Hats Below Cost of Material.

AFTER THIRTEEN YEARS

Marriage License Used By Minneapolis Couple.

Minneapolis, June 13.—After waiting for thirteen years for his sweetheart to regain her health, Chas. Wass, Saturday, was wedded to Etta Grant.

In October, 1892, they took out a marriage license, but the girl became ill. The marriage was impossible.

Wass did not give up hope.

He promised to be faithful.

He prepared a little home at 418 Eleventh avenue south.

Saturday, June 10, he called upon Rev. Hultkrans and asked him to come to his home to perform the ceremony.

The minister investigated the license, and found it good.

He went out to the little home, and found Etta Grant waiting there to bear the bans.

The thirteen years of waiting came to an abrupt end.

Mrs. Wass is now fairly well.

"We'll be happy for many years," says Wass.

A Wonder In Millinery.

The sale that comes only once a year and always creates a furore! 2,500 trimmed hats for ladies, misses and children, at the Glass Block beginning Thursday. The makers take the loss—our customers get the hats for less than original cost.

PANTON & WHITE CO.

SIX MORE CASES OF YELLOW FEVER.

Washington, June 13.—Governor Magoon of the isthmian canal zone reports the following additional cases of yellow fever: A. C. Alkens, American, conductor, Culebra. C. E. Griffiths, American, engineer, Panama. Thomas Hogan, American, engineer, Culebra. Vincent Mosoni, Italian, non-employe, Panama. Robert D. Lee, American, carpenter, Cristobol. Samuel Sweeter, American, non-employe, Cristobol.

THIEF WILL RETURN SECURITIES FOR $1,000.

Boston, June 13.—Henry W. Comstock, the victim of the mysterious theft of securities valued at $120,000 on a Sound steamer Sunday night, today said that late last night, he received a second telephone message from New York, from an alleged agent of the thief offering to return the securities for $1,000 cash.

JAP WINS MEDAL.

St. Louis, June 13.—Kotaro Date, a Japanese student, has been awarded the Wayman Crow medal for 1905 at the St. Louis school of fine arts.

PYTHIANS DEDICATE BUILDING.

Springfield, Ohio, June 13.—With strangers from all parts of Ohio present, the new $85,000 administration building at the Ohio Pythian home was impressively dedicated today. The oration was delivered by Grand Chancellor J. D. Clark of Dayton.

Rheumatism Cured in a Day.

Mystic Cure for Rheumatism and Neuralgia radically cures in 1 to 3 days. Its action upon the system is remarkable and mysterious. It removes at once the cause and the disease immediately disappears. The first dose greatly benefits. 75 cents and $1. Sold by all druggists.

Suit Savings!

Many have already taken advantage of the bargains offered by our 20 per cent discount sale of dark mixed cassimere suits, in medium weights. Note the reductions:

$8.00 SUITS FOR	$6.40

HOW IT WORKS.

A Scientific Explanation of Intoxication's Progess.

"When alcoholic liquors are drunk the effect is, of course, first perceptible on the lips and tongue, then on the throat and stomach, and after the lapse of a short time, on the system in general," said a leading chemist the other day to the St. Louis Globe-Democrat.

"This effect is slightly irritant in character, the degree of irritation depending on the proportion of alcohol present; the more alcohol the greater the irritation. New or recently made liquors contain more alcohol than do most that have been aged or kept a long time, because alcohol evaporates, leaving a purer and less intoxicating beverage, hence the esteem in which old wines and liquors are held.

"The first effect of liquor is a decidedly stimulating one. The heart muscle tones up and does more work. The blood courses more swiftly through the veins; the nerve centers and nerve fibers feel the stimulation, and the supply of blood to the brain is increased, thus stimulating thought, action and emotion.

"It is thus during this first step, this preliminary stage of intoxication, that the best or better effects of alcohol are seen. It is in this stage that men feel that glow of good-fellowship which leads them to declare their love and admiration, first for themselves and their own achievements, and then for their fellowmen.

"During this preliminary stage, when the system is under the stimulation referred to, there is a general sense of what the French so aptly term 'bienaise,' but for which the best equivalent we have is the phrase 'well being.' Not only are the physical centers uplifted, but often the moral ones as well. It is no unusual thing to hear a man in his cups bewail his failure and firmly avow his determination to do better. This is due not so much to any personal equation on the part of the subject as to the decided stimulation of the brain, particularly those portions in which the centers of thought and emotion are seated. This stimulation is, of course, but temporary, though it may be prolonged for a short period by a continued supply of intoxicants.

"After passing through the digestive organs, the alcohol enters the blood unchanged. Here, meeting with the alkalinity of the blood, the alcohol becomes acid and sets free the active principle of intoxication which has been termed 'furfurol.' In intoxication we have to deal first with ethylic alcohol, of which fusel oil has long been considered the most active element. Recent investigations have proved that it is a heretofore unknown element of this fusel oil which causes all the trouble. By a process of elimination this element has been separated and so recognized and named furfurol. It has also been found that this element is not separated or set free from the alcohol until it encounters a certain element in the blood for which it has an affinity. Therefore, while the alcohol is passing through the digestive organs, not having yet been passed on into the blood and thence into the general circulation, it is only the pleas naatetfn nupp lation, it is only the pleasant features of a mild systematic stimulation which are experienced.

"It must all along be borne in mind that in speaking of inebriation all facts are relative. The same liquor will have a totally different effect on differen people, and what will make one man decidedly drunk will not have the slightest effect upon another.

"We must also keep in sight the difference in liquor; whether of a strong or mild character; whether newly made, and so containing a large amount of alcohol and ethers in an undeveloped state, or aged so that these harmful constituents have vanished, and likewise the purpose for which they are drunk. A man desiring speedy intoxication will doubtless choose a new, raw liquor which acts quickly, while a man who desires to secure a moderate stimulant will select a mild, well-aged beverage, which because of its age has lost its more harmful properties by evaporation.

"Once the alcohol has passed into the circulation, however, then the trouble begins. Under the stimulation already referred to, the heart muscles have been working harder, the veins and arteries have expanded to accommodate the increased flow of blood, the brain and nerve centers have become more active by the stimulation being artificial and coming from without rather than from within, these organs, once the momentary stimulus fails, begin to flag and all the effect is lost. It is just so with an engine making an unusual spurt of speed under extra pressure of steam, slows down and finally stops when steam is withdrawn.

"It seems paradoxical that furfurol, a constituent of alcohol, should act the very opposite of alcohol. Prior to its entrance into the circulation we have seen that the effects on the body are pleasant when taken in small quantities. When a large amount is taken, it of course, passes proportionately quicker into the blood and its evil effects are more apparent. Being of a highly irritating character, it sets up a state of inflammation, more or less acute, in all the tissues with which it comes in contact. Passing through the veins and arteries, already expanded by stimulation, its irritative qualities cause them to contract, and so circulation is impeded. The delicate sheaths of the nerves also feel it, and convey the sense of irritation to the brain, where it is impressed and recorded. This, then, is what brings about the irritable and quarrelsome stage of drunkenness.

"In subjects long accustomed to alcohol, of course, this element in time loses some of its power, and larger and still larger doses are taken in order to obtain the accustomed effect. The body tissues, having felt the irritation, strive to adapt themselves to it; but with very poor results. Should still more furfurol enter the system the irritation is increased to such an extent that the nerves are no longer capable of recording it. The poison—for it is an active poison—passes on through the circulation, benumbing every organ and every tissue it touches, until the victim falls into a state of stupor, which is commonly known as a drunken sleep.

"The intermediate stages of intoxication show many varieties. One man may be drunk only in his legs, and be totally unable to walk the proverbial chalk line, while his brain remains perfectly clear and unmuddled. Another, while retaining perfectly his equilibrium, may lose his discrimination as to words, or even lose his power of intelligible speech altogether.

"Among the natives in the Northwest of Ireland, especially in the mountainous regions, ether drinking prevails to a large extent. The peculiarity of ether intoxication is the rapidity with which the spirit acts, the exaltation of mind of the drinker during intoxication, and the wonderfully short time in which the effects of intoxication disappear, leaving apparently no evil effects behind.

"Experiments made on animals with pure furfurol showed that, while its action was almost immediate, the nerves and muscles becoming quickly paralyzed, convulsions even ensuing, the recovery of the subject was almost phenomenal in its rapidity.

"Another remarkable thing is that many of the so-called 'pick-me-ups' contain an element which tends to neutralize or render inactive the evil effects of furfoil, hence their wide use."

DOCTOR'S DUAL LIVES.

New York Press: "Why can't you come to see me any more?" asked a physician with an office in a fashionable street just off Fifth avenue of a patient. "To be frank, doctor," was the reply. "I cannot afford it. I am a salaried man. When I came to see you as a specialist, I believed it would be only for a short time. But, as you say, my case is an obstinate one. I have already far exceeded the amount I calculated to pay. You have been very kind about arrears, but I don't wish to continue further. The money must be paid some time, you know," the patient added with an attempt at cheerfulness. The physician pondered for a moment. Then he said: "Mr Blank, I am glad you have been frank with me. I shall be equally frank with you. I will entrust you with a secret. I am interested in your case for professional reasons. Go to this place," handing over a card with an address far down town on the West side, betwen 4 and 6 o'clock in the afternoon and I will see you there. But I must ask you not to go except between the hours named. My fee there will be just one-third what it is here, and you can take your time about paying it."

"A great many doctors do that," said a New York physician who is so rich that he need not practice at all times unless he wishes. "I did it myself once. If a doctor aspires to a fashionable practice he must live in a fashionable neighborhood, among other fashionable doctors, where there are always plenty of carriages lined up on the street. Frequently when a man moves into a house or even an apartment costing anywhere from $2,000 to $4,000 a year his practice will not pay his rent and living expenses. Of course, he must keep up appearances in his uptown office. Downtown he may do as he pleases. Uptown he is, for instance, Dr. Cavendish Jones, office hours from 9 until 11 a. m. and 7 until 8 p. m. Downtown he is Dr. Jones, office hours, 4 to 6 p. m.

"Frequently in cases of this kind another physician's plate is on the downtown window, giving his hours as 1 to 3 p. m. In this way Dr. Cavendish Jones is easily able to meet the deficiency in his uptown office expenses. He makes his calls, of course, between 11 and 4, and drives home to luncheon in his brougham. The man who pays his $2 a visit to Dr. Jones in Greenwich village never dreams that he is receiving the services of the distinguished Dr. Cavendish Jones, whom he may have heard of as a specialist in his particular trouble, but whose fees were prohibitive to him."

POPULAR SUMMER JOB.

There is one popular summer job in New York, says the Sun. A Sunday newspaper recently printed more than 400 advertisements from men, women and couples who wanted work as caretakers for big New York houses whose owners were to be absent for the summer. The work is not hard, and it insures luxurious homes in the best residence localities during nearly half the year. Many hard working people look forward to the caretaking season as a recreation and a rest from the winter labors and privations.

BLOOD POISON is the worst disease on earth, yet the easiest to cure when you know what to do. Many have pimples, spots on the skin, sores in the mouth, ulcers, falling hair, bone pains, catarrh and don't know it is BLOOD POISON. Send to DR. BROWN, 925 Arch St., Philadelphia, Penn., for BROWN'S BLOOD CURE, $2.00 per bottle; lasts one month. Sold in Duluth only by Max Wirth, 13 W. Sup. St.

DECLINE OF ORATORY

And Decreased Receipts of Trial Lawyers Considered Together.

Case of A. H. Hummel, New York's Famous Criminal Lawyer.

New York, June 13.—The troubles into which A. H. Hummel, the topnotch divorce lawyer, has fallen would doubtless be the big topic of discussion these days by the New Yorks newspapers except that the war is supreme. Hummel is charged with subornation of perjury in the matter of the Dodge divorce case.

Dodge was divorced by his wife, and she married C. W. Morse, the ice king. Afterwards Dodge, whose counsel Hummel was, declared he had never been served with papers and asked that the divorce be set aside. This would annul the marriage of his former wife and Morse, and it was in the subsequent proceedings that Hummel got into the tangle. The case made a great row at the time and the adventures of Dodge, who fled to Texas and tried vainly to get over into Mexico, were the subject of many newspaper columns.

Dodge was finally brought back to New York. Hummel was indicted and a certain woman, widow of a wealthy banker, sailed to Europe just in time to avoid being forced to testify in the case before the grand jury. Hummel's case came up for trial last week, but has been put off on technical grounds, Hummel standing "mute" when called upon to plead. Meantime, he is practicing law the same as ever, and those who take interest in the case are wondering which will win ultimately, Hummel or District Attorney Jerome, who seems to be making it a personal point to bring the case to a final head as soon as possible.

Hummel has been one of the best known criminal lawyers in New York for many years. Even in the old days when the criminal lawyer was accorded much more attention, alike by press and public, than now, when Daniel Dougherty, silver-tongued and from Philadelphia, was alive, when Dr. O'Sullivan, medical man as well as lawyer, was to the fore and before the death of his partner, W. F. Howe, "Little Abe" Hummel was a continuous topic for talk and topographical exploitation. He still has a vast law business, for he makes a specialty of theatrical contracts and general "dramatic practice," and he is the idol of an immense number of fair divorcees and stage women, from stars to chorus girls.

Hummel's private office is a big room, and whoever enters it for the first time is amazed by the number of portraits of women which adorn its walls. They include Lillian Russell and Marcella Sembrich and Lilly Langtry, beside a big list of lesser stage lights of the fair sex. It is only fair to add that several portraits of well known men of the stage are also in evidence, Sir Henry Irving being the most conspicuous. Hummel learned much of what he knows about law and the art of playing upon fallible human nature from his late partner, W. F. Howe, but has found out a lot of ways of carrying his point that the older man never invented. In some ways, however, Hummel never rose to the heights attained by his partner, and the firm hasn't had big criminal cases to defend nearly as often since Howe's death as before. Perhaps that is because Hummel is fonder of divorce court practice than Howe was; and something of the change is due, undoubtedly, to the growth of the firm's theatrical practice, which was almost wholly due to Hummel and not to Howe.

One of Howe's great specialties was the employment of a client's child to influence the jury in a big criminal case. Old-timers about the criminal courthouse still like to reminisce about the noted lawyer's achievements in this direction. On one occasion, when Edward Unger, charged with brutally murdering a man named Boles, at his home on the front of shipping the decapitated body to Baltimore in a trunk, Howe saved the criminal from death by making a display of his 7-year-old child in court, even after Unger had made a full confession. Unger was convicted of manslaughter and sent to prison for twenty years, but the achievement of saving him from conviction of murder was rightly regarded as most remarkable at the time.

C. W. Morse, the ice king, who is so mysteriously mixed up in the case now pending against Hummel, is about 65. He is short, poddy, iron gray haired and has big circles under his eyes. But he is one of the most fascinating men alive, exceptionally well informed in almost every direction, an extraordinary interesting talker and a prime story teller. Wherever he chooses to be—and many of his business successes have been attributed to his unusually agreeable personal qualities. Morse's rapid rise to wealth was due, mainly, to ice, but he has many other irons in the fire, if the reader will pardon this anomalous way of putting it, and it is the general impression that he has acquired great wealth. Apparently a conclusion of the Hummel case adverse to the little lawyer would be more or less embarrassing to Morse.

Just why it is that the criminal lawyer has fallen so far behind, relatively, in the attention of the public no one has been able to say definitely, but the fact remains, nevertheless. Also, beyond a doubt, the criminal lawyer's income has fallen, relatively, far behind the income of the less spectacular commercial attorney. One theory is that the criminal lawyer, one of whose greatest assets is his oratory has dropped behind, mainly, because his oratory itself interests the public far less than heretofore.

There may be something in this; it is certain, not only that there is less reverence for oratory than formerly, but that there are fewer great orators today in all lines than ever before. This is true of public life and of the pulpit as well as of the law, and, furthermore, it is also true that the best speakers in public life are by no means the most influential men in governmental affairs.

MURRAY HAS VALET

And the Valet Still Has a Wife.

Baltimore, Md., June 13.—President Oscar G. Murray of the Baltimore & Ohio Railroad company, has a valet named Antoine Hauser, and Antoine still has a wife named Albertine Hauser, thanks to a decree signed in circuit court No. 2 by Judge Dennis, in which he dismissed Antoine's suit for divorce.

In his testimony Antoine said that he had served Mr. Murray as valet for sixteen years and lived at the Stafford. He and Albertine were married in France on March 18, 1882, and in Paris fourteen years ago they separated, Antoine said, because he had seen one Antoine Winkelreid imprint a kiss upon the cheek of his bride. The valet came to America and took service with Mr. Murray and finally to became reconciled to his wife, who was engaged to Mr. Murray as a cook. According to Antoine, Winkelreid finally turned up in America, and there were several disagreements between the husband and wife, which wound up in another separation. Antoine said his spouse blackened his eye, told him that she was the boss and that if he did not like it he could "git." He said he "got."

Mrs. Hauser denied the Winkelreid kiss, and likewise denied that she had blackened Antoine's eye. She had a letter of recommendation from Countess Maselli. The couple have two children, who rejoice in the names of John and Olympia.

HOW'S THIS?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO., Toledo, O.

We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by his firm.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75 cents per bottle. Sold by all Druggists.

Take Hall's Family Pills for constipation.

MAN IS NOT VERY SOCIABLE

Strange Discoveries By Census Enumerators In New York.

New York, June 13.—One of the surprises of the census of New York now in progress is the large number of persons who live alone. It has been said that the greatest loneliness exists in the busiest municipality of the Western world, and the enumerators are daily verifying it. The city is filled with many thousands of the unattached, of whom none others seem to know anything. They live in boarding houses, in the new skyscraper hotels, in the big Broadway caravanseries and in hundreds of bachelor apartments.

It was thought when the census was undertaken, on the 1st of June, that this class would be small, and 10,000 blanks, known as individual slips, were asked for as the first installment. These were to be left where the persons were out, they to fill them out on their return and forward the blanks to the office of the enumeration, at No. 150 Nassau street. Thomas E. Brown, Jr., chief supervisor of the census, has been ordering individual slips every day or so by 10,000 lots, and still the demand for them continues. It may be there are several hundred thousand persons in New York living in this solitary state. The number has greatly increased in the last five years.

No better example of the way New York minds its own business and takes no trouble to inquire about its neighbors can be gained than from the impressions of the census men. Persons living on the same floor do not learn each other's names, and thousands of the dwellers in the metropolis come and go year after year concerning whom little is known by those who see them daily.

Everything indicates an increase in the population of the city, especially on the East side. The middle portion of Washington Heights and the borough of the Bronx will show large gains.

WELL KNOWN SADDLER

That Carried Notable Americans Is Killed.

St. Louis, Mo., June 13.—St. Louis' best-known horse, "Village Boy," a saddler, which carried a president, a general of the army, a governor of the state and other distinguished citizens innumerable, has been killed to put him out of pain.

The property of C. F. Blanke, a well-known business man, the horse was almost a "landmark." Black as coal, with a fine mane and tail, equipped in pure white trappings, all St. Louis knew him.

When Theodore Roosevelt visited the city, just before his nomination to the vice presidency at Philadelphia, he rode "Village Boy" several times and was quoted as saying he never put a leg over a finer animal.

On April 30, 1903, the big procession that opened the dedicatory exercises of the World's fair was led by Gen. Fred D. Grant on Village Boy's back. He was afterward bought by Governor Joseph W. Folk of Missouri and occupied a prominent stall in the governor's stable.

Village Boy was a Missouri horse, born at Wentzville. His sire was Black Squirrel, also a Missourian, and said to be the ancestor of a majority of the great riding horses of the country.

DOCTORS PUZZLED

By Man Becoming Totally Bald In a Week.

Connersville, Ind., June 13.—Wednesday of last week Clarence Maple was arrested charged with attempting to commit criminal assault. Maple is a young married man and has a family. Since his incarceration in jail he has slowly turned bald, and now is as bald as the average man of 70 years, the only semblance of hair on his head being a small growth near the front.

When placed in jail Maple possessed a head of heavy hair. Instances have been known of a person's hair turning suddenly white when suffering from fright or grief, but the present instance is believed to be the first on record of the kind.

A physician whose attention was called to the matter states that he could not account for it, but said it was of great interest to medical science.

HILL CARTED WITH THE DOGS

Because He Yelled at Tige When Net Was Thrown.

Pittsburg, Pa., June 13.—David Hill was standing in front of his home, 8 Beltshoover avenue, and Tige, his little yellow dog, was by his side in deep meditation. Along came the wagon from the dog pound and on its bridge sat Michael Kunzelman, the official dog catcher of the city. Tige took in the situation at a glance and gave a disdainful bark.

The challenge was too much for Kunzelman, who jumped from his perch on the wagon, net in hand, and started in the direction of the dog. Tige saw him coming and sought the protection of his master's nether limbs. Hill knew what was going to happen, and gave Tige a kick which sent him out of harm's way, but in the meantime the net of Kunzelman was swishing through the air. Then it came down over the head of Hill, while Tige scooted down an alley.

"Vun ess just so goot as unner vun," quoth Kunzelman, and forthwith he hundled the struggling Hill into the wagon with the yelping dogs.

Hill was carted around all day, just as if he had been a dog, until the trip was made to the pound, where he was registered, along with the others in the wagon. Then he was taken to No. 7 police station, where a charge was made against him for interfering with an officer. He was released on a $30 forfeit.

Pain may go by the name of rheumatism, neuralgia, lumbago, pleurisy. No matter what name the pains are called, Hollister's Rocky Mountain Tea will drive them away. 35 cents, Tea or Tablets. Ask your druggist.

HAIR-PULLING MATCH

At Session of Maccabees Chapter In Arkansas.

Blytheville, Ark., June 13.—A session of the Maccabees Chapter was suddenly terminated by a hair-pulling match between Mrs. Allison and Mrs. Bursh, queen bees, who resorted to much rougher tactics as their Queensberry-like argument continued. The final result was that each made charges against each other of assault and battery, which resulted in a trial in police court.

The judge was inclined to discharge both principals on promise that the war had ended, but neither Mrs. Allison nor Mrs. Bursh was willing and their case was continued.

The trouble, it seems, started over pertinent remarks in which the queen bees charged each other with being "not nearly so good as they ought to be."

FORAKER OR TAFT?

Support of Ohio Delegation Depends Upon an Ex-Bartender.

Cox Opposed to Both Probable Candidates For President.

Columbus, Ohio, June 13.—Ohio politicians are speculating over the attitude George B. Cox will assume in the impending struggle between the secretary of war, William H. Taft, and Senator Joseph B. Foraker for the Buckeye delegation to the next Republican national convention.

Not that Secretary Taft has proclaimed himself a candidate for the presidency, nor yet that he has even to his choice friends intimated that he seeks to succeed Theodore Roosevelt as national executive. But the old Hanna-McKinley organization is at work upon plans and specifications for a movement to secure a delegation from Ohio favorable to the cabinet member.

Senator Foraker, on the other hand, has long been in training for just this fight. He remarked, cruelly, in the long ago, that William McKinley had repeatedly been kicked upstairs by his enemies—a statement which is indicative of the feeling between the contending factions in Ohio. And now, when he feels that his opportunity is at hand, he is disposed to fight, and fight hard, for the indorsement of his own state, even to the extent of making peace with Mr. Cox. George B. Cox is the executive head of the copper-riveted Republican organization in Cincinnati and Hamilton county. His power there is absolute; his will the decree of his party.

Nor is Cox's influence confined to Hamilton county. Through his control of the state's law-making body, he has been able, by log-rolling methods, to influence by his machine party leaders in rural counties, until his strength is such that he wields the balance of power in state conventions.

It is therefore concluded by politicians that, as Cox decrees, so will the Ohio delegation in the next national convention vote, under the unit rule.

As both Senator Foraker and Secretary Taft are Cincinnati residents, and as between each and Mr. Cox the relations are such as to make it appear impossible that that leader support either, the situation becomes so complex as to awaken the party workers to an unusual degree of anxiety. The reasons for the estrangement between the two rivals and Mr. Cox are personal rather than political, although both have to do with the affairs of the Cincinnati machine.

Senator Foraker was closely linked to the Cox organization during the early years of his existence. He helped to build it and helped to develop its power. He was four times the machine's nominee for governor, and twice the machine's candidate for United States senator.

Before Cox entered politics the "Big Fellow," as Cox is called by those who do his bidding, was little known outside a limited circle in one of the "tough" wards of the Queen City. As dray driver he had a speaking acquaintance with few aside from his customers. When, however, he donned a white apron and became a bartender, he learned to smile, and his circle of acquaintances widened.

From the saloon he was graduated into politics, first as a precinct, then as a ward worker. He helped a rich brewer wrest control of the organization from the old "Sherman crowd," and then, bigger than the brewer in political affairs, he tossed the "angel" over and became the "party leader." Possessed of rare ability as an organizer, he soon had complete control of the city machine—a grasp he has not relinquished within twenty years. When Cox and his machine were developing the advice of a lawyer was needed, for there was arrayed against him the "blood and brains" of the Queen City. Foraker filled that want. He and Cox were inseparable. They worked absolutely in harmony. For a time after Foraker had been elected to the senate, succeeding the late Calvin S. Brice, Democrat, he still kept in touch with his friend.

Meanwhile Mr. Cox, like Senator Foraker, had grown wealthy. He built a palace in Clifton, the aristocratic hilltop suburb of Cincinnati. Then he surrounded his wife with all the luxuries of the newly rich. Naturally, Mrs. Cox became socially ambitious. The Forakers lived handsomely in Washington, where they moved among the select. What was more natural, therefore, than that Mrs. Cox should expect Mrs. Foraker to present her to Washington society?

Just how Mrs. Foraker met the proposition may never be known. But she did not present Mrs. Cox to her Washington friends, and the split between the husbands, the severing of the ties that had bound the two leaders for years, tells the story of the disappointment felt by Mr. and Mrs. Cox. Since that time—and it dates back to the late President McKinley's first term—there has been open hostility between Cox and Foraker.

Among the bitterly hostile and uncompromising opponent to Mr. Cox, there were none who more openly spoke their sentiments than the Tafts, William H. and Charles P. They fought Mr. Cox at every turn, never overlooked an opportunity to speak their sentiments concerning his methods, and encouraged opposition to the organization at all times. When, therefore, William H. Taft was appointed United States circuit judge, it was over the vigorous protest of Mr. Cox. During all the years Judge Taft sat on the bench he never met nor talked with Cox. Charles P. Taft then as now owned and edited the Times-Star, and the columns of his paper teemed with criticisms of the Cox organization at its head. Senator Foraker, too, was attacked, for his connection with the machine. Charles P. Taft had ambition to go to congress. A reform movement was on foot and Mr. Cox saw trouble ahead. In some mysterious manner word was passed to Mr. Taft, the editor, that if he entered congress, he would do so as a "regular" party man, and not as a "bolter." He could have the nomination, certainly. The organization always wanted the big-broad men of affairs to fill places of trust. Mr. Taft needed not even ask for his nomination.

By and by a committee waited upon Mr. Taft and told him he had been nominated for congress and the convention was waiting to hear from him. He appeared upon the platform and accepted the nomination. When it is known that in so doing he refused to be guided by the earnestly expressed wish of his brother, W. H. Taft; when it is known that W. H. Taft, now secretary of war, said that he felt ashamed that he should live to see the day that a Taft should accept anything from George B. Cox, then it will be understood why many cannot believe that Cox will be for Taft for president. And so, between the two, Taft and Foraker, Cox must choose.

BABY'S ECZEMA

Top of Head Covered with Scales Which Peeled off Taking Hair with Them.

CURED BY CUTICURA

Now Six Years Old with Thick Hair and Clean Scalp. Cure Permanent.

"My baby was six weeks old when the top of her head became covered with thick scales, which would peel and come off, taking the hair with it. It would soon form again and be as bad as before. My doctor said it was Eczema, and prescribed an ointment, which did no good. I then tried Cuticura Soap and Ointment. I washed her head in warm water and Cuticura Soap and gently combed the scales off. They did not come back and her hair grew out fine and thick. She is now a year and a half old, and has no trace of Eczema."

MRS. C. W. BURGES, Irunistan Ave., Bridgeport, Conn., Feb. 21, 1898.

CURE PERMANENT

Mrs. Burges writes Feb. 28, 1903: "My baby, who had Eczema very badly on her head, as I told you before, after using the Cuticura Remedies was cured. She is now six years old, and has thick hair and a clean scalp."

Instant relief and refreshing sleep for skin-tortured babies and rest for tired, worried mothers in warm baths with Cuticura Soap, and gentle anointings with Cuticura Ointment, purest of emollients and greatest of skin cures. This is the purest, sweetest, most speedy, permanent, and economical treatment for torturing, disfiguring, itching, burning, bleeding, scaly, crusted, and pimply skin and scalp humours, with loss of hair, of infants and children, as well as adults, and is sure to succeed when all other remedies and the best physicians fail.

Sold throughout the world. Cuticura Resolvent, 50c. (in form of Chocolate Coated Pills, 25c. per vial of 60). Ointment, 50c., Soap, 25c. Potter Drug & Chem. Corp., Boston, Sole Props. Send for "The Great Humour Cure."

Woman's Nature

Is to love children, and no home can be completely happy without them, yet the ordeal through which the expectant mother must pass usually is so full of suffering, danger and fear that she looks forward to the critical hour with apprehension and dread. **Mother's Friend**, by its penetrating and soothing properties, allays nausea, nervousness, and all unpleasant feelings, and so prepares the system for the ordeal that she passes through the event safely and with but little suffering, as numbers have testified and said, "it is worth its weight in gold." $1.00 per bottle of druggists. Book containing valuable information mailed free.

"DIRT DEFIES THE KING." THEN

SAPOLIO

IS GREATER THAN ROYALTY ITSELF.

Refuses an Invitation to Visit Reno on the Fourth.

New York, June 13.—Mark Twain will not revisit Reno, Nev., although he has been invited to attend the Fourth of July celebration there. He refuses to go "and cry, because it would not become my white hair."

The invitation stirred his memory of the days he spent in the Rockies in the early sixties. He sent a characteristic letter of regret, in which he says:

"I remember as if were yesterday that when I disembarked from the overland stage in front of the Ormsby in Carson City, in August, 1861. I was not expecting to be asked to come agin. I was tired discouraged, white with alkali dust and did not know anybody; and if you had said then, 'Cheer up, desloate stranger; don't be downhearted—pass on and come again in 1905,' you cannot think how grateful I would have been and how gladly I would have closed the contract.

"Although I was not expecting to be invited, I was watching out for it, and was hurt and disappointed when you started to ask me and changed it to 'How soon are you going away?' for I was an orphan at that time, and had been one so many years that I was getting sensitive about it.

"But you have made it all right now, and the wound is closed. And so I thank you sincerely for the invitation, and with you, all Reno, and if I were a few years younger I would accept it, and promptly, I would go. I would let somebody else do the orating, but not for me I would talk—just talk. I would renew my youth and talk—and talk—and talk—and have the time of my life.

"I would march the unforgotten and unforgettable antiques by, and name their names and give them reverent hail and farewell as they passed: Goodwin, McCarthy, Gilles, Curry, Baldwin, Winters, Howard, Nye, Stewart, Neely, Johnson, Hall, Clayton, Jones, North, Root and my brother, upon whom be peace. And then the desperadoes, who made life a joy, and the 'slaughter house,' a precious possession, Sam Brown, 'Farmer Pete,' Bill Mayfield, 'Six-Fingered Jake,' Jack Williams and the rest of the crimson discipleship—so on, so on.

"Believe me. I would start a resurrection, it would do me more good to look at than the next one will, if you go on the way you are doing now.

"Those were the days—those old ones. They will come no more. Youth will come no more. They are full to the brim with the wine of life. There have been no others like them. It chokes me up to think of them. Would you like me to come out there and cry? It would not become my white head."

OLD SORES CURED

ALLEN'S ULCERINE SALVE.

Cures Chronic Ulcers, Bone Ulcers, Varicose Ulcers, Scrofulous Ulcers, Mercurial Ulcers, Fever Sores, Gangrene, Blood Poisoning, White Swelling, Milk Leg, Poisoned Wounds, All Sores of long standing. Positively never fails. Draws out all poison. Saves expense and suffering. Cures permanent. For sale by druggists. Mail 35c and 50c. J. F. ALLEN MEDICINE CO., St. Paul, Minn.

REVIVO

RESTORES VITALITY

Made a Well Man of Me.

THE GREAT FRENCH REMEDY

produces the above results in 30 days. It acts powerfully and quickly. Cures when all others fail. Young men will regain their lost manhood, and old men will recover their youthful vigor by using REVIVO. It quickly and surely restores Nervousness, Lost Vitality, Impotency, Nightly Emissions, Lost Power, Failing Memory, Wasting Diseases, and all effects of self-abuse or excesses and indiscretion, which unfits one for study, business or marriage. It not only cures by starting at the seat of disease, but is a great nerve tonic and blood builder, bringing back the pink glow to pale cheeks and restoring the fire of youth. It wards off Insanity and Consumption. Insist on having REVIVO, no other. It can be carried in vest pocket. By mail, $1.00 per package, or six for $5.00, with a positive written guarantee to cure or refund the money. Book and advice free. Address Traynor Building, ROYAL MEDICINE CO., CHICAGO, ILL.

For sale in Duluth, Minn., by S. F. Boyce, Max Wirth, druggists.

BIG G CURES in 1 to 5 days. Guaranteed not to stricture. Prevents Contagion. THE EVANS CHEMICAL CO. CINCINNATI, O. U.S.A.

MEN AND WOMEN. Use Big G for unnatural discharges, inflammations, irritations or ulcerations of mucous membranes. Painless, and not astringent or poisonous. Sold by Druggists, or sent in plain wrapper, by express, prepaid, for $1.00, or 3 bottles, $2.75. Circular sent on request.

FOR DRUNKARDS

WHITE DOVE CURE never fails to destroy craving for strong drink, the appetite for which cannot exist after using this remedy. Given in any liquid with or without knowledge of patient; tasteless; $1 at S. F. BOYCE, Druggist, 336 Superior St. Duluth, Minn

WILL SEEK RECOGNITION

Norwegian Envoys Will Be Sent to All the Powers.

Christiana, Norway, June 13.—Mr. Loevland, former president of the Norwegian council of state at Stockholm, who will become foreign minister of Norway on June 15, in an interview with the correspondent of the Associated Press yesterday said that a special envoy would within a few weeks be dispatched to the great powers to seek the recognition of the diplomatic and consular representatives of Norway.

Regarding the probable difficulties to be encountered, Mr. Loevland declined to express an opinion, but he said that the envoy would convey the best wishes of Norway to the powers and would go to them with the highest hope as to the successful result of his mission.

"When our case is represented to the powers," said Mr. Loevland. "It will be seen that it is not of antagonism to the principle of monarchies, nor to a single monarchy. Norway has been a kingdom for many centuries and is proud of the fact. The dissolution of the union was purely on constitutional grounds. Our constitution existed prior to the union with Sweden, and when there came a conflict between the two peoples, Norway chose to retain her constitution.

"Our difference with Sweden is in the first place of an economic character. Our commercial interests, our tariffs, and our entire economic policy differ from those of Sweden. While the diplomatic and consular services were based on the ideas governing the union of the two countries, they worked to the profit of Sweden.

"Norway's merchant marine now ranks fourth among the nations. Norway no longer can afford to negotiate with foreign powers through Stockholm. The union, however, was dissolved only when the conflict became a question of sovereignity.

"We hope the powers will make no mistake regarding our action. We have never tried to create danger for Sweden and will never seek to make difficulties for our sister country. We are acting for the benefit of the common interests of each other and for our common safety in the face of foreign danger.

"The action taken by the storthing is irrevocable and the powers should realize the fact that Norway will fight before this action is reconsidered.

"The question of peace rests with Sweden, but the early recognition of our independence will be of interest to the powers as well as to ourselves.

"Immediately upon the dissolution of the union. Norway informed Sweden of its willingness to open diplomatic relations. We are jealous of our independence, and of our future and will avoid all alliances and will not subject ourselves to the influence of any great power."

The Town Knocker.

To the Editor of The Herald:

Your editorial, "The Town Knocker," expresses my sentiment, because the element you criticise deserves it. We have the same class here in Grand Rapids, as well as you have in Duluth, in fact where ever you go on this earth you will find some people always looking on the dark side of things; the country is without hope, soil is no good, climate don't suit, too many deer and moose to eat up the gardens, the fish won't bite, the rabbits keep hid, the bear won't come out of his den, either too much rain or too much drought, the fly, the weasel, or chinch bug, bad roads and poor markets, etc. This element never fails to throw himself in the way of the stranger looking for investment, and makes a good fellow of himself by running the country down. They continually howl about every weakness, but never was known to speak of the good things that this country affords.

We have here in Grand Rapids, men that never fail to urge upon a stranger patron not to invest anything in Itasca county soil, and yet they ask the patronage of the public, and without, could not exist. If there is any denial to this claim, the writer will name these parties and organize a boycott against them for proof is at hand. This is a good country for any class to come to. We have ample resources to give room for every line of industries, and if any doubt the fertility of the soil, I can show them in the vicinity of Grand Rapids the finest gardens and cereal crops the eye ever beheld. A knocker is an obstreperous nonentity and inconsistency. He is a hideous blotch on the map of intelligence, a fungus growth on limbs of industry. He is a no good blatherskite. He wants to pose as a being, too honorable to beat a stranger, and at the same time, he would be trying to throw the hooks into the stranger in some deal or other. In my opinion, everybody ought to co-operate in the encouragement of immigration. Capital is coming in to be used in the iron industry, but I say without fear of contradiction, that the other natural resources, such as timber, soil, rivers and lakes, are of far more importance to the state than iron.

It is the presence of good, thrifty, industrious men and women, owning their own homes that adds value to property, and builds up a community. I would rather see a field of growing grain and vegetables than to see an iron derrick, for the former means something to posterity, while the later means but very little at any time to the state or community in which it operates, but to the Steel Trust it means everything. Let everyone encourage diversified industry, and stick up for our country.

KROMTOCK.

Grand Rapids, Minn., June 12.

BRIEF TELEGRAMS.

Word was received at Halifax that the Leyland line steamer Tampican, from Montreal, went hard aground in St. Lawrence soon after leaving port Monday. She was heavily laden with general cargo and 400 head of cattle. She is firmly imbedded in the sand and six tugs failed to float her.

In a trolley car collision at New York, Miss Sadie Michaels was almost instantly killed, her sister, Essie, badly bruised, her father injured about the face and back, and her mother so severely injured that she may die at any moment. They were run down by the car while returning from Gravesend in a carriage nearing the crossing of the Coney Island and Brooklyn railroad tracks.

The prospects for the establishment of a steamship service between Canada and Mexico, it is semi-officially stated have greatly improved. The Mexican government has relaxed its opposition to a call being made at a Cuban port and at Nassau. Interested steamship men expect to have their boats in the service during the present summer.

S. A. Hayes, cashier of the First National bank of Lexington, Okla., which failed recently, was arrested on a federal warrant, charged with making false entries to deceive the bank examiner and with making false reports to the controller of the currency.

EFFICACY OF LAWS

They Passed Demonstrated to Certain Legislators.

St. Paul, June 13.—Some of the state legislators have recently had a practical demonstration of the efficacy of laws which they helped to pass. They have been caught by the legislation of their own making.

A prominent Minnesota farmer, who served one or two terms in the state legislature and took especial interest in the protection of game and fish, was fined $5 for fishing bass out of season. The former legislator paid the fine without remonstrance.

A representative, who, as a merchant, took especial interest in the law protecting dealers against box car merchants was fined for selling baking powder and spices that were below grade. This representative, it is said, helped frame the dairy and food law, and he is now convinced that the law covers the ground.

A state senator, whose hobby in the senate was to require milk dealers to secure milk licenses, after he had helped pass such a law and had gone home, was notified by the state dairy and food commissioner that if he did not take out a license for permission to sell milk to a neighbor across the road from his home, the commission would prosecute him. He took out a license the next day.

Many children inherit constitutions weak and feeble, others due to childhood troubles. Hollister's Rocky Mountain Tea will positively cure children and make them strong. 35 cents, Tea or Tablets. Ask your druggist.

GARDNER AND O'KEEFE FIGHT TO A DRAW.

Salt Lake, June 13.—Jimmy Gardner and Jack O'Keefe fought twenty rounds to a draw here last night.

It was a clever exhibition of sparring, in which Gardner did more of the leading than O'Keefe. Both men finished strong. Neither went to the ground during the twenty rounds, and in recognition of O'Keefe's fast work in the last round, Referee Willard declared that he was entitled to a draw. Gardner drew blood from O'Keefe's nose early in the fight.

TERRIBLE TURK

How Easily the Sultan Got Rid of His Brother.

Suspecting Ahmed Eddin as Conspirator, Had Him Strangled.

Constantinople, June 13.—On April 25 an official announcement was issued to the effect that the sultan's brother, Prince Ahmed Kemal Eddin, was dead and buried. This announcement caused considerable suprise, because no one in the Turkish capital, even in the court circles, had the least idea that Prince Ahmed Kemal Eddin was suffering from any malady. The news of his illness, death and burial came simultaneously and gave raise to legitimate suspicions regarding the nature of his disease. Great secrecy was maintained regarding the whole affair, and, although most persons who are acquainted with the methods of the Turkish court felt sure what had happened, it has taken a couple of weeks for the truth to filter through the court circles and come to the knowledge of the outside world.

Prince Ahmed Kemal Eddin did not die a natural death, but was murdered: and there are good grounds for believing that he was strangled by order of his imperial brother, the Sultan Abdul Hamid of Turkey.

Since the murder of King Alexander of Servia which took place in June, 1903, the sultan of Turkey's fear of assassination has become a perfect mania. The impression created on his mind by the Belgrade crime was all the greater because the regicides by whose hands the Servian royal couple fell were officers belonging to the Servian army. Abdul Hamid was in such a state of fear and excitement after the Belgrade tragedy that he hid himself from his own court, a fact which gave rise to the rumors of his deposition and assassination of his Albanian bodyguard. After a brief interval Abdul Hamid recovered some degree of composure, but traces of the fearful events at Belgrade were found in his increased nervousness and mistrust toward all his relatives, courtiers and servants.

The prince's untimely end was due primarily to the fact that he had excited the enmity of Fehin Pasha, the chief of the palace police, who are intrusted with the protection of the sultan at Yildiz Kiosk. Fehin Pasha is thus one of the most powerful personages in Turkey, and he has exploited his opportunities with relentless cruelty. The enmity which he has excited among other courtiers and among the widest circles of state officials only serves to increase the sultan's confidence in him and he has gained the monarch's trust to an unusual degree.

Fehin Pasha is a man of plebeian origin and was formerly an ordinary detective of the political secret service in Constantinople. He contrived to attract the sultan's attention by "discovering" and "frustrating" plots which he himself had concocted with the help of willing friends and which ended in a number of absolutely innocent persons being banished to remote districts of Asia Minor. One fine morning the Turkish capital awoke to find **that Fehin had been made a pasha and** appointed chief of the palace police with the rank of major general.

Prince Ahmed Kemal Eddin excited Fehin Pasha's enmity in the first place by treating the ambitious plebeian with contempt. The prince generally ignored the presence of Fehin Pasha at court festivities, and on one occasion when he did notice him referred to him loudly and contemptuously as "the policeman."

Fehin Pasha's enmity rose to a boiling point, however, when Prince Ahmed Kemal Eddin secured possession of a beautiful Circassian woman whom the chief of the palace police coveted for his own harem. The Circassian slave was brought to Constantinople and offered for sale at auction by one of the dealers whose business it is to replenish the harems of the Turkish capital with desirable inmates. Prince Ahmed Kemal Eddin and Fehin Pasha were both bidders for "No. 4," as she was designated at the sale, and the chief of the palace police, who has not yet been in power sufficiently long to enrich himself, was unable to compete with the wealthy prince of the imperial household. Prince Ahmed Kemal Eddin secured the beautiful Circassian and Fehin Pasha resolved there and then to have revenge.

Fehin Pasha's position as chief of the palace police, combined with the unusual confidence which the sultan has in him, delivered Prince Ahmed Kemal Eddin into his hands. The officer deliberately concocted a story of a plot by Prince Ahmed Kemal Eddin to dethrone the sultan and to gain the crown of the Ottoman empire for himself. Fehin Pasha caused letters to be forged which supplied in black and white apparently indisputable proofs of the prince's guilt. He also procured perjured witnesses, who, in return for his bribes, were willing to swear false oaths regarding Prince Ahmed Kemal Eddin's participation in the treasonable conspiracy. When Fehin Pasha had prepared all the necessary "evidence" he requested audience with the sultan on the ground that he had an important communication to make. This was on the evening of April 24.

Abdul Hamid, scenting danger, gave orders that the chief of the palace police should immediately be admitted to his presence. The sultan's secretary, Izzett Pasha, and another courtier were present during the audience. Fehin Pasha entered and told the sultan briefly that he had discovered a plot to dethrone and assassinate him, and that this plot was to be carried out on the following day. "The originator of the plot," said Fehin Pasha to the sultan, "is your majesty's own brother, Prince Ahmed Kemal Eddin." Fehin Pasha then produced his documentary "evidence" of the prince's guilt and summoned from an ante room the perjured witnesses, every one of whom confirmed the story of the prince's connection with the conspiracy.

The sultan's agitation knew no bounds. He declared: "My brother shall die on the day on which he intended my assassination should take place; instead of ascending the Turkish throne he shall descend into his own grave." The sultan thereupon gave Fehin Pasha verbal orders to carry out the execution of his brother, Prince Ahmed Kemal Eddin, swiftly and secretly on the following day.

Early next morning Fehin Pasha himself, accompanied by three Albanians of the sultan's palace bodyguard, presented himself at the door of Prince Ahmed Kemal Eddin's palace and demanded admittance. It was granted immediately and the chief of the palace police was conducted to one of the spacious and magnificent reception halls. Fehin Pasha then summoned the chief of the household and informed his that he must at once secure admittance to Prince Ahmed Kemal Eddin's bedroom. The chief of the household demurred, but Fehin Pasha overcame his scruples by threats of punishment if he resisted the sultan's orders.

The plotter was then conducted without further delay to the prince's private chamber. Prince Ahmed Kemal Eddin was asleep in bed when Fehin Pasha opened the door of his bedroom and entered, followed by the three Albanian soldiers. The prince sprang up at once, exclaiming:

"What's the meaning of this intrusion? What's the meaning of this insolence, policeman?"

Fehin Pasha, who had closed the door behind him, replied:

"His imperial majesty the sultan has sentenced your imperial highness to death and these soldiers have orders to carry out the execution immediately."

Prince Ahmed Kemal Eddin cried out and attempted to reach a second door leading from his chamber into that part of the palace in which the members of his harem resided. At Fehin Pasha's prompt order, however, the Albanians, whose ferocity is proverbial, seized the prince, threw him down on his own bed and strangled him with a silken scarf.

The terrified domestics who had assembled before the door of the chamber were able to follow by their ears the course of the death struggle in the chamber, but their fear of Fehin Pasha and their knowledge that he was the sultan's confidant prevented them from attempting any kind of interference.

Within two hours of his violent death the prince was in his grave. No one saw the body except Fehin Pasha, the three Albanians and two other attendants, who assisted in the burial. There was no kind of religious ceremony at the prince's interment. He was buried in the garden of his own palace, not in a coffin, but wrapped only in a linen sheet.

When the last act of the tragedy had been performed, Fehin Pasha proceeded to the Yildiz Kiosk and reported the death and burial of the prince to the sultan, who, it stated, displayed no emotion whatever at the news. An official communication was then issued by the new bureau of the Turkish government and telegraphed through the ordinary channels to all parts of the world, to the effect that Prince Ahmed Kemal Eddin had died suddenly and had been buried.

It has taken some time for all the details of the crime to become known, and the story as here given is the one current in the best informed circles of the Turkish capital. Several diplomatic representatives of foreign powers have forwarded a similar report of the prince's death to their governments.

"WHAT A CRIME"

To Talk Against Coffee.

To an ambitious student an ailment that interferes with school and study is very hard to bear.

A bright young girl in Detroit who had been poisoned by coffee, is now pursuing her studies in perfect health. Probably the coffee champions feel she should have continued to suffer and kept on with the coffee, but now and then there are self-willed creatures who insist on getting well by leaving off coffee, deserting the "topers ranks" and joining the Postum army.

"From early childhood till a year ago I was in the habit of drinking three or four cups of coffee every day.

"As I grew older, the bad effects began to show themselves, although I had no idea that it was coffee that was doing the mischief. I became very nervous, and suffered so much from severe headaches that I lost much valuable time from my school and studies. The doctor could give me no relief—he probably did not suspect the coffee any more than I did.

"One day I went to visit a friend, and the coffee they had on their table tasted so good that I asked what kind it was, and they told me it was Postum Food Coffee. My friend said that her mother had been a nervous wreck from drinking the old kind of coffee, but had been restored to health by quitting it and drinking Postum. The whole family were enthusiastic about Postum and advised me to try it.

"I am glad they did; for it has given me back my health. At first we did not boil it enough and did not like it, but we soon learned how to make it, and now we all prefer it to the old kind. I have discovered that to stir a beaten egg in the warm milk we use instead of cream gives a most delicious flavor to Postum Food Coffee.

"From the first day I began to use Postum Coffee (I quit the old kind altogether) my health began to improve. My headaches ceased on the third day and have never returned, my nervousness has completely disappeared, my brain seems invigorated and strengthened, and I am now able to study from four to five hours daily, outside of school, and feel no bad effects from it.

"My aunt was sick for five years from coffee poisoning. It was hard work to get her to give up the beverage, but when she did and began to use Postum Food Coffee, she got well almost at once, and is now enjoying fine health." Name given by Postum Co., Battle Creek, Mich.

Ten days' trial proves. "There's a reason."

COUNTY TO STOP IT

Will Prosecute Persons Piling Wood In Highways or Ditches.

County Commissioners Claim Practice Is Ruining Many Roads.

The practice of settlers and others of piling wood, ties and poles on the county roads, or in the ditches alongside the road has assumed such proportions in certain localities, and to such detriment of the highways, that the board of county commissioners has taken cognizance of the fact and will put a stop to it.

At the last meeting of the board Commissioner Fred Kugler brought the matter up by asking if there was any way the board could stop people from piling wood and ties and other timber on the highways and in the ditches. He said that in some places the wood has been piled so as to block up the ditches causing the water that would under ordinary circumstances follow the course of the ditches to be diverted to the roadway. This has practically ruined portions of the road or put it in such condition that it will cost the county considerable money to put it in proper condition. He cited one instance in his district where the owner of some wood has piled it not only in the ditch, but even out on the roadway itself, making it difficult for teams to proceed without danger of overturning or damaging the vehicles. He declared that this is not only detrimental to the roads, but that the individual putting the wood there has been deliberately encroaching on the rights of everybody that uses the road.

Other commissioners followed Mr. Kugler with talks against the practice, and told of a number of instances where they had observed the same thing. One commissioner said he knew a wood dealer that got out several hundred cords of wood last winter, which he piled in the highway along the outer edge of the ditch. When the frost went out of the ground the dirt caved away under the weight, and the wood now blocks up the ditch completely, and the water runs over the road.

Assistant County Attorney, when asked for an opinion, reported to the board that he considered it a trespass and that the commissioners would be acting entirely within their rights in taking steps to prosecute every person found making a wood yard out of county roads. Mr. Crosby indicated the willingness of the county attorney's office to prosecute, if so directed, and a resolution was passed by a unanimous vote, to the effect that persons piling wood on the roads, or in ditches, be given reasonable notice to remove the same, and if this is not done, the county is to confiscate the wood or ties, as the case may be, and the county attorney is to prosecute the offender for trespass.

Commissioner Morcom stated that he had in mind certain portions of his district where he understood persons had been cutting up the roads by cross-hauling in a careless and negligent manner, and the other members indicated their willingness to pass a resolution calling for a prosecution in the matter. Commissioner Morcom asked that no action be taken until the next meeting, as he desired to make a personal investigation.

The board has directed the county surveyor to survey the Calvary road, in Commissioner Kugler's district to determine whether the road "follows the lines."

The commissioners have ordered a new road built beginning in section 3-56-18 and terminating in the Miller Trunk road. The land needed for the highway has been ordered condemned.

A numerously signed petition has been presented the county board for a new road beginning at the end of the Cannosia road and terminating in township 50-16. A committee has been appointed to go over the route and a hearing on the petition has been set for July 7, the date of the next meeting of the county board.

FOUND UNCONSCIOUS.

Former St. Paul School Teacher Dying of Starvation.

St. Paul, June 13.—While suffering in vain for something to eat, Florence Gleason, for many years teacher in the St. Paul public schools, was found unconscious at Robert and Eighth streets last night, suffering from the last stages of starvation. She was taken to the city hospital in the police patrol and it is feared that she cannot recover.

Miss Gleason is about 50 years old. During the last few years she has eked out an existence by sewing, having long ago lost her position as a teacher. It is said that she has lived a week on two or three crackers. She left her dingy quarters at 168 East Tenth street last night in search of something to eat and was discovered by a police officer in an unconscious condition.

THREE MEN KILLED IN SHOOTING AFFRAY.

Knoxville, Tenn., June 13.—Three men met instant death and a fourth was dangerously wounded in a desperate shooting affray yesterday in a blacksmith shop at Thorn Hill, four miles from Tate Springs, Tenn., and sixty miles northeast of this city.

The dead are John and William Holland, brothers, and Will Brunden, all white, and members of well known families. The wounded man is Clint Winkle, a negro, supposed to have been in the employ of Brunden. Enmity has existed between the Holland and Brunden families for years. It grew out of the killing of John C. Rozier, by Brue Brunden, father of the man killed yesterday, for which crime the elder Brunden is serving a life sentence in the penitentiary. The Hollands used Winchesters and Brunden and Winkle used pistols. The death of the Hollands wipes out the entire family, with the exception of the parents.

SWAMP LANDS FOR THE STATE.

St. Paul, June 13.—Patents to 54,661 acres of swamp lands in the Duluth and Cass Lake land districts were received yesterday by State Auditor S. G. Iverson from the general land office at Washington. The lands were selected by the state auditor several months ago under the swamp land grant of 1860. One allotment, 48,458.81 acres, is located in Itasca county and the other, 6,207.50, in Lake county. The lands were surveyed about fifteen years ago.

Lemon Snaps

SUPERFLUOUS EMPLOYES ARE TO BE DISMISSED.

Philadelphia, June 13.—The principal developments in the local political situation yesterday was the resignation of Samuel Salter as assistant to the chief clerk in the office of the county commissioners and the issuing of an order for the dismissal on Wednesday of sixty-five employes in the bureau of city property, and fourteen in the electrical bureau. Probably the most interesting development was the resignation of Salter, who, some years ago, after being a fugitive from justice for about a year, returned to this city and was acquitted of the charge of stuffing a ballot box. In his resignation, which came as a surprise to the citizens of the city, Salter stated that he intended to go into business.

INDICTMENT IN LAND CASE PROVES DEFECTIVE.

St. Paul, June 13.—Counsel for William T. Horsnell of St. Paul and R. B. Stearns of Pierre S. D., charged in the United States district court with conspiracy to defraud the federal government out of about 18,000 acres of land in South Dakota, yesterday, surprised the prosecution by objecting to the indictment. The jury had been selected, and District Attorney Haupts' opening statement had been made and the first witness was on the stand, when Attorney Butler, for the defense, made his objection.

He contended that the indictment failed to state facts, sufficient to constitute a public offense; that it failed to point out any means or methods or either to form the substance of a conspiracy; that it failed to describe the property which the defendants were alleged to have conspired to defraud the government out of, and that it was so indefinite as to not sufficiently advise the defense of the offense charged against the defendants. The court excused the jury and heard arguments and yesterday sustained the contention of the defense. The action was dismissed. Horsnell and Stearns were immediately re-arrested and gave bonds in the sum of $1,000 for their appearance at the September term of court.

LITTLE BUSINESS TALKS.

Cultivating business is in some respects very much like cultivating flowers. You cannot make a success of flower gardening if you water your plants at the beginning of the season and then let them go dry all summer. You cannot make a success of business getting if your advertising ventures are so few and far between as to lose their cumulative effect.

Unless you keep everlastingly at it the public will have forgotten by the first of July that you existed on the first of June. When Tom or Dick or Harry discovers that he must make a purchase he goes to the merchant whose advertisement is in the paper every day rather than to him who last manifested signs of life a month ago.

$21.35 Asbury Park and Return Via Erie Railroad.

June 29, 30, July 1 and 2, limited to Aug. 31; good to stop at New York, Cambridge Springs, Chautauqua and Niagara Falls. Tickets on sale also to all tourist points—Chautauqua Lake, Niagara Falls, etc., good until Oct. 31. Full particulars 555 Railway Exchange, Chicago.

Considerations Pertaining to the Health of Children.

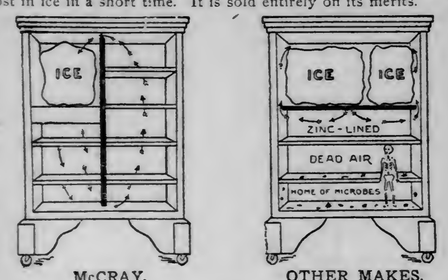
Do you honestly believe your zinc lined Refrigerators to be a safe place to keep the milk you feed the precious baby? Read what Cyrus Edson, M. D., Sanitary Superintendent of the New York Board of Health, says on the subject:

Hygienic Value of the McCray Refrigerators.

The pre-eminent hygienic value of the McCray Refrigerator places it above all others. In addition it offers every real merit of other refrigerators and many that belong to it alone. It offers one-third to one-half more cooling space than any other. The insulation is absolutely the best; the inside never sweats and is always (even in the ice chamber) perfectly dry and odorless.

Hundreds of physicians and health institutions, after long trial, have given our system highest praise. The Battle Creek Sanitarium of Battle Creek, Mich., a large institution known the world over as very strict as to hygienic principles and rules, writes us as follows: "We have had in use for some time two of your cooling rooms, and they have given the best satisfaction. We would not know how to suggest any improvements that would make the cooling rooms any more suitable to us. Your refrigerators have proven to be economical in saving ice, thoroughly sanitary, and in many ways are superior to ordinary cooling room."

The McCray Refrigerator **will last a life-time** and will save its cost in ice in a short time. It is sold entirely on its merits.



McCRAY. OTHER MAKES.

You can buy these on time. Odorless wood fibre and opal glass lined. A good refrigerator will last a lifetime. A McCray will save its cost in ice over other makes. A good refrigerator should be more important to you than your piano. The McCray is the best. Your credit is good.

KELLEY HDW. CO.

PERSONALS

Charles, Jr., the young son of Mr. and Mrs. Charles F. West of Lakeside is in St. Luke's hospital, having undergone an operation for appendicitis.

G. Welshhous, the lumberman of Stillwater, is here today on a business visit.

E. J. Boyle of Rush City is visiting in Duluth today.

C. A. Smith of Wausau is in the city today, registered at the Spalding.

W. M. Holbrook of Devils Lake, N. D., is here on business.

Rev. A. W. Ryan, rector of St. Paul's Episcopal church, has gone to Marquette, Mich., to attend an Episcopal convocation there.

Miss M. Innes, the new postmistress at Isle Royale, is visiting in Duluth today. She is a sister of Mrs. W. H. Singer.

H. E. Still of St. Paul, assistant general freight agent of the Northern Pacific Railway company, was in the city today.

Supt. E. C. Blanchard of the Northern Pacific company, T. E. Blanche, general agent for the same company, and John Panton, have returned from a fishing trip to Clear lake, near Dearwood. They were quite successful, catching sixty-four wall-eyed pike and black bass.

Capt. George C. Thorpe of the marine corps, was in town for a few hours this morning.

Mrs. Clara J. Gibbs, sister of Alonzo J. Whiteman, was in the city today consulting her attorneys in connection with a suit against here in United States court. She left this afternoon for St. Paul.

CITY BRIEFS

Embossing. North-Land Printery. Independent ferry to Superior, 5c.

Dr. H. C. Leonard will have enurge of Dr. South's practice during the latter's absence from the city. Calls will be answered from the office, 412 Providence building, day and night. Both phones.

Judge Homer B. Dibell of the district court filed an order this morning by which Martin M. LaValle wins in his contest against Frank Higgins. The plaintiff brought action to establish his claim of an undivided one-third interest in 120 acres of land in township 55-19.

William B. Phelps, in an application filed in the district court this morning, asks to be decreed by the court as absolute owner in fee simple of lots 176 and 178, Minnesota avenue, Lower Duluth. The plaintiff alleges that Charles d'Autremont, who is named as defendant in the action, claims some interest in the property.

Screen windows, screen doors and window screen add much to one's comfort these days. Give us a call. Northern Hardware company.

The work of laying the creosote blocks on First street was commenced this morning. The blocks which are being laid have passed the examination of the city inspector who is kept at the plant for the purpose of guarding the city's interests.

Mrs. Wright C. Dunning will arrive in the city tomorrow afternoon at 6:25 o'clock with the body of her son, Willar Morrison Dunning, aged 7 years and 5 months, who died May 31 in Portland of ptomaine poisoning. Mr. and Mrs. Dunning formerly lived in Duluth, and they are well known here. Mrs. C. H. Smith, a friend of Mrs. Dunning's who went from Duluth to Portland, shortly after the boy died, will return with her tomorrow.

City Engineer Thomas F. McGilvray received word yesterday that he had been transferred from an associate to an active membership in the American Society of Civil Engineers, which class includes 1,819 of the leading engineers of the country. There are six other active members in Duluth, C. L. Potter, Clarence Coleman, G. H. Darling, F. E. House, D. A. Reed and H. L. Wadsworth. The associate member is F. A. Cokefair.

David Anderson, a native of Sweden, was granted his final naturalization papers at the office of the clerk of the district court this morning.

The $10,000,000 mortgage which the Great Northern Power company placed on its property was recorded yesterday, when the instrument made in favor of the Knickerbocker Trust company of New York was filed in the office of the register of deeds. It is stated that $4,000,000 is to be spent in completing the power system, the remaining $6,000,000 to be held in reserve for extensions and emergencies.

Tomorrow is the last day to see Tsuneo Takahashi of Tokio, Japan, the greatest needle artist in the world. Second floor Silberstein & Bondy company.

Dancing at Oatka beach Wednesday evening. New double-truck car service.

GRAND BALL!

Given by the American Beauty Society at Oatka Beach, Thursday evening, June 15, 1905. LaBrosse Full Orchestra. Tickets for sale at Lundberg & Stone.

WISCONSIN IS AFTER TAXES

Test Suit Is Brought Against Chicago & Northwestern.

Madison, Wis., June 13.—The first test case against railroad companies, for alleged back taxes on gross earnings that have not been reported began in the circuit court before Judge Stevens today. As a result of this proceeding against the railroads, Governor La Follette hopes to collect $50,000 in back taxes penalties. The penalty prescribed is $10,000 against each road that has failed to report gross earnings as required by the state law. The first case is brought against the Chicago & Northwestern company. Attorney General Sturdevant, assisted by H. W. Chyroweth of Madison, represents the state, and Lloyd W. Bowers, the railroad company. This was one of the issues of the campaign made by Governor La Follette last fall and State Railroad Commissioner Thomas reported that the investigation in the last six years, the total amount withheld from reports is $513,499. At the opening of trial today, it was argued that as the Northwestern road did business in eight states, a federal question was involved that would require settlement in federal courts.

ANOTHER ROTHSCHILD DEAD.

Vienna, June 13.—Baron Nathaniel de Rothschild, brother of the head of the Austrian branch of the firm, died today. He had been seriously ill for a long time.

Hotel Tremont

Duluth's Modern and Up-to-Date Hotel Under New Management.

MRS. L. O'LEARY, Manageress.

LOSES HIS LEG

While Drunk, But Sues Road for Twenty Thousand.

Lay On Track Helpless, But Says Road Was Negligent.

A unique suit was filed in United States circuit court today. It is that of one Frank Dusseault against the Northern Pacific Railroad company, asking $20,000 damages for the loss of a leg. Dusseault claims that on April 29, 1905, he was run over by one of the company's trains and one of his legs was so mangled that it had to be amputated below the knee.

The curious part of the complaint is that the plaintiff admits that he "lay upon and across the tracks of the defendant's railroad a short distance east from Blueberry station, said track being there built on a fill or embankment, under the influence of liquor and in a helpless state."

Dusseault claims that there is a straight piece of track for at least half a mile each way from the place where he was lying at the time and that an engineer in the cab of an approaching locomotive had ample chance to see that somebody was on the track and had plenty of time in which to stop his train and prevent an accident. He claims the accident to be due, therefore, on the part of the defendant company, to gross negligence seeing that it could have been avoided by a little more carefulness on the part of the defendant's employes.

Dusseault is a subject of the king of Great Britain and is 23 years old and claims that he was earning about $50 a month before the accident. Under the circumstances he considers the leg and his loss of time worth $20,000.

HAS SETTLED 400 Strikes

With Different Labor Officials By the Use of Money.

Chicago, June 13.—John C. Driscoll, former secretary of the associated teaming interests of Chicago, announced today that he would go before the grand jury and give testimony supported by documentary evidence to show that in two years while holding the office of secretary of the associated teaming interests he settled more than 400 strikes by the use of money with labor officials. These strikes, Mr. Driscoll asserts, affect almost every branch of industry in Chicago. He takes the position that he acted merely in the capacity of an expert who was in a position to bring about the result that the employers who were involved in labor troubles, sought: namely, a peaceable adjustment.

VETERANS IN TRAIN WRECK

Special Carrying Confederates to Reunion Goes Through Bridge.

Princeton, Ind., June 13.—A special train consisting of a baggage car, a smoker, and four chair cars on the Southern railway, carrying Confederate veterans to the reunion at Louisville, plunged through a bridge over the Little Wabash river today at Golden Gate, Ill., thirty-seven miles west of here. William Gratz, the engineer, is dead, and J. D. Johnson, the fireman, is missing. He is believed to be under the engine. It is reported that seven passengers were killed, but this has not been verified. A special relief train carrying surgeons has gone to the scene. The injured will be brought here. As the train started over the bridge, the timbers sank and the engine plunged into the water, followed by the coaches.

St. Louis, June 13.—The local office of the Southern Railway has received the following report of the wreck near Golden Gate, Ill.:

One person has been killed and five injured in a wreck of a special train, one-half mile east of Golden Gate, Ill.

The dead: J. D. JOHNSON, fireman.

Injured: Wm. Creaty, engineer; Henry Lancaster, Leander Thompson, Paragould, Ark.; W. C. Peeler, Cotton Belt railway; A. B. Hayes, Paragould, Ark.

The train which consisted of a baggage car, smoker, four chair cars and two Pulman sleepers, was carrying Confederate veterans to the reunion at Louisville.

Shortly after passing Golden Gate the engine left the track, turning over and burying the fireman beneath the wreckage.

The cars immediately following the engine overturned, just before reaching a trestle, but the heavier sleepers maintained their balance and passed over the trestle.

GERMAN CONCESSION

On Shantung Peninsula to Be Strongly Fortified.

Berlin, June 13.—An imperial order to fortify Kiaochou bay, the German concession in the southern part of the Shantung peninsula, has been issued. The work will be done under the supervision of the governor of the protectorate, Rear Admiral Truppel, and five engineers and fortification officers detailed for this purpose. They are Capt. Dolman and Lieutenants Hintz, Mislehener, Stefen and Leris. The extent of the fortifications and amount to be spent on them are facts which have not been disclosed, but it is probable that the work now contemplated is only the beginning of an extensive plan.

APPEAL ALLOWED.

Gaynor and Greene Secure Another Long Delay.

Montreal, June 13.—Judge Hall today granted the petition of counsel for Gaynor and Greene to be allowed to appeal to the supreme court against the decision of Justice Davidson that Judge La Fontaine had the right to act as extradition commissioner. This action undoubtedly will cause a delay of six months.

IS ELECTED G. P.

R. E. MacFarlane Chosen Grand Patriarch of Odd Fellows.

First Session of Grand Lodge To Be Held Wednesday.

St. Paul, June 13.—(Special to The Herald.)—Over 100 Odd Fellows, members of the grand encampment, gathered in the hall of representatives at the old capitol today, for their annual session.

This meeting was preliminary to the meeting of the grand lodge to begin at the old capitol tomorrow. August Hohenstein of St. Paul, grand patriarch, presided until the new grand patriarch was elected to succeed him. The grand patriarch appointed the various committees and the reports of officers were referred to these committees.

Late in the morning session the annual election of officers occurred, the following chosen by the order for the coming year:

R. E. MacFarlane, Duluth, grand patriarch; R. A. Dorns of Minneapolis, grand senior warden; D. S. Whittemore

R. E. McFARLANE,
Elected Grand Patriarch of Grand Encampment of Odd Fellows.

of Detroit, high priest; C. R. Wilkinson of St. Paul, re-elected grand scribe; W. W. Churchhill, Rochester, re-elected grand treasurer; Charles A. Lammars of Stillwater, grand junior warden.

August Hohenstein of St. Paul, grand patriarch during the past year, was elected the grand representative of the sovereign grand lodge, which is the highest branch of the order, being composed of the representatives of all the grand encampments in the United States.

This afternoon the new grand patriarch, R. E. MacFarlane, together with his fellow officers, were installed. The reports of the committees appointed in the morning were read and considered. Tomorrow at 9 a. m. the grand lodge will have its first session in the hall of representatives of the old capitol.

The Rebekkah assembly will meet tomorrow morning in the lodge of the Minnehaha hall, 160 West Ninth street.

Marvelous Millinery Sale.

2,500 street hats—all sorts of straws and all sorts of trimmings—bought from a leading wholesale milliner for 45c on the dollar, will be offered at less than the cost of the straw at the Glass Block store, beginning Thursday.

PANTON & WHITE CO.

STATESMAN IS ROBBED

Premier Delyannis of Greece Wounded By Gambler.

Athens, Greece, June 13.—Premier Delyannis was stabbed in the stomach and seriously wounded at 4 o'clock this afternoon by a gambler, named Gherakaris. The premier was ascending the main stairway of the chamber of deputies, when his assailant rushed out of a place of concealment and inflicted a fearful wound on the Greek statesman. Gherakaris was arrested.

EXHIBITS CARS.

New Park Point Cars Run About Town.

The Interstate Traction company has unloaded its two new double-truck cars for the Park Point service, and this afternoon sent one of the cars, the Oatka, for an exhibition run over the system of the Duluth Street Railway company, accompanied by La Brosse's Military band. The new cars are handsome affairs, and were much admired. They are each 41 feet over all, equipped with two motors, air and hand brakes, and have a seating capacity for forty persons. There are four double rattan covered seats with side seats at either end. The body of the car is wine colored. The interior is finished in oak with bird's-eye maple ceiling.

The cars will be taken across the canal on the aerial bride tonight, and will be put in service beginning tomorrow afternoon or evening.

Sales Preparatory To Moving Still Continue

Summer Wearables of White—

DRESSES, SKIRTS, WAISTS.

The very large business we have done and are doing daily on these goods, show conclusively that our values, as well as our displays, are unequaled hereabouts!

From the tub dress at $3.75 to right down the list of Linens, Chiffon, Lawns, Net, Mull, Point de Sprit, either in the plain tailored effects or in the magnificently embroidered effects at $65.00, no such assortments are to be had.

In the Separate Skirts of White We Are Equally Strong!

Linens, French Rep and Pique of the highest qualities—beautifully tailored and perfect fitting! And while we show no flashy sorts, you can get the finest grades at the "flashy" sort prices. Those in Linen and French Rep at $4.50 are particularly worthy of note.

The Most Magnificent Display of White Wearables

Is undoubtedly shown by our firm. If you don't believe this assertion, see them! Tailored Serge or French Lingerie kinds in an almost endless variety of styles, at $1.00, $1.25, $1.50, $2.00 and up to $25.00.

J. M. GIDDING & CO.,

Superior Street and First Ave. W.

AGAINST MITCHELL

Goes the First Decision In Land Cases.

Portland, Or., June 13.—The first skirmish before Federal Judge De Haven, in the trial of United States Senator John H. Mitchell, charged with using his public office for private gain, went against the distinguished defendant today when Judge De Haven gave his decision on the arguments presented yesterday to the demurrer of the defendant's counsel to the indictment. The demurrer was overruled. Next Tuesday was set as the day for the trial of Senator Mitchell.

WISCONSIN ELKS MEET.

Madison, Wis., June 13.—The annual state convention of Elks opened today for a two-days' session. Two thousand visitors are expected, and the town is brilliantly illuminated and decorated. Tomorrow Governor La Follette, who is a member of the order, will address the convention.

ADVERTISING AGENT.

L. F. Shattuck had published a paper in the Buckeye State, and through that means it had come about that he had at one time been of service to an Ohio politician, Salmon P. Chase by name, says Printer's Ink.

At the beginning of the Civil war, in 1861, the government was unprepared and found itself sadly in need of money. Interest was paid at a rate as high as 7 3-10 per cent per annum. Finally, when bonds were put on the market by the hundred millions, an enterprising young banker, once from Ohio but then of Philadelphia—Jay Cook & Co. was the firm name—came prominently to the front as a government agent for placing the securities.

The bonds had to be advertised. Mr. Chase, secretary of the treasruy, sent for Mr. Cooke and said to him that Mr. Shattuck was his friend and that he, Chase, particularly desired that such advertising as had to be done should be sent out through Mr. Shattuck's agency in New York.

Prices did not cut much of a figure in placing it. Mr. Cooke said to Mr. Shattuck: "If a publisher has enterprise enough to ask for the advertisement, give it to him." As the question of a high or a low price did not enter very much into the calculation, so long as the figures on the rate card were not exceeded, there was little real difficulty about any papers eventually securing the order, Shattuck getting his commission, and the public being favored with a sight of the announcement.

It was a big order, it was relied upon to produce quick results, it did all that was expected of it, repeat orders came quickly and often, and when the war was ended everybody was satisfied—more than satisfied with Mr. Chase, Mr. Cooke and Mr. Shattuck; and so great had grown Mr. Shattuck's reputation that a little later he had in hand the enormous contract of placing the securities of the Union Pacific Railroad. The results of these two orders were that he came in possession of a million or two of savings, bought a place at Lenox, lived the life of a country gentleman, sought and obtained entrance for himself and family into the exclusive society of New York that maintains connections with the Berkshires and Newport.

The good man died many years ago, the most successful of all the advertising agents that have had an existence in America; and the one who more than any other escaped unkindly criticism.

GOOD EYESIGHT.

The best eyesight is possessed by those people whose lands are vast and barren, and where obstacles tending to shorten the sight are few, says the Kansas City Journal. Esquimaux will detect a white fox in the snow at a great distance away, while the Arabs of the desert of Africa have such extreme powers of vision that on the vast plains of the desert they will pick out objects invisible to the ordinary eye at ranges from one to ten miles distant. Among civilized people the Norwegians have better eyesight than most if not all others, as they more generally fulfill the necessary conditions.

NEW SIGNAL DEVICE.

A Canadian invention for signaling with electric lights was put to a practical test this week at Montreal, in the presence of experts from the leading railway companies, reports United States Consul Worman, Three Rivers, Canada.

The apparatus was fitted up to represent five stations of a railway line, each station having a switchboard with two lamps, a bell, and four switches. The two outer switches are for turning on the lights when a signal is to be given along the line, either to the left or right of the signaling station, or in both directions. One of the inner switches is for turning on the current when the officials of the station are leaving for the night, so that there can be no interruption of signals between the other stations.

In case the night switch is not put on, the next calling station is advised by telegraph of the departure or arrival of a train in the usual way, and accidents can be thus prevented. As the signal lights can not be turned on beyond the negligent night station, which is intermediate, the calling station will be able to turn on the signals from this point "backward" to the night station, and thus insure the continuity of signals from one station to the other.

The signals are supposed to be placed on every other telegraph post on the line, each being fitted with a plug, so that if, after leaving a station, there is a breakdown, the engineer need only insert the plug in the slot and he advises both stations of the mishap, and then, by the use of a code, he tells what the mishap is and what he requires.

If there is any train on the line which is not "on time," all other trains, by a regular succession of signals, can be warned of it. Power can be obtained from any point for use on the system, and short-circuiting is prevented by the use of three wires. The cost of installation is computed to be about $300 per mile.

THE HORSE'S JOKE.

In the long line of cabs that draw up in the center of Broad street just before the closing of the market each day is an old-fashioned one with a sleepy bay horse attached, says the New York Sun. The cabs are stationed far enough apart to allow persons to pass between them. This sleepy old bay has learned to amuse himself during his wait in the line. He spots everybody who starts to pass in front of him, and just as the victim gets squarely behind the vehicle ahead, the bay makes a quick lunge forward with his head and opens his mouth. Invariably the passerby jumps out almost of his boots, and then, picking up his hat and anything else he has dropped, swears at the driver. That individual is fat and jolly and appears to enjoy the joke as much as the horse does, which must be a good deal, for every time he does his stunt successfully the old bay turns his head around and looks wisely at his owner.

LIGHTNING THUS CAUSED.

The sudden downpour of rain which usually follows a bright flash of lightning has generally been supposed to be the result of the discharge of the electricity, says the Kansas City Journal. The most advanced weather students now put forward the statement that the contrary is the case; in other words, that the sudden increased precipitation causes the lightning flash, instead of the lightning flash causing the sudden increase in rainfall.

STRENGTH IN WHEAT

Market Is Dull But Prices Show Some Advance.

Nebraska Sending In Reports of Hessian Fly Damage.

Duluth Board of Trade, June 13.—Wheat was very dull this morning and in most markets somewhat firmer, especially for the fall option. Reports of damage to the Nebraska crop continue, hessian fly being the complaint. One section was reported today as estimating from 20 to 40 per cent damage. On the other hand the weather in the far Southwest is reported to be just what is wanted for harvesting. The cash demand is slow, prices are receding slightly. Foreign markets will be open again tomorrow.

The Duluth July declined ⅝c, Minneapolis was a shade higher, Chicago ¼c higher, New York ⅝c higher, St. Louis ⅜-½c higher and Kansas City a shade higher. The September option advanced ½c in Duluth, ⅝c in Minneapolis, ¼c in New York, ½-⅝c in Chicago, ⅜-¾c in Kansas City and St. Louis a shade higher.

Car receipts at Duluth were 19, against 78 last year and at Minneapolis 177, against 134 last year, making a total for the Northwest of 196, against 212 last year. Chicago received 6, against 34 last ear.

Primary receipts of wheat were 278,000 bus., last year 336,000 bus. Shipments 156,000 bus., last year 177,000 bus. Clearances of wheat and flour aggregated 10,000 bus.

Bradstreet reported a decrease of 3,061,000 bushels in the world's visible supply of wheat, of which 2,561,000 bushels was east of the Rockies and 500,000 in Europe and afloat.

In the Chicago market July corn closed ½c higher. July oats closed ½c lower. Primary receipts of corn were 600,00 bushels, last year, 816,000 bushels. Shipments, 272,000 bushels, last year, 541,000 bushels. Clearances were 460,00 bushels. The world's visible supply of corn last week decreased 763,000 bushels.

The Duluth market was a very dead proposition. In wheat options there were but two recorded trades during the morning. Both of these were in the July option, which opened unchanged at $1.11 and fell to $1.01⅜, closing there, a loss of ⅝c. The September options closed ½c for both old and new, the former at 86½c and the latter at 81½c.

Durum wheat advanced 1c.

Flax was as dead as wheat. July and September both closed ½c lower, and during the morning the latter was up ½c at one time. The October option opened unchanged at $1.27 and fell to $1.26, closing there a loss of 1c.

Oats declined ⅛c.

Following are the closing prices:

Wheat to arrive—No. 1 northern, $1.16⅝. On track—No. 1 northern, $1.16⅝; No. 2 nohthern, $1.02⅝. Durum No. 1, 86c; No. 2, 85c; July, $1.10⅝; Sept. new, 87½c; Sept. old, 86½c. Flax to arrive, $1.47; on track, $1.50; July, $1.47; Sept., $1.29; Oct., $1.26½. Oats to arrive, 30⅝c; on track, 30⅞c. Rye on track, 78c; Sept., 60c. Barley—Feed, 39½@41c.

Cars inspected: Wheat 19, last car 28; oats 12, barley 5, flax 4, last year 17.

Receipts: Wheat, 39; oats, 6,201; barley, 4,690; flax, 3,974.

Shipments: Barley, 31,098.

THE CHICAGO MARKET.

Reported Crop Damages Gives Wheat Firm Undertone.

Chicago, June 13.—Reports from Nebraska of damage by Hessian fly counteracted the effect of excellent weather conditions, causing a firm undertone in wheat here today. The volume of trading was rather small. July opened ½@⅝c to ⅝@¾c lower at 86¾c to 86⅝c. After advancing to 87⅜@87c, the price settled back to 86¾@87⅛c. Minneapolis, Duluth and Chicago reported receipts of 202 cars, against 200 cars last week and 246 cars a year ago.

Offerings were comparatively light the entire session, and the market maintained a firm undertone. Strength of the Minneapolis market had a bullish effect on the market. For July the highest point was reached at 87¼c. At the close July was up ¼c at 86⅞@87c.

Liberal purchases by several prominent commission houses created a strong tone in the corn market. At the start the market was a trifle easier as a result of larger receipts than estimated. July opened unchanged to ¼c lower at 51⅞c to 52¼c and advanced to 52½@52⅝c. Local receipts were 508 cars, with 109 of contract grade.

The market continued firm throughout the remainder of the day, reports of the slow growth of the new crop being a sustaining influence. After advancing to 52⅞, July closed at 52⅝c, a gain of ½c.

Influenced by excellent weather conditions, the oats market was inclined to bearishness. July opened a shade to ⅛@¼c lower at 30¾@⅞c to 30⅞@31c and for a time held within the opening range. Local receipts were 281 cars.

Provisions were steady, heavy shipments of meats and lard being a bullish influence. Trading was very quiet. September pork was unchanged at $12.92½. Lard was up a shade at $7.47½. Ribs were unchanged at $7.67½.

Close: Wheat—July, 86@87c; September, 82⅞@83c; December, 82⅝@84c. Corn—July, 52⅝c; old, 53¼c; September, 51¼c; old, 51¾c; December, 48¼c; old, 49¼c; May, 48½c. Oats—July, 30⅝c; old, 30⅝c; September, 29¼c; December, 29⅝c; May, 31¼c. Pork—July, $12.52½@12.55; September, $12.85@12.87½. Lard—July, $7.22½; September, $7.42½@7.45; October, $7.45. Ribs—July, $7.37½; September, $7.65; October, $7.70. Rye—July, 66; September, 61. Flax—Cash northwestern, $1.43; southwest, $1.25. Timothy—June, $2.90; September, $3.10. Clover—June, $11.75@12.00. Barley—Cash, 42@50c. Cash wheat—No. 2 red, $1; 3 red 95@99c; 2 hard, 90@97c; 1 northern, $1.11½@1.12½; 2 northern, $1.08@1.11; 3 spring, 98c@$1.05. Corn—No. 2, 54½@55c; 3, 54@½c. Oats—No. 2, 30¾@½c; 3, 30@¼c.

GRAIN GOSSIP.

Logan & Bryan, Chicago: Wheat—The favorable weather map invited some selling at the opening on which the low point of the session was made. It was very evident, however, that the trade is inclined to place some credence in damage reports coming in from most every section of the winter wheat belt. For some days July wheat has closed above 86 cents and to our mind this persistent strength foreshadows a movement one way or the other. There seems to be a disposition to buy wheat on moderate set-backs. This is true in September which was by far the strongest in today's market. The absence of rain in the Southwest gives the market a bearish aspect, but reports from the yield are quite bullish. We feel we would buy September on setbacks.

Corn—This market was strong from the start. No very great advance was made and the market at no time gave any indication of being at all weak. The situation seems unchanged. Trade is not broad. We are not out of sympathy with the bear side at the prices.

Oats—Cash people seem to be the best buyers. Trade is almost wholly local. Continuation of good weather, we feel, would take the gimp out of the bulls.

Provisions—Trade seemed inclined to take profits and yesterday's gain wiped out by the day's transactions. The market seems to have gotten back into its old rut, up one day and down the next. However, we feel there is merit in the situation and would buy the stuff on setbacks.

• • •

Chicago: C. E. Lewis, traveling with the Spencer party wires: "Crop of wheat in Ohio and Indiana the heaviest I ever saw, believe it will thresh out 20 bushels per acre all over the state. Illinois not so good. Corn looks two weeks late, compared with last year."

• • •

Chicago Record-Herald: "Kansas millers are writing that they will be looking for offers on new wheat flour for export within the next week or two," said President Peterson of the Chicago Flour Exchange. "Until now there has been no flour of consequence sold, as the Kansas millers were badly caught in the wet and late harvest and lost a great deal of money last year. There are scattered lots of new wheat flour in the hands of small millers in Nebraska and Iowa and miscellaneous country millers in Minnesota that are being urgently offered nowadays. The owners are willing to make sacrifices, and it is probable that many of them fear that the flour will not stand the hot weather. There is a little better demand in sight."

• • •

Kansas City: Following from Moses Bros., Great Bend, Kan.: "The weather is still, very dry and hot. We expect harvest to begin here this week. There will be a gain deal of shrunken wheat which will still further reduce the yield. We find in examing the fields that quite a percenage of them are affected with the straw worm, a worm that kills the straw, consequently shrivels the grain, so we expect to see a good deal of wheat that is nothing but bran. The very early wheat will be fairly plump, with the exceptions of the wheat where the worm has worked. The late wheat however, we believe will be very light and thin, and unfit for milling. We are of the opinion that the central and western portions of Kansas have been over estimated, and will have to be reduced very materially when the actual amount raised in Kansas is shown."

• • •

Chicago Inter Ocean: In figuring the government crop by states B. Frank Howard of the Daily Trade Bulletin makes the winter wheat crop 436,000,000 bus or 110,000,000 bus more than harvested last year. Spring wheat is 277,000,000 bus and all wheat 713,000,000 bus, against 552,000,000 bus last year.

• • •

Broomhall, Liverpool: The following is a condensation of foreign crop conditions:

United Kingdom and France—Further beneficial rains have fallen, prospects now good.

Germany—Some rains have fallen, more wanted.

Hungary—Prospects generally satisfactory for the crops.

Roumania—Frequent storms have caused some lodging of grain, otherwise crop conditions are favorable.

Russia—The situation is still uncertain; fair rains have fallen but complaints continue, some claiming rains too late.

Italy—Outlook now favorable.

Spain—Prospects fair except in Southern provinces.

If a merchant fails to make it worth your while to read his advertisement he wastes his space. Space costs money; and very little of it is wasted. Therefore—it is usually "worth your while" to read any store-advertisement.

DECLINE IN STOCKS

Market Dragged All Through the Session, Closing Lower.

Amalgamated Sold Off Easily, Seeming to Lead Market.

New York, June 13.—The London stock market in resuming operations after a three days' holiday failed to sustain the prices for Americans which had been established here in the interval. The discouraging effect was shown in the drooping tendency of opening prices. Union Pacific, St. Paul, Canadian Pacific, Missouri Pacific and United States Steel preferred were down large fractions and Metropolitan Street railway a point.

Early support was not maintained and after the opening losses had been largely recovered the market was allowed to sink back again to the low point. Later on the market picked up slightly again in sympathy with a brisk demand for Atchison.

Desultory offerings carried prices slowly downward causing losses of a point or more in a dozen prominent stocks, Union Pacific, Southern Pacific, St. Paul, Canadian Pacific, L. & N., Atlantic Coast Line, New York Central, Ohio & Western, Reading, United States Steel preferred, Copper, Pressed Steel Car and the Pittsburg Coal stocks lost 1 to 1¾. Northwestern, Corn Products preferred and Steel Foundries preferred 1½ and Nashville, Chattanooga & St. Louis 2. Gains were made by a few dormant stocks. Bonds were irregular at noon.

Bear operators continued to have matters their own way and made a more vigorous attack against the market after mid-day. Hardly any of the better known stocks escaped loss of a point, and the declines reached about 2 in St. Paul, Canadian Pacific, Louisville & Nashville and Copper.

Constantly lower prices were established with the course of the day. The selling converged at intervals on St. Paul, Union Pacific, Reading, United States Steel preferred and Copper. New York Central got 1¾ and United States Steel preferred ⅞ under last night. Very little support was extended at any time. Northwestern yielded 3½, while Pullman jumped 7. Prices were slightly above the lowest at 2 o'clock.

Some stocks touched the lowest of the day after 2 o'clock. Union Pacific fell 1¾ and Smelting 2 below last night. The principal selling seemed to be concluded and the market steadied and became semi-stagnant. Prices drifted off again and the closing was easy and intensely dull.

Quotations furnished by Edwards-Wood Co., room A, Torrey building.

STOCK GOSSIP.

Logan & Bryan to Paine, Webber & Co.: Market closed soft and lower all around. The market dragged all through the session and, aside from disturbing predictions sent out from Boston, nothing developed during the day in the way of news to affect the market either way. Crop damage reports naturally have a disturbing effect in stock market circles, as does also the persistent strength of the grain markets. Stocks have had a reasonable recovery and a little easing, considering the narrow market, is not at all unusual. It is still a trading affair, and on declines we feel that stocks can be bought for mederate turns.

• • •

Boston to Baker: Thomas W. Lawson says: "My advertisements running in Europe today now predict unqualifiedly Steel preferred 40. Copper 30. Certain interests are liquidating both, under the pretense of my short selling, press agents daily publishing that I am short an enormous amount. If I have been short on balance any day in the last thirty, a total of one thousand shares aggregate in Boston and New York, directly or indirectly, will pay the one proving it a million dollars and never write another word on finance. Watch for my statement on insurance and copper."

• • •

Dick Bros. to Paine, Webber & Co.: The market has been heavy today, declining slowly on small transactions. Most of the selling was professional, and much of it was attributed to Boston interests. Another Lawson telegram helped to influence sentiment and crop reports were not altogether satisfactory. The market received no good support and declined easily under light selling, although there were no indications of important selling. At the close the list was heavy, not not weak.

• • •

Gates to Baker: Some stress is being laid upon the fact that some firmness is appearing in the market for the time money, but this is usual in the latter part of June preparations are being made to meet the July requirements for interests and dividends, and the action of the treasury in extending the time for payments of public deposits under the second call will prove of material assistance to the banks at a time when funds are likely to be in active demand.

• • •

Walker Bros. to Paine, Webber & Co.: The market today was very nervous, and after the opening was inclined to sell off. London prices were lower and this caused traders to sell. Amalgamated sold off easily, and this seemed to lead the market. Before the close there was some covering of shorts, and this put prices up from the lowest. We look for an uneven market until some decided news comes out in regard to peace.

NEW YORK MONEY.

New York, June 13.—Money on call, easy, 2@2½ per cent; closing bid 2, offered at 2¼. Time money; easy; sixty days, 3 per cent; ninety days, 3¼; six months 3½. Prime mercantile paper, 3½@4 per cent. Sterling exchange, steady, with actual business in bankers' bills, at $4.87@4.87.05 for demand and at $4.85@4.85.10 for sixty days; posted rates, $4.86 and $4.88; commercial bills, $4.84¾@7⅞. Bar silver, 58¼c. Mexican dollars, 45½c. Government bonds, firm; railroad bonds, heavy.

THE COPPER STOCKS.

COPPER GOSSIP.

Boston to Paine, Webber & Co.: London prices were off about half a point this morning, and New York opened up in sympathy. The market continued soft and dull throughout the day. Lawson was out with a tissue saying that Steel preferred would sell at 40. Amalgamated at 30. Some fear of a bad report Thursday from State Supt. Hendricks on Equitable affairs probably caused some selling. Coppers were inclined to drag a little. No real reason has been given for the recent decline in Greene, but several are floating around in regard to its dividend being reduced.

• • •

Brox to Paine, Webber & Co.: Gossip on Greene is that dividend is to be reduced. Instead of paying 40c bi-monthly, rumor is that it will pay 50c quarterly. This is all we can learn.

• • •

Dow-Jones to Paine, Webber & Co.: Regarding the selling of Greene Copper, Col. W. C. Greene says it is pure manipulation and nothing else. A large part of the selling can be traced to a certain large corporation that is evidently trying to depress the stock for purposes of control. No large interests, to my knowledge, are selling.

THE COTTON MARKET.

New York, June 13.—The cotton market opened weak at a decline of 7@10 points in response to lower cables and active liquidation, promoted by beneficial rains in the cotton belt and talk of a bearish weekly report at midday. Sellers of yesterday supported the market at the decline, however, and after the first rush of liquidation the market steadied up to about the closing prices of yesterday after which it ruled less active and steady in tone pending the weekly report.

Spot closed quiet, 20 point higher; middling uplands, 8.90; ditto gulf, 9.15; sales, 215 bales. Futures closed steady; June, 8.29; July, 8.37; August, 8.40; September, 8.45; October, 8.52; November, 8.57; December 8.62; January, 8.66; February, 8.70; March, 8.74; April, 8.76; May, 8.80.

LIVELY ON RUSSIAN BOURSE.

St. Petersburg, June 13.—The belief that peace will be arranged continues to be reflected on the bourse where today business fairly boomed, fours rising 1¾ points to 87.

CHICAGO LIVE STOCK.

Chicago, June 13.—Cattle—Receipts, 3,500; steady to strong; good to prime steers, $5.50@6.35; poor to medium, $4@5.40; stockers and feeders, $2.75@4.90; cows, $2.50@4.60; heifers, $2.50@5; canners, $1.50@2.30; bulls, $2.25@4.40; calves, $3@6.50. Hogs—Receipts 16,000; tomorrow, 30,000; steady; slow; mixed and butchers, $5.35@5.42½; good to choice heavy, $5.30@5.40; rough heavy, $4.60@5.20; light, $5.25@5.40; bulk of sales, $5.30@5.37½. Sheep—Receipts, 14,000; sheep and lambs, steady; good to choice wethers, $5@5.25; fair to choice mixed, $4.50@5; native lambs, $3.50@6.50; western sheep, $4@5.15; native lambs, shorn, $4.50@6.50; western lambs, shorn, $5@6.65.

NOT MUCH INTEREST

Duluth Grain Men Little Concerned as to Minneapolis Action.

Tomorrow the members of the Minneapolis Chamber of Commerce will vote upon the proposition of changing the contract grade of wheat in that market from No. 1 northern to No. 2 northern. The matter is exciting much interest among grain men. A number of Duuth men, who are members of the Minneapolis chamber will go down tonight to vote, but there is no such interest here as there was among Minneapolis members of the Duluth board when the proposition was on here.

As a matter of fact a large part of the Duluth board would just as soon see Minneapolis decline to make the change, believeing that it would attract business to this market, for the reason that there would be less chance for manipulation here, and that it would be a safer market for the placing of hedges.

Toronto and Return $20.

Account the International Sunday School association meeting at Toronto, Canada, the Duluth, South Shore and Atlantic railway, announce the following low round trip rates from Duluth:

430 West Superior street, Duluth, Minn.

Race For Supremacy.

It is interesting to watch the race for supremacy among Minneapolis-St. Paul-Chicago trains. First place is securely held by the Pioneer Limited and the second place by the Fast Mail. Both trains are entirely owned by the Chicago, Milwaukee & St. Paul railway. There are three other fast trains via this line from the Twin Cities to Chicago every day, and there is no extra fare to ride on them. Address W. B. Dixon, northwestern passenger agent, St. Paul, for further particulars, lowest rates, etc.

Marine.

TIED UP A WEEK

City of Genoa Must Stay In Drydock For Repairs.

Sand Island Rocks Punch and Tear Her Bottom.

The steamer City of Genoa, which is now in the dry dock of the Superior Shipbuilding company, has been found to be damaged to quite an extent forward. She was pulled off the rocks at Sand Island near Bayfield on Sunday and it is found that the rocks left their mark quite emphatically.

Her bottom, forward, is badly bruised and torn and her nose is punched into some extent. It will take about a week's work at the dry dock to put her in shape for traffic again.

THE YAKIMA BURNS.

Gilchrist Steamer Will Probably Be a Total Loss.

Port Huron, June 13.—(Special to The Herald.)—The steamer Yakima, which is ashore at the head of Stag Island, St. Clair river, is now burning, and it is feared the vessel will be a total loss. The Yakima stranded Saturday morning, and wreckers have since been trying to get her afloat, but without success. At 3:30 this morning flames broke out on the stranded boat, and they were soon beyond control. The fire was raging fiercely at 8 o'clock and most of the ship above the water line had been destroyed. The Yakima was a wooden steamer, and was built in 1887 by the late Capt. Thomas Wilson of Cleveland. Some two years ago she was sold by the Wilson estate to J. G. Gilchrist. She was valued at $50,000. The Yakima was bound from Lake Superior to Lake Erie with a cargo of iron ore. It is believed here that there is no insurance.

WATCHMAN HAS LEG BROKEN.

Detour, June 13.—(Special to The Herald.)—Thomas Conlon of Port Lamberton, Ont., a watchman on the John B. Cowle, had his leg broken by the line while his vessel was leaving the coal dock this morning. He will be taken to the marine hospital at Sault Ste. Marie.

TO BUILD BIG CARRIERS.

Toledo, June 13.—The Toledo Steamship company has been incorporated in this state with $325,000 capital by John F. Craig, L. S. Sullivan and others. The company will hold its home in Toledo. The company will build a 500-foot carrier which will be launched next March. The keel will be laid within two weeks. The ship will be the first of a line of freighters to be operated from here in the coal and ore trade. A boat will be built each year until at least five vessels are in the line. The Craig Shipbuilding company will build all the boats of the

A Farm for $10 Down

and $4.00 a Month!

This will give you 40 acres of good fertile land in the big red clover district of Bayfield, Wis.,—as many acres as you like on the same basis for each 40-acre tract at $5 an acre.

Fine Investment for Young Men and Women

Think of the thousands of young people paying over money to the great life insurance companies every month with the expectation that at the end of twenty years or more they may only get their money back and a very small interest. Then think of the development of the United States in the past twenty years, and look on a map at the location of Northern Minnesota and Wisconsin as related to the head of inland navigation and the expanding markets of growing nearby cities. Will any reasonable man say that the land in this region will not be worth from three to ten times its present price within twenty years? Reason it out for yourself.

Worth $200 to $300 an Acre.

J. Sterling Morton, ex-Secretary of Agriculture, recently asserted that all well-located land in the United States would be worth that price within 50 years.

"I believe," he added, "that money invested in farms is the best possible investment one can make; even if purchased at what some may term 'boom prices,' one will soon see his investment doubled."

We Will Build You a Comfortable House

On any sized tract that you want, from forty acres up, upon payment of only one-quarter of the value of the land in cash, and spread the balance over several years. For a man who wants to get on a farm at small initial cost, this is a remarkable opportunity. All this land is surprisingly fertile, and it will pay you to investigate its possibilities. The Omaha railroad alone placed 900 families in Northern Wisconsin last year. We have about 60,000 acres to choose from.

Best Farming Land in Northern Minnesota.

We also have about 40,000 acres of the richest farming land to be found in this section of the state, all lying within a reasonable distance of railroads and midway between Duluth and the Twin Cities. We will give it to you for one-quarter its value in cash and the balance to suit your convenience. Runs from $5 to $15 an acre.

Chance for Investors.

We have some snaps in large tracts that can't be beat. CALL OR WRITE.

Northern Minnesota and Wisconsin Farm Land Co.

ORDER TO EXAMINE ACCOUNTS, ETC.—

State of Minnesota, County of St. Louis. —ss.

In Probate Court, Special Term, June 12th, 1905.

In the Matter of the Estate of Seth Homet, Deceased:

On reading and filing the petition of C. M. Homet, as administrator of the estate of Seth Homet, deceased, representing, among other things, that he has fully administered said estate, and praying that a time and place be fixed for examining, settling and allowing the final account of his administration, and for the assignment of the residue of said estate to the parties entitled thereto by law.

It is ordered, that said account be examined, and petition heard by this Court, on Monday, the 10th day of July, A. D. 1905, at ten o'clock a. m., at the Probate Office, in the Court House, in the City of Duluth, in said County.

And it is further ordered, that notice thereof be given to all persons interested, by publishing a copy of this Order once in each week for three successive weeks prior to said day of hearing, in The Duluth Evening Herald, a daily newspaper printed and published at the City of Duluth, in said County.

Dated at Duluth, Minn., the 12th day of June, 1905.

By the Court:
DAVID H. LAWRENCE.
Judge of Probate of Lake County.
Acting Judge of Probate of St. Louis County, Minn.
(Seal Probate Court, St. Louis Co., Minn.)
Duluth Evening Herald, June-12-20-27-1905.

The merchant who advertises gives you the same opportunities to secure bargains that your neighbor has. Publicity equalizes opportunity. Nowadays there is no reason for your not having heard about some special sale.

LISTEN TO TWO

Notable Addresses Given Before Lake Superior Baptists' Meeting.

Bible Study Reform Is Urged and Also Chinese Missions.

This morning's meeting of the Lake Superior Baptist association proved most interesting for various reasons but more particularly because of two addresses made—one on Sunday school work and the other on missionary work in Western China. These addresses proved extraordinarily good because they were delivered by people who are deeply interested in the work of which they respectively spoke. The morning meeting was opened with devotional exercises by Rev. F. G. Kreager after which several reports were read. Mrs. J. O. Milne gave an interesting talk on "Systmatic Beneficence," G. F. Burtch spoke on "Ministerial Education" and H. C. Brown on "Publication Society."

E. Fagenstrom, superintendent of Sunday school work of the Baptist church in this state then spoke on "A Sunday School Census and What Came of It." There was just enough humor in the address to drive home the points which Mr. Fagenstrom wished to press. The address was not only entertaining but instructive and proved quite remarkable. Mr. Fagenstrom spoke of the very evident and painful lack of Biblical education among young people. He gave some actual questions and answers regarding Bible lore given to and by college students. These answers were ludicrous in the extreme such as mixing up Esau with Aesop, the fable writer, and other things. Mr. Fagenstrom said that the thing which is necessary is returning to the old Jewish methods of teaching the Bible as mentioned in the eighth chapter of Nehemiah, where it says:

"And all the people gathered themselves together as one man into the street that was before the water gate; and they spake unto Ezra the scribe to bring the book of the law of Moses, which the Lord had commanded to Israel."

This book Ezra read to all of the people, "that could hear with understanding" and the chapter says that "the ears of all of the people were attentive unto the book of the law."

Mr. Fagenstrom said that the Bible should be taught as an English classic and this he believes is the best way to make the young learn it; as they do their other books.

The other address of special interest was that of Mrs. C. A. Solquist, who is just taking a vacation from mission work in Western China. Mrs. Solquist spoke most entertainingly and with a great deal of enthusiasm of the work which she and her husband have been engaged in in China. She seemed very much encouraged by the progress which has been made and spoke feelingly of the enthusiasm with which their efforts have been received. She urged young men and women to devote their lives to this work saying that there can be no more pleasant and profitable work than that of saving souls. She said that she felt she was to be envied the glorious privilege which has been hers—that of bringing souls to the right faith and seeing the heathen improve in mind, heart and habits.

This afternoon a meeting for Women's Home Missions is taking place with an interesting program and this evening the principal address will be given by Rev. A. T. Fowler, D. D., of Minneapolis.

The Gidding Sale.

High-class wearables for women and girls, preparatory to taking over the annex to their present store started out afresh today, and from the many women buyers there it is quite evident that the present week will be even a more important one than the past. The fact that they have taken many of their very finest and most fashionable suits, costumes, demi-costumes and put them also into the sale at half, together with the decided reductions on their high-class long coats, Piccadilly, swagger coats, finest Rain-Shine coats and their finest covert jackets is the inducement held out to the most critical women shoppers of Duluth. They have also added to the sale special values in summer dresses and skirts, undermuslins, stockings, corsets and wearables of many kinds. The trading inducements are indeed such as to induce every woman who cares for wearables of the best sort to visit the Gidding establishment at the present time.

TO HAVE FLAG DAY PROGRAM

Ladies of Women's Relief Corps Arrange Celebration Exercises.

The ladies of J. B. Culver Post, W. R. C., No. 69, will hold a literary and musical entertainment together with a social session, at the old Temple building, this evening, in celebration of Flag Day, which occurs tomorrow, and a reception for the junior vice president of the department of Minnesota, Mrs. James Sullivan of this city, and Dr. C. W. Wilson of Culver Post, G. A. R., who is inspector for the Minnesota department of W. R. C.

The ladies, while believeing that flag day exercises should properly take place on Flag Day, itself, changed the date of their entertainment to this evening in view of the fact that so many of the Grand Army men will go down to St. Paul tonight or in the morning to attend the ceremonies attendanat on the removal of the Minnesota battle flags from the old to the new capitol building.

The program will comprise among its features an address on the American flag, by C. M. Wilson; recitation by Adele McClaren; solo by Don Gearhart; solo by Miss McMullen, with violin accompaniment; violin solo by little Miss Jenswold.

The social session will immediately follow the program, and the ladies will serve light refreshments.

As Flag Day will be a matter of national observance, the ladies of the W. R. C. have extended the public generally an invitation to participate in the exercises of this evening.

BADLY INJURED.

Star Pitcher of Duluth Team Is Disabled.

Dennis Potts, the star pitcher of the Duluth team, was rather seriously injured in the game yesterday, and the sprain which he sustained is likely to put him out of the game for several days. Pitcher Mullin, who was recently released by the Crookston team, has been signed to take his place temporarily.

The absence of Potts will materially weaken the Duluth team and will give the other nines a much wished-for opportunity to pull down the lead secured by the White Sox.

DREDGING COMPANY

Duluth Men Organize the Duluth-Superior Company.

The Duluth-Superior Dredging company, with a capital stock of $200,000, filed articles of incorporation in the register of deeds' office this morning. The incorporators are all residents of Duluth, and are William Clifford, Napoleon Grignon, and Renwick B. Knox.

The purpose of the company is given as the manufacture and construction of dredges, tugs, scows, pumps, and all dredging apparatus, appliances and machinery; repairing and construction of docks, wharves, piers, etc., and the dredging of slips and harbors. The principal place of business will be Duluth. June 15 is given as the commencement of the operations of the company, and the period of continuance will be thirty years.

The stock is divided into 2,000 shares at a pair value of $100, which may be issued and paid for in such manner as the board of directors may determine, but the corporation may begin a business when at least $100,000 of its capital stock has been subscribed for.

Those who are mentioned as the incorporators constitute the first board of directors. They will continue to hold office until the first annual meeting, which will be the second Tuesday in January, 1906. The offices are distributed as follows: William Clifford, president; Napoleon Grignon, vice president; R. B. Knox, secretary and treasurer.

REVOLT IS PROMISED

American Born Carpenters Will Leave Amalgamated Association.

Washington, June 13.—What promises to be a general revolt of American born members of the Amalgamated association of carpenters from that association to the United Brotherhood of Carpenters and Joiners of America was initiated in this city today by the withdrawal of about 100 of the Amalgamated men from the local bodies. These seceders plan a meeting tonight for the purpose of affiliating with the brotherhood. One of the officers of the latter organization said today that the Amalgamated association was of English origin and had branches in England, Scotland, Ireland, Canada, Australia and elsewhere and, that the secession was due to excessive dues and taxes. He anticipated that the revolt would become general.

CONFEDERATE VETERANS

Gathering at Louisville, Ky., For Annual Convention.

Louisville, Ky., June 13.—Although the reunion of the Confederate veterans does not open until tomorrow, many of the distinguished figures of the Confederacy and thousands of visitors are already in Louisville. Train after train has arrived today bringing veterans and their friends. The city is profusely decorated, the electrical display being especially attractive. The regular convention will be called to order at noon by Gen. Young, commanding the Kentucky division. Governor Beckham will welcome the delegates to the state and Gen. Stephen D. Lee, the general commanding, will deliver his address.

HUNTING FOR MURDERER.

A Sheriff's Posse Is After August Margel.

Glen Carbon, Ill., June 13.—A sheriff's posse is searching for August Margel, who is charged with having shot and killed Mrs. Josie Heller and slightly wounded Frank Heller, the parents of Mary Heller, who had refused to permit Margel paying attentions to their daughter. Margel, who is a Russian, 35 years old, has been employed as a miner. Mary Heller is 16 years old and had refused to marry him. The tragedy occurred last night but no trace of Margel has been found.

WILL BE NO FIGHT.

Fitzsimmons Says Schreck Match Is Off.

Salt Lake, Utah, June 13.—The fight arranged for July 3, between Bob Fitzsimmons and Mike Schreck, probably will not take place. The promoters have failed to deposit their $2,000 forfeit in Chicago and Fitzsimmons, who came in from his training quarters at the Lagoon has declared the fight off and says he will leave the city today, returning to the East.

RULES ARE UNCHANGED

Game of Football Will Be Same as Last Year.

New York, June 13.—No radical changes in the prevailing rules for foot ball were made by the advisory board of the intercollegiate association, which has been in session here. As to the proposed change permitting the forward pass, no action was taken and the old rule will stand unchanged.

One of the earliest points considered by the seven men who attended the meeting was the question of coaching from the side lines. The point was brought up that, as in baseball, where the side line coaching is allowed, it might be advisable to allow the same privilege in foot ball. It did not however, meet with general approval and was voted down.

Coaching from the side lines in foot ball is, however, occasionally done, but when detected is penalized, the old penalty being a loss of five yards. This penalty was made more strict in order to discourage the tendency to evade the rule and hereafter the penalty for side line coaching will be loss of ten yards.

The rules of the game were amended in some slight particulars and more carefully codified.

We, the undersigned, do hereby associate ourselves together, and agree to become a corporation, under and pursuant to Title 7, Chapter 34, General Statutes 1878, of Minnesota, and acts amendatory thereof and supplemental thereto, and for that purpose do hereby adopt and sign the following Articles of Incorporation:

FIRST. The name of this corporation shall be "Duluth-Superior Dredging Co."

The general nature of the business of this corporation shall be to manufacture and construct dredges, tugs, scows, pumps and all other dredging apparatus, appliances and machinery; to make, construct, alter and repair docks, wharves, piers, dykes, breakwaters and other similar works; to dredge and excavate slips, harbors, channels and other waterways; and to do every kind of contracting and construction work incidental to the business aforesaid, and to acquire all apparatus, machinery, appliances and other property necessary or convenient to carry on any or all of the aforesaid business.

The principal place where the business of this corporation shall be transacted is Duluth, Minnesota.

SECOND. The time of the commencement of this corporation shall be June 15th, 1905, and the period of its continuance shall be thirty (30) years thereafter.

THIRD. The amount of the capital stock of this corporation shall be two hundred thousand ($200,000) dollars, divided into two thousand (2,000) shares, of the par value of one hundred ($100) dollars each, which may be issued and paid for in such manner as the Board of Directors may determine, but this corporation may begin business when at least one hundred thousand ($100,000) dollars of its capital stock has been subscribed for.

FOURTH. The highest amount of indebtedness or liability to which this corporation shall at any time be subject, shall be the sum of two hundred thousand ($200,000) dollars.

FIFTH. The names and places of residence of the persons forming this corporation are as follows: William Clifford, Napoleon Grignon and Renwick B. Knox, all residing at Duluth, Minnesota.

SIXTH. The names of the first Board of Directors of this corporation are: William Clifford, Napoleon Grignon and Renwick B. Knox; said directors, and the officers hereinafter named, shall hold their offices until the first annual meeting of the corporation, which shall be held on the second Tuesday in January, 1906, at ten o'clock a. m., and until their successors shall have been duly elected and qualified; the time for holding all subsequent annual meetings shall be fixed by the by-laws.

The government of this corporation, and the management of all of its affairs, shall be vested in a board of three (3) directors, who shall be stockholders of this corporation, and who shall be elected annually, at the stockholders' annual meeting. There shall also be the following officers, who shall have such powers, and perform such duties, as may be prescribed by the by-laws, and who shall be elected by said directors at their first annual meeting, and thereafter annually at the first meeting of said Board immediately following the annual meeting of the stockholders, to-wit: A President, a Vice President, a Secretary and a Treasurer, any two of which offices, except President and Vice President, may be held by the same person.

Until the first election of officers, the following persons shall be the officers of said corporation, to-wit: William Clifford, president; Napoleon Grignon, vice president; Renwick B. Knox, secretary and treasurer.

The Board of Directors shall also have authority to make and adopt such by-laws, and to create such other officers, with such powers and duties as may seem to them necessary for the management of the business of said corporation, and to terminate such offices, and to change the duties thereof, at will; but all such by-laws may be repealed, or amended, or new by-laws made, by a majority vote of the stockholders at any annual meeting, or at any special meeting called for such purpose. The Directors shall have power to fill any vacancy which may happen in their board, by death, resignation or otherwise, for the current year.

In Witness Whereof, we have hereunto set our hands and seals this first day of June, A. D. 1905.

WM. CLIFFORD. (Seal.)
NAPOLEON GRIGNON. (Seal.)
RENWICK B. KNOX. (Seal.)

CONVENTION CLOSES.

Passenger Men Report Splendid Time.

The visiting railroad men, members of the G. A. M. B. A. Y. C. association, which had its first annual convention and outing here yesterday, report the affair a complete success in every way and they have voted to hold their annual meetings in Duluth hereafter.

The convention was brought to a close with a banquet at the Spalding, last evening, beginning at 6:30 and ending at 9:30 o'clock. At this time a permanent organization of the association was effected with Frederick Lyons, of the Rock Island system as president, and W. S. Chadwick, ticket agent at the union depot in Duluth, as secretary. An entertainment committee to look after future conventions was also provided for.

Before the railroad men left they expressed by acclamation a vote of thanks to Mr. Chadwick for the good time he had been the means of giving them.

The passenger agents, or "business getters," enjoyed the ride up the river to Fond du Lac very much. On the return trip they were entertained by musical selections from Henry M. Lewis and F. D. Lyons. The launch took the party to Oatka beach where they took the street cars to the canal and crossed the aerial bridge.

FAURE TO BE DIRECTOR.

Paris, June 13.—President Loubet has appointed Gabriel Faure to be director of the National Conservatory of Music, succeeding Theo Dubois, who has retired.

CAN YOU READ THINGS THAT ARE WRITTEN IN

THE SHADOW ALPHABET?

"Coming events," you have always heard, "cast their shadows before."

These shadows make a sort of "cipher-writing," and a knowledge of it enables you—usually through timely want advertising—to "take Time by the forelock," and reduce Trouble to its lowest terms.

If the cook's exit is a "coming event" you will see and feel the shadow all over the home—in the countenance of the wife, in the slighted coffee.

If the landlord is about to raise the rent you will get a hint of it in his anxiety to put up a new gate, or add a few new shingles to the roof.

If your "resignation" of your job is a coming event, its shadows will get to you pretty well in advance.

In fact, about every event of daily life sends hints of its coming on ahead. If you can read the "Shadow Alphabet" you may be ready for most of the things that are "coming to you" simply by prompt and effective use of THE HERALD Want Alvertising.

HELP WANTED—MALE.

DIPLOMATS AT PEKIN CONSIDER PROSPECTS OF PEACE AS REMOTE

Believe Japs Will Inflict Another Blow Before Negotiating.

Doubt Expressed Whether Russia's Reply Is Satisfactory.

The Officials at Washington Maintain There Is No Hitch.

Pekin, June 14, afternoon.—In German and other circles here, the prospects of peace between Japan and Russia are considered remote. It is supposed that Japan intends to inflict a final and crushing blow upon the Russian army in Manchuria before considering any proposition for peace.

Washington, June 14.—Russia's formal response to President Roosevelt's appeal to the Far Eastern belligerents for a cessation of hostilities has been communicated to the Tokio government by the president. The note written by Count Lamsdorff, by direction of Emperor Nicholas, and handed by the minister of foreign affairs to Ambassador Meyer, at St. Petersburg, was placed in turn, in the hands of Minister Takahira by the president and transmitted, by Mr. Takahira, to Tokio. The president is in hourly expectation that a response may be received from the Japanese government.

Doubt is expressed in important quarters whether the Russian response is satisfactory to Japan. The government of the island empire is wary of its big European antagonist and has indicated its intention of not sacrificing its dearly bought victories at arms in the conflict of diplomacy which now is being waged. Minister Takahira is inclined to look askanse at that part of the Russian note which reads:

"As far as eventual meeting of Russia and Japanese plenipotentiaries charged with ascertaining how far it would be possible for the two powers to elaborate conditions of peace, the imperial government would have no objection in principle to such an attempt if the Japanese government expressed a desire therefor."

Japan has indicated plainly that if there is a conference between its plenipotentiaries and those of Russia, it must be held with a definite understanding that a sincere effort to reach a permanent peace agreement is to be made. She is willing to talk business with Russian negotiators empowered to do likewise, but she does not propose to permit any unusual strings to be attached to the Russian conferees—strings which may be pulled to her ultimate disadvantage. An American official expressed in a few words Japan's position:

"If Russia is sincere in her desire for peace, peace can be arranged; if not, Japan is ready to go on with the war."

No suggestion of a serious hitch in the peace negotiations is made at this moment. Such inquiries as are possible to make at this writing have elicited assurances that the situation is favorable for an amicable arrangement of the peace conference. The negotiations now have to do with the selection of a location for the conference and the number of the plenipotentiaries. These details may be adjusted satisfactorily soon, although it is pointed out that the negotiations may be prolonged for several days. Assurance is given at the White House that, as soon as the arrangements shall have been completed, a formal announcement of their purport will be published to the world.

Confident that the negotiations are progressing as rapidly as can be expected, Baron Speck Von Sternburg, the German ambassador, has decided to go to Deer Park, Md., today and remain there for several days. The ambassador believes that the selection of a place and plenipotentiaries, while not the only details yet to be decided, are among the most important, and he does not look for any serious hitch prior to the meeeting of the plenipotentiaries.

An interesting side light upon the negotiations for peace is the extreme reserve evinced by all having to do with them. Sources of news which hitherto have been unfailing, now are closed to the inquiring newspaper mind. Some officials decline to answer what appear to be the most innocent inquiries, if they relate, in the remotest degree, to the peace negotiations. As an instance of the cloaking of all the negotiations with secrecy a newspaper man, noticing a carriage standing in front of the White House, inquired of a subordinate if the Japanese minister was in conference with the president. The subordinate declined to answer, explaining that he had received explicit orders not to furnish anybody information bearing upon the peace situation. Suspecting the identity of the caller, the newspaper man waited until he emerged from the White House. It was Minister Takahira. Even the officials of the government, occupying high positions, including cabinet officers who, ordinarily, exercise some initiative in talking to the newspaper men whom they trust, are as sealed books regarding even the simplest phases of the pending negotiations.

WILL BE NO PEACE

Unless the Terms of Japan Are Acceptable.

St. Petersburg, June 14.—With the publication on the status of the peace negotiations the newspapers are filled with a discussion of the situation. The Russ which most nearly reflects the views of the foreign office, points out clearly that in consenting to President Roosevelt's appeal for a conference of plenipotentiaries of the two powers, Russia in no wise engaged herself to conclude peace except on the condition that the Japanese terms when ascertained prove an acceptable basis. If they are not entertainable Russia will withdraw.

The Novoe Vreyma declares that inasmuch as Japan ruptured diplomatic negotiations before the war it is proper that she should now define the object for which she drew the sword. The paper adds:

"The success Japan obtained insures her strategic advantages surpassing anything she could have anticipated before the war. She is now mistress of the eastern seas and will remain so for many years to come, but if her appetite has increased inordinately she should remember that Russia's means are not exhausted. Other and even greater defeats cannot prevent Russia from dragging on the struggle. Another winter campaign can still be fought in a climate more rigorous than experienced during the last campaign. Japan must recognize now that she has reached her zenith and that it is more necessary for her than for us to end the struggle. It is possible that she will offer comparatively moderate terms, bearing in mind that Russia's interests cannot be completely sacrificed. An indemnity is out of the question."

RUSSIA'S GREATEST MAN IS PESSIMISTIC

Interview With M. Witte Is Filled With Gloomiest Forebodings.

Affairs of State Are Going From Bad to Worse.

St. Petersburg, June 14.—The Slovo this morning published a remarkably sensational interview, filled with the gloomiest forebodings, with M. Witte, president of the committee of ministers. The Russian statesman's name is not mentioned, but the veil of his identity can be pierced by the veriest tyro. He evidently spoke with the profound conviction that the affairs of state are going from bad to worse, and under personal irritation, produced by the intrigues, which compel him to sit idle during the present crisis. Every word was black with pessimism. Statesmen made it clear that Foreign Minister Lamsdorff, for one, opposed his having anything to do with the peace negotiations.

Asked concerning the report that he is going abroad charged with a mission in regard to the negotiations for peace, M. Witte replied, his words being given literally, as they contain much hidden meaning:

"No. I certainly will not go on such a mission, for three reasons. The last of them is that I shall do everything to avoid it. Even if the rumor of Lamsdorff's resignation is true, which I insist is not the case, the main situation would not be changed, and the first and third reasons would hold for me.

"Nothing that Russia has gone through is surprising. I gave warning in due time that only the matchwood of Rojestvensky's squadron would reach Vladivostok. In a word, I justly earned the designation of a croaking raven. I do not see that affairs have yet taken a turn which makes my services desirable. I will say more—even now, I cannot observe a definite desire to change the direction of the current. The bed of the on-rushing stream remains the same. Only the obstacles in its path grow more numerous and foaming rapids indicate the danger points.

"As for peace, Japan will not even be willing to discuss a basis which would not insure peace for at least fifty years. Her conditions doubtless have also considerably increased. She will, of course, agree to open negotiations on her own soil, without mediators, with a person whom Russia will clothe with powers. Herein lies the real source of the rumors originating in the Berlin and London cabinets about my trip.

"Yes, there is truth in what you say, but you see different estimate is put upon the men abroad. People there are better informed, and appreciate more clearly the conditions prevailing in Russia than we do here.

"Russia could prolong the war for five years, in the hope of coming out victorious, were it not for the events in the interior, to which they are closing their eyes and stopping their ears and trying to know nothing about.

"Here lies the horror of the present situation in Russia. Every hour of delay is fraught with danger. Down, down, lower and lower, step by step."

SERGE WITTE,
President of the Council of Ministers, and One of Russia's Strongest Men.

AGED BANKER PLEADS NOT GUILTY

St. Paul, June 14.—(Special to The Herald.)—Thomas B. Clement, president of the defunct First National bank of Faribault, was arraigned before Judge Lochren in the United States district court today. He pleaded not guilty to eighteen counts of the indictments against him and entered a demurrer to the other counts on the ground that they charge more than one offense.

A number of affidavits were presented by prominent men of Faribault to the effect that the defendant's condition of health would not permit him to stand the ordeal of an early trial.

Judge Lochren overruled the demurrers and the accused entered a further plea of not guilty. The argument then turned on a continuance of the case over the term.

STRIKE BREAKERS ASPHYXIATED

Chicago, June 14.—Two brothers, Thos. and J. Leaven, who came here from Detroit to take places of strikers, were found asphyxiated in a room at a small hotel on Clark street today. One of the men was dead, the other in such a critical condition that it was said at the county hospital he would probably die. The gas had been turned on in the room occupied by the young men, but whether by accident or as a result of a suicide pact is unknown. Owing to the death of one brother, and the unconscious condition of the other, it is not known whether the dead man is Thomas Leaven or J. Leaven.

RIVERS ON TRIAL FOR HIS LIFE

Minneapolis, June 14.—(Special to The Herald.)—James Rivers, on trial for the murder of Richard Connors, last February in the Bijou theater, went on the witness stand late Tuesday, and testified that the shooting was accidental. The men were members of the Dahomey company, a colored aggregation.

Connors, he said, held a grudge against him. Before the shooting, Connors had called him bad names, and threatened to attack him. Connors went away, as the defendant believed, to get a gun, and Rivers got his gun from a trunk. As he went into the next room, some one struck him on the head, and the gun fell to the floor. Witness and Connors struggled for it. Witness recovered it, and in the scuffle it was discharged.

Charles Brown, who sold song books in the theater, testified that the shooting was deliberate. Rivers stood not more than a foot away from witness at the time of the firing of the shot.

John H. Dillingham, a colored man of St. Paul, testified to the dying statement made by Connors. Connors said that at the time he was walking away he heard a shot. He turned and saw Rivers making for a revolver. He picked it up and fired, Connors exclaiming, "Oh, you have shot me."

OYAMA READY FOR OFFENSIVE.

Gunshu Pass, Manchuria, June 14.—The Japanese have forced the advance posts of the Russian left beyond the Kaoche river and are occupying the heights north of the river. A heavy

(Continued on page 15, second column.)

ENGLAND'S ACTION

In View of Germany's Last Move Not Yet Decided.

Wei Hai Wei Will Probably Now Receive More Attention.

London, June 14.—The foreign office this afternoon was shown the dispatch of the Associated Press from Berlin announcing that Germany had determined to fortify Kiaochou bay (the German concession in the southern part of the Shantung peninsula, China) which news is not yet published in London. The officials said it was impossible to say what effect the action of Germany would have on the proposal to abandon the British naval station at Wei Hai Wei (in the northern part of the Shantung). It was pointed out that the British lease of Wei Hai Wei lasts as long as any foreign power is in possession of Port Arthur. Although work was stopped on the hospitals and other buildings at Wei Hai Wei early last year and the strength of the Chinese regiment, commanded by British officers, at Wei Hai Wei had been reduced, it had never been definitely decided to abandon the place as a fortified naval base. So long as the British-Japanese alliance lasts Wei Hai Wei will not be considered an important place except as a naval resort during the summer months. But, it was added, it is quite possible that with Kiaochou fortified Wei Hai Wei will receive more consideration.

MISCONCEPTION BY THE CHINESE

Seems to Have Caused Agitation Against the Americans.

Pekin, June 14.—The agitation and proposed boycott of American goods by Chinese merchants is apparently based on a misconception by the Chinese, of American intentions in regard to the exclusion act. Both Chinese and Americans are agreed upon the point that the exclusion of coolies is the chief matter under consideration, and that the act deals with the treatment of other classes. A discussion of the matter will be necessarily prolonged and to arrange a new convention will take time. Mr. Rockhill, the American minister, has assured the Chinese that America's intentions are fair and conciliatory, and the Chinese board of foreign affairs is apparently satisfied upon the subject. The public is somewhat alarmed, hence the boycott.

This movement is unlikely to attain any serious proportions, although it is significant, indicating the importance which is attached by the Chinese to the questions involved in the American exclusion act.

The exclusion of coolies from the Hawaiian and Philippine islands is considered a hardship by the Chinese, who also complain of the treatment they experience at the hands of the American customs officials. Nevertheless, there is a genuine desire on the part of the Chinese government, for a speedy and amicable adjustment of the questions at issue.

CORPORAL PUNISHMENT

New York, June 14.—Corporal punishment, abolished some time ago by the board of education, has been restored in New York public schools through a decision of Judge Olmsted, in the children's court, although the president of the board enters a contrary ruling. According to the judge, the lash may now be used by teachers without any interference on the part of parents, whenever the court gives juvenile offenders into their custody.

This decision was reached after examining two boys, the first for playing truant, the second on a charge of stealing a gold ring from his teacher. Both pleaded guilty.

Their parents pleaded hard with the judge not to send the boys to an institution.

Judge Olmsted then announced his decision to act under a new form of commitment, by which children guilty of small crimes can be put under the legal guardianship of their teachers. This means corporal punishment whenever the guardian feels like wielding the rod or the strap, for he has the same authority to punish under the law as the parents.

President Tift of the board of education, declared the court's decision to be in direct opposition to the rules which govern the management of the public schools, and that he did not believe the rules would be violated, even with the court's permission.

TWO MEN DROWNED BY CAPSIZING OF BOAT.

Great Falls, Mont., June 14.—While four men and a woman were trying to cross the Missouri river at Judith on the ferry, the boat capsized and two of the men were drowned. The identity of the men drowned has not been determined and their bodies have not been recovered. When the ferry boat was righted the body of Charles Murray who was drowned about two weeks ago, was found caught in the wheel.

SWEDISH WORKINGMEN POSITIVELY REFUSE TO FIGHT THE NORWEGIANS

Labor Unions Have Notified Their Neighbors to That Effect.

Will Strike If Riksdag Votes to Adopt Coercive Measures.

It Will Probably Influence Leaders to Accept Dissolution.

Stockholm, June 14.—The attitude of the laboring classes is likely to prove a potent factor in overcoming any possible disposition on the part of a section of the riksdag to suggest the adoption of coercive measures towards Norway, and in influencing the chamber in favor of accepting the dissolution of the union of Norway and Sweden. Swedish labor unions are daily telegraphing to Norwegian unions, saying they will refuse to take up arms, and the Social Democratic party has issued a proclamation to the working classes, reading:

"It becomes more apparent daily that the upper classes and reactionary newspapers are attempting to cultivate the sentiment hostile to Norway, with the view to calling the people to arms against her in the struggle for liberty." The proclamation says it is the firm decision of the workingmen not to respond to a call to arms, and asserts that they intend to go out on a strike over the whole country if the riksdag comes to such a decision. In conclusion; the proclamation calls upon the laboring classes throughout Sweden to manifest their opinion of the situation at public meetings.

Christiania, Norway, June 14.—King Oscar's long letter to the president of the Norwegian storthing, M. Berner, defining his position, as cabled to the Associated Press, yesterday evening, was read in the storthing, which was crowded at its opening this morning, after the Whitsuntide recess. The document was referred unanimously to a special committee, without comment, and the storthing adjourned to await the committee's report. There was no demonstration whatever. The Associated Press understands that a reply will be sent reaffirming the constitutional rights of the storthing.

The government of Norway and the members of the storthing welcomed the message, seeing in the last paragraph an indication that the king and the riksdag will probably confirm the dissolution of the union after a reaffirmation of the contention that the union could not be dissolved without the consent of Sweden and King Oscar.

A member of the storthign, commenting on the bitter feeling in Sweden, said to the correspondent of the Associated Press:

"Aristocratic Sweden is always inclined to look down on democratic Norway. The Swedes resent what they consider our audacity in initiating a solution and dethroning the king. The latter has always been influenced by the atmosphere of the nobility of Sweden and seldom visited Norway. The Swedish upper chamber, too, is inclined to consider the rights of the throne paramount to those of the constitution, which, however, is not the case in Norway.

HEROES MARCH WITH THE BATTLE FLAGS

Treasured Emblems of Minnesota War Veterans Are Removed.

Taken to New Capitol and Placed In Governor's Custody.

St. Paul, June 14.—(Special to The Herald.)—Flags fluttered from nearly every staff in the city today while bunting and the national colors formed the chief decorations of stores. At the old capitol, gray haired veterans prepared for the afternoon celebration in the removal of the battle flags of Minnesota regiments from the round case in the rotunda to handsome metal cases in the new capitol rotunda.

Every Minnesota regiment held a reunion this morning and selected a color guard for its battle flag, and the Confederate flags it had captured, for this afternoon's parade. Luncheon was served by the woman's auxiliaries of the G. A. R. at 11 o'clock so that the veterans would have time to prepare for the parade.

Gen. L. F. Hubbard was chief marshal of the day and Gen. J. H. Baker was chief of staff for the parade, in which fully 10,000 people, including 6,000 school children, veterans, national guards and sailors took part. Troops from Fort Snelling and the First regiment of the national guard, 400 strong, brought specially from Camp Lakeview for the occasion, and fully 1,000 old veterans were in line. Previous to the parade, at 1:30 there were exercises at the old capitol; music by the children's chorus and an address by Gen. J. W. Bishop, giving the flags into the care of the color-bearers. The parade was formed at the postoffice building, Rice Point, and the line of march was along Sixth street, to Minnesota, to Ninth, to Cedar and thence to the new capitol. Here the school children were grouped on the steps of the main entrance forming a "human flag" and presenting a splendid spectacles.

On the arrival of the procession at the new capitol, the exercises were promptly begun with an invocation by Rev. Levi Gleason, former chaplain of the Second regiment. Then Archbishop Ireland delivered an eloquent address, delivering the flags to the governor. Governor Johnson, who was given an enthusiastic reception by the immense gathering which stretched far beyond the reach of his voice, replied in eloquent terms to the archbishop's address and was frequently interupted by hearty applause. Governor Johnson spoke as follows:

Minnesota Veterans: On behalf of the people of this great commonwealth, I accept these battle flags and assume the responsibility for their future safe keeping, an office I approach with a cordiality which finds no expression in words.

This day is one of great moment to you who, in the years forever gone, marched side by side beneath the folds of these banners, into the presence of those great dangers which offered but a single hope—the hope that you might be of service to your country. This day and this occasion recall to your minds the sting of the hostile bullet, the roar of shot and the hissing of shell. It recalls the day when streams were turned to purple, when hillside and valley were transformed from field and farm to the cemetery of the nation. It recalls the day when you abandoned the plowshare, the shop and library, to go forth to redress the wrongs done your country's flag. It recalls the sad day when you returned with ranks thinned, with brother and comrade left to sleep in unknown graves, far from home. It recalls all this and it also reminds you that when your country called you answered the call, that your work was well done, and that you have lived to see a once divided country cemented into a more perfect union and you have lived to receive the grateful adoration of your countrymen.

> Republics may seem to be and even may be ungrateful, but to the sturdy and hardy soldiers of the Republic, who were not actuated by the spirit of gain or adventure, this nation owes a debt of gratitude and acknowledges the obligation; and to us, the younger citizens of the Republic, it belongs, above all others, to pay tribute to those who died in the defense of their country and to pay homage and respect to those who still survive the great conflict.

You have bequeathed to us a most wonderful inheritance—the legacy of American citizenship, and we can best discharge the duty imposed on us in this bequest by being true to the principles on which the prosperity of our nation depends. Ours is not and never has been a military nation, and our duty is not to foster a military spirit, but rather to cultivate the patriotism of peace and kindle in this country, not the camp fire, but the lights of civic virtue, commercial honesty, and political integrity. Our duty

(Continued on page 15, first column.)

GOVERNOR J. A. JOHNSON,
Who Received Custody of the Old Battle Flags.

GROSS LAND FRAUDS IN CALIFORNIA

San Francisco, June 14.—The Examiner says today: State Mineralogist Aubrey charges that thousands of acres of valuable land in Butte, Plumas and Siskiyou counties have been secured illegally and he has placed information in support of his charges in the hands of the special prosecutor for the government in the Oregon land fraud cases. Specifically, the state mineralogist alleges that H. H. Yard, who represents the Western Pacific railroad in the matter of securing right of way, and T. B. Walker, the millionaire lumberman of Minnesota, have both illegally filed on lands located in the Northern counties.

It is the contention of Aubrey that thousands of acres filed upon as mineral lands are non-mineral in character. The state mineralogist has made a report upon the operation of Yard to the department of the interior.

H. H. Yard, who has offices in this city, admits that he and his associates have secured 100,000 acres of mineral land in Butte and Plumas counties. He contends that all these lands have been legitimately secured and are mineral in character.

NEW YORKERS LIVING TOO RAPIDLY

New York, June 14.—An alarming increase in the deaths from heart disease presented by last week's mortuary statistics for this city has led to a comparison of data which shows that since 1868, the annual death rate here from heart failure and Bright's disease has grown from 13.05 to 29.62 per 10,000 population. This increase is considered alarming by authorities on the subject and is emphasized by the fact that 125 persons died last week from organic heart disease, when the rate the corresponding week in 1904 was only fifty-six.

Strain of business and the cares attendant on fierce competition in the financial center of the city and the worry attendant on anxiety to gain wealth are given as an explanation by physicians. To put their explanation briefly, they declare the figures noted prove beyond doubt that residents of New York are living too rapid lives. Some of them say one person in a hundred examined has organic heart trouble and the other ninety-nine have stomach affections, the latter being due to rapid eating.

TEAMSTERS' STRIKE A DEAD ISSUE

Chicago, June 14.—The Teamsters' joint council apparently has come to the conclusion that the strike is a "dead issue." For the first time since the original strike against Montgomery Ward & Co. was called, the controversy was shelved in the council meeting as an "unimportant" matter of business.

"I don't see that the strike needs much attention anymore," said William Kelly, secretary of the Coal Teamsters' union. "No, I won't admit that we are beaten, but I mean to say that we have matters in hand so well that we can afford now to let the strike take care of itself."

The proposed referendum vote, which certain labor leaders wish submitted to teamsters, as to whether the strike shall be called off unconditionally, was not brought up.

President Bernard Mulligan of the Railway Express Drivers' union said of the referendum:

"It never will come up. Even if it should the teamsters on strike will vote to a man for the continuation of the strike until it can be called off on honorable terms."

PUBLIC SURPRISED

By Shrinkage In J. Montgomery Sears' Estate.

Boston, June 14.—The will of Millionaire J. Montgomery Sears, Boston's largest taxpayer, was filed for probate yesterday, but there was nothing in it to explain the vast shrinkage in the estate. There were no public bequests. When Mr. Sears died it was supposed he was possessed of at least $20,000,000, but the family lawyers who filed the will stated that the estate did not exceed $4,000,000.

In view of the fact that Mr. Sears inherited $9,000,000 thirty years ago, and that his property was always of the gilt-edged class, and his expenditures less than $100,000 a year, it had been computed that he should have had at least $20,000,000.

It is generally believed that he gave away vast sums to colleges, charitable institutions, and relatives within the last year, thus reducing his personal estate to a small figure, and leaving only his real estate, assessed for nearly $4,000,000, to the custody of his executors.

MARKETS OF MANCHURIA AND KOREA WILL BE OPEN

New York, June 14.—In a speech before the Business Science club, Japanese Consul Uschida while refraining from any prophesy as to the probable terms of the peace agreement to which his country might be willing to subscribe said he could guarantee one thing welcome to Americans.

"I can say to the American world of commerce," he declared, "without a fear of making a mistake, that when peace is finally achieved the markets of Manchuria and Korea will be open to the world, and that our sincere hope in Japan, is that America will join hands with us in the development of the two countries."

NEW POSTMASTER.

Washington, June 14.—(Special to The Herald.)—Jay A. Smith has been appointed postmaster at Spencer Brook, Isanti county, Minn., vice Mary E. Smith, resigned.

DULUTH WEATHER REPORT—Partly cloudy with probably occasional showers or thunder-storms tonight and Thursday. Cooler Thursday. Southwest to northwest winds.

Our Straw Hats

Lead the Procession.

OUR narrow brims and high crowns with split braid are showing the way this season, and you will instantly see **why** when you try some of them on. Our styles are largely imported and they have an individuality that other lines seem to lack. You will find here every new style under the sun, in the choicest materials and swellest shapes.

Prices—$1.00 to $5.00
Panamas—$5.00 to $15.00.

Walk in Oak Hall Shoes.

ORDER OF EAGLES

Originates From Jocular Gathering of Five Men In Seattle.

Now One of Largest Fraternal Bodies—The Duluth Program.

Out of a little gathering of five men held on Sunday, February 6, 1898, in the city of Seattle, the Fraternal Order of Eagles had its birth, and during the seven years which have elapsed since that time, the order has grown to be one of the largest fraternal bodies on the American continent.

The meeting of these five men was held more in a jocular spirit, than with any idea of forming a fraternal body. The men were John Cort, John W. Considine, H. L. Leavitt, T. J. Considine and W. Goldsmith.

But the order which they had started in a spirit of fun, very rapidly assumed a serious aspect, and a foundation of sound principles replaced the jocular program which had been outlined by the founders.

Meetings continued to be held and the association became a permanent one, the name being given by John Cort, one of the founders.

The name was a happy selection for the young order, which held liberty as first among its principles. The other three virtues which are among the cardinal principles of the order, are Truth, Justice and Equality.

The young order rapidly spread from the confines of the city of Seattle, and aeries were organized in the different coast cities. Then came the establishment of the first grand aerie, and unlike most of the other fraternal bodies, the Eagles began to work their way eastward. Others had their birth in the East and worked westward, but the vigorous young society springing up in the city of Seattle, came out of the West, and it was less than five years before every state in the union had an aerie.

The Duluth aerie will be six years of age in August. It has now nearly 500 members in good standing, and has recently furnished a magnificent new hall at the expense of over $3,000.

The officers of the Duluth aerie are as follows: District deputy, T. J. Madden; junior past president, Stephen J. Parker; worthy president, W. E. Brown; worthy vice-president, James W. Parker; worthy chaplain, A. J. Lyle; worthy secretary, John Schroeder; worthy treasurer, John Gonska; worthy conductor, Harry Gouth; worthy inside guard, Fred. Isham; worthy outside guard, George W. Marcey; worthy trustees, E. A. Pierce, A. T. Ellsworth, F. E. Berry; worthy physician, A. K. Norton.

Such is the order. 5,000 members of which will be in Duluth tomorrow to attend the annual state convention. The local aerie is sparing no expense to make the stay of the visitors in the city a pleasant one, and in this they are being ably assisted by the business men, merchants and the Commercial club.

Special efforts are being made by the members to have the city present the best possible appearance, and two prizes of $30 and $20 have been offered for the best decorated building. Every public-spirited citizen is urged to get out all the flags and bunting he possess, and decorate his home, or office or store. Already the decorations are making their appearance, and some of the store windows are triumphs of the window dresser's art. The outdoor decorations will be put up today and tomorrow, and by tomorrow night it is safe to say the city will take on its most gala appearance.

The convention will open tomorrow evening and close Sunday. The official program is as follows:

THURSDAY.

8:30 p. m.—Social session free to all Eagles.

FRIDAY.

10:00 a. m.—Address of Welcome, Worthy President W. E. Brown, No. 79.
Address—"Freedom of City," Mayor M. B. Cullum.
Response by Grand Worthy Vice President J. H. Ellis, Minneapolis, 34.
Calling of Convention to Order by J. W. Shadewald, State Deputy Grand President.
Election of permanent officers.
Appointment of committees.
2:30 p. m.—Address—J. F. Pelletier, Grand Worthy President Kansas City.
Routine business.
8:30 p. m.—Grand Vaudeville Entertainment for Eagles only, at Lyceum theater.

SATURDAY.

10:30 a. m.—Baseball, Duluth vs. St. Paul. Prize, $50, only Eagles of each Aerie permitted to play.
2:00 p. m.—Street Parade.
4:30 p. m.—Routine Business of Convention.
8:00 p. m.—Armory where Band contests and distribution of prizes will take place as follows:

Best Bands—First prize, $200; second prize, $75; third prize, $25.

Largest Aerie	$100 00
Best Drilled Aerie	100 00
Best Uniformed Aerie	100 00
Largest Eagle	5 00
Smallest Eagle	5 00
Handsomest Eagle	5 00
Homliest Eagle	5 00

To conclude with Grand Ball.

Minnesota, North and South Dakota, Michigan and Wisconsin can compete for prizes.

Duluth Aerie No. 79 barred on all prizes. Superior Aerie No. 90 barred on numbers only.

SUNDAY.

10:00 a. m.—Boulevard drive, free.
2:00 p.m.—Cruise on Lake Superior, free.

Pain may go by the name of rheumatism, neuralgia, lumbago, pleurisey. No matter what name the pains are called, Hollister's Rocky Mountain Tea will drive them away. 35 cents, Tea or Tablets. Ask your druggist.

Attention Eagles!

Save the cost of this trip by making up on your Clothing purchases. SPECIAL REDUCTION TO EAGLES DURING CONVENTION.

LYCEUM CLOTHING AND SHOE HOUSE,

423 W. SUPERIOR ST., IN LYCEUM BLDG.

P. S.—Special reductions on Ties, Collars and Shirts—we have the kind you want.

AMERICAN BOATS

Carrying Supplies to Japan Were Scared of the Russians.

Ran Away From Phantom Warships of Harbor of Yokohama.

New York, June 14.—A Tokio letter to the Sun, dated May 8, says: They are running away from phantam Russian warships off the harbor of Yokohama much as they were running from phantom Spanish warships in the war with Spain off the New England coat in 1898, at the time when shore cottagers put out their lights at night for fear a Spanish shell might land in their homes before morning. And the queer part of it is that the Americans are the ones who are doing the running. For months not a steamship has arrived at Yokohama from the United States that has not been loaded down with war supplies.

When the Baltic fleet reached Southern China the scare began. The managers of the American lines to Yokohama at once proceeded to get frightened.

It is a long way from Yokohama to Kamranh bay, but somehow the American managers thought that Russia might have called in the foolkiller for work in her navy department and that he might have arranged it so that a sensible man would get in charge. They conceived the idea that Russian warships might be lying in wait off Yokohama to gather in cargoes worth millions and ships like the great Manchooria of the Pacific Mail line, also worth millions, that would be invaluable as transports.

Therefore, the Pacific Mail line took to running its steamships without lights when approaching the coast of Japan. The latest vessel to be run in this way was the Manchooria, which left San Francisco on April 18th and arrived at Yokohama May 6th. Of course, the navigation laws of the United States prohibit this, but the penalty is a fine which is merely nominal compared to the value of a contraband cargo, and hence the risk was taken of being found out.

The value of the Manchooria and her cargo was close to $5,000,000. It was too fine a prize to risk letting the Russians get. All they would have had to do was to detach a torpedo-boat, let it be in the route of the Manchooria until she came along and then put a prize crew of three or four men on it, and send the prize, passengers and all, to Vladivostok.

Therefore, the Pacific Mail people, proceeding on the theory that the Russian fool-killer might be at work, took no chances. Five days ahead of the Manchooria was the Doric of the Pacific Mail line, also loaded to the gunwales with war supplies, but whether the same precautions were taken with her as with the Manchooria the writer knows nothing, except from rumor and that says that she too was run without lights.

The Manchooria had this kind of war supplies on board: Two submarine boats, a large amount of quicksilver to be used in making explosives, several sets of gun carriages, a lot of railroad material for use in Manchuria, lead for making bullets and leather for army use, besides other material for supplies for the Japanese army.

To crown all this she had in her strong box $1,500,000 in specie for the Japanese government, a pretty fine prize for a Russian gunboat or torpedo-boat to capture. One shot from a rifle would have done the trick. The Manchooria is a sixteen-knot boat and would not have dared to run away.

Among the passengers on the ship were: Minister Rockhill on his way to China, Consul General Rodgers on his way to Shanghai, Consul General Miller on his way to Yokohama, and Consul General Sammons on his way to Niu Chwang. It was agreed generally on board that Russia would regard these gentlemen merely as distinguished American citizens, and that their presence would not in the last affect the determination to send all hands to Vladivostok in the event of capture.

Of course, it was also believed that Russia, as a friendly act, would release these gentlemen and their families as soon as possible, but all of them speculated intently as to the possibility that they might not reach their official posts for some time.

In addition to these gentlemen there sailed on the Manchooria a Mr. Cable, agent for the company that builds the Holland submarine boats. He was booked for Yokohama, and his name was so entered on the passenger list.

He found it convenient, however, to get off at Honolulu and remain there until the next steamer. It was said that he probably would not care to be found on the same ship with some of his boats which would be reckoned as contraband of war. He had just come from Saint Petersburg, where he had gone to sell submarines to the Russian government.

The scare about the Manchooria began before the vessel left San Francisco. The newspapers there printed the fact that she carried war supplies, and, of course, the Russian spies and agents in that city knew upractically everything that went in her hold. You can't load a great ship like the Manchooria, one of the largest in the world, in the dark. There was conjecture in San Francisco and elsewhere as to whether the Russians would get the ship by detaching a vessel from Rojestvensky's fleet, then at Mamranh bay.

The Manchooria hadn't been a day out before it was known that special orders were to be cabled to her at Honolulu about going farther. A Russian victory over Togo would probably have meant an indefinite stay at Honolulu.

If there was no news about the great naval fight that was expected, it was known that the Manchooria had orders to stop at that most inaccessible and seldom visited place, the Midway Islands, where there is a cable station. A probable stay at that desolate coral reef was not a pleasing prospect to the passengers.

It was the passengers who were first seized with apprehension. Long before Honolulu was reached they had talked over all sides of the question. The officers poohpoohed the idea that they were paying any attention whatever to the Russians. They said it was laughable to see a lot of passengers get so worked up.

The news at Honolulu was that there had been no sea fight and the Manchooria was told to go ahead. It became known at once that she was to stop at the Midways for orders.

Then some of the minor officers of the ship admitted that the situation was serious. The captain and chief officer, however, tilted their noses high and said it was all nonsense.

Nevertheless, the Manchooria went out of her course and stopped at the Midways, loafing along slowly all of one day so as not to get near the place in the dark, because it is dangerous, with its coral reef ten miles in diameter.

At length the Manchooria hauled up in front of Midways about 8 o'clock one morning and sent off a small boat for orders. The Manchooria lay there until after 12 o'clock and then the captain practically admitted that "something was on."

Captain Saunders of the Manchooria is a jolly seadog, and he not only understands navigation well enough to hit a certain spot with accuracy of a civil engineer building a tunnel, but he knows something about jollying passengers. He was as clouse-mouthed as a Japanese war official about official matters. He encouraged the passengers to get up all sorts of games. One day the Japanese steerage passengers, of whom there were several hundred on board, going home from Hawaii, entertained the ship with wrestling contests, a baby show, tugs of war and the like, and on another day the men, women and children of the first cabin had sangeck. On another evening there was a so-called concert free to all the cabin passengers. All this took place after the Manchooria left the Midways.

Meantime, Captain Saunders was doing some fine figuring in his cabin on the instructions he had received from his home office at the Midways. The passengers, by watching the north star at night, thought they could see that he was running a considerable distance out of his usual course.

Some of the mathematicians among them began to do some figuring, also. It soon became known that the fear of capture had been working in the captain's noddle, and his hands again got worked up. Some of the officers admitted privately that they had even figured out just when the ship would probably be caught.

On Thursday, May 4th, a gale sprang up. It was from a little south of west. The ship was canted over to the starboard. While the passengers were at luncheon the ship suddenly canted over to port.

When these passengers came on deck again they thought that the wind had changed suddenly. A few of the wise ones soon made it out that captain had changed his course. He had gone far enough to the north, and now he was ready to make his run for akohama.

That was the night, when, if at all, he was likely to be caught. When the stars came out it was seen that ship was running south of west, when ordinarily she should be running north of west. It was evident that if the Russians were lying in wait for the ship in her usual course they would be fooled.

When light came the pasengers were astonished to find that the Manchooria was displaying no lights whatever. The canvas strips that had been used earlier in the day to keep the spray from the decks served excellently to screen many of the saloon lights.

By orders of the officers the wooden shutters over the portholes were slid into place to shut off other lights. The result wast that the Manchooria with nearly 600 passengers on board and possibly a crew of 200, was running at sea in violation of the United States statutes regarding navigation and also in violation of the international maritime code.

A small panic spread around the ship. Many nervous ones feared to go to bed. Some spoke to the captain when he came around to see if as many lights were screened as possibly could be.

Then it was known that the captain was no longer in a jovial mood. It was mighty serious business with him. A ship and cargo worth $5,000,000 were at stke.

Some of the passengers hinted to him that they thought that the lives of the people on board were worth more than a contraband cargo, even if it was valued at millions. They got only a grunt from him in reply. Others of the passengers then openly protested. They got the same answer.

All that night the Manchooria ran without lights like a pirate and although the danger was slight that she would hit anything there were those on board who said they thought the United States laws regarding navigation were made to be enforced. Some of them recalled how neglect of certain federal laws caused the loss of hundreds of lives on the General Slocum in New York harbor.

When morning came all breathed more freely. On Friday, May 5th, there were much speculation as to what the captain would do. No Russian warships were seen, and the fear of capture grew less. When thes tars came out it was seen that the ship was running still south of west, showing that the captain had gone quite a distance out of the usual track of vessels running to okohama from Honolulu.

By that time the ship was within less than 100 miles of Yokohama harbor. By 10 o'clock that night numerous lights were seen on vessels off the Japanese coast. The Manchooria had been running over since dark without lights again, and Capt. Saunders had left the bridge and had gone into the music room and ordered a steward to put the wooden shutters in place where the lights were showing through the windows.

The lights off the coast kept getting thicker and thicker, and many passengers stayed up, to be ready in case of a collision. At one time fully eight lights of vessels could be seen. Many of the passengers at first thought they were lighthouses.

At exactly 10:20 o'clock the captain ordered all lights turned on again, and once more the Manchooria was sailing the high seas legally. Yokohama was only a few miles away then. The many lights of cruising vessels showed to the captain that there were no Russian warships about, and a great load evidently rolled from his shoulders. When the passengers arose again they were sailing up the great Yokohama bay in a string of four steamships that had arrived at the entrance in the night, a naval vessel acting as a pilot past the dangerous mines.

There were some passengers on the Manchooria who said openly they hoped the Russians would get rid of the ship. They were lovers of adventure. Some of them thought it would serve the owners right for violating the navigation laws and running the risk of endangering hundreds of lives.

In the main, however, the passengers were glad that they did not fall into the hands of the Russians, and were almost overjoyed to know that they were safely in Yokohama harbor. Nevertheless, there was no doubt that the fear of capture had extended to everyone on board.

The Russian ships were phantoms, like the Spanish ones off the New England coasts in 1898, and it seemed peculiar that the only ones who apparently feared them were Americans. The Russian fool-killer had not been at work.

Endorsed By the Press.

Mame C. Fisher who, the Boston Herald declares, has done more than any other one person to create happiness and health in the home by her practical instructions on the art of cooking will lecture and give demonstrations every afternoon this week at 2 at the Zenith Furnace Co.'s appliance room, 331 West First street.

FOR JULY FOURTH.

Chicago's Mayor Forbids Use of Dangerous Explosives.

Chicago, June 14.—The sale of toy pistols and metal caps to children and the discharge of cannon and firearms are expressly forbidden in the Fourth of July proclamation issued by Mayor Dunne.

It is permitted to discharge fireworks on the Fourth in streets, vacant lots and public parks, under the supervision of the police, between 5 a. m. and midnight. The mayor wishes to lay special stress upon the prohibition of the discharge of firearms and the police are instructed to be specially active in arresting offenders.

The Misery of Piles

Thousand know it and thousands daily submit, through their ignorance, to the torture of the knife.

They are ignorant of the fact that there is an internal remedy that will positively and painlessly cure.

Dr. Perrin's Pile Specific

The Internal Remedy

strikes at the prime causes of piles—indigestion, congestion of the liver and constipation. These causes are removed and removed for good. Get a bottle today and see how well it proves the truth of this statement.

For dyspepsia, indigestion, constipation, biliousness, catarrh of the stomach and kindred ailments it is the greatest remedy that has ever yet benefited mankind.

When these troubles are taken care of and cured, Piles will be a thing of the past.

Dr. Perrin Medical Co., Helena, Mont.

Gray-Tallant Co — Gray-Tallant Co

Smart Summer Wear.

An Exhibition of Beautiful Styles —An Exploitation of Little Prices.

We are proud of the splendid array of fashionable summer clothes that fills the suit section today—proud of its beauty and excellence, proud of its graceful styles, proud of its little prices. Come and see it, and you'll agree that summer is the ideal time of the year to dress prettily and Gray-Tallant Co.'s the ideal stock.

LINEN SUITS, WHITE AND COLored—fresh as a clover blossom. A beautiful variety of styles—plain, tucked, stitched and embroidered. Prices range from $35.00 down to..... **$3.98**

LINEN COATS, LONG OR MEDIum length with loose flowing sleeves; open-work embroidery in contrasting or self colors. Extremely stylish affairs, priced at from $25.00 down to.. **$7.50

SILK COATS IN ALL LENGTHS—full, medium and short box styles. Some entirely covered with lace, others trimmed with lace, embroidery and braid and shirred and pleated. From $25.00 down to..... **$6.50**

WASH SKIRTS OF LINEN, PIQUE wool crash, Sicilian and rep. A necessity for summer weather. Prices from $10.00 down to..... **$3.98**

New Shirt Waists

In linen, lawn and Jap silk with handsome embroidery, lace and hemstitched effects, from 98c to $4.98. Lace, net and chiffon taffeta waists, black and cream white, $6.50 to $20.00.

Cream Mohairs and Shepherd Checks.

62½c worth $1.25

for cream mohair in heavy corded and nub effects, finely woven and with a high, lustrous finish. Half price for one day. Think of it—and cream mohair evident everywhere—from now on.

Shepherd checks, 50 and 54 inches wide. Very stylish, very summery and suggestive of swagger suits and coats. Thursday we offer six pieces in brown, blue and black checks—$1.25 regularly—at 95c. **95c** worth $1.25

Fancy Lisle Hose 29c, Value 50c.

Drop stitch with white polka dots; extra high-spliced heel and double sole. Almost half the regular price tomorrow.

Cotton Union Suits 50c Value 59c.

Extra sized, lace-trimmed umbrella style, low neck and sleeveless. Of interest to women who want extra large-sized garments.

Half Price for Wash Goods Remnants

Good usable lengths of ginghams, lawns, dimities, organdies and batistes. As full of bargains as an egg is of meat.

12½c for 20c, 25c and 30c Suitings.

For shirt waist suits—in brown, black and green mixtures. Full of every day prettiness and a decided bargain.

Women's Silk Gloves 69c, Value 75c.

5c for 10c Box Paper.

24 sheets of cream white paper, either plain or ruled—and 24 envelopes to match—all boxed.

HONOR THE FLAG

Women's Relief Corps Observes Flag Day With Program.

C. M. Wilson Urges General Patriotic Observance of Day.

At the Temple building last evening, the ladies of the Women's Relief Corps, No. 69, auxiliary to Culver Post, G. A. R., gave a delightful patriotic entertainment in celebration of Flag day, which occurs today. The hall which was appropriately decorated with flags and streamers, was well filled with ladies, members of the G. A. R. and their friends, and the exercises were duly appreciated.

The occasion was also a reception for Mrs. James H. Sullivan of Duluth, who received the honor of being chosen junior vice president of the department of Minnesota, W. R. C., and for Dr. C. M. Wilson, of Culver post, G. A. R., department inspector.

The program included some well rendered musical selections by Don Gearhart and Miss Alberta McMullen and recitations by Miss Adele McClaran. Marcus W. Bates read a war poem, "The Drummer Boy of Mission Ridge," which is of particular interest to the local old soldiers for the reason that one of the departed members of Culver Post took part in the rescue of the wounded drummer boy, from in front of the Rebel breastworks in the memorable and bloody battle.

Mrs. Sullivan responded to calls for a talk and expressed her appreciation for the honor conferred on her and her pleasure at being one of the guests of the occasion.

Dr. C. M. Wilson made the address of the evening, taking for his topic "The American Flag." He urged a more general observance of Flag day and asked that every citizen take part in the patriotic celebration on Flag day, every year, by flinging Old Glory out to the breeze.

Dr. Wilson gave a detailed and very interesting history of the origin of the Star Spangled banner and showed from history that the United States flag, while yet comparatively young, is the oldest flag among those of existing nations today. He closed with a reading of a patriotic and eloquent eulogy to the flag delivered at one of the national encampments of recent years by one of the old soldiers.

Among the guests of the evening were several members of Culver and Gorman posts and members of the G. A. R. and W. R. C. from Superior.

Thomas Owens, a member of the G. A. R. at Rhinelander, Wis., who was a business caller in the city yesterday, stayed over last evening to attend the celebration.

The program was followed by a social session during which light refreshments were served.

ROYAL FEAST ENJOYED

By Tramps Off Gold and Silver Ware.

Chester, Pa., June 14.—According to the statement of a railroad man who lives in this city and was an eye witness of the affair, tramps and yeggmen who frequent the lines of the Philadelphia, Baltimore and Washington railroad between Philadelphia and Baltimore, held a royal banquet, with silver sets valued at $20,000.

Solid silver was handled by the roadsters and outcasts as if it were nothing more than ordinary tinplate, and the story of the night dinner rivals that of the millionaire club.

The scene of the midnight feast was in a grove near Perryville. A freight car had been broken open and some of Tiffany's finest art gems in solid silver, consigned by the New York house to parties in Washington, were stolen and and carried to the grove.

Foraging parties were sent out by the nomads, and soon silver chafing dishes were used for frying chicken, and goldlined goblets were utilized for quaffing the foaming beer.

In the height of the frolic police and detectives swooped down on the merry-makers and made one or two arrests; but the majority of the "Weary Willies" made their escape. The railroad authorities have been keeping the real facts quiet.

ORDER OF EAGLES

Originates From Jocular Gathering of Five Men In Seattle.

Now One of Largest Fraternal Bodies—The Duluth Program.

Out of a little gathering of five men held on Sunday, February 5, 1898, in the city of Seattle, the Fraternal Order of Eagles had its birth, and during the seven years which have elapsed since that time, the order has grown to be one of the largest fraternal bodies on the American continent.

The meeting of these five men was held more in a jocular spirit, than with any idea of forming a fraternal body. The men were John Cort, John W. Considine, H. L. Leavitt, T. J. Considine and W. Goldsmith.

But the order which they had started in a spirit of fun, very rapidly assumed a serious aspect, and a foundation of sound principles replaced the jocular program which had been outlined by the founders.

Meetings continued to be held and the association became a permanent one, the name being given by John Cort, one of the founders.

The name was a happy selection for the young order, which held liberty as first among its principles. The other three virtues which are among the cardinal principles of the order, are Truth, Justice and Equality.

The young order rapidly spread from the confines of the city of Seattle, and aeries were organized in the different coast cities. Then came the establishment of the first grand aerie, and unlike most of the other fraternal bodies, the Eagles began to work their way eastward. Others had their birth in the East and worked westward, but the vigorous young society springing up in the city of Seattle, came out of the West, and it was less than five years before every state in the union had an aerie.

The Duluth aerie will be six years of age in August. It has now nearly 500 members in good standing, and has recently furnished a magnificent new hall at the expense of over $3,000.

The officers of the Duluth aerie are as follows: District deputy, T. J. Madden; junior past president, Stephen J. Parker; worthy president, W. E. Brown; worthy vice-president, James W. Parker; worthy chaplain, A. J. Lyle; worthy secretary, John Schroeder; worthy treasurer, John Gonska; worthy conductor, Harry Gouth; worthy inside guard, Fred. Isham; worthy outside guard, George W. Marcey; worthy trustees, E. A. Pierce, A. T. Ellsworth, F. E. Berry; worthy physician, A. K. Norton.

Such is the order, 5,000 members of which will be in Duluth tomorrow to attend the annual state convention. The local aerie is sparing no expense to make the stay of the visitors in the city a pleasant one, and in this they are being ably assisted by the business men, merchants and the Commercial club.

Special efforts are being made by the members to have the city present the best possible appearance, and two prizes of $20 and $20 have been offered for the best decorated building. Every public-spirited citizen is urged to get out all the flags and bunting he possesses, and decorate his home, or office or store. Already the decorations are making their appearance, and some of the store windows are triumphs of the window dresser's art. The outdoor decorations will be put up today and tomorrow, and by tomorrow night it is safe to say the city will take on its most gala appearance.

The convention will open tomorrow evening and close Sunday. The official program is as follows:

THURSDAY.

8:30 p. m.—Social session free to all Eagles.

FRIDAY.

10:00 a. m.—Address of Welcome, Worthy President W. E. Brown, No. 79.
Address—"Freedom of City," Mayor M. B. Cullum.
Response by Grand Worthy Vice President J. H. Ellis, Minneapolis, 34.
Calling of Convention to Order by J. W. Shadewald, State Deputy Grand President.
Election of permanent officers.
Appointment of committees.
2:30 p. m.—Address—J. F. Pelletier, Grand Worthy President Kansas City.
Routine business.
8:30 p. m.—Grand Vaudeville Entertainment for Eagles only, at Lyceum theater.

SATURDAY.

10:30 a. m.—Baseball, Duluth vs. St. Paul. Prize, $50, only Eagles of each Aerie permitted to play.
2:00 p. m.—Street Parade.
4:30 p. m.—Routine Business of Convention.
8:00 p. m.—Armory where Band contests and distribution of prizes will take place as follows:

Best Bands—First prize, $300; second prize, $75; third prize, $25.

Largest Aerie	$100 00
Best Drilled Aerie	100 00
Best Uniformed Aerie	100 00
Largest Eagle	5 00
Smallest Eagle	5 00
Handsomest Eagle	5 00
Homliest Eagle	5 00

To conclude with Grand Ball.

Minnesota, North and South Dakota, Michigan and Wisconsin can compete for prizes.

Duluth Aerie No. 79 barred on all prizes. Superior Aerie No. 99 barred on numbers only.

SUNDAY.

10:00 a. m.—Boulevard drive, free.
2:00 p.m.—Cruise on Lake Superior, free

Pain may go by the name of rheumatism, neuralgia, lumbago, pleursey. No matter what name the pains are called, Hollister's Rocky Mountain Tea will drive them away. 35 cents, Tea or Tablets. Ask your druggist.

P. S.—Special reductions on Ties, Collars and Shirts—we have the kind you want.

AMERICAN BOATS

Carrying Supplies to Japan Were Scared of the Russians.

Ran Away From Phantom Warships of Harbor of Yokohama.

New York, June 14.—A Tokio letter to the Sun, dated May 8, says: They are running away from phantam Russian warships off the harbor of Yokohama much as they were running from phantom Spanish warships in the war with Spain off the New England coat in 1898, at the time when shore cottagers put out their lights at night for fear a Spanish shell might land in their homes before morning. And the queer part of it is that the Americans are the ones who are doing the running. For months not a steamship has arrived at Yokohama from the United States that has not been loaded down with war supplies.

When the Baltic fleet reached Southern China the scare began. The managers of the American lines to Yokohama at once proceeded to get frightened.

It is a long way from Yokohama to Kamranh bay, but somehow the American managers thought that Russia might have called in the foolkiller for work in her navy department and that he might have arranged it so that a sensible man would get in charge. They conceived the idea that Russian warships might be lying in wait off Yokohama to gather in cargoes worth millions and ships like the great Manchooria of the Pacific Mail line, also worth millions, that would be invaluable as transports.

Therefore, the Pacific Mail line took to running its steamships without lights when approaching the coast of Japan. The latest vessel to be run in this way was the Manchooria, which left San Francisco on April 18th and arrived at Yokohama May 6th. Of course, the navigation laws of the United States prohibit this, but the penalty is a fine which is merely nominal compared to the value of a contraband cargo, and hence the risk was taken of being found out.

The value of the Manchooria and her cargo was close to $5,000,000. It was too fine a prize to risk letting the Russians get. All they would have had to do was to detach a torpedo-boat, let it be in the route of the Manchooria until she came along and then put a prize crew of three or four men on it, and send the prize, passengers and all, to Vladivostok.

Therefore, the Pacific Mail people, proceeding on the theory that the Russian fool-killer might be at work, took no chances. Five days ahead of the Manchooria was the Doric of the Pacific Mail line, also loaded to the gunwales with war supplies, but whether the same precautions were taken with her as with the Manchooria the writer knows nothing, except from rumor and that says that she too was run without lights.

The Manchooria had this kind of war supplies on board: Two submarine boats, a large amount of quicksilver to be used in making explosives, several sets of gun carriages, a lot of railroad material for use in Manchuria, lead for making bullets and leather for army use, besides other material for supplies for the Japanese army.

To crown all this she had in her strong box $1,500,000 in specie for the Japanese government, a pretty fine prize for a Russian gunboat or torpedo-boat to capture. One shot from a rifle would have done the trick. The Manchooria is a sixteen-knot boat and would not have dared to run away.

Among the passengers on the ship were: Minister Rockhill on his way to China, Consul General Rodgers on his way to Shanghai, Consul General Miller on his way to Yokohama, and Consul General Summons on his way to Da Chwung. It was agreed generally on board that Russia would regard these gentlemen merely as distinguished American citizens, and that their presence would not in the last affect the determination to send all hands to Vladivostok in the event of capture.

Of course, it was also believed that Russia, as a friendly act, would release these gentlemen and their families as soon as possible, but all of them speculated intently as to the possibility that they might not reach their official posts for some time.

In addition to these gentlemen there sailed on the Manchooria a Mr. Cable, agent for the company that builds the Holland submarine boats. He was booked for Yokohama, and his name was so entered on the passenger list.

He found it convenient, however, to get off at Honolulu and remain there until the next steamer. It was said that he probably would not care to be found on the same ship with some of his boats which would be considered as contraband of war. He had just come from Saint Petersburg, where he had gone to sell submarines to the Russian government.

The scare about the Manchooria began before the vessel left San Francisco. The newspapers there printed the fact that she carried war supplies, and, of course, the Russian spies and agents in that city knew upractically everything that went in her hold. You can't load a great ship like the Manchooria, one of the largest in the world, in the dark. There was conjecture in San Francisco and elsewhere as to whether the Russians would get the ship by detaching a vessel from Rojestvensky's fleet, then at Mamranh bay.

The Manchooria hadn't been a day out before it was known that special orders were to be cabled to her at Honolulu about going farther. A Russian victory over Togo would probably have meant an indefinite stay at Honolulu.

If there was no news about the great naval fight that was expected, it was known that the Manchooria had orders to stop at that most inaccessible and seldom visited place, the Midway Islands, where there is a cable station. A probable stay at that desolate coral reef was not a pleasing prospect to the passengers.

It was the passengers who were first seized with apprehension. Long before Honolulu was reached they had talked over all sides of the question. The officers poohpoohed the idea that they were paying any attention whatever to the Russians. They said it was laughable to see a lot of passengers get so worked up.

The news at Honolulu was that there had been no sea fight and the Manchooria was told to go ahead. It became known at once that she was to stop at the Midways for orders.

Then some of the minor officers of the ship admitted that the situation was serious. The captain and chief officer, however, tilted their noses high and said it was all nonsense.

Nevertheless, the Manchooria went out of her course and stopped at the Midways, loafing along slowly all of one day so as not to get near the place in the dark, because it is dangerous, with its coral reef ten miles in diameter.

At length the Manchooria hauled up in front of Midways about 8 o'clock one morning and sent off a small boat for orders. The Manchooria lay there until after 12 o'clock and then the captain practically admitted that "something was on."

Captain Saunders of the Manchooria is a jolly seadog, and he not only understands navigation well enough to hit a certain spot with accuracy of a civil engineer building a tunnel, but he knows something about jollying passengers. He was as clouse-mouthed as a Japanese war official about official matters. He encouraged the passengers to get up all sorts of games. One day the Japanese steerage passengers, of whom there were several hundred on board, going home from Hawaii, entertained the ship with wrestling contests, a baby show, tugs of war and the like, and on another day the men, women and children of the first cabin had games. On another evening there was a so-called concert free to all the cabin passengers. All this took place after the Manchooria left the Midways.

Meantime, Captain Saunders was doing some fine figuring up in his cabin on the instructions he had received from his home office at the Midways. The passengers, by watching the north star at night, thought they could see that he was running a considerable distance out of his usual course.

Some of the mathematicians among them began to do some figuring, also. It soon became known that the fear of capture had been working in the captain's noddle, and all hands again got worked up. Some of the officers admitted privately that they had even figured out just when the ship would probably be caught.

On Thursday, May 4th, a gale sprang up. It was from a little south of west. The ship was canted over to the starboard. While the passengers were at luncheon the ship suddenly canted over to port.

When these passengers came on deck again they thought that the wind had changed suddenly. A few of the wise ones soon made it out that captain had changed his course. He had gone far enough to the north, and now he was ready to make his run for akohama.

That was the night, when, if at all, he was likely to be caught. When the stars came out it was seen that ship was running south of west, when ordinarly she should be running north of west. It was evident that if the Russians were lying in wait for the ship in her usual course they would be fooled.

When light came the pasengers were astonished to find that the Manchooria was displaying no lights whatever. The canvas strips that had been used earlier in the day to keep the spray from the decks served excellently to screen many of the saloon lights.

By orders of the officers the wooden shutters over the portholes were slid into place to shut off other lights. The result wast that the Manchooria with nearly 900 passengers on board and possibly a crew of 200, was running at sea in violation of the United States statutes regarding navigation and also in violation of the international maritime code.

A small panic spread around the ship. Many nervous ones feared to go to bed. Some spoke to the captain when he came around to see if as many lights were screened as possibly could be.

Then it was known that the captain was no longer in a jovial mood. It was mighty serious business with him. A ship and cargo worth $5,000,000 were at stke.

Some of the passengers hinted to him that they thought that the lives of the people on board were worth more than a contraband cargo, even if it was valued at millions. They got only a grunt from him in reply. Others of the passengers then openly protested. They got the same answer.

All that night the Manchooria ran without lights like a pirate and although the danger was slight that she would hit anything there were those on board who said they thought the United States laws regarding navigation were made to be enforced. Some of them recalled how neglect of certain federal laws caused the loss of hundreds of lives on the General Slocum in New York harbor.

When morning came all breathed more freely. On Friday, May 5th, there were much speculation as to what the captain would do. No Russian warships were seen, and the fear of capture grew less. When thes tars came out it was seen that the ship was running still south of west, showing that the captain had gone quite a distance out of the usual track of vessels running to okohama from Honolulu.

By that time the ship was within less than 100 miles of Yokohama harbor. By 10 o'clock that night numerous lights were seen on vessels off the Japanese coast. The Manchooria had been running ever since dark without lights again, and Capt. Saunders had left the bridge and had gone into the music room and ordered a steward to put the wooden shutters in place where the lights were showing through the windows.

The lights off the coast kept getting thicker and thicker, and many passengers stayed up, to be ready in case of a collision. At one time fully eight lights of vessels could be seen. Many of the passengers at first thought they were lighthouses.

At exactly 10:20 o'clock the captain ordered all lights turned on again, and once more the Manchooria was sailing the high seas legally. Yokohama was only a few miles away then. The many lights of cruising vessels showed to the captain that there were no Russian warships about, and a great load evidently rolled from his shoulders. When the passengers arose again they were sailing up the great Yokohama bay in a string of four steamships that had arrived at the entrance in the night, a naval vessel acting as a pilot past the dangerous mines.

There were some passengers on the Manchooria who said openly they hoped the Russians would get the ship. They were lovers of adventure. Some of them thought it would serve the owners right for violating the navigation laws and running the risk of endangering huadreds of lives.

In the main, however, the passengers were glad that they did not fall into the hands of the Russians, and were almost overjoyed to know that they were safely in Yokohama harbor. Nevertheless, there was no doubt that the fear of capture had extended to everyone on board.

The Russian ships were phantoms, like the Spanish ones off the New England coasts in 1898, and it seemed peculiar that the only ones who apparently feared them were Americans. The Russian fool-killer had not been at work.

Endorsed By the Press.

Mame C. Fisher who, the Boston Herald declares, has done more than any other one person to create happiness and health in the home by her practical instructions on the art of cooking will lecture and give demonstrations every afternoon this week at 2 at the Zenith Furnace Co.'s appliance room, 331 West First street.

FOR JULY FOURTH.

Chicago's Mayor Forbids Use of Dangerous Explosives.

Chicago, June 14.—The sale of toy pistols and metal caps to children and the discharge of cannon and firearms are expressly forbidden in the Fourth of July proclamation issued by Mayor Dunne.

It is permitted to discharge fireworks on the Fourth in streets, vacant lots and public parks, under the supervision of the police, between 5 a. m. and midnight. The mayor wishes to lay special stress upon the prohibition of the discharge of firearms and the police are instructed to be specially active in arresting offenders.

The Misery of Piles

Thousand know it and thousands daily submit, through their ignorance, to the torture of the knife.

They are ignorant of the fact that there is an internal remedy that will positively and painlessly cure.

Dr. Perrin's Pile Specific

The Internal Remedy

strikes at the prime causes of piles—indigestion, congestion of the liver and constipation. These causes are removed and removed for good. Get a bottle today and see how well it proves the truth of this statement.

For dyspepsia, indigestion, constipation, biliousness, catarrh of the stomach and kindred ailments it is the greatest remedy that has ever yet benefited mankind.

When these troubles are taken care of and cured, Piles will be a thing of the past.

Dr. Perrin Medical Co. Helena, Mont.

Newest Hand Bags $1.13 Values $1.25, $1.50.

Black, brown, blue, green and tan, with leather covered, gun metal or gold-plated frames. The "Avenue" and carriage styles.

37c for 75c Undermuslins

Drawers and knee-length skirts—all new and prettily tucked and trimmed with lace or hemstitching.

Welcome Eagles.

Meet your wives and friends at Grav-Tallant Co.'s — directly opposite the Duluth Aerie—it's homelike and cheerful. Leave your bundles and purchases and anything else you want—we'll care for them.

5c for 10c Box Paper.

24 sheets of cream white paper, either plain or ruled—and 24 envelopes to match—all boxed.

HONOR THE FLAG

Women's Relief Corps Observes Flag Day With Program.

C. M. Wilson Urges General Patriotic Observance of Day.

At the Temple building last evening, the ladies of the Women's Relief Corps, No. 69, auxiliary to Culver Post, G. A. R., gave a delightful patriotic entertainment in celebration of Flag day, which occurs today. The hall which was appropriately decorated with flags and streamers, was well filled with ladies, members of the G. A. R. and their friends, and the exercises were duly appreciated.

The occasion was also a reception for Mrs. James H. Sullivan of Duluth, who received the honor of being chosen junior vice president of the department of Minnesota, W. R. C., and for Dr. C. M. Wilson, of Culver post, G. A. R., department inspector.

The program included some well rendered musical selections by Don Gearhart and Miss Alberta McMullen and recitations by Miss Adele McClaran. Marcus W. Bates read a war poem, "The Drummer Boy of Mission Ridge," which is of particular interest to the local old soldiers for the reason that one of the departed members of Culver Post took part in the rescue of the wounded drummer boy, from in front of the Rebel breastworks in the memorable and bloody battle.

Mrs. Sullivan responded to calls for a talk and expressed her appreciation for the honor conferred on her and her pleasure at being one of the guests of the occasion.

Dr. C. M. Wilson made the address of the evening, taking for his topic "The American Flag." He urged a more general observance of Flag day and asked that every citizen take part in the patriotic celebration on Flag day, every year, by flinging Old Glory out to the breeze.

Dr. Wilson gave a detailed and very interesting history of the origin of the Star Spangled banner and showed from history that the United States flag, while yet comparatively young, is the oldest flag among those of existing nations today. He closed with a reading of a patriotic and eloquent eulogy to the flag delivered at one of the national encampments of recent years by one of the old soldiers.

Among the guests of the evening were several members of Culver and Gorman posts and members of the G. A. R. and W. R. C. from Superior.

Thomas Owens, a member of the G. A. R. at Rhinelander, Wis., who was a business caller in the city yesterday, stayed over last evening to attend the celebration.

The program was followed by a social session during which light refreshments were served.

ROYAL FEAST ENJOYED

By Tramps Off Gold and Silver Ware.

Chester, Pa., June 14.—According to the statement of a railroad man who lives in this city and was an eye witness of the affair, tramps and yeggmen who frequent the lines of the Philadelphia, Baltimore and Washington railroad between Philadelphia and Baltimore, held a royal banquet, with silver sets valued at $20,000.

Solid silver was handled by the roadsters and outcasts as if it were nothing more than ordinary tinplate, and the story of the night dinner rivals that of the millionaire club.

The scene of the midnight feast was in a grove near Perryville. A freight car had been broken open and some of Tiffany's finest art gems in solid silver, consigned by the New York house to parties in Washington, were stolen and and carried to the grove.

Foraging parties were sent out by the nomads, and soon silver chafing dishes were used for frying chicken, and goldlined goblets were utilized for quaffing the foaming beer.

In the height of the frolic police and detectives swooped down on the merry-makers and made one or two arrests; but the majority of the "Weary Willies" made their escape. The railroad authorities have been keeping the real facts quiet.

The merchant who advertises gives you the same opportunities to secure bargains that your neighbor has. Publicity equalizes opportunity. Nowadays there is no reason for your not having heard about some special sale.

The Principal Principle

of The Columbia Clothing Co. always was, is and will be to have the good will of all the people. We know it is something hard to get and easy to lose. It can only be acquired by gaining the confidence of the people, by doing exactly as you say in your advertisements, and by cheerfully correcting any unintentional mistakes apt to occur in any business. One fake sale, on the other hand, can destroy the confidence built up by years of honest endeavor.

Any man in Superior or who has lived in Superior (we see a good many of them on the streets and in the offices of Duluth) will tell you that this "principal principle" is the corner stone of the successful Columbia store. Now that our long-looked-for opportunity has come to get a foothold in Duluth, we want you to watch us closely. Nothing less than a chance to be the biggest fish in the pond would ever satisfy us. Buying the Burrows store is no small undertaking, but we have ample capital and enterprise to do big things on both sides of the bay.

The Columbia
Clothing Company.

ALL ARE HERE

Parties Interested In Ferry Bridge Litigation In the City.

Some Agreement May Be Arrived at Between Them.

All the parties interested in the litigation concerning the aerial bridge, with the exception of the representatives of the bond holders of the old Duluth Canal & Bridge company, are in the city today, and it is not unlikely that some agreement will be arrived at.

C. A. P. Turner, the architect who is threatening suit to recover for his patent rights, his attorney F. B. Hart of Minneapolis, and J. K. Lowry, the superintendent of the Modern Steel Structural company, are all in the city, and it is not unlikely that they will confer with City Attorney Bert Fesler in regard to some settlement of the matter out of court. All three parties are anxious to avoid litigation if possible, and if it were not for the Commercial Investment company, it is likely that the whole matter could be settled up without difficulty.

"It is the city's move," said Mr. Lowry this morning, in speaking of the matter. "The Modern Steel Structural company will not be the loser. We can go into court at any time and have judgment entered against the city for the cost of the work and the interest that has accrued since the bridge was accepted. So in the end we can't lose anything no matter how it goes. But the difficulty is that we counted on the money to be used in our business, and it is forcing us to take steps to raise ready money by other means to carry out some large contracts we have on hand.

"The company has been trying to help the city settle the matter, and close the deal, in order that we may get our money more quickly, but we have no fear of losing anything in the long run whether the bonds are disposed of or not.

"Just what will be done, I can't say, and I don't believe anybody knows. We are up here today getting some information and taking some depositions, which will be laid before our attorneys."

Persian Nerve Essence

RESTORES VITALITY—Have cured thousands of cases of Nervous Debility, Insomnia, Varicocele and Atrophy. CREW REACHES ALBUQUERQUE

G. S. Richards of the National Employment company, who sent forward to Albuquerque, N. M., several days ago a crew of 102 men to work in the woods and at the sawmill for the American Lumber company, has received word from Albuquerque that the crew got through safely with the loss of but five men. These deserted the train at points which it is believed they were endeavoring to reach when they hired out to go to Albuquerque, planning on getting free fare.

The Northern woodsmen sent to New Mexico forests give such good satisfaction that Mr. Richards is notified to ascertain from the railroads if they will make a permanent low rate from Duluth to Kansas City for lumberjacks, tie-makers, etc. It is claimed that with a rate of $12 for the trip from Duluth there is a possibility of placing men at work right along, the men to pay their own fare with a promise of a refund at the end of six months.

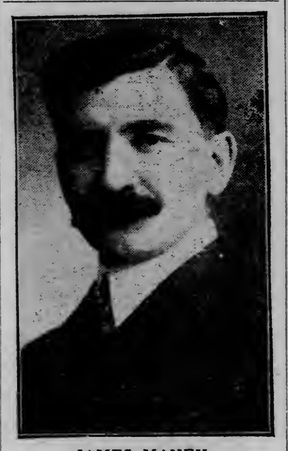
OFFICIAL CHANGES

South Shore Company's General Passenger Department Opens Here.

Railroad Officials Attend G. W. Hibbard's Farewell Banquet.

The general passenger department of the South Shore road, which has been moved from Marquette to Duluth, will be officially opened by Mart Adson, general passenger agent of the South Shore and Mineral Range lines, tomorrow. The furniture and office fixtures arrived from Marquette several days ago and the work of preparing the new suite of offices in the Manhattan building is now completed. The general passenger department will occupy rooms 418, 423 and 423 and about eight clerks will be employed by Mr. Adson and his assistant.



JAMES MANEY,
Assistant General Passenger Agent of South Shore Road.

James Maney, formerly chief clerk to Mr. Hibbard, the retiring general passenger agent has been appointed assistant general passenger agent and will have offices with Mr. Adson.

Tomorrow, also, Andrew J. Perrin, formerly city passenger agent for the South Shore road in Superior, will assume the general agency of the road in Duluth, the position formerly held by Mr. Adson and J. D. Morrisey, the former general freight agent at Superior is advanced to general passenger and freight agent in that city.

The South Shore company's auditors have been busy checking up the books and getting them ready to turn over to the new officials with the changes to be inaugurated tomorrow.

A. J. PERRIN,
New General Agent of South Shore Road at Duluth.

One of the pleasant social events in which some of the Head of the Lakes railroad men will participate this evening will be a large banquet to be given at Marquette to George W. Hibbard, by his friends in the Copper Country. Mr. Hibbard's friends there are almost too numerous to count and they have decided to give him a farewell "send-off" that he will have occasion to remember the rest of his life.

Among those who left Duluth for Marquette to be present at the festivities this evening were A. J. Perrin, the new general agent and James Maney, new assistant general passenger agent. They were accompanied by Thomas H. Larke of Minneapolis, who for many years was general agent of the South Shore road at this point and whom Mr. Adson succeeded when Mr. Larke resigned to accept the Northwestern agency for an Atlantic line of steamers.

It is expected that Mr. Larke, Maney and Perrin will respond to toasts at the banquet given this evening.

Mr. Hibbard in severing his connections with the South Shore road assumes the general passenger agency of the National Lines of Mexico, a broader field to which his associations with the South Shore and Mineral Range lines have fitted him during the many years that he has been so connected.

TO HURRY WORK.

Superior Union Depot Will Be Pushed.

The first ground for the new union depot in Superior was turned by the contractors yesterday, and a crew of men are making progress on the trenches for the masonery. The construction work is to be pushed as rapidly as possible, and, barring unexpected delays, the new depot is to be ready for use by the last of next October.

The building will be of browstone, the center of which is to be at the center of Broadway and twenty feet nearer Oakes avenue than the present station. The baggage room will be established in the south end and there will be a lunch room in the north end, with waiting rooms, ticket offices, etc., between. The rooms will have hardwood finished and tiled floors. The office of the Terminal company will occupy the second floor.

The platforms will be granolithic, of cement construction and there will be walks and driveways around the station, possibly of asphalt.

DAMAGE IS LARGE

Many Reports Received By Board of Public Works.

Basements Flooded, Roads Destroyed and Culverts Carried Away.

Reports of damage by yesterday's storm, have been pouring into the office of the board of public works all morning, and it is evident that the rain did much more damage than was at first supposed.

The sewer on First avenue West became blocked in some way, possibly by the sand that was washed out from between the sandstone blocks, and all the basements of the buildings along Michigan street between Lake avenue and First avenue West were flooded. Th damage is hard to estimate, but it is likely to be quite extensive.

A portion of Oxford street above Woodland avenue was washed out by the heavy rain, and the repairs necessary will require quite an expenditure of money.

On St. Marie street West of Kenwood road, a large culvert was washed out by the storm, and will have to be replaced.

The family living at 307 Norman street, which is located near Thirty-second avenue West, was compelled to move out of the building on account of the flood of water which poured into the basement and lower story.

At 109 West First street, the boarders were compelled to seek their breakfast elsewhere, this morning, owing to the flooded condition of the basement, which was lying under two or three feet of water. The flood is said to have been caused by an obstruction in a gutter in the alley between First and Second streets.

Similar reports have been received from a dozen other places in all parts of the city. The reports all tell of flooded basements, clogged gutters, sections of the roadway washed away, culverts carried off, and even sidewalks torn up by the flood of water which fell during the storm. It is impossible to estimate the total amount of damage done, but the aggregate amount of such minor mishaps as these will run into hundreds of dollars.

CHOLERA AT TULA.

St. Petersburg, June 14.—Three suspicious cases believed to be cholera have occurred at Tula, 120 miles south of Moscow.

Fashionable Summer Wearables tomorrow.

The latest fashionable creations in cool, comfortable, summer garb — styles such as reflect credit upon the makers—garments that will appeal to people of good taste.

Endured Agonies from Stomach Trouble.

Steamship Officer Clay Afflicted With Chronic Constipation and Dyspepsia.

Tried Medicine in Vain, but Secured No Relief Until He Was Induced to Take Duffy's Pure Malt Whiskey.

OTIS J. CLAY.

Savannah, Ga., Oct., 7, 1904.

For a long time I suffered intensely from what appeared to be a chronic case of stomach trouble, which was accompanied by all the pangs of indigestion, constipation and dyspepsia. I tried different medicines in vain, and nothing did me any good until I was advised to take Duffy's Pure Malt whiskey. The first bottle relieved my distress, and in a short time I was cured. I consider your Pure Malt Whiskey the best medicine in the world for all diseases of the stomach and digestive organs.

OTIS J. CLAY, 409 Jones Street.

Duffy's Pure Malt Whiskey

For over half a century Duffy's Pure Malt Whiskey has been prescribed and recommended by doctors and used in hospitals as the most valuable aid in the treatment of patients suffering from weak and diseased stomachs. It purifies and enriches the blood, quickens the circulation, builds up new nerve, muscle and brain tissue, and gives fresh vitality and power to every organ and function of the body. It is the only positive cure and preventive of pneumonia, consumption, grip, malaria, and all bowel, stomach, throat and lung troubles.

It is absolutely free from fusel oil, and is the only whiskey recognized by the Government as a medicine.

CAUTION.—Refuse substitutes and dangerous imitations. There is only one Duffy's Pure Malt Whiskey. Sold by all reliable druggists and grocers, or sent direct, $1.00 per bottle. See that the 'Old Chemist" trade-mark is on the label. Medical booklet and doctor's advice on application. Duffy's Malt Whiskey Co., Rochester, N. Y.

MAKES LARGE DONATION

A. D. Thomson Gives $10,000 to Macalester College Fund.

At a banquet given by A. D. Thomson to the men of the First Presbyterian church and congregation, at the Kitchi Gammi club, last evening, Rev. Thomas H. Cleland, toastmaster for the occasion, announced that Mr. Thomson would donate $10,000 toward the endowment fund which is being raised for Macalester college, at St. Paul.

The announcement was greeted with much applause, and Mr. Thomson stated that he was making the gift because he believed that it was money given for a good cause, that the college has always been looked on as an instrument of great benefit to the state and country.

The donation by Mr. Thomson has no special conditions attached to it. The money goes to swell the $500,000 endowment fund, which, with Mr. Thomson's donation, now reaches $375,000.

Mr. Thomson was last Wednesday elected a director of the college board.

The dinner last evening was given with the idea of awakening interest in the college, and there were a number of St. Paul men present as guests.

Toastmaster Dr. Cleland stated that all present were friends of the college and were there to discuss its good.

Rev. James Wallace, president of Macalester college, told of the good work the institution is accomplishing and the existing conditions there. President Wallace was followed with speeches from Prof. Thomas Shaw, president of the board of trustees of the college, and Mr. Kirk of the St. Paul firm of Farwell, Osman & Kirk.

The Stage

COMING ATTRACTIONS.

LYCEUM—Saturday afternoon and evening, Chauncey Olcott.

CHAUNCEY OLCOTT.

Chauncey Olcott, the favorite comedian and sweet singer, comes to the Lyceum Saturday afternoon and evening. He will appear in a fine production of his popular romantic comedy, "A Romance of Athlone," by Augustus Pitou, his manager. Nothing handsomer in scenery, costumes and effect has ever been seen on any stage. The star and play have made a substantial hit in all the large cities, and the press and public gave their approval during the five months it ran on Broadway, New York. The play has genuine heart interest, plenty of romance and comedy, and just enough pathos to satisfy the average audience, and gives Mr. Olcott in the title character a chance to show all his poses, the part calling for strong dramatic work, while the comedy is most bright and witty. Mr. Olcott's ever popular song, "My Wild Irish Rose," was written and composed by him expressly for this play.

Social, Musical and Club Circles.

The wedding of Mrs. Cora Hubbell McDougall, daughter of Mr. and Mrs. A. C. Hubbell, and William L. Johnson, took place at 1 o'clock today at the home of the bride's parents, at 1105 East First street. Only the immediate friends were present for the ceremony, which took place at 1 o'clock, the service being read by Rev. Harry White. The bride was unattended and the best man was Charles Allen of St. Paul. The bride wore a traveling gown of blue broadcloth. Mr. and Mrs. Johnson left during the afternoon for a wedding trip. They will be at home in Minneapolis. A wedding breakfast was served immediately following the ceremony, and covers were laid for nineteen.

• • •

The Ladies' Guild of St. Paul's church held the regular annual meeting at the church yesterday afternoon. The reports of the secretary and treasurer for last year were read, and it was decided that the guild would serve luncheon to the visiting clergymen of the convocation, to be held in this city. The officers for the coming year were elected as follows: President, Mrs. Maurice Bywater; vice presidents, Mrs. W. H. Stultz, Mrs. H. B. Sturtevant, Mrs. W. J. Suffel and Mrs. Gilbert Ketchum; secretary, Mrs. J. A. Campbell, and treasurer, Mrs. George Prudden.

• • •

Tomorrow evening the ladies of St. John's English Lutheran church will entertain at an informal social evening, at the home of Mr. and Mrs. E. F. Wiberg of 615 Mesaba avenue, in place of the regular afternoon session. The friends of the members will also be entertained.

• • •

Miss Addie Smith, who is expected home this week from the Iowa State university, was an attendant at the wedding of Miss Carolyn M. Tulloss and Stephen Edward Rice, which took place this week at Iowa City. Miss Smith caught the bride's bouquet, which was thrown from the stairway, after the ceremony.

• • •

Mrs. C. F. Macdonald and children of 225 Fifteenth avenue east, have returned from a two-weeks' visit at Deerwood.

• • •

Mrs. E. P. Towne is spending a week with her sister, Mrs. C. A. Weyerhauser of Little Falls.

• • •

Miss Josephine Sattler of Fifth avenue west is spending several weeks at White Bear lake, the guest of Miss Podlasky of St. Paul.

• • •

Miss Ruth Roberts of the Y. W. C. A. has gone to her home at Knightsville, Ind., for a month's visit.

• • •

Mr. and Mrs. Howard G. Emerson have returned from a visit at St. Paul.

• • •

The engagement of Miss Pauline Peters of Elkhart, Wis., and Francis J. Elschen of this city, is announced. The wedding will take place at Elkhart, Thursday, June 22.

• • •

Rev. J. L. Murphy left yesterday for Lindstrom, Minn., where he will deliver an address before the State Lutheran society on "Standard Church Music."

• • •

Miss Violet Conroy entertained at a delightful little birthday party yesterday afternoon at her home, 2710 West Second street, in honor of her little sister, Kate. The decorations were very pretty, in purple and white, and the afternoon was a most pleasant one. Those present were:

Misses—

Hazel Moir,	Alice McCabe,
Mabel Dahl,	Amelia Konescky,
Myrtle Smisich,	Theresa Konescky.
Laura Conroy,	Master Earl Moir.
Mary McCabe,	

• • •

The Olcott club of Duluth Heights will be entertained this evening by Miss Lucy Woods, and the reader will be Miss Alice Conklin.

• • •

The Jolly Ten of Duluth Heights was entertained this afternoon by Mrs. E. J. Purcell.

THEIR CLASSIFICATION.

Something as to New Books In Library.

Of the 335 books added to the library in May, 14 were on sociology, 14 on natural science, 8 philosophy and religion, 21 useful arts, 21 fine arts, 100 history, travel and biography, 40 literature and drama.

Some of the important recent books of travel are three on the almost unknown country of Tibet, all written by men who were with the recent expedition headed by Colonel Younghusband. "The Opening of Thibet," by Percival Landon who was the representative of the London Times is perhaps the most ambitious. "A characteristically British presentation of a most interesting and somewhat delicate subject," it is profusely illustrated and contains a vast amount of information. "The Unveiling of Lhasa," by Edmund Dandler, the correspondent of the Daily Mail, gives more of the causes with the diplomatic and historical matter bearing on the expedition; while "To Lhassa at Last," by Powell Millington, one of the officers of the expedition, while inferior in literary quality to the other two gives an entertaining account of the expedition.

In biography, "A Preacher's Story of His Work," by Dr. Rainsford gives an interesting picture of institutional church work. "Thomas Nest: His Period and His Pictures," gives a life of perhaps our most famous cartoonist.

Howard's "History of Matrimonial Institutions" is the most important contribution to this subject and it would seem that the last word might be spoken on this line in these three large volumes.

Williams "Art of Cross-examination" gives accounts of many of the famous trials which have been conducted in the legal world, and is interesting reading for the business man as well as the lawyer.

Pycraft's "Story of Bird Life," Mrs. Rawnsley's "The New Forest." Bounnes "The Book of the Daffodil," Clement's "Japanese Floral Calendar," Bradford Torrey's "Nature's Invitation," and McFarland's "Getting Acquainted with the Trees" are all interesting books for the lover of nature.

For Musical Clubs.

The following editorial from The Musical Leader and Concert Goer may present a new point of view to many club women:

"'While the musical clubs of the country are in session it might not be amiss for those zealous promoters of the 'divine art' to take steps towards discovering just what women's clubs do for music in this country. The women's clubs, as distinct from musical clubs, appear to have no encouragement for music, and this was demonstrated at the congress of clubs at the World's Fair, when the president of the federated clubs openly announced from the platform to the large audience assembled that the half hour program to be given by well-known artists could be dispensed with, as too much time would be consumed with the music. While this is not always the attitude taken by women's clubs, yet it is fairly indicative of the average club woman's idea of the value of music to the general woman public. Of course, as compared with the vital subjects discussed and elaborated by women's clubs, music is a mere minor detail, but it is much more refining than the majority of influences guiding club work. Then the clubs are inconsistent in one respect at least, and that is that while a musical committee is considered essential, when the question of paying artists for their services is brought forward, economy is made a watchword and a fee is offered to the artist that is at once a shame and a disgrace to an association that is suposed to be representative of refinement and progress in artistic endeavor.

Is of High Class.

In view of the fact that next season Miss Laura Frankenfield will appear in her own dramatization of Wilkie Collin's "New Magdalen" the following from an article by Alan Dale in the June Ainslee's will be of special interest to many in this city. The subject of Mr. Dale's article is "Some Feminine Stars:"

"The other star to whom I have fitfully allude—Miss Eugine Blair—has much vogue outside of New York. She came to the Murray Hill theater with a version of Wilkie Collins' much-abused 'New Magdalen,' which was called 'Her Second Life.' This being her life number two, you felt a distinct sensation of relief that you were spared a glimpse at lives numbers one and three. It was such a very crude performance that I should not have dragged it into this record had it not been for the fact that Miss Blair was part of the singular display of celestial bodies that I have tried to indicate in this article. She is a weighty actress corporeally, if not artistically, and poor Mercy Merrick fared rather badly. This Wilkie Collins heroine has been neglected of late, in favor of such base subterfuges as figures of the Nancy Stair caliber, but certain signs point to revivals of 'The New Magdalen,' which as an emotional story has seldom been surpassed. Compared with the pitiful puppet 'romance' of today, this genuine piece of throbbing fiction seems to be in distinctly another class."

A WOMAN WHO TRUSTED

By Nellie Cravey Gillmore.

(Copyright, 1905, by Daily Story Pub. Co.)

Miss Harriman thrust a final pin into the coil of soft auburn hair lying low on her neck, and turned, smothering a sigh to go downstairs. She paused a second at her desk, to set things straight, and impelled by some urgent motive, drew forth the letter she had but fifteen minutes ago locked away, re-reading it with a suffocating heart:

"Dear Emily—I shall be around at 8:15 p. m. to see you on an important subject. Something has gone wrong—terribly wrong—and I am putting everything entirely in your hands for adjustment. Not, you must understand, as a means of shifting the responsibility, but entirely because I have infinite faith in your judgment. You once said to me: 'I do trust you, Jack; I always have trusted you, and I always shall.' This trouble which has so unexpectedly fallen upon me will be the strongest test a woman was ever subjected to. If you fail—and I am not attempting to keep you to your word from any forced notion of honor—it will probably be only what I should expect, and certainly not less than I deserve. But you must believe me in this one thing; I have never lied to you, nor won from you any promise under false pretenses. Although the present emergency owes its origin to me absolutely, I have been kept in ignorance of the true facts all these years—fifteen or more. But more in detail later on.

Hastily, and as ever, "J."

Miss Harriman slipped the letter back into a drawer and locked it. Then she went back to her mirror and studied her reflection critically. Her pride, her faith, her self-control were all there, but the blow—swift, sudden, vital—had gone home, and a leaden heart forced its shadow through the pain-dark eyes. Something had gone wrong—"terribly wrong," he had said—and Jack would never have used words like these for anything short of tragedy. And he had spoken of her trust a little uncertainly, perhaps, but with that inevitable faith in the loyalty she had professed—whatever came, or whatever went—or staid. Well, he should see that she was a woman with the courage and stability to stand by her words and her convictions. What the trouble was, she did not know—she did not dream, but he would not find her lacking.

Half an hour later, when the doorbell pealed sharply, she did not wait for any announcement, but went at once to the sitting room, where she knew that he would be.

Everard rose quickly as she came into the room and stood with both hands locked behind him. It was the first time since the night of their engagement that he had not offered to touch her, and the girl felt the color leaving her face all at once. Her breath came and went in a little jerky fashion that was almost painful, as she took the indicated chair opposite him.

"Emily?"

"Yes."

She forced a smile, but her lips felt cold and constrained, and she closed her eyes a moment to relieve their burning.

After a little, Everard went on: "You received my letter, of course? I could not bear the idea of telling you this—these things without, in some way, preparing you."

"I know."

"Now before I go into any details whatever, I want you to understand that I would not for worlds urge any claim upon you because of—of our relation."

Miss Harriman nodded; words seemed not only out of place, but impossible.

Everard was silent a little, then he took a folded letter from his pocket, and after glancing through it hurriedly, passed it over to her. "I think, perhaps," he said, "that this will explain everything much better than I could myself."

The girl remained perfectly still for several minutes; then she laid her hand over the written words and looked straight into Everard's eyes.

"I shall, of course, read it, Jack, because you wish me to do so, but—when I said that time that I trusted you, I meant it. At this moment, I have not the remotest knowledge of what this paper contains. But that matters not at all. That you are blameless, I am certain. Nothing else is of much account. And even though it—this is going to possibly come between us, I shall still—believe in you."

Everard paled at her words. For the first time in his life, he looked his thirty-seven years, and over. He tried to speak, but the words died on his lips, and he got up abruptly and crossed the room to an open window.

Miss Harriman smoothed out the letter and read it through without flinching. Beyond a slight whitening of the cheeks and lips, there was scarcely an outward sign to betray that she had comprehended:

"My Dear Jack—No doubt you will be surprised upon receiving a letter from me at this late day. You did not dream that I should ever come to light to bother you, did you? Nor would I, except for the fact that the boy—you never knew there was one, did you?—is growing up now, and he needs an education, a training and—a name. Are you prepared to give him one? I cannot, of course, force you to do so. But I recall the fact that you once offered to marry me and make reparation. I refused at the time, in my ignorance and folly. Have you outgrown your good intentions—or perhaps I should say, your sense of honor?

"From all that I can learn, it seems that you are not the man to let a woman go down too far. I have been told that you bear a very high reputation for honesty, morality and all the other virtues. So, in consideration of all the above, I am making this final appeal to you for my son. I say 'final,' because it is only a question of time now—months, maybe—before I shall have to lay down all my burdens, and I want the boy to go out into the world stainless.

"My proposition is this: Let the marriage be quiet—as quiet as you please—but acknowledged. After the ceremony I shall want to pass as completely out of your daily life as I have always lived. Upon my death, when you will be notified, take the child and see that he gets a fair start.

"If you care about communicating with me personally, my address is 2538 Davis street. Postoffice box 320. At any rate, I must hear from you by the end of the week.

"Very truly yours,
"Esther Hilsen."

Everard came back as she finished reading, and stood looking down at her with an indefinable expression on his thin, keen face.

"Well?" he said, "what is the verdict?"

"I should not so term it," was the response. A bit of the blood had returned to the girl's face and she spoke calmly.

"What then?"

"What would I advise you to do?"

"Precisely."

"You have probably already guessed that, Jack."

"I am under no particular obligation to marry her you know."

"Not—morally?"

"You noticed what she said, I intended to marry her at the time—it was during my college days—she refused."

"You mean——"

"There is the—her son."

"But——"

"Jack!"

"Well?"

"You brought the matter to me for adjustment, did you not?"

"Certainly. I was not obliged to say a word about it, was I?"

"No. That is why I am going to prove to you that I trust you—and that I was right in what I said."

"How will you?"

"Had you been anything but honorable you would never have shown me this letter." She drew off her engagement ring and handed it to him. "You will not bring it back to me, Jack, until I have a better right to wear it. Because I am right in trusting you, I know that you are going to do the only thing there is left to do."

Everard took the ring mechanically, but a sudden light leaped to his eyes, illuminating his whole face. "You may depend upon me," he said earnestly; "there is no sacrifice too great for a woman like you, and conscious of your trust, I shall try to more deserve it—when the better right becomes mine."

IRON FENCE CHEAPER THAN WOOD

We Sell Iron Fence

MANUFACTURED BY

The Stewart Iron Works Company

CINCINNATI, OHIO

Whose Fence received the Highest Award, **"Gold Medal,"** World's Fair, St. Louis, 1904.

ANNEX FOOT NOTES.

Everybody to the Annex—the new shoe stock is ready!

Oxfords are the correct thing for everybody—tans and patent leather divide honors for style—vici leathers rank first for tender-foot comfort.

For Men.

A brand new stock of all the best things in men's footwear — shoes or oxfords — tans, patents or vicis.

To make the new department start right—we offer men's three dollar oxfords—tan or patent leathers—for $2.50 the pair.

And our $3.50 shoes for men might be equalled elsewhere for $4.00—but certainly not for less than $4.00—and probably not for less than $4.50.

Fancy hose for low shoes—neat subdued effects as well as novelties for the college chap and his friends.

For Boys.

Swagger tan oxfords at $1.75—heavily armoured where the wear comes.

Best vici and patent oxfords for boys—$2.50 the pair.

For Women.

We intend to compel attention to the Annex by wonderful value-giving.

For instance, we have four new lines of shoes bought to sell at $2.50—but as a trade attractor, we put them on sale at only $1.98.

In moving to the Annex, we discovered several broken lines of women's oxfords—some of them worth $3.00 the pair—we give you choice of the lot for 95c!

$1.25 for $2.00 All-Over Tucking.

Dainty white stuffs—beautifully fine and sheer—run with clusters of tucks between stripes of lace or embroidery insertion, worth up to $2.00 and over—June Sale price $1.25.

19c for 45c Wash Goods.

More than a thousand yards of pretty wash goods—fish net suitings, in tan grounds with nub stripes—zephyr ginghams, the genuine imported Scotch goods in bizarre stripes—and Nub Melange, a stylish mohair nub effect of white mingled with tan, champagne, greens or blues—regular prices range up to 45c and 50c—June Sale price 19c.

15c for 25c Embroidered Voiles.

Eight hundred yards of dainty embroidered voiles and four hundred yards of pretty striped organdies—the former one of this season's most popular twenty-five cent wash goods—and the latter a popular seller at the regular price of 20c the yard—on sale on the Bargain Square Thursday at 15c the yard.

Women's Fancy Hose Special at 12½c.

Tomorrow you may buy fast-colored navy, tan or black hose—with spliced heels and toes—fancy effects—most of them embroidered—others are printed—we would have to get 20c the pair for them if we'd bought them at the regular price—but instead we'll offer them tomorrow at 12½c the pair.

75c for $1.25 Dress Goods.

A table full of pretty, stylish dress goods — Panamas, mohairs, serges, henriettas, crepes and Marcella weaves—plain colors, plaids and embroidered polka dot effects—regular prices range up to $1.00 and $1.25—all in one lot at the June Sale price of 75c.

25c Stocks or Turnovers 15c or 2 for 25c.

Pretty styles, made of dainty laces and embroideries—the comfortable neck dressing for warm weather — regular 25c values—15c each, or two for 25c.

Better lay in a supply—they will come handy when you go away—half a dozen or more wouldn't be too many for hot weather requirements.

June Sale Prices on White Mohairs.

White mohairs are the top notch of style—nothing else so fashionable and yet Freimuth's have cut the prices for the June sale.

For instance—that splendid number of which we sold ten pieces at 59c is on sale now at a cut of 9c the yard. And the reductions on the other numbers are all much greater.

June Sale prices 50c, 75c, $1.00 and $1.25.

Drug Department
SPECIALS THURSDAY.

25c for 50c bottle Theo. Saunders' Violet Toilet Water.

Marshmallow Cream —for the complexion —cures sunburn—regular 25c—special..... **12½c**

25c for two 25c jars Wilbert's Violet Talcum Powder.

Elbow Lace Mitts and Gloves 35c.

This will be a great year for lace mitts and gloves—and we are ready with a big shipment of them.

Elbow lengths in black or white—instead of half a dollar—here for 35c.

SHINE 'EM UP!

Harry Jones, the Shine Artist, champion boot black at the Pan-American Exposition in Buffalo, is in charge of the "Shine Stand" in the Annex. Come here for a champion's shine—10c on Saturdays—5c on other days.

A Kick By Hans.

To the Editor of the Herald:

Last night I get on der plamet old street out by 20 ave. vest and vant togo home. It was rane like de devil. Ve vait und vait by efery crossing for sum more power to come. It take manjer he look out and see us. He makes up his mint dat he vill fix us. ve are on East Ent car.

dey never experience so much vetness. Even yet der Baptist preacher vas surbrised. One man from East Ent he gets on der car unt says he vont transver himself und make ruf house mit gonducterator, but gonducterator say he haf his orters und he runs by dird avenue East only. Den efery boty make more talkings. De poor laties I haf my sympaty by dem. Dey have high heels on some but de vater in street is six inges already. It would take step laiters to keep dem out of de vaters, but gonducterater he haf his orters und ve can haf transvers. General Manajer set so.

De peoples set dey done vant transvers now. Ve will stay on car dey set. Dere vas more ruf houses mit gonducterator, but he vas a redlar sheneral Stussier vat helt Port Arthur.

Even the preecher coult not pleed mit dat gonducterator. Efery boty hat to take dair bath. He hat his orters. den 20 ave vest to power house. Der sheneral manjer he look out and see us. He makes up his mint dat he vill fix us. ve are on East Ent car.

Dere vas sum Baptists on dis car und dey never experience so much vetness. Even yet der Baptist preacher vas surbrised. One man from East Ent he gets on der car unt says he vont transver himself und make ruf house mit gonducterator, but gonducterator say he haf his orters und he runs by dird avenue East only. Den efery boty make more talkings. De poor laties I haf my sympaty by dem. Dey have high heels on some but de vater in street is six inges already. Crookston	24	7	17	.292

RESULTS YESTERDAY.
Duluth, 6; St. Cloud-Brainerd, 3.
Winnipeg, 3; Crookston, 1.

GAMES TODAY.
St. Cloud-Brainerd at Duluth.
Winnipeg at Crookston.
Fargo at Grand Forks.

In the dim glimmer of twilight, when baseball players are supposed to be collected about a table discussing the victories of the old days, the Duluth team and the nameless aggregation from down St. Cloud way wandered out to the ball park and played a one-night stand performance to a small and select crowd of the faithful.

The White Sox proved themselves the better night hawks, and when it came time to tie an incandescent lamp to the ball and post lanterns on the four bases, they were three runs to the good, and Umpire Long declared the game off.

A Crookston cast-off named Mullen was in the box, and he proved that a pitcher's reputation all depends on the company he keeps. With Crookston Mullen looked like a deuce spot in a dirty deck, but when he got among the right kind of people, put on a blue and white uniform, shaved, got a hair cut, and a square meal under his belt, he had three aces beat. He let the hyphenated crowd from several towns down with four hits, which is pretty fair billiards for a pitcher who has been released from the team which has reached the bottom and is digging for a basement. As an understudy for Potts, Mr. Mullen will do very nicely.

Mr. Spicer encountered some pretty rough sledding during the evening's performance. When the after dinner affair had reached the fourth round the White Stockings were beginning to get pretty familiar with the pitcher of the nameless team. Three two-baggers, a pair of singles and a base on balls allowed the kid at the score board to chalk up five tallies.

The Champs drew first blood in the second inning when Erickson singled. McShane reached first on a dropped third strike, and then Mullen showed his abilities with the willow by rapping out a single, scoring Erickson.

The visitors evened matters up in the third. Howell reached first on Miller's error, but was caught at second a minute later on Spicer's grounder to the same place. Wing laced one down the third base line which McShane couldn't reach, and Ripley drew a pass. With the bases in this populous condition, White bunted, and Spicer beat the ball to the plate. Nehr tried to work the same trick, but McShane caught Wing at the plate, and McAleese completed the double, with a quick throw to O'Dea.

In the fourth inning Neighbors walked, and Erickson promptly slammed the sphere for two bases, scoring Neighbors. McAleese dug three big chunks out of the cool night air, and McShane singled. Erick Edwards got his legs into motion and couldn't stop them until he reached the plate. Then Mr. Mullen selected one to his liking and hit it for two bases, scoring McShane. Bennett beat out a bunt to first, and Wieler fanned. Meniece rapped out the third two-bagger of the inning, scoring Mullen and Bennett. Then Artie O'Dea ended the agony with a long fly to center.

Ripley walked in the sixth inning. White tried to convince the umps that he was entitled to four swings at the ball, when the latter called a strike on him, but the umps couldn't see it that way, and Mr. White walked back to the bench sputtering things that must be nameless here. Nehr went out to first. Ronesch singled, and Ripley came home. Ronesch headed for second and Bennett missed the throw to catch him, allowing the runner to continue to third. He scored on Harris' single. Hansen was an easy out.

The only performance today will be a matinee called at 3:30, after which both teams will leave for Brainerd.

Attendance, 200. Time of game, 1:45. Umpire, Long.

CROOKSTON UNLUCKY.

Holds Winnipeg to Three Hits But Loses.

Crookston, June 14.—(Special to The Herald.)—In a remarkably fast game of ball here yesterday there was nothing doing during the first seven innings aside from the doling out of goose eggs. The team from across the line managed to score one man in the eighth inning through an error by Olson in left field, who dropped a fly which was by all rights his own, and in the ninth, with two men out, scored Gatewood and Clater on an error by Fitzsimmons in right field on an extremely hard one to handle from Tucker's bat.

The entire game was a battle royal between Sorensen for Crookston and "Lefty" Sporer for Winnipeg, in which the big Norwegian had all the better of the argument, allowing but three hits during the entire game, two of which were made in the ninth inning. Sporer, however, was very effective up to the ninth, when he allowed three hits, one of which was a two-bagger by Fitzsimmons. Interest in the grand stand throughout the game was fast and furious and the rooting of such proportions as to encourage any team to its best endeavors. In the sixth the Crooks had a splendid opportunity to cinch the game with a man on second and third, but the much-needed hit was not forthcoming. Again in the ninth, after Ludwig had scored, Fitzsimmons reached third and Mueller hit a safe one, but before Sperry had a chance to use his willow Mueller was caught trying to steal second, and the side was retired with the score 3 to 1 in favor of the visitors.

Both teams played fast ball and there were very few errors made, but the Crooks were unfortunate enough to make their errors when errors made runs.

The score:

Boston	48	16	32	.333
Brooklyn	49	16	33	.327

CINCINNATI, 5; PHILADELPHIA, 1.

Cincinnati, June 14.—The Cincinnati's bunched their hits off Sparks yesterday and won handily. Walker was hit hard, but managed to keep his hits well scattered. Attendance, 2,551. Score:

	R	H	E
Cincinnati	2 0 2 0 1 0 0 0 x	5	9	1
Philadelphia	0 0 0 0 1 0 0 0 0	1	8	1

Batteries—Walker and Schlei; Sparks and Kahoe. Umpire—Johnstone.

PITTSBURG, 6; BOSTON, 0.

Pittsburg, June 14.—Boston could do nothing with Philippi and never reached third base. Willis was easy, but Wilhelm retired his men in one, two, three order without a hit. Attendance, 2,510. Score:

	R	H	E
Pittsburg	0 2 0 4 0 0 0 0 x	6	7	1
Boston	0 0 0 0 0 0 0 0 0	0	3	3

Batteries—Phillippi and Peitz; Willis, Wilhelm and Needham. Umpire—O'Day.

NEW YORK, 1; CHICAGO, 0.

Chicago, June 14.—Mathewson was in rare form yesterday and shut out the locals without a hit, nor a base on balls. Brown's pitching was also gilt edged until the ninth, when he was hit for four consecutive singles. Attendance, 9,000. Score:

	R	H	E
Chicago	0 0 0 0 0 0 0 0 0	0	0	2
New York	0 0 0 0 0 0 0 0 1	1	5	2

Batteries—Brown and Kling; Mathewson and Bowerman. Umpire—Bauswine and Emslie.

BROOKLYN, 6; ST. LOUIS, 1.

St. Louis, June 14.—In a game liberally punctuated with long drawn out disputes over Umpire Klem's decisions, Brooklyn defeated St. Louis, 6 to 1. Police intervention was necessary before the game could continue. Attendance, 1,000. Score:

	R	H	E
St. Louis	0 0 0 0 0 0 0 0 1	1	7	2
Brooklyn	0 0 3 0 0 0 1 0 2	6	12	2

RIDER KILLED AT ST. LOUIS

Jockey Hector Is Dead and Jockey Morris Seriously Hurt.

St. Louis, June 14.—Jockey Hector, on Wellsley, was killed and Jockey Morris, on Dr. Clark, was seriously injured in a mix up during the steeplechase at the American Jockey club track yesterday. The horses fell four the half mile pole and when assistance reached the two boys, Hector was dead. Neither horse was injured.

Cataline, at odds of 5 to 7, won the fourth race, a handicap at a mile and a sixteenth.

Mayor Johnson, at 5 to 2, galloped home in the fourth race, the best event on the Delmar card yesterday. It was a bad day for favorites.

Buffalo, June 14.—Bertha E, favorite in the second race at Kenilworth yesterday, was disqualified after finishing in a hot drive with Cologne, Bertha E swerved over to the inside considerably in the stretch, shutting off Cologne and the others.

Cincinnati, June 14.—Corrigan's entry, Creolin and Charawind, finished first and second in the Kentucky steeplechase, the feature event at Latonia yesterday. Malcolm M. and Faraday, Jr., were the pacemakers until the stretch, where the Corrigan pair took command, Creolin winning by a nose with Charawind two lengths in front of Malcolm M. Three favorites, one second choice, and two outsiders won. Track fast.

BRIEF TELEGRAMS.

During a severe thunder storm at Winnipeg Tuesday evening, the Scott Furniture company's building, was struck by lightning. The building was fired in the basement and in thirty minutes was blazing. The contents are a total loss and the building probably will have to be torn down. The building cost $175,000, with $50,000 insurance.

Clarence Bouldin, "the Cuban" won the world's light heavy weight wrestling championship at Cleveland Tuesday night, by defeating James Parr of Buffalo, in two well-contested pin falls.

Prof. Herman S. Hering of Philadelphia was elected president of the First Church of Christ Scientist, the mother church of the Christian Scientist denomination at Boston Tuesday. The gain in membership of branch churches was shown to be 11 per cent during the year and the membership increase in the mother church for the year, 3,868.

A terrific squall of wind, which was accompanied by a heavy thunderstorm, broke over St. Paul about half past ten Tuesday night and did considerable damage to windows and shade trees. The blow lasted less than a minute, but a heavy rainfall continued for some time. Pedestrians on the streets had narrow escapes from flying glass and signs, and an audience in a theater were almost panic stricken.

The condition of Frank G. Bigelow, ex-president of the First National bank of Milwaukee was improved Tuesday. He probably will be kept in the prison hospital a week, however, before he is assigned to his prison duties. He is in an upper room of the hospital, where he sits by the window apparently in deep meditation.

Following a conference with Former Governor Odell late Tuesday, Supreme Court Justice Warren B. Hooker gave out a statement, in which he declared his intention not to resign.

William Mitchell, a wealthy stockman of Troy, Kansas, was found dead with a bullet hole through his head and his wife shot through the shoulder at their home here today. Mrs. Mitchell says that her husband shot her and then shot and killed himself as the result of a quarrel over another woman.

Many children inherit constitutions weak and feeble, others due to childhood troubles. Hollister's Rocky Mountain Tea will positively cure children and make them strong. 35 cents, Tea or Tablets. Ask your druggist.

THE CATHOLIC FORESTERS

Reports Show Gain In Membership In the State.

New Ulm, June 14.—The seventh state convention of the Catholic Order of Foresters opened here yesterday with pontifical high mass by Rev. John Stariha, bishop of Lead, S. D. The delegates from the different courts of the same convened in the auditorium of the Catholic parochial school building, and marched in a body to attend this mass.

At 2 p. m., P. H. Martin of Duluth, state chief ranger, called the convention to order and George W. Stenger, state secretary, presented the reports of the various officers for the past year to the 161 delegates in printed form. The reports show the order comprises 11,545 members, which is a gain in two years of 363. Thirteen new courts have been established since the last biennial convention was held at St. Cloud, five courts have been suspended and four others have been consolidated with other courts, making a net gain of four courts over two years ago. The number of deaths was 2,114, and $130,000 was paid in insurance. State Treasurer Weyer reported that the society had a cash balance on hand of $5,039.60 on May of this year.

Bishop Stariha addressed the delegates and thanked them for their generosity in contributing $3,500 to his diocese during the past year. Addresses were made by Acting Mayor W. Eibner, Rev. H. Sandmeyer, dean of the diocese, and A. J. Eckstein, chief ranger of the local court. Some of the important matters which will be considered by the convention will be the matter of distribution of the state funds, reclassification of the various hazardous occupations and the appointment of organizers by the state court instead of by the high court at Chicago.

A program was presented last evening in the auditorium of the Catholic school building for the delegates. Rev. F. S. Rant of Arlington, will deliver an address.

TOO MUCH FUSEL OIL.

Six Liquor Dealers Are to Be Prosecuted.

St. Paul, June 14.—E. K. Salter, dairy and food commissioner, announces that he has begun prosecutions against six liquor dealers on the iron range for selling forty-rod whisky. Dealers located at Hibbing, Virginia and other points on the range are charged with selling liquor containing more than 30 per cent fusel oil. Some of the samples analyzed contain from .30 to .44 per cent fusel oil.

"A few drinks of whisky containing .44 per cent fusel oil would kill a person," said an official of the commission yesterday. "We are thinking of changing the name of this whisky from forty-rod to ten-rod whisky.

DIES FROM WOUNDS.

Greek Premier Succumbs to Assassin's Stabs.

Athens, June 14.—Theodore P. Delyannis, the popular premier of Greece, who was stabbed and mortally wounded by a professional gambler, named Gherakaris, at the main entrance of the chamber of deputies, at 5 o'clock yesterday, died within three hours. The assassin, who was immediately arrested, said he committed the deed in revenge for the stringent measures taken by Premier Delyannis against the gambling houses, all of which were recently closed.

The premier arrived at the entrance of the chamber in a carriage. Gherakaris approached, saluted the premier, and opened the carriage door. The premier was in the act of thanking Gherakaris for his courtesy, when the gambler plunged a long dagger into M. Delyannis' abdomen, inflicting a frightful wound.

The murderer was immediately overpowered by the attendants. Medical assistance was quickly secured, and the wounded statesman was taken to a Red Cross station, where an operation was performed in an effort to stop the internal hemorrhage. This was unsuccessful, and Premier Delyannis died at 7:30 o'clock.

TWO MINNESOTANS

Punished at Seattle For Conspiracy to Defraud.

Seattle, Wash., June 14.—F. M. Barrett and F. W. Bole, wealthy business men of Wheaton, Minn., pleaded guilty in the federal court to complicity in a conspiracy to defraud the government by inducing Italians to take out timber claims near Kalispell, Mont., and were sentenced to one year in the United Staes penitentiary, fined $1,000 and ordered to pay the cost of the action. Judge Hanford made caustic remarks on the moral turpitude which was involved and which was condoned in a letter introduced by the defendant Barrett from a cousin who is judge of the supreme court of Maine. H. J. Shout and G. L. Brokaw of Spokane, who are also defendants, refused to plead. The case against Shout may be dismissed.

GIBBONS OPPOSED TO WOMAN SUFFRAGE.

Baltimore June 14.—Cardinal Gibbons delivered an address yesterday at the commencement exercises at Mount St. Agnes college, one of the most exclusive female seminaries in this section, during which he made an attack on woman suffrage. Among other things, he said: "Woman today is the peer of her husband, not the slave of his caprice and passion. She is as she ought to be, queen of the domestic household.

"But because you are equal in quality does not mean that you should have the same functions to perform. Some women are not satsfied with their own powers they want to invade the man's privileges, they want to vote. I trust they will never get the authority to do that, for when women mingles with political life, she loses her freshness. You cannot vote, but you can make your men vote to please you and you cannot preach. Some of these new women get angry with St. Paul and call him an old foggy and an old bachelor, but he was right. You can preach in your home, for the best preacher is the good, pious, Christian mother."

WANTS LOST PAINTINGS.

St. Petersburg, June 14—The Russian painter, M. Stepanoff, has appealed to the American consul general, Ethelbert Wates, to assist in the recovery of Russian paintings, lost after the close of the St. Louis exposition.

2500 TRIMMED HATS
LESS THAN HALF VALUE!

Ladies' trimmed hats, misses' trimmed hats, children's trimmed hats—every hat perfect, every hat a beauty—this season's best styles—bought by the Big Store to close out a leading wholesale milliner's entire stock,

AT FORTY CENTS ON THE DOLLAR!

The maker shoulders the entire loss, and we secured this wonderful price only by taking his entire stock—the only house at the Head of the Lakes capable of handling so immense a transaction.

This season's Napoleons, sailors, Charlotte Cordays, short back sailors, turbans and flares in over 100 different styles—whites, blacks, blues, browns, natural straws and mixtures, trimmed with velvets, ribbons, taffeta silks, chiffons, quills, pom-pons and ornaments.

This is without question the greatest and most desirable purchase we have ever made. The hats are better than at any one of our previous June sales and the styles are prettier. For your convenience we divide the entire purchase into only three lots, and any hat you get is a genuine bargain, whether you pay $1.39, 95c or only 69c.

69c for trimmed hats worth up to $1.50.

95c for trimmed hats worth up to $2.50.

$1.39 for trimmed hats worth up to $4.50.

Sale begins Thursday, June 15th.

Main floor and second floor. Extra space, extra salespeople.

Trimmed hats worth up to $1.50—at... **69c**

Trimmed hats worth up to $2.50—at... **95c**

Trimmed hats worth up to $4.50—at... **$1.39**

EAGLES' And Eaglesses' CHIEF EYRIE

PANTON & WHITE COMPANY THE BIG GLASS BLOCK STORE WHERE QUALITY IS PARAMOUNT

VISITORS Welcome to all our conveniences.

$25.00 tailored suits $12.50.

One rack of about 50 swell tailored suits—blacks, blues, browns and mixtures, in jacket, blouse, Eton and bolero styles and originally sold for up to $29.50, all reduced to one price **$12.50**

$35.00 tailored suits $19.50.

One rack of about 40 suits that have been selling up to $35.00 and all of which are high-class examples of this season's best styles—all colors and all models—reduced now to one price for choice **$19.50**

All covert coats reduced.

Every covert jacket and covert long coat in the house has been materially reduced in price. This is the week to buy.

"KNOWING THINGS."

"To Know," twin-verb to the more widely discussed "To Do," is coming to take its rightful place in the "Creeds of the Workers."

"To Know" what, when, how "To Do," in the usual and normal situations that arise in our daily lives, is education—is equipment for emergencies, is power.

People, nowadays, are growing more and more fond of those facts which have a bearing on their daily lives. They are not averse to knowing the latest theory about gold deposits in the moon—but they take a closer interest in a special sale of gold jewelry at a local store.

They are sorry to learn that a great pianist is threatened with physical collapse—but the fact that there is a chance to buy pianos at greatly reduced prices at a local piano store is of actual, personal interest.

They are casually interested in the fact that the czarina "manages" several hundreds of servants—but their own chances of securing one servant for general housework excite more genuine interest, and they search the "want ads" with more anxiety than they give to the "Foreign news and gossip."

They are amused at Uncle Sam's threat to buy his canal supplies in "the open market" of the world—but just what things for the home and office cost in the "open market" of their city interests them in detail—hence they keep "in touch" with the local stores by reading all of the ads.

They feel the horror and pity of the latest slaughter in Manchuria—but a good deal of grim satisfaction in an advertised "slaughter" of prices in two or three local stores.

And it is so with the whole range of the day's events—they are interested in the news; they are concerned in the advertising. The news interests them in a non-personal way—the ads. are like a live wire with one end attached to their pocketbooks.

So, while the newspaper instructs and amuses and educates, it furnishes, also, those other and better-liked facts which color and control the comings and goings and the buyings and sellings and gettings and givings of daily life. It cultivates in its readers "the knack of knowing things."

A HERO'S PASSING.

The leader, and one of the few survivors, of the gallant First Minnesota is gone. The Herald last evening announced the death of Col. William Colvill, chieftain of Minnesota's famous regiment, at the Minnesota Soldier's Home, where he had gone to attend the reunion of the regiment. That reunion was turned into a reunion of sorrow at the news that Death had issued to Col. Colvill his last command.

Everybody is familiar with the story of that famous charge, when a handful of men was cast into the jaws of death to save an army. Its purpose was accomplished, but at a fearful cost. Of 262 men who gallantly answered the command to charge, knowing that it was almost certain death for all, but forty-seven rallied into line after the charge was ended. The rest, 215 in number, lay dead or wounded upon the bloody field. They were heroes all, the highest type of soldier heroes, but the gallant leader of those gallant men, a heroic figure through nature's gifts, earned and received the homage of not only the world at large, but of the heroes who bore him company on that fearful day.

Most Duluth people will remember his striking figure, at one time a familiar one upon the streets of Duluth. Though full of Confederate lead, though a hopeless cripple, his form was erect and commanding, a truly heroic figure.

A commander of heroes, a noble historic figure, a human monument to Minnesota's glory, has passed from the battlefield of life into the honored halls of history.

IS NOT LEGAL.

The report from St. Paul that the state dairy and food commission had been unable to find anything illegal about the samples of Bowery whisky taken on the ranges and in Duluth seemed incredible, and now it turns out that it was not true. The latest report from St. Paul is that some of the samples were found to be in a very wicked condition, and prosecutions will follow at once. Indeed, six criminal suits have been started already against iron range dealers in "forty-rod."

Instead of finding the liquor legal, the commission's chemists found it so ridiculously illegal that one of the employes of the department is reported to have facetiously remarked that the department was thinking seriously of changing its name from forty-rod to ten-rod. There was little humor and much truth in his additional statement that a few drinks of the stuff is enough to kill any ordinary person.

The fight against this horrible compound is a worthy one, and it should be prosecuted unmercifully. If there is any way by which the whisky can be traced back to its manufacturers, and some suitable punishment meted out to them, it will be well, too, and almost any severe punishment would be satisfactory except that of condemning the manufacturers to drink their own product. That would be too inhuman.

OTHER PEOPLE'S RIGHTS.

A correspondent of the New York Sun submits a plausible reason why it is impossible to keep the streets of American cities as clean as those of European cities. He lays it to the greater need for economy in Europe, and to our plenty-fed extravagance. He says:

"With us our streets are our dumping grounds. What we do not want in our houses we throw out; and in a country where the supply is so much greater than the need a vast amount of material is wasted. In Europe it is exactly the reverse. There, owing to the centuries of inroads upon its resources, every product, natural and manufactured, has its value and is hoarded and treasured and made to serve many purposes. There is no waste, no surplus, where there is a demand. The thrift, care, economy we hear so much of does not arise from choice, but from stern necessity. In Germany a man would not throw an orange peel in the street, for two reasons: One, that he might be arrested, and the other, that it could be candied or dried. Two good and strong arguments in favor of putting it in his pocket."

So far as it goes, this is probably true, but there are other reasons. For instance, the condition could partially be accounted for by saying that the American people have too little respect for such regulations, and for the rights of others.

When we carelessly throw a bit of paper in the street, we do not stop to think whether it may give annoyance to others or not. We will protest bitterly if anybody litters our lawn, but we care little if the rubbish we throw away blows upon the grounds of a neighbor. When we seek a bargain-counter, a seat in the street car, or a good position from which to view the street parade, we push our way ruthlessly, though our elbows may be brought into painful association with the ribs of our brothers—or sisters—in the crowd.

Again, may it not be true that as to local regulations against things not intrinsically criminal, we are too apt to do things as we please until the health officer rudely jars us into doing what the public interests require?

ABOLISH THE MOSQUITO.

This is the season when the musical mosquito begins his persistent career, boring into the human anatomy in search for nourishment, which he seems to get from the most unlikely human sources. This is the least of his troublesome characteristics, however, for it has been shown that he is a fruitful source of contagion, and that he lugs around on his diminutive person microbes that are numerous and deadly.

Therefore, even if Duluth is not especially bothered by him, owing to the frequency of fresh lake breezes which are too much even for him, there should be much interest in the movement to eliminate him from municipal life. Scientists announce that if the public will give them its support they will cause the mosquito to disappear absolutely.

The advice is not difficult in most communities, though it might seem somewhat hard in this territory. It is known that swamps, puddles of water and similar damp places are the breeding spots of the mosquito. The eggs are deposited there, and there they can be cut off at the first stage of a busy life if the public wants to take it in hand. By either draining the pool or pouring a little kerosene oil on its surface, the eggs are settled for good, and they will produce no mosquitoes. Wherever there is stagnant water, there are breeding places of mosquitoes. Even an empty tomato can in the back yard, full of standing rain water, will produce its swarm of the pests.

The remedy is simple, if people wish to take advantage of it. Even in Duluth it is not so difficult as it might seem because of the existence of near-by muskeg swamps. The insect products of these swamps do not go far, and if every stagnant pool within the city limits had its dose of oil there would be no mosquitoes in this city.

A SURGICAL TRIUMPH.

There are people that scoff at medical and surgical science, and maybe some of their exponents sometimes do things likely to bring their schools into ridicule or discredit. But then there are people that scoff at everything, and it is not the scoffers, as a rule, that advance humanity.

Medical science and surgical science, especially the latter, have accomplished wonderful things, nevertheless, and will doubtless continue to do wonderful things while pseudo-science is doing stupid and injurious things. From New York comes a story of one of these marvels.

Jack Hany, aged 16, and well-developed physically, was until two months ago mentally an infant. Neither memory nor reasoning power were his, and his parents had for many years been resigned to the belief that he was a hopeless imbecile. A few days ago a doctor discovered that the boy's brain was not diseased, but that it was not properly connected with the spinal cord. By physical manipulation that doctor is now accomplishing the necessary union of cells, and into this life that has been dark from birth the light of reason is slowly breaking. He is learning the alphabet, he finds his way about alone, and is taking the keenest delight in the opening of a world that is now to him. The mind born sixteen years after the birth of the body is becoming normal.

The discovery is important, because it may be the means of making useful citizens out of thousands of children that are supposed to be hopelessly crippled mentally.

THE FIELD SURVEY.

It must seem surprising to folks that don't know the Scandinavians that they should go through such a convulsion so calmly and amiably.

If Prince Henry comes over he will miss the cheery and immortal "Hello, Prince!" of ex-Governor Van Sant.

Hotel Gossip.

"The object of our business is to bring accounting up to the right standard," said O. C. Sylvester of White Bear, Minn., at the Lenox last evening. "Mr. Sylvester is an accountant with Maurick, Mitchell & Co. of New York, who are at present engaged in inspecting the books of the city of Duluth.

"Of course, I am not in a position to say anything about the condition of the books of Duluth, but I may say that not all cities are up to the standard," he continued. "Expert accounting of public records has been in vogue in this country for the past twenty years. It has been confined mostly in the East, and it is only lately that it has reached the West. All cities now employ expert accountants to make an annual inspection of their books. The officials are glad to have the inspection made for it relieves them of any responsibility after the accounting has been made. County records are also inspected. The firm I am connected with had the contract for auditing the books of the city of Chicago last winter, and recently made a contract with the city of Newport, Ky.

"It takes people of special skill to be expert accountants. They must have had a varied experience in that kind of work. There are no two cities in the country with the same system of accounting. There is always a difference of a greater or lesser degree, but anyone with any experience cannot follow them out. It is the duty of the expert accountant to make recommendations after he has been through the books, besides verifying that everything is all right."

* * *

"I was very much surprised when I first struck the city of Tallahasse, the capital of Florida," said W. J. Geib of Washington, D. C., at the McKay, last night. "Before I went there I was given the impression that it was a large place, with probably about 40,000 inhabitants at least. But I found that there were only about 4,000 people in the place."

Mr. Geib is employed in the agricultural department bureau of soils, and is at present inspecting the soil in Carlton county. Every winter those in the bureau of soils are supposed to work at the laboratory in Washington, but since there are so many they cannot all go to the capitol city, and many of them are sent to the Southern states. Mr. Geib spent last winter in Florida and returned to the North the first of May.

"It is all right down in the South in the winter, but for myself I prefer to live in the North permanently. I think, however, that there are plenty of opportunities for a young man in the South. A Northern man, with push and energy, should go far down there. Those who have lived down there all their lives have not cultivated the habit of hard work, which would give the competing Northerner a better chance of succeeding. But the Northern man cannot succeed if he has to deal with labor down there. All the labor is done by negroes, and the Northerner does not seem to be able to known how to handle them. Perhaps, he does not know how to cuss them as energetically as his Southern brother.

"Around Tallahassee we were in the midst of negroes; there were about six of the blacks to every white man. They are tilling the land on which they worked as slaves, the plantations being broken up into small lots. But it is a sad sight to watch the energy the negroes put in their farming. A one-horse cultivator does for a plow. He does not attempt to more than scratch the surface; he would not know enough to get deep into the ground as they do in the North. Of course, the negro is satisfied as long as he gets enough to eat and get along any old way. He rents his place by giving a percentage of his cotton crop; he does not handle any money."

Those sent out by the bureau of soils make a classification of the different soils they find in the localities inspected, and ship the samples for analysis to Washington. The inspectors also make a map, showing the location of the different kinds of soils in the county they have inspected. They make a report, and after the department at Washington has all the data on hand a report is made of the different counties, and the farmers in the several counties will be given an account of the conditions in their vicinity so that they may be guided as to the best kind of product they could raise.

"Carlton county seems to be well adapted for dairying purposes," said Geib. "It has not been extensively developed in that form of activity thus far."

* * *

"I see in the papers that young Ziegler is going to run after the North Pole," commented J. T. O'Brien of Cleveland, Ohio, at the St. Louis. "While it may be all right for him to heed his foster father's bequest, I do not see that there is any reason for hunting for that frigid spot any longer.

"I do not understand what the object of these expeditions has been. Nobody has ever reached there, and nobody ever will, to my notion, unless they have airships constructed to a state of perfection that will stand the roughest kind of weather and offer protection from the coldest atmosphere. All these explorers said they went in the interests of science, but I do not see that science will add one iota of useful knowledge to the working world when it can be put down in the records that Mr. So-and-So reached the North Pole on such-and-such a date. Well, I suppose that young Ziegler may as well spend his millions in sending expeditions to the frozen North as anywhere else. It is certainly a more worthy way of spending time and money than cruising around in a yacht in the Mediterranean."

McEwen, Seattle.

The Weather.

Yes, it raised some last night. The weather man says it rained 2.66 inches. Other folks said it rained pitchforks. Anyway it rained, and rained a lot. At its height the storm seemed to simply let the bottom fall out and the rain just fell down without taking the trouble of organizing itself into drops. There was a right sharp electrical storm, too, with thunder that was almost incessant and lightning that kept up a continuous play over the heavens. It was an hour of trepidation and palpitation to the "skeery," and when the lightning struck as it did several times judging from the sound, nervous individuals jumped nearly out of their skins.

This morning there came the usual sultriness that follows a severe rain in summer, with an atmosphere that seemed drenched with moisture, giving old General Humidity a chance to make people uncomfortable that he seldom has in Duluth. It did not take the air long to dry out, however, and the day become charming.

While Duluth got the worst of it, the removal of the center of the low pressure area from Western North Dakota to Manitoba caused light to heavy showers and thunderstorms throughout the Northwest, according to predictions. Warm weather continues in the districts east of the Rockies, and fresh southerly winds are the rule in the lake region and in the central valleys.

The weather, while warm, is likely to be unsettled tonight and tomorrow, with some cloudiness and occasional showers or thunderstorms. It will be cooler tomorrow, with fresh to brisk southwest to Northwest winds.

Following were the maximum temperatures recorded during the twenty-four hours ending at 7 o'clock this morning, as reported by the weather bureau:

Abilene	90	Medicine Hat	64
Atlanta	88	Miles City	74
Battleford	62	Milwaukee	78
Bismarck	78	Minnedosa	60
Boston	80	Modena	82
Buffalo	66	Montgomery	92
Calgary	60	Moorhead	84
Charleston	82	New Orleans	92
Chicago	74	New York	80
Cincinnati	82	Norfolk	74
Davenport	86	Northfield	76
Denver	86	North Platte	86
Detroit	78	Oklahoma	86
Dodge	88	Omaha	92
Duluth	72	Phoenix	102
Edmonton	62	Pittsburg	80
El Paso	92	Port Arthur	62
Escanaba	62	Portland	68
Galveston	88	Prince Albert	52
Green Bay	68	Qu'Appelle	60
Havre	70	Rapid City	76
Helena	70	St. Louis	88
Houghton	80	St. Paul	84
Huron	94	San Francisco	62
Jacksonville	88	Santa Fe	76
Kamloops	70	S. Ste. Marie	68
Kansas City	90	Shreveport	82
Knoxville	82	Spokane	72
La Crosse	84	Swift Current	58
Lander	78	Washington	84
Little Rock	84	Williston	72
Los Angeles	76	Winnemucca	84
Marquette	66	Winnipeg	70

United States Department of Agriculture, Weather Bureau, Duluth, June 14.—Forecast for twenty-four hours ending at 7 p. m. (local time) Thursday: Duluth, Superior and Vicinity—Partly cloudy with probably occasional showers or thunderstorms tonight and Thursday. Cooler Thursday. Fresh to brisk southwest to northwest winds.

H. W. RICHARDSON,
Local Forecaster.

Chicago, June 14.—Forecasts until 7 p. m. Thursday: Wisconsin—Generally fair tonight and Thursday, except probably local thunderstorms. Continued warm.

Minnesota—Fair tonight and Thursday, except probably showers in east portion.

North and South Dakota—Fair in North Dakota. Showers in South Dakota tonight and Thursday.

Upper Lakes—Fresh southerly winds tonight, probably becoming variable Thursday. Showers and possible squalls.

GET MAD.

If the world don't do exactly as you think
It ought to do,
Get mad;
If you meet with opposition, get a toothsome rag to chew—
Get mad;
Get as mad as hops and show it;
Feed your anger; fan it, blow it;
Pout and let the whole world know it—
Get mad!

If the joke you tried to spring upon the other fellow turns,
Get mad;
If you get the poker's portion that invariably burns,
Get mad;
Play the baby, whine and blubber
Like the rankest kind of lubber,
While the gamins guy and rubber—
Get mad!

If you step upon a 'naner peel and stand upon your skull,
Get mad;
Never smile or make a joke of it, or folks will think you dull—
Get mad;
Turn and frown upon the spot
Where the pavement quickly shot
Up and gave you such a swat—
Get mad!

If you want to be a pleasure to the world you're living in,
Get mad;
If you'd keep the people's faces wrinkled always with a grin,
Get mad;
For there's nothing else so funny
On this mundane sphere, my honey,
As the man that's never sunny—
Get mad!
—Baltimore American.

World's Greatest Doctor.

There is a great physician who long ago began
To clear away the troubles that come to pester man;
'Tis true he is old-fashioned, but many a grievous ill
That puzzles other doctors would yield to this one's skill;
He makes no heavy charges, and he is always near
To serve you if you want him; his name is Good Cheer.

His practice should be world-wide, and daily it should grow;
He serves in summer weather and when the wild winds blow;
His night bell is in order, he answers every call,
He gives no bitter doses and tortures not at all;
And they have few diseases and stand in little fear
Who always are serenely attended by Good Cheer.

He does not deem the wealthy more worthy of his care
Than are the poor who seek him. Where walls and floors are bare
He ministers as freely as where the rich abide,
And all he asks in payment are hope and honest pride,
The hope and pride that foHow where duty's call is clear—
'Tis time to aid in spreading the practice of Good Cheer.
—S. E. KISER in Chicago Record-Herald.

Moral: Subscribe Now.

Big Fork Compass: A Sturgeon River settler was on the wrong side of a falling tree and for three long days he laid on the damp ground waiting to be liberated by some passerby. Who can imagine the character and number of solemn thoughts that trooped through his brain during that lengthy grip by impending doom? He had time to review his entire past, to deplore the scarcity of neighbors and his own lack of energy in inducing settlement. Possibly toward sundown of the third day he even regretted that he had never subscribed for the Big Fork Compass, which had done so much to boom his neighborhood. Gentle reader, are you waiting for a tree to fall on you?

Twenty Years Ago.

Taken From the Columns of Duluth Papers of This Date 1885.

***A. J. Sawyer says that he will build this season fifteen or eighteen elevators on the main line and Jamestown & Northern branch of the Northern Pacific, and next year twelve or fifteen more. Although much grain from the Northern Pacific country has come to Duluth in the past, the building of these elevators will increase that amount very materially.

***Messrs. Blanchard and Gooding, hull and boiler inspectors, are in the city.

***Capt. R. B. Montague is reported to be very ill. A return of his old trouble is the cause.

***Born, on Monday, June 15, to Rev. and Mrs. E. M. Noyes, a daughter.

***At the meeting of the village council, Tuesday evening, Alderman Kendall made a strong fight for the improvement of Superior street. He moved that it be macadamized, from Lake avenue westward. As the members of the council thought such a motion not in place, it was lost. Kendall wished to have a foot or two of mud taken from Superior street and put on Lake avenue, and its place filled with gravel and Lake avenue topped with gravel.

***Died, on Monday, June 15, of a combination of diseases, Mrs. Prudence P. Wilkinson, aged 82 years and 4 months. Mrs. Wilkinson was the mother of Mrs. W. W. Spalding and V. S. and John Wilkinson of this city. She also leaves three other children, one living in Wisconsin and two in this state. She had lived in the Lake Superior country for twenty-seven years.

***Duluth streets are to be numbered on a new and improved system, that is in satisfactory use in Philadelphia and lately adopted in Chicago. Beginning at Superior street, for numbers running north and south, and Lake avenue for numbers running east and west, 100 numbers will be allotted to each block.

***Two black bears were caught in a deadfall on J. D. Howard's farm, four miles back of town, last week. Each was 2 years old and quite fat.

MINNESOTA OPINIONS

Big Forks Compass: The next Republican state convention should be held in the central portion of the state. Duluth comes nearest the geographical requirements.

Grand Rapids Independent: "New York real estate sells at $4.00 per square inch," says a daily paper heading. But considering that it buys so much space above it, it is not so expensive after all.

Red Wing Republican: The numerous violent windstorms throughout the country this year reminds one of a good old Populist political campaign.

Mankato Free Press: St. Paul attorneys has succeeded in getting $85,000 of the Wilder charity bequest. Now, it is proposed to let the real objects of charity secure a piece of the money, the wolves having got through with their feast.

Moorhead Citizen: A recent railway congress decided to recommend "elastic freight rates." Please don't. The "snap back" always hurts the freight payers.

Long Prairie Argus: The late legislature gave to the railroad and warehouse commission additional power so it might protect the interests of the people in the matter of freight and passenger rates, etc., and it is up to the people now to select the right kind of men to do the work.

Virginian: If you want an investment that is better and safer than an insurance policy, get a piece of agricultural land in Northern Minnesota, the closer to the Mesaba range the better. This is bound to be one of the best and richest agricultural sections in the entire country. Do not worry about the short seasons. Better and larger crops grow here than where seasons are longer.

St. Hilaire Spectator: It is said that "Virtue has its own reward." Henry Roulette, son of the man who stole the bill making St. Peter the capital of the state, has been appointed a janitor for the new capitol.

Ortonville Star: Representative Cole of the Fifty-second district has admirers who are booming him for senator, congressman and governor. If this man listens to the "Call of the Wild" he will be a king with three fiddles.

SAID IN FUN.

Cleveland Plain Dealer: "I'd hate to be a Russian officer."

"Why?"

"Because he gets blown up either by the Japs or his government."

Cleveland Leader: Mary Ann—I've come to tell you, mum, that the gasoline stove has gone out.

Mistress—Well light it again.

Mary Ann—I can't. Sure it went out through the roof.

Philadelphia Ledger: Nell—You'd better come to choir rehearsal tonight.

Belle—I can't.

Nell—You'd better. We're going to try a new hymn tonight.

Belle—So am I going to try a new him. That's why I can't come.

Chicago Tribune: "Hold up your hands!" demanded the footpad, suddenly emerging from the alley.

The victim lost no time in replying. "Great Scott, old chap!" exclaimed the footpad, lost in wonder and astonishment as he looked at the hands, and forgetting entirely the object of the meeting, "What baseball club are you ketchin' fur?"

Washington Star: "What has caused the delay in the concert?" asked the manager.

"Merely a slight misunderstanding," answered the conductor of the orchestra. "It was necessary to explain to some of the performers why Beethoven had never joined the musician's union.

Yonker's Statesman: "He says he's too far gone to be reformed."

"He shouldn't say that. Look at Philadelphia."

Japan's Naval Supremacy.

Springfield Republican: One result of the "battle of Japan sea" is to give Japan the unquestioned naval supremacy of the Orient. With the additions to its fleet of vessels captured from the Russians and of new warships being constructed in England and in Japanese yards, not to speak of vessels which it is likely to build with a portion of the prabable war indemnity, Japan will have a more powerful fleet than any single nation, except its English ally, could concentrate in Eastern waters.

Between Two Fires.

Philadelphia eRcord: The Western Paper trust is now between two fires. The federal authorities are proceeding against it for violating the anti-trust law, and the state attorney generqal is considering the revocation of its charter. In the hearing thus far the officials of the company have evaded the most serious questions put to them by pretending that they did not know or had forgotten the matters asked about. But when they get into court these officials will have to improve their memories or subject themselves to proceedings for contempt of court or something worse. The government has the agreement between the General Paper company and the paper mills under which the former became the sole buyer of the products of the latter, and this alone would justify the state in taking away the charter it granted, without awaiting proceedings in the federal court.

The Engineer's Ghost.

San Francisco Bulletin: The tired out engineer saw a ghostly form on the track just ahead of him.

When he first noticed it he sort o' waked up and looked at it curiously. It was taller than a tall man, but it had the shape of a woman's clothing, and it bobbed up and down and gyrated like a witch in a frenzy. Naturally he became nervous for fear he would run the fool thing down, but it kept up its tantalizing dance just out of his reach, until pretty soon he got desperate and vowed he would run it down if it took a wheel. He chased it across the level, up hill and down, and around the curves, and there the thing still fluttered at him until he was wild with rage and fear. He concluded that it was his "warning" and he gritted between his teeth something that sounded to his fireman like, "If you get me, I'll get you."

The fireman begged the engineer to let up, as he crouched in the bottom of the cab. He finally had to take the shovel and knock the engineer in the head and slow down the engine himself. Then he found that a leaf had blown across the headlight, had caught and dangled in an absurd way, throwing a shadow that had almost wrecked an engine and the men in it and behind it.

If that had happened somebody would have said that doubtless the trainmen had been drinking, and it was such a pity that those men would drink on duty.

Reflections of a Bachelor.

New York Press: Philosophy is the way you pretend to feel when you feel directly the opposite.

What a woman likes about a yachting trip is the clothes she has to buy for it.

If a girl isn't jealous of somebody it would be a sign she was the only person in the world.

If a man had to work as hard to get his living as he does to get his fun he would become an anarchist.

Hard Knocks for Calamity.

Baltimore American: The farmers are to share in the general prosperity in the shape of a big wheat crop. This is really a pathetic season for the calamity howlers.

Marvelous Self-Restraint.

Chicago Record-Herald: General Joe Wheeler denies that he intends to go to Russia for the purpose of getting a commission in the czar's army. This exhibition of self-restraint on the part of General Joe is almost marvelous.

Indiana's Proud Record.

Cincinnati Enquirer: The Indiana commission for the St. Louis World's fair has turned back to the state treasury nearly $16,000 of the total sum appropriated, which was $120,000. The legislature and governor of Indiana have done some things that nobody should be proud of, but this record of honesty sets the state right.

Joys of Inspiration

Boston Globe: The author of a book attacking Christian Science says that it was written in circumstances which he regards as inspirational. "Often," he says, "I arose at 6 o'clock in the morning, impelled as by spiritual force, to write, and after I had written several pages I would stop and read it over and say, 'Isn't it wonderful!' How many literary folks have felt that way!

The Drunkard Bee.

Kansas City Journal: "I have been hearing of the busy bee until I am tired of it," says Drake Watson. "A bee works during the summer and then rests all winter, like a plasterer. And a bee has bad habits. Go into a vineyard and you will find bee drunkards around bursted grapes. The drunkard bees sip the juice until they become full, and then fall to the ground and sleep off their debauch; a drunkard bee knows enough not to go home with a jag."

What Shall It Be.

One year of bamboo trees we shout
Our ceaseless ragtime rhyme,
The next we sing our songs about
The good old summer time.
One year some Indian maiden and
Her troubles we hold dear,
But now the question comes to hand—
What will we sing this year?

One year the song was "Good-bye, Tom,"
"Bedella" took its place;
"Anona" then came pouring from
The newsboy's open face.
And then, "Oh, Listen to the Band"
On every side we'd hear,
But now the question comes to hand—
What will we sing this year?

Will we emit our songs in praise
Of Jack, who went to sea?
Or will we bawl of dear old days
Beneath the maple tree?
Oh, rhymsters all in every land
Unto our plea give ear—
Come forth and let us understand
What we're to sing this year.
—Louisville Courier-Journal.

Ye Joke Speaks.

I'm ye joke that the editor uses
When he runs a bit shye on ye page;
Clipped often, abused and full battered,
Threadbare and grown hoary with age.
Who made me? Forget ye the question,
My origin's lost in ye years;
Used merely to fill out ye column—
Yet written to banish ye tears.

I'm ye joke—that is, ye joke alleged,
Sent out with full humorous intent,
Tho' ye heart of ye Jokesmith that made me
Mayhap with world's sorrows was bent.
By ye editors, heartless, relentless,
I'm slashed right and left with ye shears;
Alas and alack, such base uses,
When I'm written to drive away tears!
—Milwaukee Sentinel.

Then Bulling the Colic Remedies.

Nashville American: J. Pierpont Morgan has purchased a sixteenth century drinking cup for $81,375. Next thing we hear of that man he will be buying the first watermelon of the season.

It Seems Appropriate.

Louisville Courier-Journal: At Chicago university they are asking that designs be submitted for an official seal. How about an oil can rampant on a field of copper?

AMUSEMENTS.

LYCEUM.
Matinee and Evening, Saturday, June 17,
The Romantic Singing Comedian,
CHAUNCEY OLCOTT,
In His Popular Dramatic Success,
"A Romance of Athlone"
By Augustus Pitou, Manager. Hear Olcott's Songs—"My Wild Irish Rose," "The Irish Sweet," "Olcott's Lullaby," "Kate Kearney" and "When Song Is Sweet."
PRICES—Night 25c, 50c, 75c $1.00; Matinee 25c, 50c, 75c.
Seats ready Wednesday.
Week June 26, Pollard Lilliputian Opera Co. in repertoire

Odorless Bohn Refrigerators—

are odorless because there is no decaying food to fill the food compartment and taint the food with deadly typhus germs. Enamel-lined, and cleaned with moist cloth.

The syphon principle of ventilation, which Bohn Refrigerators have exclusively, condenses odors in the ice chamber, keeping the food compartment clean and sweet.

The Bohn System is used by all the great railroads for buffet, dining and refrigerator cars, because under test it proved superior to all others. These ice-saving, health-protecting refrigerators are sold only by us.

NOT FOR SHOW

Sentiment Strongly Favors Business Courthouse For This County.

Commissioners Believe $400,000 Ample to Build One Complete.

Condemnation proceedings have not yet been started by the county, to acquire the half block on the north side of Second street between Second and Third avenues west for a new courthouse site, but it is understood that the county attorney is taking the preliminary steps in getting the necessary papers ready for filing.

The papers have not yet been filed in the injunctional action which Capt. Norris stated that he intended to bring to prevent the county commissioners from building on the site chosen. It is believed that if he persists in the idea of restraining the board from building on the site chosen, the action will be started after the commissioners begin the condemnation proceedings.

So far as any expression has been made by local taxpayers they are generally in favor of beginning operations on the new courthouse at once and they realize that before this can be done the county must have title to the site. The prospect of an injunction suit to stop building for an indefinite period does not seem to strike a popular chord.

As has been decidedly expressed on former occasions, the taxpayers of St. Louis county favor a "business" courthouse, especially so since the new building is to be located on a down-town site and near the heart of the business district. The idea has not been to sacrifice all beauty lines in the new building to have a structure which will present a good appearance and yet be entirely in keeping with the styles of architecture that are being adopted in the business blocks which are going up in the vicinity of the site chosen.

The county commissioners themselves have, on various occasions, indicated their ideas of a new courthouse to be something along the line of a business courthouse with enough ground for the site, but with no surplus ground.

At the present time the board has no plans before it nor it is likely to call for any until the question of title to the Second street site has been decided through the courts.

The sentiment for "business" courthouses in various parts of the country is quite evident. An election was held in Cook county, Ill., not long ago on a proposition to issue bonds for the construction of a new courthouse, work on which is soon to begin. The city of Chicago is situated in Cook county and the Chicago Tribune in an editorial comment concerning the proposed courthouse said:

"By a handsome majority the people authorized the board to issue courthouse bonds to the extent of $5,000,000. But it is extremely unlikely that the full sum will be needed. There ought to be a surplus. And, in fact, it may be said that the measure of the board's efficiency will be the size of the surplus. The courthouse will be devoted to business. This fact should be impressed upon the architects. The fundamental needs of the building will be space, light, ventilation and a good elevator service. All attempts to restore the glory that was Greece and the grandeur that was Rome should be subordinated to these needs. So also should all attempts to spend all the money that has been granted by a generous electorate. tractor and the esthete."

In St. Louis county there will be no issue of bonds on the vote of the people. A courthouse fund has been established which is steadily growing with the annual levy, and the county commissioners are figuring on spending about $400,000 on a courthouse and jail building complete. This amount they consider as ample to erect a building that will fully meet the needs of the county now and for years to come, and sufficient to cover the cost of a building that, while it will primarily be a business structure, will meet all other requirements in the way of structures built along good lines and which will be a credit and a source of pride to the county and to the city.

YOU CAN EAT ANYTHING if you take a CALIFORNIA PRUNE WAFER after the meal.

CALIFORNIA PRUNE WAFERS will not offend the most delicate stomach, they may be given to young or old, they are cooling, grateful, refreshing, invigorating, healthful. They move and regulate the bowels gently without griping, without inconvenience.

CALIFORNIA PRUNE WAFERS makes the "morning after" seem like the day before. They do away with the evil effect of an over-indulgence in tobacco, liquor or the epicurean joys of the table.

CALIFORNIA PRUNE WAFERS are recommended by physicians for all Liver, Stomach and Kidney Disorders. They are a Liver and Bowel Tonic from Nature's Laboratory. 100 Wafers, 25 cents. Sold by

KUGLER, Your Druggist,
108 West Superior St., Duluth, Minn.

FRANK J. O'DONNELL,

Press Agent of Forepaugh-Sells Bros. Circus.

"To be a successful press agent with one of America's big circuses is an attainment which few can successfully reach." These were the words once spoken at a press club banquet in New York by the late P. T. Barnum.

The press agent must be naturally a good fellow. He must know how to call attention to the good qualities of a show without becoming tiresome or over-fanciful in his praise of the combination's superlative attractions. He must "make good" and get notices—or the owners of the institution will hire another man.

The tact of the circus press agent should be of the effective kind. Frank J. O'Donnell of the Forepaugh-Sells circus is a past master of the art, and no more amiable or competent man ever visited a newspaper office in behalf of a tented aggregation. As a man and press agent he is strictly all right.

The very mention of Frank J. O'Donnell's name reminds one of the circus—its every letter is shaded with sawdust and scented with the aroma of the arena. Among the circus craft he is regarded as the foremost artist in that line.

His unvarying courtesy, geniality and good fellowship win him friends everywhere and contribute largely toward making the concern he so successfully represents popular. Many of the bright stories booming the coming of the circus, July 3, are from his facile pen.

HUGE TASK.

It was a huge task to undertake the cure of such a bad case of kidney disease, as that of C. F. Collier of Cherokee, Ia., but Electric Bitters did it. He writes: "My kidneys were so far gone, I could not sit on a chair without a cushion; and suffered from dreadful backache, headache and depression. In Electric Bitters, however, I found a cure, and by them was restored to perfect health. I recommend this great tonic medicine to all with weak kidneys, liver or stomach." Guaranteed by all druggists. Price 50c.

GOVERNOR LA FOLLETTE SIGNS THE RATE BILL.

Madison, Wis., June 14.—Governor La Follette last night signed the railroad rate commission bill, submitting a memorandum in which he mentions regret that the bill does not contain a provision authorizing the commission to deny railroads and other public service corporations the right to issue stocks and bonds, without first showing to the satisfaction of the commission that the property of the corporation owned at the time of such issue, and that proposed to be acquired with the proceeds of the sale of such stocks or bonds, is equal in value to the stocks and bonds then outstanding, added to the stock and bonds which it is proposed to issue.

LOANS FOR SCHOOLS

Made By the State Board of Investment.

St. Paul, June 14.—Loans amounting to $128,000 for the erection of new school houses were approved yesterday by the state board of investment. Three of the loans are made to districts in St. Louis county, and many in other northern counties. Owing to the large number of applications for school loans, the board has decided not to make any loans for other purposes, including ditches, courthouses, bridges, etc. Loans granted districts in St. Louis county follow: District 13, $5,000; No. 52, $1,000; No. 48, $600. Other counties receiving loans in the northern part of the state follow: Marshall, $27,000; Otter Tail, $16,000; Clearwater, $2,500; Becker, $2,000.

Everybody's liable to itching piles. Rich and poor, old and young—terrible the torture they suffer. Only one sure cure; Doan's Ointment. Absolutely safe; can't fail.

STORM IS HEAVY

Beautiful But Extraordinary Display of Lightning Is Seen.

Rainfall More Than Ordinarily Heavy—Wind Not Much.

The electrical storm of last night, being the latest, is, of course, said to be the worst Duluth has ever had. Whether this is true or an exaggeration, the storm was bad enough. For electrical display it was enough even to welcome the Eagles, and they demand something extraordinary. The flashes were incessant.

There were several very sharp discharges of lightning, two in particular, which seemed to be almost simultaneous, being the worst of the storm. It is said that when these flashes came, they both hit a street car in the suburbs of Superior and shocked as well as terrified the passengers in it. The first flash sent bunches of fire dancing through the car, and in some instances burned clothing. One man became so terrified that he went through a window, carrying sash and all with him. Just a moment after this flash came the second one, which caused the incandescent lamps to melt from their sockets in the car and fall to the floor with the explosions which always follow breakings of these. This circumstance added to the terror. After being held there for a while another car was sent out to draw the unfortunates in.

The rainfall last evening was 2.66 inches, which is considerably more than half of the average total for the month. The average for June is 4.39 inches. The heaviest precipitation in any twenty-four hours was on June 23 and 24, 1901, when 3.58 inches fell.

The wind last night did not amount to much. It reached for a few minutes only a shouting distance from forty miles an hour.

The rain did considerable blocking of street cars, for it washed mud and in some instances paving down the hills and formed regular dams across the tracks, necessitating the sending out of men from the car barns to shovel dirt off the tracks. This was particularly true of Second street, where the hill cars were held up each way. On Superior street this happened also. The electricity bothered the wires as well. Three after time the power went off the street car lines and tied up the system. There were many delays in traffic last evening, and the water, getting in through the upper windows of the cars and soaking those under it, added to the unpleasantness of the occasion.

Some of the street lights of the General Electric company were put out of business by the lightning and will have to be renewed, but so far as known no wires are down. The incandescent lights were also sadly disturbed. The telephone companies suffered a good deal from the storm also, but, generally speaking, have their lines in shape for business now.

A considerable number of the new creosoted blocks laid on East First street yesterday were washed out and some were carried down to Superior street by the water rushing down the hill.

KRATKA CITED

By the Probate Judge of Itasca County.

Grand Rapids, Minn., June 14.—Probate Judge Huson yesterday issued citations to Frank Kratka of Thief River Falls, administrator of the Caldwell estate, to appear on June 30 and show cause why he should not be removed and his successor appointed. It is charged that Kratka has carried the estate with a high hand and procrastinated to avoid the payment of debts.

The rear of the log drive of John G. Fraser & Co. arrived here yesterday after a siege of forty-eight days driving from Pokegama lake, a distance of ten miles, five miles of lake over which the logs were towed by tug, and five miles of river, which was "driven" in the good old way. The drive consists of about 5,000,000 feet, and under ordinary circumstances could have been brought down in two weeks, but owing to the handling of the water in the Pokegama reservoir, the drive was not turned down river for fear that an unexpected rise of the water at the dam would back the logs into the lake or into the woods adjoining the river. The logs have been turned over to the care of the Northern Boom company, which will commence operations about July 1.

All the drives are now pretty well into the Northern Boom company's care, the Leech river drive belonging to Rogers of Aitkin, and the Prairie river drives being practicaly the only ones to come in.

Operations on the Minnesota & International railroad from Northome in this county, which have been at a standstill for some time, were resumed this week. The grading for this road was commenced early this spring from the Big Falls end of the extension and about twelve miles were left untouched on the Northome end, the latter being easily accessible and cheaply built in the summer. Six camps in these twelve miles have been ordered built, and the work will be pushed. The grading on the northern end is about completed.

FEED YOU MONEY,

Feed Your Brain, and It Will Feed You Money and Fame.

"Ever since boyhood I have been especially fond of meats, and I am convinced I ate too rapidly, and failed to masticate my food properly.

"The result was that I found myself, a few years ago, afflicted with ailments of the stomach, and kidneys, which interfered seriously with my business.

"At last I took the advice of friends and began to eat Grape-Nuts instead of the heavy meats, etc., that had constituted my former diet.

"I found that I was at once benefited by the change, that I was soon relieved from the heart-burn and the indigestion that used to follow my meals, that the pains in my back from my kidney affection had ceased, showing that those organs had been healed, and that my nerves, which used to be unsteady, and my brain, which was slow and lethargic from a heavy diet of meats and greasy foods, had, not in a moment, but gradually, and none the less surely, been rstored to normal efficiency. Now every nerve is steady and my brain and thinking faculties are quicker and more acute than for years past.

"After my old style breakfasts I used to suffer during the forenoon from a feeling of weakness which hindered me seriously in my work, but since I have begun to use Grape-Nuts food I can work till dinner time with all ease and comfort." Name given by Postum Co., Battle Creek, Mich.

There's a reason.

Read the little book, "The Road to Wellville," in each pkg.

WE WANT INVESTORS!

NOT SPECULATORS.

Please consider this as a business proposition with the element of speculation eliminated. If you have $100 or $10,000 to invest, we want you to put it into THE STANDARD LEAD AND ZINC SMELTING AND MINING CO., because we feel firmly convinced it will offer you greater returns for your investment than any other legitimate propositon you can think of. The Standard Lead and Zinc Smelting and Mining Co. is backed by Pittsburg and Milwaukee men—men whom you know by reputation—and the standing of its directors and stockholders would be sufficient to induce many investors to buy stock—and has proved so. But we prefer investigation and therefore we will pay your expenses to our mines. Investigate them; investigate our mills, shafts and tunnels, and if you come back and tell us that our statements are contrary to facts, we will return your money paid on stock with interest, as well as we will pay your expenses.

What You Ought To Know About The Standard Lead and Zinc Smelting and Mining Co.

The Standard Lead and Zinc Smelting and Mining Co. owns the largest amount of acres as mining property, in fact, owns more acres of land for mining purposes than a dozen companies put together in Platteville, or in any other lead and zinc district, in which every stockholder participates and derives a revenue from. THE PRINCIPAL STRIKES IN OUR MINES HAVE BEEN MADE IN LA FAYETTE COUNTY, NEAR BENTON, where we have a 40-ton mill in operation on our "Sally Waters mine," recently purchased by this company, for which we paid many thousands of dollars. It is not a prospect. We are spending thousands of dollars in the securing of proven mines, without prospecting. Therefore, every investor receives a sure investment with every possible speculative feature eliminated. Our recent purchase we find to be rich in lead and zinc, in fact the richest strikes known of have been made in our "Blinkiron Mine." We refer you to our engineers' report. We have signed letters by the highest mining officials in the state, which is proof conclusive that every statement regarding the richness of our property is true. You will be amazed when you see with your own eyes that which you would have a right to doubt if convincing proof were not at hand.

THE DIRECTORS ARE MILWAUKEE, PITTSBURG AND DULUTH MEN.

If you do not know the directors of the Standard Lead and Zinc Smelting Co. personally, you know them by reputation. They are all prominent and substantial business men of Milwaukee, Pittsburg and Duluth.

WHY STOCK IS BEING SOLD.

We are spending thousands of dollars to develop our property. We have absolute proof that it is rich enough to keep several mills going for years and years to come. Now, we want to put up a magnetic separating mill which will double the price of the product by four times. Such a proposition as this one has never been given to the small investor. This is your opportunity while the stock is on the market at what is known as the "ground floor" price. The stock will advance 50 per cent within a few days.

Here is a Letter From a Well-Known Engineer From Burlington, Wis., Who Has Just Returned From Our Mines:

Burlington, Wis., June 5, '05.

The Standard Lead and Zinc Smelting and Mining Co.—

Gentlemen:—In regard to the trip I have taken to Benton, the railway expense is $11.50. I enjoyed the trip all right and found everything as represented only I did not see Mr. Krueger or Meloy, but I found the engineer, so he showed me around. I am fully satisfied with the bodies of ore on the property. I am certain that I can locate bodies of ore in that section by the score, and where to drill or sink a shaft, they will never miss it, nor will I charge one cent if they do.

(Signed) Respectfully yours,
W. H. KNOLL, Burlington, Wis.

Engineer's Report of May 30th:

Benton, Wis., May 30, '05.

The Standard Lead and Zinc Smelting and Mining Co.—

I took measurements of the tunnel and shafts of the Blink-iron mine. There are 97 feet of finished work, according to our contract, in height and width. They are putting in the lumber at the shaft, which is now 15 feet deep, in which we struck another sheet of lead, running across the shaft in what is called the miners' 2 o'clock, of which I sent you today ore which I picked myself, also some black jack from same property, which are in separate packages, with a large piece of ore that came out of the Klitoes shaft. Today's work on the Sally Waters mine consisted of work on the tramway. I leveled the tross work and relaid half the track to a gauge which I made.

(Signed) T. T. KRUEGER, Engineer.

DIVIDENDS WILL BE BIG.

There is no "might be" about dividends—the minute the new mill starts we will make big money. At the present selling price we can almost guarantee 50 per cent on your investment annually. Please remember these are not "dreams"—we have proof.

The stock is selling very fast. Legitimate investments which offer such unheard-of returns are not to be picked up every day. The best and shrewdest men of Pittsburg are the heaviest purchasers. Par value is $1.00 per share, full paid and non-assessable. You can buy for considerable less if you don't wait until the last minute. Write or call.

Engineer's Report of May 31st:

Benton, Wis., May 31, '05.

The Standard Lead and Zinc Smelting and Mining Co., Milwaukee, Wis.

Dear Sir.—I wish you could have seen this sheet of lead we struck. It was about one and one-half inches thick across the shaft and runs all the way down. We got out about fifty to sixty pounds of the lead such as I sent you today by Chicago-Northwestern railway.

Very respectfuly yours,
THEO. T. KRUEGER,
(Signed.) Engineer.

The Following is a Report From Our Assistant Superintendent Reporting the Strike on May 16th:

The Standard Lead and Zinc Smelting and Mining Co., Milwaukee, Wis.

Dear Sirs:—Simons & B. struck rock at four feet, lead at six feet. Drill hole just missed the lead about six inches.

Very truly yours,
HENRY BLINKIRON,
(Signed.) Benton, Wis.

The Standard Lead and Zinc Smelting and Mining Co

TO BE BIG EVENT

Finnish National Holiday Celebration at Ely June 24 and 25.

Arrangements Made For Prominent Speakers and Athletic Events.

The people of Finnish nationality on the ranges are taking a great deal of interest in the coming Finnish national holiday, which is to be celebrated on a large scale at Ely, June 24 and 25.

So far the indications all point to a very successful celebration, with an even larger attendance than was had at the Eveleth celebration a year ago.

Following their usual custom, the railway company will make cheap rates and run excursions into Ely, and the various mining companies are said to have made arrangements to permit all employes who wish to attend to leave off work for those days. At Ely the mines will be closed down during the celebration, for the reason that a large part of the miners are Finlanders, and will desire to participate in the festivities. The Ely business houses will also suspend business, June 24.

A program is being arranged to cover both days of the celebration. It will include many prominent speakers among whom will be Senator Knute Nelson of Minnesota, Judge W. A. Cant of Duluth, Dr. Jackola of Calumet, Mich., and many others.

Besides the speeches there will be a singing contest, band contest and numerous athletic events, including boat racing, swimming race and land sports too numerous to mention. Many valuable prizes will be offered in these contests, including a pennant for the singing contest, and gold and silver medals for other events.

The celebration will include a big picnic on the famous Sandy Point at Ely lake.

FREIGHT MANAGER

Says Distance Tariff Would Injure the Country.

Minneapolis, June 14.—At the eighteenth annual convention of the National Association of Local Freight Agents, which opened in this city yesterday, with a large attendance, J. N. Tittemore, freight traffic manager of the Minneapolis & St. Louis railroad, spoke as a representative of the railway interests of the Twin Cities. In the course of his remarks he said: "You gentlemen are too keen to not have observed that just at prsent there is an apparent conflict between the people and the railroads. It is quite evident to me that the conflict grows out of a very erroneous public opinion that the railroads are the promoters of the so-called great industrial combinations, the mothers of monopoly, if you will, and as such they must be curbed, governed and held in check. The men who have raised the monopoly cry against the railroads have as their motives, in many instances to sit high in public office.

"The arguments presented for this alleged demand for government regulation of rates are either based upon malicious mis-statements of the true conditions, or there is an honest misunderstanding of the issue. If the latter can be corrected, there is no danger from the former. I need only to say to you that all of you know how fatal to the best interests of the country it would be, were a general system of distance tariffs to obtain, and this is the immediate trend of the arguments that are now presented for government control."

BIG CUT MADE IN GRAIN FEES

Railroad and Warehouse Commission to Reduce the Surplus.

St. Paul, June 14.—The railroad and warehouse commission announces a big reduction in grain-weighing and inspection fees, effective July 1. Under the present fee a surplus of $120,000 has been accumulated in the fund, and the reduction will hold until that surplus is relieved. It will be effective all during the next crop season at least.

The reduction is a horizontal one, taking 10 cents off each item in the old scale, and the new charges will be as follows:

All grain except flaxseed: For inspection "on arrival" or "into store," for each carload, 15 cents; for inspection "out of store" from warehouses, 15 cents a car to cars, 30 cents a thousand bushels into vessels.

On flaxseed the charges will be as follows: For inspection "on arrival" or "into store," 65 cents a carload; for inspection "out of store" from warehouses, 65 cents a carload to cars or 90 cents a thousand bushels to vessels. The charges for weighing flaxseed shall be as provided above for all other kinds of grain.

It is estimated that the reduction will bring the surplus down to about 50 per cent of its present figure during the next season, should the coming crop prove to be an average one.

It is not contended by the commission that the service can be maintained on the basis of such low fees permanently.

Municipal Court Jurors.

The following persons have been summoned as jurors for the general term of municipal court beginning June 39: Arthur McGillivery, Duncan Buchannan, Jens Dangaard, William Craig, C. O. Nelson, Adam Neubec, A. W. Clark, Sivert Morterud, C. L. Cameron, Samuel Wenberg, Frank Reitzloff, George Jensen, L. C. Miller, D. W. Paddock, Edward Tizzard, George Tischer, William Marquardt, Phil Pastoret, Malcolm McDonald, C. B. Carl, John Murden, John Healey, John M. Foster, James Rooney.

Mame. C. Fisher

Of Boston whose practical lessons and demonstrations of the art of cooking have endeared her to the people of the United States will be pleased to meet the mothers and daughters of Duluth at Zenith Furnace Co.'s store, 331 West First street, every afternoon this week.

SONS OF VETERANS

In State Encampment Honor Two Duluthians.

The state encampment of the Sons of Veterans, just held at Red Wing, conferred honor on two Duluthians. E. F. Heller was elected an alternate delegate to the national encampment of the order to be held at Boston this summer; and John C. Wesenberg of the local camp was recommended for appointment by the state commander as inspector. The two Duluthians mentioned were delegates to the state encampment from the local camp. They tried to get the next state encampment for Duluth but that honor was given to an older encampment, that of Little Falls.

The social features of the state encampment proved to be exceedingly entertaining, one, under the circumstances, being likely to be remembered. That was the serenade by the oldest fife and drum corps in the United States on Col. William Colvill, commander of the famous First Minnesota, at Red Wing a few nights ago. Yesterday morning he was found dead in bed at Stillwater.

WEDDED IN SECRET

And Five Weeks Later Made a Widow.

New York, June 14.—Bride and widow within five weeks is the experience of Mrs. Armand De Lorris, and Cora Fowler, of Larchmont Manor. Her most intimate friends have only just learned of her secret marriage and the sudden death of her husband.

Mrs. De Lorris is a striking brunette in the thirties. She lives with her parents in Grove avenue, within a short distance of the Larchmont Yacht club. About two weeks ago she appeared in mourning, and as the neighbors, who had not heard of a death in the Fowler family, began talking, Mrs. De Lorris' mother heard of the gossip going the rounds of the club and persuaded her daughter to reveal her marriage. Aside from the bare announcement that Armand De Lorris of Paris and Mrs. Cora Fowler of Larchmont Manor were married at Montreal on April 16, and that Mr. De Lorris died suddenly on May 20, no further information was given.

When Mrs. De Lorris was seen at her parents' home she said:

"It is true that Mr. De Lorris and I were married in Montreal on April 16. My husband fell ill of heart disease and died May 20. Further than this I have no information to give out."

"Did you elope?" Mrs. De Lorris was asked.

"No."

"Was your husband married on his death-bed, Mrs. De Lorris?"

To this question Mrs. De Lorris gave no reply.

"Did your husband die in Larchmont or New York?"

"He did not die in either place, but his body was brought to New York."

"Why did you keep your marriage a secret, and why did you not announce the death of your husband?"

"I have reasons of my own for keeping the matter quiet. I would not have announced it at this time had it not been for my mother, who persisted in making a statement of the facts."

Mr. De Lorris was not known at Larchmont Manor. Mr. and Mrs. Fowler are well known there. Mr. Fowler is a retired merchant, and reputed wealthy.

Three spectres that threaten baby's life. Cholera Infantum, dysentery, diarrhoea. Dr. Fowler's Extract of Wild Strawberry never fails to conquer them.

"Doctor,

Established in Duluth 1899

I want to tell you that you are the tenth physician to treat my case, and the first to understand it and benefit me," said one of our patients the other day. Well, this is our Specialty. We devote our entire time and attention to maladies peculiar to the Male sex. We get ten cases to every one the general practitioner receives, and it is only natural to suppose that we DO KNOW how to treat and CURE Pelvic Diseases. To men afflicted with Private Diseases, either contracted or brought on by abuses, we want to say these cases are not "idle dreams"—they are WORSE THAN "COLDS"—and may lead to wrecking maladies if not properly treated. We offer you the SUREST and QUICKEST CURE for VARICOCELE, HYDROCELE, STRICTURE, GONORRHOEA, GLEET, PROSTATIC TROUBLES, KIDNEY, BLADDER and URINARY DISEASES, LOST MANHOOD and NERVOUS DEBILITY, and the care and attention of a noted Specialist in Pelvic Diseases. Consultation free and confidential.

PROGRESSIVE MEDICAL ASS'N,
No. 1 West Superior Street—Corner Lake Avenue.

The Northwest's Most Successful and Reliable SPECIALIST IN DISEASES OF MEN.

OFFICE HOURS: 8 a. m. to 8 p. m. Sundays, 10 a. m. to 1 p. m.

MARSHAL NEY

Was Great-Grandfather of Johann Hoch, Latter Claims.

Doomed Wife Slayer Says He Is of French Descent.

Chicago, June 14.—Johann Hoch, who is to die on the gallows June 23 for the murder of Marie Walcker-Hoch, is the great grandson of Marshal Ney, who went to St. Helena with Napoleon, and the scion of a prominent family in Strassburg. Two of his brothers are ministers in Strassburg. His father, also a minister, and retired at the age of 82, lives in Toulon, ignorant of the plight of his son.

For the first time the condemned man has broken the silence he has steadfastly maintained since his arrest and now a glimpse of the past life of this remarkable man is given.

It may be that the long strain has worn on his determination to remain silent about all that concerned his family. There have been many conjectures and guesses concerning him since his arrest. His evident refinement of manner, his education and his general attitude toward the people with whom he has been brought into contact have stamped him as a man out of the ordinary. His gestures have been those of a Frenchman and not of a German.

Standing behind the bars of the cell, he talked volubly about himself, sparingly of his people.

"For the sake of my own family in the old country I have refused to go on the stand in my own defense. They do not know this disgrace that has come to me, and I hope that they may never know. My family is an honorable one in Alsace. I was born in Strassburg—old Strassburg. It was a French city then, but in the war of 1871 it passed into the possession of Germany.

"My father's people are Alsatians, and not Germans. My mother's people are all French. I am the great-grandson of Marshal Ney, of him who went to St. Helena with Napoleon. He was a hero, a hero for France, and I, his descendant, will not forego my honor. I shall die a week from Friday, but I shall die a man innocent of guilt, a man who speaks the truth. I am going before my Maker and Jesus Christ, my Savior. How could I stand at the judgment seat with a lie on my soul?

"My father was a minister in Strassburg. He is a very old man now, 82 years of age. He is in Toulon, but my two brothers, both of them ministers, are in Strassburg. You know Strassburg, the old cathedral town?"

The lips of the man behind the bars twitched nervously, as if the remembrance of his youthful days in the historic city were overcoming him.

"My mother died when I was 12 years old. I was educated for the ministry, but I was something of a freethinker and I could not say that I believed in dogmas in which I did not."

"But I believe in God as my father does and as my brothers do. I believe that I shall meet in the life beyond those who were near and dear to me in this life. I am not afraid to die. I am not perfect. I have done some wrongs in my life. But I am not guilty of this crime with which I am charged. I am not guilty of bigamy. I loved my wife. From the evidence that was brought forward in the trial I think that my wife died of arsenic poisoning, but I never gave her arsenic.'

"Have you any theory as to how the arsenic was administered?"

Hoch shrugged his shoulders and spread out his palms. "No gentlemen would say what he thought when it would incriminate a woman. There is a possibility that the nurse made a mistake, that the doctor made a mistake in making the medicine too strong, that the drug clerk made a mistake, that my wife's sister gave it to her by mistake, that my wife herself—oh, a hundred things. All this, remember, I am only presuming. But what is all this trial but guess work? Have they not guessed my life away?

"I do not wish to see Inspector Shippy, though. He deceived me. I had talked with him one night, but in that conversation I had confessed to none of those things that he had declared. Then he asked me to sign a paper, telling me that it was a form for my exchange from the police station to the county jail. Then he brought forward the paper as my signed confession. But I am only Johann Hoch.

"I have been told that Assistant State's Attorney Olson said before the close of the trial, 'I am afraid that I won't be able to get a conviction.' Does the state of Illinois pay him to get convictions or to secure justice?

"It is position for one, glory for another, promotion for another. But what can I expect? I am only Johann Hoch."

This is his constant refrain. He lives over and over the whole progress of his married life with Mrs. Marie Walcker-Hoch. He recounts every detail of her illness, every statement of the doctor and the nurse, every symptom that she showed. He goes over the trial with the precision and keenness of a lawyer.

A noticeable characteristic of this man who is condemned to an ignominious death is his chivalry toward Mrs. Fischer. "I am sorry that I married her so soon after the death of my wife," he says, "for her own sake. If I die, it matters nothing to me what the world thinks of me, but she will have to live on in it. I married her because my wife asked me to when she knew that she was going to die. She wanted her sister to have a good home; and because I had loved Marie I married her sister."

Excited as he is when he talks of his innocence, Hoch is remarkably calm when he speaks of death. "I have no money for a new trial. I could get it by letting them know of my plight at home, but I shall never do that. If I am given a reprieve and have a new trial and am acquitted, I should be able to get $10,000 in two weeks. But I shall not let them know what has befallen me."

"If I were guilty I might be afraid to die, but I know no fear of eternity now. And death is better than this. They have been good to me over here. I have given my word of honor to Jailer Whitman that even if I find the doors open I should not go out."

His philosophic acceptance of fate is upholding him where other men have broken down.

"I have my honor and my word," he declares, "and when death comes to some of those men who have brought death on me they may wish that they had that when they are to meet their God. I can die happy if I am to die." And, throwing back his head and straightening his shoulders, he looked out a defiance of death with the courage of a soldier who goes into the fight.

If he is in truth the great-grandson of the hero of France, Jonann Hoch is waiting for his doom with a bravery that the marshal would not be ashamed of, the pride of race and of inner righteousness, the fortitude of the martyr. Guilty or innocent, he has no fear. He is not the man who runs away from the final issue.

CHICKEN BONE IN HER MOUTH

Vaudeville Actress Has a Strange Surgical Operation Performed.

New York, June 14—Miss Dell Hawkins, otherwise known as "Polly Hazel," a vaudeville actress, who is well known not only in this country, but in Australia, is enjoying—if such be the word—the novel experience of having the breast bone of a chicken permanently in her mouth.

She says she suffers no discomfort. It was placed there in a surgical operation by Dr. William E. Young of 46 West Sixty-fifth street.

According to Dr. Young Mrs. Hawkins was afflicted with an abscess of the mouth three years ago, which finally became so aggravated that ordinary methods of remedy failed, and he tried the novel one of substituting the tough breast bone of a chicken for the roof of her mouth. The operation was performed nine days ago, and the patient has been progressing well at the Hotel St. Paul, where she is living with her husband and their daughter.

HIS "SPEECHIFYING."

Joseph Chamberlain was at one time rather given to "sawing the air" with his arms when alone, preparing one of his strenuous speeches. Once he issued an order that strangers were not to be shown his orchid houses. "I will not have my orchids broken," he said to the gardener, pointing to a spoiled valuable specimen. "I suppose you didn't happen to see it done?" "Yes, I did," replied the gardener. "What! you saw it done and said nothing!" exclaimed Mr. Chamberlain. "No, sir; I hardly dared," was the reply. "I insist on knowing who it was," angrily said the statesman. "Well, sir, it was yourself yesterday, while you was speechifying."

In Japan the morning salutation, "Oheyo!" is pronounced exactly the same as the name of the state, Ohio. In Japan it means "Good morning." It is related of the late Col. Bird of Columbus, Ohio, that when he landed at Yokohama, Japan, for the first time he was hailed by a dozen rickshaw men with the usual "Oheyo! You wantche rickshaw?" He turned to a fellow traveler, and exclaimed in amazement: Well, I've always heard that these Jappers were a wide-awake people, but, gad, I never expected to find them able to name a man's native state the minute they set eyes on him! Yes, my man, I'm from Ohio—Columbus, at that! Ride me to the best hotel!"

Money Saved Right Here.
ALL EYES THIS WAY.

Sale commences THURSDAY MORNING, JUNE 15th, with a great bargain broadside all along the line. Come and enjoy mixing with the buying throng and save BIG, HARD, ROUND DOLLARS.

THE REASON—The reason for this sale is that we don't propose to carry over stock for another season. We can use the money—and want it. Read our prices carefully and see how we propose to get it.

FREE!

The first person entering our door Thursday morning will be given a beautiful $15 Suit free of charge.

Here's a Pointer Any man who wants a good suit and would like to keep a half or a third of his money had better come and see what's going on here during this sale. PRETTY AND IMPOSED UPON

Sues For Alleged Breach of Promise of Marriage.

Baltimore, June 14.—Miss Mina Haskiovetz, who by her own modest confession is a very pretty as well as a much-imposed-upon young woman, has sued "Jake" Baker for $10,000 damages for alleged breach of promise of marriage.

The tragedy appears to have begun to brew last March. The fair plaintiff asserts that she, and not "Jake," broke the news of the engagement to her fond parents. Her declaration adds:

"And great was the rejoicing in the household of the plaintiff, and many were the congratulations showered upon the plaintiff and defendant by their many friends.

"The defendant asked that an engagement feast be prepared at the home of his intended bride and forthwith the plaintiff did go, at large expense and much sacrifice that might tempt the palate of any man, to which flocked, as is usual on such occasions, those who both from sentimental reasons desired to honor the intended marriage of the plaintiff and defendant.

"Not least among those gathered on this occasion was the defendant himself, whose face beamed with satisfaction at the sight of his pretty bride-to-be, and profuse were his thanks for the magnificence of the engagement feast so aptly provided by his intended bride.

"The defendant, in order to safeguard against any other member of his sex making way with or purloining his pretty bride-to-be, caused a marriage agreement to be prepared in writing, which he signed with his signature, by which agreement he bound himself to marry the plaintiff.

"The plaintiff further alleges that suddenly and without cause, and to her mortification and hurt of feeling of both heart and mind, the said defendant failed to call upon her or in any way to continue the many manifestations of marriage joy with which he had formerly surrounded her, but, true to her promise, she refrained from receiving or going with any other member of the male gender, except her husband-to-be.

"And she verily believes and will be able to prove that the defendant was paying attention, and in fact was engaged, to another fair member of her sex while he was contemplating marrying the plaintiff."

In conclusion, she says, "the feelings both of herself and her parents have been sadly, remorsely shattered and hurt," and that "while engaged to the defendant she was put to large expense for entertainment and raiment."

A REED SHAKEN WITH THE WIND.

Without Will Power, Courage, Ambition, Energy or Hope, the Dyspeptic Is Willing to Give Up the Struggle.

The confirmed dyspeptic has as little interest in life as any human being. He is unfitted for its duties and is indifferent to its charms. He is unable to enjoy the business and social relations that constitute the life of the average man. All his hopes are absorbed by the one hope to get well and again be able to enjoy the good things of life. Until this is realized, he is sick at heart and feels himself to be of little use.

Stuart's Dyspepsia Tablets are the sufferer's tree of life. They will cure him and bring him health and happiness just as sure and certain as he takes them. They are sure because they are natural and no other cure but a natural one is sure. They act on the food and digest it just as well as a stomach would. They contain exactly the same chemical properties as the digestive fluids of the stomach.

By putting Stuart's Dyspepsia Tablets in a bottle or jar with any kind of food; meats, eggs or vegetables, with sufficient amount of water, the process of digestion is carried out just as it is in a healthy human stomach and in the same time. There is consequently no unnatural disturbance of the digestive organs resulting from the use of Stuart's Dyspepsia Tablets. They relieve the weak and worn-out stomach of its work and permit it to rest up and recuperate and regain its normal health and strength.

A well-known Buffalo physician says: "I prescribe Stuart's Dyspepsia Tablets on all occasions as a relief for weakened and run-down stomachs. I find they contain all the ingredients necessary for the proper digestion of the food and will do more to give the stomach the needed rest than any medicine I could prescribe. They have never failed to give immediate relief in all my cases and I do not hesitate to recommend them to all sufferers from dyspepsia."

Stuart's Dyspepsia Tablets are for sale by all druggists at 50 cents a box.

DIVER FOOLED THE POLICE

Who Thought That He Had Leaped to His Death.

New York, June 14.—Frank Carroll, an expert long-distance swimmer, with more medals for life-saving than he could pin on his breast at one time, pursued by the police, dived to apparent death in the East river.

But for more than two hours thereafter, while the police were scouring the river in boats, searching for his supposedly dead body, Carroll sat in a nearby lumber yard drying his clothes and keeping under cover.

Instead of sinking to the bottom, as the astounded officers believed, he had swam under water for two blocks and gained the cover of the lumber yard in the shadows of the coming night.

Up to a late hour he was still sitting in the lumber yard declaring he would dive again should the police attempt to arrest him. Reporters found him there, but the police knew nothing of it.

Carroll is wanted by the police on a charge of abandonment and non-support made against him by his wife. The police had been looking for him for several days and when one of them spied him at Eighteenth street and Avenue A an exciting chase followed.

When upon approaching the river the fleeing man shouted, "I will end it all," before hurling himself into the water, the pursuing and perspiring limbs of the law had every reason to believe he had drowned himself, rather than be taken.

Nevertheless the man's desperate act seemed strange in view of the comparatively trivial charge against him. They did not know at that time that Carroll was an expet swimmer, and the policeman who had been most eager for his arrest was not without some qualms of conscience at the thought that he had driven the man to death.

Later, when a friend of the supposedly dead man made the inadvertent remark that Carroll was a long-distance swimmer with a record, and when it became known that the supposed dead man had no less than twenty-seven medals for life-saving, the disgusted officials found him very much alive and watchful.

FORTUNE IN TRUNK

Of Man Who Died In Seeming Poverty.

Brooklyn, N. Y., June 14.—Through the filing of papers in the surrogate's office in King's county it became known that Alexander Russell, who died alone in a small furnished room at 121 Cambridge place, Brooklyn, last October, left an estate of over $1,000,000.

By a will which was brought over from Dunfermline, Scotland, where Mr. Russell was born, by David Dean Blair, named as executor, the greater part of the estate is to go to Miss Agnes Jeanette Russell of that place, the sister of the dead man. About $5,000 is to be distributed among various public institutions and a few small bequests are left to friends.

Mr. Russell, who kept much to himself in his little Brooklyn room, had few friends there, and none of them were aware that he had an income larger than would keep him modestly. The public administrator of St. Louis, where Mr. Russell lived for some time, being a member of the wholesale dry goods firm of D. Crawford & Co., learned of his death, and, knowing of his wealth, took charge of the property there amounting to some $200,000.

Then he communicated with the public administrator in Kings county. Charles H. Kelby, counsel for the administrator, after a search through the financial district, found that Mr. Russell had stocks and bonds and other securities amounting to $200,000 in the Colorado Trust company and $8,000 in cash in the Chemical National bank. Mr. Blair, who is also trustee for some of Andrew Carnegie's benefactions, says that Mr. Russell's property in Dunfermline amounts to more than $500,000.

COLOR IS LENT TO THE REPORT

That Special Attorneys Harmon and Judson Have Resigned.

Washington, Jnue 14.—The report that Messrs. Judson and Harmon, the special attorneys appointed by the president to bring suit against the Santa Fe railroad and the Colorado Fuel and Iron company, on charges of rebates made, by the interstate commerce commission, will resign, has been revived by the circumstances that these lawyers have been in possession of the commission's evidence and that no action has yet been taken.

It is a well-known fact that the attorneys could proceed either against the corporations as such, or against any of the individuals of the corporations. Attorney- General Moody, it is understood, is in favor of proceeding against the corporations, and such a process would, of course, prevent complications as individuals.

Paul Morton, late secretary of the navy and former second vice president and traffic manager of the Santa Fe, is one of the individuals who could be proceeded against, it is inferred from the finding of the interstate commerce commission. It is not known, of course, whether the connection of Mr. Morton with the Santa Fe has anything at all to do with the alleged friction between Mr. Moody and the special attorneys. Neither of the attorneys has stated in any way what the process would be, but it has always been understood that the case would be given to a grand jury at Albuquerque, N. M.

The report, however, is and has been current that Judson and Harmon favor proceedings against individuals as well as the corporations, and that that created such friction that they had a row in the office of the attorney-general, and threatened to resign if they were not allowed to conduct the case as they pleased, having been specially appointed by the president.

Attorney-General Moody, however, when that report was current made an official statement, the substance of which was that there was no friction between him and the special attorneys. The attorney-general has since refused to discuss the matter.

The fact, however, that these attorneys, who had been given the advantage of the piles of direct and, to the commission's mind, conclusive testimony, have not got out any indictments yet, revives the former report.

CORBETT WINS FROM THOMPSON IN TEN ROUNDS.

Butte, Mont., June 14.—After ten rounds of clever fighting, "Young" Corbett of Denver, was declared the winner over Maurice Thompson of Butte. Thompson lay on the canvass dead to the world and was being counted out when his seconds threw up the sponge and carried their man to his corner.

It was a good, clean fight and Thompson surprised even his friends when he knocked Corbett down in the second round. Corbett had rushed Thompson and was caught with a swing while off his balance. He was up in a second, however, and fighting back. Corbett carried the fight to his opponent in every round and landed some terrific swings that would have knocked out any ordinary man, but Thompson withstood them until the middle of the tenth round. Corbett then knocked and jabbed Thompson at will and drove him to the ropes on numerous occasions.

PROMINENT LAWYER

Has Been Living a Dr. Jekyl and Mr. Hyde Life.

Thomas F. Wickes Indicted and Arrested For Blackmail.

New York, June 14.—A remarkable case of alleged dual identity came to light yesterday with the arrest and indictment by the grand jury of Thomas F. Wickes, a prominent lawyer on a charge of blackmail.

According to District Attorney Jerome, Wickes had been living a Jekyl and Hyde life for more than three years. His relatives claim that he had shown evidence of being mentally unbalanced and that they had thought of sending him to a retreat, but that he informed them that he would resist any such attempt. When he was arraigned yesterday Wickes was released on $1,000 bail, pleading, on the indictment being deferred until next Monday on request of the district attorney.

The story told in connection with the indictment has many remarkable features. The case is based upon a complaint made by Edmund Weston, head of the Weston Electrical Instrument company of Newark, N. J., who alleges that Wickes, under a fictitious name wrote him a number of letters criticising acts of an attorney employed by Mr. Weston in a case in which Wickes also was interested and demanding money. Mr. Weston was the defendant in a suit for $50,000 damages for false arrest, brought against him by Dr. A. T. Grinnell, formerly dean of the medical school of the University of Vermont. Wickes appeared as one of Dr. Grinnell's counsel, while former Assistant District Attorney Osborne was counsel for Mr. Weston. The case has gone to trial four times, the fourth trial being abruptly ended Monday by the withdrawal of Attorney Osborne, who gave as his reason for so doing the conduct of Mr. Wickes, counsel for the complainant.

It developed yesterday that Wickes is charged with having written letters to Mr. Weston, pointing out alleged errors in papers filed by his counsel in the case, declaring that his act in signing these papers constituted perjury and made him liable to punishment, and demanding payment of money to guarantee him against prosecution and imprisonment.

The letters were signed by "Lewis Jarvis." When Mr. Weston attempted unsuccessfully to locate Jarvis, finally the matter was placed in the hands of the district attorney. His investigation developed the fact, it was said in court yesterday, that more than three years ago, Wickes had an elaborate letter head bearing the name of Lewis Jarvis, engraved and printed by a fashionable stationer. It is also alleged that Wickes called at the postoffice and received letters from the box indicated in the Jarvis' letters, which was received by Mr. Weston. When called before the grand jury he was unable satisfactorily to explain the matter, and the indictment and arrest quickly followed. Wickes is well known as a civil lawyer, and has a handsome residence in West Seventieth street. He is about 55 years old. He was graduated from Yale in 1874, and from the Columbia law school in 1876. He is a member of the University Lawyers and New York Athletic clubs, Psi Vasilon club and Association of the Bar of the City of New York, and was associate corporation counsel of this city when United States Judge Lacomb was corporation counsel.

LETTER CARRIERS

Of Wisconsin Elect Officers For Ensuing Year.

La Crosse, Wis., June 14.—At the state convention of the Wisconsin Letter Carriers' association yesterday, speeches were made urging the letter carriers of the state to get together to oppose the proposed changes in the rules for the government of carriers. Several speakers said that if the department persisted in its decision to apply the new rules great hardships would be worked upon the letter carriers in the country. The Milwaukee branch, which seceeded from the state association, a year ago, was formally invited to come back into the organization. The following officers were elected:

President, William H. Law, Superior; vice president, John J. Koblitz, La Crosse; secretary, L. L. Mead, Racine; treasurer, C. F. Miller, Kenosha; sergeant-at-arms, T. Kunz, Beloit; delegate-at-large, Chris Dyerud, Baraboosa; alternate, H. C. Jackox, Fort Atkinson.

NO SECRET ABOUT IT.

It is no secret that for Cuts, Burns, Ulcers, Fever Sores, Sore Eyes, Boils, etc., nothing is so effective as Bucklen's Arnica Salve. "It didn't take long to cure a bad sore I had, and it is all O. K. for sore eyes," writes D. L. Gregory of Hope, Texas. 25c at all drug stores.

GERMANY ORDERS SIX TORPEDO BOATS.

Berlin, June 14.—The navy department has ordered of the Germania works six sea-going torpedo boats of a different type from those previously constructed or authorized. They are on the government list as "G"-132 to "G"-137. The Cologne Gazette says they are of large displacement and are in every way stronger built and fitted with more numerous torpedo tubes than the torpedo boats previously laid down. The vital parts of the new boats will be protected from the fire of the smaller guns of warships. These boats, which are to be completed inside of a year, are expected to have a speed equal to the boats of the present type, owing to their powerful machinery, and yet be strong enough to withstand the fire of an enemy's quick-firing guns while approaching a warship and discharging torpedoes. One of the six boats will be fitted with turbine engines as an experiment.

Dyspepsia—bane of human existence. Burdock Blood Bitters cures it, promptly, permanently. Regulates and tones the stomach.

STORTHING LEARNS

Of King Oscar's Views From Letter to President Berner.

Claims It His Duty to Refuse to Acknowledge Secessionists.

Stockholm, June 14.—King Oscar in a long and vigorously worded letter to the president of the Norwegian storthing, M. Berner, declares that the accesion oath of Norways' king makes it the king's duty not to pass over in silence the pronouncement of the Norwegian council of state on the occasion of his majesty's veto of the consular bill. The king mantains that he did not overstep his prerogative under the constitution and says that consideration for the union imposes on the king the duty of exercising his constitutional rights.

"The king of Norway," he adds, "must always bear in mind, paragraph one of the Norwegian constitution, which reads:

"'The kingdom of Norway is free, autonomous, independent and indivisible.'

"I feel self-justified in demanding respect for the decision taken by the king of Norway, in accordance with the constitution. The powers which the constitution place at his disposal of the Norwegian king in order to enable him to promote the welfare of the country according to his convictions are no greater than those which must be reserved to the monarchy united with Sweden under one king."

After lengthily repudiating the declaration of the council of state that his veto was unconstitutional because no member of the council regarded himself as being in a position to countersign it, King Oscar proceeds:

"One of the fundamental principles of the constitution and a fact that is most important is that Norway shall be a constitutional monarchy. It is clearly incompatible therewith that the king should sink to the position of a mere tool in the hands of the state council. If the members of the council of state by refusing to countersign any of the royal decisions could prevent them from having force the king of Norway would be excluded from participation in the state administration. Such a situation would be as degrading to the monarchy as harmful to Norway. The position of the king as monarch of the united kingdom of Sweden and Norway, makes it incumbent upon him not to prejudge as monarch of one kingdom questions affecting the other kingdom.

"The duty of the king on this point cannot be reconciled with the view that one kingdom, through the refusal of its council of state to append a counter signature can annul the royal judgment wherein the king refuses to give a decision prejudicial to the other kingdom and injurious to the union. The Norwegian people and the Norwegian nation have tried to force the king to give a decision which in his opinion conflicts with his duty as monarch of the united kingdoms and king of Sweden, therefore the king of Sweden must be altogether dependent upon the Norwegian council of state as regards his decisions. Such a construction of power I can only describe as being irreconcilable with the law laid down in the riksadt (the charter promulgated in 1815) establishing new fundamental laws on the terms that the union of two kingdoms be indissoluable and irrevocable with the prejudice to the separate government, constitution and laws of either Sweden or Norway.

"My endeavor has always been to give Norway that place within the union to which she can rightly lay claim. My duty to the union requires me to endeavor to uphold it on a legal basis, even when by so doing I come into opposition with the Norwegian national feeling.

"The law on which I took the oath and which has regard for the welfare of the united kingdom has determined my decision on the consular question, but here I was met not only by the refusal of the Norwegian council of state to countersign that decision, but by the resignation of its members. When I decline to accept the resignation of the council it threateningly declared that any Norwegian who co-operated in carrying out my decision would at the same time be without a fatherland. I was therefore placed in the position of either myself breaking the riksadt which I was sworn to uphold or of reconciling myself to stand without councillors. The council after attempting to violate the constitution and to render void a decision of the king of Norway legally given, resigned office and the king of Norway was deprived of councillors. The storthing approved this breach of the constitution and by a revolutionary proceeding declared that the legitimate king of Norway had ceased to reign and that the union of the two kingdoms was dissolved.

"It remains for Sweden and for me as king of the union to decide whether the attack by Norway on the existing union shall lead to the legal dissolution of that union.

"Let the present generation and posterity judge between me and the Norwegian people."

Wasted $600 With Doctors for Eczema

THEN CURED BY

D. D. D. Prescription

THIS IN THE GENTLEMAN'S OWN STATEMENT

51 Alice Place, Chicago, Nov. 3, 1904.

D. D. D. Company.

Gentlemen: In the course of six years, during which I suffered untold agony from Eczema on the hands and feet, I spent $500 to $600 with the best skin specialists in Chicago. I should gladly have spent many times that if I could have been cured, for the constant itching and burning drove me almost to distraction and made life not worth living. A brother conductor, Mr. Edward Cain of West Chicago, Ill., who had suffered from salt rheum and letter for twenty years called my attention to D. D. D. I started to use it and received instant relief from the terrible itching. This made me happy, but I found that the Eczema eruption instead of disappearing seemed to spread. I was told that it was sometimes a symptom after D. D. D. was first applied, and so I continued to apply the remedy and got at least relief from the itch for the time being. Since then, I am glad to say, D. D. D. has worked wonders, for the Eczema gradually disappeared and I am now completely cured.

SIMON CROWLEY.

Conductor Wisconsin Division, Northwestern Railway.

That D. D. D. has cured all these people whose letters we published there can be no doubt, and D. D. D. will just as surely cure you. No matter how severe or of how long standing your skin trouble may be. We absolutely guarantee this and will refund you every cent you pay for D. D. D. if you are not cured. Don't delay, for a minor skin trouble may quickly develop into fearful itching Eczema. Go today and get a $1.00 bottle of D. D. D. and your cure will be assured.

Lyceum Pharmacy, Lyceum Building.
Lenox Drug Store, 607 West Superior St.

WAIT FOR THE Closing Out Sale!

—OF ALL—

DRY GOODS, CLOTHING AND SHOES!

On June 1st a trustee was appointed by the creditors of C. H. Oppel & Sons, to close out all Dry Goods, Clothing and Shoes regardless of cost and enlarge and improve the Grocery Department.

House Cleaning Sale Now Going on in our

Grocery Dept.

After taking invoice we found a lot of odds and ends we must get rid of in order to clean up the stock and make the new improvements. While our store will be under new management, with new ideas and plenty of new goods, Messrs. C. H. Oppel & Sons will still be connected with the business and glad to meet their old friends and customers who have patronized them for the last thirty-five years.

C. H. Oppel & Sons,

Charles T. Fitzsimmons, Trustee,

115-117 E. Superior St. Telephones 48.

BULLDOG TEARS TWO CHILDREN

Brave Motorman Rescues Them and Is Also Bitten.

Uxbridge, Mass., June 14.—D. J. Quinby, motorman on the Milford & Uxbridge street railway, did a valiant deed when he saved two children from being killed by a savage bulldog, kept in the store of Dennis Daley to frighten burglars.

Quinby had stopped his car in front of the store, when he heard screams coming from within. Seizing his controller and a barrel stave, he rushed in. Near the door stood little Minnie Corneau, with two fingers almost bitten from her left hand, and in the middle of the floor was the huge dog with his teeth imbedded in the scalp of 6-year-old Florence Noiseaux.

At sight of Quinby the dog lifted the girl and shook her as if she were a rat, then dropped her and sprang at the motorman. A hot fight followed, during which Quinby's hand was severely injured, but finally, with the help of several other men, the dog was driven into an inner room and the injured girls carried to a nearby drug store, where medical attendance was summoned.

On examination it was found that the scalp of the little Noiseaux girl was torn to shreds, and that her face and hands were also badly bitten. She was taken to the St. Vincent hospital at Worcester. Her recovery is doubted by the physicians there. The whole affair resulted from the fact that the owner of the store was so pressed with business he forgot to lock the dog in, as was his custom. The children, finding the door unfastened, went in to buy candy.

NEW YORK NEGLECTS

The Thirteen Trees Planted By Alexander Hamilton.

New York, June 14.—Seldom does one run across real, heartfelt sentiment in New York; one finds it, but only in spots, when the subject of New York's historic trees is touched upon.

Of late years the Alexander Hamilton trees, or the stately old corpses of them, have been rapidly falling to decay, and this spring when their neighbor trees unfolded their leaves to the sunshine, old settlers were saddened because only one of the Hamilton trees had strngth enough to show the usual sign of life.

Alexander Hamilton planted thirteen of them for the first thirteen states. They were planted upon what was then his estate.

"They were all thirteen alive when I was a boy thirty years ago," said a man in a gray suit as he stroked an old trunk. "There used to be a high fence around them then, and we boys used to have to climb it when we came over to play near them."

"Oh, isn't it a pity!" exclaimed a woman in passing. "There's one of them on the ground. They used to be so beautiful when all thirteen were alive!"

"Yes, isn't it a pity!" said the man in the gray suit. "That's what we all say, but we've not done one thing to preserve them. They've been mutilated and misused, covered with tin signs and real estate notices until only one remains alive."

Only a few blocks from these trees, near the bank of East river, not far from One Hundred and Forty-fifth street, is a line of Egytian cypresses, the trees close together, their shaply angled branches all so very much alike as to suggest a column of soldiers.

These trees were given to Napoleon Bonaparte by the khedive of Egypt, when that great general was leaving the country, and by Napoleon were taken to France.

There Napoleon's younger brother, Jerome Bonaparte, saw them and begged them to take to his friend in America, an old French wine merchant named Jumel.

Rumor says that Jerome Bonaparte himself planted these trees on the estate of his friend. There used to be a complete circle of them surrounding an artificial lake.

Many of the real New Yorkers, those whose fathers, as boys, shot meadow larks in Washington square, can remember the brave old circle of trees. They seem in some strange way to have partaken of the long life of the country from which they came, for even without care, not one has died that has not been uprooted to make way for a street, or for houses, since destroyed or fallen down. Yet few of the circle remain standing.

And because New York sentiment is in spots only, it is not to be expected that the survivors will long remain.

And soon emblems that should be our country's pride will be no more.

MELLIN'S For the Baby FOOD

The adjustability of Mellin's Food is one of its good points. Mellin's Food can be adjusted and is suitable to the needs of the youngest infant as well as children of the more advanced age. It only takes a minute to prepare it as there is no cooking necessary. Send for a free sample.

Mellin's Food is the ONLY Infants' Food, which received the Grand Prize, the highest award of the Louisiana Purchase Exposition, St. Louis, 1904. Higher than a gold medal.

BATTLE IN COURT

At Milwaukee Over an Estate of Seven Million Dollars.

Man Was Uncle to His Own Children By Marriage.

Buffalo, N. Y., June 14.—An interesting legal fight over $7,000,000 is now being waged in Milwaukee, Wis., with Buffalonians interested. The property forms the estate of Mrs. Lisette Schandein of that city, who died in Berlin, Germany, on March 24th last. The will offered for probation by attorneys Frisbee & Redfield of Buffalo gives to Mrs. Schandein's daughter, Mrs. Claire S. Heyl, all the property except about $1,000,000, which is put into the hands of the Wisconsin Trust company, with the income to go to Mrs. Schandein's two other living children, Mrs. Ella Frank and Emil Schandein, for life and then the principal to their children. Emil and Mrs. Frank, who is the wife of Dr. Louis Frank of Milwaukee, have begun the contest to have the will declared void for undue influence, they being dissatisfied with its provisions. Buffalo will hear more of the struggle, for it has hardly begun.

The founder of the estate was Emil Schandein, Sr., who, with Captain Pabst, was a prime mover in building into the great Pabst Brewing company a large brewery that had been founded by their father-in-law, Philip Best. Mrs. Schandein was a daughter of Mr. Best and a sister of Mrs. Pabst. At her death she owned about $3,500,000 worth, par value, of the $10,000,000 capital stock of the Pabst company. Her stock and the rest of her property have been appraised at $7,000,000, as she was very rich, aside from the stock.

The favored daughter is the second wife of Jacob Heyl, the first Mrs. Heyl being her sister. The only child left by the first Mrs. Heyl is Erik Heyl, now about 17, who is in Germany with Mrs. Heyl and her two sons. The three children are being educated there. Mrs. Heyl, besides being Erik's stepmother, is also his aunt, and Mrs. Heyl's two children are both his half-brothers on his father's side and his cousins on his mother's side. His father, as the husband of his mother's sister, is his uncle. Mr. Heyl for many years was business manager of Mrs. Schandein's affairs, as he had been accountant for her husband. He is the president of the Chase & Baker Piano Player company, whose plant is at the Jewett avenue crossing of the Belt line. While his home is in Milwaukee, he is in Buffalo regularly. He personally owns about $100,000 worth of Pabst stock. Though the will gives him nothing, he is named as sole executor, without bond or inventory.

Frisbee & Redfield have been for a long time the attorneys for the Chase & Baker company and so became the attorneys for Mr. Heyl personally and finally for Mrs. Schandein personally. So it happened that when Mrs. Schandein passed through Buffalo in August of 1903, with the Heyl family for Germany, the lawyers were engaged to draw up the wills of Mr. and Mrs. Heyl and Mrs. Schandein. The party proceeded to New York after the conference with the attorneys. The three wills were forwarded there in a day or two. They were all executed in the Waldorf-Astoria hotel, the same evening, Mrs. Schandein's first, Mr. Heyl's next and Mrs. Heyl's last. The same witnesses signed all the wills, they being George H. Gazley, manager of the Hotel Saint Regis, and John P. Stelle, accountant of the Waldorf-Astoria. So far, the contestants have made no claim that the Schandein will is not correct in form.

When the party sailed for Europe on September 1, 1903, the will was sent back to the Buffalo attorneys in a sealed envelope, in which it was kept until recently when it was presented in the Milwaukee county court for probation.

If the will is probated, Mrs. Frank, who is the oldest child of Mrs. Schandein, and her brother, Emil Schandein, will get but the life use of the $1,000,000 trust, with Mrs. Heyl to get the other $6,000,000. If the will fails of probation, the $7,000,000 estate will be divided into four equal parts, one each for Mrs. Frank, Emil Schandein, Mrs. Heyl and Erik Heyl, the latter, as the sole representative of the fourth child of the Schandeins. Emil Schandein and his sister, Mrs. Frank, have joined forces for the contest. They have as their attorneys, Winkler, Flanders, Smith, Bottom & Fawsett, who also are the attorneys for the Pabst company.

The nature of the proceedings now going on in Milwaukee is what lawyers call a discovery, that is, the contestants are conducting an examination to get hold of all facts that may aid them in barring the will. Mr. Heyl has testified several times, producing his books for 16 years back. Messrs. Frisbee and Redfield, too, have been up there many times. At the close of the discovery proceedings, the contestants will draft their complaint against the will and the contest will begin in earnest. So far, only the contestants' points have been brought out, but at the contest hearings both sides will be heard. It is certain from the amount involved that the case will go through the Wisconsin circuit court and then to the supreme court, the highest in the state. No property of the estate is anywhere but in Wisconsin, so when the question is settled there it will be ended. The Buffalo attorneys have as their Milwaukee counselors, Quarles, Spence & Quarles.

Witness Stelle has testified to what he saw and heard and this week a commission representing both sides will examine Witness Gazeley in New York. On the advice of counsel, Mr. Heyl has refused to tell what his and his wife's wills provide. The contestants seek to make ammunition out of that, hinting that their mother was duped into making such a will by representations by her daughter to Mr. Heyl as to what their wills would do. Various other charges are made.

Mrs. Heyl says her sister and brother, Emil Schandein, were not in great favor with their mother because of what they did with property that they had acquired in her lifetime. Emil is about Mrs. Heyl's age.

RHEUMATISM ROBS LIFE of PLEASURE

Rheumatism does more than any other disease to rob life of pleasure and comfort. It is so painful and far-reaching in its effects on the system that those afflicted with it find themselves utterly unable to enjoy bodily comfort or any of the pleasures of life. Some are bound hand and foot and suffer constantly with excruciating pains, swollen, stiff joints and muscles, and often distorted, crooked limbs, while others have intervals of freedom, during which they live in constant fear and dread of the next attack, when, at the least exposure to damp weather, or slight irregularity of any kind, the disease will return.

I had been troubled with Rheumatism for two years, had been under the treatment of physicians, and tried everything recommended to me, but all to no avail. My knee and elbow joints were so stiff that I could not use them. I was unable to do my household work, and was truly in a pitiable condition. S. S. S. cured me after using it for awhile, and I unhesitatingly give it the credit it so much deserves.
Sta. A., E. Liverpool, O. MRS. M. A. DECKER.

The cause of Rheumatism is a sour, acid condition of the blood, produced by food lying undigested in the stomach, poor bowel action, weak kidneys and a general sluggish condition of the system. External applications, such as liniments, oils, plasters, etc., do not reach the cause and can only give temporary relief. The blood must be cleansed and purified before a cure can be had. S. S. S. attacks the disease in the right way—it neutralizes the poison and filters out every particle of it from the blood, stimulates the sluggish organs and clears the system of all foreign matter. It cures the disease permanently and safely because it contains no harmful minerals to derange the stomach and digestion. Book on Rheumatism and any advice you wish, without charge.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

DYING OF FAMINE

Is, in its torments, like dying of consumption. The progress of consumption, from the beginning to the very end, is a long torture, both to victim and friends. "When I had consumption in its first stage," writes Wm. Myers of Cearfoss, Md., "after trying different medicines and a good doctor, in vain, I at last took Dr. King's New Discovery, which quickly and perfectly cured me." Prompt relief and sure cure for coughs, colds, sore throat, bronchitis, etc. Positively prevents pneumonia. Guaranteed at all drug stores. Price 50c and $1.00 a bottle. Trial bottle free.

Is it a burn? Use Dr. Thomas' Eclectric Oil. A cut? Use Dr. Thomas' Eclectric Oil. At your druggists.

RUSH OF ORDERS

For Cotton and Textile Fabrics Will Surprise World.

Rolling Stock of Railroads Must Be Greatly Augmented.

New York, June 14.—The past week has been one in every way favorable to confidence in the stability of business affairs and a betterment of industrial, agricultural, financial and commercial conditions. Not one important adverse factor has materialized, while on every hand there was decided and powerful advance for present and future progress. First and most important, crop conditions are far better than the reports last week represented.

Wheat is almost through its dangers, and if the next three weeks are even fairly favorable, the result will be a "bumper crop" and assured business for millions of people and food for hundreds of millions. Cotton is admitted upon all sides to be doing better, and despite the claims of reduced acreage, it will be found, when picking time arrives, that as many acres have to be taken care of as were picked over in 1904.

Where there are reductions from last year's plantings, it can be confidently stated that in other localities there are increases in acreage planted that will fully equal all reductions.

For the interests of the South and for the interests of the entire country it is to be hoped that there will be no diminution of the crop as compared with last year's fine production.

The world will absorb all the cotton that the South can produce this year and will take readily at good prices record-breaking crops for many years in the future. The absorption of cotton will increase as rapidly in proportion as the absorption of iron and steel has done and from the very same cause, namely the ability of the masses of the people to pay for the articles they need or desire. I have so often fully demonstrated that our present activity in business affairs and the increasing prosperity of the world is the result of expansion of the money volume that I will now only note the steady progress of the good work in all quarters of the globe, showing there is no sign of hesitation, depression or of even a temporary halt in business. The first quarter of 1905 in the cotton trade in Lancashire, England, has never been equaled in the history of the trade.

The Leeds (Yorkshire) Post says: "Order lists which, both in spinning and weaving, were at the beginning of the year of unprecedented dimensions, have been considerably extended until it may be truthfully said that the like has never been known. The sober fact is that both spinners and manufacturers are enjiying a period of great prosperity."

The report of this journal is confirmed in every center of the cotton trade in Lancashire. It is estimated that more than 15,000 additional looms will be in operation by the first of next October. Manufacturers, operatives, dealers of all classes in cotton, have made money for the last twelve months, and the great and growing orders already placed for the products of the looms assure handsome profits for the months to come.

In many cases the English cotton manufacturers have orders on hand that will take them twelve months to fill. Their recent orders from China and India have been very heavy. The operatives in Lancashire have just obtained an advance of 5 per cent in their wages without the usual difficulty, and this in itself indicates that satisfactory condition of the trade. The above certainly ought to convince the most pessimistic that the market for cotton is active and increasing in volume. Not in English history have there been so many pounds manufactured as during the past twelve months and never in the history of the United States did our cotton mills use so much raw material. It is surprising that in view of these actual conditions, not theories, but facts, there should be any talk of reducing acreage of cotton in the South.

The demand for the crop of 1905 will be so great that, however large the production, the planters will not listen next spring to such foolish talk as acreage reduction. They will be able this year to sell all the cotton they can raise at good, profitable prices. While both English and American cotton manufacturers are thus flourishing and doing a tremendous business, if peace is declared between Russia and Japan by Sept. 1, there will be such a rush of orders for cotton and cotton goods from Asia as will surprise the world.

The opening up of Manchuria to the trade of America and Europe, the millions of people in that land who will be employed in many ways and can thus earn the money to pay for clothes, will add millions of pounds to the usual consumption of cotton and corresponding millions of yards to the orders for cotton cloths. Japan has for years been a good customer of the Southern states for raw cotton, and while English and American traders will be exporting the manufactured goods to Asia, the energetic, shrewd Japanese will not be idle, but will run every loom they have and every new loom they can buy in the United States or England, and will call every month for greater and greater amounts of cotton from the Southern states.

Asia, Africa, Europe, the Atlantic and Pacific islands, Central America, South America, Mexico and North America will each and every year increase their demand for cotton goods, and each and every year absorb greater crops of cotton. Nothing can be more certain than this fact, and the proper thing for the South to do is to increase its production of cotton, not curtail it.

The railroads of the kingdom of Italy are to be improved by an expenditure of $8,000,000 upon tracks and equipments, and this will call for several million dollars in value of iron and steel.

The Canadian railways are projecting construction of lines that will require the expenditure of more than $250,000,000 within the coming five years, and that will give employment to many thousands of men.

From every quarter of the globe orders for locomotives, cars and equipments are being sent to the manufacturers of the United States, while the orders from our own country were never so imminent as they have been this spring, and once that large crops of wheat, corn and cotton are fully assured, the manufacturers of railway equipments and supplies will be absolutely swamped with orders.

The rapidity of construction of railways, the magnitude of enterprises undertaken by modern capitalists, the confidence of success in the most gigantic undertakings were well illustrated within the past few days by the statement that the new Gould road from Salt Lake City to San Francisco would be running by Sept. 1, 1907. Thirty years ago the space of time to survey it would have run into years; twenty years ago the capital needed to build it would have required a year or two of negotiations abroad; ten years ago neither at home nor abroad could the money have been obtained for its construction. Today no one doubts the statement that it will be constructed and in running order inside of thirty months from its commencement. This is a great undertaking, and will give employment to labor in a thousand different ways. Construction hands, machinists, masons, bricklayers, carpenters, furnace men, mill workers, miners, boiler makers, engineers, firemen, surveyors, with many others will be called upon to do their part in this new Gould enterprise, and thus continue the activities of the country. Great and important as is this new work, it is but one of the many new constructions that will soon be inaugurated by the capitalists of this country. Idle dollars are as unprofitable as idle men. Busy dollars and busy men are ideal business.

NEW STATE BANK

To Be Established In Village of Altona.

Frazee, Minn., June 14.—(Special to The Herald.)—The village of Altona is rejoicing over the organization of the Farmer's State bank of Altona by L. W. Oberhauser of Frazee, who is to be the president of the new institution and will also remain cashier of the First National Bank of Frazee. The new bank will be chartered under the banking laws of the state of Minnesota with a capital of $10,000.

The congregation of the Baptist church has hired for three months, Mr. Worley, a student in the Baptist Seminary in Rochester, N. J., who began his work last Sunday with promise of doing much good. The church has been without a regular pastor for some time.

The Christian church has called Rev. Hayden of Mankato, who will supply here and Leaf river, where he will be located. Elder Roberts has left for Mankato to arrange for the transfer of Mr. Hayden.

DESCRIBES PLANT

Manager of Crematory Company Tells of New Incinerator.

Construction Work Will Be Completed Within Three Months.

"Duluth will have an eighty ton garbage incinerator of the most modern type," said John M. Root, general manager of the Decarie Manufacturing company of Minneapolis, which has been awarded the contract for the new plant.

"We have installed incinerators at Minneapolis, Spokane, Johnstown, Atlanta, Munice, Tampa and Brooklyn, and we are now building plants at Los Angeles and Lowell, Mass.

"The crematories are built of steel, and are water jacketed to protect the metal from the heat. This is a departure from the old brick crematory. The garbage is dumped directly into the furnaces and requires no further handling. The garbage itself is used as fuel and the only fuel required is for the initial fire.

"The plants we have installed, with the exception of the Minneapolis plant, are located near the center of the cities, saving the expense of a long haul. The company guarantees that there will be no noxious odors of gases allowed to escape from either the plant or the stack, and on that guarantee the council has purchased the site at Thirteenth avenue west and Railroad street. Should the plant emit odors, the company will receive no money from the city and the contract will be void.

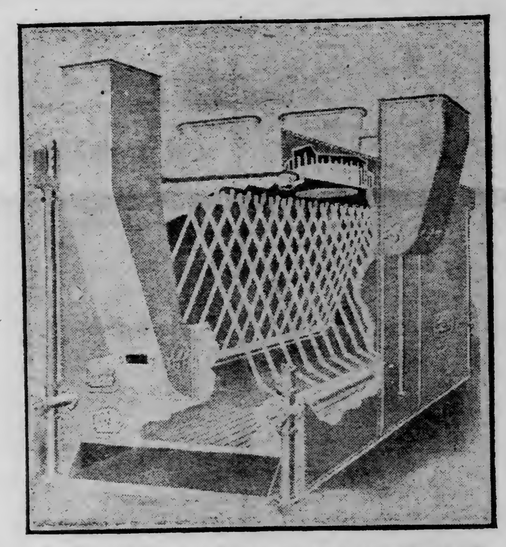
"The work of construction will begin immediately, with a view to getting the plant into operation within the next three months. It is hoped that the city will ultimately put in its own system of collecting the garbage, which will leave no further cause for complaint of garbage and dead animals being allowed to lie about in the alleys.

"The cost of disposing of the garbage is guaranteed not to exceed 50 cents a ton for labor and fuel, but the average cost in the other plants we have installed is less than 25 cents, so that we hope to get the cost in Duluth down much below the guaranteed figure.

"While a garbage crematory can hardly be classed as ornamental, we propose expend all the money necessary to make the building a source of pride to the citizens and to the company, more especially owing to the large number of tourists who pass throug Duluth.

"All the work will be done under contract here in the city, and the money for the plant will be spent in Duluth.

"An item which I would like to call attention to, is steam produced while the garbage is being burned. This is quite a large item, and if put to some use would materially lessen the cost of operating the crematory."



SECTIONAL VIEW OF THE DECARIE INCINERATOR.

The plant will be operated during the day only, as the amount of garbage collected during the day can be consumed in twelve hours or less. As the city grows and the amount of garbage increases, the plant can be operated for a longer period of time.

The manner in which the incinerator consumes the garbage as fuel, is interesting. The wet mass of refuse is held on the upper grates over the bright fire on the lower grates, so that the flame and heat on their way to the flue pass directly through the wet mass, evaporating the moisture and drying the material, before it drops to the lower grate to be itself consumed. In this way the smothering of the fire is prevented, and the creation of noxious gases avoided. An auxiliary gas consuming furnace is also provided which eliminates all gases not consumed in the incinerator proper.

Mr. Root, who will remain in the city several days, is accompanied by F. L. Decaria, the chief engineer of the company.

DOINGS IN MICHIGAN

St. Ignace—A band of gypsies is encamped at St. Ignace. The strangers arrived from Manistique. The other evening, when camping near "The Warehouse," some of the band sold a large bay mare, a handsome animal, to Michael Gustaffson. The sale was made after dark. Next morning Mr. Gustaffson attempted to harness the animal, and there resulted such a kicking exhibition as "Mike" had never seen before. The harness was kicked to pieces, and the beast proved to be highly dangerous and unmanageable. Mr. Gustaffson came to town, catching the gypsies, and with the aid of Sheriff McClintock, compelled the rovers to restore the money paid and take "Maud" back. The mare would lead in halter, but would not tolerate a harness or be hitched to any vehicle.

Sault Ste. Marie—At the Soo the other day Ell Bateman sued C. H. Moore for a bill of $1.50. Moore claimed he owed him but 40 cents. Just as they were getting ready to put witnesses on the stand, somebody suggested that a coin be tossed up to decide whether Moore owed the plaintiff 40 cents or $1.50. The plan was accepted. Judge Couch, however, refused to allow any such proceeding within the precincts of his legal walls, unless the trial fee of $1 were paid in advance. Thereupon the opposing elements hied themselves to the hallway and one of the attorneys threw a quarter into the air. Moore won. He paid the 40 cents, together with the costs, which amounted to $2.85. Had he lost, the amount would have been $3.95.

Gladstone—Some person distributed strychnine-loaded sausage on Wisconsin avenue, between Thirteenth and Fourteenth, at Gladstone, and as a result all the dogs in the block are dead except Alderman Burrows' animal, which recovered. The owners are indignant, especially as the dogs were mostly fine large canines. The striking feature of the story is that a mother found her child with a piece of sausage. Only a chance prevented the baby dying a horrible death.

Iron River—The residence of Mrs. Kate G. Clark, at Iron River, was struck by lightning. A young woman, Miss Grandy, was stunned by the shock, but soon recovered. Mrs. Clark had just finished housecleaning, but had to do the work over again, as the interior of the house was literally covered with soot from the chimney. At Stambaugh, a barn owned by Frank Grieninger of the Caspian mine location, was struck by lightning and was set on fire. Much of the contents were saved, but the structure itself was destroyed, causing a loss of $1,000.

Great Clearing Sale Bargains for Thursday Specials

We are offering great values in Ladies' Suits, Skirts and Jackets. Our Ladies' Suit and Cloak Department is complete. Styles and quality can not be beaten. Prices lower than in any other store in the city. It will pay you to look our stock and prices over before buying elsewhere. DULUTH CONSIGNMENT CO

24 EAST SUPERIOR STREET.

West Duluth

IS ALMOST GONE

Infant Son of P. L. Johnson Nearly Drowns In Well.

Rescuer Comes to Aid In the Nick of Time.

The family of P. L. Johnson of 413 Sixtieth avenue west came nearly having to wear mourning for its little 2½-year-old son the other day. The child was playing near the corner of Sixtieth avenue and Green street, when he fell into an old, unused well on a vacant lot there. There was about three feet of water in the well, and three feet of space was between the surface and the top of the well.

A man, passing the corner, heard struggles and gurgles, and upon investigating, saw what had happened and managed to get the boy out. It took a long time to revive the child, but he is now able to be about.

It is likely that some steps will be taken to fill the well up, as, in its present condition, it is a menace to life and limb, not only for children, but for grown people.

The name of the rescuer could not be learned.

TENTH BANQUET

Of Irving School Alumni on June 23.

Arrangements are about completed for the tenth annual banquet of the Irving school alumni, which will take place at the school building on June 23. The toastmaster will be Principal F. A. Foster, and the address of welcome will be given by President George Kreidler of the alumni.

Miss House will toast the graduating class, and Miss Foster will respond. W. A. Coughlan will respond to the toast, "The Alumni," Oliver Olson to "The Irving School," Reginald Graham to "The Girls," Miss Eva Sawyer to "The Boys," George Kreidler to "The Zenith City," and Miss Lelia Spark to "The Principals and Teachers of the School."

Mr. Kreidler is requesting that alumni dues be paid in as rapidly as possible, and also that subscriptions for the Kennedy Memorial window be turned in soon.

Charged With Stabbing.

Mike Mainillo has been arrested, charged with being the man who stabbed Carl Hanson, near Thirty-ninth avenue west and Third street, a few nights ago. Mainillo was arraigned this morning in municipal court, and his trial was set for the 24th. His bail was fixed at $250, which will be furnished. Mainillo claims that no knife was used in the quarrel, but that on the other hand Hanson cut his, Mainillo's face with the end of a fish-pole while Mainillo was lying asleep in the bottom of the fruit wagon.

Dies of Blood Poisoning.

William Zell, aged 53 years, died yesterday at his home, 331 North Sixty-third avenue west. He has been ill only about two weeks and the cause of death was blood poisoning. He leaves a widow and a daughter and a son. The funeral will take place at 3 o'clock Sunday afternoon from the family residence, and services will be held at the Westminster Presbyterian church. Interment will be in Oneota cemetery. Mr. Zell was a member of the Independent Order of Foresters and the Red Men. These two orders will have charge of the funeral, and will march in a body to the grave of their brother.

Tilbing-Hamilton.

The marriage of Miss Hulda Tilbing and David Hamilton took place last evening at the home of the bride's parents, 625 Sixty-sixth avenue west. Rev. F. G. Clark was the officiating clergyman. The wedding was a quiet home affair, only friends of the young people attending. Both live in West Duluth and will make their home here.

WEST DULUTH BRIEFS.

A son has been born to Mr. and Mrs. Fite, 214 Fifty-fourth avenue west.

Mrs. Jacob Lauermann of Wadena, Minn., is visiting J. J. Lauermann.

Jens Dougaard of West Duluth is in St. Paul. It is understood that he will bring back a bride.

Arthur Dormedy of St. Paul is visiting Jack Schuler.

Hot water bottles and syringes, 48 cents, at Spencer's Drug store.

The incline railway running from Bay View Heights to West Duluth is tied up today because of a washout, caused by last night's rain, some distance up the hill.

Aldric Rozon, who is employed at Petruschke's box factory, had his left hand injured by a whipsaw in the factory this morning, and the result was that Dr. Jern had to amputate the second finger of the hand. The thumb and third finger are also badly lacerated.

JOKERS

Start Off the Bride and Bridegroom Pursues.

New York, June 14.—An exciting start for a honeymoon was made by George Weiss, vice president of the United Cigar Stores company, and his bride, who was Miss Florence Baran, daughter of Dr. Julius H. Baran of 121 St. Nicholas avenue.

They were married at 7 West Thirty-sixth street by Rabbi Silverman of Temple Emmanuel, and after a wedding reception and supper started for their train.

Several hundred friends followed them to the sidewalk, throwing rice, old shoes and confetti. While Mr. Weiss was trying to shield his bride from the showers of rice, she was hurried into a hansom and the driver told to sprint for the Grand Central station.

Weiss, bareheaded and shouting, rushed up Fifth avenue in pursuit of his bride. She heard his cries and jumped from the cab. A crowd blockaded the street for half an hour before Policeman Schibles finally straightened out the tangle and put the bride and bridegraam in a cab and sent them to the station.

Weiss' coat was ripped up the back and his hat lost, but they caught the train.

LITTLE BUSINESS TALKS.

The best way to win support for a business enterprise is to get people interested in it. The best way to interest them is to tell them something they don't know, but are likely to want to know about it. For instance: Few people know anything about the ins and outs of professional photography. Any good professional photographer will confirm the statement that nine persons out of ten don't know what to wear when they sit for a portrait.

And perhaps almost as great a proportion don't know an artistic portrait when they see one. It is the photographer's business—if he knows it—to educate them (and at the same time increase his clientele) by running informing "ads" in the newspapers. The photographer is cited only as an example. There are others. Educative advertising pays because it is read attentively and remembered.

YERKES SAYS

Tramps Carry Off Bronze Fragments of Fence.

New York, June 14.—Charles T. Yerkes has complained to the police that the handsome $75,000 bronze fence which encloses his residence at Sixty-eighth street and Fifth avenue is being carried off piecemeal by impecunious persons, who are turning the pretty fragments they break off into cash at the nearest junk shop.

Several days ago Mr. Yerkes complained to Police Captain Langan that his fence was gradually disappearing. Detectives have since spent weary hours watching it, but to no purpose. As often as they go for a turn around the block the acts of vandalism are repeated.

Mr. Yerkes' butler declared there is a regular band of tramps camping in the park, who are literally living on his employer's fence.

"As often as they get hungry," he said, "or want money for rum, they come sneaking on us. They rip off the ornaments like picking cherries off a bloomin' tree."

ALL FOR DOWLING

For Lieut-Governor, Says John G. Lennon.

Minneapolis, June 14.—Representative John G. Lennon of Minneapolis says all the range country is for P. E. Dowling as the next Republican nominee for lieutenant governor.

"I have recently been in all the range towns," said Mr. Lennon today. "Dowling's home town, Eveleth, in Virginia, Two Harbors, Ely, Chisholm, Biwabik, and other places, and in each one I made it a point to inquire as to the political sentiment. I found them all wanting Dowling to run for lieutenant governor. Dowling is popular throughout this territory. His record for two terms in the legislature is good, and he will be able to influence a large portion of the range country in favor of the Republican nominee for governor if he is made the candidate for lieutenant governor. Dowling for many years has hustled in his territory for the Republican ticket, regardless of his own business interests. He is popular, level-headed, and I believe a good man for the place the range people want him to accept. I saw Dowling myself and he says he is willing to be a candidate if he is wanted."

AN APPEAL TO DRINKING MEN

There is not a drunkard upon earth whom Orrine will fail to cure. It is a scientific remedy for the drink habit, discovered by a well-known Washington chemist, and completely and absolutely destroys the craving for drink. No detention from work or business; no publicity or sanitarium treatment.

Orrine No. 1 is in powder form, and can be given secretly, without the patient's knowledge, in tea, coffee or food. Orrine No. 2 is in pill form, for those who take the remedy of their own free will. There is no nausea or other ill-effects from the use of Orrine. On the other hand, it quiets the nerves, regulates digestion and brings restful sleep, good appetite and perfect vigor.

Write to the Orrine Company, Inc., Washington, D. C., for free booklet, mailed in plain envelope. We heartily recommend Orrine to all who wish freedom from the slavery of drink. Ask us about Orrine. F. W. Kugler, druggist, 103 West Superior street, Duluth.

FORESTERS MEET

High Court of Independent Order Is In Session.

Sixty-Six Delegates From Northern Minnesota In Attendance.

The high court of Northern Minnesota, Independent Order of Foresters, is holding its biennial meeting at Elk's hall today and will continue in session tomorrow. There are sixty-six delegates in attendance, representing lodges in the jurisdiction of the high court in the territory between East Grand Forks and Duluth and on the ranges.

All the morning was taken with the report of officers, appointment of committees, and the delivery of short addresses. High Chief Ranger H. W. Cheadle of Duluth delivered the address of welcome. It was brief speech but the speaker was given hearty rounds of applause at the close.

A. E. Stevenson of Port Huron, Mich., manager of the order in the United States, delivered an address, in which he spoke of the flourishing condition of the order throughout the country.

The reports of the secretary and treasurer showed the court to be in a satisfactory financial condition, with splendid gains in members in this territory. It was expected that John A. McGilvray of Toronto, Can., supreme secretary of the order, would be in attendance at the meeting, but he had not appeared this morning. He has been on a trip to British Columbia, and has been delayed on the way. It is hoped that he will reach Duluth some time today or tomorrow.

The following committees were appointed:

State of Order—Mary O. Oppel, Duluth; A. McAskill, Duluth; H. Mather, Duluth; H. Matson, Eveleth.

Mileage and Per Diem—J. D. McPhail, Duluth; H. Brown, West Duluth; G. F. H. Lounsberry, Duluth; D. S. McLeod, St. Vincent.

Distribution—Frank Crassweiler, Duluth; R. G. Chambers, Duluth; H. A. Full, Hendrum.

Constitution and Laws—L. E. Gossman, Crookston; Charles Tupper, Duluth; M. F. Olson, Moose Lake; Mrs. C. J. Petruschke, West Duluth.

Press—Mrs. Frances Oppel, Duluth; W. W. Hoopes, Duluth; George R. Laybourn, Duluth; R. D. McKercher, Duluth; A. R. Armstrong, West Duluth.

This afternoon will be taken up with the reports of the committees and the consideration of such business as may be good for the order.

Not to neglect the social side of the organization there will be a grand union meeting of subordinate and companion courts at the Armory this evening. It will begin at 8 o'clock. A class of 250 candidates will be initiated. They will be from the different lodges, but most of them belong to the lodges in Duluth. The ceremonies will be elaborate. An entertainment will be given, followed by a dance. A. E. Stevenson will be present to deliver an address.

While the proceedings of today are interesting, the excitement will take place tomorrow, when the election of officers will be held. There is a keen contest for representative to the supreme court, which convenes at Atlanta, Ga. H. W. Cheadle and J. G. Ross are the strongest candidates for the honor, and their friends are not sparing any effort to land the office for them.

There is also a strenuous fight for the position of high secretary. Since the death of S. A. Kemp, last January, the office of secretary has been held by Isaiah Ridge. A. R. Armstrong is making an active canvass, and it is likely that Mr. Ridge will compete against him. There is no special contest for the other offices, it is said, but that will be determined at tomorrow's meeting.

The present officers are:

High chief ranger, H. W. Cheadle, Duluth.

High vice chief ranger, R. C. McKenzie, Northcote.

Temporary high secretary, Isaiah Ridge, Duluth.

High treasurer, J. D. McPhail, Duluth.

High physician, H. E. Webster, Duluth.

High counselor, Frank Crassweller, Duluth.

It is expected that the meeting will come to a close tomorrow morning, although there may be enough business on hand to hold the delegates in session in the afternoon.

THOMAS IN LEAD

On First Ballot For President of Labor Federation.

William E. McEwen of Duluth Re-Elected Secretary-Treasurer.

Brainerd, Minn., June 14.—(Special to The Herald.)—Although the election of officers was made a special order of business for this morning, at 9 o'clock, it was nearly 11 o'clock before nominations were called for president of the State Federation of Labor.

The morning was taken up with a resolution to change the personnel of the federation council, giving each congressional district a representative. It was the Twin Cities against the country, and after a stormy session, lasting several hours, the proposition was defeated.

For president, Harry Dix of Minneapolis was nominated by Delegate Leonard, T. F. Thomas of St. Paul by Delegate Templeman, and Thomas Van Lear by Delegate Margon. The first ballot resulted: Dix, 50; Thomas, 54; Van Lear, 44.

R. C. Kutz of Brainerd and L. J. Colson were candidates for first vice president. Kutz was elected on the first ballot by 86 to 51. Miss Edith Kissinger of Minneapolis was unanimously elected third vice president.

Charles Kleist of Winona and W. E. Stacy were nominated for second vice president. Stacey was elected.

This afternoon W. E. McEwen of Duluth was re-elected secretary-treasurer of the federation.

Yesterday afternoon, the principal work done was the adoption of resolutions reported by the various committees. They were thoroughly discussed and several good speeches were delivered on the matters involved. One of the the best speeches of the day was made by William Templeman of St. Paul, who said:

"It is difficult to make men understand the need of banding themselves together in a common cause when differences exist as to the means necessary to remedy the evils which confront us. Representatives of all interests today have their conferences to review the work of the year and to plan for more aggresive work.

"We are representatives of the great majority of the people—the working element. This does not mean that the class who employ us do not work—for in fact they work far harder than those who stand by the bench, or in the factory and workshop. But we represent the class who seem doomed to never ending toil—upon whom the curse still dwells. 'By the sweat of thy brow shalt thou eat bread.' Our aim is to unify our interests—to share the burdens of the helpless and oppressed—to secure redress for their many wrongs and to insure to them a safe, secure and healthy environment in their work. To let a ray of sunshine into their lives. To banish misery, disorder and shame from the home. To provide a moderate share of comfort and happiness after the toil of the day. By the organization of every man and woman who is compelled by necessity to labor into a union of his and her craft can this condition only be effected. The individual worker is unable to treat with any degree of success with his employer for a betterment of his lot owing to their many inequalities.

"The employer and employe are not upon an equal footing, but the laborer, owing as a rule, to his necessities, is at a disadvantage. The organization removes this disadvantage in some measure, and yet retains for the worker his individuality—which our opponents declare is lost to him when he 'surrenders himself to a union.' He surrenders nothing to the union. His individuality is enhanced, his capacity to labor for the good of the craft and community is increased, and a larger sphere of usefulness is opened out before him than his fondest imagination ever dreamed of.

"The union card should be a badge of superior workmanship—a guarantee of a full and honest day's work without limitation of output. The man who has everything to buy, and only the labor of his hands to sell, must needs look about him today and sell to good advantage if he would secure reasonable return for his labor and skill. He has been at the frayed edge of humanity far too long. He must get to where he belongs—the center of the fabric, whose warp and woof he is. The organization of capital is going on with tremendous strides, greater than ever heard of in all the past centuries. This is in keeping with the times in which we live, and is but right. The men who invest their capital, the men who invest their brains, their genius, their creative faculties, their inventive skill, or their labor, are each necessary to the other and should all be taken into account in preparing for the work in life. So we advocate organization, whether of capital, brain, skill or labor, as necessary to secure the best results. The employer who resists the tendency among his men to band together in this fashion, do not rid themselves thus of what they term a troublesome question, nor by defeating the union in a battle for supposed rights, without correcting the evils which led to trouble with the union, do they purchase immunity, regardless of their behavior to their help. They may win in many temporary skirmishes, and we all pray may the day never come when a general warfare over the length and breadth of our land shall prevail. The suffering and misery of the innocent non-combatants, as well as among the workmen affected, would be nothing short of appalling. The tendency of the age is to unite for mutual benefit and protection, and no power on earth can stem the tide. Each successive defeat does not destroy the taste for liberty, when once enjoyed, but instead, whets the appetite and urges the oppressed to prepare for more decisive conflicts, year after year. Mr. Post, that disturber of the peace of the world, admits that 'the impulses pressing us forward in a great human movement seem to come from God, but the details are carried out by man, hence the errors, mistakes and abuses.'

"And because men err through mistakes of judgment, he would stem the desire and destroy it. As well stop the tides or call upon the sun to stand still. The movement is a divine inspiration and cannot and never will be suppressed until man has lost all taste for liberty. The fair and open dealing between master and employe would perhaps settle many of the difficulties which confront us. The free, frank statement of facts and conditions instead of beating one another by shrewd moves, by so-called diplomacy or suavity of manner would help us all. Individual rights are not endangered, nor the rights of society jeopardized by the reasonable demands of intelligent labor organization. While all that unionism has done may not be good—the good that has been accomplished in assisting the oppressed and ignorant; the skilled and unskilled laborer; the millions of children taken from workshops and put to school; the lives that have been brightened and made happy—is beyond computation.

"The best jewels in life are fidelity to trust and loyalty to friends and family. We seek to possess these jewels. They should adorn the brow of every wage-worker and the union seeks to place them there. Claiming then for ourselves the same exalted motives which we accord to others, we trust we shall be able to enshrine in our hearts the majesty of the law of love, which to every citizen and worker should be the polar star pointing the way to duty."

One important resolution adopted by the convention was as follows: Resolved, that the Minnesota State Federation of Labor indorse the eight-hour day to be inaugurated by the International Typographical union on Jan. 1, 1906, and hereby levy an assessment to assist them in their struggle.

The secretary was also instructed to send the following telegrams to Sam Gompers, A. F. of L., Washington, D. C.: "The Minnesota State Federation of Labor in session here have unanimously supported resolution reaffirming its indorsement of the position of flour mills employes in the Washburn-Crosby matter." J. J. Sonsteby, representing the United Garment Workers of Chicago, was present and gave a lengthy speech explaining matters relative to the Chicago strike.

Free to All

Free to all are the lectures and demonstrations of the art of cooking being given every afternoon at 2 by Mame C. Fisher of Boston at 331, West First street.

MONITOR AGROUND.

Washington, June 14.—The monitor Puritan is reported to the navy department to be hard aground off Point Lookout in the Potomac. All efforts for two days to float the ship have so far proved futile.

VIRGINIA REPUBLICANS

Have New Plan to Carry the State.

Washington, June 14.—One of the most interesting "lily white" experiments ever made with the Republican party is soon to be undertaken in Virginia. The Democrats have adopted a constitution which deprives nine-tenths of the colored men of the state of an opportunity to vote.

The Republicans are starting out on the theory that this question of suffrage limitations in the state is an accomplished fact, that they must accept it in the same spirit that the Democrats of the state have been asked to accept the war amendments to the constiution of the United States. As a white man's party, nominating only white men for office, and appointing colored men to only places under the state government as they can hold without offending the sense of propriety of the white people of the state, the Republicans will see what they can do to wrest supremacy from the dominant Democracy.

It is asserted that if the Republicans had been organized on the plan Roosevelt would have carried the state last year.

BOYS KILLED BY TRAIN.

Reading, Pa., June 14.—Penrose Weidman and Raymond Freynberger, 12 year old boys living at Baumstown, this county, while walking along the tracks of the Reading Railroad company, a short distance south of the station at Birdsboro, late last night, were struck by a southbound passenger train and killed.

CHESS MASTERS CONTINUE PLAY.

Ostend, Belgium, June 14.—Play in the international chess masters' tournament was resumed this morning, the committee having made arrangements to finish the games left over from Monday. Tarrasch and Schleichter did not continue play having agreed to draw their game. Teichmann being disengaged the committee orderel him to finish his game with Tarrasch this morning. The latter, who had a bad position, was beaten by the Anglo-German expert. The other results were as follows:

Blackburne beat Taubenhaus, Marshall went down before Leonhardt, and Tschigorin resigned to Alapin. Leonhardt is now in the lead.

The Janowski-Maroczy contest was adjourned a second time this afternoon, play to be resumed later in the day.

Dance at Lester Park tonight and every night this week.

BIG DULUTH IS DAMAGED

Heavy Rain Storm Causes Loss In Boy's Department.

The storm of last night tore things up in the Big Duluth Clothing store, the water getting through and damaging the stocks considerable. This morning the roof of the building looked like a huge, open-air clothing emporium, because of the wet clothing spread out on the nearby roofs to dry in t eh sun.

About midnight H. F. Williamson and Edward Mendenhall, the members of the firm who own the store, were called up by Dr. Von Suessmilch, who with his wife rooms over the Big Duluth, and who were flooded out. He informed them that their store was likely to be washed away if something was not done at once. They came down immediately and found the boy's department of the store flooded, with water which was pouring through the roof into the rooms upstairs, and from there into the store. They immediately sent for their clerks and the work of rescue began. The salvage corps came down from fire headquarters and spread tarpaulins on the goods throughout the store, else the damage would have been much more extensive than it was.

It was at first thought necessary to close the store for a day or two, but the force of clerks and the two proprietors worked all night on the goods, and this morning it was found that the store could be opened as usual. The goods are still being sorted out and dried on the roof in the hot sun, and in a day or two the proprietors will know the extent of their loss.

The flood found its way into the basement and damaged some unopened goods there. When Messrs. Williamson and Mendenhall came down at midnight they found about a foot of water in the basement.

The cause of the flood was the clogging of a water-escape on the roof. This caused the water to back up and leak through the roof into the rear rooms occupied by Dr. and Mrs. Von Suessmilch, Mrs. M. M. Turnbull and Miss Blanche Fleming. From there it poured in torrents down into the store.

LARGE FUND BEING RAISED

Prof. Shaw Tells of Movement For Macalester College.

"This movement to raise an endowment fund for Macalester college was started last July," said Prof. Thomas Shaw at the St. Louis today. "A banquet was held, at which $220,000 was subscribed. Since that time three persons have been in the field canvassing the churches in Minnesota. The response has been cordial on the part of the churches, and it's the intention to continue to cover all Presbyterian congregations within the constituency of Macalester college, that is, Minnesota and North Dakota. At present the endowment fund is about $265,000. These subscriptions are conditional on the whole amount of $500,000 being raised. Five years is given to pay the money.

"The record of Macalester college has been unique among institutions of the kind. This is evidenced by the fact that although it is not a theological seminary, out of the 135 graduates up to 1905 seventy-eight are in the ministry or preparing for that career.

"Macalester college sent the only Rhodes scholar from the state of Minnesota. The scholarship was won by Benjamin Wallace, the son of Dr. James Wallace, the president of the college."

Prof. Shaw, who until recently occupied a chair at the state university, has been an earnest worker in the interest of Macalester college. Since the first of the year he has been canvassing the different Presbyterian churches in the state, and can say that he has not attended the same church twice this year.

THOSE WHO HAVE DIED

Tippoo Tib, Noted Arab Chief, Passes Away.

New York, June 14.—A dispatch from Zanzibar, announces the death of Tippoo Tib, the noted Arab chief and slave dealer. When traveling through the Dark Continent in 1876, Henry M. Stanley met Tib and described him as a most remarkable character. He later established the chief as governor of the Stanley Falls station on the Upper Congo.

Washington, June 14.—Gen. A. B. Baird, U. S. A., who was a major general of volunteers during the Spanish war and inspector general of the army from September 1885 to August 1888, died today near Relay, Md.

Chicago, June 14.—Charles K. Herrick, for many years a well known hatter in Chicago, is dead of heart failure. He was 72 years old and had lived in Chicago fifty years. At the time of his death he was a clerk in the county treasurer's office. Mr. Herriek was a thirty-third degree Mason and a member of Columbia post, G. A. R.

Minneapolis, June 14.—John C. Oswald, a pioneer resident of Minneapolis, and one of the city's most prominent business men, died yesterday. Mr. Oswald, who was 81 years old, had been ill for five weeks. His death resulted from bronchial pneumonia. He took a severe cold about five weeks ago. A general break down followed and he was unable to rally.

Paris, June 14.—H. Ackerman, the Swedish minister here died last night.

The McCray Refrigerator

"THE CHEST WITH THE CHILL IN IT"
TEN REASONS WHY:

1.—"McCray" Refrigerators save ice. Ice is money and they therefore reduce expense.
2.—"McCray" Refrigerators are easy to keep clean. Time is money, and you therefore save dollars.
3.—"McCray" Refrigerators preserve everything intrusted to their care, in the hottest weather. Another economy.
4.—"McCray" Refrigerators will last a lifetime. Therefore are a sound investment.
5.—"McCray" Refrigerators are the best obtainable. No time lost in experiments.
6.—"McCray" Refrigerators produce a clean, germ-proof atmosphere. You do not invite disease.
7.—"McCray" Refrigerators are constructed with a view to convenience and cleanliness. They lighten labor.
8.—"McCray" Refrigerators keep servants cheerful. A step toward the solution of the "help" problem.
9.—"McCray" Refrigerators are handsomely designed. A thing of beauty is a joy forever.
10.—"McCray" Refrigerators are constructed by experts, from the best materials. Repairs are never necessary.

EIGHT SIZES AND NOT EXPENSIVE.

You must remember that the word Paint does not mean very much—it is what is in the can that counts. You run no chances when buying any of the Health & Milligan make.
Quarts, 40c; half gallon, 80c; gallon $1.50.

KELLEY HDW. CO.

Just a Little Reminder

To the intending purchaser of graduation gifts we are showing a grand selection of the most appropriate articles for such occasions, such as beautiful

BROOCHES, NECK CHAINS, CROSSES

And a vast variety of rings. Quality always the highest; prices reasonable.

G. A. KLEIN,
Jeweler, 325 W. Superior St.

PERSONALS

W. J. Gilkerson, traveling passenger agent for the Grand Trunk line, was here on his maiden trip today. Mr. Gilkerson succeeds David Brown, Jr., in this territory.

Mrs. Ribenack and daughter left for Kilbourn City, Wis., this morning.

A. W. McDonald will leave for Portland tomorrow.

G. G. Dickerman left for St. Paul this afternoon.

S. A. Birk left for London, Ont., today.

Judge J. L. Smith of North Branch, Wis., is a visitor in the city today.

John Palmer, a prominent horseman of La Crosse, is a business visitor in the city.

Peter Simmons, traveling passenger agent of the Hamburg-American line of steamships, was a visitor in the city to day.

Mrs. George Whittlesey, after a visit with her son, left today for Sidnaw, Mich., to visit other relatives.

H. J. Achenbach left today for Port Arthur, enroute for the Dorion Zinc mine, near Wolf, Ontario.

Immigrant Inspector William H. Dean returned today from New York, where he took two aliens for deportation to Finland and Sweden.

Mr. and Mrs. Frank Spurbeck will leave tomorrow morning for the East on the steamer Buffalo. They will go to Buffalo and from there to Albany by rail, taking a Hudson river steamer from Albany to New York. They will be absent about three weeks.

A. F. Flynn and W. H. Holly of New Orleans are in the city today.

Fred J. Meginnis of Winona is a visitor in Duluth today.

H. Thompson of Fergus Falls is in the city today, a guest at the Spalding.

W. G. Ganglehoff, a business man of Minneapolis, is here on business.

L. E. Gossman of Crookston is in Duluth today on business.

K. Neutson and children left for Rock Harbor on the steamer America this morning. They have been in Minneapolis during the winter.

Mr. and Mrs. M. J. Dahlsten left last evening for their home in Lockport, N. Y.

Thomas Wright of 126 Sixty-third avenue west left for Eveleth today to superintend the erection there of a new school building.

George W. Horton of Wahpeton, N. D., formerly a resident of Duluth, is in the city today.

A. C. Tuxbury, a well-known lumber buyer of Buffalo, is in the city.

O. H. Simonds, Jr., has returned from Cornell college.

CITY BRIEFS

Embossing. North-Land Printery.

Independent ferry to Superior, 5c.

Lawrence Witmore, a cook from the range, was arrested this afternoon by the police on the charge of being a fugitive from justice. He is said to be wanted in Bovey for the theft of some camping supplies.

Park Pointers now have new double truck cars but they have not yet become used to seeing them run at whatever speed the motormen may desire to give them and are making complaints that they go too fast. One resident had a valuable dog killed this morning by a car that was speeding along and the motorman exhibited no concern as to the fate of the animal but went on his way.

Constant Litti filed information of insanity against Matti Mallnieni in the probate court this morning, and the patient is being examined this afternoon. Mallnieni is a native of Finland, and came to this country in 1895.

Charles Ruyock and John Gooday brought in the pelts of two female wolves into the county auditor's office this morning and were awarded the bounty offered by the state and county. Both beasts were caught near the town of Breitung.

Don't forget the dance at Park Point this evening. Have a ride in the new cars.

Word has been received that the United States government will not stand an assessment for its property on First street, which is exempt from assessment for local improvements. Under the city charter this share of the work will have to be paid for from the general fund.

RELIEF STEAMER SAILS.

Tromsoe, Norway, June 14.—The Arctic steamer Terranova sails today for Franz Josefsland to the relief of the Ziegler expedition, headed by Anthony Fiala on the America.

WISCONSIN SENATE PASSES LICENSE BILL.

Madison, Wis., June 14.—By a vote of 55 to 42, the Wisconsin assembly, today, concurred in the Stout bill prohibiting the granting of liquor licenses to saloons within 300 feet of school houses. After 1908, old saloons inside that limit must close up. The senate killed a bill to define franchises and limit and regulate the issuance of corporation stock.

ATHLETIC PARK.

WATCH FOR GRAFTERS

Bertillion Expert From St. Paul Here For Four Days.

"We have the second largest gallery of criminals in the world in St. Paul, the largest being in Chicago," said James C. Murnane, the Bertillion expert from the Saintly City, who arrived in Duluth today to assist the local police department during the big convention of Eagles which will be held here this week.

"We have photographs of over 15,000 criminals in our gallery and the number is being added to every day.

"St. Paul had quite an epidemic of murders this winter, but things have quieted down now in police circles, and the city is very orderly at the present time."

Mr. Murnane is one of the foremost exponents of the Bertillion system in the country, and has the reputation of knowing more criminals by sight than any man in the Northwest. During his four days' stay in the city he will coach the members of the Duluth department in the Bertillion methods, and incidentally keep a lookout for confidence men and grafters who will make Duluth a stopping place during the convention, on their way to the Portland exposition, which has just opened.

Tickets 25c.

NORWEGIANS FORMALLY, APPEAL TO PRESIDENT,

Washington, June 14.—Norwegian residents of the United States have appealed to President Roosevelt formally to recognize the new government of their country. Senator Dolliver of Iowa called on the president today and presented to him a memorial adopted by the delegates to the Norwegian musical festival recently held at Fort Dodge, Iowa, urging him to recognize the diplomatic and consular officers appointed by Norway. It is expected that Sweden will object to a recognition of Norway.

ENTERS PLEA OF GUILTY

Jack Rich Thereby Greatly Shortens His Imprisonment.

For the purpose of escaping four more months of further incarceration at the county jail, waiting for the action of the grand jury in the September term, Jack Rich pleaded guilty to the charge of grand larceny in the second degree before Judge Ensign in the district court this morning. He was given a sentence of sixty days, hard labor at the St. Louis county jail.

Rich by this procedure lopped off a couple of months of enforced confinement, and ended the agony by knowing what penalty he would have to pay for his crime. The new law also means a saving of considerable money in board to the county, besides the cost of possible transportation to Stillwater.

The prisoner committed the act which brought him into his present trouble in a boarding house at Chisholm on June 2. He was held over to the grand jury for stealing an Ingersoll watch, and another timekeeper of slightly higher value. Two razors, one valued at $1 and the other $1.50, were also procured by him in the same way.

Bargains at the Union.

"No summer goods carried over if cut prices will move them," is the reason given by the Union Clothing and Shoe House for the big sale of men's and boys' clothing and furnishings which begins tomorrow at 8 a. m. The firm lays particular stress on the fact that everything in the store is strictly new and up-to-date. Record breaking prices are quoted in today's advertisement, together with the announcement that the first person entering the store tomorrow will be given a fine $15 suit free of charge.

The firm also states that any person making a purchase during the sale who is not afterwards satisfied that he has saved at least one-third off the regular price and actual value, shall, upon the return of his purchase have his money refunded in full.

TURN FOUNTAINS ON.

Warm Weather and Still No Water.

Complaints are being made because the drinking fountains in various parts of the city are not yet turned on, although there is a suspicion that the weather is now warm enough so that there will be no danger of freezing. West Duluth sends up a vigorous kick because the fountain at Central avenue and Ramsey street is dry and the citizens down there have a vigorous thirst this warm day. The assertion was made that the board of public works says it is up to the water board to turn the water on.

A Foe to Divorce.

Mame C. Fisher, who is conducting practical demonstrations on the art of cooking at the Zenith Furnace Co.'s appliance room, 331 West First street, claims that poor cooking has done more to break up the home in this country than any other cause. The many women of Duluth who have attended her lectures find them of intense interest. This is Miss Fisher's final week here as she is under engagement to give lectures at the auditorium in Denver, Col.

CLOSES SESSION.

Baptist District Association Concludes Meetings.

The Lake Superior Baptist association closed its session last night after a most successful conference. The annual reports of the officers of the association, of the pastors of churches and of the officers of associated societies show that the work of the Lake Superior district is progressing well in all branches. Financially and in the matter of membership, the churches in the district are going pleasingly and many converts have been added during the year just past.

Last night's session closed the meeting of the district delegates. The Central Baptist church at Twentieth avenue west and First street, where the meetings were held, was packed to a point of discomfort last evening to hear the closing services and particularly to hear the address of the eloquent Rev. A. T. Fowler of Minneapolis. "The Beautiful Gate of Life" was the title of his subject and he handled it splendidly. As an orator he has few equals. Last night he told his audience of the promise of God of eternal life and his words of comfort are likely to go toward making death less of a terror.

BRADLEY IS GRAND MASTER.

Milwaukee, June 14.—The Wisconsin grand lodge, Free and Accepted Masons, today elected Jesse C. Bradley of Milwaukee grand master for the ensuing year. E. E. Parr of Eau Claire was elected deputy grand master.

TOPICS OF INTEREST

To Railroad Men Discussed In Freight Agents' Convention.

Minneapolis, June 14.—(Special to The Herald.)—The 250 delegates to the American association of local freight agents' convention are discussing topics of interest to freight men in all large cities. The advisability of adjusting all switching and reclaim charges by the use of interline waybills issued daily was discussed in a paper by the Kansas City association and followed by general discussion, but no action was taken. It was referred to a committee which will prepare a compilation of the systems in use and report next year.

A form for a through conductor's card waybill was submitted by Louisville and recommended. Credits and the use and abuse of credit privileges were discussed by Chicago and New York. The Montreal delegation is trying to secure the next convention for that city. The attendance is increasing and fifty-five of the seventy-six local associations are represented. The local railroads are acting as hosts and have extended many privileges to the delegates and their ladies in addition to the affairs planned by the local association.

ELKS AT MADISON.

Madison, Wis., June 14.—A parade of 2,000 Elks, accompanied by half a dozen brass bands, was the principal feature of the second day of the Elks' convention. The parade was reviewed by Governor La Follette, who afterwards delivered an address.

WISCONSIN G. A. R.

Elect Officers at Annual Meet at La Crosse.

Tucker, Berlin; junior vice commander, H. R. Allen, Merrill; medical director, L. A. Garlook, Racine; chaplain, O. A. Britton, Superior. Next encampment will be held at Marinette.

THE LADIES OF THE SWEDISH BETHEL CHURCH
WILL HOLD A SALE OF
USEFUL AND FANCY ARTICLES
At the church, corner Ninth avenue east and Third street, Thursday evening, June 15th. Ice cream and cake will be served.

ARCHITECT SUES

For Reparing Plans For Howard Gould's Castle.

New York, June 14.—Architect Abner J. Haydel, who is suing Howard Gould for $54,742, alleged to be due in commissions for plans of a castle, modeled after Kilkenny castle, to be built at Sands Point, in the supreme court at Mineola, on the stand, told of submitting designs to Mrs. Gould at the Waldorf-Astoria.

He testified that she insisted on having three sets made. This he refused to do, saying they were too expensive.

"Mrs. Gould then got in a fearful rage," said Haydel, "and, pointing to the door of her room, said: 'You—architect, do you see that door? Well, if you don't get out I will have you put out,' and with this she rang for a bellboy. I then stepped out of the room, and asked what would be her pleasure. The answer was: 'You be here next Tuesday morning at 8 o'clock.'"

Later the Goulds sent for Haydel again to come to the hotel. This he refused to do, but offered to meet Gould at his office.

Haydel contends he received an order to begin plans for the castle in January, 1901; that nearly six months were consumed in completing nineteen different sets; he says he employed six men to make large drawings or a number of weks, and that late in June plans for the castle for Gould were completed and accepted.

WILL AID BYRNES.

Mrs. Mackay to Rescue of Former Employe.

Mineola, N. Y., June 14.—Mrs. Clarence H. Mackay, who recently has shown a great interest in public affairs in Nassau county, today made a personal call at the county jail to talk to Joseph Byrnes, who is a prisoner charged with the murder of Alexander Kaukuskie. Byrnes was formerly a groom at the home of the Mackays at Harbor hill. It is clear that Mrs. Mackay is going to stand by Byrnes to the end, for she made provision for his comfort while in jail and also had a conference with his attorney.

Mrs. Mackay went first to Justice Keogh and had a conference with him. She explained her interest in Byrnes' case and got permission from the court to visit him, a permission rarely granted in capital cases.

She had a long talk with Byrnes. The unfortunate man was so amazed when he saw Mrs. Mackay outside of his cell door that for almost a minute he was speechless. Mrs. Mackay explained that she wanted to do what she could for him, and Byrnes thanked her.

Mrs. Mackay stayed with Byrnes for some time, then went to the women's prison and gave each inmate a $5 bill. She ordered a box of fine cigars for the keepers and thanked the warden for his courtesy. She gave him instructions to leave nothing undone to aid Byrnes in clearing himself of the charge of murder.

Mrs. Mackay's visit created a sensation in Mineola, where she rarely appears, save at some big social function.

TWO DROWNED BY CAPSIZING OF BOAT.

Milwaukee, June 14.—An Evening Wisconsin special from Manitowoc, Wis., says: Miss George Knapp, aged 16, and John Last, 25 years old, were drowned at Quarry, 13 miles from here. The drowning was the result of an accident to a boating party. Three of the party escaped.

The Business Man's New York Train.

"The Pennsylvania Special," Eighteen-Hour-Chicago-New York Train, which began running on Sunday last, June 11th, will be emphatically the business man's train. For full business day in Chicago before starting at 2:45 p. m., arriving in New York at 9:45 next morning, after a la carte breakfast in dining car. Full business day in New York, starting on return trip at 3:55 p. m., on the Pennsylvania Special, reaching Chicago the next morning at 8:55.

So can the New Yorker have a business day in Chicago and return to New York the same evening. By the Pennsylvania Special he leaves New York at 3:55 p. m., arrives Chicago 9:55 next morning. Leaves Chicago same day at 2:45 p. m. and reaches New York next morning at 9:45 o'clock.

For full information address G. T. Thomson, G. P. A., Pioneer Press building, St. Paul.

WHEAT IS SLOW

Summer Dullness on Market and Trade Is Very Light.

Little Selling Pressure Though Crop Conditions Are Favorable.

Duluth Board of Trade, June 14.—Summer dullness is upon the market, and with weather favorable for crop growth and harvesting, there is little to stimulate trading. Prices fell away today under the influence of the good outlook, but selling pressure seems to be as scarce as buying power. The Liverpool market was again open for the first time in several days, and it showed a gain of ¾@½d. Paris was ¼@½c lower, Berlin ¼c lower, and Budapesth ¾c lower.

The July option in Duluth fell ⅜c, in Chicago ⅝-¾c, in Minneapolis ½@⅝c, in New York ⅝c, in St. Louis ⅝@½c, and in Kansas City ¼c. The September option lost ½c in Duluth, ⅝@⅝c in Chicago, ¾@⅞c in Minneapolis, ⅝c in New York, ⅝@½c in St. Louis and ½@⅝c in Kansas City.

Car receipts at Duluth were 2, against 31 last year, and at Minneapolis 163, against 98 last year, making a total for the Northwest of 165, against 129 last year. Chicago received 3, against 34 last year.

Primary receipts of wheat were 166,861 bushels, last year 255,076 bushels. Shipments 194,329 bushels, last year 240,978 bushels. Clearances of wheat and flour aggregated 37,255 bushels.

Corn in the Liverpool market closed ⅜@1¼d higher. In the Chicago market July corn closed ½c lower. July oats closed ⅜-½c lower. Primary receipts of corn were 396,480 bus. last year 624,514 bus. Shipments 667,757 bus, last year 441,943 bus. Clearances were 65,549 bus.

The Duluth market made a most unusual record today. Not an option trade in any grain was made during the morning. July wheat opened ⅛c higher at $1.10⅛, fell to $1.10 and closed there, a loss of ⅜c. The new September option opened unchanged at 81½c, fell to 81c and closed there. The old September fell ⅞c to 85¾c and closed ⅜c lower at 86c.

In flax the July option showed an advance of ½c, as did also October, while September was ½c lower.

Oats declined ½c.

Following are the closing prices:

Wheat—To arrive, No. 1 northern, $1.10; on track, No. 1 northern, $1.10; No. 2 northern, $1.02; durum, No. 1, 86c; No. 2, 85c; July, $1.10; September, 81c; September, old, 86c. Flax—To arrive, $1.47½; on track, $1.48; July, $1.47½; September, $1.28½; October, $1.20½. Oats—To arrive, 30¾c; on track, 30¾c. Rye—On track, 78c; September, 60c. Barley—Feed, 35½@41c.

Cars inspected—Wheat, 2, last year, 31; barley, 3; flax, 0, last year, 4.

Receipts—Wheat, 7,361; oats, 9,014; barley, 1,965; flax, 4,634.

Shipments—Wheat, 24,831; flax, 47,882.

THE CHICAGO MARKET.

Sentiment In the Wheat Pit Is Bearish.

Chicago, June 14.—As a result of continued excellent weather, sentiment in the wheat market here today was quite bearish. Pit traders were the principal sellers. Reports of the rapid maturing of the crop in the Southwest were additional influences. July opened a shade lower at 86⅞c, sold off to 86¾c and then rallied to 86⅞c. Duluth, Minneapolis and Chicago reported receipts of 108 cars against 148 cars last week and 163 cars a year ago.

As the session advanced the market became weaker, July selling off to 86¾c. Favorable conditions for harvesting furnished the principal reason for the weakness. At the close July was down ⅝@¾c at 86¼c.

Notwithstanding higher prices at Liverpool, the corn market was inclined to weakness. Larger receipts than expected formed the basis of moderate selling by pit traders. Weather conditions were extremely favorable for the advancement of the new crop. July opened ⅛c to ¼c lower at 52¾c to 52¼c, and sold at 52¼@52⅝c. Local receipts were 225 cars with 48 of contract grade.

The market became still weaker on reports from cash houses of liberal acceptances in the country. The lowest point for July was reached at 52¼c. The market closed at the bottom, with July at 52¼c, a net loss of ½c.

Weakness of other grains caused an easier tone in oats. Another factor that contributed to bearish sentiment was a liberal increase in receipts. July opened unchanged to ⅛c lower at 30¾c to 30⅞c and sold off to 30¼c. Local receipts 91 cars.

Provisions were weak on selling of ribs by commission houses. September pork was off 5@7½c at $12.80. Lard was down 7½@10c at $7.35. Ribs were 2½c lower at $7.62½.

Close: Wheat—July, 86¼c; Sept., 82⅝@⅞c; Dec., 82⅝@⅞c; May, 84c. Corn—July, 52¾c; old, 52⅝@¾c; Sept., 50⅝@51c; old, 51½c; Dec., 47¾c; old, 49¼c; May, 46⅝c. Oats—June, 30¼@¾c; July, 30⅜@⅛c; Sept., 28¾c; Dec., 29¼c; May, 31c. Pork—July, $12.82½@12.85; Sept., $12.85; Oct., $12.85. Lard—July, $7.22½@7.25; Sept. $7.42½@7.45; Oct., $7.45. GRAIN GOSSIP.

State crop reports:

Minnesota—There were rains generally well distributed on the nights of the 5th and 8th, and there were scattered rains on the 6th, 9th and 10th. The rains in the northern part of the state seem to have been lighter than those in central and southern sections. Local hailstorms, probably of small area, caused slight damage to rye and fruit. The skies were cloudy most of the week, and there was little warm weather. The soil in all parts of the state now has an abundance of moisture, and the lowlands are wet. The cultivation of corn and potatoes has been badly hindered by the wet condition of the soil, and many fields and gardens are becoming infested with weeds. There is considerable complaint of a poor corn stand, some of the early planted seed having rotted, and considerable growing corn having been taken by cutworms during the cloudy and moderately cool weather. Rye and winter wheat are headed, and they look well. Spring wheat oats and barley are generally in good condition, though on lowlands and in some fields it is said that they are thin in spots; generally there has been satisfactory stooling, so that the stand is thick enough, and on rich soils the growth is so rank that lodging is feared. Flax is good on the highlands, but on lowlands the plants are yellow.

North Dakota—Heavy rains in all sections was the predominating feature of the past week. The most precipitation seems to have fallen over the western and central portions of the state, the least amount falling in the Red river valley, where but little was needed. While rain was not especially needed outside of the valleys, still it was of benefit and did but little damage, some low land being flooded, and in sections where the soil was sandy, some grain was washed out. The temperature was generally below the average during the week, there being only a couple of days of sunshine, while Friday and Saturday were uncomfortably cool. High winds prevailed in some localities, doing some slight damage, and one hailstorm, which damaged crops, is reported from Morton county.

Wheat is in excellent condition, except on low land, where the excessive rainfall has flooded it, and there some damage has been done, but to what extent cannot be told now. The plant is generally vigorous and healthy, with a good color and stooling well. In most sections the crop never looked more promising than now. The cool, wet weather if the past week was especially favorable for it.

Oats, rye and speltz are growing slowly, but the stand is good for this time of year. Considerable barley is being sown, the seeding of this, as well as that of all other late grain, having been delayed by the wet weather of the past week.

Flax has not done well; the cool, wet weather was not favorable for it. Most of the early sown is up, but is making slow growth, and needs warmer weather. Seeding, which has been delayed, is still in progress, and as the ground is very wet, that sown recently is expected to germinate and come up quickly.

Corn planting is generally finished, but most of it is coming up slowly, and that up is making no progress. Injured by the cool weather, some seed is reported as having rotted, and will have to be replanted.

• • •

Logan & Bryan, Chicago: Wheat—Our wheat market showed a reactionary tendency right from the start and though the market dragged all through the day the decline was not at all far reaching. When one considers the stubborn strength for several days, the little bucking off today is not at all unnatural. News regarding the growing crop is, of course, conflicting. Cash markets are slow at best, but a message we received from St. Louis today says a party bid 3c over July for 50,000 No. 2 red, delivery all July, which looks rather significant. The weather is the all important factor from this time on. The Northwest is getting rain, which thus far has not injured the plant, but a continuance of this condition would undoubtedly result in injury. Bad weather conditions, if they were to come in the Northwest, would result disasterously to the winter wheat. The market still seems like a trading affair and still seems to present good possibilities.

Corn—The market seems to act tired and needs something stimulating in the shape of bullish crop news or large shipments or good aggressive buying to maintain the present range of prices. Notwithstanding the report generally circulated that seventeer loads were taken at New York for export yesterday and twenty more today at quite a respectable price over July, the market after some early strength took on a sagging tendency.

Oats—Trade is extremely quiet and altogether local. As in corn this market shows a fractional decline. Liquidation of the July continued in today's session and dragged the September along with it. The market looks as if it would go lower.

Provisions—Changing July to September was the feature of this market. For a while after the opening the market was fairly steady.

• • •

Edwards, Wood & Co.: Three days of sunshine in the Southwest, and clear weather in the Ohio valley took the starch out of wheat today. Stocks at Minneapolis show a decrease for four days of 100,000 bushels. J. J. Hill says the outlook is promising for a good harvest in the Northwest. Minneapolis millers report business dull and demand limited to only immediate requirements. The cash situation was easy today, and St. Louis reports the arrival of a car of fine quality wheat which tests 50½ pounds. We think prices will work lower, and that sales on September wheat on the hard spots should yield fair returns.

• • •

McQuiston, Chicago: Some of the gentlemen who are traveling through the winter wheat belt sizing up crop conditions from the Pullman car window, so far have failed to send in any bullish news. Possibly their X-ray does not work satisfactorily at long distances.

• • •

Chicago: A St. Louis house that has a large number of correspondents throughout the state of Texas, wires us as follows: "All of our letters from Texas report small yield and light weight wheat. Millers there say they will begin buying northern wheat immediately to mix to bring up the quality of their wheat."

LIVERPOOL GRAIN.

Liverpool, June 14.—Wheat—Spot nominal; futures quiet; July, 6s 10¼d; September, 6s 8¼d; December, 6s 7¼d. Corn—Spot strong; American mixed, 4s 11¼d; futures steady; July, 4s 8¼d; September, 4s 7½d.

REMARKS.

Showers fell over the Chicago, Kansas City, Omaha and Minneapolis districts—heavy at Duluth, Alexandria, Minn., Lisbon, N. D., and Millbank, S. D. Warm weather continued.

H. W. RICHARDSON,
Local Forecaster.

T. indicates inappreciable rainfall. *For yesterday. †For twenty-four hours ending at 8 a. m., Seventy-fifth meridian time.

Note.—The average maximum and minimum temperatures and the average rainfall are made up at each center from the actual number of reports received. The "state of weather" is that prevailing at time of observation.

THE COTTON MARKET.

New York, June 14.—The cotton market opened easy at a decline of 2@7 points under liquidation and selling and in reaction following the sharp advance of yesterday, owing to continued favorable weather. Liverpool, however, showed firmness, there was an active demand at the decline, and prices rallied to a net gain of 4@6 points, following which they broke under New Orleans selling with the market in the middle of the morning about 5 to 6 points net lower, but steady in tone and active.

Spot closed quiet, 5 points higher; middling uplands, 8.95; middling gulf, 9.20. Sales none. Futures closed steady; June, 8.35; July, 8.42; August, 8.47; September, 8.51; October, 8.58; November, 8.62; December, 8.68; January, 8.71; February, 8.77; March, 7.80; April, 8.84; May, 8.89.

NEW YORK MONEY.

New York, June 14.—Money on call easy, 2¼@2½ per cent; closing bid, 2¼; offered at 2½; time money easy; 60 days 3 per cent; 90 days 3¼; six months 3½. Prime mercantile paper 3½@4 per cent; Sterling exchange steady, with actual business in bankers' bills at $4.87.05 for demand, and at $4.85.05@4.85.10 for 60 day bills; posted rates $4.86@4.88; commercial bills, $4.84¾. Bar silver 56½c. Mexican dollars 46½c. Government bonds steady; railroad bonds irregular.

CHICAGO LIVE STOCK.

Chicago, June 14.—Cattle receipts, 22,000; market 10@20c lower; good to prime steers, $5.50@6.35; poor to medium, $4@5.40; stockers and feeders, $2.75@4.80; cows, $2.50@4.60; heifers, $2.50@5; canners, $1.50@2.20; bulls, $2.25@4; calves, $3@6.25. Hogs receipts, 30,000; tomorrow, 25,000; steady; mixed and butchers, $5.25@5.40; good to choice heavy, $5.30@5.40; rough heavy, $4.60@5.10; light, $5.25@5.40; bulk of sales, $5.30@5.37½. Sheep receipts, 18,000; steady; good to choice wethers shorn, $4.60@5.25; fair to choice mixed, shorn, $3.50@4.40; western sheep, shorn, $4@5.15; native lambs, shorn, $4.75@6.50; western lambs shorn, $5@6.65.

COLVILL'S BODY LYING IN STATE

Thousands of People View Remains of the Noted Veteran.

St. Paul, June 14.—(Special to The Herald.)—The body of Col. William Colvill, leader of the famous charge at Gettysburg, lay in state at the new capitol today.

The casket containing the body of the noted veteran occupied the center of the corridor in the west wing, just opposite the governor's reception room, and all day citizens and visiting members of the G. A. R. passed in review.

A detail of men from the Sons of Veterans and the National Guard acted as a guard of honor. American flags were draped over the casket. Around the casket were placed flowers and floral emblems.

Though arrangement had been made for the bringing of the body to the capitol, the casket arrived in advance of the committee entrusted with its care. No one at the capitol had been informed of the arrangements and the exposed casket lay in the building for a considerable time without any attendants.

A. L. Rosing of the board of control, together with the members of Governor Johnson's official family, at once took charge and, on Mr. Rosing's initiative, palms and flowers were ordered and the casket suitably draped and decorated.

Later a committee from the First regiment and the soldier' home arrived and a guard of honor was detailed.

The body of Col. Colvill will be taken to Cannon Falls this evening and buried alongside that of his wife.

CONFEDERATE SONS

Hold Their Annual Gathering At Louisville.

Louisville, June 14.—The United Sons Confederate Veterans met today in Hopkins theater. The attendance was not large. After the invocation Calwar Bingham of Louisville welcomed the delegates to Louisville and Kentucky. The response was by Hon. T. P. Stone of Waco, Texas, a past commander-in-chief. Col. N. B. Tisdal, of Rusk, Tex., then addressed the convention. The report of Adjt. Gen. Stockett was then read.

After the transaction of some routine business, the convention adjourned, the delegates marching in a body to the horse show building where the veterans were in session.

ADVANCE IN STOCKS

Market Was Very Dull But Quite Firm In Tone.

Trading Was Light In Volume But of Good Character.

New York, June 14.—Opening prices were a shade higher than last night, in sympathy with the firm tone in London. The movement was languid and business was in insignificant volume.

The trivial advances established at the opening were not retained, the market dragging back to yesterday's close or below. Metropolitan Street Railway sold off 1 and Kansas City Southern preferred 1½. Havana Electric preferred and Great Northern preferred gained 3 points each and reacted 1¼ and 2 respectively.

Advances of a point in Reading, Atchison and Canadian Pacific elicited a listless response in the general list. Dealings fell to as low a rate of activity as on any day last week. Steel Foundries lost 1 and the preferred 2. Bonds were heavy at noon.

Some of the standard stocks were in relatively small supply when traders sought to recover. St. Paul and Union Pacifics rise of a point and the advance in Reading to 96, contributed to a general hardening of prices, despite the continued liquidation of Steel Foundries preferred, which fell 3¾. B. & O., Texas Pacific, Sugar and Rubber Goods preferred moved up a point each.

Active bidding for stocks ceased but the market held firmly. Persistent unloading of Foundries preferred had driven it down to 35 by 2 o'clock.

The rise in Canadian Pacific reached 2. Ontario & Western, 1¾, and Illinois Central and North American 1. Steel Foundries preferred rallied 1½. There was no further material effect produced on the general list. Lake Erie & Western preferred stopped at 4. General Chemical 2, Kansas City Southern 1¾, Manhattan ¾ and Paper 1. The closing was fairly steady but very dull.

Quotations furnished by Edwards-Wood Co., room A, Torrey building.

STOCK GOSSIP.

Logan & Bryan to Paine, Webber & Co.: The market closed strong and higher. The early market received help from London's higher prices and as the day progressed buying of a better character developed. Ontario & Western gained strength on the possibility of the stock being placed on a 3 per cent basis guaranteed by the New Haven. The market today acted well, showing quite a little snap and seems as if it would respond sharply to favorable news.

• • •

Dick to Paine, Webber & Co.: The market has been very dull, but quite firm in tone today, all stocks creeping up and closing at about their highest prices with fractional net gains. There was no news of importance and the trading was altogether professional. Atchison, Canadian Pacific, Ontario & Western and Reading were the strongest features. The closing was quiet, but firm. Stocks promise to show further improvement tomorrow.

THE COPPER STOCKS.

Following are the closing quotations of copper stocks at Boston today, reported by Paine, Webber & Co., 328 West Superior street:

COPPER GOSSIP.

Boston to Paine, Webber & Co.: The market continued dull again today, but inclined to be somewhat firmer. Copper metal holds very strong, being quoted 15⅛@¼. Greene made a slight rally today, but there seemed to be a great deal of stock for sale by the same parties who have been selling for the past few days. On declines we would buy stocks.

RUSSIAN BOURSE.

St. Petersburg, June 14—An enormous business was transacted on the bourse today. There were some realizations but fours continued to move upwards, closing ¾ of a point higher than yesterday.

IS NOT MUCH OBSERVED

Not Many Flags Out In City to Celebrate Day.

The big display of flags and bunting about the business portion of the city in celebration of the state convention of the Order of Eagles, would give many the impression that Flag day is being more generally observed by Duluth citizens than formerly.

Outside the business portion of the city and in the residence portion, however, the display of flags is not nearly so common. Now and then a patriotic citizen, possibly an old G. A. R. man, a member of the W. R. C. or the school children in the family have hung out Old Glory in celebration of the day, but the custom can hardly be said to be popular yet.

Flag day observance is still too new a thing for this part of the country, although it has been observed to a large extent in the East for several years past, but it is the aim of the local old soldiers and their wives to conduct from now on a campaign of education along the line of a patriotic celebration of the day.

Believing that the schools are among the best places where the principles of patriotism should be instilled in the minds of the young of this country, the ladies of the local Women's Relief Corps have placed in every one of the schools of the city an oleograph of the American flag and a primer.

VISITORS

Duluth's Most Popular Excursion

STEAMER NEWSBOY

Will make two trips to Fond du Lac, tomorrow, leaving 9 a. m. and 2 p. m. Round trip, 50 cents. MOONLIGHT trip around the Horn, 8:30 p. m., return 10:30. Full band and orchestra. Tickets, 25 cents.

VISITORS

INITIAL TRIP.

Car Oatka Carries City Officials and Others.

Mayor Cullum, several other of the city officials and a few of the prominent citizens and business men, enough to make up a party of about thirty persons, were guests this morning of the Interstate Traction company on a ride down Park Point on the initial trip of the new double truck car Oatka.

The company was represented by R. R. Dunn of St. Paul, and A. W. Hartman and O. C. Hartman of this city. At the farther terminal of the line the car was stopped for about an hour and a half while the visitors looked over the new picnic grounds that the traction company has established there for public use.

BIG DANCE!

TOMORROW NIGHT AT

O-AT-KA BEACH

La Brosse Military Band. Tickets for sale at Lundberg & Stone's.

GRIZZLED VETERANS

Of the Confederacy Hold Fifteenth Annual Convention.

Louisville, Ky., June 14.—The city of Louisville today welcomed the thousands who have come "to the farthest North" to attend the fifteenth annual convention of the United Confederates. The attendance exceeds expectations, and with assurances of glorious weather, the reunion already promises to be a success.

At several points in the city barracks have been provided, and a few steps away from each is the free restaurant, which twenty-four hours out of the day serves meals to the wearers of the gray. All courts have adjourned for the remainder of the week in order that the court rooms may be used as headquarters for the various state delegations. The business side of the reunion—the annual convention, was scheduled to open in the horse show building at noon.

I. O. F. ATTENTION!

Grand union meeting of members of I. O. F. will be held at Armory TONIGHT. A large class will be initiated with elaborate ceremonies. An entertainment will follow. Officers of supreme court and delegates to high court meeting will be present. Foresters and friends are invited.

VESSELMEN ARE EXCITED

Over the Sinking of British Vessel By Russian Cruiser.

London, June 14.—A considerable stir has been created in shipping circles as a result of the sinking of the British steamer St. Kilda by the Russian auxiliary cruiser Dnieper in the China sea. The foreign office has been bombarded with telegrams from the owners of the ship and cargo, urging that action in the matter be taken. The foreign office is awaiting details, but in the meantime has drawn the attention of the Russian government to the reports so far received. Some curiosity is expressed as to the attitude of the government, in view of the statements of Foreign Secretary Lansdowne and Premier Balfour after the sinking of the British steamer Knight Commander by the Vladivostok fleet. It is pointed out that the present case is entirely different from that of the British steamer Oldhamia. The latter was captured as the Russian fleet was about to enter Japanese waters and might have conveyed information to the Japanese. The St. Kilda, on the other hand, could not have imparted information damaging to the Russians, whose fleet had already been destroyed or scattered. The Russians are expected to contend that the St. Kilda was carrying contraband, and that they were unable to take her to a Russian port.

Marine.

LEONARD ASHORE

Stranded While Trying to Avoid Wreck of Yakima.

W. H. Gilbert Released From Reef at St. Helena Island.

Port Huron, June 14.—(Special to The Herald.)—The disabled steamer George B. Leonard, bound down in tow of the steamer Lyman Smith, stranded on the head of Stag island at 3 o'clock this morning. The accident was caused in trying to avoid the wreck of the burned steamer Yakima. It will be necessary to lighter the cargo of the Leonard to effect her release.

THE GILBERT RELEASED.

Mackinaw City, June 14.—(Special to The Herald.)—After jettisoning about 130 tons of iron ore, the steamer W. H. Gilbert of the Steel Trust fleet was released from the reef at the island of St. Helena at 7 o'clock this morning. The steamer was pulled into deep water by the whaleback Mather, assisted by the wrecking tug Favorite. The Gilbert was leaking in four compartments about four inches per hour, indicating extensive damages. She passed down at 7:40 in company with the Favorite. The Gilbert stranded yesterday morning in a dense fog.

PASSED DETROIT.

Detroit, June 14.—(Special to The Herald.)—Up: Maricopa, Roebling, 10:40 Tuesday night; Manchester, 11:40; Bay State, Bombay, Berkshire, Adams, 12:15 Wednesday morning; Parks Foster, 12:50; Republic, 1; D. Smith, Clyde, 12; Rockefeller and whaleback, 12:30 Wednesday morning; Chili, 1:30; Mars, Antrim, 3; Maruba, Carrington, 3:20; Oceania, 5:20; Murphy, Corliss, 6:40; Sickens and barges, 7:40.

Later—Up: Samoa, 8:10; Northern Wave, 8:30; Hart, Cumberland, 9:50; Muncy, 10. Down: Nimick, 8:30; Recor, 9:20; Tower, 9:40; Northern Light, 10:15; Lansing, Vinland, 10:30.

Up yesterday: Cornell, Manda, 11:20; Cartagena, Granada, 11:30; Chemung, Sinaloa, 1:15; Wilbert Smith, Palmer, Berlin, Aurora, 3; Fairbairn, Magana, 5; Tempest and consort, 5:15; Weeks, 5:30; Edenborn, Uganda, 6:30; Brewer, 6:40; Desmond, 7; Chas. Eddy, 8:15. Down: Victoria, Constitution, Midland King, 11:40; Algonquin, noon; Grecian, Lackawanna, 12:30 p. m.; Jupiter, Rochester, Clarion, Ithica, Osborne, 2:20; Angeline, 4; McWilliams, George Gould, 4:30; Taylor, 5; Black, Reed, 6:30; Pellatt, 7; Arizona and barges, 7:15; American Eagle and barges, 8:40.

STEAMERS COLLIDE.

Sault Ste. Marie, June 14.—The steamer Sylvania, bound down with iron ore, collided with the steamer Bessemer, bound up, without cargo, during a dense fog early yesterday morning off Whitefish Point. The Sylvania struck the Bessemer on the port side about amidship, a glancing blow. As the two big steel boats alongside of each other, the anchor on the port bow of the Sylvania, stuck through the plating of the Bessemer a distance of 175 feet, tearing an opening two feet wide between No. 2 and No. 3 tanks the full length, six feet above the water line. Both boats came here after the accident, and the Besemer is making temporary repairs before proceeding on her voyage. The Sylvania lost her port anchor and a few plates are damaged in her port bow, but the boat is not leaking.

THE SAULT PASSAGES.

Sault Ste. Marie, June 14.—(Special to The Herald.)—Up: Tacoma, 1 Wednesday morning; Argo, Dobbins, Sahara, 2:40; Glynn, 3; Lindsay, Wallace, Langham, 6; Widlar, 7. Down: L. C. Smith, 9:30 Tuesday night; Ellwood, Ericson, Bryn Mawr, 10; Marina and whaleback, 11; New Gratwick, 12:30 Wednesday morning, Siemens, Marcia and whaleback, 2; Kirby, Hartnell, Reis, 3:30; Volunteer, 4; Rensselaer, 5.

Later—Up: Bransford, 9; Squires, 10; Waldo, 10:30. Down: Holmes, Ionia, Wilkesbarre, 3; Wells, Wawatam, 10.

Up yesterday: Mary Boyce, Aurania, 11:40; Gates, noon; Woodruff, 12:30 p. m.; Colonel, 1; Cowle, 2; Pentland, North Star, Tuscarora, 2:40; Rome, 4; Marigold, 8; Saronic, 8:30. Down: Maunaloa, Capt. Wilson, 2 p. m.; J. B. Ketchum, Albright, Walter Scranton, 2:30; Heffelinger, Troy, Choctaw, 3; Ralph, Connelly Brothers, Jutland, W. L. Brown, Colonel, 4; Malietoa, Cambria, North Wind, 4:30; Walter, Wallula, Parks Foster, 5; Bessemer, Maryland, LaSalle, Mataffa, 5:30; Cormorant, Havelita, 6; Progress, Sylvania, 6:30; Chas. Eddy, Andaste, 7; Saxon, Frank Peavey, Appomattox, Santiago, 8; Eads, Krupp, 8:30.

BOATS ARE SCARCE.

Chicago, June 14.—(Special to The Herald.)—If shippers could have found the boats, there would undoubtedly have been an advance to 1⅜c on corn for loading by tomorrow afternoon. They were seriously in need of tonnage on contract shipments and for the first time this season vesselmen were being sought out by shippers. Ever since April, it has been the vesselmen's turn to do the walking until this morning.

LOSES PROPELLER BLADES.

Cleveland, June 14.—While going into Conneaut yesterday morning, the new steamer, E. H. Gary, struck an obstruction, knocking all the buckets off her propeller wheel.

INSURED FOR $40,000.

Cleveland, June 14.—The steamer Yakima, burned in St. Clair river, was insured for about $40,000.

VESSEL MOVEMENTS.

Milwaukee—Arrived: Merrimac, Hawgood, Gilchrist, City of Glasgow. Cleared: Mingo, Chicago.

ASHES AND GARBAGE.

BY LOAD OR MONTH. 48 both 'phones.

TO DROWN WIFE

Matti Malimemi Forced Her Head Into Pail of Water.

Man Is Believed By Police to Be Demented.

Accused of trying to drown his wife by holding her head in a bucket of water, Matti Malimemi, a Finn will be brought into court this afternoon.

The case was brought to the notice of the police department by Konstad Liiti, a Finn who works on a farm owned by Charles Hill about seven miles from West Duluth. According to the story told by him to the police this morning, Mrs. Matt Malimemi is also employed on the farm in the capacity of cook. Her husband, it is claimed by Liiti, is addicted to drink, and is a kind of dissolute character who does not appear to be overly fond of work, but lives in part from his wife's earnings. Liiti says that Malimemi has been hanging about the farm for several days and has several times attacked his wife, choking her at times, and beating her over the head.

The men on the farm have been compelled to keep a close watch on him to protect the woman, and the climax is claimed to have come yesterday when Malimemi seized his wife by the throat and forced her head into a bucket of water, holding her face below the surface with the evident intention of drowning her.

One of the men on the farm rushed to her assistance and pulled Malimemi away in time to prevent the woman being drowned, and this morning two of the men hitched up a wagon and brought Malimemi into the city and turned him over to the police.

It is the opinion of the police that Malimemi is partially demented from the effects of drinking alcohol or strong whisky and it is possible that he may be taken before Judge Middlecoff instead of being arraigned in the municipal court.

The farm on which the affair is claimed to have taken place is situated about seven miles back of West Duluth, and is in a lonely spot. There are seven employes on the farm in all, and they will be used as witnesses against Malimemi by the police, if he is arraigned on an assault charge.

HEROES MARCH WITH THE BATTLE FLAGS.

(Continued from page 1.)

today is to consecrate ourselves to the work of realizing an American citizenship that demands and secures the best and highest form of government for all the people, to protect the nation from assaults of assassins whose treason may be of that form which strikes at the heart, while making no open declaration of war. He who purposely is untrue to a public trust is as dangerous an enemy to the national body as he who fired upon the flag for which you offered your life.

The history of nation and state is one of which we can well boast, but we should not forget that danger lurks where we least expect to find it. The war of the rebellion proved the fallibility of the doctrine of states' rights. It proved that the whole people constituted the sovereignty. A nation is no better and no worse than the people who comprise the nation, and nothing is more certain and undeniable than that honesty is essential to good government; that honesty in the governing power is impossible when not reinforced by an honest and upright people. The sovereignty of the people and the honesty of the people is the basis of our government and its only lasting hope. Let us see to it then that we fail not in our duty as citizens of the state and be as steadfast in the performance of that duty as was the soldier at Lookout Mountain in his fight for the preservation of this government for the people who live to reap the reward of his heroic action and sacrifice.

> Liberty we have; to liberty we are entitled, but liberty does not imply license. Let us raise up for ourselves the standard of liberty where we may behold her, not as a toothless hag, but as one enthroned, and fit to be enthroned.

Ours is the last of the republics. If ours shall fail the world will probably never behold another. The soldier of the republic failed not in his duty. Realizing our grave responsibility, let us not disappoint the world by the failure to do ours. From the birth of this nation the progress of the country has been marked with the rapid accumulation of wealth which has added to our material prosperity, and not less rapid has been the progress of those things necessary to perfect civilization. A century ago the old world wondered whether the new republic could permanently endure. The interrogation has been answered on a hundred battlefields and today the world knows that the United States of America is not an experiment, but established as a free nation for all the years which are to come. Then we were despised of the old world. Contempt gave way to astonishment, astonishment to wonder, and wonder to confidence and esteem. The old world, with its dissensions and its differences, beholds in this republic a fair nation and now we are become the arbiter of the rights and wrongs of those who seek to escape the tyranny which they have borne through the centuries. Throughout the world the love of liberty exists. In our country it finds its fulfillment by reason of the fact that there have always been patriotic men who were willing to sacrifice life itself that posterity might enjoy the full fruit of the highest and best form of government. If the volume of history were now to be closed forever, there would be written there no brighter page than that devoted to the cause of humanity by the American soldier. It is written with the blood of patriotism and is punctuated by tales of heroism that find no parallel in the history of the world. In the logic of its events there is naught of cant.

> There was no hypocrisy in the awful tragedy into which the First Minnesota bore its flag through the fire and smoke of Gettysburg. It is a story which adorns the pages of American history and which will stir the hearts of men forever.

There is no need to dwell upon the personal characteristics of the American soldier. In the War of Independence he endured every hardship and was as resolute as the old guards of Waterloo. In the War of the Rebellion his patriotism and courage never faltered. In the late war the son proved the worth of those who had gone before. The American soldier is peculiar to America. He never went to war for wage. He was no hired man, paid to slaughter a weaker foe. He never fought except for the cause of humanity. His wisdom, his courage, his deliberation, his respect for authority, have all marked him as the ideal soldier—the soldier with a heart and soul and conscience; the soldier who thinks, and whose inspirations come from the loftiest ideals, based upon a devotion to duty and to right which prompted obedience to that law which was based on the right of the people to be free in the exercise of every natural and independent right. Such a soldier he has been in the past, and proud of the records of those who have fought before, so he will be in the future, and I trust that if he must again draw his sword and enlist under his flag, it will be that right shall prevail and wrong shall not triumph on this fair land.

Our national sun has but just risen in the East. In its course may it ever shine on a happy and contented people, a people united in a common cause, showing forbearance and patience, and, reaching its meridian, look upon a people inspired by the same lofty motives and purposes which move this assemblage today, reassuring us that from the tower we will always hear the welcome cry of the watch, "All's well," and that by this sign we shall not despair.

> In behalf, then, of a grateful people, remembering the sacrifice you made and the hardships which you endured, I accept these symbols of your valor and your patriotism, and hope that in the splendid edifice newly erected as the capitol of your state they will be deposited as the most sacred treasures of our state government, there to be viewed by the generations yet to come with that reverence that is their just and honest due.

It may be that the memory of individuals and even of armies may fade away, but as the centuries roll on and on, those who believe in freedom for mankind will read and remember the cause for which you fought. As Marathon, Balaklava and Wagram are tokens of the bravery of men of other lands, so Gettysburg, Mission Ridge, Chickamauga, Vicksburg and Nashville live in the ages as fields on which Minnesota men fought for liberty and for the perpetual union of these United States. It may be that the destiny of nations may be changed. It may be that this marble building may crumble and decay. It may be that these flags may cease to be. But I am firm in the conviction that as long as Americans shall lisp the language of the founders of our republic, so long will the tongues of the people tell of your achievements and so long will you be held dear in the hearts of the American people and those who love this land.

Monuments might be erected to your memory. Monuments might tell the story of your patriotism, but no marble shaft could so well tell the story of your valor and chivalry as these drooping standards under whose folds you marched into the vefy jaws of death, that this land might be "the land of the free and the home of the brave." And whatever may betide the people of this land, you are at least rewarded by the consciousness of a duty well done. Your happiness can at least come in the satisfaction that you have contributed your full measure to the glory of the age. I could pay you no higher tribute than to say that you come within the meaning of the words of Washington, when he declared for independence: "Happy, thrice happy shall they be pronounced hereafter, who have contributed anything, who shall have performed an office in erecting this stupendous fabric of empire on the broad basis of independency; who have assisted in protecting the rights of human nature and establishing an asylum for the poor and oppressed of all nations and religions."

At the close of the governor's remarks, Rev. Father Lawler pronounced the benediction, and the ceremony of placing the flags in their new cases completed the interesting exercises.

DIPLOMATS AT PEKIN CONSIDER PROSPECTS OF PEACE AS REMOTE

(Continued from page 1.)

force seems to be behind this movement. Field Marshal Oyama is ready for a general offensive.

OBJECT TO PARIS.

Japs Will Not Have Peace Meeting Theae.

Tokio, June 14, 3 p. m.—The report of the Japanese minister at Washington, M. Takahira, teling of his interview with President Roosevelt and announcing the proposal that the peace plenipotentiaries of Russia and Japan meet in Paris and the appointment of M. Nelidoff, the Russian ambassador to France, as Russia's chief plenipotentiary, was received today. Japan will refuse to have the meeting take place in Paris, because it is the capital of Russia's ally and also on account of the great distance from Japan and the delay involved. It is expected that Japan will propose that the plenipotentiaries meet at some point close to the theater of war.

The Japanese plenipotentiary has not yet been selected.

HOSPITAL SHIPS.

One Released, the Other Held By Japs.

Nagasaki, June 14, noon.—The Russian hospital ship Kostroma, which was captured during the battle of the Sea of Japan, was released today and she sailed for Shanghai. The hospital ship Orel which was captured at the same time, will be taken before the naval prize court at Sasebo for trial.

ORDERED AWAY.

Russian Auxiliary Cruiser Anchors Near Saigon.

Saigon, Cochin China, June 14.—The Russian auxiliary cruiser Kuban anchored off Cape St. James, near here, this morning and the governor ordered her to depart immediately and dispatched a French warship to enforce the neutrality of these waters.

Twenty-eight of the colliers which supplied the Russian fleet with coal have left Saigon and thirty more of them are preparing to sail.

The British steamer Carlisle, which is understood to have on board war munitions intended for the Russians, is detained here under surveillance.

CASSINI BUSY.

Ambassador Calls on President and French Embassy.

Washington, June 14.—Count Cassini, the Russian ambassador, called at the White House at 11:30 a. m. today for a conference and was received by the president in the blue room.

The ambassador remained in conference with the president for fifty minutes. At the conclusion of his interview Count Cassini said, in response to inquiries, that he could not discuss the nature of his conference with the president. Asked if there were any indications of a hitch in the peace negotiations, the ambassador replied that there were not. He added that thus far no decision had been reached as to the place or time of holding the peace conference. He said that he could not mention properly the locations under consideration but indicated plainly that so far as he was aware, the negotiations were proceding smoothly.

The ambassador drove from the White House to the French embassy.

DISTILLERY BURNED.

Louisville, June 14.—A special from Owensboro, Ky., says: "The Rock Springs distillery burned today. Loss $100,000; insurance, $57,900."

HAPPENINGS IN DAKOTAS

Eloper Returns to Fargo and Is Forgiven By Wife.

NORTH DAKOTA.

Fargo—Joe Aber has returned to Fargo and all is forgiven. About a year ago he deserted his wife and eloped with the wife of a Northern Pacific engineer at Winnipeg Junction. They were found in Chicago and brought back to Moorhead, where Aber secured freedom on bail. It is supposed he adjusted matters with his bondsmen, and the case was dismissed. He reached home yesterday, and it is announced his wife has forgiven him. Prior to his elopement he had a profitable harness business here.

The local land office has decided the case of Edward H. Connor against Bertha Ogelsby in favor of the contestant. George Ogelsby and Bertha Anderson had nearby claims. They married and went to reside on the Ogelsby claim, on which they later proved up and then started to reside on the claim formerly homesteaded by Mrs. Ogelsby. She endeavored to make final proof, but it was rejected by the local office. The general office granted her permission to make a commutation proof. In the meantime Connor started the contest and the local office held in his favor. The case has been appealed.

Notice has been received here of the suicide of Harry G. Dettmer, formerly a telegraph operator in the Western Union office. Several years ago Dettmer was married to a young lady of Mapleton and they moved to Salt Lake. Later she obtained a divorce. Dettmer was employed in the Moorhead office up to a short time ago, when he removed to Madison, Wis., where he ended his life by a revolver.

Marvin Cox, who has been conducting a sanatorium here for some years, is missing.

Grafton—Consolidation of rural schools is steadily gaining ground in North Dakota and the idea has just received a strong indorsement in Cleveland township, Grand Forks county. The township has been experimenting for three years and the results induced officials to call an election to vote on bonding the district for $3,500 and the bonding proposition for building a large central building carried by a vote of five to one.

Members of the school board and the county superintendent visited two village schools and the new consolidated school building in Logan township in order to obtain ideas.

Petersburg school township tried consolidation as an experiment by hiring teams to bring the children from the country to the town school.

Hillsboro—Druggists have organized the Traill County Retail Druggists' association, and the officers are: J. E. Fladeland of Portland, president; Edward Nyhus, Hatton; vice president; John P. Hanson of Mayville, treasurer; C. A. Hawkins of Hillsboro, secretary. All the drug dealers of the county are in the association, and the members are as follows: Wayter Overton, Clifford; Hanson & Hanson, Mayville; John E. Fladeland, Portland; Stenmo & Co., Hatton; Edward Nyhus, Hatton; Charles Berg, Buxton; A. L. Lien, Hillsboro; C. A. Hawkins, Hillsboro; H. S. Clark of the Foogman Drug company, Hillsboro.

SOUTH DAKOTA.

Sioux Falls—W. G. Porter, assistant United States attorney, departed for Sisseton, where he was summoned on advices to the effect that R. Whitefoot of Wilmot, Roberts county, had been arrested on the charge of shipping out of the state sheep which were affected with a disease among such animals. Deputy United States Marshal Collins made the arrest and took the prisoner to Sisseton for his preliminary examination before Paul Babcock, United States commissioner.

The arrest of Whitefoot by the federal authorities proves that the government officials of South Dakota will give substantial support to the state authorities in their efforts to enforce the laws and protect the cattle and sheep of South Dakota from contagious diseases.

Whitefoot is accused of having made two shipments of affected sheep. The first consisted of 107 head consigned to South St. Paul. This shipment was made in December, 1903. The second shipment consisted of eighty-four sheep sent to the Chicago market. It is not charged that all the sheep in both shipments were diseased, but that part of them were.

Stanley D. Harris, a farmer of Peever, Roberts county, has filed a petition in voluntary bankruptcy in the United States court in this city. He schedules his liabilities at $500 and his assets at $516. He claims the full amount of his assets is exempt. The case will be adjudicated by Charles N. Harris of Aberdeen, referee in bankruptcy.

Aberdeen—R. I. Hall of Ewarts and a traveling man from St. Paul are reported to have made the largest catch of catfish ever recorded at that point on the Missouri. One of the fish is said to have weighed 107 pounds, measuring four feet and three inches in length, while they had two two-bushel sacks of fish weighing from three to fifteen pounds apiece.

John Anderson, who has served as deputy sheriff for several years, was appointed sheriff by the county commissioners at a special meeting to fill the vacancy caused by the death of the late Sheriff Howard Cole.

The police are searching for some miscreants who defaced the sidewalks, doorsteps and the posts on the porch at the Alexander Mitchell library with obscene words. It was found impossible to remove some of the painting and the services of a stonecutter were required to remove the paint by chiseling the stone.

Henry Imlia, a ranchman of Hague, N. D., was brought to St. Luke's hospital in this city on Saturday evening, suffering from a severs attack of Bright's disease from which he died on Sunday evening. He was 37.

Pierre—Attorney Carl Sherwood of Clark has secured from the supreme court a writ of error and certificate of probable cause in the case of the state vs. Carl Jackson, who was charged with wrecking the First State bank of Clark, and making a false report to the bank examiner as to the condition of that institution, and for which he was given a sentence of one year in the penitentiary. The certificate of possible cause acts as a stay of proceedings until the case can come before the supreme court at the October term.

Chamberlain—The big 360-foot drawboat for the railroad crossing over the Missouri river at Chamberlain is completed except as to her deck, and arrangements are being made to launch her either this evening or tomorrow morning. Her deck will be completed after she is in the water. Thirty days more will complete the crossing over the river here. The river is very high and full of drift and has carried out a portion of the wagon pontoon bridge on both side of American island.

DEATH PENALTY

May Be Inflicted For Purchasing American Goods.

Honolulu, June 7.—(Correspondence of the Associated Press.)—Considerable attention has been attracted by a Chinese poster which has appeared in Hilos Asiatic quarters. It says that the Chinese government proposed to retaliate for the American exclusion policy, and that the government at Pekin will issue an order against the purchase of American goods, with a death penalty for violation of the order, and will proceed to have Americans who enter China fumigated at the port of entry and charged $5 per head.

MORE YELOW FEVER.

Washington, June 14.—A cablegram from Governor Magoon of the Isthmian canal zone reports four additional cases of yellow fever, two Americans and two Jamaicans. Three of the cases occurred at Panama and one at Culebra. The Americans stricken are: S. L. Davis, bookkeeper, Panama, and Edgar Nicolai, bookkeeper, Culebra.

We, the undersigned, do hereby associate ourselves together, and agree to become a corporation, under and pursuant to Title 2, Chapter 34, General Statutes 1878, of Minnesota, and acts amendatory thereof and supplemental thereto, and for that purpose do hereby adopt and sign the following Articles of Incorporation:

FIRST. The name of this corporation shall be "Duluth-Superior Dredging Co."

The general nature of the business of this corporation shall be to manufacture and construct dredges, tugs, scows, pumps and all other dredging apparatus, appliances and machinery; to make, construct, alter and repair docks, wharves, piers, dykes, breakwaters and other similar works; to dredge and excavate slips, harbors, channels and other waterways; and to do every kind of contracting and construction work incidental to the business aforesaid, and to acquire all apparatus, machinery, appliances and other property necessary or convenient to carry on any or all of the aforesaid business.

The principal place where the business of this corporation shall be transacted is Duluth, Minnesota.

SECOND. The time of the commencement of this corporation shall be June 15th, 1905, and the period of its continuance shall be thirty (30) years thereafter.

THIRD. The amount of the capital stock of this corporation shall be two hundred thousand ($200,000) dollars, divided into two thousand (2,000) shares, of the par value of one hundred ($100) dollars each, which may be issued and paid for in such manner as the Board of Directors may determine, but this corporation may begin business when at least one hundred thousand ($100,000) dollars of its capital stock has been subscribed for.

FOURTH. The highest amount of indebtedness or liability to which this corporation shall at any time be subject, shall be the sum of two hundred thousand ($200,000) dollars.

FIFTH. The names and places of residence of the persons forming this corporation are as follows: William Clifford, Napoleon Grignon and Renwick B. Knox, all residing at Duluth, Minnesota.

SIXTH. The names of the first Board of Directors of this corporation are: William Clifford, Napoleon Grignon and Renwick B. Knox; said directors, and the officers hereinafter named, shall hold their offices until the first annual meeting of the corporation, which shall be held on the second Tuesday in January, 1906, at ten o'clock a. m., and until their successors shall have been duly elected and qualified; the time for holding all subsequent annual meetings shall be fixed by the by-laws.

The government of this corporation, and the management of all of its affairs, shall be vested in a board of three (3) directors, who shall be stockholders of this corporation, and who shall be elected annually, at the stockholders' annual meeting. There shall also be the following officers, who shall have such powers, and perform such duties, as may be prescribed by the by-laws, and who shall be elected by said directors at their first annual meeting, and thereafter annually at the first meeting of said Board immediately following the annual meeting of the stockholders, to-wit: A President, a Vice President, a Secretary and a Treasurer, any two of which offices, except President and Vice President, may be held by the same person.

Until the first election of officers, the following persons shall be the officers of said corporation, to-wit: William Clifford, president; Napoleon Grignon, vice president; Renwick B. Knox, secretary and treasurer.

The Board of Directors shall also have authority to make and adopt such by-laws, and to create such other officers, with such powers and duties as may seem to them necessary for the management of the business of said corporation, and to terminate such offices, and to change the duties thereof, at will; but all such by-laws may be repealed, or amended, or new by-laws made, by a majority vote of the stockholders at any annual meeting, or at any special meeting called for such purpose. The Directors shall have power to fill any vacancy which may happen in their board, by death, resignation or otherwise, for the current year.

In Witness Whereof, we have hereunto set our hands and seals this first day of June, A. D. 1905.

WM. A. CLIFFORD. (Seal.)

ORDER FOR HEARING APPLICATION FOR APPOINTMENT OF ADMINISTRATOR.—

State of Minnesota, County of St. Louis, ss.—

In Probate Court, Special Term, June 13th, 1905.

In the Matter of the Estate of Roxanna E. Ellis, Deceased:

On receiving and filing the petition of Charles E. Ellis of the County of St. Louis, Minnesota, representing, among other things, that Roxanna E. Ellis, late of the County of St. Louis in the State of Minnesota, on the 25th day of January A. D. 1897, at the said County of St. Louis died intestate, and being an inhabitant of this County at the time of her death, leaving goods, chattels and estate within this County, and that the said petitioner is a son of said deceased, and praying that administration of said estate be to Hamilton H. Peyton granted;

It Is Ordered, That said petition be heard before said Court on Monday, the tenth day of July A. D. 1905, at ten o'clock a. m., at the Probate office, in the Court House in the City of Duluth, in said County.

Ordered Further, That notice hereof be given to the heirs of said deceased and to all persons interested, by publishing this order once in each week for three successive weeks prior to said day of hearing, in The Duluth Evening Herald, a daily newspaper printed and published at Duluth in said County.

Dated at Duluth, Minn., this 13th day of June A. D. 1905.

By the Court.
DAVID H. LAWRENCE,
Judge of Probate of Lake County.
Acting Judge of Probate of St. Louis Co., Minn.
(Seal Probate Court, St. Louis Co., Minn.)
Duluth Evening Herald, June 14-21-28.

CAN YOU READ THINGS THAT ARE WRITTEN IN

THE SHADOW ALPHABET?

"Coming events," you have always heard, "cast their shadows before."

These shadows make a sort of "cipher-writing," and a knowledge of it enables you—usually through timely want advertising—to "take Time by the forelock," and reduce Trouble to its lowest terms.

If the cook's exit is a "coming event" you will see and feel the shadow all over the home—in the countenance of the wife, in the slighted coffee.

If the landlord is about to raise the rent you will get a hint of it in his anxiety to put up a new gate, or add a few new shingles to the roof.

If your "resignation" of your job is a coming event, its shadows will get to you pretty well in advance.

In fact, about every event of daily life sends hints of its coming on ahead. If you can read the "Shadow Alphabet" you may be ready for most of the things that are "coming to you" simply by prompt and effective use of THE HERALD Want Alvertising.

HELP WANTED—MALE.

WANTED — FOR U. S. ARMY — ABLEbodied, unmarried men, between ages of 18 and 35; citizens of the United States, of good character and temperate habits, who can speak, read and write English. For information apply to Recruiting Officer, Torrey building, Duluth Minn.

MAYOR WEAVER DEALS ANOTHER BODY BLOW TO THE REPUBLICAN RING

Bill Repealing Ordinance on Franchise to Be Passed.

Measure Granting the Franchise Passed Over Mayor's Veto.

Mayor's Repeal Bill Received Support of All Citizens.

Philadelphia, June 15.—Another blow was dealt at the Republican organization today, when the street railways committee of councils referred back to that body the bills repealing the ordinances granting to the Philadelphia Rapid Transit company franchises for 110 miles of streets, without payment to the city. The ordinances granting the franchises were passed over Mayor Weaver's veto, and at his instigation the repealers were introduced.

The company made the claim that the passage of the first bills gave the corporation the right to the streets, and that the ordinances could not be legally repealed. A stormy meeting of the street railway committee was held Tuesday last, and addresses favoring the repealers were made by clergymen and citizens, who protested vigorously against giving away valuable franchises. The committee was unable to decide the legality of the repealing ordinances, and referred them to City Solicitor Kinsey. His opinion was to the effect that councils had full power to take back what they had given, and that the ordinances were entirely legal.

The city solicitor's opinion was read at today's meeting of the committee, and without argument the ordinances were unanimously sent back to councils, with the recommendation that they be passed. Both branches of councils met later in the day, and the bills were received. Under the rules of councils, an ordinance cannot be passed on the same day on which it is received from committee, consequently final action could not be taken at today's meeting.

The outcome of the attempt to bestow the franchises is regarded as a victory for Mayor Weaver, whose wishes in the matter were opposed by the organization leaders.

"BENEVOLENT CORPORATION" ASKS MONOPOLY OF SALOONS

Los Angeles, June 15.—Initiative operations will be placed in circulation within the next ten days asking the council to adopt an ordinance granting to a "benevolent corporation" the monopoly of the saloon business in Los Angeles. So say the organizers of the corporation which seeks to regulate the liquor traffic of Los Angeles along the lines that has made Gothamburg famous. Subscription lists have been in circulation for the last week, and a goodly portion of the $500,000 which will be needed to apply the Gothamburg system has already been subscribed. The main feature of the new system will include:

Reducing the number of saloons from 200 to 75. Closing all in the residence districts and replacing them with coffee clubs. Guaranteeing to the city a revenue of $186,000 a year, limiting the possible profit of the corporation to 6 per cent on the capital equally invested. Permitting the sale only of beer and light wines in saloons in the mill and manufacturing districts. Guaranteeing the expenditure of all profits above $210,000 a year in public improvements. Pledging the purchase of the fixtures of the 200 saloons now in operation at a price to be adjusted. Providing for payment of a sum to the saloon owners for the good will of their business. Drastic regulations concerning the operation of the corporation saloons.

GERMANS ARE "KNOCKERS"

Trying to Create Distrust In American Insurance Companies.

Berlin, June 15.—The policy holders in Germany of the New York Equitable Life Assurance society, want to be represented on the board of the re-organized society. This is one of the objects of the subcommittee appointd by the general committee of the association of German fire insurance companies, which includes life insurance companies and those doing both life and fire business. The principal purpose of the sub-committee appears to be to create distrust of all American insurance institutions. The German companies quickly availed themselves of the Equitable dispute to say this showed how wise the government had been to exclude most of the American companies and how justified it would be if it expelled the two companies which are still permitted to do business here. The newspapers for several weeks have been printing paragraphs and articles on the Equitable affairs and moralizing on the alleged unsound condition of American business life, contrasting German prudence with "Speculative, rickety American finance." Some of these articles originated the Equitable agents here aver, with German insurance offices. The Equitable which has taken no new policies in Prussia for six years and is only collecting premiums and liquidating claims on former contracts, has $20,000,000 in policies outstanding and investments in real estate and government bonds, amounting to about $7,500,000.

TO WED IN MINNEAPOLIS.

St. Cloud, Minn., June 15.—Miss Hilda Koch of New Ulm, Minn., will be married to Cyril L. Campbell, a young business man of St. Cloud, on Saturday afternoon at 5:30 o'clock at the West hotel in Minneapolis. Miss May Mowry of Northfield will be bridesmaid and T. S. Henry, of Valley City, N. D., best man. The bride is a cousin of Dr. George R. Koch, the New Ulm dentist.

CREDIT MEN TAKE OUTING.

Memphis, June 15.—Delegates to the convention of the National Association of Credit Men, went to Menasha, Ark., today, for an outing. A business session was also held at the Menasha club house.

ACRIMONY DEVELOPS AMONG CONFEDERATES

Southern Veteran Refuses to Sit With Federal Officer.

Louisville, June 15.—The old soldiers were present in goodly numbers at the Horse Show building this morning when the Confederate Veterans' reunion was called to order by the commander-in-chief, Gen. Lee. There was considerable discussion among delegates, in the hall, as to the meeting for next year's reunion, but sentiment seemed to favor New Orleans.

A personal and remarkable reunion of the Blue and Gray took place when a general of the Confederacy and a general of the Union army met after more than forty years and embraced each other in the joy of fellowship. It was one of the most touching incidents of the reunion.

The first business of the convention today was the reading of the report of the committee on credentials. There was no contests. The report of the history committee was then submitted by Gen. Evans of Georgia. The object of the committee is to secure accurate history which is to be incorporated in the text books in Southern schools.

The report recommends that each state establish a department of archives and history. The reading of the report caused great enthusiasm. An amendment by Member Davenport of Americus, Ga., that the future histories show that Jefferson Davis was cruelly treated and unnecessarily shackled was accepted and the report adopted.

A call of the resolutions committee developed the presence of a federal officer on that important body. His name is Col. S. C. Russell and he is accredited to the Indian Territory. Comrade B. B. Haddock of Fort Worth declined to sit in the same room with Col. Russel and in response to a chorus of "Take him off!" "Take him off!" the name of Capt. J. J. Kendall was substituted. Gen. Lee, however, took occasion to pay a compliment to Col. Russell and said he had some time ago written a splendid tribute to the Southern soldier.

A telegram from the Grand Army post at Madison, Ind., was read and received a moderate cheer.

A PRINCE OF SWEDEN MARRIES A PRINCESS OF GREAT BRITAIN

Crown Prince's Son Weds Duke of Connaught's Daughter.

The Brilliant Ceremony Occurs at Historic Town of Windsor.

Arrangements Made Under Personal Direction of King Edward.

Windsor, Eng., June 15.—Windsor, the scene of many historic events, particularly during the reign of the late Queen Victoria, was in holiday attire today for the wedding of Princess Margaret of Connaught, eldest daughter of the duke of Connaught, to Prince Gustavus Adolphus, eldest son of Crown Prince Gustavus of Sweden, all the arrangements for which were made under the personal direction of King Edward. Throughout the morning a procession of royal trains proceeded from London to Windsor carrying representatives of most of the royal families of Europe, and forming one of the most imposing gatherings since the king's coronation. Magnificent summer weather greeted the young couple and showed the pretty town of Windsor at its best. The scene in St. George's chapel, which was not decorated with the exception of scattered flowers, was exceedingly brilliant, being a blaze of uniforms and decorations and brilliant ladies in full court dress, with coronets or tiaras, and wearing many jewels. Shortly after the guests were seated, the bridegroom made his appearance, accompanied by his supporters, Princes Eugene and William of Sweden, with the gentlemen in attendance.

The bridegroom was followed by the royal party, including King Edward, Queen Alexandra, Princess Victoria, the crown prince and crown princess of Sweden, the duchess of Connaught, the prince of Wales, the landgrave of Hesse, the grand duke and grand duchess of Baden, and the khedive of Egypt, all accompanied by brilliant suites. As Elgar's imperial march was played on the organ, the bride, on the arm of her father, passed from the castle to the chapel. She was met at the entrance by the lord chamberlain and the bridesmaids, Princess Patricia of Connaught, her sister; Princess Victoria of Battenburg, Princess Mary of Wales, and Princess Beatrice of Saxe-Coburg. The bridal party passed up the aisle, preceded by the choir, singing, "When the God of Old," to the chancel, where a quarter of a century ago the bride's mother and father went through the same ceremony. The archbishop of Canterbury, assisted by the bishop of Oxford and others, read the simple service of the Church of England.

After the ceremony the members of the royal family returned to the castle, where luncheon was served.

The wedding dress was a cloud of pure white Irish lace, posed over white satin and strews with garlands of orange blossoms. The corsage was cut low and there was the regulation court train. The bride carried a simple bouquet, consisting of a sheath of madonna lilies, tied with white satin.

After the ceremony the members of the royal families returned to the castle, where luncheon was served. The wedding cake, which formed the centerpiece of the table, was five feet in height, consisting of three tiers, the lower tier being three feet in diameter.

PRINCE GUSTAVUS ADOLPHUS OF SWEDEN AND HIS BRIDE, PRINCESS MARGARET OF CONNAUGHT.

Christiania, June 15.—Flags are flying today from all the public and many other buildings in Christiania in honor of the wedding at Windsor of Prince Gustavus Adolphus to Princess Margaret of Connaught. The Storthing has decided to send its congratulations to King Oscar and the bridal couple addressing King Oscar as King of Sweden and Prince Gustavus Adolphus as Prince of Sweden.

CONSECRATION

Of Bishop-Elect Schinner on July 25.

Milwaukee, Wis., June 15.—Vicar General Schinner has definitely decided upon July 25 as the date of his consecration as bishop of the new diocese of Superior.

THE ACTION OF BUILDING TRADES SENT BROADCAST.

Chicago, June 15.—Thousands of circulars have been sent out to architects, builders and labor union members generally, containing information that the Associated Building Trades of Chicago and Cook county have withdrawn their moral and financial support from the teamsters. The circulars which are issued officially by the building trades, charge that the members of the safe and machinery movers and riggers union, which was organized about two years ago and is made up of teamsters has been performing work which rightfully belonged to the members of the various trades affiliated with the building trades. It is charged that the safe and machinery movers and riggers are working under the scale of wages adopted by their various unions, and that the building trades cannot, under the circumstances, recognize them as union men. The building workers number 40,000 men.

LA CROSSE MAN DIES ON HIS WIFE'S GRAVE.

La Crosse, Wis., June 15.—Herman G. Burand, aged 63 years, whose wife and five children died suddenly a short time ago, has shot himself and has been found dying on the graves of his dead. Despondency due to the loss of his family, was the cause of the suicide. When found, Burand refused to be removed from his wife's grave and finaly expired, reclining upon the grave.

AUTOIST KILLED BY RUNNING INTO FENCE.

Lynn, Mass., June 15.—William Butler Woodbridge, a prominent Boston business man, was killed in an automobile accident in Saugus, early today, and a man named Wolf of New York was seriously injured. A. C. Childs and W. E. Taylor of Boston, were shaken up but not seriously hurt. The accident was caused by the party mistaking a road in the dark and running into a barbed wire fence.

HANRAHAN WILL TRY TO SETTLE THE STRIKE

Grand Master of Locomotive Firemen Calls on Mayor Dunne.

Chicago, June 15.—While apparently there was no surface change in the strike today, a powerful agent for peace was at work. Grand Master Hanrahan of the Brotherhood of Locomotive Firemen arrived today and after a conference with Mayor Dunne announced that he would use his good offices to settle the strike. Some of the strike leaders who take kindly to Mr. Hanrahan think that he has had an intimation from high railroad officials that it is an importune moment for the effort. A possible indication that something in the nature of an understanding exists, developed today when W. P. Rend, a team owner, said he would deliver goods to the strike-bound houses with non-union men, and that his union drivers would neither strike nor be locked out. Chairman John V. Farewell of the Employers' association declined to consider a tentative strike settlement proposition, presented to him today by the state board of arbitration.

John C. Driscoll, who continued before the grand jury today, told his story of alleged corrupt practices by labor leaders was kept under surveillance all night by a detective from the state's attorney's office. One of the reasons given was to protect Driscoll from personal violence. Another reason was to prevent Driscoll from being influenced to leave Chicago. It is reported that Driscoll arranged to go away as soon as the jurors are through with him. If he does, it is probable he will have to supply a heavy bond for his appearance when wanted. Should indictments be voted as the result of Driscoll's exposures he may be named as a co-defendant, so that his presence at the trials as the star witness will be doubly insured.

A large number of the retail grocers of the city have addressed a communication to Mayor Dunne, in which they demand the revocation of the licenses of team owners who decline to make deliveries to boycotted houses.

The attention of the mayor is called by the retail grocers to sections of the municipal code which rendered discriminations as at present practiced by the team owners a misdemeanor. If the mayor acts as requested by the retail grocers the team owners will be forced to take the chances of a strike, or lose their licenses.

A special meeting of the team owners will be called as soon as Mayor Dunne announces what course he will pursue in complying with the demands of the grocers.

"ATTACK" MADE ON FORT MONROE

Fort Monroe, Va., June 15.—The first attack in force on Fort Monroe took place this morning at 7 o'clock. Eight of the biggest ships of Admiral Dickin's fleet formed an arc of a circle between Cape Henry and Cape Charles. All of them headed for the fort and advanced at slow speed. The first gun was fired at 7:10 and for a half hour a long range bombardment continued. The ships did not come closer than Bug Light which is ten miles from the fort. The fleet consisted of the Texas and Hartford, four of the monitors and two smaller ships. The monitor Purltan was recognized in the fleet, indicating that she had succeeded in getting off the mud at Point Lookout, where she was fast yesterday. After a half hour of firing during which the ships were advancing, they turned in a broad circle and proceeded back from their starting point and were soon out of view. The demonstration is taken to comply with that part of the exercises requiring a "run by" in daylight to develop the capacity and accuracy of the range finding and big guns and mortar fire of the batteries.

RUSSIA AND JAPAN UNITE IN SELECTING WASHINGTON AS PLACE TO DISCUSS PEACE

Upon Their Request President Notifies Each of Selection.

Conference May Adjourn to Summer Resort If Weather Is Hot.

Pressure Brought on Japan to Make Cash Indemnity Small.

Washington, June 15.—Official announcement is made that Washignton has been selected as the location of the peace conference.

The announcement came in the form of an official statement, issued by Secretary Loeb, by direction of the president. The statement follows:

When the two governments were unable to agree upon either Chinese soil or Paris, the president suggested The Hague, but both governments have requested that Washington be chosen as the place of meeting, and the president has accordingly formally notified both governments that Washington will be so selected.

It is suggested at the White House informally that after meeting and organizing, the plenipotentiaries of the two governments, if it should be found to be uncomfortably hot in Washington, might adjourn the meeting to some summer resort in the North, where they may continue their sittings until such time as the weather in Washington shall be more comfortable.

Washington, June 15.—Pressure is being brought to bear upon Japan to induce her to fix the sum she will demand as an indemnity for the pending war at as low a figure in cash as is possible in the circumstances. This pressure is being exerted especially by European governments, but President Roosevelt, it is intimated in an important quarter, also has advised the Japanese government that moderation in her demand for a cash indemnity not only would facilitate the negotiation of peace terms, but would be regarded by the powers with particular favor. The payment by Russia of any such cash indemnity as $1,000,000,000 not only would embarrass seriously the St. Petersburg government, but probably would disturb the finances of the entire Western world. Indeed, it has been suggested that such a payment, to all intents and purposes, might render Russia a practical bankrupt. The opinions and views of the United States and other powers on this subject have been permitted to reach the principal advisers of the Japanese emperor.

Such discussion of the question of cash indemnity as has occurred, has been merely suggestive of conditions likely to be encountered by Japan when she shall formulate her peace terms. Thus far the Japanese government has refrained from indicating the precise form of her terms, as it is not her purpose, naturally, to forearm the shrewd and powerful antagonist which she is to meet on the field of diplomacy.

During the past ten days President Roosevelt has had conferences with Baron Kaneko, the Japanese financial agent in the United States. Baron Kaneko is one of the most eminent of Oriental financiers. Both in this country and in Europe, since the war began; he has been of inestimable service to his emperor in the negotiation of loans and in watching all of the financial phases of the conflict. In him Japan imposes explicit confidence in all matters pertaining to the fiscal policy of the empire. He is competent to speak by authority on all subjects relating to Japan's finances. For this reason he was consulted by the president. His conference with the president at the White House yesterday, there is reason to believe concerned the subject of Japan's cash demands upon Russia. Such advice as he might give to his government as to the cash indemnity undoubtedly would receive the deepest consideration and, very likely, might be followed.

No decision yet has been reached as to the place of holding the peace conference. The impression is growing that Washington is likely to be the city finally selected. Although both The Hague and Geneva are under consideration. There is reason to believe that President Roosevelt, while he might favor Washington for sentimental reasons would prefer that the conference be held elsewhere. It is expected, however, that the Russian and Japanese governments will determine the place of meeting themselves, without outside assistance, although suggestions from time to time may be offered either by the United States or by any other power on friendly terms with either Russia or Japan. It is known that one diplomatic representative at this capital has pressed upon both Count Cassini and Minister Takahira the desirability of The Hague.

The time of the conference, while not so important as the place, is of concern, especially to diplomatists. A midsummer conference anywhere is not regarded with entirely pleasurable anticipations. It is pointed out, however, that the proposed conference is scarcely likely to be convened before the middle of August and perhaps not until a later date. It may be July 1, possibly a little later, before the arrangements for the meeting of the plenipotentiaries finally are completed. Both Russia and Japan are moving with the utmost deliberation, the game of diplomacy now being played is of greater importance to each government than the movements of the armies on the battlefield. After the completion of the preliminary arrangements, the plenipotentiaries must proceed to the place agreed upon for the conference. Should Washington or some European capital have been selected, it will require at least a month for the negotiators of the two governments, with their respective staffs to come together, the distance from Japan, particularly, being so great that a shorter time scarcely could be allowed. In view, therefore, of all the conditions and including in the equation the factor of unforeseen delays over matters of minor consequence, it seems quite unlikely that the conference will assemble formally before the middle of August or the first of September.

VERY REASONABLE TERMS

Concerning Indemnity Are Expected From Japan.

Vienna, June 15.—The opinion prevailing here is that the peace negotiations between Russia and Japan will eventually prove successful. This is based primarily on the belief that Japan will meet Russia more than half way, making unexpectedly reasonable demands. Certain intimations have been received here that Japan's terms are substantially as follows:

First—The recognition of the Japanese protectorate over Korea.

Second—The return of Manchuria to China.

Third—International control of the Eastern Chinese railroads.

Fourth—Regarding Port Arthur, the strategical value of this fortess has been over estimated and it is said that its ultimate disposal will not give rise to any controversy.

Fifth—It is not thought that Japan will demand the demolition of the fortifications at Vladivostok.

Sixth—The surrender of the island of Sakhalin will not be demanded by Japan principally because Japan has not yet carried the war into Russian territory.

Seventh—An understanding regarding an indemnity is not impossible because it is declared Japan will content herself with demanding the cost of the war.

The Japanese minister here in an interview said that if Russia honestly desired peace she could have it.

EFFORTS REDOUBLED

To Secure a Zemsky Sober For the People.

St. Petersburg, June 15.—The liberal newspapers are taking the decision of the government to make peace, if terms possible of acceptance are offered, as a surrender and are following up their advantage by redoubling their demands for a representative assembly arguing that the bureaucracy which has proven its incompetency to make war successfully, is equally incapable of concluding a creditable peace. The Russ now the leader of the constitutionalist papers declares that the government without the peoples' support is impotent to continue the war and will be compelled to accept any terms. Only a national assembly it insists can now save the situation because only with the sanction of the people can exorbitant conditions be successfully resisted. The Russ adds: "The mere mention of peace has aroused the people who profoundly distrust the governments ability to cope with the problem by mail and telegraph. The committee of ministers is flooded with petitions for the assembling of a zemsky sober to pass upon the peace terms. All decent classes of society are unanimously of the opinion that the present regime is done for and that we must begin the history of a new Russia—Russia of the people."

Even the reactionary Sviet is carried off its feet by the tide and joins in the chorus, asking for a zemsky sober.

The Sviet, however, does not ask for a zemsky sober in order to make peace but to secure the support of the people to continue the war.

IMPORTANT CALL

Made By Japanese Minister on the President.

Washington, June 15.—Minister Takahira of Japan called at the White House at 10:45 o'clock this morning and was shown directly into the office of the president.

Mr. Takahira's visit lasted one hour and twenty-five minutes. He declined to divulge any of the details of his talk with the president. The conference was held during the busiest part of the executive day, and everything else was in abeyance during that time. Naturally it is to be presumed that it was of rather more than usual importance. Mr. Takahira, on leaving the White House, when asked whether a decision had been reached as to the location of the peace conference, said: "Oh, no. It is a long journey," meaning probably that it might take considerable time to determine the matter.

PROBABLY FELL FROM TRAIN.

Chicago, June 15.—Anton Ringis of Sheboygan, Wis., was found dead today on the Chicago & Northwestern railroad at Evanston, Ill. A number of bruises were on the body. It is believed that the man accidentally fell from a train while on his way to his home.

MINNESOTA HISTORICAL SOCIETY

MAYOR WEAVER DEALS ANOTHER BODY BLOW TO THE REPUBLICAN RING

Bill Repealing Ordinance on Franchise to Be Passed.

Measure Granting the Franchise Passed Over Mayor's Veto.

Mayor's Repeal Bill Received Support of All Citizens.

Philadelphia, June 15.—Another blow was dealt at the Republican organization today, when the street railways committee of councils referred back to that body the bills repealing the ordinances granting to the Philadelphia Rapid Transit company franchises for 110 miles of streets, without payment to the city. The ordinances granting the franchises were passed over Mayor Weaver's veto, and at his instigation the repealers were introduced.

The company made the claim that the passage of the first bills gave the corporation the right to the streets, and that the ordinances could not be legally repealed. A stormy meeting of the street railway committee was held Tuesday last, and addresses favoring the repealers were made by clergymen and citizens, who protested vigorously against giving away valuable franchises. The committee was unable to decide the legality of the repealing ordinances, and referred them to City Solicitor Kinsey. His opinion was to the effect that councils had full power to take back what they had given, and that the ordinances were entirely legal.

The city solicitor's opinion was read at today's meeting of the committee, and without argument the ordinances were unanimously sent back to councils, with the recommendation that they be passed. Both branches of councils met later in the day, and the bills were received. Under the rules of councils, an ordinance cannot be passed on the same day on which it is received from committee, consequently final action could not be taken at today's meeting.

The outcome of the attempt to bestow the franchises is regarded as a victory for Mayor Weaver, whose wishes in the matter were opposed by the organization leaders.

RUSSIA AND JAPAN UNITE IN SELECTING WASHINGTON AS PLACE TO DISCUSS PEACE

Upon Their Request President Notifies Each of Selection.

Conference May Adjourn to Summer Resort If Weather Is Hot.

Pressure Brought on Japan to Make Cash Indemnity Small.

Washington, June 15.—Official announcement is made that Washington has been selected as the location of the peace conference.

The announcement came in the form of an official statement, issued by Secretary Loeb, by direction of the president. The statement follows:

When the two governments were unable to agree upon either Chinese soil or Paris, the president suggested The Hague, but both governments have requested that Washington be chosen as the place of meeting, and the president has accordingly formally notified both governments that Washington will be so selected.

It is suggested at the White House informally that after meeting and organizing, the plenipotentiaries of the two governments, if it should be found to be uncomfortably hot in Washington, might adjourn the meeting to some summer resort in the North, where they may continue their sittings until such time as the weather in Washington shall be more comfortable.

Washington, June 15.—Pressure is being brought to bear upon Japan to induce her to fix the sum she will demand as an indemnity for the pending war at as low a figure in cash as is possible in the circumstances. This pressure is being exerted especially by European governments, but President Roosevelt, it is intimated in an important quarter, also has advised the Japanese government that moderation in her demand for a cash indemnity not only would facilitate the negotiation of peace terms, but would be regarded by the powers with particular favor. The payment by Russia of any such cash indemnity as $1,000,000,000 not only would embarrass seriously the St. Petersburg government, but probably would disturb the finances of the entire Western world. Indeed, it has been suggested that such a payment, to all intents and purposes, might render Russia a practical bankrupt. The opinions and views of the United States and other powers on this subject have been permitted to reach the principal advisers of the Japanese emperor.

Such discussion of the question of cash indemnity as has occurred, has been merely suggestive of conditions likely to be encountered by Japan when she shall formulate her peace terms. Thus far the Japanese government has refrained from indicating the precise form of her terms, as it is not her purpose, naturally, to forearm the shrewd and powerful antagonist which she is to meet on the field of diplomacy.

During the past ten days President Roosevelt has had conferences with Baron Kaneko, the Japanese financial agent in the United States. Baron Kaneko is one of the most eminent of Oriental financiers. Both in this country and in Europe, since the war began, he has been of inestimable service to his emperor in the negotiation of loans and in watching all of the financial phases of the conflict. In him Japan imposes explicit confidence in all matters pertaining to the fiscal policy of the empire. He is competent to speak by authority on all subjects relating to Japan's finances. VERY REASONABLE TERMS

Concerning Indemnity Are Expected From Japan.

Vienna, June 15.—The opinion prevailing here is that the peace negotiations between Russia and Japan will eventually prove successful. This is based primarily on the belief that Japan will meet Russia more than half way, making unexpectedly reasonable demands. Certain intimations have been received here that Japan's terms are substantially as follows:

First—The recognition of the Japanese protectorate over Korea.

Second—The return of Manchuria to China.

Third—International control of the Eastern Chinese railroads.

Fourth—Regarding Port Arthur, the strategical value of this fortess has been over estimated and it is said that its ultimate disposal will not give rise to any controversy.

Fifth—It is not thought that Japan will demand the demolition of the fortifications at Vladivostok.

Sixth—The surrender of the island of Sakhalin will not be demanded by Japan principally because Japan has not yet carried the war into Russian territory.

Seventh—An understanding regarding an indemnity is not impossible because it is declared Japan will content herself with demanding the cost of the war.

The Japanese minister here in an interview said that if Russia honestly desired peace she could have it.

EFFORTS REDOUBLED

To Secure a Zemsky Sober For the People.

St. Petersburg, June 15.—The liberal newspapers are taking the decision of the government to make peace, if terms possible of acceptance are offered, as a surrender and are following up their advantage by redoubling their demands for a representative assembly arguing that the bureaucracy which has proven its incompetency to make war successfully, is equally incapable of concluding a creditable peace. The Russ now the leader of the constitutionalist papers declares that the government without the peoples' support is impotent to continue the war and will be compelled to accept any terms. Only a national assembly it insists can now save the situation because only with the sanction of the people can exorbitant conditions be successfully resisted. The Russ adds: "The mere mention of peace has aroused the people who profoundly distrust the governments ability to cope with the problem by mail and telegraph. The committee of ministers is flooded with petitions for the assembling of a zemsky sober to pass upon the peace terms. All decent classes of society are unanimously of the opinion that the present regime is done for and that we must begin the history of a new Russia—Russia of the people."

Even the reactionary Sviet is carried off its feet by the tide and joins in the chorus, asking for a zemsky sober.

The Sviet, however, does not ask for a zemsky sober in order to make peace but to secure the support of the people to continue the war.

IMPORTANT CALL

Made By Japanese Minister on the President.

Washington, June 15.—Minister Takahira of Japan called at the White House at 10:45 o'clock this morning and was shown directly into the office of the president.

Mr. Takahira's visit lasted one hour and twenty-five minutes. He declined to divulge any of the details of his talk with the president. The conference was held during the busiest part of the executive day, and everything else was in abeyance during that time. Naturally it is to be presumed that it was of rather more than usual importance. Mr. Takahira, on leaving the White House, when asked whether a decision had been reached as to the location of the peace conference, said: "Oh, no. It is a long journey," meaning probably that it might take considerable time to determine the matter.

PROBABLY FELL FROM TRAIN.

Chicago, June 15.—Anton Ringis of Sheboygan, Wis., was found dead today on the Chicago & Northwestern railroad at Evanston, Ill. A number of bruises were on the body. It is believed that the man accidentally fell from a train while on his way to his home.

A PRINCE OF SWEDEN MARRIES A PRINCESS OF GREAT BRITAIN

Crown Prince's Son Weds Duke of Connaught's Daughter.

The Brilliant Ceremony Occurs at Historic Town of Windsor.

Arrangements Made Under Personal Direction of King Edward.

Windsor, Eng., June 15.—Windsor, the scene of many historic events, particularly during the reign of the late Queen Victoria, was in holiday attire today for the wedding of Princess Margaret of Connaught, eldest daughter of the duke of Connaught, to Prince Gustavus Adolphus, eldest son of Crown Prince Gustavus of Sweden, all the arrangements for which were made under the personal direction of King Edward. Throughout the morning a procession of royal trains proceeded from London to Windsor carrying representatives of most of the royal families of Europe, and forming one of the most imposing gatherings since the king's coronation. Magnificent summer weather greeted the young couple and showed the pretty town of Windsor at its best. The scene in St. George's chapel, which was not decorated with the exception of scattered flowers, was exceedingly brilliant, being a blaze of uniforms and decorations and brilliant ladies in full court dress, with coronets or tiaras, and wearing many jewels. Shortly after the guests were seated, the bridegroom made his appearance, accompanied by his supporters, Princes Eugene and William of Sweden, with the gentlemen in attendance.

The bridegroom was followed by the royal party, including King Edward, Queen Alexandra, Princess Victoria, the crown prince and crown princess of Sweden, the duchess of Connaught, the prince of Wales, the landgrave of Hesse, the grand duke and grand duchess of Baden, and the khedive of Egypt, all accompanied by brilliant suites. As Elgar's imperial march was played on the organ, the bride, on the arm of her father, passed from the castle to the chapel. She was met at the entrance by the lord chamberlain and the bridesmaids, Princess Patricia of Connaught, her sister; Princess Victoria of Battenburg, Princess Mary of Wales, and Princess Beatrice of Saxe-Coburg. The bridal party passed up the aisle, preceded by the choir, singing, "When the God of Old," to the chancel, where a quarter of a century ago the bride's mother and father went through the same ceremony. The archbishop of Canterbury, assisted by the bishop of Oxford and others, read the simple service of the Church of England.

After the ceremony the members of the royal family returned to the castle, where luncheon was served.

The wedding dress was a cloud of pure white Irish lace, posed over white satin and strewn with garlands of orange blossoms. The corsage was cut low and there was the regulation court train. The bride carried a simple bouquet, consisting of a sheath of madonna lilies, tied with white satin.

PRINCE GUSTAVUS ADOLPHUS OF SWEDEN AND HIS BRIDE, PRINCESS MARGARET OF CONNAUGHT.

After the ceremony the members of the royal families returned to the castle, where luncheon was served. The wedding cake, which formed the centerpiece of the table, was five feet in height, consisting of three tiers, the lower tier being three feet in diameter.

Christiania, June 15.—Flags are flying today from all the public and many other buildings in Christiania in honor of the wedding at Windsor of Prince Gustavus Adolphus to Princess Margaret of Connaught. The Storthing has decided to send its congratulations to King Oscar and the bridal couple addressing King Oscar as King of Sweden and Prince Gustavus Adolphus as Prince of Sweden.

"BENEVOLENT CORPORATION" ASKS MONOPOLY OF SALOONS

Los Angeles, June 15.—Initiative operations will be placed in circulation within the next ten days asking the council to adopt an ordinance granting to a "benevolent corporation" the monopoly of the saloon business in Los Angeles. So say the organizers of the corporation which seeks to regulate the liquor traffic of Los Angeles along the lines that has made Gothamburg famous. Subscription lists have been in circulation for the last week, and a goodly portion of the $500,000 which will be needed to apply the Gothamburg system has already been subscribed. The main feature of the new system will include:

Reducing the number of saloons from 200 to 75. Closing all in the residence districts and replacing them with coffee clubs. Guaranteeing to the city a revenue of $186,000 a year, limiting the possible profit of the corporation to 6 per cent on the capital equally invested. Permitting the sale only of beer and light wines in saloons in the mill and manufacturing districts. Guaranteeing the expenditure of all profits above $210,000 a year in public improvements. Pleading the purchase of the fixtures of the 200 saloons now in operation at a price to be adjusted. Providing for payment of a sum to the saloon owners for the good will of their business. Drastic regulations concerning the operation of the corporation saloons.

GERMANS ARE "KNOCKERS"

Trying to Create Distrust In American Insurance Companies.

Berlin, June 15.—The policy holders in Germany of the New York Equitable Life Assurance society, want to be represented on the board of the re-organized society. This is one of the objects of the subcommittee appointed by the general committee of the association of German fire insurance companies, which includes life insurance companies and those doing both life and fire business. The principal purpose of the sub-committee appears to be to create distrust of all American insurance institutions. The German companies quickly availed themselves of the Equitable dispute to say this showed how wise the government had been to exclude most of the American companies and how justified it would be if it expelled the two companies which are still permitted to do business here. The newspapers for several weeks have been printing paragraphs and articles on the Equitable affairs and moralizing on the alleged unsound condition of American business life, contrasting German prudence with "Speculative, rickety American finance." Some of these articles originated the Equitable agents here aver, with German insurance offices. The Equitable which has taken no new policies in Prussia for six years and is only collecting premiums and liquidating claims on former contracts, has $20,000,000 in policies outstanding and investments in real estate and government bonds, amounting to about $7,500,000.

TO WED IN MINNEAPOLIS.

St. Cloud, Minn., June 15.—Miss Hilda Koch of New Ulm, Minn., will be married to Cyril L. Campbell, a young business man of St. Cloud, on Saturday afternoon at 5:30 o'clock at the West hotel in Minneapolis. Miss May Mowry of Northfield will be bridesmaid and T. S. Henry of Valley City, N. D., best man. The bride is a cousin of Dr. George R. Koch, the New Ulm dentist.

CREDIT MEN TAKE OUTING.

Memphis, June 15.—Delegates to the convention of the National Association of Credit Men, went to Menasha, Ark., today, for an outing. A business session was also held at the Menasha club house.

ACRIMONY DEVELOPS AMONG CONFEDERATES

Southern Veteran Refuses to Sit With Federal Officer.

Louisville, June 15.—The old soldiers were present in goodly numbers at the Horse Show building this morning when the Confederate Veterans' reunion was called to order by the commander-in-chief, Gen. Lee. There was considerable discussion among delegates, in the hall, as to the meeting for next year's reunion, but sentiment seemed to favor New Orleans.

A personal and remarkable reunion of the Blue and Gray took place when a general of the Confederacy and a general of the Union army met after more than forty years and embraced each other in the joy of fellowship. It was one of the most touching incidents of the reunion.

The first business of the convention today was the reading of the report of the committee on credentials. There was no contests. The report of the history committee was then submitted by Gen. Evans of Georgia. The object of the committee is to secure accurate history which is to be incorporated in the text books in Southern schools.

The report recommends that each state establish a department of archives and history. The reading of the report caused great enthusiasm. An amendment by Member Davenport of Americus, Ga., that the future histories show that Jefferson Davis was cruelly treated and unnecessarily shackled was accepted and the report adopted.

A call of the resolutions committee developed the presence of a federal officer on that important body. His name is Col. S. C. Russell and he is accredited to the Indian Territory. Comrade B. B. Haddock of Fort Worth declined to sit in the same room with Col. Russel and in response to a chorus of "Take him off!" "Take him off!" the name of Capt. J. J. Kendall was substituted. Gen. Lee, however, took occasion to pay a compliment to Col. Russell and said he had some time ago written a splendid tribute to the Southern soldier.

A telegram from the Grand Army post at Madison, Ind., was read and received a moderate cheer.

CONSECRATION

Of Bishop-Elect Schinner on July 25.

Milwaukee, Wis., June 15.—Vicar General Schinner has definitely decided upon July 25 as the date of his consecration as bishop of the new diocese of Superior.

THE ACTION OF BUILDING TRADES SENT BROADCAST.

Chicago, June 15.—Thousands of circulars have been sent out to architects, builders and labor union members generally, containing information that the Associated Building Trades of Chicago and Cook county have withdrawn their moral and financial support from the teamsters. The circulars which are issued officially by the building trades, charge that the members of the safe and machinery movers and riggers union, which was organized about two years ago and is made up of teamsters has been performing work which rightfully belonged to the members of the various trades affiliated with the building trades. It is charged that the safe and machinery movers and riggers are working under the scale of wages adopted by their various unions, and that the building trades cannot, under the circumstances, recognize them as union men. The building workers number 40,000 men.

LA CROSSE MAN DIES ON HIS WIFE'S GRAVE.

La Crosse, Wis., June 15.—Herman G. Burand, aged 63 years, whose wife and five children died suddenly a short time ago, has shot himself and has been found dying on the graves of his dead. Despondency due to the loss of his family, was the cause of the suicide. When found, Burand refused to be removed from his wife's grave and finaly expired, reclining upon the grave.

AUTOIST KILLED BY RUNNING INTO FENCE.

Lynn, Mass., June 15.—William Butler Woodbridge, a prominent Boston business man, was killed in an automobile accident in Saugus, early today, and a man named Wolf of New York was seriously injured. A. C. Childs and W. E. Taylor of Boston, were shaken up but not seriously hurt. The accident was caused by the party mistaking a road in the dark and running into a barbed wire fence.

HANRAHAN WILL TRY TO SETTLE THE STRIKE

Grand Master of Locomotive Firemen Calls on Mayor Dunne.

Chicago, June 15.—While apparently there was no surface change in the strike today, a powerful agent for peace was at work. Grand Master Hanrahan of the Brotherhood of Locomotive Firemen arrived today and after a conference with Mayor Dunne announced that he would use his good offices to settle the strike. Some of the strike leaders who take kindly to Mr. Hanrahan think that he has had an intimation from high railroad officials that it is an importune moment for the effort. A possible indication that something in the nature of an understanding exists, developed today when W. P. Rend, a team owner, said he would deliver goods to the strike-bound houses with non-union men, and that his union drivers would neither strike nor be locked out. Chairman John V. Farewell of the Employers' association declined to consider a tentative strike settlement proposition, presented to him today by the state board of arbitration.

John C. Driscoll, who continued before the grand jury today, told his story of alleged corrupt practices by labor leaders was kept under surveillance all night by a detective from the state's attorney's office. One of the reasons given was to protect Driscoll from personal violence. Another reason was to prevent Driscoll from being influenced to leave Chicago. It is reported that Driscoll arranged to go away as soon as the jurors are through with him. If he does, it is probable he will have to supply a heavy bond for his appearance when wanted. Should indictments be voted as the result of Driscoll's exposures he may be named as a co-conspirator, it is said, but not a co-defendant, so that his presence at the trials as the star witness will be doubly insured.

A large number of the retail grocers of the city have addressed a communication to Mayor Dunne, in which they demand the revocation of the licenses of team owners who decline to make deliveries to boycotted houses.

The attention of the mayor is called by the retail grocers to sections of the municipal code which rendered discriminations as at present practiced by the team owners a misdemeanor. If the mayor acts as requested by the retail grocers the team owners will be forced to take the chances of a strike, or lose their licenses.

A special meeting of the team owners will be called as soon as Mayor Dunne announces what course he will pursue in complying with the demands of the grocers.

"ATTACK" MADE ON FORT MONROE

Fort Monroe, Va., June 15.—The first attack in force on Fort Monroe took place this morning at 7 o'clock. Eight of the biggest ships of Admiral Dickin's fleet formed an arc of a circle between Cape Henry and Cape Charles. All of them headed for the fort and advanced at slow speed. The first gun was fired at 7:10 and for a half hour a long range bombardment continued. The ships did not come closer than Bug Light which is ten miles from the fort. The fleet consisted of the Texas and Hartford, four of the monitors and two smaller ships. The monitor Puritan was recognized in the fleet, indicating that she had succeeded in getting off the mud at Point Lookout, where she was fast yesterday. After a half hour of firing during which the ships were advancing, they turned in a broad circle and proceeded back from their starting point and were soon out of view. The demonstration is taken to comply with that part of the exercises requiring a "run by" in daylight to develop the capacity and accuracy of the range finding and big guns and mortar fire of the batteries.

COLORED INK

INTENTIONAL DUPLICATE EXPOSURE

DULUTH WEATHER REPORT.—Showers or thunder storms and cooler, with probably fog tonight and Friday. Fresh northwest winds.

YEA! YEA!
WELCOME F. O. E.

May your visit to the state convention be ever remembered with pleasant associations. You are invited to visit this, the largest and best appointed clothing house in the Northwest. You'll find plenty of birds to welcome you.

COULD NOT PIERCE

The Veil Drawn By Togo and Russians Succumbed.

Fire From Mikado's Fleet Came From Three Directions.

New York, June 15.—A Tokio cable to the Times says: From the first to the last Admiral Togo never wavered in the conviction that the Baltic fleet must choose the Tsushima passage on its course to Vladivostok. His argument was that no commander would attempt to take a large squadron through the northern strait in this season of fogs and at a great distance from the neutral ports, where refuge could be sought in case of damage to ships. There was also danger of mines in Tsugaru strait, whereas no such apprehension need be felt in the Tsushima passage.

Admiral Rojestvensky apparently reasoned exactly as Admiral Togo had anticipated. Though many of his officers advocated the northern passage, some strongly advocated the advisability of seizing a base in Formosa and compelling the Japanese to come thither and fight.

This question was earnestly discussed on board the flagship in Kamranh bay, where Nebogatoff arrived on May 5, receiving a tumultuous welcome from the sailors of the second squadron, who drew the most favorable omens of ultimate victory from the success attending the safe voyage of the two squadrons and their junction at a place thousands of miles from their European base.

Admiral Rojestvensky, after hearing the arguments of his officers, announced that it was his intention to enter the Pacific ocean, thereby gaining the advantage of a double adjective, and then returning to the Chine sea, via the north of Formosa, and steering direct for the Tsushima passage.

This decision was welcomed with acclamation, the officers embracing and drinking success to the plan.

Admiral Rojestvensky, having allowed nine days for the third squadrin to recuperate, steamed out of Kamranh bay on May 11 and passed Balingtang unobserved. On the night of May 17 he coaled off Nlatana, where he stopped a Norwegian steamer consigned to a Japanese firm, and informed the captain that the squadron's destination was the Tsushima passage. This was for the purpose of deceiving Admiral Togo, who would naturally infer that some other destination was intended. Admiral Rojestvensky intended to strengthen this inference by delaying progress so that his nonarrival within the China sea within a reasonable time might suggest that the Russians had really headed for the northern passage. But this device did not deceive Admiral Togo, who remained steadfast at his base, guarding the Tsushima passage.

Meanwhile, Admiral Rojestvensky had wholly failed to obtain trustworthy information of the whereabouts of Admiral Togo's fleet. This secret, which was so carefully guarded, remained unknown even to the Japanese public to the very end.

On May 25 six Russian transport auxiliary cruisers entered the Yang-tse river, which greatly perplexed the Japanese public, but was interpreted by Admiral Togo as a sure indication of Admiral Rojestvensky's presence in the China sea.

At 5:30 a. m. on May 27 Japanese scouts lying to the north of Quelpart Island reported by wireless telegraphy that the Russians were drawing up toward Tsushima, but the fog concealed the exact character of the squadron, whether it was the main fighting force or only a few weak craft, sacrificed in order to attract the attention of the Japanese to the south, while Admiral Rojestvensky himself passed by the northern avenues.

This question remained unsettled until noon, when the intense anxiety of Tokio was relieved by a telegram from Admiral Togo announcing that the whole Russian fleet was in sight.

Meanwhile Admiral Togo pursued his plan unwaveringly, keeping his principal squadrons concealed in places still secret. For the purpose of promoting the belief among the Russians that the Tsushima straits were heavily guarded and drawing them through the eastern channel, he sent out a number of second-class ships, which, though slow, carried guns sufficiently heavy to prevent the enemy from closing in. The fog helped to preserve these vessels, which, nevertheless, Admiral Togo was not unwilling to sacrifice on the altar of his main purpose.

Admiral Rojestvensky, until in the vicinity of Tsushima, kept his auxiliary cruisers in front, but immediately before entering the channel he recalled them, after which the lead was taken by the battleships Imperator Alexander III., Navarin and Kniaz Souvaroff. The wind was now freshening, and the sea, already rough, began to run very high, and the fog began to lift.

Togo signaled: "The fate of the empire depends upon this effort, and the men must do their utmost."

The Russians, still confident, held their course at a uniform speed of twelve knots, exchanging a desultory fire with the decoy squadron, which withdrew to the northeast at 1 o'clock in the afternoon. Admiral Togo then entered the arena, with his best fighting material distributed in two squadrons of six vessels each. His own squadron consisted of the four battleships and the cruisers Nisshin and Kasuga. Admiral Kamimura's squadron consisted of six armored cruisers.

Admiral Togo's squadron was steaming at the rate of fourteen knots an hour and Admiral Kamimura's at sixteen knots at 1:30 o'clock, when, the fog thinning, Admiral Rojestvensky sighted Admiral Togo's battleships in single column, line ahead, rounding the north of Tshushima island, and bearing down on the port bow. Shortly afterward he sighted Admiral Kamimura's squadron rounding the south of the island, and covering his stern on the same side, while the decoy squadron, strongly re-enforced, threatened the starboard.

The Russians immediately formed in double column, lineahead, and bearing down on the port bow. The east cloumn was led by the Imeprator Alexander III. and the west was composed of cruisers, while the auxiliaries were between the columns in the rear.

The sea was now very rough, with a strong southwest wind blowing, so that the Japanese not only had the benefit of the sun at their backs, but were also assisted by the heavy smoke which poured down upon the Russians.

The heavy seas, too, were eminently in favor of the Japanese gunners, who habotually practice in heovy, stormy weather, with the resul that their aim is not disturbed by the unsteadiness of the gun platforms. Further, they were able to take advantage of the exposure of the enemy's vital parts, occasioned by the rolling and tossing of the ships.

The Russians opened fire at 12,000 meters, almost seven and a half miles, but it was wholly ineffective. The Japanese reserved their fire until the range was 7,500 meters, somewhat over four miles, when they fired six trial shots and scored three hits.

The battle now became general. The Russians perpetually essayed to force their way northward, but the Japanese, steaming at a higher speed, constantly headed them back, so that the Russian course described a loop, the ships filing past the Japanese, who poured in a deadly fire from three direcitons.

Admiral Rojestvensky's gunners maintained a much higher rate of fire than the enemy, but the projectiles nearly always flew high or buried themselves in the seas, evidently owing to the gunners' want of experience in laying their guns in rough weather.

Before evening five of the Russian warships had been sunk, including three battleships, which apparently lost their stability owing to the piercing of their watertight compartments on one side only, and the action of fore and aft bulkheads. Meanwhile the Russian formation had been broken, but the ships were still confined to the southeast corner of the Sea of Japan.

Thus far Admiral Togo's strategy had worked perfectly, but a most important part of his plan remained, namely, the loosing of his torpedo boats upon the Russians during the night, when they were partially disabled and confused. There were great fears at one time that the water was too rough for torpedo boats. However, toward evening the wind and waves subsided. The night became quiet and the starlight was exceedingly suited to the work of torpedo boats, which rushed in from three directions, reserving their missiles until within 30 meters (about 325 yards at most, and making practice so deadly it redeemed all previous failures.

The Japanese deay the use of submarines, and the conditions of the battle were obviously unsuited for them.

Meanwhile, the Japanese fighting squadron had dropped off to the north, leaving the field free for the torpedo craft. By midnight only nine of the Russian ships retained their formation under Admiral Nebogatoff.

These struggled northward, the torpedo boats clinging to their flanks and constantly stabbing, so that dawn found only five remaining, the Orel, the Nikolai I., two coast defense ships and the Izumrud.

Having lost their bearings owing to the complicated maneuvers, Admiral Nebogatoff decided to steer to the westward until he had picked up some feature of the Korean coast which he could identify.

Presently the Izmrud, which was scouting, reported that she sighted the Laincourt islands, whereupon the Russians, recovering heart, shaped their course toward Vladivostok. Almost immediately, however, they observed two squadrons of Japanese vessels approaching at full speed ahead, and recognized the flags of Togo and Dewa. The Izumrud steamed off at full speed, but Nebogatoff's ships, incumbered with wounded, with half their guns out of action, and with ammunition lacking, decided to haul down their colors.

Other still floating fragments of the Russian fleet were pursued and destroyed by the Japanese, who had been organized by the Japanese, who had been organized with a view to this contingency into groups of homogeneous ships.

The battle shows no novel feature. The Russians fought with devoted valor, but were outclassed at every point. Their shooting was incomparably inferior to the Japanese, who scored an extraordinary number of hits with their 12-inch guns. The Japanese projectiles were also much more effective than the Russians.

Nothing was more notable than the Japanese skill in using torpedoes, contrasting markedly with previous ill success, and evidently resulting from a special course of training recently pursued and from the teachings of experience.

French & Bassett
DULUTH, MINN.
Reliable Piano Dealers.

The Instruments of Seventeen Leading Makers

Will be found here. Among them are:

Hardman, Vose & Sons, Behr Bros., Behning, Blasius & Sons, Estey, Cable, Nelson, Crown, Kohler & Campbell Bush & Lane, Weber.

Our One-Price System

Has made hundreds of new friends and has cemented the old friendships more closely. It has eliminated all "dickering" from piano buying and has made our prices so far below competitors that there is no argument left. To see our pianos and their prices is to fully realize that fact. Under this system all instruments are marked in plain figures at their lowest possible cash price, which is from $25 to $100 less—grade for grade—than the lowest price that can be obtained in the usual piano store. If you wish to purchase on monthly payments you may do so at the cash price on most liberal terms and we charge you but **5 Per Cent Interest** per annum on deferred payments.

This is the only piano store in Duluth that is owned and controlled by Duluth men and not tributary to outside ownership, dictation or management.

Our Handsome New Pianos at $185 and $195

Are the most remarkable values ever offered and we ask an opportunity to demonstrate them to you, and we say frankly and with full knowledge, compare them with the $300 and $325 instruments offered in other stores and then tell us what you think of French & Bassett's One-Price System as a low price maker.

These Pianos are standard and reliable makes, with artistic and musical tone and all the latest improvements, finest ivory keys, best quality of heavy felt hammers, copper wound bass strings, beautifully regulated and very responsive action. The cases are of genuine mahogany, walnut or quartered oak with finest polish finish. The inside is lined with white birds-eye maple and they are surmounted with the Grand Lid which imparts an air of elegance not found in the ordinary Piano.

The cases are Colonial and Semi-Colonial designs, and are of medium size.

TERMS—$10 cash and payments of $6 a month with but **FIVE PER CENT** interest on deferred payments.

We cordially invite you to visit our Piano Store.

Expert Tuning and Repairing.

HAPPENINGS IN DAKOTAS

Canadian Fined $600 For Smuggling Wheat Over Border.

NORTH DAKOTA.

Fargo—James W. Harris, a Canadian, was fined $600 for smuggling wheat across the international boundary line. He was indicted on ten counts and conviction was secured on six. Judge Amidon imposed the fine. Harris fought the case bitterly and it developed in the trial that while he seemd to defy the American customs officials, he had a wholesome respect for those on the Canadian side, and never attempted to smuggle anything on his return trips to Canada.

Williston—Herman Wandrey of Detroit, Mich., was shot and killed by City Marshal Markell. Wandry was stealing a ride on an eastbound freight and refused to leave the train at Colbertson when ordered by the train crew, at the same time pulling a gun he carried his belt.

Conductor Saulsbury locked the car and wired Williston for officers to meet the train and arrest Wandrey. When the train reached this place Markell ordered Wandrey to surrender, but he refused and tried to draw his gun. Markell then shot him in the head and he died a few hours later. He was dressed as a cowboy and seemed trying to be a "bad man."

Grand Forks—Miss Helen N. Hamilton, daughter of Major J. G. Hamilton, has the distinction of being the first woman to be admitted as an attorney in this state. Miss Hamilton is among the graduates from the college of law department of the university of North Dakota, who received diplomas today, having passed the bar examination insisted on by the supreme court. Heretofore, the issuance of diplomas by the school has carried with it admission to the bar, without an examination. Under a new law enacted at the last session of the legislature, the students are required to take the state examination, and the efficiency of the school is shown by the fact that each of the twenty-five who took the examination passed.

Miss Hamilton has been deputy federal court clerk for eight years, and has charge of the court work in this city. She will leave in a few weeks for a stay of several months abroad and will continue in the law office of Tracy R. Bangs upon her return.

SOUTH DAKOTA.

Miller—Three covered wagons from Minnesota, drawn by nine milch cows, passed through here for the country west of the Missouri river. In addition to making fifteen mils a day with their loads the cows furnish milk for the movers.

The Hand County State bank has increased its paid-up stock to $25,000 and elected Ira Cree president and E. F. Waite cashier.

New telephone lines are being pushed nearly twenty miles northeast and southwest by the Waite & Halbower company. It is reported that the Dakota Central company will extend to Gunn Valley.

Aberdeen—The state court of the Catholic Order of Foresters completed its work last evening by the election of the following officers:

Chief ranger, John B. Hanten, Watertown; vice chief ranger, W. H. Kearney, Aberdeen; secretary, Patrick Walsh, Henry; chaplain, Rev. J. O'Hara, Parker; trustees, Thomas Fitzgerald, Howard; A. J. Roth, Webster, and F. A. Kantokske, Pierre; inside sentinel, J. A. Reis, Kranzburg; outside sentinel, J. Wagner, Lesterville; delegate to international court, John H. Conley, Watertown. Howard will be the next meeting place.

Mitchell—J. R. Franklin, who was arrested three weeks ago in Idaho on the charge of embezzlement and brought back to Mitchell for trial, decided not to wait until the next term of circuit court, in November, to stand trial. He expressed a desire to plead guilty and take his sentence at once and have the five months which will elapse until November apply on his sentence. Judge Smith called a special term of court this morning and Franklin entered his plea and received a sentence of one year in the penitentiary.

A company of twenty men have saved the driving park grounds from being platted into city lots. An option was held on the grounds for $4,000, with the intent of turning them into residence lots because horse racing has not paid a very large percentage in this city in past years. There was no other location for a race course, and a company of business men bought the property and will have it restored to its former good condition.

Huron—Many cattle owners are protesting strongly against the enforcement of the order of the state board of health directing all cattle to be dipped. The county commissioners passed a resolution asking the state board to modify the order so as not to include cattle known to be free from scab.

Beresford—John Dwyer is serving a thirty-day sentence in jail for wife-beating. Citizens are talking of reviving the whipping-post if the offense is repeated.

Aberdeen—Postmaster H. S. Williams has received word that two rural mail routes will be put on from Aberdeen on August 15. On each route the mail will be delivered only every other day. Route No. 2 will cover an area of forty-two square miles and will accomodate 370 persons. Route No. 3 is the same size and will accommodate 250.

ARCHITECT WINS FROM GOULD.

New York, June 15.—A verdict for Abner J. Haydel, an architect, to recover $25,182.75 from Howard Gould for services in drawing plans for the Gould castle at Port Washington, L. I., was awarded by a jury in the New York state supreme court at Mineola, L. I., today. This amount represents about two and one-half per cent of the original contract price of $967,000, which it was estimated the castle Gould would cost. Haydel had sued for $50,000.

Great Big Duluth Water Sale

Commences Friday noon.

You may have known some particular store very well yesterday—and yet hardly recognize it today. New goods! Let the ads. keep you posted.

DOINGS IN MICHIGAN

Dead Body of Missing Boy Found at the Sault.

Sault Ste. Marie—The dead body of Timothy Lalonde was found in Beaver Park Wednesday. He was about 19 and had been missing since Friday. The authorities are investigating the case and it may prove to be murder. The boy drove a load of soldiers to the park Friday night, when he was last seen alive.

The water in St. Mary's river, from no apparent cause, suddenly dropped three feet Wednesday. Rocks in the river that have never been seen before, are bare. Old settlers say the water was never before so low.

Calumet—Earnest MacManiman, aged 9, was caught by a strong current in Torch lake and drowned. He was in swimming. The lake was dragged without finding his body.

St. Ignace—Reuben Baker is in the county jail at St. Ignace again, having been brought down from Hendricks township. Last winter he served a short term for having been disorderly and during his period of incarceration burned his clothes, throwing them into the stove. He is now charged with having sold a team of horses to James Nickel some four years ago, which team was not his own and by which transaction Mr. Nickel was defrauded of $150. After the sale, it is claimed, Baker disappeared for a time. His examination will be held June 23.

Gladstone—Ferdinand Henias of Gladstone was arrested by Deputy Game Warden John Jackson, charged with catching whitefish under the legal size. Henish was taken before uJdge Huber of Gladstone, where he pleaded guilty and was fined $25 and costs. Jackson caught Henish as he was returning from his nets and found in his boat a number of whitefish under two pounds in weight.

Mackinac—While making excavations near the front sally port of the fort, on Mackinac island, the superintendent found a walled up excavation eight or ten feet deep. From it a walled passageway was traced for twenty-five feet where it turned and ran paparlel to the front wall of the fort. Here it was followed for sixty-five feet, when the exploration was discontinued. The tunnel is carefully walled with stone and is five feet high and three feet wide. It was probably built during the first part of the eighteenth century, when the British held the fort. It is the intention to follow the passageway to its terminus. It it supposed to be a secret entrance and exit to the fort, and will probably open up at the outer edge of the foundation of rocks below the walls. This passageway has remained unknown since the occupation of the fort by the United States at the close of the war of 1812.

DESCRIBES LAST SCENES

Empress Eugenie Tells of the Death of Napoleon.

Paris, June 15.—In connection with the presence in Paris of the Empress Eugenie, a highly interesting letter written by her to Mme. Cornu, foster-sister of Napoleon III., has just been published. It is believed that the document was given out by M. Franceschini Pietri, though this is not known as an absolute fact. Mme. Cornu, while the emperor was in the hands of the English surgeons in January, 1873, at Chiselhurst, asked for news of the patient, whose painful malady had been diagnosed before the outbreak of the Franco-German war by Dr. Nelaton, Dr. Ricord, Dr. Fauvel, Dr. Corvisart and Dr. Germain See. The empress replied:

"My Dear Mme. Cornu: I have just received your letter, and I lose not a moment in giving you news of our very, very dear patient. It would be impossible to tell you all that he has suffered. He has, I think, felt the largest part of moral and physical suffering that it has ever been the lot of any one man to bear. At last they have found, after examination, a stone as large as a chestnut. Sir Henry Thompson effected two operations today. The local phenomena are still serious. The general strength is good. We cherish, accordingly, a hope which can be founded reasonably on reassuring symptoms. In spite of all, however, my anxiety is extreme. I pass from complete calmness to utter despair. My poor boy is, thank God, at Woolwich, and that enables us to reassure him completely and more than we can reassure ourselves.

"After the discovery of the stone Sir Henry Thompson and Sir William Gull both remarked that they could not understand how my dear emperor was able to remain five hours in the saddle at Sedan. Will there at last not arise a cry for justice in France, France, which he so loved and loves still, to silence the frightful calumnies which have caused him so much suffering? People, as well as individuals, may be surprised for a moment, when events hurry along precipitously, but woe to those for whom the hour of justice never comes. Sometimes, on seeing certain children tearing the wings off butterflies, and tormenting poor things that can not show signs of suffering, I have made the comparison, and have thought that people sometimes pluck out the heart and hurt it without knowing the evil they do, with an eternal smile on their lips. My letter is rather incoherent, but you, my dear Mme. Cornu, will understand my state of mind at the present moment. Always yours affectionately, EUGENIE."

On the day after this letter was written the emperor died. In giving out the document for publication the person whose name is not mentioned, but which is surmised, said: "Let whoever may be deceived by the sort of shyness which causes the empress to conceal her emotion and to remain impassive, read this letter in which she makes, amid the tortures of anxiety, a first appeal to the justice of history."

FOUNDRY EMPLOYES INAUGURATE STRIKE.

New York, June 15.—A strike inaugurated by the International Brotherhood of Foundry employes against the New York and New Jersey Foundrymen's association, has extended rapidly. There are 2,000 men now out here and in the New Jersey plants. Today 2,000 brass workers will quit and 1,000 more, including the core makers, will be out by the end of the week. It is claimed every foundry in New Jersey will be closed by the strikers.

At 1c — Valenciennes Lace—slightly mussed and soiled, worth 3c—Friday special—per yard..... **1c**

Mrs. H. L. Dresser was hostess this afternoon at a beautiful reception at her home, 16 South Nineteenth avenue east, at which the engagement of her daughter, Miss Ethel Dresser, and Harry J. Beutschbein of Albany, N. Y., was announced. The rooms were beautifully decorated in a riot of summer blossoms and palms. Assisting about the parlors were Mrs. Bechtelle, Mrs. S. W. Turner, Mrs. Julia Boohner, and in the dining room Miss Isabel Meads and Miss Anne Christianson presided, and were assisted by Misses Dolly Hibbing, Fanny Turner, Virginia Bean and Marion Williamson. A large number of guests called during the receiving hours, from 2 to 6 o'clock.

* * *

The Greysolon duLhut chapter of the Daughters of the American Revolution most appropriately held the last meeting of the year yesterday, which was flag day. The meeting was in the form of a picnic, at the home of Mrs. A. W. McGonagle, and a picnic dinner was served on the lawn at noon. The members all wore tiny silk flags, and the house and lawn were also decorated in the national colors. The significance of the day was also evident in the luncheon. Covers were laid for twenty-eight.

* * *

The Misses Pauley of Port Arthur are the guests of Mrs. James C. Hunter of Hunter's Park.

Mrs. J. D. Ensign and Miss Katherine Ensign left today for a lake trip.

* * *

Mrs. H. A. Florada left Wednesday for a visit with friends at Philadelphia.

* * *

Dr. and Mrs. A. W. McClaran are entertaining Harry Kemper, Jr., of Minneapolis.

* * *

A pretty home wedding took place yesterday at the home of Mr. and Mrs. G. N. Stevenson of 2028 East Second street, when their sister, Miss Gertrude Miller, and James Scott, were married. The rooms were beautifully decorated in flowers and flags in honor of flag day. In the parlor, white roses and ferns were used, and the hall was very attractive in red roses. The dining room was beautiful in decorations of lilacs and ribbons. The service was read at noon by Rev. T. H. Cleland of the First Presbyterian church, and the attendants were Miss Anna Scott and Charles Miller, both of Grand Marais. In the afternoon Mr. and Mrs. Scott left for St. Paul, and will later go to Winnipeg, where they will make their home.

* * *

Miss Mary Dunwoody of Minneapolis is the guest of Miss Ethel Farmer of 316 East Third street.

* * *

The Jolly Ten of Duluth Heights were entertained yesterday afternoon by Mrs. E. J. Purcell. A guessing contest was the amusement of the afternoon, and the prizes were won by Mrs. Samuel Mahan and Mrs. Edward Perrott. Those present were:

Mesdames—

Samuel Mayan,	Edward Perrott,
T. E. Johnson,	William Butler,
William Pennell,	William Donaldson,
Max Clemans.	Paully.

* * *

A musicale will be given this evening at Temple Recital hall by the pupils of Miss Edna Harris. They will be assisted by Miss Jane Everington, soprano, and Fred Betlach, tenor.

* * *

The Ladies' Aid society of St. John's English Lutheran church will entertain at a social this evening at the home of Mr. and Mrs. C. F. Wiberg of 615 Mesaba avenue.

VALUE OF TACT

Is Lubricating Fluid In Walks of Life.

Tact is that nice perception which enables us to grasp the situation and to do and say exactly the right thing at the right moment.

In reviewing our acquaintances we perceive that it is the tactful woman that outdistances her neighbors. In social life the tactful woman is the favorite, knowing, as she does, how to skate upon the thin ice of vanity fair. She triumphantly skims over all difficult places, leaving behind her the impression that she is a charming woman, and frequently gaining credit for qualties she never possessed.

In everyday walks of life tact is the lubricating fluid which causes the social machinery to run smoothly, and renders pleasant that which otherwise would be unbearable. We can all remember some critical hour when we owed a debt of everlasting gratitude to the tactful bearing of some one else.

Ask the long suffering hostess of whom among all her guests she reserves the pleasantest memories and her choice is certain to fall upon the person of tact. She gratefully recalls how her ready wit prevented friction and poured the oil of diplomacy on the troubled waters, thus contributing in no small measure to the success of her gatherings. The tactful woman abides in her memory long after the lions and geniuses are forgotten.

The woman of tact journeys through life making few enemies and winning the confidence of all who thoroughly know her. She gains her own way more readily than others, simply because she knows the wisdom of biding in silence with her eye ever watchful for the turn of the tide.

She has proven the truth of the old proverb that "persuasion often succeeds where force fails," and consequently avoids the mistakes of her sisters, and leads, where she appears to follow, gaining time by her seeming inactivity; because having made the best use of her powers of observation she has no lost ground to cover.

THE SOUVENIR.

Indispensable at All American Functions.

The nicest part of an entertainment to juvenile minds, next to the ice cream and candy, which are of primal importance, are the souvenirs which are brought home with them, and even grown-ups like some reminder of the happy occasion to take home with them. A corset knot of flowers, a pretty place or tally card, or a souvenir, even a trifling one, always enhances the pleasure and interest of an entertainment. When these souvenirs become costly favors, however, a dangerline in entertaining is reached. Each hostess tries to outdo her predecessor in hospitality, and there is apt to occur much consequent rivalry, heart-burning and jealousy, says an exchange.

In no place in the world is the souvenir so firmly established as in the United States, where it is now considered indispensable at dinner parties, balls, weddings, christenings, and, in fact, any function of a social nature given in celebration of some interesting personal event.

One of the most startling entertainments ever given in honor of a young girl took place at Atlantic City the other day, when Mr. and Mrs. Samuel Weil gave a dinner in celebration of the nineteenth anniversary of their youngest daughter's birthday. While the decorations and the birthday cake were marvels of beauty, the chief attraction consisted of a fine two-carat diamond which was dropped into each glass reserved for the champagne. Over each gem a tiny rosebud was placed, and upon this the wine was poured into the glass. Not until the last toast had been drunk to the young lady's health were the diamonds lifted from the champagne glasses, and the guests were asked to retain them in remembrance of the happy occasion.

Four years ago Mr. and Mrs. Adolph Crantz of Pittsburg celebrated their diamond wedding by giving a dinner to twenty of their friends. The occasion was marked by much costly expenditure, the souvenirs taking the form of diamond pins for the men and bracelets for the women. These costly gifts were placed beside the plate of each guest, resting on miniature beds of lilies of the valley, violets and maiden-hair fern. Just prior to the arrival of the ices the 'star' guest arose and proposed the health of the couple, whose diamond wedding they were celebrating, and referred to the interesting fact that the combined ages of Mr. and Mrs. Crantz totaled up to 160 years. After the toast had been drunk, Mrs. Crantz arose and proceeded to fasten the pins in the lapels of the men's dress coats, while Mr. Crantz clasped the bracelets around the arms of his fair guests.

Perhaps the most interesting souvenirs ever given away were those distributed at a dinner a year ago inaugurated by the American Institute of Electrical Engineers in honor of Thomas Alva Edison. These souvenirs consisted of small ivory boxes bearing a Grecian figure holding aloft a light, and inscribed "The Genius of the Lamp." This was a copy of the famous statue in Mr. Edison's laboratory at Orange, which typifies the triumph of electricity, and which Mr. Edison bought some years ago at the Paris exhibition.

"Besides these ivory boxes, there were also beautiful pins made in the miniature of an incandescent lamp, the bulb being formed by a single pearl These latter, however were given to the women only. The menus also formed interesting souvenirs, for they bore on the outside the picture of a bronze bust of Edison, while below was an authograph signature of the 'Wizard.'

Another interesting feature of this remarkable dinner was the procession of waiters bearing the ices, each one of which was contained in a model of an Edison invention—motors, phonographs, switchboards, automobiles, incandescent apparatus, etc. The ices themselves were in the form and size of incandescent bulbs.

THE SOCIAL PROBLEM

By Charles Cumback.

(Copyright, 1905, by Daily Story Pub. Co.)

Gracia surveyed herself in the glass with considerable complacency. Truth to tell her neat gown and white apron became her well and her luxurian hair plainly brushed back looked fully as well, she thought, as it had in times past after the expenditure of much time and labor by the French hairdresser.

Gracia was out on a most audacious adventure—none less than investigating the servant problem. She had left the big house on the boulevard and taken service like any needy young woman and was collecting some rare material for reports to the Woman's club. Her people thought she was visiting a friend in a neighboring city.

Gracia was rather a serious-minded person and had turned from a satiety of social pleasure to clubs and missions and reform and that sort of thing seeking in mental activity the excitement and interest in life she craved. The servant girl problem had been the burning issue of the winter at the Woman's club and the attitudes of the various factions were so divergent that Gracia had become thoroughly mystified and resolved to go out and ascertain the facts for herself. It was a daring project, but the first week had proven very pleasant.

With a last glance into the mirror Gracia—or Myra, as she was known to the household—went demurely downstairs and about her work. Gliding through the hall she encountered Robert, the younger son of the household, who had arrived at that interesting age when the budding youth wears his first down on his lip and thinks it smart to be fast. She had conceived a dislike for him partly because of his swagger and partly because of the way he had looked at her several times. As she was about to pass him Robert stopped and said:

"Hello, there, sis, you're looking as fresh as a peach today. Guess I'll have to collect a little toll."

Whereupon he seized her and planted a kiss squarely upon her lips.

The girl was speechless with surprise and indignation. The blood rushed to her heart and back to her cheeks, leaving them aflame. As soon as she recovered from her surprise she drew herself away with blazing eyes:

"How dare you, sir?" she cried. "How dare you?"

Robert laughed.

"Very good, very good!" he said. "Almost good enough to get you a job on the stage. Come, now, sweetness, don't make bluffs at me. Why, I've been thinking of giving you a nice ride in my auto some afternoon when you're off. But you mustn't be too coy. Come, now, give me a real nice kiss." He grasped her and pulled her toward him.

Now terrified as well as indignant, Gracia screamed. The door of Robert's older brother Arthur flew open and the latter emerged, dressed for a horseback ride. He saw the girl struggling in Robert's arms and took in the situation at a glance.

"Here, you young whelp, what are you doing?" he exclaimed, bounding toward them.

"Mind your own business," retorted Robert defiantly, but he released the girl and stood on the defensive, for he had good reason to know the splendid physical prowess of his brother. The elder was a splendid specimen of physical manhood. He was in the early thirties and much given to athletics.

When released Gracia tottered and fell to the floor. Arthur sprang to her assistance and raised her to her feet.

"I'll make it my business to see that unprotected women are not insulted in this house," he replied, and he sprang at Robert, grasped him by the coat collar and with a skillful twist laid him over one knee and before that young gentleman knew what was happening was belaboring him with his riding whip which he carried in his hand.

Presently Arthur arose and gave his victim a shove.

"Now get out of this!" he commanded, "and if I ever hear of such doings in this house again I'll make a heap more trouble for you."

As Robert retired in disorder, muttering threats of vengeance, Arthur turned to the girl and said:

"It's a shame, Myra—disgraceful. For the family I want to apologize. If father or mother knew of it they would be deeply hurt, but I trust they will not know of it, for Rob has caused them anxiety enough already."

"They will not hear of it from me, Mr. Breton," replied the girl. "And, sir, I want to thank you for your chivalrous conduct. I suppose I was unduly frightened, but it was the first time I was ever subjected to such treatment, and I—I—perhaps it alarmed me unduly."

The man glanced at her sharply. Her conversation and bearing seemed rather out of place. He noted the refinement of her features and—what he already had observed—her beauty.

"If he makes you any more trouble let me know," he said, and went down stairs.

From then on the elder brother saw much of "Myra." There was something about her which puzzled and interested him.

He found many opportunities to speak to her and draw her out. The wealth of intellect he uncovered startled him. She was guarded and betrayed as little of her education as possible, but he could not fail to note the delicacy of her nature and the depth of her spirituality. He found himself becoming more and more interested and not many days had passed before he was seeking her from motives of interest instead of curiosity. Then he began to look forward to chat with her and to chafe at the conditions which made it difficult to arrange even a few moments of conversation.

"Hang the conventionalities of society which say I cannot sit down and enjoy an evening with a young woman who happens to be forced into a position of servant," he muttered to himself, "when by rights she is as far above the average society woman as the stars are above turnips." Then he laughed loud and long at his own reflections.

"Well, of all fools, Arthur Breton, you are the softest," he said to himself. "Here you are 33 years old, a man of the world, acquainted with women and versed in all the treacherous quicksands of sentiment. You have lived fifteen years amid all the wiles of society and still retain your freedom and your heart. And here along comes a hired girl and gets under your skin. Because there is no use talking, Arthur Breton, the sore of philosophy you are indulging in and the sort of feverish desire you have to see that girl is right close to a fool infatuation."

And the man's reasoning was not at fault. Moreover, an infatuation cannot be reasoned with, and presently Arthur, elder son of the house of Breton, wealthy in his own right, and heir to a large share of the Breton fortunes, club man, business man, society man and man of the world, acknowledged to himself with mingled ecstacy and humiliation that he was hopelessly in love with his mother's maid. While he was struggling with himself as to what course to pursue, it was announced that Myra was to leave. The tidings filled Arthur with dismay. He wanted time to decide on his action. He hastened to see her and asked her where she was going. She replied that she could not tell. Why was she leaving? That she could not tell either, only that it was for no dissatisfaction. She had received the kindest treatment. Arthur thought rapidly and decided promptly. She was going. She would pass out of his life. He could not bear the thought of living without her. He would keep her.

He declared his love in simple, dignified fashion, making no pretense of his knowledge in the difference in their rank and at the same time claiming nothing for it.

She listened, flushed and fluttering. For all these days since the episode with Robert the influence of this strong manly, brilliant young man had been upon her. She had seen him in his home, had observed his unselfishness, his thoughtfulness and his consideration in his home, and his splendid vitality had appealed strongly to her woman's nature. The necessity of parting had brought a deep pang to her, the bitterest she had ever known. She had put it off long after discretion told her it was time to go home. And so his declaration came to her with intoxicating sweetness.

"You would marry me, Mr. Breton," she said, "knowing that I am only a servant girl, uneducated, without family, friends or money?"

"I would," he replied, "and most gladly. I have thought it over carefully and weighed all consequences. I love you for yourself and without you my life cannot be complete."

"Come to me, then, tomorrow evening at an address I will send you, and you shall have my answer."

* * *

When Arthur Breton walked up the steps of the great mansion on the boulevard he rather shrank from the ordeal of meeting the doorman. He would have felt more certain if he had been directed to the servant's door, but her note distinctly said to present his card at the front door. He knew the place; everybody knew the Chesters. He had business relations with Chester the elder and belonged to several clubs of which young Chester was a member. He had been to the house to a social function or two. He had indistinct impressions about a daughter, but was not sure. It was rather hard to go to that house to sue for the hand of a servant.

He was received with the imperturbable gravity characteristic of doormen. A moment later, greatly to his surprise, he was ushered into the spacious reception room and was bowing in bewilderment to a vision of beauty gowned in all the glory of the most exclusive modiste.

"I was expecting you, Mr. Breton," she said demurely with a wicked smile at his confusion. "Permit me to present you to mamma. This is Mr. Breton, mamma, of whom I spoke."

Breton mumbled some commonplace and struggled to collect his wits. The elder woman left the room directly.

"You came for your answer, Mr. Breton," said the girl. "You may speak to papa if you choose."

Over the explanations we draw the curtain.

SILBERSTEIN & BONDY CO. SILBERSTEIN & BONDY CO.

The Half Price Sale on Women's Finely Tailored Suits and Misses' and Children's Dresses and Wraps

gives buyers the opportunity to select the choicest of our beautiful lines at half regular prices.

The advancing season requires the reduction of many of our stocks preparatory to complete showing of wash lines.

Remember, this means the best at even less than the prices asked for the ordinary kinds, which are beneath your consideration.

By trading tomorrow you avoid the usual Saturday throngs.

Silberstein & Bondy Company

Great Big Duluth Water Sale

Commences Friday noon.

SHOULD GO SLOW

In Rate Legislation, Says a Chicago Merchant.

Chicago, Ill., June 15.—George A. McClellan of the firm of Granger, Farwell & Company of Chicago, stated today, in discussing the platform adopted by the Ohio Republican convention, that in his belief the question of railroad rates is still in its infancy. He believes further that it is a matter that should have the careful consideration of citizens and businessmen generally, and said:

"We have had much testimony before the senate committee, but what was brought out of it is still an undigested mass of varying opinions. I do not see that we can arrive at definite conclusions until we have more compiled data and the material already at hand has been sifted and weighed. We need more expert study, more evidence, and I am pleased with any indication that people are going slow in the matter.

"Personally, I do not think that the interstate commerce commission has shown that it can handle such a far-reaching task as the fixing of rates for American railroads.

"The work is too intricate and the wisdom of placing such arbitrary power in the hands of a commission seems to me, open to grave question. I feel that the administration means to give the railroads a 'square deal,' but it's a thing to go at very slowly and very carefully."

POISON FOUND

In Stomach of Girl Whose Funeral Was Stopped.

Des Moines, Iowa, June 15.—Sheriff D. W. Haines stopped the funeral of Miss Mabel Wood, aged 17 years, of Adel, yesterday afternoon, interrupting the minister as he was about to say "dust to dust."

The sheriff was closely followed by the coroner, who announced that an investigation of the cause of death was to be made. The coroner ordered the girl's stomach sent to Des Moines.

No sooner had the funeral been stopped than Sheriff Haines served a warrant upon Ed. Bishop, uncle of the dead girl, charging improper relations. An examination shows that the girl's stomach contained poison, but whether for the purpose of murder or to aid in crime, the authorities are at a loss to know.

Bishop was divorced from his wife recently. The former wife appeared here today and engaged counsel to defend him.

The merchant who advertises gives you the same opportunities to secure bargains that your neighbor has. Publicity equalizes opportunity. Nowadays there is no reason for your not having heard about some special sale.

D. H., June 15, 1905.

Did You Find Out About the Columbia?

While our whole force is busy with the inventory of the Burrows stock in the Great Eastern store, we are anxious to acquaint you with the Columbia ideas of shopkeeping, so that you will know how to take us when we get hold of the store next week and commence to talk business to you.

The boss tells the office boy, who writes these advertisements, not to do so much boasting. Why, we thought we were extremely unostentatious in our braggadocio; indeed, we used very mild language.

The Columbia never did believe in that chilling dignity that gives your Antipodes in Australia cold feet when you stand on it here in Duluth. We do not indulge in capital I's, nor do we dish out barefooted lies in our ads to make capital out of them.

We are convinced and wish to convince you that our chief buyer knows more about clothing store merchandise than most men in the business.

We are honest with our customers because we know it pays in the long run, and we are not in a hurry to get rich. We want to satisfy you at any cost, because it's cheaper to make an old customer stick to us than to be constantly at work to get new ones in place of those lost by poor methods.

These are some of the notions that have built up our large business in Superior, where we have the good will of the entire community—the workingmen as well as the capitalists. Did you inquire about us?

The Columbia
Clothing Company.

The Stage

COMING ATTRACTIONS.

LYCEUM—Saturday afternoon and evening, Chauncey Olcott.

CHAUNCEY OLCOTT.

Popular Chauncey Olcott, clever comedian and charming singer, comes to the Lyceum Saturday afternoon and evening, and will be seen in a new production of one of his most popular successes, which ran for nearly five months in New York on its first presentation. "A Romance of Athlone" was written expressly for Mr. Olcott by his manager, Augustus Pitou, and the play will be staged under his personal direction. The production is entirely new with superb scenery, beautiful costumes and novel electric effects. All the songs written by Mr. Olcott for this play have become very popular, including "My Wild Irish Rose."

DIES ON A TRAIN.

Fort Dodge, Iowa, June 15.—Ralph T. Jackson of the Jackson Vinegar company, Dubuque, boarded an Illinois Central train at the town of Judd. He joked the conductor while he signed his mileage, standing in the aisle. Five minutes later he was found dead in a seat in a rear car, from heart failure. He was 68 years old, and had represented the firm on the road for the past twenty-five years.

FORFEITED HIS BOND.

Not Present When His Case Was Called.

Fergus Falls, Minn., June 15.—W. W. Allen, who was formerly in the real estate business in Perham, failed to appear when his case was called in the district court here yesterday, and his bond in the sum of $1,000 was declared forfeited. His bondsmen were Dr. E. C. Scoonmaker, Dr. F. J. Brabec, A. Marckel and S. Friedman, of Perham. Allen was indicted on three or four forgery charges while in Perham, but the witnesses against him left the country and the cases were finally dropped. He left for Oklahoma about two years ago, and shortly after his departure evidences of other transactions came to light, and he was indicted by the grand jury and brought back, but released on $1,000 bail, which he now forfeits.

A SKIN OF BEAUTY IS A JOY FOREVER.

DR. T. FELIX GOURAUD'S ORIENTAL CREAM, OR MAGICAL BEAUTIFIER

Removes Tan, Pimples, Freckles, Moth Patches, Rash, and Skin diseases, and every blemish on beauty, and defies detection. It has stood the test of 66 years, and is so harmless we taste it to be sure it is properly made. Accept no counterfeit of similar name. Dr. L. A. Sayre said to a lady of the haut-ton (a patient): "As you ladies will use them, I recommend 'Gouraud's Cream' as the least harmful of all the skin preparations." For sale by all Druggists and Fancy Goods Dealers in the U. S., Canadas, and Europe.

FERD. T. HOPKINS, Prop'r, 37 Great Jones St., N. Y.

"ALWAYS TRUSTWORTHY"

Never disappoints. Packed to please, and faithfully serves its mission in millions of teapots daily.

"SALADA"

CEYLON AND INDIA TEA always good alike. Sold only in Lead Packets. By all Grocers. Never in bulk. Trial Packets 10c. Black, Mixed or Green.

HIGHEST AWARD ST. LOUIS, 1904.

TAFT CHIEF SPEAKER

At the Commencement of Miami University at Oxford, Ohio.

Talks on Enormous Material Expansion of This Country.

Oxford, Ohio, June 15.—The feature of the eighty-first commencement of Miami university today was the address of Secretary of War Taft. The unusually large audience made frequent interruptions with applause.

Reference was made by Secretary Taft to "the enormous material expansion of this country" and to its standing among the nations beyond that which could be asserted by them to one which had no insular possessions and confined itself within the seas. He continued: "The powerful influences which it has exerted to bring about peace between the Russian and Japanese nations is used as evidence. The personality of the president has had much to do with the willingness of the powers to allow him to intervene. Confidence in his impartiality and integrity have doubtless aided our national prestige in securing this end recently to be wished."

Touching the appearance of the Chinese coalition law, the secretary asked: "Is it not, then for the purpose of excluding or preventing perhaps 100 Chinese coolies from slipping into this country against the law, we should subject an equal number of Chinese merchants and students of high character to an examination of such an humiliating, tantalizing, disgusting and especially uncomfortable character as to discourage absolutely the coming of merchants and students?"

Then he said: "One of the great commercial prizes of the world is the trade with the 400,000,000 Chinese. Ought we to throw away the advantage which we have by reason of Chinese natural friendship for us and resistance to influence of unfriendly secret laws and thus invite in the Chinese mind a disposition to boycott American trade and to force our merchants from Chinese shores, simply because we are afraid that we may for the time use the approval of reasonable and extreme popular sentiment of California and other coast states. Does the question not answer itself? Is it not the duty of members of congress and of the executive to disregard the unreasonable demands of a portion of the community, deeply prejudiced upon the subject in the Far West, and insist on extending justice and courtesy to a people from whom we are farming, and are likely to derive much immense profit in the way of international trade?"

The secretary then paid some attention to Porto Rico and the Philippines —"The burdens which we have assumed due to the Spanish war."

"I do not," he said, "for a moment contend that now or for years they will prove anything but a burden to the United States."

In this connection he said: "We do enjoy the benefits of the increasing civilization of the world by reason of colonization; must we decline to assume the burden thereof?"

Secretary Taft then directed attention to a few purely domestic questions with respect to which he declared the American people ought to act. These included the maladministration of the criminal law, the increase in divorce and the inadequate salaries paid to government officials.

Regarding divorce Mr. Taft said: "Last year there were 945 divorces out of every 10,000 marriages. If this continues to grow what will become of that which is today the foundation of our civilization and our state—the home and the family. Ought there not be some radical measures by which to prevent the looseness with which to marriage bond is tied and the ease with which it may be dissolved. Now, if we were given to congress to pass uniform laws of marriage and divorce, we could be certain, first, that the majority in the congress of the union would see to it that conservative restrictions upon the law of divorce would be enacted and that for no light reason should there be a separation of those joined together in matrimony under the law; and secondly, we could be certain that administered as the divorce law would be, by judges of the federal courts, subject as they all would be to the general supervision of the supreme court of the United States, that there would be a uniform administration of the law in the courts."

In discussing what he pointed out were the inadequate salaries paid government officials, the secretary asked the question whether it is not the irony of inconsistency that we who are engaged in praising the purity and the simplicity of the democracy should adopt a policy by which only millionaires can govern us?"

The other events were the dedication of Hepburn hall, Attorney General Wade H. Ellis making the address. The unveiling of the portrait of John W. Herron, the oldest graduate and trustee, by Governor Myron T. Herrick, and the conferring of degrees upon twenty-four graduates. Mr. Herron is the father-in-law of Secretary Taft. The Rev. Guy Potter Benton, president of the university, presided at the exercises.

LIGHT SENTENCE

For Beavers Is Hoped For By Attorneys.

Washington, June 15.—If the proposition made to the government on behalf of George W. Beavers, here tried of the division of salaries and allowances of the prosecuting department is accepted, Beavers will plead guilty, receive a misdemeanor sentence and begin his term of imprisonment at once.

The officials of the department of justice decline to discuss the matter but it can be stated with positiveness that several weeks ago Beavers' attorneys approached the officials and sounded them in the proposition.

Those charged with the prosecution passed the matter up to the attorney general and there the question is still pending. Attorney General Moody has an opportunity to take the matter up with the president. It is understood that if this proposition is accepted Beavers will receive a sentence not to exceed eight months, but probably only two.

NO TRUTH IN RUMOR.

Chamberlain, June 15.—The statement of defense authorized the statement that all rumors of the mobilization of the Norwegian army and fleet are devoid of foundation.

VIOLENT DEATHS

City Had Large Number of Them During May.

Health Department Report Shows Contagious Diseases Under Check.

No less than fourteen persons met their death by violent means in Duluth, during the month of May, according to the mortuary statistics which have just been issued by the health department.

Of the fourteen people, six met their death by burning. The victims of the Fifth Avenue hotel fire, together with the child who was burned while playing about a bonfire, swelled the list.

Three met their death as a result of a fractured skull, while two were crushed to death in a railroad accident.

One death was caused by an accidental gunshot wound and two were drowned during the month.

The list of violent deaths is one of the largest that has been reported by the health department in years.

In addition to the fourteen who met with accidental death, one man committed suicide during the month.

The total number of deaths for the month was eighty-four. Of the sixty-nine deaths due to diseases of various kinds, eight were due to tuberculosis, which heads the list. Meningitis in its various forms was responsible for the death of seven persons, and pneumonia for two. The so-called contagious diseases were responsible for but one death during the month, while Bright's disease and typhoid fever caused one death each.

Insanity was responsible for the death of no less than twelve children, and the remaining thirty-seven deaths were caused by a score or more of different diseases.

The natural increase in the population of the city during the month was fifty-two. The total number of births reported was 136, leaving a surplus of births over the number of deaths of fifty-two.

Of the children born during the month seventy-one were boys and sixty-five were girls.

Great Water Sale

Commences Friday noon at the Big Duluth.

POLICE SEARCHING FOR RECKLESS AUTOMOBILISTS.

Chicago, June 15.—The police today engaged in a search for several young men who, while riding in an automobile in Michigan avenue, ran down and fatally hurt Mrs. Ellen Woods, 3111 Prairie avenue, and then fled, leaving their victim in the street. When the men made their escape, Mrs. Woods was placed in another automobile and hurried to a hospital. It was found that her spine was broken. She died an hour later.

EQUITABLE TRUSTEES MEET IN NEW YORK.

New York, June 15.—Former President Grover Cleveland, George Westinghouse and Justice Morgan J. O'Brien, the new trustees of the Equitable Life Assurance society, held a meeting in the Buckingham hotel in this city, today. The trustees were selected after the purchase of the Hyde stock by the Equitable society. It is to vote that stock in effect a new board of directors, to which the policy holders will be represented.

BOY DROWNED.

Cheviot, Wis., June 15.—Byron Pendrigar aged 9 years, son of H. Pendrigar, jeweler of this city, was drowned while fishing in the Cheviot river below the dam here. He was sent to the mill for sinker lead, and, seeing the boys wading, threw up his cap some distance and attempted to dip up some minnows with a can, and losing his balance, fell in. His body was found an hour later about 300 feet from the dam, below the waterfall.

SAVES HIS CHUM

Small Boy Pulls Another Out of Drowning Stream.

Harry Soderburg Saves 5-Year-Old Spencer Boy.

In another column is told of the drowning of a boy uptown and of the narrow escape of another. West Duluth had a mild sensation of the same kind yesterday afternoon, when the 5-year-old son of William Spencer came nearly ending his life in a small stream near his home on Central avenue.

Ordinarily the stream is scarcely more than a ditch but after the heavy rain of night before last its bed filled up and it was quite a good sized creek yesterday and today. The little fellow was playing on its bank when he slipped and fell in. He was caught in the current and was swept helpless down stream and would have been drowned but for the timely assistance of an 8-year-old boy named Harry Soderburg.

Harry could swim and although scarcely any larger than the boy in the water, jumped in, seized the unfortunate and dragged him ashore. The Spencer boy doubtless owes his life to his chum who showed a disposition of heroism and fearlessness.

IMPROVING PROPERTY.

Buildings Being Renewed By Non-Resident Owners.

A. J. Crawford of Minersville, Pa., is in West Duluth today, and has begun the work of improving and renovating a business building owned by him at 5606 Raleigh street. He will fix it up portable and in and will make it one of the best business blocks in that part of the city.

Mr. Horne of Milwaukee and Mr. Thomas of Minneapolis, who jointly own five dwellings in Fifty-ninth avenue and Wadena street have begun improving those buildings and bringing them up to date. The houses will be raised and new foundations put in, and the buildings will be repainted and repapered inside. The dwellings will be among the best in West Duluth when the work is over.

FLAG DAY

Celebrated at Irving School With Fitting Ceremony.

The celebration of Flag day at the Irving school yesterday was a pretty event which was largely attended by the school children, their parents and friends. The decorations of the assembly hall of the school consisted of the national colors tastefully arranged. Supt. E. H. Denfeld made the speech of the day and impressed his young hearers with the sacredness of the emblem, told them what it means and charged them ever to see that the honor was kept unsullied both in individual and national life.

A pleasing program was given which was taken part in by the children of the first and second grades, the granddaughters of Miss Lillie McLaughlin, Miss Georgia McKay, Miss Elizabeth Eby and Joseph McCormick.

WORK ON DULUTH BRIDGES.

Near Fifty-fourth and Wadena street a gulf is scattered out, but once in a while breaks away from his rope and wanders around at his own sweet will. Either parents should guard their children from the place or steps should be taken to confine the bull in some inclosure. One of two narrow escapes of children and women are reported.

Graduation Services for children at Lakemansta.

Ernie Sutherlin is down from Chisholm.

Get water bottles and syringes, 49 cents, at Spencer's Drug store.

Misses Lillie Piper and Alice Sheehan will take part in the program to be given at the Irving school alumni banquet on June 23, and the Zenith Mandolin orchestra under direction of C. W. Bergland will play. The rest of the program will be given by alumni.

For ride warm weather use Lakemansta slippers and oxfords.

An entertainment will be given at Knox Eastern hall Monday night the 19th purpose of raising money toward the Swedish Y. M. C. A. building the West Duluth. The Y. M. C. A. gymnasium classes and the Y. M. C. A. orchestra will take part and General Secretary Lewis will speak.

Rev. C. A. Peterson of Albert Lea will preach at the Swan Baptist church this evening at 8 o'clock.

A number of the excursionists from North Dakota and Western Minnesota were down to the Zenith Blast furnace this morning viewing the works, the docks and the western cities.

Great Water Sale

Commences Friday noon at the Big Duluth.

TEXAS WOOL BRINGS VERY HIGH PRICES.

San Angelo, Tex., June 15.—The entire eight months spring wool clip of Coreno county, the largest clip of short wool in the state, has been sold. The clip amounted to 2,250,000 pounds and was bought by two Boston firms. Prices are held unduly secret, but are believed to be between 20 and 22 cents a pound. The twelve months wool clip, also the largest in the state amounting to eight or nine hundred thousand pounds, has not been sold yet but will be disposed of this week. Competition is brisk among the buyers here, every big wool house in the United States being represented. Sheep men are delighted with the prices, an advance of 6 to 8 cents over last year and the highest since 1892.

Welcome, Eagles!

PLAGUE IN INDIA

Distinguished British Physician Questions Findings of Commission.

Agitation Gives Promise of Bringing About Numerous Reforms.

London, June 15.—Dr. Charles Creighton, who has just returned from India, where he went for the purpose of inquiring into some of the circumstances connected with the prevalence of the plague, has commenced a series of agitations which give promise of bringing about numerous reforms in India. In the first place, Dr. Creighton is not in complete accord with some of the conclusions of the bacteriologists. The first articles began with a reference to the commission of 1898. He said there was not a single epidemiologist upon it, and that the scientific character was gained by two chemist, first, because the two medical members who wrote the report put aside all evidence that did not come within their bacteriological point of view, secondly, because the two departmental members were disinclined to look into the causes or amelioration of sanitation which had prepared the way for the plague, especially in Bombay city.

Dr. Creighton declares that the bubonic always and everywhere has been from imported cases no long treatment without drainage. He cited the case of the old village of Sholapur, where the mud houses over the ashes and sweepings of untold mounds of earth—dwellings formed by the debris of former villages upon the same site—which may have been spreading by accretions of rubbish ever since the time when Alexander overthrew Porus in the vicinity. The more compact the site, or the greater the congestion of houses upon it, the more the soil will be filled with organic impurities. Soil has the property of breaking up organic matter by oxidation and nitrification. Its fibers of and retains organic substances suspended or dissolved in water, arrests the action of ferments and retains bacteria in its upper layers. But if the upper stratum be saturated with organic matters beyond the power of the soil to enter into combination with them, each new invasion sinks to the deeper layers unchanged, to undergo putrefaction or reduction by ferment, so that beyond a certain point the self-cleansing action of the soil ceases down.

The limit of endurance is constantly passed in old inhabited sites, and that the infection of plague resides in the ground is now accepted by many practitioners even in India who have been on plague duty, and in permanent hypothesis by the people themselves. Dr. Creighton's explanation of the phenomena is based upon the laws of soil-infection, which have been worked out by Pettenkofer and his school, according to which an infection of the sub soil gains many feet inside dwelling houses, and most of all, over night, because there is a natural movement of the ground air toward the chilled space. The penetration of the house by ground air is declared to be a possible risk in India for several reasons. Where the walls are of mud, as they are in the great majority of plague villages, and have no masonry plinth to rest upon, there is no substantial barrier to entry part of the soil, so that the moisture from the ground air not only clings from the floor, but carried up in the walls as it is a ventilating draft is deposited. Humid vapor is at day by the sun and by the fire kept up for cooking becomes like an exhausted receiver for the ground air to rise from.

In the old "chawls" at Bombay in which there has been so much plague the narrow lanes course on the ground floors are like tunnel ovens by 8 o'clock in the morning. The most effective measure of plague prevention, according to Dr. Creighton, is to be found in the superintendence of the mud-built and infected dwellings during the night, pending the arrival of the time when they will give place to better structures. This course has been meager in the matter of appearance, and, according to everyone's experience in India, plans or any one thing to be done when plague appears in a place, or may begin to die, and that is to clear out of it, if at all events, to spend spending the night there. This was being extensively done on the initiative of the natives themselves, at Ellgum, at Belgaum and at other places, although in some localities there were financial and other difficulties in the way which it might be possible the government assurances to overcome.

With reference to the future Dr. Creighton finds some comfort in the historical fact that former great epidemics of plague appear to have died out in seven or eight years, and he thinks that the present one already shows signs of declining. But after seeing a good many of the dreadful mud villages, he has come to think that their miserable existence in the cool season why Indian people are cursed with plague, and that there can be no real cure, but a more civilized kind of a dwelling and a great control of the native building area as village industries.

RECAMIER CREAM.

FOR THE COMPLEXION

has been in use nearly a century. Will cure a bad skin and preserve a good one. For sale everywhere.

Two sizes—50c and $1.00.

Danderine

Grew Miss Wilson's Hair

AND WE CAN

PROVE IT.

Latest Photograph of Miss Carrie Wilson, 5728 54th Place, Chicago.

Danderine Is So Exhilarating, Invigorating

and strengthening to both the hair and scalp that one 25c bottle will be often enough to show wonderful improvements. It at once imparts a sparkling brilliancy and abundant softness to the hair, and a few weeks' use will cause new hair to sprout out all over the scalp, and grow abundantly long and beautiful. Use Danderine by the whole, after which two or three times a week will be enough to complete whatever growth you desire.

NOW at all druggists, in three sizes, 25 cents, 50 cents and $1.00 per bottle.

FREE. To show how quickly Danderine acts, we will send a large sample free by return mail to any one who sends this advertisement to the Knowlton Danderine Co., Chicago, with their name and address and ten cents in silver or stamps to pay postage.

Send this at once as the amount is limited.

WILL NOT CHANGE

Minneapolis Chamber of Commerce Keeps the Present Grade.

Duluth Grain Men Think This Market Will Benefit.

The Minneapolis chamber of commerce yesterday declined to change the contract grade of wheat from No. 1 northern to No. 2 northern. The vote was 225 for to 182 against, but it required a two-thirds vote to make the change and the amendment to the rules was therefore defeated. Interest was keen and out of 550 members entitled to vote, all but 143 were present. Members from Winnipeg, Duluth, Chicago and various places in the country were present to cast their votes.

Duluth has already made the change and Minneapolis, for a few days after the action was taken here was expected to, but a stronger sentiment against it than was anticipated developed.

Among the members of the Duluth board the feeling is quite general that the action at Minneapolis ought to benefit rather than injure the business of the market here. They believe that the fear of manipulation in the Minneapolis market will lead to the placing of many hedges here by millers and others, and that option business on the Duluth floor will increase. They say also that it will be possible for buyers of No. 2 northern wheat to find a market in which to hedge that grade of wheat.

Those who are skeptical of the result of Duluth's going it alone say that it will result in greatly depressing the price of No. 2 northern wheat for the reason that the grade is not in strong enough demand to maintain its normal difference under No. 1 when the offerings are very heavy as they will be in the fall of the year, and that it may go to a discount of 10c a bushel.

There is no thought on the Duluth board, however, of changing back to the old grade, but the disposition is practically unanimous to give the new order of things a thorough trial.

PANTON & WHITE COMPANY

THE BIG GLASS BLOCK STORE

WHERE QUALITY IS PARAMOUNT

The great sale of trimmed straw hats

for ladies, for misses, and for children, brought a record crowd to the Glass Block today. Everybody expressed delight at the high quality and pretty styles of the hats, which are superior to any hats ever offered in our famous annual June sales.

At the rate they were going this morning, over 500 of the hats will be sold by tonight, but there will be 2,000 hats left for Friday and Saturday, just as good and just as pretty as those sold today.

Come to this sale Friday and Saturday

69c for trimmed straw hats worth up to $1.50 each.

95c for trimmed straw hats worth up to $2.50 each.

$1.39 for trimmed straw hats worth up to $4.50 each.

$1.25 hammocks reduced to 98c	$3.98 hammocks reduced to $2.98
$1.49 hammocks reduced to $1.15	$4.48 hammocks reduced to $3.48
$1.75 hammocks reduced to $1.29	$4.98 hammocks reduced to $3.98
$1.89 hammocks reduced to $1.39	$5.48 hammocks reduced to $4.29
$2.25 hammocks reduced to $1.69	$5.98 hammocks reduced to $4.39
$2.48 hammocks reduced to $1.79	$6.48 hammocks reduced to $4.48

LITTLE BUSINESS TALKS.

"The aim, if reached or not, makes great the life. Try to be Shakespeare—leave the rest to fate." In advertising that store, try to be Wanamaker—the rest is secure.

You might manage a horse without a bridle—but the horse is more likely to manage you. You might manage your business without advertising—but it is more likely to manage you.

If your business is the smallest in its line in the city—or next to the smallest—your need of publicity is as great as your hopes of growth.

"All who would have money must share it—for Prosperity was born a twin." In any business, publicity is your license to prosper—and, of course, a fee must be paid for the license.

INDIANS AT WHITE EARTH

Observe Anniversary of Settlement With Big Celebration.

White Earth, Minn., June 15.—The celebration of the thirty-seventh anniversary of the Chippewa Indians' settlement in the White Earth Indian reservation was begun yesterday with a sunrise salute. The two great events of the day were the aboriginal parade and the sham battle, from 200 to 500 Indians participating. In one section of the parade all the beadwork on the reservation was in evidence. Many of the braves were very little except a breech clout and a tobacco bag, but calico shirts with bead work were in evidence all along the line. The squaws were gaily decked. Early visitors saw the Indians make their camp. A rolling prairie a short distance from the agency buildings was selected as the camping ground, and on this about 150 wigwams were placed, each band of Indians having a village.

Among the two notable Indians here are old Wadena, after whom the town of Wadena is named, and Michemegeshik, the latter 74 years old. Both take active part in all the festivities. Wadena is one of the few Indians on the reservation who clings to his blanket, but Michemegeshik, unless it be in the quietude of his own home, is garbed as are most white men. The latter is one of the most indefatigable dancers.

There are about 5,000 Indians on the reservation, consisting of the original Chippewas, the Leech Lake removals, the Otter Tails, the Mille Lacs removals, the Fond du Lac removals, the Cass and Winnibegoshish removals, the White Oak Point removals and the Pembina Chippewas. There are probably 1,000 of them present at the celebration.

A friendly oratorical contest in which red and white orators follow each other, canoe races, Indian foot races and the sham battle and the parade make up the larger part of the program for the two days' festival. The White Earth Indian band, a very creditable organization, furnishes the music.

A special train on the Soo road brought a number of visitors from the Twin Cities.

SIGNAL CORPS MEN

To Try a Farm Experiment In Alaska.

Tacoma, Wash., June 15.—Men of the United States army signal corps, stationed in Alaska, in the intervals between sending dispatches over the government cable, repairing land lines and matters of this kind, will have an opportunity this summer of getting right back to the simple life and learning to cultivate and love the soil. There won't be any more bare-looking yards around Alaska signal corps station. Instead, each cabin will be set in the center of a little plantation of onions, turnips, cabbages, parsnips, corn, eggplant and other things for which signal men are supposed to have a fondness.

Lieut. Bernard Sharp was recently in Alaska, and he found that there was a sad dearth of vegetables in the isolated habitations of the military men. He told Maj. W. A. Glassford, chief of the signal corps for Alaska, about it, and Maj. Glassford immediately decided that his men in the far North needed a big touch of the simple life. He wrote to the department of agriculture. The chief of that service appeared to take favorably to the idea, for Maj. Glassford received a consignment of seeds of all sorts in a few days.

When the agricultural people in the national capital sent the seeds they forwarded a letter to Maj. Glassford requesting him to keep tab on the way the farms came out and whether cabbages, onions or cauliflower blossomed in the most profusion in Alaska. This the major has promised to do.

"I don't know how the men up there are going to like the idea," said Maj. Glassford, "but it seems to me that the plan is not only going to give the men a whole lot more to eat, but is also going to fill them with a love for nature that will be beautiful in a soldier. It will, I think, develop their spiritual nature, while helping out the food problem some."

LAWYER RECITES

Famous Lines on Baseball But Without Result.

Louisville, Ky., June 15.—The incidents related in the famous "Casey at the Bat" may be sound baseball philosophy, but they didn't go in the police court when William Clymer, manager of the Columbus team, was presented on the charge of disorderly conduct for fighting with Umpire Charles F. King at Eclipse park the day before. He was fined $15 and placed under $500 bond for ninety days by Judge John McCann.

Clymer admitted he was wrong, and added in mitigation that he had lost his head, and Umpire King, who stated that due apology had been made, was anxious to drop proceedings. On this point James P. Edwards, counsel for the defendant, addressed the court and spoke feelingly of the nervous strain on the players at the crucial periods of the game, and quoted the following lines from "Casey at the Bat":

"Kill him; kill the umpire!"
Shouted some one from the stand;
And it's likely they'd have killed him,
Had not Casey raised his hand.

Even this did not move the court, and in fixing the punishment Judge McCann took occasion to say:

"This court has frequently been called upon by the owners of the baseball club to suppress disorders. Here is a case where a player took offense at a decision of the umpire and attacked that official. A serious riot might have easily taken place as a result of his conduct. If it had been a Sunday game there is no telling what might have happened. I do not propose to fine our citizens and then allow an outsider to make as much trouble as he wants. Let a fine of $15 and bond of $500 for ninety days be assessed."

ENGLISH BARRISTER

Establishes His Claim to Title In Austria.

London, June 15.—The manner in which family lines of descent sometimes pass from one nationality to another is illustrated by the fact that James Edwin-Cole, a retired barrister, who, when he settled in Lincolnshire, was appointed justice of the peace, has now proved his right to be recognized as the descendant of an ancient Austrian family, by establishing his claim to the titles of duke and marquis of Polignano, a city romantically situated on a high cliff on the coast of the Adriatic sea. The marquisate, which dates back to the fifteenth century, passed by inheritance to Don Gaetano de Leto, a faithful minister and trusty counselor of the Emperor Charles VI. of Austria, king of Spain and of the two Sicilies. In 1729 this monarch confirmed the title to Don Gaetano and in the following year created him duke of Polignano, directing that this title should be inherited by his descendants of both sexes in order of primogeniture. The male issue, after many years, became extinct, and the dignities have now devolved, in accordance with the limitations, upon Edwin-Cole, who is the direct lineal heir and representative of the original Don Gaetano. Mr. Edwin-Cole, in an interview, readily supplied the particulars, and although declining to discuss his intentions as an Austrian nobleman, stated that for many years he had been endeavoring to obtain official recognition of the dignities to which he has now succeeded.

LONDON THEOSOPHISTS

Defend Their Leader From Attacks of Hindus.

London, June 15. — London Theosophists are watching with keen interest the attacks which are being made upon their leader, Mrs. Annie Besant, by a party of Hindu thinkers led by "Tiger Mahatma" Agamya, Guru Paramhanza, who visited England last year.

Mrs. Beasant has established herself in Benares, the religious center of the Hindus, and has announced that the religion revealed to her by her predecessor, Mme. Blavatsky, preceded the Vedas or sacred writings of the Hindus.

Mrs. E. Ward, the manager of the Theosophical publishing society in London, in speaking of the matter this week, said that the actions of Mrs. Besant were completely misunderstood in this country.

"This Swami Agamya," said Mrs. Ward, "gave himself out to be the 'pope of the Mahatmas' when he visited England, and made a great stir with his trick of temporarily stopping the beating of the heart. I may say that hundreds of Indian fakirs can do the same thing.

"Apart from this trick, Agamya has no position or influence. I have inquired into the matter, and from Benares have obtained the information that he is at the head of a very small body of people.

"He came in the winter to the opposite side of the river, and vowed that he would not enter the city until the Central Hindu college of the Theosophical society and Mrs. Besant were swept out of it.

"About a dozen meetings were arranged by his disciples. The first was attended by a sprinkling of educated people, but the others, which grew rowdier and rowdier until the police interfered, were packed with illiterate people. Finally the Swami was denounced by one of his own people as a fraud.

"Mrs. Besant never boasted of the possession of occult powers. Theosophists whose brains are so developed that they posses the gift of clairvoyance never boast of it. That Mrs. Besant has this gift I have no doubt, and there are several other Theosophists equally gifted, but we never speak of it."

DRISCOLL APPEARS BEFORE GRAND JURY.

Chicago, June 15.—John C. Driscoll, the much desired witness in the bribery probing conducted by the state's attorney and the grand jury in conection with strike troubles in Chicago appeared before the inquisitors yesterday and for three hours was subjected to close questioning. The proceedings were kept secret, but it was said that Driscoll did not tell all the startling stories of corruption accredited to him yesterday. At the adjournment of the jury, Assistant State's Attorney Wake said he was well pleased with the results thus far obtained from Driscoll. The latter is to be recalled and he was cautioned against making any statements as to what transpired within the jury room or discussing the nature of his testimony.

INSURANCE MEN

Arrested on Charge of Maintaining a Trust.

Des Moines, Iowa, June 15.—Four Des Moines fire insurance representatives have been arrested on the charge of maintaining a trust in restraint of competition in rates. They are: W. V. Wilcox, W. D. Skinner, H. R. Howell and E. C. Hawkins.

Under the Iowa law, the charge is an indictable misdemeanor punishable by a fine of from $500 to $5,000, or imprisonment for one year, or both.

The companies found guilty of entering such a compact may be fined from 1 to 20 per cent of their capital stock. The grand jury is also investigating similar charges against other representatives in the city.

CHURCH SUES

For Payment of Dues and Prayer Fees.

Pittsburg, June 15.—"To church dues during the year 1900, $40; offerings for prayers, $4." This bill, payment of which was refused by David Sigal, a wealthy manufacturer, is the basis of a suit brought by the Tree of Life congregation on Ross street, of which he was a member until five years ago. The secretary of the synagogue refused to accept his resignation at the time he offered it, and the bill has been in dispute ever since.

Coyly I invite
The jaded appetite.
I fortify, I satisfy;
"Get Rosy" is my battle-cry.
To everyone I bring delight;
I am the Ap-i-te-zo Knight.

THREE KILLED

In Fight Between Players and Villagers.

Budapest, June 15.—Three killed and sixty wounded are the casualties resulting from a fight yesterday between strolling players and villagers at Derekigyhas, Hungary. The players promised to give an exhibition of canibalism and a big crowd collected, but when the players did not give the advertised exhibition, the villagers became threatening, whereupon one of the players became realistic and bit a piece from one of the spectators ears. A general fight ensued, but the police ultimately restored order. Eighteen of the wounded persons are suffering from serious injuries.

FLOWER LANGUAGE.

All Flowers Used to Have Their Meanings.

The modern florist admits that he knows nothing about the language of flowers. It is indeed, a commentary on the unromantic spirit of the times that this man who arranges and sends forth daily from his shop the offerings of love should acknowledge his ignorance in this respect.

When pressed as to whether there is any sentiment at all in the choice of flowers ordered by the lover to be sent to the girl of his heart, he thinks, nay, is sure, that there is, but, on being sifted, this alleged sentiment proves to be nothing after all but a blind desire to lay the conventional gift of flowers, strictly regulated by fashion, at the feet of the beloved one. Man is, and always has been, a conservative creature in his love gifts. Jewelry, flowers, bonbons and books make up the sum of his ideas upon the subject, which have their ancient foundation in the barbaric instinct to hang ornaments upon the person of the one admired, says a writer in the New York Sun.

It must be granted, however, that some sixty years ago and more, when the meaning of flowers was a current language, these same conventional love gifts were a good deal more sentimental than they are today. In the matter of jewelry, for instance, the honored old present of a locket or a broach containing a miniature portrait of the lover and a lock of his hair may not be so smart and knowing as a padlocked bracelet or a pair of jeweled garter clasps, but it's degrees more romantic.

A handsomely bound book containing the language of flowers, with embellishments and appropriate poetical quotations, or a volume of verse entitled "Forget-me-not," may not be quite so lively as the latest popular novel, treating as likely as not of the divorce problem, but the sentiments is rather more promising. When it comes to the gift of flowers the contrast between the old and the new is quite as great.

Today fashion decrees that just three flowers shall be employed for love gifts, violets, orchids and gardenias. These being fashionable, are expensive, and in these days when the commercial spirit reigns supreme the man who substitutes some other flowers, no matter how beautiful, lays himself open to the charges of poverty or penuriousness. The beloved knows to a cent how much the flowers cost and judges his affection accordingly.

The modern florist who doesn't understand the language of flowers, on being told that, in the old days, when it flourished, the violet signified modesty, remarked that he thought the times had changed and that the violet now meant money. So that the modern language of flowers would run something like this:

"Violets are still the most popular of fashionable blossoms and in this bunch five dollars' worth of my love is expressed."

Or if a cluster of rare orchids is sent it means:

"I wish you to understand that I have more money than I know what to do with and don't care who sees it."

The box of loose gardenias signifies:

"I am a man of fashion and I paid a pretty price for these latest and most elegant flowers."

Of course, there are still men who have original and poetic ideas as to floral gifts, but unless they are quite sure that the fair recipient of their favors has poetic ideas also they will find their labor a wasted effort. Other flowers do well enough for the vases, but to learn where even the practical modern lover is still romantic enough to hope to see his flowers on the bosom of his sweetheart, they must be violets, orchids or gardenias now and forever—or until the fashion changes.

It is well known that the mixed and the set bouquet have long been out of fashion. True, they were usually not so artistic or elegant or costly as the modern affair; but how much more sentimental.

The aspiring lover either explained what he wanted to the florist, who was well versed in the language of flowers and turned out a net pyramid of varied blossoms surrounded by a lace paper ruff and with the stems covered by a fancy holder, or else, if he wandered in the garden or greenhouse, carefully selected his flowers and arranged his nosegay himself, which he afterward carried or sent by trusty messenger to the lady of his heart.

Neither she nor he had any thought as to the cost of the offering. The point for him was to express what he felt and for her to understand and answer if she would.

If he wished to begin cautiously he combined cornflower, cyclamen and ivy, which meant: "It would make me very happy to have your friendship, but I am diffident." If she was willing she saw to it that a bit of sage fell in his path, which meant: "I esteem you," or if she wished to test him she toyed with a spike of larkspur, by which he was to understand that she had heard that he was fickle.

When his mind was made up he sent her a fearful and wonderful creation made up of a full blown rose, a white lily, myrtle, columbine and forget-me-nots, which being interpreted said: "Your beauty and purity have won my love. I am determined to win you and shall be forever constant."

She might answer him in a number of ways. She might indicate coyly by a white rosebud that her heart was as yet unacquainted with love, or by rosemary that she wished him to hold her in remembrance, or by a sprig of pine that he was too bold, or by a striped pink a flat refusal.

If his sweetheart proved a flirt, the youth concocted a flaming yellow reproach for her of marigolds, yellow lilies and some bits of nettle and hemlock. This said: "You are a cruel coquette."

If the minx wished to keep him dangling she would sweetly answer with a sprig of mint, meaning: "Let us be friends again." And so on to the end of the chapter, for it was a language copious enough to meet all the requirements of the most varied love affairs.

It was too beautiful and interesting to deserve to die. That efforts are being made to revive Gaelic and decipher all sorts of musty hieroglyphics while nothing is done to rescue the language of flowers, which is of so much more importance to lovers, is one of the crying sins of this the case now when the old-fashioned garden is being revived with enthusiasm, for within its quaint box bordered beds will be found nearly all the flowers that ever grew, enough to carry on the most complicated courtship.

But scrochow, when all's said and done, it's not easy to imagine the strenuous, practical, plain dealing modern youth employing the gentle insinuations of that sweet language in his lovemaking.

A DEATH TEST.

Although physicians assert that the possibility of being buried alive can only occur where a medical examination has not been made, German papers state that a stronger, absolutely reliable guaranty for discerning actual death is still demanded, reports United States Consul General Guenther of Frankfort, Germany. The discovery of a new medium for ascertaining death, with perfect certainty, will therefore attract attention. It consists in injecting a solution of fluorescine deep into the tissues. If circulation exists the skin and mucous membranes become very yellow and the eyes assume the color of emeralds; if the circulation has ceased, none of these results occur. The discoverer, Dr. Icard, proposes that at least two hours before bodies are placed in coffins such an injection with flourescine be made. If life is not yet extinct the injection does no harm, and the coloring disappears.

$21.35 Asbury Park and Return Via Erie Railroad.

June 29, 30, July 1 and 2, limited to Aug. 31; good to stop at New York, Cambridge Springs, Chautauqua and Niagara Falls. Tickets on sale also to all tourist points—Chautauqua Lake, Niagara Falls, etc., good until Oct. 31. Full particulars 555 Railway Exchange, Chicago.

Great Big Duluth Water Sale

Commences Friday noon.

M. HENRICKSEN JEWELRY CO.

To Visiting Eagles

Bidding you a hearty welcome to Duluth, we extend to each Eagle a personal and cordial invitation to call upon us.

Our store is at your service during your stay; please feel free to drop in at any time—to set your watch by standard Duluth time, or to ask for any information that may be desired, etc.

We shall take pleasure in rendering any services or extending any courtesies that lie in our power.

Salesroom, 334 W. Superior St., Providence Building.

Sincerely yours,

M. Henricksen Jewelry Co.,

Gold and Silversmiths.

Factory—Fourth Avenue West and Michigan Street.

A CALM REVOLUTION.

Every friend of humanity and lover of peace is admiring the composure with which Sweden and Norway are going through their crisis, and their hope that it will not be attended by the spilling of a single drop of blood seems likely to be fulfilled. Outside of a few diplomatic technicalities that must be attended to, the nations of the world at large have no direct interest in the matter, except a friendly desire to see the affair arranged as harmoniously as may be. Sweden's position is a bit difficult, it is true, but it is believed that the statesmen of both countries will contrive to smooth out the situation without plunging the two peoples into a war that would be almost fratricide, so closely allied are the Swedes and Norwegians.

In the relations of the two countries with the rest of the world, the only point on which there is likely to be any awkwardness is the matter of recognizing Norway as a distinct and sovereign nation. This will involve sending ministers and consuls to that country, and receiving those sent to other countries by Norway. The exchange of these courtesies is the formal recognition of a new country as one of the world's sovereign nations.

This little difficulty should not be so difficult as some seem to think. Sweden having formally protested against Norway's secession, to recognize Norway too promptly would be to affront Sweden. Therefore the nations of the world will probably await further action on the part of the two countries before acting further. The delay in recognizing Norway need not be long, however, unless, by some remote possibility, Sweden should attempt to bring her back into the union by force of arms, in which event recognition would await the issue of the conflict. If she does not attempt to force reunion, and stands upon her policy of passive protest, the nations of the world could not long delay a formal recognition of the new member of the circle.

The issue of war is not likely to result. The world is weary of war, and the Scandinavians are too sensible to let their present difficulty drift to that length. The recognition of Norway by Sweden is going to be a difficult thing to bring about, but ultimately it will be done, and former harmony will be restored on a new basis.

EAGLES ARE WELCOME.

If the weather turns more torrid during the remainder of the week than people expected, the cause will be not difficult to locate, for there will be in this city for the next two or three days a bunch of people whose present business, aside from the routine of a convention, is to have a good time. They are members of the Fraternal Order of Eagles, and when they are in town the natives usually become aware of it quickly.

Ample arrangements have been made for making things pleasant for the members of the order and their friends and relatives by the local aerie of Eagles. Not only does the average Eagle know how to have a good time himself, but he knows how to show others a good time, and the preparations have been in the hands of experts. Between the twin accomplishments of knowing how to have a good time and how to give others a good time, Duluth, as the theater of these meritorious endeavors, will have to sit up and take notice of how experts do these things.

Duluth's doors are wide open to the Eagles, and it hopes that every man of them and every woman of them and every child of them will have the time of their lives during the rest of the week. It hopes that they will carry away such vivid impressions of how good it is to be in Duluth that they will come again and come often.

The Eagles, while one of the newer orders, is one of the strongest, and its aeries are scattered all over the country. It is a social order, with adjuncts of benevolence and fraternal fellowship in which it yields place to none. Duluth is glad to have its second state convention held here, and a warm welcome is extended to every Eagle and to every other person that the convention brings here.

THE FINLANDER.

The Herald last evening announced that on June 24 and 25 the Finns of this section will celebrate "Juhannues" or Midsummer day, their national holiday, by a gathering at Ely.

In the Far North this is a day when the sun does not set, but shines with equal splendor day and night. It is the apex of the summer season, when the days of the dreaded frost have passed and nature is in its fullest bloom. It has been celebrated by the Finns from time immemorial, and the Finns of Minnesota are celebrating it this month in their new home far from the oppressive rule of the czar, and with as full an appreciation of the advantages of that new home as any race that comes to our shores.

Finland's history has been full of struggles. Her people have not only had to fight against man's inhumanity to man, but an enemy no less dreaded—the frost. In the forge of adversity the Finnish character has been moulded, and strength has been the result of it. Of the thousands of Finns who have fled from Russia's tyranny since that country assumed control of Finland, many have come to this section, and they are among the sturdiest, most energetic and most valuable of the hosts that immigration has brought. They are a musical and poetical people, and it is said that Finland has a song for every joy and every sorrow. The poems of John Ludvig Runeberg, a Finn, breathe a fine spirit of love of country and zeal for its welfare.

One point that is notable among these people is that no race in the world pays as much attention to the cause of temperance. Over 10 per cent of its people belong to temperance organizations. It is a national issue in the home land, and the government annually appropriates funds for the battle against drink. Like all other nations, it has its black sheep, of course, and as these are the people most likely to get into print, many form an erroneous impression of the Finns. The iron mining officers who employ them are enthusiastic about their virtues as a race.

MINNESOTA'S BATTLE FLAGS.

It was one of the most appropriate celebrations that Minnesota has ever seen that was held in St. Paul yesterday to mark the removal of the battle flags of the Minnesota regiments from the old capitol to the new, and it was conducted in an admirably appropriate manner. Not the least notable of its features was the manly, patriotic and eloquent speech of Governor John A. Johnson.

Those pathetic old banners, grouped in their case in the center of the main corridor of the old capitol, are dearly beloved of the people, and the veneration and respect in which they are held are in direct proportion to the stage of dilapidation they have reached. Some of them are mere shreds, mute witnesses to the horrid hail of lead through which they were borne by gallant Minnesota men forty years ago. But those rags are priceless, and it was fitting, therefore, that their removal from the old capitol to the new should be marked by elaborate exercises. It was fitting, too, that the removal should be made on Flag day, the day on which the nation's flag was 128 years old.

This wholesome respect paid to the flags of Minnesota's regiments, flags which inspired brave men to do brave deeds, will be of immense value in freshening in the minds of the state's youth the glory of Minnesota's part in the civil war. The first regiment of soldiers offered to Lincoln at the beginning of the war was from Minnesota, and it was that regiment which made the famous forlorn hope charge at Gettysburg. The regiments whose flags are fresher and less ravaged by the ruthless hand of war lack the First Minnesota's fame because they lacked the First Minnesota's opportunity; they were made from the same kind of stuff.

It will be well for the youth of Minnesota if it will keep in mind these stirring words from Governor Johnson's speech: "Republics may seem to be and even may be ungrateful, but to the sturdy and hardy soldiers of the Republic, who were not actuated by the spirit of gain or adventure, this nation owes a debt of gratitude and acknowledges the obligation; and to us, the younger citizens of the Republic, it belongs, above all others, to pay tribute to those who died in the defense of their country and to pay homage and respect to those who still survive the great conflict."

THE FAIR WAGE.

A writer in the Contemporary Review, W. S. Lilly, puts the plea for a fair wage into about as clean-cut and condensed form as it has ever been crowded into. He says:

"There is a fair wage for labor, even unskilled labor. The employer is not right in getting work done at the lowest possible cost. The laborer is worthy of his hire; he is entitled to a fair wage, the measure of which is, as those older moralists taught, the means of living a human life; and this includes, not merely house and home, but leisure and spiritual cultivation. His destitution does not make it right to underpay him. To underpay him is to steal from him; and this is one of the most common and most disgraceful forms of theft; the most common because it is found in every department of life; the most disgraceful because it is the most cowardly. But the very notion of a fair wage has died out of popular mind, taught to regard human labor as mere merchandise."

"The means of living a human life." That, according to the writer, is the laborer's due. To compel him, because he is needy and depends for his living upon his employment from day to day without cessation, to accept a wage that will not afford this result, is stealing of a most disgraceful sort. From the viewpoint of the other side of the question, Mr. Lilly would be called intemperate in his language. If a labor leader spoke such words he would be called "anarchistic," "demagogic," "incendiary." In the sober, staid Contemporary Review, somehow, the words look differently, but they would be none the less true if they had appeared elsewhere. As a matter of fact, they have appeared in many other places, though in different form, for the means of living a human life are what labor has been asking.

THE FIELD SURVEY.

Milwaukee prosecuting grafters? What have they been adulterating the beer with?

The Virginian reports that while the building of the Duluth, Virginia & Rainy Lake road has opened up a fisherman's paradise, seines, fish-traps and dynamite are at work to spoil it. A few of the wretches guilty of this kind of work should be jailed as an example.

Hotel Gossip.

"I never saw a better color of the crops in Wisconsin than this year," said T. L. Thompson of New Richmond, Wis., at the St. Louis. "The small grain looks particularly promising. The prospects are that the hay crop will also be good.

"Present conditions, however, are no indication what the outcome will be. Just a year ago things looked almost as well in Wisconsin as this time of the year. But the hot weather in July gave a different hue to the situation. I find that business conditions are good in all sections through which I have traveled, and merchants are feeling encouraged over the outlook.

"There is a gradual change observed in the activities of the farmers in Wisconsin. In St. Croix county, with which I am most familiar, and contiguous counties, the farmers are getting to raise stock more and more. Those who twelve years ago or so spent their energies in cultivating small grain are now raising cattle, hogs and sheep. They are also turning their attention to raising vegetables and fruit. In St. Croix county we have two large growers and shippers of strawberries.

"The condition of the farmer there shows a change for the better. He is becoming to be more engaged in diversified farming, and enjoying more prosperity. Between Ellsworth, in Pierce county, and Hudson I saw very large flocks of sheep grazing, indicating that sheep-raising is becoming developed in that section.

"This is no indication that the soil is becoming of no account, but that the farmers are finding that diversified farming is more profitable. In St. Croix and adjoining counties the farmers are getting to be quite forehanded. They are getting to be heavy depositors in the banks, while in the past they used to be borrowers.

"Since I have been traveling on the road as a salesman for the past thirty years, I have witnessed a few changes in the business," he continued. "The traveling man is enjoying the facilities of better transportation and accommodation. When I first stepped on board the train with my grip it was as if one took a trip on an ox-cart. Traveling was a rough affair. Now we have cars which are lighted by electricity, with steam heat. One can now travel where he can get a shave on board, a bath, and a place equipped with books and magazines. I remember when I dropped into Duluth in 1876 and stopped at the St. Louis. The hostelry was then located somewhere across the street, if I remember rightly. The accommodations then were slightly different from what they are now. A large box stove in a corner sufficed to give all the heat.

"There is a gradual change noticed in the business of traveling in the old days the height of the road carried every kind of stock; today he generally carries only one kind. The manufacturer is selling direct to the merchant, whereas in the past the latter bought everything through the jobber. Take the merchants in Duluth for instance, they buy nearly all their stuff from the manufacturer. Nowadays there is one salesman who sells mittens, another caps, while still another handles gloves. These specialty men, of course, do not go into the large towns. The jobbing salesmen enters into the all corners of the territory."

* * *

Stories of the experiences of the census men have been rife in this state since they have been out in search of information, but it required a man closely connected with the office of the sheriff of St. Louis county to display a peculiar lack of memory.

The census man got along smoothly with his victim at the opening scenes of the procedure. The man connected with the sheriff's office showed no hesitation in giving his age, nationality, occupation, etc. But when he was asked about the members of his family, the man fell into a quandry.

"We have had ten children altogether," he said. "Two of them have died, which makes eight living, don't it?"

"Y-yes, think so," replied the census man cautiously.

"Let me see now, the oldest is Alice, and George comes next—"

"Yes. How old is Alice?" interrupted the census gatherer.

"She's about 13, and George is about—"

"I want to know their exact ages," broke in the census man again.

"Well, I'll try and remember their ages later. After George there is Tom. And after him comes William. No, that ain't right. Margaret comes in there somewhere. By George, I cannot remember the names of the others. Say, can't you come around some time again. You've got me rattled."

"Well, I would like to, but I hate to waste any more time," said the census man. "Perhaps, you wouldn't be a bit better posted as to the members of your family then than now."

"Oh, I'll tell you what I'll do," said the befuddled parent reaching for the telephone. The deputies gathered around, making a brave effort from breaking into laughter. The actions of his friends did not help to straighten out the mental tangle of the father, but he managed to get central, and after waiting ten minutes he got a response from the house. The wife was somewhat exasperated at her husband, but the latter, however, managed to send the census man away with the true information.

The Weather.

If you slept too late this morning you missed an appreciation of what a glorious day this one started out to be. Early this morning the sky was clear and the air was fresh and clean and fine. The breeze was light and wholesome, with a tendency toward the northeast, and conditions were delightful. Later in the forenoon, however, a slight haze crept over the sky, which thickened into promises of rain later. Managers of the conventions that were gathering in the city were decidedly disappointed with the way things turned out, after a morning so promising.

Hot weather continues in the greater part of the lake region, in the central valleys and in the southern states. From the Red River valley west to the Cascade range it is somewhat cooler, and up at Calgary there was freezing temperature this morning. Down at Phoenix, Ariz., the thermometer reached 100 degrees, while figures between 80 and 90 were common east of the Rockies. There were showers in the upper lake region, the southeastern states, and most of the Northwest except the Red River valley.

Showers and thunderstorms are likely events for tonight and tomorrow, according to the weather man, and there will probably be fog tonight and Friday, with fresh to brisk northeast winds.

Following were the highest temperatures recorded during the twenty-four hours ending at 7 o'clock this morning, as reported by the weather bureau:

Abilene	92	Miles City	72
Atlanta	76	Milwaukee	86
Battleford	60	Minnedosa	52
Bismarck	70	Modena	84
Boston	84	Montgomery	90
Buffalo	78	Moorhead	74
Calgary	60	New Orleans	88
Charleston	82	New York	86
Chicago	84	Norfolk	90
Cincinnati	84	Northfield	76
Davenport	88	North Platte	88
Denver	84	Oklahoma	88
Detroit	80	Omaha	90
Dodge	88	Phoenix	100
Duluth	81	Pittsburg	82
El Paso	96	Port Arthur	62
Escanaba	70	Portland	70
Galveston	88	Prince Albert	68
Green Bay	86	Qu'Appelle	52
Havre	68	Rapid City	76
Helena	68	St. Louis	88
Houghton	82	St. Paul	84
Huron	86	San Francisco	62
Jacksonville	86	Santa Fe	78
Kamloops	70	Sault Ste. Marie	78
Kansas City	90	Shreveport	90
Knoxville	90	Spokane	72
La Crosse	88	Swift Current	52
Little Rock	86	Washington	86
Los Angeles	74	Williston	64
Marquette	86	Winnemucca	94
Medicine Hat	68	Winnipeg	60

United States Department of Agriculture, Weather Bureau, Duluth, June 15.—Forecast for twenty-four hours ending at 7 p. m. (local time) Friday: Duluth, Superior and Vicinity—Showers or thunderstorms and cooler, with probably fog tonight and Friday. Fresh to brisk northeast winds.

H. W. RICHARDSON,
Local Forecaster.

Chicago, June 15.—Forecasts until 7 p. m. Friday: Wisconsin—Probably showers and thunderstorms tonight and Friday. Cooler Friday and in north portion tonight.

Minnesota—Probably showers tonight and Friday. Cooler in northeast portion tonight.

North and South Dakota—Showers tonight and Friday. Cooler tonight.

Upper Lakes—Light to fresh winds, northeasterly on Superior and north portions of Michigan and Huron. Southeasterly on southern portions. Showers.

Using Spare Moments.

New York Evening Mail: It is not well to read at the solitary meal, and not all care to read in bed. But the chance to open a book comes frequently during the day. Ten minutes after lunch will dispose of Shakespeare in a year. Half an hour at the end of the day's work, and before the evening meal, will cover a considerable range of history in the twelve months. One can read volumes of poems and essays by devoting to them the negligible moment just before retiring at night. While traveling, waiting for a train or for the tardy guest, it is possible to conduct a distinct course of reading. When the whole evening is free for the printed book, and it palls on one before the evening is spent, there are change, rest, renewed refreshment, in picking up a book of another sort.

For the ordinarily intelligent person it is not even necessary to cultivate the habit of reading in the spare moments. Give it a chance at the start and it grows on one, like the mania for stealing rare editions.

A Hymn of Peace.

Angel of Peace, thou hast wandered too long!
Spread thy white wings to the sunshine of love!
Come while our voices are blended in song,—
Fly to our ark like the storm-beaten dove!
Fly to our ark on the wings of the dove,—
Speed o'er the far-sounding billows of song,
Crowned with thine olive-leaf garland of love,—
Angel of Peace, thou hast waited too long!

Joyous we meet, on this altar of thine,
Mingling the gifts we have gathered for thee,
Sweet with the odors of myrtle and pine,
Breeze of the prairie and breath of the sea,—
Meadow and mountain and forest and sea!
Sweet is the fragrance of myrtle and pine,
Sweeter the incense we offer to thee,
Brothers once more round this altar of thine!

Angels of Bethlehem, answer the strain!
Hark! a new birth-song is filling the sky!—
Loud as the storm-wind that tumbles the main
Bid the full breath of the organ reply,—
Let the loud tempest of voices reply,—
Roll its long surge like the earth-shaking main!
Swell the vast song till it mounts to the sky!—
Angels of Bethlehem, echo the strain!
OLIVER WENDELL HOLMES.

Norway and Sweden.

New York World: Sweden has an area of 172,876 square miles.

Norway has an area of 124,130 square miles.

Sweden had a population of 5,221,291 in 1903.

Norway had a population of 2,240,032 in 1900.

Sweden's principal industries are agriculture, mining and manufacturing.

Norway's principal industries are agriculture, fisheries and mining.

Sweden's finances showed a surplus last year.

Norway's finances showed a deficit last year.

Sweden has an army of about 37,000.

Norway has an army of about 18,000.

Both countries have a small number of vessels, practically for coast defense.

In 1902 Sweden's imports amounted to $126,299,126, and exports $98,093,150.

In 1903 Norway's imports amounted to $73,201,500, and exports $48,316,670.

The Western Wife.

She walked behind the lagging mules
That drew the breaker through the soil;
Hers were the early rising rules,
Hers were the eyes of wifely toil.

The smitten prairie blossomed fair,
The sod-home faded from the scene;
Firm gables met the whisp'ring air,
Deep porches lent repose serene.

But with'ring brow and snowy trees
Bespeak the early days of strife;
And there's the deeper wrought impress—
The untold pathos of the wife.

O Western mother! in thy praise
No artist paints, nor poet sings,
But from the rosary of days
God's angels shape immortal wings!—
—WILL CHAMBERLAIN in National Monthly.

Twenty Years Ago.

Taken From the Columns of Duluth Papers of This Date 1885.

***A. A. Ames, ex-mayor of Minneapolis, arrived in the city a few days ago on a fishing excursion.

***C. P. Sullivan this week took his children to Grand Rapids, Mich., where their grandmother resides.

***D. A. Petre and Max Wirth have been in St. Paul this week in attendance on the meetings of the state pharmacists' association.

***A pleasant party of about twenty went down the bay Wednesday afternoon at the invitation of Mrs. J. H. Upham. The tug Eliza Williams conveyed the party.

***A telephone book just issued, credits Duluth with 140 instruments, and Superior with twelve.

***Judge Carey went to St. Paul on Tuesday evening to meet his daughter, Mrs. Greenfield, on her way from Leadville to Duluth with her child to spend the summer. They arrived here on Thursday.

***T. J. Ballard of St. Augustine, Fla., arrved in this city today. He was surprised at the resemblance in our climate to his own.

***Bids for improving Superior street east to Lester river will be opened at the meeting of the county commissioners next Tuesday.

***The Royal Adelphia held its first semi-annual meeting Wednesday evening. North Star conclave now has 101 members and is making no effort to increase that number.

***Articles of incorporation of the North Star Elevator company have been filed with the register of deeds. The capital stock is $200,000. The directors are J. W. Johnson, George B. Kirkbride and M. W. Yerxa.

***Capt. Holt has hauled the propeller Stewart off the north shore route, business being so light that it does not pay to keep her in commission.

***No appointment of deputy state grain inspector for Duluth has been made yet. Messrs. Shelly of Ada and McKenzie of Crookston, and a third whose name has not been made public are candidates.

LINES TO A LAUGH.

Milwaukee Sentinel: "I am of the opinion," remarked the fat boarder at the breakfast table, "that proceedings should be commenced against this coffee."

"Why so?" in quired the landlady glaringly.

"Because," answered the fat boarder, "it refuses to settle."

Chicago Tribune: "I wouldn't have supposed that the Wellophs, with all the money they have, would furnish their house so shabbily."

"Huh! The Wellophs are so rich they can afford to buy the cheapest kind of furniture for their house."

Puck: Judge—One month in jail.

Prisoner—But, judge. I run a summer hotel and the season is about to open.

Judge—Eight months!

Puck: Bashful Suitor—You are my sole aim in life, Miss Margery.

Coy Maid—Well, you won't make a hit unless you get closer to the target.

Washington Star: "Graft is surprisingly common," said the apprehensive citizen.

"That is where you are wrong," answered Senator Sorghum. "A real good graft is getting to be one of the scarcest things in our once proud and luxurious civilization."

New York News: Jack—Kohn is awfully economical.

Bess—In what way?

Jack—Well, when he has the rheumatism he doesn't get his prescription filled until his wife gets the rheumatism, too.

Yonkers Statesman: Patience— Will says roses are $2 a dozen.

Patrice—That won't hurt his pocketbook any. He only throws bouquets at himself.

EVENING.

Now came still Evening on, and Twilight gray
Had in her somber livery all things clad.
Silence accompanied; for beast and bird,
They to their grassy couch, these to their nests,
Were slunk, all but the wakeful nightingale;
She all night long her amorous descant sung.
Silence was pleased. How glowed the firmament
With living sapphires: Hesperus, that led
The starry host, rode brightest; till the moon,
Rising in clouded majesty, at length
Apparent queen, unveiled her peerless light,
And o'er the dark her silvery mantle threw.
—JOHN MILTON.

Tell-Tale Ears.

New York Press: I do not believe there lives a man who does not by some slight sign betray his emotions. He may conceal the sign from the casual observer, but the critical will find it. I know a speculator who bets his thousands on the racetrack and always appears as cool as a cucumber (in ice), his most intimate friends never being able to tell whether he is winning or losing because of his stoicism. But if they looked at his ears from behind his back they would find an unerring, unfailing index of his fortunes. If he is a winner the cartilaginous flaps of his ears retain their normal color. If he loses they change to a violent pink.

None in Chicago.

Topeka State Journal: "Signs of Peace" is the subject of an editorial in the Chicago News, but it makes no allusion to the Chicago strike situation.

Sleeping On a Right.

St. Louis Globe-Democrat: Secretary Taft intimates rather broadly that when people sleep on a right they are sure to wake and find themselves left.

A New Role.

Philadelphia Press: The American Eagle has become the dove of peace.

A Song of the Light.

I.

Thorns for the reapin', whatever you sow;
But the world's just the brightest I'm wantin' to know!
Sorrow an' sighs,
An' the rain o' the eyes,
But a sweet voice that whispers, "The light's in the skies."

II.

Thorns for the brow; but a rose in a wreath
Is not the less sweet for the thorn that's beneath!
Sorrow an' sighs—
But the bright stars'll rise;
A sweet voice is singing: "The light's in the skies!"
—FRANK L. STANTON in Atlanta Constitution.

Heading Off Deficits.

Washington Post: Even the political opponents of Senator Hemenway will have difficulty in refuting his assertion that one way to reduce federal expenses is to quit spending so much money.

Symptoms of Progress.

St. Louis Republic: China seems to be affected at last with the mania called civilization. It declares its purpose to boycott American goods. And there can hardly be any question that retaliation is one of the evidences of a capacity to assimilate and progress.

His Time to Laugh.

Baltimore American: It is an ardent rule that every letter deserves a response. Therefore Secretary Taft can afford to laugh at those members of congress who are now criticising him for his Panama policy, as they refused to notice his letter requesting information on that very point.

Appalling Waste of Fire.

New York World: One thousand million dollars said President Washburn of the board of fire underwriters at its meeting in this city, is the country's loss by fire in six years. The loss for 1904 surpassed all previous records, reaching $229,000,000, of which $50,000,000 disappeared in the Baltimore blaze. But that is not the real total of destruction. It does not include all lonely, uninsured farm houses of small value burned. It does not fully cover the losses of household goods in general less adequately insured than buildings. It takes no note of forest fires, the most irreparable of all calamities. The figures might almost be doubled without exaggeration. The true annual fire tax of the nation is doubtless $35 per family. No other civilized nation knows such an appalling waste.

MINNESOTA OPINIONS

Crookston Times: There is no apparent lack of favorite sons for Republican gubernatorial honors a year hence.

Red Wing Republican: Tom Lawson claims that he has had more mud thrown at him than any other man of his generation. Everything indicates that Tom has thoroughly enjoyed it.

St. Cloud Times: Wall street and the treasury are about the only institutions in the country that are not showing signs of prosperity.

International Falls Border Budget: Nashwauk is going to expend $25,000 for waterworks. We would feel certain that Nashwauk was a good town if it wasn't for the fact that she can't support a newspaper.

Princeton Union: We notice that some men observe Decoration day, Fourth of July day, general election day and all other days on which they can secure a little money, by "tripping" the wobbly "fantastic toe" on the corners of the sidewalk.

Anoka Free Press: The Scandinavian peninsula will undoubtedly show the world that it is quite possible for intelligent and cultured people to settle international differences without recourse to brute force and murderous displays of savagery.

Appleton Tribune: The matter of selecting a Republican candidate for governor who can defeat John A. Johnson at the election in 1906 is worrying many of our exchanges who supported R. C. Dunn last fall. Such a man has not been found as yet, and it begins to look as though the search would be a hopeless one. Governor Johnson is one of the best and ablest governors the state has ever had, and it would be folly to refuse him a second term in order to placate professional office-seekers.

Elk River Star-News: If the state senators continue declaring themselves out of the race for re-election, there will not be a corporal's guard of "old members" in the next state senate. Well, there are some changes that will not be injurious.

Warren Register: In an editorial one day last week a St. Paul paper spoke of "the groans of the dead and the shouts of the dying." That is nearly as bad as a mixed metaphor and worse than a split infinitive.

Anoka Herald: The census enumerator has been abroad this week. He is of the stuff of which heroes are made. With rain soaking his garments to a soggy pulp, weary with much travel, with the family bulldog maneuvering for a grip on the bosom of his pants, he dares to look the woman of the house in the eye and demand "Your age, madam."

"If I Were King."

"Secretary Hay, before he went abroad for his health," said a congressman, "talked a little sadly about ambition.

"He was ill, and ambition seemed to be, after all, not a very wise thing.

"He told me, with a smile, of a little English farm boy whom he had once heard say:

"'I wish I was a king.'

"Interested and amused by such a remark, Mr. Hay said to the little farm boy:

"'And what would you do if you were a king?'

"The lad answered soberly:

"'I'd eat my fill of fat bacon and swing on a gate all day long.'"

Reflections of a Bachelor.

New York Press: The hand that fills the coal bin robs the world.

It is mighty hard for a man not to like the rich father of a girl as much as he likes her.

A woman's idea of a good figure is one that her dressmaker can make so different her own husband couldn't recognize it.

Sizing Up the Pumps.

Philadelphia Press: A western railroad is having the heads of its clerks examined by a phrenologist to determine each one's peculiar abilities. All that a smart clerk has to do is to select the job he most desires, find out from phrenologist data what part of his brain corresponds to it, bump his head in that spot and butt in.

Decidedly "Dern."

A philologist was talking about words. "There are more than 250,000 words in the English language," he said, "but we only use a few thousand of them. The extra ones are of no use to us. Any man could sit down with a dictionary and write in good English a story that no one in the world could understand. Here, for instance: Can you make head or tail of this?" pattering off glibly: "I will again buy the atabal. You are answeved? Yet this is no blushet's bobance, nor am I a cudden, either. Though the atabal is dern, still will I again buy it."

Then he translated: "I will recover the drum. You are amazed? Yet this is no young girl's boasting, nor am I a fool, either. Though the drum is hidden, still will I recover it."

WATER IS WELL ENOUGH IN ITS WAY

But too much of it in a Clothing Store creates conditions that must be promptly met!

From Duluth Evening Herald of June 14.

BIG DULUTH IS DAMAGED

Heavy Rain Storm Causes Loss In Boys' Department.

The storm of last night tore things up in the Big Duluth Clothing store, the water getting through and damaging the stocks considerable. This morning the roof of the building looked like a huge open-air clothing emporium, because of the wet clothing spread out on the nearby roofs to dry in the sun.

About midnight H. F. Williamson and Edward Mendenhall, the members of the firm who own the store, were called up by Dr. Von Suessmilch, who with his wife rooms over the Big Duluth, and who were flooded out. He informed them that their store was likely to be washed away if something was not done at once. They came down immediately and found the boys' department of the store flooded, with water which was pouring through the roof into the rooms upstairs, and from there into the store. They immediately sent for their clerks and the work of rescue began. The salvage corps came down from fire headquarters and spread tarpaulins on the goods throughout the store, else the damage would have been much more extensive than it was.

The flood found its way into the basement and damaged some unopened goods there. When Messrs. Williamson and Mendenhall came down at midnight they found about a foot of water in the basement.

The cause of the flood was the clogging of a water-escape on the roof. This caused the water to back up and leak through the roof into the rear rooms occupied by Dr. and Mrs. Von Suessmilch, Mrs. M. M. Turnbull and Miss Blanche Fleming. From there it poured in torrents down into the store.

The accompanying article from the news columns of the Evening Herald of last night tells the story of the Boys' and Children's department of this store being flooded with water. The history of the old store is, that it has not sought excuses or make-shift reasons for sales, and no excuse need be sought for this great sale—the reason is before you.

All have been busy since Wednesday morning reviewing, drying, arranging and remarking the clothing in our Boys' and Children's department—we cannot afford to carry this flood-washed clothing in our regular stock and must sell the whole out quickly, so

The Great Big Duluth Water Sale will commence Friday, June 16 at 12 o'clock noon

The style, the wear, the workmanship of the clothing has not been affected in the least. True, in some instances the stocks have been slightly soiled and stained, but after being thoroughly dried, the most of it is as good as ever—but they must go, and the cut will be deep on everything, including Boys' and Children's Suits, Rain Coats, Top Coats, Reefers, Knee Pants, Hats, Caps, Stockings, Neckwear, Shirts, Underwear, Pajamas, Suspenders, Night Robes, Sweaters, Rubber Coats.

The Great Big Duluth Water Sale to include Men's and Young Men's Suits, Topcoats, Raincoats, Spring Overcoats and Trousers.

While our Men's Clothing was not damaged, the flooded part being in the rear of the store, to make our Great Big Duluth Water Sale doubly attractive and give our customers and friends who may not be interested in Boys' and Children's Clothing, something to satisfy in the way of splendid values, we will include Men's Clothing also in this Great Water Sale.

NOTE:—To give us the necessary time to properly re-mark and arrange the water flooded stocks, our store will remain closed 'till Friday noon—opening up again at 12 o'clock with

The Great Big Duluth Water Sale.

TERMS: STRICTLY CASH TO EVERYONE.

GAMES TODAY.

St. Cloud-Brainerd at Duluth.
Winnipeg at Grand Forks.
Fargo at Crookston.

Yesterday's spasm at Athletic park was a perfect exhibition of how baseball should not be played. Apparently the White Stockings and the hyphenated gang from various towns had been saving up all their errors, dumb plays and attacks of "Charley horse" for yesterday, and during the nine-act travesty on the national game they got rid of enough of them to insure good ball for the rest of the week.

The men without a home won the game, although they narrowly missed making Duluth a present of it in the ninth inning. Both teams ran bases like graveyard nines.

Miller was most beautifully and thoroughly mauled during the little comedy, although he could not be blamed for losing heart. Gilchrist was also trounced in proper style, and fielded his position in a rather startling and novel manner.

Each team drew one tally in the first. White singled and stole second after Ripley had retired himself on a bunted third strike. Harris singled, and Nehr banged a hot one at McShane, which the latter got on his meat hand, but fumbled, and White came home. Ronesch was hit. Hanson flew out to McShane, and Harris was forced at third on Howell's weak effort.

"Si" made the fans sit up with a long two-bagger, went to second on Menelee's sacrifice after Weller had drawn a base on balls, and scored on a passed ball. Artie O'Dea drew a base on balls and stole second. Mullen sent a slow one to third, and Weller showed the first symptoms of the disease which was later to become so prevalent, by trying to reach home on the hit. He was tagged in the ribs before he got within sliding distance of the plate. Later Artie O'Dea was caught sleeping off third, and after being chased up and down the line, the whole nameless bunch gathered about him and finally ran him to earth.

St. Cloud earned a couple of runs in the third on Harris' two-bagger and a home run by Nehr.

Just about this time Miller was getting groggy, and when the third opened, the Orphans started after him viciously. Wing, Gilchrist and White singled in quick succession, and the sacks were all occupied. Ripley forced Wing at the plate, but a single by Harris brought in two scores. Nehr struck out, and Ronesch singled, scoring Ripley. Hanson sent a long fly to Mullen in center field.

Duluth started something in the fifth. After Bennett had been retired, Weller and Menelee singled, and Artie O'Dea woke up from the little trance that had been bothering him, to slam out a corking two bagger, scoring the two runners. He came home on a single by McAleese.

The Twins got another in the sixth on singles by Harris and Nehr, and an error by Mullen in center field. Things looked promising for Duluth in the seventh, after O'Dea had singled and Neighbors, who replaced Mullen in center, had reached first on an error. But the Twins sprung a fast double on Erickson's grounder, and McAleese flew out to second.

The game worried along to the ninth inning without any further scoring. In the last act, Howell's banged the ball over the fence for the second home run of the day.

Duluth went to bat, four runs to the bad. And then commenced the most pathetic little tragedy of the day. O'Dea singled again, and Neighbors slammed one at the pitcher. Gilchrist caught the ball on an easy bould and had plenty of time for a double, but instead of throwing to the short stop who had covered second, he tossed the bal to the second baseman who was standing with his hands on his hips half way between first and second. White caught the ball, tried in vain to tag O'Dea, and then threw to first, too late to catch Neighbors.

O'Dea scored on Erickson's single, and Neighbors started to steal third. He was caught, but the baseman dropped the ball, and then Erickson pilfered the second bag. McAleese was given a base on balls, and McShane sent a long fly to center which allowed Neighbors to score. Howell's kept up the merry farce by muffing Miller's grounder, and Erickson scored. Miller stole second, and with two men on bases, and only one out the chances looked promising for the necessary fourth run. But McAleese tried to score on Bennett's infield hit, and was nabbed at the plate. Weller ended the agony with a long outfield fly. The details:

BREAKS EVEN.

Fargo and the Tigers Each Get One.

Grand Forks, June 15.—(Special to The Herald.)—Grand Forks won a rather one-sided game yesterday afternoon. The Tigers took the lead from the first inning, when they piled up three runs, and in the eighth added four more. The visitors succeedd in getting a pair of scores in the sixth inning just to avoid a shut out. Houch administered the treatment to the visitors, while there were two from the Fargo bunch who appeared on the slab. Smith started the fireworks, but last only one inning, when Berrigan went in. Spanton got a home run in the eighth with two men on bases.

Score by innings:

	R	H	E
Grand Forks	3 0 0 0 0 0 0 4 x	7	9
Fargo	0 0 0 0 0 0 2 0 0	2	4

Batteries—Fargo, Smith, Berrigan and Jarvie; Grand Forks, Houch and eLach.

Summary: Two-base hits—Spanton, Berrigan, 3. Home run—Sapton. Struck out—By Houch, 3; by Berrigan, 5. Double plays—Berrigan to French to Donovan. Hit by pitcher—Rose and Varco.

Fargo won the evening game by a score of 5 to 4. Houch essayed to pitch the second game also, but Fargo bunched hits on him in the fifth, sixth and seventh and won cut.

The Tigers made a fierce rally in the ninth, scoring three runs. With Hanrahan on third, Spanton missed an opportunity to tie the score, by fanning. He had made a home run and two-bagger in the afternoon game, but was unable to hit Hanson. The score by innings:

Fargo	0 0 0 0 1 3 1 0 0—5
Grand Forks	0 0 0 0 1 0 0 0 3—4

Batteries—Houch and Leach; P. Hanson and Jarvie.

Summary: Two-base hits—Fitgerald, Mcc, Hanrahan. Three-base hit—Leach. Left on bases—Fargo, 8; Grand Forks, 9. Stolen bases—Smith, Hanrahan, Traeger, Jarvie and French. Sacrifice hits—Hanson. Bases on balls—Off Houch, 2; off Hanson, 2. Struck out—By Houch, 3; by Hanson, 1. Passed balls—Leach and Jarvie.

SERIES TRANSFERRED.

Team Will Remain at Home Until Wednesday.

The series of three games between the St. Cloud-Brainerd and Duluth teams, which was to have been played in St. Cloud and Brainerd during the latter part of the week, has been transferred to Duluth, and the White Stockings will remain at home until next Wednesday, playing the Twins the remainder of this week, and closing the home season with a series of games with Fargo.

The team will then swing around the circuit, returning home to open another series of home games on July 3.

Friday will be ladies' day, when all the fans among the fair sex will be admitted free to both the grounds and the grand stand. Owing to the big convention of Eagles which will be in the city tomorrow, an exceptionally large turnout of ladies is expected.

St. Louis	46	17	29	.370

NEW YORK, 7; ST. LOUIS, 5.

New York, June 15.—After knocking Powell out of the box in the fifth inning, St. Louis was again defeated by New York yesterday. Hogg, who relieved Powell, held the visitors down to one hit. Attendance, 4,000. Score:

	R.	H.	E.
New York	0 3 0 0 1 1 0 2 x	7	9	4
St. Louis	1 0 0 1 3 0 0 0 0	5	9	0

Batteries—Powell, Hogg and Kleinnow; Pelty and Sugden. Umpire—O'Loughlin.

PHILADELPHIA, 4; DETROIT, 1.

Philadelphia, June 15.—The home team defeated Detroit yesterday by good consecutive hitting. Both teams played fine ball. Attendance, 5,994. Score:

	R.	H.	E.
Detroit	0 1 0 0 0 0 0 0 0	1	8	1
Philadelphia	2 0 0 0 1 0 1 0 x	4	8	1

Batteries—Killian and Drake; Plank and Schreck. Umpires—Kelly and McCarthy.

BOSTON, 2; CLEVELAND, 1.

Boston, June 15.—Boston tok a sharply played contest from Cleveland, yesterday, 2 to 1. The visitors hit the ball hard, but the fine fielding by the home team kept the score down. Attendance, 9,322. Score:

	R.	H.	E.
Boston	0 1 0 0 0 0 0 1 x	2	6	2
Cleveland	0 0 0 0 0 0 1 0 0	1	4	1

Batteries — Tannehill and Criger; Rhoades and Bemis. Umpire—O'Connolly.

CHICAGO, 5; WASHINGTON, 3.

Washington, June 15.—Washington was unable to hit Walsh yesterday and Chicago took its third game of the series. The visitors hit Wolfe opportunely. Attendance, 1,200. Score:

	R.	H.	E.
Washington	1 1 0 0 0 0 1 0 0	3	5	2
Chicago	0 1 1 0 1 0 1 0 1	5	12	4

Batteries—Wolfe and Kittredge; Walsh and McFarland. Umpire—Sheridan.

Louisville	0 0 0 0 0 0 0 0 0	0	8	4
Milwaukee	0 4 0 4 0 0 0 0 0	8	14	1

Batteries—Wright, Kenna, Dunkle and Woodruff; Hickey and Beville. Umpire—Kane.

INDIANAPOLIS WINS TWO.

Indianapolis, June 15.—Indianapolis won two games from St. Paul yesterday afternoon by ninth and tenth inning finishes. In the first game with the score 4 to 3 in the final inning against the locals, a victory was won by good base running and two timely singles. In the second game Indianapolis tied the score in the ninth and won out in the tenth through the wildness of Ferguson, who passed two men. Attendance, 3,800. Score:

First game—

	R	H	E
Indianapolis	0 0 0 1 0 1 1 0 2	5	11	3
St. Paul	0 0 0 0 1 0 0 3 0	4	7	0

Second game—

	R	H	E
Indianapolis	3 0 0 0 1 0 0 0 1	6	9	1
St. Paul	0 0 1 3 0 0 1 0 0	5	7	3

Batteries—Cromley, McGill and Zalusky; Ferguson and Sullivan. Umpire—Gifford.

FOUR FAVORITES WIN AT LATONIA.

Cincinnati, June 15.—Four favorites won at Latonia westerday. In the fourth event Corruscate easily won from Dutch Barbara, the heavily played second choice, with Birch Broom third. White Plume, the odds on favorite, finished fourth. Henry Watterson easily won the final event from Kerchval, the favorite.

St. Louis, June 15.—Platoon, a 2 to 5 favorite and heavily played at that price, with no second choice offered by many of the books, was defeated by Layson, 7 to 2, in the fourth race at Delmar yesterday. Not a favorite was first under the wire in any of the six events.

Dave Sommers, at 6 to 5, in the third race, and Hiles, at 5 to 2, in the sixth race were the winning favorites at the American Jockey club track yesterday.

New York, June 15.—D. C. Johnson's Jacquin, well backed, easily won the Myrtle stakes, the feature of Getaway day at Gravesend. Gold Ten was the early pacemaker. At the head of the stretch Jacquin took command and romped home a winner by six lengths from Gold Ten, with St. Valentine third. Two favorites won.

GROWTH OF TRADE

Between the United States and Cuba Is Very Rapid.

Total For Present Fiscal Year Is Largest on Record.

FROM THE HERALD WASHINGTON BUREAU.

Washington, June 15.—(Special to The Herald.)—The monthly summary of commerce and finance, just issued by the department of commerce and labor through its bureau of statistics, presents the latest available statistics of our trade with Cuba during April, 1905, as compared with the corresponding periods of the preceding year, from which it is seen that our trade with Cuba, both as regards imports and exports, is for the present fiscal year the largest on record. During the ten months ending with April last, exports from the United States to Cuba were valued at $31,319,520, as against $21,855,745 during the corresponding period of the preceding fiscal year and $9,660,920 during a like period of the fiscal year 1898.

Exports from the United States to Cuba have increased 43.3 per cent and imports from Cuba have increased 22.4 per cent, comparing the ten months' figures of the present fiscal year with the corresponding period of the preceding year. The exports to Cuba during the ten months ending April 30, 1905, were valued at $31,319,520, a gain of $9,463,775, or 43.3 per cent, while imports from Cuba in the ten-month period ending with April 30, 1905, were $39,441,255 in value, an increase of $12,717,819, or 22.4 per cent as compared with a like period of the preceding year.

Meantime imports into the United States from Cuba have also increased rapidly. Again, comparing the figures of the present fiscal year with those of 1898, the last year of Spanish control over the island of Cuba, it is found that imports into the United States from Cuba during the ten-month period under review have increased from $13,760,366 in 1898 to $56,725,440 in 1904 and $39,441,259 in the present year ending April 30. Thus exports to Cuba have increased $22,000,000 and imports from Cuba have increased $56,000,000, when the ten-month period of the present fiscal year is compared with a like period of the fiscal year 1898. In the ten months ending with April, 1898, imports into the United States from Cuba exceeded exports from the United States to Cuba, but a little more than $4,000,000; in the same period of the present year the excess of Cuban imports into the United States over exports to Cuba was $38,000,000.

The large increases noted in the exports from the United States to Cuba are illustrated by an analysis of the trade by principal articles. Comparing the exports during the ten-month period of the present year with the corresponding ten months of 1904, increases occur as follows: Corn, 406,000 bushels over exports of 1904 to April 30; flour, nearly 30,000 barrels; coal, 67,000 tons; coffee, 1,500,000 pounds; cotton cloths, 10,000,000 yards; eggs, over 500,000 dozen; boots and shoes, nearly 300,000 pairs; refined mineral oil, about 1,000,000 gallons; bacon, 1,500,000 pounds; salted or pickled pork, over 1,000,000 pounds; lard, nearly 3,000,000 pounds; lard compounds, over 2,000,000 pounds; boards, etc., 16,500 feet; cattle, 14,000 head, and rice, a marked increase of 33,000,000 pounds over the exports recorded for the ten-month period of 1904. Only a few important items show decreases, viz., crude mineral oil, 420,000 gallons; tallow, 408,000 pounds; hams, 770,000 pounds, and cheese, 210,000 pounds.

The values of the principal articles exported to Cuba from the United States during the ten months ending with April 30, 1904 and 1905 respectively, are shown by the following table:

Articles	Ten months ending April 30—1904.	1905.
Iron and steel manufactures*	$2,858,363	$5,061,396
Flour	2,206,273	2,819,598
Bituminous coal	1,122,523	2,280,479
Cattle	1,800,616	1,513,086
Lard	1,306,102	1,343,386
Boards, deals, planks, joists, scantling	996,870	1,298,633
Lard compounds	1,126,946	1,082,731
Boots and shoes	718,822	973,666
Rice	4,025	940,647
Corn	540,208	815,417
Cotton cloths	266,928	688,878
Coffee	345,720	592,518
Vegetables	444,783	563,178
Milk	296,767	607,894
Carlages, cars and cycles	358,155	502,846
Furniture	337,401	442,592
Hams	453,525	375,021
Bacon	257	304,197
Refined mineral oil	226,669	353,701
Crude mineral oil	371,760	337,621
Cotton manufactures, except cloths	218,660	318,855
Paper, and manufactures of	223,747	306,463
Pork, salted or pickled	225,662	287,586
Leather	117,748	194,362
Books, maps, etc	93,446	192,457
Agricultural implements	84,663	152,811
Fruits and nuts	73,153	116,541
Naval stores	91,658	105,879
Anthracite coal	67,182	99,108
Tobacco manufactures	100,229	95,430
Cotton-seed oil	31,441	65,258
Typewriting machines, and parts of	25,285	56,289

*Includes for 1905 builders' hardware, $403,-127; sewing machines, $277,283; locomotives, $206,381, and numerous other items.

The schedule of enumerated articles of importation from Cuba is not so extensive as that of exports and comprises chiefly sugar, tobacco, fruits, and nuts. While the quality of sugar imported from Cuba during the ten months of the present year amounted to 1,677,609 pounds, it fell about 468,000,000 pounds short of the imports during the corresponding period of the preceding year—2,145,000 pounds. The value of the sugar shows an increase, being $41,375,366 in 1904 and $52,-123,218 in 1905 to the date named, indicating a considerable advance in the import price. Last year, for the period under review, the import price was but 1.9 cents per pound, as against 3.1 cents during the present year. Leaf tobacco imported from Cuba increased from 17,602,235 pounds, valued at $8,498,571, in the ten months of 1904, to 18,226,420 pounds, valued at $9,173,143, in the same months of the present year; cigars, cigarettes, etc., from 57,273 pounds, valued at $2,881,553, to 657,887 pounds, valued at $3,324,322. Bananas decreased from $1,073,782 to $870,294; iron ore also decreased from $993,238 to $757,912; molasses showed a decrease of about 85,000 gallons from the total of 12,-574,512 gallons imported during the ten months of 1904, but the value increased from $610,323 during the latter period to $669,685 in the ten months of the present year.

The following table shows the value of the imports into the United States from and of the exports from the United States to Cuba in each fiscal year from 1895 to 1905, the months of May and June, 1905, being estimated:

Commerce of the United States with Cuba, 1895 to 1905:

Year ending June 30—	Imports from Cuba.	Exports to Cuba.
1895	$52,871,252	$12,807,661
1896	40,017,730	7,530,890
1897	18,496,815	8,259,776
1898	14,232,477	9,561,656
1899	25,408,828	18,616,377
1900	31,371,764	25,513,409
1901	42,423,088	25,864,801
1902	24,694,684	24,623,500
1903	62,942,790	21,761,638
1904	76,982,418	27,377,405
1905*	90,000,000	38,000,000

*May and June estimated.

ST. PAUL IS WINNER

William E. Templeman Chosen President of State Labor Federation.

Stillwater Is Meeting Place For Next Year's Convention.

Brainerd, Minn., June 15.—(Special to The Herald.)—With the election of officers, which took from 11 a. m. to 7 p. m., the State Federation of Labor closed its 1905 convention last evening. There has probably never been an election in the history of the organization that was more hotly contested as that for president. From the first to the last ballot the excitement was at fever heat. The friends of Van Lear stuck by him like glue up to the eighth ballot. He started out with fifty-four votes and held his own for several ballots until in the eighth when he made a few remarks and then his friends commenced to fall back on him and he was on the toboggan slide up to and including the last ballot, when he received only three votes. Thomas started with fifty-four votes and Dix with fifty. Dix was climbing the ladder rapidly up to the tenth ballot, when the St. Paul delegates asked for a ten-minutes recess to hold a caucus. When the convention was called to order, T. F. Thomas thanked the convention for the support given him and William E. Templeman was run in his place. The first ballot after his entrance gave him sixty-five votes against fifty-five for Dix. In the thirteenth Dix went to the front and held there until the sixteenth, when Templeman got seventy, against sixty-six for Dix. Van Lear stuck up to the last, causing no majority to exist thereby making it necessary to make several extra ballots, which would not have been necessary had he pulled out when he saw that he stood no show On the seventeenth ballot, Templeman secured twenty-one plurality and was elected. The following are the newly elected officers for the ensuing year:

President, William E. Templeman of St. Paul.

First vice-president, R. C. Kutz of Brainerd.

Second vice-president, W. E. Stacy of St. Cloud.

Third vice-president, Miss Edith Kessinger of Minneapolis.

Secretary-treasurer, William E. McEwen, Duluth.

Federation council, G. W. Deacon, A. M. Turned and S. J. Spencer of Minneapolis, J. J. Henry, C. E. James, J. J. Walsh, Garfield E. Morrison of Mankato.

Stillwater was selected as the meeting place for the convention next year.

The fight that it was rumored would be made by the Twin City men on Secretary-Treasurer McEwen did not materialize. Their scheme was to amend the constitution in regard to the apportionment of the federation funds so that the secretary's salary would be reduced to a nominal amount. The Duluth delegation was so strong in conjunction with McEwen's friends from other points that the resolution was not introduced and McEwen was re-elected unanimously.

The following resolution was unanimously adopted by the convention:

Whereas, The convention of the Minnesota State Federation of Labor at Brainerd has been not only the most important, but one of the most enjoyable in the history of the organization, and

Whereas, Much of the pleasure of the convention has been due to the efforts of the organized workmen of Brainerd, and to her hospitable and open hearted citizens and city officials, therefore be it

Resolved, That we most heartily and sincerely thank the organized workingmen of the city of Brainerd, the citizens, of this beautiful and progressive city, and especially Mayor Con O'Brien for the kind and generous treatment accorded us, and also the daily press for the fair and impartial manner in which they have treated the proceedings of the convention, and we sincerely hope that the citizens, and all who have been thrown in contact with the delegates, will hold toward us as kindly a remembrance as we shall always have of our visit to the city of Brainerd.

The following committee report was adopted:

Your committee, to whom was referred the recommendation of Secretary-Treasurer McEwen, in regard to political action on the part of members of unions affiliated with the federation, do respectfully report as follows:

We recommend the adoption of the recommendations, and that wherever possible the trades unionists secure the nomination and election of men who are members of organized labor who are known to be friendly to the cause of unionism, regardless of thir party affiliation. That, where it is possible to secure the election of a known friend on the Republican, Democratic or Social party ticket, that such action be taken, but that where it is reasonably probable that an independent nomination of one who is an active member of a labor organization, and, who is known to be qualified for the position, can be elected, that support be given to such independent union man in preference to a member of any political party.

And your committee would further recommend that local unions so amend their constitutions and bylaws as to permit the discussion of the merits and demerits of political candidates, or form clubs for that purpose without giving the right to endorse any particular candidate for any political office.

The Courthouse Site.

To the Editor of The Herald:

I see by The Herald that considerable fuss is being made over the location of the proposed new courthouse. Of course not being a resident of Duluth in the flesh people may say it is none of my blessed business, but having had so much material interest in the city at one time and a very keen present "spiritual" interest in its welfare, I sincerely trust that The Herald will make a very good and unyielding fight in favor of a down-town location. When the old building was placed where it is the idea was that the city would grow out that way, but that section has become a distinctively residential portion and is certain to remain so. The business part is growing in the other direction. In a city like Chicago, or New York, one's business may be remote from the center and he may have a long distance to travel to a courthouse, though it be the very pivotal point of the city. But in Duluth there is no such excuse. All the business is pretty well centralized, and near the center of that center should the court house be properly located. Place it somewhere near the present postoffice and you will be all right, and however the city may grow and in whatever direction it may extend those two buildings close together will establish for all time the true radial point. I well remember when we located the postoffice where it is, what a row there was. Had the government listened to some of our zealous friends that structure would have been erected down in Endion somewhere and I suppose there are some there today who would plant the new courthouse up where the pavilion stands. Sightliness, consistency, convenience in transacting business, the best interests of all the city demand, I submit, a down-town site. Harp on it, and hammer for it, and the Lord be with you. Sincerely yours,

F. W. FITZPATRICK.

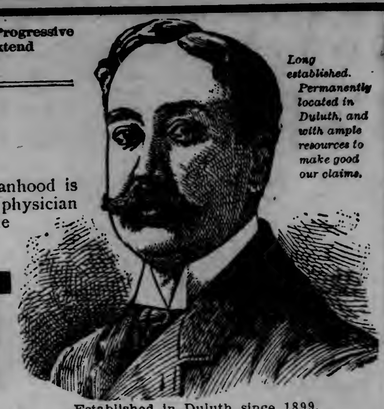
Washington, June 12.

BLOOD POISON is the worst disease on earth, yet the easiest to cure when you know what to do. Many have pimples, spots on the skin, sores in the mouth, ulcers, falling hair, bone pains, catarrh and don't know it is BLOOD POISON. Send to DR. BROWN, 931 Arch St., Philadelphia, Penn., for BROWN'S BLOOD CURE, $2.00 per bottle; lasts one month. Sold in Duluth only by Max Wirth, 13 W. Sup. St.

To the Eagles—A Welcome to Duluth! Progressive in spirit as well as in name, the Progressive Medical Association takes this opportunity to extend THE "GLAD HAND."

We Offer All Afflicted Men

The safest, surest and most modern scientific treatment of chronic venereal diseases. Our success in curing permanently these maladies that wreck manhood is attested by our enormous practice. Men come from every section of the Northwest to receive our advice and assistance. We offer you the services of a physician without a peer in private diseases; a physician who sees and treats hundreds of cases every month; a physician who knows at sight every condition of the chronic maladies peculiar to the male sex—in short, we offer you the services of



Long established. Permanently located in Duluth, and with ample resources to make good our claims.

AN EMINENT SPECIALIST

in Pelvic Disorders of Men.

Established in Duluth since 1899.
The Northwest's Most Successful and Reliable
SPECIALIST IN DISEASES OF MEN.

Urethral Obstructions.

It matters not how long you have suffered from urethral obstruction or how many different doctors have disappointed you, we will guarantee that our treatment will make you as well as before you were troubled with the disease. Our treatment dissolves the obstruction, leaving the urinary passage entirely free from obstruction and irritation. It also relieves any sympathetic disturbance in the bladder or kidneys.

Male Weakness.

This disease of the functions by no means indicates general nervous decline, but is a direct result of inflammation, enlargement or excessive sensitiveness of the prostate gland brought on by early dissipation or resulting from some improperly treated contracted disorder. These conditions cannot always be removed by internal medicines, alone, and any tonic system of treatment that stimulates activity of the functions can but result in aggravation of the real ailment. This is a scientific truth that we have ascertained by careful study and observation in hundreds of cases, and is the truth upon which our own original system of treatment is based. We treat mainly by local methods, and our success in curing even those cases that others have failed to even temporarily relieve with their tonics is conclusive evidence that our method affords the only possible means of a complete and radical cure.

We Cure Permanently
VARICOCELE,
HYDROCELE,
PROSTATITIS,
GONORRHOEA,
STRICTURE,
LOST MANHOOD,
NERVOUS DEBILITY,
KIDNEY AND BLADDER TROUBLES.

Kidney Complaints.

Kidney diseases affect a large number, although many are in ignorance of their trouble and attribute their unwell condition to some other cause. Male excesses, alcoholic liquors, severe sickness, which weaken the kidneys, often produce kidney diseases, and the usual symptoms are highly colored urine, with strong odor, sediment in urine, frequent urination or irregular, chilly and feverish spells, wornout feeling, puffiness under the eyes or swellings. Our long study and extensive practice in the treatment of all forms of Kidney Diseases have familiarized us to the extent that we have attained skill which insures successful treatment in all cases that are not incurable. We determine the condition of the kidneys by a scientific analysis of urine and the many severe kidney troubles we have cured by our systematic course of treatment, after being given up as incurable by other physicians, gives us such confidence in our method as to assure every case we accept a permanent cure.

Specific Blood Poison.

The most hideous of all venereal diseases can no longer be classed as incurable. The idea that the limit of medical aid is to keep the disease dormant by persistently dosing the system with mineral poisons is as incorrect as many other ancient theories to which many of the profession cling. Our cure is thorough and permanent, and every symptom of the disease vanishes forever.

Make it your business to call on us today.

PROGRESSIVE MEDICAL ASSOCIATION

Consultation free and confidential.

WORK IS BEGUN

Improvements on County Roads Being Pushed Rapidly.

Commissioner Kauppi Spends Three Weeks Supervising Work.

"The county road work in my district is progressing very nicely," said County Commissioner Charles Kauppi, who returned last evening from a three-weeks' trip over his district, where he has been giving personal supervision to the road construction.

"At the present time I have probably fifteen miles of road work going on, including repairs on some of the old roads, and the new roads that are being made. This work, particularly the new road work, will be kept up all summer, or at least as long as there is any money left in the various appropriations made for the work. In many places the appropriation made is far from being sufficient for the work that should be done, and the people of such localities usually feel that they have cause for complaint. However, we are doing the best we can with the cash on hand, and endeavoring to make it go as far as possible and do as much as possible in the way of furnishing good highways so that the farmers can get out to the towns and to the markets with their products. While the apportionment of the county road funds to my district seems large as compared with some of the other districts, it should be borne in mind that the district is much larger and more thickly settled than the others. It is the more thickly settled districts that are demanding outlets to the city, the towns and the railroads, and the pressure brought to bear on the commissioner in charge of such a district, when handicapped for lack of sufficient funds to meet the demands, is something that will have to be experienced to be fully realized and appreciated. We could easily use double or treble the amount of money on roads in my district that I am apportioned, and still there would probably be some localities which would not get all the improvement that is really necessary. As it is, we are using the funds as seems best in our judgment, and will endeavor to make as good a showing as possible with the funds that are available."

Commissioner Kauppi has a road district that includes something like 350 miles of road, old and new, exclusive of the new roads that are being petitioned for by settlers and freeholders. Personal supervision of so long a stretch of roadway requires a great deal of traveling and considerable time.

Another road district that has been coming rapidly to the front in the way of mileage and demands for new roads in newly settled districts which are being developed into farming communities is that in charge of Commissioner P. J. Ryan of Hibbing. Mr. Ryan's road district is second only to Commissioner Kauppi's in size, and, were all the roads that have been authorized by the county board in past years actually built, he would undoubtedly have nearly as much mileage to look after. There have been many instances, Mr. Ryan claims, where the county board has in past years authorized the building of new roads, but because the funds were not forthcoming for the improvement, the highways have never been opened. This year Commissioner Ryan, who practically enters on his first season of road supervision, has made a determined effort to get a larger share of the county road apportionment and he has succeeded fairly well, getting several thousand dollars more from the county than his district has received in previous apportionments. This amount, together with the large amount that is raised by the town itself, is expected to mean a great deal accomplished this year in the way of good roads in the Hibbing district.

So far as can be learned the road work in the other districts, under the supervision of Commissioners Kugler, Morcom and McInnis has received a good start. With one possible exception in Commissioner Kugler's district the road foremen have been selected and operations have been going on in the way of repair to old roads and the construction of new roads, for the past ten days or two weeks.

GO TO COMPETE.

Duluth Woodmen to Drill In Milwaukee.

On Saturday two companies of Modern Woodmen of the uniform rank will leave Duluth for Milwaukee, accompanying N. N. Ole of Duluth who has been elected a state delegate to the national encampment which meets in the beer city, next week. These two companies will enter the competition for prizes for the best drilled companies and hope to come back with some scalps at their belts.

There will be three competitions—the senior, junior and "pony". "Old Hickory" company from West Duluth, which won third prize in the junior competition in Indianapolis in 1903, will this year enter the senior competition drill. The company from Duluth camp No. 2321 of the West End will enter the junior class competition.

The prizes are worth while. For instance, the first prize in the senior class is $700 and others are graded down, the first in the junior is $350, and $75 for the first in the "pony" class.

BRIEF TELEGRAMS.

Rollo Pecks of Dayton, won the championship of Ohio and the L. C. Smith trophy at the state tournament of the Ohio Trap Shooters association at Canton.

With the sheriff enjoined from interfering by a local court commission, though ordered to prevent the fight by Governor LaFollette and Mayor Minehan as judge, to decide whether the battle was an infringement on the law against prize fighting, Kid Sayers of Milwaukee boxed Tommy Mowatt of Chicago, eight fast rounds to a draw at Green Bay, Wis., Wednesday night.

T. B. Walker, the millionaire lumberman of Minneapolis, denies the charge of L. E. Aubrey, state mineralogist of California, that he had illegally filed on certain lands in Northern California, and is of the opinion that politics are back of the charges.

On behalf of Kid Sullivan of Washington, his manager Al Hereford of Baltimore, has accepted the offer of the Hayos Athletic club of Pasadaca of a purse of $15,000 for a twenty round fight with Jimmy Britt in that city, July 15. The question of weight seems to be the only important one yet to be agreed upon. Sullivan and Hereford will leave for the coast next week.

ROBBERS BEAT SMALL CHILD.

Shelbyville, Ind., June 15.—Mary Hall, 5 years old, is in a dying condition today as the result of being beaten by robbers, who entered the Hall residence yesterday while the mother was absent on an errand. Bruce Britton, aged 35, has been arrested at Prescott, and two strangers are in jail here awaiting an investigation. At night crowds of angry men collected in various parts of the city and threatened violence to the assailants. It is believed that even now the guilty person will be summarily punished if sufficient evidence of guilt is discovered.

FOR THE PUBLIC GOOD

This Will Interest Every Resident of Duluth.

You can readily verify the following particulars, for the gentleman supplying them will be only too pleased to answer any inquiries by mail. If you suffer from disorder of the kidneys or bladder and desire to be cured write him about Doan's Kidney Pills and learn the following statement is true in every particular:

Capt. M. McLean, marine captain, living at 4324 Gilliat street, Duluth, Minn., says: "Lapse of time has only strengthened my appreciation of Doan's Kidney Pills. I gave this remedy my hearty endorsement in the summer of 1898 because of the good results I had obtained from the use of it. It promptly and effectually rid me of a dull heavy aching just over the kidneys, banished the restlessness that broke my sleep at night, and brought about a healthy and natural action of the kidneys. Since that time there has been no return of the trouble, which fact convinces me that Doan's Kidney Pills cure permanently."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and take no other.

OFFICERS CHOSEN

Duluth Retail Grocers' Association Holds Its Annual Meeting.

Arrangements Underway For Annual Picnic to Be Held Soon.

The annual meeting of the Duluth Retail Grocers' association was held last evening in the Axa building. This being the occasion for the election of officers for the coming year there was little other business taken up by the association.

The election resulted as follows: President, George H. Ebert; first vice president, George H. Schulenberg; second vice president, Charles Kauppi; secretary, Bert Holcomb; treasurer, W. B. Logan.

The board of directors for the coming year is comprised of the following grocers: Henry Folz, Edward Dormedy, T. W. Walker, D. D. Rush, Richard Dinham, Harry E. Christian and C. E. Lawrence.

Charles A. Full, president of the North Dakota Retail Grocers' association was a visitor at the meeting, and, in the course of his remarks, paid the Duluth association a compliment for the energetic and systematic manner in which it is carrying on its work. Mr. Full also talked at some length about the pure food laws of Minnesota and North Dakota. He said that while the pure food laws of either state had, doubtless, resulted in much good, there is still a chance for a big improvement and he urged on the grocers the necessity of living up to the laws already passed. Mr. Full also advocated the idea that the grocers insist that the wholesalers and jobbers furnish them with pure goods.

Several members of the local association also talked of the pure food laws and about other matters of interest to the grocers, and some of the officers-elect spoke a few words of appreciation of the confidence of their fellows in electing them to office.

The grocers discussed for a time the question of their annual picnic and it was finally decided to leave the matter in the hands of the committee which will make a report with recommendations at the next regular meeting, to be held Wednesday evening, June 28.

Last year the Duluth Retail Grocers' association held its annual picnic at Lincoln park, where the attendance was very large, and where the usual athletic events were pulled off. In view of the crowd that usually attend the picnics when held in the city, and the discomfort caused by riding long distances in crowded street cars with their families and dinner baskets, there is quite a sentiment among the local grocers for the selection of some out-of-town location for the picnic this year.

Moose Lake, on the Northern Pacific road in Carlton county, has been mentioned as one of the tentative sites for the annual picnic. It is claimed that ample train service could be had with a low round-trip rate and that the facilities for an outing at Moose Lake are of the best.

ARRESTED FORGER ADMITS IDENTITY.

Pittsburg, June 15.—John M. Reed, one of the three men arrested here on the charge of altering, raising and forging United States postal money orders, admitted to the authorities yesterday that his name is John Wilson, and that he had served three years in the penitentiary. The identity of the other two men, who gave their names as Joseph Stewart of New York, and John Whitney of Binghampton, N. Y., has not yet been established.

From a small book found in the possession of Wilson, it was shown that he had operated in almost every city of importance in the United States.

The accused waived a hearing in the United States court and in default of $2,000 bail each were committed to jail for trial at the July term of court.

DEADLY SHELL BURSTS.

Gibraltar, June 15.—During gun practice on board the British first-class battleship Magnificent, off Tetuan yesterday afternoon, a six-inch shell exploded. Eighteen persons, including four officers, were wounded, eleven of them seriously. The officers are among the seriously wounded. The explosion was due to a defect in the breech. The shell burst inside the gun. The wounded were brought here last night.

HEAVY SALES OF STEEL RAILS

Most Important Transactions of a Rather Quiet Week.

Cleveland, June 15.—The Iron Trade Review this week says: The most important transaction of a rather quiet week was in rails, the principal orders being: Erie 15,000 tons; Big Four 6,000 tons; Chicago & Alton 5,000 tons; Illinois Central 10,000 tons; Buffalo, Rochester & Pittsburg 3,000 tons; Valley Road 3,000 tons, and Cleveland Traction companies 6,000 tons. The Dominion iron and steel company, at Sydney, Nova Scotia, has obtained an order for 25,000 tons of rails from the Intercolonial railway company in competition with mills of the United States, Germany and Great Britain. The pressed steel car company has received an order from the Japanese government for 900 box cars, which, closely following the order for 1,000 cars awarded to the American Car & Foundry company gives some indication of the demand for American products which may be expected as soon as peace is a certainty.

The demand for merchant pipe shows still further improvement, and the low prices of a few weeks ago do not now prevail. None of the furnaces or steel works supplying the mills producing heavier forms of material have been shut down, nor will they be closed even for the regular summer repairs, on account of the tremendous tonnage now being carried on the books of the the steel manufacturers.

The northern pig iron market has followed the southern in weakness. On No. 2 foundry $15, valley, is the ordinary price, and it is probable that this could be shaded. The naming of lower prices, north and south, has encouraged buying.

The erection of a large blast furnace by a Cleveland firm is announced and it is expected the stack will be in operation within a year.

The prompt settlement of the bar iron scale made by the Republic Iron and steel company will be accepted by all independent iron manufacturers employing union men.

The International Harvester company has made a conversion contract of considerable interest by which it will furnish steel billets and blooms to a Chicago company, which will convert them into bars and shapes, thus giving the harvester company a wide range of sizes and shapes. In order to comply with its contract, the company which will make the conversion will install a 12-inch mill at East Chicago.

LEARN FROM JAPS.

Guns In Fighting Tops Are to Be Removed.

New York, June 15.—Orders were received at the New York navy yards yesterday from the navy department at Washington, to remove guns from the fighting tops of the battleship Alabama. Orders have been issued also that the guns are not to be replaced on the fighting tops of the battleship Indiana, which is being repaired. It is reported that the guns are to be replaced by range finders and that similar orders were to be issued regarding other battleships. The news of the victory of Admiral Togo in the battle of the sea of Japan is said to have influenced the decision to put range finders in place of the one-pounders which have occupied the tops.

The fate of the battle was decided by the superiority of the work of the Japanese gunners, while the ships were still at long range. The department was informed that the aim of the Japanese gunners was due to the efficiency of the men with the range finders whom the Japanese had placed in the fighting tops and were thus able to "pick up" the Russian ships at a far greater distance than the Russians could locate the Japanese.

$21.35 Asbury Park & Return Via Erie R. R.

June 29, 30, July 1 and 2, limited to Aug. 31; good to stop at New Ydrk, Cambridge Springs, Chautauqua and Niagara Falls. Tickets on sale also to all tourist points—Chautauqua Lake; Niagara Falls, etc., good until Oct. 31. Full particulars 555 Railway Exchange, Chicago.

DROWNS IN CREEK

Young Colored Boy Meets His Death While Swimming.

Another Tragedy Averted By Heroism of Ernest Webster.

While swimming in Chester creek yesterday afternoon, Elmer Johnson, a colored boy seventeen years of age, the son of H. E. Johnson of 814 East Seventh street, was drowned, and the body washed out into the lake.

The Johnson boy and Artie Sheehan were swimming in a deep hole about fifty yards from the lake shore. The stream was swollen by the heavy rains of Tuesday night, and the current was terrific. No sooner had the boys entered the stream than they were carried from their feet, and swept under the surface. Both screamed for help as they felt the water overpowering them, and Paul Demar and Theodore Yowel responded. A plank was pushed out in the stream, and Sheehan succeeded in grasping it. The Johnson boy was farther out and was unable to reach the plank.

He was carried down by the swift current and the body swept out into the lake.

Efforts were made by the life saving crew to recover the body, and the lake was dragged for some distance about the mouth of the stream, but the efforts were fruitless.

The father of the boy is H. E. Johnson, who owns a barber shop at 27 East Superior street. The father has been in Duluth a number of years, and is very well and favorably known. The boy is said to have been a modest and gentlemanly young fellow of rather more than the average ability.

All the creeks running through the city are dangerous at the present time owing to the heavy rains. Clarence Gustafson, a 7-year-old boy living at Twenty-fourth avenue West and Eight street narrowly escaped being drowned in Miller's creek yesterday afternoon. He was swept from his feet, and if it had not been for the heroic act of Ernest Webster, a 15-year-old boy, he would have met his death in a similar manner to the Johnson boy. Young Webster plunged into the stream and pulled the little fellow out of the swift current.

CONVICTED OF ROBBERY

In Second Degree and Sentenced to Reformatory.

Two Harbors, Minn., June 15.—Andrew Johnson, commonly known as "Sullivan" Johnson, was yesterday convicted of robbery in the second degree in the district court of Lake county. The case has been on trial before Judge Homer D. Dibell and a jury since Monday morning. County Attorney B. F. Fowler represented the state and C. O. Baldwin of Duluth, was attorney for the defendant. Johnson was given a reformatory sentence with date of expiration not stated.

The crime for which Johnson was convicted was committed April 17, 1905, between 9 and 10 p. m. He, W. W. Cusick and the complaining witness, Peter Nelson, were intoxicated, started for the resort outside the village, and when near the county road crossing Johnson attacked Nelson as the latter had refused to furnish him some money. After a struggle, in which Nelson was badly beaten, he succeeded in drawing a knife and did excellent work in the line of carving Johnson's anatomy in various places. Finally Cusick, who at first remained in the rig, stopped the horses and came to the rescue of Nelson, or it is probable that one of the two would have been killed.

BABY'S VOICE

Is the joy of the household, for without it no happiness can be complete. How sweet the picture of mother and babe, angels smile at and commend the thoughts and aspirations of the mother bending over the cradle. The ordeal through which the expectant mother must pass, however, is so full of danger and suffering that she looks forward to the hour when she shall feel the exquisite thrill of motherhood with indescribable dread and fear. Every woman should know that the danger, pain and horror of child-birth can be entirely avoided by the use of Mother's Friend, a scientific liniment for external use only, which toughens and renders pliable all the parts, and assists nature in its sublime work. By its aid thousands of women have passed this great crisis in perfect safety and without pain. Sold at $1.00 per bottle by druggists. Our book of priceless value to all women sent free. Address

IS GREATER THAN ROYALTY ITSELF.

FACTS, LEGAL AND OTHERWISE

With Regard to the Street Railway Service and Franchises.

To the Editor of the Herald:

The matter of street railway service and management in Duluth is a live topic just now. As a taxpayer, and having been interested in public service corporations in several cities, I have devoted somo time to the study of this subject, and I herewith present certain facts, legal and otherwise, which I think, will be read with interest:

The franchise of the Duluth Street Railway company, like the franchise of all other public service corporations, is a contract by which the company is given the right to use the streets in certain specified ways, and in consideration of this right to so use the street, the company agrees to do certain specified things. This contract is mutual and binds both parties as specified therein, or it has no value or validity. In addition to the duties imposed by its franchise, the company is also legally bound to do such other things as may be required by the general laws of the state or municipality, unless protected by its franchise. All such franchises are also always taken subject to the police power of the state and also of the city where located; and this police power is a power which cannot be taken from the state or from any city therein by contract or otherwise.

This police power of cities as first recognized by the courts, was confined strictly to matters relating to public health; then was extended to public morals, and more gradually to public safety and convenience.

The company is operating in Duluth under three different franchises—one made on the part of the city by the state legislature, one by the village of West Duluth, and one by the village of Lakeside. The important parts of each contract are practically identical—the right to use the streets as specified in each contract is conditioned on the company doing certain things, not on doing some of the things agreed upon, and omitting others, but all things specified must be done by the company or the right to use the streets is subject to forfeiture. In the Madison, Wis., case, the street railway company failed to keep the portion of the street between its rails in the condition specified in the contract, and the courts held this sufficient grounds for forfeiture of the franchise. This seems like an extreme case, but it is right. Business men are forced to keep their contracts exactly—why should there be a different rule for street railway corporations? From careful examination of the decisions of the various state courts it will appear that the failure by the company to perform any essential thing as provided by its contract renders such contract voidable at the option of the city.

The Duluth street railway agreed to keep the part of the street between its rails clean—up to this time they have succeeded in shifting this burden on to the taxpayers. They agreed that all the cars in use in the city of Duluth shall be equal to the best cars in use on similar lines in other cities. The majority of Duluth citizens are still shivering in winter and taking many hard jolts all the year around in the single-truck, bob-tail cars which should long ago have been barred from our streets.

The company agreed to pay a license fee for every car used in West Duluth each year. Mr. Lowry asks us to believe that he has just learned of such a provision in the contract. The company agreed to build a line on Grand avenue west. After waiting years the people, after long litigation, compelled them to build this line by order of court, and they complied by building a single track line on which they are now giving a service so poor that the people can not and will not use it. The city under its police power can and should compel the double-tracking of this line at once and then force the company to put on a 10-minute service with modern cars.

The city bought and improved one of the most beautiful 40-acre parks the writer has ever seen, and ordered the street railway company to extend the Grand avenue west line so that the park might be used. After some years of negotiations the president of the Street Railway company at a public meeting agreed to build the required extension. The city then expended $6,000 of the taxpayers' hard-earned money to strengthen two bridges on the agreed line, and still the people walk to the park and hear it rumored that the company has concluded that walking is beneficial and necessary for its patrons, providing they take a street car both before and after taking the walk.

When the Grand avenue west line was first ordered extended to the park, the company employed its usual tactics and tried to get the people divided, by suggesting a line up on the side hill. The West Duluth people at once agreed that the side hill line was badly needed and have ever since unitedly been urging the construction of both lines. These two extensions of nineteen blocks are the only extensions which the city has asked from the company and they must be constructed. The Grand avenue extension would not only make the park available to the whole city, but it would accommodate a large population living near the park, at Ironton and Smithville and eventually will necessarily be extended to New Duluth and Fond du Lac.

At the recent street railway meeting at the city hall many of our citizens were there asking the company for some changes in running of cars. These matters are all entirely under the control of the city council. The council under its police power is sole judge of what is necessary for the safety and convenience of the public, and public service corporations are as certainly subject to the orders of the council as the humblest individual. If your 20-minute service is inadequate, satisfy the council of that fact and the remedy is easy to find. If the Woodland car should be run to the end of the track, the council can so order and it must be done. If more extra cars are needed at certain hours to properly accommodate the public the police power of the city is ample to compel the change.

If the tracks are dusty the company can be compelled to sprinkle every foot of its tracks sufficiently to keep the dust down. This has already been recommended by the city health officer and should be enforced at once.

And in the matter of taxes we who are fortunate enough to own property in Duluth pay our taxes based on about 50 per cent of the actual value of the property, whether profitable or unprofitable and with no reduction for mortgage.

The street railway company property is mortgaged for $2,500,000 with stock of a like amount or $5,000,000 in all. The property is certainly worth $2,500,000 at a low estimate, its income is nearly $500,000 annually, with a certainty of great increase of value as the city grows. I am told that the company pays taxes on only about $400,000. Why should they not pay on the samo basis as the rest of us pay on?

In that case their assessment would be about $1,750,000 instead of $400,000 and the tax would be about $52,000 annually instead of $12,000, as at present.

Now in conclusion let me say that the people of Duluth have been and still are very patriotic and friendly to the Street Railway company, but if the company should now "forget to remember" that its most valuable asset is the good will of the people it serves and should refuse to comply with the reasonable requirements of the city, they will make grave errors. Mr. Lowry sneered about the city of Superior trying to cancel his franchise over there. But the courts lopped twenty-five years off from his franchise just the same, and now they are after the balance of it. Every franchise of the Duluth Street Railway in Duluth is today subject to forfeiture for failure to comply with some essential condition thereof.

The growth and prosperity of every city is dependent largely upon the kind of service it gets from its public service corporations. The prosperity of every public service corporation rests largely on one or two conditions: Either the public is careless and allows itself to be robbed of its rights, or the corporation has recognized the present trend of public opinion, and has earned, and enjoys the friendly co-operation of the public which supports it. The local general manager, Mr. Warren, is justly popular in Duluth, but Duluth is unfortunate in the fact that the actual control of its street railway is held by non-residents, who have other large interests, and who do not keep in touch with the people here. To get the highest dividends now, and for all future time, this street railway corporation must be quick to comply with all reasonable public demands. A few thousand dollars may be temporarily saved by refusing to construct the lines and improve the service as now demanded by Duluth, but it will be an example of very poor economy.

Duluth, June 14. W.

HOW'S THIS?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO., Toledo, O.

Take Hall's Family Pills for constipation.

STRIKING FIGURES

Who Aspire to Succeed Roosevelt In the White House.

Secretaries Shaw and Taft In Good-Natured Rivalry.

Washington, June 15.—Naturally enough, every one ignores it, both socially and officially, and yet every one is painfully and fully aware that the administration has in its inner family circle two presidential aspirants. It's as good as a play to watch the developments at close range and to see the way in which Mr. Leslie M. Shaw and Mr. William Taft alternately score in their appeals to popular favor.

Neither one of them admit that such a thing is possible. Secretary Shaw has grown real confidential with more than one man who has come to Washington to learn the color of the paint on the 1908 band wagon, and told him just how the matter stands—that it is absurd and impossible for any man to be a candidate for the presidency and that, as a matter of fact, no man really even becomes a candidate for that office. The secretary is genuinely in earnest when he says it, too. He will explain in the earnest, frank way just what he means. He will say that no man can go before the 80,000,000 people in the United States and make himself the accepted candidate of the dominant party. He can grasp the psychological moment when it arrives; he can keep before the public eye with a lightning rod that reaches skyward; he can show that he is a man big enough and great enough and of the right sort to stand before his fellow-men as the first man among them. But that it all that he can do.

Now, in all that is said here it should be understood that Secretary Shaw's own ideas are fully accepted. He is not a candidate for the presidency, in the common sense of chasing the nomination from pillar to post, in the hope of capturing it, but what he is doing just now is nursing a quiet ambition, waiting the psychological moment and showing folk that he is the right sort to be made president when they turn toward the president-making business.

It looks like Shaw will have to go it alone. He is able to do it. In fact, no other man in the country is better able to keep before the public eye, without an active press agent, or monitor, or moneyed delegate-hunter scouring the Southern states.

You realize this the moment you get to know him well enough to talk with him in his office in the treasury building without the formality of an introduction or having to run the gantlet of private secretary or sable door attendant. He doesn't say he has not yet had time to make up his mind, nor does he jump at rash conclusions. He just wheels around on you, stretches out his hand and pulls you into one of the soft upholstered seats beside him. Then he reaches over on the desk for a paper knife or one of the little copper weights which were sent to him by the bureau of standards, as a sample. This he will whirl nervously. Two sentences and two minutes of time are sufficient for him to slip down deep in his chair, until a part of his weight is resting on his shoulders, and then up go his feet on the stenographer's slide above the top drawer of his desk, and he will launch forth into what he has to say. He doesn't always pose as an oracle and give his opinion with the usual "It is my opinion," or "I'm led to believe," or "I think," but more often he starts out with "Out of our state there was a man who——" and then he tells of some back country character, with such a faithful portrayal of the type that you can almost see the man before you. Into the mouth of this Iowan he puts a parable or pointed story, and, while you are laughing heartily at the pointed allusion, he turns back to his work. It doesn't dawn on you at once, always, just how the tale is to be applied, but when you get a moment for thought you find an exact parallel is offered, which gives you a clearer insight into what the secretary has thought about a grave matter than if he had given his opinion in the ordinary and direct way.

The Shaw handshake, the Shaw hearty, frank manner, the Shaw shrewdness and alertness, have all been more or less exploited by the daily as well as the illustrated press, but the Shaw inimitable story has never been properly eulogized, although often mentioned. It is the story of the everyday type. It is the story often of the man of the last generation, "who knew my father" or "who my father used to tell about," but it is the story that never fails to bring back to the mental vision the type at the corner grocery, or fresh from the harvest field, or dressed in his "Sunday best," with high top boots, a much wrinkled Prince Albert flopping about his shins, and a laprobe in one hand and a long, fancily tasseled buggy whip in the other.

The way these stories fit, too, is a marvel. It's an art that few men can master. It must come as an inheritance. Just a day or two ago before the secretary went South on the trip he is making this week, he extended the glad hand to a caller, whose face he recognized, but whose name had slipped his mind for a moment. The secretary was not abashed, nor did he hesitate. He sized up his man as one of the kind he could dare to be familiar with, and, when he took his hand, he held on to it, and led him over to the window. He began with one of his homely tales of "a man back in Iowa" who had forgotten the name of a caller, and in a moment had his visitor convulsed, and giving his name and errand, in the most joyal mood imaginable, entirely forgetful of the fact that his personality, at the previous meeting, had not impressed the secretary sufficiently for him to be remembered. Then the secretary began to tell of the tricks of the politician—with whom he never admits kinship or interest. He said he was often reminded of the habit of Governor Holcomb of Indiana, who used to ask every man he met, "What time is it?" and, when told, would pull out his handsome imported $500 Swiss timepiece and proceed to set it in accordance with the information. For years he did this, and the subtle flattery of accepting without question the accuracy of the individual timepieces, which nine out of every ten pride themselves on possessing, was quite sufficient to give him wide popularity.

After all, it's the qualities of a "mixer" that make Shaw formidable in the presidential contest to be. No other word in the vocabulary of the present-day American carries exactly its full sense. Then Shaw seems to be pursuing a steadfast course along a well-determined line. He is training with the conservative element of his party and of the nation. He is already firmly and fully identified with the "stand pat" element of his party. He is taken up by the "safe and conservative" folk of the East as well as the rural and "common folk" of the Middle West, who like his homely ways and homely oratory.

This very fact gave rise to one of the incidents or by-plays of official Washington on a recent day. The president and the secretary of war had thoroughly discussed and whipped over the question of buying canal supplies in the open or foreign market. They decided that as long as they had formally asked congress for authority to confine the purchases to the home market and involve the additional expense they had done, their full duty, and now they could find warrant for going abroad and purchasing there at less expense. The new policy was announced. There was a storm of criticism.

There were honest differences of opinion, but many seemed to subordinate their views to those adopted by the administration. It was a time for the sycophant and lickspittle to come forward. Shaw was not of the class. He believed that the proposed policy was an assault against the principle of protection, which his party had always espoused, and which was responsible for most of the good that has come to the great republic. His honest opinion Shaw stated. He was not disloyal to the administration of which he was a part, for he gave no public voice to his views. He told the president, when he was asked, and satisfied the president that he knew why he held to a view different from that he had adopted. But a few days were sufficient to demonstrate that he had many men of his party—the party that made Mr. Roosevelt what he is and put him where he is—with him, and there were no hard feelings in the administration circle.

While Mr. Taft really and sincerely had no ambition in that direction a year ago, he is now thoroughly established as the administration candidate for the presidency. A year or more ago, shortly after he came back from the Philippine islands, he had no desire other than to serve as secretary of war, as his father had done, and then go to the United States Supreme Court bench, the goal of all lawyers of great ambition. Some of his friends whispered of the presidential possibility, and he turned to them quite frankly and said:

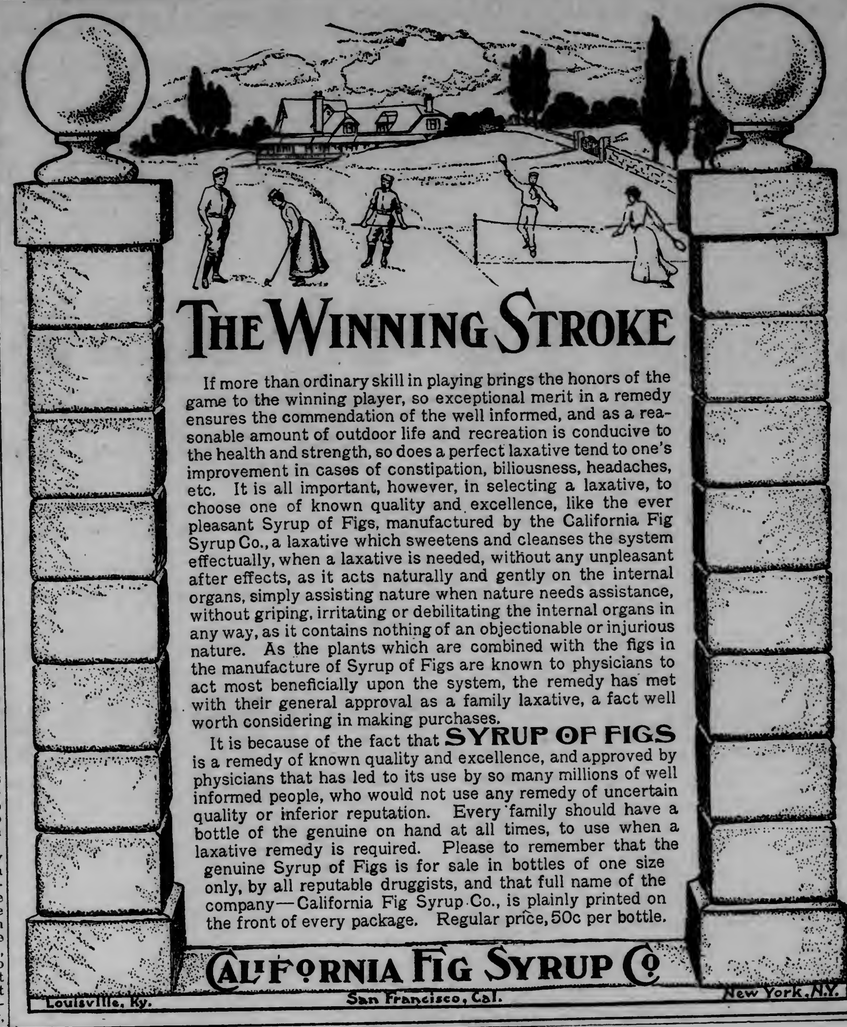
"I never could be elected, even if I sought the place. My record as a judge on the labor question would make it impossible."

But, in spite of the fact that he did nothing to encourage the movement, was indifferent to the politics of his own state and to the national political drift, he is right now the most formidable candidate before the people. Much has been due to his own great personality, and the fact that he has done the things that came to him to do, and done them well, without thought of what the effect would be on his own career before the public. Perhaps as much more is due in the way the administration has continually thurst him under the limelight.

No opportunity has been allowed to pass. This is due, in part, to the President's partiality for Taft, and in part to the fact that this is a time when the country is doing great things, and to only a great personality could the President turn. The time has passed when the politicans say that Roosevelt "is riding to his fall"; when they assert that some great, grand, colossal mistake on the part of the administration is going to crash the people's idol. They used to say that, but since then he has committed every possible "mistake" that has ruined the fortunes of every man who ever came up for popular approval. He has assuited the money power, tackled the race question, mixed in the most sacred principles of the home and the fireside, made enemies among powerful labor unions, and through advocacy of the "open shop" assulted one of the dearest principles of union labor agitators. But all these things have been to his favor, so that men now say that, no matter what he does, he "must carry a rabbit's foot in his pocket" that turns all to good account. Under the circumstances, adminstration favor and adminstration interest in the struggle before the convention in 1908 will count for much.

The well understood and taken for granted candidacy of both Taft and Shaw has led to much chaff and good-natured raillery toward and between the two men. All culminated the other day when Mr. Shaw gave the Washington correspondents a dinner down the Potomac, tendering the use of the revenue cutter Windom for the trip to and from the resort. On the way back the fort below the city suddenly started to "pick out" the revenue cutter with their great and powerful searchlights, which, at a distance of five miles, illuminated the Windom so you could read on her deck. It was a part of the practice work of the men at the fort, preparatory to the maneuvers and battle exercises of this week, but it is difficult to imagine how confusing the flashing lights were to those in charge of the cutter. It all ended by the cutter going aground beside the narrow channel, as she was a deep sea-going vessel struggling along the narrow, tortuous stream. There the correspondents and the secretary of the treasury were apparently marooned for the night. But out from the fort came a small tugboat which, pushing alongside, took secretary and guests aboard and brought them in safety back to Washington, while the Windom waited for high tide to float her off.

What could made a sweeter morsel than this for cabinet table gossip? Was not the secretary of the treasury warranted in complaining that while he had the entire corps of correspondent with him the secretary of war, by cunning plot ordered the forts under his control to confuse the revenue cutter's pilot and send all aground? And what could have been more humiliating than to have a war department tug come over from the fort and rescue the marooned secretary and his hundred guests, and thus win from him the favor he had secured? They are bantering each other over it yet.



THE WINNING STROKE

If more than ordinary skill in playing brings the honors of the game to the winning player, so exceptional merit in a remedy ensures the commendation of the well informed, and as a reasonable amount of outdoor life and recreation is conducive to the health and strength, so does a perfect laxative tend to one's improvement in cases of constipation, biliousness, headaches, etc. It is all important, however, in selecting a laxative, to choose one of known quality and excellence, like the ever pleasant Syrup of Figs, manufactured by the California Fig Syrup Co., a laxative which sweetens and cleanses the system effectually, when a laxative is needed, without any unpleasant after effects, as it acts naturally and gently on the internal organs, simply assisting nature when nature needs assistance, without griping, irritating or debilitating the internal organs in any way, as it contains nothing of an objectionable or injurious nature. As the plants which are combined with the figs in the manufacture of Syrup of Figs are known to physicians to act most beneficially upon the system, the remedy has met with their general approval as a family laxative, a fact well worth considering in making purchases.

It is because of the fact that SYRUP OF FIGS is a remedy of known quality and excellence, and approved by physicians that has led to its use by so many millions of well informed people, who would not use any remedy of uncertain quality or inferior reputation. Every family should have a bottle of the genuine on hand at all times, to use when a laxative remedy is required. Please to remember that the genuine Syrup of Figs is for sale in bottles of one size only, by all reputable druggists, and that full name of the company—California Fig Syrup Co., is plainly printed on the front of every package. Regular price, 50c per bottle.

TO WHOM IT MAY CONCERN:

Notice Is Hereby Given, That an application has been made to me by Katarzyna Blazejeskl, under the provisions of Chapter 42, General Statutes of 1894 of the State of Minnesota, and acts amendatory thereof and supplementary thereto, for a deed to the following described land situate in the County of St. Louis and State of Minnesota, and described as follows, to-wit:

So much of Lot fifty-five (55) on West Drew Street in "Duluth, formerly called Portland," as lies within the limits of Lots fifteen (15) and sixteen (16) in Block one hnudred twenty-eight (128), Portland Division of Duluth, according to the recorded plat thereof.

That said application will be heard before the undersigned at Chambers, at the Court House, in the City of Duluth, in said County of St. Louis, Minnesota, on Saturday, the 24th day of June, A. D. 1905, at 9:30 o'clock a. m., at which time and place all persons claiming such portion of said Lot 55 or any right, title or interest in the same or any part thereof, are hereby summoned and required to attend and establish their right to receive a deed for the portion of said lot above described, or make any objections they may have to the granting of said application.

And It Is Hereby Ordered, That notice of said application and hearing be given to all parties in interest by the publication of this notice in The Duluth Evening Herald, a daily newspapper printed and published in the City of Duluth, St. Louis County, Minnesota, once in each week for three successive weeks before said day of hearing.

Dated June 1st, 1905.

By the Court,
WM. A. CANT.
Judge of said District Court of the Eleventh Judicial District in and for St. Louis County, Minnesota.

JOHN BROWN,
Attorney for Petitioner,
400 Lonsdale Building, Duluth, Minnesota.

ORDER FOR HEARING PROOF OF WILL.—

State of Minnesota, County of St. Louis. —ss.

In Probate Court, Special Term, June 1st, 1905.

In the Matter of the Estate of James Hancock Clifford, Deceased:

Whereas, an instrument in writing, purporting to be the Last Will and Testament of James Hancock Clifford, deceased, late of said County, has been delivered to this court;

And whereas, James W. Parker has filed therewith a petition, representing, among other things, that said James Hancock Clifford died in said County on the 30th day of May, 1905, testate, and that said petitioner is the executor named in said Last Will and Testament, and praying that the said instrument may be admitted to probate, and that letters testamentary be issued thereon to James W. Parker.

It Is ordered, that the proofs of said instrument, and the said petition, be heard before this Court, at the Probate office, in the City of Duluth, in said County, on Monday, the 26th day of June, A. D. 1905, at 10 o'clock in the forenoon, when all persons interested may appear for or contest the probate of said instrument;

And it is further ordered, that notice of the time and place of said hearing be given to all persons interested, by publishing this order once in each week for three successive weeks prior to said day of hearing, in The Duluth Evening Herald, a daily newspaper printed and published at Duluth, in said County.

Dated at Duluth, Minn., this 1st day of June, A. D. 1905.

By the Court,
DAVID H. LAWRENCE,
Judge of Probate of Lake County, Acting Judge of Probate of St. Louis County, Minn.

(Seal Probate Court, St. Louis Co., Minn.)

Duluth Evening Herald, June-1-8-15-1905.

Duluth Jobbers do not expect Northwestern merchants to buy from them if they can do better elsewhere. They do expect, however, that the merchants will not assume that they can do better without giving Duluth goods a chance. They say, "examine our stocks carefully, take note of the style, quality and prices, make any comparisons you please, and then if you do not think it to your interest we shall not have one word to say. We want your custom but we want, first of all, to deserve it."

FORTUNES MADE

And to Be Made In Farming, Say the Statistics.

Secretary Wilson Is the Greatest Farmer In the World.

Washington, June 15.—There is a man in this country whose net income from a farm of eighty acres is $4,000 a year. And he never works more than ten hours a day. Nor was he a farmer when he began his life in the woods; on the contrary, he was a banker, broken in health as well as in circumstances. He raises chickens and makes butter. One of his daughters keeps his books and she says the profit on each hen, accurately ascertained, is $1.81 annually.

I went to the agricultural department with the question: "Does farming really pay?" Other inquiries followed naturally. There is more stir among the farmers of the government than will be found anywhere else, except in the White House. They are steaming with energy and enthusiasm, being evangelists, as well as scientists. The secretary, James Wilson, might be called the boss farmer of the nation, possibly of the whole world. He has been a land owner for half a century, settling in Iowa when he came here an immigrant from Ayrshire, in Scotland. It is said that he has a farm of 1,200 acres, and that he wrought in the ground with Scotch diligence and sagacity until he amassed a large fortune Anyway, he lives in good style, drives a spanking team of horses and bears all the signs of content and prosperity.

But he will not talk about his own land; neither will he touch upon his own experiences. He is a shrewd, unemotional and practical agriculturist. When I saw him he was up to his ears in business, and his spectacles were at the tip of his nose. A kindly man ordinarily, and a mighty wise one. His face today, however, was as inscrutable as a grindstone. McKinley found him to be an able counselor in general matters and a sure reader of agricultural sentiment; so, also, has Roosevelt. Nor is there reluctance among Democrats in congress to say that James Wilson is the greatest farmer ever called to the president's cabinet. His whole branch of the government is quickened by personal ardor and steadiness.

In ancient Persia the people were taught that they must have children, plant useful trees, destroy noxious animals, bear water to the dry lands and attain to salvation by the labors of agriculture. "He who sows the ground with care and diligence," they said, "acquires a greater stock of religious merit than he could gain by the repetition of 10,000 prayers." In the spring of each year the farmers ate at the same table with the king and his ministers. In the spirit of all these things, James Wilson is an old-fashioned Persian. A shrewd and conspicuous business man of the central West, a man of banks, factories and wholesale establishments, was here the other day.

"The people," he said to me, "don't knew what the agricultural department of their government is doing for the national welfare. It is the most useful agency there is in this country for the promotion of prosperity and happiness. And the best of it is that everything is free. A postal card from any farmer will bring him every scrap of information that he needs. But he must read it, study it, and not throw it away.

"Among my interests is a factory where fine fruits and vegetables are put into cans for those who can afford to pay for them. I offered good prices to the neighboring farmers, but they were too ignorant and silpshod to supply me with the things I wanted. So I bought two or three big farms of my own. I was not a farmer, but I thought I could learn to be one, and could apply common business principles to the production of crops. The scientists of the agricultural department told me how to plow and plant, gave me information about my soil, advised me as to fertilization and taught me all I know. Under their instruction I went to work. The clodhoppers came and hung over my fences and called me a book farmer, but I showed them how to grow 100 bushels of good peas instead of thirteen bushels of poor ones on an acre of ground. I gave them lessons in beans and asparagus and in tomatoes and fruits, and now the whole community is alert, busy and prosperous.

"Bright young men," James Wilson says, "are needed in the country. The opportunities offered by the cultivation of the soil seem to be as great as any other field. So far, however, little effort has been made to overcome the general belief that there is always a large amount of drudgery connected with farming, and that the chances are narrow and limited."

"But," I asked, "isn't hard toil a necessary condition of farm life?"

"It is hard work to run a farm—very hard work, and always will be. There must be hard work everywhere."

But times and methods are rapidly changing in all respects. "We are entering a transition period," Secretary Wilson says, "in which the cheap wood construction of former years is giving way to permanent structures of stone, concrete and iron. Farmhouses, through better water supplies, plumbing and sanitation, are being made as convenient as those of a city. Moreover, no more significant change is taking place in American agriculture than the extent to which different kinds of motive power are taking the place of men and animals. The use of the traction engine and automobile in the place of the horse on the country roads, the employment of gasoline, steam, wind and electric power to operate mowers, threshers, plows, feed cutters, corn huskers and dairy machinery are illustrations of epoch-making changes that are now going on among modern American farms. On one ranch in California there is $60,000 worth of farm machinery operated by some other power than animals or men."

"If a young man with $1,000, or perhaps only $500, wanted to become a farmer, where should he go and what should he do?"

"That is an academic question," the secretary answered. "It takes money to farm. A man can't go anywhere nor do much of anything without capital."

Against the testimony of James Wilson may be put the observations and experiences of David Rankin of Tarkio, Mo., whose remarkable achievements are often referred to by Secretary Wilson's experts in soils, plants and farm managemetn.

Rankin is a Scotch-Irishman, six feet tall and 81 years old. He owns 23,000 acres of land. Fourteen thousand of it he plants in corn and 2,000 of it in wheat. Cattle and swine and their feeding are his specialties. "I just farm," he says, "and pay no attention to science." But his soil is from eight to fifteen feet deep. Twenty years ago he was poor. Now, besides his land, he owns a bank, a telephone company, an electric light plant and a waterworks. He has given $300,000 to the Tarkio college and large sums to the United Prsebyterian church. "The way to succeed," he asserts, 'is to hustle. If a man hustles he can borrow all the money he needs." Debt with him, when it is fortified by industry and good sense, is a sign of success.

The "sheep king" of Wyoming is Timothy Kinney, who was born in Ireland. A few years ago he was a day laborer at Madison, Wis. Later he was a car repairer in the Union Pacific shops at Rawlins, Wyo. After he had been promoted to be a station agent he went into cattle. Storms killed them. Fourteen years ago he turned to sheep. He didn't have much money, but he did have uncommon pluck, and that carried him through the panic of 1894, when wool was scarcely worth the shearing and when mutton couldnt' be given away in Wyoming. Since then he has sold $70,000 of wool and $135,000 of sheep in a single year. He is also a banker and a merchant.

One of the divisions in the agricultural department is called the bureau of farm management. An expert, a man of sound general and special education, W. J. Spillman, is in charge of it. His duty is to tell the farmers of the country, when they ask for advice, how to get the best results. He goes over each case that is submitted to him and frequently sends for a rough map of some farm. He can nearly always tell exactly what ought to be done, and his counsel has raised many a discouraged farmer from poverty to independence.

Inflammatory Rheumatism Cured in Three Days.

Morton L. Hill, of Lebanon, Ind., says: "My wife had inflammatory Rheumatism in every muscle and joint; her suffering was terrible and her body and face were swollen almost beyond recognition; had been in bed for six weeks and had eight physicians, but received no benefit until she tried the Mystic Cure for Rheumatism. It gave immediate relief and she was able to walk about in three days. I am sure it saved her life." Sold by all druggists.

MRS. POTTER'S LAWYER GETS FIVE YEARS IN JAIL.

London, June 15.—In passing a sentence of five years' imprisonment on Alfred Fossick, a lawyer of Maidenhead, Berkshire, who has been found guilty of misappropriating $90,000, the judge said he was convinced that Mrs. James Brown Potter had nothing to do with the action of the prisoner. During the trial of Fossick, counsel for the plaintiff said he had been informed by the prisoner that he had lent the money to Mrs. James Brown Potter. Mrs. Potter testified that Fossick, as her lawyer, undertook to raise from his clients a $65,000 mortgage on her property at Maidenhead. The money was required to work the Savoy theater. Mrs. Potter said that she never knew personally that Fossick advanced the funds.

WISCONSIN FORESTERS.

La Crosse, Wis., June 15.—The Wisconsin high court, Catholic Order of Foresters, yesterday elected the following officers: State chief ranger, J. A. Kuypers, Depere, re-elected; vice chief ranger, J. W. Dunnegan, Stevens Point; secretary, Gustav Keller, Appleton; treasurer, F. J. Norton, Watertown. Menasha was chosen as the place for the 1906 meeting.

G. A. R. AUXILIARIES ELECT OFFICERS.

La Crosse, Wis., June 15.—The Sons of Veterans elected the following officers: Division commander, John A. Hazelwood, Jefferson; senior vice commander, L. F. Small, Madison; junior vice commander, E. G. Parmenter, La Crosse.

The Women's Relief corps elected: Department president, Miss Fannie McAllister, Omro; senior vice president, Mrs. Nannie Colwell, La Crosse.

The Ladies of the G. A. R. elected: Department president, Mrs. Kathryn Loomis, Oshkosh; department senior vice president, Miss Lillian Clark, Milwaukee.

BAN PLACED On School Societies By Denver Teachers.

Denver, Col., June 14.—Principals and teachers in the city schools of Denver have combined to eliminate the excessive social life of the school children of the city, and to that end they have placed a ban on school societies and furthermore assumed the right to dictate regarding the behavior of students outside of school hours. The rules to be followed are laid down in a general letter sent to every parent. They suggest that no social engagements may be made by any pupil from Monday to Thursday inclusive, and that no pupil be allowed to frequent pool or billiard rooms or bowling alleys, or to smoke cigarettes. Secret and fraternal organizations among pupils are also severely discouraged, and the moral weight of the teachers and school officials thrown against their formation or continuance, on the ground that they assist in the establishment of cliques and come into direct conflict with the democratic organization of the schools. There are more than a dozen societies among the pupils in the four city high schools,, and their members are exceedingly wroth over the decision.

FLORENCE HALLIDAY Seeks Divorce From Her Preacher Husband.

New York, June 14.—Miss Florence A. Halliday, "wife of the Rev. Charles S. Brown," as she is known on the vaudeville stage, seeks again to free herself from her ministerial husband. Her motion for alimony, counsel fees and the custody of her son, about 10 years old, is in the hands of Justice Greenbaum, in special term, supreme court. Her lawyer made a similar motion before Justice Truax so secretly that the proceedings did not come to light. Justice Truax denied the motion, but gave the songstress permission to renew the application upon submitting more evidence.

Miss Halliday accuses the cleric of infidelity. But she names no co-respondent, relying upon alleged confessions by her husband before two witnesses. The Browns were married in April, 1892, when he was assistant rector of St. Peter's Protestant Episcopal church, Brooklyn, when she sang in the choir of the Lafayette Avenue Presbyterian church.

In her complaint Miss Halliday avers that she first discovered her husband's unfaithfulness in November, 1902. Before two witnesses he promised never to repeat the offense, she alleges, and she forgave and they continued to live together. But in February, 1903, the very month she made her debut, Miss Halliday declares, she learned he had fallen from grace once more. This time she did not forgive him and they separated. Miss Halliday vows she is penniless, too ill to earn her living, depending on friends.

The Rev. Mr. Brown specifically denies all his wife's accusations.

EDITORS IN TEXAS.

Houston, Tex., June 14.—The National Editorial association arrived here today in two special trains over the Missouri, Kansas & Texas road. There are 450 visitors in the party. After being entertained by the business organizations of Houston, the editors left for San Antonio, en route to the Portland exposition.

KILLED BY TRAIN.

Two of Automobile Party Meet Instant Death.

Middletown, N. Y., June 15.—An automobile occupied by Mr. and Mrs. Richard S. Sayer of Englewood, N. J., and their two sons, was struck by an Erie train near Goshen yesterday. Mr. and Mrs. Sayer, were instantly killed and their sons were hurled several feet striking near the tracks. They are not expected to survive their injuries. The chauffeur saved his life by jumping before the train struck the automobile.

Mr. Sayer, who was president of the Rider Engine company was accompanying his family on a trip to their summer camp at Warwarsing, which they expected to reach today. Mr. Sayer was sitting on the front seat of the automobile alongside the chauffeur as the crossing was reached. It is stated by witnesses of the tragedy that several persons called to the party not to attempt to cross the tracks ahead of the train. They declared that Mr. Sayer, however, ordered the chauffeur to proceed.

Just as the automobile reached the tracks, the train appeared. The chauffeur attempted to turn the machine from its course, but before it had been swerved sufficiently the train struck it with terrific force. Mr. and Mrs. Sayer, were hurled under the train and instantly killed. Their two sons were picked up from beside the tracks. They were brought to this city and placed in a hospital, where it is said they probably will die.

NORWEGIAN LUTHERANS MEET IN MINNEAPOLIS.

Minneapolis, June 15.—The annual national convention of the United Norwegian Lutheran church of America opened in the Augustana church yesterday. About 1,000 delegates, ministers and laymen are present. Rev. G. Rasmussen, pastor of the Bethlehem Lutheran church, delivered the welcome sermon.

Rev. C. H. Dahl, president of the United church, was elected temporary chairman of the convention and appointed the committee on credentials.

The United church is one of the two main factions of the Norwegian Lutheran church in America and the present convention will for eight days deliberate for the welfare of over 1,000 congregations throughout the Northwest.

THE CORNELL M. E.

Two Minnesota Engineering Students to Graduate.

Ithaca, N. Y., June 15.—Among the students who will receive degrees at Cornell university commencement, June 22, are: Cuyler Culver Adams of Duluth and James Miskella of Cass Lake, Minn. Each receives the M. E. degree for completion of the course in mechanical engineering.

PLAY THE RANGE.

Panton & White Team Will Meet Hibbing.

The Panton & White baseball team is scheduled to play the fast Hibbing nine next Sunday at Hibbing. The line-up will be as follows. Webber, r. f.; Potter, 1b; Robideau, 2b; Lowe, p; Shaffer, c; Guy Cummings, 3b; Bennett, l. f.; Wernham, ss.; Patrick, c. f.; Lundgren, Rocklin and Al. Cummings are substitute players and J. L. Franck is manager of the club. The players are requested to call at the store Saturday for their uniforms. The Panton & White club is also scheduled to play the strong team at Hurley, Wis., July 2, 3 and 4. June 25 is an open date for which Manager Franck is seeking an engagement.

WAUKESHA WOMAN ENDS LIFE IN RIVER.

Milwaukee, June 15.—An Evening Wisconsin special from Waukesha, Wis., says: Mrs. Emma Jones, wife of A. M. ("Long") Jones was found drowned in the Fox river in two feet of water, head downward today. Mrs. Jones had been ill for sometime and it is believed she committed suicide. The woman retired as usual last night and upon being called this morning her room was found empty. A search resulted in the finding of her body in the river which runs through her husband's property.

At last there has been found a safe and reliable way to

SOBER UP QUICKLY

without the usual sickness and suffering. It is called

"B.B."

WILL HAVE TENT DRILL

Militia Companies Get Sixty New Tents From Government.

Members of Companies A and C will hold a tent drill next Sunday on the rifle ranges.

Thirty new tents have been received from Washington by each company. Each tent will accommodate two men, and the entire company can thus be sheltered.

On Sunday morning the members of the two companies will leave the armory at 7:30 o'clock and march to the rifle ranges, where they will be put through a course of instruction on the manner in which the tents are raised. They will take dinner at the ranges, and march back in the evening.

DRINK OF COLD WATER

Caused Decamp to Lose Race and $300.

Des Moines, Iowa, June 15.—Lee Decamp started from Redfield at 4 a. m. to walk thirty-two miles to Des Moines in five hours and fifty minutes on a wager of $300. He made the first ten miles in one hour and thirty-six minutes and traveled sixteen miles in just three hours. When within two miles of the goal, with forty minutes to spare, he took a drink of cold water, and was doubled up for one hour with the cramps, losing the race against time.

VAN SANT SUGGESTS

Statue of Col. Colvill In Statuary Hall.

St. Paul, June 15.—"The last legislature provided for placing a statue of Alexander Ramsey in the national capitol," said Former Governor S. R. Van Sant yesterday. "The state has one more statue to place in the statuary hall, and I propose that, by the side of the Ramsey statue the state place one of Col. William Colvill.

"Ramsey was our war governor and statesman; Col. Colvill, who led the charge at Gettysburg, was our greatest military hero. He did as much on that day at Gettysburg as any man could do for his country, and to honor Minnesota. I do not believe the state could do better than to honor Col. Colvill's memory by placing him in statuary hall. If I were governor I would send a message to the next legislature asking for a Colvill statue as I did last winter advocating provision for the Ramsey statue."

Governor Van Sant's statement was made in the room where the First Minnesota met to make arrangements for their colonel's funeral. It was received with great favor by the survivors of the regiment.

Each state is permitted to place two statues in the hall of distinguished citizens not now living. Col. Colvill's death now makes him eligible to the gallery of immortals.

RUSSIANS BUY LAND

Near Lake Namakagon and Establish Town.

Cumberland, June 15.—Ten German-Russians, representing a colony from Kiefe, Russia, visited this place yesterday and purchased a tract of 4,000 acres of land adjacent to Lake Namakagon, north of here, for the purpose of starting a German-Russian colony of 100 families. Albert C. Uecke, president of the Uecke Land company, made the sale, one of the stipulations being that he would erect good log houses on every forty-acre farm in the tract and have them all ready for the arrival of the new settlers next fall. A tract of forty acres on the lake shore was reserved for the purpose of platting a village. The colonists are Germans, who originally emigrated from Germany to Russia, but becoming dissatisfied with the iron-clad laws of the Russian monarchy, have decided to seek more congenial homes in free America.

MURDER AND SUICIDE.

Chicago, June 15.—Jacob Hart, who lost both legs and an arm in a railroad accident, and who acquired the idea that in consequence his wife no longer cared for him, shot her dead today and fatally wounded himself. The couple who were negroes, leave two children.

EAGLES SWOOP DOWN ON DULUTH

Advance Guard Arrives For Big Three Days' Convention.

State Deputy Grand President Shadewald Talks of Order.

With a fluttering of wings the advance guard of the big flight of Eagles swooped down on Duluth this morning.

The morning trains brought to the city some twenty-five or thirty of the delegates to the second state convention of the Fraternal Order of Eagles, which begins this evening and lasts the remainder of the week, and the wireless telegraph reports which were being received hourly at the Eagles' headquarters indicated that other large delegations of the order emblematic of the royal bird would reach here on the afternoon, the evening trains, and continue to arrive up to and including Saturday morning.

With the first contingent arriving this morning were a number of the prominent officers of the order, including J. H. Ellis of Minneapolis, vice president of the Grand Aerie, the second highest office of the order in the country; J. H. Shadewald of Minneapolis, Minnesota state deputy grand president; J. H. Caldwell, worthy grand president of the St. Paul aerie; Robert N. Grady, delegate from the St. Paul aerie; Matt Farrell, district deputy of the Minneapolis aerie; George Wormwood, delegate from the White Bear aerie, and S. D. Ogg, secretary and treasurer of the famous Drill Corps, No. 1, of Minneapolis.

Beside his high office in the F. O. E., Mr. Shadewald is quite prominent in official circles at Minneapolis, having for the past nine years been special assessor for that city. He was the author of the special tax system adopted in Minneapolis, by reason of which millions of dollars of personal property which had escaped taxation for years was put on a taxpaying basis. Since its formation, Mr. Shadewald has been actively identified with the F. O. E. In speaking of matters of interest to the order, this morning, Mr. Shadewald said:

"The Fraternal Order of Eagles was started less than seven years ago by a handful of good fellows out in Seattle, Wash. In that period of time it has had a phenomenal growth, a growth unequalled by any other fraternal order in this country, and which, I believe, is the result of the principles embodied in our motto, 'Liberty, Truth, Justice and Equality.'

"There are now in the United States 1,200 a eries of Eagles, with a membership of over 400,000.

"Minnesota is one of the leading states in prestige in the order, and has within its borders a number of the highest officers.

"The growth of the order in this state in the past year has been very satisfactory. Since my return from the grand aerie at Baltimore, I have instituted nine aeries and will have seven or eight more ready before the next grand aerie at Denver, Col., in August next.

"I have instituted thirty-nine aeries within this state alone, and the total membership at the present time is about 10,000.

"Our order is not an insurance society. It is a fraterial beneficiary organization in the literal sense. We pay sick and funeral benefits, look after our brothers sick or in distress, or their families. No matter wherever he may be in this country a member of the Eagles is protected by his order whenever he is in need of help. It is not charity extended, but he has a right to demand a protection for which he has been paying for and he will always get it just as fast as the wire can transmit the messages.

"I look for a splendid attendance at this, our second state convention. Duluth is a popular place and splendid arrangements have been made by the local committees in preparing entertainment. There will be large delegations in from every aerie in the southern part of the state.

"I predict that the future will see aeries of the Eagles established clear around the globe.

"In talking of the Eagles and this celebration there occurs to me the following lines written by a member of the order at Anaconda, Mont., which I believe will fully express the situation:

"'What is an Eagle, Uncle Josh?
I pray you tell to me
The meaning of the outspread wings
And the letters F. O. E.?'

"'An Eagle,' Uncle Josh replied,
Is a bird who soars on high;
He's quick to see the good in men
For he has an eagle eye."

"'The meaning of the outspread wings
Is power and protection;
They mean a lot of other things,
But the choicest is affection.

"'Where'er an Eagle finds a nest
Filled with woe and grief,
He soars among the eagle birds
And quickly brings relief.

"'The mystic letters F. O. E.
They have a secret worth;
But the meaning here in June
Will be, simply, 'Fun On Earth.'

"'May I play with the Eagles, Uncle Josh?
With them I've never played,
'I don't mind,' the old man replied,
'But stick to lemonade.'"

During the afternoon Deputy Grand President Shadewald and other of the out of town visitors went down Lake avenue to inspect the aerial bridge.

"I've been all over the world," said Mr. Shadewald, on their return to the hotel," and that is the greatest thing I have seen. The aerial bridge is a wonderful structure and should be a great drawing card in the way of an attraction for visitors to Duluth."

It has been expected that J. F. Pelletier of Kansas City, grand worthy president of the order, would be present at this state convention, but this morning it was learned that his presence in Duluth at this time is doubtful as Mr. Pelletier is very busy getting ready for the grand aerie at Denver in August.

Tomorrow morning a big excursion will arrive from the copper country, over the South Shore road from Houghton, Mich. The special train which will bring hundreds of Eagles and their families and friends is due to arrive in Duluth about 9 a. m. and will follow the regular morning train. On this train will be the famous Calumet and Hecla band of twenty pieces and visitors from Houghton, Calumet and every town in the copper country that has an aerie of Eagles.

This will be the first visit of the famous musical organization to Duluth in its entirety and its coming will be greatly appreciated not only by the Eagles but by the citizens in general of Duluth.

• • •

Saturday noon another special train will arrive from the Twin Cities over the Northern Pacific road and will consist of twelve or fifteen coaches, bringing the renowned Journal band of forty pieces, from Minneapolis, big delegations from a great many other Southern Minnesota towns that will reach St. Paul or Minneapolis Saturday morning in time to connect with the special train. The train will leave Minneapolis at 8:10 a. m., and will arrive in Duluth at 1 p. m. On this train will also be delegations from Stillwater and White Bear.

By reason of a misunderstanding the crowd of Eagles from below are doomed to something of a disapointment. The vaudeville session will be held Friday evening and the special train was chartered under the impression that it was to be held Saturday evening.

• • •

One of the features of the parade to be held Saturday at 2 o'clock will be the famous Drill Corps No. 1 of Minneapolis, comprised of about thirty men. This organization in competition with similar organizations from all over the country, at the grand aerie at New York, two years ago, won the prize, a $500 banner. This banner, which requires six men to carry, will be exhibited in the Saturday parade.

A handsome souvenir program for the convention has been issued by the Eagles. The outside cover is done in several colors and represents a huge American eagle clutching the national colors and standing on the highest point of the aerial bridge with wings outspread. On the back cover is a fine half tone of the Duluth high school building.

Besides the program and a very liberal amount of advertising the souvenirs include half tone portraits of all the officers of Duluth Aerie, No. 79.

The headquarters of the Eagles has been established at the St. Louis hotel.

• • •

This evening a social session will be held at the Eagles' hall in the Foiz building, free to all Eagles.

Tomorrow morning the business sessions will begin at the local lodge room of the Duluth Eagles, in the Foiz building. President W. E. Brown of Duluth aerie will deliver an address of welcome and Mayor Cullum will extend the freedom of the city to the visitors.

Worthy Grand Vice-president J. H. Ellis will respond to the welcoming speeches and the convention will be regularly called to order by State Grand President Shadewald, who will deliver the presidents' annual address.

This will be followed by permanent organization, election of officers and appointment of committees.

Tomorrow afternoon an address will be delivered by Grand Worthy President J. F. Pelletier of Kansas City, if he is able to be present. This will be followed by routine business and a grand vaudeville entertainment at the Lyceum for Eagles only, tomorrow evening.

During the Eagles' convention they will be extended the usual courtesies of the Duluth Commercial club.

Great Water Sale

Commences Friday noon at the Big Duluth.

WILL PUT UP GOOD PURSES

Driving Association Announces Amounts For July 4th Races.

At a meeting of the directors of the St. Louis County Fair association, it was decided to hang up purses of $200 each for the free-for-all race and the 2:25 class race to be given July 4, at the Driving Park. The races in each event will be the best two out of three instead of the best three in five as the horses will not be properly conditioned to stand so hard an experience."

Besides the races mentioned there will be a gentlemens' driving class, half mile race, also a novelty and a running race. The purses for these events have not yet been announced.

INJURED IN EXPLOSION

Accident Takes Place at the Sandstone Creosoting Plant.

Word was received yesterday in Duluth of an explosion in the creosoting plant at Sandstone, in which James McNeil, the engineer, was seriously injured. Even should he recover from the injuries received, he is likely to lose his sight.

Mr. McNeil's parents have but recently come to Duluth from Sandstone, and are living on Third avenue west, between Fifth and Sixth street. The son remained behind in Sandstone, where he was employed by the Kettle River company in the new plant.

His parents have not yet received any details of the accident, and do not know in what manner the young mas was injured.

News of an explosion was received at the city engineer's office yesterday, but it was not stated that anybody had been seriously injured. The report stated that F. W. Longworth, the inspector, was testing some creosoting material, when the explosion occurred. The hot crosote deluged him, but beyond spoiling a suit of clothes, and burning his face and hands slightly, he was got seriously injured. The report made no mention of any injuries to Mr. McNeil, and it is likely that he was hurt in a different accident.

Mrs. McNeil left yesterday for Sandstone to attend her son while he is in the hospital there.

THE STRONG PUBLIC INDORSEMENT.

Given the Taylor Institute at Iron River, Wis., by so large a number of disinterested and perfectly responsible men, is a very strong card.

There can no longer remain any doubt that they have a perfect cure for the liquor habit. The splendid condition of their many cured patients is convincing evidence. Ask for full particulars and testimonials.

TAYLOR INSTITUTE,
IRON RIVER, WIS.

TWO WOMEN JUMP INTO THE RIVER.

Freeport, Ill., June 15.—The bodies of Mrs. Young, aged 28, and Miss Maud Pyle, aged 16 years, were found in the Peckatonia river this morning. Last night both declared they would kill themselves and later they jumped into the river leaving their clothes on the bank.

Praise From the President.

President Roosevelt paid Mame C. Fisher a very high compliment when he requested Mrs. Roosevelt and Miss Alice to attend her lectures at the capital last winter. Miss Fisher says that American young women would do well to follow the example of Miss Roosevelt, who is an expert cook, with a particular leaning toward pastry. This is Miss Fisher's final week at 331 West First street.

Lester Park.

Dance tonight and every night this week.

Great Big Duluth Water Sale

Commences Friday noon.

Fortune Favored Rick.

John Rick, the well-known butcher, secured the $15 suit of clothes given away this morning by the Union Clothing store to the first man entering the store at the commencement of the Determination sale. Mr. Cook, proprietor of the store, was particularly pleased that a member of the Butcher's union secured the prize.

THE IRISH WAY.

Collecting Income Tax In the Distressed Isle.

Year after year my grandfather would declare that no power on earth would induce him to pay his income tax. The collector, a soft-spoken, easy-going person, accustomed to giving the soft answer which turned away the universal wrath, knew my grandfather and his ways.

"Income tax, indeed!" my grandfather would say, with a splendid sprinkling of forcible words. "I've no income except what belongs to my creditors. A nice government, indeed, that takes away a man's income and then asks him to pay a tax on it. If you want to know where my income is, it's in the pockets of my tenants. Make them pay my income tax."

"Sure, it's true for you," the collector would say, whose name was Whelan and ought to have been Wheedlin', writes Katharine Tynan in London Mail, turning the whites of his eyes to the skies. "Sure, it's a cruel hardship on you. If I wasn't a government official myself, 'tis saying 'Bad luck to the land acts' I'd be."

"You're a decent fellow, Whelan," my grandfather would remark invariably; "I wonder why you ever took to so dirty a trade."

Then the whisky bottle would be produced and passed round, and my grandfather, taking a slip, would say, "Well, heres' health, and bad luck to the income tax!" and Mr. Whelan would swallow the toast with the whisky. Up to the last day my grandfather always refused to pay. The last day we alway had Mr. Whelan as our guest. He used to sit alone in a chilly, unoccupied drawing room, with the chairs draped in holland over their old chintzes, and would receive messages through Mary Kate Flavin, the parlor maid. "The master says if you'll give it up you're to have dinner and a glass of grog. If you won't give it up it's time you'd be goin' home." A cryptic message, but one which Mr. Whelan seemed to understand. He had heard it often enough, to be sure. He never did go home, and he always had his dinner and a glass of grog and his tea to follow.

It wasn't in my grandfather to be inhospitable. Since Mr. Whelan was his guest willy-nilly, why, there were worse fellows than Whelan to smoke a pipe with and drink a glass of grog with; and my grandfather was very gregarious and a little bit lonely, so many of the old familiar faces had dropped out. Mr. Whelan used to get him to talk of his boyhood in the glens of Wicklow. That always put my grandfather in a softened mood. To the last moment he would swear that he would not pay. At the last moment, or nearly the last moment, he invariably did. Once I remember he was moved to pay by Mr. Whelan dropping his face into his hands and beginning to weep. "You won't pay," he sobbed, "and I couldn't distrain on you. I'll pay the tax myself, although I am a poor man and I've an old mother and a poor idiot boy of a brother to support."

"Well, I'm dashed!" said my grandfather—only he didn't say "dashed." "I never thought to see a tax collector crying, and because of me! I'm dashed if it isn't worth the money. Where's the pen and ink and my check book?"

In an evil hour for the revenue in that particular district Mr. Whelan was promoted and was replaced by an uncompromising youth, with sleek hair parted down the middle of his head, a waxen image of a face, spats on his shoes, and the name of Evan Lloyd Llewellyn Jones. The first time he called for the income tax and my grandfather replied that he wasn't going to pay it, he said, with an aghast visage, "Then we'll distrain."

"Distrain and be dashed!" my grandfather said, taking a leaf from the Iron Duke on a certain famous occasion. "I never have paid, and I won't pay now!" It is a way my grandfather had acquired of believing what he wished to believe.

"Never paid your income tax!" he said in a distraught way as he went off. "I've never heard the like! To be sure, you must pay!" There was no whisky for Mr. Jones, no chat by the fire, no pipe, no seat at the hospitable board. "An impudent Welsh puppy!" said my grandfather. "Wasn't an Irishman good enough to do their dirty work without foisting a Welshman on us? I'm dashed if I'm going to be walked over by a Welshman. I won't pay—not if they took the best horse in my stables, and that's a mare, Wild Rosebud. I'll win the Grand National with her yet. Poor Whelan! Now, he was a decent fellow, only too good for their dirty work."

Mr. Jones dropped notice after notice at the hall door. My grandfather set out the notices in a row along the parlor chimney-piece and surveyed them with the pride of an Indian contemplating his scalps. "Let them distrain," he said gloomily on the last day of grace, as he cleaned out his pipe for an after-dinner smoke; "but if they lay a hand on Wild Rosebud I'll make Europe ring with it!" He was interrupted by a rat-tat at the distant hall door.

"That dashed Welshman again!" my grandfather said with a glare in his eye. However, it wasn't the Welshman. It was the long-lost Whelan, and the approachment between my grandfather and him was touching. My grandfather was simmering, boiling over with the tale of his wrongs at the hands of the Welshman. However, before he could begin Mr. Whelan, who had sunk into the chimney corner with his pipe and his glass, just as in old times, anticipated him. "I've come to talk to you about the income tax, sir," he said, in his most wheedling voice. "Poor Jones is in despair. He came to me an hour ago—in fact, the poor fellow's waiting outside; we drove out to you as fast as an outside car would take us. He's new to the business, and, as he says, if a man of your standing and influence refuses to pay the income tax what is he going to do with the others? Why, it might be a revolution sir, a revolution. Supposing everyone refused to pay?"

"And a dashed good thing, too," said my grandfather. "I paid you, Whalen. You humbugged it out of me. After all, you're an Irishman, if you are a tax collector. But I'll never pay the Welshman. By heaven, I've stood things from the Welshman that make my blood boil, to think on. I'd rather go to prison than pay the Welshman. And, by heaven, if he comes here again I'll make him eat his own notices."

Mr. Whelan was staring at my grandfather. "A Welshman," he repeated. "Jones a Welshman! He's as good an Irishman as ever walked." "And if he is," my grandfather demanded furiously, "what does he mean by his dashed name?" "I thought it a queer name myself when I heard it first," Mr. Whelan concoded. "But sure, you wouldn't be blaming the poor boy for the name his parents gave him? 'Ah, sure, you know them, sir.' Rose Aherne was his mother's name She lived above on the hill. Now I come to think of it, wasn't her father, Michael Aherne, a tenant of your own? She married one of the Joneses of the Glen of Moy, a Wicklow man, like yourself."

"Rose Aherne," my grandfather said, his eye kindling; "I remember her well. There weren't many prettier girls than Rose. And Bob Jones, too; his father kept a flour mill at Moy. To think of me taking Rose Aherne's son for a Welshman! It was the fault of his dashed name. Rose Aherne's son! He's waiting outside, you say? and there's a bitter blast down from the hill. Why, I danced Rose at her own wedding. There wasn't an ankle or an instep like hers in the three parishes. Ask him in to have a glass of grog. Rose Aherne's son! Where's the pen and ink and my check book?"

A NEW INDUSTRY.

Electroplated Laces a New Thing in France.

German papers state that the production of metallized laces, etc., is another new industry being established in France, reports United States Consul-General Gunther, Frankfort, Germany. The old galvano-plastic art is employed. One of the first uses of the galvanic current was to coat certain articles with metallic substances, as gildign, silver and nickel plating, bronzing, etc., continue to be done in that way. It can not, however, be employed on articles that are nonconductors of electricity. Experiments were tried long ago to make such nonconductive articles susceptible to the galvanoplastic process, either dry or wet, by sprinkling them with a very fine powder of metal or graphite, or by immersing them in a solution of metallic salts. In that manner many articles, such as flowers, leaves, fruits and branches, and even delicate articles, were metallized parts of corpses to serve for medical demonstration.

A chemist of Brussels devoted his attention especially to metallizing embroideries, and created wonderful effects. Until quite recently they could not be made of practical value, and only now a beginning has been made by an invention, the details of which are kept secret. A stock company has been formed for its exploitation. According to the Paris Cosmos, the company has created a sensation with their products.

Laces are mainly treated. In a few minutes they are made conductors of the electric current and placed in a galvanic bath. Under the influence of a current of about three volts they become coated with an exceedingly delicate metal surface, the colors of which and other properties can be regulated at libitum. The coating is so fine that not the slightest irregularity can be noticed, and the laces remain perfectly soft and flexible. It makes no difference whether gold, silver, copper, bronze, or other metals are employed.

The assertion is made that the metallized points, in spite of the thinness of the metal coating, can be united as if soldered together, so that all sorts of combinations are possible. These metallic goods are used for table ornaments, decorating furniture coverings, wainscoting in parlors, and for incrustation of fine woods, and the metallized laces can even be polished. Fashion will try what effect such gold or silver laces will have when used as trimmings for dresses or shawls or in the hair. The chances for the industry are considered very favorable.

Niagara Falls, N. Y., & Return $25.50.

On June 16, 17, 18 and 19, "The Northwestern Line" will sell excursion tickets to Niagara Falls, N. Y., and return at $25.50. Final limit for return July 14th. City Ticket Office, 302 West Superior street.

Welcome, F. O. E.

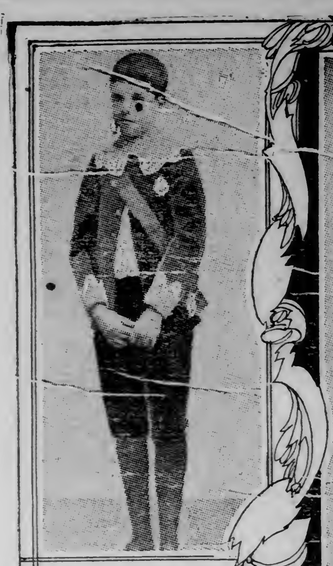
THE INNER LIFE OF ROYALTY



THE KING'S SECOND SON

CARLOS I. of PORTUGAL

Tucked in between the land of Spain and the ocean is the tight little country of Portugal, where the people are poor and don't know it and where happiness seems to be the confirmed habit of the country. The ruler of this bright little land of sunshine, onions, black bread and divine wines is King Carlos, who has had less trouble with his job of holding down a European throne than any one of the kingly college, and while he has a small army and practically no navy, he gets perhaps more real pleasure out of life than any monarch of them all. In the first place, King Carlos has what few kings enjoy, royal good health; he has a beautiful wife who undoubtedly adores her royal mate, and his children are certainly the finest looking royal scions in the world. So it will be seen that the King and Queen of Portugal are unusual royal people, persons whose crowns do not wear into their majestic brows and whose thrones are not searched every evening lest some conspirator should have placed an infernal machine beneath the royal supper table.

Carlos I. of Portugal ascended the throne in 1889 and had married a Bourbon princess, Marie Amelie, a daughter of the Count of Paris three years before. Thus the princes of the blood of Louis XIV. of France still sit on an European throne, although their native France has embraced republicanism for all time to come. Moreover, the palace of King Carlos is noted as the most beautiful in the world, for the royal chateau at Queluz was described by the poet Southey as the most charming region on the face of the globe. Our illustration shows a mass of architectural beauties that for its oriental type could not well be excelled. The original design was made by the Moors, and all the beauties of the Alhambra, so praised by Washington Irving, can be found at Pena Castle, in Cintra, the summer residence of the Portuguese royalties.

How the King Won His People.

Don Carlos I. appeals to the people as a good king. It is felt that he understands the business of a king thoroughly and that he worthily leads and represents his people. Though portly in figure, he has all the bearings which the people like to see in their sovereign. He is of that middle-height which is found throughout the families descended from the Coburgs; that leaves him still an advantage over most of his people, for the Portuguese are not renowned for tall men.

As a matter of fact, the King has hardly a drop of Portuguese blood in his veins; yet the curious thing is that, apart from height and figure, he looks a Portuguese. His smile is the smile you may meet any day in his country, from duke to peasant; his ways are the courtly, punctilious, yet proud ways that distinguish the Portuguese aristocrat everywhere, and he is fond of his people and shares their patriotism for Portugal.

What the Queen Is Like.

In this respect Queen Amelie is like him. Although a French woman, born at Twickenham during the exile of the Comte de Paris, her father, she, too, has gone the right way to get to the heart of the Portuguese people, by using her influence toward the reformation of their country in fields which are usually left to women.

It is conventional to say that all queens are charming and accomplished, but it is no conventional compliment when applied to Queen Amelie. She is a woman of many parts and of many interests. Like her husband, she cares for sport, and like him, too, she has a great reputation for personal bravery. A few years ago she won a medal for saving the lives of two children from drowning in the Tagus. Her Majesty is a strong swimmer, and seeing the children in peril, plunged into the river and rescued them. She is also a skilled equestrienne—like the ladies of her family generally—and a brilliant conversationalist, with all the wit and esprit that seem indigenous to her native France.

It is his well-known sporting tastes, however, that especially endears Don Carlos to the English people. He is a good, all-around sportsman, with a special passion for yachting and shooting. His ambition is to make Monte Carlo give way to Lisbon as the pigeon-shooting center of Europe. His prowess with the revolver is too well known to need repetition, but it may not be so generally realized that the Portuguese monarch was at one time an active supporter of the bull ring.

Before his marriage Don Carlos was fond of the excitement of the bull ring, in which, incognito, he would take active part. In Portuguese bull fighting neither bulls nor horses are killed, and to prevent the possibility of a bull goring a horse, his horns are covered with padded guards. One element of danger which is present in the Spanish method is thus removed. Now the king is nothing if not brave, and when one of the beautiful court ladies remarked that it was not fair to the bull and thoughtlessly dared the Duke of Braganza (as he then was) to face the animal with his sharp horns unguarded he gallantly replied that he would do so at the next bullfight and invited the lady to witness his doings from the royal box. In Portugal the regulations of the ring strictly enjoin that no bull be fought "with points unbated," but in spite of this, orders were given that a bull was to be admitted into the arena with his horns unguarded. Don Carlos took his stand before the swinging doors, with the frilled darts ready in his hand, and waited for the bull.

But a bull rarely charges home at the first attempt, and this one stopped, snorted angrily, and then threw up the sand with his front hoofs. The Duke waved his arms, made a feint to lure it on, and then, as it charged again, sprang to one side to avoid it, but in the very act of springing slipped on a wet place left by the watering hose and fell! The whole audience rose with a simultaneous cry of horror; for though the Duke fought incognito, everyone knew who the bold banderillo was. Another fighter waved his red capa in the bull's face, the animal's attention was diverted for a second, and the Duke rose. But, unfortunately, the bull saw the movement and made once more for his adversary. Then came a moment of breathless suspense, while the Duke ran for his life towards the timber barricade, which he cleared at a bound; a second or two later the bull's horns made splinters in the woodwork just below where the Duke's heels had passed over.

The King and Queen have two sons—the Crown Prince Luiz, now 15, and Prince Manuel, who is 13. Queen Maria Pia, the Queen Dowager of Portugal, daughter of the late Victor Emmanuel, king of Italy, still survives. She is a very able woman and is at the head of most Portugal charitable institutions, and her good deeds in the cause of mercy gained for her the name of "Angel of Charity." Philathropy, it has been said, is with her as much a passion as hunting, music and painting, for all of which she is famous. Like her son, she is a marvelously good shot and intrepid rider. The King's brother Alphonse also resides in Lisbon and is unmarried.

The Real Secret of Kingly Success.

The real secret of the happy life enjoyed by the rulers of Portugal is, of course, the sanity of their views as to how great power and much wealth should be spent. As a matter of fact, the secret as worked out in Portugal lies in not using the power or in spending the money for personal pleasure. Of course, the post of king demands splendor and ceremony and much money, but these are cut down to just what the people of Portugal demand from their monarch. Personally King Carlos prefers the dishes eaten by the great mass of his subjects, and his money is never spent for the luxuries or dissipation which have spelt misery for so many unhappy kings. His son and heir, the Duke of Braganza, has been reared like any other well-to-do child, ignorant of his rank until able to play his part with balance, and to this day allowed fewer indulgences than the children of many prosperous Americans.

Athletic exercises and sensible feeding, together with a strict moral restraint, have made the Portuguese heir tall and strong, without a touch of false pride or temper. While his kingdom has a constitutional government, as a matter of fact, a strong, domineering monarch in this country could easily gain absolute control over affairs of state. Just what this young prince will do when he takes over the reins of government is a matter of interest in every court in Europe. If he follows after his father the success of his reign cannot be questioned, for the present King and Queen of Portugal are, after old King Christian of Denmark, the best loved by their subjects of any royal pair in the world.

MOTHER-LOVE.

Mrs. Forebunderd—What was that awful yelping in the nursery just now?

Maid—The nurse just slapped one of your children.

Mrs. Forebunderd—Oh! I was afraid somebody had kicked Fido.

Love's Part In Women's Lives.

Love ought to play a most important part in the lives of women; it, in fact, should be the chief end of their existence, but alas! it is not; it used to be, but the time is almost past for that; love is nowadays a secondary consideration.

The hurry and bustle of the world, higher education, business training—all these have had a hand in relegating love to a back seat. Women, or, at any rate, a large number of them, in these days aim rather at distinction; ambition spurs them on. They are not content to settle down and lead a peaceful, if uneventful, married life. They clamor for excitement; they want amusement; they refuse to be tied down to a round of domestic duties; they have, in a word, revolted against the old and homely rule, which ordained that matrimony, following on love, was the be-all and end-all of life, so far as women were concerned.

Now, do women benefit by the change? Suppose a woman gains fame, with perhaps fortune thrown in, is that enough? Will she be thoroughly satisfied? She will—to the outsider who cannot read the secrets of the heart. But deep down there is a consciousness that something is wanting, the natural instinct has been thwarted, and the woman knows it. Instinct, in truth, clamors for something withheld. After all, what is fame to a genuine woman? Will the praise of the multitude fill a woman's heart with joy as much as an infant lisping its first simple words? Will the adoration of a social set ever recompense for the lack of a husband's love and respect?

Is there a living woman, of say thirty years of age, who has never loved, if only secretly? There are countless thousands who have loved and lost, but this case is not so bad as that of a woman who has never known what love means. You may argue that the latter does not know what she has missed, but you are wrong, so far, at any rate. True, she may not accurately understand just exactly what love means, but there is a yearning for something, a feeling which she cannot define. There is a blank in her life; she knows she is incomplete, undeveloped, in fact; the sweet characteristics, the finer side of her nature, the true emotions—all these are stunted. It requires love to bring them to maturity, and except they reach maturity the woman may almost be said to have lived in vain.

It is only after true love comes to the fore that a woman lives her best. Before its appearance she exists; after love's tender beams strike her life path she is transformed, and not she alone—everything to her takes on a more beautiful appearance, the most sordid things of life become brighter. There are women who scoff and sneer at love outwardly, but little heed is paid to them; anyone possessing common sense knows that they are merely cloaking their inward feelings; they try to deceive themselves; that is the long and short of it.

Take the average girl; what does love conjure up to her? Let her just think of the day when she will fall in love, and be loved, and she in fancy sees a home of her own, a husband who treasures her, and very likely children who adore her, and what is the result? Her life is made brighter by the thoughts; she is spurred on; she is always looking forward to a certain happy time; the very thought of love, in fact, is necessary for her, so what of the reality? The world is cold and cheerless for the unhappy woman who has never known what true love really is.

Following on what has been said above, one might naturally ask: "Is love necessary for man? It is not so much, at any rate, as it is to a woman. A woman is created for the very purpose of loving and being loved, more or less; to her love is life. A man, on the other hand, is a creature created for work; his business and a hundred and one other things take up his attention; he can get along without love; it is not a vital matter to him. If he falls in love, well and good; if he does not, it is (to many men) of small consequence; he does not miss much (from a male point of view); the woman, however, who never loves, or never has love offered her, may be called one of life's most decided failures, for if a woman's life is to be a success love is a necessity. At the same time it is doubtful if any woman ever lived who had not at least one opportunity to marry if she wanted to.

ABSOLUTE AND RELATIVE.

Tommy Figgjam—Paw, what is th' difference between "absolute" and "relative"?

Paw Figgjam—Very little at times, Tommy. Most absolute divorces are brought about by relatives.

TIME AND PLACE.

Spartacus—Did you ever have much luck fishing in the spring?

Smarticus—Not much. I usually caught a good many more fish about seven or eight miles further down the stream.

The Leghorn Fowl.

There is no better all-round bird than the Leghorn, and although it is only about 30 years since the breed was first imported, they are now bred by the millions. Their excellent laying qualities, combined with their hardiness, make them very popular. They can be reared and kept in the smallest spaces with the greatest advantages. Leghorns are layers of medium-sized white-shelled eggs, are nonsitters and have the smallest of appetites, so that the most of their keep is very small in comparison to the return they yield to eggs. When killed young they make fair table fowls, but their comparative smallness of size debars them from being considered as table poultry of any commercial value.

The race is divided into seven varieties, namely, browns, whites, buffs, piles, duckwings, black and cuckoos, all of which have large single combs, pure white earlobes and yellow legs and feet. The combs of the cock should be large, quite firmly set on the head, deeply and well serrated; the legs large, pendent, smooth and white; the neck long and nicely arched; the back of moderate length; the breast full and carried well forward; the tail large and carried well up, with full flowing sickles; the general appearance light and sprightly. The hen differs from the cock, as her comb should fall gracefully to one side, and her tail be carried rather lower. Of course, she is not nearly so large in size as the cock, and her lobes, wattles, etc., should be in proportion to her body. The whites, buffs and blacks are all self-colored, so that no description of them will be needed.

IN TERMS OF TIME.

Often a second trial is necessary to a minute examination.

The lazy man wants a job in which "his time is his own." But if we are the right kind of employees all hours are ours.

S. W. GILLILAN.

Mysteries of the Deep Sea.

The mysteries of the deep sea are coming to light. Scientists have measured the mountains of the ocean bed, and their lead lines have penetrated into valleys so deep that the sun's rays are lost miles above the bottom. Some of these are more than 30,000 feet below the surface. If the highest mountain in the world were set at the bottom its summit would be nearly half a mile under water.

In these valleys there are no plants, weeds or vegetation of any kind, because such forms of life need light and at these depths there is total darkness. But animal life flourishes. Many of the deep-sea animals are gigantic. These animals are all, or nearly all, without eyes. Most of them eat mud and slime, but there are others who seek living prey, find it by means of great feelers, and then grasp and kill it with long tentacles.

It is strange that in these dark and freezing abysses vast quantities of vegetable matter are found that during their lives were bathed in tropical sunlight and in water 80 degrees above zero. These deposits lie side by side with other organisms which passed all their lives in darkness, and at a temperature near to the freezing point. The vegetable organisms were originally absorbed by plants and animals on the earth's surface or in the shallow waters, and it is estimated that three-fourths of the deposits now covering the bottom of the ocean have at some time passed through the alimentary canals of marine animals.

The geography of the sea—"oceanography" it is called—began with the laying of the ocean cables, and was elevated into a branch of science by the cruise of the Challenger. Since then it has been found that there are 43 great deep-sea valleys. The Pacific Ocean, like the Pacific Slope, is the great mountainous region of the water world; there are 24 vast valleys concealed beneath it.

According to Sir John Murray, the area occupied by these deeps is estimated at 7,752,000 geographical square miles, or about 7 per cent. of the water surface of the globe. Within them over 250 soundings have been recorded, of which 24 exceed 24,000 feet, including three exceeding 30,000 feet. Depths exceeding 24,000 feet have been recorded within eight miles of the deeps—namely, in the North Atlantic within the Nares deep, in the Antarctic within the Ross deep, in the Banda Sea within the Weber deep, in the North Pacific within the Challenger, Tuscarora and Supau deeps, and in the South Pacific within the Aldrich and Richards deeps. Depths exceeding 30,000 feet have hitherto recorded only within the Aldrich deep of the South Pacific to the East.

Notes of Interest From Far and Near.

More than 25,000 Chinese have been imported for work in the Rand Mines, South Africa.

Of the 720,000,000 acres of land making up the total area of Argentina, 24,000,000 are arable. The principal crops are corn, wheat and flax.

A German statistician notes that the increased longevity in Europe within the last 50 years is more conspicuous among women than men.

Scotland has Kansas beaten. Alexander Wilkie, of Upper Craigie, Perth, boasts a beard more than eight feet long. It is still growing.

A cautious grand juror at the Old Bailey, London, brought his own Bible with him, to be sworn upon, and so took no risk of microbes.

The Brazilian government is about to connect the port of San Francisco with Argentine by means of a railway line about 620 miles in length.

Sailing from the two ports of Lowestoft and Yarmouth the herring fleet numbers about 1,000 vessels, each of which spreads a net a mile to a mile and a half long.

All the different street car companies in Barcelona, Spain, are now owned and controlled entirely by foreign capitalists, and the work of substituting electricity on those lines that have not already adopted it is almost completed.

There is no punishment in France if the murderer is not discovered and brought to trial within 15 years. Arnold Weber, who committed a murder in Paris 25 years ago, has just written defiantly to the police confessing the crime and saying he is about to return to Paris.

In the larger towns and cities of Cuba telephone systems are in operation, and permits are granted from time to time for the construction of private telephone lines connecting plantations, etc., with railroad stations, stations of the rural guard, nearest city hall or adjoining plantations.

The wheat area of the United Kingdom in 1904 was the smallest on record, being 1,400,000 acres. The average for the preceding 10 years was 1,827,081 acres. But the total yield in 1904 appears to be somewhat in excess of that of 1895, the year of next smallest area, being about 40,000,000 bushels.

FORESTERS CLOSE THEIR SESSIONS

H. W. Cheadle Gets Honor of Going to Supreme Court.

Crookston Chosen For Next Meeting—Officers Are Elected.

Choosing Crookston as the next place of meeting, two years hence, the third session of the high court of Northern Minnesota, Independent Order of Foresters, closed at noon today. This afternoon the delegates, local members and friends went on a trip to Fond du Lac.

The much coveted honor of representative to the supreme court, which convenes at Atlantic City, N. J., next August, fell to H. W. Cheadle of Duluth. There was a stirring campaign conducted for the office, and Mr. Cheadle was only able to land it by a majority of four votes. He polled twenty-three votes as against J. G. Ross, who had nineteen. Mrs. Mary Oppel secured three ballots. There was not much of a fight on for the other offices, those elected being as follows:

High chief ranger, Frank Crassweller, Duluth.

Vice high chief ranger, Charles Full, Hendrum.

High secretary, Isaiah Ridge, Duluth.

High treasurer, J. D. McPhall, Duluth.

High physician, H. E. Webster, Duluth.

High counselor, L. E. Gossman, Crookston.

High Chief Ranger Crassweller announced the appointment of the following officers:

High orator, Mrs. C. J. Petruschke, West Duluth.

High organist, Mary A. Oppel, Duluth.

High senior woodward, M. McAskill, Crookston.

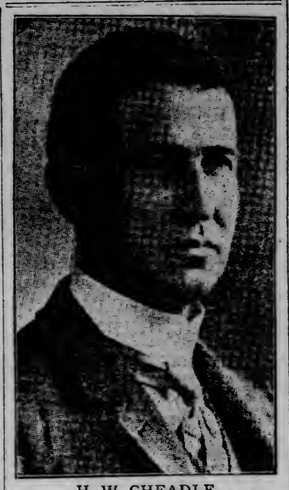
High junior woodward, John D. Murray.

High senior beadle, O. W. Olson, Duluth.

High junior beadle, C. W. Canning, Hendrum.

High marshal, W. Westholm.

High Conductor—H. C. McKenzie, Northcote.



H. W. CHEADLE,
Selected by Foresters As Representative to Supreme Court.

High Messenger—A. R. Armstrong, West Duluth.

High Junior Secretary — Frank L. Young, Duluth.

The meeting this morning was conducted by A. E. Stevenson, manager for the Foresters in the United States. He installed the officers, and made presentation of a jewel to Past High Chief Rangers Cheadle and W. E. Hicken of Duluth.

There was a grand union meeting of delegates and local members at the Armory last night. Mr. Stevenson delivered an address showing the necessity of making provision for old age and families. He showed the manner in which the order is extending its usefulness by building homes for the aged and orphans.

A class of about 200 was initiated into the order by Mr. Stevenson.

The women of the guard of honor from Court Pride, who conducted the initiation ceremonies were: Mesdames Graham, Ganther, Oppel, Bradley, Trasice, Wolo and Neary and Miss McGilvray. The latter with Mrs. L. Thompson exemplified the public work. The secret work will be given when the next meetings of the respective courts will be held. Dancing followed until midnight.

WANT NEW TRIAL

Frank Lenisch and Frank Longer Not Satisfied With Verdict.

Convicted at May Term of Manslaughter In First Degree.

On the ground that new evidence has been discovered, the attorneys for Frank Lenisch and Frank Longer, who are confined in the county jail awaiting sentence for manslaughter in the first degree, will make a motion before Judge Ensign, in the district court next week, for a new trial.

The two men were indicted and convicted on the charge of killing Peter Krasovic, at Eveleth, last April. The man was knifed on a sidewalk at night, in the vicinity of which there were many people. Krasovic was unconscious when he was picked up by some men, who had witnessed the fight from a distance. The injured man died a few seconds after he was taken to the hospital, and was not able to give his version of the story, or those who had assailed him.

The main testimony against the two now in jail was that they had been the chief performers in a quarrel which occurred at the boarding house, from which Krasovic and two other men ran.

Except for a bloody knife, which a boy testified he saw in the possession of Lenisch, there was no direct information of the connection of either men with the crime. Should a new trial be granted, the attorneys may probably try to prove that it was a general fight, and that there was no grounds for believing the prisoners guilty of stabbing Krasovic more than others. L. H. Corcoran was the attorney for the prisoners at the trial. He is being assisted in the effort to procure a new trial by Mr. Bannon, an attorney from Eveleth.

BELDAME IS THE WINNER

Suburban Handicap, Proper Second, First Mason Third.

Sheepshead Bay, June 15.—Following is the result of the fourth race, the Suburban handicap, $20,000, mile and one-quarter, 3-year-olds and up. Beldame, first; Proper, second; First Mason, third. Time, 2:05 3-5.

In Widow's Favor.

The contest case of Hjalmar Vien against the widow of Charles Johnson, involving a homestead entry of said Charles Johnson on the northwest quarter of the northeast quarter of 32-59-20, has been decided in favor of Mrs. Johnson. It was claimed by the contestant that when Johnson died he was in default. A hearing before the register and receiver of the land office showed that the widow had mended such default by building a house on the land and planting potatoes on the claim. The local officials ruled for the widow. The matter was carried to the general land office by Vien and that office has now affirmed the decision of the local office.

Many children inherit constitutions weak and feeble, others due to childhood troubles. Hollister's Rocky Mountain Tea will positively cure children and make them strong. 35 cents, Tea or Tablets. Ask your druggist.

Longtin-Shotts.

A pretty wedding was solemnized at the residence of Rev. Father Guillet at the West end Wednesday morning at 10:30, the contracting parties being Miss Cordelia Longtin, daughter of Mr. and Mrs. Louis Longtin of 1208 West First street., and James Shotts. They were attended by Peter O'Donnell, who acted as best man and Miss Ida Blanchard as bridesmaid. The bride was dressed in a pretty, light blue silk gown and wore a white lace turban.

After the ceremony an elaborate wedding breakfast was served at the home of the bride's father.

Mr. and Mrs. Shotts left on the 1:55 train, amidst showers of rice, for St. Paul, Milwaukee, and the East, and will be home to their friends at 1208 West First street after July 1. Mr. Shotts is one of the shipping clerks of the Gowan-Peyton-Twohy company.

Will Have Much Music.

The celebration to be held by the Eagles in connection with their state convention, will be well supplied with bands. Aside from Flaaten's Third Regiment band, of this city, there will be in the Saturday parade, the Calumet & Hecla band from the Copper country, the Journal band from Minneapolis, the Crookston City band, the Grand Rapids band, the Superior band and several other musical organizations from smaller points in this state.

With dainty dishes for dainty breakfasts, Mame C. Fisher will serve a delicious cup of Barrington Hall Steel Cut coffee. Bring your cup and spoon tomorrow, at 2 p. m., Zenith Furnace Co., 331 West First street.

DULUTH AUTOMOBILE COMPANY.

St. Paul, June 15.—(Special to The Herald.)—The Duluth Automobile company of Duluth, filed articles of incorporation with the secretary of state today with a capital stock of $50,000.

RETURN FROM LONG VISIT

Beriah Magoffin and Family Arrive From Indian Territory.

Beriah Magoffin, accompanied by Mrs. Magoffin and their son Eben, has returned from Muskogee, I. T., where they have been residing since September last.

"Muskogee certainly can lay claim to being a boom town," said Mr. Magoffin today. "I was surprised at the number of Northerners that I found in that country, particularly Canadians. Some of the Canadians have been there for at least twenty-five or thirty years and some of them have married Indian women and have come into some rich holdings through the allotment that was made to the Indians.

"I believe there are some fine business opportunities in Muskogee. Already an immense amount of business is transacted there.

"The Southwest is a very prosperous section of the country, and Indian Territory particularly so. In my estimation it is more promising than Oklahoma.

"Not only are there rich agricultural districts, but the land is rich in minerals and is coming rapidly to the front in the way of oil production. Not only is the North pretty well represented there, but people are going into the country from nearly every one of the Southern states. I ran across a great many former Minnesotans who have cast their lot in the Indian Territory.

"As to politics the field is pretty well divided in the territory by reason that the population is so well mixed. Sometimes the Democrats are in the majority and then again it is the Republicans that are in the ascendancy. You might well say that the territory is doubtful as to politics.

"The people of the territory desire two separate states made of Indian Territory and Oklahoma, but the authorities at Washington seem opposed to the idea and are not inclined to give so doubtful a political district four senators.

"We enjoyed the climate at Muskogee very much."

DIFFERENCES

Between Attorneys and Moody Will Be Explained.

Washington, June 15.—Attorney General Moody today gave out the following statement regarding the retirement of Messrs. Harmon and Judson from further employment in the rebates found by the interstate commerce committee to have been given by the Atchison, Topeka & Santa Fe road to the Colorado Fuel and Iron company:

There seems to be no good reason why the exact point of difference between Messrs. Harmon and Judson and myself, which led to their retirement, should not be made public, and a complete statement will be made. I wrote Mr. Harmon some days ago, suggesting that if the statement of that difference should be made, it ought to be one upon which we agreed, and asking his views as to how the statement should best be made. This morning I received a telegram from Mr. Harmon, saying that my letter had been received, and that he was now answering it. Before making any further statement I shall await Mr. Harmon's answer.

With dainty dishes for dainty breakfasts, Mame C. Fisher will serve a delicious cup of Barrington Hall Steel Cut coffee. Bring your cup and spoon tomorrow, at 2 p. m., Zenith Furnace Co., 331 West First street.

New Chicago and New York Train.

Beginning with Sunday, June 11th, the Pennsylvania will place in service a new train from Chicago, to be known as "The New York Special."

It will run daily, leaving Chicago at 8 o'clock a. m., reaching Pittsburg at 8:30 p. m., and New York the next morning at 8:15. A 23-hour train to New York, with $5.00 extra fare from Chicago.

"The New York Special" will carry a Parlor Car, a Dining Car and Coaches from Chicago to Pittsburg and a Sleeping Car from Chicago to New York.

For full information, address G. L. Thomson, T. P. A., Pioneer Press Bldg., St. Paul.

If a merchant fails to make it worth your while to read his advertisement he wastes his space. Space costs money; and very little of it is wasted. Therefore—it is usually "worth your while" to read any store-advertisement.

ADDICKS ADJUDGED IN CONTEMPT OF COURT.

Philadelphia, June 15.—J. Edward Addicks has been adjudged in contempt of court for failing to appear before Henry B. Bobb, master in the Queen City Construction company case. A subpoena was issued ordering Addicks to appear today before Judge Holland in the United States circuit court to explain why he has ignored summons and to appear before Mr. Robb as master. Addicks was not present, but his counsel promises that he would appear before Mr. Robb next Saturday. Judge Holland granted the extension of time. The case at issue is one of the many ramifications of the Bay State Gas litigation.

NOTHING FOR CHARITY.

Chicago, June 15.—The will of Arthur Orr of Evanston, Ill., who died at Pasadena, Cal., has been filed for probate. It disposes of an estate valued at $1,500,000. Most of the property is left to the widow, Mrs. Eleanor E. Orr and when the children become of age one-fifth is to be set aside for them. They are: Alice, Arthur, George N., Robert C., Eleanor N., and Helvetia. At the death of the widow the estate reverts to the children. No charitable bequests are made, but amounts ranging from $1,000 to $5,000 are left to friends and relatives.

DELEGATE TO GO

Boys' Department Will Send Representative to Lake Geneva.

Arrangements Are Being Made For Summer Camp.

The boys' department of the Duluth Y. M. C. A. will be represented at the conference to be held at Lake Geneva, from July 29 to Aug. 3, by Ray Fenton, vice president of the boys' cabinet.

Secretary MacLeod of the boys' department will also attend, and it is not unlikely that two or three other members of the association will be sent with the party.

This was decided on at a meeting of the boys' department cabinet, held last evening at the residence of Mr. and Mrs. W. J. McCabe, in Hunter's Park. Dinner was served to the boys on the lawn at Mr. and Mrs. McCabe's residence. The following members were present: Charles McLennan, Ray Fenton, Willis Hamblin, Russell McLean, Harold Cant, David Fredin, Harwood Sturtevant, Gilbert Ketcham, William Burriss, Robert Jaques, Sargent McGonagle, Verner Claypool.

Mr. and Mrs. W. A. McGonagle, Mr. and Mrs. Farrics, Mr. Morris of Cincinnati, and Secretary Norman MacLeod were also present.

It was the last meeting of the cabinet until next September, and four of the members who will leave for college in the fall tendered their resignations. The boys who resigned were Russell McLean, Harold Cant, Robert Jaques and Fred Buck.

President Chas. McLennan thanked the retiring members for the work they had done, and appointed Ray Fenton, Vernor Claypool and Harwood Sturtevant a committee to nominate new members to fill the vacancies.

The camp committee reported good progress. The summer camp will be held this year at Deerwood from Aug. 14 to 27.

The regular summer outing parties will commence Saturday, when the boys will take a launch ride to Zenith park, where they will hold an all-day picnic. The program for the summer includes a hiking party to Two Harbors(cross country tramps, all night camping parties, yachting parties, fishing and swimming trips, and outings by the bicycle and camera clubs.

The meeting adjourned after a vote of thanks to Mr. and Mrs. McCabe had been passed by the members.

RUSSIANS SINK SHIP

Cruiser Don Sends German Vessel to the Bottom.

London, June 15.—The German steamer Tetaros was sunk by the Russian auxiliary cruiser Don, May 30, according to information received today at Lloyds. The Tetaros was on her way from Otard, Japan, to Tien Tsin with a cargo of wooden sleepers.

Flensburg, Prussia, June 15.—The Tetaros belonged to the Flensburg Steamship company. Her crew were landed at Batavia, Java, yesterday. The Tetaros had no contraband of war on board.

CASSINI SEES PRESIDENT.

Washington, June 15.—Count Cassini, Russian ambassador, called at the White House about 3 o'clock and remained with the president for nearly half an hour. As he left the white house he informed the representative of the Associated Press that he could add nothing at this time to the announcement authorized by the president. The question of the selection of plenipotentiaries, he added, had not been determined, and he indicated that it probably would be several days before the preliminary negotiations were concluded.

WILL LEAD TO PEACE.

St. Petersburg, June 15.—The secretary of the Japanese legation at Paris is quoted in an interview, sent by the correspondent at the French capital of one of the local afternoon papers, as expressing confidence that the meeting of the plenipotentiaries of Russia and Japan will lead to peace.

"While Russia," he said, "does not know the exact nature of our terms she knows the main outlines, and if she has now finally decided on a meeting of plenipotentiaries Russia must be prepared to treat for peace. Otherwise the acceptance of President Roosevelt's good offices would be a direct affront."

BETTER SERVICE

Is Desired From the Mercantile Agencies.

Memphis, June 15.—The report of the committee on mercantile agency service was presnted to the Credit association by Chairman C. D. McLaren of St. Paul, Minn. The report says it appears that the two leading mercantile agencies do not maintain the same standard of service at their several branches, notwithstanding that a uniform price is paid, and authority is asked by the committee to make a thorough investigation over this matter and by an extended examination of the agency reports and an exhaustive comparison of the service rendered by the two agencies, determine which one is giving the better service generally, and also ascertain where the local branches are suffering as a result of unsatisfactory agency service, to the end that the national association may exert its influence to a betterment of such conditions.

The nominating committee reported the following names from which to select three directors for the ensuing year:

Charles G. Rapp, Philadelphia; Henry T. Smith, Chicago; C. D. McLaren, St. Paul; Lee M. Hutchins, Grand Rapids; W. G. Seely, Detroit and Frank Simpson, Los Angeles. The convention then adjourned until tomorrow.

WOMEN'S OUTFITTERS

Get the Best!

Buying "cheap" clothes is largely a waste of money!

A certain amount of skilled labor must be put into clothes to give them any value, and the more of such labor they get the better they are!

To be sure skilled labor costs money! One can't get "something for nothing," but isn't it wonderful how many people keep themselves poor by imagining they can buy gold dollars for fifty cents!

Of all the clothes sold at the Head of the Lakes "Gidding's" stand incomparably at the head! And, value considered, they are the cheapest clothes to be had!

Just now the buying should be doubly attractive because of the decided reductions on many lines because of breaking through walls into the "Annex" to our present store. We prefer to sell them rather than take chances moving them about!

The savings are a fourth, a third and a half!

High-class Tailored Suits at Exactly Half Former Prices Command First Attention!

Great Water Sale

Commences Friday noon at the Big Duluth.

ODD FELLOWS INSTALLED

T. W. Hugo Takes the Office of Grand Master.

St. Paul, June 15.—(Special to The Herald.)—The feature of today's session at the Odd Fellow's grand lodge at the old capitol was the election of the deputy grand master for the ensuing year. The election was held in February, but as neither candidate received the required one-third of the votes cast, the election was thrown into the grand lodge.

George W. Scherer of Mankato received 165 votes on the first ballot; George W. Meyer of Minneapolis 117, and C. L. Kellogg of Red Wing 61.

Mr. Kellogg withdrew, and on the second ballot Mr. Scherer was elected by a vote of 211 to 133.

Grand Secretary A. L. Bolton, in a neat speech, presented the retiring grand master, Winn Powers of St. Paul, with a grand master's jewel. The jewel is wrought in gold with the several emblems and symbols of the order engraved and set in. The heart and hand, emblamatic of the grand lodge degree, pin the center, the heart being an amthest stone. On the back are engraved:

"Presented to Winn Powers by the grand lodge, Minnesota, June 15, 1905."

The grand master thanked the grand lodge for the gift.

The grand lodge decided upon Minneapolis as the city for holding the next annual session.

This afternoon's session was taken up by discussing the question of reducing the fees of the order. There are a number of lodges in the country with small memberships and they cannot increase their memberships unless the fees are reduced.

The Rebekah assembly sent in the name of Mrs. Budd of Montevideo as a director of the home at Northfield. One of the directors of the home is, according to the constitution, to be elected from the Rebekah assembly.

The annual installation of the grand officers also took place. The officers are: Grand master, T. W. Hugo, lodge No. 28, Duluth; deputy grand master, George W. Scherer, lodge No. 29, Mankato; grand warden, John W. Mackie, lodge No. 30, Austin; grand secretary, A. L. Bolton, lodge No. 2, St. Paul; grand treasurer, C. M. Sprague, lodge No. 34, Sauk Center; grand representative, Winn Powers, lodge No. 8, St. Paul.

The session adjourned today and tomorrow, the Odd Fellows will attend the dedication of the hospital at Northfield.

HANGING POSTPONED.

Lincoln, Neb., June 15.—Frank Barker, under sentence of death for the murder of his brother and his brother's wife near Red Cloud, will not hang tomorrow, the supreme court of the state having granted him an insanity hearing today.

FORESTERS CLOSE THEIR SESSIONS

H. W. Cheadle Gets Honor of Going to Supreme Court.

Crookston Chosen For Next Meeting—Officers Are Elected.

Choosing Crookston as the next place of meeting, two years hence, the third session of the high court of Northern Minnesota, Independent Order of Foresters, closed at noon today. This afternoon the delegates, local members and friends went on a trip to Fond du Lac.

The much coveted honor of representative to the supreme court, which convenes at Atlantic City, N. J., next August, fell to H. W. Cheadle of Duluth. There was a stirring campaign conducted for the office, and Mr. Cheadle was only able to land it by a majority of four votes. He polled twenty-three votes as against J. G. Ross, who had nineteen. Mrs. Mary Oppel secured three ballots. There was not much of a fight on for the other offices, those elected being as follows:

High chief ranger, Frank Crassweiler, Duluth.

Vice high chief ranger, Charles Full, Hendrum.

High secretary, Isaiah Ridge, Duluth.

High treasurer, J. D. McPhail, Duluth.

High physician, H. E. Webster, Duluth.

High counselor, L. E. Goasman, Crookston.

High Chief Ranger Crassweiler announced the appointment of the following officers:

High orator, Mrs. C. J. Petruschke, West Duluth.

High organist, Mary A. Oppel, Duluth.

High senior woodward, M. McAskill, Crookston.

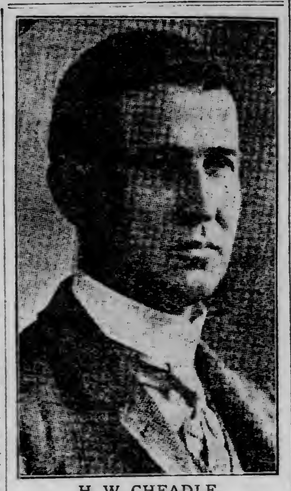
High junior woodward, John D. Murray.

High senior beadle, O. W. Olson, Duluth.

High junior beadle, C. W. Canning, Hendrum.

High marshal, W. Westholm.

High Conductor—H. C. McKenzie, Northcote.



H. W. CHEADLE,
Selected by Foresters As Representative to Supreme Court.

High Messenger—A. R. Armstrong, West Duluth.

High Junior Secretary — Frank L. Young, Duluth.

The meeting this morning was conducted by A. E. Stevenson, manager for the Foresters in the United States. He installed the officers, and made presentation of a jewel to Past High Chief Rangers Cheadle and W. E. Hicken of Duluth.

There was a grand union meeting of delegates and local members at the Armory last night. Mr. Stevenson delivered an address showing the necessity of making provision for old age and families. He showed the manner in which the order is extending its usefulness by building homes for the aged and orphans.

A class of about 200 was initiated into the order by Mr. Stevenson.

The women of the guard of honor from Court Pride, who conducted the initiation ceremonies were: Mesdames Graham, Ganther, Oppel, Bradley, Trasice, Wole and Neary and Miss McGilvray. The latter with Mrs. L. Thompson exemplified the public work. The secret work will be given when the next meetings of the respective courts will be held. Dancing followed until midnight.

WANT NEW TRIAL

Frank Lenisch and Frank Longer Not Satisfied With Verdict.

Convicted at May Term of Manslaughter In First Degree.

On the ground that new evidence has been discovered, the attorneys for Frank Lenisch and Frank Longer, who are confined in the county jail awaiting sentence for manslaughter in the first degree, will make a motion before Judge Ensign, in the district court next week, for a new trial.

The two men were indicted and convicted on the charge of killing Peter Krasovic, at Eveleth, last April. The man was knifed on a sidewalk at night, in the vicinity of which there were many people. Krasovic was unconscious when he was picked up by some men, who had witnessed the fight from a distance. The injured man died a few seconds after he was taken to the hospital, and was not able to give his version of the story, or those who had assailed him.

The main testimony against the two now in jail was that they had been the chief performers in a quarrel which occurred at the boarding house, from which Krasovic and two other men ran.

Except for a bloody knife, which a boy testified he saw in the possession of Lenisch, there was no direct information of the connection of either men with the crime. Should a new trial be granted, the attorneys may probably try to prove that it was a general fight, and that there was no grounds for believing the prisoners guilty of stabbing Krasovic more than others. L. H. Corcoran was the attorney for the prisoners at the trial. He is being assisted in the effort to procure a new trial by Mr. Bannon, an attorney from Eveleth.

BELDAME IS THE WINNER

Suburban Handicap, Proper Second, First Mason Third.

Sheepshead Bay, June 15.—Following is the result of the fourth race, the Suburban handicap, $20,000, mile and one-quarter, 3-year-olds and up. Beldame, first; Proper, second; First Mason, third. Time, 2:05 3-5.

In Widow's Favor.

The contest case of Hjalmar Ylen against the widow of Charles Johnson, involving a homestead entry of said Charles Johnson on the northwest quarter of the northeast quarter of 32-50-20, has been decided in favor of Mrs. Johnson. It was claimed by the contestant that when Johnson died he was in default. A hearing before the register and receiver of the land office showed that the widow had remedied such default by building a house on the land and planting potatoes on the claim. The local officials ruled for the widow. The matter was carried to the general land office by Ylen and that office has now affirmed the decision of the local office.

Many children inherit constitutions weak and feeble, others due to childhood troubles. Hollister's Rocky Mountain Tea will positively cure children and make them strong. 35 cents, Tea or Tablets. Ask your druggist.

Longtin-Shotts.

A pretty wedding was solemnized at the residence of Rev. Father Guillet at the West end Wednesday morning at 10:30, the contracting parties being Miss Cordelia Longtin, daughter of Mr. and Mrs. Louis Longtin of 1208 West First street, and James Shotts. They were attended by Peter O'Donnell, who acted as best man and Miss Ida Blanchard as bridesmaid. The bride was dressed in a pretty, light blue silk gown and wore a white lace turban.

After the ceremony an elaborate wedding breakfast was served at the home of the bride's father.

Mr. and Mrs. Shotts left on the 1:55 train, amidst showers of rice, for St. Paul, Milwaukee, and the East, and will be home to their friends at 1208 West First street after July 1. Mr. Shotts is one of the shipping clerks of the Gowan-Peyton-Twohy company.

Will Have Much Music.

The celebration to be held by the Eagles in connection with their state convention, will be well supplied with bands. Aside from Flaaten's Third Regiment band, of this city, there will be in the Saturday parade, the Calumet & Hecla band from the Copper country, the Journal band from Minneapolis, the Crookston City band, the Grand Rapids band, the Superior band and several other musical organizations from smaller points in this state.

With dainty dishes for dainty breakfasts, Mame C. Fisher will serve a delicious cup of Barrington Hall Steel Cut coffee. Bring your cup and spoon tomorrow, at 2 p. m., Zenith Furnace Co., 331 West First street.

DULUTH AUTOMOBILE COMPANY.

St. Paul, June 15.—(Special to The Herald.)—The Duluth Automobile company of Duluth, filed articles of incorporation with the secretary of state today with a capital stock of $50,000.

RETURN FROM LONG VISIT

Beriah Magoffin and Family Arrive From Indian Territory.

Beriah Magoffin, accompanied by Mrs. Magoffin and their son Eben, has returned from Muskogee, I. T., where they have been residing since September last.

"Muskogee certainly can lay claim to being a boom town," said Mr. Magoffin today. "I was surprised at the number of Northerners that I found in that country, particularly Canadians. Some of the Canadians have been there for at least twenty-five or thirty years and some of them have married Indian women and have come into some rich holdings through the allotment that was made to the Indians.

"I believe there are some fine business opportunities in Muskogee. Already an immense amount of business is transacted there.

"The Southwest is a very prosperous section of the country, and Indian Territory particularly so. In my estimation it is more promising than Oklahoma.

"Not only are there rich agricultural districts, but the land is rich in minerals and is coming rapidly to the front in the way of oil production. Not only is the North pretty well represented there, but people are going into the country from nearly every one of the Southern states. I ran across a great many former Minnesotans who have cast their lot in the Indian Territory.

"As to politics the field is pretty well divided in the territory by reason that the population is so well mixed. Sometimes the Democrats are in the majority and then again it is the Republicans that are in the ascendancy. You might well say that the territory is doubtful as to politics.

"The people of the territory desire two separate states made of Indian Territory and Oklahoma, but the authorities at Washington seem opposed to the idea and are not inclined to give so doubtful a political district four senators.

"We enjoyed the climate at Muskogee very much."

DIFFERENCES

Between Attorneys and Moody Will Be Explained.

Washington, June 15.—Attorney General Moody today gave out the following statement regarding the retirement of Messrs. Harmon and Judson from further employment in the rebates found by the interstate commerce committee to have been given by the Atchison, Topeka & Santa Fe road to the Colorado Fuel and Iron company:

There seems to be no good reason why the exact point of difference between Messrs. Harmon and Judson and myself, which led to their retirement, should not be made public, and a complete statement will be made. I wrote Mr. Harmon some days ago, suggesting that if a statement of that difference should be made, it ought to be one upon which we agreed, and asking his views as to how the statement should best be made. This morning I received a telegram from Mr. Harmon, saying that my letter had been received, and that he was now answering it. Before making any further statement I shall await Mr. Harmon's answer.

With dainty dishes for dainty breakfasts, Mame C. Fisher will serve a delicious cup of Barrington Hall Steel Cut coffee. Bring your cup and spoon tomorrow, at 2 p. m., Zenith Furnace Co., 331 West First street.

New Chicago and New York Train.

Beginning with Sunday, June 11th, the Pennsylvania will place in service a new train from Chicago, to be known as "The New York Special."

It will run daily, leaving Chicago at 8 o'clock a. m., reaching Pittsburg at 8:20 p. m., and New York the next morning at 8:15. A 23-hour train to New York, with $5.00 extra fare from Chicago.

"The New York Special" will carry a Parlor Car, a Dining Car and Coaches from Chicago to Pittsburg and a Sleeping Car from Chicago to New York.

For full information, address G. L. Thomson, T. P. A., Pioneer Press Bldg., St. Paul.

If a merchant fails to make it worth your while to read his advertisement he wastes his space. Space costs the Copper country, the Journal band money; and very little of it is wasted. Therefore—it is usually "worth your while" to read any store-advertisement.

ADDICKS ADJUDGED IN CONTEMPT OF COURT.

Philadelphia, June 15.—J. Edward Addicks has been adjudged in contempt of court for failing to appear before Henry B. Bobb, master in the Queen City Construction company case. A subpoena was issued ordering Addicks to appear today before Judge Holland in the United States circuit court to explain why he has ignored summons and to appear before Mr. Robb as master. Addicks was not present, but his counsel promises that he would appear before Mr. Robb next Saturday. Judge Holland granted the extension of time. The case at issue is one of the many ramifications of the Bay State Gas litigation.

NOTHING FOR CHARITY.

Chicago, June 15.—The will of Arthur Orr of Evanston, Ill., who died at Pasadena, Cal., has been filed for probate. It disposes of an estate valued at $1,800,000. Most of the property is left to the widow, Mrs. Eleanor E. Orr and when the children become of age one-fifth is to be set aside for them. They are: Alice, Arthur, George N., Robert C., Eleanor N., and Helvetia. At the death of the widow the estate reverts to the children. No charitable bequests are made, but amounts ranging from $1,000 to $5,000 are left to friends and relatives.

DELEGATE TO GO

Boys' Department Will Send Representative to Lake Geneva.

Arrangements Are Being Made For Summer Camp.

The boys' department of the Duluth Y. M. C. A. will be represented at the conference to be held at Lake Geneva, from July 29 to Aug. 3, by Ray Fenton, vice president of the boys' cabinet.

Secretary MacLeod of the boys' department will also attend, and it is not unlikely that two or three other members of the association will be sent with the party.

This was decided on at a meeting of the boys' department cabinet, held last evening at the residence of Mr. and Mrs. W. J. McCabe, in Hunter's Park. Dinner was served to the boys on the lawn at Mr. and Mrs. McCabe's residence. The following members were present: Charles McLennan, Ray Fenton, Willis Hamblin, Russell McLean, Harold Cant, David Predin, Harwood Sturtevant, Gilbert Ketcham, William Burriss, Robert Jaques, Sargent McGonagle, Verner Claypool.

Mr. and Mrs. W. A. McGonagle, Mr. and Mrs. Farries, Mr. Morris of Cincinnati, and Secretary Norman MacLeod were also present.

It was the last meeting of the cabinet until next September, and four of the members who will leave for college in the fall tendered their resignations. The boys who resigned were Russell McLean, Harold Cant, Robert Jaques and Fred Buck.

President Chas. McLennan thanked the retiring members for the work they had done, and appointed Ray Fenton, Vernor Claypool and Harwood Sturtevant a committee to nominate new members to fill the vacancies.

The camp committee reported good progress. The summer camp will be held this year at Deerwood from Aug. 14 to 27.

The regular summer outing parties will commence Saturday, when the boys will take a launch ride to Zenith park, where they will hold an all-day picnic. The program for the summer includes a hiking party to Two Harbors(cross country tramps, all night camping parties, yachting parties, fishing and swimming trips, and outings by the bicycle and camera clubs.

The meeting adjourned after a vote of thanks to Mr. and Mrs. McCabe had been passed by the members.

RUSSIANS SINK SHIP

Cruiser Don Sends German Vessel to the Bottom.

London, June 15.—The German steamer Tetaros was sunk by the Russian auxiliary cruiser Don, May 30, according to information received today at Lloyds. The Tetaros was on her way from Otard, Japan, to Tien Tsin with a cargo of wooden sleepers.

Flensburg, Prussia, June 15.—The Tetaros belonged to the Flensburg Steamship company. Her crew were landed at Batavia, Java, yesterday. The Tetaros had no contraband of war on board.

CASSINI SEES PRESIDENT.

Washington, June 15.—Count Cassini, Russian ambassador, called at the White House about 3 o'clock and remained with the president for nearly half an hour. As he left the white house he informed the representative of the Associated Press that he could add nothing at this time to the announcement authorized by the president. The question of the selection of plenipotentiaries, he added, had not been determined, and he indicated that it probably would be several days before the preliminary negotiations were concluded.

WILL LEAD TO PEACE.

St. Petersburg, June 15.—The secretary of the Japanese legation at Paris is quoted in an interview, sent by the correspondent at the French capital of one of the local afternoon papers, as expressing confidence that the meeting of the plenipotentiaries of Russia and Japan will lead to peace.

"While Russia," he said, "does not know the exact nature of our terms she knows the main outlines, and if she has now finally decided on a meeting of plenipotentiaries Russia must be prepared to treat for peace. Otherwise the acceptance of President Roosevelt's good offices would be a direct affront."

BETTER SERVICE

Is Desired From the Mercantile Agencies.

Memphis, June 15.—The report of the committee on mercantile agency service was presented to the Credit association by Chairman C. D. McLaren of St. Paul, Minn. The report says it appears that the two leading mercantile agencies do not maintain the same standard of service at their several branches, notwithstanding that a uniform price is paid, and authority is asked by the committee to make a thorough investigation over this matter and by an extended examination of the agency reports and an exhaustive comparison of the service rendered by the two agencies, determine which one is giving the better service generally, and also ascertain where the local branches are suffering as a result of unsatisfactory agency service, to the end that the national association may exert its influence to a betterment of such conditions.

The nominating committee reported the following names from which to select three directors for the ensuing year:

Charles G. Rapp, Philadelphia; Henry T. Smith, Chicago; C. D. McLaren, St. Paul; Lee M. Hutchins, Grand Rapids; W. G. Seely, Detroit and Frank Simpson, Los Angeles. The convention then adjourned until tomorrow.

BULGE IN WHEAT

July and Fall Options Advance In All Markets.

Northwest Too Wet But Southwest Also Has Advance.

Duluth Board of Trade, June 15.—The weather in the Northwest is too wet and some alarm is being created thereby. This led to some buying by shorts in the wheat market today, and an advance in prices. Southwestern advices are generally very favorable to the crop, though some localities are still sending pessimistic stories. The Liverpool market closed ¾@⅞d lower. Berlin was ½c lower and Budapest ⅝c lower. The cash demand is dun and shippers find it rather difficult to sell. Exporters, however, report foreign bids not very far from a basis upon which new crop wheat can be worked.

In the Duluth market there was a gain of 1⅝c in all options. Minneapolis advanced 2⅜c for July, Chicago 1¾-⅞, New York 1⅜c, St. Louis 2⅝c and Kansas City 1⅞c. The September option advanced 1¾-⅜s in Chicago, 1-1⅜c in Minneapolis, 1⅝c in New York, 1¾-⅞c in St. Louis and 1-⅝c in Kansas City.

Official figures in Argentina are reported to give the corn crop at 140,000,000 bus., against 175,000,000 bus. last year.

Car receipts at Duluth were 15, against 29 last year and at Minneapolis 163, against 196 last year, making a total for the Northwest of 178, against 219 last year. Chicago received 2, against 37 last year.

Primary receipts of wheat were 412,032 bus., last year 314,101 bus. Shipments 311,-869 bus., last year 150,000 bus. Clearances of wheat and flour aggregated 34,000 bus.

Corn in the Liverpool market closed ⅜d higher. In the Chicago market July corn closed ⅝c higher. July oats closed 5⅛@5⅜c higher. Primary receipts of corn were 453,950 bushels, last year 478,748 bushels. Shipments 407,532 bushels, last year 697,580 bushels. Clearances were 4,666 bushels.

Trading in wheat in the Duluth market was very dull, though after the noon hour it braced up somewhat. The July option advanced 1½c to $1.12, closing at that price. The September options also advanced 1¼c, both new and old. The new opened ⅝c higher at 81⅝c, sold up to 82c, fell back to 81⅞c, and then advanced to 82¼c, closing there. The old opened ½c higher at 80½ and sold up to 81½c, closing there.

Cash trade was dead. Durum wheat advanced 1c.

Flax was very dull. July advanced ½c to $1.28, and September ½c to $1.29, while October was unchanged at $1.26½.

Oats advanced ½c.

Following are the closing prices:

Wheat to arrive, No. 1 northern, $1.12; on track, No. 1 northern, $1.12; No. 2 northern, $1.04. Durum, No. 1, 87c; No. 2, 86c; July, $1.12; September new, 82¼c; September old, 87½c. Flax to arrive, $1.48; on track, $1.48; July, $1.48; September, $1.29; October, $1.26½. Oats to arrive, 30⅞c; on track, 30⅝c. Rye on track, 78c; September, 66c. Barley—Feed, 30@32c.

Cars inspected: Wheat, 15, last year, 29; oats, 9; barley, 3; flax, 4, last year 11.

Receipts: Wheat, 23,593; oats, 11,712; barley 6,234; flax, 666.

Shipments: Wheat, 19,872; barley, 25,000; flax, 210,790.

THE CHICAGO MARKET.

Buying By Shorts Gives Wheat Firm Tone.

Chicago, June 15.—Moderate buying by shorts created a firm tone in the wheat market here today. The demand was due principally to wet weather in the Canadian Northwest, conditions in the United States being generally favorable to the advancement of the new crop. A feature of trading was an active demand from commission houses for the September delivery. July opened ½c to ⅝c higher at 86⅝c to 86¾c and advanced to 86⅞c. Minneapolis, Duluth and Chicago reported receipts of 179 cars, against 249 cars last week and 256 cars a year ago.

Strength at Minneapolis, where the price of the July option was up over 2c had a sympathetic effect on the market here. The sharp advance in the Northwest was due mainly to reports to the effect that the spring wheat crop was in imminent danger from rust. Prices here advanced steadily throughout the entire session, the market closing at the highest point with July up 1¾@1⅞c at 87½@⅞c.

Receipts of constantly increasing acceptances in the country had a bearish effect on the corn market. Liberal receipts gave bears an additional reason for selling. Another bearish influence was a marked decline at Liverpool. Cash houses were the chief sellers. July opened a shade to ⅛c lower at 52c to 52@52⅛c and held around 52¼c. Local receipts were 275 cars, with 50 of contract grade.

Later, strength of wheat caused a change of sentiment in corn. On active support from bull leaders a strong tone developed. The highest point for July was reached at 53c. The market closed practically at the top with July up ¾@⅞c at 52⅞@53c.

Oats were steady on a fair demand from commission houses, offerings were light. July opened unchanged to a shade lower at 30⅝c to 30¾@⅞c and sold at 30⅝c. Receipts were 125 cars.

Provisions were a trifle easier on profit taking by packers. The volume of business was very small. September pork was off 5c at $12.80. Lard was a shade lower at $7.42½. Ribs were down 2½c at $7.65.

Close: Wheat—July, 87⅛@⅞c; September, 82¾@82⅝c; December, 82½c. Corn—July, 52⅝@52c; old, 55⅜c; September, 51⅝c; old, 51⅞@52c; December, 48@48⅛c; old, 49½c; May, 48¾c. Oats—June, 30⅝c; July, 30⅝c; September, 29c; December, 29½@⅝; May, 31⅝c. Pork—July, $12.00; September, $12.92½; October, $12.95. Lard—July, $7.10; September, $7.30; October, $7.52½. November, $7.36. Ribs—July, $7.45; September, $7.70@7.72½; October, $7.75. Rye—July, 66c; September, 61c. Flax—Cash Northwestern, $1.43; Southwestern, $1.33. Timothy—June, $2.80; September, $3.10. Clover—June, $11.75@12.00. Barley—42@60c.

Cash Wheat—No. 2 red, no market; No. 3 red, 90@93c; No. 2 hard, $1.00; No. 3 hard, 95@98c; No. 1 northern, $1.11½@1.12; No. 2 northern, $1.06@1.08; No. 3 spring, $1.00@1.05. Oats—No. 2, 30c; No. 3, 29¾c. Corn—No. 2, 53½c; No. 3, 53¾c.

New York, June 15.—Close: Wheat—July, 92½c; September, 87⅜c; December, 87½c. Corn—July, 58⅜c; September, 57½c.

GRAIN GOSSIP.

Logan & Bryan, Chicago: Wheat—The strength in the cash markets of the Southwest, followed by something over a cent advance in their markets caused rather free short covering, and the news from the growing crop, particularly Northwest was decidedly helpful in forcing higher prices. Outside markets were rather free buyers in Chicago lending color to damage reports received from those centers. News from the Northwest was particularly startling. The fact that red rust has now infected the plant leads up to the possibility of developing into black rust, the variety that was so fatal to the crop last year. They have been getting too much rain up there and if anything of a serious nature should overtake that crop the market could easily assume a runaway aspect. The strength in the cash markets is to our minds quite significant. The situation seems to gather strength. The market rallies easily from all depressions and we feel would buy wheat on set-backs, particularly September.

Corn—For a moment after the opening this morning the market hesitated, but the strength displayed and reports of a fair cash demand caused some short covering and a little increase in outside buying. The market displayed very little weakness and notwithstanding free shipments from country there seems to be a demand for the corn. We would buy corn only on very weak spots.

Oats—Trade continues to run without any significant feature. Cash demand is not over urgent and on the bulges would sell September.

• • •

Fargo Forum: Prof. Bolley finds that the barberry stage of the stem rust of wheat is now maturing on the various barberry hedges in much greater abundance than he has ever previously noted its occurrence in the Northwest. This stage is of the rust; growth, known as the aecidium or cluster-cup stage is nearly a full month earlier this year than last season. This he thinks is due to the early spring growth of the barberry and to the further fact that there was an abundance of wheat rust spores on the old wheat stubble and straw of last year's crop. These spores blown about by the wind have fallen upon the barberry leaves, producing the yellow cluster of rust seen there. The spores from these cluster-cups are now ready to be blown to the young wheat. If the weather remains damp and muggy there will probably be a heavy wheat rust infection both from the barberry and from the red spores, blown from the more advanced wheat fields of the South. If the weather turns clear, dry, it is probable these spores can not do harm.

• • •

Edwards, Wood & Co.: Wheat—That this is a weather market was shown today. Light rains were general in the Northwest and showers were reported in the Ohio Valley. Cloudy in the Southwest, but no precipitation. Ohio is asking for bids on new wheat, and this is very significant in as much as they were buyers themselves a year ago. We are not alone in good crop prospects. On the basis of the twenty year average of over 19 bushels to the acre, this means a crop of nearly 90,000,000 bushels for Western Canada, which would exceed all previous records. Weather conditions and threshing returns should be watched closely from now on, unless they are unfavorable we do not anticipate any thing further than a temporary advance for the present.

• • •

Cincinnati Price Current: Corn crop recently generally attended with seasonable conditions. Previous adverse influences have made irregularity. Large part of the crop in good average promise, as a whole closely approaching or equalling average of years. No new development in the wheat crop.

• • •

Ben Bryan, Chicago: I get the following from Theron Logan's brother-in-law, they are largely interested in South Dakota farms:

"Past ten days ideal for wheat plant—has made rapid growth and soil is in prime condition so far as moisture is concerned from the Missouri river to eastern border of state. The prospect was never better for a bumper crop. The Jim River valley, which is usually spotted at this season is universally good and the country about Eureka, where complaints first came from never had better prospects with abundant moisture for weeks to come. Lamoure, Ramson, Barnes and Stutsman counties in N. D. are superb. Our agents in Minnesota all report excellent prospects and advancement of plant up to or ahead of average years. The plant grown from forty-pound seed is looking just as healthy and vigorous as that grown from sixty-pound seed."

Upon receipts of this message in Duluth the statement was made that half the acreage in the counties named is in durum wheat this year.

• • •

Pringle, Fitch & Rankin, Chicago: Our Mr. R. Pringle, who is making a trip through the Southwest wires us as follows: "From Snyder to Oklahoma City, what wheat we saw generally fair, last year it was a failure. I drove out six miles and found wheat fine. Talked with several farmers who were cutting and they are figuring on from fifteen to thirty bushels, last year they had two to eight bushels. Corn uneven, ranging from six inches to waist high."

• • •

Chicago Inter-Ocean: "The local owners of No. 1 northern wheat were inclined to sell their July wheat today, and from the action of the Minneapolis market the same disposition was manifest today said a Duluth message." We suppose the continued good receipts in the Northwest together with the much slower decrease of stocks this week, are responsible for this weakness. We have been abl to get nothing but the most flattering crop reports from the West. Rains in June, excepting a few spots in the Red River Valley, do nothing but help the crop."

• • •

Petri of St. Louis wires: Wellsville, Montgomery county, Mo., is going to hold a public meeting to offer prayers for rain and am just in receipt of a letter from my farm in Anderson, the adjoining county, which says it is fearfully hot and dry and the pastures are burning up.

• • •

St. Louis wires: Branson, who is largely interested in the wheat trade in the Southwest, is here and says he will stake his reputation that Indian Territory and Oklahoma don't raise over 20,000,000 bus. wheat.

CORN AND WHEAT BULLETIN.

For the twenty-four hours ending at 8 a. m. Seventy-fifth meridian time, Thursday, June 15th, 1905.

REMARKS.

Showers fell over portions of all districts. Warm weather was the rule, except that it is cooler this morning in the Red River valley.

H. W. RICHARDSON,
Local Forecaster.

T. indicates inappreciable rainfall. *For yesterday. †For twenty-four hours ending at 8 a. m., Seventy-fifth meridian time.

Note.—The average maximum and minimum temperatures and the average rainfall are made up at each center from the actual number of reports received. The "state of weather" is that prevailing at time of observation.

DEFINITION OF A CYCLONE

Given By Judge Page Morris In District Court.

St. Paul, June 15.—(Special to The Herald.)—Judge Page Morris in the United States district court today gave as his judicial opinion the following recipe for mixing an up-to-date cyclone:

"A cyclone is a violent and destructive storm of greater or less extent; sometimes its path is a narrow strip and sometimes a wide strip of territory; it is characterized by high winds, rotating around a low pressure center, which center moves at great velocity. It is generally accompanied by thunder and lightning."

This statement of what constitutes a cyclone came after the court and a jury had been listening to testimony and argument for several days in the suit of Young, Finch & McConville against the Maryland Casualty company to recover on an insurance policy covering the goods in their mercantile establishment which had been damaged because an automatic fire sprinkling device had been set into action by the storm which hit St. Paul Aug. 20 of last year and which has been described as a cyclone, tornado and as a heavy wind storm.

The case went to the jury this afternoon and if the jury decides from Judge Morris' definition that the storm was a cyclone the casualty company expects a judgment in its favor, as a clause in the insurance policy provides that the insurer is not liable if the device was set in motion by a cyclone.

WEEK OF AUG. 7,

Fixed as Period During Which Patrick Dies.

Albany, N. Y., June 15.—The court of appeals today fixed upon the week beginning Aug. 7 as the period during which shall take place the execution at Sing Sing prison of the death sentence of Albert T. Patrick, whose appeal from conviction of the murder of William M. Rice, the court denied last week.

Will Teach at Vassar.

This week offers the last opportunity that Duluth women will have to meet Mame C. Fisher, the foremost exponent of the art of cooking in America, as she is considering an offer to accept the professorship of domestic science at Vassar college. The women of Duluth are urged to take advantage of the remaining days of Miss Fisher's stay in the city.

DECLINE IN STOCKS

Market Was Very Dull and the Transactions Light.

Volume of Business Too Small to Effect Many Changes.

New York, June 15.—Very meagre transactions in the opening dealings in the stock market showed small changes both ways, but the prominent stocks were lower. The rise of a point in Wisconsin preferred was the only change greater than one half.

Stocks in which there was a secondary transaction moved upwards, but the volume of business was too slight to effect any material changes. The Wisconsin Central stocks were unusually active, and the preferred rose 2 points. Steel Foundries preferred was bid up nearly as much, but became very feverish on the rise. Disappointed sellers of Lake Erie & Western preferred on the dividend announcement cost it 2 points and dragged the common down 1¼.

The only changes of note were in dormant stocks. United States Reduction preferred, Railway Steel Spring and Malting rose 1 and Malting preferred 2½. There were declines of 1¼ to 1½ in Northern Pacific, Chicago, St. Paul, Minneapolis & Omaha and Allis-Chalmers. The widest change in a prominet stock was a rise of a point in Illinois Central. Business was only nominal. Bonds was irregular.

Profit-taking cut in two the rise in some of the earlier strong features, notably Illinois Central and Steel Foundries preferred. American Ice securities dealt in on the floor for the first time brought from 25 to 27. Kansas & Texas dropped 1¼. The ranks of the professionals thinned steadily, the interest in the suburban handicap proving more of a magnet than the sluggish stock market. Lower prices prevailed, Northwestern yielding 2½ and Louisville & Nashville and Locomotive a point.

The drooping tendency of prices was checked but only stagnation succeeded. National Enamel fell 2 and Havana Electric preferred 3½. The closing was inanimate.

Quotations furnished by Edwards-Wood Co., room A, Torrey building.

STOCK GOSSIP.

Logan & Bryan to Paine, Webber & Co.: The stock market closed very dull and generally lower. It is the time of the year when crops are closely watched and new ventures are delayed pending definite crop returns. Stocks are heavily oversold and in that respect the situation speculatively is out of whack. Favorable news of the right kind would cause hasty short covering.

• • •

Walker Bros. to Paine, Webber & Co.: The market today was very dull and with light transactions. There was little desire by traders to do anything and little chance to scalp. We look for a dull market until the end of the week.

• • •

Gates to Paine, Webber & Co.: In view of the dullness we think the market acts assume a runaway aspect. The strength in the cash markets is to our minds quite significant. The situation seems to gather strength. The market rallies easily from all depressions and we feel would buy wheat on set-backs, particularly September.

Chicago Record-Heralu says: James O. Glover, a mining expert, who was selected by certain of the directors of the Greene Consolidated Gold company, to make an examination into the property, says that the plants, machinery, buildings, etc., could not have cost more than $175,000. The amount of gold produced to date, he says, can be valued at about $500. The last statement issued by Col. Greene made the net clean-up in March and April more than $100,000 and two dividends of $80,000 each have been paid on the stock so far this year.

IN NEW YORK.

New York, June 15.—Butter, firm; receipts, 9,122; street price, extra creamery, 20@20¼c; renovated, common to extra, 13½@17c. Cheese steady, unchanged, receipts 4,471. Eggs, easy; receipts, 21,019; state, Pennsylvania and nearby, mixed, extra, 18½@19c; western, 14½@19c; western, 14½@18c, southern inferiors, 12½@13c.

THE COTTON MARKET.

New York, June 15.—The cotton market opened easy at a decline of 5@10 points in response to disappointing cables and further beneficial rains in the belt. There was a renewal of active bull support at the decline, however, and the market rallied to a net advance of 8@10 points. New Orleans and leading operators were large buyers claiming that high temperatures were doing injury to the crop.

Cotton spot closed 15 points higher; middling uplands, 9.10; middling gulf, 9.35. Sales, none. Futures closed firm: June, 8.57; July, 8.64; Aug., 8.72; Sept., 8.78; Oct., 8.85; Nov., 8.90; Dec., 8.96; Jan., 8.99; Feb., 9.01; March, 9.04; April, 9.07; May, 9.11.

NEW YORK MONEY.

New York, June 15.—Money on call, easy, 2¼@2¾ per cent; closing, bid 2¼ per cent; offered at 2½ per cent. Time money firm; sixty days, 3 per cent; ninety days, 2¾ per cent; six months, 3½ per cent. Prime mercantile paper, 3½@4 per cent. Sterling exchange, steady, with actual business in bankers' bills at $4.87@4.87.05 for demand, and at $4.85.10@4.85.15 for sixty days; posted rates, $4.86 and $4.88; commercial bills, $4.84⅞. Bar silver, 58⅝c. Mexican dollars, 46¾c. Government bonds, steady.

CHICAGO LIVE STOCK.

Chicago, June 15.—Cattle—Receipts, 7,000; market dull; good to prime steers, $5.50@6.30; poor to medium, $4@5.40; stockers and feeders, $2.75@4.80; cows, $2.50@4.60; heifers, $2.50@5; canners, $1.40@2.30; bulls, $2.50@4.25; calves, $3@6.25. Hogs—Receipts 30,000; tomorrow, 20,000; market shade higher; mixed and butchers, $5.25@5.42½; good to choice heavy $5.35@5.42½; rough heavy, $4.60@5.10; light, $5.20@5.40; bulk of sales $5.30@5.40. Sheep—Receipts, 15,000; market steady; good to choice wethers, shorn, $4.60@5.20; fair to choice mixed, shorn, $3.50@4.40; western sheep, shorn, $4.00@5.10; native lambs, shorn, $5.60@6.75; western lambs, shorn, $5.10@6.65.

IN CHICAGO.

Chicago, June 15.—Butter, steady; creameries 1619c; dairies, 15@17c. Eggs steady, at mark, cases included 13¾@14½c. Cheese easy, dusies, 9½c; twins, 9c; Young Americas, 10c.

is Called to Washington.

Mame C. Fisher has an important appointment July 20, with Dr. C. Wiley, the government's pure food expert at Washington, in regard to the formation of women clubs all over the United States to fight the spread of adulterated foods, which, combined with poor cooking, is filling the hospitals, cemeteries and asylums at a rapid rate. Miss Fisher will continue to give her practical demonstrations on the art of cooking at 331 West First street every day this week.

MORE YELLOW FEVER.

Washington, June 15.—In a cablegram to the Isthmian canal commission, Governor Magoon at Panama reports three new cases of yellow fever, and that three men reported by him on June 12, as suffering from the disease had died. Their names are given as "Mosomono, Griffiths and Aikens."

MURDERER MAY BE LYNCHED.

Lincoln, Neb., June 15.—Max Ploehn, who assaulted and killed Miss Alma Goese near Plattsmouth last Saturday, has been captured near that place. A mob is gathering and a lynching is feared. Deputy Sheriffs and police, heavily armed are guarding the jail at Plattsmouth.

POPS WERE MISSING.

Lincoln, Neb., June 15.—A Populist convention to nominate a candidate for congress in the First district was called to meet in the city today, but when the hour for the convention came, not a delegate could be found. The Democrats held their district convention this afternoon.

Great Water Sale

Commences Friday noon at the Big Duluth.

CARICATURE SKETCH OF GOVERNOR J. W. FOLK OF MISSOURI.

Marine.

THE SOO TRAFFIC.

Suez Canal Left Far In the Rear.

Sault Ste. Marie, June 15.—The annual report of the Soo canals for 1904 has just been issued by the government. While 84 per cent of the business of the lake was carried through the American canal, the figures are a combination of both the American and Canadian passages and cover the entire business of Lake Superior to and from all American and Canadian points.

The figures of this waterway run to vast proportions. In the first place, there was three times as much freight carried through the canal in the eight months of navigation in 1904 as was taken through the Suez canal for the full year period corresponding thereto. This freight amounted to 31,546,166 tons, and there were total "mile-tons" for ships passing the canal of nearly 27,000,000,000. This is equivalent to the statement that the average distance that freight was carried was 84314 miles.

There was a total value in the freight carried through of $334,565,000, and there were paid to shipowners for moving this amount the sum of $21,553,000. This made a freight charge a ton a mile of all goods carried through the lakes, including high-priced as well as cheaper commodities, of 8 mill. Indeed, for some low-cost freights the charge a mile was but $0.00040. This latter figure was for coal, a commodity carried by millions of tons the whole length of the lakes.

Vessels to the value of $69,166,000 were engaged in the Lake Superior traffic, in addition to the value placed on whatever unregistered craft were using the canal. There were 886 of these vessels, including everything of all classes, and their average value was, therefore, about $80,000 each. This is not alone for the big freighters, worth up

ADDITIONAL WANTS

One Cent a Word Each Insertion—No Advertisement for Less Than 15c.

SITUATIONS WANTED—FEMALE.

WANTED—SEWING OUT BY THE DAY or week, by an experienced seamstress. Address Mrs. M. O. Howell, West Duluth.

YOUNG LADY, STRANGER IN CITY, wishes position as chambermaid. Address A 68, Herald.

EXPERT YOUNG LADY STENOGRAPHER with three years' experience wishes position; highest reference furnished. Address A. S., Herald.

YOUNG LADY WOULD LIKE POSITION as office girl or other light work, where there is chance for promotion. Will work for small wages at beginning. Address O 72, Herald.

YOUNG LADY WOULD LIKE POSITION as nurse, or second girl, can give references. Address O 73, Herald.

WANTED—BY YOUNG LADY, POSITION in doctor's office as assistant, or cashier and office assistant, has knowledge of bookkeeping. A 84, Herald.

FISH. FISH. FISH.

FRESH AND SMOKED FISH EVERY day, wholesale and retail. D. Goldish, 208 East First street.

NO CURE—NO PAY.

I POSITIVELY CURE THE DRINK habit or make no charge. Get rid of this awful curse. Address for further particulars to O 55, Herald.

One Cent a Word Each Insertion—No Advertisement for Less Than 15c.

SITUATIONS WANTED—MALE.

YOUNG MAN, WELL ACQUAINTED IN business circles in and around Duluth, desires either clerical or outside work for part of time, or will take an interest in some business. Address I 96, Herald.

HIGHLY EDUCATED YOUNG MARried man, aged 27, desires trustworthy position; experienced timekeeper. I 95, Herald.

EXPERIENCED ACCOUNTANT WISHes temporary work. Address A 81, Herald.

ENGINEER, HOLDING CHIEF CERTIficate, desires position; eighteen years' experience; competent to erect and operate any kind of steam plant. Address B. C., Herald office.

RHEUMATISM CURE.

"RHEUMO" POSITIVELY CURES rheumatism. For sale by Max Wirth, 18 West Superior street.

UPHOLSTERY.

C. F. FORSELL, PRACTICAL UPHOLsterer. Shop 328 E. Sup. St. Zenith 949.

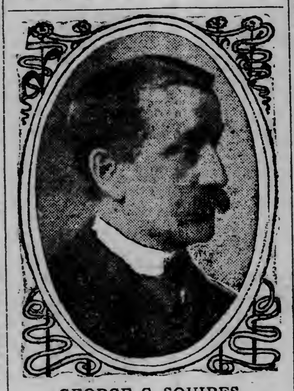
ATTEMPTS SUICIDE

George C. Squires Tries to Kill Himself at Chicago.

Former St. Paul Lawyer and Well Known In Duluth.

A telegram from Chicago, two days ago, reported the attempted suicide of "John C. Squires, formerly of Minneapolis," at the Auditorium Annex. Later telegrams disclose that the Squires was George C. Squires, late of St. Paul, and now of New York city. Mr. Squires moved to New York about a couple of years ago. He was for many years in St. Paul, occupying a prominent position at the bar, and was a frequent visitor to Duluth, especially during the existence of the Duluth Gas and Water company, previous to the sale of the plant to the city, Mr. Squires being the attorney of the company. The announcement of his attempted suicide will be received with surprise by his many friends here, as he was of a cheerful disposition and one of the last persons considered likely to commit suicide. The Chicago Journal gives this account of the affair:

Heavy losses in the stock market are



GEORGE C. SQUIRES.

believed to have caused George C. Squires, member of a New York financial firm, to shoot himself. His aim was bad, however, and although he fired two shots in his room at the Auditorium Annex he is only slightly wounded.

When the police began an investigation yesterday they were given the following letter which Squires had written, addressed to his wife at 18 East Fortieth street, New York:

"My Dear Wife: By the time this letter reaches you I will have passed into eternity. Take good care of the little girl and Georgie. I leave you a $50,000 life insurance policy. I have not been acting right lately and I hope you will forgive me."

This note, written on the hotel stationery, was found by a chambermaid in one corner of the room. It was not sealed.

The shooting aroused the guests of the hotel, and when Squires was found to be injured, physicians were summoned. It was found that the wound was not serious, but a telegram was sent to Mrs. Squires telling of her husband's attempt to end his life. Word was received at the Annex yesterday that Mrs. Squires had left the East and was speeding toward Chicago on one of the "flyers."

Squires, until about a year ago, lived in St. Paul. He is a corporation lawyer and promoter. He went to New York with his family on leaving St. Paul. Business brought him to Chicago often, and when he arrived at the Auditorium Annex, a few days ago, he appeared to be in the best of spirits. Going up to Paul Gore, head clerk at the hotel, he said:

"Paul, I think I shall go on a fishing trip in Northern Wisconsin for a week. I feel that I need a little recreation."

Squires hailed a cab, went to a nearby gun store and purchased a revolver, fishing rod and tackle. He returned to the hotel, went to his room, No. 1213, and a few minutes afterward the shots were heard. When the door was forced Squires was found on the floor bleeding from a wound in the right side of the head. The first bullet went wild and buried itself in the side wall, but the second one grazed his scalp. The wound is not dangerous, according to attending physicians, and Squires was able to walk about his room yesterday. He refused to make any statement about the shooting.

House Detective Frank Repetto made a report of the shooting to the Harrison street police. When asked why the police were not notified sooner, he said:

"Inspector Lavin knows very well that if anything of a serious nature happens he will always be notified. The shooting of Squires was a trivial matter. The wound was not serious, and I knew that a report of the affair yesterday was ample."

GREAT RACING EVENT AT SHEEPSHEAD BAY

Twelve Thoroughbreds to Run In the Suburban Handicap.

New York, June 15.—America's blue ribbon turf event, the twenty-second Suburban Handicap, will be decided this afternoon at Sheepshead bay. Twelve thoroughbreds, including most of this season's best handicap racers, 3 years old and upward, will struggle for the $20,000 purse and a niche in the equine hall of fame. Beldame, from the stable of August Belmont, and James R. Keene's Brooklyn Handicap winner, Delhi, are the top weights, but they will be the public favorites, while many astute students of turf performances have selected John E. Madden's Plaudit colt Abdell to win the classic. There are other sterling racers in the list, but these three occupy the center of the stage.

Splendid weather, with a hot sun and a fast track, was the promise held out in the early morning hours, so that a perfect contest seemed assured. Thousands of holiday-makers will journey to the historic track, and one of the largest crowds of the season is expected, as usual, to witness the race. Coaching parties by the score, hundreds of automobiles and every sort of conveyance down to the old-fashioned sulky prepared to head for the boulevards leading to Coney Island long before noon, and the business cares of thousands were laid aside for the day in order to witgness the race. The yard outside of the Suburban itself is one of the best this year, including as it does the first half of the double event for 2-year-olds—a race nearly as old as the handicap. Every large stable has groomed its best candidates for some of the races, and the five events beside the Suburban contain more element of contest than in many years.

While there is not quite so much "class" to the entries for the big handicap as usual, nearly all those entered have proved themselves sterling racers in the weeks that have elapsed since the season opened about New York. The weights alloted to each are so nicely adjusted that the contest should be one of the most truly interesting in recent years. Delhi picks up a slight penalty because of his having won the Brooklyn Handicap, but his burden will not be increased enough to make any material difference.

Beldame, who won twelve of fourteen races in which she started last season, is next on the list. While she came back to the races this season a shadow of her former self, the great octagon mare has improved rapidly and in defeating the fast 3-year-old Cairngorm only a few days ago showed she was rounding into her 3-year-old form. Without doubt, she will carry the bulk of the public wagers. Her great turn of speed in the last struggles to reach the wire may tell on Delhi should the Ben Brush colt go to the front and attempt a runaway race like he did in the Brooklyn handicap. Beldame in her races this season, has shown more tractability so that she can be placed in the running by her jockey and if she catches Delhi in the run home many experts believe the colt will quiet. Mr. Keene is fully confident, however, that his pet has not a weak heart and stoutly declares him to be the greatest handicap horse in America.

The Madden colt, Abdell, has developed a turn of speed and has steadily advanced in his work. He has been subjected to the most careful preparation and, as stated, will be the choice of a good many expert handicappers. Proper, slow at the post, always closes with a rush but he has almost won so often that the son of Prestonpans has come to be known as Walter Jennings Great Expectation.

The west will be represented by First Mason, Bad News, English Lad, Alan-a-Dale and Miss Crawford. One of them might furnish a surprise, but if so would have to do much better than on any recent public appearance. Grazlallo, Jacquin and Ostrich are in nicely at the weights and possess great speed, but they will need it all to catch Delhi, Beldame and Abdell. The handicap which has a guaranteed cash value of $30,000, including $2,000 to the second horse and $1,000 to the third will be run over the distance of one and one-quarter mile. The probable starters, weights, Jockeys and owners are as follows:

Delhi, 126	Burns	Jas. R. Keene
Beldame, 123	O'Neil	A. Belmont
Abdell, 100	Naird	Madden
Proper, 109	Knapp	W. Jennings
Jacquin, 100	Walsh	D. C. Johnson
Ostrich, 92	Crimins	Boston S'ble
First Mason, 118	Booker	C. E. Rowe
English Lad, 117	Nicol	Fred. Cook
Bad News, 115	Kelly	E. R. Bradley
Alan-a-Dale, 112	Odom	T. McDowell
Grazlallo, 115	Hildebrand	Columbia Stable
Miss Crawford, 109	Miller	W. Barden

THE HAGUE

Seems Most Likely Place For Peace Conference.

St. Petersburg, June 15, 2 p. m.—The place for the meeting of the peace plenipotentiaries has not yet been determined upon. The Hague, as the seat of the permanent court of arbitration, now appears to be the most likely city, if the conference takes place in Europe. Both the place and the names of the plenipotentiaries, of whom there will probably be two on each side, are expected to be settled before the end of the week. Ambassador Meyer saw Foreign Minister Lamsdorff this morning for a few minutes. He simply communicated messages from Washington. The negotiations continue to proceed through Washington, President Roosevelt acting as intermediary between Count Cassini and M. Takahira.

THE OFFICE BOY.

Showing Influence of Hard Reading on the Young.

Our office boy Jim is a wise person, says the Kansas City Star. He has one of those "I'm on" expressions on his face and an uncanny way of interrupting the noise of the office by telling you the batting average of some ball player, or how Azelina ran in the last race at New Orleans. He knows every policeman on the force and can tell you the last quotation on copper stocks. As I said, Jim is a "wise" one.

When Mr. Bings, the chief clerk, had settled himself at his desk the other morning, Jim, who had nervously hovered about his chair for half an hour, finally walked up to the desk and leaning his shoulder carelessly on the blotter remarked quietly:

"You was down to the office last night."

Mr. Bings was not accustomed to uncalled for remarks on the part of employes and he looked up with considerable astonishment at the fresh young intruder. He met an exasperatingly knowing look in the boy's eyes and was put out by it.

"What is there about it that concerns you?" Mr. Bings snapped, quite crustily.

"And you had your wife with you," the boy continued unabashed; "and you were here about 8 o'clock?"

Mr. Bings was bound to see the conversation through, for the entire office had taken a considerable interest in this unusual proceeding.

"Well, Jim," he finally said, leaning back in his chair and glancing at the youthful detective with as much calmness as he could assume, "I was here last night, my wife was with me, and it was about 8 o'clock. Now that I have acknowledged everything perhaps you will be good enough to inform me how you found it out. Were you here?"

Jim looked at him with scornful contempt.

"Naw," was his only answer.

"How, then, do you know all about it?" Mr. Bings was seriously interested by this time.

"That's my business," Jim answered, with great importance, and he walked quietly to his corner of the room and picked up his book from the chair.

"Jim, come here," commanded Mr. Bings sternly. He felt he must be exonerated of suspicion in front of the office force. Jim got up and walked calmly to the chief's desk, carrying the book opened where he had just found his place. "You have laid yourself open to discharge for impertinence, and I really ought to make you put on your hat and get out. But I'll give you an opportunity to set yourself right. I demand to know how you found out that my wife and I were here at the office at 8 o'clock last night."

Jim's face was woefully near a sneer as he looked over the chief clerk, and he half turned to go away before he finally made up his mind to answer. Tossing his book on the desk, he squared himself firmly on his feet and said:

"Say, didn't you never read Sherlock Holmes?"

"Well, what about Sherlock Holmes?" Bings questioned impatiently.

Jim fumbled in his pockets a moment and then brought forth two crumpled papers. He laid them on the desk, the sneer on his face becoming extremely patronizing.

"Nothin', only here's two 8 o'clock transfers I found on the office floor this morning."

VAUDEVILLE IN BUTTE.

Anaconda Standard: She enters the stage through the rear center, aflame with carmine gauze, her flimy flounces fanning the floor, her left arm akimbo, her right wildly striking the air in an attitude of anger; but she's not angry. Her face betokens extreme anguish as she enters; but as soon as the glare of the footlights touches it, a soft, condescending mellowness spreads over it, and the bit of black courtplaster is plainly visible on the southwest corner of her face.

"Ah, ha! 'Tis well; he ain't here. Oh, if I could only lay my hands on him I'd make him 'pologize to meh! Z-z-z-z-z-z! Ugh!" And the stout woman sweeps on to the center of the stage, the gold crown on the left upper molar glistening in the avalanche of light thrown upon her from the machine in the gallery.

The ample form moves about cautiously as if, in trepidation, an assault is expected. She stoops—carefully—and reaches around in the storeroom of her skirt folds and straightens up again haughtily; she flashes a wide expanse of red fan and waves it in front of her blinking eyes. Then she sits upon the settee and seems to be agitated.

From rear left enters the made-up man, long, black coat and tall, old silk hat, black beard—on crooked—extravagant necktie and a mushy voice.

"Skuse me, missus, I reckon you're the lady of the house," addressing the large woman, who is now standing erect upon her high heels.

"How dare you, sir!" How dare you enter my budwohir, unannounced? Who are you?"

"Me? I? Me? Why, I'm the professor."

"Oh! (bowing until the the imitation ostrich tip touches the carpet.) Pardon me," and she places her arms about his neck.

"Ha! ha! Oh! he! he!" (Aside:) "This is too easy!" And he chuckles the large woman under the chin and winks at the audience.

"Say, can you dance?" he asks, his eyes on the left center box.

"Of course I kin dance."

"You big lobster, you can't dance."

"Is that so?"

"Yes, that's so—oh, say! Did you ever hear of my brother? You know my brother?"

"Yes, oh, yes, indeed; I know your brother," smiling sweetly.

"Well, he got married this morning, ha! ha! ha! And would you think it he married a red-headed girl! He! he!"

"Well, what of it?"

"Oh, didn't you hear? Ha! ha! ha!"

"No; tell me, pray. I am curious now. Oh, well, I don't care if you tell or not. My sister was married this morning, too. So there! Ha! ha! ha! right back at you."

"You don't mean it! Is your sister married? That old, long, hungrey, lanky, freckled bone I saw you walking on the street with last summer?"

"Sir! How dare you! My sister is a lady, I want you to know!"

"Is her hair red?"

"Yes, sir, it is red. But what of it?"

"Nothing; only she's the girl that married my brother this morning," and then the piano strikes up something unexpected and the two comical people advance to the front of the stage and peal forth a volume of noise that the gallery approves of and calls singing.

Vaudeville in Butee—10 and 20 cents. Continuous, everlasting, no letup, every night, and the house is crowded.

SMOKING TEA CIGARETTES.

A peculiar vice is gaining great prevalence in London and is attracting much attention from the physicians there, says the Kansas City Journal. It is the tea, cigarette habit. The women who have become addicted to tea cigarettes have great difficulty in stopping the use of them. It is said that the sensation of smoking them is pleasant after the taste is acquired. Constant smoking soon causes a dizziness and the victims have to clutch at things to keep them from falling. Then follows a state of stupor, in which the victim has wild dreams as varied as thouse caused by drugs.

CARICATURE SKETCH OF JAMES DALRYMPLE.

Mr. Dalrymple has charge of the municipal-owned traction lines of Glasgow, Scotland. He has been invited to Chicago by Mayor Dunne to assist in the street railway problem there. Mr. Dalrymple says one of the first reforms is to give everyone a seat.

NOTICE OF HEARING—

Application being made to me by Fred A. Williams, according to Chapter 42 of the General Statutes of 1894, for deed of so much of Lots 31, 33, 34, 35 and 38 West Perry Street, in that part of Duluth formerly called Portland, as lies within the limits of Lots 12 and 13, Block 196, Portland Division of Duluth, according to the recorded plat thereof, it is

Ordered that said application be heard before me at the Court House in the City of Duluth, in said County and State, on Saturday, July 8th, 1905, at 9:30 o'clock a. m., at which time and place all persons claiming such portion of said described lots on said West Perry Street, or any right, title or interest therein, are hereby summoned and notified to attend and establish their right thereto, or to make any objections they may have to the granting of said application and hearing; notice to be given to all parties in interest by publication hereof in The Duluth Evening Herald once in each week for three successive weeks before said day of hearing.

Dated June 15th, 1905.

HOMER B. DIBELL,
As Judge of the District Court, Eleventh District of Minnesota.
STEARNS & HUNTER,
Attorneys for Applicant.

Race For Supremacy.

It is interesting to watch the race for supremacy among Minneapolis-St. Paul-Chicago trains. First place is securely held by the Pioneer Limited and the second place by the Fast Mail. Both trains are entirely owned by the Chicago, Milwaukee & St. Paul railway. There are three other fast trains via this line from the Twin Cities to Chicago every day, and there is no extra fare to ride on them. Address W. B. Dixon, northwestern passenger agent, St. Paul, for further particulars, lowest rates, etc.

MINNESOTA HISTORICAL SOCIETY.

HIGHEST OFFICIALS OF PHILADELPHIA MAY BE PLACED UNDER ARREST

Durham, McNichol, Costello and Hill Among Those Mentioned.

Startling Developments Expected From Caven's Hearing.

Mayor In Close Consultation With Citizens' Committee.

Philadelphia, June 16.—Additional arrests are expected as a result of the startling disclosures made yesterday at the hearing in the case of Select Councilman Frank H. Caven, who is under $2,500 bail on charges of being unlawfully interested in the city contracts. Until an early hour today Mayor Weaver was in conference with two of his legal advisers, ex-Judge Gordon and Joseph A. Auerbach of New York, representing the committee of seventy in the city reform organiztion.

Persistent rumors are in circulation to the effect that the men whose arrests are being considered, if they have not already been decided upon, are State Insurance Commissioner I. W. Durham, State Senator James P. W. McNichol, Former Director of Public Works Peter E. Costello, John W. Hill, whose resignation as chief of the filtration bureau was accepted yesterday by Mayor Weaver, immediately after the revelations at the Caven hearing, and one or two men who were employed as inspectors on various portions of the filtration work.

In some respects the arrest of Former Chief Hill would prove as surprising as the arrest of Durham himself, for it was only a few weeks ago that the mayor had councils increase his salary from $12,000 to $17,000 a year, while his ability as an engineer is recognized all over the country. Mr. Hill has thus far refused to make any statement concerning his resignation.

George S. Webster, chief of the survey bureau, has been placed in temporary charge of the office resigned by Chief Hill.

Former Secretary of War Root of counsel for Mayor Weaver, arrived here this afternoon from Ne wYork and went at once to the city hall, where he went into conference with the mayor and the advisory board of fourteen citizens.

Oscar Noll, assistant commissioner of highways, resigned today. It was accepted by the mayor. Noll has been under suspension since the beginning of the gas lease fight.

There were highly interesting developments yesterday in Mayor Weaver's crusade for good government. The fight against the trolley franchises was for the moment forgotten in the light of what developed at the hearing of Select Councilman Frank R. Caven, who is charged with violating his councilmanic oath by being interested in city contracts.

During the hearing it was shown that Insurance Commissioner I. W. Durham, the leader of the Republican organization in this city, is a partner in the McNichol firm of city contractors.

It was also shown that while James P. McNichol, who is now a state senator and one of the local Republican leaders, was in city councils, the McNichol firm consisted of Durham, Mrs. James P. McNichol, John M. Mack and Daniel J. McNichol, a brother of James P. McNichol.

It was also shown that after James P. McNichol left councils his wife withdrew from the firm and that her place was taken by himself.

Other evidence of a sensational character was to the effect that a secret agreement existed between Councilman Caven and his father, trading as James Caven & Son, and another firm in which they agreed that no contract shall be entered into by either of the parties with the McNichol firm or other firm doing work on the city's filtration system without the written consent of both parties.

As a result of what developed at the hearing Mayor Weaver late yesterday accepted the resignation of John W. Hill, chief engineer of the bureau of filtration, and also that of his son, Henry W. Hill, who was assistant to his father. The resignations were sent to the mayor to take effect June 30, but they were accepted to take effect immediately. Chief Hill was the highest salaried official in the city, his compensation being $12,000 a year.

Simultaneously with the acceptance of the resignations all work on the city's filtration system was ordered stopped. The office of Chief Hill was placed in charge of Assistant Director of Public Works Hicks and the city's offices at the filtration plants were put in charge of deputies with instructions to permit no one to remove any records or other documents.

The filtration system has cost the city about $22,000,000, and it will take upwards of $5,000,000 more to complete the work. The McNichol firm has had contracts for about three-quarters of the work.

ADMIRAL AVELLAN,
Head of the Russian Admiralty Department, Who Was Relieved By the Czar.

TO PLEASE LOUBET

Premier Rouvier Will Retain Portfolio of Foreign Affairs.

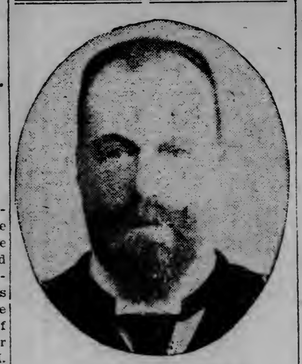
A Successor as Minister of Finance Will Be Chosen.

Paris, June 16, 3 p. m.—Premier Rouvier announced at a meeting of the council of ministers, held at the Elysee palace at noon today, that he had definitely decided to permanently retain the portfolio of foreign affairs and relinquish that of finance. The successor of M. Rouvier as minister of finance will be designated tonight or tomorrow. A decree nominating M. Rouvier minister of foreign affairs will appear in the Journal Official tomorrow. His decision to remain in the ministry of foreign affairs was the result of the earnest request of President Loubet and his colleagues, who desired his strong hand at the helm during the difficult negotiations with Germany over Morocco. The status of the negotiations continues to give the French officials great solicitude, as no progress is being made, and the parties are almost at the point of having reached a deadlock.

After leaving the Elysee palace M. Rouvier returned to the foreign office, where he received Dr. Minino, the Japanese minister who had an appointment with the premier.

Later in the day it was reported that M. Merlou, at present under secretary of finance would be appointed minister of finance.

DIPLOMATS AT CAPITAL ARE FORCED TO CHANGE PLANS FOR THE SUMMER



GRAND DUKE ALEXIS,
High Admiral of the Russian Navy, Whose Forced Resignation Was Accepted By the Czar.

Will Be Obliged to Stay at Washington During Conference.

They Must Follow Each Step Taken By the Plenipotentiaries.

All Hope That Meeting Will Adjourn to a Summer Resort.

Washington, June 16.—Already the epoch-making meeting to be held between the plenipotentiaries of Russia and Japan to discuss means of ending the war as Russian tentatively expresses it, has received a name. In dispatches to Europe from the embassies and legations here, it is briefly termed "The Washington conference."

The announcement of the selection of Washington as the scene of the peace-making, has caused practically the entire diplomatic corps to suspend indefinitely its program for the summer. Despite the reiteration of both belligerents that they propose to negotiate directly with one another, the European powers are preparing to follow each step of the negotiations as closely and as intelligently as cautious and reserved plenipotentiaries will permit, and to do this the European envoys must be on the ground. The informal announcement at the White House that after convening the conference here, if the plenipotentiaries were oppressed by the heat, they would probably adjourn to some watering place in New England, has aroused the hopes of the envoys of the neutral powers that such will be the decision. Among the diplomats whose plans probably will be disarranged by the coming conference are M. Jusserand, the French ambassador who, if he goes to France this month, as had been planned, must return in time for the conference; Baron SpeckVon Sternburg, who has planned to spend his leave in Germany, and Sir Mortimer Durand, the British ambassador, who already had closed his embassy here when the preliminary negotiations necessitated his return from Lenox. If the conference does not convene until September some of the diplomats will make brief visits to Europe mainly for the purpose of getting in touch with the views of their respective governments.

This will not be the first time the diplomatic corps has been kept in Washington in the summer because of important negotiations. The preliminary peace negotiations immediately after the war with Spain and the Boxer troubles and subsequent negotiations in the summer of 1900 demonstrated to them the mid-summer conditions here.

Diplomatic activity in the last few weeks has exceeded the record established during the Venezuelan negotiations in the winter of 1903 and has recalled vividly the scenes immediately following the ending of the war with Spain. There have been conferences at the White House morning, afternoon and evening, the subject of peace negotiations naturally taking precedence over all other official business at the executive offices. Not only has the president sent frequently for various diplomats interested directly or indirectly in the question, but a small circle of diplomats, including besides Count Cassini, the Russian ambassador, and Mr. Takahira, the Japanese minister, Baron Speck Von Sternburg, the German ambassador, Mr. Jusserand, the French ambassador, Sir Mortimer Durand, the British ambassador, and Baron Mayor Des Planches, the Italian ambassador, have called at the White House at all hours of the day and until 11 o'clock at night to discuss peace, the president giving a great deal of his time to the question. In this way the White House is informed daily not only of what Japan wishes Russia to know and vice versa, but of the views and suggestions of European capitals generally.

Next to the belligerents themselves, Germany has shown the most keen interest in the selection of a place for the negotiations. From the outset she has both here and at St. Petersburg and Tokio exercised powerful influence to get the negotiators to Washington. It was the emperor's belief that only in Washington would the negotiators be free from the unsolicited interference of neutral powers.

These fears should be a powerful instrument in the hands of the Russian plenipotentiaries."

The Listok says the world formerly manifested alarm at "The Russian advance," eastward but now seems indifferent to "Japan's advance" westward through Korea and Manchuria.

"In 1895," the paper continues, "Germany, France and Russia protested against Japan exploiting China. Today no power comes forward to stay Japan's victorious march. Russia stands alone and a peace may be forced upon her which will be prejudicial to the interests of Europe."

The latest news from the front indicates that the rainy season is beginning sooner than usual. Already heavy storms have occurred and if the downpour continue the military operations necessarily will come to a standstill without an armistice, a state of affairs which will last long enough for the plenipotentiaries to meet.

There is some talk that Foreign Minister Lamsedorff himself may be one of the plenipotentiaries.

Count Tolstoi in an interview published in the Russ today, praises the United States tender of her good offices and Russia's consent to negotiate but finds fault with the whole reform movement, claiming that getting back to the soil and sharing the land among the peasants is the only panacea for Russia's political ills.

THE STRIKE IS DEAD

Practically No Further Interest Taken In the Teamsters' Trouble.

Sixteen Persons Have Lost Lives Since Strike Commenced.

Chicago, June 16.—Further evidence that interest in the teamsters' strike is relaxing on both sides is furnished by the announcement that only three meetings each week will be held by the teamsters' joint council.

Heated debate is expected at the meeting of the Chicago Federation of Labor Sunday, when the dispute between the teamsters and the building trades is presented for consideration. It is reported that some of the delegates to the federation will protest against a continuance of the strike.

Secretary Hooper of the Lumbermen's association declares that lumber firms affected by the strike are now doing about 80 per cent of their normal business. The list of fatalities due to labor troubles since the beginning of the teamsters' strike, according to the coroner, and furnished to the state's attorney as a basis for manslaughter indictments contains the names of sixteen persons.

THE ACTIONS OF GERMANY

Regarding Morocco Are Closely Watched By the Powers.

Fez, Morocco, June 16.—Much significance is attached to the numerous private audiences which Count Von Tattenbach-Ashold, head of the German mission, has had with the sultan since the arrival here of the British minister, Gerard A. Lowther. There is reason to believe that the principal subject of discussion has been Germany's willingness to help the Moorish movement in the work of reform, and it is understood that in the event of ultimate rejection of the proposed international conference on Morocco, Germany will make definite proposals to undertake the reorganization of certain government departments now included in the French reform project.

RAILROADS APPEAL

For Injunction Against States of Missouri Granted By Court.

Claim Rates of New Maximum Freight Law Prohibitive.

Kansas City, June 16.—Judge Smith McPherson of Red Oak, Iowa, in the United States district court here today, issued a temporary injunction restraining the state railway and warehouse commissioners of Missouri and the attorney general of the state from enforcing the maximum freight rate law, which went into effect today, and against three Kansas City shippers, preventing the latter from claiming penalties under the law. The injunction was granted at the request of eighteen railways, doing business in Missouri, who brought suit against the state officials, on the ground that the rates provided in the new law are prohibitive and would amount to the confiscation of their property.

DULUTH BOY WINS HONORS

Divides Second Bowdoin Prize For Essays at Haward.

Cambridge, Mass., June 16.—(Special to The Herald.)—The winners of the Bowdoin prizes at Harvard for dissertations in English were announced yesterday. One second prize of $100 was divided between H. O. B. Eliaos, '06, and Claude Carlos Washburn, '06, of Duluth, with essays, entitled "The Dramatic Standard of the People," and "Concerning Children."

Claude C. Washburn is a son of J. L. Washburn, and has been making an excellent record at Harvard.

CONSPIRATORS ARE INDICTED

True Bills Returned Against Storey Cotton Company Outfit.

Philadelphia, June 16.—The United States grand jury has found a true bill of indictment, charging conspiracy against Frank C. Marin, alias Frank T. Stone, alias Franklin Stone, alias Thomas Harper; Oliver Quinin, alias F. Storey; Stanley Francis, alias Arthur S. Roster; Arthur O. Howard, Walter B. Riggs, alias W. Reach Richmond; Thomas H. Quiland and Estelle Greham, alias Sophie Beck, alias Mrs. Edward Dunne, alias Estelle Collins. The indictments are the outcome of the recent expose of "get-rich-quick" concerns in this city. The persons indicted were connected with the Storey Cotton company and the Provident Investment bureau, which were closed by government officials. All of the indicted persons, with the exception of Stanley Francis, are fugitives from justice. Francis is under heavy bail, awaiting trial.

EMPRESS INDISPOSED.

Berlin, June 16.—Empress Augusta Victoria is indisposed and has been obliged to cancel all public engagements for the present. So far as known her illness is not serious.

WENT DOWN TO A MAN.

Every One On Alexander III Was Lost.

St. Petersburg, June 16.—A requiem mass will be held tomorrow at the naval chapel for the repose of the officers and other members of the crew of the battleship Alexander III, who, the admiralty announces, went down to a man in the battle of the sea of Japan. There was only one survivor of each of the complements of the battleships Bordino and Navarin.

The prophetic words of Capt. Bukhvastoff of the Alexander III, at a dinner to his officers before their departure for the Far East, are now recalled. He said: "Of one thing I am sure. We will die and not surrender."

Undeterred by the prospects of peace negotiations, Brig. Gen. Barry and the other American attaches will proceed to Manchuria, after being received in audience by the emperor. The officers believe the opportunities for observation and information will be even more fruitful immediately after the suspension of hostilities than in war time.

WANTS COAL.

Russian Cruiser Appears Off Port of Saigon.

Saigon, Cochin China, June 16.—The Russian auxiliary cruiser Kouban, formerly the Hamburg-American liner Augusta Victoria, has arrived off this port and asked to be supplied with coal sufficient to reach the nearest Russian port. Her request is under consideration. The Kouban is fitted with a wireless telegraph apparatus and carrics sixteen guns of small bore. The Kouban did not participate in the battle of the sea of Japan having been detached from the Russian fleet to reconnoitre the East coast of Japan as far as Yokohama. On returning she learned of the disaster to Admiral Rojestvensky and steamed to Cape St. James, near here.

BIG ORDERS TO BE PLACED FOR SUPPLIES FOR CANAL.

Panama, June 16.—John F. Wallace, chief engineer of the Panama canal, leaves Panama today to confer with Secretary Taft on canal matters, and also to purchase materials. Some big orders are likely to be placed, among which will be one for 7,000,000 vitrified bricks. Rock crushers and rollers, for use in paving Panama, will also be purchased.

LUTHERAN DELEGATES DISCUSS CLOSER UNION.

Pittsburg, June 16.—The delegates to the general synod of the Evangelical Lutheran church in America were early in their seats today, as much interest was manifested in the report of the committee on closer union of the various branches of the Lutheran church, which it was expected would be presented.

There are three leading synods in the denomination, namely, the general synod, general council and the general synod South, which many members wish to see united, and it is believed the report of the committee will make the way clear. Leading members said today, however, that the union would not come up this year, but that the committee would be continued from year to year until the union was effected.

LOSS OF MONEY CAUSES LOCKJAW

New York, June 16—What physicians say is the first authentic case here of tetanus trismus, or lockjaw, resulting from grief, has been discovered at a Harlem hospital. The victim is a young man, who arrived from Italy two weeks ago. He had $25, and a few hours after landing was swindled by the numerous padrones who infest the battery and Italian quarters.

Grief-stricken over the loss of his money, which he had intended to use in continuing his journey westward, the Italian went to the home of a friend and sat for hours grinding and gnashing his teeth, clenching his hands and cursing the thieves. He became more and more melancholy and angry, and five days later his jaws became locked. Thus far the doctors have failed in their efforts to relieve him, and he is being kept alive with liquid foods.

WIFE MURDERER LOSES HIS NERVE

Peoria, Ill., June 16.—Otis Botts, 21 years old, was executed in the county jail here today for the murder of his wife on Jan. 5 last. The trap was sprung at 9:08. Botts spent the night laughing and joking and telling lewd stories. He invited everybody to attend his funeral. His mother wanted to attend the hanging, but he said: "Don't do it, you'll make me lose my nerve."

When he faced the crowd, the air of bravado which had marked his career to this time, deserted him and he broke down and wept. Asked if he had anything to say, he replied:

"For all the sins I have committed against the laws of God, I am sorry and may God have mercy on my soul."

He was barely able to stand when the straps and noose were being affixed to his body.

Botts strangled his girl wife to death, Jan. 5, by tying a hair ribbon around her neck.

GREASON IS FINALLY ACQUITTED

Reading, Pa., June 16.—Samuel Greason, colored, was today acquitted of the murder of John Edwards. Mrs. Kate Edwards, wife of the murdered man, whose testimony convicted Greason three years ago, today completely exonerated him. Edwards was murdered nearly four years ago and Greason was arrested several months later. His death warrant was issued ten times and his case has developed into one of the most remarkable murder trials in this state.

Mrs. Edwards, the mother of Greason's child, is under sentence of death and it is expected that the governor will fix the date for her execution within a short time. It was postponed several months ago so that she could be used as a witness at Greason's trial.

SAME OLD STORY.

Mine Owner Swindled In Alleged Pool Room.

Chicago, June 16.—John Monroe has been arrested on complaint of P. H. Grear, a wealthy mine owner of Spokane.

Grear said Monroe and two other men took him to an alleged pool room and told him they had arranged with the clerk of the bookmaker to withhold the name of one of the winning horses in a race until Grear had bet $1,200 on in a race until Grear had bet $1,600 on horse. A short time later Monroe excused himself, and the bookmaker and his clerk also left the room. They did not return, and Grear notified the police. Monroe's companions have not been found.

THREATENS TO EXTEND STRIKE.

New York, June 16.—President Frank McArdle of the International Association of Foundrymen has announced that if the employers in New York and New Jersey where his men are now on strike do not grant an increase of 25 cents a day, he will extend the strike to the entire country, involving many thousand men. Work at the foundries here and in New Jersey is at a standstill.

RECEIVED BY POPE.

Rome, June 16.—The pope today received in private audience the most Rev. John J. Keane, archbishop of Dubuque, Iowa.

BAD FIRE AT FORT FRANCES

Business Section of the Town Destroyed By Fire.

Fort Frances, Ont., June 16.—The entire business section of Fort Frances, except three buildings, burned this forenoon. Loss, $200,000, insured for one half. No one was injured.

A SENTENCE OF 210 YEARS

Could Have Been Given, But Prisoner Got Only 7.

Toledo, Ohio, June 16.—Facing three federal indictments, containing twenty-one counts, the combined minimum sentence of which would mean a continuous penitentiary sentence of 105 years and a maximum sentence of 210 years, Orus M. Burns, the Montpelier, O., banker, indicted by the federal grand jury for embezzling, misapplication of bank funds, false entries and perjury voluntarily entered the United States district court today and entered a plea of guilty on one count in one indictment. Judge Taylor sentenced Burns to seven years in the Ohio state's prison.

AUTO RACES START.

Paris, June 16.—Twenty-four contestants in the French trials for the James Gordon Bennett international auto cup started at 6 o'clock this morning over the Auvergne course. Thery, the winner of the cup last year, was first to start, and he was followed by others at intervals of four minutes. Dispatches from along the course show that Thery is making eighty kilometres an hour, with Wagner making the next best time.

INCREASED SALARY.

Washington, June 16.—(Special to The Herald.)—The salary of the postmaster at Anoka, Minn., has been increased from $1,800 to $1,900 a year.

RATE OF WAGES

In Kansas Has Increased Over Price of Living.

Topeka, Kas., June 16.—Labor Commissioner Johnson, of Kansas, in his report just issued compares retail prices of food from 1900 to 1904 with the rate of wages paid various kinds of labor. The report is a surprise, as the general supposition is that the price of living, that is, the price of necessary articles of food has increased more than the rate of wages. The contrary is true. In an exhaustive recapitulation, Commissioner Johnson gives these figures:

Average per cent increase retail prices of 1901 with 1900, 5.36 per cent; net decrease of labor rates for same period, 53 per cent. Increase of prices 1902 with 1901, 4.33 per cent; increase of rates of labor for same time, 7.82 per cent. Increase in prices in 1903 compared with 1902, 4.73 per cent; increase in rates of labor in same time, 16.01 per cent. Increase in prices in 1904 compared with 1903, 12.73 increase in rates of labor in same period 14.98 per cent.

"SLEEPING SICKNESS" CARRIES OFF AFRICANS.

Boston, June 16.—The American board of foreign missions has received reports from its African missionaries relating to the peculiar disease known as the "Sleeping sickness," which is seriously affecting Central Africa, particularly the kingdom of Uganda. These reports show that there have been 49,051 deaths within the kingdom from the disease. It is believed that the malady is connected with the presence of the Tsetse fly, which hitherto has not been supposed to be harmful to man, though fatal to cattle and horses.

CHESS MASTERS BEGIN THEIR FOURTH ROUND.

Ostend, Belgium, June 16.—The fourth round of the international tournament was begun this morning. Teischmann was the opponent of Leonhardt, Wolf was matched against Marshall, Maroczy faced Tarrasche, Taubenhaus opposed his game against Burne, Tschigorin played with Marco, Blackburne contested with Janowski and Alapin had Schlecter as his partner. When the first adjournment was made Tarrasche had disposed of Maroczy and Tschigorin had beaten Marco.

ACCIDENTALLY KILED.

Lietzen, Syria, June 16.—Col. Von Wissman, former governor of German East Africa, accidentally shot himself in the head while deer stalking today at Fischern. His death was instantaneous.

RUSSIA'S ABLEST MEN

Should Be Sent to Conference, Say Papers.

St. Petersburg, June 16.—The announcement that Emperor Nicholas had accepted the resignation of his uncle, Grand Duke Alexis as high admiral created a great sensation when it became known today but the announcement came to late for comment in the morning papers.

Commenting on the selection of Washington as the place of meeting of the peace plenipotentiaries, the Novoe Vreyma calls upon Russian diplomacy to prepare to struggle seriously and not repeat the drifting policy which the Russian diplomats followed before the war, to decide what Russia wants and to act accordingly.

The Russ dwells on the necessity for selecting the ablest men available to represent Russia at the Washington meeting, "Since they may have to conclude a peace which will determine for many years Russia's position in the Far East."

The Bourse Gazette demands that men representing "New" and not old Russia shall be sent. The paper adds: "The other powers are already expressing fears that Russia and Japan will arrive at an approachment which will decide the destiny of Eastern Asia."

DULUTH WEATHER REPORT—Showers and thunderst orms tonight and Saturday; cool; northeast winds.

Gentlemen's Styles

For Business and Recreation.

The very fashionable double-breasted suit may be had here in blue serges, grays, plaids and outings—the latter including homespuns, flannels and linens. The styles are authentic and the variety of patterns and weaves very extensive. It is difficult to recommend any one in particular because they are all handsome. The choice depends upon your taste. We are rather proud to guarantee complete satisfaction no matter from which line you make your selection.

New Blue Serges, Plaids, Grays and other colors. Prices, $10, $12, $15, $20.
New Summer and Outing Suits. Prices $7.50, $10, $12, $15.

Fancy Negligee Shirts.

Dozens of styles in fancy stripes, dots and tasty color combinations. Also the new and beautiful tans, blues and pinks, either in plain or plaited bosoms, cuffs attached or detached. There is not a common looking shirt in the entire line, but on the contrary every style is new and very attractive. We carry only the reliable brands. $1.00 to $2.50.

Walk in Oak Hall Shoes for foot comfort.

FRUITS ON MARKET

Raspberries, Cherries, Peaches and Canteloupes Offered For Sale.

Heavy Rains Affect Butter and Cheese Receipts Favorably.

With raspberries, plums, peaches, strawberries and canteloupes on the market, life is again worth living for the epicure.

The first raspberries of the season were received this week. The shipment waz but a small one, coming from Indiana and Southern Illinois, but from this time on both the red and black raspberries will be on the market in increasing quantities.

The price is high as yet, both varieties selling for $3 for a twenty-four pint case.

• • •

There is something of a slump in the strawberry trade at the present time, and berries are a little scarcer than they have been for weeks past. This is caused by the fact that the season is just in midstream. The Southern season is about over, the last of the Missouri berries having been received, and the Northern season has not quite opened as yet. Next week the Wisconsin crop will be on the market, and carload lots will be received daily. The Wisconsin crop is not expected to be as large as last year, but the quality is good.

The dealers have been supplying the market meanwhile with the famous Hood River berries from Oregon. These are more expensive than either the Southern berries or the Wisconsin berries, but they are claimed to be of a much better quality.

• • •

The cherry crop is said to be exceptionally light this year, and it is claimed by some that there is not over 15 per cent of the usual supply. California black cherries are now on the market, selling for $2 per ten-pound box, and the Washington cherries are just commencing to come in.

• • •

California peaches, plums and apricots, are now on the market, the first car having been received last week. The second shipment is due now, and the fruit should be plentiful within a very short time. The prices quoted are very reasonable for this season of the year, and the quality is good. The peaches are selling for $1.25 per box, the plums for $1.40 and the apricots for the same price.

• • •

Watermelon time has come.

Some kind-hearted gentleman down in Southern Florida picked enough of the darkies' delight to fill a car, and sent it north to some of the local commission men. The result is that any person who has the price, about 35 cents, can regale himself on the luscious fruit. The price will probably be lower as more shipments are received.

• • •

Canteloupes are also becoming more plentiful. The first shipments have come from Mexico, but as the season advances the source of supply will gradually work northward into Colorado.

• • •

The warm weather, and resulting increase in the demand for lemons, has advanced the market. Both Messina and California lemons are offered by the dealers. The California lemons are selling for from $3.50 to $3.75 per case, and the Messinas at from $3.75 to $4.

• • •

Yellow fever in Central America is said to have greatly interfered with banana shipments, and a number of boats have been turned away without their cargoes. The price is firm, but no raise has been reported as yet.

• • •

Plenty of rain in Northern Minnesota, good grass and plenty of it, account for the conditions existing in the butter market at the present time. The butter now has the grass flavor, and it is of exceptionally high quality. The prices quoted are a little lower than last week, but none too low for this season of the year, when the price touches the low-water mark. Creamery butter is selling for 21 and 22 cents a pound, and the fancy dairies for 18 and 19.

• • •

The cheese receipts have been steadily increasing with the approach of warmer weather, and the price has been steadily declining. The Wisconsin flats are now quoted at 12½ cents, with Limberger at 13 and the block and wheel Swiss at 14½.

• • •

The egg market shows little or no change. The receipts have been fairly heavy, but a good demand has prevented any break in the price, which is still firm at 16 cents.

• • •

New potatoes are now within the reach of the average housekeeper, the price having dropped below the $1 mark. The new stock is quoted at from 80 to 90 cents per bushel, and the demand for the old potatoes has practically ceased.

• • •

Green vegetables are very plentiful in the market at the present time, and the prices show a slight decline all along the line.

• • •

The poultry market is more active this week and the prices are lower. Broilers are now coming in quite freely, and are quoted at 25 cents a pound, at which figure there is quite a demand for them. The price of hens has dropped to 12½ cents, and the market is active. There is little or no demand for ducks, geese and turkeys.

Very little dressed poultry is being received at present, and nearly all of the stock is shipped in live and dressed in the city.

• • •

Little or no change has taken place in the meat market during the week. Veal is slightly lower, but beef, mutton and pork loins remain unchanged from last week.

BACKACHE

Jaundice, Languor, Despondency, Biliousness, Nervousness, Headache, Heartburn, Dyspepsia, and So-Called Female Weakness are Caused by Sluggish Liver and Diseased Kidneys.

Warner's Safe Cure Cures Diseased Kidneys and Sluggish Liver.

If you have pains in the back, rheumatism, uric acid poison, rheumatic gout, diabetes, Bright's disease, inflammation of the bladder and urinary organs; scalding pains when you urinate, eczema, jaundice, swelling or torpid liver; if a woman, bearing-down sensations, fainting spells, so-called female weakness, painful periods; these symptoms tell you that your kidneys have been diseased for a long time. Warner's Safe Cure makes the liver active and heals the diseased kidneys.

"Safe Cure" is purely vegetable and contains no harmful drugs. It is free from sediment and pleasant to take. It is a most valuable and effective tonic; a stimulant to digestion, and awakens the torpid liver. It repairs the tissues, soothes inflammation and irritation, stimulates the enfeebled organs and heals at the same time. It builds up the body, gives strength and restores energy. You can buy Safe Cure at any drug store or direct. 50 CENTS AND $1 A BOTTLE.

Beware of so-called kidney cures which are full of sediment and of bad odor—they are positively harmful and do not cure.

WARNER'S SAFE PILLS move the bowels gently and aid a speedy cure.

Write to Warner's Safe Cure Co., Rochester, N. Y., for free medical book.

RAT ON SLACK WIRE

Gave Performance That Attracted Hundreds of People.

Stamford, Conn., June 16.—While hundreds looked on here last night a big sleek rate gave a slack wire performance that would make the most finished acrobat look cheap. It climbed a tall telegraph pole. Seating itself on the cross-piece, it squeaked for a minute or two as if to attract attention. Then it walked out on the sagging wire. It began to roll over and over and to leap from wire to wire. Then it hung by its tail. Tiring, it rested a while on its hind feet. Then it went through more gymnastics. The crowd gathered to watch it became so great that the street was blocked. The police efforts to clear the crowd frightened the rat. It disappeared over the wires in the direction of Norwalk.

MUST GIVE AID

Co-operation of People Necessary In Getting All Enumerated.

Those Not Reached Should Report to Supervisor Haven.

While the census work has been progressing most satisfactorily in St. Louis county, R. D. Haven, the superintendent in this district, is not going to spare any effort in making the report covering this territory as exhaustive and complete as possible. In order that this may be accomplished Mr. Haven points out that the people must lend a helping hand in the matter. He asks that those who have not been reached by the enumerators, have friends who are at present out of the city, or intend to move out of this county themselves, will give the information at the office of the superintendent, 317 Manhattan building.

"The work has progressed to that point where it is necessary to take every precaution possible to prevent the omission of any names of people that rightfully belong to our population," said Mr. Haven. "Therefore, I desire to call attention to the advisability of publicity along the line of requesting the people that have not yet been reached by the enumerators, and those that intend to leave the city, or those that have friends that are absent; and in fact, the co-operation of every individual in securing the names of all.

"A little effort upon the part of such persons will prevent the loss of their enumeration as our citizens. For instance, if any one is leaving the city and has not yet been enumerated if such person will either call this bureau up by 'phone or come in, a blank will be furnished on which he or she can make out the proper answer. The same will be duly recorded in the district in which he or she belongs. The same suggestion will apply to those having friends that are absent. This bureau will be only too glad to comply with any request along this line and will be very thankful for such assistance.

"Of course, it is easily realized the importance of this matter and appreciated the great difficulty with which we have to contend in order that none may be missed. We are very thankful to get any lists of names and addresses from any portion of the city that we may check up the enumerators' reports from such districts, and any firm or corporation, society or club will confer a great favor upon us by sending in lists of the names of their members and their addresses. It is very important that the address should accompany each name so that we may be able to locate the district in which they reside and thus be able to find if they have been properly enumerated.

"I believe the general public is desirous of having a careful and complete enumeration of the people of our city and this bureau will gladly co-operate with all to that end and we most respectfully ask the co-operation of the public in any possible way that will lead to a satisfactory result."

WEST END.

PENNIES GROW

And Buy Herman Olson Two Launches For Selling Papers.

Giant Grip Shoe Company Moving Plant to Little Falls.

Herman Olson, The Herald's agent at the West end, who keeps a news stand and candy and cigar store at 1821 West Superior street, has just purchased a new 27-foot launch with a ten horse-power engine with money which he made by selling Heralds. The story of the growth of this business is interesting and Mr. Olson and his sons are quite proud of it.

Several years ago when Mr. Olson got nicely established in business in the West end, The Herald made him its agent for that part of the town. He showed an inclination to increase business and the size of his order at The Herald office grew larger and larger. Pretty soon he conceived the idea of selling to the various vessels which enter this port, so he had two of his sons go from dock to dock on bicycles and sell Heralds. This business began to grow and the work of going from dock to dock, walking the full length of the dock and then back again before another dock could be touched, became too much of a job and in fact an impossible one, for the sailors and officers on the boats grew to know the boys and would hold their orders for them.

Then Mr. Olson took a plunge and bought a 17-foot launch with a three horsepower engine. This saved time and a greater number of boats could be visited with his wares, so he began carrying magazines and lower lake port papers as well as Heralds. Business grew rapidly and now has reached the point where the old launch is inadequate and Mr. Olson finds himself confronted with the fact that he must buy a larger boat. So yesterday he went to the Pearson warehouse and bought a 27-foot hull of the latest type of boat. He has determined to buy a ten horsepower engine, but has not fully made up his mind as to the make he will buy, although in all probability it will be a Doman, made at Oshkosh.

With this new boat, which Mr. Olson's eldest son, Orlando, will probably run, it is expected that business will be incerased to a considerable extent. More of the bay and harbor can be covered with the new and faster boat, and more stock can be carried.

The old boat was called the Newsboy in honor of its mission. It has now been sold, and the new boat will be named the Newsboy also.

The purchase of this boat and the increase of the business is quite an object lesson. The old saying "Take care of the pennies; the pounds will take care of themselves," is thus proven true. The pennies received for The Herald which Mr. Olson sold, were the basis for the fund for the purchase of both of these boats.

MOVING FROM DULUTH.

Giant Grip Company to Go to Little Falls.

The Giant Grip Horse Shoe company, which has a building and was doing business at the corner of Twenty-first avenue west and Michigan street, is packing up its machinery and material preparatory to moving away. The company is removing its plant to Little Falls, Minn., where it will have larger quarters, an increased plant, and believes it will be in better condition for business. James A. Nichols, the president of the company, lives in Little Falls, and was largely instrumental in having the company move there.

The city council of Little Falls has given to the Giant Grip company a bonus of $20,000 to induce it to move to that city, and as a further inducement the company is able to get more space for its plant, and a track service for little or nothing, which could not be done here. The company's building at the West end was only 70 by 40, and not nearly large enough for the work of the company. The new buildings, two of which are being put up in Little Falls, will each be 100 by 50, and there will be good track service, which could not be purchased here except at heavier expense than the company could see any profit in paying. Because of this trackage service the company gets its crude oil, which it uses for fuel, delivered to it for 4 cents a gallon, laid down in the plant, which is just one half what the oil cost here. The electric power is less than one-half the cost there than here, the officers of the company say.

Thirty-two men will be employed in Little Falls against the twenty-four here, and the company is increasing its plant to a large extent. With its new outfit it will be able to turn out 24,000 caulks in ten hours, whereas here only 5,000 could be turned out in the same time.

Six salesmen will be put on the road, and Otto Swanstrom of Duluth will likely have charge of the sales, and will probably remain in Duluth. He has been superintendent here. The building used at present by the company at Twenty-first avenue west and Michigan street will be sold or rented.

PARISH-SWENSON.

Large and Pleasant Wedding at Svea Hall.

On Wednesday evening one of the largest and pleasantest weddings which the West end has seen took place at Svea hall, when Miss Frances Claretta Paris and Hugo Swenson were united. Rev. A. F. Elmquist of Bethany church and pastor-elect of St. John's English Lutheran church, Minneapolis, performed the ceremony. Miss Mary Peterson attended the bride and Antone Peterson was best man. Two small boys, Arthur Ekberg and Angus Peterson, carried flowers and acted as pages. The hall was beautifully decorated for the event. Following the wedding came refreshments, and an entertainment and dancing. La Brosse's orchestra was in attendance, and all danced until a late hour. Mr. and Mrs. Swenson went to their home, 1801 West First street. Among those present were:

Messrs. and Mesdames A. W. Anderson, A. G. Anderson, O. N. Lundberg, S. Janberg, Peter Swenson, Clow, Albert Hanson, Will Carlson, Frank Sansted, William Peterson, Frank Peterson, Gust Peterson, John Swenson, John Peterson, John Johnson, Charles Dahl, J. J. Collin, Albert Olson, John Strom, John Johnson, Albert Johnson, M. Monson, John Anderson, Andrew Hoverson, Charles Peterson, Charles Jacobson, Ed Gilbert, John Wahl, George Corney, Gust Carlson, Andrew Peterson, Amol Johnson, J. H. Huseby, Louis Anderson, Charles Hultquist; Mesdames Ekberg and Babin; Misses McNamara, Oklund, Crawford, Hilda Rynnell and Westman of Ely, Ruby Collin, Thyra Peterson, Ruth Peterson, Agnes Peterson, Lilly Peterson, Helen Johnson, Nelson, Anna Peterson; Messrs. Nels Norval, Charles Lindahl, Ed Lindahl, Charles Gustafson, Axel Blom, John Oberg, John Lundeen, Erick Pearson, John Beerhalter, Ed Anderson, Ernest Peterson, Leonard Peterson, Ed Carpenter, Charles Hasting, John Dorsey, Joseph Berg, Charles Carlson, Severt Agre, A. V. Youngquist and Bert Carlson.

Among Finnish Baptists.

The Duluth branch of the Finnish Baptist Mission church of America had an interesting meeting Wednesday evening at the First Swedish Baptist church. A musical program was given and the meeting was presided over by Rev. A. Starman of the Ebenezer Baptist church. K. A. Ostergren and Rev. S. C. Davis gave interesting addresses pertaining to the religious movement among the Finnish people.

West End Shortrails.

B. A. Martin, who recently returned from a trip up the North shore says he caught a three-pound speckled trout at Devil's Track, which is about four miles from Grand Marais. For a thorough churchman he tells the story well, too.

Dr. H. R. Cutler of Rockford, Ill., is a guest at the Esmond. The doctor is one of the advance guard of hay fever patients. He spends every summer in Duluth.

H. S. Johnson, who has been teaching at Lotzen for the past year has just passed through the city on his way to his home at Dassel, Minn.

Miss Anna Aronson, who has been visiting her mother, Mrs. Aronson of Twenty-fourth avenue and Tenth street, has returned to Grand Marls where she is employed in the county auditor's office.

Mrs. F. B. Patterson and son of Minong, Wis., are visiting with Mrs. A. O. Anderson, 318 Twenty-first avenue West.

Rev. J. Wilfred Loughridge, pastor of the Central Baptist church will leave on Monday for the International Sunday School convention to be held at Toronto, Ont., next week. He is a delegate to the convention and after it is over will visit other points in the East. He will be gone about four weeks.

Duluth Observatory, No. 39, of North Star Benefit association will meet next Monday evening at 202 Twentieth avenue West.

The married men of the First Swedish Baptist church will give a social tomorrow evening at the church. A literary program, including an address by Rev. A. Edstrom, will be rendered.

The Sunday school teachers of the First Swedish Baptist church will meet tomorrow night with Miss Lydia Johnson, 2027 West Fifth street.

Waldemar J. Moe, son of J. J. Moe, the well known West end merchant, who has just graduated from the Minnesota law school, left Wednesday for Sheyenne, N. D., where he will practice law. He has also obtained the agency for a number of first-class fire insurance companies and will handle farm land loans and real estate.

IOWA JUDGE

Gives Pioneer Decision Regarding Private Switches.

Sioux City, Iowa, June 16.—Judge Kennedy of the district court handed down a pioneer decision yesterday when he ruled that railroads cannot be required to serve a private switch and that they have the right to withdraw the service at any time for any reason satisfactory to themselves.

This is the disposition of the suit of the Mystic Milling company against four railroads here and the Western Car Service association, a case which has attracted wide attention because testing the rights of railroads to enforce demurrage charges. The milling company refused to pay a demurrage bill of $26, claiming a countercharge against the railroads for delaying shipments. The car service association refused to consider the countercharge, saying it should go to the railroad direct.

The milling company refused to pay and the association instructed the railroads to withdraw service. This was done for five days, when the milling company secured a mandatory order. Later the railroads were sued for $150,000, and it was in these cases that Judge Kennedy decided that the railroads do not serve private tracks, in the capacity of common carriers and therefore that the milling company cannot recover damages.

SUMMER COLDS.

Laxative Bromo Quinine, the world wide Cold Cure, removes the cause. Call for the full name and look for signature of E. W. Grove. 25c.

$21.35 Asbury Park and Return Via Erie Railroad.

June 29, 30, July 1 and 2, limited to Aug. 31; good to stop at New York, Cambridge Springs, Chautauqua and Niagara Falls. Tickets on sale also to all tourist points—Chautauqua Lake, Niagara Falls, etc., good until Oct. 31. Full particulars 555 Railway Exchange, Chicago.

Does Your Shoe Man

Take back your old shoes and "make-you-a-liberal-allowance" for them on a new pair? CERTAINLY NOT—and certainly no dealer in stoves is going to sell you a stove or steel range at an honest low profit and also give you "a-liberal-allowance" for an old stove that he would have to sell for scrap iron—besides being put to the expense of handling the old stove, which is NOT SMALL. We want you to bear in mind that this is the ONLY STORE in this city that marks their stoves at the lowest price possible—that is—measured by actual dollars and cents—and yet give you the advantage of liberal credit. If the best is not too good for you then buy a "UNIVERSAL."

THE VALUE OF CHARCOAL.

Few People Know How Useful It Is In Preserving Health and Beauty.

Nearly everybody knows that charcoal is the safest and most efficient disinfectant and purifier in nature, but few realize its value when taken into the human system for the same cleansing purpose.

Charcoal is a remedy that the more you take of it the better; it is not a drug at all, but simply absorbs the gases and impurities always present in the stomach and intestines and carries them out of the system.

Charcoal sweetens the breath after smoking, drinking or after eating onions and other odorous vegetables.

Charcoal effectually clears and improves the complexion, it whitens the teeth and further acts as a natural and eminently safe cathartic.

It absorbs the injurious gases which collect in the stomach and bowels; it disinfects the mouth and throat from the poison of catarrh.

All druggists sell charcoal in one form or another, but probably the best charcoal and the most for the money is in Stuart's Charcoal Lozenges; they are composed of the finest powdered Willow charcoal, and other harmless antiseptics in tablet form, or rather in the form of large, pleasant tasting lozenges, the charcoal being mixed with honey.

The daily use of these lozenges will soon tell in a much-improved condition of the general health, better complexion, sweeter breath and purer blood, and the beauty of it is that no possible harm can result from their continued use, but on the contrary, great benefit.

A Buffalo physician, in speaking of the benefits of charcoal, says: "I advise Stuart's Charcoal Lozenges to all patients suffering from gas in stomach and bowels, and to clear the complexion and purify the breath, mouth and throat; I also believe the liver is greatly benefited by the daily use of them; they cost but twenty-five cents a box at drug stores, and although in some sense a patent preparation, yet I believe I get more and better charcoal in Stuart's Charcoal Lozenges than in any of the ordinary charcoal tablets."

INFORMAL BANQUET.

Commercial Club Directors Hold a Social Session.

An informal banquet for present and retiring directors was held at the Commercial club last night, following out the annual custom. So very brief and informal were the talks that those making them did not find it necessary to stand up while speaking. It was more in the nature of a social session than anything else. All the directors, both new and old, expressed themselves as believing the coming year would be a good one for the city and club.

Those present were: Directors E. M. Ferguson, Frank Crasswelier, G. L. Douglass, Jr., George C. Stone, C. W. Elston, J. W. Kreiter, W. E. Magner, J. I. Thomas; retiring directors, W. A. McGonagle, C. R. Rust, J. H. Barnes.

PROGRAM READY

Plans For the Convention of Northwestern Coal Dealers.

John Mitchell, President of Mine Workers, to Be Here.

It is expected that John Mitchell, president of the United Mine Workers of America, will be present at the fifth annual convention of the Northwestern Coal Dealers' association, to be held in Duluth, June 27, 28 and 29. Several men of prominence from Chicago will be in attendance.

From inquiries and information already received by Secretary H. V. Eva of the Commercial club it is believed that between 600 and 1,000 dealers and their families will be here to attend the meetings. Special rates of one and one-third fare from all points in Iowa, Nebraska, Illinois, Wisconsin, Minnesota and North and South Dakota to Duluth have been made by the railroads. Returning the tickets will be good until July 3.

The detailed program for the convention has now been arranged, and committees to act while the meetings are in progress have been appointed.

The convention will open Tuesday, June 27, at 11 o'clock in the morning, with an address of welcome by Mayor M. B. Cullum. All sessions will be held at the Commercial club rooms. The response will be made by Senator M. Crane of Cooperstown, N. D. Following this President C. M. Morse will read his annual report. G. H. Reeves, secretary, and George J. Fullerton, treasurer of the association, will also read their annual reports at the first session, to be followed by the appointment of auditing, nominating and resolution committees. The remainder of the program is as follows:

Tuesday afternoon, 2:30 o'clock.

Reading of 15-minute paper by Delos Hull of Chicago, subject: "The Cost of Handling Coal at Retail," followed by questions by dealers and answers by speaker.

Short talk by J. B. Cavanaugh of Chicago, on "Refusing Coal in Transit and at Its Destination," speaking for the shippers of the Northwest. The response to this will be made by F. E. Crandall of Mankato.

Paper by Ernest Pratt of Chicago on "Co-operative Concerns," with replies by J. K. Dering, W. L. McCauless and H. E. Smith.

Wednesday morning, 10 o'clock.

Impartial talk by Commissioner F. B. Sipp of the Chicago Coal Shippers' association on "Short Weights in Coal," followed by questions and answers.

Paper by John M. Warnock of Minneapolis on "Abuse of Quotations and Shipments by the Producers to the Consumers and Its Effect on the Regular Trade." Responses by H. N. Taylor and W. S. Bogle.

Paper on "The Abuses Producers Are Subjected to by the Dealers," by C. L. Dering of Chicago, and response by O. C. Sarles of Hillsboro, N. D.

Afternoon session, 2 o'clock.

Address on association work by Hon. C. J. Traxler, attorney for the association.

Reception at 8 o'clock to visiting delegates and ladies at the Commercial club. Refreshments.

The last day of the convention will be taken up by an excursion on the lake and bay. The boat will leave the dock at the foot of Fifth avenue west at 11 a. m. and will return at 5 o'clock in the afternoon. A stop will be made at the Zenith Blast Furnace company's dock, and here the dealers will witness the drawing of molten pig iron.

The entertainment committee, made up of local dealers, consists of the following:

L. Ferris of Coxe Bros. & Co.; J. M. Sessions, Philadelphia & Reading Coal and Iron company; N. S. Coffin, Pioneer Fuel company; E. E. Helven, Boston Coal Dock & Wharf company; William Collins, M. A. Hanna Coal company; Henry Shadle, the Jones & Adams company, F. A. Chapman, Lehigh Valley Coal company; H. E. Smith, Northwestern Fuel company; Fred Stewart, Ohio Coal company; D. B. Smith, Jr., Youghiogheny & Lehigh Coal company; Charles Adams, Northern Coal and Dock company; Warrell Clarkson.

Credential committee: C. R. Carlson, H. F. Marshall and J. Lampert, all of Minneapolis.

Railroad committee: J. W. Gubin, Eureka, S. D.; J. C. Johnson, Luverne, Minn.; F. S. Colvin, Biwabik, Minn.

Registration and badge: C. J. Burchard, Minneapolis; J. W. Mahan, St. Paul; W. W. Sell, Winona.

Press: B. C. Bowman, Minneapolis; C. W. Peterson, Duluth.

Application and membership: Maynard Crane, Coopertown, N. D.; A. J. Zingre, Mason City, Iowa; R. H. Jackson, Winona, Minn.

Bureau of information: H. V. Eva, Duluth; Charles Alen, Duluth; John Warnock, Minneapolis.

We Had a Letter from the "Clothesologist"

This is how the tall gentleman with the drooping mustaches addresses us, whose picture you must have seen in the papers:

Chicago, 6-14-05.

GENTLEMEN:

We are in receipt of your and Mr. Burrows' circular letters and desire to congratulate you most heartily upon your acquisition of the "Great Eastern Clothing Store" at Duluth. You are with one bound becoming the leading clothiers of Duluth and certainly stepping into a magnificent establishment. With your experience and reputation, you will without doubt achieve at once a marked success in your new venture.

Wishing you all the good luck possible and assuring you of our desire to co-operate with you at all times whenever you may give us the opportunity to do so, we are, with kind regards,

Yours very truly,

THE "CLOTHESOLOGIST."

Rosenwald & Weil.

Not only the makers of good wearing apparel talk to us in such an encouraging way, but it is also the tenor of what everybody in Duluth says who has any previous acquaintance with us or who has watched us grow in Superior.

It is quite likely that we shall adopt drastic measures to

Get Rid of the Burrows Labels

now on the enormous stock now in the store. But we must ask you to give us another day or two to decide whether we shall take them off or sacrifice them upon the altar of an introductory sale that will prove better than all talk in the papers that you may rely on our say-so.

Clothing Company

Duluth, Burrows Block. Superior, Wisconsin Block.

WERE MARRIED AT HOUGHTON

Duluth Couple Kept Marriage Secret Nearly a Year.

The friends in this city of Miss Delia Marie Day and George Shepard, the former ball player, have been given a big surprise in the announcement by the young people today that they were married Aug. 18, 1904. The marriage took place at Houghton, Mich., and has been, up to the present time, a profound secret. Even at the hardware concern of Schell & Wade, in West Duluth, where Mr. Shepard has been employed for several years past, no intimation was had until this afternoon that the former ball player had become a benedict.

The bride resided for a number of years at West Duluth, where she was prominent in society circles.

Mr. and Mrs. Shepard will continue to make Duluth their home and expect to start housekeeping in a few days.

Lightning Strikes House.

The residence of W. C. Sargent, at 4541 London road, was struck by lightning during the electrical storm this forenoon. The bolt shattered the chimney, knocked off the corner of the roof, burned out the telephone and electric lights and gave the family a severe shaking up. Fortunately no fire followed the stroke.

Announcement

We have moved into our new building and will be pleased to receive our patrons in our new store.

WOULD BUILD DOCKS.

Charles Johnson of Grand Marais Asks Permit.

Charles Johnson of Grand Marais, Minn., was in the office of the government corps of engineers this morning, and asked verbally for permission to prosecute some improvements at the Grand Marais harbor. He will file a formal application later, when the question will be considered.

Mr. Johnson seeks to extend the wharf on the east side, which is being used in the loading and unloading of merchandise. The present wharf is about 200 feet long, but with the rapid growth of the town it has become inadequate. A permit will also be asked to build a lumber dock on the west side of the harbor, near the site of the sawmill, operated by a company with which Mr. Johnson is connected. It is also intended to build a crib outside of the dock. Since no harbor lines have been established in the harbor, all the water area up to the shore line is controlled by the government.

NEW SHOPS AT PROCTOR.

Missabe Awards Contract to L. D. Campbell & Co.

The contract for the construction of the new machine shop at Proctor was let today by the Duluth, Missabe & Northern Railway company to L. D. Campbell & Co., Duluth contractors. The new building, which will be but a big extension to the old, will measure 190 feet in length and will be 90 feet wide. It will be of brick and stone construction. The whole building, including the old part, will be 212 feet long by 90 feet broad.

HOME MISSIONS OF LUTHERANS

Eighteenth Annual Report Presented at Pittsburg Meeting.

Pittsburg, June 16.—At today's meeting of the delegates from the Evangelical Lutheran church an abstract of the report of the board of home missions of the general synod was presented.

The eighteenth biennial report of the board of home missions, covering the period between May 1, 1903 and May 1, 1905, shows total receipts amounting to $104,151, an increase of $7,853. The aggregate amount credited on the apportionment is $84,493, an increase of $12,903, and shows an enormous and disastrous deficit amounting to about $30,000.

Amount of aid granted $14,932, an increase of $2,197. The number of missions enrolled were 214; missionaries commissioned, 225; congregations and preaching stations, 247; net gain in membership, 5,168; teachers and scholars enrolled 26,065.

The financial and benevolent features were encouraging. On account of salary the missions have contributed $129,252, an increase of $16,775, and for benevolence, the amount contributed was $25,137, an increase of $3,054.

The number of new missions created during the biennial were four, and the annual financial obligations increased about $17,000. The treasury has had a two years struggle with financial embarrassment. It has been a constant debtor to banks and individuals, and over $1,000 has been paid in interest.

GIANT DRY DOCK

At Sparrows Point, Md., Now Ready For the Tests.

Built By Uncle Sam For Use In Making Repairs.

Baltimore, June 16.—The navy department is busy on the preparations to transfer the great steel floating drydock now nearing completion at the work of the Maryland Steel Co., Sparrows Point, to Cavite, Philippine Islands, where it will be permanently located. The department has not decided as yet whether it will transfer the great dock at its own risk and expense or do it by contract. It has been decided not to start the dock on its long tow around the Horn and across the Pacific until Sept. 1. But it will be tested in a short time, and the government will decide whether it is built according to contract and is satisfactory. This week the dock will be taken down the bay to the mouth of Patuxent river, where it will be prepared for its test. A board of naval officers will be appointed to conduct this test, and the battleship Texas is the ship selected to be docked.

This dock is one of the marvels of the world, for it is the greatest, not, however, as to size, but the greatest in power and capacity. With flush decks and no water in compartments, it will accommodate a vessel of 24,447 tons. This is nearly 10,000 tons larger than any battleship now in the American navy. With its docks flush and one foot of contained water it will hold a vessel of 18,747 tons. The contract called for the accommodation of only 16,000 tons. When floating light draft it will draw six and one-half feet of water. When submerged it will require 62 feet of water to give a draft of 30 feet above the blocks.

After the dock reaches Solomon's island, at the mouth of the Patuxent, it is intended to dock first a merchant ship and then the battleship Texas. It is expected the tests wil consume two months, and will be finished in time to prepare to start the monster steel dock on its voyage of 14,000 miles to the Philippines. If the government decides to tow the dock itself it will be done by vessels of the United States navy, accompanied by a fleet of colliers. If the towing is done by contract, the contractors will have to provide the means.

The next largest dock in the world is the naval dock at Algiers, across from New Orleans, which was also built by the Maryland Steel Co. It has a lifting capacity of 16,500 tons. The Pola dock, owned by Germany, has a lifting capacity of only 11,000 tons. The Pensacola dock, which was formerly at Havana, comes next, with 10,000 tons.

The first floating dock ever built was constructed in England, and was towed to Bermuda by two British men-of-war. It was semi-circular in shape and had the appearance of a huge rocker. The new dock for the Philippines is 500 feet long, over 124 feet wide and 42 feet high from the side walls clear to the pontoons, and 64 feet high from the bottom. The thickness of the side walls is 14 feet. The dock contains 9,000 tons of steel, and has 2,000,000 rivets. It required 130 tons of red lead and linseed oil to paint it. Its cost wil be about $1,150,000.

FOR COURTESY AND LENIENCY

St. Louis Man Made Present to Assistant Attorney General.

Washington, June 16.—The report of Fourth Assistant Postmaster General Bristow on the investigation of the post-office department, made by inspectors in 1903, which is on file in the postoffice department, deals in one chapter with the presentation of a watch to Harrison J. Barrett, who from 1897 until 1900 was an assistant to James N. Tyner, assistant attorney general, by E. G. Lewis, president of the People's United States bank, the Lewis Publishing company and several other corporations.

The report says:

"E. G. Lewis of St. Louis, Mo., was conducting what is known as an 'endless chain' scheme. He offered a watch for 10 cents, the conditions being that the original sender of the 10 cents was to get 10 cards. These he was to sell or give away to 10 other persons, each of whom was to send 10 cents and receive and distribute ten more cards. And when all these were sent to Lewis with 10 cents each, the watch would be forwarded to the starter of the chain.

"Lewis would get from the original holder 10 cents; from the first circle, $1; from second circle, $10; total, $11.10, before the watch was sent.

"Barrett ruled that the chance of breaking this chain was so great that it amounted to lottery; that the possibility of one person controlling the action of 110 persons—in compound style—was so remote that it made the prizes dependent upon chance. He held, however, that the simple chain, which brought the prize on the second round, did not involve chance, and was not a lottery; that if the scheme, in other words, gave the watch upon the payment by the ten to whom the first man sold his tickets, it might use the mails.

"No fraud order was issued, however, and he was permitted to wind up the current business upon the promise that in future operations he would simplify his plan as suggested by Barrett.

"As an acknowledgment of the kind and courteous treatment which he had received at the hands of Barrett in disposing of the case, Lewis presented him with a gold watch, valued at $35, which Barrett accepted. Afterwards it appears, however, that under the new name of the Mail Order Publishing company, Lewis operated the same old scheme. When Barrett was advised of this he wrote Lewis, under date of July 25, 1899, accusing him of bad faith in returning to his old scheme, and said:

"'You requested me, in consideration of my courtesy and leniency, to accept a watch, which you sent, and which I accepted in good faith; but now I can not, with self-respect, retain the watch, so I have returned it to you by mail today.'

"It seems, however, that afterwards amicable relations were established between them, and Barrett again accepted the watch. Later, when Barrett retired from office, Lewis employed him as his attorney.

"The impropriety of an officer accepting a present from a violator of the law, for an act of leniency, should have been apparent to a much duller man than Barrett.

"In September, 1900, the attorney general ruled that not only was the compound system in violation of the law, but the simple scheme as well."

The above was made a part of the report of the fourth assistant postmaster general. Five indictments were found against Barrett on charges of receiving money from concerns which were under investigation by the department. All indictments against Barrett charged conspiracy with Assistant Attorney General Tyner. The latter was Barrett's uncle. On a trial of the cases Barrett and Tyner were acquitted.

VANDALS DO HAVOC

In Two Churches In City of Nashville.

Nashville, Tenn., June 16. — Vandals, believed to be boys in the neighborhood, have wrought havoc in the Russell street Cumberland Presbyterian church, and in the Tenth street Christian church, located within a block of each other. In the latter place two silver-plated communion plates were stolen, the pendulum removed from the clock and hymnbooks scattered about.

No arrests have been made as yet, although the police are working on the case. It is understood that the identity of those who committed the vandalism is known to the police.

Rev. George W. Shelton, pastor of the Russell street church, who returned from the meeting of the Cumberland Presbyterian General Assembly in Fresno and was apprised of the act of vandalism, stated that the boys would be vigorously dealt with either in the courts or outside, as a great deal of mischief had been done to the church. The first injury done was in the shape of damaging and injuring cut stone for the new church and in marking up the walls of the new edifice.

In the Russell street church the vandals overturned pews and smashed lamp globes. The china closet in an upstairs room was opened and varnish, which the intruders mixed in a flower vase, daubed upon every plate, cup, saucer and dish in it.

At the Tenth street Christian church, of which Rev. E. G. Sewell is pastor, two of the plates used in the communion service were appropriated by the intruders, the pendulum of the clock was removed and was found upstairs on the floor, and the appearances indicated that an attempt had been made to remove the clock from the wall. The intruders had also thrown a few books around, but did no other mischief.

The officials of the Tenth street Christian church are also determined to prosecute the offenders if they can be apprehended. The value of the silver-plated plates stolen is not great, but the lack of reverence entertained by the desecrators towards sacred things renders the financial damage in this, as in the other case, a minor matter.

SHEEP KING OF PATAGONIA

Rules Over Territory of Twelve Hundred Square Miles.

Los Angeles, Cal., June 16.—Ruler over a territory of 1,200 square miles of windswept sea coast, G. L. Waldron, the sheep king of the world, now in this country from Patagonia to study the meat packing industry, has arrived in Los Angeles.

Mr. Waldron, in addition to supervising his little kingdom, portions of which he does not see oftener than once in three years, also has two packing houses employing 500 men and having an annual capacity of 70,000 sheep, the size of each year's slaughter.

The great ranch is situated on the tapering point of the Southern continent, runs along the coat of Argentina to face the Atlantic, borders the Straits of Magellan and on the Pacific includes a portion of Chile.

In addition, most of the Island of Terra del Fuego, with 40,000 acres on the Falkland Islands, is under the control of this man. He is manager and largest owner in the Patagonia Sheep Raising company, upon whose preserves 750,000 sheep feed, and whose output of wool is 4,500,000 pounds annually.

In all the wide stretch of territory there is not a city, but seven stations mark the places where once in three months the herders congregate.

During the Boer war this company supplied the English army with its fresh meats. At the present time the cold storage method of preserving meats has been done away with and the company is now putting up its mutton in tins, to be sold in all parts of the civilized world.

Mr. Waldron is on a tour of the world, having already visited England, Africa, India and Japan.

From Los Angeles he goes to the Grand Canyon and from there to Chicago to study the methods of the great packing houses.

NEW TRIAL ORDERED

Of Case of Whitecapping In Indiana Town.

Indianapolis, Ind., June 16.—The judgment in favor of the defendants in Joseph M. Britton's suit for damages against the other male citizens of Newark, in Greene county, for "whitecapping" him has been reversed in the appellate court. Britton kept a drug store, which became a loafing place for boys and men in the surrounding country. The villagers complained and then threatened, and when a crowd of masked men finally whipped Britton in the street in front of his drug store, nobody came from any of the nineteen houses in the village to help him, or visited him during the illness that followed, but many of them expressed satisfaction with the treatment he received or regret that he had not been killed.

Britton and his wife and son, who were present when he was whipped, asserted that they recognized the persons who did the whipping by their dress and general bearing, and sued nearly all the men in the village as well as four who lived elsewhere. The jury returned a verdict for the defendants. In reversing the judgment on account of erroneous instructions given to the jury by the court Judge Roby said:

"The assumption of power to regulate individual conduct through the medium of clubs, whips and picket stats is a very dangerous assumption. It might be difficult, even in the village of Newark, to stop at just the place to please all of the nineteen families, and jo would be a very bold man who should venture to join the community, taking chances of popular disapproval, based upon facts beyond his control and emphasized by penalties so arousing and severe. The law furnishes a standard of conduct and ample remedy for lawlessness. In its enforcement against all, in its observance by all, lies the safety and happiness of all."

A new trial of the case is ordered.

P. H. MARTIN RE-ELECTED

Chief Ranger of Catholic Order of Foresters.

New Ulm, Minn., June 16.—The seventh biennial state convention of the Catholic Order of Foresters closed here with the election of officers for the coming year.

After a long fight Faribault was chosen as the next meeting place, although Little Falls made a strong bid for the honors. The final vote was 85 to 79.

P. H. Martin, Duluth, was elected chief ranger; vice chief ranger, A. J. Eckstein, New Ulm; secretary, G. W. Stenger, New Ulm; treasurer, H. Vonder Weyen, St. Paul; trustees, H. G. Van Veeck, Hastings; S. E. Gores, Wadena; W. H. Schwab, Le Sueur, and F. J. McMahon and W. H. O'Neill, Minneapolis.

The convention voted to remain a member of the American Federation of Catholic societies.

It was voted to send recommendations to the international high court to the effect that a court may be organized whenever it is seen fit to have one and that the said court would become a member of the international high court.

SIX-TENTHS

Of the "Cape-to-Cairo Road" Built.

Cape Town, June 16.—Fully six-tenth of the "Cape-toCairo" railroad—Cecil Rhodes' pet dream—has been completed. The building of the bridge over the Victoria Falls was a long step toward its realization.

On the night of March 31, when the two last "ribs" were put in, these were found to be 1¼ inches too long, but as they had been exposed to the heat of the sun all that day this was to be accounted for by expansion. On the following morning, however, they met exactly and were riveted up.

On the stability of the bridge there is no possible question, and it does not interfere with the beauty of the scenery. It was originally Mr. Rhodes' idea that one might stand on the bridge and get a view of the falls; and this was quite possible, for one portion of the bridge, faces a very fine view of them, and arises even within the area of the spray.

GRANDSON

Of King Edward to Be Admiral Soon.

London, June 16.—Prince Eddy, the eldest son of the Prince of Wales will soon hoist his flag as an admiral of his own fleet.

The "fleet" is rapidly approaching completion at Sheerness dockyard in the shape of a 42-foot brig, and is under orders for Virginia Water.

The brig upon whose quarter-deck the young prince will rule was once a naval packet boat.

By the king's orders, it is being transformed into a minature replica of the naval training brigs recently abolished.

The boat has been partially decked, and has masts, spars, rigging and sails complete, all made to scale. A cut-water has been added to the little vessel's stem, and is adorned with a figure-head of the king in full uniform as an admiral of the fleet.

The interior of the craft is being fitted as a luxurious little saloon.

A small party of shipwrights are now working overtime on the vessel, and it is expected she will be ready for launching this month.

When completed the brig will be towed up the Thames by a naval launch, and rerigged at her moorings on Virginia Water, where Prince Eddy will hoist his flag.

BONDS FOUND IN CAR.

Robbers Had Temporarily Hidden Their Loot.

Bedford, Ind., June 16. — Government bonds to the value of $360,000 were found recently in a carload of sand at the Hoosier quarry. The car came from Utica, Ill.

Edward Hayes made the discovery. The bonds are now at the office of the quarry company.

The bonds are supposed to have been stolen from a bank at Wilmington, Ill., which was robbed May 9.

It is supposed that the bank robbers hid the bonds in the car and that it was pulled out with the train before they could get their loot.

Everybody's liable to itching piles. Rich and poor, old and young—terrible the torture they suffer. Only one sure cure; Doan's Ointment. Absolutely safe; can't fail.

CASE OF TELEPATHY.

Witnessed a Tragedy Though Thirty Miles Away.

Brussels, June 16.—A remarkable case of telepathy is reported from Meirelbeke.

During a quarrel a man named Balleger was stabbed by a fellow workman named Massot. At the moment that he fell wounded in the road, his mother, who resided in a village more than 30 miles distant, rushed out of the house in great alarm, and described the scene to her neighbors.

The story is corroborated by five independent witnesses.

GIANT DRY DOCK

At Sparrows Point, Md., Now Ready For the Tests.

Built By Uncle Sam For Use In Making Repairs.

Baltimore, June 16.—The navy department is busy on the preparations to transfer the great steel floating drydock now nearing completion at the work of the Maryland Steel Co., Sparrows Point, to Cavite, Philippine Islands, where it will be permanently located. The department has not decided as yet whether it will transfer the great dock at its own risk and expense or do it by contract. It has been decided not to start the dock on its long tow around the Horn and across the Pacific until Sept. 1. But it will be tested in a short time, and the government will decide whether it is built according to contract and is satisfactory. This week the dock will be taken down the bay to the mouth of Patuxent river, where it will be prepared for its test. A board of naval officers will be appointed to conduct this test, and the battleship Texas is the ship selected to be docked.

This dock is one of the marvels of the world, for it is the greatest, not, however, as to size, but the greatest in power and capacity. With flush decks and no water in compartments, it will accommodate a vessel of 24,447 tons. This is nearly 10,000 tons larger than any battleship now in the American navy. With its docks flush and one foot of contained water it will hold a vessel of 18,747 tons. The contract called for the accommodation of only 16,000 tons. When floating light draft it will draw six and one-half feet of water. When submerged it will require 62 feet of water to give a draft of 30 feet above the blocks.

After the dock reaches Solomon's Island, at the mouth of the Patuxent, it is intended to dock first a merchant ship and then the battleship Texas. It is expected the tests will consume two months, and will be finished in time to prepare to start the monster steel dock on its voyage of 14,000 miles to the Philippines. If the government decides to tow the dock itself it will be done by vessels of the United States navy, accompanied by a fleet of colliers. If the towing is done by contract, the contractors will have to provide the means.

The next largest dock in the world is the naval dock at Algiers, across from New Orleans, which was also built by the Maryland Steel Co. It has a lifting capacity of 16,590 tons. The Pola dock, owned by Germany, has a lifting capacity of only 11,000 tons. The Pensacola dock, which was formerly at Havana, comes next, with 10,000 tons.

The first floating dock ever built was constructed in England, and was towed to Bermuda by two British men-of-war. It was semi-circular in shape and had the appearance of a huge rocker. The new dock for the Philippines is 500 feet long, over 124 feet wide and 42 feet high from the side walls clear to the pontoons, and 64 feet high from the bottom. The thickness of the side walls is 14 feet. The dock contains 9,500 tons of steel and has 2,000,000 rivets. It required 130 tons of red lead and linseed oil to paint it. Its cost will be about $1,150,000.

Ladies' oxford Grip—finest grain leather and leather lined—regular $6.48—special. **$4.98**

FOR COURTESY AND LENIENCY

St. Louis Man Made Present to Assistant Attorney General.

Washington, June 16.—The report of Fourth Assistant Postmaster General Bristow on the investigation of the post-office department, made by inspectors in 1903, which is on file in the postoffice department, deals in one chapter with the presentation of a watch to Harrison J. Barrett, who from 1897 until 1900 was an assistant to James N. Tyner, assistant attorney general, by E. G. Lewis, president of the People's United States bank, the Lewis Publishing company and several other corporations.

The report says:

"E. G. Lewis of St. Louis, Mo., was conducting what is known as an 'endless chain' scheme. He offered a watch for 10 cents, the conditions being that the original sender of the 10 cents was to get 10 cards. These he was to sell or give away to 10 other persons, each of whom was to send 10 cents and receive and distribute ten more cards. And when all these were sent to Lewis with 10 cents each, the watch would be forwarded to the starter of the chain.

"Lewis would get from the original holder 10 cents; from the first circle, $1; from second circle, $10; total, $11.10, before the watch was sent.

"Barrett ruled that the chance of breaking this chain was so great that it amounted to lottery; that the possibility of one person controlling the action of 110 persons—in compound style—was so remote that it made the prizes dependent upon chance. He held, however, that the simple chain, which brought the prize on the second round, did not involve chance, and was not a lottery; that if the scheme, in other words, gave the watch upon the payment by the ten to whom the first man sold his tickets, it might use the mails.

"No fraud order was issued, however, and he was permitted to wind up the current business upon the promise that in future operations he would simplify his plan as suggested by Barrett.

"As an acknowledgment of the kind and courteous treatment which he had received at the hands of Barrett in disposing of the case, Lewis presented him with a gold watch, valued at $35, which Barrett accepted. Afterwards it appears, however, that under the new name of the Mail Order Publishing company, Lewis operated the same old scheme. When Barrett was advised of this he wrote Lewis, under date of July 25, 1899, accusing him of bad faith in returning to his old scheme, and said:

"'You requested me, in consideration of my courtesy and leniency, to accept a watch, which you sent, and which I accepted in good faith; but now I can not, with self-respect, retain the watch, so I have returned it to you by mail today.'

"It seems, however, that afterwards amicable relations were established between them, and Barrett again accepted the watch. Later, when Barrett retired from office, Lewis employed him as his attorney.

"The impropriety of an officer accepting a present from a violator of the law, for an act of leniency, should have been apparent to a much duller man than Barrett.

"In September, 1900, the attorney general ruled that not only was the compound system in violation of the law, but the simple scheme as well."

The above was made a part of the report of the fourth assistant postmaster general. Five indictments were found against Barrett on charges of receiving money from concerns which were under investigation by the department. All indictments against Barrett charged conspiracy with Assistant Attorney General Tyner. The latter was Barrett's uncle. On a trial of the cases Barrett and Tyner were acquitted.

VANDALS DO HAVOC

In Two Churches In City of Nashville.

Nashville, Tenn., June 16. — Vandals, believed to be boys in the neighborhood, have wrought havoc in the Russell street Cumberland Presbyterian church, and in the Tenth street Christian church, located within a block of each other. In the latter place two silver-plated communion plates were stolen, the pendulum removed from the clock and hymnbooks scattered about.

No arrests have been made as yet, although the police are working on the case. It is understood that the identity of those who committed the vandalism is known to the police.

Rev. George W. Shelton, pastor of the Russell street church, who returned from the meeting of the Cumberland Presbyterian General Assembly in Fresno and was apprised of the act of vandalism, stated that the boys would be vigorously dealt with either in the courts or outside, as a great deal of mischief had been done to the church. The first injury done was in the shape of damaging and injuring cut stone for the new church and in marking up the walls of the new edifice.

In the Russell street church the vandals overturned pews and smashed lamp globes. The china closet in an upstairs room was opened and varnish, which the intruders mixed in a flower vase, dashed upon every plate, cup, saucer and dish in it.

At the Tenth street Christian church, of which Rev. E. G. Sewell is pastor, two of the plates used in the communion service were appropriated by the intruders, the pendulum of the clock was removed and was found upstairs on the floor, and the appearances indicated that an attempt had been made to remove the clock from the wall. The intruders had also thrown a few books around, but did no other mischief.

The officials of the Tenth street Christian church are also determined to prosecute the offenders if they can be apprehended. The value of the silver-plated plates stolen is not great, but the lack of reverence entertained by the desecrators towards sacred things renders the financial damage in this, as in the other case, a minor matter.

SHEEP KING OF PATAGONIA

Rules Over Territory of Twelve Hundred Square Miles.

Los Angeles, Cal., June 16.—Ruler over a territory of 1,200 square miles of windswept sea coast, G. L. Waldron, the sheep king of the world, now in this country from Patagonia to study the meat packing industry, has arrived in Los Angeles.

Mr. Waldron, in addition to supervising his little kingdom, portions of which he does not see oftener than once in three years, also has two packing houses employing 500 men and having an annual capacity of 70,000 sheep, the size of each year's slaughter.

The great ranch is situated on the tapering point of the Southern continent, runs along the coat of Argentina to face the Atlantic, borders the Straits of Magellan and on the Pacific includes a portion of Chile.

In addition, most of the Island of Terra del Fuego, with 40,000 acres on the Falkland Islands, is under the control of this man. He is manager and largest owner in the Patagonia Sheep Raising company, upon whose preserves 750,000 sheep feed, and whose output of wool is 4,500,000 pounds annually.

In all the wide stretch of territory there is not a city, but seven stations mark the places where once in three months the herders congregate.

During the Boer war this company supplied the English army with its fresh meats. At the present time the cold storage method of preserving meats has been done away with and the company is now putting up its mutton in tins, to be sold in all parts of the civilized world.

Mr. Waldron is on a tour of the world, having already visited England, Africa, India and Japan.

From Los Angeles he goes to the Grand Canyon and from there to Chicago to study the methods of the great packing houses.

NEW TRIAL ORDERED

Of Case of Whitecapping In Indiana Town.

Indianapolis, Ind., June 16.—The judgment in favor of the defendants in Joseph M. Britton's suit for damages against the other male citizens of Newark, in Greene county, for "whitecapping" him has been reversed in the appellate court. Britton kept a drug store, which became a loafing place for boys and men in the surrounding country. The villagers complained and then threatened, and when a crowd of masked men finally whipped Britton in the street in front of his drug store, nobody came from any of the nineteen houses in the village to help him, or visited him during the illness that followed, but many of them expressed satisfaction with the treatment he received or regret that he had not been killed.

Britton and his wife and son, who were present when he was whipped, asserted that they recognized the persons who did the whipping by their dress and general bearing, and sued nearly all the men in the village as well as four who lived elsewhere. The jury returned a verdict for the defendants. In reversing the judgment on account of erroneous instructions given to the jury by the court Judge Roby said:

"The assumption of power to regulate individual conduct through the medium of clubs, whips and picket stabs is a very dangerous assumption. It might be difficult, even in the village of Newark, to stop at just the place to please all of the nineteen families, and he would be a very bold man who should venture to join the community, taking chances of popular disapproval, based upon facts beyond his control and emphasized by penalties so arbitrary and severe. The law furnishes a standard of conduct and ample remedy for lawlessness. In its enforcement against all, in its observance by all, lies the safety and happiness of all."

A new trial of the case is ordered.

P. H. MARTIN RE-ELECTED

Chief Ranger of Catholic Order of Foresters.

New Ulm, Minn., June 16.—The seventh biennial state convention of the Catholic Order of Foresters closed here with the election of officers for the coming year.

After a long fight Faribault was chosen as the next meeting place, although Little Falls made a strong bid for the honors. The final vote was 85 to 79.

P. H. Martin, Duluth, was elected chief ranger; vice chief ranger, A. J. Eckstein, New Ulm; secretary, G. W. Stenger, New Ulm; treasurer, Vonnt Weyer, St. Paul; trustees, H. G. Van Veeck, Hastings; S. E. Gores, Wadena; W. H. Schwab, Le Sueur, and F. J. McMahon and W. H. O'Neil, Minneapolis.

This convention voted to remain a member of the American Federation of Catholic societies.

It was voted to send recommendations to the international high court to the effect that a court may be organized whenever it is seen fit to have one and that the said court would become a member of the international high court.

SIX-TENTHS

Of the "Cape-to-Cairo Road" Built.

Cape Town, June 16.—Fully six-tenth of the "Cape-toCairo" railroad—Cecil Rhodes' pet dream—has been completed. The building of the bridge over the Victoria Falls was a long step toward its realization.

On the night of March 31, when the two last "ribs" were put in, these were found to be 1¼ inches too long, but as they had been exposed to the heat of the sun all that day this was to be accounted for by expansion. On the following morning, however, they met exactly and were riveted up.

On the stability of the bridge there is no possible question, and it does not interfere with the beauty of the scenery. It was originally Mr. Rhodes' idea that one might stand on the bridge and get a view of the falls; and this was quite possible, for one portion of the bridge, faces a very fine view of them, and arises even within the area of the spray.

GRANDSON

Of King Edward to Be Admiral Soon.

London, June 16.—Prince Eddy, the eldest son of the Prince of Wales will soon hoist his flag as an admiral of his own fleet.

The "fleet" is rapidly approaching completion at Sheerness dockyard in the shape of a 42-foot brig, and is under orders for Virginia Water.

The brig upon whose quarter-deck the young prince will rule was once a naval packet boat.

By the king's orders, it is being transformed into a minature replica of the naval training brigs recently abolished.

The boat has been partially decked, and has masts, spars, rigging and sails complete, all made to scale. A cut-water has been added to the little vessel's stem, and is adorned with a figure-head of the king in full uniform as an admiral of the fleet.

The interior of the craft is being fitted as a luxurious little saloon.

A small party of shipwrights are now working overtime on the vessel, and it is expected she will be ready for launching this month.

When completed the brig will be towed up the Thames by a naval launch, and rigged at her moorings on Virginia Water, where Prince Eddy will hoist his flag.

INTENTIONAL DUPLICATE EXPOSURE

DIES FROM FALL

Little Girl Drops Through Opening In Fire Hall.

Came For Firemen's Laundry and Met Her Death.

While playing with her little sister at the headquarters fire hall, Clara Norski, a 13-year-old girl, backed into the opening through which the firemen descend the brass poles, and sustained injuries from which she died a few hours later.

The little girl, who lives at 207 West Ninth street, had come to headquarters, in accordance with her weekly custom, to get a basket of the firemen's laundry, for her mother, who supports a family of five children by her work.

The firemen were at drill when the girl came, and unnoticed by the men she climbed the stairs to the third story with her little sister. She was thoroughly familiar with the floor openings, and the apparatus, and had learned to slide down the poles in the manner used by the men.

On the third floor she flung her arms about the brass rods and dropped to the second floor in safety. As she backed away from the pole, laughing with delight at the experience of coming down in this manner, she failed to notice the opening through which the pole ran to the ground floor. She backed into the opening, and fell eighteen feet to the ground below, striking on her head.

W. E. Becker, a member of the salvage corps, saw her fall, and the men immediately ran to her assistance. She was unconscious when picked up, and was immediately removed to St. Mary's hospital.

Here an examination disclosed the fact that she had sustained a fracture of the skull and a concussion of the brain, and her right arm was also broken by the fall. She grew rapidly worse during the evening, and died shortly after midnight.

The body was taken to Durkan & Crawford's morgue and arrangements are being made for the funeral.

The little girl was quite a well known figure in the city. She formerly sold Heralds on the streets, and was known as the only news girl in the city. She was a great favorite with the firemen at headquarters, who had taught her how to use the poles, and initiated her into the mysteries of the apparatus.

TAKES YOUNG WILDCAT ALIVE

Traveling Man Makes Novel Catch Near Grand Rapids.

Bemidji, June 16.—L. W. Van De Vault, one of the traveling representatives of the Central Supply company of Minneapolis, who lives at 224 North Victoria street, St. Paul, is perhaps the only traveling man in the United States who enjoys the distinction of having single-handed captured a live wildcat.

Mr. De Vault made the novel catch while driving along the banks of Lake Pokegama, near Grand Rapids. In company with another man he was taking a drive from Grand Rapids to another town which he makes regularly, when he heard the scream of an animal in the woods close by the roadside. He leaped from the carriage to investigate and came upon a small wildcat huddled close to the bottom of a tree. He quickly grasped the little animal and returned to the carriage and landed the catch safely at Grand Rapids on his return to that city.

Apparently it is only about four weeks of age. It resembles a kitten in appearance, and can be handled in any manner without arousing its anger. Mr. De Vault will attempt to domesticate the cat, but if this proves impossible he will make it a present to the zoological gardens at St. Paul.

THE IRON ORE TRADE.

Record-Breaking Shipments of May Kept Up.

Cleveland, June 16.—The Iron Trade Review says: Long before the opening of navigation this year, it was known that the movement of ore for 1906 would probably break all records and it was expected that many difficulties would be encountered in carrying from 30,000,000 to 32,000,000 tons from upper to lower lake ports. While some doubt was expressed as to the ability of the boats to do their part, the chief concern was as to whether the railroads would be able to take care of the ore going direct from docks to furnaces. Up to the present date everything have moved with surprising smoothness, and it is agreed on all sides that the railroads are rendering admirable service. The result is that vessels are getting quick dispatch and the record breaking rate of last month is being kept up; indeed, it will not be surprising if 5,000,000 tons of ore are shipped this month.

NEW PRESIDENT.

H. J. Pettengill Becomes Head of Telephone Company.

Col. C. H. Graves, of this city, who was recently appointed United States consul at Sweden, has resigned as president of the Duluth Telephone company, and has been succeeded by the former vice president of the company, H. J. Pettengill of Minneapolis. The change is effective July 1, next.

C. P. Wainman of St. Cloud will succeed Mr. Pettengill as vice president of the Duluth Telephone company and of the Mesaba Telephone company, the latter having control of the range lines.

The Stage

COMING ATTRACTIONS.

LYCEUM—Saturday afternoon and evening, Chauncey Olcott.

CHAUNCEY OLCOTT.

There are few actors as welcome in this city as Chauncey Olcott; he has always been welcome in the past when his debonnair style and sweet voice have won his way into the hearts of the people. At the Lyceum tomorrow afternoon and evening he will be seen in a superb production of Augustus Piton's romantic comedy drama, "A Romance of Athlone." The drama tells a picturesque story and the leading part affords Mr. Olcott many opportunities to show his ability as a comedian and to sing several pretty ballads of his own composition, among them being "My Wild Irish Rose," written expressly for this play.

NEW FURNACE

Will Be Built By Corrigan, McKinney & Co.

Cleveland, June 16.—Corrigan, McKinney & Co., Cleveland, will build a new blast furnace at West Pittsburg, Pa., which town is on the P. & L. E. R. R. near New Castle Junction, about fifty miles northwest of Pittsburg. The stack will have a capacity of 350 tons per day and will make both foundry and steel making irons. This firm is now operating the Scottdale furnace, Scottdale, Pa., the Genesee furnace at Charlotte, N. Y., and the River furnace at Cleveland. It is one of the largest independent interests in the Lake Superior mines.

The Scottdale Furnace Co., operating the Scottdale furnace at Scottdale, Pa., has been incorporated in Pennsylvania by James Corrigan and Price McKinney of Cleveland, and Amos E. Gillespie of Scottdale. This is not a new concern, but merely the incorporation of a limited partnership.

ROUTINE MATTERS.

Water Board Has Little New Business.

Little outside of routine business was transacted at the meeting of the board of water and light commissioners yesterday afternoon.

The board received petitions for extensions on Thirty-ninth avenue west from Third to Sixth street and on West Fourth street from Twenty-first to Twenty-second avenues. The petitions were granted, subject to the approval of the council.

The board was notified that deeds are ready for the four blocks of land in Lloyd's addition, West Duluth, which are to be used for reservoir purposes.

LIBERALS WIN

In Two Elections to the Canadian Parliament.

Ottawa, Ont., June 16.—Premier Laurier and the Liberals generally are jubilant over the sweeping victories gained this week in the constituencies of London and North Oxford. In London, Hon. C. S. Hyman was re-elected by 329 majority, while in North Oxford, George Smith, the Liberal candidate, has a majority of 349.

SELLS BIG BLOCK OF STOCK.

San Francisco, June 16.—The Bank of California of this city has sold to the Mutual Life Insurance of New York 5,000 shares of its increased capital stock at $375 a share, the sum involved in the transaction being $1,875,000. The deal does not involve any change in the directory of the bank. William Babcock, one of the bank directors, is also a director of the Mutual company of New York.

TO LOCATE BOUNDARY.

Seattle, June 16.—A surveying party of twenty men in charge of R. M. Leyland have left here to locate the line of division between the United States and the Canadian possessions in the vicinity of Chilcoot pass and Kotsina river. There are to be three parties in Northern territory this summer, each having a certain division of the work. They will work in conjunction with parties of surveyors appointed by the Canadian government. They will indicate the line of division as decided by the tribunal which met in London in 1903.

IN HIGH STATE OF EFFICIENCY

Excellent Condition of Duluth Normal School —Teachers Chosen.

St. Paul, June 16.—The Duluth Normal school is in a high state of efficiency, according to the annual report of President E. W. Bohannon, filed with the state normal school board at its annual meeting held at the capital yesterday. President Bohannon was re-elected by a unanimous vote of the board, as were all the other normal school presidents. President Bohannon says in his report:

"A high standard of effort was maintained throughout the year, and with results that are especially gratifying. The number of unsatisfactory students was small, while the spirit of the student body has been admirable in all ways. This happy state of affairs is due largely to the faithful efforts of a capable and harmonious body of teachers and I take pleasure in bearing testimony to that effect."

The following teachers were elected for the ensuing year: L. W. Kline, physscology and pedagogy; H. C. Strong, history and civics; J. W. Hubbard, physics and chemistry; Cora Strong, mathematics; C. F. Curtis Riley, biology; Katehrine D. Post, latin; Helen H. Mason, music; Dora Eaton, domestic science; Olive Browne Horne, seventh and eighth years; Edna E. Heywood, third and fourth years; Irene M. Sinclair, fifth and sixth years; Florence Ely, first and second years; Margaret J. Ivilliard, kindergarten; Bertha S. Paine, secretary and text book librarian; Katherine W. Ensign, librarian.

TWENTY-FIVE MILLIONS

Paid By Thomas Ryan For the Hyde Stock.

New York, June 16.—Grover Cleveland, Justice Morgan J. O'Brien of the state supreme court, and eGorge Westinghouse of Pittsburg, trustees of the Equitable Life Assurance society stock, formerly owned by James H. Hyde, met at the Hotel Buckingham, in this city, yesterday. At the afternoon session, after a conference with Elihu Root and Paul Cravath, Thomas F. Ryan was sent for and a trust agreement was executed. Mr. Cleveland was elected chairman and George F. Parker, secretary.

At the conclusion of the meeting last night the trust agreement, with a letter from Mr. Ryan to the trustees, and an appeal from Mr. Cleveland to the policyholders, were made public.

Mr. Ryan's letter announces his individual ownership of the stock, and states that he paid Mr. Hyde $25,000,000 for it.

HAY RETURNS SOMEWHAT BENEFITED IN HEALTH.

New York, June 16.—Secretary of State John Hay arrived from Europe last night on the steamer Baltic, much improved in health, but plainly showing that he was far from being a well man. His presence in this country evidently was anxiously expected by President Roosevelt, for an imposing and long document was delivered to him at quarantine by a special messenger from the White House who went down the bay on a revenue cutter to deliver it to Mr. Hay in person. The contents of this message, Secretary Hay refused to divulge.

Mr. Hay said in response to questions that he had no intention of leaving the cabinet. Of his trip Mr. Hay said it had been a great benefit to his health and that his physicians seemed really satisfied with the results.

Three spectres that threaten baby's life. Cholera infantum, dysentery, diarrhoea. Dr. Fowler's Extract of Wild Strawberry never fails to conquer them.

RAILROAD NEWS

Southern Pacific Lets Contract For Five Mountain Tunnels.

Northern Pacific Will Not Honor Passes In Wisconsin.

Reno, Nev., June 16.—The announcement is made that a contract for the construction of tunnels through the Sierra Nevada mountains has been let by the Southern Pacific company and that work on them would begin within a month. There are to be five tunnels in all and the main one will be five miles long. The first tunnel will start a short distance north of Donner lake and the series will end at the foot of Blue canyon on the American river.

The contract calls for an expenditure of over $5,000,000.

PASSES NO GOOD.

Northern Pacific Issues New Order For Wisconsin.

Instructions have been issued to all conductors on the Lake Superior division of the Northern Pacific railway that on account of the Wisconsin Railway Commission law, in effect June 16th, conductors will not honor locally in Wisconsin any passes except those that show on the face that the holder is either an employe or member of the family of an employe of the Northern Pacific or some other railroad company. Conductors will notify holders of passes other than above, that they cannot honor their transportation for the present, although same may be good locally in Wisconsin, as under the law it is necessary for the company to make some alterations in the passes, which cannot be done before June 16th.

FAST TIME.

From Coast to Coast In Ninety-Six Hours.

Chicago, June 16.—The eighteen-hour trains of the Lake Shore and Pennsylvania roads between New York and Chicago have opened up new possibilities in transcontinental traffic. With changes just announced by the Rock Island system it will be possible to travel from New York to Colrado common points and be but two nights on the road.

From New York to Denver, 2,055 miles in forty-five hours and fifty minutes, and from New York to the Pacific coast, 3,269 miles in ninety-six hours will be possible commencing next Sunday. The Rock Island has announced that on that day the time of its morning train to Colorado and the Pacific coast will be changed so as to connect at Englewood, a suburb of this city, with the fast trains on the Lake Shore and the Pennsylvania roads. Through passengers can arrive in Denver on the following day at 11:50 a. m. and in Los Angeles seventy-eight hours after they take the train at Englewood.

New Santa Fe Superintendent

Topeka, Kan., June 16.—A dispatch from General Manager Hurley of the Santa Fe, who is in Chicago, says a new general superintendent of the Santa Fe will be appointed today. It is generally conceded that C. T. McLellan, superintendent of the Santa Fe eastern division, will get the place.

West Duluth

Last evening the marriage of Miss Clara C. Johnson of West Duluth and George A. Bell of Hibbing took place at the home of the bride's father, Peter Johnson, 904 Seventy-first avenue west. Rev. J. W. Robinson, pastor of the Grace Methodist church, performed the ceremony. The bride was attended by Miss Celia Gohon and Peter Marshall supported the groom.

A reception was held at the house after the ceremony following which Mr. and Mrs. Bell left for Albuquerque, N. M., for a short visit, after which they will return and reside in Hibbing.

The house was decorated with ferns and carnations. The bride wore a gown of white silk and carried a bouquet of roses and carnations. The maid of honor was attired much the same and also carried roses and carnations.

Mr. Bell is the well-known druggist of Hibbing. Mrs. Bell is well known in Duluth.

REV. KRANTZ HONORED.

Rev. J. A. Krantz, president of the Lutheran Minnesota conference, returned yesterday from the convention of the Augustana synod at Stanton, Iowa. The synod represents 1,000 congregations with a membership of 300,000. Thirty-one young men were ordained to the ministry, two of whom will go to India as missionaries, and three ministers from other church bodies were admitted into the synod. The meeting was well attended, harmonious and enthusiastic. Rev. Krantz was elected secretary of the synodical council and a member of the board of trustees for Augustana college and theological seminary at Rock Island, Ill.

WEST DULUTH BRIEFS.

At the Commercial club meeting this evening it is likely that agitation will be started to have high school courses given at the Irving school beginning with the next school year.

Eric Wadin of Wolverton, Minn., has been visiting his brother G. L. Wadin of West Duluth. He returned home this morning.

Progress $2.50 shoes at Lauermann's.

Hot water bottles and syringes, 48 cents, at Spencer's Drug store.

The baseball team of the combined Irving and Longfellow schools defeated, yesterday afternoon, the Glen Avon team by a score of 3 to 1. The game, which was well contested, was played on the Irving school grounds.

Miss Mary McKinnon, daughter of Mr. and Mrs. John McKinnon of 5713 Main street, is slowly recovering from an attack of pneumonia.

Regent $2.50 shoes at Lauermann's.

The funeral of William Zell will be held from the Westminster Presbyterian church on Sunday afternoon at 3 o'clock. The I. O. F. and the Red Men will attend in a body.

The W. C. T. U. held a meeting yesterday afternoon and it was reported there that the program for the benefit to be held Monday night at Great Eastern hall is almost complete.

If interested in shoes, see Lauermann.

J. H. Lauermann will leave today for Minneapolis and Aberdeen, S. D. After his return he will go to Kansas City.

At Nygren's sixty cents buys one dollar's worth of medicine.

"There's a Reason."

TIRED OF WIFE

And He Told Her to Go Home.

St. Paul, June 16.—Katherine Mahlo was granted a divorce yesterday from Edward F. Mahle by Judge Hallam. The couple were married in June, 1898, and have no children.

Plaintiff said her husband, tiring of her in September, 1902, put her on a train at Duluth, telling her to go home to her father. Since then she has not seen him.

HAPPENINGS IN DAKOTAS

Popular Young Man Must Return to Minot In Disgrace.

NORTH DAKOTA.

Minot—Franklin Wade, wanted in Minot upon a charge of obtaining money under false pretenses, was arrested Thursday at Marinette, Wis. Sheriff John Lee received a telegram informing him of Wades' arrest, and stating that he would return without extradition papers. The sheriff left for the Wisconsin city. About three months ago Wade left Minot with several unpaid bills in addition to checks amounting to $360, which he had cashed without having any money in the local banks. He is a young man and during his residence of two years in this city made many friends.

Benjamin Edwards, aged 21, residing a few miles northwest of Ray, met a tragic death while carelessly handling a loaded shotgun. In company with his father and two young ladies, Edwards started to drive out to his claim. He stood in the rear of the wagon and held a loaded shotgun in his left hand, the breech of the gun resting on the bottom of the wagon and his right hand placed over the muzzle. The gun was discharged and the shot passed through Edwards' hand and entered his head, almost blowing the whole side of his face and head from the body. He died almost instantly. His remains were taken to Ray by Coroner Thomas of Williston.

Fargo—Fargo is to have a big armory for Company B. It will have a seating capacity large enough to accommodate all public gatherings and conventions that may be held in this city, and will be so constructed that it can be cut into two halls for smaller conventions. It will be sufficiently large to care for the attendance at any mass meeting or concert. The old armory has been sold and a new site secured on lower Broadway, just off Front.

The militia boys see their way clear to finance the plan, except for $5,000, and the Commercial club will look after that. There are some funds on hand, and with the state aid and the amount mentioned the building can be constructed. It is planned to sell stock at $10 a share.

At the annual meeting of the Fargo Commercial club, S. R. Lewis was elected president: W. D. Sweet, first vice-president; H. C. Plumley, second, and W. C. Macfadden, treasurer. The question of secretary was left open till the next meeting. There are eleven applications for the position, and it is planned to engage a man who can give all his time to the work.

Grafton—Mrs. H. S. Upham died after a lingering illness. She was born in Great Village, Nova Scotia, Jan. 24, 1835, and had lived in Grafton since 1882. Six children are left, all of whom are full grown. The funeral services will be conducted by Rev. Mr. Cooper of Drayton at the family residence.

Grafton is represented at the state firemen's tournament at Jamestown by I. L. Newgard, chief; J. H. Kelley, trustee; H. G. Sprague, Charles Paul, Thomas Torgeson and W. H. Williams.

The annual reunion of the Red River Valley Old Settlers' association will be held at Grand Forks, June 27. This association was organized in 1879 and those eligible to membership must have been born or settled in the Red River Valley prior to Jan. 1, 1882. L. B. Gibbs of Grand Forks is president.

SOUTH DAKOTA.

Highmore—Mr. and Mrs. Yale T. Hatch of this place recently celebrated their golden wedding anniversary and their four daughters, Mrs. J. S. Ketterman of Ida Grove, Iowa; Mrs. T. W. Cavett of Phillips, Neb.; Mrs. C. S. McManus of Washington, D. C., and Mrs. J. E. Myers of Brainerd, Minn., came here to be with them. Mr. Hatch is a grain and coal dealer, and, though 76 years of age, is an active and able business man. His wife was Eliza J. Sanborn, and they were married at Towanda, Ill., and have been residents of Hyde county, South Dakota, twenty-one years.

Aberdeen—The grand chapter of the Eastern Star elected the following officers: Worthy grand matron, Mary Noyes Farr, Pierre; worthy grand patron, E. P. Wanzer, Armour; associate grand matron, Mrs. Jessie Harris, Aberdeen; associate grand patron, J. C. Knapp, Sisseton; grand secretary, Mrs. M. A. McAllister, Madison; grand treasurer, Mrs. Florence Pyles, Yankton; grand conductress, Mrs. W. B. Fox, Sioux Falls; associate conductress, Mrs. W. B. Saunders, Huron. The lodge will meet next year at Sioux Falls.

Elk Point—Rev. W. H. Sporling has been returned to the Episcopal church of Hot Springs, S. D., where he formerly was rector, and has closed his work here. No assignment has as yet been made to the Elk Point church.

Sisseton—In a severe electrical storm last evening Herman Rieck, a German farmer, was struck and killed by lightning while on his way home in a wagon.

Robert Whitefoot, arrested at Summit for shipping diseased sheep out of the state, was bound over here to the next term of federal court.

Chamberlain—The 44x366-foot boat for the draw in the railroad crossing of the Milwaukee company was launched in the presence of about 1,500 persons. The boat had been built on a bank fully fifteen feet above the river, but settled down the incline smoothly and easily.

Yankton—The preliminary hearing of Sam Carr for the murder of Granville Thornton was held yesterday, Carr was bound over to the fall term without bail. The story of the killing, as developed by the testimony, is widely at variance with the story of self-defense told by Carr.

300,000 Blooming Plants for Window Boxes and Lawns.

Hardy Roses, Hardy Bulbs and large Pansies. Try our made-up wreaths and cemetery vases. Finest article ever put on the market. Leave your orders early and you will not be disappointed.

Right now and eat no other kind of Ice Cream but that good Murray Bros.' Non-Excelled. Try it.

Dyspepsia—bane of human existence. Burdock Blood Bitters cures it, promptly, permanently. Regulates and tones the stomach.

MINNESOTA BANQUET.

University Alumni Will Hold One.

Cyrus Northrop, president of the university of Minnesota, will be the guest of honor at a banquet to be given by the local members of the alumni association to be held here on June 27. The function will be held at the Spalding.

Clarence B. Miller is on the committee of arrangements and he has issued invitations to every known alumnus and alumna known to live at the Head of the Lakes. Those who are married will be privileged to bring along their wives or husbands, as the case may be. There are about two hundred graduates of the state university at the Head of the Lakes and adjoining territory so it is expected that there will be a large crowd at the banquet.

LEFT $4,000,000 FOR CHARITY.

Vienna, June 16.—Baron Nathaniel De Rothschild, who died June 13, left the sum of $4,000,000 to be distributed for various charitable purposes.

Persian Nerve Essence

Sold in Duluth only by Max Wirth, 13 West Superior St.

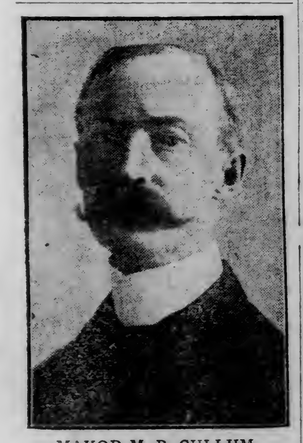
WELCOME TO THE EAGLES

Duluth Aerie Extends Greeting to Visitors.

President Shadewald Delivers His Address.

Duluth is in possession of the Eagles. Following the scores that arrived in the city yesterday morning, the afternoon and evening trains brought hundreds more from the Minnesota aeries, while today the king birds have been coming in flocks.

The weather slipped a cog yesterday morning and the fault has not been remedied. The weather man got the impression that it was a flock of ducks that was coming to Duluth and he dis-



MAYOR M. B. CULLUM,
Who Welcomed the Visiting Eagles.

covered his error too late. Still there is hope.

Despite the wet cold weather of yesterday, the gloomy aspect and downpour of rain this morning, the Eagles are disdainful of the bad weather conditions and are determined on having a good time, rain or shine. Of course, they cannot get out about the city so well as if the weather were fine, but there are other ways to seek amusement even if they must stay under cover to keep plumages dry.

Yesterday morning the business portion of the street was a blaze of patriotic colors in honor of the Eagles' convention. The wet weather caused many of the decorations to be taken in and the rain has played sad havoc with many of the flags and streamers that were left out. The colors are all there, however, even if they did run a little.

J. H. ELLIS
Of Minneapolis, Grand Vice President of Eagles.

Nothing of any importance transpired yesterday in Eagle circles. Delegates were arriving all day and these were being met and greeted by the local committees while everything was bustle in getting ready for the main part of the entertainment which occurs today and tomorrow.

The social session, which began at a late hour at the club rooms, last evening, lasted well into the early morning hours and was greatly enjoyed by the large number of Eagles that attended. Music for the occasion was furnished by the Grand Rapids band, which is composed entirely of members of the F. O. E. Speeches were made by Worthy Grand Vice President J. H. Ellis, Minnesota Deputy Grand President Shadewald and many others. One of the features of the evening was a mock trial and the presiding judge sentenced a number of Eagles to pay fines for fancied offenses, quite a large sum being raised by this means.

THE FORMAL WELCOME.

President Brown and Mayor Cullum Extend It.

The morning session of the convention proper did not begin until 11 o'clock today owing to the fact that the special train from the copper country with a large number of visitors was late and the Eagles wished to be at the depot to welcome the visitors.

The representation of delegates, when the meeting was called to order by President W. E. Brown, of the local arrie, was quite large. Mr. Brown, in behalf of Duluth aerie, No. 79, made a short but earnest address in which he stated that he was a worker rather than a talker and had been too busy getting up the entertainment to get any set speech ready. He extended a hearty welcome to the visiting Eagles and told them that the Duluth members of the organization stood ready to answer any calls on their hospitality and entertainment.

Mayor Cullum, who was next introduced was greeted with a round of applause. The mayor started out by saying that he was almost ashamed to look an Eagle in the face for the reason that he had prepared a speech referring to the rippling sea, the sun kissed waters of old Lake Superior, the moonlight rides on the bay, in fact, a regular summer speech, but that all he could say now was "darn the weather."

Mayor Cullum complimented the Duluth Eagles and citizens for the interest which they have taken in making the several hundred places about town where you can get something else served by a lot of good fellows."

Mayor Cullum spoke in high terms of the benefit to the city of having within its limits fraternal orders, but declared that so long as he is in politics he will never make application to any lodge for membership. He created a laugh by remarking that perhaps he would not be in politics much longer, anyway.

Particular compliment was paid the order of Eagles, whose principles and workings, the mayor claimed, have been the means of doing a great deal of good in the city. He said he could readily understand how membership in such orders would uplift and create in any man a feeling of self respect.

"We have cleaned up the streets and got the city ready for you," said the mayor, in closing, "and I bid you have a good time. I hope that nothing will occur to mar the pleasure of your visit."

After the applause ended the Third Regiment band rendered a selection and Worthy Grand Vice President Ellis of Minneapolis, responded to the speeches of welcome in an able and eloquent manner in behalf of the F. O. E. assembled in state convention.

"A half a century ago," said Mr. Ellis, "the dusky Sioux fought the Chippewas for possession of this territory. Today we see here, where may have been a battlefield, a great, growing and prosperous city. No man can comprehend what the future has in store for it. You might well say that Duluth speaks for herself far better than can human tongue.

"I believe that such is true of the F. O. E. The order can best speak for itself. Although still a babe, the organization has uwards of 400,000 men bound together by principles of liberty, truth, justice and equality.

"You can look in vain in our halls for lawlessness. We practice just what we preach. No man can become an Eagle who is not a good citizen. One of the main objects of the order is to bring men together in social communion and in fraternal intercourse.

"We have already felt the hand of goodfellowship of the citizens of Duluth and in behalf of the Fraternal Order of Eagles we extend to the mayor and to the citizens our heartfelt thanks and we would ask the mayor to accept our best wishes."

Three raps of the gavel brought every Eagle to his feet as Vice President Ellis gave the following toast at the close of his speech:

"Here's to the good health of the mayor, to the health of his family, and to the hope that when we come here again we will find him a member of the Fraternal Order of Eagles."

W. E. BROWN,
President of Duluth Aerie of Eagles.

PRESIDENT'S ADDRESS.

J. W. Shadewald Addresses the Eagles at Length.

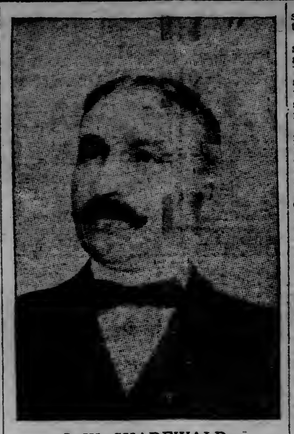
Following the responsive address by Mr. Ellis, the gavel was turned over to State Deputy President J. W. Shadewald, who spoke as follows:

Chairman and Gentlemen: We are gathered here today for the purpose of holding the second state convention of the Fraternal Order of Eagles in this beautiful city of Duluth, and I want to congratulate the committee on arrangements for the splendid work it has done in perfecting arrangements for this occasion. I fully realize the responsibility connected with an undertaking of this kind and I trust that your efforts will be crowned with success.

As your state deputy grand president, I wish to thank one and all for the generous support you have given me in the upbuilding of the order in this state. Minnesota is one of the leading states in Eagledom. We have thirty-nine aeries organized and a number of charter lists about complete. The order in this state is in a flourishing condition as my report will show.

I trust this convention will be a benefit to the order and to all in attendance, and I hope that many recommendations will be sent to the Grand Aerie that will meet with its approval.

Minnesota has the proud distinction of being one of the states that have entertained the Grand Aerie and at this session the constitution of the order was perfected. Minnesota has the honor of having created the first drill corps in the order and it is known as Drill Corps No. 1, and, at the Grand Aerie session in New York city, distinguished itself in capturing the prize banner for the best drilled aerie in the great parade on Fifth



J. W. SHADEWALD
Of Minneapolis, State Deputy Grand President of Eagles.

avenue. Our state has been instrumental in shaping the destinies of this great and noble order. At the last session in Baltimore our state was honored with the second highest office in the gift of the Grand Aerie. The records and business pertaining to the last three Grand Aerie sessions were intrusted to the hands of a Minnesota member and the records show that in all of the business transacted no mistakes occurred, which credit Minnesota enjoys.

Thus our state is looked to for advice and assistance in carrying on this work in the upbuilding of this noble order. I trust that every brother in this convention will have the interest of the order at heart and will aid and assist the delegates and officers to carry on this work and that much good will be accomplished in the holding of this convention, and we ask your assistance and counsel.

I want to congratulate Duluth Aerie No. 79, for its splendid home. It is a credit for any aerie to have its own home and it should be an inspiration to others to set to work and prepare a home as it will do much in gaining new members and upholds the dignity of the order.

Our order today is looked upon in the fraternal world as a giant and well may it be as the time is not far distant when this order will be the greatest on earth. The noble principles on which this order is founded will stand until time shall be no more.

"From the moment the mother binds the brow of the infant to the hour when some kind friend wipes the death damp from the brow of the dying, we exist by mutual aid."

Conscious of the truth of this classic, there assembled in the City of Seattle, Wash., on Feb. 5, 1898 a small coterie of men, all jolly good fellows, and conceived the idea of organizing a lodge local in character which had for its unuying principles the motto: "Liberty Truth, Justice and Equality." From a mere score of men this lodge grew, and its tenets spread so wide that in a short time calls came in rapid succession from all parts of the country asking for the institution of aeries. This was soon accomplished and, today, after a period extending six and one-half years there are nearly 1,200 aeries in the United States, with a combined membership of over 400,000 members. Such a magnificent growth is unequalled in the history of secret societies.

This has caused the query: "Why is it that the Fraternal Order of Eagles is growing with such rapid strides and gaining such favor everywhere?" At the dawn of the nineteenth century a tallow dip or a rude pine torch served to illuminate the hours of night. Today, at the dawn of the twentieth century, the mighty engines of electricity illumine the world in the twinkle of an eye. This illustration serves to show why the F. O. E. has grown with giguntic strides in so short a time. The older organization conceived in the early years of the nineteenth century was like the tallow dip, crude in form and methods, and one of the paramount characteristics of them all has been their glory in antiquity and ancient customs. They have not kept pace with the times and, having wasted time, "time doth now waste them."

A new and rising generation clamored for an order that was up to date. This they find in an Eagle's aerie. It is modern in government; it knows no social distinction, but teaches the true spirit of fraternity as between man and man. An aerie session is intersting and instructive and elevating and it would be far easier to compress the earth into a hollow compass of a gourd or to stem the mad rush of a whirlwind, than to prevent the combined membership of the Fraternal Order of Eagles within the next five years from equalling that of the combined membership of all the other secret societies put together.

Today we are joyous and happy; the smile of ease and contentment kissing away all sadness crowns the brow of all. We are assembled to celebrate the second state convention of our order, one of the youngest in deeds of love, the most sublime in principles that was ever born from the mind of man.

Secret societies are religious in their nature and have been concurrent with human history. They existed during the childhood of the race, when man carved from blocks of flint his rude weapons of defense; when he lived in caves and obtained his fire by rubbing together pieces of wood; when he gnawed the half-roasted victims of his chase or ate the roots he had dug from the nearest swamp. He worshiped the powers which kept him warm and begged in prayer and supplication appeasement from the terrors of winter's blasts. He erected altars where he sacrificed to his imagination or to the powers he did not understand. Then with his fellows he formed the first secret societies of mankind.

Seven years ago, on the shores of Puget sound, at the tide water flats of Seattle, Brothers Levitt of minstrel fame; James Cort, manager of the Bella Union theater of Seattle; John Considine and his brother T. J. Considine and Moses Coldsmith were seated on a lumber pile discussing mutual business interests, when one proposed, half seriously and half in the spirit of humor, to form a secret society. No sooner suggested than it was adopted, and the following Sunday found them at the Bella Union theater, using its stage for a lodge room. Brother Considine proposed to make the organization permanent, and a little later Brother Cort suggested the name. Little did these men think that they were acting a very important part on the pages of history. Little did they think that the world would some day look upon them in praise or criticism; that for that scene the generations yet unborn and eternal vigilance would be the audience; that within seven years from that time the infant christened would find America too small for its labors, and prove to be the greatest fraternal society of the century—yes, of all history—the Fraternal Order of Eagles.

They took as a model of the new order of their country—the United States—that harbor of refuge for the forlorn and disfranchised for over a hundred years, and as the emblem they adopted the American flag, like that bird, the order has known no bounds from the days of its birth. Liberty, the master of its wings, has borne it to ten remotest regions of the earth. It has mingled with the snow-capped mountains of Alaska, with the dreary, sandy wastes of Texas and the great plains, with the commercial centers of New York and Chicago, the metropolis of the Golden Gate, on the islands of the Pacific, and Hong Kong, on the threshold of the most ancient monarchy in existence. Listen and you will hear our eagles scream from the great Chinese wall. They will cross the deserts of Asia, infest the shores of the Medterranean and will mingle with the eagles of the Alps. We are invading the war-ridden countries of the earth, planting the standards of peace and equality on the doorsteps of tyranny and go holding to the downtrodden the hopes of the human race.

Our colors are the American flag—the Stars and Stripes of immortality. It is the evidence of emancipation for mankind everywhere; of equal rights for everyone before the law; of contentment at home and protection on every sea. It is a check to the strong and a staff to the weak. It is a rainbow for the storm-tossed and weary and a beacon light wherever the lamp of liberty ever quivers. It stands for untarnished justice, for independence, for courage, and above all for integrity. It purified the very heaven in which it floats.

Our motto is "Liberty, Truth, Justice and Equality." The principles embodied in those words have been the enchantment of the ages. In vision I can see the great struggles, the seas of blood, the bleaching bones, the tortures, the misery, and suffering endured by the martyrs that these words might live.

I hear the words from the immortal Declaration of Independence—"all men are created equal; that they are endowed by their Creator with certain inalienable rights; that among these are life, liberty and the pursuit of happiness; that to secure those rights governments are instituted among men; that deriving their just powers from the consent of the government; that whenever any forms of government become destructive to these ends it is the right of the people to alter or to abolish it, and to institute a new government, laying its foundation on such principles and organizing its powers on such form as to them shall seem most likely to effect their safety and happiness"—and as those words pass on to posterity I am glad to say I am an American. I am glad that I belong to an order based upon such a foundation and holding sacred those principal principles.

Truth loves an appeal to the common sense of mankind. Nearly every fraternal society has had as one of its cardinal virtues the love of its members. In how many cases this is but an empty sound, a deceptive brag. Rancor, discontent or the green-eyed monster creeps in, and then its hideous form is seen at very turn, disgracing the name of the fraternity. It is generally the illegitimate offspring of the inequality in their chambers. Within our fold every brother has a part and does his duty by deeds and acts, fulfilling the teachings of our rituals. We have no bosses and no slaves. Each member must do his portion of the labor.

When sickness comes and lays its cold and clammy hand upon a brother of this aerie, or a member of another visiting in our midst, or any member of their household, our physicians must attend them in their distress and report their condition at each meeting of the aerie while one or more of the members visit the brother each day ministering to his wants and relieving his afflictions. We leave none to the cold hand of charity. We know that a parent's affection may change; the friendship of the world may turn to hatred, and even love be transformed to disgust; but the cords of our fraternity are severed only by the still hand of death—no not even death can rend them for they fall to the widow and the orphan—and when a loved and loving brother, father or husband comes to the stone in life's highway that marks the highest point, and being weary for the moment lies down, using his burden for a pillow, and falls into the dreamless sleep that kisses down the eye-lids still, we try to take from his grave every care. From the tree of life the buds and blossoms fall with the ripened fruit, and in the common mother etarth patriarchs and babes sleep side by side. Every life, no matter if its every hour is rich with love and every moment jewelled with joy, is at its close a tragedy as sad and deep and dark as can be woven from the warp and woof of mystery and death. We cannot tell which is the more fortunate, the child dying in its loving mother's arms before its lips have learned to form a word, or he who journeys all the length of life's uneven road painfully taking the last few steps with staff and crutch. No man standing where the horizon of life has touched a grave has any right to prophesy. We must all enter the darkness or the dawn that we call death. We must all pass beyond the twilight's purple hills to the vast Aerie of silence and joy. We teach and we try to practice so that when our brothers come to say the last sad rites over our remains they will feel that our life's work will be complete; that it will be an unofficial receipt paid up and in good standing, and that we will be entitled to the password and will receive a fraternal and welcome greeting to the nests in the crags of eternity.

To the living we are a source of safety, an abode for the weary, a help for the weak or unfortunate which only a maddened fate can destroy, and I wish to emphasize to the members that we are engaged in a noble, a great cause. It is the cause of nations, it is the cause of humanity, it is the interest of the home and the fireside; the health of our loved ones and protection for yourself. The smiles and joys of life are interwoven in the principles of our burden, and is sunshine or shadow we are an anchor and a harbor. We are doing all that we can to fulfill the eternal mandate that liberty for every human being, truth unsmirched by creed or prejudice, justice to all alike without regard to their stand or possessions, and equality to each in the bounteous resources of nature without fear or favor shall not perish from the earth.

Heroes of war have gained their trophies, but they have been watered by the mourning tears of the widow and the orphan, while the laurels on our altars are the results of our principles or the proud achievements done in the cause of eternal love, untarnished by greed and unstained by tear, except it be the tear of gratitude. Poets have crowned our principles with wreaths of immortality; orators have reared eternal monuments in their name, and the historian in his most hallowed story tells of our glories.

Emerson said that "Every great and commanding movement in the annals of the world is a triumph of enthusiasm." If this be so, we are destined to write our membership from the citizens of every nation on the globe. We now meet our brothers in the pines of Canada and the Far North, beneath the palmettos of the Mississippi valley and the South, under the palms of the Pacific Islands and the West, and we have only commenced to grow. Ere long we will be greeted by our brethren in the shades of the myrtle, and the olive of the Far East, and in the not distant future we will find an abiding place in every hamlet, and the smoke from our altars will perfume the thousand hills.

Our fraternity is the most sacred temple of the ages. With trembling hands and happy hearts we deed it to posterity. It is a sacred trust, and we call this nation, we call the world to witness that in preparing it we have shrunk from no duty. It stands a great edifice—an abiding place for justice—that justice placed in the breast of every one for guidance—that justice which must be ever resplendent on our altars, for here will be woven the tender fabric of liberty; here truth, the dove of enlightenment, will breathe forth her sweetest strains of mutual sympathy; here must be sheltered the blind goodness, free from the festers of corruption and partiality; here must equality greet each brother and shed forth its blaze of living light; here we must stand; stand united with the future and our sacred principles; stand with the liberties and righteous laws of mankind; stand unimpeached in power for good, not as a substitute for virtue, but as an enemy of wrong; a refuge for the afflicted, oppressed and hopeful; the perpetual residence of untrammeled freedom now and eternal.

President Shadewald's address was followed by an executive session, during which the organization was completed and at the outset of which John H. Norton of this city, one of the active local members, gave an eloquent talk to the delegates on the good of the order.

The permanent organization resulted in the choice of a Duluth man for the highest office of the order in the state, W. E. Brown, president of the Duluth aerie, being elected worthy state president.

The full list of officers elected for the ensuing year follows:

Worthy state president, W. E. Brown, Duluth.

Worthy state vice president, George Wormwood, White Bear.

Worthy state secretary, Lee Flennen, Perham.

Worthy state treasurer, B. W. Elmquist, Virginia.

Worthy state chaplain, Rufus Goff Stillwater.

Worthy state conductor, Peter Larkins, Bemidji.

Worthy state inside guard, George Germen, Thief River Falls.

Worthy state outside guard, Hugh Fox, Grand Rapids.

Board of worthy state trustees: Mat Farrell, Minneapolis; J. J. McCanney, Morris; Bob Grady, St. Paul.

Worthy past president, J. H. Ellis, Minneapolis.

After the election of officers the convention adjourned until 2 o'clock this afternoon, when the business session was resumed.

Eagle Screams.

The committee on arrangements has designated the aerial bridge as a roost for the Eagles, believing that they will thus be kept out of the clutches of any that might be disposed to do harm.

* * *

"Smoky" Kehoe, assistant chief of the Minneapolis fire department, who has a national reputation as a fire-fighter and a life saver, is among the visiting Eagles. He also enjoys the distinction of being the champion checker player of America, and his brother Eagles are ready to match him against any ten checker players of Duluth, "Smoky" to play the whole ten at the same time.

* * *

There was a strong rumor afloat at headquarters this morning that Mat Farrel has been slipping smiles off his record as a pedestrian since coming to Duluth. The latest bulletin stated that he had walked clear around the lake.

* * *

Chris Goehringer of the Minneapolis Drill corps is reported to have attempted the experiment of walking across the top chord of the aerial bridge last evening, but when he learned that Judge Windom had already fined one man $25 for the trick, he decided to give up the feat, although Mr. Goehringer is still convinced he can do it.

* * *

It seems to be a matter of common knowledge that wings were tacked on City Treasurer Fred J. Voss and on Alderman William McEwen last evening.

* * *

Among those who were subjected to a heavy fine at the social session last evening was John Gonska, the petite treasurer of the local aerie. The fine is claimed to have been imposed because of his name, and Mr. Gonska's friends say he has seriously considered changing it before another convention.

* * *

J. C. Donahue of Minneapolis, whom the boys term "the old warhorse in Eagledom," is among the visitors.

* * *

Edward Stevens of Minneapolis, author of the "American Law of Assemblies," is among the visiting Eagles. Mr. Stevens' publication has been adopted as the official guide of the parliamentary practice of the Eagles.

About Naval Warfare as Menials on American Ships.

Strange Tales of Jap Cooks and Cabin Boys Related.

Washington, June 16.—While the experts of the army and navy intelligence bureaus are waiting for authentic material wherein to found a theory of the overwhelming defeat of Rojestvensky by Togo, the military gossips continue to exploit their hypothesis and reminiscences.

At present no responsible person undertakes to say that the disaster is referable to this or that particular cause. So far, it is not known whether the Russian ships were destroyed by gunfire or by torpedo boats, or by submarines. Neither can any one assert or deny, at least with positive authority, that the Baltic fleet owes its annihilation to the incompetency, the demoralization, and the panic of those who had it in charge. The general belief, of course, is that Rojestvensky failed through this cause, in combination with the inferior material at his disposal. On every side one hears the parallels of Manila and Santiago. With an untrained personnel and poor ships, poor guns and worse ammunition to work with, the best commander in the world can do next to nothing against a much smaller force, skilled, enthusiastic, alert and thoroughly well provided. The general impression, therefore, is that the Russians were smashed because they had inadequate agencies and did not know how to use to good advantage even such agencies as they possessed.

The students of naval warfare, however, are reserving final opinions until the facts are all revealed, and they take especial interest in the performance of mines, torpedo boats and submarines, supposing there were any such performances at all. In this connection a navy officer tells a little story:

"When my ship was on the Pacific station, ten or twelve years ago," he says, "we had two or three Japs among the wardroom servants. They were the most conscientious and indefatigable little beavers I ever saw. Everything was kept spick and span, taut and trim. The finest drawing room in Washington would have looked slovenly in comparison with our quarters.

"One of these chaps impressed me particularly. He did his work to perfection, was always at hand when you wanted him, and all that sort of thing; but he was forever reading books, worrying at mathematical problems, studying the various and complex mechanisms on the ship, watching the men at gun practice, and so on. I don't think he slept three hours a day. After a while I noticed that he could converse in English, French and German.

"Six years later I made my last cruise—Asia again—and one day at Hongkong a Japanese launch came alongside and a natty little lieutenant, freshly starched and ironed, stepped aboard with some message or other for the admiral. As soon as he saw me he advanced with his cap in his hand, smiling all over, and I'll be blasted if it wasn't my little cabin boy. What's more, some of us went to visit the Japanese cruiser next day, and I can tell you it made us open our eyes to see the crew at work. As it turned out, the 'cabin boy' was a high caste Japanese, traveling with us to learn things.

Other naval men tell similar tales.

"Do you remember when some senate committee about a year and a half ago was looking into the Lake submarine boat?" said one. "I don't know whether there was anything in it or not, but certainly senators made so much fuss about the alleged conceit and prejudice of the navy department—rejecting wonderful inventions, and so on, because the mutual admiration society hadn't been represented at the accouchement, etc.—I thought I'd stroll in one day and listen to the proceedings.

"Well, there was a whole lot of gas and fuss and I was getting bored, when all of a sudden old Senator Pettus of Alabama woke up and asked what kind of cooks they had on board his submarines. They had Japanese cooks, the witness said.

"'O, indeed, and were they good cooks?" asked the senator.

"'Yes, pretty good cooks and mighty industrious ones. All over the place, from early morn till midnight. Maybe later.'

"'Were they faithful? Did they serve out the term of engagement, and that kind of thing?'

"'Well, it came to the same thing, you know, because when one of them got sick or disabled and had to leave he always put another in his place. The cooking went right along, nobody suffered on board. Yes; they got sick pretty often. On one of the Lake submarines they had eight cooks in a single year. The Jap would be as busy as a bee all the time. If he wasn't cooking he was helping at some other job. Didn't seem to want any rest at all. Maybe that's the reason he'd break down so soon. But another Jap would step right in.'

"'The meals were regular and up to the mark?'

"'Yes, the cooks were always Japs. Great little fellows to stand by each other. Didn't make a bit of difference how often one of them got sick and quit, there was a fresh Jap ready on five minutes' notice. Great workers these Japs. Took a hand at anything rather than be idle.'

"I have an idea," continued the naval man, "that they know as much about the Lake submarine in Japan by this time as Mr. Lake knows himself. There may have been some of them—original or imitation—in the Korean straits affair. Who can tell?"

CUBAN'S UNIQUE OFFER

Refused By a Young Woman of Brooklyn.

New York, June 16.—Francisco Juarrero, a resident of Havana, Cuba, because he could not persuade his fiancee to consent to go to Cuba with him on a two-year matrimonial trial, after which, if she proved a good wife, they would be married, is locked up here for failure to give bond in a breach of promise suit brought by Josephine Arguelles, who lives with her mother in Brooklyn. She is 22 years old and Juarrero is 24. She filed the papers for $100,000 damages against Juarrero yesterday and he did not have the money to give bail.

Miss Arguelles has filed extracts from thirty letters written to her by Juarrero. They are full of love passages. One is addressed to the young woman as "my dear sweet wife."

Lawyer Ruckmore, for the girl, says that he has received several queer communications from the young man. In one of these, the lawyer says, Juarrero proposed the probationary plan.

LOST HIS PULPIT

Because He Was Mixed Up In Horse Trade.

Asbury Park, N. J., June 16.—Rev. S. Koster, who was suspended from the ministry while pastor of the First Reformed church at Hull, Iowa, on charges affecting his morality and who appealed to the general synod, appeared to prosecute his case yesterday. It appeared Koster was mixed up in a horse deal of the David Harum class, and that he also published a violent manifesto against his home consistory. When it became evident the general synod would confirm the Chicago synod's action, Koster was allowed to withdraw his appeal.

Eagle Clothing & Shoe House,
D. O. OASMIR.
321 W. Superior Street.

The members of the Young Women's Christian association are already planning and making ready for the Geneva conference which will be held at Lake Geneva during August. The board of directors of the association have appointed Miss Jennie Moody as delegate from the local association and Miss Harriet Raw will represent the gymnasium members. It is hoped that a large number of members who will be having their vacations at that time will plan to attend the convention.

The second annual moonlight excursion of the Y. W. C. A. and the Y. M. C. A. will be given Tuesday evening, July 18. This is one of the affairs of the year that neither association can see any fun in giving alone. The excursion last year was a delightful success and it is hoped that this year will be a repetition of that success.

At the devotional hour Sunday afternoon at the Y. W. C. A., Dr. Jeanette Wilson will be the speaker and her subject will be "An Open Secret: How We May Always Be Happy." Miss Alice Sjoselius will sing.

• • •

A pleasant pupils' recital was given last evening by the pupils of Miss Edna Harris at Temple Recital hall at 8 o'clock. A large number of friends of the pupils were present and the numbers given were much enjoyed. Miss Jane Everington and Fred Betlach assisted with vocal numbers and the following pupils took part; Misses Erna and Etta Bartholdi, Esther Smith, Mabel Sanders, Elma Anderson, Josephine Sanders and Masters Victor Johnson, Herman Schaf, Kenneth Harris and Morrison Harris.

• • •

The choir of St. John's English Lutheran church will give a sacred concert in place of the Sunday evening service next Sunday at 8 o'clock. The choir will be under the direction of Mrs. Clara Falk Murphy and the soloists will be Miss Grayce Frances Turner and Charles Helmer, cornetist. An offering will be taken up for the music fund of the church.

• • •

Mrs. G. A. Elder entertained yesterday afternoon the East End Bridge club of this city and the West Superior Bridge club and a delightful afternoon was spent. The members of the clubs played against each other and the honors went to the Superior ladies. There are eight members in each club.

• • •

Mrs. D. Moore of 7 South Fifth avenue East entertained at dinner Wednesday evening in honor of Perrin Somers who left last evening to rejoin the Haverly minstrels at Chicago. He has spent the past month with his parents, Mr. and Mrs. P. G. Somers of 17 Second avenue East.

• • •

Mrs. A. Moore of 226 Fourth avenue West, will leave Sunday on the Huronic for Detroit where she will make her home.

• • •

Miss Grace Beckler of Chicago is the guest of Miss Elsie Prudden of 16 West Third street.

• • •

Miss Edith Bostwick, Miss Miller of Cumberland, Wis., Miss Nellie Brown and Miss Alice Conklin left today for a lake trip.

• • •

Mrs. W. E. McEwen of Duluth Heights entertained at a bundle shower this afternoon in honor of Miss Sadie Jenkins.

A MADE ARTICLE.

American Born Countess Artificial and Not Natural.

Apropos of the perennial discussion of the marriage of American women into the ranks of the nobility of Europe, Flora MacDonald Thompson writes Harper's Bazar from Paris:

"The American-born Madame la Comtesse, Madame la Duchesse, fills me with a sense of indescribable ennui. She is always clever, often beautiful, far more clever and beautiful, sometimes, than any French counterpart of her social role; she is usually so finished in her role that in many instances she exhibits the same appearance of simplicity, of poise, of elegance—almost the fragrance, the charm, the restfulness—which makes the French woman of the nobility one of the most penetrating delights that life can furnish. But the great difference with the American marquise or comtesse is, she is made, not born; she is a product of her own contriving, not one which God and the elements of centuries have fashioned, and it is a sense of this incessant labor which her character embodies which permeates me with infinite ennui. How wearisome must it be to keep always at work on herself, shaping her American nature to the forms upon which her husband and his family are divinely modelled, and when her work has reached the height of perfection, how lonely she must find it, disrobed of her real, God-given self, and become—an imitation! however dainty, gracious, dear, still an imitation! An international marriage seems to me, for the American girl involved, an immortal sacrifice—a certain selling of one's birthright, a pouring of new wine into old bottles, and who should say at what cost?"

Hide Their Heads.

"Every woman seems to be a Mohammedan at heart," remarked a police official who in an experience of years has run up against some tough propositions.

"When in trouble her first instinct is to hide her face. If that is covered she seems to feel a sense of security. If that is not enough she faints.

"We broke into a boarding house that was a gambling room in mask the other day. A wheel was spinning in the basement and a dozen women sat about waiting their chance. There was one man there. He was running the wheel, and these female fools were making him rich.

"As soon as the women saw the first bluecoat filling the doorway there were twenty-four screams—two from each woman. Then each one dove head first at something.

"Two buried their heads under the pillows on the sofa; three bumped their heads against each other under the table. One reached a closet and jammed her nose against a jar of jam; two more rushed for the cellar stairs and poked their heads into the coal bin.

"These were the amateurs. One or two were old stagers. The youngest was about 20. She sat quietly at the table and never moved. 'Hello, Jennie,' said the captain, 'been gambling again?' 'No,' she answered, 'this is only a pink tea.' The other woman rolled her eyes languidly and said: 'Search me.'"

ROB'S HOME COMING

By Belle Maniates.

(Copyright, 1905, by Daily Story Pub. Co.)

Christine hummed softly to herself as she mixed the flour and butter to a pie-crust thickness. The zoft, summer breeze came through the window, loosening the rippling locks of her squirrel-colored hair. Her peach-like cheeks were flushed, and her blue eyes were dreeing in the felicitation of her meditations.

"And Rob comes home today!" she mused. "I wonder if four years have changed him much—three years at an Eastern college and one year abroad can do so much for a man. And what have four years done for me except to make me twenty instead of sixteen?"

She sighed as she thought of her few advantages, and plunged her hands anew into the soft, white, clinging dough.

"And there is such a difference in our conditions of life and those of the Thornleys," she continued in her reminiscence, picturing the big stone house on the hill with its sweep of lawn, driveways, and its retinue of servants. "Our little home will seem so crude to him, though he used to stay here more than he did at his own home, but of course he was only a boy then, and wouldn't notice things as now after his four years in a world of fashionable folks. I wonder if he'll be blase and bored? No!" she concluded, contradicting the thought, "Rob could not change from the frank, impetuous, boyish fellow he always was. And I will see him tonight at the fete at his house," and she smiled happily, thinking of the shimmering, white dress she was to wear.

Christine ever combined comfort with cooking. She did her baking, or made her preparations for baking, not in the heated kitchen, but in a little room that opened into a latticed porch. All conveniences, materials and utensils were in easy reach.

She transferred the dough from the mixing bowl to the board, and had just begun to roll it into flatness when there was a knock at the open door behind her. She turned and saw a good-looking, well-groomed young man regarding her with admiring, mischievous eyes. They continued looking at each other in silence for a few seconds and then he said:

"Aren't you Christine Wendon?"

"Yes," she replied, "but I do not recall—"

"What! Have you forgotten me—your old friend Rob Thornley!" he exclaimed reproachfully.

She smiled incredulously.

"You are not Rob Thornley, though I admit there is a strong resemblance. You must be a relative.

"You are right, Miss Wendon. I am John Stanley, Rob's cousin. We are frequently mistaken for each other even by the people who know us well. He suggested that I come down and see if you would be deceived."

"I am glad to meet you, Mr. Stanley, pleadingly. "I rang the bell, and no one responded, so I investigated the kitchen precincts, as you see. Can't I stay and watch you make pies? We shouldn't be formal, you know, as long as I am a cousin of Rob's, and he and you such friends."

"Very well. Will you please get a chair from the kitchen?"

"No, I like this one," he replied, seating himself on the broad sill of the window, and watching her deftly "thin the crust." He thought that she was very cool and dainty-looking in the blue ruffled Gretchen apron, with the sleeves rolled up to her dimpled elbows. He liked, too, the perfect little air of unconcern she showed at the intrusion of a stranger.

"What made you so sure I was not Rob?" he asked curiously.

She reflected a moment.

"I just felt it," she replied, "when you just spoke, and then though the resemblance is there, there is a difference."

"Where? Features, expression—"

"Well, Rob is more serious looking—"

"Then you think me flippant!" in a piqued tone.

"His eyes are steadier," she continued, ignoring the interruption, "and not so jesting as yours. He combs his hair differently—"

"Pon my word! you must have observed Rob very closely, and you must have kept his lineaments in your memory remarkably well."

The pink flush that crept over Christine's face was most delicious and fascinating to watch.

"Why, you see, he was over here every day since I can remember up to four years ago, and since then he has sent me pictures of himself at frequent intervals, but why didn't he come down with you?"

"Why, we only arrived a couple of hours ago, and his mother wanted him to superintend the decorations for tonight, so he suggested that I come down and see if you would not mistake me for him—but oh, is that the way you do it?" he asked as she lifted the dough to the tins and trimmed off the superfluous edges.

"Didn't you ever see a pie made before?"

"Not in years. What are you going to put in it?"

"Cherries."

"My favorite pie! May I stay to luncheon?"

"These are for dinner tonight."

"And I can't come down then," he said in such aggrieved tones, that Christine laughed and went to one of the shelves and took down a little patty-pan.

"I'll make you a little pie all for your own, and you can take it home with you."

"Really?" he asked in delighted tones, watching her prepare it. She put it with the larger ones in the oven and then began the making of a salad dressing.

When the pie was pronounced "done," he ruefully declared that he must depart.

"They told me they needed my help and I was not to stay but a minute. That reminds me, Rob said to ask you to save him the first and last waltzes."

"Tell him I will."

"If you give him two I think you might be as generous with me. Will you give me two?"

"I will give you one," she replied demurely.

"And will you come early tonight?" he asked eagerly.

"Yes, I am anxious to see Rob."

Throughout the day her thoughts were as much with the handsome cousin as with her old schoolfellow.

When Mr. and Mrs. Thornley and their son Rob stood in receiving attitude in the doorway that night, one of the late arrivals was Christine, a slender, graceful girl in white. Rob felt himself invaded by a thrill as she came up to him, smiling.

"Christine, will you forgive the joke?" I was piqued at your not recognizing me, and so I said I was John Stanley, who, by the way, is not here. And to think that you were so easily misled!"

"Rob, you silly! John Stanley and I met but a month ago, when I was visiting his aunt."

"And you knew all the time! Christine, I wouldn't have thought it of you! Anyway, I get the waltzes you saved for me and the one you promised John Stanley.

TO PLAY FOR OFFICERS.

Third Regiment Band to Go to St. Paul.

The Third Regiment band will go to St. Paul Sunday afternoon, leaving at 1:35 o'clock, and will play in that city when the Interstate National Guard association meets there. The assistant secretary of war and many of the leading officers of the army will be present, and the request made for the attendance of the Duluth band says: "And we want to show them how a military band can play."

After playing there the band will go to camp the following day.

The Lyceum Clothing & Shoe House,

423 WEST SUPERIOR STREET, IN THE LYCEUM BUILDING, DULUTH, MINN.

INNOCENT CONVICT

Is Welcomed With a Band on His Return Home.

Released From Stillwater Where He Was Sent as Forger.

Memphis, Mo., June 16.—Met at the railroad station by 1,500 citizens and former associates and conducted in triumph to his former residence, Thomas R. Senter, a convict without guilt, was compensated, in slight measure, at his homecoming for the deprivation, hardship and obloquy that had come to him in the four years he had been forcibly kept from home, confined in a jail in another state. This home-coming was the culmination of four years of earnest, determined work by a community as a unit bent upon righting a monumental wrong.

Thomas R. Senter was well along in the 60s, a farmer and real estate man in comfortable circumstances in Scotland county when his trouble began. He had a wife and one son, who was grown up and farmed a tract in Scotland county some distance from the parental holding.

In the fall of 1900 a number of places in the watershed of the Upper Mississippi had been visited by a man well along in years, who had, by means of forged land deeds, victimized farmers. The success with which the forger had met had enraged the entire district against him. After each offense he disappeared in the most mysterious manner, defying all efforts to bring him to justice. So persistent and daring had been his operations that great efforts were made to encompass his apprehension. The descriptions of the man given by his victims in various sections proved conclusively that the forgeries were the work of the same man. Reports showed that the forger had begun work in Minnesota and worked south through Iowa into Missouri. Rewards were offered for his arrest, a good description being circulated broadcast.

It was the misfortune of Thomas Senter that he answered the description almost exactly. Height, weight, carriage, complexion, method of wearing his hair and dress tallied exactly with that of the forger. His business of real estate agent also made him entirely conversant with the deeds and property transfers in which field the forger worked. The searchers, inspired by the reward, decided that Senter was the man sought, and reported their conclusions to the authorities in the places where the forger worked.

A deputy sheriff from Council Bluffs came to Memphis to arrest Senttr. Believing that he would be able to establish his innocence without trouble, Senter consented to accompany the officer without waiting for requisition paptrs. He was taken to Council Bluffs for trial on a charge of forgery. Here he was confronted by the victims of the forgery. Although the resemblance was striking, the identification was by no means positive, and Senter was acquitted. The arrest and trial of Senter attracted attention in other communities where the forger had worked, and when Senter was acquitted at Council Bluffs the authorities of Blue Earth, Minn., took possession of him and escorted him to that place for trial.

By this time the citizens of Scotland county had become aroused over the manifest injustice of the course pursued toward one of their respected citizens. The offense for which he was tried at Blue Earth was committed on July 4, 1900. On that day Senter had been quietly engaged at Memphis in the ordinary pursuits such a holiday elicited. A large delegation of citizens of Memphis, Mo., some twenty-five or thirty, made a special trip to Blue Earth to testify to this fact at the trial. Tht witnesses included members of the County court, bankers, business men and farmers.

Despite the completeness of the alibi, Senter was convicted and sentenced to ten years and six months in the penitentiary at Stillwater, Minn.

This remarkable miscarriage of justice excited the greatest resentment in Scotland county. Strenuous efforts were at once begun looking toward the release of the innocent man. Every conceivable influence was brought to bear upon the governor of Minnesota to bring about the pardoning of the convicted man. Petitions, numerously signed, were prepared. Statements of the insufficiency of the evidence were forwarded. The fact was brought out that Senter's reliance on his innocence had kept him from resorting to the means of legal defense which a guilty man would have used. Delegations of citizens of Scotland county visited the governor and importuned him to right the wrong which the courts had wrought.

At the last session of the Missouri legislature, Representative Witty of Scotland county introduced a resolution asking the legislature of Minnesota to take some action looking to the pardoning of Senter or to his release from the penitentiary. Minnesotans also, who had observed the case, or to whom the circumstances had been explained, enlisted in the effort to secure the release of the innocent man.

Immediately after the conviction of Senter a mass meeting was held in Memphis, at which citizens made speeches denouncing the injustice. A set of resolutions were adopted as follows:

Whereas, circulars have been published and scattered broadcast around Blue Earth, Minn., charging that a gang of forgers exists in and around Scotland county, Missouri, who ply the business of forgering and uttering deeds and obtaining money thereon, and that when one of the gang is apprehended the rest of the gang stand ready to swear to an alibi.

Resolved, that we denounce the statements in said circular as infamous lies and a libel on the fame and reputation of a community that has the reputation of being one of the most law-abiding communities in the United States, and we denounce the author and writer of such circular as an infamous liar, and we cannot conceive what his motive can be in thus traducing his own community and libelling an innocent man into the penitentiary, thus committing a worse crime than murder.

Resolved, that an unfortunate citizen of Scotland county lies incarcerated in prison at Stillwater, Minn., for a crime which he did not commit and with which he had no connection. The judicial farce at Blue Earth has ended. The travesty on justice has been performed. A great and irreparable wrong has been done by a verdict which was nothing else but a result of passion, prejudice and ignorance.

A score of our best citizens know, of their own personal knowledge, that Thomas R. Senter was in Scotland county at the time of the perpetration of the offense with which he was charged. The sending out of printed matter to influence courts and juries either for or against a person charged with crime is reprehensible, but the sending out of the circulars, written and signed by a man who, himself, is not a stranger to our criminal courts, prepared and designed for the purpose of misleading and prejudicing the minds of the people of moderate intelligence in Faribault county, Minnesota, we denounce as infamous and as an insult to every respectable citizen of our county. We believe by the machinations of an unscrupulous and designing man that Thomas R. Senter, an upright, honorable and lawabiding citizen is now languishing in a felon's cell.

All this work required time, and when finally the authorities began to conclude that a wrong had been committeed three years had elapsed. Last January Senter was paroled, and this month he was granted a conditional pardon.

Scotland county was overjoyed at the success of its efforts, and plans were laid for welcoming Senter in a fitting way on his return to his home. The Memphis band was engaged and farmers from all parts of the county drove into Memphis to witness and participate in the welcome.

When the Keokuk train carrying Senter pulled into the station at Memphis the platform was a mass of humanity. Waiting rooms and baggage rooms were crowded and the entire district surrounding was filled with people. At the first sight of the gray-haired man who had suffered so much innocently a vast cheer went up that drowned the playing of the band. Senter's wife and son were allowed the privilege of first shaking his hand and embracing him, and the cheering and shouting increased during this touching family reunion. Then the citizens struggled for a grasp of his hand. There were tears in many eyes and Senter himself was almost overcome by the unexpected demonstration.

A procession was then formed, and headed by the band, the welcomers marched half a mile to the public square and round it amid the playing of the band and the cheers of the people.

Senter has suffered considerable financial loss as the result of his experience. His wife was prostrated by his arrest and his stock, left uncared for, died. He will have to practically begin life anew, but there will be no lack of helping hands among his neighbors.

THIS HOBO HOTEL

Is the Cheapest on Earth, No Money Being Needed.

Not Even Wood-Sawing or Oakum Picking Is Exacted.

Kansas City, Mo., June 16.—Kansas City has one of the cheapest lodging houses in the world. Lodgers there are not compelled to pay for their beds by sweeping out, carrying coal, sawing wood or peeling potatoes, as in the case of many of the free places. They are not even required to attend religious services; they may come and go at any time of night or day and no complaint is made.

This home for the penniless was formerly a livery stable, and is located at 221 Walnut street. W. L. Scott, who owns the place, has turned it over to charity. Not only that, but he has employed a "night clerk" to look after things. This clerk remains in the front part of the barn all night and sees to it that there is no smoking, and that no lodger is imposed upon by his neighbors. The only rules governing the lodging houses are:

"Don't smoke, don't fight, and don't disturb any person who is sleeping when you retire."

It was early last fall that Mr. Scott first conceived the idea of giving to the "hoboes" who come here when summer work on the farms is finished a home. He owns a saloon at Third and Walnut street. Midway down the block is the stable. He had been using it as a feed stable, but has now changed it into a free lodging house for those who have not enough money to pay for a bed elsewhere. If the lodger earns enough money during the day to buy a "nightcap" before retiring, he is quite likely to buy the drink at Scott's saloon, but if he spends his money elsewhere, nothing is said, and a "shake-down" is given him just the same as ever.

The barn is a large one, probably 100 by 50 feet in dimensions. The stalls in which horses once stood are still there, and these are the "rooms." There are no south fronts, with bath, but the stalls nearest the entrance are considered the coolest on warm nights. The "bo" who believes in the early-to-bed maxim always gets this. Those who come late must take what is left, even though they might have a little money with which to pay for cooler accommodations, for Mr. Scott says he is not running the place for profit, and does not even attempt to make his expenses from the lodgers.

The men who stay there are those who work in the harvest fields during the summer, and who, after the fall plowing is done, seek the city. They always return with a little money, but this is soon gone. Then they are "broke," homeless and discouraged.

"That condition is enough to make a man steal," said Mr. Scott to a reporter. "When a man has no place to sleep, and the snow or rain is coming down in sheets, he is apt to become desperate. I have not made a penny from the place, but if I have given one poor unfortunate a bed, thus removing his need to commit a crime, I am satisfied. Perhaps when the men return in the fall I will get some of my money back by way of my bar, and perhaps I won't, but in either case I will not complain. I have no particular use for the stable, and it helps someone who needs assistance. All it costs me is the straw for the beds, and this is not much."

Scott's lodgers will soon nearly all leave him, as work is expected to be plentiful in the harvest fields. One night during the last week, when a reporter visited the stable, about 225 men were comfortably sheltered. Everything was quiet, the only sounds being an occasional snore or the rustling of the straw disturbed by the feet of the night clerk as he walked about, seeing that all was well and that none of the men were smoking. Up to the present no one has been known to violate this rule, thus showing the appreciation with which Mr. Scott's kindness is met. Although it is the cheapest lodging house in Kansas City, and harbors no one except "hoboes," it is as orderly as many a more pretentious place. The police approve of Scott's plan, and say they have no trouble with any of his lodgers beyond an occasional case of "plain drunk."

FLOWER-NAMED BUSINESSES

Operated By Society Women In Chicago's Exclusive Suburb.

Chicago, June 16.—When the "Rose bindery" is moved by its owner, Mrs. H. C. Chatfield-Taylor to Lake Forest it will make the third flower-named business enterprise owned and operated by a society woman in that exclusive suburb. Is Lake Forest's elite falling under the spell of modern commercialism? Will there be no leisure class by another year?

The first of the Lake Forest society women to go into business was Mrs. Scott Durand with her model dairy, which she calls after her home, "Crabtree dairy." She found the venture fascinating. She enjoyed dickering with the farmers in the vicinity for their choice cattle, and she liked to come into the city and make contracts with the managers of the big restaurants. She even laughed when the Armour's butler called her up over the telephone and, not knowing who she was, insisted in curt business tone in having the "Crabtree dairy" send him over "two quarts of cream at once."

It was not only a novel experience, but it proved a profitable one as well, so in the course of a week or two Mrs. George McReynolds and Miss Nina Howard announced the opening of a "violet farm." This was hardly a "venture," for every woman knows what to expect of violets. She knows that the only women who don't buy them are those who can't afford to, and therefore the only place where a "violet farm" would not flourish would be where there were either no women or no money. Neither are lacking in Lake Forest.

And now into the midst of all this enterprise and prosperity comes Mrs. Chatfield-Taylor with her assured success, the "Rose bindery." Miss Enid George will have charge of the workshop in Lake Forest, as she has of the studio here in Chicago.

MALARIA

A Poison Breathed into the System

The air arising from low, marshy places, damp cellars, stagnant ponds and pools and from decaying vegetable matter, as well as the gases from sewers, is loaded with germs of malarial poison. The water we drink, that has not been properly filtered and purified, is also full of these germs and microbes, and as we daily breathe and drink millions of these into the system, to be absorbed by the blood, the entire body begins to feel the effects of the poison. The most common form of Malaria is "chills and fever," but when the blood is thoroughly saturated with the poison it becomes so weak and polluted that abscesses, carbuncles, boils, sores, ulcers and other skin diseases result. Malaria also affects the liver, kidneys, bowels and stomach, producing a chronic state of biliousness that often results in jaundice or some malignant fever. In cases of Malaria the blood must be purified before the body can regain its natural health. S. S. S. contains purifying and tonic properties possessed by no other blood medicine, and is the ideal remedy for the treatment of Malaria. It destroys the germs of the disease and builds up the weakened, polluted circulation. It enters into the blood and forces out every particle of poison and waste matter and adds strength and activity to it. S. S. S. improves the appetite and digestion, tones up the entire system by its alterative and purifying action, and Malaria, with all its bad effects, is permanently driven from the system. Book on the blood and any medical advice, without charge. **THE SWIFT SPECIFIC CO., ATLANTA, GA.**

MALARIA IN HIS SYSTEM FOR YEARS.

For several years I suffered with Chills and Fever, caused by Malaria in my system, and each summer for several years I would have a relapse. Finally my physician prescribed S. S. S. It entirely cured me; I have never been troubled since. 913 W. Market St., Louisville, Ky. I. SHAPOFF.

SSS

STUDENTS PROHIBITED

From Sending Up Cats Attached to Balloons.

Appleton, Wis., June 16.—Students of Lawrence university have been prohibited from sending up cats attached to hydrogen balloons.

While the larger universities have been directing their scientific departments toward the acquisition of knowledge concerning wireless telegraphy, radium, the development of the X-ray and other important branches, students at the Lawrence university saw a vast field before them in ascertaining the length of time a cat could exist attached to the hydrogen balloon. Cat after cat was sent up, but notwithstanding their nine lives, their bodies were usually found the next day a mile or two from the college campus. The balloons rose until the expansion of the enclosed hydrogen, due to the rarified upper air, burst the envelope. Then they "parachuted" down, bringing the cat with them.

Tabbies, tortoise shells and those of a common breed were sacrificed that the zealous students might obtain more definite data on the length of a cat's life at different altitudes. They all died. When the choice Persian cat of a leading Appleton woman was found, its life sacrificed to science, the humane agent stepped in. He didn't believe the problem could ever be solved, and anyway he considered the process was inhuman. And the edict has gone forth that the feline exeprirnents at Lawrence must discontinue, and the cats in Appleton henceforth will breathe more freely.

You may have known some particular store very well yesterday—and yet hardly recognize it today. New goods! Let the ads. keep you posted.

CURE SICK HEADACHE.

MORMONS TO ERECT SHRINE

At the Birthplace of Joseph Smith In Vermont.

South Royalton, Vt., June 16.—A Mormon shrine is to be established here on the site where Joseph Smith, the founder of the Mormon church, was born. The site is on Dairy Hill, where a portion of the foundation of the old Smith homestead, with the great hearthstone in position, is still standing.

Title to the so-called Lathan farm, which consists of sixty-five acres, and on which the Smith home stood, was passed last week by the owners, Mr. and Mrs. C. H. Robinson, to Joseph F. Smith, in trust for the Mormon church, of which he is the president. Part of the farm is in South Royalton and the remainder in Sharon.

The old farm today is little more than pasture land, but, according to the present plans of the Mormons, it will blossom forth into one of the garden spots of Vermont. Already about $5,000 has been expended in getting the place and present plans call for the expenditure of at least $10,000 during the next few months.

The present plans of the church authorities include, besides the erection of a monument on the hearthstone of the old farm house, the construction of several cottages for the accommodation of the faithful, the clearing up of the entire sixty-five acres and transforming it into a sylvan park, the building of a fence about the entire tract and the making of a road from the highway to the cellar location.

Work on the undertaking will be begun this month, upon the return of Junius L. Wells, an elder of the Mormon church, who left South Royalton for Salt Lake City to make his report on the project. The farm is about three miles from the Central Vermont Railroad station here.

It is practically on the summit of Dairy Hill, which is about 1,400 feet above the sea level. The Smith homestead was just a few feet from the boundary line of Sharon. The erection of the cottages will be begun as soon as the grounds are cleared and the fences built.

The one hundredth anniversary of the birth of Joseph Smith will be on Dec. 23 next. It is expected that there will be a great Mormon celebration at the shrine on that date. Residents of this section of Vermont are disposed to look with favor upon the establishment of the Mormon shrine for business reasons, as they are satisfied that the Mormons do not intend to do any proselyting here.

BRIGHT DOG

Made a Mistake and Smith Was Mad.

Philadelphia, June 16.—For some time Thomas Smith has been awakened every morning by his pet terrier.

One morning Smith felt so tired after a holiday's fun that he decided to sleep half an hour longer than usual.

But the dog thought it was time for his master to get up. When the dog found that repeated tugging at the bed clothes had no effect, it seized the calf of Smith's right leg between its teeth, and did not let go until the man had leaped out of bed.

After punishing the dog Smith went to the Jefferson hospital for treatment. Hereafter Smith will use an alarm clock.

Two Personally Conducted Excursions, Chicago to Asbury Park Via New York.

Over the Pennsylvania lines, leaving Chicago Thursday, June 29th, via Pan Handle Route at 10:05 a. m., fare $21.35.

Also Saturday, July 1st, at 1:00 p. m., over the Fort Wayne Route, fare $23.35 round trip. Coaches and sleepers on both trains through without change. Tickets also sold for regular trains, June 29th and 30th, July 1st and 2d. Tickets via Washington at same rates. Stop-overs allowed at Baltimore, Washington, Philadelphia and New York.

ADMIRALS FIRED

High Admiral Alexis and Admiral Avellan Resign Positions.

Have Been Accused For Years of Gross Corruption.

St. Petersburg, June 16.—The sensational announcement was made shortly before midnight that Grand Duke Alexis, the high admiral, who is an uncle of the emperor, and Admiral Avellan, head of the Russian admiralty department, had resigned. This announcement was followed a few minutes later by an imperial rescript relieving the grand duke of the supreme direction of the navy which he had held since the days of the emperor's father, Alexander III, when Russia resolved to enter the lists as a first-class sea power and to build up a navy, the remnants, of which were destroyed in the battle of the sea of Japan.

Although from time to time since the war began there have been rumors that the grand duke would retire on account of savage criticisms, not to use harsher terms, directed against the administration of the navy, especially in the construction of ships, the announcement of his resignation came like a bolt out of the blue. It was not preceded by any of the rumors which usually give warning of such an act. Consequently it was assumed that some sudden event precipitated it and ugly stories immediately came to the surface.

Among those sojourning late in the cafes and hotels the editorial in the Nasha Shisn yesterday morning demanding an accounting of the popular fund subscribed for the rebuilding of the navy and declaring that "great names are no longer guarantees," was instantly recalled.

The words of the rescript give no hint of imperial anger and the real explanation probably will not leak out for several days but the instant disposition was to regard the retiremnt of Grand Duke Alexis and Admiral Avellan as a concession to public opinion, following the crowning tragedy of the Sea of Japan. Charges of mismanagement and inefficiency and tales of corruption and even worse, against the marine department have been rife for years. After the war began they increased ten fold and lately a regular campaign against the department has been openly conducted in the newspapers. Some startling revelations have been made in this campaign and Capt. Clado who was one of the leading critics of the conduct of the navy, was dismissed from the service for his persistence.

It was felt even in quarters where charges of corruption were not entertained that it would be unwise to entrust the building of the navy to the hands which were responsible for the hapless fleets of the past.

Grand Duke Alexis himself did not escape personal attacks, and scandal was so busy with his name that he was several times the subject of public demonstrations. The name of the grand duke was high on the list of those condemned by the terrorists, and after "Red Sunday" (Jan. 22, last) it was reported that he had fled abroad, but it developed that he was merely keeping closely within his palace. Recently he has shown himself more frequently, usually in a closed carriage. The Associated Press correspondent saw him Wednesday, drawn by a fast trotting Orloff stallion, which was going like the wind. The driver, it was noted, did not wear the imperial livery. The grand duke, who was nervously glancing to right and left, kept his right hand deep in the pocket of his military overcoat, and was evidently grasping a revolver.

The retirement of Admiral Avellan has not yet been published. The names of Vice Admiral Birileff, who is returning from Vladivostok, and of Vice Admiral Chouknin, commander of the Black sea fleet, are mentioned among those likely to succeed Admiral Avellan.

The emperor has accepted the resignation of Grand Duke Alexis in the following rescript:

"His imperial majesty, my father, highly esteeming your experience in naval service, and your personal and moral qualities, selected you in 1881 as his immediate collaborator in the work of renovating and strengthening our fleet. Since then, for twenty-four years, your imperial highness has devoted your labors to the development of our naval armed forces, and to the training of the personnel of the fleet in proportion to the resources it was possible to accord for that purpose.

"Now, yielding to your reiterated request, I have consented to relieve you of the administration of the fleet and marine department.

"In accepting the resignation of your imperial highness, I direct you to retain the rank of grand admiral, as an expression of my gratitude for all your work.

"I remain, as ever, your constant well wisher, with every expression of my love.

"NICHOLAS."

FORT MONROE ATTACKED

Admiral Dickins Sends Whole Fleet Against Fortifications.

Fort Monroe, June 16—An attack in force was made on Fort Monroe last night by Admiral Dickins' fleet. Practically the entire fighting strength of his fleet was employed. His battle formation was the same as that at Fort Washington and Fort Hunt, the torpedo boat destroyers in the lead, the monitors next, then the Texas, cruiser and gunboats. The general action began shortly after 11 o'clock and at once assumed a close range contest which contained all that could be desired of the spectacular and picturesque.

The battle of the searchlights on shore and ship was no less fierce than that of the guns and as the smoke of battle became dense their glare took on a hue of red. Again as at the defense of Washington, the dark green color of the torpedo boat destroyers enabled them to creep up to within close range of the fort before they were observed. They were close together and so hot and fast was their fire that a cloud of gun powder smoke was soon rolled against the walls of the fort, and in this obscurity the monitors advanced. When they were discovered they not only returned the fire of the fort, but also the glare of its searchlights. When a battery on shore was located, the light from the ship which had sought it out would wave into the sky and then return to the target and then would be poured forth volley after volley, answered in turn by the fort. The battle line led the ships past the forts from Chesapeake bay. When the destroyers had passed they lay throughout the action within a stone's throw of the wharf at Old Point Comfort. The larger ships turned at this point and paid their compliments to the guns on the ripraps, lying midway in the entrance to Hampton roads. Just before the battle, a demonstration was made at Willoughby spit, lying towards Cape Charles. This attracted the attention of the observers and the instant was employed to begin the attack on the fort. The battle lasted exactly an hour and at its conclusion the fleet withdrew towards the capes.

SUICIDE AT CROOKSTON.

Yard Man at Palace Hotel Shoots Himself.

Crookston, Minn., June 16—Clutching a 22-calibre rifle the body of John Clements, 33 years of age, was found in the rear of the Palace hotel with a bullet through his heart. It was probably a suicide.

He was employed as yard man at the hotel and the body was found near the kitchen door. The man secured the gun in the kitchen a few minutes before death on the pretext of shooting a rat. He is survived by a sister in Ashland and relatives in other cities in Wisconsin, who have been notified.

CONTRACTS AWARDED

For Construction of Three Large Drainage Ditches.

St. Paul, June 16.—Contracts for the construction of three large drainage ditches in the northern part of the state were yesterday afternoon let by the drainage board. The work outlined by these contracts, with that which is under way, will consume the $30,000 appropriation available this year.

John Koehler of Frazee was awarded the contract for constructing the Wing river ditch in Otter Tail county at 11.40 cents per cubic foot. The Standard Ditch company of Windom gets the contract to construct the Roseau river ditch at 13.50 cents per cubic foot. The contract for the Kimberly state ditch in Aitkin county was awarded to John Koehler at 14.40 cents per cubic foot.

FEARS MOB VIOLENCE.

Farmer Has His Son Locked In Jail.

Wabasha, Minn., June 16.—John Kirbe, living fourteen miles south of here, brought his 16-year-old boy to this city yesterday and asked the sheriff to lock him up in the county jail here so as to save him from the fury of a mob of citizens.

The Plainview Telephone company was setting poles on the highway that passed over Kirbe's land and he objected. The foreman ordered them to proceed. Joseph Tushaus, the farmer to whose residence the line was to run, was one of the crew and he started to obey orders when young Kirbe fired on him, with a 32-caliber rifle from a clump of bushes. Tushaus fell severely, though perhaps not fatally wounded. Kirbe is in jail and will doubtless be held to the grand jury.

The Great Successful Clearance Sale Still Going On at The Duluth Consignment Store.

Our store has been crowded with customers every day this week. Thousands of people that visited our store during this sale were more than pleased with the great bargains they have received at our store. We still have our store packed full of wonderful bargains that we are offering to the public of Duluth. Saturday will be the last day of our clearance sale and you may get the benefit while it lasts.

$20,000 worth of the highest-grade merchandise to be put up to the public of Duluth tomorrow at the most ruinous prices ever known.

One lot of ribbons, good quality and assorted colors—six and eight inches wide; always sold for 10c and 15c a yard—clearing price, per yard **2c**

10,000 yards of fine Torchon and Valenciennes Laces, worth 10c a yard—at **2c**

Ladies' Handkerchiefs, good quality; regular 10c—at **2c**

Children's Stockings, in gray, double heel and toe; positively worth 15c—at..... **4c**

Misses' Lace Stockings, actually worth 20c a pair—at **4c**

Ladies' fast-black seamless Hose, positively worth 25c—at **9c**

Ladies' German imported full fashioned Hose, in open lace work and silk embroidered, positively worth 50c and 75c—on sale at **19c**

Boys' heavy ribbed Stockings, sold everywhere at 25c—tomorrow **9c**

1,000 yards of fine all-wool Panama cloth, 60 inches wide, in a beautiful assortment of colors—red, tan, blue. You cannot duplicate this grade of Panama elsewhere for any less than $1.25 a yard—clearance sale price, a yard **39c**

Girls' Straw Hats, trimmed in beautiful silk flowers; $1.00 value—at **29c**

Ladies' Washable Waists, made of fine materials; trimmed in lace and embroideries—$1.00 value—at **48c**

Ladies' patent Oxfords—a regular $3.50 Oxford—at **$1.98**

Men's fine Dress Shoe—the very best make—great value **$1.69**

Duluth Consignment Co.

24 EAST SUPERIOR STREET, DULUTH, MINN.

SCANDAL IS PROMISED

Driscoll Tells the Grand Jury Some Startling Things.

Employers and Union Leaders Are Involved In Matter.

Chicago, June 16.—The greatest scandal Chicago has ever had, according to States's Attorney Healy, is to follow the disclosures made before the grand jury by John C. Driscoll, when the former secretary of the associated building trades and Coal Team Owners' association revealed the entire history of the dealings between employers and union labor leaders, particularly that branch of union labor represented by the Chicago Teamsters' union.

State's Attorney Healy declared that the bribery and conspiracy charges dropped into comparative insignificance beside the accusations which have been brought to the attention of the grand jury. The state's attorney said:

"More serious offenses have been committed than bribery and conspiracy, and the evidence presented to the jury has been of an extremely sensational character. It is very important and will lead to startling results. The names mentioned by the witnesses are those of prominent men on both sides.

"If I thought that there would be no results from the investigation I would call a halt immediately. I believe the present line of inquiry will occupy the attention of the jury for the remainder of this week and a portion of next week, but if necessary all the docket cases will be sidetracked because of the great importance I attach to the results of the present inquiry."

Tomorrow will witness the gathering before the grand jury of twenty or more of the prominent business men of Chicago together with leading members of the bar.

Subpoenaes for them were placed last night in the hands of private detectives employed by the state's attorney and it is impossible to learn the names of those for whom subpoenaes have been issued. Charges, however, of a serious nature, are said to figure in the evidence, in connection with which these men have been summoned.

John C. Driscoll was yesterday the chief witness before the grand jury and recited what he called the history of the dealings between employers and union labor. Driscoll told how the coal teamsters and coal team owners had made the first joint trade agreement which provided that the owners should employ only members of the union, and that the coal teamsters' union should work for no employer not a member of the Coal Team Owners' association.

The effect of this arrangement, the witness declared, was to force every coal wagon owner into the Coal Team Owners' association and every coal wagon driver into the Teamsters' union. The owners behind this revision that barred union drivers from working for men not members of the association and prevented non-union drivers from driving coal wagons, and raised the cartage rates of coal from 30 to 50 cents a ton for short hauls and to as high as $1 a ton for longer hauls.

Driscoll took before the grand jury several check books which, together with the cancelled checks are expected to prove many charges made by him against business men and labor leaders.

It was evident by the appearance of state's attorney and members of the jury at the time of adjournment that Driscoll had given some very remarkable testimony.

Both State's Attorney Healy and his assistant, Mr. Fake, and several members of the jury were highly agitated and they admitted passively that the evidence of the gravest importance had been given, but everybody was sworn to secrecy. Driscoll also was much agitated as he left the criminal court building. He refused, however, to discuss the nature of his testimony, merely saying:

"I told the jury about strikes in which I have been involved for several years, and also told what I knew about the present strike. That is all I can say now."

It was learned late last night that one of the statements made by Driscoll to the jury was that President Shea of the Teamsters' union accepted $8,000 at the time of the stockyards' strike last summer.

This strike began gn July 12 and lasted for nine weeks. About 26,000 men were thrown out of employment, and millions of dollars were lost by the packers in business and by them in wages. According to Driscoll's story, he went to Shea to see if the teamsters could not be prevented from going out on a sympathetic strike. Shea is said by Driscoll to have replied, "It will cost $8,000 to keep them at work."

Driscoll declared that he raised the money and paid it to Shea, and that the labor leader was not able to prevent the men from walking out. Driscoll afterwards, according to his story, demanded the return of this money, and Shea declared that he had paid it over to two other men connected with the Teamsters' union.

KING LEOPOLD

Now Gives Dinner Parties In Auto-Salon.

Paris, June 16.—That nomadic sovereign, King Leopold, is now so constantly on the move that he has arranged to give luncheon and dinner parties in his auto-salon. On his way from Paris to Liege he gave a dinner to thirty guests.

The king appeared at the Liege exhibition as a general of division, and his heir as a brigadier. He bestowed flattering attention on the Louis XV salon, in the otherwise unfinished French section, and thought the furniture ravissant.

The king inspected with the interest one might have supposed of a would-be purchaser, the chairs and tables, desk, chiffonnier and mirrors, which are rather for feminine than masculine use, and then the Siberian furs in the Russian section, and the Caucasian and other enamels, also for lady's use.

It was noticed that he covered the Japanese with compliments, and that he had recovered the old fluency which an affection of the throat for some time interfeerd with. The Princess Clementine absented herself from the inaugural ceremony.

CONSTIPATION is caused primarily by lack of certain elements in the food which tend to more or less imperfect digestion, and to make the liver sluggish and torpid.

The bowels carry away and discharge the fecal matter—that is the refuse matter of the system. If the bowels are constipated, the fecal matter clogs and congests the natural passages, the poisonous excretions are retained in the body. They set back like a stream dammed up, and are absorbed into the system and carried all over the body in the blood.

That's the reason your head aches, your tongue is coated, your mouth tastes like a garbage can, black specks float before your eyes, and you are generally unhappy. It's constipation poisoning.

CALIFORNIA PRUNE WAFERS are positively guaranteed to cure the most obstinate case of Constipation, Biliousness, Torpid Liver or Indigestion. 100 Wafers, 25 cents. Sold by

KUGLER, Your Druggist,

ANCHORED ON REEF OF GOLD

Discovery Made By Americans In Straits of Magellan.

Baltimore, Md., June 16.—A rush of gold seekers to the Staits of Magellan and to Terra del Fuego is told of in a letter received at the office of the Fifth lighthouse district from Capt. Thomas Orlando Moon of this city who is an officer of lightship No. 76, that, with her sister lightship, No. 83, is on a voyage from New York to San Francisco that holds the world's record for lighship voyages.

Capt. Moon was impressed with the proximity of gold in the region by a singular expreience that befell his vessel one night. To heave home an anchor and find it gold-plated was the essence of his experience, and it so excited several men aboard the vessel that they immediately proposed to abide their time and then organize an expedition to get the precious metal. News of this and other experiences has already reached towns on the Pacific coast, and a rush of fortune hunters has already begun, and Capt. Moon believes that if the preliminary and rather crude mining should show any encouragement Terra del Fuego will become a center of world interest and that that long uninhabited and desolate region will, like the Klondike, become a thriving community.

The lightship took a course through Smith's channel in the straits, and one night was anchored in Columbian Cove in nineteen fathoms of water with the ship's stern within fifty feet of the rocky promontory. So deep was the water in the region that it was necessary to put the vessel that close to the rocks in order to get bottom for the anchor.

When the anchor was hove-to the bow next morning it was completely covered with a yellow metallic stain. Among the crew was a miner working his way to Dawson City and a man of many years' experience in the gold fields of the world. He gave the stain on the anchor close and critical inspection and announced positively that the anchor was covered with stain and that it had all night been hocked in a stratum of gold. The miner said that with proper tools men could make fortunes getting out the gold that must be in large quantities to show such unique evidence. The miner immediately changed his plan about going to Dawson and said he would stop in San Francisco to try and get some one to grubstake him and start an expedition to Terra del Fuego for gold. In his letter it is apparent that Capt. Moon is also slightly touched with the gold fever, and it would not be surprising to hear that the veteran mariner had joined the expedition.

Capt. Moon's letter is dated from Callao, Peru, May 4, and tells in charming sailor fashion of the wonders of the passage through the straits. The lightship spent six days in the straits and Smith's channel.

It was Capt. Moon's first trip through Smith's channel, as on his pervious voyage he had negotiated Cape Horn by way of the straits and Cape Pilles. Every night the vessel anchored and the sturdy captain felt a touch of sentiment when he reflected on the vastness of the universe and the smallness of man. These thoughts were encouraged by the enormous mountains rising boldly out of the sea and the magnificent scenery that they produced. With peaks ice and snow capped the mountains were verdant for about two-third of their height from the sea.

WOMAN PILOT STOPS PANIC

Which Followed Hurricane and Collision of Two Boats.

Pittsburg, Pa., June 16.—Capt. Mary Green, commander of the steamboat Greenland, and the only licensed river woman pilot and captain in the United States, was responsible for saving many lives during a panic on her boat. The panic followed a hurricane, when the bow of the boat crashed into the side of Swallow & Markles' floating theater, at the mouth of the Kanawha river.

Already panic-stricken by the ferocity of the gale, the passengers on the Greenland had hurriedly dressed and rushed on deck. There were fully 200 persons on the boat, when the steering apparatus became unmanageable, and the nose of the Greenland plowed into the side of the show boat.

Standing on the lookout with her two little sons at her side, Capt. Green was the coolest person aboard the boat, and she issued orders which soon resulted in the complete control of the Greenland, which had not been badly damaged. While the panic was at its height many of the passengers attempted to jump overboard. Mrs. Green's words of assurance caused them to hesitate, and her display of bravery brought reassurance to the hearts of the timid. The showboat was damaged by the collision, and the performers badly frightened. Mrs. Green ordered boats to be lowered, and all on the theater boat were transferred to the Greenland in safety.

During the entire excitement Mrs. Green's two little sons, the youngest of whom is only 2 years of age, remained at their mother's side, and did not appear to be any more frightened than the captain.

EARL ROSSLYN

And Younger Brother Fight Over Anna Robinson.

London, June 16.—Anna Robinson, former actress, has proved the cause of serious dissension in the Rosslyn family. The story goes that the earl's brother, Fitzroy Erskine, admired her and resented her marrying the earl, so that on meeting them recently in London he cut them both dead. This week Fitzroy Erskine was washing his hands in the lavatory of his club, when the earl came in and immediately abused him for his conduct, concluding by hitting him on the mouth and cutting his lip. Erskine went on washing.

Afterwards, going to the entrance hall, he found the earl, still fuming with rage, and set about him with his cane, giving him a very severe drubbing before the hall porters and onlookers separated them.

SERENADERS SHOT.

Marquette Bridegroom Objected to Repeated Visits.

Marquette, Mich., June 16.—As the outcome of a prolonged charivari at Sands, nine miles distant, Hans Olsen was arrested yesterday charged with attempted murder.

Olsen was married two weeks ago, and after his persistent refusal to buy beer, young men organized a serenading party. They began operations Monday night, and kept them up Tuesday night, and last evening until finally Olsen opened the door and shot into the crowd.

William Moody, ten feet away, was badly wounded in the leg and thigh, eighty-seven fine shot being removed at a hospital here.

PREMIER DIED IN POVERTY.

Athens, Greece, June 16.—The late Premier Delyannis, who was assassinated June 13 by a gambler named Gherakaris, died in absolute poverty. The chamber will vote a pension to the immediate members of his family. One of the proprietors of the gambling house with which the murderer was connected, was arrested. He gave the premier the names of the instigators of the premier's assassin.

Stylish Shirt Waist Suits

If you want the best value in the city in Shirt Waist Suits or Wash Waists come right to this Store. Our part payment plan makes it easy to buy Summer Garments, Millinery or Stylish Oxfords—Credit is yours without asking—just say "Charge it"—that's enough.

DUKE, IF FREED,

Would Probably Be Again Married to His Previous Wife.

Lawyer Made Trustee of His Estate For One Year.

Greensboro, N. C., June 16.—Brodie L. Duke, the millionaire tobacco merchant of Durham, has just served divorce papers on his third wife, Alice Webb Duke, whose sensational fight for his liberty was a feature of metropolitan news last winter, and almost simultaneously it was learned here that if the plaintiff should be successful in his suit he probably would remarry his second wife, Mrs. W. W. Duke of Chattanooga. Thus another piquant chapter is likely to be added to the matrimonial experiences of the millionaire—always provided, of course, he gains his decree against Mrs. Duke No. 3—and society North and South may be treated to the warming over of a love that grew cold when the tobacco man became increasingly skittish with advancing years. For twenty-four hours before the plaintiff's process server handed the summons and a copy of the complaint to Mrs. Duke No. 3 in the metropolis, Duke himself and Mrs. Duke No. 2 were enjoying a tete-a-tete that must have reminded them of old days when, in law as well as sentiment, they were all in all to one another.

Duke and his former wife met here, he coming from Durham for the purpose, she from the North. The millionaire was waiting in the station when his wife's train pulled in. He wore a boutonniere and a persuasive smile. Mrs. Duke No. 2 was frocked engagingly in a soft summer gray of the shade most becoming to grass widows. She carried a cluster of roses and her eyes were shining like the mountain stars of her native Tennessee. Duke bowed low to her and helped her from the car platform like a chevalier, brushing aside the Pullman porter who essayed that honored office. Mrs. Duke smiled bewitchingly at her quondam liege and chatted gayly with him as they hastened across the station platform and entered a chaste equipage waiting at the door.

They were whirled at double time to the fashionable Benbow hotel, where the woman registered. Her one-time lord did not enter his name in the hotel book. Instead he requested the clerks to keep secret his presence in the house. He and his former wife talked for hours in one of the reception rooms. Then Mrs. Duke retired to dress for dinner, which they had together at 2 o'clock, in accordance with Southern custom. After dinner they went in a carriage to the Guilford battleground, several miles north of the city. On their return they seemed satisfied with themselves and each other—so content, in fact, with one another's society that they secluded themselves from all acquaintances of the millionaire's by sitting in a remote corner of the public reception room and eyeing icily all who threatened to approach them.

Mrs. Duke No. 2 boarded the evening train for Chattanooga. Before they parted, it is asserted, they agreed to re-enter the bonds of matrimony soon as might be. One of Duke's friends—a man whose name is one to conjure with in financial circles—said everything had become amicable once more between the millionaire and his former wife. He asserted Mrs. Duke No. 2 had forgiven the tobacco merchant for his escapade in New York, and that she was disposed to forget as soon as she could there was such a person as Mrs. Duke No. 3 in the world.

Mrs. Duke No. 2 was influenced in Duke's favor largely by his prudence in appointing Mr. Boone of Durham, an attorney, as trustee of his estate for a year. That step convinced the millionaire's former wife he was determined to be steady in future. She was pleased to learn Duke had instructed Mr. Boone to limit him to a sum simply sufficient for his maintenance. Indeed, it was not until she learned that action, it is related, that she came East in response to his importunities to hold the conference as to their future.

The suit for divorce begun by Duke against Alice Webb Duke accused her of improper conduct in a Grand Trunk sleeper from Chicago, on May 8 or 9. Mrs. Webb, as she then was, was married to Duke on Dec. 19 last in this city. They took a suite in the Park Avenue hotel. An order was obtained from Judge Truax by the husband's family committing Duke as insane. He was taken into custody in the hotel on Jan. 7 in the evening and hurried to a Flushing sanitarium.

Mrs. Duke made a great outcry that night, and next morning began a legal fight for her husband's release. It did not appear that Duke was eager to return to his third wife. He was taken to court on a habeas corpus writ obtained by his private secretary, William G. Barnham, and declared sane. On his release his son began an action to have Duke declared an habitual drunkard. That proceeding was quashed by common consent of the family. It is understood Duke again is on good terms with his relatives, and that they will forward his divorce suit by all proper means. How they will regard his proposed remarriage with Mrs. Duke No. 2 is another question.

A TEST EXPERIMENT.

Peculiar Power Possessed By a New Medicine.

Of new discoveries there is no end, but one of the most recent, most remarkable and one which will prove invaluable to thousands of people, is a discovery which it is believed will take the place of all other remedies for the cure of those common and obstinate diseases, dyspepsia and stomach troubles. This discovery is not a loudly advertised, secret patent medicine, but is a scientific combination of wholesome, perfectly harmless vegetable essences, fruit salts, pure pepsin and bismuth.

These remedies are combined in lozenge form, pleasant to take, and will preserve their good qualities indefinitely, whereas all liquid medicines rapidly lose whatever good qualities they may have had as soon as uncorked and exposed to the air.

This preparation is called Stuart's Dyspepsia Tablets, and it is claimed that one of these Tablets or lozenges will digest from 3000 to 3,000 times its own weight of meat, eggs and other wholesome food. And this claim has been proven by actual experiments in the following manner: A hard-boiled egg cut into small pieces was placed in a bottle containing warm water heated to 98 degrees (or blood heat); one of these tablets was then placed in the bottle and the proper temperature maintained for three hours and a half, at the end of which time **the egg was as completely digested as it would have been in a healthy stomach.** This experiment was undertaken to demonstrate that what it would do in the bottle it **would also do in the stomach,** hence its unquestionable value in the cure of dyspepsia and weak digestion. Very few people are free from some form of indigestion, but scarcely two will have the same symptoms. Some will suffer most from distress after eating, bloating from gas in the stomach and bowels, others have acid dyspepsia or heartburn, others palpitation or headaches, sleeplessness, pains in chest and under shoulder blades, extreme nervousness as in nervous dyspepsia, but they all have **the same cause,** failure to **properly digest** what is eaten. The stomach **must have** rest and assistance, and Stuart's Dyspepsia Tablets give it both, by digesting the food for it and in a short time it is restored to its normal action and vigor. At the same time the Tablets are so harmless that a child can take them with benefit. This new preparation has already made many astonishing cures, as for instance, the following:

After using only one package of Stuart's Dyspepsia Tablets I have received such great and unexpected benefit that I wish to express my sincere gratitude. In fact, it has been six months since I took the package and I have not had one particle of distress or difficulty since. And all this in the face of the fact that the best doctors I consulted told me my case was Chronic Dyspepsia and absolutely incurable as **I had suffered twenty-five years.** I distributed half a dozen packages among my friends here who are very anxious to try this remedy.

MRS. SARAH A. SKEEL,
Lynnville, Jasper Co., Mo.

Stuart's Dyspepsia Tablets are sold by druggists everywhere at 50 cents for full sized packages. A little book on Stomach Diseases mailed free by addressing F. A. Stuart Co., Marshall, Mich.

CONVICT SYSTEM

Of Indiana Changed and Better Results Expected.

Montgomery, Ala., June 16.—Following its policy adopted some time ago to assume control of state convicts the state board of convict inspectors has taken over 170 prisoners now leased to the Henderson-Boyd Lumber company at Richburg, Coffee county, and will thereafter work the convicts at the lumber camps under officers appointed by the board.

The change is hardly perceptible in the affairs of the lumber company. It means merely that the state will feed, clothe, guard and care for the convicts, the lumber company paying a certain sum for each man. In other words, instead of paying about $15 per month for each convict, as heretofore, and feeding and caring for him and controlling him, the state will, under the new management, receive about $20 a month for each prisoner and will assume all responsibility.

This is the system which was put into effect with convicts working the coal mines beginning with the year 1904. It has operated so satisfactorily that the state government is gradually extending it to all classes of convicts.

Its chief advantage lies in the better treatment of the prisoners. The second desirable feature is the increased revenue it brings to the state. The receipts from them has been so great as to surprise even its most sanguine supporters.

At present there are about 1950 state convicts, of which about 10 per cent are white persons and about 5 per cent women.

PEAT TO BE USED

By the Moffat Road In Colorado For Fuel.

Denver, Colo., June 15.—Peat will be used by the Moffat road for fuel.

Thousands of acres of high grade peat have been discovered by the engineers of the Moffat road along the route near Tolland.

A process has been discovered by which peat can be dried and mixed with a chemical preparation in such a way that it will burn better than anthracite coal. Peat is also being made into paper.

Robert S. Brannen was one of the first to discover the peat bogs. He knew that it was genuine peat, as he says that he has spaded peat in the Emerald Isle. The matter was taken up by the Moffat engineers, who found that Mr. Brannen's opinion was correct.

Several months ago the Colorado Fuel & Iron company began investigating a discovery made by a Chicago scientist, by which peat was made into fuel that surpassed any hard coal that has been discovered. After looking into the matter the Fuel company decided that because of the scarcity of peat in Colorado it would not atempt its use at the Pueblo SiSeel works. At that time the peat bogs along the Moffat road had not been discovered.

In Ireland peat is practically the only fuel that is used. It is found in greater quantities there than in any place in the world, but Colorado, according to the report of the Moffat people, will press the land of the shamrock for second place.

WIRELESS MESSAGE

From Arctic Caught By New Orleans Station.

New Orleans, June 16.—A peculiar phenomenon occurred in New Orleans some days ago which indicates the remarkable distances which wireless messages may travel. On the roof of the tall skyscraper of the Hibernia Bank and Trust company is erected an apparatus for wireless telegraph service to Galveston, Key West, Tampa, Mobile and eventually to Panama. The operator in charge was startled with a faint message, which he finally deciphered to be one from some vessel far off in the ocean and presumably in the North Atlantic, for it told of encountering a great snowstorm. The message was intended evidently for New York, but the sound waves, traveling through space, were caught by the sensitive receiver of the New Orleans station fairly intelligibly. Whether or not the message was wholly deflected from its true course has not been discovered.

A Great Sale of Men's Suits!

The Most Magnificent Values Ever Offered Will be Found Here Tomorrow.

We have placed on sale our entire stock of Men's and Young Men's Summer Suits, and, it is safe to say that greater values were never placed before wearers of good clothes. When you see our immense line of Hand Tailored Suits and the strength of the values you will fairly marvel at money saving opportunities presented—the up-to-date fashion and the superb qualities these clothes possess.

$13.50 and $15.00 Suits — **$9.75**

$16.00 and $18.00 Suits — **$13.75**

$22.00 and $25.00 Suits — **$18.75**

FLOAN, LEVEROOS & CO.

BANKERS IN JAIL

Twelve Serving Terms In Ohio at the Present Time.

They Form an Exclusive Set In the Penitentiary.

Columbus, Ohio, June 16.—Ohio, for some reason, seems to be particularly prolific in that branch of frenzied finance which may be termed frenzied banking. In this sort of feverish financiering the penitentiary must be classed as one of the state's banking institutions.

Its register, indeed, is fast becoming a bank directory. Its regularly accredited list of presidents, cashiers, tellers and clerks is steadily growing, and the outlook for new acquisitions is very bright. An inventory of the banking population, present and prospective, with liabilities involved, makes this striking showing:

Number of bankers now behind the walls	12
Number headed for the penitentiary	9
Amount of loot charged to present prisoners	$724,000

The list of prospective prisoners does not include that queen of bank sirens, Cassie L. Chadwick, now under a ten years' sentence, stayed pending an appeal hearing. All but one of the prisoners are Ohio bankers, exception being a federal prisoner from Indiana.

The eleven Ohio prisoners are:

John K. Brown, New Holland: embezzled between $25,000 and $30,000; sent up for seven years; received Nov. 17, 1903; short (good) time out April 12, 1908; fled to Honolulu, but returned to San Fancisco and gave himself up, pleading guilty; about 38 years old.

Arthur W. Deibel, Canton; embezzled $22,000 from the City National bank; got five years; sent up Oct. 27, 1903; good time out June 23, 1907; was teller of the bank; caught while on a vacation, and his arrest caused consternation; confessed and made partial restitution; 30 years old, and an exceptionally expert accountant.

Earl O. Devore, Woodsfield; while clerk in a bank there made way with a postoffice package containing $5,000, left on deposit; given thirteen months; received Dec. 8, 1904; about 28 years old, and single.

Harry P. Hoover, Newark; cashier of Licking County bank; in conjunction with Harry P. Scott, cashier in another Newark bank, who was released only last month, after serving thirteen months; Hoover got away with some $36,000 by making false entries, got five years; has been in prison since Dec. 7, 1903, and will get out with good time, Aug. 6, 1907; is about 37 years old and married.

E. F. Kaneen, Lorain; cashier of the Citizens' Savings bank; with H. B. Walker, assistant cashier, and Dana S. Walker, teller of the same bank, defaulted with about $102,000; captured with the other two on the Pacific coast, headed for Peru; was a Congregational Sunday schol teacher; got seven years; came to the pen April 20, 1905, and will be released in good time in 1910.

Lewis P. Ohliger, president of Wooster National bank; with J. R. Zimmerman, now awaiting trial, Ohliger wrecked the bank with a total loss of about $130,000; got eight years; reached here May 16 last, and will get out March 25, 1911, with good time; 64 years old, married, and once financially, politically and socially prominent.

George A. Rose, Cleveland; cashier of the Produce Exchange bank, from which he embezzled about $187,000; confessed and got ten years; received Feb. 4, 1904; short time up June 3, 1910; about 40 years old.

Arthus B. Spear, Oberlin; cashier of the Citizens' National bank, the "Chadwicked" bank; assisted in loaning it's funds to the extent of $142,000 to Mrs. Chadwick on spurious securities, the money being a total loss to the bank; sentenced for seven years; admitted March 4, 1905, and with short time will get out June 2, 1910; 32 years old and married.

William E. Treese, Cleveland; embezzled $10,000 as bookkeeper of the First National bank; pleaded guilty and got six years; was received March 18, 1905; is a young man.

H. B. Walker, Lorain; cashier of Citizens' Savings bank; associated with Cashier E. F. Kaneen in defalcation of $102,000; got two and one-half years; received April 20, 1905; short time up Feb. 19, 1907.

Dana S. Walker, Lorain; teller same bank and associated with E. F. Kaneen and H. B. Walker in defalcation of $102,000; same sentence as H. B. Walker; not related.

The twelfth prisoner enrolled is from Washington, Ind., and may be thus recorded:

Richard C. Davis, got away with $70,000 as president of the First National bank of Washington; a Kentuckian by birth, and a typical Southern gentleman in manner; 42 years old, and has two sons; sentenced for five years; received May 7, 1902; short time up Sept. 6, 1905.

Most of these men used bank funds to gamble with in Chicago wheat, corn and pork, or recoupe themselves from losses in this sort of speculation. Davis, the Washington, Ind., banker, however, was a notable exception. He dropped his whole $70,000 in common, everyday "craps." As for young Spear of Oberlin, he shook dice with Mrs. Chadwick, and found them all loaded. But in nearly every instance it was on some portion of the altar of the great gahing Moloch that these bankers sacrificed their money, their character, and their liberty.

The convict bankers form an exclusive set at the Ohio penitentiary. They receive consideration and are accorded privileges that common prisoners, men who only steal a few dollars, men who are guilty of vulgar crimes, such as murder, men who are wicked enough to take unlawfully a sack of flour or a ham to feed starving children, can not hope to receive.

Their delicate fingers are not so calloused by the handling of other people's money that they can stand menial labor. Warden Gould does not regard them as "criminals," but as mere "transgressors," and he treats them accordingly. They all have light clerical work, keeping books, carrying mail, doing correspondence, transcribing records, and other similar employment that is easy and congenial, and calculated to ease the impact of their downfall.

Three especially favored men are not even compelled to experience the degradation of immurement in cells. They don't even have to sleep in cells. They have cell numbers, and those numbers are counted with the rest, morning and night, as if they occupied the cells, but it is mere fiction and formality. They sleep, in fact, on nice, soft, respectable cots in the offices.

These three favorites are Ohliger, the aged Wooster banker, who is a clerk in the hospital, and sleeps there; Hoover, the nice looking and affable young Newark banker, who is employed in the front office, where he also sleeps, and Davis, the distinguished "crap" banker from Indiana who is an assistant to Clerk Shook, and sleeps in the front office. Davis is entrusted with a good deal of penitentiary money, is allowed more privileges than any of the others, and is the only convict who wears full citizens' clothes. Neither of these three and few of the other bankers eat with the common convicts in the regular mess room. They either eat by themselves in the offices where they are employed or else eat with some of the officers or guards.

The case of Lewis O. Ohliger, who wrecked the Wooster National bank, and who, at the age of 64, was brought to the pen last month to serve eight years, is a notable one in many respects. He was at one time congressman, collector of customs at Cleveland, treasurer of Wayne county, postmaster of Wooster, and one of the leading Democrats of the state. He was regarded as one of the most public-spirited men in Wooster. His farewell to his two boys as he left home for the penitentiary, probably never to see them again outside prison walls, was pathetic in the extreme.

"My boys," he said, with sobs, as he put his arms about them, "my boys, don't think hard of your old father, but when you do think of me remember me as I was in years gone by."

Kaneen, the Lorain banker, who, with the two Walkers, lost over $100,000 of the Citizens' Savings bank's funds in speculation, and was captured after a hot chase while fleeing for Peru, had exhausted every possible means of saving himself before he took final flight for the Pacific coast. Having run the limit of the resources of his friends and acquaintances, he went in bold desperation to wealthy strangers.

Taking a train, one day, he hurried to Washington, secured a confidential audience with Senator Clark, the copper king, and made a piteous appeal for financial assistance. Failing to get it, he boarded the next train for New York, where he sought out Andrew Carnegie, and tried to win the canny Scot's confidence and sympathy. He got everything but what he really needed—money. Then he gave up all hope and fled West.

The penitentiary authorities, like vessel pilots, are scanning the state's horizon for incoming banking craft, and preparing to dock them alongside their fellow-derelicts. They already discern at least nine headed this way, though some of them may, of course, never get there. The nine are:

Barber, H. O., Cambridge; under a seven-years' sentence, but got a new trial.

Davis, W. S., Canton; to be tried for embezzlement.

Leighton, W. W., Lima; sentenced to three years, June 7,, 1905, but held on a stay of execution.

Lingafelter, father, mother and son, Newark; got ten years each, but secured a new trial.

Reynolds, Ira, Cleveland; indicted and awaiting trial.

Schilling, Solomon S., East Liverpool; arrested June 7, 1905, charged with embezzlement.

Zimmerman, J. R., Wooster; awaiting trial on the same charge that L. P. Ohliger was convicted of.

wrong died in custody, but before reaching the penitentiary, and were thus spared a convict's shame. The most prominent of these was C. R. Beckwith, the aged president of the Oberlin bank, and the victim of the wiles and cajoleries of Mrs. Chadwick, who got $102,000 of his own money as well as the $142,000 of the bank's funds that he and Spear gave her. Beckwith, at 65, died of a broken heart. John W. Wagner of Sidney, charged with embezzlement, worried himself to death at the age of 56.

No Knife Needed

Piles can be cured by internal treatment. To get at the cause—that is the secret, and that is why Dr. Perrin's Pile Specific is so universally successful in its results. It increases the flow of digestive juices in the stomach—accelerates the action of the liver. With congestion of the liver removed and constipation relieved, the two chief and distinct causes of piles are reached and conquered.

Dr. Perrin's Pile Specific

The Internal Remedy

For dyspepsia, indigestion, constipation, biliousness, catarrh of the stomach and kindred ailments it is the greatest remedy that has ever yet benefited mankind.

Certain in its results, this remedy will cure the most obstinate case of Piles.

Dr. Perrin Medical Co., Helena, Mont.

CARDIFF

Is Afflicted By Pest of Stinging Flies.

London, June 16.—Millions of flies have laid siege to Cardiff docks. By continual assaults they have taken possession of most of the principal thoroughfares, and it has been found necessary to divert the traffic to side streets.

The pier gateman and dock policemen bravely withstood the enemy's hosts for many hours. But the flies came in clouds, like a plague of locusts. In vain the heroic dock men slaughtered them in hundreds. Numbers eventually prevailed, and the dock men, throwing dignity and duty aside, fled in disorder to the watchhouses and shut themselves in.

Shopkeepers are complaining loudly, and many offices have been invaded by the pests. Clerks sit at their desks worried by the invaders without being able to defend themselves.

It is obvious from their appearance that the flies are of a foreign species. They have larger bodies than the British fly; they crawl very slowly, and sting badly. They are supposed to have been imported by any small fishing smack, but the sanitary authorities believe they came with a southerly wind on Sunday.

When you eat the food I bring
You will sing the song I sing—
"Get Rosy! Get Rosy! Get Rosy!"
I'm the Ap-i-te-zo Knight,
Spreading health and pure delight—
"Get Rosy! Get Rosy! Get Rosy!"

Many children inherit constitutions weak and feeble, others due to childhood troubles. Hollister's Rocky Mountain Tea will positively cure children and make them strong. 35 cents, Tea or Tablets. Ask your druggist.

ELOPERS WALK MANY MILES

Circumvent Parents By Avoiding Interurban Trolley Lines.

Indianapolis, June 16.—Nothing daunted by the seemingly insurmountable difficulties with which they had to contend, love at last found a way—a 17-mile midnight walk from Acton to Indianapolis—and, eluding the vigilance of police and parents, Mabel Van Brunt and Philip Hulskamp, wedded after their recent elopement, to Springfield, O., are now living in Indianapolis, happy in their proverbial cottage, despite the displeasure of his father.

The disappearance of Miss Van Brunt from the home of her girlhood friend, Mrs. Fred Scanlon, two weeks ago, accompanied by an intimation of suicide after her mother had interrupted the love affair then in progress, caused great uneasiness among her friends. Her reappearance two days later in Indianapolis and her speedy departure for her home near Acton under her mother's orders, followed.

Then came the elopment, the young couple going immediately to the home of R. C. Hensel, Mrs. Hulskamp's brother-in-law in Springfield, where Hulskamp, it is said, claimed to be a minor and an orphan and caused Hensel to be appointed his guardian, to give the necessary consent to the marriage.

Following his sweetheart's return to Acton, Hulskamp spent the next Sunday with her at that place. He left early in the evening, saying he was coming to Indianapolis. One hour after the family had returned, Miss Van Brunt, it is said, came from home a second time and met her lover in a field near by. She took with her what few clothes she could conveniently carry.

Surmising that her parents would immediately telephone to the Indianapolis police to watch the interurbans the young couple decided to walk the entire distance to this city. Leaning upon the arm of the man she loved the girl kept a brave spirit, determined to wed him at any cost.

JACOB GOT HUG

And Enjoyed It But Lost Diamond Stud.

Cleveland, Ohio, June 16.—Jacob Roseleaf, a traveling salesman, saw Mabel Farr in a restaurant and managed to be introduced to her, as she was so attractive.

They went out to Luna Park and rode in the roller coaster and down the shoot-the-shoots. The girl was so timid and put her arms around her strong escort for protection when the water splashed so high, says Roseleaf. They had such a jolly time.

Later Roseleaf left Miss Farr at her Prospect street home and went to his hotel. In the elevator he glanced in hotel. In the elevator he glanced in stud was gone.

He thought of the clinging arms about him and telephoned the police. Detectives Moore and Bernhard went to the girl's room on Prospect street and awakened her. She denied knowing anything about the stone.

The detectives say they found the stone hidden in her hair. In police court was bound over to the common pleas court on the charge of picking pockets.

ONE-TIME INMATE

Of Ohio Institution Advertised As Wild Man.

Columbus, Ohio, June 16.—Traveling overland in a wagon somewhere in the central portion of the state, is an alleged "wild" man, none other than Benny Squires, a cripple, aged 24 years, who, during the last winter, made his home with a family named Shivers, on an old canal boat along the Scioto river.

Squires was left an orphan at the age of 2 years, and was taken to the institution for the Feeble Minded, where he remained several years, obtaining a fairly good education. Though crippled in body his mind is sound and unusually alert.

He is a musician of no mean ability, and can play a variety of instruments with ease. Last summer the same people exhibited Squires at county fairs and around over the state as a wild man, and realized considerable money from the experiment.

Last winter Sarah Bowen of the United Christian Workers' church learned of his condition, and solicited sufficient money to purchase him a wheel chair. She also sought to prevent his being further exhibited as a wild man.

Learning of the latter intention, Shivers is said to have left the city with Squires in a wagon.

HYPNOTISM

Used In Cure of the Cigarette Habit.

Wilkesbarre, Pa., June 16.—William P. Butler is using hypnotism in his fight against cigarettes and intemperance. He is professor of the St. Gabriel's Total Abstinence Benevolent society of Hazleton.

"I have had great success," said he. "I have hynotized many cigarette fiends and cured them. I have had boys come to me and solicit my aid, and often parents have come also. I have found that where the subject was willing to be cured and just needed the hypnotic, that it was easy to cure him once he submitted willingly to being hypnotized.

"Later I tried hynotism upon alcoholic cases and found that is as successful as in the treatment of cigarette fiends and have had the good fortune by this means to add several recruits to the temperance cause.

"So succesful has the hypnotic treatment been that I have already trained Daniel P. Higgins, John S. McCullough and Dana Heck of this city to help me with it, and as soon as they mastered the power of hypnotizing subjects they have had the same success as I have had.'

Mr. Butler believes that hypnotism should be adopted as a regular branch of the work of organizing in the intemperance cause, that each temperance society should have a squad of reliable hypnotists and that temperance orators should practice hypnotism as an adjunct to their work.

DYING OF FAMINE

Is, in its torments, like dying of consumption. The progress of consumption, from the beginning to the very end, is a long torture, both to victim and friends. "When I had consumption in its first stage," writes Wm. Myers of Cearfoss, Md., "after trying different medicines and a good doctor, in vain, I at last took Dr. King's New Discovery, which quickly and perfectly cured me." Prompt relief and sure cure for coughs, colds, sore throat, bronchitis, etc. Positively prevents pneumonia. Guaranteed at all drug stores. Price 50c and $1.00 a bottle. Trial bottle free.

SOLITARY CONFINEMENT

For Twenty-Two Months For Iowa Prisoner.

Mount Ayr, Iowa, June 16.—Matt Hunter, after twenty-two months of solitary confinement in the Fort Madison penitentiary, has gone to work in the tailor shop. The first letter his mother has received from him in twenty-two months came this week, having been written on May 30, at which time Matt stated he had been at work for just a week. He professes to like the tailor shop work.

He says that the reason he changed his mind about work is that he was becoming so weak physically and mentally that he feared he would go insane. He asked his mother to subscribe for a Mount Ayr paper for him, so that he might keep posted on the happenings of his home town. The letter has lifted a great deal of anxiety from the minds of Hunter's mother and sister.

BACK-ACHE

and all other symptoms of kidney disease are speedily removed when the kidneys are made healthy, active and vigorous by the use of

Dr. A. W. Chase's Kidney-Liver Pills

the world's greatest kidney and liver regulator, and the only medicine having a combined action on kidneys and liver. One pill a dose; 25 cents a box. Write for free sample to The Dr. A. W. Chase Medicine Co., Buffalo, N. Y.

JAPANESE REPLY

To the President's Identic Note Is Made Public.

Next Step Will Be Appointment of Representatives.

Washington, June 16.—The following is the Japanese reply to President Roosevelt's identic note to Japan and Russia on the subject for negotiations for peace:

"The imperial government has given to the suggestions of the president of the United States, embodied in the note handed to minister of foreign affairs by the United States minister on the 9th inst., very serious consideration, to which, because of its source and its import, it is justly entitled. Desiring, in the interest of the world as well as in the interest of Japan, the re-establishment of peace with Russia on terms and conditions that will fully guarantee its stability, the imperial government will, in response to the suggestions of the president, appoint plenipotentiaries of Japan to meet the plenipotentiaries of Russia at such time and place as may be found to be mutually agreeable and convenient for the purpose of negotiating and concluding terms of peace directly and exclusively between the two belligerent powers."

REPORT FROM LINEVITCH.

St. Petersburg, June 16.—Gen. Linevitch, in a dispatch to the emperor dated June 15, reports that a Russian turning movement forced the Japanese to retire from Iulantizi, June 11, after burning their supplies. Another Russian force, June 12, advanced from the valley of Tsin river to the village of Vanloungon pushing back the Japanese advance posts. The same day the Russian cavalry occupying Nanshantzeni retired slightly northward.

INTERCOLONIAL ROAD

Will Show Heavy Deficit For Past Year.

Moncton, N. B., June 16.—Henry R. Emmerson, minister of railways and canals, announces that the annual statement of Intercolonial railroad finances, to be issued June 30, will show a deficit for the fiscal year of from $1,500,000 to $2,000,000. The deficit is attributed to severe winter storms, an increase of $75,000 in the wages of employes, and to competition of the Canadian Pacific railroad and in through traffic.

CREDIT MEN

Would Have Congress Pass the Lodge Bill.

Memphis, June 16.—At the last day's session of the national convention of credit men, a resolution was offered recommending to the Fifty-ninth congress enactment of the original Lodge bill, or a similar bill.

The committee also offered a resolution recommending that steps be taken in the various states to secure the enactment of laws designated to regulate the carrying on of business under an assumed or fictitious name.

The report of the special committee on fire insurance says that an effort has been made to encourage the carrying of insurance by merchants. That many merchants fail to do so is a matter of common knowledge. It is suggested that the national legislative committee cooperate with local committees in endeavoring to prevent so-called wild cat insurance companies from doing business in the several states and territories.

The Marshall-Wells Hardware company and Little & Nolte of Duluth and the L. Wolff Manufacturing company of Chicago have filed a petition in United States court asking that the Northern Security company of Duluth be adjudged bankrupt. These firms claim that the Northern Security company owes them the following sums: Marshall-Wells, $467.39; Wolff Manufacturing company, $603.92; and Little & Nolte, $7.20.

The port collector has received a circular from the department of commerce and labor requesting him and his deputies to prevent the overloading of passenger excursion and ferry steamers. One half the force is to be detailed each Sunday to ascertain whether the law with regard to this is observed.

Prof. Dooley's informal dance tonight. DiMarco orchestra.

Dancing at Oatka beach Saturday evening.

At a meeting of the grand lodge of the Independent Order of Good Templars held in Minneapolis yesterday, A. J. McCauley of Duluth was elected as delegate from the Minnesota lodge at the international meeting to be held at Belfast, Ireland in August.

Amendments to the articles of incorporation of the Duluth Lithographing & Printing company, showing that the name of the company has been changed to the Christie Lithographing and Printing company, were filed in the register of deeds' office this morning. The document is signed by John Christie, president, and John Christie, Jr., secretary.

The Longyear Lake Lumber company brought suit this morning in the district court against the Chisholm Light and Power company for the recovery of $304.86. It is claimed that the money is due on a horse and wagon sold for $125 last October, and the sale of slabs worth $519.95 delivered to the defendant company at different times from last November until April. The complaint states that except for $213.09 paid on the last account, the defendant company has paid nothing.

John Wickstrom of Chicago, formerly with the Chicago Caloric Gas Light company, was in the city yesterday and stated that he would open a general machine shop in Duluth, if a suitable location could be found. His intention is to repair automobiles, gas engines, etc. He is now visiting at Isle Royale, but he is expected back the first of the week.

BASE BALL

Two games tomorrow at the price of ONE ADMISSION.

Duluth vs. St. Cloud-Brainerd

Mr. and Mrs. P. R. Paine of Grand Marais are visiting in Duluth today.

Samuel Sutor of Cass Lake is here on business.

A. P. Silliman of Hibbing is here today.

TO ESTABLISH TWO YARDS

Fred W. Eva, state grain inspector, was in the city today coming up from Minneapolis. Mr. Eva said that a yard and scales for the inspection and weighing of hay will be established on the Northern Pacific tracks at Rice's Point and another on the Omaha tracks near the round house on Rice's Point, the two being about a block and a half apart.

As to the problem of getting correct car weights, Mr. Eva says the only way it can be done is to have the car weighed upon receipt there and then after unloading, have the empty sent back to the yard for weighing.

This is a cumbersome proceeding and will mean considerable expense but there is no way to do it otherwise.

The establishment of the system will necessitate the employment of about three inspectors and a half dozen weighmen by the state department.

THOSE WHO HAVE DIED

Kenosha, Wis., June 16.—Susan Atwater Gillette, widow of Judge Gordon Gillette, and an original daughter of the revolution, is dead at her home in this city, aged 95, due to old age. Mrs. Gillette was a daughter of John Atwater, an aide of General Washington, who did service as a bearer of dispatches between Washington and Lafayette. She was recently given a medal of honor by the state and national chapters.

Liverpool, June 16.—Sir John Archibald Wilcox, proprietor of the Liverpool Courier and largely interested in the tobacco trade as a manufacturer in Liverpool and London, died today. He was born in 1842.

218 WEST SUPERIOR STREET.

KILLED AT PINE STATION

Gus Christianson Is Run Over By Missabe Train.

Gus Christianson, an employe of the Duluth, Missabe & Northern road, was brought to the city this morning on a special train, suffering injuries which later proved to be fatal.

The man was working on the road at Pine station and was run over by a freight train, which passed across his body near the thighs.

The accident occurred about 9 o'clock this morning. He was brought in on the special train and taken to St. Mary's hospital, where Dr. Magie attended him. The man was almost dead when he reached the city, however, and he expired shortly after noon.

He was unmarried, and about 23 years of age.

LOW RATES GIVEN

By Railroads For Finnish Celebration at Ely.

The railroads have made very low special rates for the Finnish mid-summer anniversary celebration which is to be held at Ely June 24 and 25. It is expected that the attendance will be larger than ever before in consequence.

From Hibbing, Virginia and Eveleth the round trip rate will be $1.50; from Sparta, $1.35; from Biwabik and Aurora, $1, and from Tower and Tower Junction the round trip fare will be 50 cents.

At the celebration last year there were about 4,000 people in the parade and it is believed that this year more people than this will participate. The parade in 1904 extended for one mile and a half, and included women in the Finnish national costume.

TO MILWAUKEE CAMP.

Two Modern Woodmen Teams Will Go.

It is estimated that about two hundred people from the Head of the Lakes will be in attendance at the head camp of the Modern Woodmen of America, which will open at Milwaukee next Tuesday. There are 1,800 members in the three camps in Duluth, Old Hickory, Duluth No. 2341, and Imperial.

The Duluth and Old Hickory camps will send teams to compete in the drills, and one from Superior is also going. The Old Hickory representation will endeavor to cut some figure, for the members of that team were humiliated at St. Louis last year, because their failure to observe some new regulation lost several points to them.

Charles Shogren, chief of the Duluth camp, left this afternoon for Milwaukee to attend the clerks' meeting which begins tomorrow, and continues until Monday.

There are only two official state delegates living in St. Louis county. They are N. M. Ole of Duluth camp, and D. Graham of Hibbing, who will leave for the head camp tomorrow afternoon. These two were chosen at the state meeting which was held in St. Paul last February.

PRESIDENT APPROVES SENTENCE OF KIRKMAN.

Washington, June 16.—The president has approved the findings in two trials of Capt. W. Kirkman of the Twenty-fifth infantry, sentencing him to dismissal from the army, and confinement in the penitentiary at Fort Leavenworth for three years. Kirkman was connected with the sensational case resulting in the suicide of the wife of another army officer at Omaha.

CHOLERA CAUSES GREAT ANXIETY IN POLAND.

St. Petersburg, June 16.—The anxiety caused by the danger of an epidmeic of cholera is growing. A dispatch from Sosnovice, Poland, reports that deaths from cholera are occurring daily there, and three suspected cases are reported at Tula. The authorities of both these cities have ordered anti-cholera innoculations in the defected regions, but the warm, moist weather prevailing is favorable to the spread of the disease.

TWO KILLED IN WRECK.

Williamsport, Pa., June 16.—A wreck caused by the collision of two freight trains occurred on the Philadelphia & Erie railroad near Wilcox today. J. W. Andrews, fireman, was killed and Conductor Fiery, and Engineer Frank Holliday were badly scalded. The body of an unknown man with both arms burned off, was found in the debris.

MINNESOTA HISTORICAL SOCIETY

MICHIGAN EAGLES

Special and Regular Trains Bring Them From Copper Country.

Famous Calumet & Hecla Band Comes—Loaded With Coppers.

The famous Calumet & Hecla band, thirty strong, in company with nearly 300 Northern Michigan Eagles, are today guests of the city of Duluth, and are being entertained by local members of the order. They arrived shortly after 10 o'clock this morning, coming in on a special train which was run by the Duluth, South Shore & Atlantic road from the Michigan copper country for the accommodation of the Eagles and their friends who were headed for the big convention.

G. A. SEEMAN of Houghton, District Deputy Grand President of Michigan.

The special, which carried the band, had between 250 and 300 people on board, while the regular train, which arrived on schedule time, 9:55 a. m., brought about fifty more. Still more are expected on the trains arriving tonight and tomorrow morning, for all who wanted to come to the convention from the thriving towns in the neighboring state were unable to so adjust their business as to be on hand the first day.

Tomorrow is pay day through the copper country, and about $900,000 will be put in circulation. This being the case, it means that a great many who would otherwise have come to Duluth today and tomorrow will be unable to get away at this time, for their presence will be necessary at their respective places of business for the next two or three days. It is said that if the date of the convention had been set a little later fully 600 excursionists would have been on board the special this morning.

The train was met at the depot by 100 or more local Eagles, accompanied by Flaaten's Third Regiment band, which played at its best as the visitors stepped from the train. A procession of local and visiting musicians, with prominent Eagles, was formed on Fifth avenue west, and, led by the Third Regiment band, the line of march was taken up to Eagles' headquarters, on Superior street, opposite the Spalding hotel. The Calumet & Hecla organization brought up the rear, the members contenting themselves with keeping step with the music of Prof. Flaaten's men and making no attempt to enter into competition with them for the favor of the large crowds which thronged the sidewalks. Ranks were broken at headquarters. The band members were soon seated about tables in the pearest restaurant, while most of the Eagles started at once for the hall, where the business session was being held.

JOHN T. DUNN of Calumet, President of Calumet Aerie.

THE FAMOUS CALUMET & HECLA BAND, Winner of Many Grand Prizes in Contests—Won the $1,000 Cash Prize at the Elks' Convention in Milwaukee in 1901.

WILLIAM F. MILLER, Trustee of Houghton Aerie and President of the Village of Houghton.

Prominent among the visitors are Prof. William F. Robinson, leader of the band and for several seasons director of the Kilties' band of Canada; Joseph McGann, worthy chaplain of the Houghton aerie; W. C. O'Leary, worthy secretary of the Hancock aerie, A. J. Gale, chairman of the arrangement committee of the Lake Linden aerie; G. A. Seeman, district deputy grand president and member of the Houghton aerie; John T. Dunn, worthy president of the Calumet aerie, and Dr. J. L. McGibson, a well known Eagle and the crack hockey player of the Wolverine state, whose name is known in sporting circles from one end of the continent to the other. He is called the father of the popular sport in Michigan. Other officials of the order will probably arrive tonight and tomorrow morning. Among the latter will be W. F. Miller, worthy treasurer of the Houghton aerie and mayor of Houghton. He will be in the city this evening. The special train, which consists of five day coaches, a baggage car and a sleeper, will start on the return trip Sunday evening at 6:20 o'clock, but many of the visiting Eagles from the copper country will remain a day or two longer.

Both the local and the Micigan members of the order feel highly elated at having been able to obtain the services of the Calumet & Hecla band for the convention. The organization is in great demand through Michigan, and for today alone four orchestra engagements had to be broken because of the Duluth trip. While at home the band is usually divided up into from three to five orchestras, which play at different social and public affairs through the Northern Michigan towns. Their time is pretty well occupied in this manner, and they asked a fancy price to come to Duluth on this occasion. The Eagles, however, felt that the best must be had at any price, so showed little hesitancy in agreeing upon terms with the management. Duluthians will have several opportunities of hearing the band today, Saturday and Sunday, for it will remain in Duluth until the convention is ended.

The organization has a record which is seldom equalled. At five state and national conventions of different orders it has taken first prizes during its career, in sharp competition with bands from all over the country. The greatest triumph in this line was at Milwaukee in 1901, when, at the national convention of Elks, the first prize of $1,000 in cash was awarded the Michigan aggregation. Other such victories were at Marquette in 1886, at Ishpeming in 1889, at Fort William in 1900, at Iron Mountain, Mich., in 1893, and at Boston in 1895. While no prizes were awarded at Boston, the Calumet & Hecla band received more favorable mention than any other musical organization on the field. The occasion was a national convention of the Knight Templars and there were 136 bands in attendance. The Calumet & Heclas were dressed in the uniforms of miners, so they were all the more noticeable among the Easterners.

PROF. W. F. ROBINSON, Director of the Calumet & Hecla Band, and for Two Years Director of the Famous Kilties.

Prof. Robinson has been connected with the band only since the first day of last April, when he arrived from England, where he was making a tour with the Kilties band, to assume the leadership of the Michigan players. Prof. Robinson is a muician of note, and is not unknown to Duluthians, for he twice appeared at the Lyceum theater at the head of the Kilties organization, and on both ocasions made a very favorable impression. During the period he was connected with the Kilties he traveled extensively, showing in the principal cities of many nations, and everywhere was enthusiastically received. The Calumet & Hecla band, while a top notcher before he became connected with it, is said to be even better now than it ever was before, owing to the efforts of Prof. Robinson. It will appear at its best while in the city. New uniforms, worn for the first time on Memorial day, are being worn in Duluth. They are of a pleasing grayish tan color, and the caps are well suited to the occasion, for the front of each one bears the emblem of an eagle in flight. It is said the caps were ordered especially for the present convention.

"We come to Duluth determined to have a good time," said G. A. Seeman of Houghton this morning. "The weather does not look promising, but that doesn't worry us as much as it might. I might say in passing, however, that the copper country can greatly improve on the article here displayed. We would have brought 300 or 400 more people along with us but for the fact that pay day is tomorrow in the copper country. This fact means that a lot of the fellows are unable to get away from their work just now, whereas, if the convention had been held later on, they would have been more free to lay off for a time. As it is a good many of us had a hard time getting off, and some will not be along until tonight and tomorrow."

The Michigan contingent brought along two kegs of new pennies with which to pay their bills while in the city. They also have a souvenir booklet, which was published especially for the occasion. The booklet tells something of the order in Michigan and gives photographic reproductions of prominent Michigan Eagles.

DR. J. L. McD. GIBSON, Former Treasurer of Houghton Aerie, and Noted Hockey Player.

A. HENDRICKSEN, Treasurer of Houghton Aerie.

BRYAN GOING ABROAD

To Study Municipal Ownership and Railway Problems.

Omaha, Neb., June 16.—William Jennings Bryan will sail for Europe early in the autumn, with the expectation of staying abroad a year, and in his absence his weekly journal, the Commoner, will be edited by Richard L. Metcalf. Mr. Metcalf recently resigned the editorship of the Omaha World-Herald to become associate editor of the Commoner.

The primary object of Mr. Bryan's trip abroad is to study municipal ownership and railway problems there. He purposes to look searchingly into these and kindred questions during his absence and to give the fruits of his investigation to the public in weekly letters to the Commoner. Municipal ownership of street railways and of other public utilities and government ownership of railways and telegraph and telephone lines are likely, as Mr. Bryan believes, to be important issues in the next presidential campaign, and he expects to gather such first-hand information about them as will enable him to shed much light on the numerous questions they involve, and to discuss them intelligently and persuasively if they should come to the front as leading political issues three years hence.

Mr. Bryan is now entering on what he and his friends believe to be the most important period of his political career. If political affairs shape themselves as he expects them to, he will be a candidate for the nomination of his party for the presidency in 1908. He not only expects to be a candidate for the nomination, but he expects to win the nomination.

KILLED WIFE AND HIMSELF.

St. Paul, Ind., June 16.—William Boardman, a quarryman, aged 45 years, early today killed his wife with a revolver as she lay in bed with a baby in her arms and then fatally shot himself. The cause is attributed to jealousy though Mrs. Boardman is held blameless.

REPORT NOT SUBMITTED.

Hendricks Declines to Say When it Will Be.

New York, June 16.—Superintendent Hendricks of the state insurance department said today that he had not yet submitted his report in the Equitable matter to Governor Higgins. He declined to say when he would do so.

Chairman Morton, who was early at the Equitable offices today, said today's meeting would be purely routine. He said he did not expect to meet the Equitable trustees today.

One or more of President Alexander's legal advisers were at the Morton Trust company offices today, presumably in consultation with Thomas F. Ryan and his lawyers.

CHICAGO WANTS

Peace Negotiations Held in That City.

Chicago, June 16.—A movement to have the peace negotiations between Russia and Japan take place in Chicago should a change from Washington be desired, was inaugurated today. The Illinois Manufacturers' association, which represents $1,000,000,000 of invested capital and employs 500,000 men, took the initiative by asking the governor of Illinois and the mayor of Chicago to join in extending an invitation through President Roosevelt to the peace commission.

TEAM OWNERS END MEETING.

Chicago, June 16.—A banquet attended by 250 guests has ended the fourth annual session of the Team Owners of America. H. C. Knight of Boston, the incoming president, and J. F. McCarthy, the retiring president, spoke. In a contest between New York and Boston for the next convention New York won.

SUMMER SHOES and OXFORDS

For all—Young and Old—at Popular Prices.

Men's $1.50 to $6.00

Ladies' 98c to $5.00

Last Call on Women's and Misses' Coats at Half Price!

THREE lots of coats go into the clearance tomorrow at exactly half price. These values surpass anything that has been offered this season in Duluth and if you propose to have a new coat, this is the time for buying.

½ Price
Ladies' and Misses' Coats.

About two dozen coats in the lot, including blacks, tans and mixtures; fitted and lose, long and short coats—mostly short fitted coats. This is the last time they will be advertised—the price should close the entire lot in one day.

½ Price
for Children's Coats.

Mothers' will welcome a chance like this to escape the tyranny of the sewing machine—and save money by doing so. Children's coats of wool, taffeta silk, pongee and Sicilian at reductions all the way from a third to a half.

½ Price
for Women's Silk Coats.

Made of splendid black silk or pongee silk, with fitted or loose backs—medium length; mostly small sizes; no two alike. Selling at half the reduced price. This is less than the making would cost—it's like giving you the materials outright.

Tailored Suits at Half and Less.

We are determined to close out every one of our spring styles—not last year's, but this season's—and in many instances, where but a single suit is left of a certain style, we have made the price less than one half. Expect what you may, these values will be a revelation to you.

Out-of-town Visitors and In-town Visitors.

There is an attraction for both here. No other store offers such remarkable values—none is so evenly good all through. It has back of it splendid service and only dependable goods. Make it your store while in Duluth.

Souvenirs.

Souvenir Postal Cards—representative buildings and views of Duluth, beautifully lithographed, in colors—3 for 5 cents.

Souvenir Spoons in sterling silver, gold plated and silver bowls, with designs of the High School, Steamer North West and the Aerial bridge, at 25c, 65c, 98c, $1.25 and $1.75.

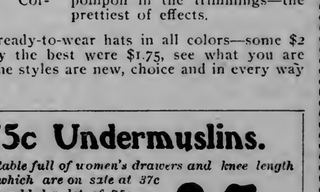
Souvenir Trays of Aluminum with design of Aerial bridge—10c.

Souvenir Postals in wood and burnt leather.

From 9 to 11 a. m.

75c

for Women's $1.25, $1.50 and $2 House and Street Oxfords.



Those on sale last Saturday were snapped up so quickly that we made a strenuous effort to provide another lot for tomorrow. Fortunately we were able to secure just enough for another two-hour sale. There are ten different styles of house and street oxfords, embracing straight lace, Blucher cuts and elastic fronts with mat kid and patent leather trimmings. Sizes from 3 to 8, all medium and wide widths and all new shapes with very stylish fittings. Those who are here from 9 to 11 a. m. reap the benefit. No telephone orders filled.

Important Shoe Values All Day Saturday.

Misses' Slippers—Two strap styles with patent leather vamps—choose from these $1.00 qualities, Saturday for. **65c**

Women's $2.50 Oxfords, turned and welted solid oxfords — all the new and up-to-date lasts—special price—per pair..... **$1.98**

Infants' $1.00 Shoes, pretty white canvas uppers, with turned soles—stylish and durable—all sizes..... **75c**

Misses' Shoes of tan and black kid with heavy or light soles—an exceptional value—at..... **$1.50**

Dress Goods Underpriced

WOMEN who need a good quality of mohair or etamine for a summer suit will hardly believe that it is possible to buy these much-wanted goods for a quarter less than other stores are selling them today.

EMBROIDERED MOHAIRS—Colored and white polka dots, embroidered in silk on a fine quality of mohair, suitable for waists, suits or misses' dresses. Colors are red, reseda, navy, tan and cream. One of the season's prettiest novelties. Our regular price $1.00 — Saturday's special price—per yard..... **75c**

50-INCH ETAMINE—Three of the best colors shown this season—brown, blue and myrtle green. The cloth is of light weight, nicely finished and will make very practical suits or skirts, because it's always bright and fresh looking. Many stores get $1.25 a yard—our price $1.00—Saturday per yard..... **75c**

7½c
for 10c Dress Percales.

Honest stuff—in the cotton, the wearing and the colors, 32 inches wide. House dresses and frocks cost practically nothing with an excellent quality of percale at 7½c.

50c
for Women's 75c Pants.

Swiss ribbed white lisle, closed, knee length, with French band, Saturday at the underwear section.

Sweeping Reductions in Ladies' Hats.

THREE special lots of hats must go tomorrow, regardless of price. All are desirable summer styles, which the maker has fashioned with more care and with better materials than would be bestowed on any hats which we might pick up in a job lot. Hats for people who care what they wear.

$2.50 for hats up to $5.00.

Three dozen prettily trimmed hats—mostly light colors—with a few reds, greens and pinks. Large and small shapes, flares, Continentals and a few Cordays.

$3.50 for hats up to $6.50.

Another lot of colored hats—blues, browns, castors and greens. Flowers, ribbons, lace, ornaments and an occasional pompon in the trimmings—the prettiest of effects.

98c for children's ready-to-wear hats in all colors—some $2 values—but say the best were $1.75, see what you are getting when the styles are new, choice and in every way choosable.

$1.25 Waist Patterns.

Ever since we had our former sale women have been asking when we would place more of those exquisite embroidered waist patterns on sale at 69c. Here's the opportunity. Each pattern consists of a beautifully embroidered front with embroidered cuffs to match and plenty of sheer Persian lawn for any kind of waist.

69c

75c Undermuslins.

To the table full of women's drawers and knee length skirts which are on sale at 37c we have added a lot of 75c corset covers for Saturday. Evidently women are not yet tired of telling their friends about the wonderful muslin underwear values we are offering. It is the best advertising this store has. Tomorrow at 37c.

37c

ORIGINAL PLANS

Of "Elijah" Dowie For His New Colony In Mexico.

Two Million Acres to Be Fenced In By Zionists.

El Paso, Tex., June 16.—No hogs, no mules, no oysters, no sin, no whisky—but more or less of everything else.

Teresely stated, the foregoing is the motto that is to govern John Alexander Dowie's immense colonization scheme in the State of Tamaulipas, Mexico.

The hog, says Dowie, is the scavenger of the land, as the oyster is the scavenger of the sea. The mule, he declares, is a creature of the devil, an evil nonenity—in fact, something like a man without a country. And as for liquor that cheers and simultaneously inebriates, Prophet Dowie says most positively that it is bad for any country.

Therefore, hogs, mules, oysters, whisky and sin are barred from the sacred precincts of Dowie's Mexican monarchy.

The vastness of Dowie's colonization enterprise is wonderful. Column after column has been printed about it in the newspapers of the United States and Mexico, yet comparatively few people fully understand the magnitude of the undertaking. If Dowie succeeds in bringing his plans to realization, as it now appears that he will, he will have accomplished a task sufficiently gigantic to entitle him to rank as one of the greatest captains of industry this country has ever produced. This queer old man seems to have literally hypnotized the Mexican government into granting him concessions more valuable than any other individual has ever acquired. He enjoys close personal relations with President Diaz and from one end of Mexico to the other Dowie is looked upon as a remarkably great man.

Briefly summarized, Dowie's plans include the building of seven cities, the construction of a network of railroads, the irrigation of a vast tract by a most peculiar method and the general development of 2,000,000 acres of land. The chief city will be called Eden, and it is to be built first. No attempt will be made to start the other cities until after Eden is fully established. Various experiments in city building will be tried during the early days of Eden and when comparative perfection has been reached Eden will be taken as a model from which to pattern the other six proposed cities.

So far as possible without conflicting with the Mexican government Dowie will set up a code of laws of his own for the regulation of his colony. The old man seems to realize that Mexico is not Illinois and that he will therefore have to make some deviation from the general plan of his Zion City in the United States, yet after all it is expected that the hand of Dowie will rule in all essential points.

Dowie has retained an eminent firm of American lawyers located in the City of Mexico to look after his interests. He himself is the legislature, self-constituted, of course, while the attorneys will do the routine work of shaping the laws into their proper form.

The state of Tamaulipas, in which is located the 2,000,000-acre concession granted to Dowie, is on the gulf coast of Mexico, well toward the south end of the republic. Immense oyster beds fringe the shores and there is every natural facility for the manufacture of tequila and other Mexican intoxicants, but as oysters and whisky are on the tabooed list, no attention will be paid to these resources.

Although the whole tract will be fenced, there will not be any division between the cities and free exchange of products is contemplated. This, Dowie believes, will carry through the commonwealth an altruistic idea with which he is imbued in the founding of his cities. As is generally known, the ostensible purposes of Dowie is to make homes in Mexico for those of his people who dislike the cold of the North, but behind this philanthropic motive there appears the fact that out of this scheme Dowie is in line to add materially to his already vast riches.

Whether the seven cities will be peopled indiscriminately without regard to the nationality of colonists is as yet unknown. But it is expected that Dowie will place the different nationalities in different cities and thus maintain peace and concord among his religious families.

Whether the Mexican government will make an exception in the case of Dowie and permit him to build as many railroads as he chooses in his own peculiar way remains to be seen. Mexico has some queer laws relating to railroads, and as Dowie's proposed lines will necessarily extend beyond the limits of his land grant, he may, despite his influence with the powers, find some intricate problems to solve in the way of securing franchises.

One of the most important improvements contemplated by the prophet is the irrigation of barren tracts by tunneling into four extinct volcanoes. These volcanoes are filled with water many hundred feet deep and the old man believes that by tunneling into the sides and by using a system of flumes he will not only solve the irrigation problem, but also develop valuable water power for machinery. This is one of the most cherished ideas of Dowie.

With ample water facilities crops can be grown in profusion, especially such as garden truck, which commands a fancy price in the North before the season opens there. Tropical fruits are also possible and Dowie says that in this one particular alone the colonists may reach financial independence.

Prominently identified with Dowie in his work in Mexico is his son, J. Gladstone Dowie, who is now making a tour of the republic. The region selected by Dowie, despite its close proximity to the gulf coast is healthful and all indications point to the building up of a remarkably rich monarchy—so rich, in fact, that John D. Rockefeller will probably be sorry that he did not beat Dowie to it.

NO SECRET ABOUT IT.

It is no secret that for Cuts, Burns, Ulcers, Fever Sores, Sore Eyes, Boils, etc., nothing is so effective as Bucklen's Arnica Salve. "It didn't take long to cure a bad sore I had, and it is all O. K. for sore eyes," writes D. L. Gregory of Hope, Texas. 25c at all drug stores.

DESTITUTE GIRLS TRAMP

From Arkansas to Kansas City Without Meeting Mishap.

Kansas City, Mo., June 16.—After enduring three years of bondage on a farm in Arkansas, where they were compelled to plow and hoe corn and do other work of ordinary farmhands, Jane and Emma Miller, aged 18 and 15, respectively, have arrived in Kansas City. They had walked from Olena, Ark., a distance of 350 miles.

The young women applied to the police and were given shelter with the Helping Hand Institute. The Free Employment department of the Institute will see that they are given suitable employment.

According to the story told by the young women they went to Olena, Ark., three years ago with their parents. Previous to that time they had lived in Johnson county, Iowa. A month after the family moved to Arkansas the father died and the girls' mother soon followed him. The two orphans were then thrown on their own resources. They entered the employ of a farmer and they say they were worked like ordinary farmhands, performing the hardest labor to be found on the place. Finally, having decided that nothing could be worse than another summer of drudgery, they resolved to come to Kansas City and look for work.

They had not enough money to pay their railroad fare. They took a train at Olena and traveled a few miles by rail until they were safely out of reach of their master. Then they began the long journey on foot.

"No, we were not afraid," said the elder of the two last night. "We always stopped at some farm house before dark came on, and we walked as fast as we could during the day. We were treated well; most of the folks we stopped over night with refused to take any money for our lodging. People between here and Arkansas are very kind.

When they arrived in Kansas City they had very little money left, not more than a few pennies. Neither looks the worse for her long trip on foot. Their shoes were worn almost from their feet, but they are in the best of health and say the walking was light work compared with the drudgery they have been accustomed to. Both faces are as brown as berries and their clothing shows the wear and tear of the road.

Captain Weber has interested himself in the girls and will look after them until they are able to go to work somewhere. They have no relatives living.

A Beautiful Woman

Cannot remain beautiful and drink

Coffee

In most cases it tends to congest the liver. Then comes nervousness, sallow skin, stomach troubles and a variety of aches and ails directly caused by COFFEE. This is true in man as well as woman.

IMPORTANT BEARING

Of Recent Sea Battle on Navies of Great Powers.

Japan In Sight of Second Place In Naval Strength.

FROM THE HERALD WASHINGTON BUREAU.

Washington, June 16.—(Special to The Herald.)—The great naval battle on the Sea of Japan has changed the relative standing of two great nations at least and indirectly is expected to have important bearing up the navies of Great Britain, France and the United States.

President's Roosevelt's ambition for an extensive naval construction program is well known. It may, however, have to be modified in view of the growing treasury deficit which the people are beginning to discuss seriously, many suggestions already having been received by Secretary Shaw to aid him in his annual report to congress. No matter how large the deficit grows, and many officials believe it will reach twenty-five millions on June 30, there can be no change in the naval policy for 1906. Already a number of new ships are under contract, the keels of which will be laid shortly after July 1. So far as 1906 is concerned the navy knows just exactly what to expect, but the appropriations for 1907 will be in the light of the president's determination to cut down appropriations is problematical.

A computation of the naval force of Japan, in the light of her recent captures and a comparison with the fleets of other nations suggests that Japan is well in sight of second place. She had five battleships before Togo met Rojestvensky. On the Japan sea now she has seven, having captured the Nicholai I. and the Orel.

In addition she is expected to raise and repair the three battleships and one or two large cruisers sunk at Port Arthur, which reports say is wholly feasible and she has besides two immense battleships building in England. These, together with cruisers, torpedo boat destroyers and submarine boats in considerable numbers give Nippon a commanding position on the sea. Add to all this the fact that Japan will be given a big indemnity by Russia with which to carry out her ambitions, when peace is finally declared, and it will be readily seen that an overhauling of naval programs may be deemed advisable in many quarters. Representatives of the big ship yards in this country who have been in Washington recently state that the inquiries as to facilities for speedy construction of men-of-war indicates a sudden determination on the part of European countries to meet this young giant of the East on equal terms.

• • •

Washington within the last week has lost two of its foremost veteran newspaper men. While mourning friends were bearing to a soldier's rest in Arlington cemetery all that was of the brave, gentle, lovable and loving Henry Van Ness Boynton, death, long reluctant, it seemed, after many months of warning, struck another shining mark when Beriah Wilkins passed from the scenes among which he had been a respected and notable figure.

In the death of Beriah Wilkins, Washington has lost one of the ablest managers of a newspaper the national capital has had in a quarter of a century. He was called the editor and publisher of the Washington Post. He was indeed its owner and director, but he seldom wrote for it a single line. Yet he controlled its policy, gave to its well being so much of his own fairness, prudence and good sense, interesting himself with rarest discrimination in the choice of competent men to write for it, that he might well enough have been called editor. He edited newspaper-men material, and he did it so well that the Washington Post secured and maintained to the last of his regime a reputation as one of the best and brightest newspapers in America. Although in a circle of the easy reaching of the greatest morning newspapers of the East, the Post has, under Beriah Wilkins and his chosen staff, established a place in the needs and affections of the people of the national capital which no combination of outside journals, however, rich and enterprising could take. Its editorial page, in its longer articles beamed with illumination of every subject handled, while its paragraphic touches were flashes of light that gave the newspaper a reputation unique and ever attractive to all who had been accustomed to its perusal. The other departments of the paper were kept well held up to an excellent standard of merit. Washington's press has lost much in the translating personality of Beriah Wilkins, but what he has done for it abides and pulsates in the Post with the virile life of his good example and the kindly wisdom of his counsel.

Washington people who enjoy knowledge of Speaker Joseph G. Cannon have been deeply diverted by a story that has come from Portland, Or., reflecting upon his savoir vivre, good breeding, refined manners and decency generally, all simply because "Uncle Joe" got hot in the collar at a meeting at the exposition out there, and used water from a pitcher of iced water to cool his fevered brow. They say that just as the venerable speaker of the national house of representatives was about to address the assemblage, in full view of the host and hostesses, he "flung" his hat upon the table, poured some water into his hand and vigorously scoured his head. When he sat down, Mrs. Goode, wife of the president of the exposition, went into expostulatory convulsions, but restrained herself with restrained pantings. Presently "Uncle Joe" grew warm again. His long fingers dove after a chunk of ice he saw in the bottom of the glass. Securing the ice, he massaged his head and neck with the chunk until it melted and sent cooling streams down his backbone. Mrs. Goode called for help. Thomas Roosevelt Hardy, a secretary or something to the exposition chief, boldly, if we may believe it, went to Speaker Cannon and informed him that ice water was for drinking and not for bathing purposes. "Uncle Joe" is described as having gasped. He arose and led the young man forth, and they say that the language heard melted all the rest of the ice in Portland. It was with the utmost difficulty, it is asserted, that Speaker Cannon could be induced to make the address for which he was down on the program. But "Uncle Joe" got cooled off several times, anyhow.

The preference in the appointments to the regular army, it is well known, has for several years been given to schools which furnish military training and teaching. The policy has worked well enough until recently. The general army staff is just now finding it not so easy as they wish to reach a decision respecting the six leading military colleges which are regarded by the authorities as worthy in every way and which are conducted according to requirements and regulations of the military departments.

This year the inspections have been made by offenders designated by the division commanders, and it appears that no general rule of observation has been followed. Some additional information will have to be forthcoming in several of the colleges est injustice be done in the final decision as to the relative merit. Consequently there has been some talk of abolishing the custom of comparing the colleges. It is complained that it serves only to advertise the institutions named, leading to all kinds of pretests and appeals from those which show they feel they have been slighted or subjected to the prejudice of inspecting officers. Of course the advantage to the school named in a departmental endorsement is that it may quote the recognition in its advertisements.

When Secretary Root adopted the idea it was with the assurance that the star graduates of the military schools should be regarded as eligible candidates for examination to commissions in the regular army. Now that there is no early prospect for places to be filled from civil life, there is no reason left for naming the schools, say the army officers who have had to do with the embarrassing problem of comparing the institutions.

THEY ELOPED DECADE AGO

But Were Caught and Were Married This Year.

Cripple Creek, Col., June 16.—Sixteen years ago a handsome young man and a beautiful young girl eloped from their home in Chicago to Lafayette, Ind., and were just about to become one for life when paternal authority prevented.

It was a sad scene as they went back, dejected, but secretly vowing to love and wait.

Little did they believe that sixteen years would elapse before they succeeded in their purpose, but Cupid, once determined, laughs at locksmiths and time. Twenty minutes, after their first meeting in sixteen years they were being married.

On March 4 last, R. E. Murphy, the well known Third street business man of Cripple Creek, and Miss Belle Butterfield were married at Aurora, Ill. Even then the matter was kept quiet, but Mr. Murphy let the story out when he announced the coming of his bride, who has remained in Chicago since his return to his duties here that she might complete her term as principal of one of the largest public schools in the city by the lake.

When Mr. Murphy went to Chicago in February it was purely on business and he had no idea of ever seeing the girl again. Their last correspondence had died away seven years before when he told her that in justice to herself she should abandon hope of their union. At that time he was struggling for a mere existence in Cripple Creek.

On the day of their marriage he was in the Boston oyster house at lunch when who should knock elbows with him but Miss Butterfield now a woman even more beautiful than when a girl with her dresses to her shoetops.

They recovered from the shock of the surprise and Miss Butterfield invited Mr. Murphy to call that evening and meet her future husband a prominent physician.

This brought matters to a climax. The conversation grew more serious. Old times, the runaway, their letters seven years before—all these things fanned into a flame the old sentiments and the result was that Mr. Murphy met Miss Butterfield twenty minutes later at the Saratoga hotel.

As it happened it was Saturday afternoon and no marriage license could be procured in Chicago, so they went to Aurora.

That night Mr. Murphy communicated with the physician, who expressed pleasure at meeting him, even though it was over the phone. As an old friend of his future wife the doctor took an interest in the Cripple Creek man. But the latter suddenly informed him that Miss Butterfield had become Mrs. Murphy that afternoon.

"The devil!" exclaimed the doctor.

After a pause he asked Murphy to call up in twenty minutes. At the appointed time he asked the bride. In talking with her the doctor displayed a philosophical turn of mind, agreeing to return and receive old presents and say nothing.

The doctor writes regularly to Mr. Murphy now, each letter bearing profuse congratulations.

TROUBLE WITH A RAILROAD

Mrs. William Thaw Opposed to Pennsylvania Getting Land.

Pittsburg, Pa., June 16.—Fearful of soon having such an unsociable neighbor as the Pennsylvania Railroad, Mrs. William Thaw, whom the Countess of Yarmouth and Harry Kendall Thaw call "mamma," is eager to sell part of her Pittsburg estate, Lyndhurst, to persons she may be sure will not transfer the property to that corporation.

Mrs. Thaw's days are poisoned and her nights disturbed by the haunting dread that a pall of soft coal smoke will hang over her home, that vagrant cinders will affect the eyesight of her English coachman and Italian motor driver, that the nerves of her Scotch butler, Swiss footmen and French chef will be set a-jangle by the screech of car wheels, that the rumbling of freight trains will disturb the meditations of her German secretary —that, in short, the whole polyglot household will be sidetracked from the even tenor of its way by the propinquity of the Pennsylvania.

"I don't want the Pennsylvania Railroad to acquire any part of Lyndhurst," said Mrs. Thaw. "I wish to retain five acres of land and my home, but if I sell the unused land I want to know who my neighbors are to be."

Mrs. Thaw owned twenty-six acres until recently, when she sold five of them. She satisfied herself thoroughly the purchaser of those five acres was not acting for the railroad, but she learned others among the many bidders for the remainder she was disposed to sell had affiliations with officers of the Pennsylvania, and that made her suspicious. One of her lawyers informed her causually there was danger the company might obtain possession of the estate by condemnation proceedings, thus acquiring a right of way through the heart of the property and taking its engines practically under Mrs. Thaw's windows. That increased her anxiety. She fretted over the idea that the portals through which Alice Thaw swept in her bridal train to become a British peeress, through which Harry Thaw took his chorus girl bride, known to the footlights and art studios as Evelyn Florence Nesbit, might be smoked by the passing of railroad trains carrying vulgar freight or still more vulgar passengers.

The matron was slightly reassured when the attorney suggested it was probable the Thaw holding of Pennsylvania stock might influence the directors the Thaw votes helped to elect against attempts to have Lyndhurst condemned. But he could not dispel her fear that the railroad might acquire the estate through third parties, so she is eager to sell all save the house and its immediate five acres, and still more eager to assure herself the buyers will not pass the property on to the Pennsylvania.

HUGE TASK.

It was a huge task to undertake the cure of such a bad case of kidney disease, as that of C. F. Collier of Cherokee, Ia., but Electric Bitters did it. He writes: "My kidneys were so far gone, I could not sit on a chair without a cushion; and suffered from dreadful backache, headache and depression. In Electric Bitters, however, I found a cure, and by them was restored to perfect health. I recommend this great tonic medicine to all with weak kidneys, liver or stomach." Guaranteed by all druggists. Price 50c.

ATTACK MADE ON MORMONS

Church to Prosecute Community Which Whitecapped Missionaries.

Chattanooga, Tenn., June 16.—Elder Ben E. Rich, in charge of the Southern States Mission of the Mormon church, with headquarters in this city, states that his church has instituted legal proceedings against about fifty residents of Greene county, on account of the maltreatment of two of its missionaries in that country recently.

Two of the missionaries of the Mormon church had been holding protracted meetings at a small schoolhouse in a struggling village in Greene county. They had been having remarkable success in their conversions and were congratulating themselves heartily as a result.

However, on a Sunday night, when they reached the place of worship, they found a notice on the door warning them not to hold the proposed meeting that evening, also advising them to leave the neighborhood as soon as possible; that it would not be healthful or congenial to them if they were found there twenty-four hours later.

However, nothing daunted, the Mormons proceeded to hold the meeting in question, which was attended by an immense crowd. After the close of the meeting the two Mormons were attacked by a mob of over fifty men with sticks, rocks and other things and were beaten, stoned and finally thrown bodily into a running creek.

The two preachers proceeded to leave the country as rapidly as possible. However, a few days afterward they learnd that one of their converts was very ill and had sent for them to come and minister to her. They returned to the scene of their unhappy former experience, saw the member in question, and were again set upon by a larger mob than before.

One of the two brethren was seriously injured on this occasion by being struck with a stone. The affair was reported to the headquarters in this city, and the workers here have taken the matter up with the Federal authorities, having warrants issued for the arrest of about fifty men living in Greene county.

The case will come up for trial shortly and will be prosecuted by counsel composed of Mormon talent exclusively.

RAILWAY RATE-MAKING

Too Complicated a Matter For Most Men.

Chicago, Ill., June 16.—Arthur B. Leach, a member of the firm of Farson, Leach & Co., one of the prominent financial firms of Chicago, in discussing the platform adopted by the Ohio State Republicans at their recent convention, said in connection with the stand taken upon the government regulation of rates:

"Railway rate-making is too complicated a matter for most men to know much about. They talk of rebates and rate-fixing, but it is only a phrasing of general notions. The pros and cons of the vital points are too technical for general knowledge.

"But two things impress me as facts. First, I think that, whatever action is taken, the government will give the railroads a 'square deal,' and, second, I know that our railroad rates are the lowest of any in the world and the roads are entitled to fair treatment. With that combination I am sure the problem will work out right."

MARRIED FIRST WIFE

After He Was Divorced From His Second.

Paducah, Ky., June 16.—Married a decade or more ago, lived with his wife several years, divorced and married to another woman a year later, lived with her two years, divorced one morning and remarried to first wife the evening of the same day, is the experience of Joseph H. Hobson, a well-known traveling salesman of Paducah.

The third marriage of Mr. Hobson took place at 8:30 p. m. when he was united in matrimony to his first wife, Mrs. Leata Hobson, at the home of her sister, Mrs. E. S. Shinkle, the Rev. J. S. Creek, pastor of the First Baptist church, officiating.

Mr. and Mrs. Hobson are contemplating moving to California or some place in the West next week.

A decade ago Joseph Hobson was married to Miss Leata McIntyre, a pretty young woman of Paducah, the couple living together for years, several children being born to them.

A separation and divorce followed and soon afterwards Mr. Hobson was married to Miss Minnie Roberts.

The divorce proceedings which have been pending for several months were closed by Judge Reed granting a divorce to Mrs. Minnie Roberts Hobson, restoring her maiden name, Minnie Roberts, but refusing alimony.

AN AWFUL SKIN HUMOR

Covered Head, Neck, and Shoulders. Suffered Agony for Twenty-Five Years

UNTIL CURED BY CUTICURA

"For twenty-five years I suffered agony from a terrible humor, completely covering my head, neck, and shoulders, discharging matter of such offensiveness to sight and smell, that I became an object of dread. I consulted the most able doctors far and near, to no avail. Then I got Cuticura, and in a surprisingly short time I was completely cured. For this I thank Cuticura, and advise all those suffering from skin humors to get it and end their misery at once. S. P. Keyes, 149 Congress Street, Boston, Mass."

A Farm for $10 Down
and $4.00 a Month!

This will give you 40 acres of good fertile land in the big red clover district of Bayfield, Wis., as many acres as you like on the same basis for each 40-acre tract at $5 an acre.

Fine Investment for Young Men and Women

Think of the thousands of young people paying over money to the great life insurance companies every month with the expectation that at the end of twenty years or more they may only get their money back and a very small interest. Then think of the development of the United States in the past twenty years, and look on a map at the location of Northern Minnesota and Wisconsin as related to the head of inland navigation and the expanding markets of growing nearby cities. Will any reasonable man say that the land in this region will not be worth from three to ten times its present price within twenty years? Reason it out for yourself.

Worth $200 to $300 an Acre.

J. Sterling Morton, ex-Secretary of Agriculture, recently asserted that all well-located land in the United States would be worth that price within 50 years.

"I believe," he added, "that money invested in farms is the best possible investment one can make; even if purchased at what some may term 'boom prices,' one will soon see his investment doubled."

We Will Build You a Comfortable House

On any sized tract that you want, from forty acres up, upon payment of only one-quarter of the value of the land in cash, and spread the balance over several years. For a man who wants to get on a farm at small initial cost, this is a remarkable opportunity. All this land is surprisingly fertile, and it will pay you to investigate its possibilities. The Omaha railroad alone placed 900 families in Northern Wisconsin last year. We have about 60,000 acres to choose from.

Best Farming Land in Northern Minnesota.

We also have about 40,000 acres of the richest farming land to be found in this section of the state, all lying within a reasonable distance of railroads and midway between Duluth and the Twin Cities. We will give it to you for one-quarter its value in cash and the balance to suit your convenience. Runs from $5 to $15 an acre.

Chance for Investors.

We have some snaps in large tracts that can't be beat. CALL OR WRITE.

Long Trouser Suits, ages 14 to 20—every suit made of good wear-resisting materials, neat mixtures—some plain blue and blacks—our regular $7.50, $8.50 and $9 suits, reduced to..... **$5.75**

FEEDING CORN

Police Court Prisoner Has Pleasant But Unprofitable Position.

Disorderly Element Is Missing From Crowds of Visitors.

The dishevelled gent with a two weeks' growth of beard on his face was drunk. There was no disputing the fact. He was happily, gloriously and indisputably intoxicated. He had a load heavy enough for two or three men, and the cargo had shifted badly, so that he rolled with his lee scuppers under at every step.

"You are charged with drunkenness," said the court. "What do you plead?"

A happy smile spread over the face of the prisoner as the heinous charge was read against him.

"Now, your honor, do I look like a drinkin' man?"

"Were you drunk?"

"That's no question to ask a gem'man."

"What do you do for a living?"

"Shay, judge, I've got the finest job ever."

"What is it?"

"I've been feedin' corn to the Eagles."

Even the stern visage of the court officer was not proof against such cheerful loquacity.

"Well, this time you got a little rye mixed up with the corn and took it yourself by mistake," said the court. "I think ten days on the rock pile will about get it out of your system."

* * *

A man wearing a suit of black broadcloth and a stiff white shirt was the next prisoner.

"What's the charge?" asked the court, sizing the man up and seeing that he was not an ordinary type.

"He is charged with trying to sell the Spalding hotel to an Eagle," said the officer.

"Did he do it?"

"He only got $25 on account for a three days' option," replied the officer.

"Caught an Eagle asleep?" asked the court. "Release the prisoner."

(Later news—It was the Eagle who sold the hotel and the man with the black broadcloth suit and the stiff white shirt who bought it. The latter was fined $10 for making such a disturbance about a little thing like buying a hotel.)

* * *

Strange to state, the court grist fell far below the ordinary this morning. The police were not looking for any of the visitors to drop in on them, but it was expected that the ordinary, steady-going Duluth citizens might be led astray and wander from the straight and narrow path during the three days' celebration. But there were only four prisoners in all in court this morning, and one of them was arrested for keeping a yellow pup without the necessary tag.

IOWA WOMAN KILLS HER CHILDREN AND HERSELF.

Dubuque, Iowa, June 16.—Mrs. Paul Klass has killed her four small children and then committed suicide at her home near Kieler, Wis., eight miles east of Dubuque. The woman used a large butcher knife, cutting each of the children's throats. The eldest child was 6 and the youngest a baby. The woman had been in ill health.

SPECIAL EXCURSION!
Toronto and Return
Steamer Huronic
JUNE 18-26.
For rates and berth reservations call or write H. HURDON, 1 Lyceum Building.

WILL SHOW THE PARENTS

Method of Conducting Y. M. C. A. Camp Will Be Explained.

Parents and friends of the members of the boys' deparement of the Y. M. C. A. will have an opportunity, this evening, to learn how the summer camp of the association is conducted.

Views of the camp will be shown on canvas, and the manner in which it is conducted, described to the visitors.

The entertainment is free to all parents or friends of the members, and it is given for the purpose of allowing the parents to make an intelligent supervision of the vacation outing of the boys.

Saturday morning the first of the outing parties will be held. The boys will leave the building at 10 o'clock and take a launch ride to Zenith Park, where they will spend the day. Each boy will take a lunch and two potatoes, which will be roasted in a large bonfire on the island.

DOES NOT GO FAR ENOUGH

Duluth Men Think Vessel Inspection on Flax Too High.

The reduction in fees on the inspection and weighing of grain which the state board of railroad and warehouse commission has authorized will go into effect July 1 and will make a considerable saving in fees that shippers must pay.

The inspection charge on cars of all grains except flax will be as follows: "On arrival" or "in store," 15 cents; "out of store" from warehouse to cars, 15 cents. On grain inspected into vessels the charge will be 30 cents per 1,000 bus. The fees for weighing will be identical with those for inspection.

The reduction made in these items is 10 cents in each.

On flaxseed the inspection charges will be 65 cents a car "on arrival" or "into store;" 65 cents for "out of store" from warehouses to cars, and 90 cents per 1,000 bus. into vessels. The weighing charges are the same as on other grains. The charges on flax are also a reduction of 10 cents on each item.

Duluth grain men believe the charge for inspecting flax into vessels is still too high and that a further reduction ought to be made.

It is also a matter of interest to know that the Duluth board of trade, brought about the reduction in fees which has just been made. Secretary H. B. Moore compiled figures for twenty years back and these showed that the department had accumulated a surplus of something like $120,000 and also that Duluth had practically paid the expenses of the entire department, making up in the fees paid here the deficits that were created at Minneapolis, St. Cloud and the other points at which inspectors are maintained.

BUT LITTLE ROCK.

Excavation For New Reservoir Will Be Inexpensive.

It is not expected that much rock will be encountered in excavating for the new reservoir in West Duluth.

Three test pits have been sunk on the site by the city engineer's department and little or no rock has been discovered, beyond a few large boulders. The test pits have gone to a depth of twenty-seven feet, and no ledge of rock has been met with.

Lester Park.

Dance tonight and tomorrow night.

EXPENSIVE RAINS.

Contractors Lost Money By the Heavy Rains.

The recent heavy rains have cost every contractor engaged in city work from $50 to $150.

In some cases sewer trenches which were partly dug were caved in by the heavy rain, and the excavation has had to be done over again.

A large section of the paving on First street, which had been laid and was waiting for the tar filler, was washed away, the blocks being piled up in a heap, and it had to be all taken up and relaid.

BLOCKS ARE ALL RIGHT

Inspector Says Company Is Making Good Material.

According to the report received from F. W. Longworth, the expert who is inspecting the creosote blocks being manufactured for First street, the company is now turning out good material, and will be able to supply the contractor with all the blocks he requires.

A large quantity of heavier oil has been purchased by the company, and this, when mixed with the lighter oil, will give an excellent creosoting material, according to the statement of the inspector, received by the city engineer this morning.

The work on the First street paving has been making good progress, considering the unfavorable weather, and Contractor McDonnell states he is going to give the city an excellent piece of work.

STOLE CHICKENS

And Must Spend 250 Days In Jail.

Butte, Mont., June 16.—Alex McNeil was fined $500 by Justice of the Peace Rhodes for the theft of thirteen chickens. McNeil pleaded guilty. Constables Rowe and Adams testified that when they broke into the cabin occupied by McNeil they found him and a companion sitting beside a stove hungrily watching a chicken potpie which was boiling. In default of his fine McNeil went to jail for 250 days.

A Hot Time in Cool Shoes!

Canvas Oxfords that are up-to-date.

Tan Gibson Ties that are stylish.

Vici kid Low Shoes that look well.

Misses' tan Oxford Ties—stylish and cheap.

Canvas Shoes that are cool.

Patent leather shoes that wear well.

STEMMING THE TIDE.

While the country at large seems to be pretty generally aware of the dangers in the present tendencies of immigration, the remedy is not by any means so clear.

Frank P. Sargent, commissioner general of immigration, in a recent interview said that the most necessary thing is a law authorizing the government to provide medical inspection at foreign ports, which would prevent immigrants starting from that side who are not physically qualified to pass muster on this side. This is probably a good measure, but it will hardly suffice. It would be a good thing for the immigrant who makes the ocean trip only to be turned back when he reaches these shores, for he would find out before he left that he was not wanted, and would be saved the trip. But while the physical test is an important one, it can by no means solve the immigration problem. Hordes of the most undesirable immigrants can pass a physical examination with flying colors.

Mr. Sargent also favors an age limit, which he would fix at 60 years, not applicable to those coming to relatives who are able to care for them. This is good, too, but still inadequate.

As to the proposal to increase the head tax from $2 to $15, the commissioner general said that while it would bar many, it is questionable if it will bar the right kind. If immigrants would go to the right part of the country, the amount of money they possess would cut little figure. The great trouble is that so many of these poverty-stricken and helpless immigrants flock hopefully to the great cities.

There does not appear to be any great help in Mr. Sargent's suggestions, though they are good as far as they go. President Roosevelt will present the problem to congress this fall, and it will have thorough discussion there. All the proposed remedies will be examined, and possibly a combination of several of them, or of all of them, can be made that will effectually stem the appalling tide of the undesirable, while admitting those that are desirable. Any remedy that will invariably do this is, of course, impossible. All congress can hope to do is to devise something that will approximately accomplish the desired result. It is highly important that this should be done, and done as speedily as may be.

THE NEW SINS.

New conditions bring new sins. The sins of the present day are more gentle, less violent, but none the less deadly and effective because something of the principle of the long-distance 'phone has entered into them. In other words, we do our killing and our robbing through round-about channels instead of by direct personal violence.

Surely this, from a writer in the Atlantic Monthly, puts our modern methods of crime clearly, tersely and truly:

"The essence of the wrongs that infest our articulated society is betrayal rather than aggression. Having perforce to build men of willow into a social fabric that calls for oak, we see on all hands monstrous treacheries. —adulterators, peculators, boodlers, grafters, violating the trust others have placed in them. The little finger of Chicane has come to be thicker than the loins of Violence.

"The sinister opportunities presented in this webbed social life of ours have been seized, because such treasons have not yet become infamous. The man who picks pockets with a railway rebate, murders with an adulterant instead of a bludgeon, burglarizes with a "rake-off" instead of a jimmy, cheats with a company prospectus instead of a deck of cards, or scuttles his town instead of his ship, does not feel on his brow the brand of a malefactor. The shedder of blood, the oppressor of the widow and the fatherless, long ago became odious; but latter-day treacheries fly no skull-and-crossbones flag at the masthead. The qualities which differentiate them from primitive sin and procure them such indulgence may be clearly defined."

In the comparison, it must be said that the bold, bad baron of the ancient day who plundered the helpless by force of might, and the picturesque pirate of the Spanish main, who redeemed his atrocities by unquestioned bravery, do not suffer in the least. It is impossible not to yield the greater portion of admiration to the man who does wrong openly and boldly, rather than to the man who does it by stealth.

Obviously, the remedy is to make these new crimes as odious as the old; to look back of the brazen show of riches that success in latter-day crime yields, into the methods that produced that success. When it is just as heinous a crime to kill a brother human being by feeding him poison in pickles as it is to kill him by pouring prussic acid in his soup; when it is just as hideous an offense for a senator to betray his people by his vote as it is for a traitor to open the door of the citadel to the enemy; then will things be different, and not until then.

PROFITS IN COAL.

When people are buying their coal for the coming winter, and marveling at the stupendous price they have to pay, it may make them feel better to find out where some of the money is going.

Whitney & Stephenson's Manual of Statistics gives some figures showing that if anybody has been worrying about the prosperity of the coal mining companies they need not do so any more. Here are a few of those figures:

The Massillon Coal company, capital $1,000,000, earned a profit of $621,000 in two years, or over 30 per cent a year. The Mansfield Coal company, with one small mine, pays 60 per cent dividends in a year. The Alabama Consolidated Coal and Iron company is capitalized at $5,000,000, and in 1902 its profits were $2,873,000. The Sunday Creek Coal and Coke company is capitalized at $375,000, and its earnings for four years were as follows: 1897, $351,288; in 1898, $394,425; in 1899, $617,123; and in 1900, $824,530. The Colorado Fuel and Iron company has a capital stock of $40,000,000, and it earned in 1899, $8,201,000; it made $10,350,000 in 1900; its earnings were $12,346,000 in 1901; and in 1902 they were $13,360,000. The Pleasant Valley Coal company has a capital of $2,000,000, and it made $2,351,701 in 1901 and $1,517,157 in 1902. Of course some of these companies carry heavy bonded indebtedness, which is one way of making profits look smaller than they really are.

These figures would indicate that by some curious arrangement of circumstances, coal-selling has become much more pleasant and profitable than coal-buying.

MATERIAL FOR CIGARETTES.

The legislator who seeks the enactment of a law forbidding the sale of cigarettes will find comforting material in an item in a New York paper.

Nearly a dozen young Italians were held before the children's court in New York last week charged with collecting cigar stumps and selling them to cigarette manufacturers. An agent of the Society for the Prevention of Cruelty to Children stated that this practice has been growing lately in New York, and his object in causing the arrests was to put a stop to it if possible. It may seem incredible that such an industry should pay, but the facts are there.

This should afford a hint to consumers of cheap cigarettes as to how their vice is fed. If a cigarette produced from these sources could have its history attached, the effect might be as wholesome as anti-cigarette legislation. The cigar stumps, of course, are worked over and chopped up into cigarette tobacco, and cigarettes made of this stuff from evil sources are placed upon the market, looking as spick and span in a new paper dress as any cigarette made. It is unpleasant to contemplate the mouths that may have wrapped themselves around this tobacco before its reincarnation in cigarette form.

Fortunately, nobody has to smoke cigarettes that does not want to. When butter has included in its make-up rank poisons from coal-tar products, when milk has as an ingredient a poisonous preservative, when dainty jellies and preserves are made partly from deadly poisons, it is not at all surprising to find that cigarettes are made of cigar stumps that may have been chewed by diseased mouths, nor are they much more dangerous than the necessities of life are often made by dishonest and unscrupulous manufacturers.

THE FIELD SURVEY.

Just because the Eagles have marched in the weather man need not hand out March weather.

* * *

There are no cobwebs in the doorway of the store that advertises properly and persistently.

* * *

If the people did as much boosting for the average town as its newspapers do there would be something doing all the time.

* * *

A St. Louis man lost $7,000 which he advanced on a scheme to beat the races by wire-tapping. Though he is raising an awful row about it, he is not getting much sympathy.

* * *

If that No Tip league were organized among waiters instead of among patrons it would have larger chances for success.

* * *

It's a pretty cold-blooded lover, but a wise one, who will stop to think when he is writing a love letter how it will sound if it comes up in court later.

* * *

The fact that Mayor Weaver of Philadelphia was born in England has not sufficed to head off the presidential boom that enthusiastic individuals always launch at everybody that gets in the papers more than two days in succession.

* * *

Sir Alma-Tadema is to get $70,000 for his picture "The Finding of Moses." Any attempt to measure the value in money of a great picture can be only relatively successful.

* * *

When peace does come, it will have to be admitted that Togo had as much to do with making it as anybody.

* * *

It is to be feared that Russia will be disappointed if she expects to purchase peace at bargain counter prices. Japan does not have to offer bargain counter inducements.

* * *

Beef is said to be about as high in Canada as it is in this country, which probably explains why beef trust people are feeling at home there.

* * *

If it was partly Togo's good batting, Rojestvensky's poor support seems to have been also responsible.

* * *

A Paris scientist says blondes are frivolous. Some of them are, maybe, but so are some brunettes, and even if a man believed it he would not be doing a diplomatic thing to admit it.

* * *

When young Mr. Hyde gets to be old Mr. Hyde he will know some things he does not know now. But he is not materially different from other people in that respect, either, when you come to think of it.

* * *

The fact that there is no equivalent for "Hurrah!" in the Russian language is scarcely worth talking about. The Russians would not know what to do with it if they had it.

* * *

Usually the man that knows it all is the only one that is willing to admit it.

* * *

Philadelphia may have been asleep, but it is evident she was not dead.

* * *

The New York World calls it "Norway's Chicago divorce."

* * *

The Wabasha Herald is beginning the last year of a half-century of usefulness, and its latest issue is labelled "Vol. L, No. 1."

* * *

A story-teller makes a great hit with you when he tells you a story you told him a few days before.

* * *

Don't like your lot in life? Cheer up. You might have been born the czar of Russia.

* * *

A Pittsburg man sent Admiral Togo a box of stogies. If Rojestvensky put him up to that, it is a mighty mean way of getting even.

Hotel Gossip.

"The Folk sentiment in Missouri is beginning to die out," said A. E. Stevenson of Port Huron, Mich., at the Lenox yesterday afternoon. Mr. Stevenson is manager of the Independent Order of Foresters in the United States, and has just returned from St. Louis.

"There is no show of spirit as yet manifested against him, but there is a feeling that he is too good to last," continued Mr. Stevenson. "When he comes up to run for the gubernatorial job again, if he should feel so inclined, he will not have the support of his party, and certainly the Republicans are not going to back him. The people were backing him up solid when he began his campaign against boodling, but when he begins to step on their toes by going into every small town and shutting things up tight they do not appreciate his efforts so keenly. They are beginning to fear that he is an extremist.

"The lid is shut down tight at St. Louis. This is the first time in the history of the city that the citizens have been compelled to observe the Sunday closing law. As a result, one Sunday it was estimated that about 35,000 people went into East St. Louis, in Illinois, to wet their lips. The East St. Louis people are enjoying this for eighty-five of the visitors were hauled into police court next morning, and levied $7.50 per. Then the company which owns the bridge across the river is making a neat revenue. The pedestrian is charged 5 cents, it takes 10 cents to go on the street car, 25 cents to cross on the train. This state of affairs was started by Governor Folk, and the mayor, newly elected, took it up and carried it through. This goody-goody performance cannot last. Most of the citizens are Germans, who enjoy a free Sunday. They like a place where they can sit down and quaff a glass of beer. The Germans and others are not going to stand for this tight policy very long, and the old conditions will be brought about again.

"There are quite a number of buildings still standing on the fair grounds, and it is surprising to see the people who flock to see them. Nothing has been done yet in improving the park on a part of which the exposition was held."

Mr. Stevenson took an automobile ride on the boulevard in the early part of the afternoon, and he was enthusiastic over the drive.

"I have traveled considerably in this country, but I never saw anything to equal the drive on the heights," he said. "Dubuque, Iowa, has something similar to it, but it does not approach it in beauty. The course in Duluth is higher. The citizens do not seem to realize the value of the boulevard drive. If it was out West, where it would take a great deal of money to get to, the people would go wild over it. The drive gives one an excellent opportunity of seeing the city as it lies."

* * *

"While they have drawn what they call a standard chart of criminals, there is no standard type of that class," said J. C. Ahrnane, the Bertillon man, from St. Paul at the Lenox yesterday afternoon.

"I have handled a multitude of criminals during my life, but I cannot tell by looking at a person that he belongs to that class. The size of the head is no indication of his propensities. I have seen them with small heads and big heads. A man may become a thief in a second. He may be honest. He strikes a new town, and being hard up, he may steal, and there he begins his career of crime. As a general thing, however, a man becomes a thief because he doesn't want to work. Usually he says to himself: 'I will take a chance, and if I get caught, all right.'

"There is the educated thief, who tries to move among the better class, and then there is the man who cannot read or write. Three out of every four men we are trying to get are Yegg men. They are dressed as tramps or beggars, and are the users of nitro-glycerine and dynamite. I do not know exactly why they give them that name, but I think it is a gypsy designation. One cannot tell what nationality the Yegg men are. I have seen Greeks among them, Swedes, Danes and an awful lot of Irish. They are a dangerous class. They have no names, but are called by their physical dimensions and the town they hail from. One of them strikes a town, and his partners in crime ask him where he comes from. If he says Duluth, they will call him 'Duluth Short' or 'Duluth Long.' If he has red hair, he is known as 'Red Duluth.' I know one fellow was caught at one time who was called 'Long Short.' I cannot understand why they gave him such an incongruous combination, for he was a tall, thin fellow. We have 1,700 registered photographs of Yegg men, according to the Bertillon system.

"The Bertillon system has been used for the past twenty years. The originator was a man of that name who lived in Paris, and was mixed up somewhat in the Dreyfus scandal. His system has been Americanized to a considerable extent. It is a perfect system if handled rightly. No two men measure the same. This has been shown both in this and the old country. We take a profile and profex view of the person, and a man will give the same measurements when he is 21 as at 50 years of age. The color of the eye never changes.

"The system as carried out by the Duluth police department is ten years ahead of the time. Cities of 300,000 inhabitants could well take lessons from this city in that respect. Capt. Resche, I may state, is second to none in working the system. He knows the Bertillon method from A to Z.

"If anything will prevent crime, the Bertillon system will. Once a man has been measured he cannot go anywhere else but he is liable to be detected. He may go into another city and change his name. He may plead that it is his first offense, but his arguments will all be in vain if he has once been measured, and the jury is given the data."

The Weather.

Yes, gentle reader, it is very evident that the weather man got an idea that it was a convention of Ducks instead of a convention of Eagles that was in the city, and made his arrangements accordingly.

This is one of the days when it is impossible to withhold from Mr. Kicker the gratification of admitting that he has something to kick about. This morning the wind was sweeping down out of the northeast, and it brought with it a fog—which the weather man predicted yesterday—that was mostly mist and nearly rain. The mist swept along with the wind, dampening everything in sight. The daring woman that started out with her hair in curl came back with it straight as strings, and she was highly indignant about it, too. The mist had an irresistible way of penetrating one's dress, and anybody that had to walk very far in it soon found himself damp to the skin.

Later a smart shower rather cleared the air, and while it did not clear up it became lighter and much more endurable. The weather man did not offer a bit of encouragement this morning. In fact from his view point there seems little chance of an improvement before tomorrow night, anyway. He predicts showers and thunderstorms with cool temperature and probably fog tonight and Saturday, with fresh to brisk northeast winds. Which being interpreted means a day more of the same.

Duluth was no worse off than many other places, however. Her highest temperature was higher than those reported from the points east, west and north of her, and out in San Francisco the highest was only 60 degs., 8 degs. short of Duluth. Light to heavy rains fell over the greater portion of the territory east of the Rockies. A storm of moderate strength is central over Kansas, and it is cooler in the Rocky mountains, the Upper Missouri valley and near Lake Superior, but warm in the central valleys and Southern states.

Following are the maximum temperatures recorded during the twenty-four hours ending at 7 o'clock this morning, as reported by the weather bureau:

Abilene	98	Medicine Hat	78
Atlanta	86	Miles City	62
Battleford	50	Milwaukee	74
Bismarck	54	Minnedosa	54
Boston	76	Modena	90
Buffalo	86	Montgomery	88
Calgary	42	Moorhead	58
Charleston	82	New Orleans	88
Chicago	76	New York	84
Cincinnati	82	Norfolk	82
Davenport	88	Northfield	84
Denver	82	North Platte	72
Detroit	82	Oklahoma	92
Dodge	92	Omaha	86
Duluth	68	Phoenix	98
Edmonton	62	Pittsburg	90
El Paso	94	Port Arthur	66
Escanaba	72	Portland	72
Galveston	86	Prince Albert	58
Green Bay	80	Qu'Appelle	48
Havre	62	Rapid City	70
Helena	62	St. Louis	90
Houghton	76	St. Paul	78
Huron	82	San Francisco	60
Jacksonville	86	Santa Fe	72
Kamloops	78	S. Ste. Marie	82
Kansas City	90	Shreveport	96
Knoxville	84	Spokane	70
La Crosse	82	Swift Current	60
Lander	76	Washington	84
Little Rock	86	Williston	56
Los Angeles	72	Winnemucca	80
Marquette	72	Winnipeg	56

United States Department of Agriculture, Weather Bureau, Duluth, June 16.—Forecast for twenty-four hours ending at 7 p. m. (local time), Saturday: Duluth, Superior and Vicinity—Showers or thunderstorms with cool temperature and probably fog tonight and Saturday. Fresh to brisk northeast winds.

H. W. RICHARDSON,
Local Forecaster.

Chicago, June 16.—Forecasts until 7 p. m. Saturday: Wisconsin—Showers and thunderstorms tonight and Saturday. Cooler Saturday and in north and west portions tonight.

Minnesota—Showers and thunderstorms tonight with cooler in south and west portions. Saturday fair in west, showers in east portion.

North Dakota and South Dakota—Fair in North Dakota. Showers in South Dakota tonight and Saturday.

Upper Lakes—Fresh southerly winds on Michigan and Huron, easterly on Superior, becoming variable Saturday. Showers and squalls.

MINNESOTA OPINIONS

Littlefork Guardian: Summer time has always been a source of inspiration. We always welcome its return in this northern country. Its mellowing winds filtered and embalmed through the branches of the pine and the balm of gilead trees, mellows and sweetens the human disposition, and causes new and more healthy buds to sprout and grow upon our sometimes shattered hopes. The lash of winter stings and blisters, but summer always comes as a confederate to the struggling soul.

Albert Lea Tribune: The fellow who never advertises is the one who sees financial ruin staring th community in the face. He should get busy and make an earnest effort to "make good."

Brainerd Dispatch: The city papers are experiencing considerable difficulty in keeping up the necessary amount of enthusiasm and interest in their political predictions. It has got to be a pretty good political story that will keep twenty-four hours this kind of weather.

Wadena Tribune: The Pillager Post takes a try at governor making and suggests A. L. Cole of Walker, as the right man for the job. Our friend Cole ought to land something out of the coming campaign, inasmuch as he has been suggested as the right man for every position thus far mentioned.

Fergus Falls Journal: The superintendent of the state free employment bureau reports that he has applications for 200 girls for domestic service, but only an occasional applicant, while the bureau is fairly flooded with applications from girls who wish to secure positions as clerks in stores, typewriters and to do office work generally.

Mora Times: People in good society would do well to reflect that the man who bribes an alderman or other official is guilty of a greater moral wrong than the more ignorant individual who accepts the bribe.

Melrose Beacon: Our fathers got along without advertising and they got along with tallow candles. They didn't do much business and they didn't have much light.

Pointers By Pease.

Anoka Union: J. Adam Bede is about to fulfill his promise to give Anoka county a phat plum. Better late than never.

There is talk in Duluth of bringing out Bob Dunn for congress to beat J. Adam Bede. How's that?

So far, there does not seem to be the least enthusiasm for any of the twenty or more men mentioned for the Republican nomination for governor.

A trip to Duluth over the Great Northern tells a better story of growth and prosperity every year, and lands are being more and more occupied.

Twenty Years Ago.

Taken From the Columns of Duluth Papers of This Date 1885.

***Miss F. M. Simpson, sister of Mrs. E. M. Noyes, has arived from Bath, Maine, and will remain during the summer.

***Mrs. Charles T. Cash left on Thursday night by the Nyack for her old home in Pontiac, Mich. Her little daughter goes with her. C. T. Cash and J. F. Shutt expect to go to Washington Territory to locate, and after they are located Mrs. Cash will go there. Mr. and Mrs. Cash have many friends in Duluth who will much regret their departure from our city. Charlie Cash has been a resident of Duluth for many years. George T. Morgan, who has been mail agent on the St. Paul & Duluth for nine years, will take the position of assistant postmaster. Mr. Shutt's position as money order clerk has not yet been filled.

***Receipts of wheat continue very large for this time of the year and do not seem to diminish as the season advances. Total receipts since Jan. 1 have been about 2,350,000 bushels.

***Fishing parties are very numerous just at the present time, many of them going to the Brule and other South shore streams, but a good share taking the old reliable streams on the North shore.

***One of the best things the village council has done lately is the ordering of a sidewalk on the upper side of First street, between Lake avenue and First avenue East—the board of education block.

***From seventy-five to one hundred head of cattle are being slaughtered daily by the Marquis de Mores at Medora, most of which are being shipped to this city. The average daily business of the Refrigerator Car company is about $1,000.

***An alarm of fire on Tuesday evening was caused by a really dangerous fire in the dock of the Northwestern Fuel company. Streams of water were put on from the harbor tug Williams almost immediately and soon after by the fire company, and the fire was speedily subdued. There was about 30,000 tons of coal on the dock, and the dock and structures are worth $25,000.

SMILING REMARKS.

Cleveland Plain Dealer: "Did that young man kiss you last night?"

"I decline to answer."

"On what ground?"

"It might tend to criminate me."

Philadelphia Press: "Lady," said Hungry Higgins, "I thank yer fur a meal—"

"Ah!" exclaimed the bright housekeeper. "You're one of those after dinner speakers."

"Not exactly, lady, for I wouldn't be so hungry. I ain't got so much as a chestnut about me."

Philadelphia Ledger: Skorcher—Yes, I'm quite an expert with my automobile now. What I know about road racing would fill an interesting book.

Wisman—What you don't know about it may fill your grave for you soon.

Smart Set: Respectable Deacon—I wish that young Canon Mayberry weren't obliged to preach to such a small congregation.

Frivolous Widow—So do I. Every time he said 'Dearly beloved' this morning I felt as if I had received a proposal.

Philadelphia Press: "Of course," remarked the fresh boarder from the city, "you've got a condensed milk cow."

"We did have," replied the farmer, soberly, "but ye see, the summer heat expanded her."

New York Sun: Knicker—Yes, my wife won the fight, but the credit belongs to the spirit of her ancestors.

Bocker—You don't say?

Knicker—Yes, her mother was with her.

Cleveland Leader: "Your house, Mrs. Kehrfuh, reminds me," asserted the congressman, politely, "of a motion to adjourn."

"Pray how is that?" asked the good lady, doubtfully.

"It is always in order," responded the statesman, triumphantly.

It had all the effect of being impromptu.

IN NORWAY.

New York World: On pay-days saloons are closed and savings banks open until midnight.

Servant girls hire for half a year at a time by contract at public registry office.

There is a telegraph-box on every street car. Write message, put on right number of stamps, drop in the box.

Young farmers can borrow money from government at 3 per cent.

Practically no illiterates. Men perhaps the finest in the world physically. Army service universal; only 2.3 per cent of youths rejected for physical defect.

Health splendid. Death rate for men, 18.3, because of dangerous fishing; for women, 16.5. Average expense of living less than any other civilized country perhaps. Average wage earnings, $88 a year.

More reindeer than horses, more sheep than cows.

Illiterate—Two men in a thousand in Sweden, 3 in Norway and Denmark, 75 in Russia, which wants to "improve" Norway and Sweden by dividing and conquering them; 13.6 even in England.

Waiting for Even.

Thou shalt not praise the day till night is falling.
However fair its dawn and noon may be;
Ofttimes at eventide come storms appalling,
Setting the lightning and the thunder free.

Thou shalt not blame the day till it is ending.
Though it has brought thee flood and hurricane;
Full oft at nightfall comes deep peace, descending
In sunset gold and roses, glorious gain.

Praise each fair morn that calls thee up from sleeping,
And through the hot day work with all thy might;
Then leave the evening hour in Heaven's keeping,
Which sent both winter cloud and summer light.

—From the German of Gerok.

Laying for 'Em.

Monticello Times: Delinquent subscribers will have to take extra precaution hereafter as they pass the Times office, for we have washed our windows and now have a broad view of the surrounding territory.

The Face You Wear.

Success: What kind of an expression do you wear habitually? Is it sour, morose, repellant? Is it a mean, stingy, contemptible, uncharitable, intolerant expression? Do you wear the expression of a bulldog, a grasping, greedy, hungry expression, which indicates an avaricious nature? Do you go about among your employes with a thundercloud expression, with a melancholy, despondent, hopeless look on your face, or do you wear the sunshine expression which radiates good cheer and hope, which indicates a feeling of good will and of helpfulness? Do people smile and look happier when you approach them, or do they shrink from you, and feel a chilly gooseflesh sensation come over them as they see you approach? It makes all the difference in the world to you and to those whom you influence, what kind of an expression you wear.

Reflections of a Bachelor.

New York Press: The half-way house on the road to a man's vanity is his comfort.

It is always safe to flatter anybody; even if it makes him suspicious of your purpose he believes you.

It is no use trying to pretend you are a hero when you step on a collar button with your bare foot.

There never was a woman who didn't say a piece of jewelry she has cost more than it did and a hat less.

Graduating exercises are easy for girls because the audience judges how well they have done by how pretty they look.

Pity is Wasted.

Chicago Record-Herald: It is foolish to pity any man, no matter how poor his home may be, if he is glad to go to it at night.

How to Tip.

New York Sun: If any "tip" rule is to be established in a restaurant, something like 10 per cent of the amount of the bill might be fixed. It is really too much—any "tip" is too much—but it may be a convenient method of calculation; for practically, so rigorous has the exotic custom become here that unless a man gives a "tip" he suffers from inattention. After all, however, it is a gratuity as much to the proprietor of the place as to the servant who receives it directly. The assurance of "tips" to the servants is taken into account in determining the amount of wages paid to him. A "tip" of a dime for a meal costing a dollor or thereabouts or of a quarter for a dinner up to $1 is ample. Don't be bullied by the waiter.

Praise From Pease.

Anoka Union: The most extensive and complete printing office the writer has seen in the Northwest is that of the Duluth Evening Herald, and Manager Weiss has reason to be proud of it.

The Retort Discourteous.

Chicago Chronicle: Miss Anteek (in open trolley car): Are you going to stop smoking? You must see how it annoys me.

Mr. Weed: But, madam, these seats are reserved for smokers.

Miss Anteek (scornfully): You're a gentleman, I must say.

Mr. Weed: And you, madam, are not, I regret to say.

The Long-Winded Orator.

Boston Post: Chaplain E. A. Horton of the senate made quite a hit the other night with a bit at one of the long-winded members of the legislature.

The member was delivering a political address in a town not far from Boston and the village folk gathered in the town hall to hear it.

"He had been speaking quite a while," said Dr. Horton, "when finally an old Scotchman arose and walked out of the hall.

"At the door one of his countrymen was waiting with his hack to drive the orator to the station.

"'Is he done yet, Sandy?' asked the Scot on the box.

"The old man turned about.

"'Aye, said he, 'he's done long ago, but he will na stop.'"

Leading Catholic Layman.

Boston Pilot: Charles J. Bonaparte, now about 50 years of age, bears a striking resemblance to the first Napoleon, and his rights as legitimate heir of the Bonapartes are undisputed. But evidently he glories much more in his rights as an American citizen; and there is no better exponent of true Americanism in his native land than he.

Educated at Georgetown by the Jesuits and at Harvard university, with his mind disciplined by devotion to his chosen profession, and broadened by extensive travel in his own and other lands, his character formed on the strictest lines of Christian rectitude, he is the ideal man for the crusade he has been leading against corruption in political life.

In his addresses to Catholic college men —and for some years past he has been a much-sought class-day orator—he has cast a strong light on their duty, as on that of all Catholic citizens, to show forth the fruits of Catholic training in their model citizenship and their incorruptibility in public office. Thus, he believes, will the Catholic manhood of the country commend the church to their fellow-citizens of other faiths or of no faith at all, who might be little moved by any other manifestation of her power over the minds and hearts of her followers. His words are living and effectual because they are the reflex of his practice. He stands easily in the forefront of American Catholic laymen, and all his co-religionists honor him.

The name of Charles J. Bonaparte is the synonym of political integrity in America, and no appointment of President Roosevelt has given such general satisfaction among men of all race lines and variations of religious and party allegiance.

Boy Human Nature.

Topeka State Journal: You may not have discovered it, but there is considerable human nature about boys. It's the winning team in an amateur baseball game that always comes to the newspaper offices to tell about it. The losers keep still.

Blind Writer's Misfortune.

A pitiful story is told of Philip Bourke Marston, the blind English writer. One day a particularly good idea came to him and he sat down to his typewriter with enthusiasm. He wrote rapidly for hours and had nearly finished his story when a friend came in. "Read that," said Marston proudly, "and tell me what you think of it." The friend stared at the happy author and then at the blank sheet of paper in his hand before he was able to understand the little tragedy. The ribbon had been taken from the typewriter and Marston's toil was for nothing. He never had the heart to write that story again.

What's the Answer?

Kansas City Journal: A young man asked a Brown county farmer for his daughter in marriage. The answer was: "Go into the orchard and bring in a parcel of apples. Give me one-half of the whole number and to the mother one-half of the balance and have one apple over, and to the daughter one half of the remainder and half an apple over, and have one left for yourself without cutting an apple. Then if she is willing you can have her." He solved the problem, and how many apples did he bring?

A Sane Seventh of June.

Detroit News: We hope Norway will start right by excluding the cannon cracker from the celebration of the event.

SURPRISED HIM

Commissioner Kauppi Talks About Savanna River District.

Town of Halden Shows a Splendid Farm Development.

At a meeting of the board of county commissioners, last week, a resolution introduced by Commissioner Charles Kauppi, was adopted, authorizing the county surveyor to make a survey of the West Savanna road, providing the people residing along that road should petition for it.

It is the understanding of the board, through the explanation of Commissioner Kauppi, that there is underway a project to get the road surveyed with a view of straightening and improving it and that a petition is already being circulated among the freeholders of the district for the required number of signatures.

The Savanna road takes its name from the Savanna river which runs through the town of Halden, in this county, and empties into the St. Louis river below Floodwood. The town is located in what is usually termed the Floodwood district.

Commissioner Kauppi recently spent several days in the Savanna river district and his speaks in very enthusiastic terms of the agricultural development that has been made in that section of the county.

"Unless a person has actually visited that locality," said Mr. Kauppi, "he can hardly form an idea of the splendid development that is being made. Some of the farmers along the Savanna river have been in there for a number of years and they have some magnificent farms. While going through there the other day, looking after the interests of the county roads in my district, I had an opportunity of seeing some of those farms and I was surprised when I saw the progress that has been made. Along the river and in the town of Halden there are some farming communities, a sight of which would more than pay for the trouble and expense of a trip out from Duluth. The crops are coming along in magnificent manner and the country looks very prosperous. I saw some of the finest fields of clover that it has ever been my fortun to loo kat anywhere in this county or state.

"Much of the land in the Savanna district is river bottom land and, in the spring of the year, it is overflowed during the periods of high water. In some places the valley is, at times, fairly filled with small lakes because of the high water. During the summer season this water gets back between the river banks and the farmers can go on the river bottom lands and cut immense quantities of wild hay. The hay is of an excellent quality and they can easily find a market for all they do not use. I know of one such locality where at least 500 tons of hay can be cut off in a season. The ground is level and so smooth that the farmers can drive over it with their mowing machines.

"The soil is rich and productive, and any crop that can be raised in Minnesota does splendidly in that district.

"I should judge that the soil in the Savanna river district is very much like that in the Meadowlands district, which is also fast settling up."

In speaking of the possibilities that will be offered for farm land development in the Meadowlands district by the opening up of the Duluth, Missabe & Northern's extension from Alborn to Bovey, in Itasca county, Mr. Kauppi says that while it seems to him that it might have been a better thing for the country han the railroad been run a little further away from the old line, it will certainly be a stimulus to settlement in the district, and that rapid farm development along the new line may be looked for. While the route of the new line has not yet been made public, it is understood that the extension road will run through the Meadowlands district about seven miles from the old line. Mr. Kauppi believes that it would have been of greater advantage to the country had the new line been established about ten miles from the main line.

The new steel bridge at Floodwood, which will cost about $4,700, will be built this fall. The contract has been awarded to a Chicago bridge building company, and the structural steel will come from Massilon, Ohio. The contractors will not be able to get the steel for some time yet, and the construction is not likely to begin until the first part of August or September. At that time piles will be driven deep in the river bed. Around these will be placed a steel shell, and concrete will be put inside, encasing the piles. It is believed that the foundations thus built will be solid and durable. The bridge will have a 200-foot span.

BREIF TELEGRAMS

Governor Higgins has issued a call for the legislature to convene in extra session on June 22. The governor did not announce what subjects are to be treated by the special session except to say that the charges against Justice W. B. Hooker would be presented.

A granite shaft erected in memory of those who lost their lives in the disaster to the excursion steamer General Slocum in East river, just a year ago Thursday, was unveiled in the Lutheran cemetery in Middle Village, L. I.

W. I. Milliken, a prominent lumber merchant of Minneapolis, was struck by an interurban street car at Merriam Park Thursday afternoon and received injuries from which he died in half an hour. Mr. Milliken and a friend were waiting for a Minneapolis car and as it approached Milliken attempted to pass in front of it and was struck.

Seven men are missing and probably have been drowned in the Skeer river, their upturned canoe having been found. John F. Fultz, a mining engineer of Louisville, is among the missing who are miners.

For the first timo in the history of the military academy representatives of the Chinese empire were Thursday admitted as cadets in the institution. Two young Chinamen, Ting Chia Chen and Ying Hsing Wen, with Luis Bagran of Honduras and F. Tomas Plaza of Ecuador, under special act of congress will receive instruction with the class of 145 candidates who were received as cadets.

Kansas farmers will need 25,000 men and 2,240 teams to harvest their crops, according to a report made by the superintendent of the state labor department of Kansas to A. B. Jamison, superintendent of the free employment department of the Missouri state bureau of labor statistics of this city. The harvest including the threshing, will last about sixty days and the wages will, it is stated, range from $1.75 to $2.50 a day.

LITTLE BOY BADLY BURNED

At Crookston While Playing With Matches In Kitchen.

Crookston, Minn., June 16.—(Special to The Herald.)—Cornelius Hughes, the 3-year-old son of Dan Hughes, the Crookston grocer, was very nearly burned to death here yesterdaw morning while playing with matches in the kitchen. The little boy found several matches upon the floor of the kitchen and playfully started to ignito the fire in the grate. His mother was upstairs at the time and before she could respond to the agonizing cries of her darling the flames had caught from the lighted match on his night gown and the little body was a mass of flames. That death did not result instantaneously is due to the fact that the little boy had underneath his cotton night gown his woolen undergarments. The flames did not pierce these as rapidly as the outer cotton and prompt work by Mrs. Hughes with a blanket soon had the flames extinguished. The little boy was burned in a frightful manner about the head and shoulders, however.

NOT INTERSTATE TRAFFIC.

Important Ruling Made By Attorney General Young.

St. Paul, June 16.—An important ruling on the authority of the state to tax gross earnings of railroads on business between the Twin Cities and Duluth which passed through Wisconsin, was made yesterday by Attorney General E. T. Young. It is expected that the opinion will add from $50,000 to $100,000 to the taxes of the state annually.

The attorney general holds that traffic beginning and ending in Minnesota, but passing through another state is not interstate traffic for taxation purposes. The United States supreme court has held that such traffic is interstate traffic for purposes of rato regulation, but Mr. Young holds that Minnesota is entitled to the taxes on the entire haul, not on a proportionate share based on the mileage within the state to the total mileage. The Chicago, St. Paul, Minneapolis & Omaha will be the principal road affected. It will have to pay taxes on the total business from the Twin Cities to Duluth, notwithstanding the fact that 90 per cent of the mileage is in Wisconsin.

NEW WAY

Of Iowa Lover to "Do" His Rival.

Des Moines, Iowa, June 16.—Ardent J. F. Derringer, thinking thereby to put an end to the objections of Miss Carrie Carter, procured a license to wed her.

Later he again appeared at the clerk's office.

"When W. L. Gillett comes in here for a license to marry Carrie Carter, I don't want you to let him have it," said he to Deputy Joe Maher.

"Why not?" asked the clerk in surprise.

"Because, I'm going to marry her myself," was the astonishing reply. And Derringer unfolded the license he had bought and waved it before the eyes of the clerk.

"You see she is undecided yet which one she wants to marry," continued the men. "I know that she is going to marry me, but this man Gillett is trying to scare her into marrying him. Now, I've got this license and if you won't let him have any why, of course, I've got the inside track, don't you see?"

Gillett has not yet appeared for his license.

OLD OFFICERS

Re-Elected By the United Confederate Veterans.

Louisville, Ky., June 16.—The United Confederate veterans yesterday re-elected their old officers as follows: Commander-in-chief, Lieut. Gen. Stephen D. Lee, Mississippi; commander trans-Mississippi department, Lieut. Gen. W. L. Cabell, Texas; commander Army of Tennessee department, Lieut. Gen. Clenot A. Evans, Georgia; commander Army of Northern Virginia department, C. Irvine Walker, South Carolina.

The nominations were made by acclamation, although there was an attempt to defeat the re-election of Gen. Cabell. Post No. 2 of Texas entered a protest to the election of Gen. Cabell, saying that he was not the unanimous choice of the Texas delegation, but the protestor was hooted down and three cheers given for "Old Tige" Cabell, while the secretary recorded the election of the old Texan. New Orleans had slight difficulty in securing the convention for 1906.

SPORTING NEWS

Double Header Will Be Played With Twins Saturday.

Fargo Defeats Crookston and Winnipeg Wallops Grand Forks.

Northern League.

STANDING.

Teams—	Played.	Won.	Lost.	Pct.
Duluth	25	19	6	.760
Winnipeg	28	16	12	.571
Grand Forks	25	13	12	.520
Fargo	27	12	15	.444
St. Cloud-Brainerd	25	11	14	.440
Crookston	26	7	19	.269

RESULTS YESTERDAY.
Fargo, 6; Crookston, 2.
Winnipeg, 4; Grand Forks, 1.

GAMES TODAY.
St. Cloud-Brainerd at Duluth.
Fargo at Crookston.
Winnipeg at Grand Forks.

Arrangements have been made for a double header to be played with the Twins on Saturday afternoon.

The two games will be offered for one price of admission, the first one being called at 2:30 o'clock, and the second immediately after the close of the first.

Today is ladies' day at the ball park and Erickson was scheduled to pitch, but the contest will probably be called off on account of the weather.

No game was played yesterday on account of the threatening aspect of the clouds.

ELEVEN ERRORS.

Crookston Team Makes Poor Showing Against Fargo.

Crookston, Minn., June 16.—(Special to The Herald.)—Traeger's bunch appeared here again in the second series this season in a game with the locals which without Rose's home run and eleven errors by the home team would have been very slow. There were not more than twenty-five fans out as the weather was anything but pleasant, and those few faithful ones were forced to see the bunch under the guidance of Livingstone get the short end of a 6 to 2 game. The playing throughout lacked ginger and the fans amused themselves during the play joshing the little "snow ball" catcher for the visitors. Sorenson was in the box for the Crooks and was the least bit out of tuno which fact being backed by the eleven errors of his teammates easily explains the score.

The visitors made their first score in the third inning when Donovan, the first man up was hit, which followed by two errors an out and a hit netted the gentlemen from the prohibition state four tallies. In the fifth "Rosy" slammed the sphere over the fence for the cleanest home run seen on these grounds this season, his netted them one more. Two errors and a hit in the ninth gave them their last score of the game making 6 in all.

Crookston got one in the fourth on a hit, a stolen base and an error. And once again in the sixth on a hit, a stolen base and a passed ball by Alberts. Finnegan for the visitors was very effective throughout the game.

Men to strengthen the Crookston team are on the way and all visitors are in the near future promised a somewhat warmer reception than they have been accorded in the past.

The score:

MAROONS WIN.

Take An Interesting Game From Grand Forks.

Grand Forks, June 16.—(Special to The Herald.)—The Maroons outbatted and outfielded the Tigers yesterday afternoon, and won an interesting game by the score of 4 to 1. The visitors won the game in the first inning on a pass, two doubles and an error, which netted three runs. A single and a triple brought another in the second, and after that Converse was invincible, allowing but three scattered hits in the remaining seven innings. Grand Forks bunched a single and a double in the seventh and saved themselves from a shut out. The score:

SURRENDERS FRANCHISE.

Colorado Springs Drops Out of Western League.

Colorado Springs, Col., June 16.—After a conference with President O'Neil of the Western league, Manager T. F. Burns announced that he had surrendered the baseball franchise for this city.

His reason is not so much the financial loss as his inability to secure a winning team. Manager Burns paid the men the salaries due them and severed his connection with the club. President O'Neil has taken charge of the club and will call a meeting of the directors of the Western league to decide upon the final disposition of the franchise. The team will leave today to play its regular schedule, but before the departure of O'Neil several propositions will be made for the retention of the franchise here. Pueblo is a bidder for the franchise.

Boston Releases Sharp.

New York, June 6.—Frank B. Dunn, owner of the Boston National league baseball club, said yesterday that he had received information from President Soden of the Boston club, that Sharp was going to be released and Harry Dolan engaged to play right field in his place.

FOUR FAVORITES WON AT LATONIA.

Cincinnati, June 16.—Prince Silver Wings heavily backed, easily won the mile and sixteenth handicap at Latonia yesterday, the Cook was second, and Atholene third. Major T. J. Carson, the favorite, finished fourth. In the second event Corrigan's Delta, the heavily played favorite, finished last. Lady Toddinton, the outsider in the betting, won the race easily from Leta Duffy, with Minnie Adams third. Four favorites won.

St. Louis, June 16.—Mansard, well liked in the betting at odds of 2 to 1, won the handicap event at six furlongs at the American Jockey club track yesterday. The usual seven race card was the attraction.

Miss Mae Day, an even money favorite, won the fourth race, a six furlongs sprint, the feature of the Delmar offering. Favorites won all but the fifth event.

Buffalo, June 16.—The Leather Stocking stake, the feature of today's card at Kenilworth, was won by Neva Welch, W. J. Young's 3-year-old filly. Stroller, the favorite in the race and Caper Sauce, the second choice, were never in the running.

WHEAT IS HIGHER

Continued Wet Weather In Northwest Largely the Cause.

Rust Reports Continue—Snow and Modern Miller Reviews.

Duluth Board of Trade, June 16.—The continuance of wet weather in the Northwest was largely the cause of a higher wheat market today. Rust talk is increasing notwithstanding the fact that the grain is not much more than six inches high and is not at that stage of growth where it is supposed to be susceptible to rust, of the black kind at least. The feeling is rather nervous nevertheless with the fate of much of last years' crop fresh in mind.

The cash demand is a little better and some wheat has been sold here to the East in the past day or two. Stocks this week are estimated to decrease 225,000 bus.

The Liverpool market closed ¼@½d higher. Berlin unchanged and Budapest 1c lower.

Reports from Missouri of the yields of wheat say that they are disappointing and that fields that were supposed to be good for 15 bushels are showing only 7. The Chicago party which is touring the Southwest is, however, sending in rosy reports everyday.

The Modern Miller in its winter wheat review today said: "The winter wheat harvest has progressed steadily under most favorable weather conditions. The harvest has advanced northward into Kansas, Missouri and Illinois and is under way in southern end of Ohio. Threshing returns reveal uneven yields in Texas, Oklahoma, Southwest Missouri and Tennessee. The yield in many localities is below expectations, the deficiency being attributed to damage by rust. In Nebraska there is further evidence of damage by Hessian fly, and some injury from this source is also reported from Kansas."

Snow's report says: "The past week was very favorable for all crops. Less rainfall and higher temperatures furnished proper conditions, both for growth and for current farm work. Some complaints are heard of lack of moisture in Central Missouri, affecting corn and small grain, but the moisture situation elsewhere is satisfactory. Scattered complaints of rust on wheat blade, especially in Kansas and Nebraska, but no evidence yet of anything more serious than is experienced every year. The fly situation is unchanged, some local injury west of the Missouri river, but not of consequence. The corn situation is improving, but the crop is still late. The oats crop is in high promise.

• • •

Car receipts at Duluth were 3 against 9 last year, and at Minneapolis 201 against 86 last year, making a total for the Northwest of 204 against 95 last year. Chicago received 1 against 20 last year.

Primary receipts of wheat were 264,613 bus, last year 222,268 bus. Shipments 284,-898 bus, last year 131,681 bus. Clearances of wheat and flour aggregated 68,202 bus.

Argentine shipments this week have been 2,712,000 bus against 2,352,000 bus, last week and 1,224,000 bus last year.

In the Liverpool market corn closed ½@⅝d higher. In the Chicago market September corn closed ⅛c higher. September oats closed ⅛-¼c higher. Primary receipts of corn were 443,600 bus, last year 376,776 bus. Shipments 370,550 bus, last year 376,714 bus. Clearances were 22,963 bus. Argentine shipments of corn this week have been 1,815,000 bus, against 2,-706,000 bus last week and 1,896,000 bus last year.

In the Duluth market trading in wheat was quiet and the price stronger. There was nothing doing in the July option. The new September opened ¼c higher at 82⅝c and advanced to 83¾c. The close was at 83¼c, an advance for the day of 1c. The old September option opened ¼c higher at 87⅝c and during the morning had a tendency to rather lag behind the new option, but toward the close it stiffened up and closed at 88¾c, an advance of 1¼c.

Flax was very dull. The July option closed ½c lower at $1.47½. September advanced 1c to $1.30 and October 1c to $1.27½.

Stocks of flax at Duluth are estimated to decrease 250,000 bus this week. Argentine shipments of flax this week have been 464,000 bus, against 472,000 bus last week and 704,000 bus last year.

Oats made an advance of ⅛c.

Following are the closing prices:

Wheat—To arrive, No. 1 northern, $1.12½; on track, No. 1 northern, $1.12⅛; No. 2 northern, $1.04½; durum, No. 1, 87c; No. 2, 86c; July, $1.12⅛; September, new, 83¾c; September, old, 88¾c. Flax—To arrive, $1.48; on track, $1.48; July, $1.47½; September, $1.30; October, $1.27½. Oats—To arrive, 31c; on track, 31c. Rye—On track, 78c; September, 66c. Barley—Feed, 39@42c.

Cars inspected—Wheat, 3, last year, 9; oats, 5; barley, 1; flax, 0, last year, 16.

Receipts—Wheat, 1,413; oats, 2,441; barley, 806.

Shipments—Wheat, 73,786; oats, 200,000.

THE CHICAGO MARKET.

Wheat Acquires Firmness From Heavy Rains.

Chicago, June 16.—Heavy rain in the Northwest and West caused firmness here today in the wheat market. Shorts were active buyers of the September delivery. Commission houses bought freely of both July and September. Higher prices at Liverpool helped to create bullish sentiment. July opened ¼@⅜c to ½@⅝c lower at 87¾c to 87⅞c. After advancing to 88⅛@¾c, the price reacted to 87⅝@⅞c. Minneapolis, Duluth and Chicago reported receipts of 205 cars, against 140 cars last week and 125 cars a year ago.

After July had touched 87½@⅝c, the market developed renewed strength. Throughout the day shorts were active buyers. Fears of damage by rust furnished the chief incentive to purchasers. On the upturn July advanced to 88⅛@⅜c. Some reaction occurred on profit-taking, but the close was strong with July up ⅝c at 87½@¾c.

A firm tone prevailed in the corn market as a result of a small movement. The market was supported by several prominent bulls. It opened a shade to ⅛c higher at 53c to 53⅛c and sold up to 53⅜c. Local receipts were 288 cars with 77 of contract grade.

For a time the firmness was well maintained. Late in the day, however, the market became easier mainly on selling due to an estimate of liberal receipts for tomorrow. The close was at the lowest point of the day with July off a shade at 52⅞c.

An improved shipping demand had a bullish effect on oats, completely offsetting excellent weather conditions. July opened unchanged to ¼c up, at 30⅞c to 31⅛c and sold up to 31¼c. Local receipts were 108 cars.

Higher prices for hogs caused firmness in provisions. Trading, however, was very quiet. September pork was up 5c at $12.97½. Lard was up 2½c at $7.52½. Ribs were a shade up at $7.72½.

Close: Wheat—July, 88⅜@¾c; September, 84¼@⅝c; December, 84¼c. Corn—July, 52⅞c; old, 53⅜c; September, 51½c; old, 51⅞c; December, 47¼c; old, 49⅜c; May, 48⅛c. Oats—June, 31@31⅛c; July, 31⅛@c. Pork—July, $12.67½; September, $13.00; October, $13.05. Lard—July, $7.27½; September, $7.47½; October, $7.50; November, $7.30. Ribs—July, $7.50; September, 7.75@7.77½; October, $7.80@7.82½. Flax—Cash Northwestern, $1.43; Southwestern, $1.25. Rye—July, 66c; September, 61¼c. Timothy—June, $2.90; September, $3.10@3.20. Clover—June, $11.75@12.00. Barley—42@50c. Cash wheat—No. 2 red, 97c; No. 3 red, 90@95c; No. 2 hard, $1.00; No. 3 hard, 92@97c; No. 1 northern, $1.13@1.14; No. 2 northern, $1.07@1.10; No. 3 spring, $1.00@1.05. Corn—No. 2, 54¼@⅝c; No. 3, 54¼c. Oats—No. 2, 30½c; No. 3, 30¼c.

LIVERPOOL GRAIN.

Liverpool, June 16.—Wheat—Spot, nominal; futures, firm; July, 6s 10¼d; Sept., 6s 8⅝d; Dec., 6s 7¾d. Corn—Spot, firm; American mixed 5s; futures, firm; July, 4s 8½d; Sept., 4s 7⅞d.

ELEPHANT ON CITY'S HANDS

Cincinnati Has No License to Sell Captured Liquor.

Cincinnati, June 16.—The city of Cincinnati officially owns one 10-gallon keg of wine, one 2-gallon jug of whisky, one 1-quart jug of wine, four 1-quart bottles of whisky and eight 1-quart bottles of champagne, for which it officially has no use and with which it does not know what to do.

City Solicitor Hunt was appealed to by Secretary Lakeman of the board of public safety, but stated that until he had more information on the subject he could not give an opinion.

Secretary Lakeman explained that the wine and whisky were stolen property captured by the police department. All the other stolen property captured during the past year was recently disposed of at auction, he said, but, not having a Dow law license, the department hesitated about selling the wine and whisky.

This is the first time the question has come up, and Secretary Lakeman, in response to further questions, was somewhat doubtful as to what has become of kegs and bottles captured by the police in previous years. None has ever been sold, so far as the records show, and none except that captured within the past year is now on hand. Possibly, he said, it leaked away.

City Solicitor Hunt said that, while not desiring to question Secretary Lakeman's statements, it might be necessary to prove that the eight bottles really do contain champagne, and to find out the quality of the wine in the big keg.

He promised to give an opinion within a few days.

Improved Daily Service Chicago to New York, Via Pennsylvania Short Line.

"The New York Special" leaves at 8 a. m., arrives at New York at 8:15 a. m. Time, 23 hours and 15 minutes. Extra fare, $5.

NURSERYMEN ELECT OFFICERS.

French Lick, Ind., June 16.—The national conference of the American Association of Nurserymen closed today. A fruit banquet will be served this evening at which native wines will be served. Officers elected were: President, Emery Albertson, Brideport, Ind.; vice president, Orlando Harrison, Berlin, Md.; secretary, G. S. Seager, Rochester, N. Y.; treasurer, C. L. Yates, Rochester, N. Y. The next annual convention will be held at Dallas, Texas.

STATE OF MINNESOTA, COUNTY OF ST. LOUIS, ss.—

In Probate Court.

In the Matter of the Estates of George W. Perry and Della Horton Perry, deceased.

The petition of Samuel Nesbitt having been duly made and filed in this court, representing among other things that George W. Perry, who resided last prior to his death at Madison, state of Wisconsin, died at Madison, in said state, on the 17th day of February, 1883, and that Della Horton Perry, who resided last prior to her death at Superior, in the state of Wisconsin, died at Superior in said state in January 1895, and that each of said persons was seized of an estate of inheritance in certain lands in the county of St. Louis, State of Minnesota, described in said petition, and that five years have elapsed since the death of each of said deceased persons, and that no will has been probated, and administration has not been granted or had of said estates in this state, and praying that the descent of said lands and of the interest of said petitioner therein be by this court determined and said lands assigned to such persons as may be entitled thereto by law.

Now, therefore, it is ordered that the said petition be heard at a term of this court to be held at the Court House in the City of Duluth, in said County of St. Louis, State of Minnesota, on the 10th day of July, 1905, at ten o'clock a. m.

It is further ordered, that notice of said hearing of said petition be given by the publication of this order once in each week for three successive weeks in the Duluth Evening Herald, a daily newspaper printed and published in said St. Louis County, Minnesota.

Dated, Duluth, Minn., June 15th, 1905.

DAVID H. LAWRENCE,
Judge of Probate of Lake County,
Acting Judge of Probate of St. Louis County, Minnesota.
(Seal Probate Court, St. Louis Co., Minn.)
Duluth Evening Herald—June 16-23-30.

STAGNANT MARKET

Stocks Closed Dull But Firm With Slight Advances.

The Volume of Business Was Light and Disappointing.

New York, June 16.—Only about a dozen transactions occurred in the five minutes after the opening of the market. The more prominent stocks quoted were lower than last night, but there was a sprinkling of gains. Wisconsin Central rose a point and Northern Pacific fell ¾. The market was inanimate.

The volume of business was so small during the first hour that a number of the prominent stocks were not dealt in, including St. Paul, Missouri Pacific, New York Central, Louisville & Nashville, Rock Island, Brooklyn Transit and Sugar. Ruling prices were slightly above the opening, Reading rallying ½. Cleveland, C., C. & St. Louis declined 1 and Cotton Oil preferred 2 points.

Stocks were practically motionless until a slight hardening at noon. Northwestern rose 1 and Enameling preferred lost 1½. Japanese 4½ certificates was a feature of the market, with a rise of ⅞ on heavy dealings. Bonds were irregular at noon.

Reading and Leather certificates monopolized the limited amount of business and was marked up a point each. First transactions in St. Paul occurred at 12.30 p. m., which conveys some idea of the general apathy of the dealings. Northwestern got up 2 points in all. Westinghouse Electric yielded 1, Paper preferred 1¼, Lake Erie & Western 1½, Enameling 2⅛ and Philadelphia Transit 3.

Few stocks covered a more extensive range than ⅛ between 1 and 2 o'clock and the price was about in proportion to the markets narrowness. Cur fell ½ while Locomotive preferred improved 1. Reading fell back a trifle when the demand was satisfied.

Nearly all transactions were in Japanese 4½s certificates. The first transaction of the day in Missouri Pacific was made after 2:30 o'clock. Detroit, Southern preferred certificates sold at 42, compared with the preceding sale of the stock at 32 before the re-organization plan was in effect. Pressed Steel fell 1; Consolidated Gas and Securities 1½, and Cleveland, C. C. & St. Louis 3, and Beet Sugar 2. There was no definite tone in the stagnant closing.

Quotations furnished by Edwards-Wood Co., room A, Torrey building.

COPPER GOSSIP.

Boston to Paine, Webber & Co.: Today's market was a repetition of yesterday, dull and firm. Reading gained nearly a point and the general list showed small gains for the day. Calumet and Hecla advanced 15 points from yesterday on very good buying. The movement in other stocks was unimportant. Tomorrow is a holiday in Boston and there will be no session of the exchange.

• • •

Boston to Paine, Webber & Co.: The following circular is this afternoon sent to stockholders of the United States Mining company:

"At the stockholders' meeting held yesterday afternoon 84,000 shares being represented it was unanimously voted to increase the capital stock from 500,000 to 600,000 shares and the new stock was placed in the hands of the directors for disposition. The directors have decided at this time to sell about 70,000 shares and the stockholders are hereby given the right to buy at par, $25 per share one new share for every seven shares owned by them at the close of business July 1, 1905. The transfer books will be closed at noon July 1, and will be opened again at 10 o'clock July 10, 1905. The stock must be subscribed and paid for on or before July 15, 1905. No fraction of shares will be issued. Subscriptions under holdings that are not multiples of seven shares must be adjusted by the purchase or sales of rights. Your directors have voted to pay a dividend on July 15 of 75 cents per share to stockholders of record at the close of business July 1, 1905.

TREASURY BALANCES.

Washington, June 16.—Today's statement of the treasury balances in the general fund exclusive of the $150,000,000 gold reserve in the division of redemption shows: Available cash balance, $185,-685,115; gold, $70,874,364; silver, $30,765,264.

NEW YORK MONEY.

New York, June 16.—Money on call easy, 2¼@2½ per cent; closing bid, 2¼; offered at 2½. Time money steady; 60 days, 3; 90 days, 3¼; six months, 3¼@3¾ per cent. Prime mercantile paper, 3¼@4 per cent; Sterling exchange firm, with actual business in bankers' bills at $4.87.10@4.87.15 for demand, and at $4.85.10@15 for 60 days bills; posted rates, $4.86@4.88; commercial bills, $4.84⅞. Bar silver 58¾c; Mexican dollars, 45¼c. Government bonds steady; railroad bonds irregular.

CHICAGO LIVE STOCK.

Chicago, June 16.—Cattle receipts, 2,000; market steady; good to prime steers, $5.50@6.25; poor to medium, $4.00@5.40; stockers and feeders, $2.75@4.80; cows, $2.60@4.60; heifers, $2.50@6.00; canners, $1.40@2.40; bulls, $2.25@4.25; calves, $3.00@6.40. Hogs receipts, 15,000; tomorrow, 9,000; market strong to 5c higher; mixed and butchers, $5.30@5.47½; good to choice heavy, $5.35@5.50; rough heavy, $4.80@5.25; light, $5.25@5.42½; bulk of sales, $4.35@5.40. Sheep receipts, 8,000; sheep and lambs, steady; good to choice wethers, $4.60@5.00; fair to choice mixed, $3.50@4.40; Western sheep, $4.00@6.00; fair to choice mixed, $4.50@7.25; Western lambs, $5.00@6.65.

THE COTTON MARKET.

New York, June 16.—The cotton market opened steady in tone with prices 6 points lower to 5 points higher. Reading was active and fluctuations during the early session continued rapid, but comparitively narrow. Leading longs seemed to be lightening their load, but there was fresh buying for long account through wire and commission houses. After working up a little from the opening figures the market turned easier under more general selling and by the end of first hour was about unchanged to 2 points lower. There were no rallies, the weather fairly good and smaller bulls were disappointed by the local operator for his recent change of front.

Cotton spot closed quiet, 5 points higher; mid ups, 9.15; do gulf, 9.40. Sales, 115 bales. Futures closed steady; June, 8.63; July, 8.60; August, 8.66; September, 8.72; October, 8.77; November, 8.81; December, 8.86; January, 8.91; February, 8.94; March, 8.97; April, 9.00; May, 9.04.

BLACK MOUNTAIN MINE.

Status of Operations at the Plant.

Houghton Gazette: The Cerro Prieto mine, the bonanza property of the Magdalena district, owned by the Black Mountain Mining company, is pushing work as fast as men can be put on in the mine, and in the installation of the immense plant at the mine and at Magdalena, where it is installing the electric power plant, writes a Magdalena correspondent. S. E. Power, who is in charge of the erection of the latter plant, has finished testing the ground for the foundation here, the weight of the machinery, which is over a ton to the square foot, making this necessary. Each square foot is being subjected to the test of a weight of 6,000 pounds.

The machinery, pipe, lumber, etc., are mostly all on the property, and every detail of the work is progressing smoothly and rapidly. It is hoped to have the stamps dropping within a few months. Ore is blocked out in the mine already to run the plant for several years, and it is the intention of the company to keep continually adding to the number of stamps. About 350 men are on the pay rolls at present, among whom are a number of Chinamen, whom it was found necessary to employ on account of the scarcity of native labor.

A daily stage each way, making the trip in about eight hours over the new road recently built by the company, is a great convenience. An automobile service may be put on later.

N. C. Banks, general manager, with headquarters at the new office in Edwards hotel, is ably assisted by the best mechanics and practical men to be found in any mining district. Frank Cox is superintendent in charge at the mine.

CATTLEMEN ATTRACTED

To the Canadian Northwest By a Great Free Range.

Great Falls, Mont., June 16.—A few years ago Western Canada was chiefly known as a cattle country, but of recent years so much has been said about the magnificent wheat fields of that new land and the amazing yields they give that comparatively little is heard of the cattle ranges.

During the last few years thousands of settlers have passed into Western Canada through the Great Falls gateway, and, although they were destined to pass through the best ranges left in America, most of them were intent upon farming. A number of American ranchmen, however, disgusted with the incessant "wars" between cowmen and sheepmen on this side of the line, and being wearied of the worn-out pastures, have moved their herds over into Canada with most happy results.

Just across the line north of Montana, 400 miles from east to west, and extending 300 miles north, is the best and one of the largest free ranges that ever greeted the cattle and horse producer on the North American continent. This tract of territory is a broad expanse of prairie covered with a variety of grasses and wild pea vine.

This prairie region is watered by numerous rivers, small creeks, fresh water lakes and hundreds of live and sparkling springs. In the vicinity of Edmonton and throughout the Saskatchewan Valley, the heaviest, highest and richest growth of natural vegetation ever enjoyed by wild animal, range or domestic beast is everywhere prevalent. The wild pea vine grows more abundantly in this locality than further south, and in places, on high level bench lands, it grows and looks like alfalfa on an irrigated farm in Wyoming or Colorado. Hundreds of tons of wild pea vine are cut and put up for cattle every year by the ranchers located in the territory. Better feed than this pea vine for growing calves, colts and lambs can be had nowhere. The cattle, horses and sheep always have an abundance to eat and are big and handsome.

Cattlemen from all over the Western states almost unanimously pronounce this the greatest stock country they have ever seen.

Although this is one of the very best horse countries in the world, there are not as yet any herds of considerable size. This industry, however, is beginning to attract attention, and in a few years the Canadian West will be one of the greatest horse producing districts in North America.

Marine.

BOAT TIED UP

Str. James E. Davidson Tangles Up Her Anchor Chain.

Tugs at Work Spinning Her About to Undo the Chain.

Two tugs are at work on the steamer James E. Davidson which is anchored out in the bay, trying to release her. She has been lying at anchor in the harbor just out of the channel for several days and the varying winds have spun her around to such an extent that her anchor chain is twisted and fouled.

The tugs are spinning her back so as to untwist her anchor chain enough to permit of it being raised. The process especially in this wind is long and tedious. It will probably be some time tonight before the job is finished.

STEAMER BURNED.

The Harriet Hart Totally Destroyed By Fire.

Mackinaw City, June 16.—The Harriet A. Hart, a passenger steamer, bound from this place to Detour, Mich., was burned yesterday afternoon when a few miles from Detour. The boat, which was valued at $37,000 and was owned by the Green Bay Transportation company, is a total loss. The vessel carried seven passengers, and these, together with the crew, were picked up by the steamer Junlata and brought here. The fire started in a pile of life-preservers.

THE LEONARD RELEASED.

Port Huron, June 16.—The steamer George B. Leonard was released from the head of Stag island at 6 o'clock last evening by the tug Brockway, after part of her cargo had been lightered on the Newman.

THE MILLS WAS RAISED.

Detroit, June 16.—The steamer J. E. Mills, which foundered near Middle Sister island, Lake Erie, early in May, is at Amherstburg unloading her coal cargo, having been raised by a Port Huron wrecking firm. She will go to Toledo for repairs.

PASSED DETROIT.

GROCERIES AT WHOLESALE TO CONSUMER.

Quality, Price, Service are the all-important points for you to consider when placing your orders for groceries. When you look at the important points mentioned above no concern's line of groceries stand out as pre-eminently as ours. This is a broad assertion but our large and ever-increasing business will bear us out.

If you wish to satisfy yourself as to quality and prices call and we will submit samples and quotations.

We can save you money. A trial order will convince you.

BARTHE-MARTIN CO.,

DOINGS IN MICHIGAN

Woman Bluffs Immigration Officers For Three Days.

Menominee—Sheriff Packer of Menominee county was called to Hermansville to look after a case of deportation that proved too much for Immigration Agent Budlong. A French-Canadian family located at Hermansville about three months ago. The people were paupers, the man being a paralytic and the children all small. They were about to become county charges. The immigration authorities were appealed to and took cognizance of the case. Agent Budlong and two deputies went to Hermansville to attend to the deportation. The woman objected strongly, and being of large stature was successful in holding the officers up for three whole days. The family was finally packed into three rigs that were in readiness and taken to the station, being at once shipped back into Canada.

Sault Ste. Marie—William Egan had a very narrow escape from losing his life in the rapids of St. Mary's river. He was getting drift wood at the head of the rapids and had two logs in tow of his boat. He rowed too near the rapids and the current caught the logs, swinging the boat around and into the rapids. Before he had proceeded very far he saw that he could not row against the current, and that if he stayed in the boat he would be dashed to pieces on the rocks. He jumped from the craft and was immediately wedged up against a large boulder. The boat continued its course down the river and was picked up by Indians. They set out to look for the man, whom they thought would be dead, and found him clinging to the rock, almost overcome by the cold water. They pulled him into the canoe and took him to the foot of the rapids, where he was taken care of by friends.

A yacht belonging to C. J. Thoenen has been destroyed by fire at the West Neebish dock, below the Soo. It is believed that the loss of the boat is due to incendiaries, as the boat was laid up early in the evening and the fire was not discovered until 3 o'clock the next morning. The yacht was one of the finest on the river.

Iron Mountain—Returns from the annual state school census at Iron Mountain indicate that Iron Mountain is increasing in population, the state census to the contrary notwithstanding. The number of children is 3,370, an increase of 75 since a year ago.

Ironwood—Chief Foley of the Ironwood police department has given warning to dealers against placing orders for confetti, bound balls and similar riot-producing contrivances in anticipation of getting rid of the stuff during the firemen's tournament. The use of these things in the streets of the city will not be permitted.

SECOND GREAT DAM

To Be Constructed Across Missouri Near Helena.

Helena, Mont., June 16.—Former Senator T. C. Power has returned from New York and brings positive assurances of the building of a second great dam across the Missouri river near here for the development of electrical power which will be transmitted to Helena and Butte, but which will be utilized principally in the Butte mines, mills and smelters.

Senator Power was informed by Governor Houser, who is at the head of the company owning the present dam, that the details as well as the necessary capital have been worked out and arranged for, and that work will begin at once.

The dam will be built ten miles below the present one, and will cost about $1,000,000 and develop 30,000 horse-power or more. The distance to Helena is fifteen miles and it is sixty miles over the mountains to Butte. The loss will be only 2 per cent in reaching the latter city.

Syracuse, N. Y., capitalists are entertaining a proposition of building still another dam across the river about twenty miles from Helena, a company having just been incorporated in Jersey City.

STEAMER AMERICA
Leaves Booth's dock 10 a. m. Returning on STR. BON AMI leaving Two Harbors at 5 p. m. Fare—50c Round Trip.

"HANG ME AND FREE FATHER"

Is the Plea of Youth to Court In Alabama.

Cullman, Ala., June 16.—While his father, John Williams, convicted of the murder of Senator Robert L. Hipp, lay on the floor of the court room in collapse as the court pronounced death sentence to be executed July 14, Edward, his eldest son, requested the court that he be allowed to take his father's place on the scaffold.

The court, of course, refused to grant the request.

This dramatic scene was the climax of a trial that had continued several days.

Williams has been taken to Birmingham for safe-keeping. He has a wife and eleven children.

His case has been appealed to the supreme court, and his execution will probably not take place for several months, though it is set for a month hence. Concerning the charge of murder against him, he says:

"Hipp and Sheriff Dunlap came to my place a little more than a month ago to serve some eviction papers on me. We sat in the hall and talked the matter over. I went into my room and got some papers which I showed them. The papers referred to the case. They told me that they would have to put me out of my house. I did not object to this, but it was raining and I begged that I may be allowed to stay until next morning. They did agree to this." I went back into my room to replace the papers in a trunk from which I had taken them.

"My pistol was on top in the trunk and I laid it out on the bed until I could put the papers back. I still had my hand on the gun when I looked up and Mr. Dunlap had his gun on me. I thought he was about to shoot and I shot at him. We both shot at the same time. I did not see Hipp at the time I shot at Dunlap. He had gone out at a door behind me and I do not know how I could have hit him. I did not see him until I found him in the yard shot. I know nothing about how Mr. Hipp was shot, but I am certain that I did not shoot at him.

"If I go to the gallows I will make the same statement I have made to you."

LITTLE BUSINESS TALKS.

It is gratifying to note that what is said to be the largest single advertising appropriation ever made—that of the Liquozone company for nearly a million and a half dollars—is to be devoted almost entirely to the daily newspapers.

Nothing is so promising to the future of the business as the way the newspaper is lately coming to be recognized as the one medium for profitable publicity. The department stores and local merchants, the breakfast foods and biscuit makers, the railroads and steamship lines, the theaters and circuses, and first and last the proprietary medicines have come to understand that the newspaper is the great place in which to put their money with an assurance that it will be returned many fold.

The newspapers themselves have been the educators. They have broken the light to the advertiser through sheer force of their own excellence.

Race For Supremacy.

It is interesting to watch the race for supremacy among Minneapolis-St. Paul-Chicago trains. First place is securely held by the Pioneer Limited and the second place by the Fast Mail. Both trains are entirely owned by the Chicago, Milwaukee & St. Paul railway. There are three other fast trains via this line from the Twin Cities to Chicago every day, and there is no extra fare to ride on them. Address W. B. Dixon, northwestern passenger agent, St. Paul, for further particulars, lowest rates, etc.

Low Fare

To New England and Canadian points via "The Northwestern Line." Very low one way rates are now in effect to points in New England states and Canada. Call at City Ticket Office, 302 West Superior street.

DECISIONS BY SUPREME COURT

Six Findings By the Lower Courts Are Reversed.

St. Paul, June 16.—(Special to The Herald.)—The state supreme court today reversed the findings of the St. Louis county district court in the case of Andrew Nelson, respondent, vs. the Mashek Lumber company, appellant. The case was one to collect for the cutting of timber, in which the lumber company alleged a shortage. In the lower court the plaintiff got a verdict.

In the case of Flossie Cater, appellant, vs. Robert H. Stevens respondent, the Mille Lacs county district court is reversed. The case covered a sale of real estate, ordered by the probate court, which the supreme court finds void, because of lack of proper publication.

The district court of Winona county receives a set back in its order, holding for the county in a suit brought by Charles P. Robbins, to recover for medical services given in the case of a county charge.

Dr. Robbins, though not the regular county physician, attended a pauper, who was hurt severely in an accident. The county refused to pay because he was not officially authorized to take the case, and the lower court sustained the contention. The supreme court held that where a county charge requires immediate medical attendance, and the regular county physician is not within call, any physician may officiate and collect a reasonable fee.

Odell Metcalf of Clay county sued J. H. Cillinson because he called him a thief, and the jury gave him damages asked. Because of errors committed by the presiding judge in the admission of certain testimony, the supreme court orders a reversal.

The Hennepin county district court is reversed in the case of Mollie K. Dougan, respondent, vs. Nannie C. and John B. Bemis, appellants. The case covered a real estate transaction, in which the title was to be divided between the two. The plaintiff claimed a breach of trust, which the trial court sustained.

In the case of J. W. Valentyne, appellant, vs. the Immigration Land company, respondent, the findings of the Morrison county district court are reversed. This was a real estate suit also, the plaintiff asking for damages for timber taken from land he had purchased.

VETERANS PARADE.

Louisville, June 16.—The chief feature on the program of the Confederate veterans' reunion today was a parade of the old soldiers. The route of parade covered about three miles and was witnessed by several thousand people.

DANCING
At O-at-ka Beach
Saturday Evening.
Double Truck Cars.

A MUSICAL HEART.

Peculiar Organ of Man Who Recently Dies.

Chicago, June 16.—"The man with the musical heart," probably examined by physicians and medical students more often than any other subject, was the topic of a discussion last night by Dr. J. M. Patton at the meeting of the Chicago Medical society.

Dr. Patton announced that the man, who called himself Lewis and said he was a Russian exile, had died May 30. For fifteen years, after an attack of rheumatism, Lewis had made his living exhibiting himself at medical schools and at conventions of doctors. Owing to a valvular defect, his heart gave out a rhythmical musical sound that could be heard five or six feet away. Dr. Patton showed the heart itself.

BLOW TO CUPID.

Male and Female Nurses Dismissed For Flirting.

New York, June 16.—Cupid has been dealt a severe blow at Bellevue hospital. Four women and seven men nurses have been dismissed for flirting. This pastime is not permitted at Bellevue. Miss Delano, supervisor of the training school for women nurses, and Superintendent Little of the school for male nurses frown strictly upon any semblance of it, and it was they who dropped the eleven nurses.

Seeking a little relief from the tedium of their duties in the big hospital, a party of nurses of both sexes happened to drift together, and Mr. Little caught them. Swift punishment followed. First Miss Delano dismissed the women, and Wednesday Supt. Little let the men go. Now the other nurses keep their eyes facing in lines which are geometrically parallel.

AGED SINGER

Faces a Suit For Breach of Promise.

Lynn, Mass., June 16.—John W. Hutchinson, 85 years old, a famous abolition singer, has been threatened with a suit for breach of promise of marriage by Miss Ellen F. Wetherell, 50 years of age, of Lynn. They formerly appeared on the same platform, when she lectured on freedom for the slaves or in favor of woman suffrage.

Minneapolis, June 16.—John W. Hutchinson is well known in Minneapolis, as it is his custom to visit this city yearly. Part of the time he makes his headquarters in Hutchinson, Minn., which derived its name from this once-famous family of singers.

According to relatives in Minneapolis, this trouble into which Cupid had led the aged singer is not his first experience of the sort. While at the Chicago fair in 1893 Mr. Hutchinson was sued for wooing and failing to carry out his promises, and the fair plaintiff recovered damages to the extent of several thousand dollars.

LABOR UNIONS TO BREAK AWAY FROM PRESIDENT SHEA AND END STRIKE

Committee to Be Chosen Opposed to Continuance of Fight.

The Question of Finances Has Now Become a Serious One.

Further Evidence of Conspiracy Submitted to Grand Jury.

Chicago, June 17.—An early termination of the teamsters' strike was predicted by representatives of the union today, after the teamsters' joint council had arranged for a special meeting of that body next Monday night, when a new strike committee will be appointed. The personnel of the new strike committee, it is said, will be antagonistic to the continuation of the present struggle. One of the first moves of the board, it is said, will be to seek a new conference with the employers, at which a settlement proposal greatly modified in terms will be offered.

A demand for the settlement of the strike is expected to be framed before night at a meeting of anti-Shea delegates in the teamsters' joint council. Several leaders of the drivers are alleged to have broken away from the strike leader, President C. P. Shea, and arranged a caucus at which they plan to canvass the situation and secure pledges enough for the calling off of the strike, and to go before the teamsters' joint council Monday with assurances of success.

George P. Golden, who with a number of others was until recently a stanch Shea adherent, it developed today is the one who made the motion in the council providing for a new committee to be appointed at Monday night's meeting. Golden is the business agent of the Packing House Teamstere' union, and former president of the teamsters' joint council. Among those who are counted on to attend the caucus are representatives of the ice wagon drivers, furniture movers, express drivers, commission drivers, truck teamsters and several members of the teamsters' national executive board.

Admission is made by State's Attorney Healy that the grand jurors have found important evidence apparently corroborating the report that the strike is partly at least the result of a conspiracy directed against the firm of Montgomery Ward & Co., by other employers and by labor leaders, involving the payment of $30,000 in installments of $10,000 and $20,000. If an indictment is voted as a result, the alleged conspirators are likely to be charged with being responsible for one or more murders growing out of attacks of so-called "wrecking crews." The law holds that when persons enter into a conspiracy to do an illegal act they are responsible for everything following the initial plot and that all can be held for the acts of one, even though they have no knowledge of what the co-conspirators are doing or have done.

Hutch McGee, formerly one of the chief lieutenants of Shea, openly advocated peace today. "I know that terms which were acceptable to the majority of the strike leaders and to the rank and file were offered a week ago by the employers," he said. "Overtures made by the teamsters were reciprocated by a certain prominent member of the Commercial exchange. The settlement proposed to be sure was considerable of a compromise for the teamsters, but under the circumstances it was a good one. The teamsters are getting tired of Shea's doings."

The question of financing the strike has become more and more a burden. To pay the strike benefits and other expenses requires $30,000 a week. Since the grand jury investigation, the shrinkage, it is alleged, has been large.

RUSSIA DECIDES THAT SHE PREFERS THE HAGUE AS PLACE FOR THE PEACE CONFERENCE

Asks That the Selection of Washington Be Reconsidered.

Matter Is Under Consideration By Various Ambassadors.

Negotiations Toward an Armistice Are Begun In Far East.

St. Petersburg, June 17, 7:09 p. m.—The question of the place of the meeting of the Russian and Japanese representatives has been reopened and there is a possibility that The Hague, instead of Washington, may be selected. After the announcement that Washington had been selected, Russia expressed a desire to have the selection reconsidered and exchanges to that end are now proceeding between Foreign Minister Lamsdorff and Ambassador Meyer and Washington. Russia's preference for The Hague is based on the obvious advantages that it is entirely neutralized, the capital of a small state and the site of the arbitration court, and also by consideration of time.

Headquarters of the Russian Army, Godzyadani, Manchuria, June 17.—It is learned from an authoritative source that negotiations toward an armistice are under way.

Gunshu Pass, Manchuria, June 17.—Although all is generally quiet at the front and the Japanese are even retiring somewhat South, it is reported that they are steadily extending their lines eastward. There is no indication of the commencement of a general engagement.

RUSSIANS UNANIMOUS

That Peace Terms Must Not Be Humiliating.

St Petersburg, June 17.—The note of the foreign office, announcing that the negotiations for the meeting of the Russian and Japanese plenipotentiaries were proceeding rapidly was printed without comment in the morning papers, but the press of all shades of opinion is discussing Japan's probable terms, and declares with practical unanimity for a continuation of the war rather than the acceptance of humiliating conditions. In this the newspapers are upheld by public opinion, which is steering around to support of the war policy if Japan's terms prove too hard. Only the Nasha Ziesn advises Russia that she need not balk at the payment of an indemnity, the cession of the island of Sakhalin, the renunciation of her right to keep warships in Far Eastern waters, or the surrender of Vladivostok, but the paper holds that Russia must retain Northern Manchuria and the Vladivostok railroad.

The Bourse Gazette, which draws a gloomy picture of Russia's relations with France, Great Britain, Germany and Austria, the Novoe Vreyma and the reactionary Sviet sound hostile notes against the United States. The Novoe Vreyma reiterates that Russia's chief enemies in the Far East are not the Japanese, but the British and Americans, on account of their commercial rivalry, while the Sviet objects to Washington as the place of meeting [illegible] the plenipotentiaries, declaring [illegible] the atmosphere there is unfriendly and asserting that Russia's repre[illegible]es will be subjected to preju[illegible]ences in the capital of the [illegible]."

[illegible]ers comment on the re[illegible] and Duke Alexis from [illegible] admiral, and a gen[illegible]t is manifested at [illegible]ent naval regime

AGENT

Called to Tokio to Discuss New Loans.

New York, June 17.—M. Takahasi, financial agent of Japan, who looked after theflotation here of his country's loans has received dispatches from the imperial minister of finance, summoning him to Tokio at once. He will leave New York June 24, and sail for home on July 3.

He will appear before the imperial cabinet immediately on his return to Tokio and confer with the officers on the advisability of making further large loans in foreign markets, in the event that peace then seems assured. If these plans are carried out it will be with the object of making ready for business conditions which will follow the cessation of hostilities.

Mr. Takahasi said he believed that a new loan could be placed at as low a rate as 4 per cent. In the event of a continuance of hostilities a new loan to carry on the war doubtless will be made within three months. About $140,000,000 of the foreign loan remains on deposit, divided between the banks of America and England.

The financier expressed great admiration for the negotiations in the direction of ending the war inaugurated by President Roosevelt.

GREAT DIGNITY

Will Be Observed at the Peace Conference.

Washington, June 17.—Impressive in dignity and number will be the missions which Russia and Japan will send to the Washington conference, for although the plenipotentiaries will be limited to two or three, the complete missions with their advisers and attaches and secretaries will each, it is expected number twelve or more persons. Japan's plenipotentiaries probably will be accompanied by an army and a navy officer of high rank who will act as military advisers to the plenipotentiaries. In addition there will be secretaries and attaches, some of them from the diplomatic service, some from the foreign office and others who will act as translators and recording secretaries. Russia probably will send a similar mission though perhaps not so large and both the Russian ambassador and Japanese minister at Washington will place at the disposal of the respective missions their secretaries and attaches.

The Washington government will furnish a suitable place of meeting and as soon as a date for its convening is fixed, arrangements for quarters for the two missions will be made by the Russian and Japanese envoys here. There have been so many other important details to be settled that the state department has not yet fixed upon offices for the conference. In addition to the main conference room, retiring roms, offices for secretaries and a reception room will be needed. Either the capitol or the congressional librbary are regarded as perhaps the best suited buildings in Washington, and in view of the indefinite period which the conference may remain in session, it has been suggested that perhaps the congressional library might be preferable to the capitol; for should some unexpected obstruction arise to keep the conference in session until late in the fall the convening of congress in extra session might necessitate the removal of the conference elsewhere. Whatever expenses are incurred incident to the maintenance of quarters will, of course, be borne by the Washington government.

If M. Nelidoff, the Russian ambassador at Paris, comes to Washington as the ranking Russian plenipotentiary, his rank will equal that of Marquis Ito. At first there was some doubt in the minds of the Japanese as to whether M. Nelidoff possessed sufficient rank for a mission of the importance accorded the Washington conference in Japan. Russia, however, at this juncture let it be known that the Russian ambassador at Paris ranked even the Russian minister for foreign affairs. Morever it was pointed out that as the personal representative of his sovereign, a Russian ambassador could be ranked only by a prince of the royal family. Japan has not, of course, objected to the selection of M. Nelidoff, but in view of her expressed intention to select two or three "distinguished personages," she is desirous that Russia choose as plenipotentiaries men of rank and statesmanship who possess the confidence not only of their own government, but of the other powers.

GREAT BRITAIN DEMANDS

Explanation of Russia For Sinking Ship.

St. Petersburg, June 17.—Strong representations are being made here this afternoon, in behalf of Great Britain as a result of the sinking of British steamers by Russian auxiliary cruisers.

The British steamer St. Kilda was sunk by the Russian auxiliary cruiser Dnieper, June 5, in the China sea and it was reported at the time of the battle of the sea of Japan that the Russian's sunk a British steamer in the straits of Formosa. Her name, however, has never been mentioned in cable dispatches and it is generally understood that the report grew out of the capture by the Russians of the British steamer Oldhamia, bound for Japanese ports from New York, March 26, via Hongkong.

FARMER EXCITED

By Extraordinary Discoveries While Digging Cellar.

Winnipeg, Man., June 17.—When John Fallis, a farmer living ten miles south of Crystal City, close to the United States boundary, was digging a cellar yesterday, he happened upon a gruesome find. The spade of one of his workmen unearthed a human skull. At first it was thought to be from the lonely grave of an Indian, but upon renewing the excavation, other skulls were met. By evening forty-eight had been taken from the ground, only two complete skeletons being discovered.

Excited by his discoveries, Mr. Fallis loaded the relics into a wagon and took them to Crystal City, where doctors pronounced the bones to be those of white men. The good state of preservation of the skulls indicated they had been in the ground but a comparatively short time.

The consensus is that the spot was the scene of some battle with the Indians, and that the victims of the conflict were thrown into a common pit in the haste of flight.

THE FRANCO-GERMAN TANGLE UNRAVELS

Situation Which Has Been Very Delicate, Is Relieved.

Is Now No Danger of a Clash Over Morocco.

Germans Send a Reassuring Message to the French.

Washington, June 17.—Germany and France will not come to a clash over Morocco, if reassuring official cables reaching Washington over night from two European capitals accurately represent the situation. Two weeks ago the situation was exceedingly delicate. It has been relieved, however, by the resignation of M. Delcasse. It can be announced that negotiations at Paris between M. Rouvier, the new minister for foreign affairs, and Prince Radolf, the German ambassador, are progressing slowly, but "with good will on both sides," and that "things beween France and Germany are moving harmoniously, it will soon be possible to straighten out existing tangles." The Washington government is fully informed about every move and the feeling here in the highest official circles is not one of uneasiness.

Berlin, June 17, 3:33 p. m.—The foreign office has, the Associated Press lerns, telegraphed to Prince Von Radolin, the German ambassador at Paris, during the last day or two in a sense that will be reassuring to French apprehensions if such were felt in the French cabinet. Germany still presses France diplomatically for her acceptance of the proposal to hold a conference of the powers on the subject of Morocco.

The undoubted disturbance of feeling in Paris over Germany's policy is not traceable to anything actually aggressive that the German government has done or is preparing to do. It is probably due to the feeling of weakenes that has suddenly arisen in France since Admiral Rojestvensky lost the sea fight and the corresponding relative increase in German confidence since it has become evident that Russia need not for the present be reckoned with. The thought in the government, in the army and in the press is that Germany in a military sense has now become master of the continent and that being so, France and every other continental power should recognize that in diplomacy also, Germany has risen to the first place and must be dealt with as the paramount power.

So fully do the German ministers feel the strength of Germany's military and political position that the cautious, circumspect policy of recent years has been replaced by a more definite, positive tone toward Russia, toward France and toward Great Britain also. The spirit of confidence in the army runs immeasurably high. The young officers long for war. That is the constant talk in regimental quarters. Foreign attaches here have recognized the change in the bearing of the German foreign office since Russia has been inextricably involved in the Far East. The sentiment in the military body are not likely to influence the emperor and Prince Von Buelow, but they are extremely interesting. A foreign officer said to the correspondent of the Associated Press that although it is a favorite utterance of the German office that Germany is always ready for war and that nothing could be done today that is not already done except actual mobilization, yet the entire reserves of rifles are of the old model of 1888 so that if Germany were at war today she would be using an antiquated weapon. This foreign officer also said that the German field pieces fired seven shots a minute to the French twenty-one or twenty-two. The correspondent inquired why then should the German officers be so confident.

"Because," he replied, "they are aware of what they regard of more important defects in the French and other continental armies."

HEAVY RAINFALLS DO GREAT DAMAGE

Torrential Showers Wash Out Bridges and Ruin Crops.

St. Paul, June 17.—(Special to The Herald.)—Reports from the surrounding country tell of one of the heaviest rainfalls during the past twelve hours that has been known for years. In this city the rainfall was three-fourths of an inch in less than hour. For several hours the sky appeared very threatening, and a tornado was looked for, as the air was very sultry. There was, however, little wind in this vicinity, but near Hudson, Wis., about twenty miles northeast, a storm resembling a tornado passed, doing some damage to trees. When it struck Lake St. Croix the storm expended itself.

At Stillwater the heavy rainfall flooded cellars. Much lightning accompanied the rain, but did no damage.

Reports from Winona today indicated that a tornado had struck Eagle Lake, Minn., but it proved to be only a severe blow with much rain, which damaged trees only. In the vicinity of Winona 2.2 inches of rain fell. The bridge of the Chicago, Milwaukee & St. Paul road, at Minnesota City, was washed out, and trains there are being sent around over the Burlington road. The Great Western railway has 300 feet of track washed out at Gilmore and no trains are running there.

The Northwestern has a washout at Dover. A number of bridges are out in Winona county, and some roads are blocked by landslides.

The wind blew down many wires in various places. There has been such an abundance of rain in the Northwest that growing crops are seriously menaced, and a continuance of the wet weather is liable to cause much loss to farmers.

La Crosse, Wis., June 17.—Washouts worse than any others the railroads have experienced this year have been caused by the heavy rains of yesterday and last night. Fifty miles of stations on the Chicago, Milwaukee & St. Paul from La Crosse to Wabasha, Minn., are deprived of railway service as the result of a washout at Minnesota City. All trains on the Milwaukee road are now running on the east side of the river north of La Crosse. The Northwestern has also had bad washouts near Winona and all trains today were several hours late. All the rivers are again rising.

WEAVER WANTS NO POLITICS TO ENTER

Into Movement to Reform Abuses of Municipal Government.

Philadelphia, Pa., June [illegible] Weaver today issued a state[illegible]ing on the letter signed by [illegible] business men and addresse[illegible] Miles, chairman of the Rep[illegible] committee, urging the co[illegible] reform the Republican part[illegible]

The letter suggested that nev[illegible]inations be made for the fall elec[illegible]

The mayor's statement is as fo[illegible] lows:

"I know nothing about this movement, neither as to its origin nor its purpose. It is a trivial interposition at this time. Some of the gentlemen whose names appear on the address I am sure cannot have understood the true significance and the possible effect of their action.

"This injection of paltry politics at this time is unfortunate. The efforts I am making to reform the municipal government and expose the past abuses have given me no time to consider political questions.

"It would be treason to a holy cause to involve it in partisan politics. It makes no difference what persons, what parties, or what organizations fall as the result of their participation in municipal wrongs and crimes of the past. Let them fall.

"They must fall and be dethroned before the work in hand can be completed impartially and honestly, and the affairs of the people placed on a firm and secure foundation for the funeral. I will consider no politics until this work is done.

"Treating with the present Republican [illegible]anization over the question of its [illegible] for sheriff and coroner is a futile [illegible]isleading diversion. It makes no [illegible]e who and what organization [illegible]e ticket at this time. This is [illegible]st over a sheriff and a cor[illegible]hall not permit it to be re[illegible]a lame and impotent con[illegible]help it. Therefore, I [illegible]hus strongly in order [illegible]s of municipal re[illegible] government may [illegible]nst either subtle [illegible] would divert [illegible] and possibly [illegible]rent source

[illegible]portance [illegible]e for [illegible]l of [illegible]lic [illegible]

The [illegible] today [illegible] good gov[illegible] thirty emp[illegible] health. Geo[illegible] of the departm[illegible] charities, states [illegible] removed are valuab[illegible] being so, it is regard[illegible] vacancies will be fille[illegible] Weaver has not as yet [illegible] tentions in the matter. [illegible] that Mayor Weaver has [illegible] every man who has had any [illegible] frauds believed to have been p[illegible] on the city in connection with the [illegible] tion system as well as in other co[illegible] work, shall be arrested and prosecu[illegible]

The mayor's advisors are urging on h[illegible] the most drastic measures against men high in the Republican organization and preparations for arrest of these men are said to be well under way, but the actual arrests will not be made until Elihu Root, private counsel for the mayor shall give the word.

WAR GAME IN CHESAPEAKE BAY IS DRAWING TO A CLOSE

Fort Monroe, Va., June 17.—The last day of the war game opened with an attack on Fort Monroe at dawn by the destroyers and the gunboats of Admiral Dickin's fleet. Just before dark and daylight there is a brief period when conditions are most favorable for offensive naval operations, it being too light for the searchlights to be effectively operated and too dark to see without them.

These conditions were taken advantage of by Admiral Dickins this morning and 3 of his destroyers and 2 gunboats crept close to the walls of the fort before they were discovered. An incoming steamship also gave protection to the mosquito fleet which banked itself in the lee of the big ship and floated close in before being seen. The fusillade was brief but lively and at its conclusion the offending craft departed toward the capes.

The fleet is visible in the distance and the officers of artillery expect the game to end in a fusillade at noon.

THOUSANDS OF PEOPLE SPEND NIGHT ON FOG BOUND BOATS

Detroit, June 17.—Eleven hundred people who started out last evening on the steamer Columbia for a moonlight ride were forced to spend the night on the steamer which went aground at the foot of Peche island. A fog hung over the river and the Columbia missed the channel while steaming toward Lake St. Clair and went hard aground on Peche island. The excursionists made the best of the situation and spent the night dancing and singing. The Detroit, Belle Isle and Windsor Ferry company, early today, when word was received here of the stranding, sent the steamer Promise to the Columbia's aid. The passengers were transferred to the Promise and brought to port. There was no panic nor excitement among the passengers at any time.

Twelve hundred moo ilight excursionists from Wyandotte, Ford and other down-river points had a similar experience to that of the people on board the Columbia, except that their steamer, the Pleasure, spent the night tied to a dock instead of aground. The Pleasure was cruising up and down in the lower section of the river when the dense fog suddenly fell. Through it the Pleasure's captain could make the lights at the Tecumseh salt block, several miles below the mouth of the Rouge river and as the river in that vicinity has a number of low marshy islands on which there was danger of stranding, he headed for the salt block dock. There the Pleasure was tied up from 11:15 last night until about 7 o'clock today. The excursionists made the best of their enforced stay by dancing until daylight. Some of the more fortunate ones were taken home by small launches which felt their way up through the fog from Wyandotte after word was received there of the excursionists' plight.

TO OBSERVE SUN ECLIPSE

Lick Observatory Will Send Expeditions to Three Points.

San Jose, Cal., June 17.—Prof. E. W. Campbell of Lick observatory, accompanied by other scientists will go on an expedition to observe the total eclipse of the sun, which will occur August 30. Three expeditions will be sent out by Lick observatory, one to Spain, one to Egypt and one to Labrador. Prof Campbell will lead the expedition to Spain, accompanied by Prof. Perrine of Lick, and another assistant from Marietta, Ohio, college. The point of observation will be between Madrid and Saragossa. A complete apparatus, including cameras and spectroscopes will be taken along. It will take six weeks to get them mounted and adjusted, the work being wholly photographic. Some of the most distinguished scientists of England, Germany and Sweden will go to the above named points for observations. The expedition to Labrador will be under charge of Dr. H. N. Curtis, accompanied by Prof. Stebbins, now of the university of Illinois. They will locate about 200 miles north of Newfoundland, on the Eastern coast at the Hudson Bay company's station, called Cartwright. They will be assisted by Dr. Wilfred Grenfel, the clebrated missionary among the natives of Labrador.

The expedition to Egypt will be under charge of Prof. Hussey of Lick observatory. He will have as an assistant Prof. West of Bierut, Syria, formerly a student of astronomy at Princeton university. Another important object of these expeditions is to try to locate the intramercurail planet commonly called Vulcan, which is supposed to exist but has never been seen.

ROBBER CAPTURED

Attempting to Break Into House of Harriman.

New York, June 17.—Three burglars have been surprised while in the act of beraking into the Fifth avenue residence of E. H. Harriman, the railroad magnate. After an exciting chase, in which two pistol shots were fired, one of the men was captured. Residents of the fashionable quarter were much excited by the shooting. The Harriman family was not in the house and the burglars would probably have been richly rewarded had they not been so opportunely discovered.

FOR EMPEROR'S CUP.

Thirteen Yachts Start on the Annual Race.

Dover, Eng., June 17.—Thirteen yachts started from here today in the annual race from Dover to Heligoland for Emperor William's cup in a heavy rainstorm and with a light wind blowing.

Shortly afterwards, at about noon, the American yachts Atlantic and Apache and the British yacht Valhalla get away in a fog over the same course for a special cup offered by Emperor William for the auxiliary yachts which participated in the recent trans-Atlantic race.

CAMP CLERKS IN SESSION.

Milwaukee, June 17.—More than 600 delegates were present today when the fourth anual national convention of local camp clerks' association of the Modern Woodmen of America was called to order at the Republican house. Perhaps the most important subject under discussion today was the inhibition against all men associated with the liquor traffic.

ANNIVERSARY

Of Battle of Bunker Hill Observed In Boston.

Boston, June 17.—Practically all the business activities of greater Boston were suspended today in observance of the aniversary of the battle of Bunker Hill. The patriotic celebration centered as usual in Charlestown, the scene of the famous fight. There was a parade of the militia and bluejackets from the warships. Various outdoor events attracted large numbers of people.

STRAHLE IS TO BE CHARGE D'AFFAIRES.

Stockholm, June 17.—Gustavus Strahle of the foreign office starts this evening for Washington as Swedish-Norwegian charge d'affaires, the legations abroad continuing to represent both countries, as Sweden does not recognize the dissolution of the union. He says he will be glad to renew his acquaintance with people at Washington, as he has pleasant recollections of his secretaryship there.

CAPTURE OF WARMBAD BY HOTTENTOTS CONFIRMED.

Capetown, Cape Colony, June 17.—Confirmation has been received here of the report that insurgent natives recently captured Warmbad, German Southwest Africa, near the border of Cape Colony. The attacking force of Hottentots was led by Abraham Morris. They captured the place June 2, and evacuated it almost immediately afterwards, taking away all the ammunition and stores, but releasing their prisoners. The German officers escaped.

The same force of natives also captured Kalkfontein, June 2, looting the place and taking away all horses, cattle and provisions.

TWO KILLED BY LIGHTNING.

Pittsburg, June 17.—Two Germans, Frederick Fuson and Gustav Spuszher, were found dead today in an abandoned house at Harwick, Pa., near here. It is thought they were struck by lightning during a severe electrical storm last night.

HAPPENINGS IN DAKOTAS

Clerk of Courts Morse Blows Off His Head.

SOUTH DAKOTA.

Pierre—James W. Morse, for eight years clerk of courts, committed suicide in his home by blowing off his head with a shotgun, putting the barrels in his mouth and firing both of them. Despondency on account of continued ill health is supposed to have been the cause of the act.

Senator Kittredge appeared before the board of pardons on the application of Lambert Jones, who was sentenced for life from Charles Mix county on a murder charge. The board recommended a pardon in this case, but left others for further consideration.

The old settlers of Hughes, Stanley and Sully counties held their annual picnic on Morion island. It was limited to members of the association and invited guests. Congressman Kinkaid of O'Neill, Neb., one of the earliest settlers here, delivered the address.

Sioux Falls—Mrs. Ada E. Goddard, aged 56, of Marshall, Minn., who was here visiting her daughter, Mrs. Sibb Peterson, swallowed an ounce of carbolic acid today and died within fifteen minutes. She was released from the asylum at St. Peter, Minn., last October, and was to have been brought before the lunacy board this morning for return. She attempted suicide at Marshall last August, but was frustrated.

Helgo Arneson, a farmer who lived between Battle and Colton, north of Sioux Falls, died from injuries sustained on the night of the 5th inst., by falling from a third-story window in a Sioux Falls hotel. He had his skull fractured and sustained other injuries.

Fargo—General Manager Heath of the Fargo and Moorhead street railway seems to be unpopular with citizens of Moorhead, and as a result an effort is being made to have the franchise forfeited. There were two conditions to the franchise that the Moorhead people assert have not been fulfilled. The line to the Moorhead courthouse was to have been completed by July 1. Moorhead men assert the work has just started and it will be impossible to complete it within the time limit.

The tracks off the paved streets have not been filled in with slag as promised and a committee of the Commercial club arranged a conference with the manager to discuss matters. Dr. D. C. Darrow, as chairman, started to read its findings and became angered at Heath's repeated interruptions. The action of other members of the committee prevented an altercation, but no results were obtained from the conference. It is asserted that the sixty-day notice for the forfeiture of the franchise will be served July 1. Moorhead is also indignant over the car service to Fargo when there are theatrical and other attractions and assert a lack of courtesy by the manager.

A year ago Dr. Johnson, a Fargo dentist, created a scene in Washington by attempting to have a conference with Postmaster General Payne. He and his sister, Mrs. Edith C. Taylor, are both held here pending an examination as to their sanity. They grew to maturity here and their father was sent to the asylum, where he died. Dr. Johnson practiced for some time at Ada, Minn., and later they returned to this city, where their actions have attracted much attention. Dr. Johnson claims to be the inventor of a valuable dental article and asserts he has been defrauded by others. He also asserted that registered mail packages never reached their destination and it was on this point that he sought an interview with Postmaster General Payne.

Fargo Congregational college is to have a new building. The trustees have decided to have the foundations put in this fall and the building erected in the early spring. It will be used by the musical and commercial departments and by the gymnasium, and will have three stories.

Jamestown—The firemen's state tournament closed Thursday, the races being interfered with by rain. The results Thursday were: Association hook and ladder, 400 feet, Cooperstown won. Running team, 17 seconds; final, 24⅘; Mandan got second prize.

Association hose race, Lakota won, 30 1-5. Hook and ladder hub-and-hub race, Cooperstown won, 17 seconds; Mandan second, 19. Hub-and-hub hose race, Larimore, 24 2-5; Wimbledon, 25 1-5; Dickinson, 25 3-5. Hose companies, wet tests, Larimore first, 41 seconds flat; Dickinson got second place. Lakota third. Hook-and-ladder service test, Cooperstown first, Mandan second.

In the association ladder-climbing contest, Flynn was first, Anderson second, Lizer third. All are of Cooperstown; other cities did not compete. In the coupling contest, Edwards and Gering of Larimore were first, Metcalf and Gaustin of Lakota second. Combination races, Cooperstown and Lakota first, Mandan and Larimore second.

ORDINANCE CHANGED

Committee Will Recommend Amendments to Proposed Smoke Law.

Report on Revision of Building Ordinance Is Due.

Several important changes are likely to be made in the proposed smoke ordinance which will be reported back to the council Monday evening for action.

At a conference held yesterday afternoon in Alderman Wilson's office between Aldermen Wilson, Waugh and Getchell of the ordinance committee of the council, and representatives of the Northern Pacific and the two range roads, some radical changes in the ordinance as it now stands were agreed upon.

The railroad representatives claimed that the ordinance, if enforced, would prohibit the running of locomotives in the city, owing to the fact that a certain amount of dense smoke must be emitted from an engine for a few minutes after the fire is put in.

The aldermen were convinced that the case of the railroad companies was not without merit, and radical changes in the ordinance will doubtless be recommended Monday evening, when it will again come up for discussion.

The committee report on the proposed changes in the building ordinance is also about due.

The ordinance and the changes desired have now been under consideration by the council committee, the building inspector and the representatives of the Duluth Builders' exchange for several weeks, but no report has yet been received by the council concerning the desired modifications.

The principal points which are being discussed in regard to the ordinance are the regulations regarding concrete block buildings, the thickness of sustaining walls in brick buildings, and the necessity for constructing fireproof walls between the stage and the auditorium in theater buildings.

It is possible that a report of some description will be presented to the council Monday evening, although the committee is not yet ready to make a final report on the modifications desired.

ATTENTION KNIGHTS!

All members of Amythest Co. No. 11, U. R. K of P. will report at 113 West Superior street, at 9 a. m. Sunday, June 18th, 1905, in uniform to act as escort to cemetery.

By order of
S. L. PIERCE, Capt.

ROOSEVELT ON GRAFT TRAIL

Sets His Men to Searching Out Deals In Departments.

Washington, June 17.—Five of the most active and trusted officials in Washington are conducting a sweeping investigation of all departments under the personal supervision of President Roosevelt, with a view to improving the service and reducing the expenses of the government.

The special commission is made of James R. Garfield, commissioner of corporations; Gifford Pinchot, chief of the bureau of forestry; Charles W. Keep, assistant secretary of the treasury; L. O. Murray, assistant secretary of the department of labor and commerce, and H. Hitchcock, first assistant postmaster general.

The commission has been working so quietly that the fact has not yet become generally known. Some sensational shake-ups are expected to result.

The president has become convinced that the government is paying too high for much of the work done on the government buildings, and that various supplies are sold to the government at much higher prices than they can be purchased for by private parties.

There is a well-defined suspicion in his mind that contractors have entered into "gentlemens' agreements" in making bids on government work, and that the heads of departments have not exercised sufficient diligence in looking after the government's interests.

Some of the plumbing work that has been done in the various departments has cost too much, he thinks, and the bids indicate that the contractors have considered Uncle Sam legitimate prey to get high prices out of him. On electrical work the charge made by the contractors has been so high in some instances that the government has thrown out many bids and done the work by day work, employing its own electrical workers.

These are but a few of the cases in which it is said the government has been bled, and while it is hardly expected that any grafting scandals like those developed in the postoffice department will be unearthed, the fact that such an investigation is under way has caused considerable anxiety in official circles.

Then there has been a comfortable practice in many of the departments for bureau chiefs and other subordinates to take advantage of the least excuse to go on junketing trips. One case discovered by the commission relates to the delivery of an important document to a point in the Southwest, when a registered letter would have sufficed.

Another case cited is that of an official in the treasury department who wanted to take his wife and family to a Western city, decided that the furniture of the new federal building there needed his personal inspection. This practice is to be stopped, and notice has been served to that effect on all bureau chiefs.

OLD MAN

Hangs Himself on Farm at Little Sauk.

Long Prairie, Minn., June 17.—A suicidal wave seems to have visited this section of the country. Another suicide is to be recorded in the death by his own hand of Fedinand Yeska last evning. He was past 75, and of late has made his home with his daughter, Mrs. Ferdinand Luke of Little Sauk. Mr. and Mrs. Luke were on a visit at Springfield, and their son has been looking after the farm and keeping the old man company. Yesterday he missed his grandfather and, after a short search, found the body hanging by a rope from the fourth step of the granary stairs.

Amos Hale, a well-known farmer of Reynolds, had a narrow escape from death by lightning. He and his wife were engaged in milking as the storm began to gather, and as it broke he rose and moved toward the house, but was urged by his wife to remain and finish the milking. This he was about to do when a vivid flash of lightning made him senseless. His wife was unhurt.

DOINGS IN MICHIGAN

Malcolm Campbell Dies of His Injuries Received In Mill.

Manistique—Malcolm Campbell, who was seriously injured by a circular saw in the Simmons Lumbering company's mill, died at Manistique of his injuries. The man was not severely hurt, but much time elapsed before medical aid could be obtained, and the loss of blood was so great that he could not pull through. Campbell was fifty years of age and was the father of four children. He held a responsible position as filer with the Simmons Lumbering company, but it was not while engaged in his regular work that he received the wound resulting in his death. While he was working at the adjustment of a lath machine his hand was caught in the pulley of a belt and it was his effort to extricate it that threw his arm onto the saw.

Crystal Falls—The famous Delliofiore murder case is to be tried before Judge Stone at Crystal Falls on June 19. The case should have come on the 5th, but, owing to the fact that two of the attorneys were members of the state legislature, the judge consented to postpone the entire June term for Iron county until the 19th. The state is to be represented by Prosecuting Attorney Charles Watson of Iron county, while the defense will be conducted by Senator Moriarity, with Senator W. N. Mills as counsel. The crime for which Delliofiore is to be tried is a murder alleged to have been committed in a saloon brawl at Amasa on Christmas eve, 1903, at that Delliofiore killed a man there by shooting with a revolver. The case came up at the previous term of circuit court in Iron county, but was continued on motion of the defense.

Sault Ste. Marie—At a council session this week Mayor Perry of the Soo appointed a large committee of representative citizens to take up the work of initiating the local arrangements for the semi-centennial celebration of the canal. The general committee is to be divided into sub-committees, which are to be thoroughly organized.

At a Soo council meeting this week City Attorney Shine reported on the Forest matter, stating that in his opinion the council cannot unseat Alderman Forest because he was twice convicted in police court of violations of the liquor laws. The report covered ten typewritten pages, being exhaustive. In conclusion the city attorney said: "It is my opinion, after careful investigation of the law on all the charges presented, that there is no legal ground upon which to base a removal. I might suggest that aside from the legal disqualifications the question of the fitness of an elective officer to an office is usually left to the judgment of the electors in the word or district from which he is elected."

FIRE AT MT. VERNON, ILL.

Mt. Vernon, Ill. June 17.—A great part of the business section of Johnson City has been destroyed by fire. The loss is estimated at $100,000.

HAPPY WOMEN

Plenty of Them In Duluth, and Good Reasons For It.

Wouldn't any woman be happy,
After years of backache suffering,
Days of misery, nights of unrest,
The distress of urinary troubles,
She finds relief and cure?
No reason why any Duluth reader
Should suffer in the face of evidence like this:

Mrs. C. M. Bradley, dressmaker, living at 109 First street east, Duluth, Minn., says: "Since giving a testimonial in 1898, telling of the gratifying results obtained from the use of Doan's Kidney Pills, my faith in them has continually increased, for besides my own experience I have known of numerous friends and acquaintances who have learned the reliability of Doan's Kidney Pills in severe cases of kidney trouble. I suffered a great deal from heavy, dull pains in the small of my back, and it was impossible for me to bend over or rest at night with any degree of comfort. I used only about half a box of Doan's Kidney Pills when I noticed a wonderful improvement. The kidney secretions were regulated and toned up, and the pains gradually disappeared, until I was entirely free from my former trouble."

For sale by all dealers. Price, 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

WOODMEN MEET

At Milwaukee, Representing Thirty-Eight States and Territories.

Wonderful Growth and Popularity of the Modern Woodmen.

Milwaukee, June 17.—Thirty-eight states and territories will be represented in the Woodmen national convention, meeting at Milwaukee, June 19-25, by 476 delegates, each representing 1,500 members of the society in good standing, not including head officers and members of standing committees. Besides these, each state and territory will be represented by battalions or uniformed Foresters, made up of the degree teams attached to all the Woodmen camps, or lodges.

The national convention of the Modern Woodmen is now counted as one of the four big American national gatherings—the Democratic and Republican conventions and the G. A. R. encampment being the other three. The citizens of Milwaukee have raised a fund of $15,000 for the entertainment of the Woodmen convention, which will convene on Tuesday, June 20th. The Woodmen Foresters encampment, also meeting at Milwaukee, opens on Monday, June 19th, and continues throughout the week of the convention.

At the national convention in Dubuque, Iowa, in June, 1897, 35,000 Woodmen were present; in 1899 the Woodman convention of Kansas City attracted 40,000 Woodmen, and the convention held at St. Paul, Minn., in June, 1901, brought over 50,000 Woodmen to that city. The Cream City is peculiarly well situated in the center of the Woodmen society's great membership of over 744,000, and it is conservatively predicted that the coming meeting will bring together not less than 65,000 Woodmen.

For a society still in its infancy—at least as compared with societies like the Odd Fellows, Ancient Order of United Workmen, Knights of Pythias, etc.—the Woodmen organization is unique in that it holds the largest conventions of any fraternal society in the United States. Indeed, at the present time the Modern Woodmen is the largest fraternal beneficiary society doing business in the Western continent. It has a membership of over 744,000, divided among more than 11,000 local camps, or lodges, and maintains at the present time over $1,200,000 000 insurance in force on the lives of its members.

Since the first Woodman camp, or lodge, was organized, on January 5, 1883, at Lyons, Iowa, there have been close to $47,000,000 disbursed in the payment of over 26,000 death claims. During the last two years alone $12,663,603 have been disbursed to beneficiaries of dead Woodmen from the society's benefit fund.

Joseph Cullen Root, the present sovereign commander of the Woodmen of the World, was the founder of the Modern Woodmen of America. He organized the first local camp at Lyons, Iowa, on January 5, 1883, and was elected the first provisional head consul, in which position he continued until the meeting of the national convention at Springfield, Ill., in 1890, when W. A. Northcott of Greenville, Ill., succeeded him. Mr. Northcott was reelected each succeeding two years until the head camp in Indianapolis, Ind., June, 1903, when he voluntarily retired and Hon. A. R. Talbot, of Lincoln, Neb., was unanimously chosen to succeed him.

Mr. Root has told the story of the origin of the Modern Woodmen in a book. He says the society "was the offspring of much thought, study, and investigation, dating for its beginning back to the year 1880." He explains that "his first problem was to select a name," and then he tells how it happened.

One Sunday in July, while listening to a sermon by the Rev. Sidney Crawford, in the First Congregational church at Lyons, Iowa, he heard the preacher speak of "woodmen clearing away the forests." Says Mr. Root: "It was like the appearance of a rainbow of beauty and promise after a summer shower. The Woodmen! The name suggested a useful employment. It suggested sturdy health, vigor and life. It was a new name for a fraternal organization, and, therefore, 'Modern.' It was indigenous to the soil of the land, so what could be more appropriate than to add 'of America?' Thus was the name selected—the Modern Woodmen of America."

This is Mr. Root's explanation, but others have since claimed that the name was simply an adaptation of the "Order of Wood Splitters," a society which existed in France in the seventeenth century. The local lodges, or camps, of the ancient French society, were "yards," the members were called "cousins," and the candidate for admission was a "steel."

Louis G. Blaine of Lyons, Iowa, circulated the first petition for a Modern Woodmen camp charter, and on Jan. 5, 1883, as stated, the first camp of Woodmen was organized with twenty-two charter members. It was called Pioneer camp, No. 1, and still flourishes. At the same time the first provisional head camp was organized, Mr. Root being elected head consul; Albert Hilton, head clerk, and Louis G. Blaine, head banker. Six months later Mr. Root prepared the funeral and burial ceremonies that were used for the first time at the grave of John Ott of Lyons, Iowa, on Sunday, July 1, 1883. He was a member of another society and the new service was used by substituting the name of Mr. Ott's organization.

The second local camp was organized at Fulton, Ill., by Thomas L. Taggart; Dr. Henry M. Kennedy, who afterwards became head clerk, and who, about nine years ago, lost his life in a South Dakota blizzard, was the first signer of the charter petition. The Fulton camp was organized with eleven members, in the basement of the First Baptist church, and was named Forest camp, No. 2.

The third camp was organized by Dr. J. Haller, Lanark, Ill. Soon after the organization of the camp at Lanark, Ogden H. Henderson, a lawyer, seeking outdoor employment for the benefit of his health, was engaged by Head Consul Root as an organizer. He instituted the fourth Woodmen camp at Mount Carroll, Ill., and this was the first camp of the Modern Woodmen organized by a deputy head consul. The date of its charter was June 3, 1883.

On June 28, 1883, there were, all told, seven local camps in active operation. On that date the first regular head camp or national convention of the society was held at Fulton, Ill. Five local camps were represented by delegates. At this meeting the original fundamental laws were revised and adopted. The society's jurisdiction and age limit for admission of members were defined, a table of assessment rates was fixed, and, with the election of a full set of head officers, with laws formally adopted for their guidance, the society for the first time had a regular and orderly government. The first regularly elected head officers were:

Head consul—J. C. Robt, Lyons, Iowa.
Head adviser—E. D. Leland, Lanark, Ill.
Head banker—A. M. Green, Mount Carroll, Ill.
Head clerk—A. Hilton, Lyons, Iowa.
Head escort—G. B. Jackson, Tampico, Ill.
Head physician—Dr. H. M. Kennedy, Fulton, Ill.
Head watchman—H. Frazier, Lyons, Iowa.
Head sentry—G. Gernsie, Erie, Ill.
Head managers—C. C. Farmer, Mount Carroll, Ill.; S. H. Zimmerman, Polo, Ill.; J. J. Ward, Sterling, Ill.

E. D. Leland of Lanark, Ill., who was the first head adviser, was a delegate to the Indianapolis national convention in 1903, and will also attend the coming Milwaukee meeting.

The first death of a member of the Modern Woodmen society was that of Ab. Meyer of Davenport, Iowa, on July 14, 1884. He held a certificate for $1,000, and his beneficiaries received the proceeds of one assessment levied on the entire membership at that time, which brought about $800. However, all succeeding claims were paid in full, the society's growth being so rapid thereafter that one assessment netted an amount more than sufficient to satisfy the face of the certificate.

At the close of the year 1888 it appeared that no circumstances could in the future hold the society's growth. But uninterrupted success, coupled with official absolutism, caused the head officers to lose sight of the interests of the membership in the more profitable pastime of feathering their own nests. Head Consul Root and other head officers became locked in a fierce quarrel over money matters. Some seemed to be getting too much of the good things and others were not getting enough. The fight came to a head in the arbitrary removal of the head physician at the dictation of Head Consul Root and the resignation of H. M. Kennedy on Dec. 5, 1889.

This action was followed by a visit to the society's head office in Fulton, Ill., of the Illinois state auditor, and his report, subsequently submitted, was a blistering indictment of the Root administration. He charged that the books and accounts of the society were being kept in an irregular and unbusiness-like manner; that certain books showing financial transactions had been mutilated; that moneys from the benefit fund had been wrongfully used; that Head Consul Root had collected large amounts of money belonging to the society and was withholding them; that the head consul was defrauding the society in the sale of supplies; that the head consul and other officers of the society caused to be paid on Feb. 8, 1890, "a false and fraudulent claim of $3,000, pretended to be on the death of John Burnum, when in truth and in fact there was no such member of the society, and no such person died, and the claim was fraudulent and wholly fictitious."

These and innumerable charges of like character were all embraced in a petition to remove the guilty head officers, and filed in the Whiteside county circuit court by Attorney General Hunt of Illinois. The institution of this action by the state's authority completely overwhelmed Head Consul Root and his supporters, and the result was a complete reorganization of the society at the national convention held in Springfield, Ill., in November, 1890.

Head Consul Root and his entire staff of head officers were retired; not one was left. Hon. W. A. Northcott, now past head consul, was elected, as was also the present head clerk, Maj. C. W. Hawes. Maj. Hawes has continued in the position of head clerk ever since that date.

The society has now a total membership of over 744,000, with insurance in force of over $1,200,000,000. The headquarters are located at Rock Island, Ill., and are in charge of Head Clerk Maj. Hawes, who employs a staff of about 150 clerical assistants to handle the enormous business of the society in the thirty-eight states and territories of its jurisdiction.

COPPER AND GOLD.

More Rich Discoveries Near Surface at Helena.

Helena, Mont., June 17—Rich copper-gold ore has been found in one of the principal streets of Helena. While excavating at Broadway and Davis streets for water mains, and in soil which had never before been disturbed, workmen found a chunk of ore weighing about seventy-five pounds. This was broken and found to be heavily charged with copper and gold.

From the shape of the stone, it is evident that it had not traveled for form its ledge, old mining men estimating the distance at from 40 to 1,000 feet. The ore will be assayed, and it will then be determined if prospecting for the ledge shall proceed. This would necessarily be an expensive undertaking, because the city is thickly built up in that vicinity and extremely rich ore would be required. The ore was found at a depth of only ten feet.

From Butte to Helena in an automobile in virtually four hours, practically the same time consumed by Great Northern passenger trains, has been accomplished in an ordinary steamer by Al Greene and four friends, Attorney General A. J. Galen, Lou Frank, Heinze's chief engineer; Ed Murphy and S. W. Dudley. Considering that the machine crossed the main range of the Rocky mountains, the feat is considered remarkable. All previous records were beaten by more than two hours.

FISCHER

THE Piano Artistic

1840 —TO— 1905

During this stretch of years the Fischer Piano has been the favorite of refined people.

Artistic in appearance
Marvelously sweet in tone
Responsive in action
Unsurpassed in durability

These have carried the Fischer into over 120,000 homes; why not into yours?

We can make it easy for you to own this incomparable instrument, and will take your old Piano as part payment.

BRIDE IS WON BY HARDTACK

Love Note on an Army Cracker Starts a Romance.

Kingston, N. Y., June 17.—One of Uncle Sam's soldiers and a pretty 17-year-old girl from Ulster county have furnished an interesting romance that began a year ago yesterday and culminated today in their marriage. The soldier is Otis C. Rider of Grand Rapids, Mich., and his bride is Estella, daughter of Elisha Smith, a well-to-do farmer of West Park, Ulster county.

A year ago Rider, then a private in Company I, Fifth United States infantry, was speeding through West Park on the West Shore railroad, when he first saw Miss Smith. She was standing in the doorway of her father's cottage, which is near the railroad track. Rider was returning home after three years' service in the Philippines. It seemed so good to get back again that he could scarcely keep his exuberant spirits within bounds. He had gone to the rear platform of the train and watched his fancy. In his hand he held a hardtack upon which he had written this message:

"Please write to me. I am lonely after three years in the Philippines, and I don't know anyone in New York state. PRIVATE OTIS C. RIDER.

"Company I, Plattsburg Barracks."

The fleeting glimpse he caught of Miss Smith settled it. He tossed the hardtack and it landed on the plazza at her feet. She was loath at first to pay any attention to a message delivered in such an unconventional manner, but a few such days later she read of the hardships suffered by the Philippine soldiers, and wrote her congratulations to the soldier upon his safe return.

After a year's correspondence Rider proposed.

DIETZ HOLDS THE FORT.

Undisturbed Possession of Cameron Dam Is His.

Ladysmith, Wis., June 17.—W. W. Dietz of Rice Lake is in the city and reports that his brother, John F. Dietz, is in undisturbed possession of Cameron dam.

Mr. Dietz is confident that the efforts of the logging company to capture his brother will be discontinued. The attempts of the company to secure a criminal warrant have failed, and there seems to be no likelihood of success on the old methods. The squad sent from Park Falls with great gusto failed as promptly as all the other posses that preceded them.

The high water caused by the recent rains makes log driving easy at present, but in two or three weeks the stage of water on the Thornapple will not be sufficient to carry logs. For this reason it is expected here that the company will make a settlement and rush its logs out. Otherwise there is no likelihood of the company being able to move them this year, and $200,000 worth of logs is no small item even to the rich lumber concerns.

BIG TWINE PLANT

To Be Built By Trust In Minnesota.

Owatonna, Minn., June 17.—The International Harvester company will vie with the State of Minnesota for supremacy in the binding twine industry in the great grain-producing belt of the Northwest. This prospective competitor is a formidable one and its product, it is asserted, will be superior to that made at the Stillwater prison.

The International company plans to construct a large plant in Southern Minnesota for the exclusive manufacture of flax twine. This kind of twine, it is said, is a great improvement over the sisal and manilla varieties now in use. It is smoother and more pliable in texture and much lighter. These and other points of superiority lead experts to believe that it will eventually eliminate other brands from the market. The machinery used in its manufacture is fully covered by patents, which are controlled by the international company.

Representatives of the harvester company have visited the principal towns of Southern Minnesota to decide upon a location for the new plant and the field has narrowed down to Austin, Albert Lea and Owatonna. The first-planned towns are in large flax-producing counties. Owatonna is favored because of its desirability as a shipping point and the possibilities of its tributary country. The twine plant will employ several hundred hands.

BREACH OF PROMISE.

Lunder Said to Have Broken With Miss Sneve.

Fergus Falls, Minn., June 17.—A sensational breach of promise suit is on trial in the district court here, the plaintiff being Miss Josephine Sneve, a young lady from the vicinity of Pelican Rapids, and the defendant, Hildus H. Lunder, until recently in the merchandise business in Hesbway, but now a resident of North Dakota.

Mr. Lunder, according to Miss Sneve's testimony, was engaged to her, and without any apparent reason deserted her and married her cousin. She accordingly asks damages of $3,000. Relatives testify on both sides, and as the courtship—or, as the defendant contends, the friendship—extended over a period of years, many letters have been introduced by both sides. These breathe a spirit of devotion, but do not refer to the alleged engagement as frequently as the plaintiff could wish.

The local camp of the Modern Woodmen have received a communication from the head consul of the order requesting it to communicate with the Battle Lake lodge and have a celebration which had been arranged to be held in Battle Lake for next Sunday called off. The consul writes that Sunday celebrations of all kinds are strictly forbidden by the by-laws of the order, and that the lodge will be disciplined if the celebration is allowed to proceed. The celebration as planned was in the nature of a big picnic.

Joseph La Valley was brought in from Richville yesterday to answer to a charge of burglarizing a blacksmith shop, stealing $5 in cash and tools and other articles.

BANK ROBBER

Sentenced to Five Years By Judge Searle.

Foley, Minn., June 17.—District court has been in session in Benton county over a week. The criminal calendar was short, the principal cases being those of the three men charged with robbing the bank at Rice's. The bills were found by the grand jury. One of the men, Charles F. Morgan alias Rogers, feigned insanity during his imprisonment, but upon examination was found to be perfectly sane. He was tried on Wednesday and found guilty of burglary in the first degree. Judge Searle imposed a sentence of five years in prison. Young and Meyer, accused of complicity in the crime, were released on a defect in the indictments.

The Burrows Store

has always been a magnificent establishment, one of which Duluth is justly proud, Mr. M. S. Burrows, who has conducted the store for so many years and who, during the last five years, has been the sole proprietor, will now retire. He sold to the Columbia Clothing Co. of Superior, Wis., all his rights, titles and interests, etc., also the "good will" of the store (but not any "bad will," if there should be any.)

With two first-class establishments (for don't forget that our Superior store has right along held the undisputed title to the second place among the large clothing stores at the Head of the Lakes)—we say, with two such houses we will be the equal of any clothing store in Minneapolis, and if we can earn the confidence of the Duluth public as we did that of the good people of Superior, you will find it interesting to

Watch Us Grow.

The Burrows store will be reopened on Tuesday next with an introductory sale that will be an eye-opener to the Duluth people who have been used to paying inordinately high prices. With the mass of work to be done before we can open, our announcements of sale prices will have to be delayed to the last moment, but you'll have to bear with us.

The boss told us not to boast so much in our advertisements — we hope that this one looks modest.

The Columbia

Clothing Company.

LAUNCH GIANT STEAMSHIP

George W. Perkins Goes In at Superior Week From Monday.

The launching of the new steamer George W. Perkins of the Pittsburg Steamship company will take place at the Superior Shipbuilding company's yards in Superior a week from Monday. The steamer will be of the latest type of modern ore carrier and in size will be a mate to the new giant steamer E. H. Gary of the same company. Her dimensions will be exactly the same as the Gary, being 569 feet long, 56 beam and 31 feet deep.

The arrangements for the launching have not yet been completed, but it is expected it will be made quite an event.

POPULATION FALLING OFF

Inhabitants of the North Star State Are Not Increasing.

St. Paul, June 17.—(Special to The Herald.)—State census figures at hand disclose a condition in Minnesota that may yet require radical remedies to offset. The population of the North Star state is not increasing.

This state of affairs was discovered today when Superintendent Wright completed a compilation of the first weeks returns. The tabulation represented 113 districts and the count only showed an increase of 553 over the census of 1960.

The natural increase given by all census authorities is 2 per cent and the tally does not even show that. The result was startling.

Even Superintendent Wright refused to believe it, but he had to acknowledge the count correct after it had been gone over a second time.

This is only a fraction of the 1900 districts into which the state has been divided for the convenience of taking the count, but the number covers a wide range of territory and suffices to make a comparison from.

Supt. Wright hopes that the total count will tell a different tale, but he admits the first week's showing is far from satisfactory. Stories of heavy emigration to the Pacific coast, the Dakotas and Canada have been brought to him, and he believes this exodus is in a measure responsible for the apparent falling off.

None of the cities that are centers of population are covered in these statistics, and Supt. Wright is loath to believe that the state has suffered generally as the first figures show.

In Wilkin county, where it was expected there would be a heavy showing, twenty-two out of twenty-five districts show a population of 3,780. The 1900 census gave the entire county 6,748 population.

In Cass county, another place where it was thought there would be an increase shown, fourteen out of the entire twenty enumeration districts show a population of only 3,740. The 1900 census gave the county a total population of 7,790. Conservative estimates give Minnesota an increase of 8 per cent over the 1900 census, but the outlook is not bright even for half that amount.

COAL TRUST MUST STAND FOR TRIAL.

Cleveland, June 17.—Judge Stone in common pleas court today overruled the demurrer of the Cleveland Coal Dealers association, known as the coal trust. "This means the members of the association indicted on the Valentine anti-trust law must stand trial unless a higher court reverses Judge Stone's decision.

The coal dealers' association in its demurrer to the indictment attacked the validity of the law, which provides for punishment of any combination found in restraint of competition.

PLATINUM.

Owing to the increased demand for platinum, especially in the electrical industry the United States geological survey is about to make an examination of the platinum resources of the United States, says Electricity. It is proposed to collect the heavy sands from all placer mines in the United States where evcidences of platinum have been observed. The samples thus obtained will be used in determining the best methods of extracting the various minerals which have economic value. It is hoped that the separation and sale of these useful minerals, such as magnetite, chromite, garnet, monazite, rutile, zircon, gold, platinum, etc., will in many places become a permanent and profitable industry.

As a preliminary step to this investigation, thes urvey invites the owners of placer deposits to contribute for examination samples of material likely ton contain platinum. These samples, which should be sent by mail, must weigh not more than four pounds each It is suggested that the gravel be concentrated before it is mailed. Careful note should be made on the package, or in a letter accompanying it, of the total quantity of original gravel which the concentrate represents, in order that an accurate idea may be obtained of the value of the gravel for the purposes under investigation. The sand should be dry when mailed and great care should be exercised to pack it securely, preferably in canvas bags, for transmission through the mails. Each package of sand should be accompanied by exact information as to the name and postoffice address of the sender, the name of the mine or claim from which it came, an dthe state, county, city, village or district in which the deposit is located.

After the survey has made an examination of these samples, experts will be sent to all localities where preliminary tests give evidence of platinum. The expert will report on the size of the deposit and superintend the collection of representative samples for concentration. Experiments in the concentration of platinum sands will probably be carried on in connection with the exhibits of mining machinery at the Lewis and Clark centennial at Portland, Or.

Native platinum has been found most frequently in gold-bearing sands. On account of its weight it remains in the sluices with gold and other heavy material. It is most readily distinguished by the following characteristics:

First. Its great weight. In panning it remains behind even gold in the pan.

Second. Its white color. It is whiter than lead and is distinguished from amalgam by its smooth surface, whereas the surface of amalgam as seen under a good glass is rough.

Platinum seems to be more generally distributed through California than through any other state. It has been found in Butte, Del Norte, Humboldt, Mendocino, Placer, Plumas, San Luis, Obispo, Santa Barbara, Santa Cruz, Shasta Siskiyou, Tehama, Trinity and Yuba counties. Curry, Coos, Lincoln and Josephine counties in Oregon have produced platinum. It has been discovered in Nez Perces county, Idaho.

REMEMBER DEAD

Knights of Pythias Arrange For Annual Memorial Services.

All Lodges of Duluth and Superior Will Participate.

Local Knights of Pythias will pay tribute to the memory of their departed brethren tomorrow. In the morning the knights will sojourn to the cemeteries and decorate the graves with flowers, and in the afternoon they will gather at the K. P. hall, 118 West Superior street, and with music, addresses and ritualistic services demonstrate the regard and esteem in which the dead knights are still held.

The knights, escorted by the uniform rank companies, will arrive at the Forest Hill and Park Hill cemeteries at 9:30 o'clock. There are twenty-two members of Duluth lodges buried in Duluth. They are: George F. Chester, John M. McDonald, W. W. Butchart, David Sang, Frank Bridgeman, Matt Gatz, James H. Clifford, Kennet Oliver, J. W. Stewart, E. F. Mitchell, F. H. Quimby, G. W. Goldsmith, W. E. Baillie, George E. Chester, S. Lessing, C. H. Foster, J. A. Stockbridge, L. W. Meining, B. B. Spalding, John Grube, William Hughes, and William Mayfield.

The lodges which will participate in the ceremonies in the hall, which begin at 3 o'clock, will be North Star No. 35, Diamond No. 45, and Kitchi Gammi No. 123. The knights from the Superior lodges are expected to attend.

Rev. F. G. Clark, pastor of the Ashbury M. E. church, West Duluth, will deliver the oration of the occasion. The program for the afternoon will be:

Assembling of Knights and friends.
Opening ceremony.
Music—Male quartet.
Prelate.
Music—Male quartet.
Oration—Rev. F. G. Clark.
Roll call.
Memorial.
Music.
Closing ceremony.

THE CLOSING EXERCISES

Commencement Program of St. Anthony's German Catholic School.

Commencement exercises of the St. Anthony Catholic school will be held Monday evening at the Cathedral auditorium, Second avenue west and Fourth street. The program will be interesting and it is expected that there will be a large attendance.

The valedictory address will be delivered by Emily Scharabon. There will be recitations, songs, some drills, and musical selections by the school chorus. The motto of the graduating class is "Step by Step," and the colors lavender and green. The program follows:

Opening chorus—"Back to Our Mountain" from "Il Trovatore" ..... Pupils of school.
Recitation—"Frau Hitt" ..... Anna Grumpmann.
Action song—"The Flag We Love".... Junior boys and girls.
Polylog—"Die beiden Schwestern".... Seven senior girls.
Wand drill ..... Intermediate boys.
Recitation—"Belsazar" ..... Frances Keller.
Rose drill ..... Intermediate girls.
Song—"The Gingerbread Man" ..... Emil Ruf.
Drama—"Coals of Fire"
CHARACTERS.
Adam Crabtree, a farmer....John Mausolf
Phil O'Hara, his servant..Adam Schaeffer
Mr. Meek, a county minister..John Milek
School boys and orchard despoilers—
Bobby Greening .....Frank Schlender
Dick Pippin .....Joseph Gruesen
Charley Baldwin .....H. Kaltenhauser
Song—"Always in the Way" ..... Louise Furni.
Valedictory ..... Emily Scharabon.
Chorus—"Das Schelden" .....Fr. Abt Pupils of school.
Remarks .....
Distribution of diplomas and gold medals
Accompanist, Miss Katherine Fiebiger.

BLUE BOOK MARRIES HIM

Removes Judge Dibell From State of Single Blessedness.

Judges Ensign and Cant and the attaches in the county building this morning were heartily congratulating Judge Hober B. Dibell on his departure from single blessedness into that of the matrimonial state. It was the general impression that the bench was graced by only one bachelor, and the surprise was great when it was discovered that Judge Dibell had joined the ranks of those who have launched into the sea of matrimony.

The secret might have been buried for eternity, but for the fact that a blue book, in the shape of the legislative manual for 1905, was received at the county building. Walter Taylor, one of the court stenographers, started to look over the biographies of the renowned men of Minnesota. He came to the name of Judge Dibell. It recited the fact of the judge's birth, election to the bench, etc. But the last sentence in the notice was portentious. "He is married." This was news of a sensational type, and it soon spread throughout the building.

The attorneys who found it necessary to take a trip to the courthouse were not slow to offer congratulations to the member of the bench. One of them approached Judge Dibell, and remarked, with a broad smile on his face:

"Are congratulations in order?

"Oh, that book," was the extent of Judge Dibell's reply.

Judge Dibell is enjoying the joke as much as anybody else, and takes the joshing with a good-natured smile.

After Mr. Taylor discovered the fact, Judge Dibell was the next person to know about it. The judge was as much surprised about his marriage as anybody else.

Whether the judge has been made the victim of an intended joke or not it has not yet been figured out. It is possible that the proof reader was to blame for the mistake. In the original copy it may has said "He is unmarried." The fact that nothing is mentioned about Judges Ensign and Cant in that connection seems to point to that view of it.

Schneider's Ladies Orchestra.

STEAMSHIP IS ON FIRE

Kansas City Has a Stubborn Blaze In Her Hold.

New York, June 17.—Fire which started in the hold of the steamer Kansas City of the Savannah line, while she was making her way through the dense fog off Sandy Hook early today and caused a panic among her three-score passengers, and which was believed to have been extinguished, broke out anew after she had reached her dock. When the hatches were removed after the hold had been filled with steam for several hours, the flames burst forth and resisted every effort the combined land and water firefighters could make to subdue them. Late this afternoon the fire was still smoldering obstinately in the hold, and tons of water were being poured down upon it. Far down in the bottom of the hold there is stored a large quantity of rosin and turpentine. It is feared that if the flames reach this inflammable material a serious explosion may occur. Several thousand watermelons which were stored in the hold have been destroyed by the heat, and the cargo of cotton has been considerably damaged.

SUNDAY EXCURSIONS

STR. NEWSBOY

Leaves dock foot of Fifth Ave. West for

FOND-DU-LAC

at 9 a. m. and 2 p. m. Tickets 50 cents.

MOONLIGHT EXCURSION AT 8:30. Tickets 25 cents. Good Music.

A NOTABLE GATHERING

Will Be That of Interstate National Guard Association.

St. Paul, June 17.—(Special to The Herald.)—The convention of the Interstate National Guard association which opens its session in St. Paul next Monday will be a notable gathering in several respects. The assistant secretary of war, Robert Shaw Oliver, and his party will be in attendance during the three days of the convention. Another feature will be the grand review of the troops at Fort Snelling Monday afternoon. Secretary Oliver and party will arrive in St. Paul at 7:20 Monday morning over the Northwestern road. In the party will be the judge advocate, Gen. Davis, Gen. Hall and Gen. Elliott, commandant of the Marine corps. Representatives will be also sent by the secretary of the navy; the medical department, the quartermasters department, the commissary department and the signal corps.

The convention will be called to order at 9 a. m. at armory hall by the president, United States Senator Dick of Ohio. The address of welcome will be given by Governor Johnson on behalf of the state and Corporation Attorney J. C. Michael will welcome the delegates to the city.

GRAND PRIZE BAND CONCERT AND BALL

At the Armory This Evening.

Benefit Duluth Aerie of Eagles.

TICKETS 50 CENTS.

"ROSS A TROUBLEMAKER."

His "Dear Friend Jackson" Says So.

Washington, June 17.—Great surprise was expressed by officials of the Indian office at Trader Ross' action in swearing out a warrant against Indian Agent Jackson at Sisseton, charging that official with insanity.

Ross came here quietly a few weeks ago on business connected with the tradership he formerly held. Some unpleasant things that Jackson had said about him were told him by the leading officials, notably that he was a troublemaker, and had been in hot water with every agent at Sisseton in years past.

Ross was much grieved at what his "dear friend Jackson" had said, which, by the way, wasn't news here, and expressed surprise that Jackson should so characterize him. No information has been received here about the swearing out of the warrant against Jackson, and nothing will be done by the Indian office in the matter. But the foregoing probably explains why Ross took the action that he did against Jackson.

HARD TO PLEASE

The People on the Mississippi River.

Washington, June 17.—Gen. Mackenzie, chief of engineers, is experiencing in a smaller degree the difficulties Maj. Derby is having with the mill men and others along the upper Mississippi in regulating the flow from the reservoirs to suit all interests involved. After reading an interview with Maj. Derby, he commended that officer for not losing his temper, in view of the difficulty he has in satisfying everybody.

Gen. Mackenzie said: "The effort of the engineer in charge of the reservoirs is to keep the river at the ordinary low water stage. In flood times it is difficult to do that, and in the dry midsummer it is often more difficult. But generally speaking the low water stage of the river is maintained, and that is about all that the engineer officer in charge can do, no matter how the conflicting interests may be affected.

SUPERINTENDENT AT MINOT.

St. Paul, June 17.—(Special to The Herald.)—General Supt. Slade of the Great Northern railroad has announced the appointment of John M. Davis of Minot, N. D., as superintendent of the Minot division. Mr. Davis' jurisdiction extends into Montana. The appointment becomes effective July 1.

West Duluth

FRACTURES SKULL

William Bliss Has Dangerous Accident at Blast Furnace.

Brick Falls Considerable Distance Striking His Head.

William Bliss, a laborer, who lives with his family on Raleigh street, was injured last evening at the blast furnace by a brick dropping on his head from a hoist, for which he was holding the guide rope.

The hoist was being used to carry brick up into the furnace, which is being relined. A brick becoming dislodged in some way, fell a considerable distance, striking Bliss on the head and fracturing his skull.

The fact that he escaped instant death is considered remarkable. He was taken to St. Mary's hospital and Dr. David Graham had to trepann part of the skull.

It is thought that Bliss will recover. He is 40 years of age.

PROGRAM FOR MONDAY.

Arrangements All Made For Y. M. C. A. Benefit.

At the entertainment to be given Monday evening, at Great Eastern hall by the W. C. T. U., for the benefit of the branch Y. M. C. A., which is to be put up in West Duluth, the following program has been prepared:

Y. M. C. A. orchestra .. .. Boys' Department.
Clarionet solo .. .. Gilbert Ketchum.
Gymnastic drill .. .. Y. M. C. A. Boys.
Solo, selected .. .. Miss Alice Sjoselins.
Recitation, "Smiting the Rock".... Miss Lelia Sparks.
Orchestra .. ..
Athletics ....
Address ..... Frank Maxwell.
Solo, selected .. .. Miss Iva Pritz.
Recitation, "Mrs. Casey's Neighbors" .. .. Miss Effie Brotherton.
Drill .. .. Y. M. C. A. Boys.
Solo, "Sir Patrick Spence" .. .. Roy Pritz.
Stereopticon address .... Phil Bevies.
Orchestra .. ..

Surprise Their Friend.

A number of friends gave a surprise party Thursday afternoon on Mrs. John Langols at her home, 208 Exeter street. They presented her with a large and beautiful rocking chair. Luncheon was served. Those present were:

Mesdames S. Robitaille, C. Bozet, G. Bastin, A. Rigali, Z. Gagnon, A. Boisjolis, M. Latour, L. Landez, B. Castongnez, S. Beaulieu, M. Prouse, Poissont, M. Pierson, J. Fortier and J. Caron.

Glad He Is Re-Elected.

The members of the local court of the Catholic Order of Foresters, St. James, No. 614, rejoice over the re-election, at the state convention at New Ulm, of one of their members, P. H. Martin, as state chief ranger of the order for the next two years. A. Murphy, the delegate from the local court, returned yesterday in company with Mr. Martin. He says that the convention was a most successful one, and that a suggestion by the local court was favorably acted upon and will be placed before the international convention next August for adoption.

The next meeting of the court will be an important one as the delegate to the convention will give a report of the proceedings at New Ulm. Many matters of interest to the general welfare of the order were discussed, and the local delegates did good work in that direction.

WEST DULUTH CHURCHES.

At Olson & Kauppi's hall, West Duluth, the new pastor, Rev. O. R. Staff, will preach at 10:30 in the morning and 8 in the evening.

• • •

Rev. Roderick J. Mooney, pastor of Holy Apostles' Episcopal church, at Fifty-seventh avenue west and Elinor street, will hold morning service there at 9 o'clock tomorrow. Evening prayer and sermon will be given at 8 o'clock. The subject of the sermon will be "The Man Who Was Deaf and Dumb."

• • •

At Plymouth Congregational church tomorrow morning, Rev. H. W. Johnson, the pastor, will preach on "God's Pleasure and Displeasure," and in the evening he will preach on "I Will Arise and Go To My Father."

• • •

At the Westminster Presbyterian church tomorrow morning, Rev. S. F. Sharpless, D. D., pastor of the Second Presbyterian church, will preach, exchanging pulpits with Rev. W. J. Lowrie, pastor of the church. Dr. Sharpless' sermon will be on "The Christian a Servant."

• • •

The annual children's day services of the West Duluth Baptist Sunday school will be held tomorrow evening at 8 o'clock.

• • •

Children's day services will be held at the Merritt Memorial church tomorrow evening at 7:30. Rev. S. G. Briggs will hold sacramental services in the morning. The children's day program follows:

"Gloria Patri" ..... Choir.
Chorus—"Welcome! Welcome!" .. .. School.
Responsive reading.. ..... School and Superintendent.
Prayer.....
Song—"Nature's School" ..... School.
Recitation—"Gladness" ..... Infant Class.
Song—"In His Keeping" .. .. Quartet.
Recitation—"Too Big" ..... Harry Randall.
Song—"Joined in Love" ..... Infant Class.
Recitation—"Wanted" ..... Edward Winters.
Song—"Wayside Flowers" ..... School.
Exercise—"If All Were Roses" ..... Girls.
Song—"Voices Sweet" .. .. Intermediate Class.
Recitation—"He Watches Me" ..... Edith Gundry.
Song—"The Dewdrop's Blessing" .. Girls.
Offering.....
Solo—"I Love Him" ..... Edna Merritt.
Exercise—"The Upward Way" ..... Intermediate Boys.
Song—"King Jesus' Banner" ..... School.
Exercise—"The Archway of Love" Intermediate Girls.
Song—"Hallelulah to the Lord" ..... School.

• • •

At the Third Swedish Baptist church, corner Fifty-ninth avenue west and Ramsey street, services will be held tomorrow at 10:30 in the morning and 8 o'clock in the evening. Rev. C. A. Aldeen, pastor of the church, will occupy the pulpit in the morning and will spead on "Covetousness." At the evening service Mrs. C. A. Solquist missionary from Western China, will speak about the mission work of that country. The Thorwald quartet consisting of Mrs. O. A. Berglund, soprano; Jennie Olsen, alto; Charles Johnson, tenor, and Oscar A Berglund, basso, will sing at the evening service.

• • •

At the Asbury M. E. church, in the morning, the pastor, Rev. F. G. Clark, will preach on "Progression," and in the evening on "Sought Out."

ATTENTION, I. O. F.

All Foresters are requested to meet with Court West Duluth, No. 297, at Carlson's Hall, Sunday, June 18th at 1 p. m. to attend the funeral of our late Brother, Wm. Zell.

A. R. ARMSTRONG, Secy.

WEST DULUTH BRIEFS.

Rev. F. G. Clark will preach the annual memorial sermon for the Knights of Pythias at Elks hall tomorrow afternoon at 3 o'clock.

The funeral of John Robinson will be held tomorrow afternoon at 2 o'clock from his residence, 326 South Sixtieth avenue west. Mr. Robinson, who was 76 years of age, died yesterday of catarrh of the stomach.

The members of the Improved Order of Red Men will meet at Gilley's hall tomorrow afternoon at 1:30 o'clock to attend the funeral of William Zell, one of their brethren.

Hot water bottles and syringes, 48 cents, at Spencer's Drug store.

AFTER EIGHT YEARS

Romance Begun In England Ends In Wedding.

Chicago, June 17.—A romance which began in London eight years ago, when the parties to it were but children, brought Rose Cross and Edith Edmonds to Chicago, and resulted yesterday in their double marriage to Joseph Edmonds and William J. Howard of South Chicago.

The brides are cousins, Miss Edmonds being the sister of Joseph Edmonds.

Eight years ago, when Howard was 15 and his bride 11, when Edmonds was 16 and his bride 13, the two boys sailed for America, hoping to make their fortune. They came to Chicago, and after being employed by several companies, both finally secured places with the Illinois Steel company, where they now hold important positions.

They never forgot their little playmates across the ocean, and as soon as they had prepared for their reception and bought the homes to which they intended taking them, they sent for them.

They arrived Wednesday evening, and yesterday they were married at the same time by the Rev. Francis W. Wheeler at the home of Mr. and Mrs. J. Harris, Windsor Park.

FORTY BUILDINGS BURNED AT JOHNSTON CITY, ILL.

Marion, Ill., June 17.—Fire which broke out last night has practically destroyed the entire town of Johnston City, five miles from here. Owing to a scarcity of water, the fire was not under control until today. Forty buildings, including the entire business section, were burned. Among the principal buildings destroyed were the First National bank, Elles Bros.' store, Duncan & Baker, hardware, and the Herrin-Stotlar Lumber company. Five departments from Marion and Herrin assisted in extinguishing the flames. The loss is estimated at $200,000.

California Excursions.

On April 10 to 14 the Minneapolis & St. Louis railroad will sell round trip tickets to California at one fare, with return limit ninety days. Tickets good going one route and returning another, with liberal stop-over privileges. Call on agents or address,

A. B. CUTTS,
G. P. & T. A., Minneapolis, Minn.

MEANEST MAN

Stole Clothing From Bell Boys In McKay Hotel.

Another Thief Gets Thirty-Five Pounds of Tobacco.

The meanest man in town has been unearthed.

Men have been caught taking candy from children, stealing from blind women, and robbing the church collection box, but the man who stole two suits of clothes from bell boys in the McKay hotel, and made the two youngsters stay in bed until noon today while other clothes were being procured, takes the first prize for the pure essence of cussedness.

The sneak thief went through the hotel some time last night. The guests, so far as has been ascertained, were left unmolested, but the midnight marauder secured two suits of clothes belonging to bell boys, and made away with them. One of the boys had just purchased his suit a few days before, and it was nearly noon before he could emerge from the sheltering sheets and appear again in proper raiment.

• • •

Another curious theft which was reported to the police yesterday, was the taking of thirty-five pounds of chewing tobacco from a Northern Pacific car.

William Wilberger was arrested on suspicion of having committed the theft, but when arraigned in court this morning he pleaded not guilty, and the hearing was set for June 19.

What the thief wanted with such a supply of tobacco is a conundrum. Thirty-five pounds of eating tobacco would keep a healthy man's jaws swelling for two years, and the culprit was looking far into the future, unless he happened to be figuring on entering the retail business.

• • •

Christ Schmalty scorned such perquisites as suits of clothes and chewing tobacco, and turned his attention strictly to the current coin of the realm. He abstracted three plunks from the pockets of a woodsman who was sleeping in a Bowery lodging house.

Schmalty was caught by the police, and arraigned in court this morning on a charge of petty larceny. After pleading guilty, he was fined $50 and costs with the alternative of spending sixty days in jail.

TWO MENOMINEE BOYS DROWNED IN GREEN BAY.

Menominee, Mich., June 17.—George Devoe, 13 years old, and Frank Anderson, aged 16, have been drowned in Green bay by the sinking of a rowboat. Two others may die from exposure.

REMARKABLE CURES.

Remarkable recoveries occur and wonderful cures are sometimes effected in ways unsuspected by medical science and its students, says the Seattle Times. A Pittsburg man standing high in steel and iron industries has recently undergone a marvelous cure for cancer. For some years what physicians and surgeons pronounced a cancerous growth had been slowly but surely eating away part of his right cheek close to the nose. He had consulted eminent surgeons in this country and Europe, he had visited innumerable baths famous for the cure of blood diseases, and at last had been given up to die slowly but surely of the dread disease. During a recent visit to New York he consulted a young but promising dentist regarding a tooth which had been bothering him. The troublesome molar was located in the lower jaw, and the pain was soon stopped, but the young dentist begged permission to examine his patient's mouth thoroughly, and was specially interested in the man's calm resignation to death from cancer. At the conclusion of the operation he offered as his diagnosis that the disease was not cancer, but trouble with a molar in the upper jaw. At first the Pittsburger was inclined to be skeptical, but the dentist urged that the loss of one molar was small compared with the risk of other operations through which he had passed, and finally the sufferer consented and was placed under the influence of ether. The operation was far from simple, lasting more than an hour, but the result justified the dentist's predictions. With the tooth came away a tiny blade of steel which had been driven into the jaw by a careless dentist years before. It had festered and the puss had forced a passage out through the cheek, giving the appearance of a cancerous growth. After weaks of treatment the cavity healed up perfectly and the Pittsburger has decided that a cancerous death is no longer staring him in the face.

A New Yorker who had recently lost his father from cancer of the throat seemed suddenly afflicted with the same disease. His throat bothered him incessantly, his speech became almost unintelligible and he grew haggard and thin from anxiety and pain. Most of all, he missed his cigars, for his physician at once cut off all smoking. One day he met an old college friend who had developed into a successful dentist. In the course of their first conversation the patient mentioned that he had been having some trouble with the plate attached to an upper set of false teeth.

A large and complicated bridge was finally inserted and the plate discarded. To the patient's amazement the throat trouble disappeared along with the plate.

A Philadelphia business woman of more than local repute broke down with nervous prostration. Her most unfortunate form of affliction was intense pains in the head, which prevented her sleeping night or day. Her physician recommended an ocean voyage, but she landed in London in worse condition than when she left America. She finally confided to a friend traveling with her that she believed she was going insane. During the trip across and continent to Berlin, where a famous nerve specialist was to be consulted, the Philadelphian became melancholy and showed every symptom of mental aberration. The specialist studied the case thoroughly, but before rendering a decision he lost his patient most abruptly. She fell while climbing a flight of marble steps and her glasses were shattered. She insisted that they must be replaced without delay, and went to consult an oculist, who fitted her with glasses, and, as if by magic, the violent pains in the head disappeared, her nervousness dropped from her, and she became as calm and even-tempered as her anxious traveling companion.

The merchant who advertises gives you the same opportunities to secure bargains that your neighbor has. Publicity equalizes opportunity. Nowadays there is no reason for your not having heard about some special sale.

At last there has been found a safe and reliable way to

SOBER UP QUICKLY

without the usual sickness and suffering. It is called

"B.B."

SOLD IN DULUTH BY

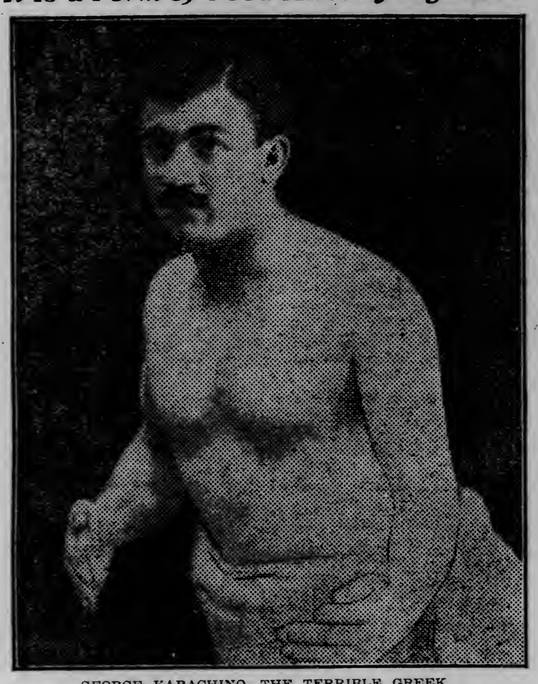
S. F. BOYCE.

MOST POWERFUL MAN IN WORLD

George Karachino, the Terrible Greek, World's Champion Wrestler, Owes Strength and Health to Duffy's Pure Malt Whiskey.

Thousands of Men and Women Owe Their Health, Strength and Long Life to This Great Tonic-Stimulant.

It Is a Form of Food Already Digested.



GEORGE KARACHINO, THE TERRIBLE GREEK.

The Terrible Greek, while in Aberdeen, Washington, a few days ago, upon being asked by some newspaper correspondent to what he owed his great strength and restoration to health, replied:—

"I am now in my 28th year, and have been wrestling professionally since I became of age. I have met and defeated the best men in this country and in Europe. A year ago I was troubled with serious indigestion, and that was followed by weakness. This attack served to unfit me for any matches, and I thought at one time I would have to leave the business. Doctors advised me to take Duffy's Pure Malt Whiskey before eating, and after taking it for three months I found myself as well and strong as when I used to tend my father's flocks on the hills of Greece.

"I would advise every one suffering from weak stomach or poor digestion to try Duffy's Pure Malt Whiskey, as I feel confident it will cure them."

Duffy's Pure Malt Whiskey

KEEPS THE OLD YOUNG—THE YOUNG STRONG.

It brings into action all the vital forces, makes digestion perfect, enriches the blood, stimulates circulation, builds up nerve tissue and gives strength and elasticity to the muscle. It invigorates overworked men; nervous women and sickly children.

Duffy's Pure Malt Whiskey cures and prevents coughs, colds, grip, bronchitis, asthma, catarrh, pneumonia, pleurisy, consumption, and all diseases of throat and lungs; dyspepsia, indigestion and every form of stomach trouble; nervousness, malaria and all low fevers. It is invaluable in all weakening, wasting, diseased conditions.

It is absolutely pure, contains no fusel oil, and is the only whiskey recognized by the Government as a medicine. This is a guarantee.

CAUTION—When you ask for Duffy's Pure Malt Whiskey be sure you get the genuine. Unscrupulous dealers, mindful of the excellence of this preparation, will try to sell you cheap imitations and malt whiskey substitutes, which are put on the market for profit only, and which, far from relieving the sick, are positively harmful. Demand "Duffy's" and be sure you get it. It is the only absolutely pure malt whiskey which contains medicinal, health-giving qualities. Duffy's Pure Malt Whiskey is sold in sealed bottles only. Look for the trade-mark, the "Old Chemist," on the label and be certain the seal over the cork is unbroken. Beware of refilled bottles.

All druggists and grocers, or direct, $1.00 a bottle. Medical booklet free. Duffy Malt Whiskey Co., Rochester, N. Y.

SPEND A YEAR IN MOUNTAINS

Mr. and Mrs. F. Luerzer Return From West Coast.

After an absence of nearly a year, Mr. and Mrs. F. Luerzer have returned to Duluth to make their home until next summer. They left Duluth last summer for an extended trip through the mountain regions of the West coast and have spent practically the whole time traveling about by wagons and camping at various points, even during the winter season.

"The trip was a delightful one," said Mr. Luerzer this morning.

"Most people who go out to see the West jump from one town to another and rush through. The best way to see it in all its grandeur and beauty is to take time to it as we did. We made fourteen stops between Duluth and Seattle, the first being at the Bad Lands. We stopped at Portland, went to San Francisco, and from there traversed the Sierra Nevada mountains along down the coast to Santiago, nearly all the time we had being spent in the mountains in wagons, on horseback or camping.

"During the whole time I was busy painting and sketching, and the results of my work will be on exhibition when I reopen my studio.

"We spent some time among the big trees in California belonging to Robert Whitesides, and I have made some paintings of the giants."

Mr. Luerzer expects to start out next summer for another extended sketching trip in the West that will extend over a period of about two years.

ABOUT CONSUMPTION.

Some Facts Which Close Study Has Shown.

Here are some statistics of consumption presented by Dr. Henry P. Loomis of New York, the results of analysis of numerous cases among the poor, at the recent tuberculosis congress in Washington:

I.—Chronic consumption, two hundred cases, with average length of life of twenty-three and one-third months after beginning of the disease. 2. Acute consumption, 107 cases, with average length of life of one and seven-eighths months after beginning of the disease. How consumption begins: In 80 per cent of all cases the first presumable evidence of the disease was such that the cases could be aranged under one of three heads. -. Cold and coughs continuing and not disappearing in a few weeks; in 20 per cent the cough was accompanied by no expectoration. 2. "Run down," loss of weight, no cough at first; average time this condition lasted before the actual development of the disease, five and one-half months. 3. Pleurisy; the average length of time between the first attack of pleurisy and the actual development of tuberculosis was three and one-half years. 4. Hemorrhages from lungs, 24 per cent; almost always a positive symptom of the actual beginning of the disease. Two other points are: 1. The majority of people that develop phthisis after 30, have had it in their early life, but so slight that it has not been diagnosed or has been cured. 2. The average time that elapses between the actual beginning of the disease and the finding of tubercle bacilli in the sputum was three and one-third months. An analysis of fifty-five cured cases of phthisis, to show conditions favoring cure, discloses: 1. Age, average age of patients, 29; only five under 20. 2. Long-lived ancestors, very important; 31 had both parents live to be over 60; 14 had one partents live to be over 60; only one had both parents die under 60. A "control" tests was made by taking same number of people who did not improve. Of these only 16 were found to have ancestors who lived to be over 60; 4 had both ancestors die under 60. 3. Average length of time to effect cure was fourteen and three-fourths months from the beginning of the disease. 4. Family history was not an important factor; 50 per cent had tubercular family history.

NOBLE AMBASSADORS.

The eight ambassadors of the German empire in Madrid, Rome, Washington, Constantinople, Paris, London, St. Petersburg and Vienna are all members of the nobility, says the Kansas City Journal. Their emoluments are $20,000 in the first three cities named, $30,000 in the next three and $37,000 in the last two.

RETURN FROM CONFERENCE

Swedish Baptist Pastors of Duluth Take Prominent Part.

Rev. A. Edstam, Rev. Hjalmar Henrickson and Rev. C. A. Aldeen have returned from the annual conference of the Swedish Baptist churches of the State of Minnesota, held in Cambridge, Isanti county, this week. The conference was the largest in history of the denomination. Rev. Dr. Arvid Gordh of Minneapolis was elected president, and Rev. Arvid Edstam of Duluth, secretary. Plans are being outlined for the establishment of a home for aged people and the conference appointed a committee of five, including Rev. A. Edstam of Duluth, who was chosen secretary of the committee, to make further arrangements in the matter.

Dr. Earl of St. Paul was at the conference and reported progress in establishing a sanatorium in St. Paul, which is to be located at Indian Mound park in St. Paul. Ground has been purchased, with a frontage of 440 feet and the sanatorium is to cost $60,000, when completed.

For some time plans have been under way to establish a college to be located at Minneapolis and the project has developed so satisfactorily that the school is to begin next fall, with Dr. Arvid Gordh as president.

Rev. C. A. Aldeen of the Third Baptist church was elected a trustee of the conference. Rev. Hjalmar Henrickson gave a lecture during the conference on, "The Importance of the Press in Religious Work." The lecture was highly commended by the delegates and visitors of the conference, and it was decided to publish it in the newspapers of the denomination. Banaret, published in Minneapolis, and Nya Vecko Posten, in Chicago.

TOO MUCH TRACHOMA.

Contagious Eye Disease Found In Many Immigrants.

Two would-be residents of this country have just been turned back to Port Arthur by Immigrant Inspector William H. Dean because of them having trachoma, that dread disease of the eye. One was G. B. Green, an Englishman, and Jacob Haldoverson, a Norwegian.

Mr. Dean says that the percentage of immigrants coming into this port afflicted with trachoma is incerasing at an enormous rate. More have been turned back in a week this year for this cause than in more than a month last year. Mr. Dean says that the department regards this affliction as one of the most dangerous, so much so that in each instance a special report has to be made to the department of the case. Trachoma is growing and is very contagious.

TALK ON NIAGARA

And Its Power Given Here Monday Night.

An interesting lecture on "Natural and Industrial Niagara Falls" will be given at Stelnway hall on Monday evening next under the auspices of Duluth camp, Sons of Veterans, by Herbert R. Fuller of Boston. This lecture, which is the closing one of Mr. Fuller's season, will be illustrated with 1,000 feet of moving pictures and 165 colored stereopticon views. Mr. Fuller is a lecturer of note. Since Nov. 1, he has traveled 1,200 miles and delivered 110 lectures.

The lecture on the famous falls contains many interesting things. He deals with its history, its Indian traditions and also with the launching of the first boat on the Great Lakes. Its scenery is handled well and illustrated superbly.

Mr. Fuller's talk on the development of its power in an industrial way should be particularly interesting to Duluthians in view of the statements issued that tributary to Duluth is a water power greater than that of Niagara. In this connection, Mr. Fuller will talk of the first power development, the Hydraulic Power company, the Niagara Falls Power company, and the fallacy of the destruction of the scenic beauty by the present power development. He will also talk of the industries that are using the power of the falls and of the growth of its use; also he will tell of available sites offered for further industries.

UP-TO-DATE FISHERMEN.

Three Styles of Locomotion In Their Boat.

Two fishermen who make their home at Grand Marais, Minn., and who fish around Isle Royale, are bringing the business up-to-date. They have just built themselves a new boat 27 feet long and about five feet beam in which they have three styles of locomotion. The craft is a sail boat with one mast forward and besides the sail they are now in Duluth installing a gasoline engine and have had a wheel attached to the boat so that they can make speed in calm weather. In case of accident they also have the oars.

DELEGATES RETURN.

Catholic Foresters Pleased With Their Convention.

The Duluth delegates to the state convention of the Catholic Order of Foresters, held at New Ulm, have returned home and are well pleased with the work accomplished.

F. H. Martin of St. James court, No. 614 was re-elected to the office of state chief ranger and the local delegates are proud of their efforts in once again carrying off the honor for Duluth. Mr. Martin will preside over the destinies of the order in this state for the next two years, and his re-election unanimously is an excellent endorsement of his discharge of the duties of his office in the past term. P. Grignon of St. Louis court was chosen as one of the delegates to attend the international convention at Boston next August.

The convention was a record breaker in the amount of work finished in the time. Several matters taken down by the local delegates were brought before the convention and received the endorsement of that body. They will be taken to the international convention by the state delegates and it is likely that they will be incorporated in the constitution of the order.

The convention will retain its affiliation with the Federated Catholic societies of America, and Faribault was chosen as the next place of meeting, which will be June, 1907.

FIRE AT MONTREAL.

Montreal, June 17.—Fire has damaged the Royal Shoe factory and the Smith, Carter & Smith window shade factory to the extent of $75,000. The loss is covered by insurance.

WE WANT INVESTORS!

NOT SPECULATORS.

Please consider this as a business proposition with the element of speculation eliminated. If you have $100 or $10,000 to invest, we want you to put it into THE STANDARD LEAD AND ZINC SMELTING AND MINING CO., because we feel firmly convinced it will offer you greater returns for your investment than any other legitimate propositon you can think of. The Standard Lead and Zinc Smelting and Mining Co. is backed by Pittsburg and Milwaukee men—men whom you know by reputation—and the standing of its directors and stockholders would be sufficient to induce many investors to buy stock—and has proved so. But we prefer investigation and therefore we will pay your expenses to our mines. Investigate them; investigate our mills, shafts and tunnels, and if you come back and tell us that our statements are contrary to facts, we will return your money paid on stock with interest, as well as we will pay your expenses.

What You Ought To Know About The Standard Lead and Zinc Smelting and Mining Co.

The Standard Lead and Zinc Smelting and Mining Co. owns the largest amount of acres as mining property, in fact, owns more acres of land for mining purposes than a dozen companies put together in Platteville, or in any other lead and zinc district, in which every stockholder participates and derives a revenue from. THE PRINCIPAL STRIKES IN OUR MINES HAVE BEEN MADE IN LA FAYETTE COUNTY, NEAR BENTON, where we have a 40-ton mill in operation on our "Sally Waters mine," recently purchased by this company, for which we paid many thousands of dollars. It is not a prospect. We are spending thousands of dollars in the securing of proven mines, without prospecting. Therefore, every investor receives a sure investment with every possible speculative feature eliminated. Our recent purchase we find to be rich in lead and zinc, in fact the richest strikes known of have been made in our "Blinkiron Mine." We refer you to our engineers' report. We have signed letters by the highest mining officials in the state, which is proof conclusive that every statement regarding the richness of our property is true. You will be amazed when you see with your own eyes that which you would have a right to doubt if convincing proof were not at hand.

THE DIRECTORS ARE MILWAUKEE, PITTSBURG AND DULUTH MEN.

If you do not know the directors of the Standard Lead and Zinc Smelting Co. personally, you know them by reputation. They are all prominent and substantial business men of Milwaukee, Pittsburg and Duluth.

WHY STOCK IS BEING SOLD.

We are spending thousands of dollars to develop our property. We have absolute proof that it is rich enough to keep several mills going for years and years to come. Now, we want to put up a magnetic separating mill which will double the price of the product by four times. Such a proposition as this one has never been given to the small investor. This is your opportunity while the stock is on the market at what is known as the "ground floor" price. The stock will advance 50 per cent within a few days.

Here is a Letter From a Well-Known Engineer From Burlington, Wis., Who Has Just Returned From Our Mines:

Burlington, Wis., June 5, '05.

The Standard Lead and Zinc Smelting and Mining Co.—

Gentlemen:—In regard to the trip I have taken to Benton, the railway expense is $11.50. I enjoyed the trip all right and found everything as represented only I did not see Mr. Krueger or Meloy, but I found the engineer, so he showed me around. I am fully satisfied with the bodies of ore on the property. I am certain that I can locate bodies of ore in that section by the score, and where to drill or sink a shaft, they will never miss it, nor will I charge one cent if they do.

(Signed) Respectfully yours,
W. H. KNOLL, Burlington, Wis.

Engineer's Report of May 30th:

Benton, Wis., May 30, '05.

The Standard Lead and Zinc Smelting and Mining Co.—

I took measurements of the tunnel and shafts of the Blink-iron mine. There are 97 feet of finished work, according to our contract, in height and width. They are putting in the lumber at the shaft, which is now 15 feet deep, in which we struck another sheet of lead, running across the shaft in what is called the miners' 2 o'clock, of which I sent you today ore which I picked myself, also some black jack from same property, which are in separate packages, with a large piece of ore that came out of the Kiltoes shaft. Today's work on the Sally Waters mine consisted of work on the tramway. I leveled the cross work and relaid half the track to a gauge which I made.

(Signed) T. T. KRUEGER, Engineer.

DIVIDENDS WILL BE BIG.

There is no "might be" about dividends—the minute the new mill starts we will make big money. At the present selling price we can almost guarantee 50 per cent on your investment annually. Please remember these are not "dreams"—we have proof.

The stock is selling very fast. Legitimate investments which offer such unheard-of returns are not to be picked up every day. The best and shrewdest men of Pittsburg are the heaviest purchasers. Par value is $1.00 per share, full paid and non-assessable. You can buy for considerable less if you don't wait until the last minute. Write or call.

Engineer's Report of May 31st:

Benton, Wis., May 31, '05.

The Standard Lead and Zinc Smelting and Mining Co., Milwaukee, Wis.

Dear Sir.—I wish you could have seen this sheet of lead we struck. It was about one and one-half inches thick across the shaft and runs all the way down. We got out about fifty to sixty pounds of the lead such as I sent you today by Chicago-Northwestern railway.

Very respectfully yours,
(Signed.) THEO. T. KRUEGER, Engineer.

The Following is a Report From Our Assistant Superintendent Reporting the Strike on May 16th:

The Standard Lead and Zinc Smelting and Mining Co., Milwaukee, Wis.

Dear Sirs:—Simons & B. struck rock at four feet, lead at six feet. Drill hole just missed the lead about six inches.

Very truly yours,
HENRY BLINKIRON,
(Signed.) Benton, Wis.

The Standard Lead and Zinc Smelting and Mining Co

Agents Wanted Apply at once to J. D. Zien, President Standard Lead & Zinc Smelting & Mining Co., 118 West Michigan St., Duluth. **407-408-409-410 and 411 Iron Block, Milwaukee, Wis.**

SERVICES FOR SUNDAY IN DULUTH CHURCHES

Rt. Rev. James D. Morrison to Officiate Morning and Evening at St. John's Episcopal Church In Lakeside.

Mrs. C. A. Salquist, Chinese Missionary to Speak at Two Baptist Churches.

At St. John's church, Lakeside, the services will be as follows: 7:45 a. m., holy communion, Venerable Arch-Deacon Appleby, celebrant. 10 a. m., Sunday school. 11 a. m., morning prayer, litany and sermon by the bishop of Duluth. 7:45 p. m., evening prayer and sermon by the Rt. Rev. James Dow Morrison.

• • •

At Trinity mission Sunday services as follows: 8 a. m., holy communion. 11 a. m., morning prayer, litany and sermon. 3 p. m., Sunday school. 4:15 p. m., evening prayer and sermon.

• • •

• • •

At St. John's English Lutheran church, corner Third street and Lake avenue north, Rev. J. E. Murphy, A. M., the pastor, will conduct service at 10:30 a. m. with sermon on the gospel for the day. Sunday school will meet at 11:45 a. m., and English Sunday school at 3 o'clock at the chapel Twenty-eighth avenue west. At 8 o'clock the following program of sacred music will be given:

Prelude .....Buch
"Jerusalem" .....Parker-Riess
Chorus choir.
Hymn—No. 517 .....
"Lead, Kindly Light" .....Buck
Double Male quartet.
Soprano solo—"Hear Ye Israel," from "Elijah" .....
Miss Grayce Frances Turner.
"Teach Us Thy Way" .....Ellis
Odin Mecalson and choir.
Address .....
Rev. J. L. Murphy.
Offertory—Cornet solo .....Selected
Charles Helmer.
"Ave Maria" .....Abt
Misses' chorus.
Solo—"I Heard the Voice of Jesus Say" .....Harris
Miss Turner.
"No Night There" .....Frud
"Father, Take My Hand" .....Scott
Double Male quartet.
Hymn .....
Postlude .....
Mrs. J. L. Murphy is organist and chorister.

• • •

At the First Unitarian church, First street and Eighth avenue east, Rev. Harry White, the minister, will conduct Sunday school at 12 and morning service at 11 a. m. with a sermon. This is the last service before the summer vacation.

• • •

At the First Christian church, corner Fourth street and Fifth avenue west, Rev. K. Shollenberger, the pastor, will conduct morning service at 10:30, the subject of the sermon being "John's Message as Recorded in the Book of Revelation." Sunday school will meet at noon and Christian Endeavor at 7 p. m. The pastor will preach at 8 o'clock.

• • •

At the First Church of Christ, scientist, corner Ninth avenue east and First street, regular service will be held at 10:45 a. m. on the subject "Christian Science." Regular wednesday evening meeting will be held at 8 o'clock.

• • •

Dr. Jeanette S. Wilson will speak at the Y. W. C. A. at 4 p. m. on the subject, "An Open Secret: How We May Always Be Happy." Miss Alice Sjoselius will sing.

• • •

At the Endion M. E. church, the Rev. S. L. Parish will preach in the morning. There will be special music. Sunday school will meet at noon. There will be no evening service.

• • •

At the Bethel, Lake avenue, Sunday school will meet at 3 p. m., led by T. S. Thompson, superintendent. Y. P. S. C. E. will meet at 6:45, and children's gospel meeting at 7 p. m. Gospel meeting in the Finnish language at 8 p. m. will be conducted by the Rev. Mr. Lindgren.

• • •

At the Bethel, branch, 508 West Superior street, Sunday school will meet at 3 p. m., led by L. A. Marvin, superintendent. Evangelistic service at 7:45, will be conducted by the Rev. J. T. Moody. Mrs. Asher will sing. The meetings during the week will be conducted as follows: Monday evening, the Swedish Baptist church; Tuesday evening, the First Presbyterian church; Wednesday evening, the Swedish Mission church; Thursday evening, Mr. and Mrs. Asher; Friday evening, Second Presbyterian church; Saturday evening, praise and testimony meeting.

• • •

At the Central Baptist church, corner of Twentieth avenue west and First street, at 10:30 a. m., Mrs. C. A. Salquist, returned missionary from Western China, will speak. Sunday school will meet at 12 o'clock and Young People's meeting at 7 o'clock. At 8 p. m. the pastor, Rev. J. W. Loughridge, will speak. He leaves on Monday for his vacation.

• • •

"Our Daily Bread" will be the subject of Rev. John Culbert Faries' sermon at the Glen Avon Presbyterian church. The subject in the evening will be "The Old Testament Jesus."

• • •

At the First Swedish Baptist church the pastor, Rev. A. Edstom, will preach at 11 a. m. tnd 7:30 p. m. Sunday school and Bible class at 10 in the morning. At 4 o'clock in the afternoon the Woman's Foreign Mission society will have its monthly meeting. Mrs. C. A. Salquest of China is expected to be present and give an address on missions in that field. Prayer meeting on Thursday evening.

• • •

At the Second Presbyterian church, 1515 West Superior street, Rev. W. J. Lowry will preach at 10:30. Sunday school will meet at 11:45 and Christian Endeavor at 6:45. At 7:45 the pastor will preach on "The Dangers of Youth," a sermon to young men. Thursday evening at 7:45 Bible and prayer service will be held.

• • •

Sunday school will meet at Bethany chapel at 2:30 p. m. Preaching service will be held at 3:30 p. m.

• • •

The services at the Lester Park Methodist Episcopal church, Rev. Charles Fox Davis pastor, will be as follows: Morning, a Children's day service by the Sunday school; evening, "The Things that Are Caesar's vs. the Things that Are God's."

• • •

At the Star of Hope mission, 622 West Superior street, meetings are held every evening at 8 o'clock, conducted by Mr. and Mrs. John Callahan. Sunday services will be as follows: 3 o'clock, consecration meeting; 8 o'clock, song and praise service; 8:30, John Callahan will speak. There will be special singing at this service.

• • •

At Grace Methodist Episcopal church, corner Twenty-second avenue west and Third street, Rev. Joseph W. Robinson, the pastor, will conduct services at 10:30 a. m. and 8 p. m. Children's Day will be observed at the morning service. The pastor will give an address on "The Christening." The evening subject will be "The Shepherd God." At the Epworth league meeting at 7 p. m. "Minor Moralities" will be the subject, and leader R. R. Forward.

• • •

At St. Luke's Episcopal church, Nineteenth avenue west and First street, Sunday school will be at 10 a. m., and morning prayer and sermon at 11 a. m. The subject of the sermon will be "The Man who Was Deaf and Dumb." Rev. Roderick J. Mooney is the rector.

• • •

At the Lakeside Presbyterian church, Rev. H. B. Sutherland, pastor, the annual roll call services will be held in connection with the morning service at 10:30 a. m., and the Sacrament of the Lord's Supper will be administered in the afternoon at 3:30 p. m., which will be the closing service of the day. Sunday school will meet at 12 o'clock.

• • •

At the First Norwegian-Danish M. E. church, corner of Twenty-first avenue west and First street, the pastor, Rev. H. K. Madsen, will preach at 10:30 a. m. and 7:45 p. m. Sunday school will meet at 12 m., and Epworth league at 7 p. m.

• • •

At the German M. E. church, corner Fifth avenue east and Sixth street, there will be morning service at 10:30 a. m., with a sermon by the pastor on the subject, "Samuel and His Parental Home." Sunday school will meet at 12 o'clock. In the evening a Children's day program will be given. The songs will be rendered by a choir consisting of Miss Lillie Niniz, Lydia Schultz, Mr. Alfred Hoch, and Mr. Ed. Wagner, by a junior choir and a class of girls, and other members of the Sunday school. There will be given about twenty recitations by pupils of the Sunday school. The pastor is Rev. J. F. Cleiner.

• • •

At the Hope church of the Evangelical association, corner Fifth street and Seventh avenue east, a children's program will be rendered by the Sunday school at 10:30 a. m. Y. P. A. meeting will be at 7:30 p. m., and service at 8 p. m. Rev. C. A. Tesch is the pastor.

EPISCOPAL CONFERENCES

At Richfield Springs to Be Well Attended.

Richfield Springs, N. Y., June 17.—It is now certain that there will be a good attendance at the Episcopal conferences to be held here during the last two weeks in July and throughout the month of August. Registrations to date have so far exceeded those of last year that a tent seating 800 has been secured for an auditorium, and will be formally dedicated on the evening of July 19, when the sermon will be preached by Bishop Burton of Lexington.

A feature of the conferences will be illustrated lectures, some of them given out of doors; if the weather proves fine. One lecture will be on Manila, and will be given by William B. Millar, the Y. M. C. A. secretary who induced the mikado of Japan to adopt Y. M. C. A. methods for work among the Japanese troops. He has just come back from a tour of the world. Another will be on New York City as a foreign mission field, to be given by Dr. Thomas Darlington, health commissioner of New York. No city in the world, certainly none outside of China, compares in extent with New York as such foreign field.

Some Episcopal church workers, especially some men, have expressed themselves unable to attend conferences in August because that is the month for their vacations. They are learning, however, that these conferences offer an ideal plan and place for the vacation outing. Indeed, it is that fact that furnishes the secret of the remarkable growth of summer religious centers during the past decade or two.

The secretary of war, Judge Taft, United States Senator Scott of West Virginia, Congressmen Longworth and Grosvenor of Ohio and some others who are going to the Philippines this summer with the Taft party, have promised to look into missionary and educational conditions in Japan and the Philippines, if their time permit, with the view of speaking upon the subject next winter upon their return. They will not be able to speak at Richfield Springs this year, of course, but they may be able to do so next year, and perhaps at some meetings to be held in various cities next winter.

Efforts are made to bring to these conferences some of the great preachers of the Episcopal church, the aim being to strengthen the spiritual life of church workers. Those to be heard here this summer will be Father Huntington of the Order of the Holy Cross, the Rev. Dr. Floyd W. Tomkins and the Rev. Cassius M. Roberts, Philadelphia; the Rev. Dr. John Henry Hopkins and the Rev. Dr. James S. Stone, Chicago; the Rev. John R. Matthews, Ohio, and the Rev. W. Northey Jones, Williamsport, Pa. Bishops who will be heard are those of Georgia, Ohio, Harrisburg, Cuba, Porto Rico and possibly of Tennessee and Delaware.

In the beautiful park in the center of Richfield there were held last year some Sunday afternoon mass meetings, at one of which 2,500 people were present. Governor Higgins of New York has promised to visit these conferences, and it is expected that he will preside on one of these Sunday afternoons, besides speaking next day at the regular meetings. It is not thought likely that a special session of the New York legislature will interfere with his visit.

Some other prominent speakers will be Booker T. Washington, United States Indian Commissioner Leupp, Capt. A. T. Mahan, Mr. Sadazuchi Uchida, Japanese consul general at New York, and Hon. James S. Sherman, chairman of the house committee on Indian affairs. About thirty returned missionaries or recent travelers in mission fields will be present.

The various conference dates are: Women's, July 20 to 30; men's, July 30 to Aug. 6; workers', Aug. 8 to 20; Sunday school, Aug. 20 to 27, and church singing, July 20 to Aug. 20. The last named aims to improve the singing in the pews. In connection with it some concerts are to be given on Friday or Saturday afternoons, eminent singers from New York being on the program. The organization in charge of these conferences is the Seabury Society of New York, which aims to increase the number of men who take active interest in all forms of church work.

SECULAR SHOTS AT PULPIT.

Kansas City Journal: Bishop Potter is so pleased with his saloon that he has started a beer garden. There is a man who refuses to be turned from his course by a flood of caustic criticism.

Boston Transcript: Lightning struck three churches in Chicago but, so far as is learned, did not touch a single saloon. It is a little embarrassing to attempt the construction of a moral on such a foundation.

Chicago Record-Herald: Rev. Dr. Minot J. Savage declared last Sunday that divorce was not an evil, and no national rumpus has as yet resulted. Why the delay? Has Dr. Savage's opinion ceased to be considered worth quarreling about?

Pittsburg Dispatch: The best thing that was said in any pulpit in the United States recently was uttered by a person in Des Moines, Iowa. Rev. Dr. McConnell declared that the decadence of churchgoing was because attendants—especially at Protestant churches—wore the most expensive clothes they possessed. This had the effect of keeping away the poor, plainly attired people. In making the usual announcements for future services this long-headed parson said: "Please note that all people attending services here are requested to wear plain and inexpensive clothing in order that no one, however humble, may be embarrassed." This man is on the right track. Dress is the barrier between church attendance and the poorer classes. Of course, it is not expected that a man will go to the house of worship in his overalls. It is to be hoped he wouldn't sit down to his dinner in such garb—certainly not if he loves and respects his wife, who cooks the meal.

NEXT CONVENTION GOES TO PERHAM

Delegates From That Town Land State Meeting of 1906.

Band Contest to Be Big Event—More Visitors Arrive.

Conditions were more favorable for the Eagles' convention today. The wind shifted from the northeast last night, and this morning dawned warm, even if the clouds did obscure the sun. The rain has held off during the day and there appears to be a good chance of the visitors getting a glimpse of the sun before they leave the Head of the Lakes.

The morning trains brought in many more visitors this morning, and taken in all the third day of the big convention was much more successful than either of the preceding ones.

• • •

Perham, Minn., was doubly honored by the state convention of the Fraternal Order of Eagles yesterday when Lee Flenner, a prominent business man of that place was chosen worthy state secretary and the assembled delegates voted that the next state convention should be held in Mr. Flenner's home town, the last Friday and Saturday in June, 1906.

The selection of Perham for the next state convention is due to the energetic efforts of Worthy State Secretary Flenner, assisted by John Provost, another prominent citizen and manufacturer of that place, backed by an enthusiastic delegation of about twenty Eagles from the Perham aerie. Mayor Peter Schroeder of Perham is also an Eagle and Mr. Flenner stated that he was instructed by the mayor to offer every inducement to the Eagles for the 1906 convention. Mr. Provost declared that he stood ready with a personal guarantee for funds for the good of the order with a check containing some big figures, and assurances came from the rest of the Perham delegates to the effect that their city would furnish the best of accommodations and entertainment.

The delegates from Bemidji, Cass Lake, Crookston and other points in the Western part of the state gave Perham a solid and enthusiastic backing and the St. Paul and Minneapolis delegations gracefully tendered their support in favor of Perham for the next meeting.

Already the Perham delegates are laying their plans for the 1906 convention and are extending cordial invitations to the Eagles from every point in the Northwest. Perham, they claim, with a population of about 2,000 people, is one of the most wide-awake cities of its size in Minnesota. The aerie there is comprised of about 200 Eagles. Mr. Flenner was the first president of the aerie of Eagles at Fargo, where he formerly resided.

Outside of the election of officers and the selection of the next convention place, there was little of the procedure of the business session of yesterday to be made public. The committee on credentials reported and annual reports were read by the secretary and the treasurer.

Last evening, at the Lyceum, the big vaudeville entertainment provided by the local committee for the visiting Eagles took place.

The program comprised a laughable and entertaining musical number by the Hewitts, of the Metropolitan Opera company; a song and several stories by William Harris, a local artist; an exhibition on the flying rings by Wendlundt and Proff; a wrestling match and three sparring bouts for points, with soft gloves.

The wrestling match was between Joe Sear of Calumet, middleweight champion of the world in the Cornish style of wrestling, and Frank Jordan of Chicago, champion 145-pound wrestler of the world in the catch-as-catch-can style.

The first fall, Cornish style, was won by Sear in 7 minutes and 15 seconds. Jordan won the second fall in catch-as-catch-can style in 10 minutes and 16 seconds, and Sear won the last fall, Cornish style, in 2 minutes and 30 seconds. Both men displayed much cleverness in their own style of wrestling.

In the sparring exhibition Young Fischer of Superior was given the decision on points in a 6-round go. The contest between Young Scottie of Chicago and Thompson of Superior was declared a draw at the sixth round. Otto Sieloff of Chicago and Kid Williams who fought Young Corbett, gave a fast and clever exhibition of scientific boxing for fifteen rounds, when it was declared a draw.

Before the entertainment at the Lyceum began last evening, the Calumet & Hecla band gave a short, but delightful concert in the Eagles' headquarters on Superior street. One of the selections received with great appreciation was "The Holy City," with a slide trombone obligato.

• • •

More than 300 delegates representing nearly every aerie of Eagles in the state, assembled at the Eagles' headquarters this morning for the closing business session of the state convention. The meeting was presided over by W. E. Brown of this city, who was yesterday elected worthy state president of the order.

One of the features of the morning's session was the official address to the delegates by State Worthy Grand President J. W. Shadewald, who went at some detail into a discussion of the affairs of the state aeries and the standings of the various aeries.

Following this report G. A. Seeman, district deputy grand president from the copper country gave the convention a stirring address for the good of the order.

State President Brown appointed the following standing committee for the good of the order: Robert N. Grady, St. Paul George R. Wormwood, White Bear; John J. McCannery, Morris; J. H. Caldwell, St. Paul.

State Secretary Lee Flenner of Perham was the only one appointed by President Brown to the committee on ways and means. Mr. Flenner is to have the privilege of appointment of the other two members in view of the fact that the next state convention is to be held in Perham, and the raising of funds for it will be an important part of the committee's work.

J. H. Ellis of Minneapolis, grand worthy vice president of the order was honored this morning by an election as state past worthy president.

One of the principal topics discussed this morning was a proposed change in the method of representation at the grand aeries. At the present time each subordinate aerie in the state elects a delegate to the grand aerie. It is proposed to change this and have the subordinate aeries elect delegates to the state convention, and the delegates to the state convention to elect representatives before the grand aerie.

It has been decided at this convention that hereafter all communications concernign questions within the jurisdiction of the state organization shall pass through the hands of the state officers.

Besides passing a number of resolutions relating to matters of interest alone to Eagles, a hearty vote of thanks was extended to the citizens of Duluth, the mayor and the local Eagles for the hospitality and entertainment that has been afforded the delegates and visiting Eagles. A vote of thanks was also extended the state officers for the able and efficient manner in which the affairs of the order have been conducted.

The final business session closed about 1 o'clock this afternoon.

The Eagles will hold a grand prize band concert and ball at the Armory this evening. At this concert the several visiting bands will enter a contest for cash prizes. The first prize is $200, the second prize is $75, and the third prize $25. The leaders of the different musical aggregations will get together this afternoon to select the judges and to arrange the final details as to the conditions for the contest.

Besides the band contests there will also be distributed, this evening, various other prizes, including $100 for the largest aerie; $100 for the best drilled aerie; $100 for the best uniformed aerie; $5 for the largest Eagle; $5 for the smallest Eagle; $5 for the handsomest Eagle, and $5 for the homeliest Eagle.

These contests are open to the aeries and Eagles of Minnesota, North and South Dakota, Michigan and Wisconsin.

Duluth aerie is barred from all contests, and Superior aerie from the contest on numbers only.

Tomorrow morning there will be a boulevard drive, and at 2 o'clock tomorrow afternoon the visiting Eagles will be given a free boat ride on Lake Superior.

• • •

In return for some of the complimentary, but truthful statements that have been made concerning them by The Herald, the members of the Calumet & Hecla band appeared in front of the Herald office shortly after noon today and rendered two or three selections, which were greatly appreciated by The Herald staff, the employes in the federal building and a crowd of passersby who happened to be in the vicinity.

The band also included several business houses and the hotels in its itinerary this morning, and the manner in which it performed caused general commendation.

William F. Robinson, the leader, was for several years leader of the famous Kilties' band of Toronto, and John G. Dunn, the manager, is the worthy president o fthe Calumet aeries of Eagles.

The committee on arrangements of the copper country delegation is composed of Albert Gale of Lake Linden, G. A. Seeman of Houghton, and William O'Leary of Hancock.

• • •

The Grand Rapids band is one of the conspicuous contingents attending the Eagles' convention. It arrived in the city Thursday evening, heading the delegation from that city, but the unpromising weather kept many from leaving home.

Although the organization was only organized about two years ago, it is a source of pride to the citizens of Grand Rapids. During the summer weather the band delights the Grand Rapids people with open air concerts twice a week. There are sixteen pieces here, and all the players are Grand Rapids talent. Al. Roecker is the leader. C. E. Aiken, cashier of a bank at Grand Rapids, is the cornet soloist, while C. Wollenberg is the baritone soloist. The latter has only two thumbs and a finger, but that does not prevent him from contributing to the success of the band.

PARADE LATE IN FORMING

Eagles Do Not Get Started Until Late In Afternoon.

Owing to the delay caused by the arrival of the Twin City excursion an hour late, this afternoon, the parade planned as the feature of the program of events for today did not get started until considerably later than 3 o'clock.

The crowd brought up by the special train, which ran five coaches and a baggage car, was disappointly small, not more than 200 people at an outside estimate. It is believed that the bad weather conditions which have existed here and in the Twin Cities for the past few days and the none too promising outlook in the forecast of the weather for today, was responsible in keeping the visitors away.

The Twin City contingent of Eagles claim that had the weather been good there would have had between 3,000 or 5,000 people here.

On the excursion this afternoon came the renowned Journal band of Minneapolis, accompanying a delegation of the famous Drill Corps, No. 1, of the Minneapolis aerie. These made a fine showing in their handsome blue gold-trimmed uniforms. Long before the hour set for the parade to start, people lined Superior street and stood for over an hour waiting for the procession to form and march down and back.

Shortly after 1:30 o'clock, the Superior aerie of Eagles, about sixty strong, headed by the Superior Marine band, came across the bay and marched east on Superior street to the place of formation of the parade,

Persian Nerve Essence

RESTORES VITALITY—Have cured thousands of cases of Nervous Debility, Insomnia, Varicocele and Atrophy. They clear the brain, strengthen the circulation, make digestion perfect, and impart a magnetic vigor to the whole being. All drains and losses stopped permanently. $1.00 per box; 6 boxes, guaranteed to cure or refund money, $5. Mailed sealed. Book free. Persian Med. Co., 632 Arch street, Philadelphia. Sold in Duluth only by Max Wirth, 13 West Superior St.

CITY BRIEFS

Embossing. North-Land Printery.

Independent ferry to Superior, 5c.

Quaker Bread.

The lights on the canal piers will be turned on this evening for the first time this season, and will continue burning throughout the summer months.

James Martin, a Gideon travelling man, will address the meeting of the boys' department of the Y. M. C. A. at 3 o'clock tomorrow afternoon. An informal song service will precede the address and Erling Mostoe will render a violin solo. The meeting is open to any boy in the city who desires to attend.

Dr. H. C. Leonard will have charge of Dr. Routh's practice during the latter's absence from the city. Calls will be answered from the office, 412 Providence building, day and night. Both phones.

We are a little behind in our work but will be ready Monday to sharpen your lawn mower. Northern Hardware Co.

Free band concert at Oatka, Beach auditorium Sunday afternoon.

Edward Darder and Maggie De Marce of Brookston were married by Court Commissioner Adams in the district court this morning.

The work of dredging the entrance to Ontonagon, Mich., harbor has been completed, and the dredge has departed for Ashland, Wis. The operations were started May 21 and 36,000 yards of clay were taken out. The channel was cut fourteen feet, and was dredged for a distance of about 3,000 feet.

The Duluth Yacht club's lunch room in the new club house was opened today. Light lunches for the convenience of members will be served afternoon and evening during the yachting season, and more elaborate menus can be prepared by special arrangement. The club house is now practically completed and the date for the formal opening will soon be announced. The launch Skibo runs Saturday afternoons between the club house and Patterson's boat house.

The Duluth-Chicago train leaving over the Omaha at 5:30 o'clock this afternoon will be made up of twelve coaches on account of the Woodmen convention at Milwaukee. About 225 Duluth and Superior Woodmen will leave for the Wisconsin city on the train.

The Calumet and Hecla band furnished music during the dinner hour at the Commercial club today.

In a special term of court before Judge Cant this morning the motion of the attorneys for the defendant in the case of George A. French against Grier H. Thompson for a new trial was denied. The plaintiff was recently awarded a verdict on a piano sold.

A class of about fifty will be confirmed at St. Anthony's German Catholic church at 10:30 o'clock tomorrow morning. Right Rev. James McGolrick will officiate.

The biggest catch of pike ever made in the vicinity of Tower was made by a party of five, among whom were Joseph J. Adrihan and Bessie Collins of Duluth, a few days ago. The catch weighed more than two hundred pounds, the smallest pike being about two pounds and the largest twelve. Fall lake, twelve miles above Winton, was the scene of the catch.

GRAND PRIZE BAND

CONCERT

AND BALL

At the Armory this evening

Benefit Duluth Aerie of Eagles.

TICKETS 50 CENTS.

PERSONALS

Mrs. Henry Abraham and daughter, Ray, of 1430 East First street are at Lake Minnetonka for a two weeks' visit.

C. E. Tvedt of Hibbing is here on business.

General C. C. Andrews of St. Paul was in the city yesterday, registered at the Spalding.

Dr. W. J. Griffin of Ashland is visiting friends in Duluth.

Charles J. Chapman of Crookston is here on business.

C. B. Rene of the New York Life has been called to Chicago as cashier of the company's railroad exchange branch office.

Miss Florence Metcalfe of St. Paul is a guest of her sister, Mrs. Malcolm A. Thompson of Munger Terrace.

Grand prize band concert and ball at the armory this evening, benefit Duluth Aerie of Eagles. Tickets 50 cents.

G. H. Vivian, chief deputy in the county treasurer's office, is moving today with his family from Tower to a house on East Third street.

A. B. Loud left for Nebagamon, Wis., today.

W. G. Main left for Chicago today.

A. Stevenson left for St. Paul today.

S. D. Smith of Minot, S. D., is registered at the McKay.

W. G. Harris is in the city from Hibbing.

G. P. Fitzwilliam of Ely is a guest at the McKay.

Miss L. Buswell of Ely is visiting with friends in the city.

Mr. and Mrs. D. A. Scott of Ironwood, Mich., are at the Spalding.

E. B. Myers of Biwabik is at the St. Louis.

E. F. Young is in the city from Two Harbors.

George Abel of Two Harbors is a guest at the St. Louis.

Mr. and Mrs. L. F. Knox of Virginia are in the city today.

J. E. Mehan of Hibbing is at the St. Louis.

Mrs. Katherine Bell of Hibbing is visiting friends in the city.

JAY GOULD LIBELED

Coal Company at Sault Has Coal Bill Against Vessel.

The steamer Jay Gould has been libeled by the Kemp Coal company of Sault Ste. Marie, Mich., on a bill for coal, amounting to $3,396.45. It is alleged in the complaint filed in United States court today that the coal was furnished the steamer on and between Aug. 4 and Nov. 29, last year.

It is understood that there are other claims likely to be filed against the steamer which belongs to the Lake Michigan and Lake Superior Transportation Company of Chicago; and in this connection there is a story abroad that the company will allow the vessel to be sold for the debts.

Capt. Singer, the manager of the company here, is at Isle Royale at present and cannot, therefore, be communicated with.

The Jay Gould is a wooden steamer, having a gross tonnage of 996 feet. She is 214 feet long on the keel line, has a beam of 33 feet and a depth of 12 feet. She was built in Buffalo in 1869.

PRICE OF WESTERN OIL CUT.

Independence, Kan., June 17.—The price of Western oil was cut 3 cents a barrel today. The Standard Oil company is now paying 50 cents a barrel for high-grade Kansas and territory oil and 5 cents less for gravity under 32 down to 30 cents a barrel. It was long ago predicted that the price of Kansas oil would reach 50 cents a barrel by reason of the vast over-production in this field.

STORY BY TOGO

Says He Whipped Russian Fleet In Thirty-Seven Minutes.

Description of the Battle and Pursuit Officially Given.

Tokio, June 17.—Admiral Togo's official report shows that he whipped the Russian fleet in just thirty-seven minutes after the first gun was fired on May 27. The Russians opened fire at 2:08 p. m. The Japanese ships reserved fire until within 6,500 yards and then began so impetuous an attack that at 2:45 p. m., Togo says, the enemy's fleet was demoralized, its big ships on fire and all his warships steaming southward. Togo says the result of the battle was decided at 2:45 p. m. The Russian battleship Oslabya sank in 52 minutes after the first gun of battle had been fired.

Following is Admiral Togo's official statement

"Our order for action was given at 1:55 p. m. We headed southwest for a short time as if taking a course directly opposite to that of the enemy. Suddenly, at 2:05 p. m., we turned east, changing front, and pressed diagonally against the enemy's head. Our armored cruiser squadron closely followed our course, while the divisions under Admirals Dewa and Urin and the cruiser squadron division commanded by the younger Togo followed a course previously planned and proceeded southward to attack the enemy's fleet.

"The enemy opened fire at 2:08 p. m. We did not reply until we brought our ships within 6,400 metres (6,500 yards). Then we concentrated our fire on the two leading ships. The enemy found himself pressed more toward the southeast, and both his lines veered gradually eastward, assuming an irregular vertical formation. In this position the enemy continued on a course parallel to ours. The Russian battleship Oslabya caught fire on the left of the line. Meantime our cruisers appeared at the enemy's rear.

"As we neared our fire increased in effectiveness and the Kniaz Souvaroff and Alexander III. burned fiercely. The enemy's line became confused and the smoke concealed them. Therefore we suspended fire. The result of the battle was decided at 2:45 p. m. The Oslabya sank at 3 p. m. We pressed the enemy southward, firing when any of their ships became visible. By 3 o'clock we had already appeared in front of the enemy's line in advance. Our course was about southwest.

"Suddenly the enemy headed north, evidently planning to escape in that direction around our rear. Our main squadron turned sixteen points to port, reversing its order and steering northwest. Our armored cruisers also changed front, following the same course and pressing the enemy southward. The enemy then changed east again and we promptly turned sixteen points to starboard, our armored cruisers following suit. By 4:40 o'clock the enemy seemed to be headed south. Later we lost sight of him in the smoke and the mist.

"At 5:20 our main squadron sank the Ural and found six of the enemy's ships running northeast. We pursued, caught them and opened fire. The enemy changed his course westward, then northwestward. One of the enemy's battleships was disabled and another sunk. Our armored cruisers, pursuing the enemy southward, observed the Alexander III. approach the Admiral Nakhimoff, overturn and sink.

"I ordered all my ships to assemble at Ullen island the next morning."

Admiral Togo then describes the attack of May 27 and approved the surrender of Admiral Nebogatoff and allowed him and his officers to retain their swords.

PITTSBURG WOMAN

Wins In Fight With Telephone Company.

Pittsburg, June 17.—Mrs. Patrick J. Donohoe Thursday declared that the Central District and Printing Telegraph company, which is erecting a new line in Hermitage street, should not surround her house with telephone wires, and defied a large crew of workmen, reinforced by the police. Holes had been scooped out in front of her house for the poles, but as yet they have not been placed, and work has been postponed indefinitely.

For Mrs. Donohoe came off victorious after the first skirmish. She placed one of her children in each of the six holes and defied the workmen. The police were called to pull the youngsters from their cells, but little Bridget Donohoe, with a garden hose, turned a stream of water out of a second-story window, causing both bluecoats and telephone employes to beat a hasty retreat. Mrs. Donohoe still holds the fort, and the holes have been filled in.

"If the good Lord had sent a score of children to bless me, it's everyone I'd place in the holes that deface my property," she declared. "They want to stretch wires around my house. I'll not let them do it. No gentlemen will act as these people behaved before a lone, defenseless woman."

CURIOUS CLAUSE

In the Will of a Philadelphia Woman.

Philadelphia, June 17.—When the will of Charlotte D. Sage was admitted to probate yesterday, one of the most curious clauses ever contained in a document of this kind was brought to light. The estate is valued at $350, and the will disposes of it in this wise:

"I bequeath to my beloved sister (if she promises to allow my father, Benjamin F. Sage, of beloved memory, all the cigars he wants, also the vests he likes to wear in the winter), all my personal and real estate I die possessed of, or to which I shall be entitled to at the time of my decease."

Inquiry developed the fact that Miss Sage's father, who is an elderly man, has a fondness for cigars. Some time ago his eldest daughter refused to allow him to smoke the usual number on account of his health. He felt the loss of tobacco keenly. His fondness for fancy waistcoats amounted to a hobby.

THE STRONG PUBLIC INDORSEMENT.

Given the Taylor Institute at Iron River, Wis., by so large a number of disinterested and perfectly responsible men, is a very strong card.

There can no longer remain any doubt that they have a perfect cure for the liquor habit. The splendid condition of their many cured patients is convincing evidence. Ask for full particulars and testimonials.

TAYLOR INSTITUTE,

IRON RIVER, WIS.

THOSE WHO HAVE DIED

Lamar, Mo., June 17.—State Senator L. D. Hicks, aged 77 years, of Marshall, died last night in this city. Mr. Hicks was among the original supporters of Major William Warner for election as United States senator. It was the vote of Senator Hicks in the senate that killed the breeders' law and prohibited race betting in Missouri, the legal prohibition going into effect today.

Panama, June 17.—Sam Davis, the American inspector of the Panama police, died here today. Davis formerly was a detective sergeant of the New York city police department.

LUTHERANS THIRD DAY.

Pittsburg, June 17.—The third day's session of the general synod of the Evangelical Lutheran church in American convened shortly after 8 o'clock today. The morning session was devoted to the report of the committees on "Hymn books" and the "Pastors' fund."

Mrs. W. L. McCormick Dies.

Mrs. Ethel McCormick, wife of W. L. McCormick, died this morning at St. Luke's hospital, of septic poisoning, aged 29 years. Her husband and a son three weeks of age survive her. Mr. and Mrs. McCormick had made their home in Duluth about two months with Mr. and Mrs. A. D. Goodman of East First street. The body will be taken to Chicago for burial. Miss Florence Robinson, sister of the deceased, has been here from Chicago for several days.

Juniors Defeat Bull Dogs.

The Eagle Juniors defeated the Bull Dogs by the score of 12 to 6. A triple play and a long run catch by Dawson were features of the game. The line up was:

Eagle Juniors.		Bull Dogs.
M. McDonald	1b	R. Pearson
D. McLean	cf	A. Guthrie
F. Grandy	ss	Pearly
A. Krause	3b	Lawrence
C. Dawson	2b	A. George
A. Ott	c	Olund

H. Nelson	rf	F. Evens

Free Concert at Oatka Beach Sunday Afternoon

La Brosse's Military Band.

DOUBLE-TRUCK CAR SERVICE.

TROUBLE EXPECTED.

Revenue Cutter Anchors Near Floating Pool Room.

Chicago, June 17.—Possible trouble for the promoters of the floating pool room, to be operated on the passenger steamer City of Traverse, was scented yesterday when the revenue cutter Tuscarora quietly steamed into port and anchored in the basin off the Columbia Yacht club house.

Although it was said the cutter had come down from Milwaukee merely on one of the periodical inspection trips, it was deemed significant that the government cruiser should appear so near the time that the pool room venture was to be tried.

Large sums of money are being spent in remodeling and refitting the steamer, and she has already been partially inspected as to seaworthiness by United States steamboat inspectors.

The gamblers' syndicate may find out soon what the revenue cutter is here for.

GOVERNOR HANLEY

Asked to Suppress Gambling at French Lick.

Indianapolis, Ind., June 17.—Letters have been received by Gov. Hanley and Attorney General Miller asking that gambling in French Lick, a resort maintained by Tom Taggart, Democratic national chairman, be suppressed. Harry A. Carnes, a Southern Indiana lawyer, writes that gambling is conducted openly; that many persons have been fleeced of large amounts of money, and that the local authorities have taken no action in the matter.

EVERY MAN WAS ARMED.

Magistrate In Hargis' Case Orders Disarmament.

Jackson, Ky., June 17.—Magistrate Allen today ordered a general disarmament in the court room where he is conducting an examination in the case of the Hargises and B. French, who were accused of the murder of J. B. Marcum. During the morning it was shown that nearly every person in the court room carried a revolver, whereupon the court ordered each person entering the room to disarm.

SKILLFUL MANIPULATION

Of Auto By Mayor Johnson Avoids Accident.

Chicago, June 17.—Mayor Tom L. Johnson of Cleveland, who is here investigating the Chicago street car situation, had a narrow escape today, when an automobile in which he and A. B. Dupont of Detroit, were riding, collided with a cable car, as the automobile was about to cross the street car tracks at Clark and Randolph streets. The dexterity of Mayor Johnson, who was operating the machine, prevented a serious accident. When he saw that a collision was unavoidable, Mayor Johnson reversed and the big machine backed away, escaping with slight injuries to the front wheel, the only part of the machine touched by the street car.

MYSTERIOUS WARNING

To Russian Officials to Leave Warsaw During Siege.

Warsaw, June 17.—A mysterious confidential document received by all the higher Russian officials of Warsaw has caused a sensation. The officials are directed to report to Gen. Boyalubof, chief of the commissariat department here, where they wish to go in the event of the "siege of Warsaw" and also how many members of their families they will take with them and what railroad they propose to travel on. There is much speculation as to what significance is attachable to the word "siege" and everyone is at a loss to understand the reasons actuating the circular, but it is known that bands of roughs have been organized with the view of pillaging the homes of rich citizens and the police warned the Russian officials to send their families away as a measure of safety. Numbers of people are depositing their valuables in the banks and are securing passports in readiness to leave at short notice.

WAR GAME ENDS

Maneuvers Between Army and Navy Come to a Close.

Last Half Hour's "Battle" Was a Magnificent Spectacle.

Fort Monroe, Va., June 17.—The last half hour of the game between the army and navy ended at noon today, eclipsing all engagements of the week in every feature of the spectacular possible in sham battles. The fleet under Admiral Dickins, headed by his flagship the Texas, sailed in single column close in shore, passing every gun of Fort Monroe. Every ship of the fleet was in action at the same time and every gun of the fifteen ships was being served to the limit of rapidity. On the one side was Fort Monroe as a target and on the other Fort Wood. With equal energy and rapidity the forts replied. While the fleet was one that would be impossible in war, it depicted a scene which left nothing to the imagination in the realization of the magnificence of battle. Every effect was there, except the effect of the shells. Strategy and play for position and favorable conditions was abandoned that the inspiration of battle might be attained by the men behind the guns. That the closing minutes of the game produced this death-struggle effect there can be no doubt. In the line of battle three of the monitors followed the Texas. They were the Florida, Arkansas and Nevada, all painted war color.

Then came the cruisers Newark and Atlanta painted white. The old Hartford was next in line. The monitor Puritan, with the naval militia of the District of Columbia, preceded the four destroyers, Whipple, McDonough and Stewart while the Hornet, Siren and Sylvia brought up the rear. The battle flag of the Texas went down and she ceased firing as she had got well past the fort and this example was followed by the units of the fleet as they successfully reached the same point. In this way the conflict reached its end gradually and as the last gunboat went out of action, the fort sent up a huge smoke bomb indicating that the joint exercises of the army and navy were at an end. The ships proceeded up Hampton roads, after cablegrams had been exchanged between Admiral Dickins and Gen Wade.

IRRIGATION SYSTEMS.

First Government One Opened In Nevada.

Reno, Nev., June 17.—With the opening of the Truckee-Carson canal below Reno today, the first irrigation system constructed by the government under the reclamation act, a new era was opened for Nevada and the entire West.

The main canal runs from Tidbury, fifteen miles east of Reno on the Truckee river to a point ten miles above Leeteville, on the Carson river, a distance of thirty-one miles.

The entire system as projected will not be completed for nine or ten years and will cost about $9,000,000. After the initial work is finished and the first section of land is placed under irrigation, the remainder of the project will be carried out with the proceeds of the sale of government land adjacent to the ditches and the sale of water to the settlers who are expected to take up the land.

SUPREME COURT

Of Canal Zone Organized By Governor Magoon.

Washington, June 17.—Governor Magoon of the Panama canal zone has informed the war department that he has completed the organization of the supreme court of the district of the canal zone and had appointed Dr. Facundo Mutis Duria, a Panama citizen, chief justice of such court, and Lorin C. Collins of Chicago an associate judge.

These two, with the present justice of the supreme court, H. A. Gudger, formerly consul general at Panama, constitute the complete supreme court as authorized by law.

INDICTMENTS AGAINST THE PLUMBERS' TRUST.

Cleveland, June 17.—The grand jury today returned indictments against the members of the alleged plumbers' trust under the Valentine anti-trust law. The grand jury sprang a big surprise when it also returned indictments against members of the Cleveland Mantle and Tile Dealers' association. The indictment charges that these men were in a combine in restraint of the trade. This action is similar to the course pursued in the coal dealers' cases which are now being tried. Similar offences are charged in those cases.

TO SUCCEED BELLINGER.

Washington, June 17.—After a conference with President Roosevelt today, Attorney General Moody announced that it had been decided to appoint Judge W. W. Cotton of Portland, Or., to the vacancy on the United States district bench, caused by the death of John Charles Bellinger of the district of Oregon. Judge Cotton will not be required to quality until Sept. 1.

MORE YELLOW FEVER.

Washington, June 17.—Governor Magoon has reported to the isthmian canal commission from Panama five new cases of yellow fever in the canal zone.

TREASURY BALANCES.

Washington, June 17.—Today's statement of the treasury balances in the general fund, exclusive of the $150,000,000 gold reserve in the division of redemption, shows: Available cash balance, $135,880,168; gold, $70,462,224; silver, $31,095,261.

$21.35 Asbury Park and Return Via Erie Railroad.

June 29, 30, July 1 and 2, limited to Aug. 31; good to stop at New York, Cambridge Springs, Chautauqua and Niagara Falls. Tickets on sale also to all tourist points—Chautauqua Lake, Niagara Falls, etc., good until Oct. 31. Full particulars 555 Railway Exchange, Chicago.

DR. MITCHELL'S RECEPTION

Rooms Are Crowded From Early Morning Until Late at Night.

He Is Making New Cures Every Day.

Dr. Mitchell has demonstrated in thousands of cases that his system of curing disease without medicine or surgery is one of the greatest discoveries ever made for the uplifting of afflicted and suffering humanity. Ten thousand cures he has to his credit. Those cures have been made after the patient had given up all hope and had tried everything without getting help. Some were deaf, blind, lame, broken down, paralyzed and suffering from disease that promised to end their lives. They are cured by this famous specialist. Dr. Mitchell's fame has spread from one country to another until he has patients coming from across the Atlantic.

Mr. Nels Hilsen of Norway was so deaf that he could not hear a watch tick. He was stricken deaf when he was seven years old. He is now 19 years old and is delighted with Dr. Mitchell's succes in treating him, and recommends this grand treatment to any one that is deaf. Mr. Hilsen was sent to Dr. Mitchel by his uncle, Mr. Northrope, who was losing his eyesight some six years ago and was cured by Dr. Mitchell. Mr. Hilsen's address is 1419 Weeks avenue, Superior, Wis.

Mr. Charles Hall of 220 Lake avenue south, Duluth, who was blind, had his sight restored by Dr. Mitchell.

Dr. Mitchell has cured every known disease and has hundreds of letters on file of marvelous cures, from doctors, lawyers and all classes of people. If you are suffering from any disease and not getting along under your present treatment, consult Dr. Mitchell, he will advise you rightly.

Those enrolling as students in Dr. Mitchell's School between this and July 1, will get their tuition at half price. Zenith 'phone 579. Office, corner First street and Fourth avenue west.

LARGEST CIRCULATION IN DULUTH

TO SUBSCRIBERS:

It is important when desiring the address of your paper changed, to give both old and new addresses.

THE HEALTHIEST CITY.

Health Commissioner Murray of Duluth is quite right to protest vigorously and promptly when he sees any ambitious city trying to lug off the title of "the healthiest city in the world."

Duluth knows what city is entitled to the honor of wearing that proud title. So does every one of her citizens. She is, herself, the only rightful possessor of the title, and she is not going to sit idly by and see some other city bear it away.

Minneapolis' May death rate was pretty small. It was 8.75 per 1,000 inhabitants, and on the strength of it the health department sent out reports broadcast that Minneapolis was the healthiest city in the world. As the rate is exceptionally low for any city, naturally people who do not know the facts will think the claim of Minneapolis is correct.

Health Commissioner Murray, in advancing valiantly to the defense of Duluth's superiority in this respect, punctures the Minneapolis boom very effectively. As the claim was based on the May death rate, Dr. Murray had only to point out that Duluth's rate was lower to settle the Minneapolis claim at a single blow.

Was it lower? Why, there came awfully near not being any death rate at all in Duluth last May. What rate there was was so small it is hardly worth while calling it a rate. It was .873 against 8.75 in Minneapolis; nearly nine in the flour city and less than one here.

Duluth is the healthiest city in the world, and the wholesomest, and nobody must be permitted to think otherwise. Therefore it is well that the health commissioner is going to have printed in very large, conspicuous and unmistakable type in his next report—which circulates among the cities of the country—that "Duluth is the healthiest city in the world."

DOES IT PAY?

"What is a man profited, if he shall gain the whole world, and lose his own soul?"

The Herald the other evening published a dispatch from New York showing in a striking manner the inevitable end of the mad hurry and tempestuous confusion of the average New Yorker's life. An alarming increase in the number of deaths from heart disease in New York has been noted, and an examination of the records shows that since 1868 the annual death rate from heart failure and Bright's disease has grown from 13.05 per 1,000 to 29.62 per 1,000. The week before 125 people died from organic heart trouble against fifty-six in the corresponding week in 1904.

These diseases are peculiarly the diseases of a highly organized civilization, particularly such a civilization as New York boasts. Unquestionably a large percentage of the cases are due to the wear and tear of business worries upon the human organism. It is not work; work never produced any such results. It is worry, the worry attendant upon the insane scramble for more dollars, a fight that is wonderfully pathetic because its fruits are so often disappointment under the guise of victory. A life spent in a frantic chase after riches, which are attained when the capacity to enjoy them or anything else is gone, is the most pathetic thing in modern life. To fight during the best years of one's life for wealth, and then to find the grim specter of fatal disease sitting upon the filled coffers, is tragedy.

What is going on in New York is going on elsewhere, in perhaps a lesser degree. Shattered systems are everywhere common fruits of modern business methods. The worst feature of the scramble is that it shuts out so much that is more worthy, so much that is uplifting and ennobling, and involves so much that is deteriorating, so much that is destructive not only of physical existence but of high purpose and of usefulness to mankind.

Is it worth while?

A WONDERFUL FEATURE.

A few days ago The Herald published an interesting article about the United States department of agriculture, showing what it does for the farmers of the country and, indeed, of the world.

This department in many respects is the most wonderful feature of the government. In it the paternalistic idea crops out more than in any other branch, though it is not obtrusive enough to call upon its head the condemnation of the theorists. The department of agriculture is eminently practical. It does things. It tells the farmers practically everything they ought to know, and it is constantly experimenting and developing new ideas that mean many dollars for those who put them into practice. One of the best known features of the agricultural department, the free seed distribution through congressmen, is one of the least important and valuable. It is not a serious feature of the department, but is simply tolerated in order to let the congressman make a good fellow of himself. But along other lines it is doing work that is vastly important.

It maintains the weather bureau, which saves millions annually for the farmers and business men of the country. It maintains a bureau of animal industry that tells how to care for farm animals. It maintains a bureau of plant industry that tells how to care for and secure the best results from plants. It maintains the bureau of forestry, which does important work in directing forestry experiments and educating the public to the forestry idea. Its bureau of chemistry, under the famous Dr. H. W. Wiley, has done vastly important work in awakening public intelligence to the dangers of food adulterations. Its bureau of soils is analyzing and mapping out the soil of every part of the country, a work that will result in a complete knowledge of what crops are best adapted to each locality. Its bureau of statistics does a valuable work, best known of which is the crop reports in which the grain trade places so much confidence. The bureau of entomology tells the farmer how to look out for injurious insects. The division of biological survey, besides being a national game commission, affords useful observations on the geographic distribution of animals and plants, and maps the natural life zones of the country. The office of experiment stations keeps the department in touch with all state work, besides managing some of the department's own experiments. The office of public road inquiries collects facts about road management, makes experiments in road-building, and disseminates the results. The division of publications handles the distribution of a vast amount of free publications, laying before all who wish to read the results of the multitudinous and valuable operations of the department.

It is a deeply interesting and a vastly useful department, and much as mossback farmers may jeer at the "book farmer," the use of the hints furnished by the department of agriculture have been of immeasurable value to the country.

REMEMBER THE CENSUS.

Meanwhile, do not forget the census and its importance to Minnesota, to St. Louis county and to Duluth.

If you are going to be out of town during June, or if you have been out of town, let the superintendent of the census know about it, to make sure you are not overlooked.

If any of your neighbors or your friends or your relatives have been out of town or are going to be out of town, let him know about that, too, for the same reason.

If you know of anybody that is likely to be overlooked through any cause, it is your business to make sure he is not. If you let the superintendent know about it he will not be neglected.

If you have a list of names and addresses of people in your community, send it to the superintendent that he may check his enumerators' work with it. If there is one name on the list that has been overlooked it will be worth while. Such lists may be of your employes, your friends, your club, your society, your union, your church.

If you can do anything in any way to push the census, and ensure a complete count, it is your duty to do it, because it means something to you as a citizen of Duluth. The showing will not come up to expectations, either in Duluth or anywhere else, probably, because it never does. But expectations are always too high, and are usually made without a complete belief that they will be fulfilled. Expectations in Duluth are for about 75,000 people, and anywhere above 65,000 will make a splendid showing compared with the census of five years ago, when the total was under 53,000.

But if the census should, through failure to make a complete count, go under 60,000, showing only a comparatively slight increase, there would be general disappointment at home and abroad, and it would have a direct effect upon business and upon the city's prosperity.

Duluth wants no padding in this census, but it does not want a single soul overlooked. The cooperation of the Commercial club, of the city officials, and of every firm, corporation, society, partnership and individual is needed to ensure a complete count.

THE CHINESE BOYCOTT.

Secretary Taft voiced the opinion of a lot of people when he criticised the Chinese exclusion act the other day in his talk at the commencement exercises of Miami university. Several incidents have of late called public attention to the harsh provisions of the law, which subjects the highest prince of the flowery kingdom to the same indignities and humiliations that meet a coolie when he comes over to this country.

It is not that the bars should be let down to Chinese coolie immigration, by any means, though unquestionably the bars are down now for many that are infinitely worse than the Chinese. With all due respect for the Japs, popular idols that they are, laboring men in different parts of the country are finding serious and dangerous competition in Japanese common labor. In fact it has been reported that in some parts of the West, where there have always been many Chinamen and there are now many Japs, the former insist on getting as much wages as anybody, while the Japs will willingly cut in and work for a wage that white men cannot exist upon.

At any rate, there is a growing impression that when the Chinese began to resent the restrictions of the American Chinese exclusion act, and to work up a boycott against American goods because of it, they were giving us just exactly what we had coming. It is impossible to get very angry at the Chinaman for feeling and acting as he is doing when we are ourselves morally certain that he is right and we are wrong.

Sentiment is almost unanimous in this country in favor of restricting Chinese immigration, and there is no reason why it should be otherwise. Yet the restriction should be attended with fairness, and should not be, as the present law is, a gratuitous insult to a nation. It is continued absolutely regardless of the treaty relations of the two countries, and it is clearly not in accord with international law.

In 1868 a treaty with China provided freedom of intercourse between the two countries with no restrictions. In 1880 another treaty, for no specified term, excluded Chinese laborers, or provided that an agreement excluding them might be made, but admitted all others. In 1894 a third treaty was negotiated excluding all Chinese except teachers, students, merchants, travelers and officials, and even these were admitted only under certain conditions. For instance, no student could come to study a subject that could be as well studied in China. A Chinese traveler had to submit an itinerary at his arrival at an American port, and he could be arrested for a deviation from that schedule. This treaty, which was for ten years, expired last year. The Chinese government contends that this brings us back to the treaty of 1880, so that we can exclude only laborers. It is on this theory that they are organizing to make us trouble, and there is much justification for their stand.

A new treaty may be arranged shortly, but there will be interesting complications in the meantime.

"BENEVOLENT" SALOONS.

If the city of Los Angeles, California decides to adopt the proposed plan of farming its saloon business out to a "benevolent corporation," described in The Herald recently, the experiment will be watched with interest.

The plan is similar to the dispensary scheme, now in operation in the South, and it is attended by many plausibilities. Like the dispensary plan, much depends upon its management. So long as the corporation is "benevolent," and keeps to the pathway that has been laid out for it, the saloon business will be deprived of many of its evils, and the result will be a vast improvement in the morals of the city and in the material welfare of its citizens. If the corporation ever forgets that it is "benevolent," however, it can quickly lapse into the same old conditions, and by its control of the saloon business of the city can become a power in politics that it will be difficult to cope with.

But in the meantime it is benevolent, and it is going to do many things. It is going to cut the number of saloons down from 200 to 75. It is going to shut up all the saloons in the residence districts and replace them with coffee houses if necessary and feasible. In the mill and manufacturing districts only beer and light wines are to be sold. It is going to have drastic regulations of the conduct of its business, designed to eliminate many evils of the saloon business. Of course it will refuse—though the reports do not say so—to sell to minors, drunken men or men whose relatives do not wish them to have liquor. It will not be possible, of course, for men to make a club out of the saloon and stay in one until they have to be carried out. The saloons will not be kept open late enough to let men get to the stage of drunkenness when reason leaves and the devils in the drink prompt to crime.

It is easy to see where a truly "benevolent" corporation could do a lot of good to the public while making a lot of money for the city and for itself in this manner. This corporation proposes to limit its earnings to a reasonable figure, to guarantee the city a certain revenue, and to give it all surplus over the limit it has set upon its own earnings.

It all sounds very well, and the progress of the experiment will be watched with deep interest.

THE FIELD SURVEY.

To say that a man is the kind that will say "indubitably" when he means "undoubtedly" is voluminously and luminously descriptive.

* * *

While Norway has her skis on, she may as well go ski-lobning into democracy.

* * *

The new constitutional assembly in Russia is to be called a Gosadarstvenniaia Dula. If they had wrapped that name around the fortifications at Port Arthur the Japs would have been outside the walls now.

* * *

Since the railroad time has been cut between Chicago and New York, the two cities are arguing whether it brings New York nearer to Chicago or Chicago nearer to New York.

* * *

That $4 per square inch for a bit of New York real estate sounds large, but it shrinks some when it is remembered that a few years ago a lot on the Strand, in London, brought $312 per square inch.

* * *

Mr. Morton will find that the insurance business is another one in which rebates are not looked upon with favor.

* * *

And as Norway went her way alone, Ireland heaved a sigh of envy.

* * *

It was excellent weather—for testing whether or not the decorations were made of fast colors.

* * *

Any of the visitors taking any interest in "the clink of the ice in the pitcher, as the boy comes down the hall?"

* * *

And now Mount Pelee is trying to attract attention to itself by threatening to erupt again.

* * *

Nobody has called the Democratic mule "Maude" yet.

* * *

Roosevelt does not weigh so many hundreds of pounds as Taft, but the lid seems to be holding its place pretty well just the same.

* * *

Just to make sure, somebody ought to put a pinch of salt on the tail of that dove of peace.

* * *

Mr. Dalrymple of Glasgow came all the way over from Scotland to tell us that a business cannot be run except on business principles.

* * *

Admiral Enquist thinks his ships were five miles away from the Japanese fleet when the shells struck them. It is certain anyway that they were that far away a few seconds later.

* * *

Those Chicago university professors have settled so many things in the universe that their silence on the teamsters' strike is puzzling.

* * *

A New York landlord gave as an excuse for raising rents that the Patterson trials made his taxes higher. There are towns where they don't work so hard to excuse themselves.

* * *

It would be pleasant if all warfare could be "theoretical," like that going on down in Chesapeake bay.

* * *

And now our affection begins to warm toward Texas. She is sending watermelons North.

* * *

When a man proposes to a woman, it's a sign she is ready to have him propose.

* * *

That attack on the Philadelphia machine is not "constructive," however.

Hotel Gossip.

"Californit is reaping the profits from the loss the people in Florida suffered on account of the frost which destroyed their orange crop," said A. P. Porter, who is registered from 'Frisco, at the St. Louis yesterday afternoon.

Mr. Porter graduated this spring from a medical college on the Pacific coast, and is now on a tour through the country before setting down to work at his profession. After leaving here, which he will do as soon as the weather clears up, Mr. Porter will go East and probably touch at the Bermudas. He may decide to pursue his medical studies in London, or at Venice. While on his journey from the West to Port Arthur he traveled in company with the duke of Sutherland, with whom Mr. Porter was very much impressed.

"The duke of Sutherland struck me as a fine fellow," said Mr. Porter. "He possesses not a bit of false modesty, but conducts himself like a well-behaved Englishman. I always had the notion that the nobility was kind of uppish, and I was agreeably surprised to find that the duke acted like any other ordinary man.

"I ran up against him at Indian Head. I had bought a team of pintos, and was looking at them at the depot at Indian Head when he came up and spoke to me. He admired my team very much, and the conversation about the horses led to an acquaintance. One would think that his kind would be somewhat reserved, and for fear that he might think I was too forward I let him make the advances.

"Although he stayed at the same hotels I did I never observed that he had any retinue with him. I did not even see a valet tacking around. In fact, there was not the slightest bit of style about him. The duke is a man about 35 or 38 years of age. He seemed to be very much impressed with the West, and thinks that Manitoba is a great place."

"There is no doubt about it that the climate of California causes a person to be sluggish," he continued. "A man's blood courses slowly through his veins. They realize that out in California too, for, take a rancher; he would rather employ a man straight from the East than one who has been out in the balmy country for some time. I like California. When I was in Winnipeg some men, who were real estate agents, of course, told me that some Winnipeg people had gone to California, and they had returned to Manitoba, saying they didn't like it out on the coast. I can hardly believe it.

"There are some drawbacks to living in California. For one thing you never enjoy the sensation of spring. The change from the winter season is so gradual that you do not notice it. I think that for 320 days in the year it is simply fine in California. It is not a bit sultry there, except in such places as Fresno and Bakersfield, where the sea breezes do not reach. It is frightful at these two towns at times, the temperature being so hot that they are compelled to close up their places of business.

"Won't you have a cigarct? Do you know that one never sees a pipe in the mouth of anyone in California. They smoke only cigarets and cigars. I am surprised to see the howl that they are raising in Wisconsin against cigarets. It is all right to prevent boys under age from using tobacco in any shape or form, but putting a taboo on the cigaret is unwarranted, to my notion. You never see a man who smokes cigarets with the tobacco heart. Take the longshoremen in 'Frisco. They smoke small black pipes, and nearly all of the men are afflicted with the tobacco heart. In the 'London Lancet' there was an article showing that the cigaret is not so harmful as other forms of tobacco. It is demonstrated in the article that the more rapid the combustion the greater is the destruction of gases."

* * *

"While luck has been against us this season, the copper country is enjoying nearly its usual prosperity," said W. G. Carah of Hancock, Mich. at the St. Louis last night.

"The dismantling of the draw to the Portage lake bridge connecting Hancock and Houghton is a serious inconvenience to the business interests, blocking all traffic for the season and the numerous small, but annoying strikes at several of the mines have been demoarlizing the business.

"The street railway employes have been on a strike for the past three months, and while the men are still out, traffic has been resumed, and is in about its normal condition. Among the several substantial improvements promised for Hancock in the near future is a large modern hotel, which will probably be built during the present year."

Mr. Carah represents the Zenith Paper company of Duluth in the copper country.

* * *

The youthful clerk at a local hotel and another man, who appeared to be a railroad brakeman, were holding an animated discussion across the desk yesterday afternoon. It might have been the war in the East they were conversing about, but in reality the stupidity of the "dear public" was the absorbing topic.

"Ain't it funny the way some people act?" the clerk was saying.

"Awful," chimed in the brakeman.

"Scores and scores of guests come to me and ask what time the trains leave, when they know just as well as I do," said the boy behind the desk. "Only yesterday one came up to me and inquired what time the train left for ——. I told him the morning train had gone at 9 o'clock, and that he would have to wait until the afternoon. He said I was mistaken; the morning train left at 11. I got mad and told him if he knew better than I did he shouldn't ask me. Then he went out to the ticket office, and came back telling me I was right for once."

"It's the same way on the train," contributed the brakeman. "They come up to me and ask what time we will reach such-and-such a place. When I tell them, they ask since when the schedule had changed. I say it has been the same for years, and then they start to argue with me."

"Yes, they'll stand up against the desk for an hour and tell me that I am wrong," said the clerk. "What makes me mad, though, is to have a fellow come up and ask what time the 1 o'clock train leaves. That joke was first perpetrated when Noah shoved his ark off from the moorings."

"Oh, but school teachers are the peaches," exclaimed the brakeman, with fire in his eye. "When I spot one of them on the train I always steer for the smoking car. They can ask more foolish questions than anybody I ever knew. A picnic of teachers drives me crazy."

The anvil chorus was swelling into a Wagnerian air, leading up to thunder, when the listener decided that the music was becoming too classical for his uncultivated ears.

The Weather.

It was a wild night, and though the morning the wind had switched into the southwest and conditions were vastly improved, an unusually heavy surf along the lake shore gave evidence of the force of the northeaster that had spent its fury and departed.

Slowly, reluctantly, but certainly, the clouds lightened, broke, and gave promise of drifting away. The sun came out, too, a little bit uncertainly at first, but as the morning wore on it seemed to gain courage and stay out longer. The outlook for a pretty Sunday became more encouraging every minute, especially as the wind persisted in remaining away from the northeast.

The weather man has it figured out so that it ought to be pretty decent tomorrow. It will be partly cloudy, it is true, but it will be warmer tonight, and the winds will stay away from the northeast, and come from the west and north for a change.

The barometer is low over the Upper Mississippi Valley and Utah. Showers fell over most northen and eastern districts, and in Northwestern Texas. The lower Ohio and Middle Mississippi valleys are warmer, and it was cooler over Eastern Nebraska, Minnesota and near Lake Superior. There was fog over scattered areas on Lake Superior.

Following were the highest temperatures recorded during the twenty-four hours ending at 7 o'clock this morning, as reported by the weather bureau:

Abilene	98	Medicine Hat	54
Atlanta	86	Miles City	62
Battleford	46	Minnedosa	62
Bismarck	62	Modena	82
Boston	88	Montgomery	90
Buffalo	76	Moorhead	62
Calgary	54	New Orleans	92
Charleston	82	New York	82
Chicago	78	Norfolk	80
Cincinnati	88	Northfield	84
Davenport	88	North Platte	76
Denver	74	Oklahoma	94
Detroit	74	Omaha	74
Dodge	80	Phoenix	96
Duluth	50	Pittsburg	86
Edmonton	60	Port Arthur	62
El Paso	88	Portland	62
Escanaba	76	Prince Albert	44
Galveston	88	Qu'Appelle	60
Green Bay	84	Rapid City	66
Havre	62	St. Louis	90
Helena	64	St. Paul	78
Houghton	70	San Francisco	62
Huron	62	Santa Fe	74
Jacksonville	86	S. Ste. Marie	82
Kamloops	70	Shreveport	92
Kansas City	88	Spokane	70
Knoxville	88	Swift Current	58
La Crosse	86	Washington	84
Lander	50	Williston	56
Little Rock	90	Winnemucca	66
Los Angeles	72	Winnipeg	54
Marquette	64		

United States Department of Agriculture, Weather Bureau, Duluth, June 17.—Forecast for twenty-four hours ending at 7 p. m. Sunday: Duluth, Superior and vicinity—Partly cloudy tonight and Sunday. Warmer tonight. Fresh westerly to northerly winds.

H. W. RICHARDSON,
Local Forecaster.

Chicago, June 17.—Forecasts until 7 p. m. Sunday: Wisconsin—Probably showers tonight and Sunday. Slightly cooler tonight and in east portion Sunday.

Minnesota—Generally fair tonight and Sunday.

North Dakota and South Dakota—Probably showers tonight and Sunday.

Upper Lakes—Light variable winds tonight and Sunday. Showers.

SCHOOLS.

St. Johns Military Academy
Delafield, Wisconsin
"The American Rugby"
Situated in the famous Waukesha County Lake Region. For Catalogues, etc., address
DR. S. T. SMYTHE, President,
Delafield, (Waukesha Co.) Wis.

Twenty Years Ago.

Taken From the Columns of Duluth Papers of This Date 1885.

***It is quite probable that a fine and fully equipped natatorium will be established here soon.

***Dr. Laffitte of Superior has opened a real estate office there. Duluth's old citizens like to deal in land.

***Over 150 Duluthians went to Ashland this morning on the excursion. It was the first passenger train over the new Northern Pacific bridge.

***The paper fair of the Friends in Council, held last night, was a brilliant success.

***A fire last night on Park Point burned an old barn belonging to the old Gen. Sargent place.

***The yacht Idlewild is being fitted out with 155 yards of canvas. She should beat any boat in this part of the lake with such spread of sail.

***A St. Louis newspaper says the South is going to send a large number of people up here this season who are anxious to lay in a good store of Lake Superior fresh air and health.

***Edward Foley, a dockman, was struck by cars last night. Both legs were cut off and he died about 11 p. m. from the shock. He did not once lose consciousness before he died. He was walking along the track, near the foot of Second avenue west, slightly intoxicated, when a freight train backed into him. Brakemen called to him, but he paid no attention, and was struck down. He was an Irishman.

***The school board has called for an election on the question of voting $15,000 for a new school house. It will be put at the base of Rice's Point and will replace the present Adams school house. It is proposed to erect an eight-room building.

***Kasota stone is being used for the piers of the new storage elevators. As there are about 2,000 piers under both houses, and each pier is three feet by four, and a foot thick, the great amount of stone required can be easily seen.

***The epidemic of burglaries seems to have run its course, as only one or two unsuccessful attempts have been made this week. It may be the circus acted like a boil and carried off the bad element of our population.

SATURDAY NIGHT TALK

Man and Wife.

"Two wedded from the portals stepped,
The bells made happy carollings,
The air was soft as fanning wings,
White petals on the pathway slept."

GEO. ELIOT.

An added glory is given to golden June days, because it is the mating month of all the year. The array of blushing brides and proud bridegrooms, induces on the part of the public a mood of congratulation, and while the showers of rice are falling, we would join with them, if the two happiest persons in the world will permit, a word of gentle counsel.

This is the least seasonable time in the year to discuss whether marriage is a success or a failure. Of course, all these recent marriages are going to be tremendous successes. They could hardly be anything else in view of the lovelight in the eyes of the contracting parties, and the merry-making at the wedding feasts. And on general principles marriage is just as likely to be a success as a single life. When asked whether a certain individual will make a good husband or a good wife, I try to find out what kind of son or daughter, brother or sister he or she has been. If one has succeeded in living with his closest relatives on happy terms for a score of years, he is likely to succeed in living for two score years in special relations with one person. On the other hand, there is no magic in matrimony which in an instant transforms a person who has been sour and disagreeable in the home of his childhood, into a congenial member of a new home. This is a new experiment, but the same gifts which adorn life in any stage—kindness, honesty, patience, tact, will avail you in your married estate. An old gentleman said to a billing and cooing young couple just starting out together: "I counsel you to possess yourselves of the two bears—'bear and forbear.' They are the most important domestic animals you can own."

Remember to give each other the first place. During your engagement we have all smiled to see how quick! each responded to the step of the other as it hurried up the front walk. We have marked with pleasure the constant outgo of courtesies, to say naught about the incoming of flowers and confectioneries. Beware lest in the rush of life, you substitute some other interest for that personality which should claim always pre-eminence. Many marriages as auspiciously begun as yours have come to grief because some other interest arose which was not shared by both partners to the union. But you will not let this occur. Amelia and John. You will take an interest in other people and other things, but no home will ever seem so attractive as your own, no plan will ever occupy so exclusively the mind of one as to put love in the background. Nothing must interfere with the primacy which each gives to the other in these honeymoon days.

And as you settle down in rented cottage or apartment, or your own dwelling house, remember that a certain institutional character attaches to your life. You are adding to the millions of homes already existing a new home which will never be precisely like any other. You may make it the center of joy and hope not only for yourselves, but for others. I have known young couples starting out as you are doing, who felt that it was the proper act to connect themselves with some worthy institution like the Christian church, to establish in their own home a certain daily form and habit of prayer, and thus to give to the new relationship the dignity and support which it deserves.

And may I offer you, dear John and Amelia, as partial penance for intruding upon your honeymoon, the wish that when you have reached old age, you will be able to adapt and use the words which George William Curtis puts into the mouth of his hero in "Prue and I," who, looking back upon a long, quiet, but joyous married life, says: "For my part I do not believe that any man can see softer skies than I see in Prue's eyes; nor hear sweeter music than I hear in Prue's voice; nor find a more heaven-lighted temple than I know Prue's mind to be. And when I wish to please myself with a lovely image of peace and contentment, I do not think of the Plain of Sharon, nor of the Valley of Enna, nor of Arcadia, nor of Claude's pictures, but feeling that the fairest fortune of my life is the right to be named with her, I whisper gently to myself with a smile—for it seems as if my very heart smiled within me when I think of her—'Prue and I.'"

THE PASTOR.

Reflections of a Bachelor.

New York Press: It is surprising the way your wife will let you have your own way when it is hers.

The average man would be content to forego more pleasure if he could have less pain.

It is better to trust something to be mistrusted than to mistrust something to be trusted.

Women are very good card players, considering what good conversationalists they are at the same time.

Highways and Byways of The Town.

A man of farmer like appearance stood at the corner of Fifth avenue West and First street last evening gazing intently at P. McDonnell's road roller which is being used to level First street for the new paving. The gazer evidently blew in from the prairies with the excursion which came in over the Northern Pacific from as far West as Wahpeton.

He took in Paddy's "automobile" from all sides and was looking at it from the sidewalk when a heavy man with sharp eyes approached.

"A peach, ain't she?" volunteered the rotund one, enthusiastically.

"Y' bet she be," said the whiskered man. "What's she used for?"

"Well down here I use her for levelling roads," said the other loftly, "but where I come from we used 'em fer levelling and pressing the ground before plowing."

"What fer?"

The rural resident's curiosity was plainly aroused.

"Why don't you know?" The heavy man spoke in a surprised tone. "Why my dear man, when you press the ground before plowing, you can raise from twice to three times as much crop as you can without it. Sure."

"Gosh! Is that so?" queried the farmer. The man nodded wisely.

"Yep!" he said.

"How much do you want for her?" asked the rube, a shrewd bargaining look coming into his eyes.

"Oh, call around to my office in the morning and we'll talk it over," said the other. The farmer agreed and the heavy man moved away.

Suddenly the farmer recalled that he had failed to ask the man's address or name even. He quickly felt for his wallet and finding it heaved a sigh of relief.

"He wa'nt one of them bunco fellers anyway," he remarked, "but I wonder what is his game."

• • •

For some weeks a couple of men have been accosting girls after dark at the corner of Fifth avenue west and Second street and of late one or two "soppers" have been assigned to that district in the hope of catching these nuisances and running them in. Last Saturday night one of these cops was put in a very awkward position which caused envy and lack of official ambition to rise within him. He stood in the shadow between a porch and the building to which it belonged, trying to see one of the disturbers of the peace without himself being seen. While the policeman was so located one of the young ladies of the house was escorted home by her "steady." After they reached the porch they did not lose much time before beginning the spooning that is always supposed to accompany love's young dream. The cop had not figured on this, but of course, could not get away without being discovered and he did not wish to so disagreeably disturb them nor to appear as spying. So he had to stand there and take it all, hearing kisses which resembled the noise made by a cow pulling her foot out of the mud, mingled with terms of endearment that would melt the heart of a bronze idol. This went on for fully half an hour; then they broke away and the cop, limp as a rag, reported at the nearest box.

"Yes, we do run up against some queer sort of people every now and then," admitted an ebony-hued Pullman car porter as he gazed suspiciously at the man who was trying, without making too evident his intentions, to draw this important individual into conversation. Further than this the negro did not appear at all inclined to talk until positively assured that the curious one was not a "journalistic fellow" who was endavoring to get material for a magazine article on the trials and tribulations of a porter on the train.

"I wouldn't have anything at all to do with anyone who writes for publication," said the man. "They seem to look upon us black folks as good for nothing except to furnish things for the funny papers. I never could understand why it is that they persist in making us out something that we are not. You can't hardly pick up a newspaper, magazine or comic sheet without running across negro stories, and we poor devils of porters are made to talk like idiots. We are quoted as saying 'sah,' 'suah,' 'doan noah,' etc. It's enough to make a decent black man disgusted. I'll bet you won't find one porter in twenty-five that uses language such as is credited to him, and it is pretty much the same with negroes in all walks of life, except for the lower classes of common laborers in the South, who may not be very choice in picking their expressions. As a general thing we are more careful to speak grammatically than are a majority of the white people, and the most of us can boast of a fair education.

"One of the oddest experiences I ever had with a passenger occurred about a year ago on the St. Paul-Chicago run. As is no more than natural, we learn to size a man or woman up in short order when they step aboard our car, and come to a quick decision as to whether they are going to be worth much in the way of tips. The porter is largely dependent upon tips for his means of livelihod, and in his regular calculations of living expenses he usually figures in the amounts he is likely to receive in this manner during the month. Of course, the person who is liberal with his coin gets a little better treatment than the other fellow, but it is not often that the man who is not so liberal is really badly treated. He does not come in for extra favors as does the one who always gives tips, but manages to get along without actual discomfort. He gets all that is coming to him and ought to be satisfied.

"After a porter has been at the business for some time he forms the habit of judging of a passenger's liberality from first appearances, his general manner and actions as he steps aboard the train. In most instances the impression thus created is not far from being wrong, but sometimes we are mistaken. On the occasion in question the passenger in the case I sized up as being no good for tips. He looked rather countrified and was seedily dressed. He had a certain independent air and an expression about his determined eyes that made me decide right away that there would be no extra money coming from him. He wouldn't let me take his grip and carry it for him into the car, even, but walked on ahead, while I hollered directions from the rear, telling him where he might find his berth. Three or four commercial men in the car smiled and winked at me, as much as to say that I was up against a green proposition, and that there was no hope for me in a financial way. If this is what they thought their ideas fitted in with mine exactly. I didn't treat the man in any way discourteous, but being a little ruffled at his ways, did not show him any of the small attentions given others. If he noticed this he didn't say anything about it. When it finally came time to make up the berths I left his until the very last. Every other person on the car had traveled with me before, and all were accustomed to flipping me a coin when they got off. The man didn't say anything, but he didn't look at all pleased. I judge he was in the habit of rolling in earlier than 10:30 o'clock, which was the time his sleeping place was ready for him.

"He was the first one up the next morning. I guess he had been used to getting up early back on the farm, or else the motion of the train was not conducive to sleep. The first things his eyes lighted on were his freshly-blackened shoes. He was eyeing them oddly when I came along the aisle and turned out to let him pass. He glanced at me, but didn't say anything till I had gotten past, and then he called out to wait a minute. I turned around just in time to catch a silver dollar he had fired at me. I was a little surprised, of course, but remembered to grin my thanks. When he was dressed he went into the smoking compartment, and I fixed up the berth for the day right away, as much for my own convenience as his. A few minutes afterwards he wandered along and fired another dollar at me. Half an hour later, as I was finishing the last of the berths in the other end of the car, he threw five dollars in halves and quarters at me, and they struck with a jingle against the woodwork, but didn't break anything. He appeared perfectly unconcerned, and paid no heed to the curious glances thrown in his direction by the other passengers, who about this time began to regard him as a lunatic.

"When he went out to breakfast in the dining car he gave the man who showed him a seat a five dollar bill, and the waiter was tipped with a tenner. After he was back in his seat he tried to open the window, but couldn't do it, so I offered my assistance. The window stuck, and I was meeting with no better success, when he handed me a two-dollar bill, shoved me away, and put his foot through the glass, admitting a current of fresh air. Before I had a chance to say anything he had given me another bill for five dollars to pay for the damage. Before dinner he had given me $9 more, and at his second meal he parted with about as much more. He left at 4 o'clock in the afternoon, but before stepping to the station platform pressed $25 into my hand and told me to look well after the next twenty-five greenhorns who rode with me. And I did."

DOING WELL IN ARIZONA.

Harry Carroll Now Located at Phoenix.

Harry F. Carroll, well known in Duluth, is making a mark for himself as advertising man in Phoenix, Ariz. Mr. Carroll was formely advertising manager for I. Freimuth here, and about a year ago went to Phoenix to take a position offered him there with the Arizona Hardware and Vehicle company, having stores at Phoenix, Tempe and Mesa. This firm incorporated some time ago with a capital of $100,000 and R. B. Hegardt, brother of W. G. Hegardt, cashier of the American Exchange bank of Duluth, is treasurer of the company.

HARRY CARROLL'S TRADE-MARK DESIGN.

Mr. Carroll, judging from reports from that country, is making the people there sit up and take notice. Recently he designed and has established a trade mark for the company that is considered one of the cleverest the West has yet seen. A facsimile of this trademark is reproduced herewith. The cross in the center represents the Swastika Indian cross, typical of the country where it originates and signifies "Good Luck."

Low Fare

To New England and Canadian points via "The Northwestern Line." Very low one way rates are now in effect to points in New England states and Canada. Call at City Ticket Office, 302 West Superior street.

REGAMIER CREAM.

SEASON IS ENDED

High School Nine Will Play No More Baseball.

Closing of Other Schools Prevents Arrangements For Games.

As the baseball season of the majority of the schools in the state is over, making it almost impossible to secure games, it has been decided to discontinue the local organization.

At the opening of the season the prospects for a first class team with a satisfactory schedule were bright, but it sems that very few high schools take an active interest in the game. It was next to impossible to get games with any of the other schools on a satisfactory basis. In the past Duluth has always brought nines from as far away as St. Paul and Minneapolis, but owing to the low condition of the association's funds it was not thought advisable to do so this spring. The local management endeavored to arrange a game between some of the Twin City teams, justly holding up the fact that they were under obligations to play down there. This did not seem to be agreeable to the teams there, so no games were played with those schools.

The work of the team has been of a high order. The boys have kept in the best of condition and have always played good ball. The team work of the nine was excellent, showing the results that have been accomplished by the coaching of Prof. Church, with the assistance of Capt. Cramner.

Early in the season five games were scheduled with the Blaine high school of Superior, two of which have been played, each team winning one. Since the last time that the two teams met, the locals have several times endeavored to have the third and deciding game played, in order to settle the championship of the Head of the Lakes, but each time the bunch from across the bay have offered one pretext or another as an excuse for not playing off the tie.

The members of the local team do not consider this manner of proceeding at all sportsmanlike. Speaking about it yesterday morning, one of the boys said:

"The Blaine baseball team from Bugville is afraid to play the third and deciding game with the nine representing the Duluth Central high school. The game that was to have been played last Wednesday was called off by them, as they said that they had to play Nelson Dewey. They informed us at the last minute that they were not going to play any more this yeanr, leaving one game to each team.

"It is very evident that the Blaine boys are afraid of getting beaten, and as they refuse to play us, we are entitled to the championship of the Head of the Lakes. In the last game that they played with us it was simply through luck and mud-slinging that they ever got a score. If they had done the square thing the deciding game would have been played and we we would have proved our claim to the championship. The boys from across the bay will have to admit that they have always received fair treatment at our hands whenever they have played over here, and that is more than we can say for them."

• • •

The interest in track athletics received a decided impetus through the meet held last Saturday at Ironwood, in which school teams from Ironwood, Ashland, Bessemer and Duluth participated. The Duluth boys made an excellent showing, taking second place with five less men on the team than any other school. Bessemer took first place. Owing to the possibility of having a trip the boys turned out better than in the last several years, with the result that the locals had a track team representing them at the meet at Ironwood of which the school may well be proud.

School Notes.

Next Tuesday all the unfortunates of the two upper classes that have failed to secure a standing of 90 per cent or better in their spelling lessons for this semester will be required to take an examination in that subject. In this they must attain a standing of at least 75 per cent, as the daily marks will not be considered.

• • •

A short program was given in the assembly hall Wednesday morning during the morning exercises in commemoration of Flag day. Principal Smith read a selection appropriate to the occasion and the choir sang several patriotic songs.

• • •

The preparations for the junior-senior reception are going steadily forward. The committee has made a special request asking the young ladies of the various classes not to fill their programs ahead of time.

• • •

Those who are to participate in the class play are rehearsing regularly, as are those who will take part in the commencement night exercises.

• • •

Have you commenced counting the hours and minutes yet? Just two more weeks of school left, and only one of study.

FIRED AT THE PASTOR.

Libau, Russia, June 17.—During services in a church here yesterday ten men entered and fired revolvers at the pastor who was dangerously wounded. The pastor had continuously and vigorously inveighed against the employment of violence by the people of Russia in their endeavors to secure reforms in the administration of the country.

IRVING'S BUCHU WAFERS

Cure Rheumatism

They remove the Uric Acid from the Blood, prevents its further formation and heal the disordered Kidneys and Urinary organs.

They are a true Specific provided by nature for this most distressing disease.

Price, 50 Cents.

Sold by KUGLER, Your Druggist, 108 West Superior St., Duluth, Minn.

ARE INVITED TO ST. PAUL

Governor Johnson Sends Message Concerning Peace Conference.

St. Paul, June 17.—Governor John A. Johnson yesterday sent a message to President Roosevelt inviting the Russian-Japanese peace plenipotentiaries to meet in St. Paul, in event of some other place being selected than Washington during the heated term. Governor Johnson's message reads:

"The Honorable Theodore Roosevelt, President of the United States: I am informed that the peace commission may adjourn from Washington to some Northern point because of the extreme heat. On behalf of the state of Minnesota, I take pleasure in inviting the conference to sit in St. Paul, in our new capitol, which, owing to weather conditions will be especially suited to the sittings of that body. Minnesota would be honored to welcome and care for the conference.

"JOHN A. JOHNSON,
"Governor."

Governor Johnson's invitation was supplemented by an identical message from Mayor Smith. Secretary Wallace G. Nye of the Minneapolis chamber of commerce sent a message urging an acceptance of the governor's invitation.

LA FOLLETTE NAMES NEW RATE COMMISSION.

Madison, Wis., June 17.—Governor LaFollette late yesterday sent a message to the senate naming Prof. H. Meyer of the university of Wisconsin, Commissioner of Labor and Industrial Statistics Halford Erickson and Second Assistant Tax Commissioner Nils P. Haugen as members of the railroad rate commission of Wisconsin, created by the rate bill, which has just become a law. Meyers' term is for four years, Erickson's six and Haugen's eight. The nominations are subject to confirmation by the senate.

IMMIGRANTS ARE LESS DESIRABLE.

London, June 17.—Marcus Braun and Maurice Fishberg, the American immigrant inspectors who have been investigating immigration from continental countries to the United States, having concluded their labors in Austria-Hungary and Russian Poland respectively, are now looking up the conditions prevailing at the embarking points of the big Atlantic liners. They express the opinion that emigration, which has exceeded all previous records, promises to be even greater in the future. On the whole, they say, the class of emigrants now going to the United States is not so desirable as formally.

Messrs. Braun and Fishberg say the steamship companies have inaugurated a very strict inspection of emigrants but that even in London persons claiming to be agents of the companies are publishing guarantees to secure the admission of any emigrant to the United States for a few pounds in addition to fare. How the sub-agents carry out this agreement is now under investigation by the inspectors.

ANGRY WIFE

And Several Others Are After Osborn.

Bluefield, W. Va., June 17.—W. C. Osborn, who was arrested here Sunday on the charge of impersonating an officer, is having trouble multiplied. He was fined $100 for carrying a gun. The trial for impersonating a Federal officer was postponed. When it is disposed of he will be tried on the charge of drawing a check on another man's bank account, and then he will have to reckon with Miss Ida Barber of Davy, to whom he paid court and whom he was arranging to marry, for he had a license, it is said, when arrested. It turned out after his arrest that he had a wife and several children, and Miss Barber, a rather good-looking young lady, has arrived in the city to look into the matter. His wife, too, is on the way.

BRIEF TELEGRAMS

Assistant Secretary Melville of the department of the interior, has presented his resignation to the president and it has been accepted. In succession to Mr. Melville, the president has appointed Jesse Wilson of Indiana.

Five indictments were returned by the grand jury today, against Walter W. Jumtgen, who is charged with having dynamited the Edgar County National bank of Paris, Ill., on Wednesday of last week. Bail of $50,000 was furnished.

F. Arnold, aged 29, and Newton Andrews, aged 21, were hanged at the state penitentiary at Cannon City, Colo., Friday, for the murder of Mrs. Amanda Youngblood, in Denver, two years ago.

Francois Maggioli, a billiard player of national reputation, whose home was, until recently, in Chicago, was arrested at St. Louis, Friday night, on the request of the Chicago police authorities. It is said by the local police that Maggioli is wanted to answer a charge of obtaining money under falsc pretenses.

O. M. Burns, former cashier of the First National bank of Montpelier, Ohio, Friday, in United States court pleaded guilty to altering the record of the bank, and was sentenced to seven years in the Ohio penitentiary.

Charles M. Sharon, a broker, formerly prominent in Kansas politics, was adjudged a bankrupt with liabilities of $312,500 and assets of $300. Banks and trust companies scattered over the United States are the principal creditors.

Relatives were notified of the serious illness of Francis Murphy, the temperance apostle, aged 69, who is living on his California farm. His sons, Robert and Edward and wives left Pittsburg, Friday night for their father's bedside.

Mankato and vicinity was visited by a minature cyclone Friday evening, the worst part striking about five miles southeast of that city. Definite news is meager, but it is said that several barns and outhouses have been blown down by the strong wind which accompanied the hail and rain.

George Bosbeck, a prominent resident of Mankato, was found dead in the hay mow of his barn Friday by his wife. It is thought he took poison. A post mortem will be held. A note found in the dead man's pocket read: "I am tired of living." Bosbeck was 45 years of age and leaves a widow and several children.

Spring Excursions East.

On June 6th, 9th, 13th and 15th, the Duluth, South Shore & Atlantic railway will run their annual spring rail and lake excursions, via the popular D. & C. (Detroit & Cleveland Navigation Co.) Steamers from St. Ignace.

To Detroit and return $12 00
To Toledo and return 12 50
To Cleveland and return 13 50
To Buffalo and return 14 00

Final return limit of last excursion, July 7th.

For full information, or descriptive booklet, or for sleeping car and stateroom reservation, please apply to

City Ticket Office,
430 West Superior St., Duluth, Minn.

REDS WANT AUTOS

They Have Developed a Taste For the "Devil Wagon."

Telephones, Pianos and Organs Are Also Used By Them.

Chamberlain, S. D., June 17.—How can it be said that the Indians are not becoming civilized?

Even if they have a habit of celebrating their feasts with fat dogs or wolves as the piece de resistance, even if they are taking advantage of the recent ruling of the supreme court to absorb the output of several breweries, impressive evidence that they are taking on the ways of the white man is to be found in the reports of assessors, who, while going over the Rosebud and Cheyenne river reservations, listed the property of the Indians.

These reports show the following luxuries are possessed by the Sioux Indians of these two reservations:

Three hundred and twenty telephones.
Eighteen automobiles.
Nine hearses (used as carriages).
Twenty-eight pianos.
Sixty organs.

Add to these the forty-seven divorces secured by Indians in the past year, in the courts of Chamberlain and Oacama, and it can not be denied that the haughty Sioux who, a few years ago, were the terror of settlers and even soldiers, have been apt pupils of the white man's civilization.

It is only recently that the rural telephone industry has reached out to the red man.

Most of the instruments are to be found on the Cheyenne river reservation, for a line has been run west from Pierre. Barbed wire is often employed as a conductor and the lines serve all the big ranches in the country west of Pierre.

The Cheyennes were greatly interested in the building of the telephones and when they found out that they could talk through space, they were eager to secure instruments for themselves.

As they are excellent customers, owing to their lavish manner of spending money, they were promptly accommodated by the company.

Now, if the ranchmen find the line busy, it is usually buzzing with gossip in the original Sioux tongue.

Visitors to Bonesteel and other points in the new country are amazed to see the Sioux Indians whirl into town in family automobiles, squaw in the front seat and the youngsters in the rear.

One enterprising Indian, Black Cloud, has made a handsome sum hauling prospective settlers about the reservation in his automobile.

These machines have from the first appealed to the Indians. They have a veritable passion for vehicles painted in bright colors.

Often, on receiving $2,000 or more for allotted lands, Indians will go to Omaha or Sioux City, see a striking automobile, and spend their entire fortune for one like it.

Hollow Horn Bear, a leading tribesman on the Yankton reservation, went to Washington in March to attend the inauguration of President Roosevelt.

He came back with a big machine and the pompous manner in which he displayed his new possession to his fellow-tribesmen caused such a furor that the agency had to take a hand to restore order.

The same love of display on the part of the Indians leads them to make some remarkable purchases.

A few days ago, Chief Shouting Horn, from the Rosebud reservation, went to Yankton to buy a family carriage. The dealer he visited showed him every vehicle in his house but the Indian was not impressed. He went out disappointed.

Just at that moment an undertaker was passing in his hearse. With a grunt of admiration, the buck ran out into the street and stopped the driver.

"How much?" he inquired, pointing grandiloquently to the highly polished black wood and the waving plumes. The undertaker, John Hanely, laughed at first, but when he found the red man in earnest, named a price. The Indian produced the money, crawled on to the seat and drove back to his reservation, the proudest Indian in the West.

If the Indians continue developing the divorce fad as they have done in the last two years, Sioux Falls will be displaced as the divorce center of the United States. In the past year forty-seven divorce decrees were issued here and at Oacoma, a gain of seventeen over the preceding year.

County Attorney Barto favors some sort of legislation restricting Indian divorces.

In a measure, however, the divorce is teaching the Indians that marriage bonds are somewhat binding.

Since the tribesmen have been thrown into listless idleness by the government's support, frightful social conditions have obtained.

Bucks and squaws begin living with one another without formality, and sever their relations with as little commotion.

But lately they have fallen into the habit of coming into the white man's court, telling their troubles and securing a formal separation.

For the same reason church marrieges are becoming more popular among the reds. The Catholic and Episcopal churches are the most popular with them, for the reason that the formal ritual attracts them. The priestly robes and elaborate ceremonies appeal to their superstitious natures.

Decidedly unique are these Indian divorce cases, most of which are heard in the Lyman county court at Oacoma.

Last week, for example, the case of Lizzie Fighting Bear Gun against Bad Gun came up for hearing. A score of Indian acquaintances of the two principals walked solemnly into the court.

With dignified mien and impressive manner the squaw rose to tell her story. At times in her fervor she spoke too fast for the interpreter and had to be halted. Her tale was emphasized by dramatic gestures and low sweeps of her body. Now and again she pointed contemptuously toward Bad Gun.

"Bad Gun no longer like Lizzie Fighting Bear," was the gist of the story heard by the court. "At first Bad Gun brought Lizzie Fighting Bear many beads and presents. He even worked sometimes and we had enough to eat, and my blankets were the the finest to be seen about us. But then he met Carrie Gray Owl and since then he no longer like Lizzie Fighting Bear. Days and nights he spends with Carrie Gray Owl, while Lizzie Fighting Bear must work or have nothing to eat."

Bad Gun declined to say anything and the squaw was granted her desired divorce. When told by the interpreter that she was rid of Bad Gun, she walked out of the court room with as much show of triumph as could ever be displayed by one of her white sisters.

That the Indians, however, are learning a few good habits from the whites can be seen by any one going west along the route of the Milwaukee & St. Paul railroad's extension, west from here, where a crew of twenty-five Indians, with teams and scrapers, are working on the grade. These Indians are from Crow Creek agency, and, at the suggestion of Maj. Chamberlain, agent, Messrs. Sanford & Overracker, contractors, were induced to give them a trial. They have several stations of the work to do and are doing finely under the supervision of John Van Patter and Louie Louden, foreman. Louden, himself an Indian, is one of the subcontractors and has great business ability.

Good Beer Is a Food

Pabst Blue Ribbon is a good beer—the scientific infusion of perfect malt and choicest hops.

Pabst Blue Ribbon

The Beer of Quality

is made from selected barley, malted by the special Pabst process that requires double the time and secures double the goodness in the malt.

It is a rich, mellow, delicious and wholesome brew, expressly intended for table use where good food is appreciated.

Bottled only at the brewery in Milwaukee.

Telephone your order to Pabst Brewing Co., Duluth Branch, Bell 346-K and Zenith 346. Superior Phone, Zenith 4211.

JUST A SETTLE

May Be Put to Many Uses In an Apartment.

There is to be found in all the department stores an article of kitchen furniture rot generally appreciated in proportion to its usefulness, says the Brooklyn Eagle. In an inventory of stock it is probably listed as a laundry table, but in reality it is an inexpensive reproduction of the old colonial settle with modern improvements that add to its utility, but do not lesson its attractive appearance. It is made of plain white pine and comes in four sizes from 3 to 6 feet in length, ranging in price from $4.30 to $7.20. The diversity of uses to which it may be put is known only to those who have discovered for themselves its adaptability to various kinds of service. In the laundry it is a most desirable article, forming as it does a stout ironing table that may be set back against the wall when not in use, and having a compartment where clothespins, iron holders and ironing blankets may be kept. But it is the more showy, if not the more important uses, of this inexpensive piece of furniture that are to be set forth here.

Given one of the settles with a pot of stain or paint, and a clever person may have a bench, a table and a small chest all in one, the color of which may be made to harmonize perfectly with the woodwork or the general scheme of the room in which it is used. Primarily it is a plain straight bench with high side pieces. About six nches below the cross section which forms the seat there is another cross section, and these form the top and bottom of the chest; its ends are formed by the two ends of the bench and the sides are nailed on separately. The top, or rather the seat, is hinged so that it is easily lifted up, thus effectually utilizing space. The large top piece forming the table is entirely separate, and is attached by means of heavy wooden pegs thrust through holes in the side pieces of the bench and through corresponding holes in the under pieces of the top. When not in use as a table the pegs on either side of the front may be removed and the top turned back, forming the high back to the settle.

As a useful article of furniture in a studio or a small apartment the value of this settle cannot be overestimated. Its simplicity of design, by reason of which it seems appropriate in any surroundings, and its adapability to any color scheme make it peculiarly attractive, not to mention the small amount of space that it occupies in proportion to its many sided usefulness.

The soft white pine of which it is made lends itself readily to treatment with paint or stain, and most satisfactory results may be obtained by the use of a dull green or reddish brown stain put on with a wash effect. Good colors, too, may be had in paints, though after one coat paint is apt to give a shiny surface, which is not so effective as the dull finish of the stain. A few ambitious enthusiasts have even gone so far as to decorate settles with elaborate designs in burnt wood, the white pine again being an appropriate material for ornamentation of this sort. Settles such as these are in some cases very attractive, but all are not endowed with skill with the pyrographic needle sufficient for work of this kind and in many ways the easily handled paint brush is more satisfactory.

A settle done in a golden hue toning in well with the brown of the walls and hangings was seen and admired the other day in the studio of a successful woman artist. "That settle," she said, "would be the last article of furniture I have that I would be willing to part with. In doing illustrations I can get no end of good poses on it; it means a place for two extra people to sit when my visitors outnumber my chairs. I have my breakfast on it every morning; it is of ample size for little suppers or chafing dish parties and see," she continued, lifting up the cover, "my entire culinary outfit is concealed there," and snugly stowed away were the pots and pans necessary in any kind of housekeeping, however light.

These settles may be effectively used for porch and out-of-door furniture, too. The chest will be found useful as a receptacle for magazines and newspapers, and a medium size settle if painted a brick red or a dull green, with one or two gay colored pillows, will make an ornamental as well as an indispensable addition to the furnishings of a piazza.

$7 $7

A PERFECT SET OF TEETH IS A JOY FOREVER!

Time is getting short; these prices will prevail only a limited time.

MADE AT

A. S. ANDREWS' DENTAL PARLORS

716 TOWER AVENUE, SUPERIOR.

I have been in Superior for fourteen years and have had one of the largest dental practices in the city. One year ago I decided to change my location and to branch out to reach the needs of the middle class in prices for the best work. I realize that most of the dentists charge too much, and advertising dentists too little. They eiher fake or do poor work.

I have decided to take the middle course and give you the best of everything. For crown and bridge work, 22k gold, for plate or teeth, S. S. White's or any other make. Gold alloys and cements, the best made, and will give you a price that is reasonable, with a 10 per cent discount for all but plates.

PLATES OF TEETH $7. Limited 60 days from May 1, 1905

I make you this offer: If you are not convinced that the work is satisfactory your deposit will be refunded. All work warranted.

Dr. A. S. ANDREWS, Dentist,

716 Tower Avenue—Over Bingham's Hardware Store—Superior.

Office 'phone 4564. Residence 'phone 4605.

IN COPPER CIRCLES

Eastern Shareholders of Centennial Mine Very Much Disgruntled.

Work on the Keweenaw Central Railway Progressing Rapidly.

Houghton, Mich., June 17.—(Special to The Herald.)—The fight that is being made on the Fay management in the East is causing but little excitement locally. The Eastern shareholders of Centennial are very much disgruntled, and are threatening to do dire things to H. F. Fay, the president, and Capt. James Chynoweth, the superintendent. The lake holdings in Centennial are comparatively small, which may account for the lack of interest, but on the other hand, the local holdings of Allouez, under precisely the same management, are very large. There does not seem to be any particular disposition on the part of the Lake shareholders to criticise Mr. Fay or Mr. Chynoweth for the manner in which the Allouez is being operated. In fact, it is felt here that the property has been developed in quick time, and that the showing secured is of a most satisfactory nature. It is understood here that production will be started from the Allouez during the present year. The mine is not in shape to begin regular production to advantage, and cannot be gotten in such condition for at least two years to come, but in view of the great richness of the rock, and the present price of 15 cents per pound for copper, it might be advisable to carry drift-stopes, as is being done at the Ahmeek, lying next to the Allouez, and thus secure a limited output to aid in defraying the cost of development. The Allouez now is opened to a point where it is possible to speak of its probable average, and from present indications will make a mine somewhere between the Ahmeek and Wolverine in copper values. As the Wolverine is the richest amygaloid mine of the district, and second only to the Calumet & Hecla in percentage of copper carried, this means that the Allouez is certain to make one of the best mines of the lake field.

Supt. Frank McM. Stanton of the Atlantic, Phoenix and other Stanton mines, is recovering from a very serious illness, and will not be able to resume his duties for some weeks to come.

The Bohemian range copper exploration has its shafts bottomed in felsite, in a portion of the copper belt hitherto unexplored, and which scarcely would have been selected by geologists as a promising point for exploratory work. The dense nature of the felsite is decidedly unfavorable to the reception of copper in paying quantities, but seeing is believing, and the Bohemian rock carries large quantities of copper, in connection with calcite.

Work on the Keweenaw Central railway is progressing at a satisfactory rate. It is planned to build the entire line this year, and no time is being lost in the work, which calls for the active co-operation of all concerned, from the contractors who are getting out ties, on the company's lands, to the chief engineer who is responsible for the finishing touches, as well as the work of preliminary organization. The new road will prove a boon to all the active properties of Keweenaw county north of the limits of the Mineral Range line, which runs a few miles across the boundary to the Mohawk and adjoining properties.

The rumored resumption of work at the Arnold, Ashbed and adjoining properties seems to have been premature. Work can be conducted to much better advantage after the railroad is completed. The Phoenix has not as yet begun exploratory work upon the Ashbed, but such a step is contemplated. The Stanton management is the only one that ever has made a success at working the Ashbed, and the efforts to open an Ashbed mine at the Phoenix will be watched with much interest.

Work on the water-power at the Victoria mine is progressing slowly but surely. The undertaking is a mammoth one, and the installation is very extensive, requiring much more time than was planned originally. The power will be delivered pneumatically, but if in excess of the requirements of the Victoria, energy doubtless could be disposed of to the Michigan mine, which is at Rockland, only a few miles east of the Victoria. Such excess power could be conveyed to Rockland electrically, or pneumatically through a riveted steel pipe. Work on the Victoria mill has scarcely begun, and it is not probable that the mill can be put in commission before the spring of 1906.

Although the lease of the Michigan company of one head of the Mass mill will expire next November, it seems probable that the lease has been extended, or that an arrangement has been reached by which such an extension will be made, as the Michigan company is making sundry improvements at the mill which would not be made had the company but five more months' use of the head now under lease. At best it will be several years before the Mass can have use for all its stamping facilities.

At the Adventure the gradual improvement noted since Sam Brady was appointed superintendent is continuing. While the gain is slow it is sure, and each month shows a little better state of affairs. The prospects of the Adventure, while not promising to make a rich mine, are very fair for the making of a mine that can earn small profits.

Exploratory work at the Erie-Ontario property is of an encouraghg nature. This property is located about midway between the Champion and Winona mines, and is in a district where, unless signs fail, some good mines should be opened during the next few years.

The production of the Lake mines is on a larger scale than ever before in the history of the district. A majority of the mines will show larger products in 1905 than in the preceding year, barring serious accidents. The productions of 206,329,234 pounds in 1904 was the largest ever secured, and, for the first year, exceeded 200,000,000 pounds, notwithstanding which 1905 will show a very considerable gain. For the current year practically all of the producers will at least hold their own, and a number of the large and medium-class mines will show substantial gains. The 1904 output of the Calumet & Hecla was the largest for several years, but should be exceeded this year. Tamarack and Quincy will at least hold their own, while Osceola, Baltic, Trimountain and Champion will score very considerable gains. Of the newer mines now opening, Allouez and Ahmeek are both properties that will rank, within a few years, in the class now occupied by such mines as the Wolverine, Mohawk, Baltic, Trimountain and Champion—that is, properties making from nine to fifteen million pounds of fine copper yearly.

Talk of dividends from Mohawk seems premature. The management of the company has not authorized any such talk, and it is probable that no dividend will be paid until the end of 1905 or the beginning of 1906, when a small payment will be made. In all likelihood the dividend will be made semi-annual, and it certainly will not be large on the start, but, as in the case of the other Stanton mines, the rate will be much more likely to increase than to run down.

Extensive changes are being made in the Champion mill, where grinding rolls are to be given an exhaustive test in the reduction of stamp-rock to mill sizes. The rolls should crush the rock with less slimming than is the case when reduciton is accomplished with the stamps, but it is doubtful if the work can be done quite as cheaply. The desirability of changing from stamps to rolls is as yet a matter of theory, and all concerned will know much more about the matter after the exhaustive tests planned by the Champion have been concluded.

"TO BE GOOD"

The Wife Promised In a Written Contract.

St. Louis, Mo., June 17.—A wife's promise "to be good" was an interesting piece of evidence introduced in Judge Reynold's division of the circuit court during the trial of the divorce case of Michael Liflander against Catherine Liflander.

"March 5, 1903.

"Contract between C. Liflander and M. Liflander: I promise this day that I, Catherine Liflander, will never fuss or fight with my husband, M. Liflander. If I do fuss or fight I will let him separate forever. I also promise I will be good to my husband, M. Liflander.

C. LIFLANDER.

Liflander and his wife were married December 24, 1896, and separated March 1, 1905. The husband charged that his wife had an ungovernable temper and that she interfered with his business by calling on him during business hours.

WILL RETIRE

From Pulpit and Lead a Quiet Life.

Boston, June 17.—The Rev. Edward Abbott, for twenty-seven years rector of St. James' Episcopal church, North Cambridge, and a brother of Dr. Lyman Abbott of New York, surprised the wardens of his church this week when they received from him his unconditional resignation. When interviewed at his summer home in Wilton, N. H., Dr. Abbott said:

"I simply decided that I had reached the limit of my usefulness in the pastorate, and that in the future I would live the quiet life. I shall continue to make my home in Cambridge. There was absolutely no trouble in St. James' parish, and the resignation came about as I have stated."

You may have known some particular store very well yesterday—and yet hardly recognize it today. New goods! Let the ads. keep you posted.

You Are Eligible to Attend

The Annapolis or West Point

Military School

If you are an unmarried American boy between the ages of 17 and 23, of good habits and can pass the necessary physical examination, have a knowledge of reading, writing, arithmetic, English grammar, geography and history of the United States. Unlike most schools, the government allows you about $500 per year to defray all expenses. You receive a thorough military and academic education, and upon graduation may resign or accept a commission as lieutenant with promotion in the regular service.

Further particulars for four one-cent stamps by addressing.

THE TOMORROW OF NEVADA

Comprehensive Plan For the Redemption of the State Being Carried Out—Possibilities Lying Latent In the Sage Brush Plains.

Deep within the heart of the Great American Desert lies a land upon which the eyes of the entire nation are turned today. Far and near the press has heralded the approach of June 17, 1905, the third anniversary of the passage of the reclamation act; an anniversary which is being fitly celebrated by formally turning water on 50,000 acres of land in Nevada, the first area to be benefited by the irrigation law.

The story of the construction of the Truckee-Carson project, with its wonderful network of canals uniting the four principal drainage basins of the state, of the expenditure of $9,000,000, and the ultimate extensive cultivation of more than 400,000 acres of land now barren and desolate, has been told again and again, with a wealth of detail. The array of facts is truly impressive. Far up in the foothills of the snow-crowned Sierra Nevadas, half a score of lakes will be utilized as reservoirs to store the flood and excess waters which flow down the mountain sides, and down in the valleys imposing dams will hold back millions of tons of water, turning rivers back upon themselves till great artificial lakes are formed, or diverting the water into channels more convenient for the use of man. Lake beds will be drained and transformed into agricultural fields, and thousands of miles of ditches and laterals will distribute water over the land.

With the exception of a narrow fringe on the northern and southern borders of the state, Nevada lies in a basin from which water escapes only by evaporation. Humboldt river, rising in the mountains which divide Utah from Nevada, drains the entire northeastern portion of the state, carrying its waters several hundred miles to a wide basin, near Lovelocks, where it spreads out in a large lake and evaporates. The Truckee, Carson and Walker rivers, created by the melting snows of the Sierra Nevada mountains, in California, flow east into Nevada, where they too form lakes which have no outlets. The numerous mountain areas are subject to storms, giving rise to torrential streams, which rush down the steep slopes and pile debris out upon the desert, into which the water sinks. During all the idle centuries of the past these lands have been gathering richness in the silt washed down from the mountains, which has gradually filled up the valleys and prehistoric lakes, forming an alluvium of great depth and fertility.

The completed system of reservoirs in connection with the Truckee-Carson project will assure an annual water supply, even in low water seasons, of 800,000 acre-feet, besides a portion of the stream flow which cannot be stored. As the country becomes more thickly settled and land values increase, the underflow of streams, and artesian water, will add to the supply and increase the irrigable acreage. Hydrographers who are thoroughly familiar with the water supply of the state believe that water can be developed for the irrigation of fully 1,600,000 acres of land.

The marvelous manufacturing possibilities of the rivers in the shape of latent horse power cannot be estimated. The Truckee river alone, in its 100-mile course, falls 2,300 feet. The power which may be developed by regulating these streams will only be valuable in connection with manufacturing interests, can be transmitted electrically hundreds of miles, operating mines and electric roads, raising underground waters, and lighting cities and towns. A study of Nevada's water supply will be a revelation to those who know only that it is the driest state in the Union.

It was not by chance this section was singled out as the field for the first demonstration of the practicability of the Reclamation act. Nevada has guarded her treasures with an exterior so forbidding that the pioneer hurried past her doors. The discovery of placer deposits in her streams soon after the California excitement was followed by a wave of gold-mad speculators which receded almost as suddenly as it came, but here and there in its wake tiny flecks of green marked the abode of a footsore, discouraged miner who, forced by necessity, had exchanged the pick for the hoe. So bountiful were the returns from the soil where water was applied, and so fabulous the prices which the hay and vegetables brought in the little mining towns of the silver region, that these farming communities grew and flourished.

Remote from the large centers of civilization, these dwellers of the desert developed a sturdy citizenship. Some of them have spent years of their lives and large sums of money in surveying and prospecting the resources of the state. Their patience and persistence added to the thorough knowledge of Nevada's every possibility, which had been gained by L. H. Taylor in eight years of investigation for the hydrographic branch of the geological survey, resulted in the formation of a comprehensive plan for the redemption of the state. From the countless sands of her sage brush deserts the empire which their fancy had builded is rising, and down through the ages these works will stand a monument to their foresight and to the ingenuity of Supervising Engineer L. H. Taylor.

When the scheme for Nevada's resurrection was laid before the department, the secretary of the interior tentatively approved the plan and set aside $2,740,000 of the reclamation fund with which to initiate the great work. A portion of the project which would form a complete system was immediately laid out. It consisted of a canal 31 miles long to take the waters of the Truckee river over into Carson valley, where a storage reservoir with a capacity of 286,000 acre-feet was designed. Four and a half miles below this reservoir site the combined waters of the Truckee and Carson rivers are to be laid out upon the plains in two canals, one on each side of the river. The north side canal will have a capacity of 400 cubic feet per second and will irrigate approximately 40,000 acres of land, and the south side canal with a capacity of 1,500 cubic feet per second will supply water to about 160,000 acres. It is a portion of these lands which is being formally opened to the public today, and before another season the first payment from 50,000 acres will be placed in the original investment.

At 9 o'clock a. m. a special train bearing distinguished legislators, scientists, engineers and others, will reach the diversion dam ten miles above Wadsworth. With simple, but impressive ceremonies the headgates will be opened and the waters of the Truckee river will pour into the main canal of the first irrigation system constructed by the United States government. An hour later the party will be on its way inspecting various portions of the constructed works, and the event which is to mark an important epoch in the progress of our country will be a thing of history.

Owing to the wise provisions of the Reclamation Act, the Colonization period under the Truckee-Carson project will differ from that which has taken place in any community on our continent up to the present time. Whenever there has been a great immigration movement for any reason, a host of speculators has rushed in, skimmed the cream and departed. The man who takes a forty or eighty-acre tract under this project must come to stay. He may not commute his entry after living a few months on the land, but must prepare the tract for cultivation, till the soil, paying his annual stipend of $3.60 per acre for ten years before title passes from the government.

The eagerness with which the land is even now acquired by practical farmers, and in the favor in which the first experiment of the Government to reclaim its arid lands is regarded is apparent in the vicinity of Wadsworth and Hazen. The desert is already dotted with building of prospective owners, and all along the railroad at short intervals new hamlets are rising. When once the great benefits of this initial work are fully demonstrated, Nevada will experience an immigration movement which has had no parallel in the history of our country, a movement only limited by a capacity which we cannot now estimate.

As planned the Truckee-Carson project will supply water to 385,000 acres in excess of the land irrigated in Nevada at the present time. The average value of irrigated land in the United tates is $47 per acre; the area to be irrigated by the Truckee-Carson project will therefore add $18,195,000 to the taxable property of the state in land values alone. According to the census report of 1900 the average annual income from irrigated land is $15 per acre. On this basis an income of $5,775,000 per annum will be added to Nevada's agricultural wealth. The value of two crops will exceed the cost of the entire project by $2,550,000. That this is a conservative estimate readily will be seen when it is remembered that irrigated potatoes in many portions of Carson Valley now give returns of $150 per acre. Experiments by the Department of Agriculture show that the Truckee and Carson valleys are peculiarly fitted for the culture of sugar beets, hops will yield abundautly, and all the hardier fruits produce crops of remarkable flavor and size.

The mineral wealth of the state has hardly been prospected. With added transportation facilities and cheaper supplies, mines which are now abandoned will be worked with profit, new veins will be discovered, and markets for farm and manufactured products be increased.

Of the possibilities now lying latent in these sage brush plains no mind can prophesy. Water is the mystical wand which is to unlock this great store house of Nature—the magician who wields it, the civil engineer, and where but a few years ago death mocked the daring pioneer and unknown graves dotted the plain, the life-giving water will be so regulated that neither drouth nor flood shall bring want to the settler; churches and schools will crops with the certainty of bountiful harvests. From time immemoriable irrigation has been synonomous with higher civilization. It creates loftier standards of living, makes prosperous communities and contented citizens.

Yesterday, but for a few small cases, Nevada was a desolate waste, her position in the world of politics a thing of jest; tomorrow our banner will flaunt no brighter star on its field of blue.

EACH MAN SAYS SHE IS HIS WIFE

Pretty Girl Denies She Ever Saw Wealthy Oil Man.

Lima, Ohio, June 17.—A pretty young girl in her teens facing a man who claims her as his wife, while another man beside her declares her solely his own, was a situation in police court here. David Berry, a well-to-do oil operator of Findlay, came here and filed an affidavit against Iva Pennington Stants, a pretty young woman, charging her with bigamy. She was arrested and brought into court, when Berry confronted her, claiming her as his wife. The girl denied ever seeing him before, while he insisted she was his lawful wife.

A preliminary hearing was held in which Berry stated he married the prisoner three years ago, lived with her two years and that she had deserted him a year ago. On the stand the girl, who is 19 years old, declared she had never seen Berry before and that she was married to John Stants, a Standard Oil company employe, in this city on April 18 last. Cross-examination could not shake her testimony, but on the evidence of Berry she was held to the grand jury.

Later the girl stated her true name was Irene Barnes and her home in Pittsburg, but declared she did not know Berry. She said she met Berry's wife, Iva Pennington, in Marion, Ind., six months ago, where she had taken ill and died, and she then assumed her name, but that she had been married to Stants under her true name of Irene Barnes. Berry, contrariwise, said she had lived with her two years and could not be mistaken.

HOW'S THIS?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO., Toledo, O.

We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by his firm.

SAVING LOST ARTICLES

The Careful System of Protecting the Property of Negligent Travelers—Odd Findings In the Staterooms of Sound Steamers—Why People Leave Their Valuables Behind.

New York, June 17.—(Special to The Herald.)—When some people start on a journey they appear to bid farewell to their families and their wits together. They never go right if it is possible to go wrong, and always go wrong if it is possible not to go right. They miss the trains they should have taken, board the trains they shouldn't have taken, don't get off where they mean to, do get off where they don't mean to, and make all these blunders in the very faces of all imaginable signs and placards, put up for the purpose of preventing such errors, and in spite of the utmost exertions of conductors, brakemen, porters, gateman, ticket sellers and information clerks who are doing their best to help them.

We have all belonged to this class of travelers at one time or another in the course of our lives; and, even when we have graduated from it in other respects, many of us still retain one lingering weakness, which is that of forgetting articles when we leave our railway car or steamer stateroom. If the transportation companies were as careless as we are, we should never set eyes on our property again; but the companies are not careless. On the contrary, they take great pains to preserve the waifs and strays they find and to return them to the owners whenever this can be done.

The "Lost Article" storeroom of a great corporation like the marine district of the New York, New Haven & Hartford company, which manages the sound steamboats, contains a curious collection of objects, the majority of which are nevertheless seen to fall under several well-defined heads, such as wearing apparel, jewelry and toilet articles. Rubbers, hair brushes, tooth brushes, canes, umbrellas, women's muffs and sacks, books, rosaries, watches, finger rings, ear rings, false teeth, eyeglasses and glass eyes are among the things stored here.

Every morning after the passengers have left the boat each stateroom is carefully searched by one of the employes, who examines every part of it, turns over and shakes the bedclothes, and sends in whatever he finds to the lost article room. All articles found are duly credited on a particular book kept in the company's offices in New York to the employe who found them. Some men find a good many valuable articles in the course of their service. From June, 1904, to May, 1905, 3,850 articles were found in the staterooms where they had been forgotten by their owners. One man found $90 in gold, a cigar case, a muff, $15 or $20 in bills, a diamond ring and a diamond pin. Another found ten gold watches and another a pocketbook containing $287.

A careful record is kept of every man who has been in the employ of the company, the dates of employment, notes on his efficiency and the reason for his leaving. All the lost articles found in staterooms are mentioned in the record of the man who found them, and, some of them being very valuable, as will have been seen, they furnish proofs of the men's honesty, of which they are very proud. Twenty or thirty men apply every day for work, and through the spring a list is gradually formed, to be called on when the summer boats come out. If any of these men have been previously employed by the company and the record is not in their favor, the fact is mentioned to them and they very seldom attempt to deny it. One of the good results of the union of the sound lines under one management is seen in this. Formerly men went from one line to another, when discharged for cause, and did not care whether their records were good or not. Now they will not be employed if the book is too much against them, and consequently try to keep a clean record, very much to the improvement of the service. Furthermore, the record is a help to the management, because if a passenger declares that he left a certain article in his stateroom and one of these men who has a long record of valuables found says that he discovered nothing, the company believes the man and is often able to convince the passenger that the article could not have been left in the room.

Something of the same general system is pursued at the great South station in Boston, the largest railway terminal in the world. All articles found on the trains are taken to the lost article office and their description is recorded in a book. There is also a supply of numbered tags made in two separable parts like railroad tickets. The first part, which is attached to the lost article as soon as it is brought in, contains a description of the article and the number of the train on which it was found. The second part, containing these details and also a signed acknowledgement by the agent that the article is in his possession, is then torn off and sent at once to the general baggage agent of the road to which the train belongs. On the back of the first part is a form of receipt to the railroad company which is signed by the owner of the article when he recover it and then the stub is sent to the baggage agents as the other part was. This system, it will be observed, keeps the railroad company informed as to the whereabouts of the article in case the loser makes application to it instead of to the station corporation, provides it with a receipt which also shows when and where the article was lost and safeguards all the rights of the owner.

In about two years 520 pages of the record, averaging about forty entries to a page, have been filled with descriptions of lost articles, which would make a total number for the time of about 21,000. They comprise as miscellaneous an assortment as those found on the steamers, consisting very largely of small bundles, which appear to contain dry goods and such things as a woman would take away from a department store in her hands. There are a great many traveling bags, besides rubbers, umbrellas and canes. The articles are kept sixty days and then turned over to the railroads on whose trains they were found. Articles found on the Pullman cars are taken care of by that company and the New York, New Haven & Hartford railroad has separate departments for the articles found on its ordinary trains and on the sleeping cars owned and run by the company. A great many of these articles have been lost by people who get out at stations, and, remaining too long, are left by the trains. Many of them telegraph to have their property left until called for, but many more do not.

The articles left in the steamer staterooms are generally more valuable than those forgotten on the trains, for the obvious reason that the steamer travelers partly unpack their bags and put out various toilet necessaries; while, if women they take off their jewelry and other ornaments for the night. Everybody who wears false teeth can undrstand how they may be forgotten in the glass of water in which they were placed at bedtime; and the number of watches lost is easily explained by the fact that the owners put them on a chair or stand in order to know when to rise in the morning and then forget them in the hurry of packing and departure. It is less obvious why so many purses and sums of money should have been forgotten; but the chances are that they were placed under the pillows for safe-keeping during the night and, not being in sight when the owners arose in the morning, were left where they were till uncovered by the employe charged with the duty of searching the rooms.

If a person when traveling, would take a careful look over his stateroom and about his seat in a car before leaving, he would avoid all this trouble and annoyance, and the transportation companies would be saved considerable work, which by the way, is performed gratuitously.

Pain may go by the name of rheumatism, neuralgia, lumbago, pleursey. No matter what name the pains are called, Hollister's Rocky Mountain Tea will drive them away. 35 cents, Tea or Tablets. Ask your druggist.

SUFFERED IN SILENCE

For Week Before Admitting Having Taken Poison.

Laporte, Ind., June 17.—Rosa Wick, a mere child, fills a suicide's grave. Always melancholy, she found that life had no bright future in store for her. An orphan by the death of her parents while a baby, her early days were spent in an orphanage, from which she was taken to raise by John Underwood and family in this county.

Three years ago this summer she was transferred to the family of Herman Wothike, near Union Mills, Laporte county. They were kind to her, but she felt that she was not one of the family. A week ago, during a quarrel with the 9-year-old daughter of her benefactors over some trivial matter, she was called some name that reflected upon her position in the home. It cut her to the quick.

Mixing a dose of rough-on-rats with sugar and water, she swallowed the poison. She became ill, but the symptoms were those of indigestion, for which she was treated by the physician. Though she was in constant agony, she never complained and never told what she had done. She continued to grow worse, and Thursday became delirious.

Thursday night she called Mrs. Wothke to her bedside and confessed what she had done. Two hours later she passed away.

WHEAT IS HIGHER

Reports of Damage and Disappointing Yields Cause Advance.

Flax Trading Was Dead and the Market Lower.

Duluth Board of Trade, June 17.—Reports of damage and disappointing yields from the fields of the Southwest and continued rains and the fear of rust in the Northwest, put the market higher today, although there was a lower opening and further decline in the early minutes of the session. Local shippers find a much better milling demand for wheat from Eastern millers and they are paying good prices for it. The millers, too, report an improvement in the flour demand during the past two or three days.

The Liverpool market closed unchanged, as did also London, while Paris was unchanged to ⅜c lower. Broomhall estimates the world's shipments to be reported Monday at 11,200,000 bus.

The July option declined ⅝c in Duluth and 1c in Minneapolis, but gained 1c in Chicago, ⅜c in New York and ⅜-⅝c in Kansas City and St. Louis. The September option advanced 1c in Duluth, ⅝-¾c in Minneapolis, ⅜c in Chicago and St. Louis, ⅛c in New York and ⅜c in Kansas City.

Car receipts at Duluth were 19 against 77 last year, and at Minneapolis 136 against 208 last year, making a total for the Northwest of 155 against 285 last year. Chicago received 4 against 15 last year.

Primary receipts of wheat were 223,843 bus, last year 296,857 bus. Shipments 184,774 bus, last year 486,053 bus. Clearances of wheat and flour aggregated 57,154 bus.

In the Liverpool market corn closed ½d lower. In the Chicago market September corn closed ⅞-1c higher. September oats closed ⅛c higher. Primary receipts of corn were 574,590 bus, last year 511,227 bus. Shipments 951,884 bus, last year 653,571 bus. Clearances were 441,915 bus.

The Duluth market showed a little better trading in September wheat today. The new option opened ¼c lower at 83¾c, fell to 83c, advanced to 84¾c and closed at 84½c, a gain of 1c. The old option opened ⅛c lower at 85⅞c, fell to 85⅜c, rallied to 86¼c and closed at 85¾c. This was an advance of ½c. The July option was very dull and closed ⅛c lower at $1.12⅝.

Flax was dead. The September option closed 1c lower at $1.29 and the October ⅝c lower at $1.26¾. July at the close was bid only to $1.45, a loss of 3c from yesterday, but cash and to arrive flax were unchanged at $1.48.

Oats advanced ¼c, and September rye ⅛c.

Following were the closing prices on the Duluth board:

Wheat—To arrive, No. 1 northern, $1.12⅜; on track, No. 1 northern, $1.12⅜; No. 2 northern, $1.04⅜; durum, No. 1, 87c; No. 2, 86c; July $1.12⅜; September, new, 84½c; September, old, 85¼c. Flax—To arrive, $1.48; on track, $1.48; July, $1.45; September, $1.29; October, $1.25¾. Oats—To arrive, 31½c; on track, 31½c. Rye—On track, 70c; September, 69c. Barley—Feed, 39½@41c.

Cars inspected—Wheat, 19; last year, 77; oats, 5; flax, 6 last year, 30.

Receipts—Wheat, 4,322; oats, 1,551.

Shipments—Rye, 2,000.

THE CHICAGO MARKET.

Fine Weather Has Bearish Effect on Wheat.

Chicago, June 17.—Dry hot weather in Kansas and Oklahoma, where harvesting is in progress, had a bearish effect on the wheat market here today. While there were still intimations from the Northwest of dumage by rust, the reports were not specific and, consequently failed to create much anxiety among shorts. July opened ⅛@¼c to ⅛@⅜c lower, at 87⅝@88c. After declining to 87⅜c, the price rallied again to 87⅝@⅞c. Minneapolis, Duluth and Chicago reported receipts of 159 cars, against 192 cars last week and 201 cars a year ago.

Later in the session the market turned suddenly strong. Led by an influential trader, shorts became active bidders for wheat, and with comparatively light offerings prices quickly advanced. A sharp upturn at Minneapolis had considerable effect here. At 89½@⅝c July touched the highest point of the day. The market closed strong with July up precisely 1c at 89¼@⅜c.

Ideal weather conditions caused an easier tone in corn. A decline at Liverpool was another bearish influence. Pit traders were moderate sellers, July opened unchanged to ⅛c lower at 52⅝c to 52⅜c and held around 52¾c. Local receipts were 458 cars with 128 of contract grade.

In sympathy with the weakness of other grain, sentiment in oats was a trifle bearish. Trading was almost at a standstill, business being confined to small traders. July was off a shade to ⅛@¼c lower at 30⅝@31c. Local receipts were 169 cars.

Partly in response to the advance in wheat the market later became strong. Shorts were active buyers. Another factor that helped to bring out the demand was reports of light acceptances. The market closed almost at the highest point. After selling at 53⅜c, July closed at 53¾@⅞c, a net gain of ⅞@1c.

Provisions were steady on an extremely light volume of business. September pork was off 2½c at $12.97½. Lard was unchanged at $7.47½. Ribs were a shade lower at $7.55.

Close: Wheat—July, 89¼@¼c; September, 85@85½c; December, 85⅛c. Corn—July, 53⅛@⅞c; old, 54¼c; September, 52⅝@½c; old, 53¾@⅞c; December, 48¾c; old 50½c; May, 47c. Oats—June, 31⅝c; July, 31⅜c; September, 29⅜@29½c; December, 29¼c; May, 31¾c. Pork—July, $12.77½; September, $13.10; October, $13.17½. Lard—July, $7.32½; September, $7.52½; October, $7.57½; November, $7.35. Ribs—July, $7.02½; September, $7.80@7.87½; October, $7.92½. Rye—July, 66c; September, 62c. Flax—Cash northwestern, $1.43; southwestern, $1.25. Timothy—June, $2.90; September, $3.10@3.20. Clover—June, $11.75@12.00. Barley—Cash, 42@59c. Cash wheat—No. 2 red, $1.03; 3 red, 99@99c; 2 hard, $1; 3 hard, 96@97c; 1 northern, $1.14; 2 northern, $1.08@1.10; 3 spring, $1@1.05. Oats—No. 2, 30½@30¾c; 3, 30@30¼c. Corn—No. 2, 54½@55c; 3, 54¼@½c.

GRAIN GOSSIP.

Logan & Bryan, Chicago: Wheat—At the start prices were somewhat easier, but at the low level there seemed to be orders enough waiting to rally the market. Reports from southwest centers are still unfavorable as to yield. In the Northwest conditions are still alarming with the most conservative people in the trade anxious as to the final outcome of the crop. They have been getting too much moisture and the plant now needs warm weather and sunshine. At best the crop is standing still, if not deteriorating day by day. The situation to us looks strong. From the action of the market wheat seems to have considerable merit at present prices. The cash situation while not urgent is still respectable, considering we are in harvest time. The critical situation both Northwest and Southwest adds to its value at the moment. The immediate future will be governed entirely by the weather and reports of damage. We still favor the buying side particularly of September wheat on recessions.

Corn—Market was strong throughout the session. Receipts and shipments were about the same as a year ago. The unfavorable weather through the bulk of corn area is helpful to the bulls and good cash demand also was a factor. As in recent sessions excellent buying of May and December. These options look attractive to very conservative people at their present discount.

Oats—We see nothing very attractive in oats at present prices. We would rather sell oats on the bulges.

Provisions—This market closed strong and higher and all through the session seemed to be in better demand. Hog prices at the yards were steady. The market still looks like a scalping affair and seems the proper thing to do is to buy on the setbacks.

• • •

Edwards, Wood & Co.: Wheat—Unsettled weather conditions gave us another strong market for wheat today. The weather map showed fair weather throughout the West, Southwest and Ohio valley, but rains were general all over the Northwest. We look for more rain created an uneasiness and prices advanced 2c from the low price for the day. Reports from the Southwest continue favorable, and a member of the Spencer trading party says the government report was 10 points too low for Kansas and 500,000 acres short on the estimated area. It would be strange, indeed, if holders of long wheat do not take profits on this advance.

• • •

Chicago Inter Ocean: "The trade generally believed that when we paid 30 cents at the stations to the farmers for corn we would make large purchases, resulting in much larger receipts here," said a local grain dealer. "We have now been paying 50 cents at most of the stations in Illinois for the past week. Some corn was bought, but the last day or two shows that he are not going to get any large run. Argentine shipments this week must be a great disappointment to the foreign buyers. It seems a certainty that the foreigner must continue to buy corn in this market. June run of corn must be about half over. July and August usually show much lighter receipts. Stocks now in Chicago are exhausted. I do not see how corn is going to break. There is a strong probability that it must sell higher."

DECLINE IN STOCKS

Market Was Dull and Devoid of Special Features.

The Bank Statement Had Little Effect and Close Easy.

New York, June 17.—Slight animation on the stock exchange this week induced by the plans of the Equitable society settlement, by the peace prospects and by the government crop report, quickly subsided and the market for stocks sank into a condition of greater stagnation than before the revival. More and more importance is attached to the outcome of the crops and the future course of iron and steel, so that a waiting attitude in the stock market is indicated until more light is brought on these dealings.

New York, June 17.—The opening prices in the stock market were a fraction lower than last night. Offerings were small and only a few stocks were traded in at all. Twin City Rapid Transit fell 1¼ and American Car and Foundry company rose ¾.

Initial losses were slightly extended but at the lowest they represented declines of only ½ to ¾ in St. Paul, Union Pacific, Reading, Southern Pacific, Canadian Pacific, Illinois Central, United States Steel preferred, and the Metropolitan stocks; United Railway Investment moved up ½ and Westinghouse 2⅝. Enameling preferred and United States Reduction and Refining fell 1 and United States Reduction and Refining preferred 2½.

There was a rise of a fraction in Pennsylvania, but otherwise the average decline was slightly widened during the second hour. Lead lost 1, Metropolitan Securities 1¾, and Northwestern 2¾. Pump preferred rose 1, United Railway Investment extended its gains to 3 and the preferred rose 2½. Enameling preferred lost 2⅜ and Reading ran off ⅞ in the final dealings. The close was easy and dull.

Quotations furnished by Edwards-Wood Co., room A, Torrey building.

STOCK GOSSIP.

Logan & Bryan to Paine, Webber & Co.: Market closed very dull and lower and throughout the session ruled without special feature. The small volume of business tells its own story of a dull, uninteresting market. The activity of the bears meets with but little response, which leads to the impression that the market was badly oversold. A little aggressive buying or favorable turn in events could easily bring about a sharp rally in the stock market.

• • •

Walker Brothers to Paine, Webber & Co.: The market today was dull and inactive and rather inclined to sell off. Many traders left the floor. The bank statement had little effect and the close was featureless. We look for an inactive market next week. Do not expect to see traders or the public take any interest in the market.

• • •

Dick Brothers to Paine, Webber & Co.: Stocks have been excessively dull today. The market scored only a fractional decline and was much firmer than might have been expected from the unfavorable developments which included disturbing foreign advices and lower prices abroad and also an unfavorable bank statement.

CARICATURE SKETCH OF SIR WILFRED LAURIER.
Sir Wilfred Laurier, Prime Minister of Canada.

At the close the list was heavy but very dull.

NEW YORK MONEY.

New York, June 17.—Money on call nominal; no loans. Time loans firmer; 60 days, 3 per cent; 90 days, 3¼@3½; 6 months 3¾. Prime mercantile paper, 3½@4¼ per cent. Sterling exchange firm, with actual business in bankers' bills at $4.87.15@4.87.20 for demand and at $4.85.15@4.85.25 for 60 days; ponted rates, $4.86 and $4.88; commercial bills, $4.84½. Bar silver, 58¾c; Mexican dollars, 45½c. Government bonds steady; railroad bonds, steady.

THE COTTON MARKET.

New York, June 17.—The cotton market opened steady at unchanged prices to an advance of 3 points and worked up to a net gain of 10@13 points on active months on further bull support and week-end covering in the absence of aggressive selling. There were no cables and the weather map seemed fairly favorable, but private advices from the South reported very firm spot holders and crop news while conflicting continued of a bullish nature.

Cotton futures closed barely steady; June, 8.55; July, 8.62; August, 8.69; September, 8.73; October, 8.80; November, 8.84; December, 8.91; January, 8.94; February, 8.97; March, 9.11; April, 9.04; May, 9.08. Spot closed steady; middling uplands, 9.15; middling gulf, 9.40. Sales none.

BANK STATEMENT.

New York, June 17.—The statement of averages of clearing house banks of this city for the week shows: Loans $1,104,860,500, increase $15,340,000; deposits $1,140,284,800, increase $16,462,000; circulation $47,350,000, increase $782,900; legal tenders $86,423,200; increase $1,130,300, specie $205,857,400, increase $495,000; reserve $292,280,700, increase $1,495,000; reserve required $285,071,200, increase $4,113,000; surplus $7,209,500, decrease $2,618,000; ex. United States deposits $10,859,100, decrease $2,651,325.

NATURAL LACE.

There are in all about half a dozen lace-bark trees in the world, so called because the inner bark yields a natural lace in ready-made sheet form which can be made up in serviceable articles of apparel, says the Scientific American. Only four of these curious species of trees are of much practical value. Tourists who have stopped at Hawaii or Samoa may recall the lace-bark clothing of the natives—clothing of a pretty brown color when new, of remarkable strength and of a fragrant odor, like freshly curled tobacco leaf. The native "tapa" cloth, as it is called, is made from the bark of the Brussonetia papirifera, but is not usually included among the real lace-bark trees.

Of the lace-bark trees yielding a pure, snowy lace of utility, we have on the Pacific side of the hemisphere the Sterkulia acerifolia of Australia (also called "flame tree," in allusion to its showy red flower), and in Maori Land the fragrant Sterkulia tullinus. On the Atlantic side there is only one lace-yielding tree, so far known—the Lageta linterla of the Caribbean Islands. Of the Dafne tenuifolia of South America I have never been able to discover a single specimen, despite careful search, nor have I ever met anyone who has seen the tree growing in South America.

In its natural state the lace-bark is of a most delicate cream-white tint. It is probably a kind of fibrous pith. When the outer bark is removed, it can be unfolded and unwound in one seamless piece, having a surface of a little more than a square yard. Washing and sunbleaching give it a dazzling white appearance. It has a faint, agreeable odor not unlike that of freshly split bamboo. The fabric is airily light. It is used in the West Indies for mantillas, cravats, collars, cuffs, window curtains; in a word, for every purpose that ordinary lace is used.

In making up shawls, veils and the like, it is customary to piece two sheets of lace-bark together. Delicate and apparently weak as it is in single mesh, a bit of lace-bark, if rolled into a thin string, will all but resist human strength to break it. In string, braided and rope form, it is used for making up the light lace-bark harness of the tropics.

Despite its practical use, there is no essential demand for lace-bark any more than for the necessities of the Alps. It has been used by the natives for hundreds of years, and yet is comparatively little known to this day. A few specimens of lace-bark articles are believed to exist in different museums of Europe. These were made some hundreds of years ago, yet, although their age is considerable, they are said to be in a good state of preservation.

WAS CONSISTENT.

The subject was tainted money, says the New York Sun.

"Of course," said the pessimist, "the church accepted the money. It naturally would. Who ever heard of a corporation refusing to make money? And, indeed, why should a corporation be different from a private individual? Who ever heard of a single person wilfully losing an opportunity of making a little haul?"

"I have," said another member of the party. "Have you ever tried to buy cards, or dice, or such things at ——'s? (Naming a big department store). Well, you could not get them if you tried. When he retired out in life, at the age of 20, he promised his mother that he would have nothing to do with cards or dice, and he has kept his promise; though, of course, his buyers informs me, there is not a day that there is not a great demand for them in this card-playing city of New York, and though it means to him a yearly loss of many hundreds of dollars."

Marine.

OLD TIME VESSEL

Keweenaw, Built In 1866, Is In Port Here.

Formerly Steamer, Now Sailing Vessel Carrying Lumber.

An old timer in the line of vessels is in the harbor today. It is the Keeweenaw, a sailing vessel belonging to the Nestor estate and which will take down a load of lumber to Buffalo this evening.

The Keweenaw was not always a sailing vessel. She was built in 1866 as a side-wheel steamer, then of first class type, and carried passengers on the great lakes. In those days she was a "floating palace" to use a much abused and frequently amended phrase. She carried passengers from the lower lakes to Duluth in the early days, and at that time was operated by Capt. Ward of Detroit.

She was built at Marine City, and was rebuilt in 1878, being then made into a sailing vessel. This is her first visit to Duluth in two years.

Her master, Capt. George Richie, has been in command of her for eleven years and says she is the staunchest and best behaved craft on the lakes today.

NAVIGATION DANGEROUS.

Chicago, June 17.—(Special to The Herald.)—Navigation is made dangerous on the upper lakes today by a dense fog which apparently extends from the Detroit and St. Clair rivers to the Sault and straits of Mackinaw. The first report of disaster on account of the fog came from Cheboygan, where the wrecking tug Favorite was sent to the steamer M. E. Kellon, which stranded fifteen miles east of there. Other reports are anticipated by underwriters. But two vessels passed Sault Ste. Marie between 8 and 11 o'clock. Reports from all stations indicated a practical cessation of navigation in narrow channels.

MIX-UP IN CANAL.

Sault Ste. Marie, June 17.—The steamer Bay City and barges Baroness and Bath got in a bad mix up yesterday while trying to go through the canal without the aid of a tug. The canal was full of vessels at the time and when the Bay City slowed up in passing them the Baroness came on and rammed them in the quarter breaking two frames, but not causing a leak. When the impact stopped the Baroness she was in turn struck by the Bath amidships. The blow broke three frames in the Baroness and caused her to leak. Temporary repairs are being made here and the boats will be able to proceed in the morning.

WILL BENEFIT DULUTH.

Detroit, June 17.—Governor Warner yesterday vetoed the tonnage tax measure. Prominent vesselmen assert that the action will cause much freight tonnage now being built or building to be lost to Michigan and that Duluth will be the gainer.

OLD CAPTAIN DEAD.

Cleveland, June 17.—Capt. Henry Wallace, an old-time vessel master and shipbuilder, died here today after a long illness.

PASSED DETROIT.

Detroit, June 17.—(Special to The Herald.)—Up: Massachusetts, Emerald, Runnels and consort, 10 Friday night; Morley, 10:30; Wexan, 12; Matsafa, Walter Scranton, 12:15 Saturday morning; Andaste, 12:40; Corsica, 7:40. Ashtabula—Arrived: W. W.

Look for it here if you are thinking of buying a home.

REAL ESTATE

Look for it here if you want a bargain in investment realty.

A Farm for $10 Down
and $4.00 a Month!

This will give you 40 acres of good fertile land in the big red clover district of Bayfield, Wis.,—as many acres as you like on the same basis for each 40-acre tract at $5 an acre.

Fine Investment for Young Men and Women

Think of the thousands of young people paying over money to the great life insurance companies every month with the expectation that at the end of twenty years or more they may only get their money back and a very small interest. Then think of the development of the United States in the past twenty years, and look on a map at the location of Northern Minnesota and Wisconsin as related to the head of inland navigation and the expanding markets of growing nearby cities. Will any reasonable man say that the land in this region will not be worth from three to ten times its present price within twenty years? Reason it out for yourself.

Worth $200 to $300 an Acre.

J. Sterling Morton, ex-Secretary of Agriculture, recently asserted that all well-located land in the United States would be worth that price within 50 years.

"I believe," he added, "that money invested in farms is the best possible investment one can make; even if purchased at what some may term 'boom prices,' one will soon see his investment doubled."

We Will Build You a Comfortable House

On any sized tract that you want, from forty acres up, upon payment of only one-quarter of the value of the land in cash, and spread the balance over several years. For a man who wants to get on a farm at small initial cost, this is a remarkable opportunity. All this land is surprisingly fertile, and it will pay you to investigate its possibilities. The Omaha railroad alone placed 900 families in Northern Wisconsin last year. We have about 60,000 acres to choose from.

Best Farming Land in Northern Minnesota.

We also have about 40,000 acres of the richest farming land to be found in this section of the state, all lying within a reasonable distance of railroads and midway between Duluth and the Twin Cities. We will give it to you for one-quarter its value in cash and the balance to suit your convenience. Runs from $5 to $15 an acre.

Chance for Investors.

We have some snaps in large tracts that can't be beat. CALL OR WRITE.

Northern Minnesota and Wisconsin Farm Land Co.
802-806 TORREY BUILDING.

102 PROVIDENCE BUILDING.

LARGE SALE OF WEST END LOTS

L. S. Loeb & Company Add to Their Large Holdings By Purchase of Fifty Lots on Grand Avenue Near Fortieth Avenue West—Some Good Deals In Negotiation.

The most important real estate transaction of the week is the purchase by L. S. Loeb & Co. of a large tract of West end unimproved property, comprising something like fifty lots on the north side of Grand avenue and between Thirty-eighth and Fortieth avenues west. The price paid is understood to have been about $18,500.

The purchase is made from Chicago owners who have held the property for some time, but whose names are not yet made public.

The lots, some of which have a fractional description, are located in the resurvey of Murray & Howe's addition and in Hazelwood Park addition to Duluth. The land has been platted, but no improvements have been made on it, although there are improvements all around the tract.

The purchase of this large tract will go to swell the real estate holdings here of L. S. Loeb & Co. and marks something of a departure of the people concerned from their former policy of acquiring centrally located or business property.

It is understood that I. Freimuth is also interested in the last purchase of West end property.

The transfer is regarded of special importance to the West end district and is a good indication of the growing demand for property in that section of the city. Besides the local inquiry for West end property, which is noted right along, there are a great many inquiries coming to the real estate offices from outside investors looking toward the acquisition of property in the West end. Many predict that the last named section of the city is destined for a large manufacturing and factory district and it is intimated that some of the investors are getting in on the ground floor early in the matter of acquiring good sites.

* * *

Outside of the West end transaction above mentioned, there has been considerable trading talk off and on during the week and it is learned from reliable sources that a number of good deals are near the closing point. Earnest money has been paid and the titles are being straightened out.

Until the papers pass the brokers are chary of giving out details, some claiming that past experience has taught them the truth of the old adage about the slip between the cup and the lip.

* * *

With the advent of the excursion season the local companies interested in farm lands are having an increased inquiry. Every excursion to Duluth from the more thickly settled farming communities of the southern part of the state brings many prospective purchasers of the cheap wild lands in this and adjoining counties. Taking advantage of the low rates offered by the railroads, many persons who are figuring on buying land in the northern country come here and go out with the land agents to look over the ground.

* * *

H. H. Peyton of this city has purchased from Minnie Ellis, for $17,850, lots 17 and 18, block 19, Proctorknott.

* * *

The deeds for the transfer of the Crosley Park addition from the National Lafayette bank of Cincinnati to the Davis Real Estate company went on record this week. The deal was mentioned some days ago by The Herald, the purpose of the new owners being to sell off the land in blocks of lots to people who intend to build homes, and who wish to secure plenty of room. The purchase price was $21,000.

* * *

W. W. Billson has sold to S. C. Knowles half a lot on the lower side of Superior street, between Second and Third avenues east, for $5,000. The description is the west half of lot 40, block 1, Central division, and the property is unimproved.

* * *

S. G. Gudeen has purchased from R. S. Kemp part of a lot at the intersection of Piedmont avenue with Eighteenth avenue west, for $2,500.

* * *

John Grandy, who is building at the northeast corner of Sixteenth avenue east and Fourth street, has purchased the next lot on the east side from William Prindle, the consideration being $1,000.

* * *

The Duluth Brewing and Malting company, which recently purchased the old novelty works property at the corner of Thirtieth avenue west and Helm street, has started some extensive improvements in the way of having the building remodeled into stores and flats. The contract for the work has been awarded A. Roberts.

* * *

The contract will be awarded today for the two-story brick store and flat building to be erected by Fred Hencke, on South Lake avenue. John De Waard prepared the plans.

* * *

The Duluth Real Estate exchange is now well organized and in working order and the members, who comprise nearly every real estate firm or dealer in town, are taking much interest in its success. The officers for the ensuing year are: President, Luther Mendenhall; vice president, William M. Prindle; secretary, Whitney Wall; treasurer, R. B. Knox; directors, W. C. Sargent, N. J. Upham, L. A. Barnes, J. A. Stephenson, Henry Nolte and John D. Stryker. For mutual protection of their interests, the members of the association have offered a reward of $10 for information leading to conviction for trespass on the properties they own or represent. The exchange will convene at the Commercial club during the lunch hour the first Tuesday in each month.

* * *

Race For Supremacy.

It is interesting to watch the race for supremacy among Minneapolis-St. Paul-Chicago trains. First place is securely held by the Pioneer Limited and the second place by the Fast Mail. Both trains are entirely owned by the Chicago, Milwaukee & St. Paul railway. There are three other fast trains via this line from the Twin Cities to Chicago every day, and there is no extra fare to ride on them. Address W. B. Dixon, northwestern passenger agent, St. Paul, for further particulars, lowest rates, etc.

ORDER TO EXAMINE ACCOUNTS, ETC.—

State of Minnesota, County of St. Louis —ss.

In Probate Court, Special Term, June 2nd, 1905.

In the Matter of the Estate of Carl J. Tufte, Deceased:

On reading and filing the petition of Carrie Tufte, administratrix of the estate of Carl J. Tufte deceased, representing among other things, that she has fully administered said estate, and praying that a time and place be fixed for examining, settling and allowing the final account of her administration, and for the assignment of the residue of said estate to the parties entitled thereto by law.

It is ordered, That said account be examined, and petition heard by this Court, on Monday, the 26th day of June, A. D. 1905, at 10 o'clock a. m., at the Probate Office in the Court House in the City of Duluth, in said County.

And it is further ordered, That notice thereof be given to all persons interested, by publishing a copy of this Order once in each week for three successive weeks prior to said day of hearing, in the Duluth Evening Herald, a daily newspaper printed and published at Duluth in said county.

Dated at Duluth, Minn., the 2nd day of June, A. D. 1905.

By the Court,

DAVID H. LAWRENCE,

Judge of Probate of Lake County.

Acting Judge of Probate of St. Louis Co., Minn.

(Seal Probate Court, St. Louis Co., Minn.)

Duluth Evening Herald—June 3-10-17, 1905.

ORDER FOR HEARING ON CLAIMS.—

State of Minnesota, County of St. Louis, ss.—

In Probate Court, Special Term, June 5th, 1905.

In the Matter of the Estate of Jens Thompson, Deceased:

Letters of administration on the estate of Jens Thompson, deceased, late of the County of St. Louis, State of Minnesota, having been granted to Andrew W. Eiler;

It is ordered, that three months be and the same is hereby allowed from and after the date of this order, in which all persons having claims or demands against the said deceased are required to file the same in the Probate Court of said county, for examination and allowance, or be forever barred.

It is further ordered, that Monday, the 11th day of September, 1905, at 10 o'clock a. m., at a special term of said Probate Court to be held at the Probate Office in the Court House in the City of Duluth, in said county, be and the same hereby is appointed as the time and place when and where the said Probate Court will examine and adjust said claims and demands.

And it is further ordered, that notice of such hearing be given to all creditors and persons interested in said estate by publishing this order once in each week for three successive weeks in The Duluth Evening Herald, a daily newspaper printed and published at Duluth in said county.

Dated at Duluth, Minnesota, this 5th day of June, A. D. 1905.

By the court,

DAVID H. LAWRENCE,

Judge of Probate of Lake County,

Acting Judge of Probate of St. Louis County, Minnesota.

(Seal Probate Court, St. Louis Co., Minn.)

Duluth Evening Herald—June 17-24; July 1

MART ADSON, General Agent, 430 West Superior street, Duluth, Minn.

Railroads.

RAILROAD NEWS

Missabe Road's New Ore Cars Are Very Best Obtainable.

Several Improvements Not Possessed By the Old Cars.

The new ore cars ordered by the Duluth, Missabe & Northern road, which are now being delivered by the American Car & Foundry company, are of the finest type obtainable, and there are several new features about them in the way of improvements which are not possessed by the old steel cars.

The new car is constructed throughout of structural steel. Four doors operated in pairs hung transversely across the opening of the car are employed, and are so arranged as to dump between the rails, thus permitting the extension of the hopper back of the wheels. The arrangemtnt gives a maximum opening with the wheel base. The doors are supported on the outer ends by chains passing over pulleys arranged on either side of the car, placed above but in alignment with the inner edges of the pair of doors. The chains are operated by a shaft extending transversely of the car and located under the hoppers at either end, and manipulated by a hand wheel on the end of the car, the shaft of which carries on the inner side a small pinion which meshes into the larger gear wheel on the shaft operating the chain. The two sets of doors are not operated together, but are each handled separately from either end of the car. The side stakes are made of channels and angles. The two center sills are made of 15-inch channels and the side sills are made of 6-inch 10½-pound channels.

The brake cylinder is hung from the under side of the outside channel sill, the releasing spring being operated on the outer extension of the piston rod. The auxiliary reservoir is hung under the hopper near the top at the end of the car. The capacity of the car is 100,000 pounds. The length over end sills is twenty-two feet and the length inside of the body is twenty feet and seven inches. The width of the car over the inside stakes is eight and one-half feet, while the height from the top of the rail to the top of the body is nine feet. The weight is 32,000 pounds.

The special equipment includes Barber rolling device, Simplex bolsters, Woods roller and Susemihl side bearings, Camel journal bearings, McCord and Symington journal boxes, Standard Steel Car company brakebeams, Westinghouse air brakes, Chicago and Climax couplers and Westinghouse draft rigging.

CHANGE IN SENTIMENT.

C. L. Mosher Says Northwest Is Undergoing It.

Curtis L. Mosher, special representative of the Northern Pacific, who was in the city yesterday, said:

"There has been a considerable change of sentiment during the last few weeks on the question of government rate making, and the business men of the Northwest, as I have had opportunity to converse with them, have indicated, in numerous instances, that they do not favor the passage of a bill to give the interstate commerce commission arbitrary rate-making power.

"The position of the railways is merely this, that they do not object to any reasonable regulation which experience and solid fact show to be necessary. But they do object, and with justice, to any measure which will grant the interstate commerce commission the power to make the rates for the railways of the United States. It is a mistaken idea to believe that in the present situation the railways are opposed to the administration or to President Roosevelt. Mr. Roosevelt has frequently stated in his public addresses that it would be foolish and dangerous to interfere in the legitimate transaction of railway business. In this position the railways agree with him and their attitude toward the Esch-Townsend bill is based on their adherence to the principles he advocated.

"It is rather interesting to note that while rebates and private car lines have subjected the railways to the larger share of the present criticism, the interstate commerce commission act which was made into law in 1887, provides in Section 2, the severe penalty of imprisonment for the granting of rebates, special concessions and drawbacks. There was, therefore, an ample law against rebates long before the Esch-Townsend bill was passed by the house.

"The railways have not defended, and do not defend any private car line which has been guilty of unjust exactions from the public. It seems to me that the private car matter can be easily settled by the enactment of an amendment to the interstate commerce act which will declare private car lines common carriers, or by some other simple but effective method which will bring about the same result."

Concerning the interstate commerce commission, etc., Mr. Mosher said:

"Of course, there can be no discussion of the proposition that the highways of commerce should be kept open to all on the same terms, and that rebates, special service, or any other form of preference of one shipper over another, should be abolished and prevented. That is as much in the interest of the carrier as the shipper, and is not and never has been opposed by anyone, so far as I know. But this does not in any manner involve the question of giving the government power to fix the rates.

"That would be neither a square deal for the railways or the shippers. It would deprive the railways of the control of their property, and it would not insure the shipper against any of the evils of which he complains: There is no complaint of high rates. In seventeen years the interstate commerce commission has made but sixty-three orders modifying rates and only one of these has been sustained by the courts. The rates are made right now; it is not that of which the people complain. As that is not their complaint, it is not easy to see how they expect to cure something else by fixing that. The fact is that the present law is ample to cure every evil complained of which arises out of the conduct of railways, if it were honestly and fully enforced. It may need such readjustments to changing conditions as every law does, and such modifications as it has from time to time had, but in principle it is an ample remedy and complete protection.

"To abandon the principle of regulation for the principle of control, would be to plunge the business interests of this country into the same political warfare that characterizes the government control of rates in Germany, and to put section against section in such contest for political control of the rate-making power, as would be permanently and hopelessly disastrous to our commerce.

"It is fortunate for the business interests of the country that in the hour of political panic the senate refused to be stampeded, and took time to give the people of the country an opportunity for a sober second thought, which is rapidly crystalizing against the creation of a bureau with the autocratic control of the commercial destinies of the nation, which such a power conferred upon the interstate commerce commission would create."

Railroad Notes.

The annual picnic of the Superior employes of the Great Northern road will be held on Saturday, July 15, at Cloquet. Last year the picnic was held at Grand Rapids and fifteen coaches were required to accommodate those attending.

It is said that the Great Northern is about to create the office of assistant general superintendent. The man chosen for the place will have jurisdiction over the Dakota and Minot divisions and over one other division not yet named. J. M. Davis of the Minot division is said to have been selected to rthe new office.

Chisholm

Chisholm, June 17.—(Special to The Herald.)—For some time the public school teachers have been working hard themselves and have also been making the children work extra to prepare for the annual closing exercises which will be rendered in Fugere hall. The grade exercises were rendered Friday evening and the Eighth grade exercises will be given next Wednesday. The largest Eighth grade in the history of the school passed into the high school department this year. The names of those who graduated from the public schools are: George Anderson, Isador Behr, Leslie Govette, Jessie Grant, Mary and Helen Harrington, Anton Johnson, Alfred LaDeaux, Alice McCarthy, Mary Weed, Mary Sapero and Ulrick St. Lawrence.

W. G. Shane, the census taker for Chisholm is out and is having some interesting experiences in getting all the information which the census department requires. Thursday a Finlander woman threw him outdoors without any ceremony notwithstanding the fact that he had an appointment that day. He and a Finn woman vainly protested against the treatment by telling the frantic woman that they did not want anything but her name and those of her family. At present it looks as if the town will have a population of over 3,000.

Mrs. Robinson of Albion, N. Y., is visiting her sister, Mrs. E. G. St. Clair and is likely to remain most of the summer.

The village council has passed an ordinance to establish and maintain a pound for the disorderly cattle of the town.

Francis Marion is shut in his home with measles.

The new saloon building next to the Miners State bank is going up and will be completed as soon as possible.

The program for the Fourth of July is being prepared and Attorney Joseph Austin has been chosen orator and Miss Millie Shane will read the Declaration of Independence.

One day this week the automobile bus came in to town rather disgraced. It took a notion to play the mule act and would not go until Mr. Latham went out and hitched his horses to the machine.

A Baccalaureate service will be held in the M. E. church Sabbath evening for the Eighth grade.

Buhl

Buhl, June 17.—(Special to The Herald.)—The Interstate Iron Mining company is pushing its work at the Grant mine. Capt. White is looking after the underground work and John Hudson has charge of the construction work on the surface, which at the present time is very important. The new boiler and engine house is nearing completion, and now the boilers and engines and dynamos are being installed. The Interstate company is going to use the largest stripping and mining plant in this part of the range, and the new scheme is being watched with great interest by all the mining men and employes of the various mines.

Last Saturday a very serious accident happened to Jacob Nesula, a miner employed at the Grant mine. While walking along one of the drifts he accidentally stumbled into one of the chutes and fell between thirty-five and forty feet, breaking one leg and fracturing his skull, besides internal injuries. He was taken to the Shaw hospital and given the best medical treatment, but he succumbed to his injuries and died Tuesday evening.

Mrs. B. W. Bragg has been ill for a few days, but is recovering speedily.

Mrs. Dr. Shaw has returned from her visit to Minneapolis.

The People's M. E. Church Ladies' Aid society meets with Mrs. Taylor Thursday afternoon. The society was organized a few days ago and has the following officers: Mrs. C. Hendricks, president; Mrs. B. W. Bragg, vice president, and Mrs. N. P. Laing, secretary-treasurer.

Miss Daisy Bragg, who says hello to almost everybody who speaks to her, is away on a two-months' vacation, and the central telephone is being manipulated by her sister, Mrs. Merrit.

CUT OFF THE ROBBER.

If COFFEE keeps you half ill quit 10 days and use

and note change in health.

ATTEMPTS TO ENTER

Society By Mrs. Hoyt Rebuffed By Her Old Friends.

Their Coldness Drove Her to the Flowing Bowl.

Tiffin, Ohio, June 17.—The celebrated suit to decide who shall enjoy the large fortune left by Mrs. Reuben M. Hoyt, the eccentric and brilliant New York woman who created such a furore in this city four years ago, was commenced in the common pleas court this week, with Judge E. M. Fries of Bowling Green on the bench, and is expected to last three weeks. Besides thousands of pages of depositions, taken in New York, Chicago, Colombia, South America, and other places remote from Tiffin, over 100 witnesses have been subpoenaed. That the case will be bitterly fought is evidenced by the fact that more than $1,000 has been expended in securing the deposition of one witness alone, that of Miss Jennie Williams, the trained nurse. Arrayed upon the two sides are no less than twenty-five attorneys, constituting not only the flower of the Seneca county bar and those adjacent, but also of the state. Prominent upon the side of Mrs. Eva Hill, sister of Mrs. Hoyt, and the other heirs, who are contesting the will, is found the name of Hon. E. G. Johnson of Elyria, one of the most skillful will lawyers in Northern Ohio. Arrayed upon the side of Judge Bunn, the legatee, is Hon. Charles W. Baker of Cincinnati, and six others of almost equal prominence.

The suit involves some novel legal features, and has for its background one of the most remarkable cluster of circumstances ever found outside of fiction.

Mrs. Hoyt, the daughter of obscure parents, was born near Tiffin, her maiden name being Charlotte Guss. She was a remarkably pretty girl, and, though illiterate, bright. Longing for greater opportunities, and with an ambition to make of herself something more than a mere household drudge, she went to Chicago while yet in her teens and became a servant in a wealthy Jewish family. The son of the house became infatuated with her, and, despite all objection, they were married. He was disinherited, and the two lived unhappily together until they were divorced. She then went to New York, where she met Hoyt, a millionaire several times over. They were married.

All went well for a time, but trouble arose between the two—trouble said to have been engineered by the attentions of a wealthy contractor, or, as others claim, because of the dissipations of the husband. At any rate they separated, Hoyt settling upon his wife a fortune, consisting of valuable New York real estate, railroad stocks and bonds, money and other valuable securities. This was in 1900, and soon afterward Mrs. Hoyt, no longer the simple country girl, but stately, queenly and beautiful, and, above all, highly educated and cultured as the result of her contact with the world, turned her back upon New York and sought the scenes of her childhood home. Here her unusual beauty and great wealth at once attracted the notice of her former friends and associates, but it was to her extravagant tastes and many eccentricities that must be attributed the notoriety which she rapidly gained. She at once purchased the most beautiful suburban villa in Tiffin at a cost of several thousand dollars. After expending many more thousands in improvements and furnishings of almost Oriental magnificence, she sent for her numerous horses and carriages and set up an establishment the equal of which the wondering people hereabouts had never before seen.

She made several ineffectual attempts to enter society, but society held aloof. Disheartened at the coldness of those whom she thought to draw to her by her display of wealth she commenced to drink. Then commenced a series of bacchanalian revelries, debauches and eccentric escapades which were the talk of the entire community. Some time prior to this Judge J. F. Bunn, a prominent attorney of Tiffin and former probate judge of the county, commenced to transact her legal business. From the first they became almost inseparable companions, though it is said that he figured in the many escapades more as a guardian to see that no harm came to her. Finally even he was unable to restrain her, and the woman became a confirmed drunkard until she finally died in 1902 of acute alcoholism.

After her death her will was filed here, and was most extraordinary in its nature. It bequeathed the great bulk of her fortune to her attorney, Judge Bunn, making provision for the care of her aged father, and setting aside a sum to be paid to a New York society for the prevention of cruelty to animals for the keeping of her horses, dogs, cats, birds, etc., of which she had a great number. A priest in New York was named in the will as trustee of the fund, but he refused to serve.

After the will was probated it was learned that the woman had made and afterward destroyed within the last four months of her life no less than four other wills, each as remarkable as the above, and each one disposing of her property in a different manner, though all made ample provision for Judge Bunn.

It is on the theory that testatrix was mentally unsound and was unduly influenced that the contestants rely to break the will.

NOT COVERED BY THE LAW

Jerome Makes Caustic Comment on Crimes of Financiers.

New York, June 17.—District Attorney William Travers Jerome, at a dinner given in his honor by the Merchants' Protective association, declared the actions of "eminent gentlemen" associated with the Equitable Life Assurance society no whit less immoral than those of "Larry" Summerfield, the confidence man and urged the necessity of laws which adequately would deal with crimes in high finance.

His remarks created a profound sensation among the several hundred guests in the banquet hall at Delmonico's.

Mr. Jerome said: "Within the last decade or so there has arisen an entirely new class of crime, crimes which do not come within the pale of the law. In the earlier days of American history when a man wanted to rob his neighbor he did so by force, and there were laws provided which attended to his case if he should be detected and found guilty.

"There are no laws to cover ninety-nine out of 100 crimes committed every day in this era of high finance. In England, France and the countries of Europe the necessity of safeguarding the people against financial crimes has been recognized by laws which have been enacted to this end.

"The United States has singularly been backward in this regard.

"The trouble in this country is that the morality of a great many people is governed by what is on the statute books. Thousands of New Yorkers are blind to this moral side, and only know an act is immoral when it is written into the law as a felony.

"There is the recent exposure of the affairs of the Equitable Life Assurance society. In the case of the eminent gentlemen who governed its affairs I will admit the things they did were not criminal, as defined in section 528 of the penal code, which has to do with larceny. I contend, however, that, in a moral sense, they should come within the purview of this section, and I defy them to distinguish their acts from the acts defined in it.

"I would in this connection recall to you the Cambon dinner. Was it decent, according to the canons of gentlemen, that the foreign ambassador of a friendly nation should be used for an advertising medium? If you or your wife or your sister or your daughter should be used in the same way, would your ideas of decency permit you to associate there after? Unconsciously I think not.

"Since the Equitable house-cleaning began I have been receiving letters by every mail from people who can't see the difference between the actions of the eminent Equitable gentlemen and the actions of Larry Summerfield, the confidence man. It is not so long since that I sent Summerfield to Sing Sing, and people who are writing me refuse to see why the high financiers of the Equitable should not follow him.

"'What is the matter with you?' is the way some of the letters read, 'Why don't you send those people to jail?'

"I met Summerfield in a restaurant just before he was convicted and called him over to me. I told him I would talk to him as Jerome, not as the district attorney. He said to me that he did not see how he could be convicted. He ended up with this declaration: 'I did not think I was doing anything which was against the criminal statutes. I was acting under the best legal advice to be had, and, so help me God, I thought I was doing what all of the big fellows were—selling the suckers something that had no value at a high rate.'

THE WESTERN COAL TRADE

Advent of Warm Weather Counteracts Last Week's Improvement.

Chicago, June 17.—The Black Diamond, official newspaper of the coal trade, reviewing western coal condition says:

The advent of warm weather in the West this week seems to have counteracted any slight improvement which was noted last Saturday, and in the bituminous branch of the industry at least, there is very little demand with demurrage coal accumulating to some extent at Chicago and other points. As the middle of June is now past, in all probability some of the dullness is due to the fact that factories are being closed down for repairs or because of a lack of demand for manufactured products. Anything of this kind has an almost immediate effect on the volume of coal business and explains why the demand has eased off during the last few days.

Contributing features to the local situation in the West is the approaching crisis with reference to the shot firers' law which becomes effective in Illinois July 1. This week the operators are holding district conventions in many of the districts of the state for the purpose of taking unanimous action with reference to this question. The results will not be known publicly until after the meeting of the operators' association at Springfield next Tuesday, when it is expected that final action will be taken.

In the western anthracite trade increasing dullness seems to be the rule rather than the exception. Shipping agents have not been as gloomy in a long time as they were this week, there being practically no business of any consequence. A close analysis of the situation fails to reveal real reason as to this stagnation in the West. In the East the trade is taking more coal than ever before and storing any surplus tonnage that can be secured to prevent a serious shortage that might occur next winter should there be a strike in the anthracite regions. In the West the trade is not taking in its regular allotment and apparently dealers do not fear prospective labor troubles. This is all the more difficult to account for when it is considered that during the strike of 1902 the West suffered to the greatest extent, anthracite selling at retail as high as $24.00 per ton during the early part of the following winter. In all probability the lesson of that period has been completely forgotten, judging by the apathy as to taking in supplies that exists at present.

Western sales agents for anthracite companies are not willing to admit that the demand has diminished to any great extent in this territory, but are of the opinion that the trade is simply neglecting to take in supplies at this time. Of course, there is always some business doing but it is not large enough in volume to absorb all the coal that is coming forward, although it is expected it will improve toward the latter part of the month in order to take advantage of the present net price at wholesale of this commodity.

SERUM FROM SICK

Cures Their Ills, Says Sioux City Physician.

Sioux City, Iowa, June 17.—After experimenting for eight months, Dr. G. S. Browning of Sioux City has evolved a remarkable system of treating disease which, he says, will do away with the use of all drugs.

Dr. Browning's system is the treatment of human diseases by the use of serums drawn from human blood. Thus, he declares, he will fight every disease with the specific remedy provided by nature in defense against that disease. Being nature's own remedy, he declares it should prove far more efficient than any system of treatment now known to science. He predicts that it will soon revolutionize the practice of medicine.

"My system," said Dr. Browning, in announcing the result of his investigation, "is based on the destruction of bacteria by the introduction of an anti-toxin. I hold that anti-toxin, instead of being obtained from the blood of animals, should be taken from the blood of the patient himself, or someone else afflicted with the same disease.

"Inasmuch as practically every disease known to us takes hold of the blood, and must be fought through the blood, this system will enable us successfully to combat many maladies now out of our reach.

"When a person is in a normal condition the blood contains a substance which we call the complement. When disease attacks the system there is formed in the blood another substance, which is generally known as amboceptor. These amboceptors then unite with the native resistive body of the blood and the complement, and this union produces a substance known as bacteriolysn, which then unites with the toxin or with the bacteria, as the case may be, rendering it or them innocuous.

"Under my process some of this bacteriolysn is then taken out by extracting blood, and is heated to 55 deg. centigrade, after which process the complement is entirely destroyed and the amboceptor remains. The remaining substance is then injected into the blood of the patient, the result is that there is a supplementary amount of amboceptor to unite with the already present excess of bacteriolysn with which to combat the disease.

"It seems to me quite within the range of possibility that all diseases could be treated successfully in this manner. Nature's own specific for each case would be employed, and it is certain to be most effective. I have carried on my experiments upon animals up to this time, which has well demonstrated the correctness of the theory. I feel now that it has been well enough established to apply it to human beings."

LIQUOR DRINKERS CURED.

Whiskey and Beer Habit Cured at Home With No Loss of Time.

Orrine is the only guaranteed cure for the drink habit, can be used at home, and destroys entirely the craving for drink, without publicity or loss of time. It quickly removes the craving for intoxicants, steadies the nerves, restores the appetite and gives refreshing sleep.

Ten thousand grateful letters from those who have been cured by Orrine prove its infallible success. It is the only guaranteed cure for the liquor habit, and we seek the worst cases in the community in order to prove that Orrine cannot fail. It is prepared in two forms —No. 1, which can be given in tea, coffee or food, without the patient's knowledge, and No. 2, which is for those who desire to be cured. The price of either is $1 per box. Sold and recommended by F. W. Kugler, 108 West Superior street, Duluth.

SENTINEL PINE ON PARK POINT HIT BY LIGHTNING

Was the Tallest Remaining Pine Tree On the Point.

Although Badly Shattered, the Old Pine Still Stands Erect.

SENTINEL PINE ON PARK POINT STRUCK BY LIGHTNING DURING THIS WEEK.

Among the strange pranks played by the lightning during the severe electrical storm of last Tuesday evening, was the shattering of "Sentinel Pine," the tallest remaining pine tree on Park Point, located in the yard of George S. Richards, at Camp Orlando, Park Point.

The bolt which disfigured and which will probably kill the tall old tree, struck between 10 and 11 o'clock that evening, when Mr. Richards was retiring for the night in a tent a few feet away from the butt of the tree. At this same time one of the Park Point cars was passing, less than a hundred feet from the tree. When the flash came, with its peculiar crackling sound and deafening report, Mr. Richards was thrown from his cot to the floor of the tent and Conductor Shearer, on the street car was stunned for nearly a minute from the shock caused from being so close to the object struck.

"Sentinel Pine" is more than 100 feet high, its exact height never having been obtained. It towers above the other trees in that vicinity and often forms a familiar land mark to the boating parties out on the bay after dark.

The upper part of the tree has been dead for a few years, but at a distance of about fifty feet from the ground large limbs branch out which are still green and full of life. The old tree is nearly three feet thick at the butt.

The lightning struck close to the top of the tree, followed a winding course down, plainly discernible by a whitened path made by the bolt circling around the trunk. The greatest damage was done when the bolt reached the large limbs and from that point down the trunk is badly torn and splintered.

Pine splinters the size of fence rails and less, were thrown a distance of from five to fifty feet in every direction, some even passing over the tent and Mr. Richards' house and a few as far as the street railway tracks. The ground at the foot of the tree was also torn up as though a hoe had been used vigorously.

Although so badly shattered the old pine still stands erect as if defiant of the elements and those who have examined it believe that it would resist heavy winds for some time to come.

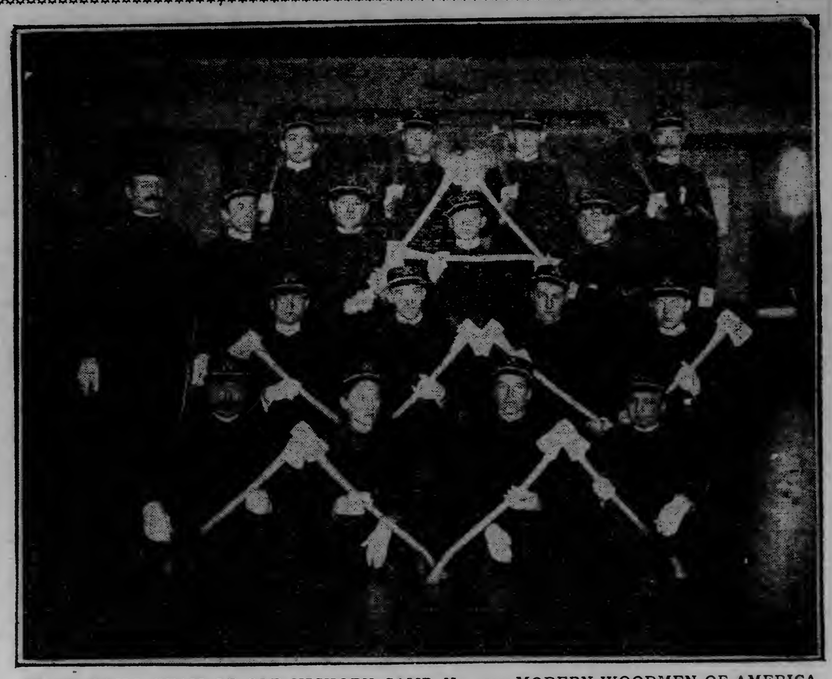
Mr. Richards is thinking, however, of having the faithful old sentinel cut down in view of the harm that might ensue to his buildings if the tree were to give way before a heavy wind. Its removal will constitute a rather interesting problem for an experienced woodsman owing to its great height and proximity to buildings.

MODERN WOODMEN DRILL TEAM

Crack Team of Old Hickory Camp Off To Milwaukee.

Will Compete Against All Senior Teams In the Country.

Won Third Prize Among Junior Teams Two Years Ago.



CRACK DRILL TEAM OF OLD HICKORY CAMP, No. 1555, MODERN WOODMEN OF AMERICA.

The crack drill team of Old Hickory camp, No. 1555, will leave this afternoon for Milwaukee, to take part in the competition which will be held at the national encampment, which opens there Monday.

It will not be the first appearance of a Duluth team at the national encampment. Two years ago at the last gathering in Indianapolis, the Old Hickory team won third prize among the junior teams. This victory places the team in the senior class, and it will have to compete against all the other senior teams in the country at the Milwaukee encampment.

The Woodmen will go into camp Sunday evening, and will not break up until the following Saturday. During the week the teams from all over the country will compete for prizes. It is estimated that there will be 10,000 Woodmen in camp, and probably from 100 to 150 teams, which are picked from the best drilled companies in the country.

This will be the competition which the Duluth men will have to face, and it will be no small honor if they succeed in carrying off a prize again this year, especially when it is taken into consideration that they have been transferred to the senior class.

There are five prizes for the senior companies, ranging from $500 down to $125, and also five prizes for the junior teams, ranging from $300 down.

The men have been trained by Capt. C. C. Salter, who had charge of the team at Indianapolis two years ago.

The following is a list of the men who will be taken along on the trip:

Captain—C. C. Salter.

Sergeant—Frank Hantz.

Corporals—F. B. Mikesh, John Connelly, J. C. Ramsbottom, William Foubister.

Privates—Harry Richard, Isaac Solberg, Arthur St. Germain, Edward Hantz, Lester Nellis, B. Faughnan, Erne Coughlin, Arthur Blamy, Nels Wilner, Charles Kauppi, Iver Seasted, George Govett.

Extras—Dunleavy, Anderson, Mansergh, Kellar, Ceyborski, Silger.

GET WELL--KEEP WELL

Anyone Who Stands, Sits or Walks Incorrectly, Cannot Have Health—No Excuse For Slip-shod Manner of Professional Men—Don't Abuse Your Spinal Column: Most Vital Part of Man His Backbone—Remove Headaches and Kidney Troubles By Correct Standing—In Walking Keep An "Active Chest"—Sit Correctly and Prevent Indigestion.

BY EDWARD B. WARMAN.
Author of "Scientific Physical Training."
(Copyright, 1905, by Joseph B. Bowles.)

Health depends upon correct position of the body. Anyone who stands, sits or walks habitually, in an incorrect position, does not and cannot possess health so long as the habit continues.

Harmony is the law of the universe. Correct position is one of the fundamental laws of health. Violate the law and you must, sooner or later, pay the penalty. There is no exception to this rule. I am well aware that many persons are engaged in certain pursuits that are of such a nature as to compel them to violate this law during working hours. This does not, however, weaken the force of the argument. They are not well, nor can they be well unless they counteract the ill effects, physically, by some means or methods outside of those hours of daily toil.

This class, for whom a reasonable allowance may be made, does not, fortunately, represent the majority. What about that vast army of lawyers, ministers, teachers, clerks, doctors, etc., who have no reasonable excuse for the ungainly and unhealthful positions assumed in standing and sitting, to say nothing of the careless, slipshod manner so generally employed in walking?

It is a fundamental principle that the structure must be right or the functions cannot be right. How important, then, that we should look to the cause and not resort to drugs. When the organs of a man's body refuse, from any cause, to do their work, nature does not intend that he should force them to action with drugs, but that he should restore them to normal condition by right living, by strength obtained from nourishing foods, and by obtaining and retaining correct position and carriage of the body.

I should like to impress upon the readers of this series of articles the fact that we are not punished for our physical sins, but by them; and, "the wages of sin is death." Whatever nature gives you over the counter you are expected to pay for at the cashier's window, and if you evade payment she will charge you double.

• • •

WHAT IS THE CORRECT POSITION?

Whether standing, walking or sitting there is one rule that invariably holds good, viz.: The position of the spinal column must be such that no one part infringes or unduly impinges upon any other part. Man is a machine, and the most vital part of the human machine is the spinal column, with its wonderful spinal cord and the thirty-one pairs of spinal nerves. Therefore, look to it, that the most delicate and vital part of the anatomical structure is not abused by incorrect positions. Whatever may be the slogan of war, the slogan of health is—look out for your backbone.

To give you a definite idea of correct position I will ask you to note the perfect poise of the perfectly articulated skeleton that you will find in the museum or in the office of the physician. That little word poise is very significant.

HOW TO SECURE CORRECT POSITION STANDING.

Seek the center of gravity. This is done, when standing, by having the weight of the body over the center of the feet, about equally divided between th ball of the foot and the heel. The upper portion of the body should be erect, but not rigid; neither too far back nor too far forward. As a rule, when you ask a man to "brace up," he braces back. By so doing he throws the body as much out of poise as when he leans too far forward.

Avoid extremes. In leaning backward and standing heavily upon the heels (an almost universal position) there is an undue pressure over the kidneys and a congestion at the base of the brain; the latter causing a most violent headache. Therefore to remove such a headache remove the cause; in other words, secure the correct position of the body. As this is easier said than done I propose prescribing a simple means whereby anyone can attain it and by a little care and watchfulness can retain it.

Stand against the wall (or a door). With the feet near together touch the heels to the wall, then the limbs, then as much of the body as possible (this brings the shoulders to a natural position and prevents throwing them too far back—a grevious fault), then place the back of the head against the wall without raising the chin. You will observe that the drawing in of the chin raises the chest to a high, firm position and it is held in that position through the aid of the chest muscles and not by inflating the lungs. This will acquaint you with what I call an active chest; the chest raised and fixed independently of the breathing.

When holding the position against the wall (or door) you have the correct position of the body in every respect save one, viz: your weight is upon the heels, but you are prevented from swaying too far back. This, therefore, is only a means to an end. As correct position of the body depends upon the correct position of the spine and the poise over the center of the feet, all that you now have to do is to sway the entire body from the wall without moving the feet and without moving any joint but the ankle joint. In order to do this correctly; that is, to avoid moving the body forward by bending the neck or by yielding at the waist or by swaying at the knees, imagine an inflexible rod extending from the crown of the head to (but not through) the ankle joint. Were this the case, you would correctly transfer the weight of your body from the heels to the center of the feet.

As a test for the correct standing position, rise on the ball of the foot—or feet. If in so doing you are obliged to sway forward (no matter how slightly) from your standing position, or transfer your weight from your heels by swaying the body forward at the hips, you are not in a correct position.

• • •

Assuming that you have now learned how to get the correct position (to retain it is a matter of practice), I will next consider the very important feature of health as regards the carriage of the body.

WALKING.

To start right, to avoid the general tendency of allowing the body to settle, take your position once more against the wall, or door; sway forward to correct position, then as you step forward you should feel an impulse from the chest—the chest being active and the legs comparatively passive—a feeling of lightness and buoyancy as if actually led by the chest.

'Tis true, the legs are indispensable as a means of bodily locomotion, but they are more of a support than a motive power; that power is resident in the chest. Shut off the lung power, the great air reservoir, and you at once are deprived of the necessary propelling force, and the whole human machinery stops. That is the reason that I place so much stress on keeping an active chest. It also avoids friction or undue crowding of the vital organs—a most essential point as regards the heart.

The chest should have the appearance of leading; the abdomen, never. At first you may feel and even appear somewhat awkward, but this feeling and appearance will disappear in proportion to the daily application of these principles until, in a remarkably short time, correct position and carriage of the body will become second nature to you and, instead of striking your heels heavily as you walk, instead of making your legs do all the work and dragging your body around day after day, you will distribute the effort more evenly (in fact, there will be no effort), you will step with the lightness and elasticity of youth, you will be able to walk miles where now you walk blocks, to say nothing of your general appearance, and, best of all, the securing of those conditions that obtain for health. The strict adherence to these principles will add not only years to your life, but life to your years.

• • •

SITTING.

When sitting, your body should be as well poised from the hips as, when standing properly, it is poised from the ankles. In both cases the same caution is to be observed, viz.: Avoid any undue curvature of the spine, either forward, backward or lateral. To do this, sit either on the forward edge of the chair when at a table or desk, or as far back as you can without your back touching the chairback. In no case allow the chair to be so close to the desk or table as to cause you to crook the spine or drop the chest. By observing this caution you will be able to work more hours with less fatigue; eat without crowding the digestive organs, and, in both cases, you will avoid any interference with circulation—a most important matter as regards the prevention of indigestion, torpid liver, irregular heart action, insufficient respiration, headaches and the thousand and one things that follow closely and inevitably upon the violation of the law of correct position, especially the position of the chest.

To carry your head high, is fashionable; to carry your heart high, is metaphorical; to carry your chest high is both practical and healthful.

EGGS SEALED UP

For Four Years Were Good When Opened.

Richmond, Ind., June 17.—In the presence of witnesses P. J. Connell, a Richmond man, placed a dozen eggs in a stone jar four years ago, after preparing a chemical preparation, which he claimed would preserve the eggs for any length of time. Yesterday the jar, which was securely sealed and tagged, with the date at the time the eggs were placed within, was broken open. The eggs stood all the tests known, and after having been broken were cooked and eaten by Connell and party. It is declared that after four years' time they were in as good condition as the day they were sealed up in the jar.

INDICTMENTS FOR PACKERS.

Chicago, June 16.—Proposed indictments against officials of at least five packing firms were said to have been presented to the members of the Federal grand jury by District Attorney C. E. Morrison today for consideration. A report was current that the indictments had practically been voted by the judge.

RECENT WEDDING AT CROOKSTON

MRS. FRED DENNIS, Formerly Miss Rhoda Bonney of Crookston.

FRED DENNIS, Private Secretary of Congressman Steenerson.

Crookston, Minn., June 17.—(Special to The Herald.)—The prettiest home wedding celebrated in Crookston in many years past was that of Fred Dennis, private secretary to Congressman Halvor Steenerson of the Ninth congressional district, to Miss Rhoda Bonney, one of the city's most charming young women. The wedding was on June 5 at the home of Mr. and Mrs. S. W. Wheeler and was attended by a large number of friends and relatives. Flowers in profusion decorated the spacious home. Rev. Shaw of the First Congregational church performed the ceremony.

Mr. and Mrs. Dennis, after the customary serenade and farewell sendoff of rice, old shoes and tied up luggage, departed for a trip to the Yellowstone Park. The ovation tendered them upon their departure from the city bordered upon the wholesouled hearty sendoff of pioneer days and the carriage which conveyed them to the train was bedecked with rags, sheets, pillow cases and ribbons with an array of tin cans and bells at the rear to unmistakably convey to all viewers the nature of the jolly party within.

Mr. and Mrs. Dennis will reside in this city until winter, when they will move to Washington, D. C., where Mr. Dennis' duties will keep him busy during the session of congress. Both young people are prominent and well known throughout the northern section of the state. Miss Bonney for several years was employed in Congressman Steenerson's office as stenographer and it was while thus engaged that she met her present husband.

A TERRIBLE TRAGEDY AVERTED

Narrow Escape of a Man Who Read Name of Magazine In Time.

A Portland man picked up a magazine recently without reading the name of it, says the Portland Oregonian, and began to peruse an article headed "Little Things To Watch," is what he read:

"Keep your tank full.
"Scour those platinum points.
"Keep your wiring in condition.
"Mind your speed; the constable will get you if you don't watch out.
"Keep your tank full.
"Clean your engine often.
"Start her easy.
"Don't run around corners like the mill tail of tophet.
"Grease is not made for radiators.
"Keep your tank full.
"Loose battery connections are bad.
"Keep your points bright and 1-32 of an inch apart.
"Don't carry your spark plug in your pocket.
"Keep your tank full.
"Learn to time your valves.
"Keep your tank full.
"Retard the ignition before your crank.
"Keep your tank full.
"But don't fill your tank by lamplight.
"Carry some coarse linen and litharge and glycerine paste to mend leaky joints.
"Number your wires and terminals if you don't want the crowd to guy you.
"Keep your tank full."

By the time the reader got down to this sixth reiteration to keep his tank full he was convinced that he was not perusing a Prohibition party organ. In fact, he began to fear that he was headed for the Keeley cure house—or the bughouse. What was his spark plug? How could he "time his valves?" Why was it more perilous to "fill his tank by lamplight" than by gaslight or moolight? Was his "wiring" out of condition? Had his nose become a "radiator," and did it look greasy? He had not taken a drink for three days, and yet he fancied that he saw rats scudding across the floor. How could he escape being got by the constable if he kept his tank full six times a day? Another big blue rat ran out from under his chair—and then he read the name of the magazine. It was the May number of the Auto Advocate and Country Roads, and the list of admonitions was signed "Old Chauffeur."

LARGEST STEAMERS ON THE GREAT LAKES

The Augustus B. Wolvin and the E. H. Gary Lead—Day of the 600-Footer Approaching.

The matter of where the increase in the size of freight steamers for the Great Lakes will reach its limit has been often discussed and various sizes have been fixed upon by men who thought they knew, but each time the guess has been shown to be entirely wrong. People are still guessing, and some have now placed the limit of size at 600 feet for great lakes' service. There does not seem to be much doubt that 600 feet will be reached, and not at a very far distant time.

In the old days, so to speak, many people thought that the limit had been reached when steamers of 350 feet in length and thereabouts were put on the lakes. Then in 1896 came the steamer W. D. Rees, whose keel length was 396 feet and whose length over all was over 400 feet.

"That's the limit," was the general comment. "If they build them any longer than that they will break in two." Others said it would be impossible to bring larger vessels than that through the Sault river. Still the size of vessels grew despite the pessimism heard.

The Rees was outclassed when the Maricopa came out the same year, and whose keel measured 406 feet. The Maricopa in turn took a back seat when the Alexander McDougall, her keel measurement being 413 feet, came out in 1898, and then, in 1899, the Douglas Houghton caused further comment. Her keel measured 456, and, of course, her measurement over all came dangerously near the 500-foot point, that to which it was claimed the vessel men would not dare build.

But the 500-footer came, and came in a bunch in 1900, when the Pittsburg Steamship company brought out the James J. Hill, the John W. Gates, the Isaac L. Ellwood, and the William Edenborn, each measuring on the keel 478 feet, and over all slightly more than 500 feet. These were the first 500-foot steamers, and were known as the "big four." Since that time the 500-footers have become common.

Last year the Augustus B. Wolvin was put into the trade, and was for the season the largest vessel on the lakes. Her measurement over all is 560 feet, and her gross tonnage is 6,555.

This year she has a superior in length. The E. H. Gary, just launched this spring measures 569 feet, which is a few feet more than the Wolvin. Her gross tonnage, however, is not as much as that of the Wolvin, being only 6,331.

It is understood that one of the steamship companies is figuring on a vessel to be built during the coming winter that will measure 589 feet. That, however, is only rumor, as it cannot be confirmed as yet. It is quite freely predicted, however, that the 600-foot boat is not more than two years away and may come before that.

FIND THAT THE PEOPLE ARE EASY

They Will Bite At Almost Any Bait Thrown Out By Sharpers.

The Riggs House has been the home of many postoffice inspectors for the past few days, called here by the Machen trial, and a more intelligent looking lot of men would be hard to find says the Washington Post. In the evenings they compare notes and talk of their experiences with the element of society which tries to get something for nothing through the agency of the mails.

"It's queer how easily the public bites at the bait these sharpers throw out," said a veteran inspector whose home is in the Far West. "The explanation, of course, lies in the cupidity of mankind. An appeal to greed, if plausibly announced, rarely fails to land victims. No matter how old the scheme is, nor how often it has been exposed in the newspapers, it will still succeed in separating fools and their cash. But, of course, the fertile minds of the crooks have to get up something new in order to get larger revenues.

"One of the comparatively recent tricks and one of the hardest to frustrate is the plan of selling stock in mythical rubber and coffee plantations that are generally located in Mexico. This applies to mines, but not so numerously.

"Now, here is where the shrewdness of the fakers comes in. By making Mexico the scene of their operations they can ward off exposure much longer. It is a long and expensive journey down there, and even after an inspector gets on the ground he may have numerous difficulties put in his way before he can uncover the rascality. For a while, moreover, the innocent dupes are getting dividends, which they imagine are coming out of the sales of the products of the alleged rubber or coffee plantations. This is to lure other victims and is part of the game. A little of the capital of the victim is returned in order to get more.

"The matrimonial fraud, too, hoary with age, is still being operated to the financial loss of many credulous citizens of both sexes. An Omaha rascal employed it very effectively, and fleeced unsophisticated men who were willing to take his niece, a 'beautiful, but unfortunate girl' with a big inheritance, the fleecing amounted to not less than $50 per victim. This swindler's work was artistic in the extreme, as was that of a woman, who styled herself 'Mrs. Collins,' who had men in every part of the Union sending her money to pay traveling expenses for herself and ward to St. Louis, not that there was any lack of funds on her part, but to show good faith in those who bit at the scheme. Both Omaha man and 'Mrs. Collins' were caught and both went over the road.

"The smaller cities, even those of the size of Washington, offer but little opportunity for this species of grafter. It requires a big town like New York or Chicago, for the crook, after suspicion is aroused and the law gets on his trail, must bury himself for a while, and he can't do this successfully, except in densely populated centers. New York, indeed, is the paradise for the mail-employing fraternity which lives on the gullibility of their fellows."

WAS A COLLECTOR.

The postoffice inspectors are considering the case of a young woman out in Nebraska, who has been making a specialty of collecting engagement rings, says the Kansas City Journal. She has corresponded with hundreds of men, through matrimonial bureaus and other agencies, becoming engaged to them liberally. She has remarkable success in bringing the case up to ring stage, but stops there.

COLORED INK

SOCIETY

The gaieties which are supposed to be typical of the summer social season have not yet appeared and the optimists are saying, "Wait till the school folks get home," and the pessimist drawls "There won't be any," which is more than annoying to lots of people. Many hold that the summer season will resolve itself almost entirely into informal affairs at the Country club, and aside from this there will be little formal entertaining. The members and their out-of-town guests will entertain at luncheons and dinners at the club and the dancing parties and teas and receptions will, in a great measure, be a thing of the past. The young people who attend school in the East have not yet come home and many will wait in hopes that when they do they will upset all previously well laid plans. They will probably for two months plan innumerable affairs that will make the summer for a time at least as formally gay as ever before.

• • •

Mrs. G. A. Elder was hostess Thursday at a delightful afternoon, when she entertained the East End Bridge club of this city and the West Superior Bridge club at her home on East Third street. The honors of the afternoon went to the Superior club and the affair was one of the most charming of the week.

• • •

Mr. and Mrs. W. J. Suffel entertained at dinner last evening at their home, 1531 East Superior street in honor of Mrs. M. P. Howard, who is spending the summer with her daughter, Mrs. Frank W. DeVey. Covers were laid for twelve.

• • •

Mrs. W. H. Squier was the guest of honor at a charming little luncheon at which Mrs. George H. Crosby was hostess. The table was attractive in decorations of dahlias and narcissus and covers were laid for the following guests:
Mesdames—
W H. Stultz, C. H. Bagley,
John G. Williams, E. A. Forsyth,
W. G. Hegardt, A. M. Chisholm.

• • •

Mrs. William Graham of Canandaigua, N. Y., is spending the summer with her sisters, Mrs. Towne and Miss Eddy of 919 East First street.

• • •

The engagement of Miss Ethel Dresser, daughter of Mr. and Mrs. H. L. Dresser and Harry J. Deutschbein of Albany, N. Y., was announced Thursday at a most charming reception at which the bride's mother was hostess at the Dresser home at 16 South Nineteenth avenue east. The rooms were beautifully decorated in flowers and palms, a most attractive scheme of decoration being followed. Receiving with Mrs. Dresser and Miss Dresser were Mrs. Joel Dresser, Mrs. E. H. Barrett and Mrs. George H. Ebert. Assisting about the parlors were Mrs. Albert Bechelle, Mrs. M. W. Turner and Mrs. Julia Bochner. In the dining room Miss Isabel Meeds and Miss Anne Christianson presided and were assisted by Dolly Hibbing, Virginia Bean, Marian Williamson and Fanny Turner. During the receiving hours, from 3 to 6 o'clock, a large number of guests called.

• • •

The dancing party last evening at which the Masons were hosts was one of the delightful events of the week. The charm of the newness of the dancing hall of the new temple has not yet worn off and the affair was greatly enjoyed. A delightful dancing program was played and a large number were present.

The reception committee was Messrs. and Mesdames Harry Nesbitt, Lyonel Ayers, W. E. Covey, J. E. Cooley, George N. LaVaque, G. A. Eaton, W. H. Hoyt, S. O. Sterett, W. A. McGonagle, W. B. Patton, M. J. Forbes and Dr. and Mrs. S. R. Holden. The members of the lodge who served on the floor committee were Messrs. T. W. Hugo, W. E. Richardson, J. M. Smith, Charles Goodrich, G. L. Douglas, Jr., J. P. Johnson, John Panton, C. F. How, Jr., Isaac Black, W. C. Sargent, M. M. Gasser, A. D. McRae, J. J. C. Davis, J. F. McLaren, H. C. Dash, M. B. Cullum and John T. Black.

• • •

An amusing and entertaining social session was held by the young people's society of the First Presbyterian church last evening for the members and their friends, the attendance being about forty. The society gives one entertainment a month from September to June in order to get the members and those who may attend better acquainted and, thus far, the socials have been a great success.

The entertainment last evening was in the way of a "Hard Luck Sociable," and the participants were dressed in appropriate costumes, the effect of which was very amusing. Some of the costumes were most original in conception and bespoke heart-breaking hard luck conditions.

From 8 to 9 o'clock a reception was given, the conversation being interspersed with singing and instrumental music.

Following the reception came the costuming and the fun. Sides were chosen for a game of football with five young ladies and two young men on each side. The "football" was a small rubber ball and one of the rules was that the ball had to be kicked and could not be picked up. The players were appropriately uniformed.

The football game was followed by a lively game of fox and geese in which all participated. The young ladies belonging to the society then sold at auction, to the young gentlemen, aprons of their own manufacture, the ladies wearing a nectie of the same material as the aprons. The lucky purchaser of an apron sought out the nectie to match and the young couple paired off for refreshments.

During the evening several flashlight pictures were taken of the company in their hard luck costumes.

The regular program of the evening consisted of musical numbers by Miss Ella Mason and Mr. McCargo and readings by Miss Agnes Johnson and Miss Lou Staples.

The entertainment was brought to a close at 11 o'clock after a lively game of "musical chair."

The affair was agreed to be a great success by those participating and the committee on arrangements, Miss Esther Anderson, chairman, was complimented very much on its efforts.

• • •

The Women's Relief corps will hold their annual picnic next Wednesday. The members and their friends will go to Fond du Lac to spend the day.

• • •

Miss Edith Bostwick, Miss Miller of Cumberland, Wis., Miss Nellie Brown and Miss Alice Conklin left yesterday for a lake trip.

• • •

Mrs. A. Moore of 226 Fourth avenue West will leave tomorrow on the Huronic for Detroit, Mich., where she will make her home.

• • •

Miss Elsie Prudden of 16 West Third street, has as her guest, Miss Grace Beckler of Chicago.

• • •

Miss Katrina Richardson, Miss Irma Hartley and the Misses Marjorie and Helen Congdon have returned from school at Dana Hall at Wellesley, Mass. Miss Rebecca Bailey has returned from Burnham preparatory school at Northampton, Mass. William White, Adam Thomson and Cavour Hartley also returned yesterday from Hill school at Parkstown, Pa., and Paul Hale returned Thursday from Princeton. He left yesterday for his father's summer home at Deerwood.

• • •

The wedding of Miss Alice Bartlett, daughter of Mr. and Mrs. B. C. Bartlett, and Douglas C. Moore will take place next Wednesday at the home of the bride's parents, of 503 West First street.

• • •

The graduation exercises of the Sacred Heart Institute took place Tuesday evening at the institute. A large number of friends of the pupils were present for the exercises. Five young women formed the graduating class and an interesting program was presented. Bishop McGolerick delivered the address of the evening and a four act drama, "Pontia, the Daughter of Pilate," was well presented by the pupils. The medals for achievment in different branches during the year were distributed and the diplomas presented the five graduates.

• • •

One of the most interesting events of the week was the wedding of Mrs. Cora Hubbell McDougall and William L. Johnson which took place Wednesday at the home of the bride's parents, Mr. and Mrs. A. C. Hubbell of 1105 East First street. The wedding was a quiet one, only the immediate friends being present. The house was beautifully decorated, red roses being used in the parlors. The dining room was most attractive in white peonies and ferns. The services was read at 1 o'clock by Rev. Harry White, the Episcopal marriage service being used. The bride wore her traveling gown of blue broadcloth and was unattended. Mr. Johnson's best man was Charles Allen of St. Paul.

Following the ceremony a wedding luncheon was served for which covers were laid for nineteen.

Mr. and Mrs. Johnson left during the afternoon for a wedding trip and will go to Minneapolis where they will be at home.

• • •

Several small but very charming affairs were given during the week in honor of Mrs. G. D. Swift's sister, Mrs. Greenwood of Colorado Springs, who is her guest. Monday evening Mr. and Mrs. Swift entertained at dinner at the Town and Country club in her honor. They had six guests. Tuesday evening a launch ride and dinner at the Gitchinadji club in Superior was the delightful program for a small number of guests and last evening Mr. and Mrs. George L. Chesebrough were hosts at dinner in honor of Mrs. Greenwood.

• • •

The Young Ladies' Card club was entertained Monday afternoon by Miss White at her home 1421 East Superior street. The favors for the afternoon were won by Miss Edith Davidson and Mrs. Cora Hubbell McDougall. Those present were:
Mesdames—
J. B. Cotton, George Mance,
D. H. Costello, D. W. Stocking,
C. F. McDonald, Rufus Draper,
P. M. Shaw, F. R. Leslie,
Cora Hubbell-McDougall, William White.
Misses—
Davidson, Florence Brewer,
Martha Peyton, Maud White.
Dickinson,

• • •

Mrs. W. G. Peck of Winter Park, Florida, is the guest of her daughter, Mrs. E. W. Matter of 2105 East First street.

• • •

Mrs. C. F. MacDonald of 225 Fifteenth avenue East, returned the first of the week from a visit at Deerwood.

• • •

Mrs. E. P. Towne is visiting her sister, Mrs. C. A. Weyerhauser, of Little Falls.

• • •

Mrs. A. M. Miller and Miss Berenice Crowley sailed from France Wednesday of this week. They will visit for a short time at New York before returning to this city.

• • •

Mrs. J. D. Ensign and Miss Katherine Ensign left during the week for a lake trip.

• • •

Miss Mary Dunwoody of Minneapolis is the guest of Miss Ethel Farmer of 316 East Third street.

• • •

Miss Frances Swift will return next week from Smith college. She will have as her guest during the summer, Miss Jeanette Wright of New York.

• • •

Mrs. F. C. Bowman will leave tomorrow for Ann Arbor to attend the commencement exercises at the university. Miss Bessie Bowman is among this year's graduates.

• • •

Miss Addie Smith returned during the week from the Iowa State university.

• • •

The Misses Pauly of Port Arthur are the guests of Mrs. James C. Hunter of Hunter's Park.

• • •

Mrs. H. A. Florada left Wednesday of this week for a visit with friends at Philadelphia.

• • •

Miss Esther Adams has returned from Burnham, where she was one of this year's graduates.

• • •

The last meeting of the year of the Greysolon duLhut chapter, D. A. R., which was held Wednesday at the home of Mrs. W. A. McGonagle, was one of the most delightful affairs of the week. The day was flag day and American flags were used extensively in the decorations in the house and about the lawn. The red, white and blue appeared on the tables for the picnic dinner, which was served on the lawn at noon. Covers were laid for twenty-eight.

• • •

Mr. and Mrs. A. H. Smith of Lakeside spent part of the week at Minneapolis.

• • •

Mrs. Nettie L. Geist and Miss Geist have returned to Duluth from a two years' visit in Germany. They are with Mr. and Mrs. C. J. O'Donnell of 1122 East Superior street.

• • •

Mrs. Wilson G. Crosby returned the first of the week from a visit at Lake Minnetonka.

• • •

Mrs. S. R. Holden returned the first of the week from a visit at St. Paul.

• • •

Mrs. A. W. Dutton returned during the week from a several months' visit in California. She will be with Mrs. J. W. Norton of 1124 East First street.

• • •

The wedding of Miss Gertrude Miller and James Scott, both of Grand Marais, took place at the home of the bride's sister, Mrs. G. N. Stevenson of 202 East Second street. The rooms were beautifully decorated with flowers and palms. In the parlor white roses and ferns were used and because of flag day numerous American flags were used throughout the rooms. In the hall red roses were used and lilacs were the flowers used in an effective scheme of decoration in the dining room. Satin ribbons in the lilac shade were extended from the chandelier to the the edge of the table and a basket of the fragrant flowers formed the centerpiece. The wedding service was read at noon by Rev. T. H. Cleland of the First Presbyterian church. The bride had as her maid of honor Miss Annie Scott of Grand Marais and the best man was Charles Miller of Grand Marais. In the afternoon Mr. and Mrs. Scott left for St. Paul and will later go to Winnipeg, where they will be at home.

• • •

Mr. and Mrs. Frank Spurbeck of East Fourth street left during the week for a lake trip and a visit in the East.

• • •

Miss Ruth Roberts is visiting at Knightsville, Ind., until the first of July.

• • •

Mr. and Mrs. Howard G. Emerson returned during the week from a visit at St. Paul.

• • •

Miss Josephine Sattler of Fifth avenue west is visiting Miss Podlasy at White Bear Lake.

• • •

During the week the engagement of Miss Pauline Peters of Elkhart, Wis., and Francis J. Elschen of this city was announced. The wedding will take place at the bride's home at Elkhart, Thursday, June 22.

• • •

Miss Violet Conroy entertained at a most pleasant birthday party Tuesday afternoon at her home, 2710 West Second street. The affair was in honor of the hostess' little sister, Kate. The afternoon was a delightful one. The guests were:
Misses—
Hazel Moir, Alice McCabe,
Mabel Dahl, Amelia Konescky,
Myrtle Smisich, Theresa Konescky,
Laura Conroy, Master Earl Moir.
Mary McCabe,

• • •

Dr. and Mrs. W. A. McClaran of West Third street have as their guest, Harry Kemper, Jr., Minneapolis.

• • •

Miss Emma Kottka, formerly of this city, now of South Dakota, is visiting friends in this city.

• • •

Mr. and Mrs. C. A. Applehagen of West Duluth left the first of the week for a lake trip and an Eastern visit.

• • •

Miss Gertrude Seery left the first of the week for St. Paul.

• • •

Mrs. F. Hegland left Thursday for a visit at Lake Park, Minn.

• • •

Miss Innes of Isle Royale visited her sister in this city for a few days this week.

• • •

Mr. and Mrs. H. M. McCord of La Crosse are visiting friends in the city.

• • •

Mr. and Mrs. G. W. Orchard left the first of the week for a short visit at Minneapolis.

• • •

• • •

Mrs. Jacob Lauermann of Wadena, Minn., is the guest of friends at West Duluth.

• • •

Last Saturday evening Mrs. Frank Noble entertained at a pleasant surprise party in honor of her husband at their home on Duluth Heights. The rooms were prettily decorated in flowers and cinch was played. The favors were won by Mrs. F. E. Adams and Mrs. William Donaldson and the men's prizes went to Hugh Fawcett and Walter Boutin. Those present were:
Messrs. and Mesdames—
Walter Boutin, F. E. Adams,
Mrs. William Donaldson.
John Hogan, Hugh Fawcett.
Misses—
Amelia Hogan, Myrtle Noble.
Noble,
Messrs.
Otto Hogan, Leroy Coons.

• • •

Mrs. E. J. Purcell was hostess for the Jolly Ten of Duluth Heights, Wednesday afternoon of this week. A guessing contest was the amusement of the afternoon as usual, and the prizes were won by Mrs. Samuel Mahan and Mrs. Edward Perrott. Those present were:
Mesdames—
Samuel Mayan, William Butler,
T. E. Johnson, William Donaldson,
William Pennell, Max Clemans, Paully.
Edward Perrott,

• • •

Miss Elizabeth Day of the West end has returned from Pine City to spend the summer in this city.

• • •

The wedding of Miss Hulda Tiberg and David Hamilton took place Tuesday evening at the home of the bride's parents at West Duluth. The wedding was a quiet home affair and the service was read by Rev. F. G. Clark of Asbury Methodist church. Mr. and Mrs. Hamilton will be at home in West Duluth.

• • •

The marriage of Miss Myrtle Scott, daughter of Mr. and Mrs. W. W. Scott, and A. W. Lindgren, took place Monday evening at Asbury Methodist church, at West Duluth. The bride's maid of honor was Miss Lottie Robinson and the best man was Mr. Gibson. The church was prettily decorated and a large number of friends were present for the ceremony. Rev. F. G. Clark, pastor of the church, read the service. An informal reception followed the ceremony at the home of the bride's parents, and Mr. and Mrs. Lindgren will be at home in West Duluth.

• • •

Miss Anna Aronson, who was the guest of her mother, Mrs. Aronson of the West end, returned during the week to Grand Marais.

• • •

Mrs. F. B. Patterson and son of Minong, Wis., are visiting Mrs. A. O. Anderson of 313 Twenty-first avenue west.

• • •

Mrs. William H. McEwen entertained at a delightful afternoon yesterday in honor of Miss Sadie Jenkins, who will be one of next week's brides. One of the pleasant features was a bundle shower for the guest of honor. The guests were:
Mesdames—
F. E. Adams, James Wood,
Frederick Lombard, John Wilson,
William Tolman,
John Tonlin, John Jenkins,
Milton Stubbs, McLean.
Max Clemans,

• • •

The wedding of Miss Frances Claretta Parish and Hugo Swenson took place Wednesday evening at Svea hall, at the West end. The hall was prettily decorated for the ceremony, and La Brosse played the wedding music. The bride was attended by Miss Mary Peterson, and two small boys as pages, Masters Arthur Ekberg and Angus Peterson. The groom's attendant was Antone Peterson. The wedding ceremony was performed by Rev. A. F. Elmquist. A large number of guests were present for the ceremony. Mr. and Mrs. Swenson will be at home at 1801 West First street.

• • •

Mr. and Mrs. Christ Kohn and Miss Kohn of Calumet, Mich., are the guests of Mrs. A. O. Smith of 2513 West First street.

• • •

Mrs. D. Moore of 7 South Fifth avenue east entertained at dinner Wednesday in honor of Perrin Somers, who left Thursday evening to rejoin the Haverly Minstrels at Chicago, after spending his vacation with his parents, Mr. and Mrs. P. G. Somers of 17 Second avenue east. Mrs. T. P. Getz of Lakeside entertained at dinner, Tuesday evening, in honor of Mr. Somers.

• • •

Thursday evening the wedding of Miss Clara C. Johnson, daughter of Peter Johnson of West Duluth, and George A. Bell of Hibbing, took place at the bride's home, 904 Seventy-first avenue west. The bridesmaid was Miss Celia Gohon and the best man was Peter Marshall. The wedding service was read by Rev. J. W. Robinson of Grace Methodist church. The bride and her maid wore dainty gowns of white, and carried roses and carnations. A reception followed the ceremony, and in the evening Mr. and Mrs. Bell left for a wedding trip to Albuquerque, N. M., and will later go to Hibbing, where they will be at home.

Testimonial Concert

Tendered to

GERARD TONNING

Wednesday Evening, June 21st at

STEINWAY HALL

Tickets at Chamberlain & Taylor's and Lundberg & Stone's.

CLUBS AND MUSICAL

The testimonial concert to Gerard Tonning which will be tendered him before his departure for the West, will be given next Wednesday evening at Steinway hall. Most of the prominent musicians of the city will take part in this testimonial to the pioneer musician of the city. Mr. Tonning has been perhaps more prominently identified with the development of musical Duluth than any other one person. He has lived in the city continuously for seventeen years and he will be greatly missed from musical circles. He was instrumental in the formation of a choral society in the city some years ago which successfully presented the "Creation" by Hayden. The Mozart society was another choral organization in which he was deeply interested and two concerts were successfully given by this society. The Philharmonic club, an orchestra of amateur musicians, flourished for four years with Mr. Tonning prominent in the work. He is known more recently for the splendid concerts of the Beethoven club, of which he was founder. The concerts by this club have been among the most artistic musical events given by local musicians during the last five years. Mr. Tonning is also known through his own compositions, having presented two concerts of his own compositions entirely, being probably the only composer in the state who has achieved success in the different forms to be enabled to present a complete program. The program which has been arranged by George L. Tyler for next Wednesday evening is a most attractive one. It is as follows:
(a) Elgar—Morceau Mignon.
(b) Widor—Serenade.
Beethoven Club.
Fred G. Bradbury, Mrs. Marie Geist-Erd, Gerard Tonning.
Masseuet—"Oh Caste Flor," aria for tenor from "King of Lahore."
George L. Tyler.
Tonning—"And the Minstrel Sang," ballad for piano.
Gerard Tonning.
Meyerbeer—Aria of the Page from "The Huguenots"
Miss Grayce Frances Turner.
Verdi—Quartet from "Rigoletto"
Mrs. James McAuliffe, Mrs. C. B. Gilbert, Philip Gordon Brown, George L. Tyler.
Gounod—"Message d'Amour." Valse—Ariette.
Emily Ellis Woodward.
Tonning—From Suite for Violin and Piano—"In Venice."
(a) Gondoliera.
(b) In the Old Palace (Minuetto.)
Charles Dexter Ostergren.
Schumann—"Two Grenadiers"
Philip Gordon Brown.
Rossini—Aria from Barber of Seville—"Una Voce Poco Fa"
Mrs. James McAuliffe.
Grieg—Norwegian Dance No. 1
Beethoven Club.
Donizetti—Duet from La Favorita.
Emily Ellis Woodward.
Philip Gordon Brown.

• • •

The pupils of Mrs. D. H. Day, assisted by John Milton, dramatic reader, will give a musicale at Steinway hall Friday evening of next week, June 23. The program is as follows:

(b) Serenade .....
First piano—Bessie R. Heney.
Second piano—Julia Morrow.
Waltz, op. 70, No 1..... Chopin
Marie d'Autremont.
"Rigaudon" ..... Grieg
Alyda Flaaten.
Tarantelle ..... Nollet
Bertha Pearce.
Gypsy Rondo ..... Haydn
Natalie Smith.
(a) "Album Leaf" ..... Barford
(b) Scherzino ..... Grieg
Bessie R. Heney.
Overture to Semiramide (eight hands) ..... Rossini
Mae Teske, Sophie Kassmir,
Bessie Heney, Marian Berry.
Valse impromptu ..... VonWilm
Marian Berry.

HOW TO MAKE OLD FURNITURE NEW

TAKE A BOTTLE OF

LIQUID VENEER

and a piece of cheese cloth. Moisten the cloth and rub the worst-looking piece of furniture you have. The result will be that the surface glistens like new, the Veneer removing all scratches, stains, dirt, dullness, and leaving a bright, shining finish. You need no brush or can and there is no drying to wait for. Anyone can do the work. Liquid Veneer will benefit even the most beautiful furniture, and is fine for woodwork, including natural wood and all colors of paint. Large bottle, enough to renovate the ordinary home, 50 cents, at all progressive grocers, druggists and furniture dealers.

A free sample bottle for your dealer's name and address.

Buffalo Specialty Manufacturing Co.,

Dept. T, Buffalo, N. Y.

THE AFTERMATH

By Evelyn Singer.

(Copyright, 1905, by Daily Story Pub. Co.)

"So we meet again after all these years."

"Yes, after all these years which have changed both of us."

There was an awkward pause which lasted into the minutes. Both endeavored to speak about the commonplaces of life, but the words would not find utterance. They heard the tuneful frogs in the pond close by, they saw the robin and the bulebird flit past, they felt the warm kiss of the sun on their faces, they knew that all nature was rejoicing. With a mighty effort she broke the awkward stillness.

"I've often wondered if you blamed me for—for—for what happened."

"Blamed you? No. I often wondered if you blamed me for going away and leaving you to fight the battle alone; but, 'pon honor, Susie, I never thought it would end as it did. I thought your father would be contented if he could keep you from marrying me; it never entered my head that he would force you to marry a man old enough to be your father. I would never have gone one step if I'd thought he was going to force you into marriage with old—"

"Hush, Albert, you must not say anything unkind of Mr. Desmond."

"You loved him, then?" in a tone of quiet contempt.

"No, Bertie," dropping almost unconsciously into the old pet name, "how could I when I'd given all my love to you? But I grew reconciled, almost contented, how could I be otherwise when he was so kind to me?"

"He was kind to you, Susie?"

"Yes, and he loved me."

"If he loved you Susie, why did he not use his influence with your father for our good?"

"He did try. O, Bertie, on my bended knees I pleaded with him to tell father that he would not marry me, but he told me he had done his best. 'Your father,' he said, 'has caught Albert in one escapade, and nothing I can say has any influence. He tells me if I will not marry you, Mose Abner will do so, and as I love you, Susie, I will make a better husband than Abner with all his money, and I promise you, Susie, that as far as it lies in my power, I'll make your life a happy one. I know it is hard for you, little girl, but it is the best I can do. He kept his word, Albert, and never allowed father to say anything unkind of you in his presence."

"There never was any badness in my pranks, Susie, your father was just prejudiced against me; but I thought I could win him over with that fortune which I intended to make."

"I half believe that my father was afraid of that and therefore forced me to marry. I know, Bertie, there was no harm in your pranks."

They had seated themselves on a fallen tree in the wood, where as children they had gathered wild flowers and hunted wintergreen berries, where in later years they had wandered as lovers.

"Susie, when I heard of your marriage to Walter Desmond I was so angry, I felt there was no use to turn over a new leaf, and I resolved to be as bad as they had given me credit for being," her hand slipped over and nestled in his as he lay on the log. "Then you seemed to stand beside me. How well I remember it! 'Twas one of those clear nights when the moon is at its full, the whole scene was one of surpassing beauty. I sat beside the tent door and could hear the roar of the cascade in the distance; you seemed to stand beside me and your dear hand was on my arm, while your voice as clear and sweet and musical as the notes of the mocking bird, fell on my ear. 'Don't do that, Bertie! Don't do that or you will break my heart, for father will say, 'I told you so, see all the misery I've saved you from.'" It might have been a dream, Susie, but it saved me, and I've lived a clean and honest life."

"I am sure of that, Bertie."

"Well, Susie, sometime after you were married I went partners with a man out there, and we had great luck; he had his wife with him, a delicate, refined, little creature, pretty well gone in a decline. He brought her up there because he thought the mountain air would do her good, then too, he loved her so he could not bear to be separated from her. We all lived in the one shanty, and how his wife delighted to keep it clean and serve up tempting meals. One day there was an explosion, and David, my partner was badly injured; he knew he was not long for this world, and, Susie, what do you think! He wanted me to promise to marry his wife as soon as he was dead."

"What a strange notion, Albert! Why did he?"

"Well, he could see that the wild mountain life was doing her good; he feared that there was no way for her to remain there unless it was as my wife; then, too, he knew she could never think and act for herself, as she had always leaned on him. At first I refused, but he pleaded so, saying he could not die contented with her future unprovided for. The parson came in when he was pleading with me, and —well, Susie, his wife and I joined hands, and as soon as the doctor pronounced Davis dead, the parson made us man and wife. Did I do wrong?"

"No, Bertie; I'm glad you did it."

"Well, she died about the same time your husband died. I would not come home until your father died, for fear, Susie, that there might be murder. Now I'm here, what are you going to do with me?"

"Bertie, I'm forty now."

"Your hair is just as brown as it was then, your eyes just as blue, and my love just as strong. Is that the beech tree on whose smooth trunk I cut out names the day we plighted our troth?"

"The very same; the names can be read if we go closer."

They walked over to the tree and stood beneath its branches, calling to mind the day, so many years ago, when they had plighted their troth in the springtime of life, and there with the spring sunshine falling through the half-opened leaves, with the birds and squirrels as witnesses, they renewed their youthful vows.

TALKING MACHINE

"Those who have reviled the talking machine," said Henry M. Blackwell, an engineer, to the New York Sun, "would have been properly rebuked if they had witnessed a scene that attested its popularity with the heathen Chinee.

"Three years ago I was with a small company of surveyors, who were laying out the line of the railroad between Hankow and Canton, and one day found us at Chushachow, a small village. A talking machine happened to be a part of our equipment, as it had proved more efficient in placating the Celestials than a squad of soldiers.

"Though our party had taken a long jump into Chushachow, it became plainly evident that news travels from mouth to mouth as quickly as by telegraph, for a crowd of several hundred chattering Chinamen gathered outside of our quarters and awaited a concert. They didn't make any request; they simply waited for what they considered their rights.

"One of our military escort told us what his compatriots wanted, and when we unveiled the talking machine with great ceremony it received more reverence than an ancestor's tomb. But the machine kicked and refused to play. Whereupon we informed our self-invited guests, through the interpreter, that the entertainment was off.

"Muttering arose from the crowd and a spokesman addressed the interpreter, declaring that there had been unfair discrimination and that if their sovereign rights were withheld, they would 'get hunk.' When the little file of soldiers attempted to disperse them the uproar became deafening and the engineers rushed out to find an incipient Boxer outbreak.

"Several coolies made a hostile move toward the house, probably to take the machine apart and extract the foreign songs from it. The Chinese soldiers kept their heads, strange to say, and when the ebullition of Chinese curiosity began to evaporate, they dispersed the rioters and hauled off several to the lockup.

"No prima donna ever got the tribute paid to that weatherbeaten talking machine. We sat up half the night tinkering around the mechanism until it rasped off the records of 'coon' song and comic opera trifles.

"The next morning a larger crowd was present at the concert, and departed grateful, awestruck and satisfied. This musical event was unattended, however, by three of the riot leaders, they being detained in the calaboose, as the magistrate had sentenced them to be suspended by the wrists for forty-eight hours. Every innovation is bound to have its martyrs."

A SKIN OF BEAUTY IS A JOY FOREVER.

DR. T. FELIX GOURAUD'S ORIENTAL CREAM, OR MAGICAL BEAUTIFIER

Removes Tan, Pimples, Freckles, Moth Patches, Rash, and Skin diseases, and every blemish on beauty, and defies detection. It has stood the test of 56 years, and is so harmless we taste it to be sure it is properly made. Accept no counterfeit of similar name. Dr. L. A. Sayre said to a lady of the haut-ton (a patient): "As you ladies will use them, I recommend 'Gouraud's Cream' as the least harmful of all the skin preparations." For sale by all Druggists and Fancy Goods Dealers in the U. S., Canadas, and Europe.

DEFECTIVE PAGE

SOCIETY

The gaieties which are supposed to be typical of the summer social season have not yet appeared and the optimists are saying, "Wait till the school folks get home," and the pessimist drawls "There won't be any," which is more than annoying to lots of people. Many hold that the summer season will resolve itself almost entirely into informal affairs at the Country club, and aside from this there will be little formal entertaining. The members and their out-of-town guests will entertain at luncheons and dinners at the club and the dancing parties and teas and receptions will, in a great measure, be a thing of the past. The young people who attend school in the East have not yet come home and many will wait in hopes that when they do they will upset all previously well laid plans. They will probably for two months plan innumerable affairs that will make the summer for a time at least as formally gay as ever before.

• • •

Mrs. G. A. Elder was hostess Thursday at a delightful afternoon, when she entertained the East End Bridge club of this city and the West Superior Bridge club at her home on East Third street. The honors of the afternoon went to the Superior club and the affair was one of the most charming of the week.

• • •

Mr. and Mrs. W. J. Suffel entertained at dinner last evening at their home, 1531 East Superior street in honor of Mrs. M. P. Howard, who is spending the summer with her daughter, Mrs. Frank W. DeVey. Covers were laid for twelve.

• • •

Mrs. W. H. Squier was the guest of honor at a charming little luncheon at which Mrs. George H. Crosby was hostess. The table was attractive in decorations of dahlias and narcissus and covers were laid for the following guests:
Mesdames—
W. H. Stultz, C. H. Bagley,
John G. Williams, E. A. Forsyth,
W. G. Hegardt, A. M. Chisholm.

• • •

Mrs. William Graham of Canandaigua, N. Y., is spending the summer with her sisters, Mrs. Towne and Miss Eddy of 919 East First street.

• • •

The engagement of Miss Ethel Dresser, daughter of Mr. and Mrs. H. L. Dresser and Harry J. Deutschbein of Albany, N. Y., was announced Thursday at a most charming reception at which the bride's mother was hostess at the Dresser home at 16 South Nineteenth avenue east. The rooms were beautifully decorated in flowers and palms, a most attractive scheme of decoration being followed. Receiving with Mrs. Dresser and Miss Dresser were Mrs. Joel Dresser, Mrs. E. H. Barrett and Mrs. George H. Ebert. Assisting about the parlors were Mrs. Albert Boettelle, Mrs. M. W. Turner and Mrs. Julia Boehner. In the dining room Miss Isabel Meeds and Miss Anne Christianson presided and were assisted by Dolly Hibbing, Virginia Bean, Marian Williamson and Fanny Turner. During the receiving hours, from 3 to 6 o'clock, a large number of guests called.

• • •

The dancing party last evening at which the Masons were hosts was one of the delightful events of the week. The charm of the newness of the dancing hall of the new temple has not yet worn off and the affair was greatly enjoyed. A delightful dancing program was played and a large number were present.

The reception committee was Messrs. and Mesdames Harry Nesbitt, Lyonel Ayers, W. E. Covey, J. E. Cooley, George N. LaVaque, G. A. Eaton, W. H. Hoyt, S. O. Sterett, W. A. McGonagle, W. B. Patton, M. J. Forbes and Dr. and Mrs. S. R. Holden. The members of the lodge who served on the floor committee were Messrs. T. W. Hugo, W. E. Richardson, J. M. Smith, Charles Goodrich, G. L. Douglas, Jr., J. P. Johnson, John Panton, C. F. How, Jr., Isaac Black, W. C. Sargent, M. M. Gasser, A. D. McRae, J. J. C. Davis, J. F. McLaren, H. C. Dash, M. B. Cullum and John T. Black.

• • •

An amusing and entertaining social session was held by the young people's society of the First Presbyterian church last evening for the members and their friends, the attendance being about forty. The society gives one entertainment a month from September to June in order to get the members and those who may attend better acquainted and, thus far, the socials have been a great success.

The entertainment last evening was in the way of a "Hard Luck Sociable," and the participants were dressed in appropriate costumes, the effect of which was very amusing. Some of the costumes were most original in conception and bespoke heart-breaking hard luck conditions.

From 8 to 9 o'clock a reception was given, the conversation being interspersed with singing and instrumental music.

Following the reception came the costuming and the fun. Sides were chosen for a game of football with five young ladies and two young men on each side. The "football" was a small rubber ball and one of the rules was that the ball had to be kicked and could not be picked up. The players were appropriately uniformed.

The football game was followed by a lively game of fox and geese in which all participated. The young ladies belonging to the society then sold at auction, to the young gentlemen, aprons of their own manufacture, the ladies wearing a nectie of the same material as the aprons. The lucky purchaser of an apron sought out the nectie to match and the young couple paired off for refreshments.

During the evening several flashlight pictures were taken of the company in their hard luck costumes.

The regular program of the evening consisted of musical numbers by Miss Ella Mason and Mr. McCargo and readings by Miss Agnes Johnson and Miss Lou Staples.

The entertainment was brought to a close at 11 o'clock after a lively game of "musical chair."

The affair was agreed to be a great success by those participating and the committee on arrangements, Miss Esther Anderson, chairman, was complimented very much on its efforts.

• • •

The Women's Relief corps will hold their annual picnic next Wednesday. The members and their friends will go to Fond du Lac to spend the day.

• • •

Miss Edith Bostwick, Miss Miller of Cumberland, Wis., Miss Nellie Brown and Miss Alice Conklin left yesterday for a lake trip.

• • •

Mrs. A. Moore of 226 Fourth avenue West will leave tomorrow on the Huronic for Detroit, Mich., where she will make her home.

• • •

Miss Elsie Prudden of 16 West Third street, has as her guest, Miss Grace Beckler of Chicago.

• • •

Miss Katrina Richardson, Miss Irma Hartley and the Misses Marjorie and Helen Congdon have returned from school at Dana Hall at Wellesley, Mass. Miss Rebecca Bailey has returned from Burnham preparatory school at Northamphton, Mass. William White, Adam Thomson and Cavour Hartley also returned yesterday from Hill school at Parkstown, Pa., and Paul Hale returned Thursday from Princeton. He left yesterday for his father's summer home at Deerwood.

• • •

The wedding of Miss Alice Bartlett, daughter of Mr. and Mrs. B. C. Bartlett, and Douglas C. Moore will take place next Wednesday at the home of the bride's parents, of 503 West First street.

• • •

The graduation exercises of the Sacred Heart Institute took place Tuesday evening at the institute. A large number of friends of the pupils were present for the exercises. Five young women formed the graduating class and an interesting program was presented. Bishop McGolerick delivered the address of the evening and a four act drama, "Pontia, the Daughter of Pilate," was well presented by the pupils. The medals for achievment in different branches during the year were distributed and the diplomas presented the five graduates.

• • •

One of the most interesting events of the week was the wedding of Mrs. Cora Hubbell McDougall and William L. Johnson which took place Wednesday at the home of the bride's parents, Mr. and Mrs. A. C. Hubbell of 1105 East First street. The wedding was a quiet one, only the immediate friends being present. The house was beautifully decorated, red roses being used in the parlors. The dining room was most attractive in white peonies and ferns. The services was read at 1 o'clock by Rev. Harry White, the Episcopal marriage service being used. The bride wore her traveling gown of blue broadcloth and was unattended. Mr. Johnson's best man was Charles Allen of St. Paul.

Following the ceremony a wedding luncheon was served for which covers were laid for nineteen.

Mr. and Mrs. Johnson left during the afternoon for a wedding trip and will go to Minneapolis where they will be at home.

• • •

Several small but very charming affairs were given during the week in honor of Mrs. G. D. Swift's sister, Mrs. Greenwood of Colorado Springs, who is her guest. Monday evening Mr. and Mrs. Swift entertained at dinner at the Town and Country club in her honor. They had six guests. Tuesday evening a launch ride and dinner at the Gitchinadji club in Superior was the delightful program for a small number of guests and last evening Mr. and Mrs. George L. Chesebrough were hosts at dinner in honor of Mrs. Greenwood.

The Young Ladies' Card club was entertained Monday afternoon by Miss White at her home 1421 East Superior street. The favors for the afternoon were won by Miss Edith Davidson and Mrs. Cora Hubbell McDougall. Those present were:
Mesdames—
J. B. Cotton, George Mance,
D. H. Costello, D. W. Stocking,
C. F. McDonald, Rufus Draper,
P. M. Shaw, F. R. Leslie,
Cora Hubbell-McDougall, William White.
Misses—
Davidson, Florence Brewer,
Martina Peyton, Maud White.
Dickinson,

• • •

Mrs. W. G. Peck of Winter Park, Florida, is the guest of her daughter, Mrs. E. W. Matter of 2105 East First street.

• • •

Mrs. C. F. MacDonald of 225 Fifteenth avenue East, returned the first of the week from a visit at Deerwood.

• • •

Mrs. E. P. Towne is visiting her sister, Mrs. C. A. Weyerhauser, of Little Falls.

• • •

Mrs. A. M. Miller and Miss Berenice Crowley sailed from France Wednesday of this week. They will visit for a short time at New York before returning to this city.

• • •

Mrs. J. D. Ensign and Miss Katherine Ensign left during the week for a lake trip.

• • •

Miss Mary Dunwoody of Minneapolis is the guest of Miss Ethel Farmer of 316 East Third street.

• • •

Miss Frances Swift will return next week from Smith college. She will have as her guest during the summer, Miss Jeanette Wright of New York.

• • •

Mrs. F. C. Bowman will leave tomorrow for Ann Arbor to attend the commencement exercises at the university. Miss Bessie Bowman is among this year's graduates.

• • •

Miss Addie Smith returned during the week from the Iowa State university.

• • •

The Misses Pauly of Port Arthur are the guests of Mrs. James C. Hunter of Hunter's Park.

• • •

Mrs. H. A. Florada left Wednesday of this week for a visit with friends at Philadelphia.

• • •

Miss Esther Adams has returned from Burnham, where she was one of this year's graduates.

• • •

The last meeting of the year of the Greysolon duLhut chapter, D. A. R., which was held Wednesday at the home of Mrs. W. A. McGonagle, was one of the most delightful affairs of the week. The day was flag day and American flags were used extensively in the decorations in the house and about the lawn. The red, white and blue appeared on the tables for the picnic dinner, which was served on the lawn at noon. Covers were laid for twenty-eight.

• • •

Mr. and Mrs. A. H. Smith of Lakeside spent part of the week at Minneapolis.

• • •

Mrs. Nettie L. Geist and Miss Geist have returned to Duluth from a two years' visit in Germany. They are with Mr. and Mrs. C. E. O'Donnell of 1122 East Superior street.

• • •

Mrs. Wilson G. Crosby returned the first of the week from a visit at Lake Minnetonka.

• • •

Mrs. S. R. Holden returned the first of the week from a visit at St. Paul.

• • •

Mrs. A. W. Dutton returned during the week from a several months' visit in California. She will be with Mrs. J. W. Norton of 1124 East First street.

• • •

The wedding of Miss Gertrude Miller and James Scott, both of Grand Marais, took place at the home of the bride's sister, Mrs. G. N. Stevenson of 202 East Second street. The rooms were beautifully decorated with flowers and palms. In the parlor white roses and ferns were used and because of flag day numerous American flags were used throughout the rooms. In the hall red roses were used and lilacs were the flowers used in an effective scheme of decoration in the dining room. Satin ribbons in the lilac shade were extended from the chandelier to the edge of the table and a basket of the fragrant flowers formed the centerpiece. The wedding service was read at noon by Rev. T. H. Cleland of the First Presbyterian church. The bride had as her maid of honor Miss Annie Scott of Grand Marais and the best man was Charles Miller of Grand Marais. In the afternoon Mr. and Mrs. Scott left for St. Paul and will later go to Winnipeg, where they will be at home.

• • •

Mr. and Mrs. Frank Spurbeck of East Fourth street left during the week for a lake trip and a visit in the East.

• • •

Miss Ruth Roberts is visiting at Knightsville, Ind., until the first of July.

• • •

Mr. and Mrs. Howard G. Emerson returned during the week from a visit at St. Paul.

• • •

Miss Josephine Sattler of Fifth avenue west is visiting Miss Podlasy at White Bear Lake.

• • •

During the week the engagement of Miss Pauline Peters of Elkhart, Wis., and Francis J. Elschen of this city was announced. The wedding will take place at the bride's home at Elkhart, Thursday, June 22.

• • •

Miss Violet Conroy entertained at a most pleasant birthday party Tuesday afternoon at her home, 2710 West Second street. The affair was in honor of the hostess' little sister, Kate. The afternoon was a delightful one. The guests were:
Misses—
Hazel Moir, Alice McCabe,
Mabel Dahl, Amelia Konescky,
Myrtle Smisich, Theresa Konescky,
Laura Conroy, Master Earl Moir.
Mary McCabe,

• • •

Dr. and Mrs. W. A. McClaran of West Third street have as their guest, Harry Kemper, Jr., Minneapolis.

• • •

Miss Emma Kottka, formerly of this city, now of South Dakota, is visiting friends in this city.

• • •

Mr. and Mrs. C. A. Applehagen of West Duluth left the first of the week for a lake trip and an Eastern visit.

• • •

Miss Gertrude Seery left the first of the week for St. Paul.

• • •

Mrs. F. Hegland left Thursday for a visit at Lake Park, Minn.

• • •

Miss Innes of Isle Royale visited her sister in this city for a few days this week.

• • •

Mr. and Mrs. H. M. McCord of La Crosse are visiting friends in the city.

• • •

Mr. and Mrs. G. W. Orchard left the first of the week for a short visit at Minneapolis.

• • •

Mrs. Ribenack and daughter left during the week for a visit at Kilbourn City, Wis.

• • •

Mrs. George Whittlesey left the first of the week for Sidnaw, Mich., after a visit with her son here.

• • •

Mrs. Ben Wolter who was the guest of her father at West Duluth, returned the first of the week to her home, at Aberdeen, S. D.

• • •

Misses Eileen and Althea Butters who attended school at West Duluth during the year, returned Monday to their home at Thomson.

• • •

Mrs. T. J. O'Connor of Chicago is the guest of Mrs. M. Hayden of West Duluth.

• • •

Mrs. J. H. Darling of 532 East Third street, left Tuesday for an extended visit in Southern Michigan.

• • •

Dr. and Mrs. Coventry of the West end, returned the first of the week from a short visit at Deerwood.

• • •

Mrs. Peterson and Miss Peterson of Fergus Falls, are visiting friends at West Duluth.

• • •

Mrs. Jacob Lauermann of Wadena, Minn., is the guest of friends at West Duluth.

• • •

Last Saturday evening Mrs. Frank Noble entertained at a pleasant surprise party in honor of her husband at their home on Duluth Heights. The rooms were prettily decorated in flowers and cinch was played. The favors were won by Mrs. F. E. Adams and Mrs. William Donaldson and the men's prizes went to Hugh Fawcett and Walter Boutin. Those present were:
Messrs. and Mesdames—
Walter Boutin, F. E. Adams,
Mrs. William Donaldson.
John Hogan, Hugh Fawcett.
Misses—
Amelia Hogan, Myrtle Noble.
Noble,
Messrs.—
Otto Hogan, Leroy Coons.

• • •

Mrs. E. J. Purcell was hostess for the Jolly Ten of Duluth Heights, Wednesday afternoon of this week. A guessing contest was the amusement of the afternoon as usual, and the prizes were won by Mrs. Samuel Mahan and Mrs. Edward Perrott. Those present were:
Mesdames—
Samuel Mayan, William Butler,
T. E. Johnson, William Donaldson,
William Pennell, Max Clemans. Pauly.
Edward Perrott,

• • •

Miss Elizabeth Day of the West end has returned from Pine City to spend the summer in this city.

• • •

The wedding of Miss Hulda Tilberg and David Hamilton took place Tuesday evening at the home of the bride's parents at West Duluth. The wedding was a quiet home affair and the service was read by Rev. F. G. Clark of Asbury Methodist church. Mr. and Mrs. Hamilton will be at home in West Duluth.

• • •

The marriage of Miss Myrtle Scott, daughter of Mr. and Mrs. W. W. Scott, and A. W. Lindgren, took place Monday evening at Asbury Methodist church, at West Duluth. The bride's maid of honor was Miss Lottie Robinson and the best man was Mr. Gibson. The church was prettily decorated and a large number of friends were present for the ceremony. Rev. F. G. Clark, pastor of the church, read the service. An informal reception followed the ceremony at the home of the bride's parents, and Mr. and Mrs. Lindgren will be at home in West Duluth.

• • •

Miss Anna Aronson, who was the guest of her mother, Mrs. Aronson of the West end, returned during the week to Grand Marais.

• • •

Mrs. F. B. Patterson and son of Minong, Wis., are visiting Mrs. A. O. Anderson of 318 Twenty-first avenue west.

• • •

Mrs. William E. McEwen entertained at a delightful afternoon yesterday in honor of Miss Sadie Jenkins, who will be one of next week's brides. One of the pleasant features was a bundle shower for the guest of honor. The guests were:
Mesdames—
F. E. Adams, James Wood,
Frederick Lombard, John Wilson,
John Tonlin, William Tolman,
Milton Stubbs, John Jenkins,
Max Clemans, McLean.

• • •

The wedding of Miss Frances Claretta Parish and Hugo Swenson took place Wednesday evening at Svea hall, at the West end. The hall was prettily decorated for the ceremony, and La Brosse played the wedding music. The bride was attended by Miss Mary Peterson, and two small boys as pages, Masters Arthur Ekberg and Angus Peterson. The groom's attendant was Antone Peterson. The wedding ceremony was performed by Rev. A. F. Elmquist. A large number of guests were present for the ceremony. Mr. and Mrs. Swenson will be at home at 1801 West First street.

• • •

Mr. and Mrs. Christ Kohn and Miss Kohn of Calumet, Mich., are the guests of Mrs. A. O. Smith of 2513 West First street.

• • •

Mrs. D. Moore of 7 South Fifth avenue east entertained at dinner Wednesday in honor of Perrin Somers, who left Thursday evening to rejoin the Haverly Minstrels at Chicago, after spending his vacation with his parents, Mr. and Mrs. P. G. Somers of 17 Second avenue east. Mrs. T. P. Getz of Lakeside entertained at dinner, Tuesday evening, in honor of Mr. Somers.

• • •

Thursday evening the wedding of Miss Clara C. Johnson, daughter of Peter Johnson of West Duluth, and George A. Bell of Hibbing, took place at the bride's home, 904 Seventy-first avenue west. The bridesmaid was Miss Celia Gohon and the best man was Peter Marshall. The wedding service was read by Rev. J. W. Robinson of Grace Methodist church. The bride and her maid wore dainty gowns of white, and carried roses and carnations. A reception followed the ceremony, and in the evening Mr. and Mrs. Bell left for a wedding trip to Albuquerque, N. M., and will later go to Hibbing, where they will be at home.

Testimonial Concert

Tendered to

GERARD TONNING

Wednesday Evening, June 21st at

STEINWAY HALL

Tickets at Chamberlain & Taylor's and Lundberg & Stone's.

CLUBS AND MUSICAL

The testimonial concert to Gerard Tonning which will be tendered him before his departure for the West, will be given next Wednesday evening at Steinway hall. Most of the prominent musicians of the city will take part in this testimonial to the pioneer musician of the city. Mr. Tonning has been perhaps more prominently identified with the development of musical Duluth than any other one person. He has lived in the city continuously for seventeen years and he will be greatly missed from musical circles. He was instrumental in the formation of a choral society in the city some years ago which successfully presented the "Creation," by Hayden. The Mozart society was another choral organization in which he was deeply interested and two concerts were successfully given by this society. The Philharmonic club, an orchestra of amateur musicians, flourished for four years with Mr. Tonning prominent in the work. He is known more recently for the splendid concerts of the Beethoven club, of which he was founder. The concerts by this club have been among the most artistic musical events given by local musicians during the last five years. Mr. Tonning is also known through his own compositions, having presented two concerts of his own compositions entirely, being probably the only composer in the state who has achieved success in the different forms to be enabled to present a complete program. The program which has been arranged by George L. Tyler for next Wednesday evening is a most attractive one. It is as follows:
(a) Elgar—Morceau Mignon.
(b) Wldor—Serenade.
Beethoven Club.
Fred G. Bradbury, Mrs. Marie Geist-Erd, Gerard Tonning.
Masseuet—"Oh Caste Flor," aria for tenor from "King of Lahore."
George L. Tyler.
Tonning—"And the Minstrel Sang," ballad for piano.
Gerard Tonning.
Meyerbeer—Aria of the Page from "The Huguenots"
Miss Grayce Frances Turner.
Verdi—Quartet from "Rigoletto"
Mrs. James McAuliffe, Mrs. C. B. Gilbert, Philip Gordon Brown, George L. Tyler.
Gounod—"Message d'Amour." Valse—Ariette.
Emily Ellis Woodward.
Tonning—From Suite for Violin and Piano—"In Venice."
(a) Gondoltera.
(b) In the Old Palace (Minuetto.)
Charles Dexter Ostergren.
Schumann—"Two Grenadiers"
Philip Gordon Brown.
Rossini—Aria from Barber of Seville—"Una Voce Poco Fa"
Mrs. James McAuliffe.
Grieg—Norwegian Dance No. 1
Beethoven Club.
Donizetti—Duet from La Favorita.
Emily Ellis Woodward.
Philip Gordon Brown.

• • •

The pupils of Mrs. D. H. Day, assisted by John Milton, dramatic reader, will give a musicale at Steinway hall Friday evening of next week, June 23. The program is as follows:
"The Swallow's Message" .....Sartario
Annie Oreckovsky.
(a) First waltz ..... Biedermann
Russell Duncan.
(b) Barcarolle ..... Low
Virginia and Marjorie May Harrison.
(a) Polonaise ..... Lange
Lillian Westgaard.
(b) Sonatina ..... Spindler
Esther Gomberg.
Valse Impromptu (eight hands) .... Raff
May Jeffrey, Maud Hepworth,
Margaret Panton, Natalie Smith.
"Chimes in the Wood" ..... Hummel
Edith Fitzsimmons.
"Polish Chivalry" ..... Piezonka
Ruth Maglunis.
Rondoletta ..... Hunten
Jeanette Gomberg.
Elegie ..... Nollet
Marjorie May Harrison.
Glissando Mazourka ..... Bohm
Marjorie Morrow.
Reading ..... Selected
John Milton.
(a) Bride's song (from wedding music)
(b) Seranade ..... Goldmark
First piano—Bessie R. Heney.
Second piano—Julia Morrow.
Waltz, op. 70, No 1 ..... Chopin
Marie d'Autremont.
"Rigaudon" ..... Grieg
Alyda Flaaten.
Tarantelle ..... Nollet
Bertha Pearce.
Gypsy Rondo ..... Haydn
Natalie Smith.
(a) "Album Leaf" ..... Barford
(b) Scherzino ..... Grieg
Bessie R. Heney.
Overture to Semiramide (eight hands) ..... Rossini
Mae Teske, Sophie Kassmir,
Bessie Heney, Marian Berry.
Valse impromptu ..... VonWilm
Marian Berry.

HOW TO MAKE OLD FURNITURE NEW

TAKE A BOTTLE OF

LIQUID VENEER

and a piece of cheese cloth. Moisten the cloth and rub the worst-looking piece of furniture you have. The result will be that the surface glistens like new, the Veneer removing all scratches, stains, dirt, dullness, and leaving a bright, shining finish. You need no brush or can and there is no drying to wait for. Anyone can do the work. Liquid Veneer will benefit even the most beautiful furniture, and is fine for woodwork, including natural wood and all colors of paint. Large bottle, enough to renovate the ordinary home, 50 cents, at all progressive grocers, druggists and furniture dealers.

A free sample bottle for your dealer's name and address.

Dept. T, Buffalo, N. Y.

THE AFTERMATH

By Evelyn Singer.

(Copyright, 1905, by Daily Story Pub. Co.)

"So we meet again after all these years."

"Yes, after all these years which have changed both of us."

There was an awkward pause which lasted into the minutes. Both endeavored to speak about the commonplaces of life, but the words would not find utterance. They heard the tuneful frogs in the pond close by, they saw the robin and the bluebird flit past, they felt the warm kiss of the sun on their faces, they knew that all nature was rejoicing. With a mighty effort she broke the awkward stillness.

"I've often wondered if you blamed me for—for—for what happened."

"Blamed you? No. I often wondered if you blamed me for going away and leaving you to fight the battle alone; but, upon honor, Susie, I never thought it would end as it did. I thought your father would be contented if he could keep you from marrying me; it never entered my head that he would force you to marry a man old enough to be your father. I would never have gone one step if I'd thought he was going to force you into marriage with old——"

"Hush, Albert, you must not say anything unkind of Mr. Desmond."

"You loved him, then?" in a tone of quiet contempt.

"No, Bertie," dropping almost unconsciously into the old pet name, "how could I when I'd given all my love to you? But I grew reconciled, almost contented, how could I be otherwise when he was so kind to me?"

"He was kind to you, Susie?"

"Yes, and he loved me."

"If he loved you Susie, why did he not use his influence with your father for our good?"

"He did try. O, Bertie, on my bended knees I pleaded with him to tell father that he would not marry me, but he told me he had done his best. 'Your father,' he said, 'has caught Albert in one escapade, and nothing I can say has any influence. He tells me if I will not marry you, Mose Abner will do so, and as I love you, Susie, I will make a better husband than Abner with all his money, and I promise you, Susie, that as far as it lies in my power, I'll make your life a happy one. I know it is hard for you, little girl, but it is the best I can do. He kept his word, Albert, and never allowed father to say anything unkind of you in his presence."

"There never was any badness in my pranks, Susie, your father was just prejudiced against me; but I thought I could win him over with that fortune which I intended to make."

"I half believe that my father was afraid of that and therefore forced me to marry. I know, Bertie, there was no harm in your pranks."

They had seated themselves on a fallen tree in the wood, where as children they had gathered wild flowers and hunted wintergreen berries, where in later years they had wandered as lovers.

"Susie, when I heard of your marriage to Walter Desmond I was so angry, I felt there was no use to turn over a new leaf, and I resolved to be as bad as they had given me credit for being," her hand slipped over and nestled in his as he lay on the log. "Then you seemed to stand beside me. How well I remember it! 'Twas one of those clear nights when the moon is at its full, the whole scene was one of surpassing beauty. I sat beside the tent door and could hear the roar of the cascade in the distance; you seemed to stand beside me and your dear hand was on my arm, while your voice as clear and sweet and musical as the notes of the mocking bird, fell on my ear. 'Don't do that, Bertie! Don't do that or you will break my heart, for father will say, 'I told you so, see all the misery I've saved you from.' It might have been a dream, Susie, but it saved me, and I've lived a clean and honest life."

"I am sure of that, Bertie."

"Well, Susie, sometime after you were married I went partners with a man out there, and we had great luck; he had his wife with him, a delicate, refined, little creature, pretty well gone in a decline. He brought her up there because he thought the mountain air would do her good, then too, he loved her so he could not bear to be separated from her. We all lived in the one shanty, and how his wife delighted to keep it clean and serve up tempting meals. One day there was an explosion, and Davids my partner was badly injured; he knew he was not long for this world, and, Susie, what do you think! He wanted me to promise to marry his wife as soon as he was dead."

"What a strange notion, Albert! Why did he?"

"Well, he colld see that the wild mountain life was doing her good; he feared that there was no way for her to remain there unless it was as my wife; then, too, he knew she could never think and act for herself, as she had always leaned on him. At first I refused, but he pleaded so, saying he could not die contented with her future unprovided for. The parson came in when he was pleading with me, and —well, Susie, his wife and I joined hands, and as soon as the doctor pronounced Davis dead, the parson made us man and wife. Did I do wrong?"

"No, Bertie; I'm glad you did it."

"Well, she died about the same time your husband died. I would not come home until your father died, for fear, Susie, that there might be murder. Now I'm here, what are you going to do with me?"

"Bertie, I'm forty now."

"Your hair is just as brown as it was then, your eyes just as blue, and my love just as strong. Is that the beech tree on whose smooth trunk I cut out names the day we plighted our troth?"

"The very same; the names can be read if we go closer."

They walked over to the tree and stood beneath its branches, calling to mind the day, so many years ago, when they had plighted their troth in the springtime of life, and there with the spring sunshine falling through the half-opened leaves, with the birds and squirrels as witnesses, they renewed their youthful vows.

TALKING MACHINE

"Those who have reviled the talking machine," said Henry M. Blackwell, an engineer, to the New York Sun, "would have been properly rebuked if they had witnessed a scene that attested its popularity with the heathen Chinee.

"Three years ago I was with a small company of surveyors, who were laying out the line of the railroad between Hankow and Canton, and one day found us at Chushachow, a small village. A talking machine happened to be a part of our equipment, as it had proved more efficient in placating the Celestials than a squad of soldiers.

"Though our party had taken a long jump into Chushachow, it became plainly evident that news travels from mouth to mouth as quickly as by telegraph, for a crowd of several hundred chattering Chinamen gathered outside of our quarters and awaited a concert. They didn't make any request; they simply waited for what they considered their rights.

"One of our military escort told us what his compatriots wanted, and when we unveiled the talking machine with great ceremony it received more reverence than an ancestor's tomb. But the machine kicked and refused to play. Whereupon we informed our self-invited guests, through the interpreter, that the entertainment was off.

"Muttering arose from the crowd and a spokesman addressed the interpreter, declaring that there had been unfair discrimination and that if their sovereign rights were withheld, they would 'get hunk.' When the little file of soldiers attempted to disperse them the uproar became deafening and the engineers rushed out to find an incipient Boxer outbreak.

"Several coolies made a hostile move toward the house, probably to take the machine apart and extract the foreign songs from it. The Chinese soldiers kept their heads, strange to say, and when the ebullition of Chinese curiosity began to evaporate, they dispersed the rioters and hauled off several to the lockup.

"No prima donna ever got the tribute paid to that weatherbeaten talking machine. We sat up half the night tinkering around the mechanism until it rasped off the records of 'coon' song and comic opera trifles.

"The next morning a larger crowd was present at the concert, and departed grateful, awestruck and satisfied. This musical event was unattended, however, by three of the riot leaders, they being detained in the calaboose, as the magistrate had sentenced them to be suspended by the wrists for forty-eight hours. Every innovation is bound to have its martyrs."

A SKIN OF BEAUTY IS A JOY FOREVER.

DR. T. FELIX GOURAUD'S ORIENTAL CREAM, OR MAGICAL BEAUTIFIER

Removes Tan, Pimples, Freckles, Moth Patches, Rash, and Skin diseases, and every blemish on beauty, and defies detection. It has stood the test of 56 years, and is so harmless we taste it to be sure it is properly made. Accept no counterfeit of similar name. Dr. L. A. Sayre said to a lady of the haut ton (a patient): "As you ladies will use them, I recommend 'Gouraud's Cream' as the least harmful of all the skin preparations." For sale by all Druggists and Fancy Goods Dealers in the U. S., Canadas, and Europe.

Clever Devices That Display the Especial Vogue of Ribbon

THE ROSE MAIDEN

WHERE RIBBONS MAKE THE STYLE.

WITH SASH AND VELVET RIBBONS

A DECOLLETAGE GARNITURE

Certain it is, judging from all indications, that this summer time—the summer of this year of grace 1905—will go down in history as the ribbon summer. Never before has there been such a perfect craze for ribbons. Ribbons broad and ribbons narrow, ribbons sheer and gauzy and ribbons rich and sumptuous in weave and texture. Silk ribbons, gauze ribbons, velvet ribbons, and even chiffon ribbons are all on the counters, piled up in masses of coloring that must inevitably delight the heart of everyone with any artistic perception and appreciation of color and color values.

And such a field for originality and individuality as they present. The fashion wise have long ago awakened to their possibilities, with the result that those smart and exclusive shops that cater to the small vanities of dress really look more like ribbon emporiums than anything else.

The printed Dresden ribbons are among the leaders in this charming fashion procession. In the broad sash widths, anywhere from a half a yard to a full yard and a quarter in width—although it must be confessed that this latter width is rare in this country, while France makes much use of it—there is simply no part, no design in dress that cannot be fashioned with these charming weaves.

The gown that is altogether of ribbons and the gown that is partly of these fascinating fabrics divide favor with the summer girl. All of the sheer and filmy materials — the chiffons, mousselines, gauzes and such—are trimmed with ribbons in all sorts of schemes and styles, and their application is limited only by the ingenuity of the designer.

Both the surplice and the bolero mode are deftly and exquisitely developed with the aid of these broad sash ribbons, and as for the ceintures and the girdles, the bretelles and braces, the flounces and ruches, that are and can be fashioned from all sorts of ribbons—well, their name is legion, and to recount them were a vain and lutile task.

The flowers that are fashioned from those fascinating strands are far and away the most modish trimming that the summer chapeau can boast. So deftly are they fashioned, and so daintily are the natural colorings and shadings carried out, that they have almost entirely displaced the usual muslin or silk flower of artificial origin.

Roses and rosebuds, poppies, forget-me-nots, chrysanthemums, violets and daisies are some of the most successful. And the maker of the ribbon flowers does not disdain to borrow from the stock of the artificial flowermaker and make telling use of foliage, stems and calyx wherewith to make her own production the more realistic. The large shepherdess shapes are particularly fetching trimmed after this mode, and when a bandeau is introduced at the left side and a further knot of the trimming flowers perched upon it a very dashing air is imparted to an otherwise simple style.

The ribbon beruched and beruffled parasol has everything its own way, not only for dressy and carriage use, but for all the everyday uses and needs that the commouer sunshades invite. The chiffon and gauze ribbons are delightful in this connection, and straight flounces, festoons, vandyke points, circles and the Greek key pattern are some of the ways that clever fingers dispose of the ribbons, wide or narrow, according to the designs, on those fluffy sunshades. And the long shaft handles that are the very newest thing for this season, they take to trimming as the proverbial duck does to water. Indeed, the length of the handle simply cries aloud for some such touch of elaboration, and what so chic and at the same time so easily attained as a fluffy ribbon chou with a "shower" of small and narrower ribbons dangling from it, fastened some half way down the long plain shaft.

But it is in their appearance as a garniture for the evening gown that they will appeal mostly to the smart and clever dresser of this summertime. Given a goodly supply of sashes and belts and stockpieces to match — their fashioning makes delightful piazza work and the required featherbone stays are easily adjusted—it is but a very short time, indeed, until even the veriest tyro with the needle can follow the latest mode and make for herself those charming festoons and sprays that the shops charge such an exorbitant price for.

There are quaint and altogether bewitching pieces to surround the decolletage of the dancing frock—for all of these are cut quite low for the summertime, and some sort of a smart finish is essential to their best success. Then the pretty spray for the hair is made to match, this to be adjusted after the hair net has deftly been pinned in place. Tiny spangles, little rhinestone dewdrops and mock jewels add greatly to this dainty effect on the evening gown, and flowers, buds and foliage are all so besprinkled.

THAT SMART FINISHING TOUCH.

A SIMPLE RIBBON RUCHE

The Half-Sleeve Rules the Summer Fashions

Even the Parisian Tailors are Finishing their Most Severe Productions with the Abbreviated Arm Covering.

There is nothing that dates a frock or a wrap more accurately than does the size, the shape and the style of the sleeves.

Bodice lines remain more or less staple for more than one season, at any rate, and frequently for even three or four; but the sleeve is the barometer that indicates every changing mood, every passing whim of the fickle dame that rules the fashions.

The half-sleeve that was tentatively tried last season during the very warm weather has returned this year and has taken possession of the field in no uncertain manner. All sorts and descriptions of garments boast of this style, one that can be so daintily developed that one wonders that it has not been recognized and exploited before; or again it may be so fashioned that its brevity is attributable to a scantiness of material rather than to a recognition and following of a set style.

Even the tailor-mades that are supposed to represent the plainest and the severest mode that the tailor can turn out, those productions that despise lace ruffles and all the frilly fixings and forbishings that the Parisian demi-tetlleur mode make such telling use of, even this plain and severe style has been forced to recognize the charms of the abbreviated sleeve and fall in line according.

The only logical arm-covering for the frilly and fluffy frocks that this summer time so abundantly boasts is the half-sleeve. No scantiness or skimpiness of material must exhibit itself here, but rather must the art that conceals art be brought into play, and what is really an undue allowance of stuff at this point must be so cleverly manipulated that its bulk is not recognized nor suspected.

One, two and sometimes even three puffs are posed above the elbow. Tuckings, shirrings, smockings are relied upon to adjust the matter of the fulness between the puffs, and instances are not lacking where smart little strappings of ribbon are introduced, these seeming to tie the material into the required small line between puffs. Velvet ribbons are extremely modish in this connection, and quaint-looking little square bows are centered with tiny buckles or with old-fashioned buttons that produce a delightful trimming effect.

A very large and generous use is made of cuffs upon those new sleeves that are developments of the later modes. They may appear almost anywhere upon the sleeve from wrist to elbow, and even above it. They may flare upward or downward, be fashioned from a plain and straight band, they may take on wide cavalier outlines or cling loose to the arm in mitaine shape; but whatever their size, their shape, their conformation, they simply must be trimmed, and rather lavishly at that.

Despite the rumors of huge sleeves that prevailed earlier in the season, those that are arriving almost daily from the great houses on the other side exhibit a commendable modesty as to outline. While it is true that most of them require some little support for the fulness at or just below the curve of the shoulder, the extreme of size that prevailed some 10 years ago is not to be thought of in connection with present styles.

Ruffles of silk, scant volants of a featherweight haircloth, or sprung straps of featherboned crinolette are used on the sleeve lining to give a slightly "flottant" air to the puffed material; but even this slight assistance must be managed discreetly, else the silhouette of the figure will be "out of drawing" with the current adaptations of the mode.

The French couturier usually takes the size and the build of his customer into consideration when selecting the sleeve. Hence one does not see a short, plump little woman weighted down with a two-yard puff to her sleeve; while her taller and more slender sister displays a skin-tight sleeve and a closely fitting garment. Either the couturier or the customer, the one or the other, or perhaps both, is gifted with some sense of proportion, and the result is the avoidance of ridiculous extremes.

The correct tailored shirtwaist still clings to the regulation shirt sleeve. Occasionally, perhaps, there is some slight increase of fulness at the shoulder; but this is all gotten rid of by the time the elbow is reached, and from there to the stiff cuff regulation lines prevail.

The gigot, or leg o'mutton sleeve, is one that is far better suited to heavier fabrics, and this is expected to run the full length of the arm. The design is one that will not permit cutting off half way down; and when this is attempted there is always sure to be rather more than a hint of lack of material as well as lack of taste.

The quaint little undersleeves, invariably of transparent make and material, are very welcome to the girl whose lower arm is not up to the requirements of classical beauty; and the fact that they are extremely modish is merely another, if not a better, cause for their adoption.

Fashions in Girdles.

The newest things in girdles have taken to themselves an upward trend that will render them extremely trying—if not, indeed, impossible for any but the most perfectly proportioned figures. And considering that the perfect woman is the exception rather than the rule in these latter days, the girl who would follow this mode must take due heed to the lines and outlines of her figure ere she embark in the wake of this style.

The tall and slender girl can have those delightful corselet effects built upon those taped and featherboned girdle frames, and even her plumper sister can adopt them with good results, provided the kind that lace invisibly in front be chosen. This admits of clever and easy adjustment to the best lines of the figure, and the girdle can thus be drawn as snug as desired without any undue lacing.

The really plump sisterhood, if they must follow the fashion that commands the ceinture, would better have theirs fashioned upon the bodice, and arrange the lines so that the deepest part comes under the arms. Then a most becoming slope is attained to the center, back and front, this bias line making for an appearance of length and slenderness that is flattering in the extreme.

The Many and Varied Uses of Ribbon on the New Frocks.

THE ROSE MAIDEN.

In this charming picture the hat, the coiffure dressing, the decolletage trimming are all of ribbons deftly manipulated into flower shapes. The hat is one of those simple shepherdess shapes in a satin straw braid of a burnt tint, the one that matches the pongee silks somewhat in coloring. The roses are all fashioned of a pink satin ribbon, the tints being chosen and worked in to follow the natural shadings. The artificial-flower maker's stock is called upon to furnish foliage, stems and calyx, this lending an air of verisimilitude to the finished work. The wreath of roses encircles the crown of the hat, a bunch of buds is perched upon the baudeau, and a similar knot, with sprays of velvet maidenhair, is tucked in at the side of the low coiffure after the hair net has been deftly adjusted.

The spray that surrounds the decolletage is of small moss rosebuds, all of ribbon, with the foliage and maidenhair fern lending an air of lightness and grace to the entire design, one that cannot fail to be bewitchingly becoming to a youthful wearer.

WHERE RIBBONS MAKE THE STYLE.

This charmingly simple frock of white point d'esprit owes all of its chic and grace to the clever distribution of the trimming scheme, for which ribbons are relied upon entirely. The bodice is fashioned after the bebe mode, the ribbon ruffles on waist and sleeve following a seemingly unbroken line, and a Frenchy little effect is gained in the star-shaped rosettes of the same ribbon that are applied between the grouped ruffles. The sleeve is a puffy affair, that ends in an elaborate but seemingly simple cuff at the elbow. The bodice is constructed upon a carefully boned and fitted lining, and the girdle is mounted directly upon this bodice lining, so that the curves of the figure are followed exactly. The skirt is very simple, being in three flounce sections, the one shirred to the other, and a double row of ribbon ruffles applied to conceal the joining. The use of a broad velvet ribbon at the foot not only makes the skirt hang in artistic folds, but likewise adds muchly to its chic and style.

WITH SASH AND VELVET RIBBONS.

A remarkably smart toilette is constructed from apparently incompatible materials. A broad sash ribbon, white with Dresden flowered printing in pale yellow, two shades of rose pink and some faint green in the foliage to offer some relief, is combined with white embroidered mousseline de soie, a narrow ribbon in pale yellow, and some very clever touches of black velvet expressed in the pointed strap girdle, and a multitude of small mold buttons that dot the trimming design all over. The bodice follows bolero lines, this of the sash ribbon, edged throughout with velvet, and the under blouse is of the mousseline. The sleeve is similar in make, the ribbon making a scant puff over a band of lace edged with the narrow ribbon and dotted with buttons. The skirt is fashioned of the mousseline, panel effects made with lace scarfs edged with quilled ribbon, and dotted on either side with an irregular row of buttons. The broad printed ribbon is applied in flounce design, ruffled top and bottom with the narrow edging and lace entre-deux, and finished with puffed frills of mousseline at the foot.

THAT SMART FINISHING TOUCH.

There are any number of smart hats in the shops that are sold under the title of ready-to-wear, but which almost invariably need just some finishing touch, some little addition to give them that chic and distinction that belongs to the creation of the artistic milliner. The ribbon counter will usually furnish the inspiration for this, and the fact that at all of the leading shops rosettes, bows and other trimming motifs in ribbon can be made up to order without cost is an additional inducement to their use. The hat of the picture is one of those round sailor shapes with a slightly rolling brim, the top covered with a rather coarse mallnes net ruffled scantily with a No. 2 white moire ribbon, and the under brim simply covered with a loosely tacked scarf of a finer mallnes. The wire frame is plucked up at the left side and a fluffy rosette of pale-blue satin ribbon tucked in, the streamers that hang at the back giving a delightful air of originality to a hat that would otherwise lack this distinction.

A SIMPLE RIBBON RUCHE.

A ribbon ruching in a peculiar shade of Sevres blue is made to afford a very clever touch of color contrast upon this smart turban shape in a medium shade of reseda green, a touch which the close bunches of forget-me-nots in velvet and a stray tearose bud in yellow intensifies to a delightful degree. The hat itself is really one of those large brim shapes, deftly wired to a most original turban. The ribbon ruche, box-pleated throughout, is made to serve as a trimming for the crown, and appears to hold the folds of the brim in position. On the outer side of the brim, however, the greater part of the trimming is massed, and little bows with flowing ends are used to punctuate the trimming scheme at intervals with charming results.

A DECOLLETAGE GARNITURE.

The vogue of ribbon garnitures for the evening gown is a charming conceit, and there is simply no end to the clever designs that are exploited in these. In the illustration a clever use is made of narrow satin and velvet ribbons, with knots and ends of a broad satin ribbon at intervals to give some dash and character to the smaller design. Three shades of turquoise are used for the decolletage decoration, and the long pendant ends that are daintily knotted are all of the lighter tone. The coiffure ornament is likewise in the faintest tint of blue, and the center is that usually used for a poppy flower, in a dull sage green that harmonizes well with the turquoise shadings.

DRAMATICAL

ATTRACTIONS AT THE LYCEUM

Chauncey Olcott In "A Romance of Athlone"—Pollard's Lilliputian Company For One Week Beginning June 26.

This afternoon Chauncey Olcott, the pleasing comedian and delightful singer, appeared at the Lyceum in "A Romance of Athlone," and tonight he will again be seen. When the play was first produced in New York it ran for nearly five months to enthusiastic audiences. It is not conventional. Such time-worn elements as the priest, the peasantry, the military and the over-due mortgage have been left out. The character for Mr. Olcott is that of an open-hearted young Irishman, son of a baronet and half-brother of a contrastingly wicked fellow. These two are opposed in affairs of love and money. There is a plot with gypsies to abduct the little sister of the hero. The successful operation of the scheme up to a certain point and then its defeat make up the serious action. The time is a hundred years ago, when the vicinity of Athlone was sufficiently picturesque and peculiar to warrant the location of such a romance there. A realistic duel is fought with swords by Dick and the villain, and it is the hero's victory in this affair of honor that brings the story to a happy conclusion. Mr. Olcott has contributed a set of charming ballads; they are entitled "Olcott's Lullaby," "The Irish Swell" and "My Wild Irish Rose," and others.

POLLARD LILLIPUTIANS.

The Pollard Lilliputian Opera company, fifty strong, and all of them clever and talented juvenile artists who have achieved world-wide distinction for the high excellence of their performances, will appear at the Lyceum for a week beginning Monday, June 26. The opening attraction will be "The Belle of New York." The company is now touring the United tates for the third time after a series of most successful engagements in the large centers of the Orient. The diminutive artists were almost overwhelmed with attention in that trans-Pacific tour. In Manila they were taken in charge by the exclusive army set and many social events were arranged for their benefit. The company is stronger, both numerically and artistically than when they were here before. The Pollard twins are two new additions, and they are said to be as clever as the best in that line in more mature years. Daphne Pollard and Teddie Macnamara are still with the organization. New scenery and wardrobe will be shown, designed especially for the Lilliputians.

COMING TO THE LYCEUM.

Sig. Blitz and Evelyn Fay and their vandeville company will appear at the Lyceum for one week, beginning Monday, June 30. Sig. Blitz is a celebrated magician, while Evelyn Fay performs some really remarkable thing in mind reading. The company includes sixteen people.

NEW YORK THEATERS

Aerial Theaters Break Open For the Summer With a Boom—From Wagner Culture At the Wisteria To Coarse Comedy At the Elysia.

New York, June 17.—Four big roof gardens have opened wide. At one of them Richard Wagner has "gone on" as a specialty, or has been put on, and Walter Damrosch has done it to prove that New Yorkers will listen to good music on warm evenings. In Wisteria Grove, which extends over the Criterion, and the New York theaters, and is so near the Paradise and the Aerial that the high notes in any one of the three may be heard in the others, Damrosch gives with his orchestra a popular program, rather than a program of popular music, as the term is understood. He hasn't let himself down any lower than an approved Parisian waltz, and that only as a lenient encore; but he has struck a happy medium with music that is dignified, yet interestingly new to most of us—compositions known to music lovers by reputation alone and to the rest of us still more vaguely by the names and fame of the authors. As a conductor, Damrosch is serious, rather ponderous, and indulges in none of the high jinks that make the band leadership of Sousa and Creatore a giddy delight to eyes as well as ears. He is somewhat awe-inspiring, too, and before entering upon a number he scans the assembled faces as if searching for an unmusical soul to be ejected as an inharmonious guest. Then any one in Wisteria Grove not pining for Wagner hides his sin behind a mask of mystic rapture.

• • •

Aerial Gardens, Wistaria Grove, Paradise Farm! Cool names for summer theaters on the tops of warm winter theaters. The Aerial is built like an ordinary theater, except that it opens out on three sides to hanging gardens more than a hundred feet above the street level. The show here isn't vaudeville. Two-thirds of it is a musical travesty, and the rest of it is an assemblage of characters from five of the Gilbert and Sullivan operas. It is like shaking hands with cherished old friends, this hour of reunion. They don't give more of the spoken text than will introduce each excerpt of song and tune; and we don't miss the Gilbert prose humor much; but how well it wears in the verses, and how the Sullivan airs belittle all that our composers are producing in serio-comic music! Which was the greater of these geniuses? Neither, I think. Good old Queen Victoria's choice of Sullivan for knighthood came of his composing a hymn of praise in her glorification, while Gilbert's satire of the aristocracy she didn't like.

• • •

The travesty, "Lifting the Lid," makes merry over the moralization of New York A sober son of a gay father will inherit ten millions if in a single week he spends a hundred thousand in the Tenderloin. He regards the task as distasteful, but not difficult, and he starts confidently to qualify himself. But his money is tainted money, as it is the proceeds of a trust, and no one will take it from him. Gifts to companions, graft to politicians, bribes to policemen, tips to waiters, all are rejected instantly that he is identified as a Rockafellow. Even a needy newsboy scorns to pick up a fifty-dollar note which the exasperated young man throws into the gutter.

Moreover, he finds that District Attorney Jerome has shut the town's lid so tight that there isn't a gambling hell to lose in, nor a joint to get robbed in: that Broadway is as calm and honest after midnight as a village green, and that he can't rid himself of the stipulated sum in the prescribed time except by destroying it, which won't satisfy the proviso. This theme is talked only a little in McNally's text, but it is sung and danced copiously in Jerome and Schwartz's ballads, accompanied by displays of show girls selected for uncommon beauty and exhibited in jaunty costumes. We see the first contingent as young chappies in evening suits "going home with the milk in the morning." They encounter a party of frisky maidens, with whom they lament that "there's nothing doing in the dull old town." Next they are rustics "seeing New York," but are restrained by "Jerome, the bogy man," until finally, garbed as staid Quakeresses, frisky hello girls and frolicsome soubrettes and soldier boys in blue and gray, in a march revolt, reminiscent of "dear old Dixie land," they are led by "Texas Dan." Each of the phrases in quotation marks is the refrain of a sensuously illustrated chorus, and there are many more vocalized spectacles of feminine loveliness, along with a suitable admixture of masculine relief. Virginia Earle and Corinne Kimball lead in the former showing, and Louis Harrison and Eddie Leonard in the latter.

• • •

Trusts are a topic, too, in "Lifting the Lid." The chorus men appear as pot-bellied magnates of oil, beef, steel, tobacco and so on, and sing a ballad of ardent love to "My Syndi Kate," each with a nimble-footed Kate for a partner in a grotesque dance. Then a starveling of a man, representing "the common people," tries to mix himself in the jollification, but is contemptuously thrown out. Next, a little bit of a fellow, marked "Theater Trust," one of the pygmies of the magnates except in his diminutive size, joins the party; but he is at once ejected as too small to be rated with that class. Finally, a giant, differing from them only in his towering height, stalks in with a huge club inscribed "The Press," and the trust magnates bow down and hail him as the biggest trust of all.

• • •

Paradise gardens spread themselves over Hammerstein's Victoria theater and the Belasco, right across the way from Klaw & Erlanger's New Amsterdam theater, which is under the Aerial gardens. As the Aerial and Paradise lights flung themselves against one another across the chasm on the night of their simultaneous opening, I imagined what a high-joint show it would be if, from a masked battery in the Belasco-Hammerstein anti-syndicate fortress, a bombardment of the Klaw-Erlanger stronghold should begin. Then, if the Aerial should return the fire and be supported by bombs from Wisteria grove—at the top of the Frohman Criterion theater and the Klaw-Erlanger New York theater, scarcely 500 feet away—what a midair fireworks sort of a spectacle it would be.

• • •

Oscar Hammerstein's Paradise is a real roof garden, with its auditorium and stage sheltered, but an adjoining farmyard all outdoors, a windmill turning, a cow browsing in a stall, a pig grunting in a pen, ducks swimming in a pool and hens roosting on a pole. This is the first paragraph I have ever written about a manager in this correspondence, but Oscar, you know, is a marked character, and turns the Monday night people saw him saunter in from his farm they gave him more applause than the best of his stage specialists got. His fights, come one after another in such a steady succession that it seems a wonder he ever has time to unclench his fists and shake hands. The public likes him for his pugnacity; also for his wit, which is as ready when he is bankrupt as when he is affluent. At just about the same time that he was greeted in his own person in Paradise he was hailed heartily, in an imitation by Louis Harrison, across the way in the Aerial play.

• • •

The Paradise show is altogether vaudeville and some of it is new. An imported novelty is To-To, purporting to be an automaton. It is wound up and adjusted in a chair behind a zither, on which it plays an accompaniment to a woman's singing. To-To is no great puzzle, however, as there is ample space in the body of the figure and under the seat of the chair for a child, or an adult dwarf, to conceal himself when the woman, to convince us that no human being is concealed, takes off the hollow head and exposes a mass of wheels and springs. Surely alive, though, is that one of the brothers Patty, French gymnasts, who descends a staircase on his head, step by step and bump by bump, using his legs and arms for balance only. It makes your own head ache to see what the infernal fool does with his. Of the specialists not strangers none interested me more than Katie Rooney. Is it further back than you care to remember that a Paddy Rooney, ape-faced, three-cornered as to body and seemingly mismatched as to legs, introduced a grotesque Irish caracature which was the origin of the stage type which Irishmen have of late resented strenuously. Well, here is his daughter, with whiskers like his around her roguish face, his kind of a hat on her coquettish head and a shillalah in her hand, reproducing the original Rooney gait in walk and dance, while a band at that shot and shell Yankee girls back her up. For another novelty there is a colonial sextet doing an old thing in a new way. The three couples give the tune and motions of that everlasting "Florodora" saunter, with the amusing difference that, instead of singing the words, they make trombones and cornets speak them as plainly as with voices.

• • •

Printed programs are sometimes more essential than one might think. A first-rate entertainment is interrupted, at the time usually reserved for the top-liner, by a beefy young man with moderate amateur acting ability. He tells us that an actress is in search of a lost cat and that another woman is in search of a lost husband. Then the ample amateur retires and the actress enters in the person of a pudgy, tired looking woman, neither youthful nor graceful in figure of movement, and husky as to voice. She says she is calling upon a detective to find her stray cat, and that, as he is out, she will just run over her new song while waiting. She sings a woeful tale of war which spurts into a martial march when the particular soldier in question is implored not to "forget darling Violette." Thereafter, the plot intervenes and gets giddy with jests about the similarity of the stray husband and the stray cat, based on the fact that both have fur coats. The playlet ends with the discovery that the amateur detective is the missing husband, and the return of the missing cat.

Why? May Yohe is part of the answer and Putnam Bradlee Strong is the rest. Fifteen years ago May Yohe was a pretty girl with several ravishing contralto notes in her voice. That was her outfit for musical farce and she became a Tenderloin favorite. Five years ago, because she had married Lord Francis Hope, younger brother and heir to the duke of Newcastle, she was put forth at the head of a company. She had lost the contralto notes, but wore the Hope jewels, famous for beauty and ancestral significance. Now she has entered vaudeville with Putty Strong, son of an honored mayor of New York, a resigned captain of the United States army, formerly an ornament of our best society, whose globe encircling elopement with Lady Francis Hope put his name into the news of the world. The reasons why a silly sketch amateurishly acted has a place at the favorite hour in a costly entertainment; also, why the names in a program are sometimes necessary to a complete understanding. If May Yohe were not the former Lady Francis Hope, and if her partner were not the former Capt. Strong, their services wouldn't be accepted as a gift; but, being what they are, I suppose they are paid five or six hundred dollars a week.

METROPOLITAN AND THE BIJOU

Vaudeville Will Be the Bill at Both Houses During the Coming Week.

The Metropolitan theater, under the new management, will enter its second week of high class vaudeville next Monday, June 19. A number of well-known artists in the vaudeville world will be among the attractions, and the program promises an evening of fine entertainment for those attending.

The leading feature for the week will be Jessio Green, in an act of occult power which has puzzled all who have witnessed it. Miss Green defies the strongest men to lift her off her feet. It is said that she can withstand all human strength. Men are invited from the audience to exert their strength against her strange power, but all their efforts are said to be in vain. Neither can they lift a child when Miss Green's hands rest upon it.

Woodford and Marlboro present a high class society sketch, which is original and amusing. The great Warnecke, magician and illusionist, will perform a number of the latest illusions and sleight of hand tricks. La Drew and La Tone, comedy skech artists, will offer a new comedy creation. Arthur Jackson, baritone, will render one of the latest songs, illustrated with beautiful colored views. The moving pictures for the week will be Faust and Marguerite. Matinees are given daily at 3 p. m., and the night performances are at 8 and 9:30 o'clock.

WEEK AT THE BIJOU.

Fine Bill of New Vaudeville Features.

The program of vaudeville features to be seen at the Bijou the coming week will embrace a number of the foremost acts of the Eastern and Western circuits. The bill is headed by the Musical Bartletts, who play on a number of novelty instruments, introducing quick changes of costumes.

Eva Thatcher, character singer and monologue artist, will appear in an original act and a style of her own.

Jennings and Jewell, known as the men with the hats, will be seen in their original German dialect sketch.

Prof. Wilfred McGrath will present his great act of hand balancing and daring gymnastic stunts.

The pleasing baritone, L. O. Whittier, will render "Two Little Boys," a march song, illustrated with beautiful colored views.

In the moving picture line, Edison's latest comedy film will be shown, entitled "A Good, Old, Five-Cent Trolly Ride" will be shown, and a number of choice pictures.

Matinees are given daily at 2:30. The night performances start at 8 p. m. Every Friday night is devoted to local talent, and prizes are given for the best amateur acts.

GOSSIP OF THE RIALTO

Geraldine Farrar Scores Another Triumph—Otis Skinner To Revive "The Duke of Gramat"—Laura Hunt Making a Hit In Vaudeville.

New York, Jun 17.—Geraldine Farrar, the American singer, has scored another triumph in the old country. It happened at Monte Carlo, where Calve was to play the leading role for Mascagni's latest opera, "America." At the last moment she refused to apear, so Miss Farrar, who was visiting at the resort, jumped in se to say and captured musical Monte Carlo as she has Berlin and Paris.

• • •

Melville Raymond intends to have nine shows on the road next season. They will be four "Buster Browns," two "Seminary Girls" and two "Arizonas." Master Gabriel, now appearing in "Buster Brown," will also be starred next season in "Little Jack Horner." He will be assisted by George Ali, who will have an animal role.

• • •

Otis Skinner is to revive "The Duke of Gramat" next season. It was used by him nine years ago.

• • •

Laura Burt, formerly with Sir Henry Irving, and the original Madge in "In Old Kentucky," is making a decided hit in vaudeville in a sketch called "Stop Thief."

• • •

Arthur Byron, formerly leading man for Maude Adams, is to enter vaudeville in a sketch by Paul Armstrong called "The Ingrate." The playlet deals about a young Western miner who after striking it rich determined to visit New York. The many funny experiences he meets are depicted in teh sketch.

• • •

Fay Templeton is to be starred next season by Klaw & Erlanger in a new play by George M. Cohan called "Forty-five Minutes from Broadway."

• • •

The three largest theatrical engagements in New York this season were "The College Widow," "The Music Master" and "Fantana," which is still running. The two shortest engagements of the year were those of "The Rich Mrs. Repton" and "The Trifler."

• • •

Lewis Morrison, whose positive farewell tour in "Faust" is to take place the coming season, has probably said good-bye as often as Adelina Patti. The past two seasons were to have been his last, but the demand for his appearance "just once more" has led Jules Murry, his manager, to prevail upon him to make this season his final tour. It is said Mr. Morrison has consented for no other reason than his anxiety to leave a pleasant impression on the minds of his friends and admirers, for his continual fear is that he may be spoken of as "a man who used to really be a great actor." He has therefore determined to retire before that day comes and has set the limit of his career with and including this season.

• • •

After four weeks in Chicago, its third engagement there in twelve months, marked by a popularity that even the big teamsters' strike could not materially damage, "The Virginian" has gone out of commission for the summer and Dustin Farnum and his tired associates, who have traveled nearly 20,000 miles are in harbor again on Broadway. Mr. Farnum will leave almost immediately for his summer home on the Penobscot river in Maine, going, not by boat as has been his custom in former years, but in a brand new automobile.

• • •

After his close of his tour in "The Earl of Pawtucket," Lawrence D'Orsay didn't linger long in New York. Instead, he started straighway for the ocean breezes that make Atlantic City famous and proceeded to dazzle the denizens of that resort's celebraed "board-walk." D'Orsay has a tendency toward expressiveness and character in clothing and he created a near-sensation when he appeared on the walk for his first saunter with a suit of plaid, large plaid, too, of greenish tint, with a red stripe running through it—the latest importation from London. He wore a light derby hat, a gorgeous corduroy vest, a black puff scarf and spats to match the suit. He carried his precious silver-headed cane and the whole outfit was topped off with a most delightful suite. Mr. D'Orsay attracted considerable attention.

• • •

The New York offices of Henry W. Savage were busy the past week. The return of George Marion, the general stage director for the Savage attractions, caused a general activity and players are being engaged daily for the two new productions, "The Bad Samaritan" and "The Stolen Story," the Jesse Lynch Williams play which Mr. Savage will give an early fall production. "The Bad Samaritan" was recently turned over to the manager by George Ade, the author, and gives evidence of exceeding the really remarkable qualities of its famous predecessor, "The College Widow," which enjoyed an all season's run in the metropolis. "The Stolen Story" is a play dealing with modern American life and one of the big scenes represents the office of a New York daily at the time of going to press. Mr. Savage has further strengthened the English Grand Opera company by adding a number of the members of his "Parsifal" company to that already strong organization. At least one new grand opera will be produced and Mr. Savage claims that it will be on as equally magnificent scale as was his presentation of "Parsifal."

• • •

"Captain Debonnaire," the new comedy romance in which Paul Gilmore will next season appear under the management of Jules Murry, will be a big spectacular production with a large cast; a singing chorus, corps de ballet, and the entire mountings, scenery, furniture, properties and electrical effects will be carried and presented in every city visited by the organization. The contract for the scenery, furniture and properties has been let to Armbruster & Sons, Columbus, Ohio. Van Horn of New York will furnish the costumes from the original plates and designs. Two sixty-foot baggage cars will be required to transport the production. There are sixty-one characters in the play. "Debonnaire" will be one of the most elaborate of the road attractions the coming season.

• • •

That the popularity of "The Chaperons," the famous New York theater musical comedy success has not diminished, is attested by the arrangements now in progress for an extensive tour beginning in August and which will embrace most of the larger cities to the Pacific coast.

• • •

When it became definitely known last week that Togo had put Rojestvensky and sundry others of Russian persuasion out of business, young Mr. Tamamato, who appears in the "Heir to the Hoorah," as a Japanese valet, reached a pitch of joy that amounted almost to delerium. "If that actor wasn't a Jap, it would be a safe bet that he couldn't stay as happy as that till night without getting soused," said one man on Broadway who had seen and heard the Oriental's staggering weight of enthusiasm. Tamamato sustained the reputation of his race for abstemiousness, however, by reporting for duty as usual at the Hudson for the evening performance. But, as if to demonstrate that he could have gone to the bad if he had been so minded, he produced three Orientally wrapped and labelled quarts of "Saki," the Japanese wine, after the performance and invited his fellow members of the company to celebrate with him over Japan's big victory.

It seems that "Saki" is chiefly distinguished by a flavor that, to an American taste, resembles nothing so much as the odor of burned feathers; and, while no one was brutal enough to intimate this to the happy Tamamato, Guy Bates Post could not refrain from admitting to Nora O'Brien on the next day that he hoped there would be no more big Jap victories for a little while at least.

• • •

Digby Bell, the star of "The Education of Mr. Pipp," spends his summers playing golf. It occurred to him not long ago that it might be fun to try some of the links in various summer resorts at which he had never been. A friend saw him the other day after he had put in considerable time studying summer resort books and Bell said:

"Do you know I have an idea that there is some wide man traveling around the Eastern states making a good pot of money by clipping chunks off of big rocks so as to leave them resembling a human face. Nearly every summer resort book I've seen so far lays great stress on 'The Devil's Nose,' 'Satan's Profile,' 'The Angel's Chin,' or some other daintily named little thing like that and it is always some rock or cliff or bluff—probably the latter."

• • •

Jules Murry has engaged Alice Johnson, the well-known singing comedienne, for the part of Kitty Silverton in "The Marriage of Kitty," one of the past season's most pronounced comedy successes. The balance of the cast will be composed of well known and capable artists and the entire production will be even more attractive next season than it was last year.

• • •

Some idea of the difficulty experienced in selecting people for certain parts has been amply illustrated of late in an effort on the part of George M. Cohan to secure a singing and dancing comedienne to play the part in the No. 2 company of "Little Johnny Jones" next season, now played by Ethel Levey. Miss Levey plays three characters in the play, all of which require exceptional ability. The various characters played by Miss Levey exactly fit her personality and temperament, and up to the present time Mr. Cohan has not succeeded in securing any one to whom he is willing to trust the role. While in New York recently he personally interviewed and gave private rehearsals to over one hundred applicants for the part, but none of them met the requirements of the character. The one who is engaged for this part for next season can consider it a prize of the first magnitude.

• • •

Williams and Walker, the colored comedians who have for some years been the stars of a negro organization managed by Hurtig and Seamon, have, it is reported, severed their connections with that theatrical firm and will in the future be managed by Lew Dockstader, the minstrel star, whose personal manager, Charles D. Wilson, will also be interested in the new company. Dockstader is planning a big tour for the negro stars with a view of ultimately securing time for them at a Broadway theater, in New York, for a run.

• • •

Will T. Hodge is now a full-fledged author-actor-star. Mr. Hodge appeared last week in his play, "Eighteen Miles From Home," which is a dramatization of the star's novel of the same title. It was given its premier in Rochester and was cordially received. Mr. Hodge will likely star in the piece next season.

• • •

Little ohJn Slavin is to be a star. Manager Whitney has a comic opera for his use, which has just been outlined by Stange and Edwards. Mr. Slavin was seen last season with Mme. Schumann-Heink in "Love's Lottery."

• • •

Creston Clarke, who made such a prodigious success in "Beaucaire," last season, will again appear in that character next year, supported by the same excellent company, but with an entirely new and more elaborate production. Miss Agnes Ardeck has been re-engaged for the part of Lady Mary. The tour will be under the direction of Jules Murry, who has Mr. Clarke under contract for a long term of years.

• • •

"There is an old fellow in my town who is always talking of his prowess with the gun," said Raymond Hitchcock the other day. "He has never accomplished any great feats but continues to make the most elaborate preparations for his Nimrod trips but always returns with an empty bag. He has become quite a joke to everybody and the farmers have repeatedly threatened to get out an injunction against him for possible damage to their stock. His wife was joking him about his ill luck and upon his last trip to the woods he determined to bring back some kind of game. As before success refused to be with him and he came to town after an all day tramp thoroughly disgusted and tired out. Passing a game store a happy idea seized him and going in he bought a brace of partridges. Proudly he walked into the kitchen where his wife was preparing dinner and tossing the birds on the table said, 'Well, I'm not so bad with a gun after all. Just see what a fine pair I brought in.'

"'Did you shoot those birds today?' questioned his wife.

"'I certainly did,' the embryo hunter replied with a bluster.

"'Well, replied his wife, turning from the table with a grimace, 'You were quite right in shooting those birds today; tomorrow would have been too late.'"

• • •

Bobby Harrington, who has so successfully played Augustus Wright in "Running for Office" this season, has been re-engaged for the same part for next season. This is the part written by George Cohan for himself and played for a season by him. Bobby Harrington is not yet 13 years of age, and very much resembles Mr. Cohan in appearance and in his work. Little Rosy Green, who has been a chorus girl with Mr. Cohan for several years, and one of the most attractive of the many now appearing with Mr. Cohan at the Illinois theater, has so impressed Manager Harris and Mr. Cohan by her beauty and ability that she has been given the leading soubrette part in this production for next season. This is the same part formerly played by Miss Josephine Cohan. Miss Green first attracted the attention of Mr. Cohan by suddenly jumping into Ethel Levy's part in New York recently and playing it during the temporary absence of Miss Levy from the cast on account of illness.

• • •

Joe Weber will, according to London rumors, take his stock company over to that city next spring for a special engagement in one of the George Edwardes theaters. If he follows this plan it will mean the abandonment of his regular spring tour through America after the close of the New York season.

• • •

The patient public has a way of quietly demonstrating its opinion in regard to the theater, as was shown last week. Without much excitement or hubbub Nan Patterson's ill-timed and unfortunate attempt to star on the notoriety gained through her trial for murder came to grief after a brief struggle against the fate of decent judgment. It was inevitable, and all that remains to be said is that the incident is properly closed.

• • •

Viola Allen closed her tour in "A Winter's Tale" last week after a wonderfully successful season. Miss Allen has decided to abandon Shakespearean revivals for a

Jules Murry's revival of "Hazel Kirke" with Effie Elisler in the title role is one of the prominent amusement announcements for next season. An entirely new and up-to-date production will be carried. Miss Elisler's supporting company will number many well-known artists. Mr. Frank Weston has been engaged to play the part of Dunstan Kirke and a popular comedian is being negotiated with for Pitticus Green.

• • •

"One of the amusing and pathetic cases of the devastation of the South after the war of the secession was told me the other day," said John E. Henshaw of the "Sho Gun" company. "An old Georgia colonel had lost practically everything by the people of the North; his lands were laid waste and he found himself with only a team of horses and the old family 'runabout' left. Much against his pride he was compelled to go into the livery stable business. The very first call he had came from several negroes who were anxious to be transported several miles into the country where a big colored ball was to be held. The Southerner's aversion to the negro was strong within this old gentleman and it was particularly repugnant to him to be a menial to those who were formerly servile to him. Necessity, however, compelled him to accept the inevitable, and he drove the bunch of 'coons' over to the hall. The night was bitter cold and after depositing his freight the old gentleman was compelled to go into the room where the ball was in progress and stand near the stove to keep from freezing. After being there half an hour when the dance was at its height a big burly negro, a sort of floor manager, came over to him and said:

"'Scuse me, cunnel, but I must ask you, sah, to remove yoah presence as the odor of de horses am veah obj'ctionabl' to de ladies, sau.'"

• • •

Marie Doro, otherwise Marie Stuart, formerly of Kansas City, was engaged in London the other day by Charles Frohman and William Gillette as Mr. Gillette's leading woman, and will create the part of Clarice in Mr. Gillette's play of that name, in England and America. Miss Doro is one of Mr. Frohman's selections from the ranks two seasons ago. While Mr. Frohman was rehearsing "The Girl From Kays," in Buffalo, he was attracted by the manner and personality of one of the dancers who had no line at all to speak in the play. This was Miss Doro. She is now with William Collier in "The Dictator," at the Comedy theater, London, and is happy at the opportunity of being selected for Mr. Gillette's heroine.

• • •

Master Gabriel, who is now appearing in "Buster Brown" in Chicago, tells the following story:

"When we were coming to Chicago Mr. Raymond, our manager, George Ali, who plays Tige, and Al Lamar, my partner, were initiating me into the mysteries of the great American game of draw poker. Raymond forgot to give the conductor my ticket, said the diminutive comedian, and as we played the conductor came in and watched us. Finally he said:

"'Raymond, how old is that kid?'

"'Five years,' replied Raymond, without looking up.

"'Well, he plays the best game of poker for a kid of 5 that I ever seen,' remarked the conductor as he moved away.

• • •

Harry Ward and "Hap" Vokes, who have toured this country as partners and co-stars in various productions for the past twenty years, have dissolved partnership. Both have amassed considerable of this world's good things and do not have to continue on the stage, but both will be in the acting harness again next season. Vokes will be with William West in a musical farce called "A Pair of Pinks," while Ward will be starred in a play called "The Grafters."

• • •

Robert T. Haines, recently with Robert B. Mantell, is now appearing on the continuous circuit in a sketch called "The Ingrate." The playlet is by his wife. He is supported by four people.

• • •

Wilton Lackaye's repertoire next season will include "Trilby," "The Pit" and "Pillars of Society." His season in the three pieces begins Sept. 4, at San Francisco. When he plays in New York later on in the season he will produce his new play, "Jean Valjean."

• • •

Eva Tanguay, who was starred early in the season in "The Sambo Girl," is to reenter vaudeville. She will give a condensed version of the "Sambo Girl."

• • •

William Collier is to have a new play called "The War Correspondent." It is by Richard Harding Davis, and deals with the difficulty of a war correspondent at the front in the Russo-Jap war.

• • •

Rumor has it, substantiated by several clinching facts, that George M. Cohan, season after next, will have a theater of his own in New York City, devoted exclusively to his own musical productions.

• • •

W. A. Whitecar, who made such a success last season as Lord Lumley in Jules Murry's production of "The Mummy and the Humming Bird," will again essay this character when the transcontinental tour of this popular play opens in August. Henry Carl Lewis, who appeared in the role of Guiseppe, the Italion organ-grinder, has been re-engaged, as have several of the other members of last season's company.

• • •

Will A. McConnell writes from London: Mark Klaw has been in London two weeks and has virtually corralled the light musical production of Europo for appearance in New York next season. Of course Miss Evie Green and Holbrook Blinn and the original cast are to America next season for a twenty-weeks' tour. In addition to this, Mr. Klaw has arranged with George Edwardes to take over the entire cast and production of "Veronique," which has run for over a year at the Apollo theater here. The firm of Klaw & Erlanger has procured control of all the musical productions of the Lyric theater, Daly's theater, the Prince of Wales' theater and the Apollo theater, London, for the next five years.

• • •

Flo Zitgfeld, Anna Held's managing director, came to London and secured the prize that all other American managers have been trying to land for the past two years. This is Alice Neilson, who made success after success in America in light opera. She came here four years ago and retired from the stage for two seasons, putting in all the time in study for grand opera, made her debut in Italy, was immediately engaged for the season of grand opera at Covent Garden, London, last fall, scored a hit and is back in London at the Waldorf theater now at the head of a grand opera company. Alice Neilson has had offers from Conried for the Metropolitan Opera house, New York. It was not a question of terms but of roles which she was to sing, and the impressario and the prima donna could not come to an agreement, so Ziegfeld secured Alice Neilson for a grand operatic concert tour beginning next October, when the American prima donna will be seen in scenes from her favorite operas, supported by a company and orchestra of seventy-five.

WHERE ANGELS THRIVE

The Made-To-Order Star Less Common Now In New York—London the Home of the Rich Man With Ambition To Back a Stage Production.

New York, June 17.—The disappearance of the backer, or, rather, the angel, from the theatrical field today is due in a large measure to the community of interests in most theatrical attractions. Managers take a quarter or even an eight interest in a play or a star and with so little capital to be put up by each of them no outsider need be called in.

One of the popular stars who is supposed to be managed by only one man, is, as a mater of fact, under the control of four managers. Three of them have a quarter interest which in several cases is divided with men outside the partnership. Her husband also put up one-quarter of the money to launch her. She has been successful from the first, so there have been only profits. If she had failed the first year, however, the loss would not have fallen very heavily on any one of her managers.

It still happens that men with money want to put some of it in theatrical enterprises, as they would in any other line of business. But they go now to the best known and most responsible managers; and offer to see them through on some fore-doomed proposition just for the pleasure of figuring as an angel. Sometimes they make money on such propositions and soemtimes they lose.

One young speculator who is said to be especially fond of this kind of investment complained the other day that he had lost $80,000 on a certain new star, although his partners were among the best known managers in the business. It was significant of the present status of the backer that this man who had lost so much in the effort to establish her had never even met the woman before the play opened.

Formerly the angel had a tender feeling for the star who was going to be made a fixture in the theatrical world through his willingness to lose a few thousand dollors. Nowadays no reputable manager would let a company be formed for such purpose into his theater unles the play and the company had real merit. The last experience of this kind took place a year ago at the Casino, when a chorus girl was suddenly elevated into importance of a prima donna because somebody was willing to produce a comic opera for her. That enterprise soon went up.

New York productions cost much more now than they did fifteen years ago, and theater rents are higher. Actors also want some guaranty of salary now, and are not compelled to take whatever they can get in order to earn a living. They know that backers are likely to get tired very suddenly. One of the few theatrical cases of breach of contract that have recently been made public is the result of an angel's efforts to get out of paying the actors his representative engaged.

The old-fashioned trick of the manager who got an angel was to have some agreement with him by which only a certain amount was to be advanced. Of course, the manager never said this to the actors and scene painters to whom he introduced the backer. He allowed them to believe that the backer would see him through to any amount. When then mount that the angel had promised to supply was gone he could get out nad have no more responsibility in the matter. But the actors, costumers and scene painters had a hard time.

There have been very few cases in which a young woman was backed during recent years, and not one of them resulted in any success for her or for the angel who put up the money. Three years ago a firm of managers suddenly announced that they were going to make a star out of a young woman who had never before given signs that she deserved any such prominence. These managers were plungers, and nothing seemed too extravagant for them. It was surprising, however, that they should take the risk of losing so much money on a very uncertain proposition.

It was not known until the season was half over that the losses of the managers were being paid by a Bostonian. This young woman has disappeared now from the view of the publlc. The other star, scarcely known by name, who came forward last spring, has drifted back into the show girl class.

Another actress of established reputation decided to leave the comedian with whom she had been acting for years and become a star. All her attempts failed so long as, backed by the funds of an angel, she made efforts to be a star herself. When she was engaged by reputable managers who had found a vehicle that suited her she was a success from the very first.

One other element has helped to do away with the angel. New York failures are much more decided now than they used to be. There is no chance nowadays of playing along to moderate business when a piece has failed. It has to be taken out of the theaters immediately unless the backers of a show are willing to lose a very large amount. The possibility of standing to lose so much terrifies all but the most infatuated angel.

One of the lasts of the New York angels to be recorded was also one of the most singular. He put a large amount of money into a play, not for the sake of the star, who was an actress of standing, but for the opportunity it gave to a young woman to play the first part she ever had that contained more than three lines. The play was a failure, and its run of three weeks is said to have cost more than $21,000 to this friendly young man of wealth.

The angel is a much more popular figure in England than he is here. There died in London the other day a Russian prince of great wealth who had repeatedly put up the money for a woman who wanted to be an actress, but had no talent whatever. That was her pleasure, and every season some theater would be hired for her and she would act or do what she thought was acting so long as this generous patron of the drama was willing to hand out his money.

Actresses in England are nearly always able to find backers. Olga Nethersole has made several productions since she returned to London, and although they have all failed she has not lost a cent personally. She succeeded on one occasion in persuading Sir Thomas Lipton to pay for the production of her most expensive play. Cora Potter is another woman who has always succeeded in getting other persons to spend their money to help on her ambitions.

Beerbohm Tree is an English manager who has never had any trouble in securing all the backing he wanted to make his productions. Although he has gained a place near the head of the London stage, his productions have always been too costly for him to make much profit out of them, especially as Tree is not very popular with the London public.

Mrs. Langtry has occasionally been able to persuade some of her admirers to put up the money for her productions, although of late years she has generally paid the expenses herself. An English syndicate for several years backed Martin Harvey, but as he refused to engage another leading lady than his wife these men withdrew.

When a woman like Viola Allen, who has made a fortune, wants to imperil a part of it by producing a Shakespearean play at an expense of many thousands of dollars it is her own money that she risks. No backer come to her assistance. When Julia Marlowe lost $30,000 in producing "Que Flametta" in Boston she lost her own money and nobody else's.

Managers always pay for the production of plays for their stars, except in the case of such women as Viola Allen and Julia Marlowe, who are practically under their own management. Charles Frohman and his partners paid for "The Sorceress," which Mrs. Patrick Campbell acted all winter. Sothern and Hackett have in the past always paid for their own productions, even when they were very costly. They are their own managers, and so is Richard Mansfield. He spends little, however, on any of his new productions, and the properties for the recent Shakespearean revivals he has made have been bought in London from Sir Henry Irving and Beerbhom Tree.

Managers who have the expense of mounting a play are very unwilling as a rule to do it for their stars. They take pieces that are not expensive, and if it comes to spending money on what they call "a production" they prefer to do it with a play or a musical comedy that is not to have the assistance of a personality.

AT THE CONTINUOUS PERFORMANCE HORSE SHOW

Dowagers, Children, Young Women, Sportsmen and Others Try To Suit Their Taste In Horseflesh.

New York, June 17.—The summer breezes blow freely through the lofty arena, which is a pleasant place now even for those who do not go there for business. All day there stands before the wide door an interested crowd that disperses suddenly when one of the drivers turns his team toward Broadway.

All day there is a continuous horse show going on in this airy ring. It is not a horse show accompanied by music and a long list of boxholders. Yet there is fine horseflesh to be seen there, and the atmosphere could not be more horsey whatever else was done.

Grooms in the corduroy of the well conducted stable are there. Then negro boys, raggedly dressed, with only a cap or maybe a pair of riding breeches in very bad condition to tell of their vocation, but revealing in every move the enthusiastic delight a young negro feels in being among horses, are there to show off the equipments from the South. Dignified looking coachmen with the responsibility of conducting large stables are there, together with a varied lot of dealers, some to buy and some to sell.

Just now the gallery, which at some of the big auctions in the winter is certain to hold a crowd that has many qualities in common with the regular horse show attendants, is filled with runabouts, gigs, carts and traps of every kind. On the ring of this gallery are painted in vivid colors scenes of sporting life more remarkable for their spirit and intention than for any accuracy in their drawing.

From the ceiling hang two baskets of green plants that have outgrown their earth and trail in the air. The permeating smell of tanbark is always present.

In the center of the ring are grouped the vehicles and about them is the never ending show of horses. Around and around they are driven for the inspection of probable purchasers.

There are sometimes as many as ten spectators looking at the particular horses brought out for their approval. It rarely happens that any of the ten want to buy the same sore of team, so the variety of horseflesh is as attractive as its quality.

The chance to see the free show is irresistible to the public. Bolder spirits come inside the arena after they have lingered for a while and seen others make the attempt without failure. It is for their benefit that a large sign faces the man not there on business with these words:

"Loitering positively forbidden. No responsibility for accidents to loiterers."

"Which means," one of the grooms said, "that they bolt here sometimes, and it takes quick moving to get out of the way. Some of those fellows would like nothing better than the chance to bring a good damage suit."

No fear of bolting horses or any other accident can keep the crowds away from the front of the building, though.

Yesterday it was the purchase of a pair of carriage horses that absorbed a white-haired dowager, who, in the company of a cleanly shaven, gray-haired coachman in white buckskin breeches, gazed through her lorgnon at the comfortable pair of bays that were trotting at a discreet rate around the ring.

She stood in a corner, protected on three sides from any chance of accident, while the faithful coachman stood in front of her. Near her was a woman friend. In spite of these precautions, however, she was constantly jumping from one side to the other as if her life was in danger. At the door stood her victoria, in charge of the footman.

"I found we had to have another pair of horses for the train work," she said to her friend. "Someone's coming and going her house show accompanied by music and mobiles and now we have two, as one of the boys has sent his up for the summer.

"I can't use them, though. I know I shall be killed some day if I do. I can't stop either of those Frenchmen from going like the wind, try as I may. Either I can't speak French well enough for them or they don't want to hear me.

"I have to go to the station sometimes to meet people, so I needed another team. James, what do you think of these two?

James was non-committal and respectful. He told the dealer to bring out another team he had spoken of. The horses, which had been driven for a minute into a corner of the arena, trotted out to the stalls.

"Then I'm not the only one that hates automobiles," the dowager went on. "The other day dear old Mrs. Smith came out to spend a few days.

"The girls were all driving four-in-hand that day, and I had to make a final trial of one of the automobiles. I got down to the station with my hair almost falling down and my hat on the side of my head, and would have been more damaged if I hadn't literally hung on to the arm of the chauffeur.

"When I got there old Mrs. Smith positively refused to get into the machine. Did you ever hear of anything so absurd? I begged her and argued with her and even lied to her about the comfort of an automobile.

"But she wouldn't get in, and I finally had to hire a wagon from the livery stable."

James wanted his mistress' attention at this point. She looked at the third team that had been brought out.

"Take 'em, James, if they're safe," she said. "I like the color. You attend to the price and don't let 'em charge too much."

James went over to examine the animals more closely and dicker with the dealer and also arrange, unless he is different from every other coachman, for the amount of his commission. Accompanied by her friend, the dowager tremulously started out for the victoria.

A very pink-faced young man who was on the way to Central Park had stopped in at the market to give aid to a young girl who was watching with great interest the movements of a pair of stockily built cobs. They were making better time than any of the others, and the young girl's eyes danced with delight as the two horses came into view.

The young man, with his riding togs covered from view under a long tan coat, stood by the girl and the gray-bearded man beside her.

"Aren't they beautiful?" she says, "and papa's going to give them to me for a birthday present. Aren't you, papa?"

The gentleman smiled quizzically.

"Now, you know you are," the girl went on, "because you promised to. You can't go back on your word now."

The horses kept moving rapidly around the ring.

"Aren't they loves!" she mrumured to the youth at her side.

He had to be critical, however. His opinion was being asked for, and such a moment required dignity. He could not be expected to gush over a pair of cobs like a mere girl.

"Oh, yes," he said rather patronizingly. "They're all right. I should say the nigh horse was very much the better of the two."

He looked at the girl by his side and at her crestfallen look. There were little tears in the corner of her eyes.

"Oh, I thought you'd like them," she began.

He felt like a brute. He was heartily ashamed and started to square himself immediately.

"They're splendid," he said with an exaggerated enthusiasm which deceived the girl, however. "They are as fine a pair of cobs as I ever saw. I only noticed the difference between horses so nearly perfect."

She was delighted now, and when her father, who had been talking business with the owner, came over and told the two he had bought the horses, her cup of joy was full.

It rarely happens that the managers of the horse market see a day pass without a visit from some of the Long Island set. With the riding and hunting that go on down there, the need of horse flesh is sometimes sudden and immediate.

"Curse in for a huntuf," observed a tall, muscular man with a long, yellow mustache. "My mare's gone lame and I couldn't find a mount that suited me at Hempstead. Besides, I never feel at home on another person's horse. So I came in this morning to pick up something."

He glanced over to the horse ridden by a boy which was in the center of a group of grooms.

"Not bad," was the brief comment of his friend, who was short and red faced and looked like a groom himself.

"I like a rangey mare for mine," the thin man continued. "I think I'll mount her myself."

He jumped on the back of the beast after the negro boy and started the mare about the room. He halted suddenly as a sheepish looking groom led out a pony that had just been hitched to a small basket phaeton.

Selling ponies does not appeal to the sportsmanlike feeling of a groom. His colleagues smiled at him, and the persiflage between them luckily did not reach the ears of a child who was waiting in rapt ecstacy the arrival of the equipage. If she had heard, nothing could have dissatisfied her childish mind.

"Are you sure he is safe?" inquired the young mother who had made the purchase the day before and had come to give final instructions for shipping the rig to the country. "Can my little girl drive him?"

He was safe and he was gentle and he had no faults, according to the testimony of the groom, who was interested only in getting out of the view of his associates.

The inspection was finished at last, and as he entered the stable the last thing heard was a sarcastic illusion to Mike and his baby carriage.

These are the daytime scenes at the market now. Several times a week there are auction sales of blocks of horses that are brought on from the West or South. Then the arena swarms with horsey men, dealers, coachmen and stable keepers, bargaining and buying quietly in the hot, smoky air.

Horses appear quickly, are sold by the auctioneer and dragged out of sight again. The auctions are lurid, crowded, flashy occasions compared to the daytime session at private sale.

TRAVELING IN CHINA.

Three Modes Described By a Missionary.

New York, June 17.—Three modes of travel in China are entertainingly described by the Rev. Courtney H. Fenn, who is attached to the Pekin mission of the Presbyterian Board of Foreign Missions. The three travel methods were used on an interesting trip recently made. From his home in Pekin he went to the railroad station in a jinrikisha. He thus describes the trip:

"Half the way was through the still unchanged northern end of the city. After tortuous windings in and out, up and down, thumpety bump, one man pulling along the over-grown bed of carriage and a trot, another supporting it in the rear, first one side and then the other, to keep it from overturning, we came suddenly on a beautiful macadamized avenue, just completed to replace the filthy old native street on down to the southern wall of the city. Less than a mile further there lay before me the new legation quarters, a profusion of palatial residences, offices and barracks, all of which have sprung up from the charred ruins of legations and native shops of Pekin siege days. The contrast with the rest of the city is fairly startling."

The railroad station rests against the foot of the wall, so that the trains run right into the heart of the business section of the city, in spite of the huge dragon on which the city was supposed to rest, who, it was said, would resent the running of the "fire wheel wagon" over his head. "A ticket to the end of the Tung Chou branch, 18 miles," says Mr. Fenn, "costs 18 cents if you stand up in a freight car. Thirty-five cents if you sit in one end of the broad seated car, and 53 cents if you sit in the other end on seats running the other way. Eighteen cents was enough for me, so I stood up in the midst of a half open-sided freight car, amid a closely packed crowd of Chinamen of all ages and classes, even to the petty official, nearly everyone carrying his own bedding and various hand baggage. On leaving the train at the further terminus the passengers were beset by a multitude of donkey drivers eager for a load."

Mr. Fenn's third method of travel was by donkey and cart. He says: "My cart had started with my baggage the day before, so I did not patronize the donkey drivers. The cart is guiltless of springs, with two wheels set solid, and an arched top which forbids the introduction of an elevated seat. The genius of man never invented a more uncomfortable vehicle than a Chinese cart. The only seat which at all approaches comfort is out on the shafts which is a menial position from the Chinese point of view." A stop for lunch was made at a market town. The meal is thus described: "It consisted of native macaroni, with indescribable condiment, and some scrambled eggs, all saltless and to be eaten with chop sticks. I have not yet acquired the art of eating macaroni in the native style. Seizing a dozen or so string with his chop sticks, the Chinaman stuffs a section into his mouth, gives a tremendously sonorous suck, and the whole mass, about a yard long, disappears inside. But you mustn't laugh when you see him do it."

Save the Babies.

INFANT MORTALITY is something frightful. We can hardly realize that of all the children born in civilized countries, twentytwo per cent., or nearly one-quarter, die before they reach one year; thirtyseven per cent., or more than one-third, before they are five, and one-half before they are fifteen!

We do not hesitate to say that a timely use of Castoria would save a majority of these precious lives. Neither do we hesitate to say that many of these infantile deaths are occasioned by the use of narcotic preparations. Drops, tinctures and soothing syrups sold for children's complaints contain more or less opium, or morphine. They are, in considerable quantities, deadly poisons. In any quanity they stupefy, retard circulation and lead to congestions, sickness, death. Castoria operates exactly the reverse, but you must see that it bears the signature of Chas. H. Fletcher. Castoria causes the blood to circulate properly, opens the pores of the skin and allays fever.

Letters from Prominent Physicians addressed to Chas. H. Fletcher.

Dr. A. F. Peeler, of St. Louis, Mo., says: "I have prescribed your Castoria in many cases and have always found it an efficient and speedy remedy."

Dr. E. Down, of Philadelphia, Pa., says: "I have prescribed your Castoria in my practice for many years with great satisfaction to myself and benefit to my patients."

Dr. J. E. Waggoner, of Chicago, Ill., says: "I can most heartily recommend your Castoria to the public as a remedy for children's complaints. I have tried it and found it of great value."

Dr. Edward Parrish, of Brooklyn, N. Y., says: "I have used your Castoria in my own household with good results, and have advised several patients to use it for its mild laxative effect and freedom from harm."

Dr. J. B. Elliott, of New York City, says: "Having during the past six years prescribed your Castoria for infantile stomach disorders, I most heartily commend its use. The formula contains nothing deleterious to the most delicate of children."

Dr. C. G. Sprague, of Omaha, Neb., says: "Your Castoria is an ideal medicine for children, and I frequently prescribe it. While I do not advocate the indiscriminate use of proprietary medicines, yet Castoria is an exception for conditions which arise in the care of children."

Dr. J. A. Parker, of Kansas City, Mo., says: "Your Castoria holds the esteem of the medical profession in a manner held by no other proprietary preparation. It is a sure and reliable medicine for infants and children. In fact, it is the universal household remedy for infantile ailments."

Dr. H. F. Merrill, of Augusta, Me., says: "Castoria is one of the very finest and most remarkable remedies for infants and children. In my opinion your Castoria has saved thousands from an early grave. I can furnish hundreds of testimonials from this locality as to its efficiency and merits."

Dr. Norman M. Geer, of Cleveland, Ohio, says: "During the last twelve years I have frequently recommended your Castoria as one of the best preparations of the kind, being safe in the hands of parents and very effective in children's disorders, while the ease with which such a pleasant preparation can be administered is a great advantage."

Dr. F. H. Kyle, of St. Paul, Minn., says: "It affords me pleasure to add my name to the long list of those who have used and now endorse your Castoria. The fact of the ingredients being known through the printing of the formula on the wrapper is one good and sufficient reason for the recommendation of any physician. I know of its good qualities and recommend it cheerfully."

LADDER FREES BRIDAL COUPLE

From Rice and Old Slippers While Guests Wait.

Chillicothe, Mo., June 16.—By climbing through an upstairs window at the Hoge home Mr. and Mrs. Virgil Oliver, who were married there at 8 o'clock in the evening, successfully eluded crowds of friends stationed at both doors downstairs waiting to escort the couple to the depot for a "send-off."

It was a most successful "get-away." The bride and groom disappeared as if though they had been swallowed by some sudden earthquake. After Mrs. Oliver had received the congratulations of her friends she retired to her room upstairs to change her wedding dress for a traveling suit. Mr. Oliver followed soon, and while the would-be shoe and rice throwers waited patiently below before locked doors the couple took advantage of the only avenue of escape and descended from the window by means of a tall ladder.

Then they went to the home of the bride's grandfather, Solomon Hoge, on Webster street, where they got their suit cases. Mr. Hoge, who had been to the wedding, was returning home when he saw a couple walk out of his house. He thought they were burglars, but later discovered their identity.

That was the last seen of Mr. and Mrs. Oliver.

QUICK MAIL SERVICE.

Montreal, June 16.—The mails brought by the turbine steamer Virginian arrived here today by rail from Rimouski, six days and twenty-one hours from the time she received them at Moville and quicker by hours than the same mails could reach Montreal via New York.

ROW AT BRYN MAWR

Because Principal Stopped Smoking By Gardeners.

Bryn Mawr, Pa., June 7.—"We smoke our pipes or we hand in our resignations."

This was the ultimatum a dozen usually good-natured Irishmen who are employed on the Bryn Mawr college grounds have given their foreman, William Foley, because of the order promulgated by Miss Caroline Lewis, superintendent of grounds that none of the men were to smoke during working hours on any part of the college grounds.

When the Bryn Mawr College girls walked out from their dormitories onto the campus there were twelve Irishmen standing against the side of one of the buildings each with a clay pipe in his hand and his hoe and rake over his shoulder.

"Ever since the college was a college we gardeners have smoked out on the grounds when we weren't near anybody," said one of the men.

"And I always take my pipe out of my mouth when I see one of the young ladies a-comin' across the lawn," said another. "Sure, there's a hole in my pants now made by shoving my lighted pipe into my pocket when I saw the superintendent herself approaching yesterday."

Foley told the strikers that if they would go to work, he would go and see Miss Lewis and find out what could be done. This they finally agreed to do. The matter will probably be held under advisement for a couple of days, and meanwhile the men will work without their pipes.

CRIPPLE CREEK DISTRICT.

Operations Being Pushed on the Elkton Property.

Colorado Springs, Colo., June 17.—Operations on the Elkton property, both by lessees and the company, were never being pushed as hard as at the present time. An average output of about 130 tons daily is being maintained.

Lessee Sharp, operating the Washington claim of the Stratton Independence company, is pushing the work ahead with great speed. The shipments each month run from ten to twelve carloads of $50 ore. The ore is being mined from a depth of 200 feet, coming from several different points.

The El Paso company on Beacon Hill is now shipping out a large tonnage of high grade ore, larger than ever before in its history, the shipments daily amounting to about eighty tons that run over three ounces in gold to the ton. Besides this, the company is sacking ore at one point in the mine and expects to send out a small carload of this rich stuff that will net the company several hundreds of thousands of dollars for the one shipment.

Operations are being pushed forward on the Prince Albert property, where the lessees are taking out regular shipments of $40 ore at a depth of 250 feet.

Operators working the Henry Adney property on Beacon Hill are now maintaining a regular monthly production of about ten carloads, which returns values of three ounces in gold to the ton. The operators are now employing between thirty and forty men. A winze is being sunk from the 500-foot level, which is proving profitable as some rich ore is being obtained.

Operators working the Oro property on Ironclad Hill at a depth of forty feet, have opened up two feet of ore that is running better than two ounces in gold to the ton. The ore was encountered while sinking the shaft and the operators will continue on down until a depth of 150 feet is attained. When at this point laterals will be extended to the ore shoot that was opened above.

Operations on the American Eagle mine on Bull Hill, owned by the Stratton estate, are being pushed forward and conditions are getting better as work continues. The winze which is being sunk below the 1,500-foot level is now showing a splendid grade of ore. The bottom of the winze is now seventy feet below the level. This is the deepest ore ever mined in the camp.

Fargo, 8; Crookston, 2.

GAMES TODAY.
St. Cloud-Brainerd at Duluth.
Winnipeg at Grand Forks.
Fargo at Crookston.

Thirty-three uproarious fans and twenty-seven members of the fair sex filed into the grand stand and bleachers yesterday afternoon and shivered spasmodically while they watched the Duluth men trim the hyphenated aggregation in another of the deathbed rallies which appear to have become chronic with the Champs.

These arctic league affairs are getting monotonous. The true fan will brave the chances of pneumonia once or twice to see a ball game, but when the thermometer heads for the bottom of the tube, and the playful northeast zephyrs sing through the openwork seats in the bleachers, even the most devoted of the faithful are content to hug the family fireside and read the weather man's cheerful fictions.

In addition to all these troubles, the managers had to sit by and watch Shortstop Harris bang a third of the gate receipts over the left field fence in the second inning, and see the remaining two-thirds go up in smoke when Mullen cracked a bat reaching for a wide out curve. There was not enough of a drag left to pay for the car fare of the players.

Oscar, Erick, Edward, etc., Erickson was the dealer in this little game of freeze-out, and he appeared to have the deck stacked. He allowed the nameless players just enough hits and runs during the first five innings to keep them interested, and just as they were beginning to figure how far up the percentage table the victory would shove them, the Duluth players drew a cold hand and the stuff was off. As a trust-buster, Erick-Edward showed himself to be all to the good, and he had the combination from various cities hunting grass.

"Snow" White, the captain of the twin city bunch, reached first in the initial act by the four-ball route, and then Shortstop Harris did his little till-robbing act by pushing a $1.50 ball, which the league buys at a wholesale price of $12 a dozen, over the left field fence.

In the second spasm Howells singled and scored on a two-bagger by Spicer. Two more came in the fourth on singles by Hanson, Spicer and Wing, and some clever base running.

The final tally came in the fifth on a single by Ronesch and a two-sacker by Hanson.

Up to this time Captain Arthur's men had met with good success in their egg hunting expedition and five large round circles appeared on the score board. Mr. "Lefty" Hanson was beginning to have visions of big league company, when his dream was rudely shattered. Two singles an error and a two-base hit were made to yield up a run in the sixth, and the Champs started after Mr. Hanson in proper style in the fatal seventh.

Mullen fanned, and Si sent a little grounder to White. Si was looking for a two-bagger and when he saw the ball bounding nicely to the captain, your uncle Silas was angry. With one mighty heave he hove his bat behind him, and caused no little commotion among Captain Arthur's stalwarts on the bench. While Si was watching the slaughter of the innocents, Snow White let the grounder through him, and Si grasped the situation in time to sprint to first. Then Togo Weiler hammered out a single, and Si went to third. What followed happened too rapidly for the fans to follow, but when it was all over Weiler was on second, Si had joined the happy throng of run getters, and Snow White had an error and a bruise on his head that looked like a hen's egg. Then Menefee and Captain Arthur slammed out two-baggers in quick succession. Neighbors kept up the joyous merry-go-round with a long single, and Oscar Edward Erick followed with his fourth safe hit of the day. Then McAleese broke Hanson's heart with a two-bagger that went to the deep left field fence, and five tallies were in.

Both teams took a lay-off in the eighth, and in the ninth, the Champs put an end to the struggle when Captain Arthur singled, went to second on a sacrifice, to third on a scratch hit by Erickson and scored on McAleese's two-bagger.

BROWN, 933 Arch St., Philadelphia, Penn., for BROWN'S BLOOD CURE, $1.00 per bottle; lasts one month. Sold in Duluth only by Max Wirth, 13 W. Sup. St.

WIN THE SECOND.

Maroons Administer a Shutout to Grand Forks.

Grand Forks, June 17.—(Special to The Herald.)—Winnipeg took the second game from the Tigers in a rather slow exhibition of the national game. Sporer, who was on the slab for the visitors, had things his own way, and let the Tigers feel of the ball just three times. Spanton was on the delivering table for the locals, and allowed the visitors ten hits, which was more than sufficient to cinch the game. At critical times the Tigers seemed to lack the goods, and once or twice a hit would have tied the score, but the hit was not there.

Time of game, 1:35. Umpire, Anderson.

WIN AGAIN.

Fargo Takes Second Game From Crookston Team.

Crookston, June 17.—(Special to The Herald.)—Crookston was given another drubbing in the game with Fargo yesterday and though there were several spots in the game when a little timely hitting would have meant scores, there was always some one there, no mater where the balls were batted. Smith was clouted all over the diamond, but long flies, or line drives were gathered in by the pyrotical bunch from Dakota. The sensation of the game was in the sixth inning when with the bases full, Dorn tried hard to win his own game by slamming a line drive between right and center that boded ill for some of the boards in the back field fence. Rosy spread his wings, and after a phenomenal run made a one-handed spear which retired the side runless. The capture was the best seen on the local diamond this year. Smith had magnificent support throughout the game. Dorn for the locals pitched a game below his average. He had a falling out with his Umps, Irving, early in the game and was evidently warm under the collar during the balance of the fracas. Livingstone at second had his "boots" on again and let a costly one through him and booted some more. He redeemed himself by a splendid throw across the diamond catching the man at third when a double steal was attempted.

Rose carried off the honors at bat, getting four safe ones in five times up, one a two-bagger. Olson also contributed to the enthusiasm by making a splendid spear in left field and with a lightning throw caught the base runner at second also.

OFFERS A CUP

For International Match of Football Teams.

London, June 17.—Capt. Sir Ernest Cochrane, bart., has offered a cup of the value of $500 for competition between picked footbal teams representing Great Britain, Ireland, Canada and the United States. Sir Ernest suggests that the matches be played under the English association rules or under a combination of the rules governing football in the United States and Great Britain.

In making the offer Sir Ernest says: "International fotball offers opportunity for Great Britain to meet the United States in another field of sport. There is no doubt that the more contests the better it will be for both countries. Whichever country is the winner, the contestants will learn to know and appreciate each other and thus the several parts of the great Anglo-Saxon race will draw nearer together.

"We must not forget that the great universities of Yale, Harvard and Princeton, if they decide to play, will put forward a formidable team where national supremacy is at stake.

CLEVER YOUNG SHORTSTOP OF ATHLETICS

JOHN KNIGHT.

This youngster is the most youthful player in either of the big leagues. He is 17 years old and is holding down the shortstop job in fine style for the Philadelphia Athletics. He is also a good batter.

PROGRAM FOR AUTO RACES

Splendid Contests Are Scheduled For the Hamline Track.

St. Paul, June 17.—As the star cauffers who are to compete at Hamline track July 6 and 8 are scheduled to appear at the race meet at New York July 4, there will be a lively scramble to get their cars shipped to the Twin Cities and to get here themselves. Colonel E. H. R. Green, Major Miller and Webb Jay will come in private cars. Among the other competitors in New oYrk who will come to Hamline will be Barney Oldfield, Chevrolet, Earl Kiser, Canary, Christie, Johnson and Soles.

The program of the races is announced as follows:

THURSDAY, JULY 6.

One-mile, flying start, against world's circular track record.

Three-mile novelty, for fully equipped touring cars.

Dual club event, for Twin City challenge cup, competitors to be members of St. Paul or Minneapolis clubs, owners to drive.

Five-mile club championship between representatives of New York, Chicago and St. Paul clubs.

Five-mile handicap for cars taking part in run, owners to drive.

Manufacturers' and dealers' race, silver trophy, stripped stock cars.

Five-mile open, preliminary heats for class B cars, weight limited to 1,432, prizes $600, $300, $200.

Two-mile open, for amateurs.

Match race, two steam cars making best time to meet, winner to race against winner of match race between two fastest gasolene cars.

Invitation race, preliminary heats, three prizes.

Open race, preliminary heats, prizes $1,500, $750 and $250.

SATURDAY, JULY 8.

Two-mile flying start, against world's circular track record.

Two-miles novelty, women with escorts to drive.

Mile open, for Minnesota cars, record made to stand as official.

Five-mile cup championship, final, New York, Chicago and St. Paul clubs.

Five-mile handicap for touring cars driven by owners, three passengers.

Five-mile open, class B cars, final heat.

Manufacturers' and dealers' race, stripped stock cars.

Five-mile open for amateurs, final.

Final heat, $2,500 open race.

Final heat, $1,000 invitation race.

Two-mile open race for cars under 1,432 pounds, owners to enter and drive.

Five-mile open handicap pursuit race.

Match race for $500, four cars making best time in previous races to be selected.

CY YOUNG SECOND MAKING AS GOOD RECORD AS NAMESAKE

Boston Nationals' Brilliant Suothpaw Pitching Find of Present Season.

The find of the season in the pitching line is Irving M. Young of the Boston Nationals. He was recruited from the Concord (N. H.) team of the New England league, which has been the feeding ground for the major leagues. But, while dozens of ambitious players have fallen by the wayside, young "Cy" has more than made good, and thus early in the season has become the mainstay of the Boston National league team.

Young started out to earn a livelihood on the Boston & Maine railroad as a fireman at $60 a month. That was three years ago. Even when a boy he had a fondness for baseball, and when able to do so would pitch Saturday afternoons. I nthis way his skill developed and he was soon enrolled as twirler for a team representing the small town of Whitefield, N. H. His work attracted much attention through the Granite State, and in the spring of 1904, after numerous offers, he signed a contract with the Concord team.

Then he decided to leave the locomotive cab and devote himself to baseball. Last year he won twenty of the thirty-five contests in which he figured and pitched one tie, a thirteen-inning battle. His fame drifted to other states and scouts from several big clubs went after him. The Boston triumvirs were successful and he became a member of Tenney's club this year.

Even before his advent into major league company he was jokingly called "Cy" Young, and this case has proved one of the rare instances where the joke has been turned aside by the target. The newcomer seems destined to more than fill the shoes of his namesake in the American league. His pitching has been nothing short of the marvelous. It would be so for an old stager in the National league ranks, but for a newcomer with less than two mouths' facing the giant sluggers of teams that were organized before he

IRVING M. YOUNG.

was born, it seems to border on the miraculous.

Capt. Tenney is jubilant over the noted acquisition to his ranks, and his victory, in which he outdistanced Mathewson, set the baseball world agog. Thus far he has won more games than any two of the other Boston twirlers.

He isn't very tall, but, on the other hand, is short and stocky. He has a tremendous pair of shoulders and is a left-wing artist. All he claims is 27 years and he weighs 180 pounds. What makes his performance the more remarkable is his steadiness, which left-handed pitchers so often lack. In four of his games he did not give a free trip and has five shut-outs to his credit, one being over Chicago, one over Pittsburg, two over the Phillies and one over New York.

He has not been able to whitewash a rival team yet without a man on the other side reaching the first corner, but it must be borne in mind that the veteran "Cy" didn't accomplish that feat until last year, and the new "Cy" has plenty of time yet to make good.

BOAT CLUB RACES

Regatta Will Be Held on Bay Next Saturday.

Coaches Are Looking For More Material For Crews.

One week from today the first club regatta of the season will be held by the Duluth Boat club as a preliminary to the big regatta between the Winnipeg, St. Paul and Duluth clubs, to be held in July.

If possible an eight-oared race will be held over the regular course, which will be used in the regatta in July. Two or three four-oared crews and some doubles will also be matched.

The start in the races will be made down the shore of Park Point and the finish will be in front of the boat house.

The object of the regatta is to get the men used to rowing against opponents, instead of merely against time, and show them the value of a quick start and the necessity for attending strictly to their own rowing and allowing their opponents to take care of themselves.

The course of a mile and five-eighths will probably be measured off this week, and the crews sent over it every evening until the date of the big regatta in July arrives.

The races next Saturday will begin at 6 o'clock or very shortly after. Following it the crews will be given a dinner in the new cafe and an informal dance will then be held.

The coaches are still looking for good material for the crews. None of the crews for the regatta have been picked yet, and every man has an equal chance to represent te club against the visitors. The more men show up in good form, the more crews will be entered in the races. If enough good oarsmen made their appearance, the club could enter two eights, and three or four four-oared shells, so that any of the members who have ambitions to represent the club in the regatta, need have no fear but that plenty of opportunity will be given them. At the present time not more than twelve or sixteen men are turning out regularly every evening. This number is just sufficient to man the eight, and either one or two fours. Next week the new shells will be here and the club will then have enough equipment to accommodate thirty or forty men at one time, and the coaches would like to see that number in racing clothes.

Plans are being considered for enclosing the south side of the balcony with glass for the accommodation of the new cafe, which at present interferes with the free use of the lounging room and ball room.

HARVARD AFTER TALENT.

Coach Reid Is Looking For Football Players.

Cambridge, Mass., June 17.—The report from New Haven that Thompson, the star Andover football guard, and Lannigan and Brown, the fast Andover baseball battery, will probably go to Harvard next year instead of to Yale, as has been so long expected, shows, beyond doubt, that Bill Reid, Harvard's new football coach, is letting no grass grow under his feet in order to bring athletes to the Crimson university.

When Reid first took charge he declared that he would not hesitate to try honorably to induce prep-school stars to enter Harvard. That he has succeeded in inducing at least three of these, and men who otherwise would have gone to Yale, the Crimson's most dreaded rival, now seems apparent. All this season Reid has been helping coach the Andover baseball nine and in this way he has come in close touch with the athletes of that institution. Just what inducement he has held out to them is uncertain. Certainly it is not money. Reid does not believe in that. But, equally certain is it that it must be something of a tangible nature, either in the way of assurances which are as good as promises, or of assistance where assistance can honestly be offered, from no other way could they be persuaded not to go to the college for which Andover eminently prepares and go to another against which for many years there has been a strong prejudice.

Reid is crafty. He knows Harvard will lose Coburn next year and that her football eleven needs good men. Hence his efforts to win Andover's athletes for the Crimson. Where the crusade will end no one can say, but if continued in the present vigorous methods, it ought certainly again to bring Harvard to the fore, as far as athletics are concerned.

EMPIRE CITY GIVES UP

The Grand Circuit Dates For This Season.

New York, June 17.—The Empire City club has decided to abandon the dates allotted for a grand circuit meet in August at its track near Yonkers. This will leave New York without a grand circuit meet, as the Brighton track concluded long ago to abandon trotting. The reasons for the decision of the Empire City club are declared to be the efforts of the club to enlarge its sphere of usefuliness, and the unsettled condition in racing in general. The real reason is probably the effort of the club to secure dates for thoroughbred racing, and its fight with the Jockey club, which may be taken into the courts.

NATIONAL SHOOT

Teams From Every State Will Compete on Ranges.

Duluth Militia Men Have Chance For Minnesota Team.

Duluth marksmen who are members of the militia companies at the Head of the Lakes, will probably have an opportunity to compete for a team which is likely to be sent from Minnesota to represent the militia companies of this state at the national shooting tournament to be held at Sea Grit, N. J., in August.

At the meeting of the National Board for the Promotion of Rifle Practice, held in Washington on Jan. 28, 1905, a committee was appointed of several of the prominent officials of the United States army to arrange for a national tournament. The tournament will be between teams of twelve men. Two may be sent from the United States army, one from the infantry and one from the cavalry, one from the United States navy; one from the marine corps; one from the naval academy; one from the West Point academy, and one from each state and territorial militia organization.

The tournament will last three days. On the first day the program will consist of slow fire at 200 and 600 yards, and rapid fire at 200 and 500 yards.

On the second day the men will shoot at 800 and 1,000 yards, with slow fire, and on the third day will hold two skirmish runs.

The team making the highest aggregate score will receive the national trophy which was donated by congress and $300 in cash.

The second prize is the Hilton trophy and $200 in cash.

The third prize is the New York trophy and $150 in cash, and the fourth, fifth and sixth prizes $100, $75 and $50 in cash. A medal will also be presented to each member of the six winning teams.

There will also be individual competitions and pistol competitions.

The Minnesota team will be selected from the three militia regiments, and members of Companies A and C will have an opportunity to compete for places. It is not unlikely that the two local companies will be represented by one or two members of the team, as they have been showing up well in the practice shoots which are held each week.

All expenses of the trip to Washington are borne by the government, and there is likely to be very keen competition for positions on the team. This was the object the government had in view, and the tournament will doubtless greatly stimulate the interest in rifle practice throughout the country.

IS THE QUEEN OF TROTTERS

But Lou Dillon Will Hardly Lower Record This Year.

Memphis, Tenn., June 17.—The coming of Lou Dillon from her winter quarters in California has caused many of the leading trainers and drivers of the grand circuit to enter into discussion here as to the probability of the trotting queen lowering her own world's trotting mile mark from 1:58½, and many arguments have been entered into. Ed Geers, the veteran Tennessee driver, who has driven many cracks to their best mark, and who sat behind The Abbott when that trotter created the world's figures subsequently lowered by the champion Cresceus, thinks that Lou Dillon will never equal the record with which she is credited. Neither does the Silent Man forecast better than a two-minute mark for Maj. Delmar, Lou Dillon's great rival of last year, but now the property of C. K. G. Billings, owner of the trotting queen.

Mr. Geers has witnessed all of the famous records made at the local course in past years. He timed Lou Dillon himself the day she followed behind a pacemaker and set the world's trotting mark at 1:58½, and Geers' private time was a fraction of a second faster than the official time displayed.

"They may talk about wind shields," said Geers while he was discussing Lou Dillon's possibilities for speed this season, "but I do not believe that I will live to see another such wonderful mile as Lou Dillon stepped when she created her first wirld's record over the Memphis track. She was furnished the poorest sort of pace. No wind shield was used, if you will remember, but a pace-maker that was supposed to precedt her just far enough to brush off the wind resistance was furnished, and did more damage than good, for when the pace-maker was not too far away he was backed up to Lou Dillon's nose, and in the final spurt to the wire Miller Sanders had to pull out and go around."

"That was the best mile Lou Dillon will ever trot, and if she does 2:00 this year I believe she will reach her limit of speed. At that Lou Dillon is the queen of trotters and will reign for many a day."

Horsemen here believe that Mr. Billings will send both Lou Dillon and Major Delmar against the time mark, and in addition will handle the mare in a race with Major Delmar, the latter to be driven by Harry Devereaux, the Cleveland expert.

The records made last year by the king and queen of trotters will form interesting reading right now, and are:

Major Delmar—		Lou Dillon—	
New York	2:02¼	Detroit	2:04
Readeville	2:02¼	Detroit	2:03¼
Providence	2:03	Memphis	2:01¾
Syracuse	2:02¼	Memphis	2:02½
Readeville	2:02¾	Memphis	2:01¼
Columbus	2:02¾	Memphis	2:01
Cincinnati	2:02¼	Memphis	2:01¼
Lexington	2:01¾	Memphis	2:00
Memphis	2:01¼		

Major Delmar's average time for season, 2:02¼.

Lou Dillon's average time for season, 2:02¾.

From the records it will be noticed that Major Delmar started the season at Readeville, although his first appearance was at Poughkeepsie, where he reduced the world's record for half a mile. He also lowered the world's record for high-wheel sulky, but these marks are not included in the comparative list.

Although there was much gossip and arguments concerning the final records made here by Lou Dillon after the Grand Circuit season closed last autumn, the mark of 2:01 was accepted officially, and the little mare is now credited officially at least with the world's best trotting mark, 1:58½, with wind shield as well as the world's record, 2:01, without wind shield.

THE DIAMOND—PUGILISM THE TURF—ATHLETICS

GOSSIP OF BOXERS

Some Critics Believe Corbett Has Been Unjustly Treated.

Naughton Asserts Draw Should Have Been the Decision.

San Francisco, June 17.—Arguments are still in progress over the decision in the Eddie Hanlon-Young Corbett contest, and it looks as if Homan's ruling on the occasion referred to will continue to stir up dierences of opinion until some other pugilistic happening of greater import causes the affair to be forgotten. The writer, among others, thought that a draw would have been a fairer verdict than the one that was handed down.

An occasional correspondent who held views contrary to mine wrote early in the week asking how I "figured it out." In view of the fact that I employed a couple of thousand words trying to set forth my ideas on the subject the morning after the bout the query seems rather curt, but I don't mind revamping my argument in the tabloid form. In my opinion Hanlon caught up to "Corbett," but did not pass him. If the affair had been a horse race, and I had to describe it, I should say that Corbett came into the stretch three lengths in the lead, and seemed to be slowing up. Hanlon, who appeared to be getting stronger the further they went, was only a neck to the bad at the drawgate, and was gaining inch by inch. In the last few strides Hanlon drew level, and there was nothing to choose between them as they went under the wire.

But Homan did not call it a dead heat, and that settles the matter for all time so far as bets and records are concerned.

Here is a little incident of the eleventh round that hasn't been told of before. It was in the round referred to that Corbett chipped the native son in the chin and brought him to his knees. That swift, glancing punch changed the aspect of affairs in an instant. Hanlon, who had been fighting coolly and systematically, and adding a little something to his lead in every round, was converted into a glassy-eyed, swaying mortal. Corbett, who had been loggy and possibly a trifle discouraged, suddenly brightened and tore in with flying gloves the moment Hanlon straightened up. Hanlon closed and held on, and, eager though Corbett was, he could not place a telling blow. Homan separated them, and Hanlon reeled in and clinched again. Once more the veins in Homan's neck swelled as he tried to split them apart.

"You had better stop it, Homan," whispered "Young Corbett" between gasps. "You remember what I did to this fellow before."

He referred to the December night two years ago when he battered Hanlon so mercilessly that the referee was compelled to interfere in the sixteenth round.

Hanlon's head was clearing, and he heard the words. Turning his face toward Homan as the three of them were entangled in some kind of a combination hold near the ropes, he said: "Don't you mind him, Ed. I'm going to win this fight in a round or two."

Well, the gritty little Turk didn't win "in a round or two," but he won eventually, and now those who have heard the story are wondering whether "Young Corbett" did not feel that he had about shot his bolt when he made the demand. Whether, in fact, it wasn't a case of Carson over again, when Jim Corbett is reported as having said to somebody: "Oh, why don't you count quicker?" when freckled Fitzsimmons was down on one knee.

The mention of Fitzsimmons recalls the fact that the baldheaded condor of the Cornish coast is to alight in the twenty-four-foot inclosure again. Fitzsimmons, it is understood, claims the title made vacant by Jeffries' retirement. He needs it for his collections, I suppose. According to his own showing he is now middleweight champion, light-heavyweight champion and full-grown champion of the world. He is willing to defend either of the two first mentioned, at the weight prescribed in each case, but if any one wants to fight him for the adult distinction, there is no limit as to tonnage. Good boy.

Good boy, Robert. You are certainly the "big store" of the pugilistic industry, and it may be, with Jeffries out of it, you are right, twice out of three times. In respect to the middleweight end of it a good many of us think you are romancing. You may be able to do "158," but not for fighting purposes.

It is somewhat confusing to have Bob Fitzsimmons and Mike Schreck boxing at Salt Lake for the light heavyweigth championship of the world on July 3 and Marvin Hart and Jack Root disputing "the" championship of the universe at Reno about the same time, but no doubt it will all be unraveled by and by. If Fitzsimmons wins his affair a real world's championship fight will loom up, for the veteran will be regarded as the proper person to defend the title, but if Fitzsimmons should go under in his go with Schreck there will be serious complications, as the foreign attaches say.

As to the claims of Root, Hart, Schreck and others, I believe there is a young amateur heavy in San Francisco now, who, within six months, would be able to down them all if he elects to turn professional. No, his name isn't Berger. It's Kauman, and he will be as heavy a man as Jeffries nearly before he is done growing. In the matter of lineage, I understand he is a mixture of German and Irish, a blend of blood that has been heard from before in fistic pursuits.

The San Francisco card for July has not been selected yet, although it looks as though Jimmy Britt and "Kid" Sullivan of the Herford string, will furnish the entertainment. Britt is about to start on a tramping tour through the Yosemite valley, leaving his brother Willie behind to attend to the match-making. Willie says that Sullivan can have a match if he wants it, and Morris Levy, the July promoter, is willing to furnish the ring. Herford, according to the best information, is making long distance inquiries about terms, so that there is every reason for believing that the match will be arranged within a few days. Levy favors a date during the first week in July.

The arena in the meadows of Colma is to be reopened under the management of Billy Roche, formerly of New York, but now an adopted native son. Roche says he wants to inject some new blood into the game, as he believes the public is waxing weary of the Britts and the Battling Nelsons. He will give weekly shows, beginning Saturday night, June 17, and will have George Peterson, a newly-blossomed professional, and Jack Clancy for his opening card. After that Charley Neary and Rufe Turner will be staged. Roche purposes bringing Buddy Ryan, Jimmy Walsh and other pugilists to the coast.

W. W. NAUGHTON.

CAPTAIN AND MANAGER OF ST. LOUIS CARDINALS

JIMMIE BURKE.

The new captain and manager of the St. Louis Cardinals is making a great record this season. For seven recent games his batting average was .456, while his fielding was without an error. As a manager Burke believes in getting results, and does not worry much about what others think of his way of getting them. When a player makes a break he gets a calling down on the spot and without any frills, and that ends the matter. If a player pulls off a good play on the other hand, Burke is the first one to pat him on the back and commend his work, and he does it on the field. Burke puts his heart and soul into the game, and the one thing a player will get called for is showing a lack of interest in the game. That is the worst crime on the ball field in Burke's estimation.

$25,000 FOR A YEARLING COLT

This Big Amount Recently Declined By August Belmont.

Lexington, Ky., June 17.—During his recent visit to his nursery stock farm in this county, August Belmont gave out the information that he had recently refused an offer of $25,000 for a yearling colt now at the farm. The youngster in question is the bay colt by Hastings, dam imp. Bella Donna, and is a half brother to the peerless Beldame. He is the product of the first mating of the nursery premier stallion to the noted mare, as in recent years Bella Donna has been bred to Magnetizer, im. Rayon d'Or, Henry of Navarre, and Octagon, sire of Beldame, but not until 1903, the year Beldame was a 2-year-old, was she bred to the son of Spendthrift. The colt is regarded by both Mr. Belmont and Supt. E. Kane as the highest type youngster ever bred and raised at the nursery establishment, and no offer of any magnitude would tempt the chairman of the Jockey club to part with him. eH will be entered in every important stake he is eligible to race for in 1906 and 1907, and he will also be engaged in many notable foreign events, among them the Grand Prix de Paris, the 2,000 guineas, Derby and Saint Leger. If he fails to prove the greatest race horse yet raised at the nursery stud, Mr. Belmont will be keenly disappointed, but if he makes good he is booked ultimately to succeed his sire in the stud. His dam, a famous broodmare, his sire's dam, a wonderful producer, and he, a great-grandson of Queen Mary, his breeding is as ultra-fashionable as can be conceived even in modern pedigrees. He has never had a sick hour since he was foaled and stood on his feet, an hour after he was born, as strong as an ordinary week-old foal. The youngster has already been named by the New York turfman and will race under the name of Don Enrique.

The 2-year-old brown filly, French Nun, by imp. The Friar, dam Vivandiere, by Troubadour, announced by Eastern papers as Capt. S. S. Brown's reliance in the classic Astoria stakes at Gravesend next Monday, will not go to the most in that event, as she has been turned out at the Senorita farm here since the recent spring meeting.

The stories now going the rounds that Sam Hildreth and John E. Madden made up their past differences and shook hands for the first time in years at Gravesend upon the receipt of the news that the former trainer of McChesney had been reinstated by the Jockey club are a little farfetched, as Madden and Hildreth had long since buried the hatchet. When the latter was trying to locate a farm in this section last winter he and Madden were seen together often and the master of Hamburg Place aided in every way possible in locating a place suitable to Hildreth. They were also very chummy during the fall and winter sales in this city and no one not acquainted with their past differences would have even surmised that they had ever been anything but the best of friends.

COMISKEY KICKS

Over the Work of Umpire Silk O' Laughlin In Chicago.

Good Men With the Indicator Scarce These Days.

Boston, June 17.—Charlie Comiske, the old baseball Comanche, now making big money with his baseball plant in Chicago, has come out strong after Umpire Silk O'Laughlin, the man who umpires with a chip on his shoulder. When Comiskey makes a kick it's well to tie a tag on the play. Comiskey was a player and knows the feelings of a man out to win. The player is often pressed and in bad humor over the loss of the game and should never show his colors. I have heard O'Laughlin boast of his wonderful ability to be always letter perfect even after umpiring a rank game of ball and can well understand how he could rile a sensitive ball player.

Comiskey has the proper feeling for his players, all old ball playing managers have a like feeling, and while they are usually the last to protest an umpire they prove the most stubborn when they once get after the arbitrators.

Umpires shoud go about their business fighting shy of trouble but never quitting once a bad deal is handed out.

When it comes to handling a game O'Laughlin is a clever umpire, but his little side plays tipping a player that he will get him is not business, nor is it good umpiring.

The major leagues picked up a couple of cracker jacks this season in Kelly and Rauswine. But real swell umpires are today a most difficult thing to dig up. In fact, the game has only produced about one dozen men who filled the bill and kept their heads.

Jack Sheridan and Robert Emslie are gems of the purest water. They never look for trouble but never jump a fence to avoid a scrappy player. I hear Sheridan intends quitting the game for the undertaking business. Handling the outs, as it were.

Jack has handled the live ones in good style and will, no doubt, become a big favorite ferrying the lost ones across the river.

When a ball team is weak at the bat the players lose their ginger and make weak-hearted fighters. It's then that opponents realize the condition of things and work all the harder with increased confidence to win, and the result is invariably that luck breaks for the aggressive team. Therefore it is well always to have a bunch of boys who can bump the ball, as well as do fielding stunts. There is no chance to couch unless you get men on the bases. Now, for that reason ball players should practice at least twice as much with the bat as in fielding. But they never do; in fact, not one-tenth as much, at least in the professional arena.

The college boys have the right idea of batting practice. You will always find at their ball parks and in their cages nettings surrounding the players taking batting practice, with padded walls back of the plate, so the batsman can return the balls.

If the professional players would follow the example of the college boys in regard to batting practice it would increase their stick work about 15 per cent, in my estimation.

I know of at least two major league ball players who have this season injured their batting eye by reading small printed books at night. Nothing could be worse than reading small print by electric or gas light, and that is one of the reasons that few college players remain great batsmen if they follow the game after leaving college. That's the very reason why Hugh Duffy lost his wonderful batting eye a few seasons ago while with the Boston club. Ball players should avoid reading by night, as well as stop reading on trains, if they care to remain in the business with good hitting lamps.

The greatest ball teams the game has produced have been composed of men who read but little and made one morning paper go the rounds of the club. Mike Kelley claimed that cigarettes was the most dangerous thing ball players could indulge in. If that was true, can you imagine a player doing his daily stunts on cigarettes and his evening novel?

Nothing seems to break in favor of Barney Dreyfuss since his great ball team was relegated to the second row.

His complaint against John McGraw was backed up by Mr. Temple, an ex-Pittsburg magnate, who made a lot of trouble in baseball by offering a cup and then withdrawing the same after Baltimore had won it, with McGraw on the make-up.

It was Mr. Temple's complaint, no doubt, that stirred up good-natured Harry Pulliam and caused the latter to go after McGraw with only the evidence of Messrs. Temple and Dreyfuss. It was the umpire's work, and not the word of Mr. Temple, that President Pulliam should have sought for, as the trouble took place on the ball field, and the umpire is supposed to be alive while the game is going on.

I don't think the game will suffer one iota by McGraw's action, but it has overlastingly put Mr. Dreyfuss in bad with the ball players and the baseball public outside of Pittsburg.

Judge Sheldon, before whom the case was tried and the injunction granted, is a great lover of the game, and gave President Pulliam to understand that the courts would uphold him in forcing discipline on the ball field, and now the league president will put the league machinery in working order and make no mistake when he goes after the next man. The belief is very strong here that Mr. Pulliam was attempting to punish McGraw for something that happened after he left the ball field. Mr. Dreyfuss handled his own case very poorly.

Here is one paragraph as near as memory can retain it:

"I ask for nothing what may surely be as it is. But those lawyers can make out what is not and never happened."

As neither Dryfuss nor McGraw are looked on as ball players, the chances for a renewal of the hostilities are very slight indeed this side of the paddock.

Now that the tristate outlaws have opened fire on the major leagues by taking Owens, of Brooklyn, trouble can be looked for from that quarter. Now that the big fellows are being sought after, the minor league players who jumped to that country are anxious to jump back, but will find a cold welcome. Take the New England league, which lost a dozen or fifteen players to the outlaws, it proved a good thing, as the league is more evenly matched and stronger than ever. On my way home last Sunday in New York I had a long talk with Frank Rinn, now managing the Lancaster club in the outlaw league.

Rinn is an old baseball man, and is running his club according to baseball law—that is, he will have nothing to do with players under contract to other clubs.

Rinn says that two or three clubs will kill the whole business in a short time, as they are paying much more money for salaries than is coming in at the gate. Small towns like Coatesville are trying to pay players as high as $300 per month, and one man at Harrisburg is drawing $900 per month for salary, nearly double what the same man could draw from organized ball.

Rinn says three or four clubs run the whole show, and will not allow the other clubs to know what they are doing in the regular meetings.

"These unnatural conditions can last but little longer," says Rinn, "and several of the wise ones are anxious to see the Tristate league under organized ball, where a man can invest his money with some show of security."

There is no good reason why one of the very best minor league of the country cannot be developed out of the clubs now going to make up the Tristate league. It would be a blessing to the game to allow these clubs to retain every player they now have.

T. H. MURNANE.

To lose is often merely not to find—as a business chance or bargain missed, and thus lost, through failure to read the ads.

A FRISCO FIGHT REFEREE

EDDIE SMITH.

Eddie Smith, whose picture appears above, is one of the foremost in his profession. He refereed the recent contest between Smith and White, and his decision was considered just on all sides.

Smith was an amateur boxer for several years. He was afterward appointed boxing instructor of the Reliance Athletic club of Oakland. He first refereed at the Olympic club of San Francisco in amateur torunaments, and has since then refereed about one hundred professional contests all over the state of California, some of the principal contests being Rube Ferns and Al Neal, Joe Wolcott and George Gardner, Harry Forbes and Frankie Neal, Joe Gans and Rufe Turner, Jimmy Britt and Frank Erne, Britt and Kid Lavigne, both contests of Eddie Hanlon and Bernie Yanger, James Jeffries and Joe Kennedy, Eddie Hanlon and Maurice Rauch, Jimmy Britt and Jabez White. Mr. Smith resides in Oakland, where he is a member of the board of health. Billy Delaney and others say he is one of the most conscientious fight referees in America.

NEW STARS COMING

New York, June 17.—New auto stars arise daily. Louis Chevrolet, driver of the big car of Maj. C. J. S. Miller, is one who is coming to the front so rapidly that Barney Oldfield feels feels rather put out; in fact, so much so that at Chicago he was successful in keeping Chevrolet from the $1,000 race on a protest, so it is said of the entry, which was made after closing. Chevrolet's mile in 0:52 4-5 at Morhis Park and his daring driving excited the admiration of Oldfield, who said "The man gets the real speed out of that car and he won't be beat until he goes through the fence once or twice or is killed." Meanwhile Maj. Miller, a Standard Oil millionaire, smiles and hurls Chevrolet into the vortex with all sorts of challenges for the championship, to race any one at any distance for any amount of money, and so on. Chevrolet is a man who for ten years has hung to automobiling without ever driving a racing car.

BREEDERS' LAW

Which Legalized Bookmaking In Missouri Is Now Repealed.

Union Track at St. Louis Will Never Be Used Again.

St. Louis, June 17.—At the end of yesterday's racing the breeders' law, under which bokmaking is legalized by the state and the meet conducted under the auspicies of the American Jockey club at Union track, came to an end. The getaway card was large and unwieldly, but a good crowd was out to witness the passing of the sport at the Union track, which it is very probable will never be used for racing purposes again.

Pipe, a three to two favorite, won the feature of the card, a handicap at six furlongs.

With the running of the last race yesterday at Delmar, the old order of conducting the speculative side of the sport passed into history, together with the breeders' law, repealed at the last session of the St. Louis legislature and which allowed bookmaking within certain enclosures. The sub for the old law will be effective today and as the new statute makes it felony to sell pools or make books on any horse race, run either within or without the boundaries of the state, it is generally understood that a new system will be used at Delmar, the meet being scheduled to continue indefinitely.

The feature of yesterday's card was a six furlongs handicap, which was won by Elastic, a nine to five favorite.

New York, June 17.—Hamburg Belle, carrying 124 pounds and favorite in the betting won the Coney Island handicap, six furlongs on the main track at Sheepshead bay yesterday. She won in a drive by a length and a half and stepped the distance in 1:12 3-5. Hamburg Belle and Roseben ran head and head to the stretch, where the mare drew away and won. Voorhes, the three to five favorite, easily won the Daisy stakes, five furlongs on the turf, running the distance in one minute flat, which is a new track record. The mark of 1:00 2-5 was made by Florit IV. in 1904.

Cincinnati, June 17.—Nervator was the only winning favorite at Latonia yesterday. Beana easily won the handicap steeple chase from Creolin, with new Amsterdam third. Varner, the heavily played favorite, ran out at the water jump and finished in the bunch. In the final event Arthur Summer beat Sister Lillian, which was backed down from 40 to 1, by a nose. Double, the heavily played second choice, finished third.

Buffalo, N. Y., June 17.—The Lockport steeple chase the feature of the event at Kenilworth yesterday, was won by Al Pooles entry, Pick Time, and Trenct the Mere, in first and second places and played heavily. The race was a chapter of accidents.

Weak Men
Restored To
Health and Vigor

VITALITY is the pride of manhood, and its loss causes man to lose in his own estimation, realizing that he has fallen in importance in the universal struggle for favor, fame and fortune. There is so much in modern life to stimulate and excite male propensities and wreck the nervous system, that many men are almost universally burning the candle of life at both ends. If you are weak, nervous, listless, unambitious, unspirited, impotent and debilitated, you should consult us without delay. We cure many such cases every month, and never fail to restore a patient to robust, healthy manhood. We have not the space or desire to read you all the resultant vital complications that may arise from your weakened condition. But we invite you to call and talk over your case in confidence. You will be cheerfully received. Our fees are reasonable and our service that of a specialist skilled and trained by an extensive practice, study and research in the diseases of men.

The longest established and most reliable

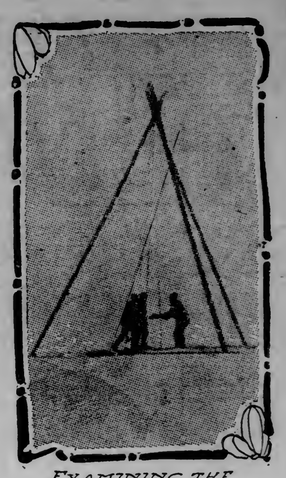
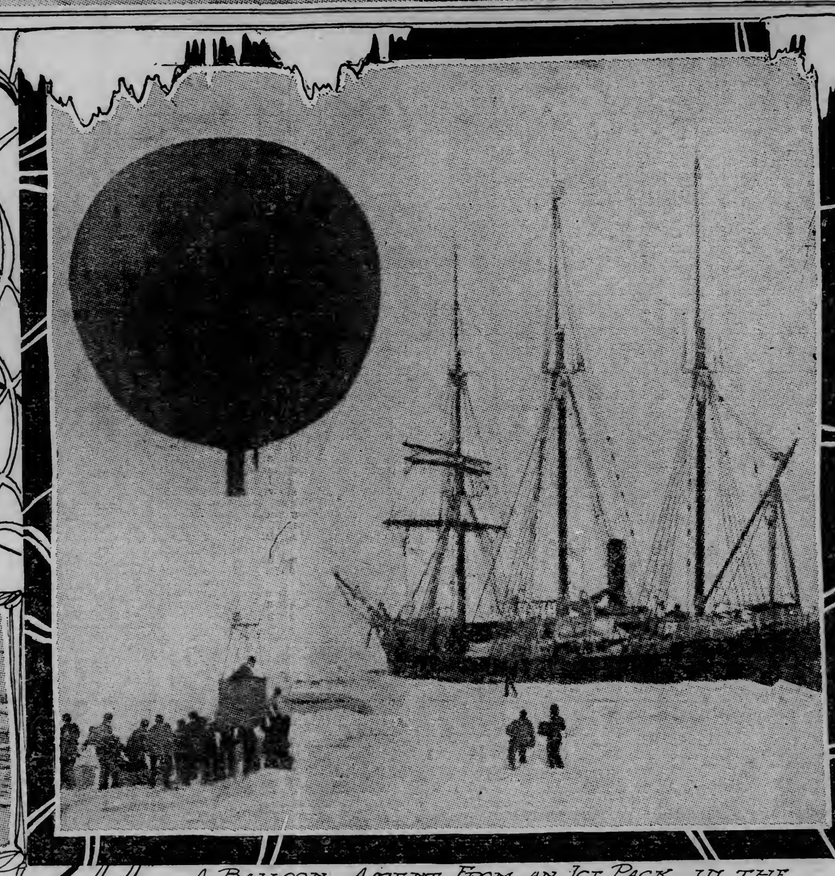
Seeking the South Pole

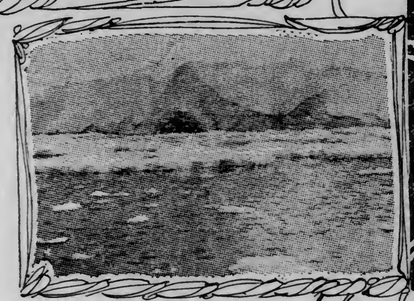


EXAMINING THE OCEAN THROUGH A BORING

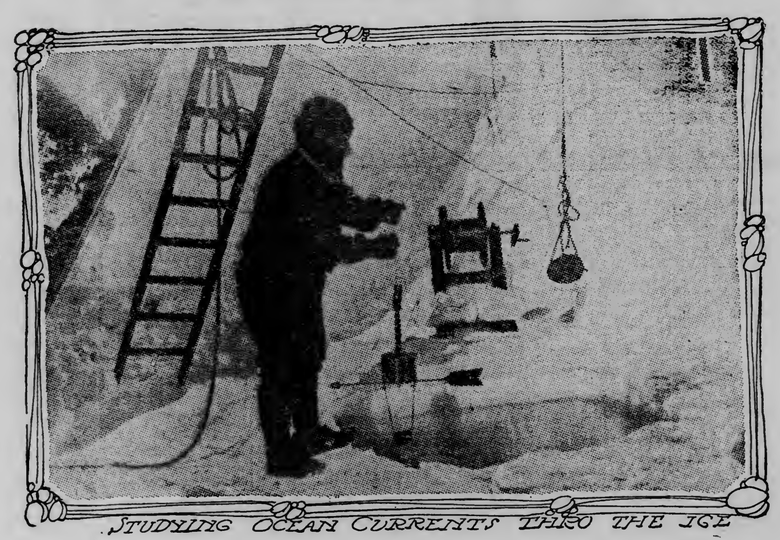
DIVING IN THE ICY WATERS OF THE ANTARTIC



A BALLOON ASCENT FROM AN ICE PACK IN THE VICINITY OF THE GAUSS"



EXTERIOR OF AN ICE GROTTO IN A BERG



STUDYING OCEAN CURRENTS THRO THE ICE

For nearly a hundred years man, conqueror of the remainder of the sphere on which we live, has placed among his chief ambitions a desire to set a triumphant foot, if only for a moment, upon both of those absolutely unknown and isolated points which science has placed at either end of the earth's axis—the North and the South Poles. The attempts to reach 90 degrees north latitude have been much more frequent and far more successful than have been the trials to conquer the vast ice-bound regions that lie about the highest point of farthest degree south. Yet the return of two expeditions in the southern polar regions—one that was made by the Germans in the Gauss and the other by the English in the Discovery—have added largely to our knowledge of places and conditions far more unknown than the area lying immediately about the North Pole. Moreover, it is undoubtedly a fact that there is every reason for believing that within 20 years the North Pole can be located and the flag of some enterprising nation planted where its imaginary line will protrude from the eternal ice of the Arctic Circle.

But the investigations of the Germans and English, who have spent two years in Antarctic waters, make it seem improbable that the South Pole will ever be set foot upon by man until some method of flying through the air has been perfected. Those scientists who have just returned from the South polar region have proved conclusively that the region of eternal ice extending out from the South Pole is at least seven times as great in extent as that which hems in its northern sister. This means a sledge journey that holds out no hope of reaching the pole. Moreover, the temperatures at the extreme south of the globe are much more severe than those at the north. This is due, of course, to the unequal inclination of the earth to the plane of its orbit about the sun. Moreover, as intense cold always tends to breed a further decrease in temperature, the vast ice fields around the Southern Pole are slowly, but surely, increasing in depth and area. So, while the world of science firmly believes that the North Pole will be reached within 20 years, there is apparently no hope of man reaching the southern limit of the earth so long as he is forced to travel over the surface of the globe. However, the true interests of science are not bound up with a mere reaching of an imaginary point at 90 degrees south latitude. The true scientific interest of South Polar expeditions lies in a study of the vegetable and animal life which is still able to sustain its existence under Antarctic conditions.

Where the Germans Made Their Attempt.

The Germans made use of Kerguelen Island, a dreary spot, deserving its second title of Desolation Island, as a rear base. It was discovered in 1772 by a Breton sailor named Kerguelen-Tremarec. The climate of the island is raw and storms are frequent, and most of the interior is covered with an ice sheet. There are, however, numerous fiords which form good harbors, and the position of the island renders it convenient as a base for various scientific observations. In 1874 it was visited by the Challenger and by the English, American and German expeditions to observe the transit of Venus. It was annexed by France in 1892.

It was from this island that the Gauss started on its southern journey towards Enderby Land after leaving a special observation party on the island, as it is essential in studying weather conditions or the changes in the deflection of the magnetic needle that simultaneous observations should be made by two or more parties of observers. The Gauss behaved splendidly, although she was unable to reach very high latitudes. The ship was frozen at a point near some newly-discovered land in 80 degrees 45 minutes east longitude where the ice was 30 feet thick, while the snow lying on that ice ranged from 30 to 40 feet in depth. Sled journeys were made from these winter quarters, but it was found that many of the members were suffering from frostbite and snow blindness. Some very interesting and important observations concerning Antarctic weather were made, which together with those recorded by other expeditions, will help to solve the difficult problem of forecasting the world's weather. The terrific gales which exist in various parts of the Antarctic show it to be a sort of "Throne of the Winds," and until the action of such an extremely disturbing area is known, weather forecasters will not have all the necessary facts at their command for foretelling storms and hurricanes. The climatic conditions of the winter station of the Gauss showed clearly that the zone of the west winds had been left behind and a new climatic area had been entered.

Plans That Have Vanished Recently.

Among the geographical results of the expedition is the discovery of the nonexistence of the Termination Island, the site of which was sailed over by the Gauss, while no trace of land was to be seen in the neighborhood. A similar astonishing disappearance of land has occurred in the case of Wilkes' Land, over one end of which the Discovery sailed. These two disappearances will serve to show how extremely cautious one has to be concerning the reality of certain islands and land in the Antarctic which have only been viewed at a distance by former travelers, who have not actually landed on the supposed lands.

Snowstorms the Worst Danger.

The severest enemy which the Gauss people had to contend with, both in the neighborhood of the ship and on the numerous sledge expeditions were the sudden and unexpected snowstorms. They were often so thick that all land marks vanished and optical illusions appeared. When the snow would close down like a white sheet, small hillocks, which were quite close to the men, seemed suddenly to turn into huge ice mountains, and all standards of distance were entirely lost. A man who, in such a storm, which came down with the suddenness of a tropical thunder shower, should unfortunately be a hundred feet away from shelter, stood but very small chance, if alone, of ever gaining the ship unaided. A sailor once had to go on board from an ice hut, which was only 30 feet from the ship. He lost his way in this little distance and was not found until two hours afterwards, when the whole crew tied themselves together with long ropes. As the man was known to be on the north side of the frozen-in vessel, the men spread out in a vast semicircle and searched in gradually widening circles the entire ground around the ship. The man had wandered in these two hours only 40 feet further from the ship and was found in an unconscious condition, covered with snow. The ship used to become completely buried in snow drifts, and all the buildings, which were built around the ship on the ice, would disappear within a few hours in a snow grave and have to be dug out with great labor when the snow flurry was over. If a party were out on a searching expedition, investigating the few signs of life which were evident, and such a snowstorm was encountered, there was nothing to do but to pitch the tent and make it as nearly airtight as possible. The men would then crawl into their sleeping sacks made of heavy fur, while the elements raged over them and the tent itself was often completely buried in the shifting snow drifts. While these brave men of science were thus protected from the snow in the midst of eternal ice by the light walls of a tent, their sole occupation for passing time would be to relate stories or to discuss scientific problems among themselves.

A description of the first live creature which the party met amid the snows of the Antarctic says: "It was within the Antartic Circle when, for the first time, we saw an object, strange, upright and motionless, near the seaside, which, upon investigation, proved to be made of flesh and blood, and not a fantastic carving in ice or snow, made by the wind and waters of the Antarctic Ocean. It resembled a human being. It made no sound, but moved its head slowly from side to side, but evidently without recognizing man—a species of animal entirely unknown amid these ice-closed waters and snow mountains. The strange being turned its small, dark head upon a close head attached gracefully to a black and white body. The creature made no effort to escape, and the expedition captured an "empero. penguin." The bird has a certain melancholy majesty about it and measured nearly four feet in height."

Wintering on the Ice.

Prof. von Drygalski was the head of the Gauss expedition, and it is evident that the German leader was a bold investigator and a prudent organizer, to whom the real end of his mission was of such great importance that in the first reports little was said about the courageous undertakings, bold defiance of death and cool, scientific observation under dangerous conditions. The original reports may possibly have been a little suppressive on this side of the expedition, but this is now made good in the full narrative, which is told with great descriptive power and dry humor. It was on February 14, 1902, that the Gauss reached the edge of the Antarctic ice; it was in the last days of the same month that it became frozen in.

The expedition was, therefore, forced to winter on the ice instead of on land, this peculiar situation rendering the sledge expeditions from the ship very difficult as it was impossible to know whether the return route would be intact when homeward bound toward the ship. Troops of emperor penguins, the strange animals that "swim on the ice and fly in the water," gave great amusement to the men. Some of the more inquisitive among the penguins would actually walk on board, and it was only under pressure of necessity that the crew brought themselves to kill these strange confiding birds. Drygalski sings a perfect song of praise to the Siberian and Kamchatka dogs, whose power of resisting cold was astonishing. In the severest snowstorms they would lie rolled together, quietly letting themselves get snowed up till only a hole was left for their spiky noses to breathe through.

Deep-sea Diving Under the Ice.

But while neither the German nor the English expeditions to the South Pole made any marked advances over previous attempts to reach the pole itself, the men in studying the country underwent dangers which could not have been surpassed in severity if the pole had actually been reached. For, not only were the ice conditions studied and what few animals and plants that could be found, but even beneath the icy waters of the Antarctic Ocean investigations were made and the results written out and tabulated for scientific records. It seems almost unbelievable that the professional diver who accompanied the Gauss should have had the hardihood to put on his rubber and metal suit and, dropping through a hole 14 feet deep, slowly sink 30 feet below the ice-covered surface to a point where even the frigid temperature of the Antarctic circle were powerless to affect the life on the floor of the ocean surrounding the South Pole. This feature of the exploration is undoubtedly the most marvelous of all. Deep-sea diving has never been attempted before either in the Northern or southern polar ocean.

A study of the results of the Antarctic expedition, aside from the establishment of the scientific details, is most interesting to the general public as proving beyond any doubt that the Antarctic region is even more inhospitable and impossible for human purposes than the Northern regions of eternal ice. Those adventurous spirits who yearn to seek glory in finding the earth's pole are now warned to confine their exertions to trying to locate the North Pole. As for the southern end of the earth's axis, nature has surrounded it with a natural protection built up of hundreds of miles of mountain ranges formed from the slowly increasing ice cap that rests its untold weight upon the Southern Pole. The vast magnitude of this southern ice cap can be best expressed to the ordinary imagination by the single statement that should these mountain ranges of ice suddenly melt through some marvelous cause, as if, for example, the South Pole should be struck by a huge comet, the melting of the Antarctic ice cap overnight would submerge every continent on the globe, destroy the balance of the earth on its axis and within a swift period of time remove every trace of living life off the surface of the globe.

Why the Leaves Fade in Autumn.

The primary cause of the withering of the leaves in autumn is the chilling of the soil, and the process advances far before it is accelerated or completed by freezing. Roots are unable to absorb as much water in cool soil as in warm—are stopped from it altogether in very cold earth. They ought not to be urged to do it by the pumping leaves, and so the leaves, partly because their supplies are withdrawn, partly to relieve the plant of their demand, are cast off. With the first reduction of temperature in the soil and consequent lessening of water (with its dissolved sustenance) from the roots, the protoplasm begins to withdraw from the leaves.

In "evergreen" leaves, which are fitted by their compact shape and other properties to resist wintry influences, the grains of green coloring matter (chlorophyl) sink to the cells underlying the surface and are half hidden, so that these leaves become dull in color, veiled under a film of empty surface cells. In the leaves of deciduous trees, however, such as our ordinary hardwoods, the chlorophyl disappears altogether, retrenting with the other protoplasmic materials into the branches, stem and other more sheltered parts of the plants. Steadily these cell contents, carrying the starch, sugar and all that is serviceable to the plant, migrate backward along the paths by which they descended. In the trees and shrubs they lodge in the woody parts, but in many herbaceous plants they go below the grounds to be stored on underground stems, or in tuberous roots, and drawn on next spring for the fresh growth of leaves. Hence our potatoes, turnips, beets, etc., do not get their fulness until the "tops" have withered and contributed their materials. Nothing is now left in the leaves but a framework of empty cells and a certain residue of materials no longer useful, which it is an advantage to the plant to get rid of, so that the falling of the leaves is in one view a useful process of excretion.

An armor-plated motor car, carrying a quick-firing field gun, is being constructed at the Daimler Works, in Wiener-Neustadt, Austria. It will be so arranged that it can be fired in all directions, even over the head of the driver.

The Man Behind the" Scenes."

"Props," as the property man of a theater is always called, is well named, for he is literally one of the props of a theater, and a very important one. He is one of those workers who, though not seen personally, yet do a great deal toward obtaining a handsome setting and smooth performance. One very small mistake made by him might easily ruin a representation. Everything put upon the stage or used there is under his sole care, and if a letter, a pocketbook, a knife, a book or a sword should not be in its place, a play might come to grief and end amid unintentional laughter.

Just fancy a scene in which the villain drags the heroine up the stage to some desk or table where there should be a knife, dagger or pistol, and after a struggle gets one hand free and reaches for the weapon, only to find it not there. Many such things have happened, and will happen again; and innumerable are the stories of the funny things actors have said or done when they couldn't find the means to kill themselves or others.

The first-class "prop" must be a pretty fair artist, sculptor, carpenter and cabinet-maker. He must have much taste as a furnisher and decorator, have almost a woman's skill in making a room seem homelike, and a woman's or tailor's ability to use needle and thread. Since papier mache has been found to be an available material for imitating china, carved metal and woodwork, gold and silver plate and statuary, the standard of artistic ability demanded from "props" has greatly advanced. Nowadays in a first-class theater all the vases and bric-a-brac and statuary that are so lavishly displayed are, as a rule, made of this material, the possibilities of which are even yet only half known. A skilful worker in this produces articles that look quite as well as those imitated and are not breakable, are very light and cost a mere trifle. A good "props" will also make artificial flowers and plants, fruits and all the fowls, turkeys, joints and even bread and cakes used at a stage banquet. He also brews the tea that does duty for still wines, and has been called upon to fake up imitation champagne when the manager was too mean to pay for the ginger ale which is the usual substitute.

"Props" is generally miserable when he has to do with live animals, the care of which devolves upon him; but the deepest depths of his troubles are reached when a live baby is needed. Of course, he doesn't keep this in the property-room, but as the parents of live babies are not generally well off, he has to buy clothes for the minute actor and keep them clean and in order. Often he has to cook food for it, if its appearances are spread over more than one act, and his best efforts are often useless in trying to keep his terror quiet. In a traveling company the "props" is not an artist, but simply a mechanic. He does not make anything, but limits his exertions to wrestling with trunks and borrowing furniture.

A Woman's Chance for Life

Every woman has the signs which tell the experienced whether she will live to be very old. Here are some of the supposed signs of longevity. The woman who appears taller in proportion when sitting down than when standing has a good chance of long life. If the body is long in proportion to the limbs, the heart, lungs and digestive organs are large. The pulse should beat with a full and normal stroke. The limbs and joints should be large and well formed. Those who resemble their mothers may expect to live longest, and the firstborn is longer lived than other children. Out of 1,000,000 persons, 225 women reach the age of 100 years. Only 82 men in the same number are privileged to see a century of life. One of the secrets of long life is to have plenty of sleep, and other rules are: To sleep on the right side; keep the bedroom window open all night; take a bath at the same temperature as the body every morning; don't have the pets in the living-rooms; take daily exercise in the open air; watch the three D's—drinking water, dampness and drains; limit your ambitions; keep your temper; worry less, work more; ride less, walk more; eat less, chew more; preach less, practice more.

The Shah of Persia has placed an order in Paris for two touring automobiles, the price of which is reported to be $9,500 each machine.

Cane sugar cultivation is making steady progress in Egypt. This industry in the land of the Nile is constantly growing, and several new sugar mills are under construction.

The London fire department is engaged in testing an apparatus that comprises in one machine a chemical engine, a powerful fire pump, a fire escape and a hose tender, motor driven and worked.

The other day a member of a London borough council said he had watched a man working on one of the borough streets who dropped his pick into one hole fully 150 times without moving anything.

DULUTH'S NEIGHBORS.

Aitkin

Aitkin, June 17.—(Special to The Herald.)—Mrs. Edelbrock is visiting friends in St. Paul.

Miss Reddick has returned from the St. Cloud Normal.

Miss Evelyn Young is visiting her sister, Mrs. Scott at Hibbing.

Mrs. J. F. Avery went to Minneapolis Saturday to be present at the marriage of her sister which occurred Wednesday.

Mrs. John Hartman of Carlton is the guest of her mother Mrs. Lulu Sanford.

Miss Harriet McMurdy has completed her school in Pine county and returned to her home here.

The Aitkin Study club closed their year's work last week with a banquet at the home of Mrs. Potter.

Mr. and Mrs. D. W. Komerer and family have gone to their summer cottage on an island in Clear lake, where they will spend several weeks. They have been entertaining Assistant State Supt. C. G. Shultz for several days.

G. W. Mattoon of Heron Lake, Minn., was in town Tuesday and will soon be joined by his family, when they will spend the summer in their cottage at Sandy lake.

The Assembly club gave the last of their series of dances in the opera house Thursday evening.

E. P. Duffy, representing Hose Co. No. 1; Martin Newstrom of Hose Co. No. 2, and Wesley Rast of the hook and ladder company left Monday for Litchfield to attend the annual convention of the state firemen.

N. J. Brooks and Miss Mattie Le Mire were married Tuesday morning in the Catholic church by Rev. Father Wurm. The ceremony was followed by a reception and dinner at the home of the bride's parents, Mr. and Mrs. Le Mire on Hickory. Mr. and Mrs. Brooks will reside in Hickory township.

Carl Emil Johnson and Miss Mary Olson daughter of Mr. and Mrs. Kjel Olson were married Wednesday afternoon in the Swedish Lutheran church, which was beautifully decorated for the occasion. Several hundred guests witnessed the ceremony. A reception was held at the bride's home.

E. A. Gyde and wife visited Duluth last week.

Mrs. H. H. Osterhout was given a very pleasant surprise at her home Thursday afternoon by a dozen ladies in honor of her birthday.

The Aitkin baseball team played with the Little Falls team in that city last Sunday and was defeated.

Wallace Barker was called to Minneapolis Sunday by the serious illness of his brother Charles P. Barker, Monday night Dr. C. Graves received a message announcing the death of Mr. Barker and went to city to attend the funeral.

Leverett Broden, the 4-year-old daughter of Mrs. Ella Broden, was drowned last Tuesday in Garrison creek, which adjoins Mille Lacs lake. The child was playing near the water and in some unknown manner fell in. The body was found floating near the bridge.

Miss Margaret Nye of Minneapolis arrived here Tuesday to spend the summer with her sister, Mrs. George.

Mr. and Mrs. F. N. Bates of Minneapolis were the guests of Dr. and Mrs. George last week and are now spending some time at the Watson place on Lone lake, enjoying a fishing trip.

A new telephone company has been organized known as the Deerwood and Bay Lake Telephone company. The company consists of A. N. Gray, David Archibald and A. A. Miller of Bay Lake, and H. J. Hagne and O. C. Coffin of Deerwood. The company will build a line from Deerwood to Bay Lake.

Ed. Young left last week for a trip to the Pacific coast.

Brainerd

Brainerd, June 17.—(Special to The Herald.)—Anton Favreau, a well known farmer living south of the city some five or six miles, died on Friday morning last at the advanced age of 80 years, leaving a wife and two grownup sons to mourn his loss. The old gentleman has been a resident of this city for the past twenty years and is very popular amongst the French people south of the city. The funeral occurred Sunday.

Mr. and Mrs. C. Gibb are here on their annual tour from St. Paul and will go out to Parkerville in a few days where they will spend the summer.

Miss Emma L. Pearce of Ontario, who has been visiting her brother, A. A. Pearce, for the past week, has gone to Davenport, N. D., where she will visit relatives for some time before returning to her home.

Confirmation services were conducted in the Norweglan Lutheran church on Seventh street by Rev. O. P. Johnson. There was a class of sixteen confirmed.

James Campbell of Walker visited in Brainerd over Sunday.

The following delegates were elected by the various companies to attend the State Fire association at Litchfield; A. L. Hoffman, Ralph Slipp, C. H. Paine, Peter L. Christensen, M. Hanson, Charles Wilkins, Ed Ovig, V. A. Wilson and Ira White. They went down Monday noon and returned Thursday.

N. M. Paine, George McCulloch and Fred Allison left Monday for St. Paul to attend the grand encampment of the I. O. O. F.

Mrs. Peter Vaars and three children left Monday for Tacoma, Wash., where they will spend the summer with her son, formerly of this city.

Rev. and Mrs. O. F. Johnson and little daughter have gone to Red Wing, where they will attend a church conference and also for a visit with the relatives of Mrs. Johnson.

A reward of $10 has been offered for the arrest of the party who spread poison in various parts of the city and causing the loss of something like twenty-five dogs, the past ten days. Amongst them was a valuable hunting dog owned by E. K. Woodin, who would not have taken a hundred dollars for it. Prof. Haurt, F. J. Murphy and Moses Derscher also lost their valuable dogs.

Mr. and Mrs. B. G. Adams came to town Wednesday with their 3-year-old daughter for medical treatment. The little girl was badly bitten and lacerated about the face by their dog while she was petting it.

Miss Hulda Nelson and Oscar Erickson, both of Southeast Brainerd, were married the first part of the week by Court Commissioner Milton McFadden.

During the thunder storm on Tuesday evening lightning struck a large pine tree in the rear of Editor Halsted's residence.

The residence of Ed Billodeau on Walker street, northeast, was totally consumed by fire on last Tuesday evening at 6:30 o'clock. The house caught from a defective flue and had made too far headway before the department arrived. in trying to take ou the piano Mr. Billodeau was severely burned about the hands and face, and will have to be under the doctor's care for some time. The total loss was about $1,100 with $250 insurance on the house and $350 on the furniture.

News comes to this city that Miss Anna Vigel, formerly one of the most popular young ladies of the city, but now of Everett, Wash., was united in marriage to Raymond Brown.

C. B. Rowley has gone to Perham, where he will put in a bid for the erection of a new Catholic church.

David Archibald of Deerwood, was in the city Wednesday and Thursday.

E. C. Simpson has been appointed as carrier on rural route No. 1 and Charles S. Peterson on route No. 2. The routes have just been established and the farmers of Crow Wing county that live close enough to partake of the service feel rather proud of the new improvement.

Miss Clia Erickson, youngest daughter of Mr. and Mrs. Nels Erickson of 923 Southeast Thirteenth street, was united in marriage to Robert A. McKay of Rush City, at the home of the bride's parents on Wednesday evening, Rev. W. H. Walker officiating. The couple left on the night train for the Twin Cities, where they will spend their honeymoon.

Calumet

Calumet, June 17.—(Special to The Herald.)—Benhardt Lambert has returned from Chicago, where he has been attending the medical department of Northwestern university for the past term.

Joseph Wilmers, Sr., aged 79, died Wednesday as the result of chronic bronchitis. Mr. Wilmer was one of Calumet's oldest and most respected citizens. Mr. Wilmers is survived by a wife and five children.

Two Harbors

Two Harbors, June 17.—(Special to The Herald.)—J. H. Nordby and son Roy are visiting at New York and other Eastern points for a few weeks.

Ore business still continues at a maximum and the ore possible to handle with the engines and equipment being brought in and boats are removing it from the docks promptly. This season in ore shipments and general business locally will be the most prosperous in the history of the village and will more than make up for the dull season of 1904. There will probably be more improvement work in this vicinity and money expended during the winter.

Superintendent of Motive Power H. S. Bryan departed Sunday on a business trip to Pittsburg, Pa., and other Eastern points.

Miss Jessie Fairman of Detroit, Mich., is visiting at the home of her sister, Mrs. George Patterson for the summer months.

A congregational meeting was held at the Presbyterian church Thursday evening to talk over the proposed building of a new church.

The grand jury at the recent session recommended that the case of the county vs. John Olson, for arson, now pending, be dropped, the amount involved being small and upon the examination of witnesses, it being the opinion that a conviction could not be secured. They also recommended a strong crusade against the numerous "blind piggers" reported as existing at points down the lake shore and other points in the county. They also recommended a full investigation be made of the records of the township of Beaver Bay and Crystal Bay, including the school districts. The petit jury commenced their duties Monday. Judge Dibell is presiding.

Erick, the 8-year-old son of Mr. and Mrs. John Anderson, died Sunday last of spinal meningitis. Two other cases are reported in the same family.

William Weess is now working on the Cloquet River-Duluth log train.

The local lodge of the Eagles chartered a special train last evening and a large number went to Duluth to attend the state convention of their order.

Andrew Johnson, who was convicted of the charge of second degree for robbing and choking a man named Nelson on the Waldo road last April, was sentenced Wednesday by Judge Dibell to the state reformatory at St. Cloud.

Attorney and Mrs. A. O. Aubolee departed Wednesday for an extended pleasure trip. They will visit first with relatives at Decorah, Iowa, and then visit Portland and other Pacific coast cities.

Contractor John Runquist was up from Grasston, Minn., this week to arrange for the removal of his offices to Duluth. His recently awarded contract for grading about seventeen miles of the new extension to the D. M. & N. road, necessitating their location at a more central point.

Pulp shipments have been good this week, the steamer Hutchinson and barge Cogswarth taking on cargoes of some 1,200 cords.

Mr. N. C. Nelson departed yesterday for a trip to Minneapolis and other Minnesota points.

William Cowling departed Sunday on the steamer America for a two weeks' visit with a son at Port Arthur, Ont.

Ore business has lessened some the past two days, owing to the docks being blocked with ore, it being the first time for this season, and boats coming slowly, occasioned by a congestion of ore at lower lake ports, the tremendous rush beginning to tell upon their handling facilities, as the piles of ore increase in size the handling becoming difficult.

Pastoret & Lunz have recently been awarded contracts for laying 24,000 feet of gas mains for the Gas and Water company, and the Zenith Furnace company at Duluth.

From the present outlook there will be no formal celebration here July 4th.

The recent order of the village council for building of new sidewalks is meeting with a generous response.

Charley Falk has returned from Minneapolis, having finished his studies and received a diploma from the state board of pharmacy.

Thursday and Saturday last, new records for unloading ore cars were established at the docks. Thursday 1,182, and Saturday 1,235 carloads being dumped in ten hours, equal to 30,875 tons a shift, or 61,750 tons per day. The cars represented a thing of the rolling stock of the D. & I. R., which illustrated the rapid handling the cars receive.

Mrs. Wm. O'Rourge and children, will leave the latter part of the month for a visit with relatives in Ohio.

The township meeting for the purpose of correcting and adjusting assessments will meet Monday, the 26th inst.

The Marks Bros.' Co. close a very successful weeks' engagement at the opera house this evening.

About all the brick work for the new courthouse is about completed. Also the steel work for the dome, but the extensive finishing and interior work will take two months yet to finish.

The city fathers held a short meeting Monday evening, only routine matters being transacted. Liquor licenses were granted Alfred Johnson, lot 11, block 5, and John Wieland, who will open a saloon in the Cedar block, and application for a liquor license was received from Peter Warren, No. 203 First avenue.

Andrew Anderson, was granted permission to cut the grass in the village park. The proposition of G. J. Roop to sprinkle the streets was taken up, and permission was given to use water without charge, but the council declined to pay anything towards the service account, only those in front of whose property such sprinkling was done receiving benefit therefrom.

Bills amounting to $36 were allowed.

John Olson is having a concrete foundation put under his store building on Second avenue.

A pleasant and successful package auction was given at the Swedish M. E. church last evening.

The deer are reported numerous in the woods this year, and hunting should be good when the season is on.

Ore Dock No. 3 was put into commission the first of the week, being the latest and largest of the five docks here.

There are an unusual number of cases of measles reported in town of late, being of a mild type.

Lumber business has picked up the latter part of the week. The steamer Prentice and barge Halstead taking on cargoes, and the Kalkaska and Schoolcraft being due to load the lumber coming from the Tower and Ely mills.

McKinley

McKinley, June 17.—(Special to The Herald.)—The Duluth & Iron Range utilized their new double track between Wyman and Colby last week, but after a few days' service were compelled to abandon the new track for the time being on account of a sink hole a mile south of Colby, the track sinking down and being unsafe for trains, and they will probably have much trouble with it. The range mines and some of the mines have had much trouble with sink holes, they being caused by quicksand, and all the gravel and ballasting put on slowly sinking from sight or sliding sideways, carrying down the rocks or filling up the shafts.

A number of the local K. of P. attended the memorial services at Biwabik on Sunday.

The Bessemer mine has been working its steamer shovel a few days this week to fill out cargoes.

The woods are now beautiful and the camping season will soon begin. Many fishing parties are enjoying Sundays along the small lakes.

Negaunee

Negaunee, June 17.—(Special to The Herald.)—Louis Saladin left Wednesday night for Mountain Iron, Minn., where he has been promised employment.

Mrs. J. B. Mass and son Arthur departed Wednesday for Hancock, where they will spend several days visiting Mrs. Mass' son.

Mr. and Mrs. L. E. Adams left last week for Detroit, in response to a telegram announcing the serious illness of Mr. Adams' sister. A telegram was received here Monday from Mr. Adams, announcing the death of his sister.

Mrs. Abel Levine returned Tuesday afternoon from a few days' visit with her parents in Marquette.

Mesdames Oral Lacombe and Louis Goodrich returned Friday afternoon from a visit with friends at Gladstone.

Mrs. Mary Stephens left last Friday afternoon for the Copper Country, where she will spend several days visiting relatives and friends.

William Watters returned Thursday from a three weeks' visit in Fond du Lac and Green Bay. Mrs. Watters, who accompanied him on his visit, is still visiting relatives in Wisconsin.

Mr. and Mrs. Philip Levine left Sunday evening for the Copper Country to spend a few days with relatives and friends.

Miss Mamie Vercelino left Monday morning for Duluth, Minn.

Charles Larson concluded a week's visit here with his mother and brother, Gustave, and returned Monday morning to Rockland.

Mrs. Isaac Johnson went to Rapid River Saturday on a visit to her daughter, Mrs. J. A. Broden, whose little son was reported quite sick.

Mrs. Edward Charles concluded an extended visit here with her parents, Mr. and Mrs. E. Le Beau, and returned to her home in Virginia, Minn., Monday night.

Joseph and William Hampton, F. H. Roberts, Jr., James Stanaway, Samuel Reynolds and Frank, Joseph and John Donnithouse, all skilled miners, departed Tuesday evening for Sunrise, Wyo., where they have been promised employment.

T. J. Flynn left Saturday morning for Detroit to attend a meeting of the state court of the Catholic Order of Foresters. He was accompanied by Mrs. Flynn and son Gerald, and it is possible the trip may be extended to Halifax before their return.

The Misses Helen and Louise Schurtz, who have been teaching school at Topeka, Kan., and Chicago, respectively, during the past year, arrived here Wednesday and will spend the vacation with their parents, Prof. and Mrs. Orr Schurtz.

Mr. and Mrs. George Putney of Itaca, Neb., arrived here this morning on a visit to Mrs. C. G. Griffey.

Mrs. C. F. Moll of Kenton, after a brief visit with her mother, Mrs. A. C. MacKenzie, left Wednesday evening for Chicago, where she will meet her sister-in-law, Mrs. C. M. MacKenzie, of Sparta, Minn.

Frank Romell, Louigi Pessotti, Joseph Bendstti and Christofolo Guisetti arrived here Wednesday morning from Italy.

W. J. Mitchell left Wednesday evening for Butte City, Mont.

James Chapman and Miss Etta Murton were united in marriage by Rev. Frederick Luke of St. John's Episcopal church, Wednesday afternoon, the ceremony being performed at the home of the bride's parents, in Park street.

Mrs. Nellie Robinson, aged 65 years, who came to Negaunee two weeks ago to reside tmeporarily with her son, died Friday. The remains were taken to Scandia, Saturday.

The commencement exercises of the graduating class of the Negaunee high school will be held at McDonald's opera house, Thursday evening, June 22. The closing date is a week later than usual, owing to the extended vacation during the holiday season. The eighth grade graduating exercises will be held at the opera house Wednesday evening, the 21st.

Mrs. Elizabeth McDonald, for the past forty years a resident of Negaunee, died Monday morning at 8:30 o'clock. Her age was 82 years. She is survived by two daughters, Mrs. Gilbert Carmichael and Mrs. Fred Sweitzer, the latter of Whitney, Mich. Both were with their mother when the end came. The funeral was held Thursday afternoon from the Presbyterian church.

Fire was discovered in the timbering of No. 1 shaft of the Negaunee mine Monday evening, and for the time being all underground operations were suspended at the property. The seat of the blaze was at a point about 450 feet below surface, near the bottom of the mine. The alarm was given quickly, and all the men came to surface without mishap. The fire was quenched before it could do much damage, as 2,000 feet of hose was secured from the city fire department, by which water was poured into the shaft.

As the result of an accident which occurred here Monday afternoon, Michael Shea, in charge of a switch engine, was forced to submit to the amputation of his right leg, from the shock of which he died at 11:30 o'clock Monday evening. Mr. Shea was standing on an ore car that was being moved along a sidetrack near the Consolidated Fuel & Lumber company's yard, and in losing his hold fell with one leg under the wheels. The limb was badly crushed and on Mr. Shea being taken to the Negaunee hospital, the leg was amputated below the knee with the above mentioned result. The deceased was one of the city's most popular young men. His age was 33 years, and he was born and raised in this city. His father, brother, Patrick, and sister, Miss Johanna, survive him. Mr. Shea was a member of the Negaunee division, Ancient Order of Hiberians, and the Marquette lodge of Railway Trainmen, in both of which he carried insurance. The funeral was held Thursday morning from St. Paul's Catholic church.

Thomas Connors arrived home Monday evening from the Copper county, where he spent a few days on business.

Mrs. Phil Levine left Wednesday for Detroit and Ann Arbor on a three weeks' visit to relatives and friends.

Mrs. J. A. Pickands of Cheboygan, Mich., was a Negaunee visitor Tuesday.

Michael Kelly has returned from Cananea, Mex., where he had spent the last eleven months operating a diamond drill. He does not intend to return to Mexico, as he has another position in view.

The board of public works and purchasing committee of the council has awarded the Consolidated Fuel & Lumber company the fuel contract for the year beginning June 1.

Biwabik

Biwabik, June 17.—(Special to The Herald.)—Mr. and Mrs. Stephen Chines and baby returned to Aurora Monday, after spending a few days with friends.

The Finnish Temperance society will give a picnic Sunday at Merritt, near the lake, if the weather is nice.

The Biwabik baseball team drove to Virginia Sunday and played with their team. The game was 6 to 12 in favor of Virginia.

Mrs. Church filled the pulpit at the Methodist church Sunday evening and spoke on temperance.

Mrs. Alvin Peterson and baby left Thursday on a visit at her home at Royalton, this state.

The school faculty all left Monday for their respective homes, school having closed three weeks earlier than it should have on account of scarlet fever which had started at the school building. The cases are all very slight.

The young Finnish people gave a nice dance at the city hall Saturday evening.

Misses Kate and Beatrice Thomas returned Monday from a few days' visit with friends at Virginia.

Mrs. Magnus Peterson and children left Thursday for a few weeks' visit with her relatives in the southern part of the state.

Mrs. W. Deese and children were over from Virginia Wednesday calling among friends.

Peter Peterson returned Thursday from Michigan, where he spent the past few weeks visiting relatives.

Mrs. Lawrence and children are here from Duluth visiting with her mother, Mrs. Harrington.

Miss C. Smith returned Wednesday from a short visit with her sister at Virginia.

The children of Mrs. W. Driscoll are suffering with an attack of scarlet fever.

Mrs. Frank Miller was over from Eveleth Wednesday visiting with Mrs. T. Cassidy.

Virginia

Virginia, June 17.—(Special to The Herald.)—The Biwabik baseball team came over here Sunday forenoon and in the afternoon gave the locals a little practice. The game was replete with many series of errors and wild throws and had this been so freely done on Virginia's side, there would have been a shut-out game to the local's credit, but one throw in the first gave the visitors four runs. During the game Virginia managed to get in eighteen scores. Harrington, the old reliable pitched a good steady game, and with proper support would have made a better showing in his first game for the season. Griggs, who usually does the twirling for our team, threw his arm out in the Mountain Iron game the first of the season and will not be able to do anything in the ball line for a few weeks. Thre was an unusually large crowd to see the game and all were satisfied, especially as the grounds have been fixed up and ropes were stretched from each end of the grand stand so that the players would have a chance. Biwabik's poor showing was due to the fact that four of their best men were left behind but rather than disappoint the home team they came over with the best they could get together. They defeated Eveleth twice this year, showing that when they have their team they can play the game. A return game will be played soon and it will be a better exhibition.

For a $100 purse Virginia and Eveleth ball teams will struggle on the local ground tomorrow afternoon, weather permitting.

The graduating exercises at the Roosevelt high school auditorium on Wednesday was attended by a very large number of the friends and relatives of the graduates and also of the large class which was promoted into the high school. The graduates were Minnie Eaton, Lianda Beach, Bertha Heady, Lillis King, Albert Shipley, Michael E. Dunne and Milton Butler. Several well received numbers were played by Wilson's orchestra before the exercises were commenced. Rev. E. C. Clemans of Duluth made the address to the class and was much enjoyed for its wise advice's tenth birthday. The little folks had a jolly time playing game and they enjoyed a delicious luncheon. Those present were Anna Brand, Ethel Brand, Laura Tower, Doris Tower, Winnifred Tower, Florence Willis, Agnes Willis, Lillian Krueger, Margaret McEachin, Violet Huber and Hilma Freckburg.

Mr. and Mrs. Charles Jaeckel of Antigo, Wis., are the guests of Mr. and Mrs. C. Becklinger.

Grand Rapids

Grand Rapids, June 17.—Itasca county was well represented at the state drainage commission held at Bemidji Saturday last, the larger portion being from the Big Fork country and International Falls. The commission will send an engineer to the Rapids in about two weeks, where he will be furnished two assistants, a surveyor and a cruiser, who will assist him in making a preliminary survey of the country near Grand Rapids.

The All-Stars and the Cohasset team played a close game Saturday afternoon on the local grounds, the score being 9 to 7 in favor of the Stars. The All-Stars will play the big team here tomorrow afternoon.

John Foley has been on the sick list the past week.

Prof. Freeman has been appointed as one of the instructors in the summer school of Clearwater county, which begins July 5.

Mr. and Mrs. Charles O'Reilly of Quyon, Can., are visiting in Hibbing this week, accompanied by Miss Madge Sinnett and J. B. O'Reilly.

Mrs. Yost, who has been visiting relatives in Iowa, has returned home.

Mr. and Mrs. S. J. La Chapelle of Big Falls were visiting friends in the Rapids last week.

Mrs. C. L. Frye visited friends in Minneapolis several days last week.

The Catholic ladies served lunch at Father O'Mahoney's residence Thursday afternoon and evening.

Mrs. L. M. Bolter left last week for an extended visit at Minneapolis.

A son was born to Mr. and Mrs. Thomas McHugh Thursday of last week.

Miss Agnes McCormick, who was on the sick list last week, is now able to be at work again.

Sherman Kingston, who has been sick for several months, left for Staples Saturday, where he will remain for some time.

Jacob Edighoffer and Mrs. Mary Hane were married Wednesday evening of last week by Justice Wollenberg.

Will Nisbett's automobile arrived Monday. This is the first one for this town.

The members of the school board have received the plans for laying out the grounds at the high school, which were prepared by F. H. Nutter of Minneapolis.

The grand jury, in its report to the district court, reported the poor farm, county jail and courthouse in good condition. It recommended that the examination of the books and records of the county now being made be continued until a thorough examination has been made of all of the records.

The school board of School District No. 1 has appointed the following teachers for the ensuing year: Central school—First grade, Miss Viola Backus; second grade, Miss Alida Holmes; third grade, Miss Serelda Murdy; fifth grade, Miss Carrie Foss. This completes the corps of teachers in the village schools. The following appointments have been made in the country schools: Shoal Lake, Miss Annie Hetu; McCormick, Miss Grayce Vipond; Pokegama Lake, Miss Nellie McAlpine; Wawina, Miss Josephine Pehl; Freestone, Miss Louise Rogers; Wahana, Miss Bertha La Freniere; Thoroughfare, Miss Bertha Hegdahl; Cow Horn Lake, Miss Lelia Williams; Tichenor, Miss Maude O'Brien; Cohasset No. 2, Miss Jeanette Dunn; Anderson, Miss Lizzie Brooks; Indus, Miss Mabel Freebury; Northome No. 2, Miss Annie Shelland; Big Falls, Miss Cassie Smith; Sand Lake, Miss Orpah Cable; McKinley, Miss Lulu Hotchkiss; Littlefork, H. W. Mercer; Big Fork, Miss Forrest Cochran; Porter, Miss Ada Clark; Scarlett, Miss Louise Foley.

New Duluth

New Duluth, June 17.—(Special to The Herald.)—Mrs. Gust Jacobson gave a pleasant tea party Saturday afternoon. A delicious spread was served and an enjoyable afternoon was spent by those present, who were Mesdames Frank Weidell, Ed. Johnson, of Smithville; Frank Brand, P. Knudsen, C. Becklinger, J. Smith, A. Olson, J. Bartz and C. Wells. Misses Nancy Widell, Bernice Johnson, Ethel Brand, Anna Brand, Louise Smith, Sarah Smith, Mabel Bartz, Grace Bartz, Gladys Wills, Florence Jacobson and Hazel Jacobson. Masters Leslie Johnson, Roy Strand, Arthur Olson and Sidney Jacobson.

Mr. and Mrs. Jacob Henner drove to Duluth, Wednesday.

Mr. Frank Widell, Miss Nancy Widell and Miss Augusta Willner went to Duluth, Friday evening to attend Mrs. Ostergren's recital at the home of Mr. and Mrs. Turrish. Mrs. and Miss Widell remained home Saturday. Miss Willner remained until Monday and attended the Red Feather at the Lyceum, Saturday.

Herbert Thayer came up from West Duluth, Sunday, to spend the day with his parents, Mr. and Mrs. A. Thayer.

Miss Mabel Bartz returned from Duluth, Thursday, to spend her summer vacation at home. Miss Bartz is a student at the Duluth normal school.

Mrs. Hassler and children arrived in New Duluthp, Monday, and will make their future home here.

Mrs. Montgomery and daughter, of Duluth, moved to New Duluth, Saturday.

The ladies of the Maccabees will give an ice cream socia. at the Maccabee hall Saturday night.

Mr. and Mrs. William Crase and children spent Tuesday in Duluth.

Mrs. Frank Provinske gave a delightful party Tuesday afternoon in honor of Clarence's tenth birthday. The little folks had a jolly time playing game and they enjoyed a delicious luncheon. Those present were Anna Brand, Ethel Brand, Laura Tower, Doris Tower, Winnifred Tower, Florence Willis, Agnes Willis, Lillian Krueger, Margaret McEachin, Violet Huber and Hilma Freckburg.

Mr. and Mrs. Charles Jaeckel of Antigo, Wis., are the guests of Mr. and Mrs. C. Becklinger.

Hibbing

Hibbing, June 17.—(Special to The Herald.)—Mrs. William Phelps of Ely has been visiting friends in the village the past week.

Miss Ada Grenier of Cloquet has been visiting her sister, Mrs. W. G. Close the past week.

Dr. Ashley, a recent graduate of the University of Minnesota, has accepted a position on the staff of the Adams hospital.

Mr. and Mrs. J. A. Healy attended the Eagles' carnival at Duluth the latter part of the week.

Rev. S. Pritchard left Friday for Hallock, Kittson county, this state, where he will occupy the Episcopal pulpit in that place during the month as substitute.

J. B. Connors has been appointed an appraiser of lands by Governor Johnson.

B. A. Crowe left for Duluth the latter part of the week, where he expects to reside. Mrs. Crowe and baby left for Hancock, Mich., Sunday, for a visit before joinng Mr. Crowe at Duluth.

Miss Louise Caldwell from Grafton, N. D., the latter part of the week left for her homestead in the Twin Country Tuesday. She was joined here by her parents, who came up from Hamline. Miss Caldwell was formerly teacher of music and drawing in the school here, but has been teaching in the Grafton schools the past two years. The coming school year she will have charge of the drawing classes in the Hibbing schools again.

J. J. Stuart, formerly landlord at the Hotel Hibbing, has moved from the isle of Pines, West Indies, to Seattle, Wash., where he will make his future home.

George Henry and son, Clark, are taking the census of the village. They are pushing the work and the indications are that Hibbing will show a population of about 9,000.

The Freimuths met Manager Brady's baseball aggregation on the diamond here Sunday with the usual result, though not quite as severe a drubbing that was administered to the Eveleth team a week previous. The Freimuths got two men as far as second base while only three were able to camp on the first plate. After the third inning the locals took matters easy and played with the visitors in cat and mouse style, while the fans yelled themselves hoarse. One of the features of the game not on the program was the acrobatic performance at third base between the base runner and the baseman, where both stood on their heads. The Freimuths were outclassed all around. The score was 14 to 0. Hibbing is finding it difficult to get games with teams of its own class, and the one-sided games are getting monotonous to the local fans.

M. Rogalsky was a Duluth visitor Monday, where he went to look after business in connection with the building of his new store on Pine street.

Rev. C. H. Blake left for St. Paul Monday to attend the meeting of the Odd Fellows' grand lodge to which he is a delegate. He went via Staples where he visited some friends.

Herman Antonnelli was a Duluth visitor Monday.

The village council has decided to continue the sidewalk on Third avenue south to McKinley street. In connection with this they have walks put on Garfield and McKinley streets from Third avenue to Seventh street. The water mains will be extended from Lincoln street to McKinley street on Third avenue, connecting it with the mains already put down on McKinley street. This will be a much needed convenience for the residents in that part of the village, who have heretofore had to carry water from two to three blocks.

Mrs. Lozaun left for Mr. Lozaun's homestead in the North country Monday afternoon.

Plans are being arranged for an old-fashioned Fourth of July celebration with the usual program of sports. Among the features now planned is a game of baseball between the locals and the Ashland team, which has the championship of Northern Wisconsin, races of various kinds, parade by citizens and the various fraternal organizations. A committee has been appointed to solicit funds, and on general arrangements.

The baseball team of the Panton & White clothing store, Duluth, will play the locals on the grounds here Sunday afternoon at 3 o'clock. The visitors will have Al Cummings in the box, but otherwise the line-up will be similar to that of the Duluth Fashions. The support given Cummings will no doubt be much better than that given the pitcher of the Freimuths last Sunday.

The Knights of the Maccabees will attend services at the Finnish church next Sunday evening. Rev. Bates will deliver the memorial sermon. All Sir Knights are requested to meet at Central hall at 6:15 o'clock and march to the church. The Ladies of the Maccabees are invited to attend these services in a body.

Dr. J. E. Nyquist, a graduate of the medical department of the University of Minnesota, and for fifteen months an interne of the Bethesda hospital, St. Paul, has taken the practice of Dr. Sonck, with offices over the Itasca store.

Mrs. W. J. Ryder and children returned Wednesday from an extended visit with relatives in the Twin Cities and her parents at Alma, Wis.

The Modern Brotherhood of America commencing with July 10 will meet at Central hall the second and fourth Monday evenings in each month. At its meeting Thursday the lodge decided to take part in the parade on the Fourth.

The Women's Saturday club closed its labors of the season Wednesday evening with a farewell banquet at Close's hall, the ladies being accompanied by their husbands and escorts. The banquet room was beautifully decorated for the occasion. Mrs. Dr. Adams presided as toastmistress with much grace. Mrs. Jewett, the retiring president sat at her right; Mrs. Corey welcomed the guests in a few well chosen words, and Miss Godfrey sped the "departing members." Miss Bickley told "Why She Joined the Club." "Memoirs," was the subject of Mrs. Klinker, while "The Saturday Club" was well presented by Mrs. Nelson of the Clark location. Mrs. Dr. Tower pictured Hibbing ten years hence when it should have its new library, and the question was discussed by Rev. Frank Durant, who gave some reasons why the Saturday club should be both parent and sponsor to it. Excellent vocal selections

Nothing gives that delicious feeling of absolute cleanliness to the mouth like

SOZODONT

MELLIN'S Food for the Baby

Many of your neighbors have used Mellin's Food for their children. Ask them what they think of it; look at their children and see the result of using a proper food. Mellin's Food will give the same good results if you will use it with your baby.

Send for a sample, we will send it free of charge.

Mellin's Food is the ONLY Infants' Food, which received the Grand Prize, the highest award of the Louisiana Purchase Exposition, St. Louis, 1904. Higher than a gold medal.

MELLIN'S FOOD CO., BOSTON, M

were rendered by Mrs. D. D. Eachin and B. F. LaLonde, while Ross' orchestra provided the instrumental music for the occasion. Mrs. D. C. Rood was elected to succeed Mrs. Jewett as president of the club for the coming year.

The ladies of the Episcopal church will serve dinner and lunch on the lawn of the More hospital July 4.

Mrs. Will J. Davey and two daughters go Monday to Southern Michigan for a month's visit with relatives.

The commencement exercises Thursday evening were well attended and an interesting program was given. R. E. Denfeld of Duluth gave an excellent address speaking on education and showed his position on the manual training idea, being in favor of training the hands to help the head and the head to help the hands. It was a scholarly address and the beautiful poem he gave in closing made a fitting ending to a fine lecture. J. H. Hearding, as director of the board, then presented the diplomas to the eighth grade of which there were twenty-four members, Misses Helen Harwood, Helen Carlson, Jean Talboys, Eladie Johnson, Sarah Osmond, Edwin Anderson, George Anderson, Anthony Pryor, Esther Rabinowitz, Ben Scramsted, John Spreitzer, Alice and Gladys Springer, Matt Tepelkey, Michael Hudy, Louis Andrews, Molly Corbett, Emma Engstrom, Ellen Erickson, Gretta Furlong, Sarah Hegrer. There were chorus numbers, one to the music of Stephanie Garotte was particularly pretty and a trio by Misses Emily Scott, Jean Talboys and Cora Williams, "Angels Serenade," with accompaniment by Miss Rabinowitz and violin obligato by Miss Isabel Peterson, was followed by the presentation of the diplomas of the graduates from the high school, Miss A. Emily Scott, Earl Scott and Edward L. Berg. Mr. Hearding spoke at some length on the pleasure it gave him to congratulate them on their success and also gave them excellent advice on the vital points of education, the moral training which they had received and of which they should make use. Also announced that a music teacher has been added to the faculty and would have charge of the music of all the schools instead of as formerly each teacher attending to that in her own room. Mr. Hearding's remarks were much enjoyed. The stage was beautifully set with palms and other potted plants and against a background of evergreens 1905 in white (the class color) was very effective. The motto: "Fools make feasts; wise men eat them," was also given a pretty setting. On the table was a large bunch of Marguerites, the class flower.

The play "Why Smith Left Home," is to be put on by local talent within the next month under the direction of Millard Reid, an actor who has recently come here. Rehearsals are being held each evening. The following are in the cast: Misses Agnes Jenkins, McDonald, Dolan, Mamie and Delia Murphy and Messrs. Louis Larson, Marnow, Coss and Jesse Jenkins.

Positively never fails. Draws out all poison. Saves expense and suffering. Cures permanent. For sale by druggists. Mail 25 and 50c. J. F. ALLEN MEDICINE CO., St. Paul, Minn.

Rheumatism Cured in 24 Hours.

T. J. Blackmore, of Haller & Blackmore, Pittsburgh, Pa., says: "A short time since I procured a bottle of Mystic Cure. It got me out of the house in 24 hours. I took to my bed with Rheumatism nine months ago and the Mystic Cure is the only medicine that did me any good. I had five of the best physicians in the city, but I received very little relief from them. I know the Mystic Cure to be what it is represented and take pleasure in recommending it to other poor sufferers." Sold by all druggists.

Jennie and Mae Smith of Carlton visited in Cloquet this week.

DRAMATIC PIECE OF WORK

Scene In Court When Lincoln Proved Witness Guilty of Perjury.

The scene in court at a recent trial, says the St. James Gazette, recalls pictures of which we read as belonging to a bygone era of the English bar. The man that shrieks and bellows and brandishes a revolver pointed successively at the heads of prisoner, opposing counsel and the judge upon the bench, has lost his vogue with us; lost it as completely as the man who bullied witnesses against their own will into perjury, when, permitted to tell their story in their own way, they would have told the truth, the whole truth and nothing but the truth. In contrast with all this "sorry business," there comes to mind one of the most dramatic pieces of work ever witnessed in a court of law. It was a trial in which Abraham Lincoln, then a young and comparatively inexperienced man, was briefed to defend a man charged with having shot another at a camp meeting.

The case looked bad for the prisoner. He was said to have fired pointblank at his man with a revolver, then run away, to be met, with the smoking weapon still in his hand, by the witness upon whom the prosecution mainly depended. This witness picked up the revolver, it was said, to produce it in evidence. Then Lincoln cross-examined the man, not having so far opened his mouth in the case. His questions numbered thirteen, and need not be reproduced, as they are all indicated in his fourteenth, which was as follows: "You saw this man shooting at 10 o'clock at night—in beech timber, three quarters of amile from the lights—saw the pistol barrel—saw the man fire—saw it all, twenty feet away—saw it all by moonlight—saw it all nearly a mile from the camp lights?" The rope seemed closing around the accused man's throat, as his counsel thus admitted the evidence against him. And the witness said, "Yes, I told you so before."

The position had become intensely exciting, and Mr. Francis Wellman, who records the trial in his volume on cross-examination, says that even the lawyers in court leaned forward to catch the last syllable. Lincoln, having proceeded thus far, halted, drew from his coat pocket an almanac, opened it slowly, offered it in evidence, and read with deliberation a page of its contents. It clearly showed that the moon on the date in question had not arisen until three hours after the time at which the prisoner was supposed to have been seen by its light commit the murder! "Now," said Lincoln, "nothing but a motive to clear himself could have induced this witness to attempt to swear away the life of one who had never harmed him." The man fell weeping to his knees and confessed then and there that he himself was the culprit, that the death was the result of accident, and that he had taken the course described to divert suspicion from himself. Lincoln waved no pistols, did not declaim, but, in the idiom of the country, he got there.

CARICATURE SKETCH OF PAUL MORTON.

Paul Morton, who retires from the navy as secretary and goes to New York July 1. He will be chairman of the directors of the Equitable Life Assurance company, at a big salary.

CREDIT MEN'S OFFICERS.

Memphis, Tenn., June 17.—The National Association of Creditmen elected the following officers: President, O. G. Fessenden, New York; vice president, Frank M. Gettys, Louisville, Ky.; Secretary-Treasurer Charles Meek, New York. Baltimore is chosen for the next meeting place. The convention unanimously adopted a resolution congratulating President Roosevelt upon his efforts to bring about a cessation of hostilities in the Far East and his active leadership in the present peace movement.

Kidney Troubles Cured Free.

If you are a sufferer in any form and will send us the name of your druggist, we will furnish you—through him—free, one dozen bottles of West Baden Bitter Water, which will relieve or entirely cure any case of kidney trouble. This offer is made to a limited number of sufferers for the sole purpose of introducing this wonderful water into your neighborhood. The only condition being the privilege to refer to you (when cured) in corresponding with prospective customers in your locality.

No Testimonials Solicited. No Names Published.

All that is required is your name and address, the name of your druggist and full particulars regarding your case, accompanied by this offer.

IN LABOR'S REALM

Local News Scarce and of Little Consequence This Week.

State Labor Convention at Brainerd Fills the View.

Union meetings:

Monday—Building Trades' alliance, Labor World hall.

Tuesday—Carpenters, Labor World hall; musicians, Hall A, Kalamazoo block; painters, decorators and paperhangers, Labor World hall.

Wednesday — Cigarmakers, Labor World hall.

Thursday—Cooks and waiters, Labor World hall; plumbers and gasfitters, Labor World hall; steam engineers, Lyceum building.

Friday—Steamfitters, Bunnell block, Superior, Wis.; lathers. Labor World hall; Federated Trades' assembly, Labor World hall.

The principal labor news comes from Brainerd this week. There is little or nothing of a local nature. The most important thing for Duluth which happened during the labor convention at Brainerd was the winning of the fight by Duluth regarding the secretary-treasurer. W. E. McEwen of Duluth was again re-elected. He has already held the office for ten years, but has doubtless earned it, for in many quarters it is claimed that the State Labor Federation would not exist had it not been for Mr. McEwen. He is practically the originator of the organization.

• • •

The proceedings of the labor convention have already been published in these columns, and recapitulation would be idle. But it is probably safe to say that the convention just over was not the least important of those which labor has held for a long time in the state. Many matters came up and were acted upon which have an important bearing on labor matters in Minnesota. Nothing sensational occurred at the convention save the defeat of the Twin City delegates, who had an eye on the defeat of W. E. McEwen for secretary-treasurer.

• • •

With labor delegates away the most of the week nothing has happened locally in labor circles. Therefore there is nothing of interest to publish.

• • •

The Herald would like to publish each week a complete list of the unions to hold meetings during the week, and where they hold them. With the means at hand, the best that can be done is to publish an incomplete directory. It would be to the mutual interest of the unions and of The Herald if the secretary of each union would mail the labor editor of The Herald the name of his union and time and place of meeting, at once.

• • •

The Trades' Assembly will meet next Friday night, and it is likely that the delegates which the assembly sent to the state convention will make some interesting reports. It is not decided as yet whether or not some outsider will address the assembly, as did Rev. J. W. Schellenberger at the last meeting. It was decided at that time that outsiders would be invited in frequently to address the assembly.

WILLIAM TEMPLEMAN,
New President Minnesota State Federation of Labor.

Mr. Templeman is a native of Toronto, Can. He received a thorough education in the Canadian schools, from which he was graduated with honors. In 1885 he apprenticed himself to the printing trade and after a complete course of training in every branch of that art, joined Typographical Union No. 30, in 1893, of which craft he has since been an active and honored member.

Since 1894 Mr. Templeman has been a resident of New York, Maryland, Pennsylvania, Kentucky, Illinois and Michigan, rounding up finally in Minnesota, where, he says, he is content to remain. He is a member of the executive board of St. Paul Typographical union, No. 30, and this year was elected president of the St. Paul Trades and Labor Assembly.

New Chicago and New York Train.

Beginning with Sunday, June 11th, the Pennsylvania will place in service a new train from Chicago, to be known as "The New York Special."

It will run daily, leaving Chicago at 8 o'clock a. m., reaching Pittsburg at 8:30 p. m., and New York the next morning at 8:15. A 23-hour train to New York, with $5.00 extra fare from Chicago.

"The New York Special" will carry a Parlor Car, a Dining Car and Coaches from Chicago to Pittsburg and a Sleeping Car from Chicago to New York.

For full information, address G. L. Thomson, T. P. A., Pioneer Press Bldg., St. Paul.

DUN'S WEEKLY TRADE REVIEW

A Moderate Improvement Is Noted In Commercial Conditions.

New York, June 17.—R. G. Dun & Co.'s Weekly Review of Trade says: Moderate improvement is noted in commercial conditions, although progress is along conservative lines, and there is no evidence of speculative excess. Seasonable weather has stimulated retail sales of lightweight wearing apparel, and jobbers report more disposition among dealers to place orders for fall and winter goods.

Mercantile payments are also more prompt, the brighter crop outlook having a salutary effect on all commercial operations. Although little new business is noted in pig iron, the steel mills are busy and confidence is expressed in developments next month. Textile manufacturing is in better condition than at any recent date, high prices for raw material exerting no retarding influence as yet, and most of the idleness in the leading industries is attributed to seasonableoverhauling of machinery and taking of inventories. Railway earnings thus far available for June average 8.7 per cent higher than last year's, and foreign commerce at this port for the last week shows gains of $1,397,312 in exports, and $2,636,696 imports. In every department of business the past week makes a strikingly favorable comparison with the corresponding week of 1904, when prices were tending downward and there was much complaint of the early summer dullness, yet there is no indication at the present time of the unreasonable enthusiasm that threatens stability through reckless purchases in excess of wholesome consumptive requirements. Irregularity continues in the hide market. Many divisions are nominal, and foreign dry hides have declined another fraction, making a loss of a full cent from the recent top point. Better reports are received regarding the leather situation, particularly hemlock soles. Conditions in the footwear industry are without material alteration.

Failures this week numbered 229 in the United States, against 257 last year, and 25 in Canada, compared with 16 a year ago.

Many children inherit constitutions weak and feeble, others due to childhood troubles. Hollister's Rocky Mountain Tea will positively cure children and make them strong. 35 cents, Tea or Tablets. Ask your druggist.

AS A HEALTH AND PLEASURE RESORT

Minnesota Ranks Among Very First States In the Union.

It often happens that the chief glories of a great state are obscured in the fame which attaches to some particular institution of the state. Minnesota has never lacked appreciation outside her borders. People the world over know that Minnesota is the great wheat state of the world; that her flour output is the largest; that her mines ship more ore than all the other iron mines in the world; that her great port city of Duluth ships more commerce by many million tons than any other port in the civilized world. All these things are vital and important and make for the prosperity of the state and the nation and the people. But back of these great industrial achievements, back of the very spirit which throbs through them and makes them possible, is the state's natural environment, in which must be sought those deeper and more significant things which insure the pleasure and the happiness and the health of the people, upon which their prosperity is built.

The last vital statistics of the world gave Minnesota's capital city the lowest death rate of any city in the civilized world and the death rate of the entire state is exceptionally low.

In climate, in natural beauty, in the wealth of lake and forest and wandering streams, in beautiful secluded garden spots of earth unmolested by the devices of man, Minnesota ranks among the very first states in the Union. It is this natural endowment which has made for progress in the vast departments of physical endeavor.

There are ten thousand lakes in Minnesota. That of itself is worthy of reflection. Over half of them are natural summer resorts, and in a limited way are recognized and used as such. Minnesota's natural park region, that northern portion of the state in which are located expansive lakes, immense forests and big game is larger in area than the combined states of Vermont, Massachusetts, New Hampshire, Connecticut and Rhode Island.

In this country you will find hundreds of men and women who have come to renew health and strength in this life-giving region. Thousands of sportsmen from other states have long recognized that Minnesota offers opportunities to the hunter and fisher such as few states in the Union afford. Many others have come many miles to spend their summers here because from experience they know that nature is seen at her best in this wondrous clime.

But it is only a few who know this. The time is not far distant when people who now go to Europe in quest of health or recreation will come to this great wilderness of sparkling lakes, whispering forests and majestic parks.

Minnesota's climate is the one thing of which the native Minnesotan most boasts. Weather reports for many years show an average of more than one hundred and sixty sunny days in every year. The annual mean temperature for the past seventy-five years has been 44 degrees, and the average summer temperature has been a little over 70.

The state's average altitude is 1,200 feet, which with its magnificent natural drainage system furnished by three rivers, insures a healthy climate the year around.

Visitors to Minnesota are impressed by the fact that, on the hottest days in the summer when the thermometer rises above 90, the excessive heat is always tempered by cooling breezes. The nights are always cool and comfortable, however hot the day. In the middle of the summer it is estimated that there are two hours more sunshine every day in Minnesota than in the latitude of Cincinnati.

The unusual dryness of the air, despite a generous precipitation makes the winters free from the rigors of other climates where the thermometer never falls so low.

The rainfall for many years has averaged thirty inches for the entire state.

The prairie area of the state is 32,000 square miles and the forest area is 52,000 square miles.

To describe one-tenth of the summer resorts in the state would require a volume. All over the Northern section of the state beautiful lakes abound. Every railroad winds past hundreds of lake resorts. Every few miles through the Northern country one comes upon a lake surrounded by magnificent forest crowned hills. He who loves solitude can select his own summer resort in Minnesota and revel in seclusion.

Upon the North shore of Lake Superior are many beautiful, delightful locations and here, in the years to come, will be found some of the most famous summer resorts in the middle West.

Red Lake is the largest lake in the state. At the source of the Mississippi river we find Leech Lake with over two hundred square miles of area, Cass Lake, almost as large, Lake Winnibigoshish, Mille Lacs, Vermillion and others less notable, though no less beautiful.

These lakes, for the most part, are in secluded nooks, away from the rush of civilization, surrounded by the most primeval conditions, but it is an easy matter to arrange for all the comforts that one needs in out door life.

The incomparable Park region, traversed by the Great Northern and Northern Pacific roads is, beyond all question, the finest lake region possessed by any state in the Union.

This region is the sportsman's paradise. It is a natural breeding ground for many varieties of game.

How well the state cares for its game interests may be gathered from the fact that the two state fish hatcheries deposited 100,000,000 bass, pike and trout fry last year in the lakes of the state most in need of replenishing.

Persons who have traveled the world over to behold the beauties of natural scenery declare that nowhere can one find natural glories surpassing those of the now famous Inter-State Park of the Dalles of St. Croix. This park, originated under the joint action of the states of Minnesota and Wisconsin, and developed by diligent and skillful care is situated at the head of the waters of the St. Croix river in Chisago county, Minnesota. The natural wonders of this park are many, from the famous Devil's Chair to the "Glacier Garden," the later declared by experts to be the finest of its kind anywhere in the world. The park is situated in the bosom of a wonderland of natural beauty, the surrounding hills, woods and sparkling streams forming a fitting garment for the greater glory of the park itself.

No more fitting place for a summer sojourn can be found, and the man who seeks rest and calm in this untroubled paradise of nature will derive pleasure abundant, the glories that feed that "inner eye."

In 1891 the legislature of Minnesota set aside a tract of 20,000 acres surrounding the head waters of the Mississippi river to be forever dedicated to public use as a public state park, known as Itasca park. Under this act of the legislature a domain seven miles long and five miles wide will forever be kept in a state of nature.

This is the most historis locality in Minnesota and has been talked about more than any other spot in the Northwest because of the discussion regarding the Mississippi river and because of its association with the names of the early discoverers.

M. J. DONNELLY,
Secretary of State Immigration Society,
St. Paul, June 16.

Woman's Nightmare

No woman's happiness can be complete without children; it is her nature to love and want them as much so as it is to love the beautiful and pure. The critical ordeal through which the expectant mother must pass, however, is so fraught with dread, pain, suffering and danger, that the very thought of it fills her with apprehension and horror. There is no necessity for the reproduction of life to be either painful or dangerous. The use of Mother's Friend so prepares the system for the coming event that it is safely passed without any danger. This great and wonderful remedy is always applied externally, and has carried thousands of women through the trying crisis without suffering.

Mother's Friend

Our Young Folks Page

The Story of the Bisque Doll.

BY WILLIAM WALLACE, JR.

I'm a bisque doll and am about six months old, though, having lived through a recent deal of trouble, I fancy I look much older than that. My life, up till a few days ago, seemed pleasant enough (and is pleasant enough now, for that matter), but one, especially a doll, never knows from one day to the next what may turn up.

I came to live in my present home on a day called Christmas. Everything was stir and bustle, excitement and celebration then. Later things became more settled, and I found out that I was intended to be the friend and playmate of Hattie Turner. There's another Turner girl—Ethel—who is sweet sixteen. The way I came to know her age was through her young beau, Mr. Bob Travis, who brought a college chum of his to meet Ethel the other day. While they were waiting in the parlor for Ethel to come down Mr. Bob took a little picture of Ethel out of his pocket and showed it to his friend. "Uh! she's downright pretty," his friend said. "How old is she?"

"Mercy me, lookie at Myrtle!" cried Hattie.

"Sweet sixteen," Bob told him. That is the way I know her age.

Just as Bob told this in ran Hattie to get me from the sofa, where she had thrown me an hour before in a terrible muss. Really, I was in a most pitiable condition, with my skirt torn, my nose dirty, my hair disheveled and one slipper gone. I felt dreadfully humiliated over being seen in such a plight; but the fault was not mine. Now, to tell you how I come to be so untidy and in the parlor, I shall be obliged to introduce two animals (Turner pets!) into the story. One, a most idle, shiftless, light-brained fellow, a good-for-nothing puppy by the name of Abraham Bismark, and the other a fire-spitting, vicious-tempered old tabby cat, by the name of Tabetha Teazie, are the individuals guilty of the misdemeanor which brought me to grief.

I had been beautifully dressed in a new pink frock, my feet shod in my party slippers and a big bow of pink ribbon tying my curls, which were in the latest approved fashion, and was put in my wicker go-cart to be taken for a morning stroll by my companion, Hattie Turner. Just as we were about to start Ethel called to Hattie to run to a neighbor's on an errand. Hattie left me in my cart on the side porch, promising to return for me as soon as she had performed her errand.

As I sat there enjoying the bright summer morning air and feeling conscious that all the little girls who passed on the sidewalk looked upon me with admiration, there came round the corner of the porch old Tabetha Teazie, the pesky old cat! Now, she had formed the habit of getting into my go-cart and sleeping whenever she had the opportunity, but she had had the good manners to wait till I vacated it. On this morning, though, contrary to custom, she sprang right into my cart without even so much as a "with your permission, Miss Myrtle," and proceeded to lie down on me. She is such a huge creature that she almost smothered me, and she crumpled my pretty frock so that I felt I should cry of vexation. And there she lay, blinking in the sun and purring for all the world like an old lady snoring. Just as I was wishing from the depths of my kid-covered heart that Hattie would come to my rescue, here through the gate came that horrid puppy, Abraham Bismark, making a bee-line for the porch. Seeing Tabetha—who was his natural enemy—he sprang toward her and barked, pretending to be on the warpath. In very truth, though, he was only pretending, for he hadn't enough courage to engage in a real fight.

Old Tabetha rose up of a sudden, her tail slowly switching and her back curving, while her sharp claws buried themselves in my body. Again sprang Abraham toward her, bow-wowing terribly and plunging his paws into the go-cart. One quick blow from Tabetha's paw took him unawares between the eyes, and, with his feet caught in the wicker work of the cart, he fell backwards, barking and snapping with fear and anger. Over went the cart, with me in the midst of a fierce conflict, for Tabetha laid into Abraham with claw and teeth. I was first under, then over, tossed hither and yon by the two combatants, and when at last Abraham got on all fours and scudded round the corner of the porch, with tail tucked, and old Tabetha at his heels, I lay like a wounded soldier on the battlefield. And there, with eyes staring toward the sky and the sun blistering my face, Hattie found me a little later. She came with two friends, who were to accompany her on her morning walk.

"Mercy me! Lookie at Myrtle!" cried Hattie. (My name is Myrtle.)

"Well, she looks as if a cyclone had struck her," remarked one of the friends in a cold-blooded manner.

"It's the work of old Tab and Abe," declared Hattie, grabbing me up by one arm. Oh, heartlessness, cruelty! She didn't seem to care if I were demolished. "Something's got to be done with that pair—that pup and cat—or they'll kill each other," she went on, dragging me into the house by one hand and tossing me on the sofa. But not a word of pity for me—not one. I felt my heart sag with the pain of her coldness—her indifference. "I can't take Myrtle now—she's such a sight!" were her next words. "I'll run up stairs and get Jenny May; she's clean, and I haven't had her out for a long, long time."

Another shaft went through my heart. Jenny May was my rival—a doll who had been Hattie's companion before I came. She had never liked me for the simple reason that I had supplanted her in Hattie's good favors.

So there I was left—torn, heartbroken and dirty-nosed—on the sofa in the parlor, while Hattie ran off to get my rival to take my place. And there I was an hour later, when Mr. Bob Travis called, bringing his chum to meet Ethel. (And from my heart I say "Long live Mr. Bob Travis." He proved a timely friend to me.) Just as he had begun to tell his friend of Ethel in came Hattie to carry poor me from the room. She nodded to Mr. Bob, was introduced to his companion; then she grabbed me and held me behind her—hiding me, of course.

"Heigho! Let's have a peep at your doll," said Mr. Bob, in the gayest of spirits, taking hold of Hattie's arm.

"No, no," said Hattie, shaking her head. "She's too dirty."

"What!" asked Mr. Bob in astonishment. "Is she the dolly you got Christmas? Why, I'm afraid you're a careless little mother to let her get so untidy."

"Oh, it was Abe and Tab," confessed Hattie, feeling ashamed of herself.

"Well, come—let's see her," insisted Mr. Bob. "She was the most beautiful doll I ever saw when you got her. She was an imported French lady, you know. Too bad that a common pup and a mousetrap should bring her to ruin."

Hattie brought me round into view, and Mr. Bob said, gently she's a good-hearted fellow and I hope Miss Ethel will marry him some day, so I do): "Oh, poor, poor Lady Dolly. But she only needs a bit of attention, then she'll look like her old beautiful self again. In the mean time, Dog Abe and turn Tabetha from the place."

Just at this minute a step was heard in the hall and in came Ethel, looking like a fairy. Mr. Bob had eyes for me no longer; but the dear fellow had done me the greatest kindness. His words of praise had reinstated me in my Hattie's favor once more.

Oh, how fickle is human nature!

Taking me tenderly in her arms, Hattie ran up to her playroom, where her two friends awaited her.

"Mr. Bob Travis says Myrtle is a French important doll," she cried enthusiastically. (She got the word imported a bit mixed, you see.) "I'm going to put her white silk dress on her and comb her hair and take her to Margery's birthday party this afternoon. She'll be the handsomest doll there. And if that ugly pup, Abe, or that old cat, Tab, ever lay claws on her again they're——"

"What?" asked one of the little friends.

"They're goners!" answered Hattie, gently wiping the dust from my French nose and hugging me to her breast.

Happiness again!

Off to the swimming pool,
Down in the shady-cool-
For now there ain't no school,
Hip-hip! Hoo-r-r-a-y!!

Sunbonnets.

Dear little girls with flowing curls
Must wear their bonnets tight,
Or they will tan brown as they can,
And then they'll look a fright.

And here's the way they go to play
With bonnets on—Dear me!
With never a care for skin nor hair,
But they're pretty enough—you see.

So let them run and have their fun
While old Sol's jolly kiss
Will touch the hair and faces fair
With tan for each little miss.

FLORENCE MAY.

Clever Bessie, and the Secrets She Revealed to Helen.

BY HELENA DAVIS.

"Oh, oh!" cried Helen, standing in the center of Bessie's pretty room and looking about her with admiration and surprise.

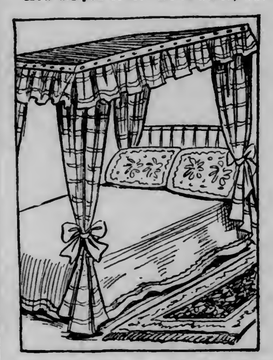
Her admiration was for the "dear, sweet little room—a perfect darling!"—and her surprise was over the fact that Bessie had arranged the room herself, furnishing it with "odds and ends of any old household junk" that her mother had no use for.

"How did you do it?" Helen asked, waving her hands round the dainty apartment. "Tell me, for I want to take a lesson in the sort of economy that allows one to make a fine show out of nothing."

"Well, dearie," laughed Bessie, "I'm sure that after you've heard the secret you'll change your mind about accomplishing anything out of nothing. To be sure, I didn't spend any money—except a few dollars—but I spent lots of time in work, work, work!"

"And you utilized ingenuity and good taste along with your work," said Helen.

"Well, I flatter myself that I have good taste, too, for otherwise I could not appreciate what you have done in this little room. And I am willing to work, work, work, also, if I can obtain the result that you have obtained." And the enthusiastic Helen again waved her hands about the little room, which was such a revelation to her.



The bed that won Helen's admiration.

Until vacation had come Bessie had shared a room with her older sister, who had been one of the senior's high school graduates, and who had stepped from the graduating platform into society. Consequently, as became a gay debutante who must needs keep hours a trifle later than a little school maiden like Bessie, it was decided that she should have a room to herself, so that her goings and comings might not interfere with the early retirings at night of Bessie.

Then Bessie's mother found herself confronted by the problem of no extra room in the house except the guest chamber, and that, of course, must be kept for company. So, where was she to stow away her little 14-year-old Bess?

But Bess solved the problem by laying hands on another's possession.

"Give brother Jim's den to me," she said. "Since he's gone away to college he never uses it any more, for during vacation he's off visiting friends, playing golf, rowing or hunting and is seldom at home, except for occasional meals and to sleep. He has no legal rights, as I can see, to two rooms, while I, a member of the family in good standing, have not where to lay my head."

They all laughed at Bessie's way of making her claims, but all agreed that she was right and Jim very generously relinquished his old den to her, for he and Bessie were the best of comrades always, and Jim had fallen into a pretty habit of never refusing her anything which it was in his power to grant.

"The place is yours," said Jim, handing proprietorship of the den over to Bessie one morning. "Keep anything in there that you can use—throw the rest of it in the storeroom or out of the window if it suits your convenience better."

So Bessie went to work with a will, and one week from the day on which she took possession of the former den she rested from her labors and looked about her with a feeling of genuine satisfaction. Then she called to her parents and sister to come up and see what her week's work had accomplished. They were more than pleased and greatly astonished at the sight of the pretty apartment. "Why, I'll go into the interior decorating business," declared Bessie's father, indulgently. "I'll buy a few loads of old broken furniture, some packing boxes, a few boards, a keg of paint, some colored cotton stuffs and turn them over to Bessie to use as her genius prompts. I'll get rich out of the profits."

"Guess I'll have something to say about the pocket the profits roll into," laughed Bessie, pleased by her father's evident approval of her efforts.

But it was Jim who put the wreath of laurel on top of Bessie's head. In the evening of that day he came bounding up stairs in response to Bessie's invitation to peep in on her after supper. When he stepped into the room his eyes opened and he fairly gasped. Why, Bess, you're a little magician, you're—you're—why, on my soul, you're a—brick!"

That was all the praise Bessie wanted. To be a "brick" in big college Jim's estimation meant something more than being just an ordinary genius. She walked about the room with her head very high as she "showed off" the wonders of her handiwork and introduced Jim to old friends in new coats, as he expressed it, when looking at pieces of old furniture made new by paint, cushions and covers.

Next morning Bessie drove round in her phaeton and got her best friend, Helen, whom she took home with her to see her new room. Helen's pleasure and surprise have been told in the beginning of this story.

"Now come, dear, and get better acquainted with the occupants of my room," said Bessie, putting her arm round her friend's waist and leading her round the room, stopping in front of a dainty dimity-draped dressing table. "Here is an old washstand with its interior gone—that is to say, its drawers—and I've converted it into quite a neat piece, you see. I had our stableman saw off some boards for me which I've put in as shelves. They are convenient to fold the linens on. The mirror came from the attic, where it lay on account of a crippled frame. The drapery and ribbon bow hides its infirmity," and Bessie laughed. "Now, view the uncovered window seat," and she lifted the valance of cretonne from a long, rough wooden box. "A bit of cloth, some tacks, excelsior for padding and lo! I've a nice window seat as well as a place to hide my shoes and slippers in."

"But your writing desk—that is surely brand new," exclaimed Helen. "And isn't it beau-ti-ful!"

"No, indeed; that writing desk belonged to Jim—was here in his den. It was the sorriest sight you can imagine. Why, it was so scratched and scarred that it looked as if it had had the smallpox. But I did need a writing desk, and I thought out a plan to fix it up presentable. I bought a quart can of white enamel paint and set to work to cover the desk's blemishes. After it was done—or, rather, after I was done painting it—there seemed to be something lacking, just as an all-white dress needs a bit of gay ribbon to kill its stare. Well, sister's oil paints and brushes were handy. I conceived the idea of violets scattered over the white surface. You see the result."

"Wonderful! Perfectly wonderful!" exclaimed Helen, amazed that Bessie could do so artistic a bit of work.

"And the chair, you see, is done to match," went on Bessie. "In fact, all the chairs of my room are old things picked out of the attic, but they look quite respectable in their white paint, cushions and headrests, and some with clean dresses of white linen."

"And your bed—what is it? I'm curious to know. It is lovely, yet I never saw one arranged just like it before," said Helen, going to the bed, which stood across one corner of the room.

"That is my pet piece of furniture," answered Bessie. "It is nothing in the world except a wire-spring, extra-wide cot. The uprights that are at the four corners to hold the canopy frame are plain strips of pine nailed securely into place. The stable man is a pretty good carpenter, and he helped me build my bed. The framework is covered, you see, with plain white muslin. Mamma gave me an old sheet for the purpose. But the green and white striped scrim, which is so cool and launders so nicely, hides all that framework."

"Here is an old washstand with its interior gone."

Helen looked and looked; then she said: "Bess, you're a genius; you surely are a wonderful girl."

"Oh, it's only work—a love of it, you know. Now, how do you like my floor? See, I painted the border a dark walnut, as that matches anything. Instead of a rug I've stretched down for the summer this center square of green burlap. I'm fond of white and green for summer. Then, my book shelves—Jim's old ones—have been made resplendent with a new silkoline curtain. I think the colors—rose, gold, green and brown—harmonize well with the wallpaper; don't you?"

But just then the luncheon bell rang, and as the two happy little girls ran down to the dining-room Bessie could be heard unfolding further secrets concerning the fixing of new furniture for her "dear little room, all her very own."

"It's just work, work, work; that will accomplish anything, dear," she said, "especially if the hand that do the work are willing hands."

Acaterpillar seared
A kid;
The kid-he ran
And cried!

His papa tramped upon
The worm—
The worm it straightway
Died!

GLAD AS A GAME.

There is joy and sport in this world of ours,
And over the graves grow the beautiful flowers.

If our hearts were but open to good and the bright,
And closed to the ill as we close them at night—

Then life might be glad as the game of a child,
And with gladness the world would not so be defiled.

C. L. PHIFER.

Johnny Boy's Essay.

BY HELEN DAVIS.

Johnny Boy's teacher told the pupils in Johnny's class to each write an essay of 300 words on the subject "The Last Day of School and Its Importance."

"It's dreadful long—300 words," mused Johnny Boy. "But if I must tackel it, here goes."

Then he settled himself uncomfortably at his desk, and touching the point of his pencil to his tongue, he began to write: "The last day of school is a very, very grate day."

Getting this far, he paused for want of another idea. He read over what he had written three times, and each time he felt glad that he had used the word "very" twice. It made the essay longer, and length was what he wanted. He fidgeted about in his seat, again moistened his pencil point on his tongue and resumed: "The reason I like the last day of school to close is because I won't have to come to it any more for a long, long, long time.

Ah, that writing the word "long" three times was a tremendous stroke! How had he ever thought of it? Johnny Boy became deeply interested, now that the work progressed so rapidly. Again he set to work and added to what he had already written: "And I can go fishing on nice, nice, nice days, along with the other kids. If I katch fish, I hope they will be a great big, big, big, big, big whippers, for I feel as if I could eat a dozen fried whales this minit."

Johnny Boy lifted his pencil from the paper and ran over what he had written. "Good enough!" he chuckled. Then he looked across the aisle at Tim Sanders, who seemed struggling with his thoughts, for he sat kicking his heel against the foot of the seat, his eye cocked up towards the ceiling, as if attempting to catch a glimpse of the literary muse in its smoky surface. He was busy chewing the rubber end of his pencil and did not look Johnny's in direction although that youngster was trying to catch his attention. Not daring to be outdone Johnny wrote on a corner of his copybook this question: "How many words have you wrote, Tim?" and tore off the piece of writing, bit it into a compact ball and tossed it into Tim's lap when the teacher was not looking.

Tim's eye came from the ceiling and perused the crumpled note. Turning toward Johnny he micked and held up seven fingers.

Only seven! Johnny laughed so heartily that he was almost caught in the net by teacher, who at that moment faced about. But he immediately became serious and pursued his work. "When school is out for shure," he wrote. "I will be powerful, powerful, powerful, powerful, powerful happy. I will not only go fishing but I will go swimming in the cool, cool, cool, cool, cool, cool water what looks so butiful, butiful, butiful, butiful, butiful, butiful. butiful——"

"John Scott! What do you mean by writing the words cool and beautiful in such numbers? And see how you've spelled beautiful, too. What do you mean, sir?"

It was Teacher's voice that broke on his ear from over his shoulder. He started and lay his hand guiltily over his writing. He was caught, then! And it made him nervous to be thus taken unawares. Teacher had this habit of slipping upon a fellow without warning and it was unpleasant to be disturbed in one's thoughts. Surely, when one was "composing" one ought to be allowed certain liberty, and if one wanted to employ a number of adjectives to express an idea strongly one should not be questioned about it. Besides, adjectives did not belong to any certain individual unless Mr. Webster, and he was long since dead and had willed his big book of words to any one who saw fit to use it. So thought Johnny Boy as he held his pudgy hand, with unkept nails and a number of warts on it, over the essay.

"Well," said teacher, "why don't you answer me? Remove your hand from that writing."

Johnny Boy drew his hand away and Teacher deliberately read aloud what he had written. The school paid attention—as it always does in a case of this kind—and after Teacher had emphasized the repeated adjectives, with due regard for their significance, the school kindly snickered.

"Now, John Scott, go to the blackboard and write the word chent 100 times. After that take your seat and write your essay. And—heed what I say—if you repeat an adjective oftener than is absolutely necessary to express yourself I shall attend to your case after school. And it will require a list of adjectives longer than you now have to express what will take place in such an event. Now, to the board!"

And Teacher pointed a long, stiff, finger toward the blackboard whither Johnny Boy went and began writing as high up as his short arm would allow: "Chete, chete, chete, chete."

What Teacher said when she noticed Johnny's spelling of the word can be imagined.

At anyrate, Johnny was heard to say after school was out that essay writing was not as easy as eating when one was hungry. And Tim Sanders looked at him and winked, saying: "Them are my sentiments, too."

Little Biographies of Big Masters.

(Note to Children.—Cut out and paste in a scrapbook the series of articles now appearing in this department entitled "Little Biographies of Big Masters." These sketches will be valuable for future reference.)

It was at Seville, Spain, in the year 1599, sometime about the 1st of June, that the subject of this sketch, Diego Rodriguez de Silva Velasquez, was born. On his father's side he sprang from the Portuguese and on his mother's side from the Spanish. Both families ranked as members of the inferior nobility. The name by which the great artist is known came from his mother's people. This was following out an old Andalusian custom. Velasquez studied first with the eccentric master Francisco de Herrera, who was very erratic, though very talented with brush and color. From Francisco's studio Velasquez went to that of Francisco Pacheco, where he remained a pupil for five years, at the end of which time he married Pacheco's daughter, Juana Miranda, who was about Velasquez's own age. At the time of his marriage Velasquez was only 19.

In 1623 Velasquez had a letter from Don Juan de Fonseca Figueron inviting him, at the request of the powerful Minister Olivares, to present himself at Madrid. A sum sufficient to defray traveling expenses accompanied the invitation, which was nothing less than a command to come to Madrid.

Velasquez's first order from the royal palace at Madrid was to paint the portrait of Don Ferdinand, brother to the young King Philip IV. This piece of portraiture so pleased His Majesty the King that he at once arranged to sit to the young artist for a portrait of his "royal self." A studio was straightway fitted up in the palace, and Velasquez found himself drawn into not only friendship with the King, but the closest intimacy, which lasted for 40 years.

Besides the studio in the palace, a city residence and a liberal monthly allowance were furnished the king's favorite painter. He was also paid handsomely for his pictures.

In 1630 Velasquez visited Rome for the first time. Here he was housed in the Vatican; but he soon left this place of residence for the villa Medici. While there he painted two landscapes of the beautiful surroundings. These pictures may still be seen in the Prado, Madrid.

It is said of Velasquez that he displayed the most exquisite taste in dress, and bore himself with great dignity and courtly grace.

On August 6, 1660, after an illness of about 10 days, the greatest Spanish painter of any time, Velasquez, passed from life; but till Time shall have crumbled his canvasses to dust he shall live in the hearts of the generations that follow to look upon his handiwork with reverence and wonder. If not the greatest portrait painter, none have been greater than he.

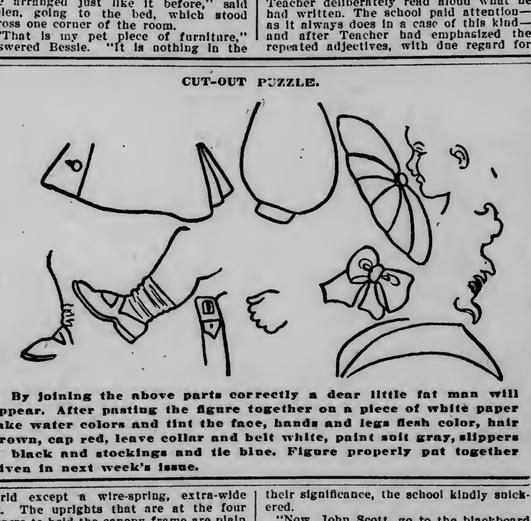
An art critic has this to say of his genius: It is impossible to estimate Velasquez without going to Madrid. * * * His portraits baffle description and praise. They must be seen. He elevated that branch to the dignity of history. He drew the minds of men. They live, breathe and seem ready to walk out of their frames. * * * We look into space; into a room; into the reflection of a mirror.

A picture of Velasquez is shown here. It is sketched from a reproduction of a portrait painted by himself.

MARY GRAHAM.

Taken from a portrait of Velasquez painted by himself. The original hangs in the Capitoline Gallery, Rome.

CUT-OUT PUZZLE.



By joining the above parts correctly a dear little fat man will appear. After pasting the figure together on a piece of white paper take water colors and tint the face, hands and legs flesh color, hair brown, cap red, leave collar and belt white, paint suit gray, slippers black and stockings and tie blue. Figure properly put together given in next week's issue.

Oh, Fly!

"Oh-me, oh-my!" cried a weary little fly.
"I'm so tired flying round
Guess I'll drop down on the ground."

But a table caught his sight,
On the table he did light:
Jug of syrup standing near—
Fly approached it without fear.

"Oh-me, oh-my!" little fly began to cry,
"In this jug of lovely sweet
I am stuck with all my feet!"

But another fly flew by,
Heard his comrade sadly cry:
Came he to the rescue quick,
Jerked him from the syrup thick.

"Oh-me, oh-my!" Now I know that I shall die,
"For my legs are left behind
And some others I can't find!"

But his friend, a wise old guy
Said, "you are a foolish fly!
You have wings both good and strong
They will take you right along.
You can go back to the sweet.
Take your stand on your old feet,
Ent your fill, then fly away
And live to eat another day.
So you see, though without legs
You are still upon your pegs."

MAUD WALKER.
